ADMIRAL FOOTE POTATO.—We call the attention of our customers to this grand new Maine Crop; Potato which we offer this season for the first time. **HOW OBTAINED.**—Admiral Foote is the result of a graft of Maggie Murphy or Bell Rose on Early Hebron stock and combines in a remarkable degree the great productiveness of Maggie Murphy with the fine quality of Early Hebron. Like that favorite early sort Ensign Bagley the Admiral Foote was originated in Aroostock Co., Maine, by one of the most experienced growers there. It is a distinct new variety in color, much deeper pink than the Hebron, and in shape similar to Maggie Murphy. The fact that this year's crop yielded 163 barrels of potatoes to the acre suggests something of its wonderful productiveness. We have secured the entire control of Admiral Foote seed for season of 1902 and shall book orders as long as the stock lasts. Price per lb., postpaid, 50c.; pk., 70c.; bu., \$2.00; bbl., \$5.00; In 5 bbl. lots, \$4.50 per barrel.

SEED CATALOGUE

1902.

S. D. WOODRUFF & SONS,

ORANGE, CONN.

OUR CUSTOMERS

Will always be welcome to visit us and inspect our methods, particularly in the summer season, while our seed crops are growing. We have a succession of seed crops maturing from about July 1st through August and September—first beginning with turnip seed, then following on with kale, Ruta Baga, cabbage, parsnip, onion, beet, carrot, tomato, sweet corn and other varieties of seeds in smaller quantities.

We are visited each year by a large number of our customers, and we are always glad to have prospective customers call on us. Whether they purchase seeds of us or not, we will show them our crops most cheerfully.

We test our seed as to vitality, and our customers can always feel assured that to the best of our knowledge the seeds we send out are pure, reliable and true to name.

TONS OF BEET SEED.

This cut is a reproduction of a photograph of a ten-acre field of Crosby's Egyptain Beet seed, taken on August 1st on one of our seed farms here, at Orange, Ct. We think that our strain of this beet is unexcelled, and our trade among market gardeners has so rapidly increased that we grow annually several thousand pounds, and every year our stock becomes exhausted before the season is over.

HOW TO REACH US.

We are but six miles from New Haven. Take Berkshire Division of N. Y., N. H. & H. R. R., from New Haven to Orange, a ride of but 13 minutes. We are but 3 minutes' walk from Orange Station. Fifteen trains per day each way stop at Orange.
Long Distance Telephone—2343-6. New Haven Division."

HOW TO SEND MONEY.

We will receive postage stamps, if received in good condition, same as cash. Remit by P. O. or Express Money Order or Registered Letter. Personal check or draft received from parties of established credit. Make Postal Money Orders payable at Derby, or Orange, Conn. Orange has recently been made a Money Order office.

POSTAGE.

Seeds will be mailed postpaid in quantities of 1-4 lb. and less. Quantities of 1-2 lb. and over will require postage at the rate of 8 cents per lb. in addition to catalogue prices. Peas and beans require 15 cents per quart, and corn 10 cents per quart, in addition to catalogue prices.

WE PAY THE FREIGHT.

On orders to the amount of \$7.00 or over, at catalogue prices, where cash accompanies orders, we will deliver goods to your nearest station charges prepaid. Excepting, we cannot pay freight on potatoes.

DISCOUNTS.

Market gardeners who purchase ten, twenty or more dollars' worth of seeds naturally expect a lower price than those who purchase but a small amount, and we will make the following discounts from catalogue prices where cash accompanies order: On seeds in packets and by the ounce we will mail postpaid for one dollar, seeds to the amount of one dollar and twenty-five cents. On orders amounting to ten dollars and upwards, deduct 10 per cent. where cash is sent with order, except on potatoes, onion sets, grass seeds and peas.

WE GUARANTEE THE SEEDS WE SELL.

We carefully test the seeds we sell, and to show the confidence we *have in them, we make* the following guarantee.

We will refund the price paid for any seeds offered in this catalogue, and paid for at catalogue prices, if after proper culture the crop fails, provided such failure is directly due to the poor quality of the seed.

This of course does not compensate for any great loss, but it is impossible to assume any responsibility further than this. We are at all times ready to listen to any just complaint, and it is our constant aim to so treat our customers that they will stand by us.

Ensign Bagley—The leading early potato, as they grow in their Aroostock County, Maine, home.

ENSIGN BAGLEY POTATOES.

Ensign Bagley.

Early, wonderfully productive, pure white, fresh from Aroostook County, Maine. The leading early potato.

When we offered this brand new potato to our customers for the first time, in the spring of 1899, we predicted that it would become a winner. Last spring we again spoke at length of its special merits, at same time publishing what some of our customers had to say of it. We again wish to emphasize all we have previously said of it.

The demand for this potato was so great last year that we were obliged to return money sent us for nearly 100 barrels our stock being entirely sold out. We urge all who desire the leading early potato to forward their orders for Ensign Bagley early.

Our contracts cover the entire crop of them again this year, the seed being all grown in Aroostook County, Me., exclusively for us, but we are positive that our stock will not be sufficient for the demand again this season. Price for 1902:

Per lb, postpaid, 15c.; per pk. 50c.; bu. \$1.75; barrel sack of 165 lbs., net, \$4.00

CAUTION.

We warn our friends to purchase Ensign Bagley from headquarters. The remarkable popularity of this Potato has created such a demand for the seed that several dealers offered last season, potatoes which they claimed were "Ensign Bagley" but which proved to be a late, rough and unprofitable sort. Our stock is the only genuine seed of this potato in existence as we positively control the entire product for 1902.

ADMIRAL FOOTE POTATO.

(See cut inside front cover.)

The new main crop sort, 163 barrels per acre. Some idea of the yielding qualities of this potato may be gained from the following facts: On the farm in Aroostook Co., Maine, where this potato was bred we saw it side by side with Early Hebron and the yield was fully one third larger. As noted above, this potato is of most excellent cooking quality and is sure to take a leading place. Its fine shape and color, its purity, its distinct appearance, its absolute newness of breed will commend it to all who desire a strictly first class up-to-date general crop potato.

Price per lb., postpaid, 25c.; peck 70c.; bu. \$2.00; bbl. \$5.00. In 5 bbl. lots \$4.75 per barrel.

MARKET GARDENERS LIKE ENSIGN BAGLEY POTATOES.

The Market Gardeners Like This Potato. Here is the proof of it. At the date we write this page Dec. 9, 1901, we have on our books advance orders for over 500 barrels of Ensign Bagley from Market Garden Customers who planted Bagley last year and were satisfied it is the "Leading Early Potato." From one field of eleven acres of Ensign Bagley Potatoes grown in Aroostook Co., Maine, during season of 1901 were harvested 900 barrels of choice selected seed Bagleys. Do you want some of this crop to plant? We shall be glad to supply you with some of them.

New Stringless Green Pod Bean.

Burpee's Stringless Green Pod Bush Bean.

This is the earliest of all green podded bush beans and the finest quality snap bean in cultivation. It is even earlier than Early Yellow Six Weeks, and of far superior quality to any other green podded bean, and is the only absolutely stringless bean with round pod. Price per pkt., 10c; qt., 25c.; pk., \$1.25; bu., \$4.50.

Mammoth Stringless Green Pod Bean.

This differs from Burpee's Stringless Green Pod in size of pod being nearly one half larger and entirely stringless and of fine quality. Price per pkt., 10c.; qt., 30c.; pk., \$1.40; bu., \$5.00.

DIRIGO BEET.

We cannot too highly recommend this new beet. It is an extra early flattish beet, very small top, with single tap root, and one of the smoothest sorts we have ever grown. Very quick in bottoming and superior in our opinion to many other early sorts offered. Supply of seed very limited. price per pkt., 5c.; oz., 10c., $\frac{1}{4}$ lb., 25c.; lb., 65c.; 5 lbs. at 60c. per lb.

The Dirigo Beet.

We see no reason why the new stringless Green Pod Bean should not almost entirely take the place of Early Red Valentine, as it is fully as early, perfectly round pod and stringless and great cropper.

Crosby's Egyptian Beet.

Early White Spine. The fruits are only two-thirds as long as Improved Early White Spine, but its great value lies in its earliness. Price per pkt., 10c.; oz., 20c.; $\frac{1}{4}$ lb., 35c.; lb., \$1.25.

Crosby's Egyptian Beet.

The standard early bunch beet for the up-to-date market gardener. It is a thicker beet than the Extra Early Flat Egyptian and fully as early, and bottoms very uniformly. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 65c.; 5 lb., lots at 60c. per lb.

Crimson Globe Beet.

A new globe-shaped, very early sort small topped and desirable bunching variety. Per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 65c.

Two Strictly New Cucumbers.

Coy's Early Cyclone.

The earliest cucumber in existence. We say this because we have tried it. In an exhaustive test on our farms the past year, Coy's Early Cyclone matured marketable fruits about one week ahead of

Cumberland Cucumber.

THE CUMBERLAND CUCUMBER.

(See Cut, page 5.)

This variety originated with Chauncey P. Coy & Son, Nebraska, and we give below what they say of it:

"The variety is of the hardy, white spine type, is a rapid, strong and vigorous grower and very prolific in fruit. The pickles differ from all other hardy sorts in being thickly set with fine spines over the entire surface, except the extreme stem-end; and during the whole period of growth, from the time they first set until fully grown, the form is exceptionally straight and symmetrical, thus being as choice as a slicing variety as it is for pickles. The flesh is firm but very crisp and tender at all stages. We offer it in full confidence that it will please our customers in every particular."

We wish to add to the above that we tried this sort the past season and we pronounce it one of the finest main crop cucumbers either as a pickling sort or for a slicing cucumber that we have ever seen. We can endorse what the originators say of it and strongly urge our customers to give it a liberal trial.

Price per pkt., 10c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.; lb. \$2 25; 5 pound lots at \$2.00 per lb.

NEW STRINGLESS REFUGEE WAX BEAN.

This is an improved strain of the popular Refugee Wax. It is absolutely stringless and a pure wax sort being free from green pods. We have, owing to the superior purity of this new strain, discarded the old stock of Refugee Wax altogether so that our customers can rely on getting this new strain.

Price per pkt. 10c.; qt. 30c.; peck \$1.50; bushel \$4.75.

CURRIE'S RUST PROOF WAX BEAN.

The earliest large podded variety and the most profitable variety for New England markets. This is the taker, tried and true above all other early sorts. Price per pkt., 10c.; qt., 25c.; pk., \$1.50; bu., \$4.50.

Early Spring Cabbage.

New Ex. Early Flat Head Variety.

As early as Jersey Wakefield. Yields one-third more than any other early cabbage on the same space of ground. Plant them 21 inches apart and you have 13.5 0 per acre. It has the peculiarity of heading firmly at an early stage in its growth, making it a valuable variety for extra early market. Price per pkt., 10c.; oz., 35c.; $\frac{1}{4}$ lb., \$1.30; lb., \$4.50.

All Head Early Cabbage

This, although not a strictly new variety, is worthy of a prominent place. The very best early flat sort in cultivation. Reliable header, and for a sure crop, uniform heading sort, it is a winner and cannot fail to please. Price per pkt., 5c.; oz., 30c.; $\frac{1}{4}$ lb., \$1.00; lb., \$3.50.

Danish Ball Head Cabbage.

This is the great winter shipping sort, becoming more popular every year. Our seed is a most excellent, sure heading strain. Price per pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 90c.; lb., \$3.00.

All Head Early.

HEARST'S RELIANCE PEA.

A new main crop sort having immense pods and a heavy yielder. Sure to become a popular sort. Supply very limited. Price per pkt., 10c.; qt., 40c. pk., \$1.75; bu., \$6.50.

Gradus or Prosperity Pea.

GRADUS OR PROSPERITY PEA.

We do not hesitate to say that this is one of the greatest novelties that has been introduced for the past decade. Imagine a wrinkled pea with a pod very nearly as large as Stratagem or Telephone, and maturing within three or four days as early as Alaska or any of the other round extra early sorts, and you will get an idea of exactly what this pea is. Seed of the true stock extremely short. Price per pkt., 10c. qt., 40c.; pk., \$3.00; bu., \$11.00.

Duke of Albany or American Champion Pea

This is one of the largest podded varieties in existence and an immense yielder. Superior in some respects to Telephone; not as tall, but having a branching habit and should be sown thinly. Price per pkt., 10c.; qt., 30c.; pk., \$1.50; bu., \$5.00.

Early Yellow Cracker Onion.

Earliest of all onions. A flat, very hard and good keeping onion. Specially valuable for the early market; frequently yields of 300 to 400 bushels per acre are reported to us from those who have had the seed from us for the past two or three years. Our stock of this sort is extra fine, though limited.

Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.60; 5 lb. lots at \$1.50 per lb.

New Champion Sweet Corn.

This variety is said to be the largest eared early corn yet produced. It is pure white kernel and cob and but a few days later than First of All, Cory, Marblehead, Tom Thumb, etc. It has been grown fit for table use in 61 days from planting, which is evidence of its earliness. It is very popular with the Long Island gardeners. It has been difficult for us to grow enough seed of this variety to keep pace with the increasing demand for it. It matures with us exactly with Crosby's Early, and easily drives that popular sort out of the market on account of its large size and fine appearance.

Price per pkt., 10c.; qt., 20c.; pk., 80c.; bu., \$2.75; per 100 ears, \$3.00.

The Early Cracker Onion.

Three New and Most Popular Musk Melons.

We have the following three Musk Melons, all grown by one of the largest and most careful growers in the United States.

| | Pkt. | Oz. | $\frac{1}{4}$ lb. | lb. |
|----------------------------|-------|-------|-------------------|-------|
| Rocky Ford..... | \$.05 | \$.10 | \$.25 | \$.75 |

| Melrose..... | .05 | .10 | .25 | .75 |

Rosy Gem or Extra Early Scarlet White Tipped (Forcing).

Two Most Popular Forcing Radishes.

Scarlet Globe Roots are round or slightly olive-shaped, color rich deep scarlet, flesh white and tender. One of the most desirable for truckers whose markets demand a large, round forcing radish.

Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 70c.; 5 lbs. at 60c. per lb.

Rosy Gem or Extra Early Scarlet White Tipped (Forcing).

This variety fills the place of Scarlet Globe where a white tipped sort is desired. It grows remarkably fast, having matured ready for market in 21 days after seed was sown.

Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 70c.; 5 lbs. at 60c. per lb.

KENDAL'S EARLY GIANT SWEET CORN.

This is a second early, very large-eared sort, said by the originator to be the largest eared of the early varieties, pure white kernel and cob. Our seed is grown from the original stock.

Price per pkt., 10c.; qt., 20c.; pk., 80c.; bu., \$1.75; per 100 ears, \$3.00.

MOONARCHIE CORN.

This is a second early sort with large ear, originating with a large trucker in New Jersey and most popular with New Jersey and Long Island truckers. Pint, 10c.; qt., 20c.; pk., 80c.; bu., \$2.50; per 100 ears, \$3.00.

EARLY GIANT ADAMS CORN

This corn is a white flint, deep kernel, large eared sort, something after the type of Early Adams, but much larger and more prolific. It ripens same time as Perry's Hybrid, and when young and tender it makes quite an attractive market corn.

Price per qt., 20c.; pk., 80c.; bu., \$2.50; per 100 selected ears, \$2.50.

RECORD BREAKER CROP OF REFUGEE BEANS.

LITTLE NECK, L. I., Oct. 23.

S. D. WOODRUFF & SONS:

GENTLEMEN—The seeds I purchased of you all did well this season, particularly the Refugee beans.

From two bushels of Refugee bean seed you furnished me I have harvested and sold Eight Hundred measured bushels of green beans.

I think this pretty near a record crop.

Very truly yours,

H. B. CORNELL.

Refugee, or 1,000 to 1

BEET SEED.

Edmund's Early Blood Turnip.

We make a specialty of growing beet seed in large quantities. The illustration on page 1 of our catalogue shows a reproduction of a photograph of one of the many crops we grew the past season.

We take great pride in our own selected strains of Beet seed and while our prices are necessarily somewhat higher than prices of some other dealers, our customers can rely on getting stocks that are a No. 1 in every respect.

CELERY.

White Plume.

Boston Market

Dwarf Golden Heart.

No more failure of the celery crop because of poor seed. Our plan of proving the seed renders this annoyance impossible. Besides, our seed is the best.

Keep up with the times. Try the new things in seeds which are really worthy. Among these are Gradus Peas, Early Cracker Onion, Ensign Bagley Potato, Early Giant Adams Corn, and Admiral Foote Potato.

PARIS GOLDEN, OR GOLDEN SELF-BLANCHING CELERY.

This most important of all varieties of celery has been the cause of much annoyance owing to its sporty habit and the danger of its growing *pithy*. We have this season a stock of *proven* seed that we purchased last season, and we do not now hesitate to recommend it most highly to the most critical trade.

Our trials and the trials of our customers the past year have proven most gratifying, and we can recommend it pure and true to name and at least 90 per cent. solid. The vitality of this seed is good. Our stock of proven seed is quite limited and as long as it last we will sell at following prices: Pkt., 10c.; oz., 50c.; $\frac{1}{4}$ lb., \$1.25, lb., \$4.50.

We could add dozens of testimonials as to the excellent results obtained from our strain of Golden Self-Blanching Celery it was in short, the nearest to a perfect stock of this most popular and excellent sort that we have ever seen.

Our stocks of the following standard sorts of Celery are strictly pure and true to name.

We are practical seed growers with years of experience. Our expenses are light, hence our prices may be reasonable.

HOME GROWN ONION SEED.

We are Headquarters on Connecticut Grown Onion Seed, Grown from Selected Bulbs and Grow Annually on our Farms many Thousand Pounds.

No seed which the farmer or gardener buys is of more importance than Onion Seed. In none is he more at the mercy of his seedman. This above all other seeds must be sold upon honor. We feel justified in claiming for our seed all that can be said about any seed—viz; that it is *as good as can possibly be produced*. Now the reasons for this claim are these. We grow our onion seed from selected bulbs on our own seed farms. We carefully harvest and cure the seed. We offer it to you direct. The price is as low as we can produce the very best seed. *Once a trial order always a customer*, has always been our motto regarding onion seed. Read the following from a large number of testimonials.

Mr. A. M. Darling, Sunderland, Mass., writes under date of December 26. "I had a yield of 1,000 bu. per acre from your Yellow Globe Danvers onion seed. Your seed beat any I had. Save me 35 lbs. for next Spring."

MESSRS. S. D. WOODRUFF & SONS:

HATFIELD, MASS., Nov. 6.

SIRS: It gives me great pleasure to give to you the result of your onion seed the past season. From one measured acre of ground sown with Yellow Globe Danvers onion seed procured of you, I have harvested nine hundred and eighty-three (983) bushels of weighed onions, 52 lbs. to the bushel.

Yours truly,

JAMES PORTER.

A SUCCESSFUL CROP OF ONIONS.

Over 734 bushels per acre on each acre of an 11½ acre piece.

S. D. WOODRUFF & SONS:

SUNDERLAND, MASS., Dec. 15.

DEAR SIRS: I have grown 11½ acres of onions this year, all in one piece, from which I harvested 8,444 bushels number one onions. I used Yellow Globe Danvers onion seed, purchased of you. Please save 75 pounds of the same for me for the coming year.

Truly yours,

M. H. CLARK.

Mr. Clark has used our seed for the past eight years and has had a fine crop every year. Consider the fact that Mr. Clark had 11½ acres, the average yield being over 734 bushels. We think this a banner crop. Single acres could have been picked out that would probably yield over 1,000 bushels.

RELIABLE ONION SEED CREATES A DEMAND FOR ITSELF.

The remarkable popularity of our onion seed is evidenced by the fact that at this date, December 15, 1901, we have advance orders booked for 3763 pounds from actual planters for use season of 1902.

The demand is steadily increasing and we are receiving orders every day now, even before our catalogue for 1902 is issued.

Our former customers, evidently realizing the fact of the short crop of onion seed, have forwarded their orders to us early in order to get reliable seed. If you have never used our onion seed try it this season. Orders will be filled only as long as stock holds out.

PRICES FOR YELLOW GLOBE DANVERS, 1902.

Price per pkt, 5c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.40; 20 lbs. and over at \$1.35 per lb.; 50 lbs. and over at \$1.25 per lb.

Do not be tempted to buy onion seed of uncertain quality because it is a few cents less per lb. in price. This seed we grow ourselves and we think we know whereof we speak.

SOUTHPORT WHITE GLOBE.

True seed of this onion can only be produced from carefully selected bulbs. Seed from such bulbs is not plentiful this year, but our customers will, if they order early, while our stock lasts, obtain seed from pure white globe-shaped onions. We challenge comparison with any one on our seed of this variety. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.50; 10 lbs. or over at \$2.25 per lb.

Above is a reproduction of a photograph of a five acre piece of Southport White Globe Onion seed, taken July 25, on our seed farm.

Mr. George Fairchild, Jr., Westport, Conn., who is one of the expert onion growers in the Southport, Conn., section wrote under date of Sept. 25, the following:

"The Southport White Globe onion seed I purchased of you last spring proved satisfactory in every respect. The onions grown from it are as good shape as those grown from my own seed and the vitality of your seed was much better than my own seed."

We could print numerous other testimonials regarding our Southport Red Globe and Southport Yellow Globe varieties. Some of the finest crops in the United States grow from our seed.

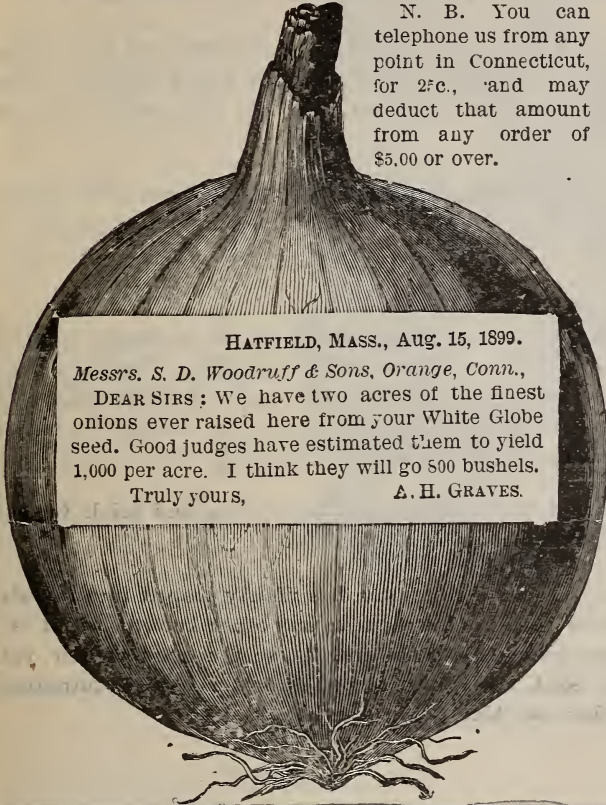

Our prices on our own grown onion seed are net, not subject to discounts. Selling direct to the planter we are enabled to sell our very fine strains at reasonable prices.

Onions—continued.

✓ **Southport Yellow Globe.** This variety does not differ in shape from either the Southport White or Red Globes. It is a true globe and fixed in its habits, that is, it does not de-

HATFIELD, MASS., Aug. 15, 1899.

Messrs. S. D. Woodruff & Sons, Orange, Conn.,

DEAR SIR: We have two acres of the finest onions ever raised here from your White Globe seed. Good judges have estimated them to yield 1,000 per acre. I think they will go 500 bushels.

Truly yours,

A. H. GRAVES.

I have been much pleased with the seeds I have purchased of you, especially onion seed. I shall buy of you as long as you sell seed same as you have in the past, for I would not sow poor onion seed for ten times the cost.—A. G. S., West Redding, Conn.

✓ **Southport Red Globe.** Differs from preceding only in color; the best Red Globe onion grown. Heavy yielder and the very best keeper. Our stock of this sort is particularly fine. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.; lb., \$1.90; 5 lbs. and over, \$1.75 per lb.

✓ **Extra Early Red Flat.** About ten days earlier than the Wethersfield, and somewhat smaller; close grained and heavy, of mild flavor and an excellent keeper. A great favorite among the Orange Co., N. Y., growers. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.25; 5 lb. lots at \$1.15 per lb.

The Rev. Andrew Schriver, Newburg, N. Y., who had thirty pounds of our Southport Red Globe onion seed last Spring, writes:

NEWBURGH, N. Y.,

Sept. 6,

DEAR SIR: My onions are very fine, round and solid. They are full size, high color and will stand shipping to the ends of the earth.

✓ **Early Yellow Cracker.**

Undoubtedly the earliest yellow onion that can be grown from the seed. It

is quite flat, sure to bottom and getting more and more popular for a first early sort. It is also a remarkably good

keeper. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.60; 5 lb. lots at \$1.50 per lb.

✓ **Large Red Wethersfield.** A leading variety in the Eastern States; it grows to full size the first season from seed, almost round, large size, deep red color and keeps well. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.25; 5 lb. lots at \$1.15 per lb.

The Early Yellow Cracker onion is the earliest of all yellow onions.

Onions—Continued.

✓ **Yellow Danvers.** A heavy cropping, early flat sort, used in some sections almost exclusively. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.25; 5 lb. lots at \$1.15 per lb.

✓ **White Portugal, or Silverskin.** A very mild, early sort, used extensively for pickling. This is the variety also used so extensively for raising sets. We have a very fine but limited stock and advise early orders. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 70c.; lb., \$2.25; 5 lb. lots at \$2.00 per lb.

✓ **Yellow Dutch, or Strasburg.** A very hardy, bright straw-colored onion, good keeper, somewhat flattened, very solid and firm. This variety is used more than any other yellow sort for raising sets and is peculiarly adapted for that purpose. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.25; 5 lbs. at \$1.15 per lb.

✓ **Mammoth Prize Taker, or Large Yellow Spanish.** This is the large, beautiful onion that is seen every Fall offered for sale at fruit stores in the large cities. They are a rich straw-color, and of enormous size, averaging twelve to fourteen inches in circumference. The flavor is mild and delicate, making the Prize Taker a favorite variety for slicing for salads. Price per pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 50c.; lb., \$.65; 5 lbs. at \$1.50 per lb.

✓ **White Queen.** An extra early small white onion, pure paper white and mild; favorite pickling sort. Price per pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 65c.; lb., \$2.00.

✓ **Australian Brown.** This variety, the introducers say, has "fairly leaped into popularity." It has the peculiar characteristic of keeping longer than any other known sort; it is a very early sort, in shape about half way between a globe and flat sort, a good yielder, very hardy, and a dark bronze color. Our seed was grown from the original stock introduced some four years ago. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1 10.

WE GROW ONION SEED BY THE TON.

Some of our competitors have circulated the story that we do not grow but a small part of the onion seed we sell. We deny these charges and make the positive statement that *we grow on our own seed farms here at Orange, Conn.*, thousands of pounds; *yes*, several tons of onion seed annually, and we believe we produce more onion seed than any other grower east of the Mississippi River.

Our prices are low considering quality of our seed. Give us a trial; we can serve you whether you use 1 oz. or 500 pounds. We have many planters among our customers who purchase annually from 50 to 200 pounds each.

Our trade on onion seed among the planters of America has increased over 50 per cent. each year for the past four years. The only reason we know for this increase is the fact that our seed has given universal satisfaction and good seeds have made for us many good friends.

ONION SETS. CHOICE PHILADELPHIA GROWN SETS.

We are Headquarters for Connecticut.

We take pride in the fact that each year for the past five years we have doubled our sales of onion sets. This is proof not only that our sets are satisfactory, but that our customers find them a profitable crop.

They are a sure crop and where a ready market is available they will pay as well as any crop you can raise. Set them out in rows 12 inches apart, and 3 inches apart in the row.

We have a fine stock of choice *Eastern grown* sets, and are prepared to supply in any quantity wanted. Many of our market customers buy from 25 to 100 bushels each.

Bottom Onion Sets.

You will find our Onion Sets of very Choice Quality.

Prices are net and subject to advance, and in all probability will be much higher. Order early.

Two of the Tools Every Onion Grower Should Own.

Universal Onion Drill.

This is the drill used almost exclusively by onion growers in the Southport, Conn., section, and it is needless to say that it is considered the very best drill in use. It sows with great accuracy two rows at a time, 12 inches apart. Net price, \$7.00.

Meeker Smoothing Harrow.

No one who raises one acre or more of onions can afford to be without this tool. It does away entirely with hand-raking the soil. Upon our own farms we would not be without one for three times its cost. Price, \$20 50, or 5 per cent. discount for spot cash.

We grew on our own farms last season a crop of onions from onion sets that yielded 640 bushels per acre.

PARSLEY.

One of the finest plants for garnishing; used for flavoring soups, stews and salads. Sow as early as possible in Spring, in shallow drills fifteen inches apart, raking the soil fine and level on top. Cover the seed one-third of an inch. The plants appear in from two to six weeks. Succeeds in common garden soil.

✓ **Champion Moss Curled.** The standard market sort. Our stock of this is extra double curled and one of the finest stocks to be had. Used very extensively on Long Island. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 65c.; 5 lbs. at 60c. per lb.

✓ **Fern Leaf,** Very fine crimped leaves. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

✓ **Plain Leaf.** A very hardy variety. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

PEAS.

One of the most encouraging features in the outlook for peas has been the decrease in the damage done the past year by the pea aphid or louse. It is to be hoped that we have seen the worst of this pea louse and that planters may again plant peas with some confidence in getting a good crop.

The crops of seed peas are probably the shortest take the world over that have been known for a generation, many crops have failed to yield seed back.

We have, however, a fairly good supply and samples of our seed are nice and bright.

All are Northern grown and the growing crops were thoroughly "rogued" by hand during the growing season. Our customers can rest assured that our stocks are pure and true to name.

Nott's Excelsior.

✓ **White Canada Field Peas.** (Net Price.) Price per qt., 10c.; pk., 50c.; bu., \$1.50; 5 bu. lots at \$1.40 per bu.; 10 bu. and over at 1.35 per bu.; 2 bu. bags 20c. each, extra.

Canada Field Peas are valuable as a fodder crop, whether sown with oats or alone, and are being used more extensively each year. Our stock is very fine.

Barley and peas are also being sown extensively for a fodder crop. Price of barley, \$1.20 per bu., 5 bu. and over at \$1.10 a bu., net price; 2 bu. bags 20c. each, extra.

I have tried the seeds of almost all the prominent dealers and find that yours do well for me every time, and I recommend others to take yours. H. F., Plymouth, Conn.

The Gradus Pea is one of the greatest novelties of recent introduction; all should try it.

PEPPERS.

(Add 8 cents per lb if sent by mail.)

✓ **Sweet Mountain.** Grows to large size, shaped somewhat like the Bell, but much larger; much used for pickling. The standard market variety. Price per pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.50.

✓ **Ruby King.** Standard market variety, very large fruit and enormous yielder. Price per pkt., 5c.; oz., 25c., $\frac{1}{4}$ lb., 75c.; lb., \$2.50.

✓ **Cherry Red.** A small, round variety, intensely piquant. Price per pkt., 5c.; oz., 25c.

✓ **Small Chili.** The best variety for pepper sauce. Price per pkt., 5c.; oz., 25c.

✓ **Long Red Cayenne.** Fruit bright coral red. Price per pkt., 5c.; oz., 25c.

N. B. Growers of peppers will do well to try our strain of Sweet Mountain.

Sweet Mountain.

PARSNIPS.

Improved Hollow Crowned.

The Parsnip is one of our specialties. We raise annually a great many hundred pounds

and our strain is the smoothest and finest in existence.

✓ **Long Smooth, or Hollow Crowned.**

This standard variety grows large and free from side roots, excellent flavor and good keeper. We make a specialty of growing parsnip seed. We raise annually large quantities of this variety, and think there is none better than our strain. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 50c.; 5 lb. lots at 40c. per lb.

Remember we handle grass seeds by the car load, and it will pay you to drop us a line for prices, or send your order. We will always make lowest possible prices on High Grade seed.

NORTHERN GROWN SEED POTATOES

The condition of the Seed Potato Market at the present time is so uncertain as to render it very difficult to quote prices which shall hold for the entire season and we have determined to quote reasonable prices and urge our friends to place their orders early, with the understanding that prices are very likely to advance as the season progresses. Our seed potatoes are all carefully grown for us by men of experience and under the personal supervision of a member of our firm. The fields of growing potatoes were carefully inspected and rogued during September last and we can assure our friends that

they will get pure seed absolutely true to name. The stock this year runs large and is free from scab and dry rot. We have never seen a finer lot of seed potatoes than we now have ready to distribute among our customers. Don't fail to send us your order early, by so doing you will secure your seed potatoes at prices quoted below. Prices on potatoes are net cash, not subject to discount. All potatoes are shipped at risk of purchaser. F. O. B. cars, Orange, Conn., or New York, N. Y., whichever our customers may desire.

Write for prices on large lots. We shall have some kinds not on the above list as season advances.

IMPORTANT.

We are glad to quote special prices on large lots of seed potatoes. Frequently we are able to make a close price on a carload of potatoes to go to one section. Shall be glad to have our customers write us for prices.

Branch Store: New York city, 82 and 84 Dey street, open during February, March and April.

SOUTHERN GROWN SECOND CROP POTATOES.

We shall be able to supply true stock of following sorts of Southern grown second crop potatoes. These are becoming very popular, and many growers claim that they will out-yield the Maine grown seed.

Early Puritan, Early Bovee, Burpee's Extra Early, Crown Jewel, Maule's Thoroughbred and Early Rose.

This seed runs from small to medium, in size, very bright and smooth.

We can offer these in full barrel lots, only price on all sorts \$4.00 per barrel.

PUMPKINS.

(Add 8 cents per lb. if sent by mail.)

✓ **Large Cheese.** Hardy, remarkably prolific, and much superior in all respects to most of the field grown sorts. Sweet and well flavored. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 40c.

✓ **Winter Crookneck.** An old standard sort and good keeper; flesh close grained and flavor excellent. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 40c.

✓ **Connecticut Field.** The common large yellow pumpkin; excellent for stock; very heavy cropper. Price per oz., 5c.; $\frac{1}{4}$ lb., 10c.; lb., 30c.; qt., 20c.; bu., \$3.00

✓ **Tennessee Sweet Potato.** Of medium size, pear shaped; flesh thick, cream white, fine grained, and of excellent flavor. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

✓ **King of the Mammoth, or Genuine Mammoth.** This is the largest of all pumpkins, growing to an immense size, three feet or more in diameter, and weighing from 100 to 200 or more pounds. It has a salmon colored skin, flesh bright yellow, fine grained and good quality. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

✓ **Small Sugar.** A very prolific, golden colored sort, averaging about 10 inches in diameter, very fine grained and sweet. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 50c.

All of my seeds gave good results; the parsnip seed was very fine, corn very good.

RADISH. (*Rettig.*)

Early Scarlet Turnip.

Round Black Spanish.

Radishes—continued.

These require a light loamy soil, moderately fertile. It should be dug a full spade deep, and well pulverized. Manures should not be applied at the time of sowing. The situation should be warm and sheltered. For an early supply, sow in January or February in hotbeds, plenty of ventilation being necessary. In May they may be sown out of doors. Successive sowings should be made every two weeks.

SUNFLOWER.

A little time and seed; the seed sown in most any out-of-the-way place will insure quite a profit to the farmer in poultry food. Yankee ingenuity has led some to utilize the tall sunflower stalks for bean poles. First sowing the sunflower seeds and then after the stalk is well started, plant the beans. Excellent also for parrot food.

SWEET, POT AND MEDICINAL HERBS.

Every garden should have its complement of Sweet Herbs. We can all appreciate their utility, both for summer flavoring and their opportune use medicinally. Their culture is so easy that none ought to be without them. Sow the seed in pan or seed bed in early spring, transplant

as soon as weather will permit. Cut them when not quite in full bloom and hang in shady place to dry. Pack away in box entirely excluded from the air.

JAPANESE BARNYARD MILLET (*Panicum Crus Galli*.)

This wonderful and valuable new forage plant was introduced in this country by Prof. Brooks, of the Massachusetts Agricultural Experiment Station. It has proven an enormous yielder in all sections of the United States, where tried—hay and fodder of the most excellent quality growing on any soil, yielding 12 to 20 tons per acre and growing 5 to 8 feet in height. Cattle and horses eat it greedily. Sow in May and June broadcast, 10 to 12 pounds per acre, or in drills, 8 lbs. per acre. Prices, lb., 15c. (by mail, postpaid, lb., 25c.); 10 lbs., \$1.00; bu. of 32 lbs., \$2.00, by freight or express.

LAWN GRASS MIXTURE.

Our Lawn Mixture is composed of the finest recleaned grass seeds (not of the cheap, light chaff weighing but 15 lbs. per measured bushel, as put up by most seedsmen). Our Lawn Grass Seed weighs about 20 lbs. per measured bushel.

THE QUANTITY REQUIRED.

The quantity required for making new lawns is 4 bushels per acre, or for renovating old lawns, 1 to 2 bushels. For a plot 15x20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns.

Prices, 20c. per qt., 90c. per pk., \$2.75 bu. (*If by mail, add at the rate 5c. per quart for postage.*)

Grafting Wax. Price per $\frac{1}{4}$ lb., 10c.; $\frac{1}{2}$ lb., 15c.; lb., 25c.

BARLEY. BARLEY, BARLEY.

We are headquarters on Barley. For sowing for a forage crop it is being used very extensively. The early frosts do not kill it and it can be pastured clear into the winter. If cut in September it makes good hay. Price per bu., \$1.10; 5 bu. lots at \$1.00 per bu.

Prices on all of above Grass Seeds, Millets, etc., are subject to market fluctuations.

FLOWER SEEDS.**Special Collection Offer.**

For 25c. we will mail to any address, postpaid, flower seeds to the amount of 40c. For 50c. we will mail to any address, flower seeds to the amount of 90c. For \$1.00 we will mail to any address, flower seeds to the value of \$1.75. All of the above offers are net, not subject to any other discounts offered. A very slight money expenditure in flower seeds and a small patch of ground, worked with perseverance, will give to the agriculturist more satisfaction and delight to the square inch than any occupation of which we know.
