SECOND ANNUAL REPORT

OF THE

GEOGRAPHIC BOARD OF CANADA

1900.

At the date of the last annual report, the Board consisted of eight members, two for the Department of Marine and Fisheries, two for the Department of the Interior, and one each for the Departments of the Geological Survey, Public Printing and Stationery, Post Office, and Railways and Canals. Mr. James White, who represented the Geological Survey Department, having been transferred to the Department of the Interior as Geographer, the former department was no longer represented on the Board. It was submitted by the Director of the Geological Survey that the nature of the questions coming up for decision by the Board, seemed to show that the representation of his department might with advantage be so increased as to include a wide range of experience and knowledge with regard to actual nomenclature and the derivation of names coming before the board for decision. It appeared, in fact that a considerable portion of the actual work might be delegated to small special committees conversant with certain lines of knowledge and that the decisions of such committees need only, in most cases, come before general meetings of the Board for final action. Probably no branch of the public service is more competent to afford expert advice and information with regard to nomenclature than the Geological Survey Department; it was therefore suggested that Dr. Robert Bell, Assistant Director, Mr. D. B. Dowling, Assistant Geologist, and Mr. C. O. Senécal, Geographer and Chief Draughtsman, should be members of the Geographic Board. The appointments were made by Order in Council of January 13, 1900.

It was felt that Mr. James White, who had ceased to be a member of the Board when he was transferred to the Department of the Interior, should be continued in office, the nature of his new duties as well as his long experience and intimate knowledge of many of the problems coming before the Board for decision fitting him in an exceptional degree for the position. He was reappointed by Order in Council of January 23, 1900.

Under the provisions of the Order in Council of December 18, 1897, creating the Board, its jurisdiction was limited to questions arising in the departments of the public service of the Dominion, and its decisions were binding only upon such departments. The publications of the provincial governments were not governed by the decisions of the Board so that there was still a lack of uniformity within the Dominion in the geographical nomenclature. It seemed that if the jurisdiction of the Board could be extended to include the departments of the public service of the various provinces and, at the same time, their co-operation in the work of the Board secured, not only would greater uniformity result, but the local knowledge of the provincial officers would be of considerable assistance in dealing with the questions arising. In order to obtain this co-operation, an Order in Council was passed on December 14, 1899, amending the constitution of the Board by giving to the governments of the Northwest Territories and of each province the right to nominate one of their officials as a member of the Board with reference to names in his province, provided that the several governments should undertake to be guided by the decisions of the Board. This order was communicated to the lieutenant governors of the several provinces, and to the lieutenant-governor of the

Northwest Territories for the views of their respective governments in the matter. The invitation was accepted by the provinces of Nova Scotia, New Brunswick, Prince Edward Island and British Columbia, and by the Northwest Territories, each nominating one of its officers to act as a member of the Board. Following these nominations, a new rule was adopted by the Board, providing that before dealing with any geographical name within a province, the name is to be submitted to the member representing such province, for examination and report.

Only three provinces, namely: Ontario, Quebec and Manitoba, have thus far failed to respond to the invitation to appoint representatives on the Board.

During the period covered by this report, the Board has held 15 meetings, and has received references covering 2,066 names, submitted by the following departments:—

Geological Survey.....	1,455
Marine and Fisheries.....	458
Interior.....	153
Total.....	2,066

Many of these names were not confirmed, either because they were duplicated, inappropriate, or otherwise objectionable, or because they were applied to unimportant or uncertain features. In the latter cases, the Board, although not objecting to the names, declines to confirm them unless it is shown that they are important, as for instance, in connection with navigation or mining.

The 1,307 names which have been confirmed, together with those previously published, are contained in the list appended, the total number being 1,708.

In addition to the usual large distribution from the Printing Bureau, a great many copies of the Annual Report have been sent to geographical societies, to government officials, and to many persons known to be interested in geographical work, and a number in response to requests from map publishers, &c.

Appreciative notices regarding the creation and proposed work of the Board, have appeared in leading geographical and other publications. The result of the operations of the Board since its inception, affords ample evidence of the necessity which existed for such an organization.

F. GOURDEAU,

Deputy Minister of Marine and Fisheries,

Chairman of the Board.

GEOGRAPHIC BOARD, CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board, transmitting them to the executive committee as their character may require or as may be hereafter provided.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. A majority of the Board shall constitute a quorum. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall submit an annual report of its work and decisions which shall be printed and communicated to all persons or bodies interested.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.

2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.

3. In cases where what was evidently originally the same word appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.

4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.

5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.

6. It is desirable to avoid the use of hyphens to connect parts of Indian names.

7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.

8. It is desirable to avoid the use of the words city and town as parts of names.

9. The form 'canyon' shall be used instead of 'cañon.'

10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.

11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.

12. The use of alternative names should be discontinued where possible or not inconvenient.

13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.

14. French names in Canada are to be spelt according to the rules of the French language.

15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.

16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—

(a) The vowels are to be pronounced as in Italian and the consonants as in English.

(b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai, au, ei*.

(c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress.'

SESSIONAL PAPER No. 21a

The following amplification of these rules explains their application :—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banána, Somáli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel-el-Kebir, Oleleh, Yézo, Medina, Levúka, Peru.
i	English <i>e</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> but	Fiji, Hindi.
o	<i>o</i> as in <i>mote</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but <i>All vowels are shortened in sound by doubling the following consonant</i>	Zulu, Sumatra.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Yarra, Tanna, Mecca, Jidda.
au	<i>ov</i> as in <i>how</i> Thus, not <i>Foochow</i> , but	Nuultia, Oosima.
ao	is slightly different from above.....	Shanghai.
aw	when followed by a consonant or at the end of a word, as in <i>law</i>	Fuchau.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the English <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Macao.
b	English <i>b</i> .	Cawnpore.
c	is always soft, but is so nearly the sound of <i>s</i> that it should be seldom used.	Beirút, Beilál.
ch	If <i>Celébes</i> were not already recognized it would be written <i>Selebes</i> .	Celébes.
d	is always soft as in <i>church</i>	Chingchin.
f	English <i>d</i> .	
g	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> .	
h	is always hard. (Soft <i>g</i> is given by <i>j</i>)..... Thus, not <i>Haiphong</i> , but	Haifong, Nafa.
hw	is always pronounced when inserted.	Galápagos.
j	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwi.
k	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinchuen.
kh	English <i>k</i> . It should always be put for the hard <i>c</i> .	
gh	Thus, not <i>Corea</i> , but	Korea.
l	The Oriental guttural.....	Khan.
m	is another guttural, as in the Turkish.....	Dagh, Ghazi.
n	} As in English.	
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to distinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Bethlehem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i>	Kwangtung.
r	When <i>qu</i> has the sound of <i>k</i> as in <i>quoit</i> , it should be given by <i>k</i> .	
s	} As in English.	
sh		
t		
v		
w		Sawákin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindány</i> , <i>wady</i> , but <i>not Kwaly</i> , but	Kikítu.
z	English <i>z</i>	Mikindáni, wadi.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Kwale.
	Accents should not generally be used, but where there is a very decided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Zulu.
		Muzhdaha.
		Tongatábu, Galápagos, Pá-láwan, Saráwak.
