ATTORNEY DEMANDS DALY'S APPEARANCE IN COURT

Sir George Foster Speaks To-night on League of Nations

Famous Parliamentarian and Eloquent Speaker Will Address Mass Meeting at Metropolitan Methodist Church in Appeal For Fuller Practical Support of League

Sir George Foster, one of Canada's most brilliant speakers, will to-night address a public mass meeting in the auditorium of the Metropolitan Methodist Church on the League of Nations. The meeting, which will commence at 8 p.m., will be presided over by the Lieutenant-Governor, the Hon. Walter C. Nichol. Sir George Foster is recognized as one of the staunchest advocates of the work of the League of Nations and a scholarly and instructive review of the splendid accomplishments of the League is assured.

Appeal For Support

The mission of Sir George to the Pacific Coast is to stimulate greater interest in the League and to enlist assistance of Canadians for a full and sympathetic support for its operations. In view of the importance of the subject and the oratorical brilliance of the speaker, it is expected that the hall will be crowded to-night.

Public bodies of the city, including Canadian Royal Society of St. George, Gyro, Kiwanis and Rotary Clubs, and also the ex-service organizations, will be represented on the platform. The address will be preceded by an organ recital by Edward Parsons, organist of the Metropolitan Church, from 7.30 to 8 p.m.

Returning East

Ottawa, Oct. 4.—Sir George Foster, who for the past month has been in the West, commences to-night at Victoria, B.C., his homeward-bound series of lectures on the League of Nations. His itinerary brings Sir George home to Ottawa at the end of his tour. At a central League of Nations meeting in Ottawa yesterday it was decided to make a strong appeal for support to the leading Canadian financial and business interests.

The society is basing its appeal to the financial and business interests on the ground of the desirability of providing up-to-date League of Nations literature for its members and for a considerable group of other organizations in the League's activities. These include the Canadian Clubs throughout Canada, the Federated Women's Society of Canada, the daughters of the Empire, The Literary League, and various universities and colleges and is available on application to lecturers and others interested in the League's activities. Preliminary steps were taken with regard to the coming visit of Dr. Fridtjof Nansen, who will address meetings in Toronto, Ottawa, Montreal and Quebec between November 24 and December 1.

SPECIAL SEWER VOTE IN NOVEMBER

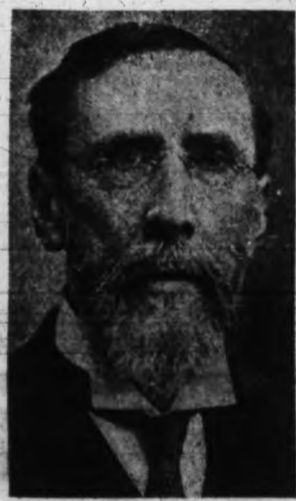

May Settle Obligation For Northwest Sewer by Saanich

Long Standing Question Twice Defeated by Electors

Payment of the debt which Saanich owes Victoria for the enlargement of the Northwest sewer, which now aggregates nearly \$60,000 as a result of accumulation of interest through many years, may be subjected to the opinion of the ratepayers of Saanich at a special polling to be held in the middle of November. A special session of the Finance Committee of the Saanich Council took place this afternoon, when Reeves Watson favored the above course and also presented a summary of the present situation and the obligations of Saanich, which had been prepared by Clerk Sewell at Reeves Watson's instance. Reeves Watson has for many years advocated the settlement of this account with the city of Victoria, and should the Finance Committee be of the view and recommend a special election when the matter is under consideration by the council this evening, there is every probability that the recommendation will be adopted.

Twice previously the ratepayers of Saanich have decided by-law being voted to permit of payment of the city's account, the first occasion being at the annual elections of 1921, and the second at a special voting, held some months later. The position was then somewhat confused by presentation to the ratepayers of two sewer by-laws, one to pay the city and the other authorizing sewerage of a special district. It was further complicated by the submission of a waterworks extension by-law. All three schemes were turned down by the ratepayers of Saanich, and no effort has since been made to test public opinion.

WILL SPEAK FOR LEAGUE TO-NIGHT; SIR GEORGE FOSTER

SIR GEORGE FOSTER GIVES MESSAGE TO COLLEGE STUDENTS

Tells of Duties and Responsibilities Which Youth of Nation Bears

"There are two considerations which influenced me in coming before you to-day," said Sir George Foster to-day addressing the students of the Victoria College, following the remarks of welcome and appreciation by Professor Paul. "I realized that you students would miss an hour of your routine work, and that you would be pleased to welcome me for this reason alone. I wished also to satisfy your principal, who has spoken of me in such glowing terms. Besides, coming before you here reminds me of my younger days, and I can recall my feelings of those days, almost fifty years ago. I expect that you feel much the same as I did in your work here, for human nature has not changed much in fifty years. "It would be well for you to remember that it is a great privilege you have in hearing and studying under college graduates, and you must realize this fact. We, at the superior schools of the East, many years ago fully appreciated the coming of the first professor to our midst, fresh from the University of New Brunswick. If we had never met these university graduates the probability is that few of us would ever have started on the road of education and progress. "You young men and women think of the past and future," Sir George continued, "and live in the present. Take the word of a man who has had great experience in worldly matters—the past was meant for your instruction; it is the accumulated experience of the human race; from it come the facts, policies, institutions and the best in your particular profession and the best possible service to the community and country in which you live.

"I will give you a little advice," he said. "Every man or woman should have ideals. I have had ideals, but I have never reached the height of these ideals. I hope I never shall. You must have high ideals and keep them constantly before you and your progress will be correspondingly great. No matter what you intend to follow as a life work you should want to be the best in your particular profession and of the best possible service to the community and country in which you live.

BREWERS URGE NEW METHOD OF HANDLING BEER

Tell Attorney-General They Have Solution of Beer Problem in B.C.

Will Meet Manson Again to Advocate New Beer Plan

Representatives of British Columbia brewing interests waited upon Hon. A. M. Manson, Attorney-General, to-day, and suggested what they called a solution of the beer problem. The brewers came on their own initiative, to talk about beer. Mr. Manson stated after his interview with the brewers' delegation. The Attorney-General said he had agreed to hear their representations and to meet them again at a later date after they had conferred among themselves. Members of the delegation told newspapermen that among other things they were proposing a central distribution agency for beer. Beer prices also were being discussed, they said.

Hon. J. D. MacLean, Acting Premier, was present during part of this morning's interview with the brewers.

POISON DISCOVERY CREATES SUSPICION

Inquest Follows on Wealthy New York Woman

White Plains, N.Y., Oct. 4.—Poison has been found in the kidneys of Mrs. Gertrude Gorman Webb, wealthy New York and Philadelphia society woman, and the Westchester County grand jury, which has been announced will investigate her death, in an endeavor to discover if she was murdered. Relatives of the dead woman have started a contest over the three wills which disposed of her estate, estimated to be worth between \$2,000,000 and \$3,000,000. The first will, made before her marriage to Charles Webb on November 4, 1922, left her estate to relatives and to various institutions. The second, executed during her last illness, and composed of only ten lines, left her entire estate to her husband. The third and last will, on which the contest will be based, was made out just before Mrs. Webb's death, and left unassigned by her, due to her weakened condition. This last document, which was refused by the surrogate's office on the ground that an unsigned will could not be accepted even as evidence left the greater part of the estate to the relatives, and also established a fund to care for a monument to the dead woman, which was to be erected in New York.

Canada Short in Cattle Shipments to Great Britain

Glasgow, Oct. 4. (Canadian Press Cable)—Cattle had not come from Canada in the numbers expected or promised before the removal of the embargo, the president of the Glasgow Fishers' Society, stated at a meeting of the Scottish Federation of the Meat Traders' Association. Thus, he explained, it was not the fault of the meat traders in Great Britain that their promise that the price of beef would be reduced to the public had not been fulfilled. It was because the promised large Canadian shipments had not materialized.

SETTLEMENT SCHEME FAILS TO REALIZE DOMINION'S HOPES

Empire Delegates to Economic Conference Place Drafting of New Colonization Plan Among Matters of First Importance; Will Discuss Hindus in British Columbia

(Special Cable to the Canadian Press by George Hambleton, Staff Correspondent)

London, Oct. 4.—Turning again to the subject of trade development, the Empire delegates met this morning for the second gathering of the Economic Conference. Hon. G. P. Graham, Minister of Railways, represented Canada. Premier King was engaged in other work. The conference in the first place discussed the order on its agenda giving preliminary consideration to such subjects as co-operation in the collection of statistics on patents in the consular services.

Empire Settlement It is expected that Empire settlement will be the first important subject before the conference, although it is not likely to be reached to-day. Britain's representatives, it is understood, have expressed a desire that this subject should be taken up first among the important matters. Despite heavy appropriations the overseas settlement scheme has not met with the success which had been hoped for while the unemployment problem has been growing, not only in Great Britain but also over the whole of Ireland.

Advices received to-day indicate that New South Wales is offering her part in the immigration agreement owing to the refusal of the land holders in that Australian state to sub-divide their land for settlement purposes. (Continued on page 2.)

LIBERALS DEFER ANNUAL MEETING

Postponement on Account of Lapointe Visit

New Date Set is October 16; to Ask Ministers

The Victoria Liberal Association has deferred its annual meeting, set for October 12, until October 16, on account of the visit of Hon. Ernest Lapointe, Minister of Marine and Fisheries.

Mr. Lapointe will be in the city on October 11, and will speak at a meeting that evening. It has been considered inexpedient to hold another political meeting on the ensuing evening, and for that purpose a change of date has been determined upon. It is intended to ask Hon. John Oliver, and Hon. John Hart, as members of the Ministry, and J. B. Clearhue, M.P.P., all representatives of the city in the Provincial Legislature, to attend and deliver short speeches.

Aeroplane Designer Could Set Speed of 500 Miles an Hour

St. Louis, Mo., Oct. 4.—An aeroplane attaining a speed of 500 miles an hour can be built, but the craft would fly so fast that it would burn itself up in friction with the air, Glenn Curtiss, designer of the Curtiss racing planes declared to-day. Mr. Curtiss said he believed the maximum possible speed in aircraft had been reached because limitations on landing speed would make higher powered machines impracticable.

EXPECTED IN LONDON TO-NIGHT; PREMIER BRUCE OF AUSTRALIA

TO STATION BOAT AT BANFIELD CREEK

Department of Marine Gives Assurance to Navy League Here

The Department of Marine and Fisheries will place a rescue ship on the West Coast, with headquarters at Banfield, during the winter months, for the protection of navigation. This announcement is made in a letter from the Assistant Deputy Minister to the Navy League of Canada. The Victoria branch has kept up a correspondence with the Department, dating from the Alaskan tragedy, and the loss of several vessels early in the year. The suggestion was a vessel similar in type to the Snobomah, the American life-saving tug whose splendid rescues of distressed mariners has won the admiration of all. The branch thought that the Department might engage a sea-going tug capable of living in the stormy seas of the gale-swept West Coast, which would be a permanent protection to life. Officials went farther, and suggested the best course for manning the ship, in their judgment. The suggestion was a vessel manned by naval ratings rather than merchant seamen. No intimation has yet been received from Ottawa on these points, nor as to what vessel will be favored for the duty. It is believed that if time should permit, Hon. Ernest Lapointe, Minister of Marine and Fisheries, will himself look into the question of West Coast protection while on the Island. Whether the Minister will be able to do so depends largely on his engagements during his brief visit.

REFUSES TO ACCEPT MEDICAL CERTIFICATE FOR BANK PRESIDENT

GLOBE EDITORIAL FLAYS VENTURES OF HOME BANK

"Incredible Orgy of Speculation," Says Toronto Paper

Speaks of "Plunging Speculators and Exploiters Seeking to Get Rich Quick"

Calls For Identity of Debtors "Who Have Obtained and Retained Six Million"

Toronto, Oct. 4.—In a leading editorial, The Globe says: "The statement is issued by the curator of the Home Bank concerning the assets and liabilities of the bank and the losses sustained and likely to be sustained by it during the process of liquidation, provided a very strong case for very thorough and systematic bank inspection by Dominion Government examiners. It is incredible that the orgy of speculation in real estate timber lands, veterans' scrip and mercantile ventures of a dubious sort could have proceeded unchecked had the judgment of an impartial bank examiner, responsible to the Finance Department, been available. Calls Audit a Farce "The Home Bank was a bank only in name. The audit made for the protection of its shareholders was a farce. The bank took the money of thousands of small depositors and handed it over in huge sums to a few plunging speculators and exploiters who were seeking to get rich quick, accepting as security for these loans the bonds and stocks of other companies or mortgages on street railways, timber lands, and other business enterprises with which the directors of the bank were connected. "Six Million Dollars "If criminal proceedings are to take the place of a public inquiry into the affairs of the Home Bank, occasion should be taken by Attorney-General Nickle to disclose the identity of the debtors who have obtained and retained the six million dollars lost by the shareholders and depositors."

Magistrate Issues Bench Warrant Stipulating It Be Not Executed Until October 12th When Bail May Be Renewed

Toronto, Oct. 4.—When the name of Herbert J. Daly, president of the defunct Home Bank was called in the Toronto Police Court this morning, T. P. Phelan, K.C., appeared to represent him and produced a certificate from Mr. Daly's physician to the effect that the president was ill at his Summer home and was unable to appear. "That certificate will not satisfy me," said Assistant Crown Attorney Murphy, "and I ask for a bench warrant for Mr. Daly." "That's just adding indignity to these proceedings," said Mr. Phelan. "It's not at all necessary in this case." "It is absolutely necessary," retorted Mr. Murphy, "and I want the bench warrant issued."

Magistrate Jones consented to issue the warrant, but stipulated that it be not executed until October 12, when, if Mr. Daly is not in a fit condition to appear in court, the bail will be renewed. Mr. Daly was bound over in the sum of \$100,000. Mr. Gough \$100,000, Charles Barnard \$100,000, F. J. M. Stewart \$100,000, Lieut.-Colonel Smith \$50,000, S. C. Wood \$50,000, F. J. Russell \$50,000, A. E. Calvert \$25,000, Sydney Jones \$50,000 and C. G. Smith \$25,000.

Court Crowded Long before proceedings opened the court-room and the corridors leading to it were filled with curious folk anxious to get a glimpse of the accused. Feel Keenly G. P. Gough, vice-president of the Canadian National Railways, first appeared. He looked straight at the magistrate and appeared to feel keenly the part he was to play in the drama. On being formally bound over, he made hurriedly for the door leading to a side corridor. Outside press photographers furtively dodged in his way and endeavored to snap him, but he was hustled away by friends.

Appear Worried Messrs. Jones, Stewart and Russell moved among the crowd in the corridors and were known only to a few until they were called into the court. They, too, appeared worried, and answered the few questions put to them in a very low voice. Lieut.-Colonel Smith and C. A. Barnard, K.C., secluded themselves in one of the crown attorney's rooms and walked briskly before the magistrate when requested to appear.

All appeared in court except the president, H. J. Daly, who, it was stated, was detained through illness. A formal bench warrant was issued in his case, but it is understood that his bail will be renewed as it was for the others.

The following were the directors who appeared in court this morning: R. P. Gough, F. J. B. Russell, J. F. M. Stewart, S. C. Wood, all of Toronto; C. A. Barnard and Lieut.-Colonel Clarence Smith, of Montreal; also A. E. Calvert, acting general manager; O. S. Smith, chief accountant, and Sydney H. Jones, auditor, all of Toronto. P. A. Mitchell, the London, Eng., director, is now the only member of the board not under arrest.

INQUEST UNNECESSARY

Called for 11 o'clock this morning at the Thomson Funeral Parlors an inquest on the remains of the late Charles Trevor Cross was cancelled shortly before that hour. The action came as a result of a ruling from the Attorney-General's Department to Coroner Dr. E. C. Hart. Death, stated the Coroner, to the Times later, was accidental and the cause clear beyond any possibility of error. Summoned to appear at the hour stated witnesses were discharged unheard. Existed On Water The first thing the rescued men asked for was cigarettes. They said all they had to exist on was water after the first day, when the supply of bread gave out. The pit they were in was flooded by the explosion but they succeeded in crawling to a ledge away from the water and finally struck a passage where they got a current of air. They stopped there, except for occasional trips for water, until they were rescued. The pit belonged to the James Nimmo Company. Seventy-one men were entombed in it when the explosion occurred, but one party of twenty-nine were rescued. Virtually all hope for the remaining men had been given up.

97 HOURS WINS INSOMNIA PRIZE

Paris, Oct. 4.—The craze for ridiculous records evidently is not dead in Europe. After dancing, drumming, pipe blowing and whistling records comes the insomnia record, established at Trieste. A prize of 1,000 lire was offered to the person who could remain awake the longest. Although the favorite was a young girl of twenty, the prize was carried off by two men who succeeded in keeping their eyes open for more than ninety-seven hours, the girl having fallen fast asleep after seventy-nine hours. The winning couple, one a hairdresser and the other a bartender, probably are accustomed to late hours of work. Meanwhile there is a man in a Florence hospital who is likely to beat all sleeping records. He is a business man who was found asleep on a park bench June 23 and is still asleep. The doctors, though they applied all the treatments known to them, have failed to arouse him.

Audacity Wins. Aggressive advertisers usually encounter the commiseration of their over-conservative competitor who confides to mutual friends that the merchants in question are making a foolish splurge. The truth is the aggressive advertiser has already learned the lesson of real prudence. In advertising it is true that the man who does "more than he can afford" comes to be able to advertise more and more aggressively. His audacity wins. People have a way of sitting up and taking notice of the aggressive man. He compels attention; and if his aggressiveness seems to be in the interests of all concerned why his personal progressiveness means real service to the people, as is always the case when a store takes the offensive, the attention he compels turns to profits. In store-making, as in all lines of endeavor, the brave spirit conquers. Assuming, of course, that the merchant's "audacity" is based upon the sound principle of a wise expenditure of his money. It's a pretty safe policy to spend more for newspaper advertising than your competitor thinks you can afford to spend.

If tiny lines appear hateful signs of early ageing...

Study how the society woman keeps her skin so young

Like the society woman, you need not allow your skin to betray fatigue, or age, or the harsh effects of weather.

FINE lines around your eyes, your nose, the corners of your mouth. Do not think of letting them stay—to grow deeper and turn into wrinkles!

These premature lines are only the troubles of a skin allowed to be too dry. You must learn how to give your skin the suppleness it needs. Learn from the women who have discovered how to keep their skin young, how your skin can be kept so beautifully soft it cannot form lines.

The famous method women use who tax their skin the most

The society woman keeps her skin smooth and fresh season in and out. That is because she has learned the two fundamental needs of her skin. And she knows that she must meet them in order to go on exposing her skin to fatigue and weather and still keep it in the fresh supple condition that social usage demands.

These two needs are the basis of the famous Pond's method of two entirely different creams. The daily cleansing that softens and relaxes her skin, frees it from all dust, dryness and cosmetics. Then the protection that prevents all drying out and coarsening and besides has the wonderful property of instant freshening. With this method she keeps her skin smooth and unlined years longer than most women who give their skin far less wear.

Every skin needs these Two Creams—

Pond's Two Creams used, women who tax their skin most and keep it loveliest

C.P.R. CHIEF STRESSES NEED OF IMMIGRATION

The Dominion Government, He Says, Should Issue Invitations

Urges Immediate Consideration of Empire Settlement Act Offer

Edmonton, Oct. 4.—E. W. Beatty, President of the Canadian Pacific Railway, arrived here this morning and in response to an invitation to address the Board of Trade on "Immigration," said: "Undoubtedly Canada's greatest need to-day is immigration. Canada began the twentieth century with approximately the same population with which the United States began the nineteenth, and we are fond of calling this 'Canada's Century,' comparing our population with that of the United States a hundred years ago in the comfortable assurance that development will look after itself."

U. S. Example "But are we going to achieve this if we are going to do as the United States has, and why should we not? A substantial healthy immigration is necessary. Immigration built up that country to the magnificent status she enjoys to-day."

Ten Years' Total "In ten years from 1911 to 1921 total immigration into Canada was 2,123,000, together with a natural increase in the population of 1,100,000. Notwithstanding this the total population of Canada was only increased during these ten years by 1,500,000. During the year 1920, 117,000 people entered Canada and 90,000 emigrated to the United States. I do not need to remind you of the serious exodus in 1922 and 1923. Our natural debt is approximately \$70 per capita, and there is one million people in operation in Canada for every 234 persons, and in the four western provinces for every 110 persons, and in excess of 25,000,000 acres of land fit for settlement within a distance of fifteen miles of each side of existing railways in the three prairie provinces."

"We have huge railway systems which can only be maintained by traffic, and increased traffic can only be secured by agricultural expansion in the West. The proper utilization of our resources in mines and timber, and the consequent industrial expansion in the East."

Colonization "For years it has been the policy of the Canadian Pacific to actively colonize and settle the lands of the company, and since its incorporation over \$50,000,000 have been spent with this object in view."

"Canada has one mile of railway for every 236.0 of our total population. The United States has 40.4 persons to the mile, and Great Britain 180.4. We either believe in this country and its future or we do not. If we do believe in it we must know that it can support more than 5,000,000 people, and that it will require more."

What Policy Needs "It is quite clear that any general policy adopted by the Government in this connection must include: (a) The immigration issue by the Department of Immigration and Colonization of a general invitation through the medium of advertising, publicity, lectures and exhibitions to all desirable emigrants to consider the opportunities offered by Canada for home making, and that this invitation should be addressed to Great Britain, the United States and all European continental countries from which desirable immigrants can be obtained. It being held that the responsibility for this general invitation to immigrants is the duty and function of the Dominion Government."

(b) The immediate consideration of the offer outlined in the Empire Settlement Act, 1922, for joint action with the British Government for obtaining from Great Britain and Ireland the greatest possible number of desirable colonists on the basis of joint financial expenditure.

(c) The most careful consideration of the policies now being considered by certain continental countries for financial aid towards the emigration of their nationals due to congested conditions of population, resulting from the war and the present industrial and financial conditions.

Compared With 1913 "An immigration authority taking Canada's great immigration year, 1913, works out that it would take over 250 years for this country to become as thickly settled as the United States, and this not counting natural increase."

Reduce Freight Rates "To reduce taxes to reduce our costs we must have more people, more traffic over which to spread our overhead charges. Instead of two people per square mile we should have 100. Every settler in the Can-

adian West means new work for those in the Canadian East. Those who fear that an immigration campaign will bring in settlers would add to the unemployment in Eastern cities should bear this in mind. To-day in Western Canada our future is handicapped for the lack of new farm development which really means the active immigration. Industrial development cannot be brought along without a corresponding human immigration, for it is directly dependent upon it both for its machinery and its markets. You cannot stop immigration and expect that of capital to continue, because if the human tide is arrested the flow of capital is affected."

Capital on Look Out "Economists estimate that the world will soon have reached the bottom of the present decline. Sooner or later the up-turn will be reached. Idle money will clamor for investment opportunities. The world will be searched for new chances for enterprises, and no richer area will be found than Canada. But unless Canada gets immigrants to settle on her farms and increase her basic output of goods, the revival will only half enliven us."

Making Better Showing "It is, however, encouraging to note that our immigration into Canada for the first seven months of this year makes a better showing than for a similar period of last year, the increase being 10 per cent. Total immigration first seven months, 1922, 42,025; total immigration for first seven months of 1923, 47,552. It is also gratifying to note that the immigration from Great Britain for the first seven months of 1923 increased 17,000 over the same period of 1922. If there are those who think that Canadian Pacific is receiving and is yet demanding high prices for its agricultural lands, I would direct your attention to the following official figures relative to this subject which should effectively dispel such a misconception:

C.P.R. Land Sales "Up to the end of June, 1923, the Canadian Pacific Railway had disposed of 18,134,737 acres of agricultural lands, for which an average price of \$7.37 per acre was received. During this period the company has by direct effort of its own, secured the settlement of over 100,000 farmers in Western Canada. In view of the prices at which lands of similar quality to those of the company have been sold and are now being offered for sale, it is readily seen that the price received by the company is extremely low and not prohibitive. The average price received for the sale of non-irrigated lands in 1922 was \$15.98 per acre."

Ready Made Farms "Up to the end of June of the present year the company has expended in irrigation, construction of ready-made farms, and improved farms, loans to settlers for building and livestock, etc., for agricultural demonstration and furtherance of the livestock industry and in other ways in connection with the disposal of lands and the assistance of agricultural effort in Canada, an aggregate amount of \$64,646,000."

METHODIST PLAN TO MEET DEFICIT "Toronto, Oct. 4.—Measures for meeting a deficit of \$1,000,000 or more in accounts and for presenting missionary needs to every pastor in Canada and Newfoundland are being considered today by the general board of missions of the Methodist Church. While givings by congregations and other local units have failed for three years past to balance expenditures, the discussion brought out that resources traceable to legacies and the Methodist national campaign were in excellent shape. Total assets of the Methodist Missionary Society were given by the treasurer, W. G. Watson, as \$2,300,000.

The principal items of expenditure mentioned by the treasurer are \$557,639 for home missions, an amount which it is hoped to reduce by \$44,000 this year and \$50,050 for missions abroad.

To operate the Japanese mission for the year cost \$152,832, quite exclusive of the amounts up to \$250,000, which the Japanese disaster is expected to entail.

EXHORTS FREE MASONS TO STRIVE FOR PEACE "Geneva, Oct. 4.—Associating itself with the efforts of the League of Nations, the international Masonic conference adopted resolutions exhorting the members of Free Masonry throughout the world over to oppose the spirit of belligerency still manifest in many countries. The members were urged to strive to insure respect of international agreements. Thirty-four countries are represented at the meeting."

MORE DIVORCES "Washington, D.C., Oct. 4.—One divorce to 7.6 marriages in the United States last year is the record disclosed today by the Census Bureau's marriage and divorce survey, the first since 1915, when there was only one divorce to almost 9.3 marriages. There were one-fifth fewer marriages per 100,000 of population last year than in 1916.

The figures which include divorces for every state were issued without comment.

EXTENSIVE GALENA DEPOSITS "Brisbane, Oct. 3.—Recent assays of the extensive galena deposits discovered near Chillagoe are said to have shown a silver content of two thousand ounces to the ton in addition to a lead content of between fifty and sixty per cent. RECOGNIZES SIX NEW AIR SPEED RECORDS

Flights and Distance Marks Before International Federation

Paris, Oct. 4.—The International Aeronautic Federation has authoritatively accepted the flight and the distance records made by Captain Lowell Smith and Lieut. John T. Richter, United States army aviators, on August 27-28 at Rockwell Field, San Diego.

In addition to the duration record of 37 hours 15 minutes 14.4 seconds, the federation has recognized six speed records from 2,500 kilometers to 5,000 kilometers, and also the 5,300 kilometers long distance flight. The previous long distance flight record, 36 hours 5 minutes 21 seconds, was held by Lieut. Oakley Kelly and John MacReady, U.S.A. The speed records set by Smith and Richter were announced at the time as follows: 2,500 kilometers, 17 hours 32 minutes 44.5 seconds; 3,000 kilometers, 21 hours 11 minutes 2.600 kilometers, 24 hours 37 minutes 3 seconds; 4,000 kilometers, 28 hours 6 minutes 48 seconds; 4,500 kilometers, 31 hours 24 minutes 29 seconds; 5,000 kilometers, 35 hours 40 minutes 28 seconds.

FOR THE CHILDREN "The Sandman Story For To-night

THE YELLOW-JACKETS AND THE GOBLINS "The yellow-jacket wasps wanted very much to attend the festival of the fairies to be held in the dell one night and the queen told them they could all come if they would agree to being changed into butterflies for just that night.

"You might forget your promise to be good," said the queen, "and our party would be spoiled. I dare not trust you unless you consent to become yellow butterflies."

So all the yellow-jackets agreed to let the fairy queen touch them with her magic wand and change them into yellow butterflies, for they knew they could trust her to keep her promise and change them back to their own form when the party was over.

"It will be the loveliest party we ever have held," the queen told her subjects, "for the dell will be quite filled with the beautiful yellow creatures flying about, and with the fireflies and the moonlight streaming through the trees I am sure nothing like it will ever have been seen."

The queen was right. The dell was a beautiful sight. And the goblins who had not been invited thought so, too, for when they saw all the white rabbits and the fireflies and the beetle and cricket band running toward the dell, they followed.

"The fairies are having a party," they said to each other. "We will go along and see if we cannot do something to bother them for they never invite us to join in their good times."

So, hidden behind bushes and behind leaves of the trees, the goblins watched with envious eyes the beautiful scene and each one tried to think of some way to spoil the fairies' party.

"Let us carry off all the yellow butterflies," said one goblin. "We can run home and get some bags and be back in no time. I am sure we can catch them and carry off most of them, if not all."

This seemed to please all the other goblins and away they scampered for the bag and were back again and in the trees before you could wink.

Some of the yellow butterflies fitted into the trees and were caught by the goblins and then the others wondered where their brothers had gone, followed to see what had happened. Soon every one of them was in the bags of the goblins.

Then off ran the goblins chuckling to think they had spoiled some of the party. But now they had the yellow butterflies what should they do with them? That was the question.

"We will carry them home and have a party of our own," said one goblin. "They will make Goblins' Land under the rocks look as pretty as the dell."

The goblins all thought this would be great fun, so they ran fast as their little legs would carry them towards their homes.

But they had to go over a bridge to reach their rocks and under the bridge was a running river hurrying over pebbles and stones. And the goblins, though magic folk, did not know that all enchantments is broken by a running stream, out rushed the middle of the bridge than all the yellow butterflies were changed back to their own shapes—yellow-jacket wasps—and they were very angry for being carried off from the party.

The frightened goblins dropped their bags and ran, but they had not tied the bags and out rushed the angry wasps and chased them.

Yes, they caught them, every one, and the goblins had to stay in their homes for many nights after to nurse their noses and ears which were as big as three of those little members usually were.

After punishing the goblins the yellow-jackets all flew back to the dell and went straight to the queen and told her what happened. Of course she did not blame them, so she quickly changed them into yellow butterflies again and they fitted

COMMONWEALTH POLICIES

Easily one of the most important and interesting subjects with which the Imperial Conference will be called upon to deal is that of the future relations of the British Commonwealth to Europe and Europe's constantly recurring troubles.

Before the war Britain was pledged to defend the neutrality of Belgium; but the Entente with France, while involving no actual commitments, implied a common interest and actually dictated a common course.

This intrudes the question of the position of the Dominions in relation to certain policies conducted from Downing Street that might ignore such uncomfortable situations as that which developed over the Chanak incident.

Underlying this phase of the Conference's deliberations is the firm intention on the part of every delegate to establish a Commonwealth understanding that may be employed to stave off war—a protection as much for Great Britain as for any other member of the family.

Most people will agree that the time has come for Great Britain to leave Europe a good deal more to herself than she has done for the last two hundred years.

It may be true that Europe and its peoples will remain divided into water-tight compartments for some time to come; that there will be hates and jealousies and dangerous situations until those nations cease leaning on others and begin to make steady progress for themselves along the road that leads to unity.

What is there on the reverse side of the picture? The Commonwealth represents about a quarter of the world's surface and there are millions of acres in Canada and Australia that are literally groaning with wealth that merely awaits the hand of man to gather it.

THE LIGHT THAT FAILED

Right through the Northern Central section of British Columbia down to the centre of the dry belt we have traced the political pilgrimage—through the press—of Mr. Bowser and Mr. Pooley.

So far, however, not one of Mr. Bowser's public utterances bears the least trace of anything that has not been heard on the floor of the Legislature and on political platforms here and there for the last five years.

We do not complain of Mr. Pooley's contribution to the entertainment which he

marked the tour. When his chief announced that the member for Esquimalt would accompany him he stated definitely that the presentation of the prune juice side line would be all that would be expected of him.

GERMANY'S TURMOIL

It may take Chancellor Stresemann a few days to roll away the political clouds which are at present obscuring the true conditions in Germany and its rebellious states.

Note and Comment

Mr. Howard Carter, the Egyptologist, has left London for Luxor and the Valley of the Kings to continue his exploratory work.

It is suggested that Mr. Lloyd George may yet find time to come to the Pacific Coast. It would seem natural for him to do so if he is coming to this side of the Atlantic ostensibly to thank Canada and the United States for their part in the war.

Clutch and gear are soon to be abolished in motor cars if a recent invention turns out to be all that is hoped of it. This is interesting news to us up to a point.

New Zealand has ordered a number of wooden cut-to-fit houses from British Columbia and there is a suggestion that a big trade may be done.

Mr. Pooley has returned from his political pilgrimage fully convinced that the present Administration is doomed. Was it not Mr. Bowser—and Mr. Pooley as well, of course—who was quite sure that he would be chosen to direct the destinies of this Province after the last general election?

Some Thoughts for To-day

My cake is dough; but I'll be among the rest. Out of hope of all, but my share of the feast. Taming of the Shrew.

As much valor is to be found in feasting As in fighting, and some of our city captains And carpet knights will make this good, and prove it.

Thought is deeper than all speech, Feeling deeper than all thought; Souls to souls can never teach, What unto themselves was taught.

His frown was full of terror, and his voice Shook the delinquent with such fits of awe As left him not, till penitence had won Lost favor back again, and clos'd the breach.

The trail led the cougar hunter five miles into the bush, or thereabouts, when the dogs treed a large female panther. It was dark by this time. BRITISH AMERICAN LEAGUE HELDS OF BIG CONFERENCE

Harry Charlesworth Tells of World Conference on Education

Vote of Sympathy Passed to Family of Late Organizer

At to-day's luncheon of the British-American League, held at Spencer's Restaurant, President A. D. Cross paid a tribute to the late C. T. Cross who at one time was organizer for the league. A standing vote of condolence with Mrs. Cross was passed by the league.

Harry Charlesworth addressed the meeting upon the World Conference on Education, held in San Francisco in July last.

Educational leaders of forty countries were present, a feat of importance as the conference was the first of its kind in the history of the world. The National Educational Association, attended by 18,000 representatives, was in session at Oakland, and every evening, in the Civic Auditorium, joint sessions of the two bodies took place. Mr. Charlesworth said.

The English language was understood by the majority of delegates present, and Mr. Charlesworth stressed the importance of this tendency towards the English tongue, the accents towards international understanding and permanent peace.

In addition to the educators present, the conference was attended by representatives of the League of Nations, and also by great numbers of students from foreign lands.

Mr. Charlesworth gave interesting details of the unexpected success which the polyglot conference did business by use of the English tongue.

Educate Towards Peace

"The spirit of the conference was that we, as teachers, have a special field of work in education," said Mr. Charlesworth, in pointing out that the world is a vast field of work in education would, in the course of a few generations, attain the objectives of the League of Nations, if that body was successful in its efforts.

Mr. Charlesworth quoted the following from an address by Dr. John Adams, of London, as being of interest to the British-American League:

"The British and American people seem to me best compared to the birds of the air. They are scattered in all directions, but God help anything that comes between them."

Right Rev. Bishop Roper, of Ottawa also spoke briefly.

CHARGED IN THE OAK BAY POLICE COURT

Patrick Foley was allowed out on bail for the night. The accused was charged by his wife, Mrs. Florence Foley, with assault. To the Court the complainant stated that she was in the bedroom with her husband and that she was being sexually assaulted. The police officer who was called to the house found the accused in the act of assaulting the complainant. The police officer arrested the accused and took him to the police station. The accused was charged with assault on a woman. The case was brought to the police court this morning for trial.

BOWSER DISCOVERS OVER LIQUOR LAW

Too Much Spent on Drink Small Town Merchants Tell Conservative Chief

Liquor conditions throughout British Columbia are causing widespread discontent. W. J. Bowser, leader of the Conservative party in this province, returned to his home here to-day after an extended speaking tour through the interior.

"In small towns the merchants complain that people instead of paying their grocery bills go across the street to the liquor stores," Mr. Bowser said. "The merchants complain that the liquor stores get money that should be used for household purposes. They all blame the Government, which, in perhaps, extreme unfair, because with the law as it is the sale of liquor, of course, would continue regardless of what Government was in office."

Mr. Bowser declined to state his views on the proposal now being urged by some members of the Legislature that a prohibitive tax be levied on liquor.

The studies will cover the period from October 7, this year, until April 20, 1924. They are issued for the first time under the joint auspices of the three denominations named.

PRINCE UNABLE TO ACCEPT INVITATION TO VISIT TORONTO

Toronto, Oct. 4.—In reply to an invitation sent to the Lieutenant-Governor of Ontario to visit Toronto that he consent to spend a quiet day in Toronto on his return journey, the following telegram was received yesterday: "Lieutenant-Governor Cockshutt: "It is more than kind of you to invite me to Government House for a day on my return journey, and I greatly appreciate the suggestion you make on behalf of the citizens of Toronto. But I am here, now, in a purely private capacity, and I have decided that I can not divert a direct route between my ranch and my home."

RECLAIMED LAND AT SUMAS LAKE BEAR BIG CROPS

Reclamation Scheme Nearly Finished; to Hold Land From Sale Now

Land reclaimed by the British Columbia Government around Sumas Lake is proving remarkably fertile and will grow heavy crops of all kinds. Hon. E. D. Barrow, Minister of Agriculture, declared to-day after he had completed his first inspection of the reclamation project since his return from England.

"Only 2,000 acres of water remains in Sumas Lake, and this will be pumped out in the course of the next two weeks," Mr. Barrow stated. "The pumped and other ground installed will be able to take care of any water conditions that may arise in the future. The whole of the area will be absolutely dry before Winter. An idea of the progress that has been made lately is afforded by the fact that three pumps operating in this area reduced the area of the lake in three weeks from 9,000 to 3,000 acres."

As demand for agricultural land is not very active at present land in the reclaimed area will not be sold this year, Mr. Barrow announced. It had been planned originally to put the first reclaimed lot on the market this Fall. Next year, Mr. Barrow said, the Government would consider the marketing of the land. Meanwhile surveys of the whole area are being completed.

Reclaimed land around Sumas Lake which was under water until this year, is bearing heavy vegetation. Land ploughed for the first time this year carried excellent crops and now clover which was planted early this season is growing rapidly and will afford excellent pasturage, Mr. Barrow stated.

ROTARY CLUB HEAR DR. MACRAE

Noted Educationist Heard in Interesting Vein on Student Life in Europe

In a characteristic address before the Rotary Club to-day Dr. A. O. MacRae, principal of the University School, dealt with his experiences while studying and lecturing at universities in Scotland, Germany and France.

Long experience in European countries had left him the impression that, to the Anglo-Saxon mind, the impulsiveness of the northern European mentality was incomprehensible.

Dealing with personal reminiscences of student life in those countries a quarter of a century ago Dr. MacRae charmed his hearers in a brief, concise address.

The aims and success being met by the Social Service League was dealt with by its secretary, Miss Olive Snyder, in a brief talk. Miss Snyder reminded her hearers of a tag day to be held to further the funds of the league on Saturday.

Proposed by Percy Abell, the club passed a motion of condolence to the widow and family of the late Charles Trevor Cross in their recent sad bereavement.

Members were reminded of the address by Sir George Foster this evening. Charlie Sherwood, a student of Oak Bay High School, rendered several vocal numbers to warm applause.

The programme committee are planning to mark in fitting manner the five hundredth meeting of the club, which was started on the occasion of the annual meeting of the club on October 25, but plans are under way to hold the commemoration on October 18, when District Governor Miles Hines will be present at the college here. The total last year was 1,014, the registration this season showing an increase of 233.

SIR ALFRED MOND APPEALS FOR JEWS

Finds New Generation Strong, Clear-Eyed and Virile

Toronto, Oct. 4.—Sir Alfred Mond made a striking appeal here last night on behalf of the Jewish people, in an address to the members of the Zionist organizations. Sir Alfred said that when he visited Palestine he found a new generation of Jews growing up—strong, clear-eyed and virile. He appealed for support of the Zionist movement. "Now that Palestine is under British protection, free from the blighting hand of the Turk, Jewish nationalism has ceased to be a dream, and the development of Palestine has become an excellent business proposition," he said. He advocated no divided allegiance for Jews in Zionism, and alleged that Great Britain are not opposed, he declared.

PREHISTORIC RELICS FOUND IN MORAVIA

Prague, Oct. 4.—Czechoslovakia is entertaining visions of becoming the greatest point for scientific interest since the Tut-ankh-Amen excavations, following the discovery of skeletons of men and women of the ice age by Prof. Ales Hrdlicka, of the Smithsonian Institution, Washington, in the caves of central Moravia.

Dr. Hrdlicka says the bones are in perfect condition and give undoubted proof of the character of the world's inhabitants at that time. In the same place he found the bones of mammoths, lions, hyenas, cave-wolverines and beavers. In especially good condition were the crania of beavers and the teeth of a mammoth.

POPULAR WOMEN ARE HONORED BY CANADIAN CLUB

Mrs. R. P. Butchart and Mrs. Harold Fleming Made Honorary Members

Two well-known and popular women who in widely varied spheres have given valuable service to the community were honored by the Women's Canadian Club yesterday afternoon when the retiring president, Mrs. J. F. G. Hyndman, conferred upon Mrs. R. P. Butchart and Mrs. Harold Fleming honorary memberships in the club.

This pleasing little ceremony was the prelude to the more serious business of the afternoon. The election of officers resulted as follows: President, Mrs. H. P. Hodges; first vice-president, Miss McLean; second vice-president, Mrs. J. H. Fletcher; secretary, Mrs. P. H. Elliott; treasurer, Mrs. C. W. Bradshaw; executive committee, Mrs. J. H. Fletcher, Mrs. Walter Scott, Mrs. S. J. Willis, Mrs. I. W. Nasmith, Mrs. Frank Calvert, Miss Lottie Bowron and Mrs. P. B. Scurliff.

Mrs. Hyndman, the retiring president, eulogized the work of her fellow officers and members of the executive, and paid special tribute to the conveners of the four standing committees, Mrs. R. W. Perry, Mrs. Walter Scott, Mrs. I. W. Nasmith and Margaret Clay, who were presented with beautiful corsage bouquets of roses. Mrs. C. C. Spofford, the retiring president, presented Mrs. Hyndman with a similar gift of flowers.

A standing vote of sympathy was passed to Mrs. C. T. Cross in the tragic death of her husband. The members also stood in silent tribute to the memory of Mrs. Jennie Jenkins, a former beloved president.

Secretary's Report Mrs. Elliott, in her annual secretarial report, reviewed the year's work of the club. In part it is read as follows: "Your executive feels satisfaction in noting that the steady growth of numbers has continued during the past year, which proves that this society fills a real need among the women of this community. During the year just about 125 women have made application for membership, making a total membership of 830, with fifteen honorary members."

"This year's executive kept in mind always the aims and objects of the Canadian Clubs—to foster patriotism by encouraging the study of the institutions, arts, literature and resources of Canada, and by endeavoring to unite Canadians in such work for the welfare and progress of the Dominion as may be desired. With these ends in view the programme committee, convened by Miss Margaret Clay, planned the regular bi-monthly meetings in such a way that we should hear addresses by prominent Canadians on these subjects; also that we should be enabled to hear travelling speakers on questions of the day in order that our outlook might be broadened."

Much Money Raised After reviewing the various addresses given before the club, Mrs. Elliott continued: "A series of bridge teas was held in aid of our hospital fund, the hostesses being Mrs. Bowser, Mrs. Gallinger, Mrs. Paterson, Mrs. Nairn, Miss Agnew and Mrs. Gillies. This fund is now completed, and 600 stands ready to pay for the furnishing of the Women's Canadian Club ward in the new Royal Jubilee Hospital. It is hoped that members will show their interest in this ward by visiting its patients and by the gifts of flowers and articles of use."

New Discovery for CORNS

Stops their hurting in one minute; starts healing at once. Gets at the cause of corns. Only treatment of its kind

Be done with harsh and unsatisfactory methods of treating corns. The safe, scientific way has at last been found.

Dr. Wm. M. Scholl, the eminent foot specialist, developed it. Zino-pads—his new discovery—not only stop pain the minute applied but they protect against irritation and pressure, the real cause of corns. True healing begins immediately. Costs but a trifle.

By the nature of its work, the league is to a certain extent hidden in obscurity except to those who come in direct contact with its beneficiaries.

It has been proved over and over again that in many cases of destitution the causes are removable.

From an economic standpoint, the league aims to render all families self-supporting rather than to pauperize them by indiscriminate charity.

DESTITUTE BABIES FIND GOOD HOMES

Miss Clara Andrew Explains Work of Adoption Association to Club Women

"I started my work with the conviction that there is a good home waiting for every destitute baby in the world," was the way in which Miss Clara Andrew, of London, England, revealed to the Women's Canadian Club yesterday afternoon the secret of the success of the National Children Adoption Association, of which she was the founder.

To have engineered the adoption of 1,150 babies into happy homes and thus ensured the proper development of 1,150 good British citizens is no mean achievement, particularly when consideration is taken of the fact that the association is of only a few years' existence, and that its work is purely voluntary.

Describing the origin of the association which she brought into being during the war, Miss Andrew touched upon the administrative features

of "Tower Cressy," the London home of the association, where the babies are taken and cared for pending their adoption.

With a fully qualified matron in charge, a night sister and a day sister, also fully qualified, the work has been carried out thoroughly, remarked the speaker, who said that there was a great demand for the probationers of this institution, six being in training all the time.

Little Ones Received Miss Andrew told her audience that though it was a rule of the house not to accept a child unless it was destitute, an orphan or half orphan, the association never refused a cruelly case, and every child was sooner or later adopted into a good home.

In conclusion she expressed the hope that a committee would be formed in Canada to assist the work of the association and thus further her aim to keep every British baby in the British Empire.

POOLEY PLEASD WITH INTERIOR SPEAKING TOUR

R. H. Pooley, M.P.P. for Esquimalt, returned to the city yesterday afternoon following an extensive tour of the interior of the Province with W. J. Bowser, K.C., Leader of the Conservative Party in British Columbia.

Mr. Bowser and Mr. Pooley addressed eighteen meetings during their tour. They spoke at Prince Rupert, Hazelton, Glenanna, Houston, Wisteria, Ootso, Francois Lake, Terrace, Burns Lake, Smithers, Fort Fraser, Vanderhoof, Fort St. James, Prince George, Kamloops, Salmon Arm, Ashcroft and Agassiz.

FAIR LEASES FROM ANOTHER ASPECT

Official of New Westminster Exhibition Draws Parallel With Willows Park

An interesting parallel with the case of the City Council and its proposed lease of the Willows Park to the B.C. Agricultural Association is that of the Queen's Park at New Westminster, where the largest agricultural association in the Province is staged annually.

Nels Nelson, treasurer of the Royal Agricultural and Industrial Society, the body which manages the Westminster fair, arrived in the city today to take up with members of the Department of Finance the question of rebating amusement tax charges on the gate receipts and concessions at the recent fair, on the ground that the whole of the proceeds are used for educational purposes.

Mr. Nelson, who for two terms was president of the society, and succeeded to the treasurership on the death of G. D. Brynmor recently, said the society only held the control of Queen's Park for one month each year. The society would like a lease such as prevailed at Hasting Park, Vancouver, but the City Council declined, preferring to deal with the athletic associations which used the oval and buildings in the park.

"I do not think we as agricultural associations will ever be able to make satisfactory arrangements with athletic and similar associations until we own our grounds," he said. "In our case Queen's Park is used extensively for real park purposes by the citizens, and that complicates the situation. There is no chance of us getting an annual lease, but I do not mind saying that we as directors have a great deal of sympathy for the attitude of the B.C. Agricultural Association in standing out for the lease."

RIVERSIDE SETTING FALL FISHING PACE

Special to The Times Riverside, Lake Cowichan, Oct. 4.—With the dull weather of the last few days, fishing has again become good on the Cowichan River and some record catches have been made on the fly.

"It's the best fall fishing I've seen for some years," said Harry Hodgson, the fish authority at Riverside. Sportsmen, who like fall outings, are taking to the fishing here with great enthusiasm.

POPULAR WOMEN ARE HONORED BY CANADIAN CLUB

(Continued from page 4.)

"Our president and several members took a very active part in the Community Chest campaign, and worked very hard to help make it a success. The club donated \$100 to this fund.

Thanks and Tributes The thanks of the club are due to the men of the club for invitations to hear the very prominent men who addressed them; to the press for notices of meetings and the excellent reports sent to our pleasure; to Mr. Wilson and the staff of the Empress Hotel for unfailing courtesy at all times, and to many other friends of the club who have contributed to its activities during the year.

"Before concluding this report, may I express my appreciation of the work of all the officers and members of the executive, and especially to that of our retiring president, Mrs. Hyndman, who has done so much for the success of the association meetings is due to her genius for organization."

Finances Satisfactory Mrs. Bradshaw presented a most satisfactory financial statement showing that the year ended with a balance in the treasury of \$101.53, while the special hospital fund during the year was brought to \$1,008.15.

A resolution, sponsored by Mrs. J. D. Gordon and passed unanimously by the meeting, petitions the Attorney-General to inaugurate the Willett operation of a juvenile court in Victoria.

SHRINERS' PATROL COMING

Vancouver Shriners Sending Their Patrol to Assist Victoria Nobles in Charity Dance

In order to assist the Victoria Shriners to make an outstanding success of the dance which they are holding for the benefit of the Japanese Relief Fund, the Vancouver Shriners have volunteered their services, and are sending their uniform patrol of about thirty members who are to take part.

The entire receipts from this dance are to be turned over to the Canadian Red Cross Society for the benefit of the Japanese Relief Fund. It is generally understood that the Canadian Red Cross Society expends this money first to assist Europeans, and after they are cared for the balance is used in relieving suffering amongst the Japanese.

The motion pictures which are now being shown at the Pantages Theatre give one an idea, from which he can easily imagine, the extent of the disaster and the terrific amount of human suffering that has been caused. The extent of the work of the Japanese people themselves in rescuing and assisting the sufferers can also be realized from these pictures that are now being shown at the Pantages Theatre.

Tickets can be purchased at the following stores: Messrs. Melrose & Co., Fort Street; United Typewriter Co., Fort Street; Kerrilled & Duck, Yates Street; Campbell's Drug Store, Fort and Douglas Streets; Smith & Champion, Douglas Street; F. A. Gowen, Douglas Street; W. J. Clubb, Fort and Government Streets; Hawkins & Hayward, Douglas Street; White Lunch, Ltd., Government and Yates Streets (two stores); Little & Taylor, Fort Street.

Money talks—and it often says a lot of foolish things. On the other hand, money can speak with the greatest of common sense. What kind of conversation does your purse contribute to the joy of the family? Have you educated it to gossip intelligently with the merchants who sell you the products of your daily life demands? Give your income a college course in shopping for the household or for your personal needs. Education in the art of buying is found in the advertising columns of your home newspaper. Study the advertisements. They will keep you informed of new labor-saving devices to lighten your daily work—of the newest in books and music—of the styles for the coming season—of suggestions for the table of furnishings for your home. He broke off with a discordant note, and stood up.
 "I think I've entertained you long enough," he said. "Tea! Welcome in with the tray, as the maid came."
 Elsa looked at him in distress. As a rule, she could laugh at Jake's nonsense, but to-day she felt that there was something tragic about it all, though why she could not understand. She glanced at him often as she poured out the tea.
 Jake waited on her, and laughed and chatted; but he was not gay—too light-hearted, she thought, and wondered that Ursula could not see what an obvious effort it was to him.
 But Ursula seemed very happy and contented, and when Spicer spoke of her future she was all animation.
 "Next Wednesday I am going! Isn't it exciting? I'm going to be trained by Punell. Haven't you heard of him? Oh, he's a wonderful man, an artist."
 "I thought he was such a frightfully expensive person that nobody but millionaires could afford his fees," Elsa said in surprise.
 Ursula laughed. "Not quite so bad as that." She looked at Mrs. Spicer with shining eyes, then she said impulsively: "I'm going to tell you all the details now. I've had you before, ever so many times, but somehow I didn't like to. I dare say you'll think it sounds like a fairy tale, but it's the truth."
 "I hadn't any money to have my voice trained, and uncle would not help me. He doesn't like music, and he said there was no future for me. So what do you think I did?"
 "I paused—impressively. 'Well, I advertised for some one to give me \$1,000. She flashed with excitement. She was too intent to notice the sudden start Spicer gave, or the abrupt way in which Jake got up and walked over to the window. 'I never really thought I should get it,' she went on.
 "But—did you?" said Elsa breathlessly.
 Ursula nodded. "I did. Some wonderful man wrote—at least he sent his solicitors to see me, and when they said he was sure that I wasn't a swindle and that I really had got my voice—it was settled. Isn't it wonderful?"

She seemed to become aware of Spicer's strained attention and Jake's glance.
 "Oh, are you all very shocked?" she asked in dismay. "I thought you would all think it was a swindle. Jake came back from the window. He shot a defiant look at his friend.
 "I was just wishing that I had been the lucky philanthropist," she said. "I wonder if anyone would adopt me, if I advertised. Do you think they would, Miss Lorraine?"
 He smiled at her, and the conversation covering Spicer's disapproving silence.
 "It was only when presentable and Spicer were alone that she let her self into a chair with a sigh of relief.
 "Poo! That was a near-shave."
 "And in the face of that that's just jumped out of the bag," he said, "do you still dare to talk rot about platonic friendships?"
 "Certainly. What difference does it make? I've been wondering how long it would be before you'd tell me that you're not a swindle. Thank goodness, I've been here. If I hadn't been that ugly mug of yours would have given to show away in five seconds."
 "Of course, you knew from the beginning that Miss Lorraine was the advertiser."
 "I did not. I had no idea. I thought it was probably some guardian or relative advertising on behalf of a child." Jake grinned retrospectively. "It was shock to me when I discovered I was being told."
 "And Miss Lorraine doesn't know that it's you?"
 "Good Lord no!" Spicer looked at his friend with affectionate scorn.
 "And you chucking away your chance of a cure for a girl who would do a hundred times as much for you as you would for her?"
 "Jake wiped.
 "Oh, she's up," he said bluntly. "The 'chance' as you chose to call it, was in ten thousand. Besides, she will do a lot more good in this beggared world than I should by hanging on for another year or two."
 "You're anxious," you gave me your word of honor you wouldn't flit."
 "I shan't flit." Spicer flitted about the room. He admitted, like Jake, he was always been profligate with his life, but now he was profligate with his life, too, and life was a precious thing.
 "You haven't been to see that doctor chap again I suppose?" he asked presently.
 "Oh, yes, I have."
 "Recently?"
 "Yesterday morning, to be exact—at half-past eleven, if you're particular to a minute," Jake answered.
 "What did he say?"
 "Jake was turning the pages of a book, and kept his eyes upon it diligently.
 "He told me what I knew already; that he saw no reason to modify the verdict he gave me to start with."
 "Oh, for heaven's sake let's talk about something interesting." He got up and began wandering round the room.
 "Surely to heaven I can do as I choose, can't I?" he demanded. "It's not as if I mattered to anyone."
 "Are you quite sure of that?" Spicer asked.
 "I mean that you've told me this—friendship, whatever you like to call it, with Miss Lorraine—is purely platonic." He paused.
 "I should like to know what she has got to say about it."
 "Twice Jake tried to speak; then he laughed rather loudly.
 "Rot!" he said; then again, "Rot!" Spicer shrugged his shoulders. "Oh, very well. Sorry if you're offended. She doesn't care for men," Jake said jerkily. "She puts her ambition before everything... and quite right, too." He paced away, only to return once more. "Besides," he went on, "I'm about the last man on earth she'd ever give a serious thought to. Why, she couldn't stand me when we first met. You know that well enough." He waited, but Spicer

made no comment. "It's all right," he said again vehemently.
 "Very well. You ought to know of course."
 Jake stood staring down at the floor, and there was a hard gleam of pain about his mouth.
 "Suddenly he bristled, as if the words were forced from him.
 "What makes you think anything so absurd? There must have been something to put the idea into your head."
 "There is a saying that no one sees more of the game," Spicer said sententiously.
 "Another silence; then Jake broke out with a sort of anguish.
 "If I thought there was any truth in what you've said it's... it's cut my throat." Then he laughed again, rather pitiously. "It's all juff and nonsense. You always get hold of the wrong end of the stick." His brook of Ursula and a Spicer came back.
 "What have you two been talking about?" she asked, you look as solemn as judges."
 "It was Spicer who answered. 'I've been telling Jake that though I know he's a mighty clever chap, there are occasions when he can't see any further than the end of his own nose.' He said grimly, 'I'm afraid I've looked at Ursula—that do you think about it, Miss Lorraine?'"
 "It all depends upon the subject," she said, hesitatingly. "I mean, what you were referring to."
 "We were talking in parables," Jake broke in lightly. "An for argument's sake I stated that the Queen of Sheba was walking down Mile End Road she would not trouble to pick up a penny if she saw it going in the gutter." He said that it might turn out to be a sovereign, as John says that he believes she might. That's all."
 Ursula looked puzzled, and Elsa laughed.
 "Wharfish you talk, Jake! As if the Queen of Sheba would ever walk down the Mile End Road!" she pretended to collapse. "I'm beaten!" she exclaimed. "Of course she wouldn't! John, your charming wife, said that she had seen the Queen of Sheba!"
 "Ursula did not join in the laughter, and that night when she saw Jake was walking home she said to herself, "What did you mean this afternoon—about the Queen of Sheba?"
 "I don't mean anything," she answered. "I'm not talking for the sake of talking; just sheer nonsense!"
 "It sounded like sense," Ursula said thoughtfully. There was a little something to tell you, too."
 "Ursula laughed. "You begin then; eldest first."
 "No, I've been brought up, though you may doubt it, and was taught that 'Ladies first' is the correct way."
 "Oh, very well, only I hope you don't think it odd to tell you."
 "You know Mr. Bally?"
 "I do."
 "Well... well, he has asked me to marry him."
 "It seemed some seconds before Jake answered.
 "I am not surprised," he said then, "I'm not surprised. Am I to congratulate him?"
 "Of course not!" she answered indignantly. "I only told you because it's my first proposal, and I felt I must tell someone to tell you."
 "Thank you," said Jake. "So you've refused him?"
 "I'm going to. I only had the letter to-day."
 "Oh, he wrote, did he?"
 "Yes—why do you say it in that tone of voice?"
 "I don't think much of any man who has to propose to a girl under cover of a stamp," said Jake distastefully.
 "Ursula laughed. "I suppose it's easier to some people to write."
 "It ought to be easy enough to say it if you're in earnest."
 "Perhaps you've had a good deal of practice," she told him teasingly.
 "Most fools have," Jake answered with a note of bitterness.
 "I didn't mean to hurt you," she said hurriedly. "It's a horrid thing to have said. I'm sorry."
 Jake gave a short sigh.
 "I really think it's my duty to warn you, Miss Lorraine, that you are on the high road to spilling my sweet nature. I'm not used to people saying that they are sorry for hurting my feelings. Do you know among the enlightened, I am not supposed to have any feelings?"
 "That's because they don't understand you."
 "Or because they understand me too well."
 "What is the matter with you to-night?" she asked in concern. "All the afternoon I felt there was something wrong, and then when you said that about the Queen of Sheba, I was sure."
 "Sure that was a sign of lunacy on my part?" Jake asked flippantly.
 "He kept his hands clenched in his coat pockets as she said offensively: "Why will you make fun of every thing I say to-night? I've never known you do it before."
 "I'm sorry; I get taken that way sometimes," said Jake. "Look—there's a new moon."
 "Wish then!" she commanded.
 "I'm sorry," she said, and searched his pockets.
 "I've only got about four and six."

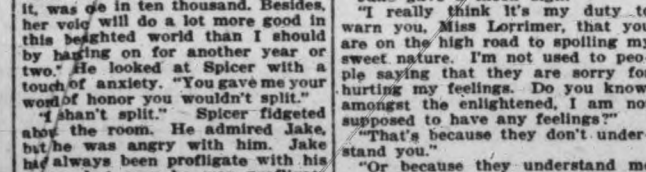

He took a long, hard pull, but Tanias finally brought me around in fine shape. It gave me a fine appetite and such complete relief from the rheumatism that I put my crutches aside and went back to work. It increased my weight twenty-five pounds and left me feeling like a new man.

Hansen Has Thrown His Crutches Away!

"Tanias is the only thing I can give any credit for helping me," is the precise statement made, recently, by C. B. Hansen, a well-known carpenter, 12835 121st St., West Edmonton, Alberta.
 "For three years I had rheumatism so bad in my right hip and foot that I couldn't hit a lick of work. In fact, I couldn't get around at all without my cane or crutches. My pain was almost unbearable, and I couldn't sleep and got down to a mere shadow of my old self.

GAS IN THE STOMACH IS DANGEROUS

Gas and wind in the stomach, accompanied by that full bloated feeling after eating, are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."
 Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.
 It is the wisdom of fully educated scientists that to treat with ordinary "digestive" pills, or cathartics, instead get from any druggist a few cures of Bisulphate of Magnesia, the best form of stomach medicine, and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

MYSTERY ISLAND TO BE EXPLORED FOR FIRST TIME

Bouvet Island and Many Other South Atlantic Points to be Explored

Cleveland, Ohio, Oct. 4.—"Bouvet" mystery island of the mysterious South Atlantic ocean, has baffled, so far as is known, all attempts at exploration, all efforts of civilized white men to plumb its secrets.

On or about October 15 sixteen adventurous souls will point the nose of a three-masted schooner toward Bouvet and the myriad of other remote islands in the South Atlantic and Indian oceans, about which folks know so little.

These men, commanded by George Finlay Simmons, will leave New London, Conn., in the interests of science. Sailing under the colors of the Cleveland Museum of Natural History, they will be gone two long years.

They will visit many places, gather many natural specimens, see strange sights—nothing so intriguing the imagination as their contemplated and determined exploration of Bouvet, mystery island.

About two years ago Paul Marshall Rea conceived the idea of a greater museum for his city. His idea expanded rapidly, and now is ready to undertake a \$100,000 expedition in a vessel that costs \$35,000, merely to insure something worthwhile for the metropolis.

A new building will be finished by the time the expedition returns in two years. And Cleveland promises to have an institution rivaling its famous competitor, the Museum of Natural History of New York City.

What the sixteen men will find on Bouvet they do not even profess to guess. Whether they will find it in itself a question.

When they approached it, it seemed to vanish in vapor. And yet, despite the rumors, the men returned to land on Bouvet, seafaring men are positive such a place exists.

It is about a thousand miles southwest of Cape Horn, and the legend goes that the Frenchman for whom the island is named, and two others are the only ones ever to locate it. And it is not certain they were able to land, for no record of what they found ever came back to the world.

It is the question mark of the seas, fully as mysterious as "Island X," the brain-child of a novelist in a recent effort.

Many other islands will be visited, probably fifty in all—St. Helena, Trinidad, the Sandwich group, Kerguelen and many more.

COURT OF INQUIRY PROBES STRANDING

Captain Milliken and Second Officer Give Testimony

At the opening of the inquiry into the stranding of the Prince Line steamer Siberian Grace, Capt. Robert Milliken gave testimony covering the time he left Seattle until the vessel struck the rocks at Bentinck Island.

At 10:30, cross bearings were taken off Smith Island and Dungeness Light. The course was then altered south 85 west. At 11 o'clock he laid down his course confident of his position by bearings, which was latitude 48.12 north and longitude 122.55 west.

At 11:25 course was altered again to south sixty-one west log two but at 11:30 that same night the vessel came into dense drifting fog, so the captain ordered the engines at stand by. The fog was drifting like smoke, the captain asserted.

The inquiry was presided over by Wray Commissioner, Admiral Farragut, Pherson and Assessors Captain Mowat and Captain Combe. A. G. Patton, of Victoria, was counsel for the captain, crew and Siberian Prince. The next session will be held at 10:30 o'clock to-morrow.

NEW INTERCOASTAL LINE IS STARTED

Oriental Navigation Company Places Two Ships in the Pacific Trade

Notwithstanding various statements that the intercoastal berth is badly over-topped, inauguration of a new general cargo line between Seattle and San Francisco, and Charleston, New York and Norfolk is being attempted, with a view to establishing a permanent eastbound service.

Two steamers, the Orient and Orinoco, owned by the Oriental Navigation Company of New York, are to be berthed for early and late October loading, respectively, on the Pacific Coast, and a third steamer, the turbine Orleans, is reported to be en route to San Francisco from Pearl Harbor and may be placed in the same run.

The vessels in this service will load at New York for the Orient, and at Seattle for the Orinoco, and the turbine Orleans, it is stated. Therefore, they will offer no westbound intercoastal service.

The Oriental Navigation Company is listed in Lloyd's as the owner of five vessels, of which only the three mentioned would appear suitable for the Coast-to-Coast route.

SCHOONERS PILE UP IN ATLANTIC GALE

Property Damage in Nova Scotia Amounts to \$100,000

Halifax, Oct. 4.—Latest reports of the effects of Monday's wind and rain storm describe the loss in three counties, Antigonish, Pictou and Colchester, of at least one hundred highbridges, representing a total outlay of more than \$100,000.

Seven hundred miles off New York, en route with lumber from Inverness, N.S., to Buenos Ayres, Captain Richards, of Lahave, N.S., and one of his crew were carried overboard from the four-masted vessel Governor Parr.

The Newfoundland schooner Allan F. Rose, reported in dispatches yesterday from St. Pierre as lost, with her crew of seven, has arrived badly battered, but with her crew saved. The schooner was driven out to sea by the gale.

Two more schooners in addition to those already reported were lost in Monday's storm. The crews are said to be safe, but the vessels will be a total loss, it is expected.

A number of small schooners were piled up on the rocks. The weather continues stormy.

FORTUNE FOUND IN DEAD MAN'S BOX

Recluse Dying in Apparent Poverty Leaves \$200,000

Special to The Times—Sydney, Australia, Oct. 4.—A poor man—apparently—who died in Sydney hospital a week or two ago left assets—apparently—of about two dollars.

He had lived in a rooming house in an obscure quarter of the city. He knew nobody and nobody troubled about him, except the boarding-house keeper who cleaned out his rooms. Even she did not know anything about him except that he was very poor. His clothes were as ancient as himself, and he was over eighty.

When he died the public trustee made inquiries to see if he had any assets to pay for his funeral. A clerk found in his lodgings in an old and dilapidated box, a bundle of tattered papers. They were receipts for fixed deposits in the government banks totalling \$150,000.

Other securities brought the total estate to over \$200,000. The public trustee knows of no heirs nor can he find out how the old man made his money.

BLUE TRAIL MEN MEET IN INVERMERE

Will Improve Travel From 'Boundary Through Columbia Valley

Invermere, B.C., Oct. 7.—Members of the Blue Trail Association from Eastern British Columbia, Banff and Calgary have been in annual session here. The Blue Trail commences at Calgary, circles through Banff and the Windermere district down by way of Kingsgate, British Columbia, to California, and back through the Western United States by way of the National Parks, then up through MacLeod to Calgary once more.

The route is sometimes termed the "Grand Circle tour" and at other times "The Blue Trail." The convention was held in the David Thompson Memorial Post, R. Handoff Bruce, of Invermere, was the director of the Blue Trail Association for British Columbia.

The business transacted included arrangements for the re-marking of the trail throughout the Banff and Callaghan areas, and the erection of sign arrows pointing to the more prominent physical features of the territory which the road traverses.

Discussion of camp sites along the way resulted in a motion that the association go on record as being in favor of a small charge being made for the use of camp sites, and that a proper person be placed in charge with camp conveniences under his supervision.

J. M. Wardle gave some interesting figures relative to traffic over the roads leading to Banff, during this present season and closing September 23. No fewer than 8,920 cars had entered the Banff and Kootenay National Parks since the season opened, of which 2,001 came from the United States.

Over the Banff-Windermere highway 4,520 cars, 4,000 of them and a half persons, each car a total of over 20,000 visitors to the season had come in that short time.

A new map showing all the changes in the route will be published early in the coming year.

Two important resolutions were passed, one relative to the levying and expenditure of revenue raised from the owners of automobiles throughout the provinces of Alberta and British Columbia. The other asked for the construction of better roads connecting the Banff and Kootenay National Parks.

The first one, which carried unanimously, reads: "That the governments of Alberta and British Columbia be asked to approve the levying of a license fee and the two-cent tax for gasoline, which the Alberta Government now levies, or any tax which is more equitable, and to contribute to the construction of trunk roads throughout the respective province of Alberta and British Columbia."

WAR TRAGEDY IS RECALLED IN HOUSE

Member of Australian House Tells of Officer Who Lost 8,000 Men and Promoted

Special to The Times—Melbourne, Australia, Oct. 3.—A hitherto unpublished tragedy of the war, suppressed by the censor, was told in the Australian House of Representatives by Mr. Charlton, the Labor leader, in a protest against the government's proposals to increase the air service in the coming year.

Mr. Charlton said if public men did not change their views about war they would wreck the world. He explained how a French 15,000 Australian went into battle and only 7,000 came out alive. This was due to an officer's blunder, yet the officer had been promoted.

BAVARIAN PREPAREDNESS.—The state did, indeed, have its own individual revolution. It deposed the Wittensbachs, and subscribed to republicanism. However, Crown Prince Rupprecht, who had taken a particularly prominent part in the war as a German commander, was still very popular. All along there has been much talk of restoring the throne, with Rupprecht as ruler, and many have even spoken of him as a candidate for kaiser of all Germany, as head of a new imperial dynasty.

Not only do the Bavarians, especially, among Germans, seem monarchistic in their preferences, but the Bavarian royalist movement has been more energetically promoted, than in any other part of Germany, through the efforts of Adolf Hitler, the German nationalist—though a Mussolini denier, there's any resemblance between himself and Hitler.

After the armistice he settled in Munich, the Bavarian capital, and founded the National Socialist group, which not only was not socialistic in its sympathies, but has fought all such tendencies. It is as strongly German, but comes from just across the frontier—an Austrian.

He joined the Bavarian forces, under the kaiser, when the war broke out, and won so much credit that he received many decorations, but never a commission, owing to educational limitations. He organized a body 500,000 strong, similar to Mussolini's "black shirts" and generally known as the "hakenkreuz," on account of the swastika cross every man wears on his brassard.

He has worked also as a sign painter. Despite his lack of education, he is a man of remarkable eloquence, a magnetic leader and a capable organizer. One of his hobbies is dodging the newspaper photographers, a precaution which probably has saved

him from arrest many times while pushing his royalist campaign in republican Germany, outside the Bavarian frontier. In his home state he and his men show themselves freely, in defiance of the republican authorities.

Bavaria, the largest of the German states, next to Prussia, both in population and area, joined the German Confederation in 1870-71 but has always retained a singular degree of individualism in policy and characteristics.

THE ROYAL RANCHMAN.—Whether it's on the bounding main or the rolling prairie the Prince of Wales is at home. Here he is on his "E. P." Alberta ranch where he, has been romping around a bit for a few weeks, forgetting the pomp of royalty.

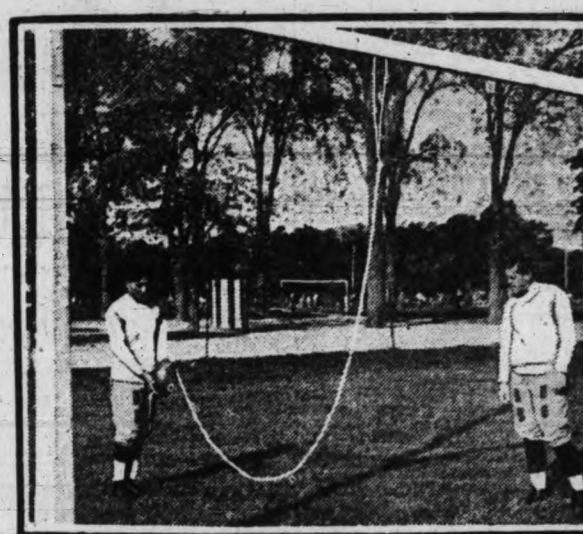

MEMBERS OF ILL-FATED EXPEDITION.—Members of the Ontario diamond hunting expedition who met with ill-fortune in the interior of British Guiana. Top, L. K. Stokes, of Sombra, Ont., who died from malaria fever far up the Essequibo River, and below, Mrs. G. H. Joyce, who later returned to Canada.

TOMMY HOLMES, V.C., AS HE IS TO-DAY.—The top photograph shows Canada's youngest V.C. with his wife and little son, photographed at their home in Owen Sound. Holmes is suffering from tuberculosis, which he claims is the result of his war service. Bottom, the home of Tommy Holmes' parents, where the hero is now living.

PRINCE RUPPRECHT of Bavaria, whose coronation as king of the disgruntled state should be separate, is rumored to be under consideration by the reactionaries.

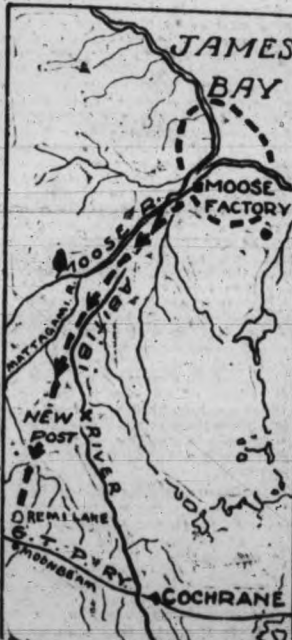

NEW TRAINING STUNT.—The captive football is the newest thing with training squads this Fall. One man can practise drop-kick and punt without having teammates to chase the pigskin for him. Above Lieutenant Eugene Vidal of the West Pointers, tries out the scheme while J. J. McEwan, head coach, watches.

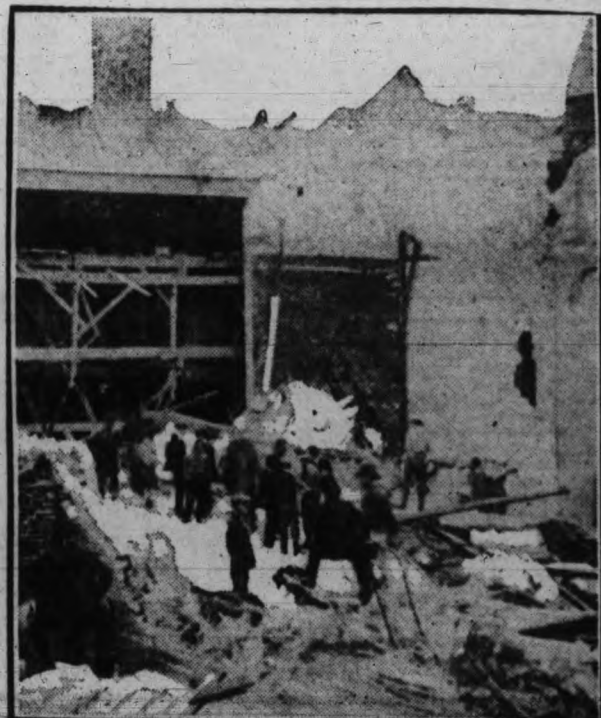

ADOLFO DE LA HUERTA has resigned the post of Finance Minister of Mexico, and will probably be a candidate for the presidency.

GIACOMO PUCCINI, famous Italian composer, has been appointed Grand Officer of the Order of St. Maurice and Lazarus, a high honor in his native land.

MAY BE ABANDONED.—When Premier Ferguson returned from Moose Factory, and points north, he said he doubted if the government would continue work much further on the T. & N. O. shown in the above map.

WHEN THEATRE BUILDING FELL.—One man was killed and four injured when a partly completed theatre building at Janesville, Wis., collapsed. The last man of thirty-five rescued was found smoking contentedly, waiting for those outside to release him.

SIR JOSEPH FLAVELLE has been appointed chairman of the Board of Governors of West China Union University.

ANKLE DEEP IN SNOW.—Lord Renfrew and a companion at Banff, Alberta.

"GAMBLE IN SOULS"
IS NEW OFFERING

Dorothy Dalton and William Desmond Featured at the Columbia Theatre

The "mistaken identity" story, written so often of photoplay folk and whose, has, it is claimed, become taboo, but Director Walter Edwards, of the Triangle forces, tells one which he stoutly avers is true. It concerns an incident that occurred during the recent filming of "A Gamble in Souls," the feature attraction at the Columbia today, the Triangle play by Lester Bartlett, in which Thomas H. Ince presents Dorothy Dalton and William Desmond as co-stars.

The play is a romance of a minister and a girl who are cast survivors of a shipwreck, on the desolate coast of an island in mid-Pacific. To obtain scenes depicting the island and the action transpiring thereon, Edwards took Miss Dalton and Desmond to Santa Cruz Island, off San Diego. It is an island which human feet rarely tread and so is abundant with all forms of wild life. Clashed in the rain and latters becoming their respective roles, Miss Dalton and Desmond one day were dispersing themselves on the beach, awaiting the return of Edwards and the cameraman, who had gone in search of a "location." At the same time the captain of a small coastwise vessel was surveying the horizon with his glasses. He caught sight of the two film stars and, as he claimed afterward, believed them to be castaways. He went off his course and

HOSPITAL DRIVE RECEIVES APPROVAL OF NUMEROUS ORGANIZATIONS IN CITY

Directors State Situation to Complete Contracts on Present Unit; Mayor Authorized to Name Committee to Select Campaign Manager

Nearly sixty persons, representing about forty organizations, met in the Council Chamber last evening and adopted a resolution to organize a drive on behalf of the Jubilee Hospital for \$125,000 to complete the present unit.

The resolution adopted said: "That the Mayor be authorized to appoint a committee to select a manager to conduct the proposed campaign for raising funds for completing the Jubilee Hospital building."

Mayor Hayward, who presided, announced that he would issue the panel of the committee within twenty-four hours, after giving consideration to the matter.

Mayor's Introduction Mayor Hayward said the situation which called for that meeting had arisen out of the discussion of two years ago, when a meeting was held under the late Mayor Porter. As a Kiwanian, as well as Mayor, he personally was greatly interested in the proposal, a plan which had been strongly backed by the Kiwanis Club.

The club had done all it could to aid the project of the new building. "The directors have undertaken a great task and have done it well," said his Worship. He alluded to the early days of the Royal Jubilee Hospital, and pointed out how things had changed in the past thirty-two years. Much depended on the character of the drive and the personality of the men who managed it, not only indefatigable workers, but men of experience. Successful organization would entail a careful programme after several weeks of preparation.

President's Statement George McGregor, president of the Jubilee Hospital board, remarked that while nominally a wing, the new building was a complete unit in itself. He thanked them for the kindly appreciation of the directors who were engaged in carrying out an undertaking which, when it was completed would represent an investment of \$1,000,000.

"It is the most democratic institution in Victoria," said Mr. McGregor, the most democratic that you ever will or can have. He remarked that the board had exercised great care in awarding contracts and only undertaking what could be paid for. The hospital directors did not believe in bonded indebtedness. The building was practically fireproof and of local construction throughout.

The president then read a copy of the statement presented to the Kiwanis Club by the directors recently, dealing with individual contracts. Mr. McGregor appealed expressly for no other drives to be staged while the drive for the hospital was in progress, as the board had carefully held off from appeals during construction hitherto.

James Forman moved the resolution, which E. Tomlin seconded, Trustee Sivertz supporting. It was carried unanimously. Bishop Edwards Drive Bishop Schofield said the project could be looked upon from several viewpoints. First, there was the demand—the hospital was serving a tremendous district, and an excess of patients. Secondly, no institution was doing so much under handicaps as the board, medical men and staff, and thirdly, the directors had done everything in their power to make the project a success.

He vigorously pleaded for a thorough backing to the effort until it reached a complete triumph in occupation. Free Hospitals Fred Oliver, on behalf of Court Camosun, A.O.F., asked leave to introduce a resolution to inaugurate a general free hospital in Victoria, and that a committee should be appointed to go into the matter and report to a later meeting.

The meeting adjourned in order to give an opportunity to discuss this subject, one not before the meeting. After reconvening, James Forman expressed the opinion that more support must be forthcoming, as it was costing \$20,000 a month to operate the Jubilee Hospital, and more money must be found, however desirable was the principle of free hospitals.

Charles McGregor pointed out the difficulties created by the financial embarrassment of the hospitals. The Mayor said the committee working on the question of free treatment through state control of public hospitals.

The meeting then moved to endorse the action of the Union and this course was unanimously adopted. Those who registered were as follows: William Angus, Knights of the Thistle Council No. 1; Mrs. Armstrong, Queen of the Island Lodge, L.O.B.A.; C. F. Banfield, representative Victoria Typographical Union, No. 201; J. W. Bolden, Royal Arcanum; Charles Boles, Sons of England; Mrs. C. W. Brooks, Oakland Parent-Teacher Association.

Entertainment at Salvation Army Citadel to-night Staff-Captain Jaynes, who is in Victoria on furlough, will preside at a farewell entertainment to be given by the Songster Brigade in the Salvation Army Citadel to-night, in aid of three cadets who are leaving on Saturday for the Winnipeg training college for officers.

All are teachers in the Sunday school and members of the Songster Brigade. They recently passed with honors an examination given exclusively to higher grade corps cadets.

To-morrow night Brigadier Sims, of Winnipeg headquarters, will lead a public meeting in the citadel. Colonel and Mrs. Gaslin, who spent many years in the Canadian field, are leaving this week on the Niagara for an appointment in South Australia.

CHAMBER WILL URGE SAANICH TO FINISH MEMORIAL AVENUE Shelbourne St. Improvement Worth Municipal Expenditure, Delegation Will Urge To urge assumption by Saanich of the completion and maintenance of Memorial Avenue, a deputation of the Chamber of Commerce will this evening wait upon the Municipal Council at Royal Oak.

The delegation will point out that this improvement of Shelbourne Street will be a great asset to the municipality, that much assistance will be given Saanich by the Memorial Avenue committee, by organization of volunteer diggers in "drives" towards completion of the planting, and that trees necessary for completion or replacement will be supplied freely by the city of Victoria from the Beacon Hill nursery.

One of the points which will be stressed is the difficulty the Memorial Avenue committee will experience, through later years, in maintenance of the boulevard area between the fences and the highway. The delegation will advance the opinion that, as this land is Saanich property, the municipality should undertake the maintenance of the grass on a basis comparable with the importance of the memorial.

Great men say simple things in big moments. It seems particularly true of the sea. Without a publicity director on his staff until Robert Southey began his biography, Lord Nelson made Trafalgar an eternal memory when he signalled, "England expects every man to do his duty."

John Paul Jones wanted the enemy to know that he hadn't begun to fight and he said it in as many words. Decatur is famous not so much as a great commander, but because he said, "Don't give up the ship!" when he could have delivered an oration on the subject.

Dewey at Manila said, "You may fire when ready, Gridley," and fluttering flags wigwagged the words to history. Another sea-lord was recently with his fleet when the spanking wind of a pirate fleet cruising for the treasure buried in the pockets of merchantmen.

Fred Nible was in command of the fleet that came square-rigged over the rim of the world as though from another age. The cruise cost more than it cost to send Nelson globe-girdling after the Gull. The broadside of cameras was worth more than all of the guns that Decatur thrust through portholes to punctuate his argument with the enemy. Nible had power as great as Dewey at Manila; and when he went into action he was briefer.

"Shoot!" he said to Wyckoff, the photographer, and the picture of pirate battles was in the process of production. "Strangers of the Night," now at the Capitol Theatre, is the second of the series of Fred Nible productions presented by Louis H. Mayer and distributed by Metro Pictures Corporation. It is adapted from the Sam H. Harris stage success "Captain Applejack," by Walter Hackett. The scenario was prepared by Bess Meredith and the photography was in charge of Alvin Wyckoff.

ROYAL VICTORIA "Penrod and Sam," a First National picture, which is the feature this week at the Royal contains a scene that for pathos has never been exceeded on the screen. Penrod Schofield for years had been monarch of the domain embraced by the boundaries of the lot adjoining his home. He was the master of its contents, consisting of shacks, caves, tunnels and other mysterious places so dear to the average boy's heart. And in that lot he had buried his best friend—his dog—when an automobile had crushed out his life. Around the grave he had constructed a picket

DOMINION

The cast includes two "discoveries," said to be astonishing in the quality of their work—Mary Philbin and Anton Vaverka—and a score of famous artists, including Norman Kerry, Caesar Grullin, George Hackathorne, Dale Fuller, Al Edmondson, Spottiswoode Aitken, Claude George, Albert Seigmann, Lillian Sylvester, Edith Bracy and others. Kerry's work in the picture incidentally was so good that Universal, following its completion, signed him on a long contract. The direction of the production was vested in Rupert Julian, director of some of the screen's notable successes of the past. On his staff were several men who had known the military and social life of Vienna for years or life. Two of these were Vaverka, impersonator of the Emperor Francis Josef, from personal knowledge, and Albert Conti, do Colonel and Mrs. Gaslin, who spent many years in the Canadian field, are leaving this week on the Niagara for an appointment in South Australia.
