SUBJECT: Reconversion Permit for Reparations Plant

TO:

1. In accordance with Memorandum from the Supreme Commander for the Allied Powers to the Japanese Government, dated 22 November 1946 (SCAPIN-1355), the Nihon Hensyo K.K. is permitted to produce at their Yokosuka Factory located at the ex-naval airplane Repair Depot (33-36) the following additional items:

Item	Maximum Quantity
Wooden Boat Repairs	200 gross tons monthly
Wooden Boat Construction	30 gross tons monthly
Fitting and Repairing Boats Engines	8 tons monthly
Furniture and Fittings	Unlimited
Metal Fittings	2 tons monthly

2. The temporary use of the following additional reparations machinery is authorized:

35 items on attached list.

3. A program will be immediately initiated to substitute non-reparations machinery for reparations machinery in temporary use.

4. The acquisition of material, parts and sub-assemblies as well as the disposition of finished products and the establishment of sales prices will be in accordance with the regulations of the Japanese Government.

5. This permit is issued subject to any and all directives affecting reparations plants which have been issued or may hereafter be issued by the Supreme Commander for the Allied Powers. Reports will be rendered as required by current directives and instructions.

SUBJECT: Application of the Daido Sangyo K.K. for Authorized Use of Reparations Equipment of the Former Maizuru Naval Arsenal (22-24).

R.A.R. No. 42 (NS) 1, Februaly 1950.

1. Reference:

a. SCAPIN-629 (20 Jan. 46) subject: "Custody, Control and Protective Maintenance of Japanese Aircraft Plants, Arsenals and Laboratories".

2. The Reparations Agency hereby submits to your Headquarters an application of the Daido Sangyo K.K. for Authorized Use of the reparations equipment of the former Maizuru Naval Arsenal (22-24), together with recommendations of the Ministries of Transportation and of Finance as inclosed herewith.

3. The subject company, which has been engaged in the construction and repair of wooden boats as well as in the maintenance work of the reparations equipment belonging to the said Arsenal within the confines of the automobile repair shop of the 41st Naval Aeronautical Depot (22-26), wishes to increase the production by utilizing thirty-five (35) reparations machines of the said Arsenal and a part of the warehouse of the said Depot. This utilization would enable the subject company to enhance its productive capacity per month from 80 to 200 gross tons in the repair, and from 8 to 30 gross tons in the construction of wooden boats.

4. As the demand for the construction and repair of wooden boats which are to be used for fishing and local transportation is considerably large now in Japan, particularly in the Maizuru district, the proposed increase of production is recognized as desirable and appropriate.

5. Such being the case, it is earnestly requested that your Headquarters be good enough to give a special consideration to the application.
