1. PROJECTS OF COMMUNICATIONAL INSTALLATIONS FOR 1951

(1) Installations of VHF Radio-phone set. ¥ 42,751,800

15 set 150 M.C. Movable Transmitter.

15 car Radio-car.

30 pcs 6 vlt 298 A.H. Batteries.

Constructional works inclusively.

In the fiscal year of 1951, fifteen (15) set of Radio-phone are scheduled to be set up. Thus, it will become eighteen (18) sets including the radio now in services. These 18 Radio cars shall be distributed for operation as below mentioned list.
The allocation of car was planned according to the population and number of crimes happened in the respective area.

Police Station	No.of car alloted	No.of crimes during 1 year	Population	Remarks
KAGACHO	1	1,562	12,085	
YAMATE	1	886	51,159	
ISOGO	2	1,708	118,380	
KOTOBUKI	2	2,430	77,839	
ISEZAKI	1	2,258	23,490	
TOBE	1	2,263	87,973	
KANAGAWA	2	2,920	154,330	
TSURUMI	2	3,789	170,867	
HODOGAYA	1	1,038	77,048	
OKA	1	1,237	65,573	
TOTSUKA	1	1,108	69,932	
HQS	3			2 for ~~reception~~ alerting & 1 for surveilance
T O T A L	18	21,199	908,676	

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

(2) Installation of Police Call-box ¥ 23,507,200

In the fiscal year of 1951, one hundred and forty four (144) Call-box are planned to set up. There are one hundred and thirty three (133) Call-box set up temporary in 1950. Thus, it will become 277 sets in total including the old sets. The location of the equipments is planned, as below mentioned table, according to the population and the number of crimes happened in the respective area, and also to heighten the efficiency of patrol services.

Police Station	No. of Beat	No. of Call-box set in 1950	No. of Call-box for 1951	No. of Police Liaisoning Center	T O T A L
KAGACHO	30	8	7	11	26
YAMATE	67	11	17	22	50
ISOGO	57	16	18	15	49
KOTOBUKI	50	12	15	15	42
ISEZAKI	41	11	10	9	30
TOBE	56	13	16	23	52
KANAGAWA	64	17	21	18	56
TSURUMI	74	21	20	20	61
HODOGAYA	25	11	7	7	25
OKA	23	9	6	6	21
KAWAWA	8		4	4	8
TOTSUKA	12	4	3	6	13
T O T A L	507	133	144	156	433

(3) Wiring for Police Call-box ¥ 10,368,000
Average length of wire for one call-box estimated 5,000 meter - thus the total length will be 720,000 meter.
720,000 m @¥1,440 per 100 m - ¥10,368,000

The wiring work shall be done by consignment contract.

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

2. POLICE EQUIPMENTS:

(1) Purchase of Motor Vehicles:

a. 17 Tricycles. ¥ 6,120,000

Five cycles for HQS and one each for all 12 Police Stations are to be alloted for criminal search, liaison or for other emergency incidents, as the cars now in service are insufficient and defective and also not very suitable for the purposes.

b. 2 Small sized Passenger Cars. ¥ 1,900,000

The city will be divided into two parts and one car will be alloted to each division for surveilance of Patrol and other Control. This type of car have not yet been furnished and caused much inconveniences.

c. 3 Fire Motor Cars. ¥ 3,600,000

Principal purpose of using this type of car is to prevent disturbances of mass movement of mobs, riots or other undesirable demonstrative parade, by the small number of police forces. In case of normal time, these cars shall be in use as ordinary fire-engine cars.

d. 5 Police Guard Automobiles. ¥ 6,000,000

Two cars will be alloted to the HQS for transportation of guard-policemen at the time of emergency and three cars for Police Training School, as the present cars of this type are insufficient.

e. 3 Motor-cycles. ¥ 810,000

Although there are ten cars of this type in hand at present, but they are always in some trouble and consequently about seven cars only are in good condition in average. Therefore, the above three new cars will take place of those defective car.

f. 1 Motor-cycle with side-car. ¥ 300,000

For the specific use of Traffic Control and Supervision, as this type of car is very advantageous for the purpose.

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

(2) Purchase of Guard-police Motor-boat:

4 Motor-boat - each 7 m	¥17,000,000

There are, at present, four police-boat - 1 - 15m, 1 - 12m and 2 - 7m., but they are very old and defective and two among them are serviceable in average. In view of importance as for Sea-port-Yokohama, it seems necessary to furnish four more this type of boat (7m long) in order to strengthen sea police control.

3. BUILDING CONSTRUCTION FOR POLICE ATTACHMENT

(1) Motor Garage - total sqft. -	10,800 sqft.	¥ 8,625,300
a. Reenforced concrete flat Buil'd for HQS.	1,944 sqft.	
b. Wooden flat buil'd for Police Training School.	1,080 "	
c. Wooden flat buil'd for Police Stations.	7,776 "	

Dimensions of all present garages are too small and it seems necessary to increase the capacity of all garages.

(2) Warehouses - 2,052 sqft. in total.		¥ 2,436,600
a. Warehouse for fuel at HQS -	360 sqft.	
Warehouse for fuel for Oka, Tobe and Kotobuki Police Station at 108 sqft. each - in total.	324 "	
b. Book-room for HQS -	324 "	
c. Work-shop for Communication Sec.	504 "	
d. Store-room for Tobe Police Station.	570 "	

Amongst the above items, a, b, c are to be reenforced concrete building and item d is wooden two-story building.

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

4. SCIENTIFIC LABORATORY

Construction of new Laboratory -	1,800 sqft.	¥ 2,295,000

Reenforced concrete two-story buil'd, probably in the compound of the police headquarters, as the present laboratory is a small room in the HQ's wooden building which is not safe enough for chemicals and also not sufficient room for various criminal scientific investigations.

5. DORMITORY FOR PATROL POLICEMEN

Constructions of Dormitories -	5,850 sqft.	¥ 4,704,500
(1) Reenforced concrete buil'd. for HQS.-	1,800 "	
(2) 5 Wooden flat buil'd. @810	4,050 "	

There are quite many policemen who is living in remote site of the city or in twon far distant away or who was in mid-night duty and cause them inconveniences to return home, it seems necessary to furnish dormitories for them.
There are already several dormitories, but they are too small and not serviceable satisfactorily, and so the above mentioned additional buildings became necessary.

Police Station, Tsurumi, Kanagawa, Hodogaya, Isogo and Ooka have not been furnished any dormitory as yet, thus they are planning to build new wooden house in each respective station.

24 April 1951

Specification of budget Estimation for installation and maintenance of Tele-Communication Facilities for the fiscal year 1951 (Draft)

Kobe Municipal Police Bureau

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

KOBE MUNICIPAL POLICE BUREAU

Schedule of Police tele-communication equipments for the fiscal year 1951. (Draft)

Wireless equipments:

(A) 150 M.C. Ultra Short wave radio phone service: Fixed station 1

- " - Relaying station 1

- " - Mobile stations 10

- " - Cars 7

(B) Automatic Tape model Telewriting transmitting and receiving set ... 2

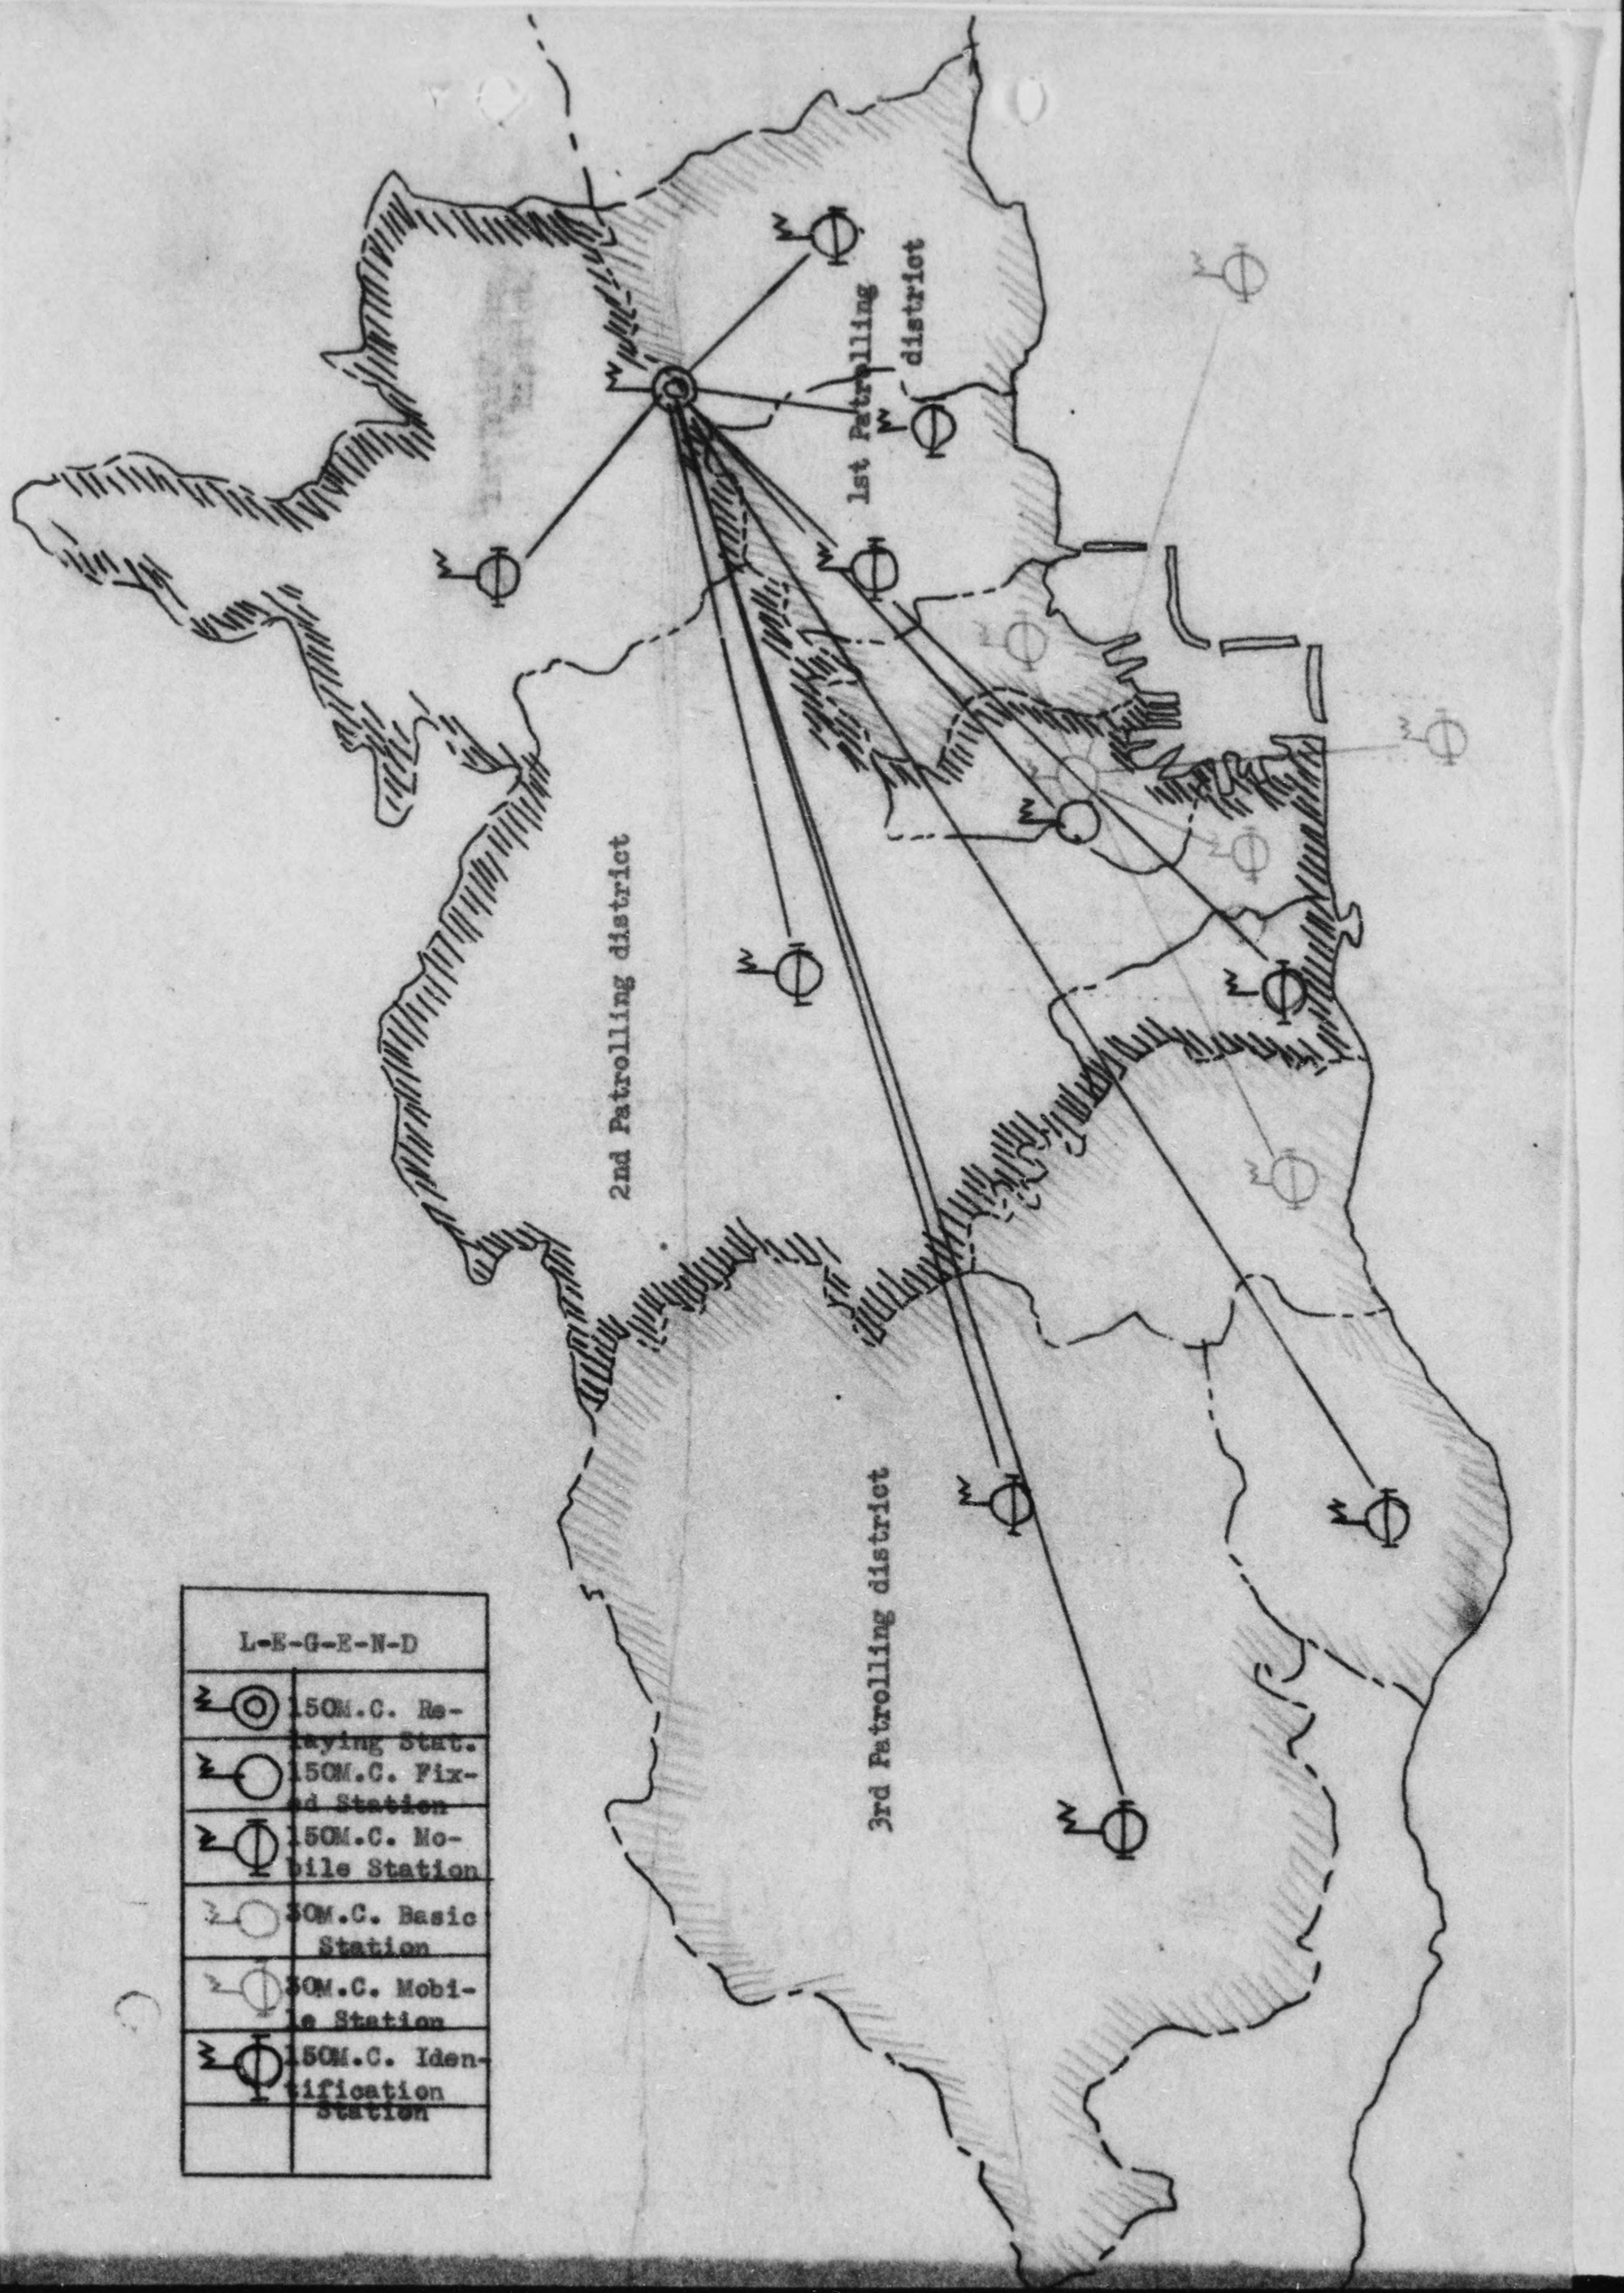
Wire equipments:

(C) Telephones set-up on the streets 50

(D) Refitting & repairing of Switch-board 2

Total Communication Budget
about ¥40,000,000

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009



Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

Expenses to be appropriated for maintenance of Radiophone equipments ¥37,932,100.-

Maintenance of 150 M.C. super short wave wireless equipment ¥32,797,800.-

Expenses covering the necessary materials available for 150 M.C. wireless equipments ¥12,831,300.-

Expenses for consumable implements 4,156,300.-

Expenses for implements to be used within our office 1,749,000.-

Auto car purchasing expenses 9,800,000.-

Equipments fixing expenses 1,450,000.-

Wages for coolies employed 175,500.-

Examination fee 90,300.-

Additional construction expenses for wireless office 2,545,400.-

Maintenance of 150 M.C. Ultra Short wave wireless Relaying station ¥3,334,300.-

Expenses covering the various materials to be used for maintaining relaying station ¥2,406,800.-

Expenses for consumable apparatus 35,000.-

Construction charge for installation 192,500.-

Relaying station house construction charge 700,000.-

Maintenance of short wave wireless service ¥1,800,000.-

Expenses covering the various materials to be used for maintenance of short wave wireless service ¥1,800,000.-

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

Maintenance of 150 M.C. ultra short wave wireless service

Expenses covering the various materials to be used in maintenance of 150 M.C. ultra short wave wireless services ¥12,831,300.-

MEMO FOR RECORD

SUBJECT: VHF Radio Program Budget for FY 1951

1. Mr. Ono, Chief of NRP Communications, advised Administrator this morning that the Finance Minister's "final estimate" of funds which will be allocated to installation of new VHF equipment--in the next fiscal year--will be limited to 330 million yen. This meager sum obviously relegates the NRP's two-year plan for completion of all VHF installations to the junk heap.

2. NRP estimates based on an average cost of 40 million yen per prefecture, indicate[d] the sum referenced above, will finance installation of equipment for only eight (8) prefectures under the established plan of installing a fixed radio station at each NRP District Police Station; one radio car under each District Police Station, and fixed stations in each prefecture headquarters, plus necessary relay points. Average prefecture installations include equipment for fourteen (14) District Police Station, plus the prefecture headquarters, and 1.5 relay stations. [S]ome prefectures require more relay points then others, thus accounting [f]or the 1.5 figure quoted above.

3. NRP previously had selected the ten (10) most important prefectures for installation next year as a minimum figure in considering the FY 1951 budget. Complete installations in all ten (10) prefectures, however, would have required approximately 530 million yen as a minimum. In view of the reduced allocation of funds now indicated by the Finance Ministry for next year, Mr. Ono reported that the NRP desires PSD approval for continuing their ten (10) prefecture plan for next year, necessarily omitting radio equipment for approximately forty (40) per cent of the District Police Stations in the concerned prefectures.

4. NRP's plan of installations in the ten (10) prefectures is as follows:

PREFECTURES	DISTRICT POLICE STATIONS	PROPOSED INSTALLATIONS	OMITTED POLICE STATIONS
Fukushima	23	13	10
Kanagawa	8	6	2
Niigata	18	12	6
Ibaraki	20	10	10
Hyogo	27	13	14

3

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

Memo for Rcd, subj: VHF Radio Program Budget for FY 1951, dtd 18 Sep 50

PREFECTURES	DISTRICT POLICE STATIONS	PROPOSED INSTALLATIONS	OMITTED POLICE STATIONS
Aichi	18	11	2
Hiroshima	20	10	10
Shimane	15	9	6
Okayama	22	10	12
Nagasaki	15	8	7
TOTALS: 10 Prefectures	181	102	76

Plus 13 Relay Stations

5. Mr. Ono advised that the Troop Commanders in the above prefectures have been directed by NRPNHqs this morning, to prepare a list of all police station in their prefectures, separating them into three (3) categories (A, B, C) to indicate those considered most important. If this plan is approved by PSD, those police stations in the lowest category will be the ones omitted in next Year's radio installations.

6. Mr. Ono states that all possible factors were considered in arriving at the plan to make partial installations in ten (10) prefectures, rather than to make complete installations in a lesser number of prefectures. It was developed in conferences between Director-General Saito, Cabinet Minister Ohashi and Finance Ministry officials, which did not come to a final conclusion until 3:00 a.m. this date. Admittedly it is a piecemeal plan, necessitating additional installations in the omitted police stations at a later date, but as Mr. Ono pointed out, its advantage is that it supplies the means for two-way radio communication between headquarters and radio cars cruising anywhere in the ten (10) prefectures, and radio coverage in ten (10) prefectures is better than radio coverage in a smaller number. In view of the foregoing, it is recommended that PSD offer no objection to NRP proceeding in accordance with this plan.

JOHNSON F. MUNROE
Police Administrator

PUBLIC SAFETY DIVISION

APO 500
2 November 1950

MEMORANDUM

SUBJECT: Expenditures of NRP Reserve Budget Funds--Fiscal Year 1950

TO: Chief, Public Safety Division

1. Due to increased operating costs and emergency expenditures which were not anticipated at the time NRP's current budget was allocated early this year, the NRP has made application to, and received approval from, the Finance Ministry for expenditure of ¥ 258,292,200 from its reserve funds which had been held back in anticipation of an increase in the basic wage level for policemen during this year.

2. A schedule of these expenditures was furnished to Police Branch 31 October 1950 by Mr. Miwa, Chief of theAccount Section, NRP National Headquarters, and is attached hereto. The nine (9) items of expenses with the following reasons therefor are as follows:

a.	Charge for National Public Official's Mutual Aid Assoc.	¥ 13,120,700
Reason:	The percentage of total salaries paid into this fund by NRP has been increased from 3-3/10% to 3-6/10%.	
b.	Rehabilitation of Offices	100,000,000
Reason:	This is the stimate of damage caused by typhoons "Jane" and "Kesia" to police buildings.	
c.	Repair of Communication Facilities	8,798,000
Reason:	This expense is also credited to typhoon damage.	
d.	Teleletter	9,954,000
Reason:	NRP states that its development of this facsimile device has reach the stage where satisfactory service is now assured from its use and the NRP's	

Munroe:
We should help them
get as much of these
items as we can HELP

2

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

high requirement for this device for high speed transmission of Kanji and other Japanese characters justifies this immediate expense for installation of this equipment in 15 regional and prefectural headquarters.

d. Light, Heat and Water ¥ 11,248,000

Reason: NRP states that due to an increase in cost of lights of 44%, and an increase in water rates of 20% since April 1950, it has already expended its full year's allocation of funds for this purpose in the first two quarters of this fiscal year, and the additional amount set out here is required for the third and fourth quarters.

e. Overtime Allowance (Work for NPR) 7,700,000

Reason: NRP states this is actually only 70% of the overtime cost of work its employees have performed as a measure of assistance to help NPR get organized; however, the Finance Ministry would only agree to an expenditure now of this amount rather than the full commitment for which NRP is responsible. It is believed an effort should be made by NRP and PSD to secure this amount of money from NPR budget as reimbursement to NRP for funds it has already expended in behalf of NPR. Mr. Miwa states that he does not believe any move of this kind will be successful; however, for under the terms of the Cabinet Ordinance creating the NPR, the NRP was directed to assist NPR in its organization, and that, therefore, it may be held that this directive contemplated the expenditure of overtime allowances. It is agreed that NRP could not expect reimbursement for normal salary expenditures for its personnel assisting NPR; but it does appear that NPR should be responsible for unusual expenditures of NRP such as overtime allowances.

Declassified E.O. 12065 Section 3-402/NNDG NO. 775009

Memo to Chief, PSD, subj: Expenditures of NRP Reserve Funds--FY 1950, dtd 2 Nov 50

f. Control Illegal Riot Acts ¥ 100,000,000

Reason: NRP states that most of this amount has been expended in the search for Communist purgees who have been missing since the early part of June, and investigations associated with this search. This amount includes the cost of travel for numerous policemen; rewards for information; vehicle rent; and some special equipment for maintaining files on Communist and other left-wing agitators.

g. Payment of Coal Allowances 2,471,500

Reason: This is necessitated by an expansion of the area in Hokkaido where government employees are authorized by Japanese Govt. directive for special allowance to purchase coal.

h. Special Photographs for Identification 5,000,000

Reason: This fund is to provide for photographic materials for the third and fourth quarters of this fiscal year since the Identification Section has already expended its allocated amount for this purpose. during the first two quarters. The NRP states there has been a sharp increase in the number of photographed prisoners over the number originally anticipated when this budget was drawn up.

3. The Finance Ministry is expected to forward information pertaining to these emergency expenditures to ESS Finance Division soon, and NRP furnished the attached data to PSD in order that PSD would be informed if any questions were raised by ESS.
