On November 25 was Published, No. XI., New Series, Price 8d and 81d,

THE INVESTOR'S MONTHLY MANUAL. The INVESTOR'S MONTHLY MANUAL for November gives the Highest, Lowest, and Latest Prices of Stocks, Shares, and other Securities during the Month, the mode in which the Dividend in each case is payable, the last four Dividends, &c. It also contains

A FINANCIAL RECORD OF THE MONTH;

New Capital Created and Called; Table of Railway Traffic Receipts; Notices and Reports of Stocks, Failures, Railway, Banking, Finance, Insurance, and Miscellaneous Companies; New Companies and New Capital. Prices made up to November 22.

Advertisements for the next Number, to be published on December 30, must be sent, to insure insertion, on or before December 28.

The December Number of the INVESTOR'S MONTHLY MANUAL will give, in addition to the usual information, the Highest and Lowest Prices of all Stocks and Shares for the Highest and Lowest Prices of all Stocks and Shares for the last Three Years, the latest quotations for 1870 (so as to indi-cate the Exact Movement during the Twelve Months), a Com-plete Directory, the names of the Markets where each Security is chiefly dealt in, a Financial History of the Year 1871 (including a Tabulated Chronicle of Events), besides Memo-randa relating to the Financial Position of Foreign and Colonial Governments, to Railways, &c., &c. A copious Index will be added for purposes of reference. will be added for purposes of reference.

This DOUBLE NUMBER will be published on Saturday, the 30th of December. Price 1s 4d; by Post, 1s 4½d. OFFICE-340 Strand.

of plausible conjecture. When the return was issued almost everyone imagined that its one very singular feature-the increase of 2,000,000l in the Bank post bills-was connected with the payments now in progress to Germany on account of France. But this is an entire mistake. They were connected with a large American operation, to which we a week or two ago alluded as likely to cause a considerable demand for funds in the market. The bills were issued to Messrs Jay Cooke, MacCulloch and Co., in furtherance of this opera-

scribed the operation was merely one of conversion, and no money need have passed ; but probably the bonds have not come forward in sufficient quantity, and in this, or some other way, a sum in cash, amounting to 2,000,000l, has to be remitted to the American Government. This has to be done in some form, and therefore there is a demand on our cash to that extent. For the moment, at any rate, the 2,000,000l, is taken out of the money market; it has ceased to be in the lendable form of private deposits, and has taken the comparatively inefficient and unlendable form of Bank post bills.

We believe that the Bank post bills have not yet left London, and that it is not thought that they will leave it. But the effect on our market is the same; the 2,000,000l is taken away from our market, is deducted from our lending powers just as much, though it may be locked up here, as if it had gene abread. And as we understand the operation, the Bank post bills are to be held here as a security against drafts from America; acceptances have been given on the deposit of them, and for the purpose of the general balance of payments between America and England, this is exactly the same as if the post bills had themselves been sent to America.

By way of a further complication, however, it is thought that a counter-credit may be established in England in favour of America. A new set of 5-20 bonds is to be called in. And although these are only due in March, yet it is pro-bable, judging from our experience of the last set, that many will be sold here, and bought on American account. But of course this, as it relates to the future, is only hypothesis. The immediate fact is that 2,000,000l are for a short time removed from our market, and so far will render money dearer.

This curious operation comes on at a time when we have so many other singular phenomena in the money market that we want no additional perturbing element. Happily, the German difficulties, on the other hand, are much less than they were. The Imperial Government is now lending its resources on good terms, and is likewise engaged in extensive plans for paying off Treasury bills when due, and for buying up the current obligations. And this somewhat tardy adoption of a rational policy contributes to the present ease of our money market, and makes any future acute disturbance of it much less likely.

THE ECONOMIST.

THIS YEAR'S BAILWAY TRAFFIC, AND THE COMING DIVIDENDS.

So much of the current half-year has now passed that the results of the increased business done by our home railways are no longer doubtful. In the four weeks which remain before the accounts are made up by the majority of the companies, a slight check to the past rate of increase in the trailic, which does not seem very probable, would not make any material difference in the dividends calculated on the assumption that the past rate will continue to the end of the year. In the case of one or two companies, there are still eight weeks' traffic to come, and consequently a greater chance of error ; but a minimum calculation for the time that has to elapse is almost certain not to err on the side of excess. We propose, therefore, to analyse the increase of railway business which has taken place during the half-year, and generally during the whole year, and see what prospects of profit are held out to the ordinary shareholder.

The facts, as they now appear, more than confirm the most sanguine expectations which have been formed during the half-year as to the increase of business in progress. It is still evident that the increase is continuing at an accelerated rate, and this year will certainly be one of the most remarkable in railway history. We pointed out on the 21st of October that the traffic of the eighteen principal companies, of which we give the weekly returns in our money article, had been increasing during the half-year at the rate of 7.8 per cent., and that this was a higher rate of increase than had taken place in the two previous half-years. This improvement has continued without a check to the present time. Reckoning to the 25th of November we find that the rate of increase since the middle of October must have been a shade higher than before, the improvement for the whole half-year to that date having been almost exactly 8 per cent. The figures are :-

Traffic of	f second half-	year, 1871, to	25th Novem	ber	16,664,217
	-	1870	-	*******	15,428,326

In second half of 1870, ov r corresponding half of

We are justified, therefore, in concluding that the present half-year is likely to show a much greater improvement in the dividends than the two previous half-years, in which the present great advance in the value of railway property commenced.

As we found before too, the accelerated rate of increase is still more remarkable if we look at particular companies, as she following comparison shows :---

RATE PER CENT. of INCREASE of GROSS TRAFFIC over Corresponding

Periods of Previous Lear.			
	1st H of 187	alf	in 2nd Half of 1871 to 25th Nov.
Great Eastern	3.3	********	5.3
North-Eastern			
Midland	8.5	*******	10.0
Lancashire and Yorkshire	9.0		10.9
Chatham and Dover	1.9		141
Brighton	6.4		8.4
Sheffield	5.7		8.8

So great a change in the rate of increase cannot but have an important effect on the coming dividends.

The matter may be looked at in a still more general way. Had the above increase been due to the opening of new lines, we could not expect it to be so profitable as it promises to be. But the increase is not due to any such cause. This will be shown by our leaving out the totals, and looking only at the average increase per mile. This increase, as will be seen from one of the subjoined tables, has been on the average at the rate of 31 3s 11d per week during the present year, which would give an average increase of 1661 per mile for the whole year. This is a very different rate of increase

from what has been going on during the last few years. From the Board of Railway Statistics, just published, we learn that—

It is also important to notice, in connection with this mileage increase, that it has been most remarkable in the second half of the year. Dividing the 47 weeks ending 25th November into two nearly equal periods, we find that the average weekly increase—

			್ಷ		u	
In 23 weeks ending	10th June	WBB	2	17	9	
In 24 weeks ending	25th Nov.	was	3	9	9	

Improvement in rate of weekly increase in second period 0 12 0

period Everything, therefore, points to the conclusion that the present year has not only been the most prosperous for railways for a period of twenty years, but that a large part of the improvement is very recent, and within the course of the current half-year. A third point in connection with the exceeding profitableness of the increase of railway business, is the large share of it contributed by passenger traffic. A passenger increase is always more profitable than a goods increase, as the additional passengers cost little more to carry, whereas the cost of conveying goods is always in proportion to the weight. The proportion contributed by passengers is, as we anticipated, less now than in a comparison made just after the autumn traffic was over. being 50.5 instead of 53.5 per cent., but this is a very trifling reduction. Roughly speaking, passengers are now contributing equally with goods to the increase of railway traffic, and the increase must be more profitable than an equal increase confined to goods only. As we are dealing with a larger increase than before, this is another reason for anticipating very important additions to the profits of ordinary shareholders.

In the case of the particular companies which we referred to in October, the proportion of passenger increase is still very much larger than the proportion contributed in the previous half-year, though less than the proportion as it stood in October :

SHARE OF PASSENGER INCREASE in INCREASE OF GROSS TRAFFIC.

States and the set of the set	in 1st Ha of 1871. Per Cent	lf	in 2nd Hal of 1871 o 25th Nov Per Cent.	
London and North-Western	. 15.7		50.	
North-Eastern	. 16.7			
Midland	25.0	********		
Lancashire and Yorkshire	19:0		42.	
Great Northern	. 57.0		96*	
Great Eastern	18-2		54	
Sheffield	. 91		26.	
Brighton	67.6		81.	
Chatham and Dover	. 100-0		82.	

When it is considered what the additional dividends yielded in the first half of the year were, and that the gross increase we are now dealing with is much greater, it is obvious that unprecedented additions to the dividends may now be looked forward to.

The test of everything to the shareholders and the public will be the actual declaration of the greatly improved dividends, which all the facts seem to promise. So far as we can see, there need be little doubt about the matter, even in anticipation. Making as careful and moderate a computation as we can in each particular case (see Table V. below), we believe that, on the whole, the additional amount to be divided among the ordinary shareholders of the leading railways will be 752,000*l*, or very nearly at the rate of 1 per cent. per annum on the ordinary share capital of these railways. This is allowing for an average deduction from the increase of traffic at the rate of 38 per cent. for working

THE ECONOMIST.

1491

expenses, which appears to us ample enough, considering the nature of the traffic, and is certainly in accordance with the results of the last half-year. How important an addition of 1 per cent. per annum to railway dividends will be, it is unnecessary to point out. As to the improvement in particular cases, we must refer our readers to the table which we subjoin. It will be remarked, however, that the most striking improvements are very special indeed—viz., in the case of the southern lines—the South-Eastern, the Chatham, and the Brighton—the two former benefiting by the receipt of the traffic lost by the war, as well as the increased prosperity of the year, and the Brighton gaining by the wiping out of the last effects of the New Cross accident. Apart from these special causes of improvement, the increase in the case of these companies would still have been remarkable.

What should be the present value of railway property in the face of such rapid improvements in the income derived from it? There has been a great rise in railway shares, coincident with the past improvement in the dividends, and in anticipation of the future increase. As we have before pointed out, an investor in present circumstances, who looked only at last year's dividends, and judged the companies by them, would be quite unable to invest. He would see only a poor return for his money, and he must judge in some way what is the expectation of future income, as well as what the present income is. So far as we can judge, there is still room to expect a considerable advance upon present prices. From the subjoined tables it will be seen that in many cases an investor at present prices at the beginning of the year would have received 5 per cent. on his investment -the price not yet being equal to 20 years' purchase of the estimated dividend for 1871. Assuming however that 1872 improves as much upon 1871 as 1871 has done upon 1870, there is a large margin to be covered in every case, within which an investor at the beginning of 1872 would probably be able to receive 5 per cent. on his investment. Of course there can be no certainty that 1872 will increase like 1871, as the improvement entirely depends upon the exceptional prosperit of the country, but we believe there is at least a reasonable probability that no check will occur next year. Good traffics as a rule, run in cycles of four years, and we are still only at the end of the second year. On the average, too, rail way business increases between 4 and 5 per cent. pe annum, so that even if there is a check to business i a year or two, an increase is sure to come sooner o later. Indeed but for accidents we should consider an invest ment in ordinary stock of railways to pay 5 per cent. at once as much too good, compared with other investments, con sidering how great is the expectation of future increase. N doubt there is a farther drawback to the expectation of profi in the rise of wages, which accompanies our present prosperity and the rise in the prices of material used in repairs and re newals. But it is not likely that any such rise in wages an prices will absorb all the future profits.

The one doubtful point about the future will always be the pos ibility of directors' mismanagement. At present there seems less room than formerly for mistakes, each Board having now got a district of its own, but past experience may well excuse investors for being distrustful to the utmost of the folly of their managers. Were it not for this doubt, we are certain that the ordinary stock of railways would stand at a much higher figure than 20 years' purchase of the probable dividend of the current or even of the next year.

Allowing for special causes of improvement in the current year. f It is especially difficult to estimate for the South-Eastern, owing to the change a yee date of making up the accounts, and the confusion caused by the loss of traffic in the date of ma through the war.

THE TRANSLATION OF SIR R. COLLIER.

It is impossible for the best friends of the Government to deny that a very serious and very gratuitous blunder has been made in the translation of the ex-Attorney-General, Sir R. Collier, from a Judgeship in the Common Pleas, filled only pro forma and for a few days, to the Judicial Committee of the Privy Council, in clear contravention of the spirit of the Act of this year. The facts of the case are perfectly clear and simple. The Judicial Committee Bill of the previous year contemplated making even barristers of sufficient eminence Judges of this Supreme Court of Appeal. In the Judicial Committee Bill of last year, which passed into law, this provision was cancelled, nor were the offices of the Attorney and Solicitor-General mentioned as directly quali-fying for a seat on the Judicial Committee of the Privy Council. The qualification entitling to that office was very carefully and explicitly described :- " Any persons appointed to act under the provisions of this Act as members of the said Judicial Committee must be specially qualified as follows; that is to say, must at the date of " their appointment be, or have been, Judges of one of Her " Majesty's Supreme Courts at Westminster, or a Chief Jus-" tice of the High Court of Judicature at Fort William, in " Bengal, or Madras, or Bombay, or of the late Supreme Court

" of Judicature at Fort William, in Bengal." No provision could be more explicit. The Lord Chief Justice's remark in his really quite unanswerable as well as unanswered letter to Mr Gladstone, that if, as might have easily happened, an Indian Chief Justiceship had chanced to be vacant, the appointment of the Attorney-General to that office, with no intention of sending him out to India, but simply for the purpose of qualifying him, according to the letter of the Statute, to sit on the Judicial Committee of the Privy Council, would have been in no degree more objectionable in principle than what has now actually occurred, brings out the completely evasive and in fact discreditable nature of the arrangement in the strongest light. The Lord Chief Justice does not speak too strongly when he says that such a palpable evasion of the spirit of an Act of Parliament in relation to a judicial appointment is a real degredation of the judicial office.

It is not the least defence to say, as the Government probably will say, that when the eligibility of eminent members of the bar for this office, as proposed in the Bill of the previous year, was rejected, it was not expressly intended to exclude the Attorney and Solicitor-General, who have always ranked above ordinary members of the bar, and who usually expect, if they accept a seat on the Bench at all, a seat higher than one of the puisne Judgeships. That may be so. We might even concede as much as this, it may have been due to a mis--possibly even to a mere oversight-that the Attorney takeand Solicitor-General's names were not included in the list of officers eligible directly to the Judicial Committee of the Privy Council, though of course this cannot be proved, and to all appearance the Act positively requires a real experience as a Judge in some lower Court. But as the Lord Chief Justice points out, the fault of this appointment does not consist in selecting a man who is not fit for the office he is called upon to fill, but in selecting one who cannot legally accept it without a contrived and deliberate evasion of an Act passed only last year, the plain meaning of which is that only men with the real experience of a Judge are to be appointed to the Court of Appeals, though of course it is open to anyone to maintain that the Act would have had some different meaning, if the attention of Parliament had been called to an omission in it. If you may disregard the obvious drift of the law only because you think the law would have been different if more attention had been paid to a particular point, there is no limit to the number of tricks and evasions by which the letter of the law might be covered and the spirit evaded, and which it might even become the direct office of the Law Officers of the Crown to recommend. For a Government to set the example of such evasions, and to set that example in relation to the qualification of a Judge, is unquestionably to strike a serious blow at the respect for law on which we English justly pride ourselves.

And the blunder is quite as bad in relation to the prospects of the particular administration now in power, as it is in relation to the plain laws of administrative morality. If anything in the world is dangerous for Mr Gladstone's Government it is to confirm the impression popularly, and, on the whole, falsely formed of it, that it is given to subtlety and double dealing. Mr Gladstone himself has a dangerous skill in fine distinctions, which has often created this impression when his mind and purpose were as simple and innocent as a child's. There is something fascinating to him in drawing a very fine distinction, and foiling an adversary's attack by a hair's breadth of deviation from the point at which he had aimed. There is no quality which Parliament less likes, or which the country itself more actively disapproves. Yet this naked adherence to the letter and evasion of the spirit of the Judicial Committee Act for the purpose of elevating Sir R. Collier to the Judicial Committee, will produce a widespread impression of unscrupulousness and of the artfulness of Mr Gladstone's administration all over the country, and will put a feeling of something like contempt into the hearts of numbers of his most loyal followers in Parliament. And this impression, bad enough in itself, will be greatly strengthened by the very unfortunate note in which Mr Gladstone refers the Lord Chief Justice to Lord Hatherley for the answer to his protest. In that note Mr Gladstone refers to the double transaction, the election of Sir R. Collier to the Common Pleas for the purpose of his subsequent election to the Judicial Committee of the Privy Council thus :--- " As the " transaction to which it [the Lord Chief Justice's letter" "refers is a joint one, and the completed part of it, to

THE ECONOMIST.

"which you object, is the act of the Lord Chancellor, I have "referred your letter to him." Now, the Lord Chief Justice only objected to "the completed part of it," on the hypothesis that it was done only as "a means to an end." He did not in the least object to Sir R. Collier becoming a Judge in the Common Pleas; he did object to his becoming a Judge in the Common Pleas for a few days only, to satisfy the letter of the Judicial Committee Act. The real objection, therefore, was not to "the completed part of the transaction," but to the purpose for which that completed part of the transac-tion had been carried out. No doubt the Lord Chancellor had given his authority both to the elevation of Sir R. Collier to the Common Pleas, and to the intent of that elevation, merely to qualify him for the Judicial Committee. Still that intent could never have been entertained without the consent of the Prime Minister, and it is therefore the Prime Minister who ought to answer for it, -or, if he does not, at least to take the full responsibility of the Lord Chancellor's answer. Mr Gladstone's note amounted to an evasion of that responsibility, and an evasion under a sort of quibble, which gave to that other evasion, the evasion of the Act itself, a still more unpleasant prominence. Mr Gladstone had really nothing to gain and much to lose by this unnecessary distinction. He did not, and could not, for a moment suppose that he escaped any real responsibility by putting it forward. It was for the mere pleasure of taking a distinction which would stave off any necessity of an immediate answer, that Mr Gladstone must have insisted on this distinction between "the completed part of the transaction," for which Lord Hatherley has to answer, and the subsequently to be completed part for which he himself must answer. Yet no pleasure could have been dearer bought. It will go far to persuade the world that Mr Gladstone delights in the ambiguities of an indirect strategy, that he heartily approves of a ruse. He steals a march on the law, and then he steals a march on the Judge who vindicates the plain meaning of the law, by an ap-parently wilful misunderstanding of his exact meaning-and all for no real end. The Government have gained very little by the promotion of Sir R. Collier. The Prime Minister has gained nothing by inducing Lord Hatherley to say that he will explain and defend his own advice when the proper time comes. But he has gained a new reputation for what is not the highest kind of finesse, and for which he unfortunately had beforehand a far more widespread reputation than he deserved. The translation of Sir R. Collier has been a blunder from beginning to end, and will win for the Minister the credit of delighting in political stratagem and the finer subtleties of excuse. There is no cast of character the credit of which could, in the eyes of ordinary political English critics, be in reality a greater discredit than that. And the discredit which no doubt the Government really deserves for this series of elaborate mistakes, will be a trifle to that which it will actually incur. People will not believe that errors so patent could have been made with purposes so innocent as those which all who really understand the sinuosities of the Prime Minister's mind will see to have been his real purposes.

BOARD OF TRADE RETURNS.

THE Board of Trade Returns for November were issued this week, and again show very satisfactory results, both as regards the inward and outward clearances. It is worthy of remark that the increase in the transactions, as will be seen from the figures below, has been fairly distributed over all the leading branches of trade. The declared value of the articles imported during the eleven months was in—

BUSINESS NOTES.

M. THIERS AND FRENCH FINANCE .- We have not yet the full text of President Thiers' message, but the telegrams leave very little doubt that he is bent on committing almost every capital error open to him, in respect of his financial and fiscal policy. In the first place, he is resolved on denouncing the commercial treaty with England. Not having been able to secure Protectionist alterations in it so as to make it a treaty of the old type, which was followed in the negotiation of the recent Alsace and Lorraine convention, he has resolved on getting rid of it altogether. In the second place, in conformity with this obstinate adherence to Protectionist policy exemplified in denouncing the Anglo-French Treaty, he proposes to increase the Customs' duties, including, we observe, a duty of 12 to 15 per cent. on fabrics of mixed cotton and wool. If M. Thiers has his way, France will thus be hindered in dealing with its best customer, besides being doubly taxed-for the benefit of the protected home producer more than of the State. A third blunder of M. Thiers is the policy which he announces respecting the circulation of the Bank of France. Instead of following the manifestly sound policy of paying off the State debt to the Bank, and so enabling it to resume specie payments, he chooses to involve the conntry in all the evils of an inconvertible currency, which produces mischief enough already, and will become additionally mischievous with each percentage of depreciation. France is paying dearly for the privilege of having a politician of the old school at its head, when fiscal errors are in danger of being adopted at so critical a moment. Great as the material injuries of the war have been, we doubt if they will be so serious as the aggravated injuries which these errors of policy will inflict.

THE INSURANCE COMPANIES AND THE CHICAGO LOSSES.— The New York Commercial Chronicle publishes the following table, showing the number of insurance companies losing by the Chicago fire, the amount of the losses, and the number of companies which have been obliged to suspend payment in consequence. It will be observed that the number of companies suspending is very small, only a sixth of the total number affected, although the losses on the average are more than half the gross assets :—

BROKERS AND PRINCIPALS.—Several recent cases, one of which was heard last week and is still undecided—viz., the case of Mollett v. Robinson—have given rise to some discussion about the position of brokers in the City. Various customs

have grown up regarding the disclosure or non-disclosure of principals, and the best Judges confess themselves hardly able to tell what is the liability of a broker to his client or to the people with whom he deals on behalf of, his client. The case to which we have referred was one of the most difficult of these, the point being whether a broker, having an order to purchase a certain quan-tity of tallow, was bound to make the purchase all at once, or could make it up by separate purchases, the latter being the course objected to by the client in the case in question, on the ground that the broker had really acted as a merchant. The cases are obviously full of difficulty. When things go well the broker and his principals prefer that the principals' names should not be disclosed; but the broker, if anything goes wrong, objects to being made liable as a principal, though he has disclosed no client's name. On the other hand, a broker who makes up his orders by purchases from different people whose names in turn he does not disclose to his client, may find his client turn round and say that he had not been strictly acting as broker, but had acted as a merchant, the latter charge being strengthened by the very natural suspicion that the broker, in distributing his purchases among various orders to buy, had used a discretion for the apparent disadvantage of some customers compared with the others. Without prejudging the cases still sub judice, it may be remarked that some of the complaints are incidental to the natural competition of business. To do business the broker, in good times, practically guarantees the credit of the buyers and sellers for whom he acts, disclosing no names; but this is unfortunately done without any proper understanding, which the broker himself would shrink from, sheltered as he believes himself to be by the character of agent. With regard to the complaint of a broker making up his orders by various purchases and distributing his purchases, it is obvious both that in practice a broker could not do well for his clients without executing his orders in various lots, and yet that this practice in reality puts him very much in the position of a merchant, which was the accusation against the broker in the case to which we have referred. We should say that the difficulties are really insoluble; but as it is the broker who gives occasion for legal difficulties by occupying an ambiguous position, we doubt if he is the sufferer who ought to be pitied. The clients or dealers, who find themselves saddled with an insolvent principal, or are prevented from having any principal responsible at all, are those who suffer most by the existing arrangements.

NEW RAILWAY AND TRAMWAY BILLS.—There are symptoms of enough restlessness among our railway companies to dissipate a large part of the existing prosperity if directors are not properly looked after. The railway and tramway notices for the ensuing Parliamentary Session are much more numerous than they have been for the previous three or four years, the bare statistics being :—

LISTICS C	eing :-	-		
Notices :	in 1867		171	
	1868	**********	109	
	1869	***************************	78	
	1870	**********************	129	
-	1871	********************************	137	
-	1872	***************************************	198	
	* AA			-

The number, 198, is more than twice the number in the Session which followed the 1867 and 1868 disclosures, though it is happily short of the number, 450, which crowded the notice book of 1866. Unfortunately we fear the bare statistics do not show the whole extent of the mischief, as the companies have grown in dimensions since 1867, and notices embrace a larger field, on the average, than they did in the days of contractors' lines before 1866. We have a distinct impression at any rate that the notices show a very considerable amount of engineering activity, of which shareholders should beware. The notices for the Metropolis alone would occupy a long description. Two of the great companies ask for new modes of access into London. The Great Eastern and the Great Northern both propose a connection with the North London line, the Great Northern also asking for running powers over the North London to Broad street. It is also proposed to incorporate new companies having similar objects in view. Two of these are to give the Midland access to the western parts of the Metropolis-one from Cricklewood to Praed street and the Edgware station of the Metropolitan Railway, and the other by way of the St John's Wood Railway to Oxford street. Other companies are proposed to construct

railways from the Waterloo station of the South-Western Railway to Blackfriars ; from the Metropolitan District Railway at West Brompton (1) to Roehampton, (2) to Barnes, and (3) to Burlington street, Fulham, and the West London Ex-tension Railway; from the west end of Oxford street to the Chatham and Dover Railway, near Farringdon street; from the west end of Oxford street to the London and North-Western Railway at Willesden; from the Great Eastern, North London, and East London Railways to the Metropolitan District Railway, and to complete the inner circle; besides a railway from the South Kensington station on the Metropolitan District Line to the Royal Albert Hall. Not for some years has it been proposed to cut up the Metropolis so much as is now done, and the engineering activity thus exemplified is apparently only a specimen of the schemes throughout the country. Bailway companies are now so big and prosperous that it will take a great deal to hurt them, and the existing companies are apparently responsible for very little; but we do not like to trust very much to the present abstinence from enterprise, and fully expect that next year will produce a much larger crop of projects, which will, sooner or later, tell upon existing companies.

METROPOLITAN DISTRICT DEBENTURES .- We receive the following communication from a correspondent :-

following communication from a correspondent :--TO THE EDITOR OF THE ECONOMIST. SIR,-Some time since you called attention to the relative low price of the above security. Will you allow me, with the light now before us, to confirm your views? The earnings for the current half-year we may place at 78,000/-double that of last year (the figures for 21 weeks are-15,000/, 1869; 30,000/, 1870: 60,000/, 1871). 78,000/, at 45 per cent. working expenses,* would give 43,000/ net, sufficient to pay the deben-ture interest, and 5,500/ for working-stock, rent, &c., &c. This for the first six months of opening would seem to me practically to secure the dividend, and indeed give promise of making it hereafter as secure as any debenture-dividend in the kingdom. If this be so then, being 6 per cent. and irredeemable, it should (if other railway 4 per cents. are not out of range) be worth 150/, now selling at 123, with 3 per cent. dividend about due.-Yours, &c., W. London, Dec. 6. 1871.

London, Dec. 6. 1871.

* The chairman of the Metropolitan stated that they had a profit on the working at 45 per cent., although the traffic was half only of that at present.

THE UNITED STATES' MINISTER .- The American newspapers unite in expressing an unfavourable opinion on the conduct of the United States' Minister in this country in joining the board of a new mining company. According to the New York Commercial Chronicle, this act of the Minister is not only considered unbecoming, but it is an actual breach of the rules of the American diplomatic service, which forbid a Minister to engage "in any commercial speculation whatever." The existence of such a rule is creditable to the good sense of American statesmen, and the obvious inconvenience of General Schenck's recent action shows its propriety. Whatever evils are in store for us during the coming speculative mania, we hope the abuse of the names of diplomatists by promoters and speculators will be prevented by the most stringent rules of the Governments which the diplomatists represent.

Joreign Correspondence.

Advanc The Bank return for the week shows a considerable increase in the margin of notes, due to the reimbursements of commer-cial bills at the end of the month of November and an aug-mentation of the private deposits. The disposable rentes remain without change, showing that the sales were limited to the five millions exhibited in the returns of the 9th and 16th ult. The fears entertained that the settlement at the end of the month would disclose larger realisations, sold for the account, now appear to have been groundless. With the ex-ception of the decrease in the discounts from the cause abovementioned, the other items present little variation compared with the last statement.

The week has so far been passed in a state of expectation from the postponement of the President's address. This afternoon has been fixed for the reading, but up to post hour no accounts have been received from Versailles of its contents. Snow has been falling heavily since noon, rendering the roads impracticable, and delaying the arrival of the trains; it is even very doubtful whether this letter will reach you in time for publication, for our London mail has arrived to-day six hours late. The President's message is anxiously looked for, not only for its own contents, but for the important measures which are to be presented to the Assembly immediately afterwards, namely the Budget and the Bank Bill The former will be the chief measure of the Session, and will probably give rise to a lengthy discussion, for the Minister of Finance and the Committee are as far as ever from coming to an under-standing. As, however, the Minister wishes to levy the new taxes from the 1st January, he is said to intend, pending a decision as to the mode in which the in-creased revenue is to be raised, to adopt the system adopted in Italy, and ask the Chamber to allow the duties to be collected provisionally for the first three months of the year. The Minister will besides propose taxes on several articles not comprised in the Budget of last Session which is now seen to be insufficient. The lucifer-match tax will be increased to five centimes the hundred, as originally demanded; The President's message is anxiously looked for, not only late. increased to five centimes the hundred, as originally demanded; it is found that for the tax of half-a-sou the retail price has been increased by a sou, the difference going to the pockets of the intermediaries without profit to the Government or the consumer.

The Government and the Bank of France are believed to have come to an understanding on the measures to be adopted for the relief of the establishment. The issue of notes will be increased to 2,800 millions immediately, and eventually, if found necessary, to 3,000 millions, with the proviso that the authorisation of the President of the Republic shall be ob-This tained each time that a further emission is necessary. This measure can however be only looked on as an expedient, for until some part of the advances made to the State shall have been reimbursed, the danger of a further depreciation of the Bank paper will not have been removed. The greater part of the resources of the establishment consist, in one form or other, of claims deriving their security from the credit of the State; the

1495

THE ECONOMIST.

THE ECONOMIST.

[Dec. 9, 1871.

Treasury bonds, advances to the Government, rentes, loans on the public funds amount to about 1,460 millions, to which may be added 210 millions due from the City of Paris, making in all 1,670 millions, and leaving under 1,350 millions repreall 1,670 millions, and leaving under 1,350 millions repre-sented by the specie and discounts to guarantee liabilities composed of notes, deposits, &c, of over 2,800 millions. The idea that the only remedy for the present difficulties is the reimbursement of the advances to the State by means of a lean, is slowly making its way, and in a certain measure accounts for the heaviness of rente during the week. Its principal adversary is the Minister of Finance, who would have to provide an additional sum of 50 millions to meet the increased interest. This project of a partial reimbursement has been put in a definite form by M Wolowski, who has pre-sented to the Chamber a Bill to repay to the Bank a sum of sented to the Chamber a Bill to repay to the Bank a sum of 600 millions to be raised by means of 5-30 bonds, bearing five per cent. interest; other articles of this Bill limit the increase in the Bank circulation to 100 millions, to be issued in five and tea-franc notes, and require the reimbursement of the balance due to the Bank in tenths annually. The Bourse during the week has reflected the state of un-

certainty in the Assembly, and the business has been of the most limited character. The high rates demanded for carry-ing over at the last settlement have besides restricted the speculative operations. The following are to-day's prices :

A project has been started to create a Clearing-house in Paris, and a committee of five members has been chosen to organise this new institution. The want of such an establishment has, however, scarcely been felt hitherto, as the system of current trade accounts with bankers and payments by

of current trade accounts with bankers and payments by ineans of cheques has made but little progress. The Board of Customs have just issued the return of the trade of France for the year 1870. The tables are not so detailed as those formerly published, as the total amounts are alone given without the classification into countries. The rates on which the estimated value of the imports and exports are based, and which are fixed by the Permanent Committee, have not been changed, those for the year 1869 having been retained in the present tables. The total value of the imports

and exports was as	follows :		C DODER THREE	~	eno miporto

1497

In 1861, money still continued in moderate demand. War with America, on account of the Trent difficulty, appeared very probable, as it had done for two weeks. In 1868, the effect of the recent advance in the Bank rate

In 1868, the effect of the recent advance in the Bank rate was beginning to be sensibly felt in the exchanges, and the rate was not farther advanced, although the stock of bullion had diminished during the week. The composition of the new Gladstone Cabinet, succeeding to Mr Disraeli in consequence of the Conservative failure at the elections, had just been made known. A paper read by Mr Jevons at the Statistical Society had awakened public attention to the depreciation of a large part of the gold coinage.

In 1869, the demand for money was moderate. A large new Turkish loan was anticipated. President Grant had just issued a message, which was considered very conciliatory on foreign affairs.

In 1870, money was easy, the suspense of the war and the Russian difficulty continuing. Arrangements were being made at Versailles, while the siege of Paris was in progress, for a Germanic Confederation, embracing the whole of Germany, and with the Prussian sovereign as Emperor.

many, and with the Prussian sovereign as Emperor. The amount of the "other" deposits, as compared with the "other" securities, showed, in 1861, a deficiency of 3,232,3911; in 1868, an excess of 229,7421; in 1869, an excess of 1,220,5581; and in 1870, an excess of 2,706,4801. In 1871, there is an excess of 2,865,6851.

DISCOUNT AND MONEY MARKET.—The money market has continued easy during the week, the tendency at one time being to lower rates, though the market is rather stiffer at the close than it was a week ago. There is still however a great superabundance of money. At the Bank for the last two days there has been a rather better demand.

The tendency early in the week to lower rates was such that it was believed in some quarters the Bank rate would be reduced to 3 per cent., but the Bank on Thursday made no The account which has since been published shows change. the Bank to be in the usual important points as strong as it was a week ago, the reserve, the bullion, and the private securities being substantially without change. But there is one change of an unusual kind. The private deposits have diminished 2,079,000%, but this has been effected by a sudden addition of 2,147,000% to the amount of the Bank post bills, which usually fluctuate at about 500,000%. It has been stated that these bills have been issued to the extent of 2,000,000l on German account, but we understand that this is not the case, and that they have really been issued on American account in connection with the recent American It is believed that they will not be sent out of the loan. country, but in any case the money is taken out of the market for the time, and the fact has had something to do with the rather firmer tone to-day. The great abundance of money however prevents any pressure for discounts, notwithstanding the increase of apprehensiveness. The continental exchanges still continue in favour of this country, the Paris exchange having rather risen to-day, and French money still coming here, while there is no demand for gold for export.

The changes in the Bank of France account are of a more favourable character, the unfavourable symptoms in the previous week's return—the increase of the discounts and the note circulation—being almost exactly corrected. The note circulation has diminished 2,540,000*l*, rather more than the increase in the previous week, and the discounts have diminished 1,952,000*l*, the increase in the previous week having been 3,280,000*l*.

THE STOCK MARKETS. - The week has been without almost any special feature. The inactivity characteristic of the last two or three weeks before the close of the year has again been manifest, and there is now a decided absence of new speculation. Still, the tone of the markets is good, as there is a steady amount of purchasing for investment in progress, and the speculative bull account is being gradually curtailed. There are, however, many very sensitive holders, and to-day has been most unquiet, in consequence of renewed apprehensions about the money market, and the political complications feared as the result of the alarming illness of the Prince of Wales.

In the course of the week a good many new companies have been introduced, including a Submarine Telegraph Company for a cable between Portugal and Brazil, which has occasioned a somewhat angry correspondence in the daily papers as to the ownership of the original concessions from various European Governments.

ENGLISH GOVERNMENT SECURITIES .- The improved tone in this market, which was noticeable a week ago, continued until Wednesday, when an improvement in Consols of $\frac{1}{8}$ to $92\frac{1}{8}$ $\frac{1}{4}$, which had occurred the previous day, was somewhat suddenly lost in consequence of a pressure of sales. Since then the feeling has been weaker, and to-day, under the influence of apprehensions about the money market and the illness of the Prince of Wales, the money price was at one time $91\frac{5}{2}\frac{3}{4}$; for the account, $91\frac{3}{4}\frac{7}{4}$. In the afternoon there was a reaction, and the closing price is $91\frac{5}{2}\frac{3}{4}$ for money, and $91\frac{3}{4}\frac{7}{8}$ for the account.

Subjoined is a list of the highest and lowest prices of Consols every day :-

FOREIGN GOVERNMENT SECURITIES.—The prevailing feel-ing in this department has been one of weakness, especially in French securities, and stocks largely dealt in on the Paris Bourse. The magnitude of the account at the last carrying over, in Paris and on the continent generally, has disposed speculators to realise, the disposition that way being in any case strong towards the close of the year, and being assisted for the moment by a vague fear of the action of the Versailles Assembly, which has resumed its sittings during the week. In some classes of foreign secu-fities, however, there was rather an improved demand during the week, but the improvement was partly lost in the disquiet of to-day.

To-day was fixed as a special settling-day for the Para-guayan loan, and as the allotments had been much within the applications, there was an advance of the premium in preparation for the settlement to $2\frac{5}{8}$ $\frac{7}{8}$. At the settlement it was found that the speculators for the fall had oversold themselves, and as there was no stock in the market, there was

the settlement, the market almost immediately went flatter.

and the closing quotation is $2\frac{1}{2} \stackrel{3}{4}$ prem.

ENGLISH RAILWAYS.—The tone in this market early in the week was good. There have been small but continuous purchases for investment, and the traffic returns were again eyond expectation favourable-especially North-Western, Midland, and Great Western. It is now so near the close of the year, besides that the dividends can in most cases be calculated, and as the calculations are of the most sanguine kind, and the money. market is quiet, the foreseeing are beginning to make purchases in anticipation of a great rise in prices next spring. This change of tone led especially to an improvement in the stocks we have named on Wednesday and Thursday, Midland advancing to 1401 ; Great Western to 1111, nearly the highest point touched upon the recent announcement of a working agreement with the South-Western; North-Western to $149\frac{1}{2}$; and Great Northern A to $164\frac{1}{2}$. The heavy lines generally shared in this improvement of tone. There are evidently, however, a great many weak holders, and the alarms of to-day have produced a fall of nearly $1\frac{1}{2}$ to 2 per cent. all round from the highest point of The southern lines, which had not participated so the week. much in the improvement, have been among the weakest ; Chatham ordinary and preference being especially very largely pressed for sale.

The following shows the principal changes in the quotations of ordinary stocks, comparing the latest unofficial prices :

Subscriptions are invited this evening for 18,000 shares of 101 each, of the Louth and Lincoln Railway. The price of issue is 92/10s and interest at 6 per cent. is guaranteed by a deposit of Consols up to 1st July, 1873. The new line is intended to supply a direct connection between Great Grimsby and the Midland counties, and the Great Northern has agreed to work it for 50 per cent. of the gross receipts. It is also stated that there are no preference shares in the company.

The traffic receipts on eighteen railways of the United Kingdom, of which a list is subjoined (including the principal railways), amounted for the week ending Dec. 2 to 772,9761, being an increase of 62,0391 on the corresponding week of last year. The aggregate receipts of the half-year to date are now 17,457,1921, being an increase of 1,298,0991 on the corre-sponding period of last year. The principal increases for the week are — North-Western, 13,5981; Midland, 11,1741; North-Eastern, 7,9291; Great Western, 6,1221; and Lancashire and Yorkshire, 3,747*l*. The Metropolitan has again decreased 114*l* for the week. The following shows the details of the increase or decrease in each case for the week and for

JOINT STOCK BANKS .- Foreign bank shares have been in good demand, and close at improved prices, notwithstanding the reaction which occurred to-day. Home banks have also risen in value. National Provincial 201 shares, and Hong Kong New have advanced 11/2; Australasian 1; Anglo-Austrian, New Zealand, Chartered of India, English and Scottish

Australian, London and County, London Joint Stock, London and Westminster, and Union of Australia 1; Anglo-Italian, Rio de Janeiro, and Metropolitan 1. Anglo-Egyptian and Anglo-Hungarian, however, have given way 1/2.

TELEGRAPHS .- Prices in this department have been subject to considerable fluctuation, but the market closed dull to-day at about the lowest point of the week. Anglo-American and Anglo-Mediterranean show a fall of 3; French Cables, of 1; Marseilles, $\frac{1}{4}$; while British Australian, British India, Sub-marine, and Falmouth, are all $\frac{1}{3}$ lower. West India shares have risen $\frac{3}{3}$, and Cuba $\frac{1}{4}$. Hooper's Telegraph Construction shares have receded $\frac{1}{3}$ on the week, it being asserted that some difficulty has arisen in connection with the concession for the Brazilian Cable, for which the company has secured the contract. Silver's Construction have risen 112.

MINES .- British mining shares have undergone some important alterations in value, there being a nominal advance of 20 in Devon Great Consols, South Caradon, and West Seton, and of 15 in Wheal Bassett. Providence and West Bassett have risen 3; South Wheal Frances, 5; East Bassett, 4; Hingston Downs and Marke Valley 3; Margaret, 1. On the other hand, North Roskear have given way 5; Herod's Foot, 3; East Lovell and West Chiverton, 1; and Tankerville, 1. In the foreign market Cape Copper have risen 2; Panulcillo and Sao Vicente, 1; but Eberhardts close 2, St John del Rey 3, and Sierra Buttes 1 lower on the week.

MISCELLANEOUS .- The changes in credit shares have been of little importance this week, but London Financial have receded $\frac{1}{2}$, and Financial Credit $\frac{1}{6}$; while National Discount have risen $\frac{1}{4}$, and Credit Foncier $\frac{6}{8}$. Peninsular and Oriental shares have given way 2; Submarine Cables' Trust and Native Guano 1; and Rio City Improvements 1. Copper mines of England and Crystal Palace have advanced 1; Natal Land Colonization 1; and Roumanian Government Bridges Annuities 1. Phosphate Sewage shares, after suddenly advancing to 29 30 on Monday, have since been flatter, and close at $26\frac{1}{2}27\frac{1}{2}$. There were some strong purchases early in the week. Patent Gas close at 12 to $12\frac{1}{2}$, new shares 6 to $6\frac{1}{2}$.

A prospectus is issued this evening of the Marbella Iron Ore Company. Capital, 300,000/, in 30,000 10/ shares. The company is formed to take over mines and quarries at Marbella, in Spain, situated between Malaga and Gibraltar-the ores being suitable for the manufacture of steel by the Bessemer process. The vendors guarantee a minimum dividend of 15 per cent. for five years. The purchase-money is to be 250,000*l*, together with a royalty of 6d per ton on the ores worked.

A prospectus is issued this evening of the Stranton Iron and Steel Company. Capital, 100,000%, in 10,000 10% shares. The company is formed to take over iron and steel works situate at West Hartlepool and enlarge the same, the purchasemoney being 35,000l cash and 3,500 fully paid-up shares-the purchase also including "certain important patents." A profit of 25 cent. per annum is anticipated.

The Mammoth Copperopolis Mining Company of Utah (Limited) is announced with a capital of 150,000*l*, in 10*l* shares. It is proposed to purchase the Armstrong claim on the Mammoth vein in Utah.

The nominal prices of some of the new undertakings were : -Limmer Asphalte shares are quoted 33 to 4; United Limmer, $2\frac{3}{4}$ to $2\frac{1}{4}$ dis.; Anglo-Austrian Bitumen, 2 to 1 dis.; Anglo-Hungarian Bitumen, $3\frac{1}{2}$ to $4\frac{1}{2}$ prem.; Anglo-German Bi umen, 2 to 1 dis.; Montroiter Asphalte, 1 dis. to 1 rem.; Emma Mining, 2 to 3 prem.; the paid-up shares, 2 to 3 prem.; and the River Plate Meat-Preserving Company, 1 to 2 prem.

BULLION AND EXCHANGES .- In the foreign exchanges this afternoon bills were more offered, the exchange on Paris especially having risen. The New York exchange is still very much in favour of this country.

There is no demand for gold, and the arrivals next week, except what goes to the refiners, will probably be taken to the Bank. Silver is still in good demand for the East, notwithstanding the larger supply of Indian Government bills.

According to the Gazette returns the imports of the precious metals into the United Kingdom during the week ended December 6 were :-Gold, 551,6251; silver, 471,5381. The exports were :-Gold, 59,8001; silver, 436,2171.

The sum of 54,000l in gold was sent in to the Bank to-day, and 137,000l in sovereigns was withdrawn for South America.

THE ECONOMIST.

Dec. 9, 1871

Capital

of Sha

TOTANON ON LONDON

The following is taken from the circular of Messrs Pixley, Abell, Langley, and Blake, on the transactions in bullion during the week :

Gold.—The 433,110*l* per Simla from Australia, came to hand on the 4th instant, and about half of the sum has been taken for export; the the demand for abroad is not at all active, and the Bank has purchased the balance of the amount, tegether with sundry parcels of gold coin received from France, the total sent in during the week being 177,000. The Poonah has taken 21,300*l* to Bombay, and sovereigns to the value of 188,000? have been withdrawn for transmission to the Cape and the Brazila.

Brazils. Silver.—The market is now quiet, and for the moment there are no freeh orders; the rate remains nominally at $60\frac{2}{5}d$ per oz standard, sellers. The Poonah has taken 305,100l to Bombay, and the Calcutta 50,000l to Calcutta; the Tasmanian has also taken 9,400l to the West Indies. The Simla has brought 93,000l Sycee, from China; and we have received during the week about 110,000l from New York. Mexican dollars are not now in much request at the late rise in minor and are floating orders accent to have been filled up the rates

prices, and as all existing orders seem to have been filled up, the rates

quoted below may be considered as nominal. We have received during the past few days from New York and New Orleans about 35.0001.

Exchange on India for Bank drafts at 60 days' sight is 1s 11gd per rupee Application for the India Council bills were received yesterday -the minimum, as before, was 1s 11d per rupee. Tenders on Calcutta and Madras at 1s 111d received 37 per cent., and on Bcmbay at the same rate, in full.

The amounts allotted were :- To Calcutta, 363,100/; Madras, 5,900/;

Bombay, 131,000/; total, 500,000/. In the last occasion (15th Nov.) the allotments were 15 per cent. at is 111d to Calcutta and Madras, and 22 per cent., also at 18 111d to Bombay

We are indebted to Messrs J. Allard and Co., of Paris and London, for the following telegram, giving to-day's exchange and bullion quotations in Paris :---

NOTICES AND REPORTS.

STOCKS.

Danubian Principalities 8 per Cent. Loan, 1867.-Bonds repre-senting 28,250l have been drawn for repayment at par on the 1st proximo.

Egyptian Railway Debenture Loan, 1866.—Bonds of the series D (numbered 15,001 to 20,000) have been drawn, and will be

D (numbered 15,001 to 20,000) have been drawn, and will be paid off on the 1st January. Paraguayan 8 per Cent Loan.—Special settling day—Friday, the 8th instant—officially quoted. Spanish Quicksilver Mortgage.—On account of the third drawing, which took place on the 1st instant, the numbers of 179 bonds, representing 17,900/, have been published for redemption on the 1st January. Turkish 6 per Cent Loan, 1865.—Bonds representing 101,000/ have been drawn in Paris for repayment on the 1st January. RAILWAY COMPANIES. Austrian—Committee's Certificates.—It is stated that a propo-

Austrian-Committee's Certificates.-It is stated that a propo-sition has been made by the Syndicate of the new Hungarian Government loan, for an arrangement of the claims of the Anglo-Austrian certificate holders, on the basis of a payment of 5l for each certificate of 100l. The Committee of Certificate Holders have convened a meeting, to be held at the offices of the Council of Foreign Bondholders on Monday next, for the purpose of considering such proposition. Bay of Havana and Matanzas Loans of 1861 and 1865.

the purpose of considering such proposition. Bay of Havana and Matanzas Loans of 1861 and 1865.— Certificates, representing the unpaid coupons due this month, will be issued at Messrs Schröder's. Bombay, Baroda, and Central India.—Capital received on the main line account, 7,378,733!; unexpended balance, 47,007!. Capital received on the extension account, 487,970!; balance, 254,339!. The directors regret the damage done by the mon-soon floods in the early part of August to several of the em-bankments and small bridges on the northern division. Through the energy of the staff the immediate repairs of the line were quickly effected. The gross traffic on the main line for the half-year ended June amounted to 302,636!, compared with 318,561! in the corresponding period of 1870, showing a falling off of 15,925!. The working expenditure, including the charge for collection and delivery of goods, was 155,026!, compared with 168,026 in 1870, showing a decrease of 13,000!. Notwithstanding the falling off in gross revenue of nearly 16,000!, the net earning was only less than that in the corre-sponding period in 1870 by 2,926!, having been 147,609!, as compared with 150,535!. The net earning was equal to about 4! 7s per cent. per annum on the capital expended on the main line. Of the extension 14½ miles were opened in May and 224 miles in November.

Matanzas and Sabanilla 7 per Cent. Loan.—The half-yearly interest is announced by Messrs Schröder's. Ottoman.—It is notified that the arrears of interest at 6 per cent. per annum up to and including the half-year's interest to the 1st ult., will be paid on the first debentures on and after the 11th inst., in addition to 201 on each debenture of 1001. Victoria Railway of Natal, Limited.—Capital, 100,0001, in 101 shares. A line of 15 miles from the River Umgeni, near Durban (Port Natal), northward to Verulam, is to be con-

shares. A line of 15 miles from the River Umgeni, near Durban (Port Natal), northward to Verulam, is to be con-structed, the contract price being 100^l for completion and equipment of the line, and for the paying of 6 per cent. interest during construction. Natal having only one port the growers of sugar, coffee, cotton, arrowroot, tobacco, and maize are entirely dependent upon carriers for the conveyance of produce, and the company will not therefore, have to submit to sea and the company will not, therefore, have to submit to sea competition. Extensions to the coal and iron fields may hereafter be undertaken.

Bank of British North America.—At the meeting a dividend at the rate of 8 per cent. per annum was declared. Bank of New Zealand.—A telegram has been received to the effect that the bank has declared a dividend of 10 per cent., and a bonus of 5 per cent per cent for the balf per cent. and a bonus of 5 per cent. per annum, for the half-year ending 30th Sept. last, being at the same rate as the previous half-year. *Hibernian.*—Half-year's dividend declared at the rate of 10s

per cent. per annum; surplus, 4,543l. National Provincial of England.-The usual dividend at the

rate of 8 per cent. per annum, and a bonus of 6 per cent. for the half-year have been declared.

the half-year have been declared. ASSURANCE COMPANIES. Gresham Life Assurance.—Year's new premiums, 30,533l; annual income, 416,022l; realised assets, 1,607,497l. Imperial Marine Insurance, Limited.—Capital, 300,000l, in 10l shares. It is stated that a large and profitable business can be transacted by this new company in Liverpool alone, where it is proposed to take over the business of the "Liverpool Marine Insurance Company, Limited," for an allotment of 5,000 shares, with 2l per share paid thereon. London Guarantee and Accident, Limited.—Capital, 250,000l, in 5l shares, of which a portion has already been subscribed, and 30,000 shares are offered to the public. The London Guarantee and Accident Company takes over the guarantee business of

and Accident Company takes over the guarantee business of the European Assurance Society, with, however, "no liabilities whatever," and the directors "consider this a favourable whatever," and the directors "consider this a favourable opportunity, by a further issue of capital and an introduction of influential support, to extend the operations of the com-pany both at home and abroad." Both classes of the business are stated to be profitable, and the existing accommodation is

announced not to be profitable, and the existing accommodation is announced not to be sufficient. Scottish Union Insurance.—At the annual meeting, it was stated that during the past year 685 life policies had been issued, insuring sums to the amount of 568,130l, yielding in new premiums 16,492l. The net fire revenue is 62,381l, and the invested funds amount to upwards of 1,200,000l. A divi-dend was declared of 14 per cent. per annum. The halfdend was declared of 14 per cent. per annum. The half-yearly payment in July last having been at 64 per cent., the balance of 74 per cent. will be payable on the 2nd of January next, free of income tax.

MISCELLANEOUS COMPANIES.

MISCELLANEOUS COMPANIES. African Steamship.—The report recommends a dividend of 8s 6d per share for the half-year, leaving a balance of 638l. Amoor River Navigation, St Petersburg.—Issue of 210,000l six per cent. bonds at 87 per cent., or 86½ per cent. allowing for discount on prepayment of instalments. Messrs. J. H. Schröder and Co. received subscriptions on the 7th and 8th instant for these bonds of 100l each, which are redeemable within 20 years by a cumulative sinking fund. The River Amoor, navigable for 2.000 miles in Eastern Asiatic Russia, has been for many for 2,000 miles in Eastern Asiatic Russia, has been for many years navigated by Government steamers; but the State requiring the trade to be further developed, has handed over requiring the trade to be further developed, has handed over their steamers and barges to the new company, who raise this money to enable them to purchase additional vessels and machinery. The subsidy of 410,000 roubles (56,000*l*) to be paid to the company for carrying mails, &c., is more than sufficient to cover the sum required for the service of this loan, which is 18.310/

Crystal Palace.—There remains to the credit of revenue, in-cluding 2,157l brought forward, the sum of 52,843l. After deducting the interest on debenture and preference stocks, 30,848/, there remains 21,295/, which would appear to justify the directors in recommending a dividend of 2 per cent. on the ordinary stock; but looking to the large expenditure rendered necessary by the wear and tear of the building, they do not recommend a division of more than 1½ per cent., leaving 6,955/.

recommend a division of more than 1½ per cent., leaving 6,955/. The aquarium is stated to be justifying expectations. Food Preserving, Limited.—Capital, 100,000/, in 5/ shares. 16,000 A shares offered to the public, and 4,000 B shares taken by the patentees. The B shares receive no dividend till 10 per cent. has been paid on the A shares. The company will develop the system of meat-preserving known as "Richard Jones' Vacuum System," secured by patent rights. The prospectus states :-prospectus states :

The special feature of the process is, that poultry, game, fish, and whole

joints of beef and mutton, chops or steaks, can be readily preserved with as without bone, thus obviating the hitherto unsatisfactory ap-pearance of preserved meat. At the last Exhibition at Sydney, an early sample of meat, prepared by the vacuum process, carried off the only prize medal awarded. It has also stood the t st of numerous voyages to and from the tropics, as stated in the testimonials. It is intended to establish factories for the preservation of meat in Australia and South America

Australia and South America

The directors hope to supply meat at 6d a pound; and Messrs Forbes and Co.'s business will be purchased for 10,000*l* in cash, and 4.000 B shares.

Gas Light and Coke .- At a meeting it was resolved to create 300,000l new A Five per Cent. shares, for the purpose of ex-

tending the works at Beckton. Grand Junction Canal. — Half-year's net profits, 20,944/; available total, 26,117l. A dividend of 1l 17s 6d per share,

free of tax, leaves a balance of 4,930l. Peninsular and Oriental Steam Navigation.—No casualty oc-curred during the financial year, and the sum of 130,000l placed to the underwriting account is not subject to any charge. But the loss of the Rangoon will show itself in the next annual account in the shape of a charge of 78,000/ against the premiums of 1872. With this fact before them the directors have not thought it prudent to recommend a dis-tribution of more than 1 per cent, equal to 27,000/, from the underwriting account, and have carried 103,000/ to the general reserve fund. The gross revenue for the year ended Sort reserve fund. The gross revenue for the year ended Sept., including 7,343l brought forward, amounted to 2,092,656l, and the expenditure to 1,923,881l, leaving a net profit of 168,775l. Deducting the payment of 3 per cent. for the half-year ending March, and the dividend at the same rate now recommended, the sum of 6,775l remains as balance. Total distribution for

the year 7 per cent. River Plate Pressure Meat-Preserving, Limited. — Capital, 150,000l, in 10l shares. For the sum of 10,000l and 4,000 paid up shares, the patent rights of Mr T. F. Henley will be ac-quired (which have already been secured in Great Britain, France, and Belgium, and will be applied for elsewhere), that gentleman having, it is stated, perfected a process for preserv-ing meat by pressing out that excess of moisture "which under ordinary circumstances interferes with its preservation." The ordinary circumstances interferes with its preservation." The juice thus squeezed out is also prepared in the form of "ex-tract." It is stated that the fibre and the albuminous and extractive principles are retained by this process. Works will be erected on the River Plate for treating 200 oxen daily, and

large profits are calculated upon. United Kingdom Railway Rolling-Stock, Limited.-41 10s per share has been returned to the contributories, and Mr Cash, the liquidator, states that a further 2s 6d per share may be

expected. West India and Panama Telegraph.-The Jamaica and Porto Rico section has been completed. MINING COMPANIES.

Alvarez Silver.-Call, 2l 10s per share. Mineral Hill Silver Mines, Limited.-A telegram has been received, stating that the new mill erected has, after four days' working, been stopped, owing to a part of the furnace cham-

bers having given way. Richmond.—The directors have been empowered to declare a dividend when the accounts come to hand.

The next mails for Australia will be deepatched from London as fol-lows:--Via Southampton, on the morning of Saturday, the 23rd December; via Brindisi, on the evening of Friday, the 29th December. The undermentioned offices have been opened since the publication of the last list of Postal Telegraph Offices, or were to be opened for the

The undermentioned onces have been opened since the publication of the last list of Postal Telegraph Offices, or were to be opened for the transaction of telegraphic business on the 6th December:-England: Ashburton, near Newton Abbot; Bampton, near Tiverton; Birstall, near Leeds; Brighton, Victoria road, Clifton terrace; Bristol, Queen's road; Cinderford, near Newnham; Dinas Cross (Pembrokeshire); Dry-brook, near Ross; East Hendred, near Wantage; East Ilsley, near Newbury; Fishguard (Pembrokeshire); Hambledon, near Horndean; Harlington, near Hounslow; Hurstmonceux, near Hawkhurst; Iron-ville, near Alfreton; Llanfyllin, near Oswestry; Llanymyneeh, near Oswestry; Lydbrook, near Ross; Manea, near March; Mashfield, near Chippenham; Newport (Pembrokeshire); Newton-in-Cartmel, near Carnforth; Newton-on-Trent, near Newark; Olney, near Bedford; Whitchurch, near Micheldever Station; Wombwell, near Barnsley. Scotland: Chance Inn, near Arbroath; Cromarty, near Inverness; Davidson's Mains, near Edinburgh; Friockheim, near Arbroath; Kil-creggan, near Greenock; Newmaina, near Coatbridge; Rhynie, near Aberdeen; Uddingstone, near Glasgow; West Wemysa, near Kirk-caldy. COMMERCIAL EPITOME. FRIDAY NIGHT.

The grain trade, under the influence of frosty weather, showed more firmness to-day, though the transactions were on a limited scale in all descriptions of produce. There was a fair show of English wheat on offer, the samples being in generally good condition, while the supply of foreign wheat was liberal. Trade ruled quiet, but in the few sales effected factors were enabled to realise full currencies. Flour was infactors were enabled to realise full currencies. Flour was in-active but firm in price; while maize and oats sold on fully former terms. Beans and peas were not inquired for, and were nominally unchanged in the absence of important busi-ness. The seed market was very dull. This week's imports of cereal produce into London have amounted to At Liverpool and Wakefield to-day there was more inquiry for wheat, and values were well supported. The Liverpool cotton market one of uniet on Friday last.

The Liverpool cotton market opened quiet on Friday last, The Liverpool cotton market opened quiet on Friday last, but on Monday the demand became more active, and a large business has since been done at an advance of $\frac{1}{4}$ per lb. The total sales are 115,670 bales; of which the trade have taken 75,960 bales; speculators and exporters 39,710 bales. The imports for the week are 48,286 bales; the actual exports 13,716 bales; and to-day's stock is 445,220 bales. Quotations for American and East Indian descriptions have advanced $\frac{1}{3}d$ per lb. and Bengals are unchanced since this day se'nnicht. per lb, and Bengals are unchanged since this day se'nnight. To-day the market closes with less animation, but steady. Sales, 15,000 bales.

The week's imports of foreign produce into London have amounted to 18,230 quarters of wheat; 2,260 barley; 33,710 oats; 2,990 maize; 900 sacks and 420 barrels of flour.

The following return shows the quantities of cotton im-ported and exported at the various ports of the United Kingdom during the week ended December 7, 1871:--

At New York, on December 7, middling Upland cotton was quoted at 19⁴ cents per lb. We extract the following from Messrs W. Nicol and Co.'s circular, dated Bombay, Nov. 10 :-- There has been but little circular, dated Bombay, Nov. 10:—There has been but little business done in cotton during the week. Prices remain too high to admit of exporters operating freely in ready cotton, and as dealers are not desirous to sell forward, except at very extreme rates, business is necessarily limited. The sales for the week foot up 2,250 candies, cf which about one-third is of ready cotton, such as Bhownuggur and other Dhollerah de-scriptions; the remainder consists of sawginned Dharwar, for delivery in all next month. of 100 candies new Oomrawuttee scriptions; the remainder consists of sawginned Dharwar, for delivery in all next month, of 100 candies new Oomrawuttee, February delivery, sold early in the week at 230 rs, and of 500 candies new Broach M. G., March delivery, sold on the 9th instant at 245 rs. Arrivals have been on a fair scale, and a certain quantity of old cotton is now exposed for sale on the green. Dhollerah and Bhownuggur have furnished the greater part of the supplies received, and from Carwar and Compta also some cargoes have reached us. We regret to say that the quality of these arrivals shows but little improvement. Some of the Bhownuggur and Dhollerah is tolerably satisfactory, and one or two small parcels of Compta we have seen, though very leafy, are of a good style of cotton. The sawginned Dharwar however is still very poor, and a great deal of false picking is discovered in this description. These arrivals, coupled with the dull accounts of the home markets, have in-duced dealers to lower their rates a little, though as yet far duced dealers to lower their rates a little, though as yet far from enough to put us on a level with Liverpool quotations. Report from the cotton districts show no great change. We are indebted to the Mofussil Company for the following, which

The Imperial Ottoman Bank have furnished the following report, dated Alexandria, November 24 :- We have had an report, dated Alexandria, November 24:—We have had an excited and daily hardening cotton market all the week. The sales, though large, would have been much greater if the selection offering had not been so poor, consequently business has been somewhat checked. The favourable accounts received from Liverpool have caused a further rise in our market. Fair open, with staple, 9¾ per lb, f.o.b.; good fair, ditto, 10¼ ditto; fully good fair, ditto, 10¾ ditto; extra fine, 14d to 18d ditto. Arrivals from Nov. 18 to Nov. 24, 71,080 crs; sales, ditto, 33,280 crs. Shipments from Nov. 18 to Nov. 24 :—England, 14,212; Italy, 1,146; Austria, 892—total, 16,250 bales.

The colonial produce markets have not been very active this week, and sugar has declined from 6d to 1s per cwt on all descriptions, the market closing with a dull appearance. Tea has remained without change; but coffee has met a steady inquiry on rather higher terms for good colory plan-tation. Rice has sold quietly on former terms, both on the spot and afloat. Spices generally are cheaper. Oils here ruled flat.

The annexed is dated Rangoon, Oct. 30 :- For Natsain The annexed is dated Kangoon, Oct. 30:-For Natsain rice our market has maintained its upward tendency, till about a week age, and prices gradually rose to 68 rs to 69 rs per 100 baskets paddy, equal to 146 rs to 148 rs per 100 baskets, or 6s 3åd to 6s 4åd per cwt, free on board, for 5 to 6 parts rice, which are our to-day's quotations. A very lively demand prevailed during the first half of the month; but there has been less activity in our market since then, as exporters have secured the greater part of their requirements. Supplies, have secured the greater part of their requirements. Supplies, have secured the greater part of their requirements. Supplies, which had been pretty fair since issue of our last report, have become very small of late, on account of some Burmese fes-tivals; but it is expected that the same will soon increase again. The vessels loading for Europe aggregate 7,000 tons, and the exports to that quarter amount to 9,290 tons since our last. Other qualities—The demand for the Straits has been very active throughout the month, and prices for soft kinds of rice have, for the last two weeks, been ruling firm at 144 rs to 146 rs per 100 baskets, 5 to 6 parts shipping quality, equal to \$1 70c to \$1 72c per picul of 133[‡] lbs, free on board. Exports of rice during the last six years compare as follows : follows :

* The stock of sugar in Holland is in first hands only ; in all other countries in first and second hands.

Annexed is Messrs Durant and Co.'s circular :-We have to report a month of only moderate business in silk. During the first two or three weeks the transactions were of the most limited nature, but latterly home buyers have come forward to replenish their stocks, and have taken fairly in extent, limiting themselves however to the preferable parcels in any particular class, without especial reference to price. This has given general tone to the market, and although in the continued abstention of foreign buyers, partly on account of the adverse exchanges and partly because they are working up their direct importations, the actual business is not large, prices are fully supported. The deliveries are only moderate, and stocks show an increase, but we feel we may fairly look to altered figures, as home consumers are working to the full extent of their power, and arrivals will soon naturally begin to fall off, and European stocks and importations will soon become more or less exhausted. Japan silk unfortunately remains as much neglected as ever, and at the moment with little prospect of improvement. Canton silk continues in good consumption. Bengal silk is still in the same unhappy position as for some month

According to Messrs Arles Dufour and Co. of Lyons,dul-ness has been created by the American markets for silk piece goods having been affected by the destruction of Chicago. At the same time the Parisian consumption has not yet recovered from the shock of political circumstances and the monetary crisis. Under these various influences, and looking at the extent of the purchases effected from May to October, surprise is expressed that prices of silk have not experienced a greater decline than from 1 to 3 per cent. in the best grades, and 4 to 5 per cent. in common sorts.

THE ECONOMIST.

Messrs A. C. Stewart and Co., of Port Elizabeth, writing on October 31, thus refer to the wool trade :--Since our last cir-cular was printed the arrivals of wool have been more liberal, cular was printed the arrivals of wool have been more inderal, and we are likely to have better supplies through the whole summer. The shares in the Transport Company alluded to in our last have been taken up very spiritedly, and there is every probability of its being fully established by the end of the year. This will lead to more ex-tended operations in this line, and render us in a measure independent of the present insufficient means of transport. Scoured—The supply of Uitenhage scoured has been small. We quote this description ½d higher. Considerable quantities of country scoured have come to hand, and have been easily disposed of at 1d above former rates. Fleecewashed—Several clips of the new season's wool have come in from the immediate neighbourhood. The competition for these has been remarkably keen, and prices have run up from day to day, as high as 15d being paid for superior lots. All other descriptions have improved fully 1d per lb. Grease—The demand for America continues unabated, with small stocks and active inquiry, but little regard is paid to selection. There is no stock of wool in town, every parcel being sold immediately on arrival to eager buyers.

Messrs Thomas and Cook report :- The last series of sales of colonial wool wool for the present year commenced on Novem-ber 23rd, and closed yesterday, the total quantity catalogued being 71,452 bales. The sales have been numerously attended being 71,452 bales. The sales have been numerously accurate both by home and foreign buyers, and the biddings throughout have been remarkably spirited. At the commencement there was a general advance of 1d per lb upon the rates of October, and during the progress of the sales there was a further slight improvement in most classes. Towards the close, however, improvement in most classes. Towards the close, however, fine scoured Australian and clothing wools generally sold rather more in favour of buyers. The small proportion of greasy offered has sold at 12d per lb above last sales' rates

We extract the following from Messrs T. J. and T. Powell's circular :- The leather trade of the past month has amounted to a full average for November. The demand has not been so active as during the previous months, but the supply has also been restricted by the unfavourable weather for drying. The effect on prices has been very slight. The high rates which some articles have attained have made the buyers in general cautious, and they usually avoid increasing their stocks at this season. Nevertheless there is scarcely any accumulation of stocks in the hands of tanners and factors, and there are indications of the wants of dealers and consumers which promise well for a good prospective demand for home use, while there are still buyers of some articles for exportation. The market for raw goods presents scarcely any new feature. Sole leather hides have slightly declined in value, as might be expected with so large a stock of River Plate hides in Liverpool. East India kips, with small supplies, have brought higher prices. Stocks of all articles are moderate.

Messrs Churchill and Sim have published the following statistics

Annexed is Messrs William Moran and Co.'s indigo report, dated Calcutta, Nov. 7 :-Since our last circular a few hundred chests of native up-country indigo have arrived, but in the absence of any European indigo, public sales will pro-bably not open for a week or ten days. We have at present no fresh advices from the various districts to cause us to alter our previous estimate of 90,000 maunds as the out-turn of the season. Exports of indigo from Nov. 1, 1870, to Oct. 31, 1871:-To Great Britain, 16,750 chests; France, 515; Trieste, 2,790; Foreign Europe, 268; America, 2,555; Gulphs and Levante, 1,784--total, 24,662 chests. Annexed is Messrs William Moran and Co.'s indigo report,

Messrs Van Houten and Ebeling thus review the position of the Dutch tin trade in November:—Tin has been in un-usually extensive demand this month for export as well as on usually extensive demand this month for export as well as on speculation, and prices have steadily advanced. To-day, after the publication of the monthly returns, considerable excite-ment prevailed, and a farther important rise was established. In Banca the business has been large, and with little offering, the price gradually hardened from 814ft to 85ft. Last week the market was less strong, and declined to 844ft; since then, with an improved demand, the price rallied to 86ft, whilst to-day a sudden advance to 884ft took place. Ex the Spring sale 1872, a few transactions at 82ft to 86ft are reported. Billiton, which continues scarce, advanced from 81ft to 84ft. Several lots to arrive changed hands at 81ft to 86ft. The following statement shows the position of Banca tin in Holland on the statement shows the position of Banca tin in Holland on the

Quotation Nov. 30 ... Billiton

The annexed is dated New York, December 4 :- The volume of trade continues up to fair average proportions, though sinking a little as the season for activity draws to a close. The exchange of commodities between the east and west and north and south keeps money in active circulation, and those who had been counting upon tight times about this period are agreeably disappointed. The local money market is exceptionally easy, and as the currency supply at the principal western and southerh centres is ample, there is only a light drain hence, which is about balanced by a return current. The reserves of the banks are steadily augmenting, and borrowers in good standing have no difficulty in obtaining monetary accom-modation at moderate rates, namely, 5 to 7 per cent. call, and 7 to 9 per cent. discount on high grades of commercial paper. The gold and exchange markets remain steady.

THE COTTON TRADE.

LIVERPOOL .- DECEMBER 7.

The cotton market was quiet on Friday and Saturday; but became active on Monday, and the business has since been arge, though with only a moderate advance in prices. Island has been in steady request at previous rates. American continues in good demand, and has risen ¹/₄d per lb in the current qualities, and ¹/₄d per lb in the lower descriptions. New York advices to the 7th inst. quote middling Upland 191c, costing to sell in Liverpool 101d per lb, by steamer. In Brazil a large busi-

where to the 7th link, quote initialing Opland 195¢, costing to sell in Liverpool 10½d per lb, by steamer. In Brazil a large busi-ness has been done, at an advance of ½d per lb. For Egyptian the inquiry has again been good, but freely supplied, and prices are without quotable change. East Indian has been in very active demand, particularly for export, and quotations are generally advanced $\frac{1}{3}$ d to $\frac{1}{3}$ d per lb. In cotton to arrive the business has been considerable, and prices have advanced about $\frac{1}{3}$ d per lb. The latest quotations are :--American, basis of middling, not below good ordinary (from any port), November-December shipment, 9½d; Decem-ber-January, 9½d; Savannah, not below good ordinary, at sea, 9½d; December-January, 9½d per lb. The sales of the week, including forwarded, amount to 115,670 bales, of which 19,380 are on speculation, and 20,330 declared for export, leaving 75,960 bales to the trade. DECEMBER 8.—The sales to-day will probably amount to about 15,000 bales, with a strong market. PRICES CURRENT.

NEW YORK .- Nov. 24.

NEW TORK.—Nov. 24. By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, Nov. 24. From the figures thus obtained it appears that the total receipts for the seven days have reached 104,743 bales, against 101,494 bales last week, 105,400 bales the previous week, and 96,708 bales three weeks since, making the total receipts since Sept. 1, 1871, 770,274 bales, against 918,663 bales for the same period of 1870, showing a decrease since Sept. 1, this year, of 148,389 bales. Tho exports for the week ending this evening reach a total of 52,428 bales, of which 37,661 were to Great Britain, 12,082 to France, and 2,685 to rest of the continent, while the stocks as made up this evening are now 350,813 bales. Below we give the exports and stocks for the week, and also for the cor-responding week of last season, as telegraphed to us from the responding week of last season, as telegraphed to us from the various ports to-night :--

the second second second second	Expor	ted to	Total	Same	Stock.		
Week ending Nov. 24.	Great Britain.	Conti- nent.	this week.	week 1870.	1871.	1870.

THE ECONOMIST.

Messrs A. C. Stewart and Co., of Port Elizabeth, writing on October 31, thus refer to the wool trade :--Since our last circular was printed the arrivals of wool have been more liberal, cular was printed the arrivals of wool have been more inderal, and we are likely to have better supplies through the whole summer. The shares in the Transport Company alluded to in our last have been taken up very spiritedly, and there is every probability of its being fully established by the end of the year. This will lead to more ex-tended operations in this line, and render us in a measure inderendent of the present insufficient means of transport. independent of the present insufficient means of transport. Scoured—The supply of Uitenhage scoured has been small. We quote this description ½d higher. Considerable quantities of country scoured have come to hand, and have been easily disposed of at 1d above former rates. Fleecewashed—Several clips of the new season's wool have come in from the immediate neighbourhood. The competition for these has been remarkably keen, and prices have run up from day to day, as high as 15d being paid for superior lots. All other descriptions have improved fully 1d per lb. Grease—The demand for America continues unabated, with small stocks and active inquiry, but little regard is paid to selection. There is no stock of wool in town, every parcel being sold immediately on arrival to eager buyers.

Messrs Thomas and Cook report :- The last series of sales of colonial wool wool for the present year commenced on Novem-ber 23rd, and closed yesterday, the total quantity catalogued being 71,452 bales. The sales have been numerously attended being 71,452 bales. The sales have been numerously attended both by home and foreign buyers, and the biddings throughout have been remarkably spirited. At the commencement there was a general advance of 1d per lb upon the rates of October, and during the progress of the sales there was a further slight improvement in most classes. Towards the close, however, fine scoured Australian and clothing wools generally sold rather more in favour of buyers. The small proportion of greasy offered has sold at ¹/₂d per lb above last sales' rates.

We extract the following from Messrs T. J. and T. Powell's We extract the following from Messrs T. J. and T. Powell's circular:—The leather trade of the past month has amounted to a full average for November. The demand has not been so active as during the previous months, but the supply has also been restricted by the unfavourable weather for drying. The effect on prices has been very slight. The high rates which some articles have attained have made the buyers in general cantious and they usually avoid increasing their stocks at this cautious, and they usually avoid increasing their stocks at this season. Nevertheless there is scarcely any accumulation of stocks in the hands of tanners and factors, and there are indi-cations of the wants of dealers and consumers which promise well for a good prospective demand for home use, while there are still buyers of some articles for exportation. The market for raw goods presents scarcely any new feature. Sole leather hides have slightly declined in value, as might be expected with so large a stock of River Plate hides in Liverpool. East with small supplies, have brought higher prices. India kips, Stocks of all articles are moderate.

Messrs Churchill and Sim have published the following statistics

STOCK of TIMBER, DEALS, &	c., at the P	UBLIC	DOCKS OD	1st 1	December.

Annexed is Messrs William Moran and Co.'s indigo report, dated Calcutta, Nov. 7 :-Since our last circular a few hundred chests of native up-country indigo have arrived, but in the absence of any European indigo, public sales will pro-bably not open for a week or ten days. We have at present no fresh advices from the various districts to cause us to alter our previous estimate of 90,000 maunds as the out-turn of the season. Exports of indigo from Nov. 1, 1870, to Oct. 31, 1871:—To Great Britain, 16,750 chests; France, 515; Trieste, 2,790; Foreign Europe, 268; America, 2,555; Gulphs and Levante, 1,784—total, 24,662 chests.

Messrs Van Houten and Ebeling thus review the position of the Dutch tin trade in November — Tin has been in un-usually extensive demand this month for export as well as on speculation, and prices have steadily advanced. To-day, after the publication of the monthly returns, considerable excite-ment prevailed, and a farther important rise was established. In Banca, the business has been large and with little offering ment prevailed, and a farther important rise was established. In Banca the business has been large, and with little offering, the price gradually hardened from 814fl to 85fl. Last week the market was less strong, and declined to 844fl; since then, with an improved demand, the price rallied to 86fl, whilst to-day a sudden advance to 884fl took place. Ex the Spring sale 1872, a few transactions at 82fl to 86fl are reported. Billiton, which continues scarce, advanced from 81fl to 84fl. Several lots to arrive changed hands at 81fl to 86fl. The following statement shows the position of Banca tm in Holland on the

Quotation Nov. 30 ... Banca 871fl ... 721fl 66fl The quantity of Banca tin now afloat for the Dutch Trading Company is 8,000 peculs, equal to 500 tons, against 10,100 peculs, equal to 631 tons, last year. We estimate the quantity of Billiton tin now afloat at 1,183 peculs, equal to 74 tons, against 9,212 peculs, equal to 576 tons, last year.

-The volume The annexed is dated New York, December 4 :-The annexed is dated New York, December 4:—The volume of trade continues up to fair average proportions, though sinking a little as the season for activity draws to a close. The exchange of commodities between the east and west and north and south keeps money in active circulation, and those who had been counting upon tight times about this period are agreeably disappointed. The local money market is exception-ally easy, and as the currency supply at the principal western and southerh centres is ample, there is only a light drain hence, which is about balanced by a return current. The reserves of the banks are steadily augmenting, and borrowers in reserves of the banks are steadily augmenting, and borrowers in good standing have no difficulty in obtaining monetary accom-modation at moderate rates, namely, 5 to 7 per cent. call, and 7 to 9 per cent. discount on high grades of commercial paper. The gold and exchange markets remain steady.

THE COTTON TRADE.

LIVERPOOL .- DECEMBER 7.

The cotton market was quiet on Friday and Saturday; but The cotton market was quiet on Friday and Saturday; but became active on Monday, and the business has since been large, though with only a moderate advance in prices. Sea Island has been in steady request at previous rates. American continues in good demand, and has risen \$d per lb in the current qualities, and \$d per lb in the lower descriptions. New York ad-vices to the 7th inst. quote middling Upland 19\$c, costing to sell in Liverpool 10\$d per lb, by steamer. In Brazil a large busi-ness has been done at an advance of 1d per lb. For Ecorption

sell in Liverpool 10¹/₈d per lb, by steamer. In Brazil a large busi-ness has been done, at an advance of ¹/₈d per lb. For Egyptian the inquiry has again been good, but freely supplied, and prices are without quotable change. East Indian has been in very active demand, particularly for export, and quotations are generally advanced ¹/₁₆d to ¹/₈d per lb. In cotton to arrive the business has been considerable, and prices have advanced about ¹/₄d per lb. The latest quotations are :—American, basis of middling, not below good ordinary (from any port), November-December shipment, 9¹/₈d; Decem-ber-January, 9¹/₈d; Savannah, not below good ordinary, at sea, 9¹/₁₆d; New Orleans, due, 9¹/₈d per lb. The sales of the week, including forwarded, amount to 115,670 bales, of which 19,380 are on speculation, and 20,330 declared for export, leaving 75,960 bales to the trade. DECEMBER 8.—The sales to-day will probably amount to about 15,000 bales, with a strong market. PRICES CURRENT.

about 15,000 bales, with a strong market.

NEW YORK .- Nov. 24.

NEW YORK.—Nov. 24. By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, Nov. 24. From the figures thus obtained it appears that the total receipts for the seven days have reached 104,743 bales, against 101,494 bales last week, 105,400 bales the previous week, and 96,708 bales three weeks since, making the total receipts since Sept. 1, 1871, 770,274 bales, against 918,663 bales for the same period of 1870, showing a decrease since Sept. 1, this year, of 148,389 bales. The exports for the week ending this evening reach a total of 52,428 bales, of which 37,661 were to Great Britain, 12,082 to France, and 2,685 to rest of the continent, while the stocks as made up this evening are now 350,813 bales. Below we give the exports and stocks for the week, and also for the cor-responding week of last season, as telegraphed to us from the responding week of last season, as telegraphed to us from the various ports to-night :--

and the set of the set of the	Exported to		Total	Same	Stock.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a de-crease in the exports this week of 36,005 bales, while the stocks crease in the exports this week of 30,005 bales, while the stocks to-night are 11,079 bales more than they were at this time a year ago. The following is our usual table showing the move-ment of cotton at all the ports from Sept. 1 to Nov. 17, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail nece sary by telegraph :--

THE ECONOMIST.

the smaller receipts at our ports, which, acting on Liverpool as well as upon our own market, have again through Liverpool reacted upon us; and as the prevailing estimates of the crop appears to be wholly under the influence of the current re-ceipts, the estimates at present are less than they were two or three works given they were constally raised on account three weeks since, when they were generally raised on account of the larger receipts. Spinners appear to be taking hold rather more strongly during the past two weeks, apparently concluding that there is little use waiting longer for the market to decline. In fact the general feeling favours higher rates, based as stated above, on the decreased crop estimates, rates, based as stated above, on the decreased crop estimates, and should the receipts continue small the market is likely to show a further improvement. The close to-night was quiet, at an advance of $\frac{1}{2}$ c. For forward delivery there has been con-siderable business doing at better prices, the market closing for low middling at 18½ for November, 18½ for December, 18½ for January, 19½ for February, 19½ for March, 19½ for April, and 19½ for May. The total sales of this description for the week are 69,100 bales, including 600 free on board. For immediate delivery the total sales foot up this week 17.514 For immediate delivery the total sales foot up this week 17,514 bales, including 7,081 for export, 6,586 for consumption, 492 for speculation, and 3,355 in transit. Of the above 264 bales were to arrive. The following are the closing quotations :--

	Upland Flori		Mobi	le.	Ne		Text	LS.,

[Dec. 9, 1871.

NEW YORK, Dec. 5 .- According to Messrs Moffatt, Davidis NEW YORK, Dec. 5.—According to Messrs Moffatt, Davidis and Co.'s report, the week's receipts of cotton were 123,000 bales, and since 1st of September 900,000 bales. Shipments to England, 52,000 bales; ditto toFrance, 8,000 bales; and to the continent 3,000 bales. Total since the 1st September, 390,000 bales. Stock at all ports, 400,000 bales. Middling Upland, $9\frac{3}{18}$ d, cost and freight, per steamer. The receipts of cotton for the last four days at all United States' ports have been 55,000 bales. Shipments to England, 23,000 bales; to France, 4,000 bales; to the continent, 5,000 bales. Middling Upland, 93d cost and freight, per steamer. 93d, cost and freight, per steamer.

MARKETS IN THE MANUFACTURING DISTRICTS MANCHESTER, Dec. 7.—Our market during the past week has continued strong. In the early part of it some slight giving way in price was perceptible, but since then, owing to the heavy business transacted in cotton, prices have hardened. This is more noticeable in yarns for the home trade. In expect there is very little change a prices remain steady but with This is more noticeable in yarns for the nonic trade. In export there is very little change; prices remain steady, but with only a small business doing. In cloth we have nothing fresh to report. Prices are unchanged; but the advices from our eastern markets continue so unfavourable that our large buyers have no alternative but to keep out, therefore the buying is only of a retail character. COMPABATIVE STATEMENT OF THE COTTON TRADE.

yards, 9 1bs..... 9 3 9 11 11 0 9 71 8 101 12 ROCHDALE .- The wintry weather is doing some good to the flannel trade, but all classes of goods are so high in price that buyers give more attention to the commoner kinds of goods than to others. The new business doing is mostly in fancies and cloths for printing designs upon, which will be in readi-ness for the spring trade. There is no change as regards Yorkshire goods, and the wool market is almost paralysed by the prospect of dearness which is so plainly before the eyes of all concerned.

LEEDS.—In the coloured cloth hall the business done has been quite unimportant. Neither home nor export buyers wanted more than very low stocks could provide them with. The black cloth trade is in a healthy state, some large orders having been quietly given out. NOTTINGHAM.—Business in the lace trade continues healthy

for the time of the year, and during the past few days a full average amount of business has been transacted. The yarn market is still very firm. There is not much change to report in the hosiery trade this week, business being in a healthy state.

BELFAST.—Flax—Supplies were more abundant, and the quality, too, was of a better description. Prices generally ruled steady, but had something of an advancing tendency. Yarns—The business of the week has not been of an extensive Yarns—The business of the week has not been of an extensive character. Prices generally rule firm. Linens brown (power-loom)—A good fair steady business, at full prices, has been transacted on light linens for bleaching, heavy linens, cloth suitable for the foreign clothing trade and for dyeing and hollands. Handloom—A moderate demand has prevailed for light and heavy linens, diapers, damasks, drills, and cambric handkerchiefs. Very little change to announce in prices. Linens (bleached and finished)—A fair amount of transactions on home account have been entered into, taking the season of the year into consideration. the year into consideration.

CARDIFF.-Briskness continues to characterise the steam-CARDIFF.—Briskness continues to characterise the steam-coal trade, and both the railways and docks are crowded with traffic. Not for a long time past has the demand for coal been so large as at present, the requirements of the principal home and foreign buyers being far in excess of what was the case at the corresponding period of last year. For house coals there is an improving sale, and prices tend upwards. At the iron-works the usual activity prevails, the rail mills and forges being fully employed.

being fully employed. DUNDEE.—There has been an active demand for flax goods on the spot, and numerous transactions have taken place at on the spot, and numerous transactions have taken place as gradually improving prices. Our local consumers have come forward more freely as buyers, and there has also been increased demand from parties at a distance. Tows continue in fair demand, and prices have still an upward tendency. There has been rather a firmer tone in the jute market, and instead of making any farther reduction on the price of common of making any farther reduction on the price of common qualities, holders seem now disposed to require some advance on recent lowest prices. The yarn market is very firm, and

prices of flax yarns have had an upward tendency. The demand for tow yarns continues active at full prices. Jute yarns also are still in very brisk request at stiff prices. These continues to be a fair demand for linens, and manufacturers are generally actively employed. The demand for jute fabrics also continues to be very extensive, and manufacturers are generally foresold for some time to come.

CORN.

AMERICAN GRAIN AND FLOUR MARKETS. NEW YORK, Nov. 24. The whole market has been variable in tone, and yet the netuations in price have been unimportant. The receipts of fluctuations in price have been unimportant. flour have continued liberal, and receivers have been a little uneasy under the rapid accumulation of stocks on hand. Tuesday the market for shipping extras was partially broken by the selling out, "under the rule," of a speculative line of 8,000 barrels extra State, bought in October for the last half 8,000 barrels extra State, bought in October for the last half of November. They were closed out at \$6.50 to \$6.60, being taken for shipment to Glasgow. Since this sale the market has been firmer, but business comparatively slow. Most of the flour now coming forward is at pretty high cost, and is not freely offered on sale. To-day the market was dull, de-pressed, and lower. Wheat has arrived very freely, and the indications now are that we shall have, at the close of the navigation, a very large supply in store and affoat in this navigation, a very large supply in store and afloat in this market-probably the largest recorded. Advices have been firmer from Liverpool, but as we were already higher relatively than that market, not much effect has been produced, except to strenghthen the views of holders, both here and at the West, where receipts have been comparatively small. Yesterday, owing in part to the suspension of a leading shipper at Buffalo, there was more disposition to sell, and most of the previous improvement was lost, No. 2 Chicago selling at \$1.50, but even at this price the demand was limited. To-day prices showed a further decline, causing a large movement at \$1.55 for No. 1 spring, and \$1.70 to \$1.741 for prime to choice white, other qualities being neglected. Indian corn has been vari-able, advancing on Tuesday to 80c for Western mixed, afloat, declining yesterday to 78½c, and closing to-day at 78c to 78½c. The supply of new has been less liberal, and in other descriptions the movement has been triffing. Barley has been buoyant, with an active speculation, partly on Canadian account. Oats have been selling pretty freely. The movement in breadstuffs at this market have been as follows :---

LONDON MARKETS.

STATE OF THE CORN TRADE FOR THE WEEK. MARK LANE, FRIDAY EVENING.

The grain trade has been without important feature during the week, the demand for all descriptions of produce having been restricted within very narrow limits, though the return of frost has enabled factors to realise the full prices of last week. Supplies of English wheat have been modelast week. Supplies of English wheat have been mode-rately extensive, while the arrivals of foreign have been liberal, and the samples generally have come to hand in good condition. Stocks in granary continue to in-crease, and the quantity of produce afloat for the United Kingdom is large for the time of year, there being now on passage from the south of Europe and America to ports of call 390 cargoes of wheat against 485 at the corresponding period in 1870, in addition to 47 cargoes to direct ports. It is anti-cipated that the trade will remain quiet but firm throughout the winter months, though very much depends upon the chathe winter months, though very much depends upon the cha racter of the season we may experience. Flour has ruled quiet, in sympathy with the wheat market, but the quotations have shown firmness.

The demand for feeding stuffs has been less active than was expected. Maize and oats have not been inquired after to any great extent; but the market closed with a steady appearance to-day. Beans and peas have been neglected, and are nomi-nally unchanged in value. The seed market has ruled very inactive. Cakes closed firmly. The following statement shows the imports and exports of breadstuffs into and from the United Kingdom since harvest, viz., from August 26 to the close of last week, compared with

the corresponding periods in the three previous years :-

Mr George Dornbusch thus reports the state of the floating grain and seed trade:—During the last eight days only 10 grain and seed-laden vessels have arrived at ports-of call, viz.:—7 wheat, 1 maize, 1 beans, 1 cotton-seed. The floating grain trade has been dull, and prices generally in buyers' favour. Wheat—American cargoes were at first difficult to sell; later the demand improved, and a fair amount of business was done. Maize—Fine cargoes steady, at fully late prices; inferior cargoes slow sale. Barley—Business has been at a standstill. Rye quiet in arrived cargoes, but a large quantity standstill. Rye quiet in arrived cargoes, but a large quantity sold for spring shipment. The reported sales are as follows:---Wheat-15 arrived cargoes: Rostoff Ghirka, from Taganrog, 44s; Don Ghirka, 43s 6d; old Ghirka, from Odessa, 48s 6d; Bessarabian ditto, 47s 9d; hard Taganrog, from Marseilles, 45s per 492 lbs; No. 1 spring, from New York, 55s and 55s 9d; amber winter ditto, 57s 6d; red winter, from Baltimore, 57s; white Canadian, from Montreal, 62s per 480 lbs. Maize-3 arrived cargoes: Moldavian, from Sulina, 35s 3d per 492 lbs; mixed, from New York, 33s 6d to 34s per 480 lbs. Barley-On passage, 1 cargo Danubian, from Sulina, 26s 42d per 400 lbs. Rye-On passage, 1 lot new Danubian, from Ibrail, 36s per 480 lbs. Linseed quiet. Rapeseed quiet. Arrived in London, 500 bags East India yellow mixed, 72s 3d; 200 tons ordinary brown Calcutts, 67s 6d per 416 lbs, A.T. Cotton-seed steady. On passage, 200 tons Egyptian, from Alexandria, 9l 2s 6d. To be shipped, 4,800 tons Egyptian, from Alexandria, 9l 2s 6d. To be shipped, 4,800 tons Egyptian, from Alexandria, 9l 2s 6d. To be shipped, 4,800 tons Egyptian, from Alexandria, 9l 2s 6d. COLONIAL AND FOREIGN PRODUCE MARKETS. TRANSACTIONS OF THE WEEK.

FOR REPORT OF THIS DAT'S MARKETS SEE "POSTSCRIPT

MINCING LANF, FRIDAY MORNING. SUGAR.—The market has been quiet, the refiners having partly ceased buying. At the public sales brown Mauritius sold upon rather lower terms, and the few sales made in West India show a slight decline. Only 359 casks found buyers to yesterday. The stock of Bar-badoes in first hands is exhausted. Good grainy sorts keep scarce, and cline. high in price. Manila meets with diminished inquiry. The stock in London is further reduced to 47,000 tons. Last year at the same date it was 76,500 tons, and in 1869 78,500 tons. According to the latest return the home deliveries of beet sugar from this port ware 33,200 tons, against 19,400 tons to same time in 1870. As refined goods have been in better demand, the market for raw sugar seems likely to im-prove, and advices from the continent show that prices are very firm. *Mauritius.*—5,465 bags sold at and after the sale at about 6d reduc-tion on last week's quotations. Brown, 27s 6d to 30s; middling soft

yellow, 32s per cwt. Penang.-553 baskets were taken in and afterwar's sold chiefly at

Pendag.—555 baskets were taken in and anterwar's sold enleny at 24s 6d for soft brown. *Manila.*—About 350 tons Ilo Ilo have sold at 25s 9d. *Refined.*—There is a moderate inquiry for stoved goods at last week's rates, from 40s 6d to 42s. 2,963 Dutch loaves offered by auction sold at 41s per ewt. Sales have been made in pieces at some reduction on late contentions. late quotations.

MOLASSES .- No business reported in West India. 50 punch Australian sold at 15s 6d per cwt.

Rum.—The market is firm, supporting the improveme t last quoted. Leewards, 1s 10d; Demerara, 2s 1d per proof gallon. Deliveries con-tinue good, and the stock is further reduced to 23,560 puncheons 6,050 horeheads. hogsheads.

Cocoa .- The stock of West India is now moderate, and will be further Cocol.—The stock of West India is now moderate, and the stock of West India is now moderate, and the stock of West India is now moderate, and the stock of the st

46s 6d for low quality. 406 bags Guayaquil and 154 bags Surinam were chiefly taken in

chienty taken in. Tra.—There have not been any further arrivals this week, and the importers seem indisposed to sell in quantity at recent quotations. The market may be quoted as quiet, but firm. 3,061 packages by auction went off without alteration in prices. According to the official returns, the duty payments upon tea in eleven months were 5,987,433 lbs larger than in 1870 during the same period, and the exports showed 9,072,666 lbs. 2,000 packages Indian tea are declared for sale next week. Ibs.

Ibs. 2,000 packages Indian tea are declared for sale next week. COFFEE.—A good demand prevails for native Ceylon at firm prices. Business has been done in good ordinary on the spot at 66s 6d to 67s. To arrive, 67s to 67s 6d paid with guarantee of quality, and bold at 69s. To arrive, 67s to 67s 6d paid with guarantee of quality, and bold at 69s. 220 bags bold by auction were taken at 70s. Native kinds of East India are steady. The public sales of plantation Ceylon have gone at about last week's quotations, and yesterday there was rather more animation in the demand. 792 casks 59 barrels 565 bags all sold: low middling small berry to middling colory, 69s to 76s; good middling to bold, 76s 6d to 79s; pale and grey, 68s to 72s; bold, 72s 6d to 74s. A few parcels have changed hands privately. Business has been done in East India, including some fine quality. 72 bags Singapore sold at 63s 6d to 64s 6d. 88 bags Natal at 71s to 72s 6d. A floating cargo of St Domingo sold for a near continental port. Sales in Brazil afloat, and no particulars reported. The landings here last week were rather above the deliveries, but the stock at the close was 18,460 tons, against 27,080 tons last year. against 27,080 tons last year.

RICE. — Transactions have been unusually small, and the market is very quiet. The sound portion of 7,042 bags Necrancie Arracan by anction was taken in at 10s 3d to 11s. 3,879 bags Moulmein also bought in. There have not been any floating cargoes reported sold during the week. By private contract, white Bengal was sold at 11s t 12s 1¹/₂d; ditto, at 11s 3d ex quay. Ballam, at 9s 1¹/₂d to 9s 3d, ex quay. 1,100 tons Madras to arrive at 10s 3d per cwt. IMPORTS and DELIVERIES of Rice to Dec. 2, with Stocks on hand.

SAGO is quiet.					

SAGO FLOUR .--- 1,090 bags Singapore were taken in at 16s 6d per cwt.

TAPIOCA .- 870 bags Singapore and Penang sold rather cheaper from 1ªd to 24d per lb.

BLACK PEPPER .- The market has become flat. During the week small sales have been made privately upon former terms, including Penang at 6d and Singapore at 64d. 1,142 bags of the former, by auction, on Wednesday, were chiefly taken in. A few lots sold at 6d. 136 bags Singapore were partly disposed of at 6d per lb for common grey, being rather cheaper.

WHITTE PEPFER.—A limited quantity has been disposed of during the week, but 700 bags Singapore were offered in the weekly public sales, and chiefly disposed of at the reduction of 1d to 1½d, viz., 11½d to 1s per 1b for common to good bold quality. OTHER SPICES.—At the public sales this week 39 cases Penang cloves part sold at fully 3⁴ reduction on late high prices, viz., is 3³/₂d to 1s 4³/₂d.

Zanzibar firm at 34d to 35d cash. 7 cases Penang mace went at easier rates: middling red, 4s 6d to 4s 7d; low and broken, 3s 10d to 3s 11d. 30 cases small brown Penang shipping nutmegs sold at 3s 1d to 3s 2d. 5 cases at 3s 7d to 3s 8d for 71 to 69's. 607 bags pimento

to 3s 2d. 5 cases at 3s 7d to 3s 8d for 71 to 69's. 607 bags pimento went at rather lower rates from 24 dto 23d. 244 bags cinnamon bark and chips were bought in at 24d to 34d per lb. Of 184 cases cassia lignea from Hamburg, and 100 cases unworked sold at 113s to 114s per cwt. SALTFETRE.—There have been some parcels of Bengal sold at uneven prices, and the market is rather quiet. Sales on the spot amount to 2,800 bags. Prices have not in all cases transpired, but the transactions to barbon software and 20 the 20 the 20 the case stranspired barbon the the transactions include refraction 221 to 61, at 30s t, 30s 6d per cwt., according to

SHELLAC .- The market was firmer in the early part of the week, but has since become less so, and 343 chests by auction went rather cheaper. Native orange, 7/ 10s to 7/ 12s 6d; second orange, 8/; garnet, 6/ 12s 6d to ℓl 15s; button, 7l 10s to 9l per cwt. The very large increase in the deliveries has brought the stock down to 8,100 chests, against 12,200 last year.

last year. **PRYSALTERY** GOODS.—Turmeric is quiet. Some low Java kind, offered by auction without reserve, sold at 9s to 9s 6d. Cutch has been rather quiet. Boxes, 24s to 24s 6d. The latter paid for one parcel. 243 bags, &c., by auction were bought in. The deliveries this year have been larger than at any former period. Safflower quiet. There is a speculative demand for gambier, and at higher prices. 1,360 packages by auction sold at 18s to 18s 6d for block, and 20s 6d for pressed cubes. Safes at 17s 10kd to 18s 6d per cert. at ahin. 99 chests he dye were Sales at 17s 101d to 18s 6d per cwt, ex ship. 99 chests lac dye were bodght in. Privately, business has been done in the better qualitie

tics. CAMPHOR.—Since last Friday further business has been done up to 80¢ per cwt, at which price the market is now quiet with sellers. METALS.—The alterations in these markets have been of a very im-portant nature during the week. On Tuesday the price of English copper was officially raised 10/, viz., 91/ to 93/, and this was followed by a great advance in other kinds, but the excitement has now partly subsided. Chili, &c., has ranged from 82/ to 85/, or 15/ to 16/ above the price current a few weeks ago. Burn and Waleron 88/ to 90/ per tan. subsided. Chili, &c., has ranged from 82l to 85l, or 15l to 16l above the rates current a few weeks ago. Burra and Walaroo, 88l to 90l per ton. The enhanced value of copper has influenced spelter, in which speculative business has been done at 19l 15s up to 22l. W. H., 23l, but particulars do not fully transpire. The stock in Lond n and Grimsby is 4, 155 tons, as against 3,320 tons last year, and 2,000 tons in 1869 at the same date. There has been a reactionary movement in the tim market, which is at present in the hands of speculators. Sales of Straits at one time reported at 146l to 147l cash. Yesterday the tone was

better. Business for arrival, 147/ 10s to 149/. English nominally un-altered. Scotch pig iron has been in good demand. Latest sales at 70s 6d per ton cas

70s 6d per ton cash. HEMP.—Manila has declined 10s to 20s, and 4,889 bales recent im-port brought to auction only partly sold at 46l to 51l 15s for rather coarse to good roping, with low and ordinary brown at 87l 15s to 41l 10s. 148 bales East India Sunn were partly disposed of at 25l 10s per ton. The stock of Manila hemp in the docks, &c., is returned at 2 200 tons being rather large

3,300 tons, being rather large. JUTE.—The market is firm, with a much better inquiry. During last month the stock increased, being 78,500 bales at the close. Yarns and month the stock increased, being 78,000 bales at the close. I arns and jute manufactures continue active in Dundee. Several sales are re-ported partly for arrival there at 19/5s to 25/5s per ton. LINEEED.—The market remains dull. Calcutta, 62s 6d to 63s. No sales reported for arrival. Present quotation, 63s 6d to 64s, and Black Ser 63s 64s of 64s and

sales reported for arrival. Present quotation, 63s 6d to 64s, and Black Sea, 63s to 64s per quarter. Bombay scarce. Onth.—A firm tone exists in the market for olive. Common quali-ties—including Mogadore, Tunis, &c.—have sold at 49/ to 50l. A cargo of Gioja at 49/ and one at 51/ 5s for the United Kingdom. One Taranto at 54/, spring shipment to the Baltic. Common fish oils steady. Pale seal, 37l. Southern scarce, and pale worth 36l to 36l 10s. The prices of sperm are rather weaker, viz, 90l American and 91l per tun colonial. The stock of palm is chiefly held for an advance—viz., Lagos at 40l. The late arrivals of Cochin cocoa have been chiefly of common quality. Fine, which continues scarce, is worth 50l to 51l. Ceylon offers at 38l 10s, and the market is quiet. Linseed oil quiet, at 34l on the spot and next four months. English Linseed oil quiet, at 34l on the spot and next four months. English brown rape oil has been quiet, and during the week 43l 15s accepted on the spot: January to April, 44l; refined, 46l. Foreign refined dull,

brown rape on an or to April, 44/; refined, to. on the spot: January to April, 44/; refined, to. at 47/ to 48/ per ton. TALLOW.—Supplies of Australian, &c., being still very liberal, the improvement last quoted upon Russian is not maintained, and the tone of the market has become quiet. POSTSORIPT.

POSTSCRIPT. FRIDAY EVENING. SUGAR.—The market is inactive, and the few public sales advertised for to-day were withdrawn. Privately 1,000 baskets Java sold at 35s. COFFEE.—155 casks 12 barrels 88 bags plantation Ceylon sold upon former terms. 290 bags native were chiefly sea-damaged; sound realised 66s to 67s. 56 packages Mocha were withdrawn. 31 cases 104 bags East India sold steadily; greyish Wynard kind 71s to 73s 6d. RICE, SPICE, AND SALTPETRE.—No sales. GAMBIER.—100 tons sold for arrival at 19s per cwt ex ship. METALS.—Tin advanced to 149*i* for Straits. Iron lower for Scotch nig.—viz. 69s per ton eash.

pig-viz, 69s per ton cash. Ons.-407 casks cocoa-nut by auction were chiefly taken in.

A few lots of Ceylon sold at 38%. 100 casks palm were taken in at 39% per ton.

TALLOW firmer. Petersburg, 48s 6d; March, 49s 6d to 50s. 1,698 casks Australian chiefly sold: good to fine mutton, 47s 6d to 49s; beef, 38s to 46s per cwt. 247 casks South American bought in.

ADDITIONAL NOTICES.

ADDITIONAL NOTICES. GREEN FRUIT.—The report of Messrs Keeling and Hunt states that the contrary winds have prevented arrivals of oranges, and the market is bare of all kinds. Lemons of good quality scarce. Seville sours in demand. More inquiry for Barcelona, black Spanish, and Brazil nuts. DRY FRUIT.—The market is quiet, business only moving in lowest qualities. Valencias firm, but not much offering. Figs only selling for immediate wants

immediate wants.

ENGLISH WOOL .- Prices very firm, particularly for long-stapled ools.

FLAX .- The market very firm. Stock very small.

HEMP.-Russian quiet. At auction this week, about 1,000 bales barely fair Manilla, forced off at 46l to 46l 5s; other parcels of similar quality withdrawn at 47/10s up to 48/10s; good Bolugan sold at 51/10s to 51/15s; 200 bales. SEEDS.—The seed trade continues steady at late rates.

TOBACCO.-There has been but little general business doing in North American tobacco, with the exception of one or two sales of some mag-nitude, which were effected early in the month. Apart from these sales the market has been in a very inactive state. Prices continue without alteration. In substitutes and segar tobacco there has been a good inquiry.

METALS .- Our market has been active in most branches. Copper has been in special demand at advancing prices, and the smelters have noti-fied an advance of 10% per ton, all round. The striking change in supplies and consumption in the course of this year appear to justify all the advance in prices, and even more. Tin has fluctuated considerably, but the week closes firmer than it opened, whilst the quantity changing hands has been very considerable. Spelter has been in great request, ands has been very considerable. Spelter has been in great request, and marks an improved value of about 50s a ton. Lead steady. Tin-plates still in demand.

METROPOLITAN CATTLE MARKET.

MONDAY, Dec. 4.—The total imports of foreign stock into London last week amounted to 12,097 head. In the corresponding week in 1870, we received 8,563; in 1869, 8,415; in 1868, 4,844; and in 1867, 9.758 head.

The cattle trade has been in a depressed state to-day, and the tendency of prices has been in favour of buyers. About an average supply of beasts has been on sale. The supply has been in excess of

requirements; and in sympathy with the dulness in the dead meat-market, the demand for all breeds has been limited, prices ruling in favour of buyers. The best Scots and crosses have made 5s 6d to 5s 8d, and only occasionally 5s 10d per 8 lbs. With sheep the market has been only moderately supplied; nevertheless, there has been a want of animation in the demand for all breeds, and prices have had a drooping tendency. The top quotation for the best Downs and half-breds has been 6s 6d to 6s 8d per 8 lbs. Calves have changed hands quietly, at about late rates. Pigs have sold steadily, at last Monday's prices. The Annual Christmas Market will be held on Monday next. SUPPLIES ON SALE.

HOP MARKET.

HOP MARKET. BOROUGH, Friday, Dec. 8.—Quietness continues to characterise this market. For all descriptions of hops the demand has been trifling, and in some instances a slight reduction has taken place. Mid and East Kent, 10*l* to 16*l* 16s; Weald of Keut, 8*l* 10s to 10*l* 10s; Sussex, 7*l* 5s to 9*l* 9s; Farnham and country, 11*l* to 16*l*. Yearlings—Mid and East Kent, 3*l* to 6*l* 10s; Weald of Kent, 3*l* to 5*l* 15s; Sussex, 3*l* to 5*l*; Farn-ham and country, 4*l* 10s to 6*l*; olds, 1*l* 5s to 2*l*.

POTATO MARKETS. BOROUGH AND SPITALFIELDS, Friday, Dec. 8.—Fair supplies of pota-toes have been on sale. The trade has been quiet, at late rates Regents, 85s to 120s; Flukes, 100s to 140s; Rocks, 80s to 95s; French 70s to 80s per ton.

LIVERPOOL MARKETS.

WOOL

(FROM OUR OWN CORMESPONDENT.) FRIDAY, Dec. 8.—Ever since the close of the public sales on Friday last week, there has been an active demand for home consumption at prices fully on a par with those realised at auction, and sellers show increased firmness in their demands.

CORN.

FRIDAY, Dec. 8.-A fair trade was done to-day at Tuesday's prices.

DUNN & HEWETT'S "BROMATINE," a Cocoa deprived of its superflous Butter, 6d a Packet.

MANUFACTORY-PENTONVILLE, LONDON.

HUBBUCK'S PATENT WHITE ZINC PAINT Is the most durable and beautiful paint known, does not stain or discolour with the atmos-phere of large towns, and by their process, which is patented, is cheaper than White Lead. It is especially adapted for painting iron, as, by virtue of a semi-galvanic action, it enters the pores and forms an amalgam of the two metals, which protects the Iron from decay or incrustation. It should be used instead of Red Lead, which is proved to be destructive to Iron exposed to Salt Water.

ADULTERATIONS.—Some Paint Grinders have been selling Zinc Paint adulterated with Sulphate of Barytes, in proportions varying from ten to thirty per cent. No workman can produce good work with such material. Those who have obtained the Patent White Zinc Paint from Grinders who have not adulterated it, will never willingly use any other Paint for their best work.

Each Cask of Pure White Zinc is stampe

"HUBBUCK, LONDON, PATENT." "HUBBUCK, LONDON, PATENT." "For public schools, and all rooms occupied by children there will now be no excuse for using poisonous paints. Parents have remarked that their children on retarning from the country to newly-painted houses have suffered in health. The reason is evident—the breath extracts the insidious poison from paint, and the lungs draw in the deadly vapour."—Journ BULL, September 14, 1850.

1. The impetus which in recent years has been given, both in this country and abroad, to insurance of all kinds has in no instance been so marked as in the branches known as "Guarantee" and "Accident." They are, of all operations, based on the law of average, not only the most remurerative, but the least linb'e to fluctuation, whilst the growth of commerce, and the enormously increased facilities for locomotion, have given an unlimited field for their extension.

2. The working of 'elected "Guarantee" business shows that from 50 to 55 per cent. of the premiums will more than meet the claims, whilst the expenses are small, and decrease in proportion to the increase of in-come.

come.
3. There are at present but two Companies in England doing guarantee business of any considerable amount. One, although only in a few hands, and confining its operations chiefly to London, has proved highly profitable; the other, more recen ly established, and with a comparatively small income, has paid in the last year, in dividend and bonus, over 15 per cent. on the capital employed. These two practically represent the only supply for a want more or less present to every employer. It is believed that these Companies have not extended their operations abroad, not even to India or the Colonies.
4. The returns of "Accident" business show it to be

<text><text><text><text><text><text>

THE ECONOMIST.

In conjunction with the purchase of the Guarantee business of the European Society, and in order at ames facilitate the transaction of Government business, arrangements (paragraph 14, sub sec. 2), were made, business of the subacribed capital of the Company was outed to £50,000, and a Special Guarantee Fund of £20,000, invested in the name of the Trustess.
 The Articles of Association, with certain altera-tions now being carried out, rendered necessary by the extension of the Company, together with the accounts and the Articles of Association, with certain altera-tions now being carried out, rendered necessary by the extension of the Company, together with the accounts as addired and the r gister of shareholders, are open to inspection at the Office of the Company.
 The existing contracts, other than the following, are such as have been made in the ordinary course of business as a Gu rantee and Accident Company.
 The following contracts have been entered into :--1. Agreement dated the 13th day of November, 1871, between the European Assurance Society, by and with the consent o the Committee of Share-holders and Policyholders appointed by the Court of Chancer y of the one part, and the Lon-don Guarantee and Accident Company, Limited, of the other part.
 Letters dated the 28th day of November, 1871,

- of the other part.
 Latters dated the 29th day of November, 1871, from the L adon Guara tee and Accident Com-pany, Limited, to Henry Labouchere, Esq., W. Morris, Esq., and Messrs Seymour, Elwyn, and Co., respectively.

PROSPECTUS. The vast increase during recent years of British com-merce has been followed by the successful establishment of a large number of Marine Insurance Companies, which, under careful and judicious management, have proved an exceedingly safe and profitable investment. Each success ve return of the Board of Taade exhibits a steadily progressive increase in our commerce, and scarcely a year clapses which does not witness the suc-essful establishment of a new Marine Insurance Com-nany.

pany. A just idea of the extraordinary increase in the trade of the country may be ascertained by comparing the monthly trade returns for the ten months ending with

Octo'er last with the same periods in the three years mediate'y preceding. The ten months' total of 1871, compared with that of 1870, shows an 'accrease this year of fort-nine millions, or 12} fer cent.; compared with that of 1860, the increase is sixty-six millions, or 18 per cent.; and compared with 1868, the increase is no less than eighty aims millions, or 25 per cent. The opening of the Suez Canal routs to India and China, and the large increase in stame tonnage between tiverpool and America, have added enormously to the spen provided in Liverpool, so that insurers are com-been provided in Liverpool, so that insurers are com-been down a portion of their risks to be cov. red el-e-where. The Directors therefore believe that the present is a mest favourable opportunity for the establishment of a mest company, and they are convinced that the profil-de character of a well conducted marine insurance basiness will be obvious on examining the following ingures, which are worthy of particular attenton :--

Name of Company.	Estab ished.	Amouat of Shares.	Paid-up.	Present Value of Shares.	Last Dividend per Annum,
		2	£	£ s	d %
	1859	25	5	20 12	6 30

SECRETARY (pro tem.)-R. J. Mann, Esq.

TEMPORARY OFFICES. 41 Threadneedle street, London.

This Company is formed for the purpose of construct-ing a rai/yay in the Colony of Natal, between the Port of Durban and the Township of Verulam, in the County of Victoria. Contracts have already been entered into for the construction of the line between the River Um-geni and Verulam, a distance of 15 miles, and the works will be commenced at once, so that the line may be opened for the with the least possible delay.

opened for traffic with the least possible delay. The proposed railway will pass through the centre of the richest and most fertile district of Natal, well suited for the glowth of almost every article of tropical and European production. The land in this district is, for the most part, held by farmers cultivating sugar, coffee, cotton, arrowroot, tobacco, and maize; but the progress of cultivation is retarded by the difficulty attending the transport of producet: the Port of Durban. During wet weather and in the direct season, the traffic counss almost to a standstill. Letters just received from the Colony state that the planters at he present time are at a loss for means to transport their produce to marker, and that hundreds of tons of sugar await the growth of the transit or restore the draught cattle to their proper strength. The region of highest fertility extends through a hele

strength. The region of highest fertility extends through a belt of coast tand about twelve miles wide. The belt, for the fifteen relies to be traverse by the proposed railway, comprises something more than 100,000 acres of land, adapted to tropical cultivation; of which a considerable portion will yield sugar to the amount of from two to three tons per acre. The rest will furnish large quanti-ties of coffee, maize, cotton, tobacco, and arrowroot. The land for twenty-five miles north-east of Verulam is of the same character, and already largely occupied by planters; and even beyond that quice to the north-eastern frontier of the colony, it is capable of becoming the seast of an extensive industrial development. Throughout this entire district no hing is wanted but railway communication to increase enormously and im-mediately the amount of valuable produce requiring carriage:

MESSRS C. DE MURRIETA AND MESSKS C. DE MURRIETA AND CO. have been instructed by His Excellency Don L. L. Dominguez, Minister of Finance, and Interim Minister of the Interior, of the Argentine Republic, to publish the following in vitation for TENDERS for the CONSTRUCTION of a RAILWAY from CORDOBA to TUCUMAN, in the said Republic. The approximate estimates and particulars, furnished by the office of National Engineers, may be inspected at the office of Messrs C. de Murriota and Co. No. 7 Adams court, Old Broad street, E.C., 27th Nov., 1871.

ARGENTINE REPUBLIC-DEPARTMENT of INTERIOR. RAILWAY from CORDOBA to TUCUMAN. (Proposal to be submitted within five months.) The Government of the Argentine Republic, as sutho-rised by Law of Congress, 12th October, 1871, for the construction of a railway fron Cordoba to Tucuman, calls for proposals for the same, to be sent in before 2 p.m. on the 30th of March, 1872. Sealed proposals will be received at the office of the

2 p.m. on the 30th of Mirch, 1872. Sealed propo als will be received at the office of the Minister of Interior, and wills be opened in presence of the Minister and the interested parties on the day and hour above mentioned. The proposals must be subject to the following con-

1. The proposal must be shaped to support the proposal mass in a point of the proposal mass in the plans and surveys of the Government Engineers, which may be seen at the National Engineers' Department, 32 Calle Belgrano. The inspecting engineers to be appointed by Government for ensuring the proper exception of the works will be empowered to prohibit the use of materials which they may consider unfit, and the contractor must attend to their suggestions and follow the detailed specifications they give him, both as respects materials and the execution of the work.

tions and follow the detailed specifications they give him, both as respe ts materials and the execution of the work. 2. The line must be finishe' in every pat, stations, rolling-stock, &c., within 4½ years from the approval of the contract (except case of force-majeure), the con-tractor obliging himself to pay a benalty of 25,000 hard dollars a month for any delay; the Government further engaging to may a premium of 10,000 hard dollars for every month finished before that time. 3. The execution of the works shall be arranged so as to enable the line to be delivered in sections, which the Government shall have the right to open to traffic when-ever it see fit.

ever it see fit. 4. The contractor shall oblige himself to keep the line and annexed works in good order for 12 months after completion.

completion.
5. The Government will permit all materials necessary for making the line to be imported duty free.
6. Parties sending in proposals must specify how they would receive payment, whether directly from the National Treasury or through a banking house in London.

7. No proposals will be received exceeding 14,127 hard dollars 55 cents nor kilome or heiding and heiding 14,127 hard

No proposals will be received exceeding 14,127 hard dollars 55 cents per kilome er, besides the interest at 7 per cent. on the capital employed for the interval between the actual outlay and the date of payment, which will depend on the form and manner of payment to be agreed on.
 8. The contractor shall lodge in the Provincial Bank of Baenes Ayrees or other bank, at the choice of the Nat. Government, the sum of 100,000 hard dollars, as a guarantee for the proper fulfilment of the contract, and this sum is not to be withdrawn till 12 months after the delivery of the whole line, on the Government de laring that the contractor has fulfilled all his engagem nts.
 9. The Government always reserves to itself the right of selecting whatever proposal it thinks best for public interests, or rejecting all of them if necessary, so that the one partice interest.

ABRIDGED PROSPECTUS.

ABRIDGED PROSPECTUS. This Company is formed to develop an improved system of meat preserving in Great Britain, the colo-nies, and other countries; and for the purchase, with that object, of the patent rights for preserving articles of food under Richard Jones' Vacuum System, such patents being for the Australian colonies as well as for the United Kingdom.

the United Kingdom. The special feature of the process is, that poultry, game, fish, and whole joints of beef and mutton, chops or steaks, can be as readily preserved with as without bone, thus obviating the hitherto unsatisfactory appearance of preserved meat. At the last Exhibition at Sydney, an early sample of meat, prepared by the Yacuum Process, carried off the only prize medal awarded. It has also stood the test of numerous voyages to and from the tropics, as stated in the accompanying testimonials. The Directors, with a view to give the fullest infor-mation as to the character and condition of the meat copertion by the public, at the Offices of the Company, 76 Cheapside. Full prospectuses, and forms of application for shares, with numerous testimonials, may be obtained at the offices of the Company, 76 Cheapside.

THE MAMMOTH COPPEROPOLIS OF UTAH (Limited).

(Armstrong's Copper and Silver Mine.)

(Armstrong's Copper and Silver Mine.) fote.—From the description given by Captain Tilden, and the report of Mr Francis Fowler, M.E., and Member of the Institute of Civil Engineers (who was selected by the Saturn Silver Mining Company of Utah, to examine the property of that Company, and who has lately examined this property), it appears to be one of the most valuable and remarkable mines in the now famous territory of Utah, and from its pre-sent development capable of furnishing ores which can be sent to New York or to England, sufficient to pay from £150,000 to £2200,000 per annum. Capital, £150,000, in 15,000 shares of £10 each. 10,000 of which are offer d for nublic subscription

10,000 of which are offered for public subscription. £1 per share payable on application. £2 per share on allotment.

Labornent. The remainder to be called up in two instalments, viz., £3 10s on the 15th February, and £3 10s on the 15th April. And on the shares being fully paid up, war-rants to bearer can be issued.

If no allotment is made the deposit and all payments on the shares will be returned in full.

on the shares will be returned in full. Subscribers paying up their shar s in full on allotment will have the right to receive share warrants to bearer, the stamp fees being paid by the Company. SECENTARY-Chas. W. Cook, Esq. OFFICES (pro tem.) -25 Moorgate street. EXTRACTS FROM PROSFECTOR. This Company is formed for the purpose of acquiring a freehold Mining property known as the Arenstrong Chaim on the Mammoth Vein, and locally called the Copperopolis of Utah. The mine is represented in the statement of Captain Titleen, and the report of Mr F. Fowler, C.E. and M.E. (the engineer selected by the "Saturn Silver Mining Company of Utah" to examine and report upon that Company of Utah" to examine and report upon that Company of Utah" to examine and report upon that Company of Utah" to examine and report upon that Company of Utah or ender the statement of Captain The te a quarry of rich ores, having been opened upon the vein in one place 30 to 40 feet in width, and 20 feet in depth, and c. ntaining almost every species of copper o.e, large masses of grey and black oxide being embedded in brilliant malachite, interspersed with sub-oxide or ruby and virgin copper. A shaft has been sunk within 200 feet of the north end of the lode to the depth of 55 feet, at the bottom of which a chamber 12 feet square of solid ore of the most valuable character has been excavated, without striking the walls on either side. The vein at this point is believed to be 30 feet and upwards in w dth. Openings have also been made on the whole length of the lode, everywhere showing the same rich metallic deposit.

anne rich metallic deposit. A tunnel is now being driven, which has already penetrated 65 feet into the mountain side, and it is ex-pected will strike the lode at a depth of about 175 feet below the present workings, and 190 feet below the highest point of the lode. Mr Fowler, in his report, expresses his opinion that this lode is a true fissure vein.

With three men only at work in the mine, 600 tons, of ore have been extracted within the last four months, which yielded 112 dols per ton in New Yok, the total expenses being 64 dols 25c per ton, leaving a net profit of 47 dols 75c per ton by the present expense and inefficient means of working. In corroboration of this statement, about five tons of compared one taken from near the surfa e of the mine,

In corroboration of this statement, about five tous of average ore taken from near the surfa e of the mine, were sent by Mr Fowler to Swans a, where it realised on 5th December, 1871, £25 168 3d per ton, being over £3 in excess of the sale price at New York, referred to in Captain Tilden's statement. It is estimated that 40 tons of ore per day can be taken from the mine in its present state, which would yield a net profit of 50 dols per ton in silver and copper equal to £400 per day; and allowing 280 working days, equal to an immediate revenue of £112,000 per annum. But it is stated that this profit can be increased to £200,000 and upwards per annum by em-ploying more workmen, and erecting furnaces on the mine. loying m

mine. As soon as the railway is completed to within 20 miles of the mine, which will be in the curse of the ensuing summer, a reduction of 8 dels per ton on freight alone will be effected. The climate is milder than that of Salt Lake Valley, and mining operations can be carried on throughout the whole year.

The climate is milder than that of Salt Lake Valley, and mining operations can be carried on throughout the whole year. The price to be paid for the property on a perfectly satisfactory tile being established is £125,000, viz., 5,000 fully paidup share warrants to beare, and £75,000 in cash. The vendor consenting to take a less amount in cash, and any further number of share warrants the Directors may elect to allot up to 8,500, 10,000 shares are now offered for public subscription ; £1 per share to be paid on application, and £2 per share to allot ments, and the balance in two equal instalments on the 15th February and the 15th of April, 1872, leaving £25,000 to erect furnaces and for working capital. Bare warrants to bearer will be issued on the shares being fully paid up on the payment of the stamp duty, but to those shareholders electing to t ke fully paid up shares on application, the stamp duty will be paid by the Company. The Direct rs will not be entitled to receive any re-muneration unless a minimum dividend of 20 per cent. is paid on the shares. The outpart, 1871, and is made between Jonathan C. Lawrence of the one part, and Joseph Anderson for the Company of the other part, and may be seen at the office of the C mpany together with the Articles of Asso-ciation and the report of the Engineer. Applications for shares to be made to the Bankers, and at the offices of the Company, as under.

THE ECONOMIST.

PROSPECTUS. The object of this Company is to take over and work the newly-crected Stranton Iron and Steel Works, situ-ated at West Hartlepool, and to further develop and enlarge the same, for which property the owners have agreed to accept £35,000 in cash, and 3,500 fully paid up the new ated at shares.

snares. The purchase includes certain important 1 atents, one being much used at these works for the manufacture of a superior quality of finished iron out of No. 4 Cleveland

pig. These terms have been arranged with the approval of A. Davy, Esq., C.E., of Sheffield, whose report is printed and enclosed.

These terms have been arranged with the approval of A. Davy, Esq., C.E., of Sheffield, whose report is printed and euclosed. The property consists of four acres of freehold land, on which are erected the requisite buildines; comprising—pudding furnaces, capable of producing 10,000 prising—pudding furnaces, capable of producing 10,000 for a comparative steam hammers—quite new, of the best make and materials, and with the most recent purpose of manufac uring 15,000 tons of finished iron ere annum. Arrangements are being made for an enlargement, so as to increase the out-turn to about 25,000 tons per annum, which can be effected for a comparatively worderate outlay, an estimate having been obtained to supply and lay down complete, all necessary and in grant the annual profit. The manufacture of steel rails is also in contenplation.

The competitive advantage of cheap transport, and write of right from and coal are no great, that with a good profit can be realised by the ordinary manufacture of iron; in addition thereto, by means of the manufacture of iron; in addition thereto, by means of the manufacture of iron; in addition thereto, by means of the manufacture of iron; in addition thereto, by means of the iron can be realised by the ordinary manufacture of iron; in addition thereto, by means of the iron can be made which have not hitherto been produced from Ceual in quality to the best makes of South Staffordshire. The works are now in operation, a considerable quantity of iron having alread been produced and sold; have one can be a south Staffordshire. The works are now in operation, a considerable quantity of iron having alread been produced and sold; have offer an abso in course of execution at very remunerative prices, and when the extensions are complete its estimated that, at the present price of the raw material, wages, &c., manufactured iron will be produced, showing at market rates, a very considerable produced prid-up capital. A considerable income may also be derived from granting roy atil s, if thought actual walls, be derived from granting roy atil s, if thought areas be derived from and prospects of the iron traffor this kind, the demand exceeding the power of production, whilst the greatly increasing use of iron for building, shipbuilding, tramways, agricultural machinery, and many other purposes, guarantees a still arger demand in the future.

The estimation in which such investments are may be inferred from the annexed quotations of siz undertakings in the North of England. held

Penny and McGeorge, Glasgow, AUDITORS-Messrs Turq uand, Youngs, and Co., Tokenhouse yard, E.C. SECRETARY (PRO TEM.)-J. Russell Clipperton, Esq. TEMPORARY OFFICES-3 Salter's Hall court, Cannon street, E.C. r's Hall court, Cannon street, s.c. the property and the business, that they have not only consented to take a consider-able proportion of their purchase money in shares, but have guaranteed a minimum dividend of 15 per cent. for the period of five years on the capital issued to the public; but the vendors are, if the profits during the five years shall exceed £15 per cent, to be repaid out of such excess of profits, any sum they may have paid under their guarantee, in manner provided by the agreement. This guarantee would give the shareholders a retarn of three-fourths of their capital in the form of dividends in the five years. The vendors also agree, towards socuring the performance of the guaran-tee, to leave in the bands of the Directors £50,000 of their shares and the entire pro-duce of the rovalty during the currency of the guarantee. R-dlway and Pier Plan.—The mines and railway are fitted with new plant, tools, and appiances, consisting of wire tramway, locomotive engines, waggons, repairing shopa, storehouses, railway and coal, and ore depots sufficient to work and despatch a quanti y of ore equal to 150,000 to 200,000 toms per year, while a very small outlay on rolling-stock would enable the quantity to be raised to 300,000 tons, as may be seen by the accompanying report of Mr May, which gives a full description of the railway, pier, and plan. The divest the purches the company to carry for 5 years any quantity of ore, up to 200,000 tons per annum, at the market rate of freight for the time being, with an option to either party to put an end to the arrangement by 6 months' notice. It has been considered advisable that the Company should not themselves become connected with shipping, and that they should not therefore purchase itsamers, but should rather, at least for the present, convract for the carriage of the ore. There Money.—The purchase-money of the mines, railway, pier, wire tramway, plant, tools, locomoti es, engines, waggons, shops, storehouses, and premises, is th The demand for high-class iron ores has, during recent years, increased so rapidly that the prices of such ores have gradually advanced, until within the last year their rise has amounted to between 50 and 75 per cent. The increased production of steel made upon the Bessemer process is alone almost sufficient to account for this advance. Owing to these facts, the attention of iron masters is now being directed to foreign sources for a supply of ore, in particular to the Spanish mines. The want of railroads and other roads in Spain has hitherto presented insurmountable difficulties to any large and regular exportation of ore from that country. This Commany has been formed to purchase and take over as a going concern the Large and regular exportation of ore from that country. This Company has been formed to purchase and take over as a going concern the iron mines or quarries now in full work, with the new rallway, pier, plant, &c., situate at Marbella, is Spain, midway between Malaga and Gibraltar, and within 35 miles of the sea, the property of Messre W. and S. S. Malcolm, of Glasgow. The following are the particulars of the property, &c. :-Description.—The mines are held in percentity direct from the Crown with ut any royaity, and subject only to a nominal charge of £20 a year, while the land upon which the railway, works, and houses are erected is absolute property, and subject to mo payment Peroxide of iron Z Bilica Lime, magnesia, and phosphoric acid None. None. Months. Management.—The vendors, Mess's Malcolm, will join the Board of Directors, and act as Managing Directors for the term of five years, at the nominal salary of £250 per annum each for their services. Preliminary Expenses.—The whole of the preliminary expenses up to the date of the allotment of shares will be paid by the vendors, and no promotion money whatso-ever will be paid. General Remarks.—It is important to note that the mines, railway, and pier, are in actual working order—in fact in actual work, so that the Company will start at once this Company a great advantage over any other that may have to go through the tedious and expensive process of constructing a railway and pier and developing a mine. The tedious and expensive process of constructing a railway and pier and developing a mine. These mines seem to contain no such elements of uncertainty as are frequently met with in ventures of a similar n-ture. The ore is on the hill side exposed to view, and can be seen, and its quantity estimated by anyone acquainted with the nature of such deposits. Its quality is beyond question, as shown both by analysis and actual working in the blast-furaace. The cost of working and delivering in this country has been proved by last year's operations, and the demand for the ore is con-stantly increasing. The 'company is to take over the following contracts for the sale of ore so far as they remain unperformed on the 1st January next:--(1.) A contract dated 2nd September, 1870, with the Ebbw Vale Steel, Iron, and Coal Company, Limited. (2.) A contract dated the 19th September, 1870, with the Dowlais Iron Company. [3.] A contract dated the 19th September, 1871, with the Damellington Iron Company. (5.) A contract dated the 23rd day of November, 1871, with the Blaenavon Iron Company, (6.) A contract dated the 7th day of D.cember, 1871, with Messrs Colin, Dunlop, and Co. and Co. An agreement has be n entered into by the Company, dated the Sth day of December, 1871, and made betw en William Malcolm and Samuel Smythe Malcolm on the one part, and George Anderson, Esq., M.P., and Joseph Dodds, Esq., M.P., trustees for and on behalf of the Company, of the other part. The articles of association and copies of the said contracts and agreement can be seen at the Offices of the Solicitors to the Company. Samples of the ore can be seen at the Offices of the Company, and also of the Soliciters. If no al otment be made, the application money will be returned in full. S ould a smaller number of shares than those applied for be allotted, the balance of the sum deposited will be appropriated towards the payment of the amount payable on soloment. Setting of the contracts and contracts and contracts and contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the contracts and agreement can be and the contracts of the company, and also of the solicitors. The articles of the contracts of the company, and also of the solicitors. Soliciters. Taking the estimate of Mr May as to the quantity—viz, twelve millions of tons (which estimate is confined to the ore down to the present levels),—it would give a the contracts and agreement of the solicitors. Solid a smaller number of shares than those applied for be allotted, the balance of the sum deposited will be appropriated towards the payment of the amount payable on ellotment. Forms of application for shares can be obtained from the Bankers and branches, the Solicitors and Brokers, and at the Offices of the Company.
