VICK'S PRICED CATALOGUE SEEDS, BULBS, PLANTS

FOR DEALERS ONLY.

It is a pleasure to present to Merchants and all who deal in Seeds my WHOLESALE CATALOGUE for 1882, because I think a finer and truer lot of seed was never offered to the public. The prices, I hope, will be satisfactory, for they are as cheap as good seed can be sold. Of the quality I have no concern. They will make those who sow them happy, and do the rest of us great credit.

Poor seeds have been scattered all over the country—left at stores to be sold on Commission. I send out no Seeds on *Commission*, nor have I any COMMISSION SEEDS to sell. No Seed grower can afford to Commission FRESH SEEDS OF FIRST QUALITY, one-half of which are returned at the end of every season, to be thrown away or SENT OUT AGAIN AS FRESH SEEDS.

Merchants have preferred Commission Seeds because in handling them they take no risk, and only pay for what they sell; but it is not well for the credit of the Merchant, nor for his conscience if he wishes to deal justly with his customers, and in many cases both discourages and wrongs the purchaser, who often sows in vain and seldom reaps the reward of his labor.

I propose to furnish Merchants and the People with fresh seeds, that with ordinary care will grow and produce the most improved and choicest Vegetables and the most elegant Flowers, and thus encourage their culture, until every table shall be supplied with healthful food, and every little yard and every cottage garden shall blossom as the rose.

As I furnish Dealers with seeds of last season's growth, not more than five per cent. of all stock that may be left over will be less valuable the second than the first. Of such varieties as are not reliable the second year I give customers full information.

WHOLESALE PRICES.

All Flower Seeds in papers at SIXTY PER CENT. off retail prices.

Vegetable Seeds in our usual papers at one-half retail prices.

Ounces, not otherwise priced, FORTY PER CENT. off retail prices. Four quarts, or more, at peck prices; pints at quart rates.

Cloth Bags, when necessary, will be charged only cost. No charge for packing, boxes or cartage, but we pay no Postage, Freight or Express charges, except on the Flower and Vegetable Seed Boxes described on the three next pages. When goods are ordered by mail, postage will be 20 cents per pound additional.

Special prices will be given on MISCELLANEOUS ARTICLES, such as Pots, Vases and other Ornamental Goods and Garden Requisites, and Catalogues furnished.

Prices by the pound, bushel, peck, &c., will be found in the body of this Catalogue.

TERMS.

All accounts for Seeds, Bulbs, Plants, etc., made before the 1st of June will be due at that date, and all made after that time will be due December 1st. A discount of one per cent. per month will be allowed when payment is made previous to these dates. Bills for Florists' Requisites, such as Baskets, Bouquet Papers, Tin Foil, Immortelles, Wire Designs, etc., due sixty days after date of bill.

GRASS SEED, CLOVER SEED and ONION SETS net cash.

Satisfactory reference required from all new or unknown correspondents desiring credit.

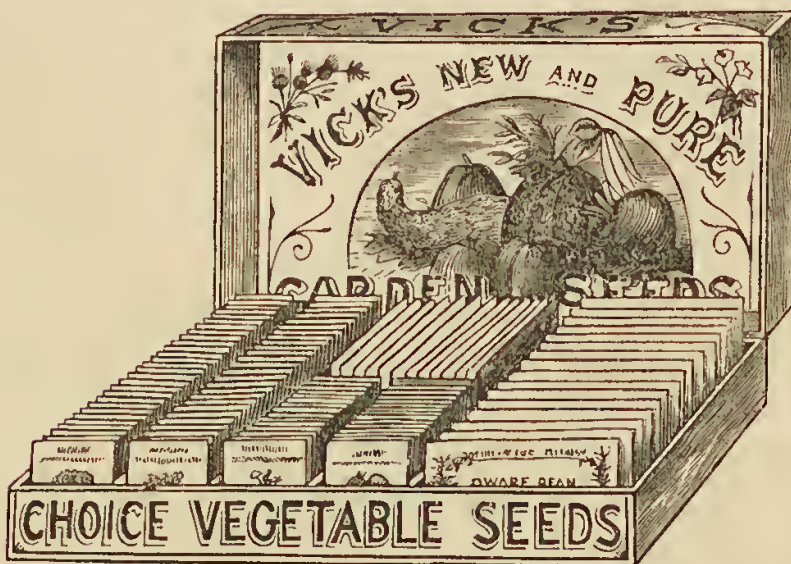

Orders not accompanied by remittance or satisfactory reference will be sent by Express, C. O. D., if enough money is sent with the order to cover Express charges.

Our Boxes of Flower and Vegetable Seeds will be found very convenient for Dealers, and they are such as our experience has taught us are usually called for. Changes can, however, be made to suit any Dealer or any market. To assist Dealers in the introduction of our Seeds, we will PAY EXPRESS CHARGES ON THESE BOXES.

Splendid Colored Show Cards furnished Dealers.

Our beautiful FLORAL GUIDE we will furnish Dealers at \$3.00 per hundred. Retail price 10 cents each, and even this is less than cost.

Vegetable Seed Box.

CUCUMBER.

EARLY WHITE SPINE.

Plant Cucumber seed, for the table, as soon as the weather is warm. For pickles it is not necessary to plant until the middle of June. Make the hills rich with well-rotted manure, and plant a dozen seeds in each hill; cover half an inch. When danger from insects is over, pull up all but three or four.

Early White Spine is an excellent variety for the table, with some white on the flower end; a good bearer and liked by market gardeners.

Price, 5 Cents.

JAMES VICK, Rochester, N. Y.

ONION.

DANVERS YELLOW.

Give the Onion a clean, rich soil, and get the seed in the ground as early as possible in the spring. Sow in wide, shallow drills, not less than twelve inches apart; the seed in the drills should be scattered evenly, say half an inch apart. If too thick, thin out a little when the Onions are the size of quills. Keep the ground clean from weeds, but don't draw the earth over the young Onions.

Danvers Yellow Globe is a fine, large, rich, yellow globe-shaped Onion. One of the handsomest grown.

Price, 10 Cents.

GLADIOLUS.

For many years I have been growing GLADIOLUS in very large quantities, both from imported Bulbs and Seeds, and my collection is now unsurpassed, if equaled, by any in the world.

The varieties named below are all of my own growing, and very fine bulbs. The errors and mixtures which so often occur with imported bulbs I have carefully corrected when the plants were in flower, so that I can say that I believe my stock to be *absolutely true to name*, while my prices will be found much lower than those of European growers. I therefore call attention to the following list, and solicit orders from the trade.

UNNAMED GLADIOLUS.

Our unnamed Gladiolus are really very fine. The bulbs we offer are sound and perfect in every respect, and we are confident they will produce flowers of excellent quality. A large portion of them are our own seedlings, and beautiful. Many of the latter produce flowers that are equal in beauty to our best named varieties. They are not poor because cheap.

PLANTS and BULBS.

The plants named are offered at the rates quoted, provided that not less than six of each class or variety is taken. No order will be filled from this list for less than five dollars.

While we wish to allow our customers to select the varieties of Geraniums, Roses, &c., still we reserve the right to substitute, in case our stock will not warrant the sending kinds chosen.

Many of our customers select new and high priced plants from our FLORAL GUIDE, and expect us to furnish them at the same price we offer their respective class here. This we cannot do; but will allow a discount of 50 per cent. on all new or high priced plants, and 33 1/3 per cent. on bulbs not offered in the following list.

No charge made for packing. Purchasers to pay their own Express charges.

ROSES.

We take pleasure in calling the attention of our customers to the great inducement we offer in Roses. Our stock is in splendid condition. The plants are all pot grown, vigorous and healthy, and we think the price is as low as good plants can be obtained. We have in stock all the leading and standard varieties, and wish to leave the selection to the persons ordering; but should our stock of one or more varieties be exhausted, we reserve the right to fill all orders to the full number, either by adding to other varieties that may be ordered, or by substituting, unless otherwise directed.

DAHLIAS.

For a number of years I have cultivated the Dahlia extensively, having obtained everything new and promising from Europe, and also grown many seedlings of great merit. I have, however, scarcely ever been able to meet the demand, so, when in England, last summer, I visited the grounds of those celebrated Dahlia growers, KEYNES, of Salisbury, and TURNER, of Slough, and selected many thousands, and hope this season to be able to satisfy all calls. Choice named varieties, well assorted as to colors, \$15.00 per hundred.

LILIES.

Our stock of the leading varieties of Lilies is large and of fine quality. The following are hardy, valuable sorts, that give satisfaction.

Water Lily, (Nymphæa odorata,)	12 00

POTATOES.

Owing to the severe drouth of the past summer, the crop of Potatoes is very short, and the prices are necessarily higher than last season. We have in store a large stock of the following varieties, and will fill all orders at the prices given as long as our stock lasts. Orders will be booked in the order they are received, and filled in a like manner as far as practicable. We can give special prices on some varieties when a large quantity is desired. For description and engravings, see VICK'S FLORAL GUIDE, pages 112 and 113.

ONION SETS.

The yield of Onion Sets has proved very short this year, owing to the continued drought throughout the past summer. I have, however, secured a few hundred bushels of very fine quality, which I offer to the trade at the following prices for orders received on or before February 10th. Later orders will be subject to the advance of the market.

PAINTED.

Painted Labels. The entire surface of these labels is thoroughly saturated with paint, making them write smoothly and leaving a deep black and permanent impression from an ordinary pencil. Our new process also preserves the labels from decay, especially on the point inserted in the earth, which part is not usually painted when done by hand.

Add 30 per cent. to above prices when painted labels are desired.

WESTCHESTER PRUNING SHEARS.

These Shears are made under the supervision of a person who has for years given especial attention to pruning and pruning implements. The whole Shear is made of steel. The cutting blade is manufactured expressly for the purpose by a process which gives the greatest density and toughness, and they can, therefore, be depended upon for taking a fine edge, for cutting easily and for keeping sharp a long time. Each \$1.05; by mail, prepaid, \$1.25.

ACME LAWN SPRINKLER AND FOUNTAIN.

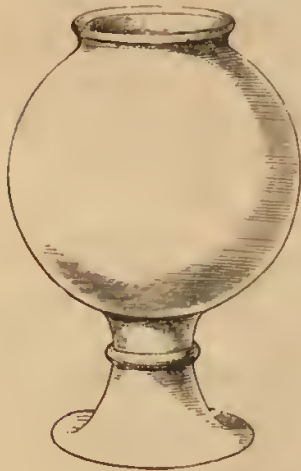

The Most Effective and Simple Lawn Sprinkler Made.

With the usual force of water furnished by water works it will sprinkle a space from thirty to forty feet in diameter, possessing the great advantage of breaking the water into fine particles and distributing it evenly upon the surface it covers. It has no working parts to wear out, nor small perforations to stop up with any sediment that may be in the water. By a simple mechanical appliance the motion is given to the water instead of the Sprinkler. It is portable, No. 1 weighing only 8 ounces; No. 2, only 5 pounds, and No. 3, with Hose Reel Attachment, holding one hundred feet of hose, 15 pounds.

Price, No. 1, \$9.00 per dozen; No. 2, \$18.00 per dozen; No. 3, \$36.00 per dozen.

DAVIS' LAWN RAKE.

This is, in our opinion, the best Lawn Rake ever constructed. The teeth are made of the best quality of Spring Steel, and so formed that they cannot tear the grass, yet they remove all leaves, loose grass, stones, fallen fruit or other rubbish with the greatest ease, and in one-quarter the time it can be done with an ordinary rake. Garden and Flower beds can be prepared for the seed by the use of this rake in less time, and better, than it can be done with any other tool. An illustrated Circular sent on application. Per dozen, \$6.50.
