SUSPECT IN CUSTODY.

Police Who Are Working on Gold Robbery Have Made One Arrest—Reward Increased.
(Associated Press.)
San Francisco, Aug. 7.—The police now have in custody a man known as "Buck" Taylor, who is suspected of complicity in the robbery of the Selby Smelting Works. He was employed in the works until about six weeks ago, when he quit, saying he was ill. He lived in a cabin half a mile from the smelter, and it is said had been missing from Sunday night until he was taken into custody yesterday.
It is also reported that men now in the employ of the smelting company are under suspicion, and with the facts they have in hand the police appear to be confident of making further arrests within the next few hours.
The Selby Smelting Co. has increased the reward offered from \$5,000 to \$25,000.

EN ROUTE TO AFRICA.

Steamer Ophir, With Duke and Duchess of Cornwall and York on Board, Sails for Durban.
(Associated Press.)
Port Louis, Mauritius, Aug. 8.—The steamer Ophir, with the Duke and Duchess of Cornwall and York on board, left here today bound for Durban.

Prayed on Race Course

Methodist Minister Held Prayer Meeting at Windsor Which Was Largely Attended.

Insane Inmate of Jail Choked by a Piece of Beef Steak.

(Associated Press.)
Windsor, Ont., Aug. 8.—Rev. James Livingston, pastor of Windsor avenue Methodist church, and president of the London conference, held a prayer meeting at Windsor race track on Tuesday night, and intends holding another on Sunday. There were about 500 persons present, made up of all elements who frequent race tracks.

Choked.

Toronto, Aug. 8.—Walter Bate, an insane inmate of the city and county jail, was choked to death yesterday afternoon by a piece of beefsteak becoming lodged in his throat.

Apple Shippers Meet.

About one hundred members of the National Apple Shippers' Association are in attendance at the annual meeting which is being held in this city. They are from all parts of Canada and the United States.

Domestic Science.

Domestic science is to be taught in the public schools of Ontario. Art instruction will also be given.

Fatal Result of Accident.

Yankee Hill, Ont., Aug. 8.—Dr. N. Fraser, 23 years old, is dead as a result of injuries sustained by being thrown from a wagon loaded with hay on Monday evening. His spine was severely injured.

Two Men Shot.

Halifax, Aug. 8.—Frank Skines shot, and probably fatally wounded, Michael Anova and Alexander Gellera at Sydney yesterday afternoon. All are Canadians and the shooting is the outcome of an old grudge.

Now Record.

At the firemen's tournament yesterday afternoon the Union Engine Company's team broke the world's record, covering a half mile with a six hundred pound hose cart and making two couplings in 2:40 4-5.

DIED ON SONS' GRAVE.

New York Real Estate Agent Shot Himself Through the Heart.
(Associated Press.)
New York, Aug. 8.—August Schwab, 65 years of age, a real estate agent, shot himself through the heart yesterday and died on the grave of his two sons, whose death, within a few days of each other four years ago, had, it is thought, affected the man's mind.

Kissed the Aeronaut

M. Santos Dumont Had Thrilling Experience With His Balloon This Morning.

Forced to Cling to Window of Six Story Building Until Rescued.

French Ladies Hugged and Kissed Daring Balloonist When He Reached Street.

(Associated Press.)
Paris, Aug. 8.—M. Santos Dumont, the aeronaut, this morning attempted to circle the Eiffel tower. Santos Dumont started from the Parc de St. Cloud at 6:10 a.m. amid heavy cheers. His initial movements were promising, as the balloon turned around Eiffel tower nine minutes and thirty-four seconds after starting, and re-headed for St. Cloud. Just over the Avenue Henri Marion, however, a strong gust of wind struck the balloon, when it veered violently to one side, almost simultaneously bounding backwards a distance of fifty yards. The hydrogen gas was forced from the front to the back part of the balloon, creating a sudden expansion which caused the machine to dip. Her screw touched the steel cords and broke them. M. Santos Dumont immediately stopped the motor and the balloon began to descend.

Unfortunately the cover of the balloon struck the corner of a six story building. A report like the shot of a cannon followed. The balloon collapsed and fell rapidly. Luckily the frame caught on the coping of the building and the balloon remained suspended, otherwise Dumont would have been killed.

As it was the aeronaut hung in a most dangerous position in midair for half an hour until by a great effort he succeeded in catching the iron bar of a window, to which he clung until rescued with some difficulty by the use of ropes which he had attached to a scratch and superintended the removal of the machine.

The explosion of the balloon attracted enormous crowds, and the reception of M. Santos Dumont upon reaching the street was most enthusiastic, many ladies clinging to his neck and kissing him repeatedly.

The balloonist said he is quite ready to commence operations again.

M. Deutsche, who offered the prize of 100,000 francs for the rounding of the Eiffel tower in such a short period of time, was so affected by the danger that Dumont had passed through that he told him he would rather scratch and superintend the removal of the machine.

POST CAPTURED.

Twenty-Five Men Belonging to Steiner's Horse Are Now in the Hands of the Boers.

(Associated Press.)
London, Aug. 8.—Lord Kitchener in a dispatch from Pretoria today announced that a post of 25 men, belonging to Steiner's Horse, on the Sabi river, has been surprised and captured by the Boers.

CAPTAIN HELD RESPONSIBLE.

Certificates of Commander of Steamer Assyrian Has Been Suspended.

(Associated Press.)
Liverpool, Aug. 8.—The board of trade inquiry into the loss of the Leyland line steamer Assyrian, June 5th, near Cape Race, while on a voyage from Antwerp to Montreal, was concluded today.

Her commander, Captain Dingie, was found responsible for the disaster, and his certificate was suspended for three months.

The court called the attention of the authorities to the danger of the Cape Race signal being mistaken for a steamer's whistle.

EXTINGUISHING THE FLAMES.

(Special to the Times.)
Cumberland, Aug. 8.—The fire in No. 4 is being gradually subdued, although progress is very slow.

NEW ITALIAN CONSUL.

(Associated Press.)
New York, Aug. 8.—The Count Di Mazza, new Italian consul at Montreal, has arrived here on his way to assume the duties of his position. The Countess Di Mazza accompanied him.

COLLIDED IN FOG.

Oceanic in Collision With Irish Coasting Steamer—Seven Lives Lost.

(Associated Press.)
Queensdown, Aug. 8.—The White Star line steamer Oceanic, Capt. Cameron, which sailed from Liverpool yesterday for New York via Queensdown, arrived here this morning and reported having been in collision last night in the Irish Channel with the steamer Kincoira, of Waterford, Ireland. The Kincoira sank. Seven persons were drowned.

The Kincoira was a steel screw steamer of 453 tons. She belonged to the Waterford Steamship Co. The collision occurred in a fog. The bow of the Oceanic was damaged. The Kincoira was a coasting vessel trading between Waterford and Limerick. She had a crew of 14 men.

The Oceanic brought the seven survivors to this port.

Later Particulars.
The damage sustained by the Oceanic will not prevent her proceeding on her journey.

Details of the collision show that the only damage sustained by the Oceanic was a few dents to her port plates. She proceeded at 3:50 p.m.

The collision occurred this side of Tuskar at about 1:30 a.m. this morning. The fog was very dense. The Kincoira was struck amidships. All the passengers of the Oceanic were in bed at the time, and there was some commotion until the captain assured them that there was no cause for alarm. Headway was kept on the Oceanic after she struck the Kincoira in order to give the crew of the latter a chance to clamber on board the Oceanic. The boats were lowered to rescue every man possible.

The Kincoira sank very rapidly. The Oceanic remained in the vicinity of the collision until daylight, but nothing was then visible beyond some floating wreckage.

Shipping Paralyzed

San Francisco Employe's and Workmen Are Preparing For a Long Struggle

One Hundred and Ten Vessels Now at Anchor in the Bay.

(Associated Press.)
San Francisco, Aug. 8.—Although the Municipal League has not abandoned its attempt to have the labor troubles in this city settled by a compromise, both sides are preparing for a protracted struggle.

The tip-up of shipping is becoming serious. There are at least ninety coaster and twenty deep water vessels at anchor in the bay. Some of these cannot be unloaded and others cannot be loaded under existing conditions.

The Steel Trade Dispute.
Pittsburg, Aug. 8.—Events are moving quickly in the steel strike now, and unless there is some untoward intervention the contending sides will soon face one another in the full measure of their strength.

THE SALMON RUN.

Catches Average About Six Hundred to the Boat—Barge Swept Down the Fraser.

(Special to the Times.)
Vancouver, Aug. 8.—The catch of salmon averages 500 to 600 to the boat. Trap fish from Puget Sound are being obtained in larger numbers than are wanted at one cent apiece.

A barge at Lytton, used by the Cobel-dick Mining Company, broke from the cable on Tuesday night and started down the Fraser at a terrific rate. Five men were on board. They went through the canyon and travelled 45 miles in less than four hours. News was telegraphed ahead and people were out all the way down the river to see the big barge pass.

A man named Rieman snatched a lady's purse this morning on the Imperial Bank step. Manager Jukes saw the man, chased him three blocks, captured him and handed him over to the police.

The police station, now being repaired temporarily, is falling to pieces so badly that it will take a couple of thousand dollars to put it together again.

GRAND STAND COLLAPSED.

Many Persons Injured During Races at Paisley, Scotland.
(Associated Press.)
Paisley, Scotland, Aug. 8.—At the race meeting here today the grand stand, which was crowded with people, collapsed. Many persons are reported to have been injured.

Forty Persons Injured.
Paisley, Aug. 8.—There were no fatalities but forty persons were injured, a number sustaining broken limbs.

CHINESE TARIFF QUESTION.

(Associated Press.)
Washington, Aug. 8.—The following exact statement of certain phases of the Chinese negotiations is given from authoritative sources in order to correct some misapprehension which has arisen from published reports as to the possible cause of delay in signing the protocol at Peking. All the negotiations are agreed on the tariff matter. The present 30 ad valorem tariff is to be converted into a specific tariff at the average rates of the present treaty tariff.

Victoria Cross Heroes

Three Canadians Who Will Be Decorated by the Duke of York

Canadian Atlantic and Parry Sound Railway Telegraphers Want More Wages.

Capital Lacrosse Team Invited to British Columbia During the Fall.

(Special to the Times.)
Ottawa, Aug. 8.—It has been arranged that the Duke of Cornwall and York will present Victoria Cross decorations that have been won by Canadians in South Africa. There are three in all, Cookburn in Toronto, Turner in Quebec and Holland in Ottawa. Richardson, of the Northwest, got his from the King in London.

Ask Higher Wages.
The telegraphers on the Canadian Atlantic and Parry Sound railways have united in a demand for higher wages, and have presented the same to the company.

Mail Clerks' Petition.
The petition of the mail clerks to Hon. Wm. Mulock, minister of labor, in regard to the C. P. R. tracks between here and Winnipeg, have reached the labor department. The department has written the Canadian Pacific road in regard to the matter.

Lacrosse Team Invited.
R. F. Anderson, of New Westminster, who was in the city yesterday and invited the Capital lacrosse team to go to Westminster and play exhibition games with the British Columbia team at the fall fair, left for Toronto last night along with Aulay Morrison, M.P. The matter will be considered by the Capitals.

BAGGAGE SEIZED.

Bolles, Under Arrest at Berlin, Has Not Applied to American Embassy for Assistance.

(Associated Press.)
Berlin, Aug. 8.—Dresdener bank officials have informed the representative of the Associated Press that the cheques presented by the man representing himself to be E. C. Bolles, of San Francisco, but who registered at the Kaiserhof as Bolles, of Boston, and who was arrested yesterday, amounted to \$500. Bolles claims that he acquired them in regular manner at Boston. The cheques, which were presented at a branch of the Dresdener bank, have been identified as part of the booty secured at the robbery of the American Express Company's Paris office. Bolles has not yet applied for help at the American embassy. The Kaiserhof possessor says that he acted in a suspicious fashion and that he ordered his bill and his baggage made ready, evidently planning to leave the town immediately after cashing the cheques. The criminal police have seized the baggage of the prisoner.

COUNT WALTERSSEE.

Commander of the Allies in China Has Arrived at Hamburg.

(Associated Press.)
Hamburg, Aug. 8.—Steamer Geta, which brought Count Walterssee, arrived today. The field marshal landed immediately amid cheers from the crowd assembled. General von Wittich, representing Emperor William, welcomed him. After an inspection of the guard of honor the field marshal, accompanied by Gen. von Wittich and escorted by a squadron of Uhlans, proceeded to the town hall. He was warmly applauded as he passed through the thronged and decorated streets. At the town hall the field marshal was received by the senate, which body subsequently gave a lunch in his honor.

Gen. von Wittich read to Count Walterssee a cabinet order in which the Emperor thanked him for his Chinese services and bestowed upon him the order Pour Le Merite with oak leaves, and directed that the Ninth Regiment of field artillery hereafter bear the name of Von Walterssee.

THE LATE EMPRESS.

Remains of Dowager Empress Frederick Placed in Coffin Today.

(Associated Press.)
Cronberg, Aug. 8.—The remains of the Dowager Empress Frederick were placed in a coffin early this morning.

To Notify Prince Henry.
Brest, Aug. 8.—The German cruiser Hela arrived here today. Her commander landed. He had not heard of the death of the Dowager Empress Frederick. He called for mail and said he would sail again immediately and notify Prince Henry of Prussia, whom he expected to-night or to-morrow morning.

BRITAIN'S TRADE.

(Associated Press.)
London, Aug. 8.—The Board of Trade statement for the month of July shows an increase of £2,764,700 in exports and a decrease of £1,242,000 in imports.

Campbell's Prescription Store

We keep the largest stock of Drugs and Toilet Articles in the province. Prescriptions promptly and carefully executed.

Canadian News Notes

An Old Sailor Fell From a Gang Plank Into the Water and Was Drowned.

Man Killed His Aunt and Shot a Cousin - Kicked to Death.

Toronto, Aug. 7.—The first attempt to signal by electricity between Toronto and Buffalo will be made on Tuesday night next.

The National Apple Shippers' Association is in annual convention here until Friday afternoon.

The Ontario government has appointed J. M. Glenn police magistrate at St. Thomas.

Murderer Captured.

Saint Ste. Marie, Ont. Aug. 8.—A man named Scholtz, aged 40, living on Gore street, shot and killed a woman, said to be his aunt, yesterday afternoon.

Fell From Gang Plank.

Windsor, Aug. 7.—Capt. E. M. Colwell, aged 67, and mate of the schooner Katakabin, fell from the gang-plank of the boat below Windsor last night and was drowned.

Has Become an Agnostic.

Hamilton, Aug. 7.—Rev. A. H. Tyler, pastor of Unity church, on Sunday evening announced that he had come to doubt the possibility of the future state and the existence of God.

Not Satisfied With Price.

Winnipeg, Aug. 7.—The Horse-Breeders' Association of Manitoba decided not to collect horses for Col. Dent, his price being too low.

GIP Killed.

The four-year-old daughter of John Schar, a German living near Wolsley, Assa, was killed by a bull.

Fatal Kicks.

Leslie Towns, son of Geo. Towns, a farmer near Nings, Man., received fatal kicks from a horse.

Accidentally Shot.

The twelve-year-old daughter of Isaac Snider, living near Hildesbury, Assa, was accidentally injured by a shotgun in the hands of her brother. She may recover.

The Harvest.

Beautiful harvest weather continues and wheat cutting is gradually becoming general.

Mrs. Warren Dead.

Mrs. Warren, daughter of Casider Anderson, of the C. P. R. land department, who recently spent some time in Vancouver for the benefit of her health, died today.

MAY BE SETTLED.

Report That Steel Strike Will Probably Be Terminated Shortly.

New York, Aug. 7.—The Commercial Advertiser says: "As far as can be learned, no communication has been received by J. P. Morgan & Co. or by any of the steel companies here, from the labor leaders since the conference of Saturday last. Peace, however, may not be far away after all. It is learned that independent influences are at work which may surprise everybody within the next few days."

"Mr. Morgan will not say a word, but it is believed in some quarters that he has received important communications from persons strong enough and independent enough to bring about a settlement before Shaffer's order to strike takes effect. They who know Mr. Morgan say that he will welcome any move that will hasten the end of the controversy, notwithstanding the fundamental objections he urged on Saturday last are respected. That something is being done in the direction of amity is apparent from the manner of the men here and the course of steel stocks on the exchange."

THE ROYAL TOUR.

Official Intimation That It Will Not Be Curtailed.

London, Aug. 7.—It was officially announced today that the tour of the Duke and Duchess of Cornwall and York will not be curtailed.

Black Jack in the Jail

Further Evidence Given By Prisoner at Investigation at New Westminster.

McCarthy Says He Lost Shirts, Tobacco and Money at the Game.

EXPRESS OFFICE ROBBERY.

Four Suspects Have Been Arrested By The French Police.

Berlin, Aug. 7.—A man claiming to be E. C. Bolles, of San Francisco, but who registered at the Kaiser Hof as Bolles, of Boston, was arrested today for presenting at a branch of the Dredgner Bank, checks identified as part of the booty obtained by the robbery of the American Express Company's office in Paris during the month of April, Bolles claims he acquired the checks legitimately.

Three masked burglars entered the American Express Company's office the night of April 20th, and carried off a large quantity of money and jewelry. The burglars left behind them a complete outfit of American burglars' tools. Before beginning work on the safe, the burglars bound and gagged the colored porter, who was asleep on the second story. They overlooked a pocket of French bills and a number of gold pieces.

A feature was that the jailer on duty in the vicinity heard and saw nothing of the burglars, though the latter worked loudly and the sound of the explosions necessary to open the safe was sufficient to awaken the porter on the top story of the building across the street, and cause him to descend and search his own house for intruders.

The express company's office is located in the centre of Paris, has a long frontage facing the opera house, and is surrounded by business houses.

"Tom Edwards," said to be a native of Chicago, and described as leader of the gang, was arrested the following day, and George Humber, reported to be the second member of the gang, was taken in custody on May 1st. In his pockets were found burglar tools and a number of checks that had been stolen from the express office.

On June 8th the police of Paris arrested a notorious woman named May Churchill, known as "Chicago May," who was suspected of complicity with "Tom Edwards" in the robbery.

Finally in June last "Eddie" Guernin, of Chicago, was also arrested by the French police on the charge of being one of the three burglars concerned in the express company's robbery.

Guernin, it was said by the police, is the same man who ten years ago robbed the Bank of Lyons, France, of \$30,000.

The police of Chicago assisted in the identification of Guernin by means of the Bertillon measures of the man taken ten years ago by the French police.

LONDON DOCK DUES.

Ship Owners and Brokers Have Been Notified of an Increase.

London, Aug. 7.—At a meeting today of the London & Indian Dock Co., the chairman, Mr. Scott, announced that he had this day formally notified the ship owners and brokers that on January 1st the shipping dues would be raised from one shilling to one shilling and sixpence per ton. Mr. Scott explained that increased dock accommodation was imperative, and that they could not hope to raise the capital necessary to bring it about unless they improve the revenue.

BACK FROM AUSTRALIA.

Officers and Crew of the Brooklyn Discharged With Treatment They Received.

Manila, Aug. 7.—The United States cruiser Brooklyn, flying the flag of Rear-Admiral Remy, has arrived here from Australia, where the vessel took part in the celebrations attending the opening of the Australian parliament. The officers and men of the Brooklyn expressed themselves as greatly pleased with their treatment during the Federation ceremonies.

TROUBLE IN THE SOUTH.

Gambots Ordered to Colon to Look After American Interests.

Washington, Aug. 7.—The navy department has ordered the gunboat Machias, now at Boston, to proceed to Hampton Roads and thence to Colon, at the eastern terminus of the Panama road, to look after American interests there. This is in connection with reports of disturbances and interruption of traffic at the Isthmus.

MESSAGE TO THE KING.

Washington, Aug. 7.—President McKinley today sent the following message of condolences to King Edward upon the death of his sister, the Dowager Empress Frederick of Germany: "State House, Washington—To His Majesty Edward VII, London: 'Tender to Your Majesty sincere condolences by reason of the death of your beloved sister, Her Majesty the Dowager Empress Frederick of Germany. Wm. McKinley.'"

AT WORK ON TREATIES.

Berlin, Aug. 7.—The officials of the Russian embassy here deny the report printed by the Kenigsberg Allgemeine Zeitung that the Russian finance minister had instructed the Russian representatives in Germany to discontinue their preliminary work on the commercial treaties.

IMPORTANT TO CYCLISTS AND ATHLETES.

Mr. Mack White, the well known trainer of the Toronto Lacrosse Club and Ontario Hall Football Club, writes: "I consider Griffiths' Menthyl-Liniment unequalled for athletes or those training. I have used it with the best success, and can heartily recommend it for stiffness, soreness, sprains and all forms of swelling and inflammation." Sold by Parke & Taylor, Hamilton.

Crowd Looked Silently On

Negro, Who Confessed His Guilt, Burned to Death at the Stake.

Had to Be Held Up While Chains Were Fastened Around His Body.

Birmingham, Ala., Aug. 7.—With agonizing screams and his eyes bulging from his head, John Wesley Pennington, a negro, was burned at the stake near Enterprise, Ala., before a crowd of 500 enraged and determined citizens of Coffee county this morning.

The mob was composed of both whites and blacks, and though the suffering man pleaded for mercy, and frantically endeavored to break the chains that tightly bound him, not a trace of sympathy was shown on the faces that peered at him through the flames. Pennington had committed a brutal assault upon Mrs. J. O. Davis, wife of one of the most prominent farmers of Coffee county, and had confessed his guilt.

The crime was committed on a Tuesday afternoon of last week, while Mrs. Davis was gathering vegetables in her garden. Pennington charged the woman into insensibility, and afterwards fled to the woods near by. As soon as she regained consciousness, Mrs. Davis crawled to the house and told her husband what had happened. A large mob was quickly organized with blood-bonds, and they chased the negro until early this morning, when he was captured in a swamp. He was bound hand and foot and taken to the Davis home for identification.

News of the assault had been spread for miles around Enterprise, and every farmer in the neighborhood had joined in the pursuit. When the posse arrived this morning with Pennington, at least 500 persons were gathered near the Davis residence. A great shout went up when the prisoner appeared, but at a signal the mob withdrew to the woods and quietly awaited the result of the meeting of Pennington and Mrs. Davis. Mrs. Davis recognized him as her assailant, and the negro broke down and wept. He admitted having committed the assault and pleaded for mercy, but he was dragged from the house to the woods, where the crowd had gathered.

Evidently expecting the confession, several citizens had driven an iron stake into the ground, and as the captor appeared with Pennington, both whites and blacks were piling brushwood around the stake. The negro saw his doom, and with a scream of terror he tried to escape. He was quickly revived and dragged to the stake while the crowd stood silently by. The frightened man was quickly consumed, and while the chains were fastened around his neck and body.

A Match Was Applied to the pile, and with oil to feed upon, the tiny flame soon burst into a roaring fire.

The terrified negro again pleaded for mercy in the most agonizing tones, and prayed to God that those around him might perish. He then called upon his relatives, and as the flames leaped up to his neck, an unearthly shriek was heard and the man's eyes almost bulged out of their sockets. He made a final effort to escape, but his headway that nothing could be seen except a wringing motion in the circle of fire.

A quick followed and in a few minutes the flames had subsided sufficiently to show that Pennington's head had fallen forward and hung from the neck. Another man was quickly consumed, and nothing remained but a pile of ashes. The crowd then dispersed.

THE NATIVE BORN.

Third Annual Banquet of the Order—A Jovial Evening Spent by the Members in Speech and Song.

The third annual banquet of the Native Sons of British Columbia was held last evening in the K. of P. hall, there being about one hundred guests in attendance. This affair, which has come to be regarded as one of the great events of the year, was not carried out on quite as pretentious a scale this year as formerly. The preparations for it were made within a few days of the holding of the feast. However, the native born have a "right" of enjoyment and last evening was no exception to the rule.

The hall had been prettily decorated for the occasion, while similar adornment lent attractiveness to the well laden board, the catering for the affair being done by Phil Smith, of the Cecilia orchestra, while the fine new piano recently installed by the Pythians was also requisitioned. The chair was occupied by the Chief Factor, W. C. Moresby, who, after the tempting viands had been disposed of, offered the toast of His Majesty, the King and Queen Alexandra. This was musically honored. The next toast was that of the Governor-General, the Lieutenant-Governor, and the two houses of P.M.P., responded in his usual capable manner.

The Pioneers, the progenitors of the Nation Sons, naturally occupied a place of honor on the toast list, and the society sent four of its worthies to respond to the toast. E. Pearson, J. P. King and Queen Alexandra, were the pioneer days, his reminiscences being supplemented by A. Graham, and by Messrs. Johnson and Blackburn. The health of the Chief Factor was offered by J. Wilson, and suitably acknowledged by Dr. Helmecken and Messrs. Yates, Higgins and Henry. Mr. Helmecken then proposed the health of the Chief Factor, to which the chairman replied in appropriate terms.

The Army and Navy found suitable champions in Major Hibben, Pte. Smetburn of the first contingent; Sergeant Major McTavish, and Corp. Simpson, R.E.

"The Day We Commemorate," was read by E. E. Wootton, who, notwithstanding the extremely short notice which he had in which to prepare, delivered an able address. The Ladies was proposed by Al. Briggs, and replied to by Chas. Wilson, while the Press was suitably honored. During the evening songs were given by Corp. Simpson, R.E., who made a bit with his comic selections; by Louis York and Chief Watson.

The proceedings were terminated shortly after midnight by the singing of the National Anthem and Auld Lang Syne. The committee of management consisted of W. C. Moresby, James Mansell and Thomas Fletcher.

LORD STRATHCONA'S GIFT.

Canadian High Commissioner Forwards \$5,600 For the Erection of an Annex to the Royal Jubilee Hospital.

Lord Strathcona, the Canadian High Commissioner, whose beneficence has extended over a wide range and who rendered such signal service to the Empire by the raising of Strathcona's Horse for service in South Africa, has placed the city of Victoria under a debt of gratitude by a contribution toward the "Provincial Royal Jubilee Hospital. Yesterday, President Helmecken, of the hospital, received a letter from the High Commissioner in London intimating that he had instructed his agent in Montreal to forward cheque to Victoria for the sum of \$5,600 for the erection of an annex to the hospital to be known as the Strathcona wing.

The matter was brought to the attention of Lord Strathcona on a recent visit of Mr. Helmecken to England, and a virtual promise was then made that the chair for service in South Africa, as foreboding for the purpose indicated. The letter mentioned is the outcome of that conversation, and the announcement made last evening to the members of the Native Sons by Mr. Helmecken caused great enthusiasm.

In proposing the health of the noble lord, Mr. Helmecken instanced his timely appetite and gifts, and expressed the hope that some day native sons would be able to do for British Columbia and Victoria what Lord Strathcona had done for the Empire.

CLOVER LEAF RANGE

To Be Placed at Disposal of Officer Commanding R. E.-Regimental Order.

The following regimental order has been issued:

Regimental Headquarters, Victoria, B. C., August 7, 1901.

The following district order, No. 33, 24th August, 1901, is published for information: The Clover Leaf Range will be at the disposal (exclusive) of the officer commanding the Royal Engineers at Esquimalt from the 12th to the 15th of August instant, inclusive, together with targets, marking discs, etc.

Officers commanding companies will see that stings for the rifles of their companies are obtained at once from regimental stores and properly attached to rifles. The Quartermaster will issue 50 to each officer commanding a company.

By Order,
(Sglt.) ALEXIS MARTIN, Capt.,
Actg. Regt. Adjutant.

MET LAST NIGHT.

School Board Held Session for Purpose of Filling Vacancies in Teaching Staff.

The school board held a short meeting last night for the purpose of filling vacancies on the school-teaching staff. There were present Chairman Hall, and Trustees Jay, Brown, Drury and Huggitt.

It was recommended by the superintendent that Wm. Willis be transferred from the Central to the High school staff.

This suggestion was acted upon, and a motion was made to that effect by Trustee Brown and carried. Mr. Willis' salary will be \$75 per month.

Two vacancies had now to be filled, caused by the above transfer and T. Brown's resignation. The list of applicants for the positions was referred to, and, on motion of Trustee Huggitt, Miss Margaret Johnson was appointed to the teaching staff temporarily. The other vacancy was on vote given to Miss Noble. Miss Johnson's salary will be \$450 and Miss Noble's \$400 per annum.

The trustees of the Baptist mission at Victoria West are to be requested to kalsomine the schoolroom rented by the trustees.

At the next regular meeting of the board it is expected that the plans for the new high school will be taken up. An additional week's holidays having been given the school children, the allotment of the teachers was postponed until the next meeting.

Gold on the Islander

How Some of That on Ship Was Distributed—The Railway Rates.

Moana Prevented From Establishing a Record Run From the South.

Much of the \$100,000 in gold, drafts and other paper money, reported in yesterday's Vancouver dispatches as having been brought down on the steamer Islander, came on to this city on the steamer last evening. Purser Bishop had fully \$30,000 in his care on the voyage, while the principal individual holders of the wealth were E. La France, a Yukon cattle man, who was reported to have had \$10,000; M. T. Brewer, of Seattle, who had in gold \$7,000 including a beautiful sapphire valued at \$125; O. Henderson, of Seattle, \$5,000; John Box, of Vancouver, \$2,500, and J. Ryan, \$2,500.

The Victoria passengers arriving on the steamer were as follows: D. K. Campbell, Miss Sharpnell, Miss Conway, Mrs. F. Brown and boy, R. G. Fisher, Capt. Parsons, F. Craig, Miss E. Watson, Mr. and Mrs. Walker, S. Ward, Miss Nesbitt, A. Bruce and L. C. Winburn.

Dawson advices received by the Islander state that permits for the bringing of liquor into the Yukon Territory have been issued. The permits limit each of the concerns to 12,000 gallons. The eight holders of permits each must pay a tax of \$2 on each gallon of wine or liquor coming from the States or any part of Canada, or, in fact, anywhere outside of the Territory, and a tax of 50 cents on beer. It is estimated 50,000 gallons of beer will be brought in and the remainder of 90,000 gallons will comprise wines and liquors. There are 101 licensed retailers in the Territory. The total revenue from retailers' duties and wholesalers' licenses will be \$238,000.

Demars, a Frenchman, who has been working a hillside claim on Miller-creek, in the Canadian Forty-Mile district, has paid royalty, showing that there has been \$10,000 taken out from the claim this spring. It is the only good claim was also taken from the property last year.

Melchior Ewing and A. N. C. Treadgold, of London, and H. Walter, a Toronto lawyer, have received a concession to build flumes for conducting water from the Klondike river to Bonanza, Hunter and Bear and tributary creeks. They will spend \$250,000 by January 1st, 1902.

The Watson Tennis club, comprising the elite of the town, mostly officials and their wives, has been holding its first annual handicap tournament.

Mr. Ceperley, one of the Islander's Vancouver passengers, claims to have made the quickest round trip on record. He started from home on the 21st of July at 11 p. m., spent two days at Skagway, two days at White Horse and three days at Dawson, and reached Vancouver on August 7th at 9.30 a. m.

M. T. Walton, who went into the Big Selkirk, has returned to White Horse. He had with him a poke containing \$311 in nuggets, which had been sent out by a man who was working on Upper Dip-covey, on Lake creek. The gold was all coarse and showed very little wash. Shortly before Mr. Walton left a report was current that a new discovery had been made on an unnamed creek, about fifteen miles down the river, and Mr. Runner was preparing to send out three prospectors to verify the rumor.

J. Percy Snyder, the Rock creek coal man, says he has very numerous in that vicinity and recounts some experiences he had the other day that are interesting. Several days ago a bear broke into the cabin of Gibson and Melville, two neighbors of Snyder's, while they were in Dawson. Brain created a vast amount of havoc, smashing in a window and carrying off a quantity of ham and bacon, besides eating a can of butter. Spring guns were set and tempting bait placed before them in the hope that the depredator would come back and immolate himself on the altar of appetite. But the spring guns didn't work.

and signaled the John McDonald. At that time he was the second mate on the British bark Adderly. "We were bound from Seattle to Sydney," Gough said, "the first part of the year. We were about that time just near the northeast trades and were in from 25 to 27 degrees north latitude and about 145 west longitude. I was on watch when the McDonald was sighted, and when the vessels came nearer I took the glasses to verify the signals.

"We were within a third of a mile of each other when the McDonald began to fly her signals. He displayed the regulation signals telling the name of the vessel, that she was from Baltimore, was out so many days and bound for San Francisco. The last signal the McDonald flew was the first intimation she gave of there being any trouble aboard her. That signal was run up and lowered about as rapidly as the others had been. I just caught the combination of the flags as it was run down.

"I called them off to the captain and in a minute he exclaimed, 'Why, say, that can hardly be. That signal says 'The ship's on fire.' Read it again, you must have made some mistake.'

"I looked again but the signal was down, and although I looked for quite a while at the other boat no other signal was flown. Captain Berquist insisted that I must have read that signal wrong. He said that it stood to reason if a ship was on fire she would have asked for some assistance. Besides the boat looked, so far as I was concerned, for any special trouble. I told him that I was sure that I had read that signal all right, but as he did not take steps to investigate the matter any further I left the matter drop.

"At that time the McDonald if she had caught a fair breeze, ought to have reached San Francisco in about five days, for the captain had signalled he was bound for that port."

Gough is now second mate on the American ship Fort George, which recently arrived at Honolulu from Newcastle.

The McDonald, it will be remembered, had been under charter to load at Chemainus after coming north from San Francisco.

FEARED SHE HAS BURNED.

The American four-masted ship Bonako is only 56 days out from Norfolk, Va., for San Francisco with a cargo of coal, but still the underwriters are willing to pay 45 per cent to release their risks on vessel and cargo. The vessel sailed on June 22nd and ten days later she was spoken in latitude 38 degrees north, longitude 65 degrees west. On July 5th, in latitude 45 degrees 45 minutes north, longitude 47 degrees 17 minutes west, the steamship Marzherita sighted an American wooden ship on fire. Her captain described the burning vessel as being more than 100 feet long, with all her four masts gone, but what was presumably an iron house and a donkey engine still standing unadorned. From the nature of the fire it was surmised that the vessel's cargo was coal.

On this account the underwriters at once offered 30 per cent to reinsure, and now it has reached 45 per cent. The Bonako is one of the several fleet ships built at Bath, Me., in 1892. She is 3,347 tons net burden. Capt. Amesbury, her commander, is well known in San Francisco.

The Ingoborg, now out 116 days from Paganayo, Peru, for Melbourne, Australia, is noted at 35 per cent for Portland, 40 per cent for the County of Haddington, 183 days from New York for Shanghai, 80 per cent, and the Empire, 85 days from Newcastle, Australia, for Hawaii, 20 per cent. There is considerable speculation on all these vessels.

GOING TO SIBERIA.

The Queen Adelaide will not return to the Orient this voyage by her usual direct route, having been chartered by the Tacoma Mill Company for a special voyage to Dalny, Siberia, with lumber. After discharging her Oriental cargo at Tacoma she will begin loading lumber. She will carry from a million to a million and one-half feet, sailing to Russia direct.

MARINE NOTES.

Steamer Queen, it is expected, will spend considerable time at the outer wharf to-morrow while en route north with a crowd of excursionists. There will join the passengers here United States Consul Smith and son, Mr. Oosterdonk and wife, J. K. Hamilton, Mrs. J. Horne and T. Sale.

Tug Lorne came in from the Cape last evening, having sighted no vessels outside. She will take the Largo Law to Vancouver this evening.

Norway is a comparatively unimportant country, and the average life expectancy of its people do not get into the nineties; but the Norwegians, nevertheless, have a claim upon celebrity due to the fact that the average length of life is greater there than in any other country in Europe. Recent statistics show that for males the average is forty-eight years and for females it is fifty-one years and three months. It is a valuable commodity for this that the mortality in Norway is 17 per cent less than in the centre or west of Europe, this being due to the fact that a far smaller number of infants die there than in any other country.

What the Doctor Does.

The first thing the doctor does when he is called to see a fretting, worrying, crying baby is to give it a medicine to move the bowels and sweeten the stomach. The doctor knows that nine-tenths of the troubles affecting babies and young children are due to irritation of the stomach or bowels, and that when the cause is removed the child is well and happy.

Baby's Own Tablets,

(REGISTERED)

are a ready-at-hand doctor. They gently move the bowels, sweeten the stomach, promote digestion, cure colic, check diarrhoea, break up colds, prevent croup, reduce fevers, expel worms and promote healthy sleep. Baby's Own Tablets are mothers' friend and an ever-ready help for little ones.

Guaranteed to contain no opiate or poisonous "sleepy" stuff.

Good for children of all ages.
Try them for your children.

The genuine package looks just like this

Sold by druggists or sent post paid on receipt of price (25 cents a box) by addressing

ACCIDENT PREVENTS A RECORD.

Australian liner Moana expected on Southern Seas was expected on Monday morning, two days ahead of her scheduled date of arrival, and would have established a record trip by carrying out these plans. It had been intended that her mails and other passengers should have made connections with the Campania on the Atlantic coast, and then proceeded to the west coast of North America, but unfortunately a slight mishap to the machinery on the voyage prevented the accomplishment of the enterprise. By request of her passengers the steamer remained over here until 5 o'clock this morning in order to enable them to board an opportunity of seeing the city and of having the pleasure of continuing the trip to Vancouver in daylight.

The steamer brought about 60 saloon passengers, and almost as many more stowaway passengers. Prominent among the former were Capt. Walker, of Honolulu, who is well known here; Capt. Morgan, of the Morzaga mines in Queensland, and J. P. Hogan, an Australian politician. An cargo of stowaways brought 120 cases of wine, 285 sacks of coffee, 403 bags of char, 5 boxes of skins, 271 sacks of hides, and 115 of merchandise.

A SHIPPING DISAPPOINTMENT.

There are 2,500 tons of freight and general merchandise on the C. P. R. docks awaiting the steamer Conemaugh to take to St. Michael, Nome and Upper Yukon points, says the Vancouver Province. How long this big lot of goods will lie there is hard to say. The Conemaugh has made one trip to the Arctic ports already this season, and has but now reached San Francisco on her return. Advice from San Francisco says that the Conemaugh reached that port and finding the waterfront strike on, her crew promptly joined the procession. The owner shipped a Filipino crew, as the urgency of the charter to Michael is one that at this season of the year brooks no delay if the vessel would fulfil her contract to deliver the goods at the northern ports in time to get them into Dawson before the freeze up. But the Filipino crew has also gone out, and the vessel is now one of the fleet tied up in the Bay City.

BURNED TO WATER'S EDGE.

The Hawaiian Star of July 27th says: "The American bark Empire, supposed to be the water's edge and sank at 10 o'clock this morning off the coast of Hawaii, a few miles from Mahukona, in sight of and witnessed by hundreds of people from all over Kohala, who came from

Can Keep Cool

If You Know How TO FEED YOURSELF.

(Reasons Below)

Try GRAPE-NUTS.

HOT WEATHER FOOD.

The selection of food for hot weather is an important question. We should avoid an excess of fats, cut down the butter ration and indulge more freely in fruits and food easy of digestion. One meal per day is sufficient during hot weather.

An ideal breakfast is Grape-Nuts, treated with a little cream (which, by the way, supplies the necessary fat in a very digestible form) a cup of Postum Cereal Food Coffee, hot, or if cold, it should have a little lemon juice squeezed in; then some fruit, either cooked or raw; also perhaps two slices of entire wheat bread with a very thin spread of butter. A breakfast of this sort is so perfectly adapted to the wants of the system that, although the heat of the day in one goes through as compared with the sweaty, disagreeable condition of one improperly fed. Once put in practice, the plan will never be abandoned during the hot days, for the difference in one's personal comfort is too great to be easily forgotten.

Thousands Are Coming

The Labor Day Celebration Here Will Be a Record Breaker.

Special Steamer From Vancouver - G. R. Maxwell and Ralph Smith Will Speak.

As the time approaches for the holding of the big Labor Day demonstration it becomes more and more evident that the throng of visitors to the city will be almost unprecedented in the history of such celebrations. Secretary McNeven, of the Trades and Labor Council, came down from the Terminal City last night, where he has spent three or four days, and was able to assure the members of the council that about fifteen hundred people would visit the Capital from the mainland city alone. The council there had decided to charter a steamer if it could reach here in time for the parade to bring the crowd over on Sunday night.

He also reported that he had seen George Maxwell, M. P., and had received a promise from that gentleman to address the gathering of unionists here. Ralph Smith, M. P., will also be present and deliver an address. It is possible that speeches in connection with the demonstration will reveal the secret of its popularity and success. The council stands for sound scholarship, physical health and that type of social culture that grows in a Christian atmosphere.

The Rev. Dr. Hare has been Principal of the College since its inauguration, twenty-seven years ago, and will be pleased to give further information to those who may desire it.

WEEKLY WEATHER REPORT.

Victoria Meteorological Office,
21st July to 6th August, 1901.

The weather throughout the entire week has been remarkably fine—a typical British Columbia summer. A series of low barometer areas has traversed the upper part of the province, the pressure at the same time remaining high on the Vancouver Island coast, except during the 4th to 6th inst., when it somewhat decreased. Scattered and light to fresh winds have been very reasonable. The greatest heat occurring on the Lower Mainland and in the valley of the Thompson river. In the Northwest Territories and Manitoba the barometer has, with the exception of two days, been unduly high, and temperatures somewhat lower than usual, except at Winnipeg, where 94 degrees were registered on the 5th. The rainfall was light and distributed as follows: In Alberta, .52 inch; in Saskatchewan, .10 inch; in Assiniboia, .28 inch; in Manitoba, .16 inch. Thunderstorms occurred during the week at Calgary, 9/4/01, Battleford and Medicine Hat.

In the Pacific Coast and adjoining states fine weather prevailed, there were a few showers and thunderstorms. Temperatures have been above the normal, especially in the higher regions of central Oregon and in Idaho. California in the valley of the Sacramento, where 110 degrees of heat were registered.

At Victoria 88 hours and 42 minutes of bright sunshine were recorded; the highest temperature, 78.1, occurred on the 6th, and the lowest, 49.9, on the 3rd.

New Westminster reported the highest temperature, 82, on the 6th, and the lowest, 46, on the 31st July.

At Kamloops the highest temperature, 94, was on the 4th, and the lowest, 52, on the 1st and 3rd.

At Vancouver the highest temperature was 78 on the 3rd and 6th, and the lowest 49 on the 1st and 3rd.

WAS AN ALBATROSS.

Late D. Carmel a Shipmate of Rear Admiral Beaumont in Northern Expedition.

It is interesting to note in connection with the late D. Carmel, formerly of this city, who died a few days ago at Los Angeles, that he was with Sir G. Nares in 1875 when that gallant sailor endeavored to reach the North Pole. He was engineer on one of the steamers which formed this expedition, the Discovery and Alert. Among the others of the party were Commander Markham, Lieut. Aldrich, surveyor; Capt. Feilden, R.A., a naturalist; Capt. Stevenson, and Lieut. now Rear-Admiral, Beaumont, the former popular commander-in-chief of the North Pacific squadron. Capt. Stephenson was in charge of the Discovery and the expedition left Portsmouth on May 20th, 1875, and entered Smith Sound in the last of July. After much difficulty Lady Franklin Bay was reached, where the Discovery was established in winter quarters. The Alert pressed on to a point beyond 82 degrees, and from there Capt. Markham and Lieut. Farr advanced over the polar pack, and in the face of almost insurmountable difficulties reached a latitude considerably above 83 degrees, the highest point then attained. During the expedition Lieut. Beaumont made valuable discoveries about the northern coast of Greenland. The results of this expedition were the discovery of three hundred miles of new coast line and a number of important meteorological observations. While on this station Rear-Admiral Beaumont and Mr. Carmel often exchanged reminiscences of the trying period in which they were brothers in arms, endeavoring to solve the mystery of the ice king and the problem of the great north.

New Furniture: the best your money can buy; that is the best for your money at Weller's.

THE McDONALD'S FATE.

If the advice of one man now in this port had been followed the crew of the lost American ship John McDonald would have been saved, says a Honolulu correspondent. George Gough is the last exchange. Gough is in the last exchange, so far as is known, who spoke

and signaled the John McDonald. At that time he was the second mate on the British bark Adderly. "We were bound from Seattle to Sydney," Gough said, "the first part of the year. We were about that time just near the northeast trades and were in from 25 to 27 degrees north latitude and about 145 west longitude. I was on watch when the McDonald was sighted, and when the vessels came nearer I took the glasses to verify the signals.

"We were within a third of a mile of each other when the McDonald began to fly her signals. He displayed the regulation signals telling the name of the vessel, that she was from Baltimore, was out so many days and bound for San Francisco. The last signal the McDonald flew was the first intimation she gave of there being any trouble aboard her. That signal was run up and lowered about as rapidly as the others had been. I just caught the combination of the flags as it was run down.

"I called them off to the captain and in a minute he exclaimed, 'Why, say, that can hardly be. That signal says 'The ship's on fire.' Read it again, you must have made some mistake.'

"I looked again but the signal was down, and although I looked for quite a while at the other boat no other signal was flown. Captain Berquist insisted that I must have read that signal wrong. He said that it stood to reason if a ship was on fire she would have asked for some assistance. Besides the boat looked, so far as I was concerned, for any special trouble. I told him that I was sure that I had read that signal all right, but as he did not take steps to investigate the matter any further I left the matter drop.

"At that time the McDonald if she had caught a fair breeze, ought to have reached San Francisco in about five days, for the captain had signalled he was bound for that port."

Gough is now second mate on the American ship Fort George, which recently arrived at Honolulu from Newcastle.

The McDonald, it will be remembered, had been under charter to load at Chemainus after coming north from San Francisco.

HER INAUGURAL RUN.

Large numbers inspected the new steamer Majestic when she arrived on her initial trip from the Sound last evening. All were favorably impressed with the many admirable features of the vessel, none being more noticeable than the roomy well ventilated state rooms which so few steamers possess. The splendid speed of the steamer is, of course, another of her distinctive points, and in this connection there has been considerable speculation. From yesterday's performance it is confidently expected that as soon as the stiffness of her machinery has been worn off that she will make the trip from Port Townsend to the outer wharf in 2 1/2 hours.

ONTARIO LADIES' COLLEGE.

The new illustrated calendar of the Ontario Ladies' College, Whitby, is just issued. It is exceptionally neat and complete. Across the outside cover is a double band of two shades of blue representing the college colors, whilst the interior contains numerous color illustrations of the college buildings and grounds. For some years the Ontario Ladies' College has been recognized as one of the most efficient and progressive institutions, with a large and increasing patronage, and a single glance at its staff, its course of study, its up-to-date equipment, its pleasant, healthful surroundings will reveal the secret of its popularity and success. The college stands for sound scholarship, physical health and that type of social culture that grows in a Christian atmosphere.

The Rev. Dr. Hare has been Principal of the College since its inauguration, twenty-seven years ago, and will be pleased to give further information to those who may desire it.

"MY HEART WAS THUMPING MY LIFE OUT," is the way Mrs. R. H. Wright, of Brockville, Ont., describes her sufferings from smothering, fluttering and palpitation. After trying many remedies without benefit, six bottles of Dr. Agnew's Cure for the Heart restored her to perfect health. The first dose gave almost instant relief, and in a day suffering ceased altogether. Sold by Dean & Hiscocks and Hall & Co., St.

GALLERY AND CHARACTER OF ABRAHAM LINCOLN.

An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul Railway, and may be had by sending six (6) cents in postage to F. A. Miller, General Passenger Agent, Chicago, Ill.

The New Vancouver Coal Mining & Land Co. Limited. Supply from their Nanaimo, Southfield and Province Island Collieries. Steam, Gas, Coal. House.

The Daily Times. Published every day (except Sunday) by the Times Printing & Publishing Co. W. Templeman, Manager. Offices: 33 Broad Street. Telephone No. 45.

WHITE V. COLORED MEN. In the cool and tranquil frame of mind induced by a temperate climate the state of feeling to which men must be brought to induce them to contemplate, not to say take part in, the burning to death of a brother man's jaw is reprehensible.

voice in public affairs by an educational test, from which the superior race are exempt of course. Then the colored men become energetic and are now qualifying in large numbers, and the test has proved a good thing instead of the bar which it was intended to be.

THE SIGNIFICANCE OF IT. Why did the President of the United States send a message of condolence to the King of Great Britain on the death of his sister and none to the Emperor of Germany on the death of his mother? Is blood really thicker than water after all, when there are no political possibilities to be taken into consideration? It looks like it. You say the President has "done" two terms in the White House, and after a man has served his country in the highest post in the gift of the people for eight years he is supposed to have reached the summit of human greatness and it would be infra dig. for him to thereafter take any minor post.

OUT-DOOR LIFE. Ambrose Bierce thinks it is time for men to get back to first principles in food, clothing and habitations. There is room for argument on that matter. It is all right and not at all trying to the constitution of the average atom of humanity to take to the woods and the beaches and live in tabernacles for a while at this season of the year; but there are times when it is pleasant to have something more substantial than canvas overhead and something more elaborate than a bathing suit upon the body.

The world should be nearly ready to admit that the Scot has been maligned. From the days of Sydney Smith, who said it was necessary to make an opening into the skull of a northern man to let the point of a joke in, to the time of the modern "funny" paragrapher, dexterity and "neatness" have been ascribed to "Sandy." Time has wrought a change. Max O'Rell says: "Personally, I have never experienced any difficulty in getting a joke into a Scotchman, and still less in getting one out of him. Whatever my English friends may think or say to the contrary, my modest personal opinion is that the Scottish people are brimful of humor—sometimes unconvictional humor, I will admit. But what I perhaps admire most in them is their genial philosophy, and that truly well-understood democratic spirit which is the cause of the charming relations that exist between all the different classes of Scottish society, between masters and servants, for example. Let two Scotchmen meet in any part of the world, let them belong to ever such different stations of life as you like, they will immediately find a common society. Let them be Englishmen and they won't even speak to each other, because they were not introduced." The men who are to-day enriching deserving institutions in the world by their munificent benefactions, Andrew Carnegie, Lord Strathcona and Lord Maitland, all from the north. The Canadian High Commissioner has placed a splendid gift at the disposal of the directors of the Jubilee Hospital on the suggestion of H. D. Heinicke. There are still many deserving institutions here capable of doing better work with a more thorough equipment, and there are many millions in the world that should be applied to philanthropic purposes.

It is curious to observe the manner in which the "commercial instinct" dominates all other considerations in the United States. From a strictly impartial standpoint one would probably conclude that there is nothing very lovely in the character of the governments of either Russia or China, yet American papers on the Pacific Coast are constantly apologizing for certain Mongolian and Muscovite misdoings and pleading that the governments are more advanced than the governed. It is pointed out that the United States was the "only friend" of China during the recent invasion by the powers, and has long been one of the chief parties in an "ancient alliance" with Russia. Trade is at the bottom of it all. The result of the application of protectionist doctrines shows that our neighbors are not so "self-contained" as they once thought they were.

For people with the views of life and morality who usually find their way into corrective institutions, the Westminster goal was a house of entertainment. If its attractions had been advertised it would have been necessary to enlarge it in order to accommodate the stream of guests. For the sake of the good name of British Columbia it is almost a pity the presiding officer of the commission was not permitted to hold the investigation in secret. But publicity will insure reform. The present legislature is not likely to be too inquisitive upon the subject or too insistent upon reformation.

A Jersey mosquito had a dispute with an Indian cobra thirteen feet long in Central Park menagerie, New York. The insect bit the reptile on the top of the head. The snake may die unless the operation which has been performed to remove the poison proves successful. The United States wins every time. That snake is or was a British subject.

The Colonist argues that Mr. Dunsen has the support of a united Legislature. There never was a more divided public body, and only its divisions prove the existence of the government as at present constituted.

Sir Charles Tupper's estimate of the wheat yield of the Northwest promises to be realized during the lifetime of the prophet, if the ratio of increase since he was driven from office be kept up.

Turkey is gaining a reputation as the great national dead-end. The Sultan pays no bills unless they are presented on the bowsprits of men-of-war.

Walter S. Fraser & Co., Ltd. DEALERS IN HARDWARE. Iron, Steel, Pipe, Fittings, and Brass Goods. Building, Mining and Logging Supplies a Specialty. Lawn Mowers, Hose and Garden Tools. Telephone, 3 P. O. Box, 423. Wharf St. Victoria, B. C.

Navy League Complimented. London Officials Pleased With Business-Like Proceedings of Local Branch. Question of Celebrating "Trafalgar Day" in Victoria Discussed Last Night.

The British Columbia branch of the Navy League held their regular monthly meeting last evening, when business of a very gratifying nature was discussed. Among those present were Sir Henry Crease, president of the branch, Hon. Mr. Justice Martin, one of the vice-presidents, and Capt. Royds, A. B. Fraser, sr., Jos. Peinson, F. L. Neil and the honorary secretary, G. T. Devereaux.

A letter from the parent league in London was read which, after acknowledging the receipt of printed extracts from the Victoria Daily Times touching the public meeting held in this city on the 25th of June, and a copy of the by-laws of the branches, proceeds: "I will you permit me to say that I think you appear to be acting in an extremely businesslike manner, and if the branch goes on as it has begun, it certainly should do good work."

The school teachers of America do more for less pay than any other class of persons with equal intelligence that can be named. And the love, loyalty, patience and devotion shown in their work by many public school teachers is worthy of our highest esteem. And the teaching timber is continually improving. I know this.

RAILWAY SMASH. Number of Excursionists Injured in Collision Between Trains. (Associated Press.)

Pittsburg, Pa., Aug. 8.—Two sections of an Atlantic City excursion train collided near Confluence, Pa., 84 miles east of Pittsburg, about 11 o'clock this morning. A number of passengers are reported injured, several seriously.

WEATHER BULLETIN.
Daily Report Furnished by the Victoria
Meteorological Department.
Victoria, Aug. 8-5 a.m.—The barometer
is rising again on the coast and over the
southern part of the province, and the low
area in Cariboo and Kootenay has extended
across the Rockies into the Territories;
the indications are for a continuance of our
present fine weather. Light showers have
fallen in central Oregon and on San Fran-
cisco and Salt Lake City. The weather is
chiefly cloudy and cool on the American
coast. In the Northwest a thunderstorm is
reported from Medicine Hat, and showers
have fallen at Edmonton and Battle-
ford; the weather is fair and moderately
warm.

—SMOKE "CAPITAL" CIGARS,
MADE IN TWO SIZES.
—Arrivals from the Porcupine country
report that \$150,000 has been taken out
of that district within the last few
weeks.
—A beach fire near the new steps off
Dallas road in the afternoon, and a grass
fire at Beacon Hill were extinguished by
the fire department yesterday.

Forecast.
For 24 hours ending 3 p.m. Friday.
Victoria and vicinity—Moderate or fresh
westerly winds, mostly fair, not much
change in temperature.
Lower Mainland—Light or moderate
winds, fair, stationary or lower tempera-
ture.
Reports.
Victoria—Barometer, 30.05; temperature,
53; minimum, 52; wind, 4 miles W.; weather,
clear.
New Westminster—Barometer, 30.08; tempera-
ture, 52; minimum, 52; wind, 6 miles E.; weather,
clear.
Kamloops—Barometer, 30.88; temperature,
60; minimum, 60; wind, calm; weather,
clear.
San Francisco—Barometer, 30.98;
temperature, 54; minimum, 52; wind, 6 miles
W.; rain, trace; weather, cloudy.

—All the principal hotels and saloons in
British Columbia are now using Kola
Wine. Try it once and you will always
take it. Absolutely non-intoxicating.
The genuine has bunch of celery on green
background on label.
—Pan-American exposition, Buffalo,
N. Y., May to November. Ask Chicago,
Milwaukee & St. Paul railway about re-
duced rates. R. M. Boyd, commercial
agent, Seattle, Wash. C. J. Eddy, gen-
eral agent, Portland, Ore.
—In the city police court this morning
the case of a boy named Voss, charged
with the theft of potatoes from a Chinese
rancher, was dismissed. From the
evidence adduced it would appear that
the case was one of mistaken identity.
The lad was defended by Geo. Powell,
while C. O'Brien, of R. Cassidy's office,
prosecuted.

CITY NEWS IN BRIEF.
There was a big crowd at Oak Bay
last night when Bandmaster Finn gave
one of his popular musical programmes.
Many who had spent the afternoon in
picnicking at the beach remained over-
until the evening, and enjoyed the musical
entertainment provided by the band. To-night
the Fifth Regiment band plays at the
Dallas hotel.

—The time for the receipt of competi-
tive plans for the new High school will
expire by noon on Saturday next. The
question to consider then will be the
adjudication and award of the premium.
To undertake this delicate task a secret
committee has been made by the board.
There is no time limit in which the ad-
judication must be done, but it is pos-
sible that at the next regular meeting of
the school board, which will be held on
Wednesday, a report and recommenda-
tion will be submitted.

Opposition steamer "Rosalie" sails
for Seattle, daily, at 9 a. m. E.
Blackwood, Agent.

—The Ladies' Aid Society of the First
Presbyterian Church had a most enjoy-
able picnic at Oak Bay yesterday. The
ladies enjoyed themselves as only ladies
can. This has become an annual affair
with the ladies of First church.

—If you are going to the Pan-Ameri-
can, Buffalo, the Educational Associa-
tion Meeting, Detroit, Mich., or the So-
ciety of Christian Endeavor Meeting,
Cincinnati, Ohio, take the Northern Pacific
Railway. Call and get particulars.
Northern Pacific Ticket Office, Govern-
ment street.

—Yesterday a committee consisting of
Ald. Brydon Yates and Hall, in com-
pany with R. S. Day, visited the water-
works pumping station and other points
along the line to ascertain the cause of
the low water pressure in the high level.
The committee will probably report at
the next meeting of the council.

Have You Experienced
A tightness and drawing feeling of the
skin after shaving? If so, don't fall to use
Cream of Roses. It makes the face smooth
as velvet. A capital cream for sunburn
and freckles. 25c a bottle, at
FAWCETT & CO'S DRUG STORE,
40 Government Street.

—The death occurred at Seattle this
morning of Mrs. W. H. Scales, wife of
Judge Scales, of that place. Deceased
was the third daughter of L. Storey, this
city, and was well known in Victoria.
The remains will arrive from the Sound
by the steamer Majestic to-morrow af-
ternoon, and the funeral will take place
from the wharf at 3.30 p.m.

Next week will see the completion of
the largest bus on the Pacific Coast,
which is being built by Wm. J. Mable
& Co. for service in connection with the
Dominion hotel. The carriage will be
two feet longer than the big bus of the
Rainier Grand hotel, Seattle, and its
fitting will be of the best. The bus
certainly does credit to the Victoria
manufacturer. The building of a bus of
the size tells in a most forcible manner
of the recent increase in the business of
the Dominion hotel. In all probability
Mr. Jones will make the display of his
three buses, illustrating the various con-
tributions of the Dominion hotel, a feature
of the coming grand industrial parade to
be held on Labor Day.

—A delicious fruit made its appearance
on the market to-day, namely, the Logan
berry grown at Cedar Hill. It is a
hybrid, the vine bearing it being a
blackberry grafted with a raspberry. The
fruit is extremely large and tasty.
—Far West Lodge, K. of P., meets to-
morrow evening in regular session. All
members should be on hand as a pleasant
surprise for one of them is promised.

STORY CONTRADICTED.
No Truth in Report That Ames-Holden
Factory Will Be Removed.
A story half a column long and writ-
ten in a triumphant strain appears in the
Vancouver Province yesterday's date
telling of the proposed removal to that
city of the Ames-Holden company's busi-
ness and factory here. "Additional im-
portance attached to this announce-
ment" says the Province, "from the
fact that the industry in question is a
growing concern, operating on a large
scale and disbursing a liberal pay-roll."
The story is absolutely incorrect. In
the first place the branch business of the
Ames-Holden company here conducted is
an altogether different institution to the
factory which until a few years ago was
a part of it. The branch here although
supplying the company with its product
now, is under different management al-
together. Mr. McKeown, who is at present
in charge of the institution, lauded
when shown the article referred to,
and said that the idea of removing the
factory had never occurred to him. He
will continue to do business at the old
stand.
For the benefit of the Province it
might be stated that the headquarters
of the Ames-Holden company in British
Columbia is already in Vancouver.

STRATHCONA'S LETTER.
Text of His Offer to the Provincial
Royal Jubilee Hospital.

Victoria Transfer
Co., Ltd.
Incorporated by Special Act of Parliament,
1888.
10, 21, 23 BROUGHTON STREET, FOOT
OF BROAD.

The letter from Lord Strathcona ap-
prising President Helmcken of his gift
of \$5,000 to the hospital here, referred
to in another column, is as follows:
25 Grosvenor Square, W.,
24th July, 1901.
Dear Mr. Helmcken—Yesterday's mail
brought me your letter of the 5th inst.,
in which some interesting particulars are
given regarding your Victoria Jubilee hos-
pital, and the proposal of adding one or
two wards to the building.
Doubtless, as you suggest, the addition
of a wing as an adjunct to the hospital will
be the greatest benefit, as well for the ac-
commodation and treatment of patients as
for the training of nurses.
I understand you to say that such an ad-
dition would cost in the neighborhood of
\$1,000, and I have much pleasure in now
communicating with my manager in Mont-
real, Mr. Hurley, requesting him to send
you a cheque for \$5,000 (five thousand dol-
lars), which I trust may be fairly em-
ployed for the purpose.

While the gold is being assayed any
of the banks will issue advances to the
miner on the treasury certificate to the
amount of fifty per cent. There will be
little occasion for drawing on the banks
previous to the value of the gold being
determined, as the whole process of con-
verting the dust into gold form where it
will represent dollars and cents to the
miner will occupy but a few hours.
The marketing of the gold is a ques-
tion which the provincial government
will have to take up separately. If a
Dominion mint were already established
it is possible that the Ottawa govern-
ment would ask that the gold upon
which they had issued receipts should be
deposited in the Dominion mint.
Pending its establishment, however, the
marketing will be conducted on a purely
commercial basis, being sold to Phila-
delphia, San Francisco or whatever
point offers at the time the greatest in-
ducements. The market with this metal
fluctuates the same as with others.
The officials of the department, espe-
cially the provincial assayer, Mr. Car-
michael, are enthusiastic over the ar-
rangement, and express the opinion that
the only objection that can be raised is
that it was not adopted sooner, so that
generally would prefer to have the gold
in the past by the presence of an up-to-date
establishment where the miner could
part with his gold for a cash equivalent
in the space of a few hours.

BOYS' BRIGADE RETURNS
After Spending Enjoyable Summer Out-
ing at Langford Plains.

CHRISTIE'S
CAKES & BISCUITS
HAVE ARRIVED.
NEW GOODS.
A splendid assortment, including: Fig
Buns, Lemon Sandwiches, Arrowroot, Alex-
andra, Sultan Wafers, Cafe Noir, etc., etc.,
at prices which will induce ready sale.

—The remains of Cecil R. Richardson,
the infant son of Mr. and Mrs. Richard-
son, which were brought over from Van-
couver by the parents last night, were
held at rest last evening. The child was
eight months old. The religious services
were conducted by the Rev. Bishop
Cridge at the grave.

MUSIC IN THE PARK.
Programme to Be Rendered by Fifth
Regiment Band To-Morrow
Evening.
The Fifth Regiment band will give
another concert at Beacon Hill park
to-morrow evening, commencing at 8
o'clock. As usual Bandmaster Finn has
provided an attractive programme, and
no doubt there will be a large attend-
ance. The programme follows:

—Tenders are being called by C. W.
Crosby, assistant victualling store
officer at the naval yard, Esquimalt, for
supplying such quantities of fresh beef,
mutton, vegetables, bread, biscuit, tea,
sugar, flour, salt, preserved beef and
mutton as may be required for naval
purposes at Esquimalt, also for milk,
eggs and fowl for the naval hospital,
commencing on October 1st next for a
period of one year. Tenders will be re-
ceived up till noon, August 29th.

HEAVY TEAMING
Having greatly increased our stock of
heavy teams, trucks and wagons, we are
prepared to contract for hauling BRICKS,
LUMBER, GRAVEL, SAND, CEMENT, or
other material, at very low rates.

—The provincial police court yester-
day afternoon the magistrate finally dis-
posed of the charge of desertion pro-
duced against John Smith, a seaman of
the Largo Law, which has been pending
for some time. Smith was sentenced to
one month's imprisonment with hard
labor in addition to the two weeks in
which he has been under detention. The
objection of J. P. Walls, counsel for the
prisoner, that the deserting of Smith
constituted a breach of the contract and
gave the man the right to leave the ship
was overruled by the magistrate.

—The remains of Cecil R. Richardson,
the infant son of Mr. and Mrs. Richard-
son, which were brought over from Van-
couver by the parents last night, were
held at rest last evening. The child was
eight months old. The religious services
were conducted by the Rev. Bishop
Cridge at the grave.

—A delicious fruit made its appearance
on the market to-day, namely, the Logan
berry grown at Cedar Hill. It is a
hybrid, the vine bearing it being a
blackberry grafted with a raspberry. The
fruit is extremely large and tasty.
—Far West Lodge, K. of P., meets to-
morrow evening in regular session. All
members should be on hand as a pleasant
surprise for one of them is promised.

Questionable Methods

Joe Trochak, while in the tunnel at Estevan was injured by coal falling...

Hadwen, of the Dairy Association, Tells of Dent's Visit

Facts of Sellers—Two Loads of Pure Bred Stock

At a meeting of the Dairyman's Association held yesterday afternoon at the parliament buildings...

Some discussion arose over the conflict in dates between the two examinations...

The secretary submitted the following report: In accordance with the instructions...

There is throughout the upper country from Penitlon to Chilcoot a good demand for better stock...

At Vernon, I think, at least two cars of mixed stock could be sold; sheep should be loaded here...

Feed this year is very good on the range; in fact, I found demand for suckers...

In the absence of very definite information on the subject, it is a little difficult to form any kind of satisfactory estimate...

These figures, if rather crude, will give some idea as to the amount of business done...

In this connection I would like to draw your attention to a recent experiment made in Kansas...

Thirty-two steers at \$5.49 brought \$45.23. Seventy-four heifers at \$5.35 brought \$40.00.

The 18 poorest heifers at \$5.15 brought \$38.20 each. The average weight for the lot was 800 pounds each.

This experiment, as much in the line of the farmers of our lower country as that of the stockmen of the range...

It is particularly a lesson to all of us of the advantage of feeding stock from the beginning and selling it young...

It is a recognized fact that it costs less to put a pound of meat on a young pig or a young steer than on an older one...

While at Vernon I had the pleasure of meeting Colonel Dent and his staff. Mr. Anderson had kindly advised me of his visit...

Mr. Anderson was sufficiently established to furnish any assistance of value in this direction. A little system and organization was badly needed...

I think a more suitable class of horses and more of them to Col. Dent's notice.

I desire to note that those gentlemen had to meet on more than one occasion...

I may add that the war office, having laid down a certain standard of their requirements as to age, height, etc...

What is CASTORIA Castoria is for Infants and Children. Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups...

Mining News

Rosland Camp

The output of ore from the Rosland camp for the week ending on Saturday night would be ridiculous to contemplate if it were not painful...

That the entire tonnage of Rosland's great mines, properties that have made Canada known in the eyes of the world, should be represented by three figures...

The principal producer for the week was the Iron Mask whose output was eight cars averaging 20 tons each...

The working mines in the Rosland camp are the Green Mountain, Spitzee, Iron Mask, Velvet, I. X. L. and Big Four...

Green Mountain.—The work at the Green Mountain is principally confined to the double compartment shaft...

Spitzee.—Stopping has been under way all week at the Spitzee and a good quality of ore is being extracted...

Iron Mask.—The work at the Iron Mask has gone ahead most satisfactorily during the week...

Velvet.—Work is proceeding at the Velvet as usual.

Big Four.—Work on this property is progressing along the usual lines. Two shifts are at work on the No. 1 vein...

THOUSANDS OF INFANTS DIE ANNUALLY

who could be saved by the timely use of DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.

IT CURES Diarrhoea, Dysentery, Cramps, Cholera, Cholera Infantum, Cholera Morbus and all Summer Complaints.

Every mother, nurse and guardian should keep it. Every house should have it.

Get a bottle from your druggist. PRICE, 35c.

Provincial News

NANAIMO. Joe Treachuk, while engaged brushing in the tunnel at Estevan, yesterday, was injured by coal falling on him.

NELSON. Tony Leyden, who made his escape from the Nelson jail last week, is still at large.

VANCOUVER. The cost for lighting the city streets amounts to something over \$2,500 per month.

While Contractor James Young was working at the police station improvements on Tuesday morning, the floor gave way beneath his weight, and one leg protruded cellarwards.

When the warship Amphion was making her way across the Gulf she passed an overturned fishing boat with two men clinging to it.

Mrs. Churchill, wife of a fisherman employed at Steveston, died at her residence, Harris street, on Tuesday afternoon.

The death occurred on Tuesday evening of Mrs. Patrick, wife of Mr. George Patrick, of 711 Cambie street, after a lingering illness.

H. T. Ward, superintendent of the Ward Horseley Gold Mining Company, passed through the city on Tuesday, en route for San Francisco.

General Manager McNeill, of the C. P. R. Co., is to return to Montreal direct. It had been Mr. McNeill's intention to visit Victoria before leaving the coast.

Al Wooley has been arrested as implicated in the triple Chinese murder which took place at Ladner a few weeks ago.

The Harrison River, Timber & Trading Company's mill on the main line of the C. P. R. was turned down on Tuesday night. The loss is estimated at \$12,000.

CHINESE FLOUR. Throughout the Chinese industrial system a constant effort to "make work" will be noticed.

IT MEANS OSTRACISM. Foo! Breath and D'sgusting Discharges Due to Catarrh. Make Thousands of People Objects of Aversion.

CASTORIA For Infants and Children. Backache, swelling of feet and ankles, pulling under eyes, frequent thirst, watery, cloudy, highly colored urine and all urinary troubles lead to Bright's disease.

ATHLETES, BICYCLISTS and others should always keep CASTORIA on hand. Nothing like it for stiffness and soreness of the muscles, sprains, bruises, cuts, etc.

MODERN BERLIN.

The Number of Rich People is Exceedingly Small.

Berlin is essentially a modern city—modern in the practical American up-to-date sense of the term, but modern also in a sense which its enemies in other days loved to dwell upon as an evidence of its lack of distinction.

There is no excitement, no haste, and no rush. Everybody is on the alert, for they are modern Prussians all; everything—control of tickets, exodus of passengers, claiming of luggage, engaging of vehicles by means of motor cars, which is handed to a driver in strict rotation from a wire file by a uniformed official as he passes out of the station—all is done by rote and rule with the utmost clerical consistency with order—that is to say, in about half the time taken over the same job elsewhere in Europe.

Changes, so far-reaching as those which have taken place in the material conditions of life in the capital could not fail to have their effect on the habits and customs of a large section—though fortunately not upon the whole population.

Statistics from the department of taxes in the Berlin municipality show that of 530,000 persons paying taxes in Berlin over 200,000 only possess an income between 50 and 150 per annum.

The richest man in Berlin possesses his property at 1,450,000. The peculiar features of the wealth and prosperity of Berlin lie in the broad subdivision of small incomes, upon which people manage to live respectably.

THE BELGIANS are extremely careful of their historic souvenirs. In the front of a house situated in the Faubourg de Ste. Anne, in Brussels, there is to be seen, half-buried in plaster, a cannon ball which was fired from a Dutch cannon some time during the revolution of 1830.

TO MAKE MONEY it is necessary to have a clear, bright brain, a cool head and strong nerves. Milburn's Hair and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

Open a Bottle of that best of beverages—Saint Louis A.B.C. BOHEMIAN "King of all Bottled Beers." You will find it a delightful table beer—light, sparkling, appetizing. The ideal tonic—rich in true hop flavor.

D. & A. Corsets. Feel Fine. Fit Fine. Straight front and are recommended by discriminating users. Ladies' tailors are particularly pleased with the results obtained by the use of these Corsets. Price \$1.00 to \$2.00 pair.
