The character of the Lehigh coal is so well known, that it is not deemed necessary to subjoin any recommendation of its quality. It is sufficient to state, that for parlor grates, stores and culinary uses, no coal is more generally approved in this place; while as fuel for steam engines, for melting, heating brewers' and dyers' coppers, null-works, form littles and rolling and sitting millt, it has decidedly the preference on account of its greater durability and cleinliness, to the extent of more than two thirds of the measuremate consumption of anthractic coal for those purposaggregate consumption of anthracite coal for those purposes in Philadelpina and its vicinity.

The Lehigh soft coal ignites more easily and burns more fixely than the hard—and on that account is preferred by

It is to be understood that they must take their regular turn to load—and no claim for demurrage should they wait for their turn, or claim for any other cause beyond the Company's control can be allowed. With every disposition to accommodate their correspondents, the Managers will use their best endeavors, as

The Managers have further directed me to say that, s muld they make any reduction this year from the prices for the export trade, named in this circular, persons giving previous orders shall receive the benefit of such reduction; it the same time, the Managers do not preclude themselves om advancing the price with the advance of the season should they dem it expedient; but orders a cepied with not Yours, with respect,
