ZeroBanner			AB: Yuri best understands this. JDF: Partners?
ZeroPortal			JDF: Partners? AB: Yuri best understands the PHP extension side components.
CologneBlue	Reading	Web Engineering.	JDF: Reading? JR: Who maintains it now? I don't think Reading should be responsible for all non-wikimedia skins JDF: It's a Wikimedia skin until it's undeployed. AB: This should be delegated to community or EOL'd.
Modern	Reading	Web Engineering	JDF: Reading? JR: See COlogneBlue question. AB: This should be delegated to community or EOL'd.

Please ONLY "claim" an extension if you're the VP/Director of that Department

Extension / skin	Claimed by	Team (if appropriate)	Comment
MonoBook	Reading	Web Engineering	JDF: Reading? JR: Since Monobook is primarily a skin used by editors it might make more sense in Editing. Reading to take the infrastructure, but regressions need to be treated in other skins.
Nostalgia	Reading	Web Engineering	JDF: Reading? JR: See COlogneBlue question. AB: (only used on https://nostalgia.wikipedia.org/wiki/HomePage as far as we know; maintenace would be limited to updating for breaking skin changes and security issues)
Vector	Reading	Web Engineering	JDF: Reading? JR: Makes sense.
