PART I—AUTHORITY AND ADMINISTRATION OF CONTROLS

SEC. 1751. SHORT TITLE.

This part may be cited as the “Export Controls Act of 2018”.

SEC. 1752. STATEMENT OF POLICY.

The following is the policy of the United States:

(1) To use export controls only after full consideration of the impact on the economy of the United States and only to the extent necessary—

(A) to restrict the export of items which would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States; and

(B) to restrict the export of items if necessary to further significantly the foreign policy of the United States or to fulfill its declared international obligations.

(2) The national security and foreign policy of the United States require that the export, reexport, and in-country transfer of items, and specific activities of United States persons, wherever located, be controlled for the following purposes:

(A) To control the release of items for use in—

(i) the proliferation of weapons of mass destruction or of conventional weapons;

(ii) the acquisition of destabilizing numbers or types of conventional weapons;

(iii) acts of terrorism;

(iv) military programs that could pose a threat to the security of the United States or its allies; or

(v) activities undertaken specifically to cause significant interference with or disruption of critical infrastructure.

(B) To preserve the qualitative military superiority of the United States.

(C) To strengthen the United States defense industrial base.

(D) To carry out the foreign policy of the United States, including the protection of human rights and the promotion of democracy.

(E) To carry out obligations and commitments under international agreements and arrangements, including multilateral export control regimes.

(F) To facilitate military interoperability between the United States and its North Atlantic Treaty Organization (NATO) and other close allies.

(G) To ensure national security controls are tailored to focus on those core technologies and other items that are capable of being used to pose a serious national security threat to the United States.

(3) The national security of the United States requires that the United States maintain its leadership in the science, technology, engineering, and manufacturing sectors, including foundational technology that is essential to innovation. Such leadership requires that United States persons are competitive in global markets. The impact of the implementation of this part on such leadership and competitiveness must be evaluated on an ongoing basis and applied in imposing controls under sections 1753 and 1754 to avoid negatively affecting such leadership.

(4) The national security and foreign policy of the United States require that the United States participate in multilateral

organizations and agreements regarding export controls on items that are consistent with the policy of the United States, and take all the necessary steps to secure the adoption and consistent enforcement, by the governments of such countries, of export controls on items that are consistent with such policy.

(5) Export controls should be coordinated with the multilateral export control regimes. Export controls that are multilateral are most effective, and should be tailored to focus on those core technologies and other items that are capable of being used to pose a serious national security threat to the United States and its allies.

(6) Export controls applied unilaterally to items widely available from foreign sources generally are less effective in preventing end-users from acquiring those items. Application of unilateral export controls should be limited for purposes of protecting specific United States national security and foreign policy interests.

(7) The effective administration of export controls requires a clear understanding both inside and outside the United States Government of which items are controlled and an efficient process should be created to regularly update the controls, such as by adding or removing such items.

(8) The export control system must ensure that it is transparent, predictable, and timely, has the flexibility to be adapted to address new threats in the future, and allows seamless access to and sharing of export control information among all relevant United States national security and foreign policy agencies.

(9) Implementation and enforcement of United States export controls require robust capabilities in monitoring, intelligence, and investigation, appropriate penalties for violations, and the ability to swiftly interdict unapproved transfers.

(10) Export controls complement and are a critical element of the national security policies underlying the laws and regulations governing foreign direct investment in the United States, including controlling the transfer of critical technologies to certain foreign persons. Thus, the President, in coordination with the Secretary, the Secretary of Defense, the Secretary of State, the Secretary of Energy, and the heads of other Federal agencies, as appropriate, should have a regular and robust process to identify the emerging and other types of critical technologies of concern and regulate their release to foreign persons as warranted regardless of the nature of the underlying transaction. Such identification efforts should draw upon the resources and expertise of all relevant parts of the United States Government, industry, and academia. These efforts should be in addition to traditional efforts to modernize and update the lists of controlled items under the multilateral export control regimes.

(11) The authority under this part may be exercised only in furtherance of all of the objectives set forth in paragraphs (1) through (10).

SEC. 1753. AUTHORITY OF THE PRESIDENT.

(a) **AUTHORITY.**—In order to carry out the policy set forth in paragraphs (1) through (10) of section 1752, the President shall control—

(c) APPLICATION OF CONTROLS.—The President shall impose controls over the export, reexport, or in-country transfer of items for purposes of the objectives described in subsections (b)(1) or (b)(2) without regard to the nature of the underlying transaction or any circumstances pertaining to the activity, including whether such export, reexport, or in-country transfer occurs pursuant to a purchase order or other contract requirement, voluntary decision, inter-company arrangement, marketing effort, or during a joint venture, joint development agreement, or similar collaborative agreement.

SEC. 1773. FOREIGN BOYCOTTS.

The mere absence of a business relationship with or in the boycotted country with any business concern organized under the laws of the boycotted country, with any national or resident of the boycotted country, or with any other person, does not indicate the existence of the intent required to establish a violation of regulations issued to carry out this subparagraph.

(F) Paying, honoring, confirming, or otherwise implementing a letter of credit which contains any condition or requirement compliance with which is prohibited by regulations issued pursuant to this paragraph, and no United States person shall, as a result of the application of this paragraph, be obligated to pay or otherwise honor or implement such letter of credit.

(C) complying or agreeing to comply in the normal course of business with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurers, suppliers of services to be performed within the boycotting country or specific goods which, in the normal course of business, are identifiable by source when imported into the boycotting country;

Any report filed pursuant to this paragraph shall be made available promptly for public inspection and copying, except that information regarding the quantity, description, and value of any goods or technology to which such report relates may be kept confidential if the Secretary determines that disclosure thereof would place the United States person involved at a competitive disadvantage. The Secretary shall periodically transmit summaries of the information contained in such reports to the Secretary of State for such action as the Secretary of State, in consultation with the Secretary, considers appropriate for carrying out the policies set forth in section 1772.

(c) PREEMPTION.—The provisions of this section and the regulations issued pursuant thereto shall preempt any law, rule, or regulation of any of the several States or the District of Columbia, or any of the territories or possessions of the United States, or any of the governmental subdivisions thereof, which law, rule, or regulation pertains to participation in, compliance with, implementation of, or the furnishing of information regarding restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries friendly to the United States.

SEC. 3142. SENSE OF CONGRESS REGARDING COMPENSATION OF INDIVIDUALS RELATING TO URANIUM MINING AND NUCLEAR TESTING.

(a) FINDINGS.—Congress makes the following findings:

(1) The Radiation Exposure Compensation Act (42 U.S.C. 2210 note) was enacted in 1990 to provide monetary compensation to individuals who contracted certain cancers and other serious diseases following their exposure to radiation released during atmospheric nuclear weapons testing during the Cold War or following exposure to radiation as a result of employment in the uranium industry during the Cold War.

(2) The Energy Employees Occupational Illness Compensation Program Act of 2000 (42 U.S.C. 7384 et seq.) formally acknowledged the dangers to which some employees of sites of the Department of Energy and its vendors during the Cold War were exposed. That Act also acknowledged that, although establishing the link between occupational hazards and specific diseases can be difficult, scientific evidence exists to support the conclusion that some activities related to Cold War nuclear weapons production have resulted in increased risk of illness and death to workers. That Act established a formal process for the submission of claims for medical expenses and lump sum compensation for former employees and contractors and survivors of those former employees and contractors.

(3) As of the date of the enactment of this Act, more than 150,231 claims have been paid out under the Radiation Exposure Compensation Act and the Energy Employees Occupational Illness Compensation Program Act of 2000, for a total of at least \$17,400,000,000 in lump sum compensation and medical expenses.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States Government should appropriately compensate and recognize the employees, contractors, and other individuals described in subsection (a).

Speaker of the House of Representatives.

*Vice President of the United States and
President of the Senate.*

One Hundred Fifteenth Congress
of the
United States of America

AT THE SECOND SESSION

*Begun and held at the City of Washington on Wednesday,
the third day of January, two thousand and eighteen*

An Act

To promote pro bono legal services as a critical way in which to empower survivors
of domestic violence.

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the “Pro bono Work to Empower
and Represent Act of 2018” or the “POWER Act”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Extremely high rates of domestic violence, dating
violence, sexual assault, and stalking exist at the local, State,
tribal, and national levels and such violence or behavior harms
the most vulnerable members of our society.

(2) According to a study commissioned by the Department
of Justice, nearly 25 percent of women suffer from domestic
violence during their lifetime.

(3) Proactive efforts should be made available in all forums
to provide pro bono legal services and eliminate the violence
that destroys lives and shatters families.

(4) A variety of factors cause domestic violence, dating
violence, sexual assault, and stalking, and a variety of solutions
at the local, State, and national levels are necessary to combat
such violence or behavior.

(5) According to the National Network to End Domestic
Violence, which conducted a census including almost 1,700
assistance programs, over the course of 1 day in September
2014, more than 10,000 requests for services, including legal
representation, were not met.

(6) Pro bono assistance can help fill this need by providing
not only legal representation, but also access to emergency
shelter, transportation, and childcare.

(7) Research and studies have demonstrated that the provi-
sion of legal assistance to victims of domestic violence, dating
violence, sexual assault, and stalking reduces the probability
of such violence or behavior reoccurring in the future and
can help survivors move forward.

(8) Legal representation increases the possibility of success-
fully obtaining a protective order against an attacker, which
prevents further mental and physical injury to a victim and
his or her family, as demonstrated by a study that found
that 83 percent of victims represented by an attorney were

able to obtain a protective order, whereas only 32 percent of victims without an attorney were able to do so.

(9) The American Bar Association Model Rules include commentary stating that “every lawyer, regardless of professional prominence or professional workload, has a responsibility to provide legal services to those unable to pay, and personal involvement in the problems of the disadvantaged can be one of the most rewarding experiences in the life of a lawyer”.

(10) As leaders in their legal communities, judges in district courts should encourage lawyers to provide pro bono resources in an effort to help victims of such violence or behavior escape the cycle of abuse.

(11) A dedicated army of pro bono attorneys focused on this mission will inspire others to devote efforts to this cause and will raise awareness of the scourge of domestic violence, dating violence, sexual assault, and stalking throughout the country.

(12) Communities, by providing awareness of pro bono legal services and assistance to survivors of domestic violence, dating violence, sexual assault, and stalking, will empower those survivors to move forward with their lives.

SEC. 3. DISTRICT COURTS TO PROMOTE EMPOWERMENT EVENTS.

(a) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, and annually thereafter for a period of 4 years, the chief judge, or his or her designee, for each judicial district shall lead not less than one public event, in partnership with a State, local, tribal, or territorial domestic violence service provider or coalition and a State or local volunteer lawyer project, promoting pro bono legal services as a critical way in which to empower survivors of domestic violence, dating violence, sexual assault, and stalking and engage citizens in assisting those survivors.

(b) **DISTRICTS CONTAINING INDIAN TRIBES AND TRIBAL ORGANIZATIONS.**—During each 2-year period, the chief judge, or his or her designee, for a judicial district that contains an Indian tribe or tribal organization (as those terms are defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304)) shall lead not less than one public event promoting pro bono legal services under subsection (a) of this section in partnership with an Indian tribe or tribal organization with the intent of increasing the provision of pro bono legal services for Indian or Alaska Native victims of domestic violence, dating violence, sexual assault, and stalking.

(c) **REQUIREMENTS.**—Each chief judge shall—

(1) have discretion as to the design, organization, and implementation of the public events required under subsection (a); and

(2) in conducting a public event under subsection (a), seek to maximize the local impact of the event and the provision of access to high-quality pro bono legal services by survivors of domestic violence, dating violence, sexual assault, and stalking.

(b)(1) Unless the Secretary of Energy notifies the Committees on Appropriations of both Houses of Congress at least 3 full business days in advance, none of the funds made available in this title may be used to—

Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver.

(h) The unexpended balances of prior appropriations provided for activities in this Act may be available to the same appropriation accounts for such activities established pursuant to this title. Available balances may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 304. None of the funds made available in this title may be used to approve critical decision-2 or critical decision-3 under Department of Energy Order 413.3B, or any successive departmental guidance, for construction projects where the total project

cost exceeds \$100,000,000, until a separate independent cost estimate has been developed for the project for that critical decision.

SEC. 305. The Secretary of Energy may not transfer more than \$274,833,000 from the amounts made available under this title to the working capital fund established under section 653 of the Department of Energy Organization Act (42 U.S.C. 7263): *Provided*, That the Secretary may transfer additional amounts to the working capital fund after the Secretary provides notification in advance of any such transfer to the Committees on Appropriations of both Houses of Congress: *Provided further*, That any such notification shall identify the sources of funds by program, project, or activity: *Provided further*, That the Secretary shall notify the Committees on Appropriations of both Houses of Congress before adding or removing any activities from the fund.

- (2) a cost estimate for the establishment, operation, and maintenance of the reserve, including funding sources;

Notwithstanding section 161 of the Energy Policy and Conservation Act (42 U.S.C. 6241), upon a determination by the President in this fiscal year that a regional supply shortage of refined petroleum product of significant scope and duration exists, that a severe increase in the price of refined petroleum product will likely result from such shortage, and that a draw down and sale of refined petroleum product would assist directly and significantly in reducing the adverse impact of such shortage, the Secretary of Energy may draw down and sell refined petroleum product from the Strategic Petroleum Reserve. Proceeds from a sale under this section shall be deposited into the SPR Petroleum Account established in section 167 of the Energy Policy and Conservation Act (42 U.S.C. 6247), and such amounts shall be available for obligation, without fiscal year limitation, consistent with that section.
