### TITLE 7—AGRICULTURE

#### Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q.—Q. 52, Amdt. 2]

#### PART 301—DOMESTIC QUARANTINE NOTICES MODIFICATION OF PINK BOLLWORM QUARANTINE REGULATIONS

*Introductory note.* This revision of Regulation 2 of the pink bollworm quarantine regulations is made to add to the lightly infested area the entire Texas counties of Brown, Chambers, Jefferson, Liberty, Medina, Orange, Uvalde, and part of Harris County, Texas. The addition of Brown, Chambers, Liberty, and Medina Counties and part of Harris County is made necessary because of the finding of infestations of the pink bollworm in these counties. Although no pink bollworms were found in Jefferson, Orange, and Uvalde Counties, it is necessary to include them because there are no gins in these counties and all ginning is done at plants located in the infested areas. No other modifications are made in the regulations by this revision.

The Secretary of Agriculture has determined that it is necessary further to revise § 301.52-2 of the pink bollworm quarantine [Quarantine No. 52 as revised effective November 9, 1944, and further revised effective May 23, 1945], in order to include additional Texas counties or parts thereof in the area regulated on account of the pink bollworm.

Accordingly § 301.52-2, Part 301, Title 7, Code of Federal Regulations, as revised effective May 23, 1945 (10 F.R. 5853), is hereby further revised to read as follows:

§ 301.52-2 *Regulated areas.* The following areas are hereby designated as regulated areas within the meaning of the regulations in this subpart and are further classed as heavily or lightly infested.

*Heavily infested areas—Texas.* Counties of Brewster, Cameron, Culberson, Jeff Davis, Hidalgo, Hudspeth, Presidio, Starr, Terrell, Willacy, and that part of El Paso County lying east of an imaginary line extending due

north from the Texas-Mexico boundary to the point near U. S. Highway 80, where secs. 4, 5, 8, and 9, T. 29 S., R. 4 E. have a common corner; thence due north to the Texas-New Mexico boundary.

*Lightly infested areas—Arizona.* Counties of Cochise, Graham, Greenlee, Maricopa, Pinal, and Santa Cruz, and all of Pima County<sup>1</sup> except that part lying west of the western boundary line of range 8 east.

*Louisiana.* The entire parishes of Cameron and Calcasieu and that part of Jefferson Davis Parish lying south of the township line between Tps. 8 and 9 S.

*New Mexico.* Counties of Chaves, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, Sierra, Socorro, and Valencia.

*Texas.* Counties of Andrews, Aransas, Atascosa, Bailey, Bee, Borden, Brazoria, Brooks, Brown, Caldwell, Calhoun, Chambers, Cochran, Coke, Coleman, Concho, Crane, Dawson, Dimmit, Duval, Ector, Frio, Gaines, Glasscock, Goliad, Gonzales, Guadalupe, Hays, Howard, Irion, Jackson, Jefferson, Jim Hogg, Jim Wells, Karnes, Kenedy, Kleberg, La Salle, Liberty, Live Oak, Loving, Martin, Matagorda, Maverick, McCulloch, McMullen, Medina, Midland, Mitchell, Nolan, Nueces, Orange, Pecos, Reeves, Refugio, Ruppels, San Patricio, San Saba, Schleicher, Scurry, Sterling, Taylor, Terry, Tom Green, Upton, Uvalde, Victoria, Ward, Webb, Wilson, Winkler, Yoakum, Zapata and Zavala; that part of El Paso County lying west of an imaginary line extending due north from the Texas-Mexico boundary to the point near U. S. Highway 80 where secs. 4, 5, 8, and 9, T. 29 S., R. 4 E. have a common corner; thence due north to the Texas-New Mexico boundary; and that part of Harris County lying east of the San Jacinto River and its tributary the east fork of the San Jacinto River and north of the Houston Ship Channel.

This amendment shall be effective on and after February 4, 1946, and shall, on that date, supersede Amendment No. 1 of the revised regulations effective May 23, 1945.

Done at the city of Washington this 31st day of January 1946.

<sup>1</sup>Part of the lightly infested area in Arizona is regulated on account of the *Thurberia weevil* under § 301.61, and shipments therefrom must comply with the requirements of that section.

**Chapter VII—Production and Marketing Administration (Agricultural Adjustment)**

**PART 721—CORN**  
**SUBPART—1946**

Proclamation and determination with respect to the commercial corn-producing area for 1946, national, State, county, and farm acreage allotments for 1946, and corn marketing quotas for the 1946-47 marketing year.

Whereas, the Agricultural Adjustment Act of 1938, as amended, provides for the proclamation of certain data concerning the supply and consumption requirements of corn, requisite to the establishment of a national acreage allotment and marketing quotas for corn, and

Whereas, said act further provides that the powers therein granted shall not be used to discourage the production of sufficient supplies of foods and fibers to maintain normal domestic human consumption, taking into consideration current trends in domestic consumption and exports and the quantities of substitutes available for domestic consumption, and that due regard must be given to the maintenance of a continuous and stable supply of agricultural commodities from domestic production adequate to meet consumer demand at prices fair to both producers and consumers, and

Whereas, said act further provides that national marketing quotas shall be terminated if it is determined that such action is necessary in order to effectuate the declared policy of the act or to meet a national emergency, and

Whereas, an investigation has been made which reveals that it is necessary, in order to meet the present national emergency and to effectuate the declared policy of the act, to dispense with marketing quotas for corn for the marketing year beginning October 1, 1946, and with national, State, county, and farm acreage allotments for corn for 1946:

Now, therefore, it is hereby determined and proclaimed that:

§ 721.801 *Commercial corn-producing area for 1946.* No commercial corn-producing area will be established for 1946.

§ 721.802 *1946 acreage allotments for corn.* No national, State, county, or farm acreage allotments for corn will be determined for 1946.

§ 721.805 *National marketing quota for corn for the 1946-47 marketing year.* Corn marketing quotas will not be in effect for the marketing year beginning October 1, 1946.

**TITLE 8—ALIENS AND NATIONALITY**

**Chapter I—Immigration and Naturalization Service**

**PART 110—PRIMARY INSPECTION AND DETENTION**

**DESIGNATED PORTS OF ENTRY**

DECEMBER 19, 1945.

Section 110.1, Title 8, Chapter I, Code of Federal Regulations is hereby amended to read as follows:

§ 110.1 *Designated ports of entry except by aircraft.* Subject to the limitations prescribed in this section, the following places are hereby designated as ports of entry for aliens arriving by any means of travel other than aircraft. Such ports are listed according to location by districts, which are defined in § 60.1 of this chapter. The designations of such ports are divided into three classes—Class A, Class B, and Class C. Class A means that the port is a designated port of entry for all aliens. Class B means that the port is a designated port of entry only for aliens who at the time of applying for admission are lawfully in possession of valid and unexpired resident aliens' border crossing identification cards or valid nonresident aliens' border crossing identification cards. Class C means that the port is a designated port of entry only for aliens who are arriving in the United States as seamen as that term is defined in the last sentence of section 1 of the Immigration Act of 1917 (39 Stat. 874; 8 U.S.C. 173). No alien may enter the United States at a designated port of entry until and unless he has been inspected by an immigration officer or officers and found to be entitled under the provisions of the immigration laws and regulations to enter the United States.

(2) *Buyer's inspection*—(i) *Eligible buyers.* A "small mill" may sell hardwood lumber on buyer's inspection at graded hardwood lumber prices to a buyer authorized under the provisions of paragraph (d) of this section by the Office of Price Administration, Washington, D. C., to buy on his own inspection.

(ii) *Maximum prices.* The maximum prices for this type of sale shall be the applicable maximum prices established in this regulation for the particular species, grades, and thicknesses of hardwood lumber, less 5%. Buyer's inspection on truck or rail shipments may be made at either the point of origin or at destination.

(3) *Residue sales.* A small mill which sells hardwood lumber on grade on National Hardwood Lumber Association or authorized buyer's inspection may sell any of its hardwood lumber ungraded at not more than \$20 per 1,000 feet board measure.

(c) *Buyer's application.* In order to obtain authorization to buy hardwood lumber on grade by his own inspection, a buyer must apply to the Lumber Branch, Office of Price Administration, Washington 25, D. C., and submit the following information:

(1) Whether it was his continuous procedure before October 15, 1941 to buy hardwood lumber principally on separate species, grades and thicknesses as determined by his own inspection according to the effective rules issued by the National Hardwood Lumber Association and at a separate price for each item. If so, copies of settlement sheets and bills showing payment on this basis are to be submitted.

(2) Whether the efficiency, facilities and practices of his inspection procedure have been maintained.

(3) Names of inspectors, and for each inspector his period of employment by the buyer and his previous experience and employment in grading hardwood lumber.

(d) *Buyer's authorization.* Permission to purchase graded hardwood lumber on buyer's inspection, and an authorization number, will be given by the Administrator, or person delegated by him, if, in his judgment, the buyer is qualified to purchase on his own grading. The authorization will be denied or withdrawn if it is found that any material statements in the application were false or do not apply due to a change in circumstances, or that the hardwood lumber has been graded inaccurately by the buyer to such an extent as to show either intentional false grading, incompetence or negligence in grading. Where buyer's grading indicates abnormally high grade realization, the buyer's authorization may, in the absence of adequate ex-

planation, be revoked. The buyer shall be held fully responsible for the grading. In addition to withdrawal of permission, the buyer, of course, is subject to the usual penalties imposed by law for any violation of this regulation.

After authorization is granted, the buyer must notify the Lumber Branch of the Office of Price Administration, Washington 25, D. C., of any changes in his position affecting his ability to inspect and grade hardwood lumber.

(e) *Records.* (1) The buyer shall furnish the seller a true copy of the inspection report and both the seller and the buyer shall maintain adequate records of each sale or purchase of hardwood lumber on buyer's inspection for a period of at least two years or for the duration of the Emergency Price Control Act of 1942, as amended, whichever is shorter. These records must show the buyer's authorization number, the name of the seller and of the buyer, the date of sale, the footage of each species, grade and thickness of hardwood lumber, the moisture condition (whether green, air-dried, or kiln-dried), the itemized prices received and paid therefor and a statement from the seller that he is qualified to sell on buyer's inspection under this section.

(2) The buyer shall submit quarterly to the Lumber Branch, Washington 25, D. C., a statement of the volume of his purchases of hardwood lumber on his own inspection broken down to show the total for each species by grades and thicknesses.

(f) *Registration of sellers.* Within 30 days from February 5, 1946, or in the case of new sellers, within 30 days of the first sale under this section, every mill which does not sell its hardwood lumber on grade on its own inspection, must file a statement with the Lumber Branch of the Office of Price Administration, Washington 25, D. C., indicating which type of sales it will make under this § 1382.68. Any change in selling method thereafter made must be approved in writing by the Administrator upon application for approval of such change made to the Lumber Branch of the Office of Price Administration, Washington 25, D. C.

(g) *Prohibited practices.* To prevent evasion of this section the following practices are prohibited unless changes in selling methods have been approved by the Administrator under paragraph (f) above:

(1) Sales of hardwood lumber on grade, by a "small mill" that has been selling ungraded lumber.

(2) Sales of ungraded hardwood lumber, or graded hardwood lumber on buyer's inspection, by sellers previously selling on their own inspection.

(3) Sales of ungraded hardwood lumber or graded hardwood lumber on his own inspection by a seller who has been selling graded hardwood lumber on buyer's inspection, except as provided in paragraph (b) (3) of this section.

(4) Sales of hardwood lumber priced on grade by inspection of an unauthorized buyer.

(5) Sales of ungraded lumber under paragraph (a) which is not substantially the run of the log in the thickness sold.

(6) Sales of ungraded hardwood lumber by a seller who has been selling graded hardwood lumber.

The maximum price for lumber sold in any such manner shall be \$20.00 per 1,000 feet board measure. The establishment of a maximum price of \$20.00 per 1,000 feet board measure for such lumber does not mean that these sales are permitted, but is established solely for the purpose of providing a fair and equitable basis for determining the amount of over-charges in the event that such sales take place.

However, anything contained herein to the contrary notwithstanding, any mill may sell the products covered by Third Revised Maximum Price Regulation 216—Eastern Railroad Ties, or by Maximum Price Regulation 558—Eastern Wooden Mine Material and Industrial Blocking, or any superseding regulation at the applicable prices under such regulations.

(h) *Delivery.* The maximum prices of hardwood lumber under paragraph (a) in this section include loading on rail cars within 30 miles or delivery for 30 miles or less. Where delivery or car loading is over 30 miles a charge of 10 cents per 1,000 feet board measure for each mile over 30 up to 100 miles may be made, with no addition for the return trip. For example, if delivery is made for 50 miles, a delivery charge of \$2.00 per 1,000 feet board measure may be added. If delivery is over 100 miles, the charge to be added may be only the car-load rail freight for the whole distance from the nearest rail loading-out point to destination.

If the seller does not load the lumber on rail cars or provide delivery within 30 miles, or if it is necessary for the buyer to incur any delivery or loading expense within the 30 miles (except rail freight), the prices for hardwood lumber must be reduced by \$2.50 per 1,000 feet board measure. Maximum delivery charges on sales made under paragraph (b) of this section shall be the charges set forth in § 1382.61 (g).

(i) *Intermediate sellers.* Any person who acts as a selling agent for "small mills", and does not take title to the lumber, stands in the same position as the mills whose lumber he sells.

(j) *Sales to United States Government or any of its agencies.* The United States Government or any of its agencies may purchase hardwood lumber on buyer's inspection without authorization from the Office of Price Administration.

This amendment shall become effective February 5, 1946.

MALT BEVERAGES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 259 is amended in the following respects:

1. Section 2.5 is amended in the following respects:

1. The section headnote is amended to read as follows: "Brewer's pricing method when the size or kind of container is different than in the base period."

2. The following headnote is added to paragraph (a): "(a) Changes in size of container."

3. Paragraph (b) is redesignated paragraph (c) and a new paragraph (b) is added to read as follows:

(b) *Changes in kind of container.* With respect to items of domestic malt beverages sold in either flat top or cone top cans: If a brewer has an established maximum price under section 2.2 for only one of the foregoing, he shall establish his maximum price for the other in the following manner:

(1) For cone top cans he shall add 7.2¢ per case of 24/12 ounce containers or 4.8¢ per case of 12/32 ounce containers to his maximum price per case, as established under section 2.2, for the domestic

malt beverage of the same brand sold in the same size flat top cans.

(2) For flat top cans he shall subtract 7.2¢ per case of 24/12 ounce containers or 4.8¢ per case of 12/32 ounce containers from his maximum price per case, as established under section 2.2, for domestic malt beverage of the same brand sold in the same size cone top cans.

2. Section 2.7 is amended by adding the following phrase to the end of the first sentence of the first paragraph: "except as provided in section 2.5 (b)."

3. The second paragraph of section 4.1 (c) is amended to read as follows:

For the purposes of this regulation any Regional Administrator of the Office of Price Administration may determine by order the center point or the geographical limits of a base delivery zone of any wholesaler, group of wholesalers, brewer or group of brewers, and may increase or decrease the radii of base delivery zones. Any District Director of the Office of Price Administration who is authorized by order of his Regional Administrator shall have and may exercise like authority with respect to the base delivery zone of any wholesaler, group of wholesalers, brewer or group of brewers.

4. Section 4.3 (b) is amended to read as follows:

(b) *Initial maximum prices for sales to all classes of purchasers except to other retailers:* A retailer's initial maximum price for one or more units of a particular item of domestic malt beverage for sales thereof to all classes of purchasers, except to other retailers, shall be computed pursuant to (1) and (2) below or (1), (2) and (3) below:

(1) *Basic computation.* He shall take his cost of acquisition, per case, for his latest base purchase of the item, or if he made no base purchase of the item, his cost of acquisition, per case, for his most recent purchase of the item from any supplier, multiply such cost by 1.35 and round the result off to the nearest full cent.

(2) *Maximum price per bottle or can.* The figure resulting from the computation made pursuant to (1) above shall be divided by the number of bottles or cans per case and the fractions of a cent resulting in the retailer's calculations shall be adjusted as follows: If the fraction is less than ¼ cent, the maximum retail price shall be reduced to the nearest full cent; if the fraction is ¼ cent or more, but less than ½ cent, that price may be increased to the nearest half cent; if the fraction is ½ cent or more, but less than ¾ cent, that price shall be reduced to the nearest half cent; if the fraction is ¾ cent or more, that price may be increased to the nearest full cent.

(3) *Maximum price for more than one bottle or can.* The maximum price for a sale of more than one bottle or can, including case lots, shall be the maximum price for the single unit of the particular item, as computed under (1) above, multiplied by the number of units being sold.

[MPR 469, Amdt. 19]

**LIVE HOGS**

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 469 is amended in the following respects:

1. Paragraph (a) of section 1 is amended by the addition of the following sentences at the end thereof to read as follows: "The buyer similarly shall keep and preserve an exact copy of the signed statement hereinbefore required. In addition to the foregoing, all sales of hogs whether for exempt purposes or otherwise, made to or by a dealer, an order buyer or a slaughterer other than a farm slaughterer as defined in Control Order No. 1 shall be subject to the record-keeping provisions of section 8 and the invoicing provisions of section 12 of this regulation."

2. Paragraph (e) of section 2 is amended to read as follows:

(e) No place shall be deemed a terminal market, interior market or buying station unless it meets the following requirements:

(1) It must be equipped with pens, chutes and other facilities for loading, unloading, sorting and holding hogs.

(2) It must be equipped with scales adapted to the weighing of livestock: *Provided*, That scales adapted to the weighing of livestock located elsewhere than on the premises of the terminal market, interior market or buying station may be deemed to constitute part of the equipment of a terminal market, interior market or buying station if the conditions set forth in either of the following subdivisions (i) or (ii) are met:

(i) The terminal market, interior market or buying station used such scales in the regular conduct of its business for more than a year prior to January 1, 1944; and, on or before March 7, 1946, the operator of such terminal market, interior market or buying station filed with the appropriate District Office of the Office of Price Administration within whose jurisdiction the terminal market, interior market or buying station is located a signed statement setting forth: (a) the name and address of the business establishment for which the statement has been filed, (b) the date; (c) the location of the scales used and the owner or operator thereof; and (d) the approximate period prior to January 1, 1944, during which such scales were used regularly by the terminal market, interior market or buying station in the conduct of its business. In the event the statement herein required is not filed on or before March 7, 1946, the right of the establishment to operate as a terminal market, interior market, or buying station thereafter shall be suspended until the signed statement herein required has been filed. The permission use herein authorized shall be subject to review by the appropriate District Director, and may be revoked or amended at any time

to require the use of more conveniently located scales in any instance. In no event, however, shall the use of scales operated or controlled by a competing terminal market, interior market or buying station be required.

(ii) The terminal market, interior market or buying station has received written authorization from the appropriate District Director of the Office of Price Administration granting permission to use specified scales located elsewhere than on the premises of the terminal market, interior market or buying station. The District Director of the Office of Price Administration within whose jurisdiction the terminal market, interior market or buying station is located may, by order, authorize the use of specified scales located elsewhere than on the premises of a terminal market, interior market or buying station following written application therefor only if the following conditions are met:

(a) The scales to be used are adapted to the weighing of livestock.

(b) The scales to be used are located within reasonable proximity to the pens and chutes of the terminal market, interior marketing or buying station. In determining what constitutes "reasonable proximity" the availability of suitable scales located nearer to the chutes and pens of the terminal market, interior market or buying station than those for which the permission is sought shall be accorded due consideration, but nothing herein contained shall be construed to require the use of scales operated or controlled by a competing terminal market, interior market or buying station.

3. Paragraph (j) of section 2 is added to read as follows:

(j) "Auction market" means a place of business where live hogs are sold at auction, and which meets all the requirements of a terminal market, interior market or buying station as set forth in this regulation.

4. Subparagraph (4) of section 3 (b) is added to read as follows:

(4) The ceiling price for any lot of hogs in which sows, boars and/or stags are weighed simultaneously with hogs other than sows, boars and stags shall be, for all hogs so weighed simultaneously, the applicable ceiling price for sows, boars and stags.

5. Paragraph (e) of section 7 is added to read as follows:

(e) Except in instances where the total price per hundredweight charged or paid for all hogs weighed simultaneously in one lot does not exceed the ceiling price per hundredweight established for sows, boars and stags at the point of weighing the simultaneous weighing of sows, boars and stags in one lot of hogs containing hogs other than sows, boars and stags is prohibited.

6. Paragraph (b) of section 8 is amended to read as follows:

(b) On and after February 5, 1946, and for as long as the Emergency Price Control Act of 1942, as amended, remains

in effect, any buyer receiving the invoice and any seller receiving the receipt referred to in paragraph (a) of this section, any buyer or seller or seller's agent receiving copies of the scale ticket referred to in section 7 (d) and any slaughterer receiving the written statement of the items entering into any charge for feed and bedding referred to in paragraph (d) of section 4 shall keep and preserve such invoice, receipt, scale ticket, or written statement for inspection by the Office of Price Administration.

7. Section 14 is added to read as follows:

SEC. 14. *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 469 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

PART 1499—COMMODITIES AND SERVICES  
[RMPR 165, Amdt. 2 to Rev. Supp. Service  
Reg. 20]

WHOLESALE LAUNDRIES AND HAND LAUNDRIES  
IN NEW YORK CITY AREA

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

RSSR 20 is amended in the following respects:

1. Paragraph (g) of § 1499.672 is amended to read as follows:

(g) *Adjustments*—(1) *In general.* Section 16 of Revised Maximum Price Regulation No. 165 shall no longer be available and all adjustments granted by the Office of Price Administration are hereby revoked as to the services subject to this regulation for wholesale laundries and hand laundries, respectively.

(2) *Special hand laundries.* Hand laundries which received written approval to continue to charge the maximum prices established by Revised Maximum Price Regulation No. 165 under the provisions of § 1499.672 (8) of Supplementary Service Regulation No. 20 may continue to do so. In addition to their maximum prices under RMPR 165, such hand laundries shall be permitted to add the following surcharge.

(i) Any such hand laundry which is authorized to add a surcharge of less

than 4%, may add a total surcharge of 8%.

(ii) Any such hand laundry which is authorized to add a surcharge of 4% or more may increase its surcharge by 4%.

2. In Appendix A the maximum price listed for the item "Table Cloth" is amended from 5 cents to 6 cents.

3. In Appendix B, immediately following the title of the appendix, "Schedule of price for Hand Laundries", the following introductory paragraph is added:

The maximum prices for the following hand laundry services shall be 8% above the prices listed in Appendix B. You may apply such permitted increase by adding 8% to the total bill or invoice rendered to each customer and not to the individual items listed on any such bill or invoice. If you make such permitted surcharge, you shall state on each bill or invoice as follows: "ORA permitted price plus 8% as set forth in RSSR 20, as amended."

4. In Appendix B, the note appearing at the end of the Appendix B is amended to read as follows:

NOTE: Except for the 8% surcharge permitted, no additional charges of any kind whatsoever may be added to the maximum prices listed in this Appendix B. A lower surcharge than 8% may be charged and stated.

This amendment shall become effective January 30, 1946.

§ 23.3 *Communications.* All communications should be addressed to "The Solicitor, Post Office Department, Washington 25, D. C."

§ 23.4 *Hearings.* All hearings in cases involving alleged violations of the postal fraud or lottery laws are held in Room 3237, Post Office Department, Washington, D. C. No hearings are held outside of Washington, D. C. Hearings are public.

§ 23.5 *Complaints.* Whenever the Attorney in Charge of the Fraud Section shall have before him evidence upon the basis of which he shall have reason to believe that any person or concern is using the mails in the operation of an enterprise which is contrary to the provisions of the postal fraud or lottery laws, or of the so-called fictitious statutes, and if it shall appear that a proceeding before the Solicitor is required to determine whether or not such enterprise is unlawfully using the mails, he shall prepare and submit to the Solicitor a specification of charges naming the person or concern accused of violating the law, and charging the violations in such a manner as to enable such person or concern to answer such charges.

If upon presentation of such specification of charges to the Solicitor, he determines that, in the public interest a hearing is necessary to ascertain whether or not the postal laws are being violated as alleged in said specification of charges, he shall issue a notice to the accused person or concern to show cause upon a specific date why an order should not be issued against such person or concern pursuant to the provisions of the postal laws under which such proceedings are commenced.

§ 23.6 *Service of notice.* (a) Service of the complaint consisting of the notice to show cause and the specification of charges accompanied with copies of the postal laws involved in the proceeding shall be effected by the transmission of same to the postmaster at the office of address of the person or concern charged with violating the law and shall be delivered to said person or concern by said postmaster or an employee of the post office under his direction; and a receipt shall be secured from the accused person or concern or his agent acknowledging delivery of said complaint, which receipt shall be forwarded to the Solicitor of the Post Office Department and shall be incorporated in the record of the case.

(b) In the event that no person can be found upon whom service of the complaint can be effected pursuant to the above rule, the complaint may be delivered with other mail addressed to the respondent person or concern and a statement to that effect showing the time and place of such delivery signed by the postal employee who so delivered the complaint shall constitute evidence of service of the notice showing the time and place of the hearing, and of the specification of charges.

§ 23.7 *Answers.* (a) In case of desire to contest the proceeding, the respondent in any such case shall file with the Solicitor of the Post Office Department

an answer to the complaint. Three copies of the answer shall be supplied. The answer shall contain a concise statement on behalf of the respondent admitting, denying or explaining each of the charges alleged in the complaint. All answers shall be signed by the respondent or by his attorney at law. Corporations or associations shall file answers through a bona fide officer or by an attorney at law. Answers shall show the office and post office address of the signer.

(b) The answer may be submitted by mail or presented by the respondent or his representative not later than the commencement of the hearing.

(c) The hearing will be held at the time and place stated in the notice regardless of whether the respondent files an answer or makes an appearance during the proceedings.

(d) If the respondent desires to waive a hearing on the allegations of fact set forth in the complaint, and does not desire to contest the allegations of fact, the answer shall consist of a statement that the respondent admits as true all the material allegations of fact charged. Contemporaneously with the filing of such answer the respondent shall state in writing whether he desires to appear and be heard on the question as to whether the admitted facts constitute the violation of law alleged in the complaint. Respondent may also file a brief in support of his contention.

§ 23.8 *Appearances.* (a) Any individual, receiver or trustee may appear and be heard in person or by attorney. A partnership may appear and be represented by any member thereof or any attorney. A corporation, association, joint-stock company or trust company may appear by a duly authorized officer or by an attorney.

(b) Any person appearing in behalf of any respondent may be required to show his authority to represent such respondent.

(c) *Appearance blanks:* Each attorney representing respondents shall enter his appearance in duplicate on the form to be prescribed for that purpose by the Solicitor and furnished to such attorney, prior to participating in a hearing, and said appearances shall be made a part of the record.

§ 23.9 *Failure to answer or appear.* If the respondent fails to appear or to be represented at the hearing, he shall be deemed to have waived the right to be heard in the proceeding. However, if respondent has filed an answer to the charges, he shall be loaned a copy of the transcript and accorded an opportunity to file a post hearing brief as hereinbefore provided. If no answer is filed and no appearance is made at the hearing the respondent will be deemed to have waived his rights as set forth above.

§ 23.10 *Amendments of pleadings.* Amendments to pleadings may be offered by any party during the course of a hearing and may be accepted by the hearing officer and incorporated into the record unless it shall be shown that the rights of the respondent will be unfairly prejudiced thereby.

§ 23.11 *Admission to practice.* Attorneys-at-law admitted to practice before any court of the United States, the District of Columbia, or the highest court of any State or Territory may be admitted to practice before the Department. Applications for admission to practice shall be upon a form prescribed by the Solicitor which may be obtained upon written application therefor. However, formal admission to practice shall not be prerequisite for appearing as a representative of any respondent in a case already set down for hearing.

§ 23.12 *Suspension and disbarment.* The Solicitor may recommend to the Postmaster General that he censure, suspend, disbar, or revoke the right of any person who has been admitted to practice either formally or informally before this Department if he finds that such person has failed to conform to recognized standards of professional conduct or is not possessed of the character and integrity which is ordinarily required of an attorney-at-law practicing before a Federal court.

§ 23.13 *Subpenas.* The Post Office Department is not authorized by law to issue subpenas requiring the attendance or testimony of witnesses and can not furnish or pay witness fees or transportation expenses.

§ 23.14 *Continuances.* A short continuance may be granted to a respondent in any case where application is made therefor in writing not later than ten days before the date set forth for the hearing, which application shall contain a statement of the reasons upon which such request for a continuance is based; but such reasons must be substantial and relate to the defense of the charges.

§ 23.15 *Hearing officers.* Hearing officers presiding at the trial of cases involving alleged violations of the postal fraud, lottery and fictitious name laws shall be designated by the Solicitor. Hearing officers shall have the authority to rule upon offers of proof and to receive oral or documentary evidence; to regulate the course of the hearing and the conduct of the parties; to dispose of procedural motions, requests for adjournment and similar matters; require oral argument upon any question raised in the course of a hearing or at the close thereof, and to limit same as to time and subject matter. Hearings shall be conducted in such a way as to afford to interested persons a reasonable opportunity to be heard on matters relevant to the issues involved and so as to obtain a clear and orderly record.

§ 23.16 *Evidence.* (a) Except as otherwise provided herein, the rules of evidence governing civil proceedings in matters not involving trial by jury in the courts of the United States shall govern formal proceedings before the Solicitor: *Provided, however,* That such rules may be relaxed in any case where the ends of justice may be better served by so doing.

(b) The testimony of witnesses at a hearing shall be upon oath or affirmation and witnesses shall be subject to cross-examination. Any witness may,

in the discretion of the hearing officer, be examined separately and apart from other witnesses except those who may be parties to the proceeding.

(c) In so far as practicable hearing officers shall exclude evidence which is immaterial, irrelevant or unduly repetitious, or which is not of the sort upon which responsible persons are accustomed to rely.

§ 23.17 *Statements of facts.* Agreed statements of facts signed by all parties to any hearing may be received in evidence.

§ 23.18 *Official notice.* Official notice may be taken of all matters of generally recognized or scientific fact of an established character.

§ 23.19 *Documentary evidence.* Relevant and material documents must be properly identified or authenticated. Medical or other scientific books or essays will not be admitted in evidence in lieu of oral expert testimony. Where such publications are cited or relied upon by an expert witness on direct examination, they are then admissible on cross-examination for the sole purpose of showing that they contradict the witness as to the matter upon which he cited them as supporting his testimony. Affidavits of physicians or others containing opinions or statements in the nature of expert testimony are not admissible. Testimonials are inadmissible.

§ 23.20 *Objections.* If any party objects to the admission or rejection of any evidence or to the limitation of the scope of cross-examination, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the hearing officer. The transcript shall not include argument or debate upon objections except as ordered by the hearing officer. The ruling of the hearing officer on any objection shall be a part of the transcript.

§ 23.21 *Depositions.* No provision has been made by the Post Office Department for the taking of depositions and no money has been appropriated by Congress for that purpose.

§ 23.22 *Transcript.* (a) The transcript of the proceedings before the hearing officer shall be made in every case by the reporting system of the Office of the Solicitor. Said transcript together with all documents and pleadings filed in the case, shall constitute the official record thereof. If answer to the charges is made, a copy of the transcript shall be loaned to the respondent after the conclusion of the hearing for use in preparing any written brief or argument which the respondent desires to have considered when the case is taken up for disposition. The hearing officer shall apprise each respondent present at a hearing of such fact and shall state the length of time to be allowed respondent for the preparation of the brief after he has been furnished the transcript.

(b) The transcript shall be returned with the respondent's brief.

§ 23.23 *Oral argument.* If oral argument before the hearing officer is desired he should be notified before the close of the hearing in order that he may arrange to hear the argument at the close of the testimony, within such limits of time as may be agreeable to the parties and as he may determine to be adequate. Such argument shall be transcribed and bound with the transcript of testimony, and shall be submitted to the Postmaster General for consideration in deciding the case.

§ 23.24 *Compromises.* (a) Any respondent charged with violating the postal fraud, lottery or "fictitious" statutes, and who desires to arrange for a disposition of the pending charges without a formal hearing may apply for permission to file an affidavit of discontinuance. Such an affidavit shall provide for the discontinuance and abandonment of the enterprise charged in the complaint with violating the postal laws. It shall also authorize the postmaster at the post office through which the respondent receives mail addressed to the names used in the alleged unlawful enterprise to return such mail to sender marked "Out of Business". The affidavit further shall authorize said postmaster to refuse to cash money orders drawn in favor of the name or names involved in the unlawful scheme. Additional provision shall authorize summary action by the Postmaster General in the event that the respondent or his successors or assigns resumes under the same name or any other name the scheme agreed by the affidavit to be discontinued and abandoned.

(b) The Solicitor shall not be required to grant the privilege of filing affidavits of discontinuance in all cases in which application therefor is made. Permission or refusal to dispose of a pending case on such basis shall be a matter for the exercise of his discretion and judgment and shall depend upon the nature of the case and the circumstances involved.

(c) Application for permission to file an affidavit of discontinuance shall be filed at least seven days before the date set for the hearing of the case on the merits.

(d) Affidavits of discontinuance shall not be accepted after a case has gone to hearing and the Department's counsel has introduced evidence to substantiate the charges in the complaint, nor shall such affidavits embody any provisions other than those specified above unless in the judgment of the Solicitor the circumstances involved are such as to warrant a relaxation of this rule.

(e) The Post Office Department will not undertake to edit or censor advertising or to prescribe reforms for business methods and requests to dispose of cases on such basis shall be refused.

§ 23.25 *Petitions for further hearings.*

(a) An application for further hearing in a proceeding before final submission, or for reopening a proceeding after final submission, or for rehearing, reargument, or reconsideration after decision, must

be made by petition stating specifically the grounds relied upon.

(b) Such petition shall be accompanied by a sworn statement of the party or his attorney that the petition is filed in good faith and not for purposes of delay.

(c) A petition for further hearing or for reopening a proceeding to take further evidence must (1) state briefly the nature and purpose of the evidence to be adduced; (2) show that such evidence would not be merely cumulative, and that the failure previously to present such evidence is not due to lack of reasonable diligence, and (3) show cause why the petition should be granted. A petition for rehearing, reargument or reconsideration must specify the matters claimed to have been decided erroneously and must briefly state the alleged errors. A petitioner praying that an order be vacated or modified by reason of matters which have arisen since the hearing, must briefly set forth all the matters relied upon by the petitioner.

(d) No petition filed under this section shall automatically stay the effect of, terminate or modify any order theretofore entered, whether or not such order is one which the petitioner prays be reconsidered.

(e) A petition for rehearing, reargument, reconsideration, or modification of a final order must be filed within ten (10) days after the date of service of such order.

§ 23.26 *Supplementary fraud, lottery and fictitious orders.* Whenever substantial evidence is presented to the Solicitor, ex parte, that any person or concern is evading or attempting to evade the provisions of any fraud, lottery or fictitious order issued after notice and hearing against any person or concern operating an enterprise which was found to be unlawful under the postal fraud, lottery or fictitious name statutes, a recommendation shall be made by the Solicitor for the extension of the order sought to be evaded so as to include the name or names then and there being employed for the purpose of continuing the use of the mails in the operation of the unlawful scheme against which a previous order was directed.

§ 23.27 *Foreign fraud, lottery and fictitious orders.* Whenever substantial evidence is presented to the Solicitor, ex parte, that any person or concern in any foreign country is using or causing the United States mails to be used in the operation of any enterprise in violation of the postal fraud, lottery or fictitious statutes, he shall submit forthwith to the Postmaster General a finding of law and fact and a recommendation that an appropriate order be issued against such person or concern under the provisions of the aforesaid statutes.

Dated: January 25, 1946.

## TITLE 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

## PART 3—STANDARD AND HIGH FREQUENCY BROADCAST STATIONS

## STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING FM BROADCAST STATIONS

The Commission on January 9, 1946, effective immediately, amended the Standards of Good Engineering Practice Concerning FM Broadcast Station (10 F.R. 12994), in the following particulars: Amended section 14 *Requirements for type approval of frequency monitors* by deleting footnote thereto.

Amended section 15 *Requirements for type approval of modulation monitors* to read as follows:

SEC. 15. *Requirements for type approval of modulation monitors.* Section 3.253 requires each FM broadcast station to have an approved modulation monitor in operation at the transmitter. This monitor may or may not be a part of the FM broadcast frequency monitor. Approval of a modulation monitor for FM broadcast stations will be considered on the basis of data submitted by the manufacturer. Any manufacturer desiring to submit a monitor for approval shall supply the Commission with full details (two sworn copies).

The specifications that the modulation monitor shall meet before it will be approved by the Commission are as follows:<sup>1</sup>

A. A means for insuring that the transmitter input to the modulation monitor is proper.

B. A modulation peak indicating device that can be set at any predetermined value from 50 to 120 percent modulation ( $\pm 75$  kc swing is defined as 100 percent modulation) and for either positive or negative swings (i. e., either above or below transmitter center frequency).

C. A semi-peak indicator with a meter having the characteristics given below shall be used with a circuit such that peaks of modulation of duration between 40 and 90 milliseconds are indicated to 90 percent of full value and the discharge rate adjusted so that the pointer returns from full reading to 10 percent of zero within 500 to 800 milliseconds. A switch shall be provided so that this meter will read either positive or negative swings.

The characteristics of the indicating meter are as follows:

*Speed.* The time for one complete oscillation of the pointer shall be 290 to 350 milliseconds. The damping factor shall be between 16 and 200.

*Scale.* The meter scale shall be similar in appearance to that of a standard VU meter. The scale length between 0 and 100 percent modulation markings should be at least 2.3 inches. In addition to other markings a small mark for 133 percent modulation and designated as such should be included for the purpose of testing transmitters with 100 kc swing.

The accuracy of reading of percentage of modulation shall be within  $\pm 5$  percent modulation percentage at any per-

<sup>1</sup> In connection with its type approval of FM equipment, the Commission may send a representative to observe tests made of such equipment by the manufacturer.

centage of modulation up to 100 percent modulation.

D. The frequency characteristic curve shall not depart from a straight line more than  $\pm \frac{1}{2}$  db from 50 to 15,000 cycles. Distortion shall be kept to a minimum.

E. The monitor shall not absorb appreciable power from the transmitter.

F. Operation of the monitor shall have no deleterious effect on the operation of the transmitter.

G. General design, construction and operation shall be in accordance with good engineering practice.

By the Commission.

[Docket No. AO-123-A5]

LOUISVILLE, KY., MILK MARKETING AREA  
NOTICE OF HEARING ON HANDLING OF MILK

Proposed amendments to the tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Louisville, Kentucky, milk marketing area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp., 900.1 et seq.; 10 F.R. 11791), notice is hereby given of a public hearing to be held at the Kentucky Hotel, Louisville, Kentucky, beginning at 10:00 a. m., c. s. t., February 13, 1946, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Louisville, Kentucky, milk marketing area (7 CFR, 1944 Supp., 946.1 et seq.). These amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to economic or marketing conditions relating to the proposed amendments which are hereinafter set forth, or to any appropriate modifications thereof.

The following amendments have been proposed by the Falls Cities Cooperative Milk Producers Association, Louisville, Kentucky:

1. Delete the provisions of paragraph (i) of § 946.1 and substitute therefor the following:

(i) "Emergency milk" means milk, skim milk, or cream received by a handler from sources other than producers under a permit for the receipt thereof issued to him by the proper health authorities: *Provided,* That the total quantity of milk, skim milk, or cream so received shall be in excess of the total quantity of milk, skim milk, or cream diverted, transferred or sold on the same day to a plant which is not approved by the applicable health regulations for the handling of milk disposed of for fluid consumption as milk in the marketing area or to a person who is not a handler but who distributes milk or manufactures milk products.

2. Delete the provisions of subparagraph (1) of paragraph (c) of § 946.3 and substitute therefor the following:

(1) Milk and skim milk which is sold or caused to be diverted or transferred by a handler to another handler or to a person who is not a handler but who distributes milk or manufactures milk products shall be Class I milk and cream so sold or caused to be diverted or transferred shall be Class II milk: *Provided,* That if the selling handler and the purchaser, on or before the 5th day after the end of the delivery period, each furnish to the market administrator similar signed statements that such milk, skim milk, or cream was disposed of in another class, such milk, skim milk, or

cream shall be classified accordingly, subject to verification by the market administrator.

3. Delete the provisions of subparagraphs (1), (2), and (3) of paragraph (a) of § 946.4 and substitute therefor the following:

(1) Class I milk—The price for Class I milk shall be the price for Class III milk, plus \$1.05.

(2) Class II milk—The price for Class II milk shall be the price for Class III milk, plus \$0.50.

(3) Class III milk—Except as set forth in (4) of this paragraph, the price for Class III milk shall be the price resulting from the following computation by the market administrator: determine, on the basis of milk of 4 percent butterfat content, the arithmetic average of the basic, or field, prices per hundredweight reported by, and ascertained by the market administrator to have been paid by, the following concerns at the manufacturing plants or places listed below for ungraded milk received during the delivery period and add 15 cents per hundredweight.

Concern:	Location
Kraft Cheese Co.....	Lawrenceburg, Ky.
Armour Creameries....	Elizabethtown, Ky.
Armour Creameries....	Springfield, Ky.
Kraft Cheese Co.....	Salem, Ind.
Ewing-Von Allmen Co..	Corydon, Ind.
Ewing-Von Allmen Co..	Madison, Ind.
Producers' Dairy Marketing Association.	Orleans, Ind.

*Provided,* That if the price so determined is less than the higher of the prices computed by the market administrator in accordance with the following formulae, then the higher of the following formulae prices as computed under (A) and (B) hereof shall be used: (A) (i) multiply by 4 the average wholesale price per pound of 92-score butter in the Chicago market as reported by the War Food Administration (or by such other Federal agency as may hereafter be authorized to perform this price-reporting function) for the delivery period during which such milk was received, (ii) add 20 percent thereof, and (iii) add 3½ cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids by spray process for human consumption is above 5½ cents per pound. For the purpose of this formula the price per pound of nonfat dry milk solids to be used shall be the average of the carlot prices by spray process for human consumption, published by the Department of Agriculture (or by such other Federal agency as may hereafter be authorized to perform this price-reporting function), for the Chicago market during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such milk solids for the previous delivery period. In the event the carlot prices for nonfat dry milk solids by spray process for human consumption, f. o. b. manufacturing plant, are not so published, the average of the carlot prices for such milk solids, delivered at Chicago, as published by any such agency, shall be used, and the following shall be used in lieu of the

computation provided under (iii) herein: add 3½ cents per hundredweight for each full one-half cent that the price of such nonfat dry milk solids for human consumption, delivered at Chicago, is above 6½ cents per pound. (B) Ascertain the average of prices per hundredweight for milk containing 3.5 percent butterfat content received during the delivery period at the following places for which prices are reported to the market administrator by the listed companies or by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this price-reporting function) and add the value of five-tenths of 1 percent of butterfat content computed at the rate per one-tenth of 1 percent butterfat content which is applicable to butterfat differential provided in paragraph (f) in § 946.8:

5. Section 946.5 shall be amended by the addition of the following paragraph:

(e) *Reports of market administrator to cooperative associations.* On or before the 15th day after the end of each

delivery period the market administrator shall report to each producers' cooperative association as described in § 946.9 (b) the percentage of the receipts of milk by each handler which is represented by the deliveries by its members and the percentage of class utilization of milk caused to be delivered by such associations to each handler to whom the cooperative sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.

6. Delete the provisions of subparagraph (3) of paragraph (b) of § 946.7 and substitute therefor the following:

(3) Subtract for each of the delivery periods of April, May, and June an amount representing 25 cents per hundredweight of milk received in 1946, and 30 cents per hundredweight of milk received during the same delivery periods in 1947 and for each year thereafter, from producers by the handlers whose milk values are included under (1) of this paragraph: *Provided, however*, in any year succeeding 1947 in which the daily average hundredweight of milk received for the delivery periods of April, May, and June of the preceding year exceeds 110 percent but not in excess of 120 percent of the milk received in the delivery periods of September, October, and November of the same year, 35 cents per hundredweight shall be subtracted for the delivery periods of April, May, and June: *And provided further*, That if the percentage as computed herein is greater than 120 percent then, and in that event, the rate per hundredweight to be subtracted shall be 40 cents.

7. Delete the provisions of subparagraph (2) of paragraph (d) of § 946.8 and substitute therefor the following:

(2) On or before the 15th day after the end of each of the delivery periods of September, October, and November beginning in 1946, the market administrator shall pay out of the producer-settlement fund to the producers who delivered milk during each of such delivery periods an amount computed as follows: divide one-third of the aggregate amount held pursuant to § 946.7 (b) (3) by the hundredweight of producers' milk delivered during the delivery period involved (September, October, or November, as above) and apply the resulting amount computed to the nearest full cent per hundredweight to the milk of each producer for such delivery period; *Provided*, That payments under this subparagraph due any producer who has given authority to a cooperative association, which is qualified under the "Capper-Volstead Act" pursuant to § 946.9 (b), to receive payment for his milk shall be distributed to such cooperative association if the association requests receipt of such payments.

The following amendments have been proposed by the Louisville Milk Distributors Association, Louisville, Kentucky:

1. Delete the provisions of § 946.3 (b) and substitute therefor the following:

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of as milk and all milk drinks, having a butterfat content in excess of 1 percent and all milk not specifically accounted for as Class II milk, Class III milk, and Class IV milk.

(2) Class II milk shall be all milk disposed of as cream (for consumption as cream) including any cream product disposed of in fluid form which contains less than the minimum butterfat content required for fluid cream, and all skimmed milk disposed of as buttermilk or milk drinks, whether plain or flavored and not disposed of in Class I.

(3) Class III milk shall be all milk accounted for (i) as used to produce a milk product other than those specified in Class I milk, Class II milk, and Class IV milk, and (ii) as actual plant shrinkage but not to exceed 4 percent of the total receipts of milk from producers, emergency milk, milk from other handlers and other sources, and including the handlers own production.

(4) Class IV milk shall be that portion of the milk used to produce butter by a handler reporting utilization in Class III in excess of 10 percent of such handler's total receipts during the reporting period. No handler shall be permitted in any delivery period to report an amount of milk utilized in Class IV in excess of an amount equal to 10 percent of said handler's reported Class I sales for said delivery period.

2. Delete the provisions of § 946.3 (c) and substitute therefor the following:

(c) *Interhandler and nonhandler transfers of milk.* (1) Milk disposed of by a handler to another handler or to a person who is not a handler but who distributes milk or manufactures milk products shall be Class I milk, and cream and skimmed milk so disposed of shall be Class II milk: *Provided*, That if the selling handler and the purchaser, on or before the 5th day after the end of the delivery period, each furnish to the market administrator similar signed statements that such milk, cream, or skimmed milk was disposed of in another class, such milk, cream, or skimmed milk shall be classified accordingly, subject to verification by the market administrator.

(2) Milk disposed of from a handler's plant to soda fountains, bakeries, restaurants, and other retail food establishments which dispose of milk for both fluid and other uses shall be Class I milk: *Provided*, That milk disposed of in bulk from a handler's plant to any such establishment which, under the applicable health regulations, is permitted to receive milk other than Grade A quality for non-fluid purposes shall be classified according to its ultimate use or disposition by such establishment, subject to verification by the market administrator.

(3) Cream and skimmed milk disposed of from a handler's plant to soda fountains, bakeries, restaurants, and other retail food establishments which dispose of cream and skimmed milk for both fluid and other uses shall be Class II milk: *Provided*, That cream and skimmed milk disposed of in bulk from a handler's plant to any such establishment which, under the applicable health regulations, is permitted to receive cream and skimmed milk other than of Grade

A quality for non-fluid purposes shall be classified according to its ultimate use or disposition by such establishment, subject to certification by the market administrator.

3. Delete the phrase "and skimmed milk" from § 946.3 (d) (3); delete the provisions of § 946.3 (d) (4), (5), and (6), and substitute therefor the following:

(4) Determine the total pounds of Class II milk as follows: (i) multiply the actual weight of each of the cream products of Class II milk by its average butterfat test, (ii) add together the resulting amounts, (iii) divide the result obtained in (i) of this subparagraph by 4 percent, and (iv) add total pounds of skimmed milk disposed of in the form of buttermilk or milk drinks, whether plain or flavored.

(5) Determine the total pounds of Class III milk as follows: (i) multiply the actual weight of each of the several products of Class III milk by its average butterfat tests; (ii) add together the resulting amounts; (iii) subtract the total pounds of butterfat in Class I milk and Class II milk computed pursuant to (3) (i) and (4) (ii) of this paragraph and Class IV milk computed pursuant to (6) of this paragraph and the total pounds of butterfat computed pursuant to (i) of this subparagraph from the total pounds of butterfat computed pursuant to (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 4 percent of the total receipts of butterfat by the handler) and shall be added to the results obtained in (ii) of this subparagraph; and (iv) divide the result obtained in (ii) of this subparagraph by 4 percent.

(6) Determine the total pounds of Class IV milk as follows: (i) divide by 4 the total pounds of butterfat manufactured into butter or sold to a butter manufacturer to determine total hundredweight pounds of 4 percent milk used for this purpose by each handler, (ii) add together the resulting amounts; (iii) determine the total pounds of Class III milk in excess of 10 percent of the total pounds of milk received from producers (including the handler's own production), received from other handlers, received as emergency milk and received from other sources; (iv) determine the total pounds of milk equal to 10 percent of each handler's Class I sales; (v) when the total pounds of milk as determined in (ii) of this paragraph exceed the total pounds of milk as determined in (iii) of this paragraph such total pounds of milk shall be considered to be each handler's Class IV usage provided such total pounds of milk do not exceed the total pounds of milk as determined in (iv) of this paragraph.

(7) Determine the classification of milk received from producers as follows:

(i) Subtract pro rata out of the milk in each class the quantity of milk of the handler's own production;

(ii) Subtract from the total pounds of milk in each class the total pounds of milk which were received from other handlers and used in such class; and

(iii) Subtract from the total pounds of milk in each class the total pounds of milk which were received from sources other than producers and handlers, including emergency milk, and used in such class.

4. Delete the provisions of § 946.3 (e) and substitute therefor the following:

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler. In the event such reconciliation exhausts the milk available in Class III for such handler, the market administrator shall decrease the total pounds of milk in Class II for such handler by an amount equal to such difference.

5. Section 946.4 *Minimum prices.* Delete the provisions of paragraph (a) thereof and substitute therefor the following:

(a) *Class prices.* Each handler shall pay producers, at the time and in the manner set forth in § 946.8, not less than the following prices per hundredweight for the respective quantities of Class I milk, Class II milk, Class III milk, and Class IV milk, computed pursuant to § 946.3 (e) and (f):

(1) *Class I milk.* The price for Class I milk shall be \$3.70 per hundredweight.

(2) *Class II milk.* The price for Class II milk shall be \$3.20 per hundredweight.

(3) *Class III milk.* The price for Class III milk shall be the price resulting from the following computation by the market administrator:

Determine on the basis of 4 percent butterfat content the arithmetical average of the basic, or field prices per hundredweight reported by the concerns, as ascertained by the market administrator, to have been paid at all dairy manufacturing plants purchasing a representative volume of ungraded milk located within a fifty-mile radius of Louisville, Kentucky.

The prices used in determining the average manufacturing price pursuant to (3) of this paragraph shall be those quoted for milk received at the respective plants selected, without deductions for hauling or other charges to be paid by the farm shipper.

(4) *Class IV milk.* The price for Class IV milk shall be the price determined per hundredweight of milk testing 4 percent butterfat by multiplying the price of 92-score butter (Chicago market as reported by the United States Depart-

ment of Agriculture for the delivery period during which said milk was delivered) by 4 and adding thereto 20 percent.

6. Delete the "Provided further" clause consisting of the last two sentences of § 946.7 (a):

7. Amend § 946.7 (b) by designating the present subparagraph as (i) and adding thereto the following subparagraph:

(ii) Add for each of the delivery periods of September, October, and November an amount equal to one-third of the aggregate amount withheld pursuant to § 946.7 (b) (3) (i).

8. Delete § 946.8 (d) (2).

9. Amend § 946.10, *Expense of administration*, by designating the present paragraph as (a) and adding a new paragraph thereto as follows:

(b) The funds so collected shall be impressed with a trust under the custody of the market administrator and shall be expended in accordance with applicable provisions of the order and, at least quarterly, a detailed account of income and disbursements shall be made available to the regulated handlers.

10. Amend § 946.2 (c) (7) to read as follows:

(7) Promptly (within 90 days) verify the information contained in the reports submitted by the handlers.

11. Amend § 946.5 (d) (2) by adding thereto a new sentence, such sentence to read as follows:

*Provided*, That no such reclassification shall be made or billing thereon issued after the expiration of ninety (90) days from the close of a delivery period, excepting only in the event of intentional falsification of handler's reports.

The following amendments have been proposed by the Dairy Branch, Production and Marketing Administration:

1. Delete the provisions of paragraph (b) in § 946.1 and substitute therefor the following:

(b) "Secretary" means the Secretary of Agriculture or any other officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

2. Delete the term "War Food Administrator" wherever appearing and substitute therefor the term "Secretary."

3. Delete the provisions of paragraph (e) in § 946.1 and substitute therefor the following:

(e) "Producer" means any person who produces, under a dairy farm inspection permit issued by the appropriate health authority in the marketing area, milk which is (1) received at a plant from which milk is disposed of in the marketing area for human consumption as fluid milk, or (2) customarily received at a plant described in (1) of this paragraph but which is diverted by a cooperative association of producers or a handler to any other milk distributing or milk manufacturing plant, wherever located.

4. Delete the provisions of paragraph (f) in § 946.1 and substitute therefor the following:

(f) "Handler" means (1) any person, except a person who receives emergency

milk only, with respect to milk (including any milk from his own farm production) received by him at a plant from which milk is disposed of in the marketing area for human consumption as fluid milk, or (2) any cooperative association of producers with respect to any milk produced under a dairy farm inspection permit issued by the appropriate health authority in the marketing area which is customarily received at a plant described in (1) of this paragraph but which it diverts to any other milk distributing or milk manufacturing plant, wherever located, for the account of such cooperative association: *Provided*, That such milk is handled on a basis which will permit the market administrator to verify the utilization of such milk in the plant at which such milk is received.

5. Delete the provisions of paragraph (a) in § 946.3 and substitute therefor the following:

(a) *Basis of classification.* Milk of a producer caused to be delivered by a cooperative association which is a handler to a plant from which no milk of producers is disposed of as Class I milk in the marketing area and all milk, skim milk, and cream purchased or received by a handler from producers, associations of producers, and other handlers, including emergency milk and any milk produced by him, if any, and including milk, skim milk, and cream purchased or received from sources other than producers or handlers at plants from which milk of producers is disposed of as Class I, shall be reported by the handler in the classes set forth in (b) of this section, subject to the provisions of (c), (d), (e), and (f) of this section. In establishing the classification as required in (b) of this section of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I: *Provided*, That if a handler transfers milk of producers to the plant of another handler without having first received, weighed, and tested such milk in the transferring handler's plant such milk shall be considered as having been received at the plant where it is first weighed and tested. No milk shall be considered as having been so transferred unless the market administrator has received a joint written notice from the transferring and receiving handlers prior to or accompanying the report required by § 946.5.

6. Delete the provisions of subparagraph (3) of paragraph (b) in § 946.3 and substitute therefor the following:

(3) Class III milk shall be all milk, skim milk, and cream accounted for (i) as used to produce a product other than those specified in Class I milk and Class II milk, and (ii) as actual plant shrinkage, but not to exceed 2 percent of the total receipts of butterfat, not including butterfat received from other handlers; *Provided*, That (a) if milk from producers is moved as milk, skim milk, or cream from a handler's fluid milk plant to a plant from which no milk of producers is disposed of as Class I milk in the marketing area, the butterfat shrinkage

allocated to such milk shall not exceed its prorata share computed on the basis of the proportions of the volume of graded and ungraded butterfat received at the latter plant to their total, and (b) if milk from producers is moved as milk, skim milk, or cream from a handler's fluid milk plant to a plant from which no milk is disposed of as Class I milk in the marketing area, the butterfat shrinkage allocated to such milk shall be computed as a prorata basis with all butterfat received in the latter plant, and added to the shrinkage on producers' milk handled in the handler's fluid milk plant.

7. Delete the provisions of subparagraph (1) of paragraph (c) in § 946.3 and substitute therefor the following:

(c) *Interhandler and nonhandler transfers.* (1) Any milk and skim moved as fluid milk from a plant of a handler to the plant of another handler who receives milk from producers shall be classified as Class I milk and cream moved as cream shall be Class II milk: *Provided*, That if the selling handler and the purchaser, on or before the 5th day after the end of the delivery period, each furnish to the market administrator similar signed statements that such milk, skim milk, or cream was disposed of in another class, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator: *And provided further*, That the classification of the milk described in such signed statements shall be subject to the method of classifying producer milk in the sequence set forth in paragraph (f) of this section.

8. Renumber § 946.3 (c) (2) as § 946.3 (c) (4).

9. Renumber § 946.3 (c) (3) as § 946.3 (c) (5).

10. Amend § 946.3 (c) by adding thereto a new subparagraph, designated as (2), to read as follows:

(2) Any milk and skim milk moved as fluid milk from any handler's plant to a plant of a person who is not a handler, but who distributes fluid milk on retail or wholesale routes, or manufactures milk products, shall be classified as Class I milk and any cream moved in the form of cream to such person shall be classified as Class II milk, except for milk or cream in excess of the amount of Class I or Class II milk distributed by such person.

11. Amend § 946.3 (c) by adding thereto a new subparagraph designated as (3) to read as follows:

(3) Any milk or cream moved from a handler's plant to a plant of a person who does not distribute fluid milk shall be classified according to its use by such nonhandler, subject to the verification by the market administrator.

12. Delete the provisions of subparagraph (3) of paragraph (d) in § 946.3 and substitute therefor the following:

(3) Determine the total pounds of Class I milk as follows: (i) convert to quarts the quantity of milk and skim milk disposed of in the form of milk, buttermilk, and milk drinks, whether plain or flavored, and multiply by 2.15; (ii) multiply the result by the average butter-

fat test thereof; and (iii) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk computed pursuant to (4) (ii) and (5) (ii) of this paragraph is less than the total pounds of butterfat received, computed in accordance with (2) of this paragraph, the butterfat shrinkage of the total receipts of butterfat, not including butterfat received from handlers, which exceeds 2 percent of such butterfat shall be divided by 4 percent and added to the quantity determined pursuant to (i) of this subparagraph.

14. Delete the provisions of § 946.3 (f) and substitute therefor the following:

18. Delete the provisions of paragraph (c) in § 946.8 and substitute therefor the following:

(c) *Payments to the producer-settlement fund*. On or before the 15th day after the end of each delivery period, each handler shall pay to the market administrator the amount by which the total value of the milk received by him from producers during the delivery period, inclusive of milk transferred to him in accordance with the proviso in § 946.3 (a) is greater than the amount of the minimum payments required to be made by such handler pursuant to (a) of this section.

19. Delete the provisions of paragraph (d) in § 946.8 and substitute therefor the following:

(d) *Payments out of the producer-settlement fund*. (1) On or before the 20th day after the end of each delivery period, the market administrator shall pay to each handler for payment to producers the amount, if any, by which the total value of the milk received from producers by such handler, inclusive of milk transferred to him in accordance with the proviso in § 946.3 (a), is less than the amount of the minimum payments required to be made by such handler pur-

suant to (a) of this section. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

In the matter of North West Utilities Company, File No. 70-1222; Bear, Stearns & Co., File No. 31-541.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 particularly Section 12 (d) thereof and Rule U-44 thereunder by North West Utilities Company ("North West"), a registered holding company and a subsidiary of The Middle West Corporation, also a registered holding company. *It is ordered,* That the hearing in the matter of North West Utilities Company, File No. 70-1222, be consolidated with the hearing in the matter of Bear, Stearns & Co., File No. 31-541. The Commission reserves the right, if at any time it may appear conducive to an orderly and economic disposition of said matters, to order a separate hearing concerning such matter, to close the record with respect to any of the matters, or to take action on any of the matters prior to the closing of the record on any other matter.

*It is further ordered,* That a hearing on such matters under the applicable provisions of said act and rules and regulations of the Commission thereunder be held on February 11, 1946, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. COPYRIGHTS OF VERLAG CHEMIE, G. M. B. H.

In re: Copyrights covering certain periodicals.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property hereinafter described is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of a foreign country or countries, and having made all determinations and taken all action, after appropriate consultation and certification, required by

said Executive order or act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States; such property being described as follows:

a. All right, title, and interest of any kind or nature whatsoever, of any and all publishers of the works described in Exhibit A attached hereto and made a part hereof, in, to, and under every and any copyright in the publications described in such Exhibit A, including, but not limited to all accrued royalties, all rights to claim royalty, all damages and profits recoverable at law or in equity from any person, firm corporation or government for past infringement, and all rights of renewal subject to be exercised by or through such publishers.

b. All right, title, and interest of any kind or nature whatsoever, of any and all authors of the articles in the respective publications described in said Exhibit A, in, to, and under every copyright in the publications described therein, including, but not limited to, all accrued royalties, all rights to claim royalty, all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement, and all rights of renewal subject to be exercised by such authors or by their widows, widowers, children, executors and next of kin.

c. All right, title and interest of any kind or nature whatsoever, of any and all nationals of foreign countries, in, to, and under every copyright in the publications described in said Exhibit A, including, but not limited to all accrued royalties, all rights to claim royalty, and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement, and all rights of renewal subject to be exercised by said claimants, or by their widows, widowers, children, executors and next of kin.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on October 9, 1942.

(a) *Manufacturer's maximum prices.* A. Kreamer, Inc., 307 Kent Avenue, Brooklyn, New York may increase its maximum prices in effect immediately prior to the issuance of this order, for sales to each class of purchaser of metal household, hotel and restaurant utensils which it manufactures by 6.3% of each such maximum price.

[Max. Import Price Reg., Order 362 of Order 38]

IMPORTED FOODS

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of section (c) (5) of Order 38 under the Maximum Import Price Regulation, it is ordered:

(a) *Purpose of this order.* The purpose of this order is to establish separate maximum prices at which imported Norwegian Brisling Sardines (any brand) packed in refined herring oil, may be sold by importers to wholesalers, chain stores, independent retail stores, industrial and institutional users without having to make application to the Office of Price Administration for the issuance of an individual order.

(b) *Application of this order.* The maximum prices established by this order apply to importers' sales to the classes of purchasers named herein, of imported Norwegian Brisling Sardines (any brand) packed in refined herring oil.

(c) *Importers' maximum prices.* The maximum prices, above which no importer shall sell and no person buying from an importer shall purchase, on sales to the classes of purchasers named, for the following designated size of imported Norwegian Brisling Sardines (any brand) packed in refined herring oil, shall be as follows:

Sales by importers to—	Per case of 100 3¾ ounce—Norwegian brisling sardines	
	Aluminum containers	Tin containers
Wholesalers and chain stores.....	\$17.37	\$16.43
Independent retailers.....	18.29	17.30
Industrial and institutional users..	19.06	18.03

The maximum prices authorized above are ex dock or ex warehouse any United States Continental point or port of entry. For sales with delivery made at some other point, payment incurred for transportation from the dock or warehouse at the point or port of entry to such other point may be added. Such transportation payment, however, shall not include the expense of local hauling or drayage within the metropolitan area of the point or port of arrival.

(d) *Terms of sale.* The importer with respect to his sales of imported Norwegian Brisling Sardines (any brand) packed in refined herring oil, for which

maximum prices are established by this order, shall reduce such maximum prices by the discount for cash or prompt payment customarily granted on sales of Norwegian Brisling Sardines (any brand) packed in refined herring oil, to purchasers of the same class.

(e) *Definitions.* A "wholesaler" is a person other than a chain store, an independent retail store, industrial or institutional user, who purchases and sells food products, generally, without materially changing their form.

A "chain store" is one of four or more retail stores under one ownership whose combined "annual gross sales" are \$500,000 or more, and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "independent retail store" is one that is not one of four or more stores under one ownership whose combined "annual gross sales" are \$500,000 or more and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "industrial user" is any person who, either for his own commercial use or for resale, subjects an imported food item covered by this order, to a process that results in the production of a new and different article having a distinctive name, character or use; or who uses such food item as an ingredient or a component part of such an article.

An "institutional user" is a restaurant, hotel, club, hospital, or other similar establishment using an imported food item covered by this order in preparation or service of meals to individual consumers.

(f) The total landed costs upon which the maximum prices in this order are based include duty in the amounts of \$3.36 per case for the Norwegian Brisling Sardines packed in aluminum containers and \$3.17 per case packed in tin containers. If the duty actually paid is higher than set out above, the difference may be added to the maximum prices established in section (c). If the duty actually paid is lower than that set out above, the difference must be subtracted from the maximum prices established in section (c).

(g) *Relation of this order to Order 38.* Unless the context otherwise requires, the provisions of Order 38 under the Maximum Import Price Regulation with the requirement for notice to purchasers as set out in paragraph (k) shall apply for the sale for which the maximum prices are established by this order.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective February 5, 1946.

Issued this 31st day of January 1946.

[MPR 591, Amdt. 8 to Order 48]

**GAS-FIRED CONVERSION BURNERS**

**ADJUSTMENT OF MAXIMUM PRICES**

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, Order 48 under section 22 of Maximum Price Regulation No. 591 is amended in the following respects:

1. A new section 2.8 is added to read as follows:

**SEC. 2.8 Gas-fired conversion burners—(a) Manufacturers' increase for items having an October 1, 1941 price.** The maximum price for sales by any manufacturer of gas-fired conversion burners and repair and service parts therefor shall be his price for the item to each class of purchaser in effect on October 1, 1941, increased by 9 percent.

**(b) Manufacturers' increase for items not having an October 1, 1941 price.** A manufacturer may not increase his properly established maximum price for any conversion burner and repair and service part therefor for which he does not have an October 1, 1941 price without specific authorization from the Office of Price Administration.

A manufacturer desiring to modify his presently established maximum price for any gas-fired conversion burner and repair and service part therefor for which he does not have an October 1, 1941 price shall file an application for such modification of his maximum price to reflect the increases obtained by other manufacturers for similar articles under (a) above setting forth the following:

(1) Full description of the item. Cuts or detailed sketches should be supplied.

(2) Established maximum price for the item and the section and regulation under which the maximum price was established.

(3) If possible, the name of competitors marketing a similar item for which they had an October 1, 1941 price.

Such applications shall be filed with the Building Materials Price Branch, Office of Price Administration, Washington 25, D. C.

(c) *Optional use of this section.* Since the provisions of this section are not intended to reduce properly established maximum prices, any manufacturer whose price in effect to each class of purchaser on October 1, 1941, plus the increase provided for under (a) is less than his maximum price as established under Maximum Price Regulation No. 591, may continue to use as his maximum price, the maximum price properly established under that regulation.

(d) *Notification by manufacturers.* Any manufacturer who applies the increase permitted under this section shall notify each purchaser, in writing, at or before the issuance of the first invoice after February 4, 1946, of the actual dollar-and-cents increase for each type of furnace or unit heater over his maximum price to that class of purchaser in effect on February 4, 1946.

(e) *Resellers increase.* The maximum price for sale by any reseller of the types of furnaces or unit heaters or repair and service parts therefor covered by this section shall be his maximum price to each class of purchaser in effect on February 4, 1946, plus the actual dollars-and-cents increase in present cost resulting from the increase granted the manufacturer under this section and of which he is notified by the manufacturer.

(f) *Profit factor for use in connection with adjustments under section 1.2 (a) or (b).* Any manufacturer of the types of burners or repair and service parts therefor covered by this section, filing an application for adjustment in accordance with section 1.2 (a) or (b) may use in connection with such an application the industry profit factor of 7.2 percent.

(g) The term "gas-fired conversion burner" means any burner designed specifically to permit the conversion of any coal-fired or oil-fired warm-air furnace or heating boiler to the use of a mixture of gas and air as a fuel.

The term also embraces sub-assemblies, repair and service parts specifically designed and produced as a sub-assembly therefor, repair or service parts for use on or in connection with a gas fired conversion burner.

This amendment shall become effective February 5, 1946.

**NOTE:** All reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 31st day of January 1946.

Administrator.

[Region III Order G-6 Under RMPR 251]

SPECIFIED RE-ROOFING IN JEFFERSON COUNTY, KY., AND FLOYD AND CLARK COUNTIES, IND., AREA

An opinion accompanying this order issued simultaneously herewith has been filed with the Division of the Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable, and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, and by section 9 of Revised Maximum Price Regulation No. 251, it is ordered that:

SECTION 1. *What this order does.* This order fixes maximum prices for all sales of re-roofing when sold installed on resi-

dential structures in the area hereinafter described. It also includes incidental construction work when sold by installers of re-roofing, whether such a sale is made as a part of a general contract or not. The term "re-roofing" includes composition re-roofing such as asphalt shingles, mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal or slate re-roofing. The term "re-roofing" when sold installed means and includes related materials such as nails, mastic and flashing around chimneys and vents. The term "incidental" construction work means any installation of building materials or construction work other than installed re-roofing described in this order when sold by installers of re-roofing.

SEC. 2. *Applicability.* This order shall apply to all sales made in Jefferson County, Kentucky, and Clark and Floyd Counties in Indiana.

SEC. 3. *Relationship of this order to Revised Maximum Price Regulation No. 251.* (a) The provisions of this order supersede sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing when sold installed on residential structures. All other provisions of Revised Maximum Price Regulation No. 251 not inconsistent with this order are applicable to transactions covered by this order.

(b) On and after the effective date of this order, regardless of any contract or other obligation, no person shall contract to sell, offer to sell or deliver re-roofing sold on an installed basis on residential structures as herein defined, at prices higher than the maximum prices established by this order: *Provided*, That deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. 4. *Maximum prices for sales of re-roofing on an installed basis.* The maximum prices for sales of re-roofing on an installed basis on residential structures shall be as shown in the following table, and shall be upon a price per square basis.

12" (3 in line) Strip Shingles, 210 lbs.	\$11.50
11- $\frac{1}{2}$ " Hexagon Strip Shingles, 167 lbs	10.00
Re-Roofing Type Shingles, 138 to 140 lbs	10.00
Roll Roofing Mineral Surface, 90 lbs.	5.00

The above prices include nails, mastic and flashing around chimneys and vents.

On all sales of re-roofing on an installed basis covered by this order, an additional charge of 50% of the maximum price per square may be made for the actual areas of the following covered only. Towers, eye brows, bay windows, overhangs and shelves.

SEC. 5. *Guaranteed prices.* A seller may sell a re-roofing job covered by this order on the basis of a guaranteed price, but such guaranteed price must not be higher than the maximum price figures in accordance with the pricing methods and requirements of this order.

SEC. 6. *Incidental construction work.* If, on any job, any installed building materials are furnished or any construc-

tion service performed by the seller, other than re-roofing the cost of such work shall not be included in the cost of installed re-roofing but shall be separately priced and billed on all invoices. The maximum price of any incidental work shall be determined under Revised Maximum Price Regulation No. 251, or other applicable regulation or order.

**SEC. 7. Measurements.** It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 10% from the maximum price computed under the terms of this order.

**SEC. 8. Notification.** Every person making sales subject to this order shall, if requested by the purchaser, make available to the purchaser a copy of this order and copy of Revised Maximum Price Regulation No. 251. **SPECIFIED INSTALLED SIDING IN LOUISVILLE, KY., AREA**

An opinion accompanying this order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator by section 9 of Revised Maximum Price Regulation No. 251, and by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Order No. G-7 is hereby issued.

**SECTION 1. What this order covers.**

(a) This order covers (1) all sales of composition siding on an installed basis, (2) construction services preparatory to such installations, and (3) incidental construction services unrelated to such installations.

**SEC. 2. Definitions.** "Composition siding" means types of siding used in new and re-siding jobs, such as asbestos-cement and insulated brick or stone but not wood shingles or wood siding.

"Installed basis" means a transaction in which the seller furnished composition siding and related materials or services required to incorporate such siding into a building or structure.

"Related materials or services" means the furnishing and installation of leveling strips, felt, felt strips, corner beads, calking, mouldings, nails and other materials; labor cost, other job costs, commissions or brokerage directly related to and necessary to such installations.

"Construction services preparatory to such installations" means all services which are necessary to place a structure in repair prior to installation. (Example: Boxing in of concrete, cement block, natural stone or brick basement walls, construction of new dormer, etc.)

"Incidental construction services unrelated to such installations" means separate work or services which may be performed apart from siding installations (for example, roof repairs, painting, etc.) and not necessary for direct siding installations.

(b) The kinds of siding installation covered by this order are: (1) asbestos-cement siding of standard surface hardness, (2) composition siding of insulated brick or insulated stone.

**SEC. 2. Relationship of this Order No. G-7 to Revised Maximum Price Regulation No. 251.** (a) The provisions of this order supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251, except as otherwise provided in this order, with respect to sales of siding on an installed basis.

(b) Except as otherwise provided herein, all transactions subject to this order shall remain subject to all provisions of Revised Maximum Price Regulation No. 251, together with all amend-

ments that have been or hereafter may be issued.

**SEC. 3. Geographical applicability.** This order shall apply in the Louisville, Kentucky, area, more particularly defined as the counties of Jefferson in Kentucky, and Floyd and Clark in the State of Indiana.

**SEC. 4. Maximum price for sales of siding on an installed basis, including related materials and services.** The maximum prices for sales of siding on an installed basis, including related material and services, shall be as shown in the following Table I of this section, and shall be upon a price per square basis for the kinds and sizes described. Such prices include:

(a) The cost of siding materials delivered to the site where the installation is to be performed.

(b) The cost of accessories used in the installation of the siding, which means, but is not limited to, leveling material, backer board, felt and/or felt strips, corner beads, calking, moulding, nails or other necessary material.

(c) Labor costs, including Federal old-age benefits, unemployment compensation taxes and workmen's compensation and public liability insurance.

(d) Other job costs, including but not limited to trucking, removal of rubbish, rental of scaffold or other equipment (if any).

(e) Margin, which includes commission or brokerage.

TABLE I

Per square

The maximum prices are as follows:

Asbestos siding.....	\$26
Composition siding insulated brick and stone.....	23

The above prices include all related materials and services.

**SEC. 5. Measurements.** It shall be the seller's responsibility to ascertain that all measurements of the area to be covered are accurate; such measurements including allowance for wastage and overlap shall be made as follows:

(a) On installation jobs of ten squares or less, sellers shall compute the overall area to be covered with siding without allowance for doors or windows. On installation jobs of more than ten squares, the seller must deduct one-half of the area of doors and windows from the overall area, or

(b) Sellers may use the following alternative method of determining the net area on which the contract price shall be based: Deduct the full area of all windows and door openings from the over-all area; to the net area so determined, add 8 percent, bringing the resulting figure up to the nearest larger half or full square.

A tolerance of 3 percent of the net area may be allowed in either of the computations under paragraphs (a) and (b) above; if in excess of 3 percent, an adjustment will be required to the area established by paragraphs (a) and (b) above.

**SEC. 6. Maximum prices for certain services—(a) Construction services preparatory to installations.** The maximum prices that may be charged by sellers of

preparatory construction services which are necessary to place a structure in repair prior to installation shall be the maximum prices established in accordance with Revised Maximum Price Regulation No. 251.

(b) *Incidental services unrelated to installations.* The maximum prices that may be charged by sellers of incidental services unrelated to installations shall be the maximum prices established in accordance with Revised Maximum Price Regulation No. 251.

**SEC. 7. Quoting a "guaranteed price".** The seller may offer to sell a siding job covered by this order on the basis of a "guaranteed price" wherein the seller agrees to charge a fixed amount, *Provided, however,* That the so-called "guaranteed price" must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. Upon completion of the contract, if requested by the purchaser, the seller is required to furnish the purchaser with an itemized statement showing the number of squares, the net area and the maximum price per square for the material used as shown in Table I above, and an itemization of the amount for incidental work.

**SEC. 8. Notification to purchaser of existence of order and Revised Maximum Price Regulation No. 251.** Every person making sales subject to this order shall, if requested by the purchaser, show the purchaser a copy of this order and Revised Maximum Price Regulation No. 251.

**SEC. 9. Revocation.** This order may be revised, amended or revoked at any time by the Office of Price Administration.

This Order No. G-7 shall become effective January 21, 1946.

Issued: January 10, 1946.
