DIGEST

Yamanashi prefecture  
Yamanashi Nichinichi  
26 Nov. 1949

1. Headline: Strong objection to the revised delivery quota of rice raised by the Agricultural Adjustment Committee

At the gubernatorial meeting held on Nov. 25 the revised delivery quota of rice for our Prefecture was settled as 127,700 koku or 1.77 per cent decrease (2,300 koku) in the first delivery quota (130,000 koku).

At first our prefecture decided on having the delivery quota of rice reduced by 10,000 to 15,000 koku. However, in view of the fact that the total amount of delivery quotas of rice to be reduced was settled at 1,140,000 koku throughout the country, we wished to have it reduced at least by approximately 4,600 koku or 5,000 koku. Therefore the prefectural government authorities, not to speak of agricultural organizations, are immensely dissatisfied with this figure of reduction (2,300 koku) or less than half the amount desired. The development of the affairs is being watched with keen interest.

DIGEST

Yamanashi  
Yamanashi Nichinichi  
25 Nov. 1949

1. Headlines: Social Education Work is at a Standstill;  
Seats of Social Education Committee Have Remained  
Vacant for Three Months

Despite the provision of the newly-enacted Social Education Law that such social education organizations as IFA's and women's and youths associations are required to select or recommend the members of the Social Education Committee, those in this Prefecture seem to have little interest in the social education. It is true that some seats of the committee members have been vacant for three months. The prefectural government authorities are urging the organizations concerned to recommend the committee members as soon as possible.

2. Rationing of Staple-food Depends Upon Rice Delivery by  
Farmers in Yamanashi Pref.

Farmers in this prefecture are required to deliver their quota as soon as possible, in order to complete rationing of rice for the period until 10 January. The prefectural government authorities are calling for their cooperation in the delivery of rice.

LIAISON SECTION  
CHIBA PREFECTURAL GOVERNMENT

Dec. 3, 1949

TO: Chief, Kanto Civil Affairs Region.

THRU: Kanto Liaison and Coordination Office,  
Japanese Foreign Ministry.

SUBJ: Monthly Fisheries Report for the month of November.

I have received this day the following annexed report on the subject matter for the month of November from the chief of Fisheries Section of this Prefectural Government. So I transmit it hereby to you as follows.

Signed by

*Isamu Takazawa*

ISAMU TAKAZAWA  
Chief, Liaison Section,  
Chiba Pref. Government.

Report on fisheries for the month of November

a) Amount of catches:

Compiled by the  
chief of Fisheries Section.

		metric ton	Amount of catches in average year	metric ton
Latter part of October	224,013 "kan"	866.71	194,651 "kan"	720.93
Early part of November	94,778 "	351.03 "	222,194 "	859.98 "

The middle part of November is not yet totaled. So as soon as the calculation is completed, it will be reported later ward.

As the figure of the Middle part of October which belonged to the former report period has now become clear, so it is reported here additionally.

		metric ton		metric ton
Middle part of October	228,375 "kan"	845.83	160,797 "kan"	595.54
Total	641,274 "	2,405.01 "	576,757 "	2,155.78 "

b) State of Fisheries:

1. As the weather was very irregular, the fish boats which went into fishing were comparatively few.
2. Number of large sized mackerel pike fishing boats which belong to this prefecture have been continually fishing off the coast of IWATE and small sized ones, too are preparing now to go for the fishing of it, waiting for the south ward down coming of it.

c) Quantity expected to be forwarded by the regular route: 541,000 "kan"

- (1) Ration program: To consumptive cities: 115,000 "kan"
- |                         |             |

| " processing use        | : 211,000 " |
| " cold storage & fodder | : 45,000 "  |

- (2) Ice manufacturing was not so good, owing to the badness of the electric power supply condition. But the demand and supply condition of it has been generally speaking pretty well and the importation of it from other prefectures had not been carried out.

d) We are executing now actual state investigation and explanation meeting for the preparation of the enforcement of the New Fisheries Law.

e) Allotted quota of Link oils:

(1) Allotted quota of fishery use fuel oils:

Name of oils	Heavy oil	Light oil	Lamp oil	Gasoline	Machine oil	Mobile oil	Grease
	lr.	lr.	lr.	lr.	lr.	lr.	549 lb.
Quantity	1279,000	93,000	4,420	2,870	95,880	6,910	

(2) They were rationed as below mentioned and the issuance of the tickets was completed on Nov. 15.

Name of oils	A Class landing ports	B Class landing ports	For special use
Heavy oil	40,000 lr.	33,760 lr.	5,240 lr.
Light oil	5,000 "	67,877 "	123 "
Gasoline	200 "	2,670 "	-
Machine oil	38,250 "	57,319 "	311 "
Mobile oil	1,500 "	5,334 "	76 "
Grease	-	549 k.g.	-

(3) As there was the following supplementary allocation quota for mackerel pike and tunny fisheries, we are now preparing for their distribution:

Name	Heavy oil	Light oil	Machine oil	Mobile oil
Quantity	60,000 lr.	600 lr.	4,000 lr.	800 lr.

(4) Generally speaking oils are thought to be in shortage of 30%.

f) Link goods and materials:

The allotted goods to this prefecture are as follows and we are now preparing to ration them.

Name of goods	quantity	Quarters to be rationed
Palm-twine	214,382 lb.	Laver fishery, purse seine net fishery, and fixed net fishery.

g) None to be mentioned especially.

h) State of building of fish boats:

(1) Fish boats built during this period: Large sized one: 1 (25 ton 90 H.P.)  
Small sized ones: 16 (78.59 tons)

(2) There is no illegally built fish boat over 100 tons.

- 3 -

Report on the activities of the Fisheries Cooperative Ass'ns.

## a. No. of Fisheries Cooperative Ass'ns organized legally during November:

Fishermen's Cooperative Ass'ns. : 12  
 Fishery Products Processing Cooperative Ass'ns: 13

## b. Classified No. of the Authorized Fishery Products Processing Cooperative Ass'ns.:

Fishermen's Cooperative Ass'ns.: 127  
 Fishery Products Processing Cooperative Ass'ns. : 29  
 A certain kind of fishery engaging fishermen's Cooperative Ass'ns.: 3

## c. Activities of the Prefectural Government Fisheries Section, aiming at the development of the fisheries cooperative associations:

- (1) We have held the following round-table conference meetings in order to incense the establishment of the Federation of Fisheries Cooperative Associations.

Date	Place	No. of attendants	
		Male	Female
Oct. 10	At the Prefectural Government Office Building	16	0
Nov. 4	"	20	0
Nov. 12	At the CHIDA Fisheries Association Building	70	0

## d. Items which need special concerns:

- 1) About the Number of the Federated Fisheries Cooperative Associations, we have several times recommended to establish one United Federation within the Prefecture. But as the result of the violent discussions at the meeting of the chiefs of fisheries cooperative associations which was held on the 12th of November, it was decided to establish two kinds of the Federation of "Inner Bay" and "Ocean" and our recommendation of one united one of "Ocean" came to failure. Therefore Ocean relative federation opened the preparatory meeting of its establishment on the 30th of November and the Inner Bay relating one is preparing to open its preparatory meeting on the 3rd of December. The Federation of the Fishery products processing cooperative associations has also opened on Oct. 26 its preparatory meeting for its formation. But in this case too, the unification of all associations within the prefecture is deemed to be difficult.

APPENDIX 144 (Perishable Foods)  
28 September 1949

*Appendix*

24 FA #5811  
27 September 1949

Implementing Instructions for the Fresh and Processed  
Marine Products Distribution Regulation

1. The method of handling de-controlled marine products (cf. Art. 2 of Fresh Marine Products and Processed Marine Products Distribution Regulations hereafter referred to as Fresh and Processed Regulations).

a. The method of their transactions will be determined for each market and adequate guidance will be given to have minimum confusion and friction.

b. De-controlled marine products will not be included in the reports of the receiving, shipping or collecting agencies together with those which are controlled.

c. Special instructions will be issued in regard to their link with materials and staple foodstuffs.

2. Designation of landing places, producing areas and consuming areas and the determination of the minimum obligatory quantity of shipments and receipts (cf. Art. 3, 4, 10 and 11 of the Fresh and Art. 3, 4, 9 and 10 of the Processed Regulations).

a. A Class Landing Places or A Class Producing Areas which have been annulled will be designated B Class Landing Places or B Class Producing Areas respectively on the day of annulment (15 October 1949). The minimum obligatory quantity of shipment (collection) shall be announced at the same time.

b. Any consuming areas designated by the Ministry of Agriculture and Forestry will not be designated by the prefectural governor as a B Class Landing Place unless there is good reason and it is approved by the Fishery Agency.

c. The minimum obligatory quantity for receiving agencies will be reviewed taking into consideration the changes in the variety of controlled marine products.

3. Registration and annulment of licensed shipping (collection) and receiving agencies (cf. Art. 4 and 11 of the Fresh and Art. 4 and 10 of the Processed Regulations).

a. No registration will be granted to enterprising organizations which are governed by the Enterprising Organization Law.

b. The performance of the minimum obligatory quantity of shipment and receipts will be investigated for fresh marine products once every half year and for processed marine products every year. Those failing to meet requirements will have their licenses revoked. The conversion rate for processed marine products which may be substituted for fresh fish will be announced.

c. The computation of actual performance for those shipping and receiving agencies in areas which were A Class and are henceforth B Class will be done on 15 October 1949.

4. Observance of shipment allocation (cf. Art. 7 of the Fresh and Art. 6, par. 3 of the Processed Regulations).

Appropriate guidance will be given to assure that shipping agencies ship a proportional quantity, wherever possible, of their allocation to receiving agencies every 10 day period.

5. Permission for fishery operators to process fresh marine products (cf. Art. 8, item 2 of the Fresh Regulation).

a. Fishery operators will be urged to ship fresh marine products. Fresh fish may be processed only within that quantity allocated to the licensed shipping agencies for processing.

b. The amount of processed fish which may be substituted for fresh fish in fresh fish shipping plans may be authorized only within the quantity allocated for shipment as fresh fish substitutes.

6. Licensed and registered retailers (cf. Art. 13 of the Fresh and Art. 12 of the Processed Regulations).

a. Licenses will be granted to only those stores which have adequate facilities and meet sanitary requirements.

b. 25 to 100 families will be the minimum number of registrations necessary for a licensed store to be classified as a registered store.

c. Consumers will be urged to register at the nearest retailer.

7. Sub-allocation plan (cf. Art. 18 of the Fresh and Art. 17 of the Processed Regulations).

a. Sub-allocation plans will be made and enforced by the prefectural officials themselves or by officials in cities, towns or villages as designated by the prefectural governor. This business must not be delegated to any non-official.

b. Allocated rations will be distributed to each household consumer in the eight major cities at a minimum of 150 momme or more per month.

c. No controlled marine products, as specified in Art. 2 of the Temporary Control Law for Restaurant Business, will be distributed to light restaurants as prescribed in the same law.

8. Distributing allocated ration products (cf. Art. 19 of the Fresh and Art. 18 of the Processed Regulations).

Any collective sub-allocation of allocated ration products by intermediate bodies will be strictly prohibited and it will be enforced in such a manner that any refusal by a registered retailer to accept allocated ration products can be confirmed.

9. Refusal to accept allocated ration products (cf. Art. 21 of the Fresh and Art. 21 of the Processed Regulations).

"Justifiable reasons" will be limited to a narrow interpretation such as when the area of a registered retailer has been destroyed by fire, etc., and will not include reasons such as difficult to sell due to prices.

10. Distribution of general distribution goods (cf. Art. 24 of the Fresh and Art. 23 of the Processed Regulations).

a. The transactions of general distribution goods at the market will be according to special instructions.

b. Special methods of handling general distribution goods will be submitted to the Fishery Agency for approval. They will be handled as rejected products until instructions are issued.

11. Measures taken for non-payment of price (cf. Art. 26 of the Fresh and Art. 32 of the Processed Regulations).

The term of payment of price of registered retailers, licensed retailers and consumers other than household consumers may be determined in general but the payment of prices among other transacting agencies will be determined by the prefectural governor taking into consideration the special problems of these agencies.

12. Dissolution of existing committees.

Existing allocation committees, shipping committees, marine products advisory committees and any similar committees or groups composed in whole or in part of non-officials, which have regularly been advising concerned government officials in the performance of their functions under the Fresh Marine Products and the Processed Marine Products Distribution Regulations are to be dissolved. No such committees or groups are to be regularly consulted by the concerned officials at producing areas or consuming areas, but the concerned government officials may, from time to time, as deemed necessary, seek information and advise from members of the industry, consumers and other person.

To: General Mac Arthur

Subject: 2nd Anniversary of founding of Central Agricultural  
 Coop of Yamaguchi

It is indeed a pleasure to invite you to our 2nd  
 Anniversary of our founding on Jan. 28, at 10 A. M.  
 to be held at Kofu City, Yamaguchi.

With your recent citations of farmers we feel quite  
 honored and to commemorate the occasion we wish  
 to hold our Anniversary Conventions to be attended  
 by representatives of all Agr. coops within the Pref.

We wish to be honored by your august presence

Anniversary Committee
