Ward's Error Gave Giants Chance to Win To-day's Game

With Two Out Yankees' Second Baseman Fumbled Rawlings' Drive and Snyder Chased Johnny Home With Double; Douglas Again Gets Verdict Over Mays; Score 2-1.

Polo Grounds, New York, Oct. 12.—An error decided to-day's game. With two down in the seventh inning Rawlings hit a fast grounder to Ward, the Yankees' second baseman. Ward fumbled the ball. Rawlings was safe at first. Now greet the hero, Snyder, the Giants' catcher. With the score tied at one all, the big backstop hit a screaming double to left and Rawlings by fast running legged it to the plate with the winning run. The score was 2-1.

That's how to-day's game, the seventh of the world's series, was decided. Two To One. Carl Mays, the Yankees' best card, tried to turn the Giants back to-day. For the third time he was opposed by "Shuffling" Phil Douglas. In their first meeting Mays was returned the victor but on Sunday and to-day the big Tennessee boy shuffled off the field with the game in his pocket.

The victory gave the Giants the lead in the series for the first time. The count now stands Giants 4, Yankees 3.

To-morrow the Giants can win the series. The Yankees will make a big bid and will turn their youthful Wally Hoge over to the Giants. Hoge has stopped them twice and he may make history by winning his third game to-morrow.

TO AVOID BREACHES OF IRISH TRUCE

Britishers and Sinn Feiners Consider Situation Delegates Wish to Remove Cause of Irritation

Conference Is to Be Resumed To-morrow

London, Oct. 12.—The British and Sinn Fein delegates, pending a resumption of the Irish conference to-morrow, were to-day considering alleged breaches of the truce in Ireland and endeavoring to devise means by which they might be avoided. The negotiations looking to a settlement of the future of Ireland.

This was the first difficulty faced by the conference, the assumption by the Daily Eireann of the functions of government in Ireland having caused much irritation here. Actual outbreaks of conflicts with the Crown forces are regarded as less serious than the virtual ousting of the British authorities by the Sinn Fein courts and police, as the Crown forces cannot, without breaking the truce, take active measures against this policy on the part of the Sinn Fein.

Under the terms of the truce the Crown forces must not carry arms, which the Government says the Sinn Feiners do. Eamon J. Duggan, who acted as chief liaison officer in Ireland, is acting for the Sinn Fein in this matter. Mr. W. Cope, assistant Under-Secretary for Ireland, who originally signed the truce, has come to London from Dublin to advise the Government representatives.

The Sinn Fein which has carried out religiously its agreements regarding publication of proceedings in the conference, complained this morning that the Sinn Fein had been leaking on the Government side and said this was another matter which they would demand remedied.

Minister Comments on National Lines' Figures Improvement Indicated by Results Reported

Grand Trunk Had Surplus in August

Ottawa, Oct. 12.—Commenting on the statement made by D. B. Hanna, president of the Canadian National Railways, that the lines would show a surplus for August, Hon. J. A. Stewart, Minister of Railways and Canals, said: "The financial position of the Canadian National Railways, as announced by Mr. Hanna, bears out the view held by the Government that a decided improvement in revenue would be shown during the last four months of the year. It means that a deficit for August, 1920, amounting to \$4,000,000, is transferred into a surplus of \$47,231 for August, 1921. The gross earnings for August, 1921, were \$10,556,461, as compared with \$6,594,227 for August, 1920, an increase of \$4,000,000. The working expenses for August last were \$10,489,230, as compared with \$14,967,237 for August, 1920, indicating a reduction of about \$4,900,000 in operating expenses."

American Delegates Making Preparations For Big Conference

Four Men Who Will Speak For United States at Disarmament Gathering Hold First Meeting; Delegates From Australasia.

Washington, Oct. 12.—A month of careful preparation for the American Government's part in the conference on limitation of armaments began to-day with the first meeting here of the four delegates selected by President Harding to speak for the United States. Diplomatic, military and naval data of a specific nature already had been compiled for the guidance of the delegation, but the real task of fitting the whole mass of information together and building upon it a constructive programme remained to be done by the delegates themselves.

Some hint of President Harding's hopes for the conference were given as the delegates were assembling by publication of a letter the President had written in reply to a prayer that he worst for universal disarmament. Absolute disarmament, Mr. Harding wrote, was "beyond hope of realization," and perhaps, not very desirable, but "a reasonable limitation of armaments was a practical proposition with some hope of accomplishment."

Lloyd George Makes Report to Cabinet

London, Oct. 12.—Emigration and overseas settlement within the Empire are said to be one of the proposals being considered by the Government for relief of the present unemployment. This probably would involve Government grants to assist emigrants, it was said in authoritative circles here to-day. Consultations with the Dominion Governments, however, would be necessary before it could be known how the plan would work out, it was explained.

Man Returns to Coast With Good Report

Japanese Firms Have Placed Large Orders

Vancouver, Oct. 12.—An optimistic report for the future of the lumber export trade of British Columbia to Japan was made yesterday by Colonel W. R. Dockrill on his return from a five months' visit to Japan and China. "Business conditions in Japan are good at present," he said. "A big building programme is being made and carried out. This, in view of the fact that Japan's forests are rapidly becoming denuded, means that there will be a big demand for lumber from British Columbia."

While he was in the Orient Colonel Dockrill placed several large orders for lumber with Japanese contracting firms.

### MEIGHEN SPOKE IN MONCTON, N. B.

#### Continued Campaign in Maritime Provinces

Moncton, N.B., Oct. 11.—Premier Meighen addressed two meetings here to-night. He assured his audiences that the amalgamation of the Grand Trunk with the Canadian National system would warrant making the city of Moncton the centre of a grand division. This would be done, he said, that the board of management of the Canadian National Railways had decided that the Intercolonial Railway in itself was not of sufficient size or importance to constitute a grand division, but combined with the Grand Trunk eastern lines it would be. He declared the Canadian National system must never be permitted to fall under political control. It must not become a political football. Return the National Railways to the sphere of politics, and the whole system would be headed for bankruptcy.

**Tariff.** He insisted that a protective tariff was vital to this country, to her farming as well as to her industrial interests.

"I am going to ask the Eastern farmers to support the policy of the Government," he added, "and unless they do it they won't elect me in Portage la Prairie, but there are worse things than being defeated."

Earlier in the day Premier Meighen addressed meetings in Kingston, P.E.I. and Summerside, P.E.I.

### AUSTRALIA NEEDS MORE SETTLERS

#### So Says Premier Hughes; Greater Production

London, Oct. 12.—(Canadian Press Cable).—According to the Reuters Melbourne correspondent, Premier Hughes of Australia had a splendid reception when he spoke in Bendigo, State of Victoria. He declared that the only way to save Australia was to increase production and add.

"We must bring people to Australia to develop and hold our great and glorious states," he said. The Victoria State Treasurer, Hon. W. B. Macpherson, said United States financiers had communicated with the Victoria Government with the object of doing business. His arrangements with British financial houses were certain to be carried out.

London, Oct. 12.—(Canadian Press Cable).—A Reuters dispatch from Sydney, Australia, says the Japanese consul-general, Suzuki, in the course of an interview yesterday stated that Japan would never consider sending Japanese to Australia if they were not wanted there. His mission to Australia, he said, was to improve the commercial ties and help to cement the mutual friendly relations between the two countries.

### CHEAPER WHEAT.

Montreal, Oct. 12.—According to opinion of prominent grain officials, wheat prices are about due for another drop, and he is convinced that "dollar wheat" is not far off. "The depression is akin to that in evidence in every industrial field," he said. "There is no demand. European conditions are in such a confused state of uncertainty that the grain markets are deplorable for the time being. For the past fortnight there has been a great falling off in orders, and the export trade is not nearly so brisk as it should be. Russia appears to be responsible for a great deal of uneasiness in Europe, with the inevitable result that orders are few and far between."

### LABOR LEADERS PLAN CONFERENCE

London, Oct. 12.—Affiliated transport workers, railroad employees, miners and metal workers have been called to meet in a conference November 11, the date of the opening of the Washington conference on limitation of armaments, according to a decision of the International Federation of Trades Unions of Great Britain. Robert Williams, secretary of the Transport Workers' Union, informed The Daily Herald, Labor, that the conference would call on the peoples of America and Europe to "wage war against capitalism in the only effectual way."

### SINN FEIN "COURT" SITS IN DUBLIN

Dublin, Oct. 11.—The "Republican" district court to-day, for the first time, held public sessions in Dublin. Five young men presided, and solicitors in the High Court of Justice of Ireland, who also plead in the ordinary courts, attended the sessions. Many cases were heard, including several brought by the public health authorities for milk adulterations. One of the defendants was advised not to appear in court again. The judge warned him that the district in which he sold milk contained hundreds of children, and that it was the duty of the public to protect its future citizens.

The responsible staff of the store was purloined by the Board following discovery of a shortage in stocks some time ago. Mr. Castleman claims that he was not formally dismissed from his post but that he tendered his resignation regularly and is "entitled to the amount of salary claimed."

### DECLARES TRADE IS IMPROVING

#### Bank of Nova Scotia General Manager Optimistic

Vancouver, Oct. 12.—"It is my opinion that we are around the turn and on the up-road to better trade and commerce conditions," said H. A. Richardson, general manager of the Bank of Nova Scotia, who is in this city on a business trip. "We have been very careless in the past and spent money recklessly and we can not expect but we shall pay for our thoughtlessness," said Mr. Richardson, "but 1922 should witness an improvement in conditions. Even this winter may exhibit a marked change, but this can only take place if the grain crops are marketed and the money is allowed to come back to the natural channels, where it can again be turned around for more business."

### CALGARY MAN WAS DROWNED IN LAKE

#### W. A. Stevens Went Swimming and Lost Life

Calgary, Oct. 12.—That W. A. Stevens, a prominent grain buyer, who disappeared last Friday, and has not been seen since, was drowned in Chestermere Lake during a plunge there is evident from the fact that his automobile, containing his clothes, was found last night by police on the edge of the lake. Stevens, who during his trips into the country was accustomed to taking plunges in this lake, evidently was seized with cramps. The lake will be dragged to-day.

### PAPER THAN NEEDED

#### Condition of Eastern Canadian Pulp Mills

Vancouver, Oct. 12.—"Pulp stocks are low in the east and there has been a turn for the better," said W. D. Ross, a prominent financier of Toronto and a member of the directorate board of the Whalen Pulp & Paper Company of this city. Mr. Ross arrived in the city last evening from the east to attend the annual meeting of the Whalen Pulp and Paper Company here to-day. "Pulp and paper companies in Eastern Canada have had a hard uphill fight recently to keep their feet," said Mr. Ross, "but it was caused by the tremendous inflation of prices for pulp for a season and a demand that could not be supplied, which created any revenue from their expenditures. The result is that to-day there are many large well-equipped mills all through the east that are capable of taking care of five times the volume of to-day's demand."

### FLOWERS SENT TO KING AND HARDING

Toronto, Oct. 12.—The Florists' Telegraph Delivery Association of the United States and Canada began its convention yesterday by ordering by wire the delivery of baskets of flowers to King George, President Harding and Lord Byn, Governor-General of Canada. This was done not only as a mark of respect but as an example of the members' own business system.

### NOT AFFILIATING.

Vancouver, Oct. 12.—Affiliation of the three large returned soldier bodies of this city under one roof was killed for the present at a general meeting of the G. W. V. A. last night. Debate on the amalgamation question will not be resumed until the delegates return from the Dominion convention of the G. W. V. A. The plans for affiliation under one roof, it was considered, called for too much sacrifice on the part of the G. W. V. A.

### WILL TAKE VOTE ON CHURCH UNION

#### Lambeth Appeal Discussed by Canadian Anglican Synod

Hamilton, Ont., Oct. 11.—Following the conclusion of another series of addresses on the union question at to-night's session, the feeling among the delegates to the Lower House of the General Synod of the Church of England in Canada, indicated that acceptance by that body of the Lambeth appeal as a basis for negotiations looking towards reunion with other communions is practically certain. That does not mean that the Synod is willing to commit itself to union, it being quite evident that the members themselves are not agreed as to the concessions the Anglican Church can make to other bodies.

The present attitude of the delegates is one which says: "In supporting the Lambeth pronouncement, we are not signing any contract. We are merely indicating our willingness to open negotiations on a basis it suggests." It is generally expected that a vote on the closing of the Bishop's message accepting the Lambeth Conference will be reached to-morrow. Postponement of consideration by the Synod of industrial problems was one of the features of the action taken by the joint houses on the report of the Social Service Council of the Church of England.

Rev. G. C. Pidgeon, D.D., pastor of Bloor Street Presbyterian Church, Toronto, presented the report of the Social Service Council of Canada. Dr. Pidgeon pointed out that the work of the future was positive rather than negative. It was examining vital statistics of all the Provinces to ascertain birth and infant death rates. The Council was bringing to the attention of the authorities the needs and value of public health work.

Divorce statistics were being compiled and moving pictures scrutinized. With regard to women's courts, statistics were also being collected, the work of the Council along these lines being stated to be most helpful to Governments in getting a proper perspective and lining up policy.

In spite of the plea by Dr. Lane Lewis, of Montreal, for recognition on the part of the church that there was a considerable section of public opinion which desired an extension of the grounds for divorce, the Synod upheld the protest of the Council against any extension of the present grounds for divorce. The resolution ultimately endorsed on the motion of the Bishop of Quebec and seconded by the Bishop of Huron, called attention to the fact that no Church of England clergyman should solemnize marriage between two divorced persons, and protested against "any extension of the present divorce grounds for divorce in any contemplated legislation on the subject."

## CLEVER CHILD.

The weary-looking class made a desperate effort to pull itself together.

"Put a little originality into your answers!" grumbled the teacher. "Now, what bird is it that builds its nest on the ground?"

"The chicken, sir," ventured one lad, hopefully.

With a despondent air the teacher asked another.

"What is it that a bird can do that I am unable to do? Now, come on, boys," he urged, "that's easy enough."

PRINCESS

"The Sultan's Daughter," with a most effective setting and in fact everything requisite for success, will open to-night at the Princess. The comedy is without doubt excellent and the plot is one of rare charm and romance.

Miss Page will be seen in the leading role, and some charming musical numbers. Miss Dooley and Mr. Jaxon will also be seen in some splendid numbers, and the special feature of the evening will be little Rita Bauer, who has been especially engaged for this week's production. This little lady will have a reception on the stage at the Saturday matinee, and the little folks are cordially invited to meet her. Also the bean-guessing contest should prove another great attraction for the children, as the prize has grown to \$55. Send your guesses early and try your luck.

COLUMBIA

"A dream come true," is what her role in "What's a Wife Worth?" a Robertson-Cole production, directed by William Christy Cabanne, meant to Ruth Renick, who will be seen in the leading feminine part when this photodrama plays at the Columbia Theatre for the last time to-day.

VARIETY

When Ellis Island disgorges its hundreds of emigrants at the Battery entrance to New York City, there is always a crowd of never-jaded New Yorkers curiously watching the foreign, fantastically garbed people from strange lands. In "The Great East Love," the variety to-day and all week, the audience has an opportunity to see not only this picturesque scene, but is also given generous glimpses of the surroundings of the emigrants on board ship, whiling away the time with song and dance. These pictures were taken on board one of the large transatlantic liners, and the emigrants, who are seen, stolidly watching the camera man take the necessary shots, act so naturally simply because they are not acting at all with the exception of course of the two little players, Bobbie Connelly and Dot Williams. Vera Gordon, the noted portrayer of "mother" in "Humoresque," has the starring role in "The Greatest Love," which was made under the direction of Henry Kolke. Other prominent players in the cast are Hugh Huntley, Sally Crute, Donald Hall, Bertam Marburgh, Impett and Marshall.

CAPITOL

Thomas Meighan's third Paramount starring vehicle "The Easy Road," is a picture under the direction of Tom Forman of Blair Hall's short story, "Easy Street." It will be shown at the Capitol Theatre all week.

At the de-luxe shows Senor Dori will sing the delightful aria Celeste, one of his most successful grand opera numbers. Also appearing is Mrs. D'Oyly Rochford, an artist whose numbers are being received nightly with great applause, and her audiences never seem to tire of her.

ROYAL VICTORIA

When "Wedding Bells," Constance Talmadge's latest starring vehicle through Associated First National Pictures, Inc., is flashed on the screen to-day at the Royal Victoria Theatre, local motion picture fans will have the opportunity of seeing in Constance in a picture which is one of the happiest combinations of story, star, cast, and direction which it has been their pleasure to see in a long while.

DOMINION

That people can be judged by their homes, whether it be a many-roomed mansion with a dozen baths or a two by four, sky-light room in a shabby boarding house, is an accepted fact. Something of the personality of the inhabitants will pervade the place. Perhaps that is what makes the

## Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts, Loverna, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39.

"Then I read about people being restored by Dr. Chase's Medicines and, after three months' use of Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

LET HIM GO.
It is natural that an appropriate amount of concern should be manifested in connection with the forthcoming visit of the Prince of Wales to India; but it would be a melancholy confession on the part of the British Government and a genuine disappointment to the great bulk of the Indian people if the events in a number of troubled sections of the country should be permitted to interfere with the plans already made.

delegation to demand nothing short of a "clean cut separation of Ireland from the British Empire." This is obviously ridiculous. De Valera and his followers are under no delusion. They know that the moment they repeat the old demand the negotiations will come to an immediate termination.

NOTE AND COMMENT
At the forthcoming convention of the British Columbia Prohibition Association speakers from the United States will describe how the "dry" law has operated in the Republic. Judging from newspaper reports the true story by those in the know ought to be a revelation.

THE "BRITISH INDUSTRY."
If the Dominion Government has not made representations to the Motherland with a view to obtaining the inclusion of British Columbian and Atlantic ports in the itinerary of the "British Industry" it should do so without delay. Just why it should be necessary to remind the authorities on the other side of the Atlantic that Canada is really interested in the development of trade within the Empire we do not quite understand; but the fact that this country will not be touched by the floating exhibition of British-made goods if the present arrangements are adhered to is the reason why an effort should be made to correct what surely is an oversight on somebody's part.

Pursue this configuration it is believed to be easy to antagonize those who are in positions of authority, and for that reason employees should be careful.
Disappointment is indicated for those who depend on political or financial supporters, since men and women who exercise power are likely to be exceedingly fickle while this rule of the stars prevails.
Mars is in a place supposed to foment quarrels and to disturb the temper. There is added danger of domestic difficulties under this direction of the stars.
There is a sign read for forecasting troubles for organizations composed of soldiers. Their effort toward political dominance will not succeed.

POLITICS
QUEBEC
Protection, but No Tariff Dogma.
Get Rid of Railways.
Suspicious of Meighen Love-Making.
Quebec?
What is its view point in the present campaign?
What that Province considers the issues and its attitude towards them is indicated in recent speeches by French-Canadian political leaders.
A column of translated excerpts to-day.

The Hon. Rodolphe Lemieux:—
I do not fear to say that Canada should have taken part in the war according to her resources, for the cause of liberty, justice and civilization was at stake, but there was no reason why profiteers, some adventurers, should have been permitted to make colossal fortunes.

There is a cry to-day that both the old parties are bad, that they are the same, and there should be something else, some farmers who would stand for purity, and reform and independence.
The Farmers' party was formed because of conscription, when the farmers found that the Government wanted their sons for the army after promises to the contrary.

Tariff is not a dogma.
I am against industries which after 40 years still classes themselves as infant industries, for surely, they should get into long pants.
No one can say to-day that Canada should throw its doors wide open to American goods so as to please the American Congress, and thereby put our workmen on the streets, but it has been an old trick of the Tories to raise the free trade cry against the Liberals.

Joseph Archambault:—
The new Government, which will be Liberal, should appoint a committee of experts to decide what should be the fate of the National railways, with the purpose of getting the country rid of these roads.
I am not prepared to pronounce on the Shaughnessy plan for the time being, but the committee should study that proposal seriously.
The first aim of the committee, however, should be to rid the country of the railways which have brought about such a serious financial condition.

There are only two points which Mr. Meighen has raised. One is the tariff and the other is his love for the Province of Quebec.
Liberals believe that there should be a tariff for revenue. But the tariff should not be such as would create monopolies.
We do not want a system of protection that will permit the Dominion Textile Company to make 310 per cent, as the president of the committee declared his company had made. We do not want the Monarch Knitting Company to make 43 per cent. In the United States the Ford car is sold for \$360. In Canada, the price is \$500, I believe, the amount of the tariff being added on as extra profit, for a profit is made in the United States on the \$360 price.
It is less patriotic to buy the machine in Canada than in the United States, and it is the same in other things, for when the goods are imported, the Government gets the amount of the tariff instead of the manufacturer here getting it.
This the Liberals wish to prevent.

I do not believe in Mr. Meighen's love for Quebec and his new campaign of love-making.
Quebec has not changed, but is the same old Province.
Has the Government changed? I do not think so.
It is simply that a new party has arisen in the West and the Government finds itself in need of other support.
Consequently, the Government has put some sand in the fires of hate. But when necessary to raise hatred against the French-Canadians again it will

bo seen that the same people will throw more coal into the furnace of hatred and stir up the fires.
Quebec will be the moderate influence for the good of Canada between two extremes, and bring about a policy of moderation.
Fernand Rinfret:—
The block of Quebec is not a block for revenge, but constitutes one of the best guarantees for defeat of Mr. Meighen, and against radicalism from no matter what direction it comes.
L'Action Catholique: The province of Quebec to-day more than ever holds the fate of the minorities in its hands.
Will the Province be equal to the size of its task?
The answer depends not so much on the elections as upon the conduct of the leaders once the campaign is ended.

to retire at the end of his term in Parliament has been reconsidered at the request of many who are anxious to retain his services at Ottawa during the next few years, when many matters relating to the development of irrigation in Southern Alberta will be to the fore, arising out of the recent decision of the International Joint Commission on the St. Mary and Milk River waters.
A. J. McLean, formerly Minister of Public Works in the Provincial Government, has announced that he will not be a candidate for the Liberal nomination here to-morrow, nor will he be a candidate for any party in any constituency in the coming election.
Alberta Farmers.
Edmonton, Oct. 12.—In an interview here yesterday, H. W. Wood, president of the United Farmers of Alberta, predicted that the Progressive Party would win at least seven of the twelve Federal seats in Alberta. It was a little early to try to size up the situation in Edmonton and Calgary, said Mr. Wood, "but it seems to me that Victoria, Lethbridge, Macleod, Medicine Hat, Battle River, Red Deer and Bow River can all be classed as certainities."
"Both Calgary and Edmonton have strong urban votes, and it will take some little time before one may attempt to forecast the outcome with any degree of accuracy," Mr. Wood concluded.

Considering Situation.
Walkerton, Ont., Oct. 12.—South Bruce Liberal Conservatives yesterday tendered the Federal nomination to John Purvis, of Holywood. Mr. Purvis considered that a candidate was entitled to definite assurance as to his chances in a contest, and doubted if the riding had been canvassed thoroughly enough to ascertain the real situation. The convention agreed that he should have a week to consider the matter.
Halifax.
Halifax, Oct. 12.—Hector McInnes, barrister, and J. W. Doyle, manufacturer, both of Halifax, were nominated by the Liberal Conservatives last night for the two seats in Halifax.
South Oxford.
Ingersoll, Ont., Oct. 12.—Donald Sutherland was unanimously chosen yesterday to represent the Liberal Conservatives of the riding of South Oxford.
Supports Meighen.
Gloucester, N. S., Oct. 12.—The Gloucester Gazette, for twenty years a supporter of the Liberal Party both in the Federal and Provincial fields, announces that it will support the Meighen party in the present campaign. The Gazette takes the view that protection is the only policy that can safely be adopted as regards coal and steel, and it would therefore be inconsistent to argue to take any other attitude with reference to Canadian industry as a whole.

Gloucester, Mass., Oct. 12.—Postponement until to-morrow of the fishermen's race to determine the vessel to defend the international trophy against a Canadian challenger was necessitated by heavy fog and lack of wind.
AMERICAN TARIFF REGULATIONS ARE DECLARED FAULTY
London, Oct. 12.—Opposition to clauses of the Fordney Tariff Act providing for American valuation of imports was announced by the American Chamber of Commerce here to-day after careful consideration of the measure.
The Chamber claims that under these clauses it would be difficult for American importers to ascertain the complete cost of their foreign purchase until received in the United States.
"Bone Dry" Order for New Brunswick IS TO BE MADE
St. John, N. B., Oct. 12.—The only remaining step necessary to prohibit importation of liquor into New Brunswick is the promulgation of an Order-in-Council to that effect by the Governor-General. This Order may be made at any time after the returns are forwarded to Ottawa and must be made within three months. The returns will be declared officially next Tuesday.

DISPEPSIA IS Man's Nemesis
Stuart's Dyspepsia Tablets Have Turned Many a Grouch into a Regular Good Fellow Again.
—Try Them.
Indigestion makes people feel homesick, despondent and blue all over. It is only temporary, 'tis true, but while it lasts it's awful. Wise people keep a box of Stuart's Dyspepsia Tablets handy to prevent these attacks or relieve them when they come. And such people eat what they like—pie, cheese, sausage, griddle cakes, pork and beans and other such supposedly indigestible—without suffering from the acid, sour, belching, gassy stomach due to dyspepsia. These tablets give the alkaline effect to thus sweeten the stomach and make it comfortable. Try them if you are subject to indigestion. You will find them on sale at all drug stores at 60 cents a box.

**FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT**

**THE DISCARDED URN.**

"There is no use trying to hold the house any longer," said Mrs. Mason, as she bent over her sewing. "I will not take you out of school and my work will not support us and pay the interest."  
Mary's brown eyes filled with tears as she looked at her mother's pale face, for she knew it was for her she had scribbled so hard since her father died trying to keep the old home, which had been in the family so long as well as give her an education.

"And now it looked as if it really must go, for the interests on the mortgage was due, and there was no money to pay it."  
"You better go down to the real estate office and tell them to put it on the list of houses for sale," said Mrs. Mason, "and then we better fix things up a little, for people will be coming to look over the house, and it was being a good price if we make the rooms look attractive."

"Let me fix up the dining-room, mother, before I go," said Mary, "the other rooms look very well, and the man at the office may want to come right away to see about the size of the rooms."  
"I will clean the silver first. That will make the sideboard look very much better, and I wish you would let me bring down that big silver urn from the attic, mother. It looks like silver, even if it is plated."

Mrs. Mason's lips tightened for a second. "If my Great-Aunt Martha had done by me as she did by the other, I should not have to sell this house," she said.

"She left me an old plated silver urn, and the others \$2,000 piece, but I don't mind having it around now, you see, mother, dear. You will find it pretty black, for I put it in the attic as soon as I saw what it was, and have never looked at it since."

Mary remembered well her mother's disappointment when the urn was given to her, though she was a very little girl. She remembered, too, the very old lady who wore a cap, with tiny curls hanging over her ears, and who sometimes went to visit with her mother, and who always gave her peppermint lozenges.

But though Mary's heart was sad as she saw the discolored silver, she knew that her mother might not know she was grieved at giving up her old home, so she said to herself, "I will try to make it look as good as new."

But all at once Mrs. Mason heard a scream and dropped her work. She ran to the kitchen to find Mary with trembling hands and white face opening pieces of soft brown paper from which fell gold pieces and bank notes.

But Mary did not stop to pick them up. As fast as she opened one little bundle she would reach into the old urn and bring out more, until the floor of the kitchen looked as if some fairy had sprinkled it with money.

Not until the last brown paper was unwrapped did Mary or her mother speak, then Mrs. Mason said, "Great Aunt was always queer, I suppose she thought I would open this the first thing I did and find the money. She always seemed to like me best of all her nieces, and that was the reason I was so put out when she left me only a plated urn. I thought the brown paper just happened to be tucked in there, and I did not even pull it out."

When the money was counted they found it amounted to more than the Great Aunt had left to the other nieces, so the mortgage was paid off and a new egg put aside for a sunny day, as Mary expressed it.

"For mother there is to be no rainy day for us now. We have the dear old home safe," said Mary, "and we will remember that even a plated silver urn had a gold lining."

W. C. T. U. Pound Party.—The committee in charge of the arrangements for the annual Pound Party of the W. C. T. U. Home were somewhat disappointed at the limited response made to their appeal yesterday afternoon. Although many old and loyal friends came to the help of the organization, the public did not respond with their customary generosity. Groceries and other articles to the value of about \$100 were received, together with cash donations amounting to \$36. Tea was served by the president, Mrs. David Spencer, assisted by Mesdames Bursholder, Wm. Grant, Harvey, Gees, Gill and Hodgson.

**EXPERTS CONFERRED ON MATTERS OF CHILD WELFARE**

**LARGE GATHERING AT KUMTUKS DANCE**

**Business Women Hostesses at Delightful Affair Last Evening**

**First Annual Meeting of Canadian National Council**

Social workers and child welfare experts numbering several hundreds gathered in Montreal recently for the first annual meeting of the Canadian National Council of Child Welfare. The mental, moral, physical and spiritual welfare of the child was considered from every aspect. One of the most interesting contributions to the deliberations was made by the Trud and Abbott delegate who warned all child welfare workers of the need to guard the child in industry. What mattered pre-natal care, baby's health, and the inspection, if once the child went to work he was not looked after more carefully than ever. For all the good work done to this time could be injured by carelessness then.

Delinquent Girls. Miss Brookings' discussion of delinquent girls was enthusiastically applauded. "We must change our attitude to the delinquent girl," said Miss Brookings. "We must punish the offence, not the offenders. We must remove the defects. It would be just as foolish to punish adenoids. The delinquent child is not the offender, but the offended against!"

Equal Protection. Miss Brookings pictured her work as "not reforming but forming." It was an old idea that the delinquent child was different. But her teaching experience had taught her girls were exactly the same. All had to be guarded in the dangerous "teen" when instincts and moods were so apt to be unbalanced. Delinquents above all the creatures of impulse.

Most excellent was the paper of Judge Ethel Maclean of Regina, who stressed the fact: "It is far harder to deal with the problem of the delinquent girl than that of the delinquent boy, because few women can be found to help her."

in Rural Districts. Prof. A. MacLaren's talk on "Recreation in the Rural School Community" revealed need for a revolution in the rural districts. A sign of the times, the professor stated that in 1918 over half the school sections in Ontario had less than 15 children, five had but 1, forty-nine but 4, and fifty but 5.

Rev. Hugh Dobson of Regina, in speaking on "The Education of the new Canadian," warned his hearers of the vital necessity for such least they be swamped. For Canada's rapidly of the rise of foreign influx was four times as great as any time in the history of the United States.

Work of Grey Nuns. A picturesque figure of the final day's session was Soeur St. Gabriel, head of the huge orphanage, established in 1754. Referring to the high child mortality of Montreal, Soeur St. Gabriel declared that seventy-five per cent. of the infant mortality rate came from premature births. Children were nursed along, but to die suddenly on the slightest shock at two or three months. Efforts to supply the maternal care were instanced in the work whereby the child's intelligence was aroused by personal contact, such as caresses and talk that tactically every speaker at the conference stressed the need for further care of the mentally deficient. A resolution brought up by Mrs. Adams in charge of the centre should have a special officer to care for such and to work in conjunction with the superintendent of neglected children, was unanimously adopted.

**CHORAL SOCIETY SELECTS OFFICERS**

The first practice of the revived Victoria Choral Society, and the election of officers for the season took place last evening at the Veterans of France hall. Over fifty were present and an atmosphere of enthusiasm prevailed throughout the evening. The hon. presidents are: Lieut. Governor Walter C. Nichol, Gordon Hicks, Douglas Mather, Edward Parsons and J. G. Brown; president, Maurice Thomas; first vice-president, J. O. Welch; secretary, Mrs. J. O. Welch; treasurer, Mrs. Haddon; librarian, G. H. Williamson; and the executive, Mrs. Borteliev, Mrs. Shrimpton, H. O. Hughes, H. Washington, Robert Young, pianist, H. B. Bucker, pianist, Dr. Isabelle Collier. Tuesday was the evening of the week selected for future practices.

**I.O.D.E. CHAPTER GIVES PRACTICAL SUPPORT TO MANY CAUSES**

In the absence of the regent, Mrs. McPhillips, the first vice-regent Mrs. Willis Dean, presided at the regular monthly meeting of the Lady Douglas Chapter, I. O. D. E., yesterday afternoon. At the commencement of the meeting the Chapter passed standing votes of sympathy to Mrs. Fisherbert Bullen and Mrs. M. P. Gordon in their recent sad bereavements.

The business of the afternoon included the passing of donations to various causes in which the Chapter is interested, including \$200 to the I. O. D. E. War Memorial scheme, \$100 towards the secondary education of the children of fallen or disabled soldiers, and \$25 towards the expenses of the hospital ball.

The Chapter decided to make laurel wreaths to lay on the graves of soldiers in Ross Bay Cemetery on Armistice Day, the wreaths to be fashioned at the Chapter's next regular meeting on November 8. Mrs. Willis Dean, Mrs. J. S. Hercher and Miss Gill were appointed a committee to make the preliminary arrangements for the Chapter's annual observance of the anniversary of the first Legislative Assembly of British Columbia.

Dramatic Club.—The fortnightly meeting of the Victoria Dramatic and Operatic Society will be held at the Little Theatre this evening, at 8.15 o'clock. Those responsible for the musical and dramatic programme are Mrs. McMicking, Mrs. A. Clark, Miss Morton and Mr. Bay Castle. Among other items on the programme are the Elite three-piece orchestra, which will make their debut before a Victoria audience, under the direction of Miss Pearl Crasley Bick; and a sketch, entitled "Have You a Little Harem?" performed by members of the society.

Girls' Corner Club.—The club will hold their usual meeting on Thursday in the I. O. O. F. Hall, Douglas Street, supper for business girls being served at 6.15 p.m. Miss Tague, who is shortly returning to missionary work in India, will continue her talk to women and girls which was so much appreciated last week. There will be a short musical programme, and a large attendance is expected.

**LARGE GATHERING AT KUMTUKS DANCE**

**Business Women Hostesses at Delightful Affair Last Evening**

**First Annual Meeting of Canadian National Council**

If reputation were needed of the often-expressed theory that business women fall in the social amenities, it was to be found last night at the Alexandra ball-room, where the members of the Kumtuks Club proved themselves singularly successful hostesses at their first venture into the sphere of social entertainment.

From the opening bars of the first dance to the final strains of the home waltz the affair went with a fine swing and verve, and the many guests were given in praise of the excellent arrangements made for their pleasure.

Fully two hundred and fifty were present, including His Honor the Lieutenant-Governor, also a big representation of Rotarians and their wives. Miss Lottie Bowron, the president, with Miss Jessie Brown, and Miss Wigley received the guests. Miss McLaren and Miss MacLae presiding at the door. Under the direction of a committee headed by Miss Holmes, Miss Donough and Miss Kitto, the members had decorated the ballroom with charming effect. Autumn foliage, maple leaves and an abundance of Michaelmas baskets and other flowers comprising the decoration. The club colors of blue, gold and green were in evidence in the decorations and in the dainty organdie bouquets worn by the members.

Professor Hegton's five-piece orchestra excelled itself in a most attractive programme of dance music. Arrangements for the pursuit of this pastime in the balcony, Mrs. Arthur Cree having charge of the arrangements. A buffet supper was served in the basement cafe at tables prettily arranged with pink and mauve flowers.

**CIVIC EMPLOYEES WILL HOLD SOCIAL RE-UNION TO-NIGHT**

Large numbers of civic employees will gather at a social re-union in the Trades Hall, Broad Street, to-night. The affair is being arranged by the Civic Employees' Protective Association, but all civic employees, whether members of the association or not, will be welcomed.

A splendid musical programme has been arranged for the occasion. Several talented members of the association will provide numbers as they have done at similar gatherings in the past. Arrangements for refreshments are in the hands of a capable committee.

## SHOWS POSSIBILITIES OF G. T. P. COUNTRY

—Photograph by F. G. Goodenough

A striking collection of grains grown in the country lying about Prince George, shown in the photograph above, is on view in the Government Street offices of the Canadian National Railways at present. The land on which this grain is raised is tapped only by the Grand Trunk Pacific Railway, which can bring it to Prince Rupert from Prince George in less than twenty-four hours. The people who live in and about Prince George are confident that this country has a great future as an agricultural centre. Other land lying about the Terrace and Smithers—also fertile valleys beside the Bulkley and the Nechaco Rivers and about such centres as Terrace and Smithers—also is capable of growing rich crops which will be brought to the "outside" by the G. T. P.

### SELECTING ADVISORY BOARD

Duncan, Oct. 11.—A meeting was held at Cowichan Lake on Wednesday by Kenneth Duncan, M.P.P. for the purpose of electing two members to his advisory committee from that district. Mr. Lockwood acted as chairman, and after the usual address and discussion M. L. Douglas and H. Hodgson were appointed.

A meeting was held at Cowichan Station on Saturday evening for the purpose of appointing two members to the advisory committee formed by Kenneth Duncan, M. P. P. The meeting was well attended. Mr. Duncan acted as chairman. Mr. Douglas spoke as to the duties of the committee, and Messrs. P. Michelin and T. Doney were elected for that district.

Harry Wilson, "The Cliffs," has joined the company of warm climate seekers, and leaves shortly for California to spend the Winter there.

Messrs. L. W. Huntington and W.

L. B. Young motored to Quatlim for the week-end.

The harvest social and dance given in St. John's Hall last evening by the members of St. John's Church proved a most delightful affair. The programme arranged by Mrs. J. J. Jenson and interspersed between the dances in cabaret style was much enjoyed, and included songs by Mrs. G. Sheppard, Mrs. Brookbank, Mrs. Ryall, Mrs. Macdonald, Mrs. W. Christmas, Miss Savage, Miss Townsend and W. Hopkins and Mrs. W. Hopkins gave recitations. Miss Monk, T. Aldersey and B. Ryall kindly acted as accompanists. Mrs. Martin's orchestra supplied the music for the dancing, which was kept up until midnight. A most delicious supper was provided by the St. John's W. A.; all arrangements for which were in the capable hands of Mrs. Wilfred Prevost, assisted by Mrs. H. F. Prevost and Mrs. Aldersey.

Nanaimo, Oct. 11.—On the eve of her departure for Vancouver, Miss Edna Johns was on Saturday night tendered a farewell reception at the home of Mr. and Mrs. F. J. Jenson, there being some fifty young people in attendance, who spent a most enjoyable evening in games, music and dancing. During the course of the evening Miss Johns was presented with a satchel, the presentation being made by Mr. Spooner on behalf of the assembled guests.

Nanaimo has re-organized the famous old Celtic Football team, which for many years was one of the leading teams on the island. The following officers were elected for the newly organized club: President, M. Wardill; Vice-president, Treasurer, G. Wardill; Secretary, F. Sargent; Manager, C. Devlin; Committee—J. Phillips, D. Styles, J. Rentoul, W. Riggs, J. Hamilton, D. Beveridge, F. Flynn; Trainers—E. James and J. Gordon.

The South Wellington football team had no difficulty in Sunday's game with Granby in coming out on top end of the score of 6 goals to 1.

The dance held by the Oyster School, Cedar district, was a huge success as far as attendance and pleasure were concerned, the school being taxed to its capacity. Allan's two-piece orchestra furnished excellent music for the occasion.

The St. Paul's Church was the scene of an interesting wedding yesterday morning at 7 o'clock, when the Rev. Mr. Ryall united in marriage Mr. Edward J. Sargent, station agent at Cowichan Lake; son of Mrs. McColl, Quatlim, and Beatrice Rummung, daughter of Mr. and Mrs. Wm. Rummung, Kennedy Street, Nanaimo. The bride was given away by her father and was supported by her sister Florence, while the groom was attended by Mr. E. Maffeo. At the close of the wedding ceremony, the party retired to the home of the bride's parents where some twenty guests sat down to an excellent breakfast. Mr. and Mrs. McColl, on the morning train en-route for their honeymoon tour.

The Nanaimo City Football Team won a well earned and hard fought game from Ladysmith when they defeated that strong aggregation by 3 goals to 1. From the first the home team took the aggressive and had the ball bombarding at the visiting goal time and time again, the fine goal tending of the Ladysmiths alone saving them from a more severe defeat. Although three of the Nanaimo players received injuries which necessitated their removal from the field, the home team played all the second half with a much weakened team and were successful in raising their tally by one goal, the first half ending with a two to one score. Dickinson and Husband were the scorers for Nanaimo.

Mr. and Mrs. Holroyd Paul and Mr. William Ditchmont, the celebrated composer pianist, are to give a recital in the Dominion Theatre here Wednesday night under the auspices of the Natives Sons of this city.

Annual Tag Day Hospital. —On Saturday, October 22, a tag day will be held under the auspices of the Women's Auxiliary of the Cumberland General Hospital to raise funds to carry on the work undertaken by the ladies. The auxiliary provides most of the crockery and linen used in the local hospital, which are procured here, and all money raised is spent in town. Excepting from the dues paid by the members the auxiliary depends on voluntary subscriptions for its support, and it is hoped the public will accord them a generous response.

### DR. DOLMAGE HERE

Dr. and Mrs. V. Dolmage, of Ottawa are registered at the Empress Hotel. Dr. Dolmage told The Times last evening that he is holidaying before going East to Ottawa to spend the Winter, preparing his report on the field work he has been engaged

upon for the Geological Survey of Canada in the Bella Coola district last Summer.

Dr. Dolmage has done considerable work on Vancouver Island's West Coast, and his report on the upper portion of the coast from Clayoquot to Quatlim became recently available to the public in the form of a bulletin of the department. He expects to continue work on the coast lines of British Columbia next Summer.

### DO YOUR EARS BUZZ? HAVE YOU HEADACHES?

When your ears ring, your head aches—and you seem slightly hard of hearing, beware of Catarrh. Mr. J. A. Hamill writing from Greenmount, P. I. was similarly troubled, and writes: "No one could have worse Catarrh than I had for years. It caused partial deafness, bad taste, upset my stomach, made me sick all over. 'Catarrhazone' cleared my nostrils, stopped the cough and gave me a clear feeling in my breathing organs. I am now absolutely well thank to 'Catarrhazone.' Nothing so certain as a 'Catarrhazone' inhaler to cure a weak throat, to rid you of Bronchitis, to drive out Catarrh, coughs and colds. Sold everywhere, 25c, 50c and one dollar for complete two months' treatment. Dealers, The Catarrhazone Co., Montreal. Advt.

### ENGINEERING INSTITUTE

"Electric Pumping" For Reclamation Works to Be Discussed.

A paper will be read by Geo. R. Alexander, Field Engineer of the Byron Jackson Iron Works, San Francisco, to the Victoria Branch of the Engineering Institute on "Electric Pumping for Irrigation, Reclamation and Drainage," at Belmont House at 8 o'clock to-day.

The synopsis is as follows: "Based on practice in California, Oregon and Utah, Electric pumping as against gravity irrigation. Early plants fairly large size and operated by steam engines. Electrification of these plants after advent of high tension, long distance transmission. Development of small isolated plants for irrigation. Belt driven plants vs. direct connection plants. Large centrifugals with horizontal shaft vs. vertical shaft. Careful design of piping necessary to conserve pump head. Design and construction of discharge piping passing through levees. Devices to prevent siphonage back through pump. Check valves, hand operated, motor operated and hydraulically operated gate valves. Pumping against variable heads. Extreme low head pumping. The "Wood" screw pump. Views of Sacramento River flood. Protection levees, levee revention."

The paper will be illustrated by 45 lantern slides.

An invitation to attend is extended to all engineers and others interested.

### NEWS AND NOTES OF THE MINES

#### Fish Creek Company.

Harry Tanner, superintendent for the Fish Creek Mining Company, was in Stewart, says The Portland Canal News recently, and stated that the Winter camp at the upper showing is practically completed; a large log building, one and one-half storeys in height, having been built; in addition to a small bunkhouse for the night shift. An ore sorting shed and several outbuildings remain to be built, but will be completed in plenty of time to avoid the heavy snow fall.

The production of sulphur in Sicily rose from 120,000 tons in 1860 to 538,534 tons in 1905. In 1919 production decreased to 181,274 tons, but rose to 219,844 tons in 1920. On the other hand, the production of American sulphur increased from 833 long tons in 1853 to 25,000 tons in 1903 and 491,000 tons in 1913, and reached 1,255,249 long tons (preliminary figures of the United States Geological Survey) in 1920. Besides these two countries, Japan, with an output of about 50,000 tons, is the only other important source of sulphur. Small quantities are produced in Spain and Austria.

### Copperfield Bonded.

William McLean has again bonded his David Copperfield mine, which is situated on the Dolly Varden Railway just below the Dolly Varden itself. John and Gus Strombeck are still working on the big showing they recently uncovered on the Toric. They do not expect to do much work during the Winter.

### Sulphur Supply.

Until recent years Sicily was the most important factor in the world's supply of sulphur, but it has now been displaced by the American sulphur industry, which has developed a very large production, owing to the easy extraction of this mineral from the Louisiana and Texas mines, writes

### NEWS IN BRIEF

**Fire This Morning.**—A spark from a gas burner on the kitchen at 1345 Rockwood Avenue at 5 o'clock this morning. The fire department responded, and had the blaze quickly under control. Little damage was done.

**Postpone Police Meeting.**—The session of the police board planned for Thursday night has been postponed one week, to the evening of the 14th. Tenders on winter clothing and other business will then be brought up. The delay in receiving tenders occasioned the postponement.

**Consider Hall Plans.**—The regular meeting of the West Saanich Women's Institute took place yesterday afternoon. The plans for the proposed Institute Hall were discussed. The B. C. Electric Railway Company has given a site at Sluggetts Station for the structure.

**In County Court.**—In the suit of Paxton versus Blake, heard yesterday before His Honor Judge Lantman in the County Court, plaintiff was awarded the decision with damages of \$27. S. Brandon appeared for the plaintiff with C. L. Harrison for the defendant. The action arose out of a collision.

**Army and Navy Veterans.**—The Victoria Unit Army and Navy Veterans' Association in Canada will hold their general monthly meeting in the Hamley Building on Thursday evening, at 8 o'clock, when their delegates to the Provisional Committee on amalgamation will submit their report. A members' meeting is urgently requested to attend.

**Municipal Chapter.**—The regular meeting of the Municipal Chapter, I. O. E. L., will be held to-morrow afternoon at the Jones Building. Echoes secretaries are requested to apply to Mrs. W. W. Brentzen, municipal Echoes secretary, at the conclusion of the meeting for pamphlets forwarded by the Provincial Echoes secretary for distribution.

**Married in Vancouver.**—A quiet wedding was celebrated in Vancouver on Monday—the Rev. Fr. Henderson officiating. Miss Jean Loree Fraser, only daughter of Mr. and Mrs. G. Fraser, 1120 Barclay Street, became the bride of Gordon H. Marwick, only son of Mr. and Mrs. H. Marwick, 545 Niagara Street, Victoria. The happy couple are spending their honeymoon touring the coast cities.

**Entertained at Luncheon.**—Officers and members of Colfax Rebekah Lodge, No. 1, entertained at a delightful luncheon to-day at the Hudson's Bay store in honor of Mrs. Helen Cozart, President of the Rebekah Assembly of B. C., and Mrs. Gulland, grand marshal. Among those present were Mrs. J. G. Hay, Mrs. S. Bourn, Mesdames Lawson, McCahill, Kirk, Sandison, McLagan, Killip, Brown, Paget, McDonald, Tuck and others.

**Craigflower P. T. A.**—H. T. Ravenhill and Mrs. J. J. Reid addressed the Craigflower Parent-Teachers' Association last night on the question of social hygiene. The gathering was well attended. Mr. Reid presiding. Miss Joan Witty rendered a piano forte solo during the evening. A social committee for the winter season was appointed, consisting of Mrs. Ramsay (convener), Mrs. Wilkinson, Mrs. Renfrew, Mrs. Lorimer and Miss Beattie. Refreshments were served during the evening.

**Shot Man Phasent.**—In the provincial police court to-day Richard Layritz was fined \$50 for a contravention of the game act. Mr. Wilkie of the provincial police acted as prosecutor, the information laid by Game Warden Cunnings, stating that the accused shot a hen pheasant on Sunday last. Magistrate Jay ordered the weapon used, a single barrel shot gun of an old make, confiscated and the pheasant sent to the aged ladies' home, the fine being imposed as stated.

**Sooke Women's Institute.**—The monthly meeting of the Sooke Women's Institute was held in the hall on Tuesday afternoon. A very interesting and instructive paper was given by Mrs. Milligan on "Child Welfare in Relation to the State." The social tea was presided over by Mrs. Perry and Mrs. Wilham, after which prizes were distributed to competitors at the Fall Fair. Arrangements were made to have a practical demonstration of cutting out garments and sewing on Tuesday, October 11.

**Will Install Floor.**—Chief Fry stated to-day that permission to use the new Drill Hall for the eighth annual police ball had been obtained from the military command here. The police, under the supervision of the Canadian Engineers, will install an entirely new floor for dancing purposes, which will give the new Drill Hall one of the finest dancing floors in the city. The police are planning to hold this year that will eclipse all former records. The affair will be held under the patronage of the Lieutenant-Governor and Mayor Porter. The ball will be held Thursday, November 24. Capable committees are now working hard at the project.

**In County Court.**—In the County Court to-day the suit of Bower & Company versus Cracknell et al was adjourned until one week from to-day. E. L. Tait appeared for the plaintiff, with Mr. Sedger for the defendant, and R. S. Lowe for the third party to the suit. The action was one for recovery of money alleged due on material supplied. Judge Lantman heard the suit.

**Victoria West Parents Meet.**—Matters connected with the welfare of the Victoria West School were discussed at a meeting of the Victoria West Parent-Teachers Association in the school last night. The association decided to urge the School Board to have part of the domestic science building fitted up as a classroom. A delightful musical programme was supplied by Miss Daniels, Mrs. M. Grasley Rick, Miss Jones, Mrs. Jeffrey, Miss Lily Christie, Mrs. Smith and Mr. Guy. Refreshments were served at the close of the meeting. W. E. Foxwell, president of the association, presided.

## SAVES CERTAIN INDUSTRIES CAN BE STARTED HERE

### Publicity Commissioner Refers to Logical Possibilities

The advantages of Vancouver Island for the promotion of sheep raising and its kindred industries and the raising of hops and barley, were emphasized by J. G. Thomson, publicity commissioner of the Victoria and Island Development Association, this morning in discussing possibilities that would result in employing a large number of white people and the development of logical industries in this section of the Province.

"We have a lot of logged-off land on the island which would be admirably suited to sheep raising, and this would serve also to keep down undergrowth and clear the land of a constantly improving condition," said Mr. Thomson.

"If we establish a woolen industry here we should begin to employ many more workers. There would not be such a great advantage in merely having a mill established here that would import all its raw materials.

"In view of the trouble the Provincial Government is having with its liquor importations and the heavy taxation by Ottawa there is every reason why we should not have distilleries in this Province, and there is no place better suited to this industry than Vancouver Island. In this we have the possibilities of other big industries. Some years ago we had barley grown in North Saanich that was recognized as the finest for malting purposes in the world.

"Then again there is no reason why we should not go in for hop growing. It has already been amply demonstrated in neighboring districts that hop growing can be very successfully carried on here. To-day we have no barley growing and comparatively little hop-growing.

"Experts have told us at various times that this is an ideal climate and that Victoria is fully equipped, favorable to the development of a huge woolen industry. Therefore, in view of the demand for employment and the development of industries, it would seem to be no reason why those I have mentioned at least could not be started here without a very great deal of trouble, and they would certainly add very materially to the prosperity of Victoria and Vancouver Island," concluded Mr. Thomson.

## TRY MAGNESIA FOR STOMACH-TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepper, cayenne, ginger, and various other remedies, and you know these things will not cure your trouble—unless you are very fortunate.

But before giving up hope and deciding you are a chronic dyspeptic, just try the effect of a little Bisulphated Magnesia, which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your ferment and sour, mking gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

After you find that provided you take a little Bisulphated Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of indigestion, or of the flatulence and bloating, and moreover, the continued use of the bisulphated magnesia cannot injure the stomach in any way, as it is not any symptoms of acid indigestion.

**To Give "Disraeli" Reading.**—"Disraeli," the great drama of modern life, by L. N. Parker, introducing the magnetic character of Disraeli, and the accomplishment of a great achievement in acquiring the Suez Canal, thus securing Britain's power and glory, will be presented by Edw. Abner Thompson, M.A., of the School of Expression, Boston, at K. of C. Hall to-night at 8.30. Mr. Thompson is a graduate of Bowdoin College, the Alma Mater of Longfellow, and has been enthusiastically received all over the continent, especially in educational centres, where his art has been most highly appreciated. An attractive musical programme will be given.

## Home-made Remedy Stops Coughs Quickly

The best cough medicine you ever used. A family supply easily and quickly made. Saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy that is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good. Four 2 1/2 ounce or 8 ounce bottles; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup. Instead of sugar syrup, if desired, use four 2 1/2 ounce bottles of "Master Bobby" expellated the horrid nurse, "you haven't said your prayers!"

"That's all right, nurse," replied the child, snuggling comfortably under the covers. "God knows what I want. Why must I go over the same old ground night after night?"—The Bits.

To avoid disappointment, ask your druggist for "The Cough Remedy" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Finex Co. Toronto, Ont. (Adv.)

In Police Court.—Fleetwood Eketch was fined \$5 to-day in the city police court for leaving a car too close to the property line of the street, thus obstructing pedestrian traffic. The accused entered a plea of guilty.

### How Millions Now End Corns

They First Stop the Pain Instantly This Easy Way

SOME years ago a famous expert found a new way to end corns. A laboratory of world-wide fame adopted and produced it.

Thousands of people tonight will stop the pain throbbing and then bid farewell to corns. Corn troubles everywhere have largely disappeared.

The way is Blue-jay—the liquid or the plaster. Apply it by a touch. The pain stops instantly. The whole corn soon loosens and comes out.

## Charred Bodies Mute Witness To Fire On Indian Reservation

One of the most horrible fatalities that has taken place in this vicinity this year occurred last night when two Indians on the East Saanich Reserve were burned to death, without aid or knowledge of their neighbors.

Shar Sha Buck, or as he was known to the white men, Jack Quack, and his wife Mary resided on the East Saanich Reserve Road near the beach.

During Hours of Darkness. Their grandson, Underwood, was passing the home, which was a two-roomed shack, eighteen feet by some thirty feet, at 6 o'clock last night and saw that all was then normal.

Underwood repassed the road at eight o'clock this morning, and was horrified to see the shack burned to the ground. He investigated and at first could find nothing. Only Bones Left.

After pulling apart some of the wreckage he disclosed the badly charred remains of the unfortunate Indian and his wife. The body of the man was burned to a crisp with nothing but the dim outline of the trunk visible under the ashes. The wife of the unfortunate man, Mary Quack, was found, and burned almost beyond recognition with nothing but a few blackened bones to tell that the distressing sight was the remains of a woman.

The tragedy has cast a gloom over the whole reservation, the victims of the accident being an aged couple, the man being seventy-two years of age who were extremely popular. It is known that they visited the city last evening, and did not return until 5 o'clock last night. No cause can yet be determined for the fire.

The remains of the two bodies have been taken in charge by relatives.

## FORUM MEETING TO-MORROW NIGHT

Chamber of Commerce to Hear Professor Laube

The first meeting of the Chamber of Commerce Forum since the Summer adjournment will be held in the auditorium commencing at 8 o'clock tomorrow night, when Professor Laube will speak on "The Basis of Taxation."

Professor Laube is instructor of Finance in the University of British Columbia, Department of Political Economics, and is a very able speaker. He is thoroughly informed on the subject of taxation and his speaking remarks as an authority will appeal to the local taxpayer who is faced with heavy problems at this time.

Scott, chairman of the Forum, will preside at the meeting at which every member is urged to attend. The Forum's activities in the past fully justified its existence, and it has been a very valuable purpose in connection with the Chamber of Commerce work in Victoria.

## LONDON DEALERS TRICKED BY BOGUS JAPANESE PEARLS

London jewellers have been dismayed by exposure of a huge pearl fraud. It was accidentally discovered that thousands of pounds sterling had been flung away in the purchase of worthless fakes and cheap importations. How long the imitations have been coming to England and how many are in existence is being sought, but the cause of the thing approaching a panic in Hutton Garden among the big jewellers.

The faked jewels are so perfect that they withstand ordinary tests. Like Oriental pearls, these imitations have been sent to this country already pierced. The discovery was made when a workman in one of the big jewelry shops was making a necklace out of pearls bought for £10,000. He found that one of the pierced holes was not large enough for the string, so he tried to enlarge it. In so doing he chipped a piece out of the pearl, revealing a small mother of pearl bead inside a coating of pearl film.

London jewellers state that the fake is a product of eight or ten years of work spent in the development of Japanese pearl culture and industry and has been brought to perfection. The system is to catch oysters and by a surgical operation insert a mother of pearl bead in the flesh of the oyster, which is then returned to its bed. After two months the oysters are recaptured, by which the mother of pearl bead is found to be covered with a thin pearl film deposited by the oyster. The imitations are the same in weight, size and color as Oriental pearls, and when tested with the teeth they grit and grate like the genuine ones.

Secret meetings have been held among London jewellers who are faced with the difficulty of discovering a harmless test by which the fakes can be found without injuring genuine pearls. One also has been proposed to the Board of Trade that the importation of pearls be suspended until an effective test has been discovered.

It is probable that a number of legal contests in the courts may result from this discovery, as the difference in value between the genuine and a fake pearl is in about the same relation as a dollar to a cent. The discovery of the fraud was made last week, but was kept secret until to-day and is now causing a flutter among society-people who have been recent purchasers.

## GOLD DISCOVERY AT QUESNEL LAKE

Reports of Success Attracting Prospectors

Gold Worth About \$1,200 Taken Out

Old Miners Says It Is New Klondike

Vancouver, Oct. 12.—To-day's Province says:

One Hundred and Fifty-mile House is coming into its own again. A very rich gold strike is reported on Cedar Creek, on Quesnel Lake, about eight miles up the lake from Quesnel Dam. A few men had been prospecting and taking out small amounts of gold for some time, but about two weeks ago they started prospecting the upper branches of the creek, and apparently struck the old channel that was lost in the early days and which seems to be of some considerable extent.

The original stakers are reported to be taking out \$15 a day in coarse gold, some very large nuggets being found. Several claims staked up and down the channel from this discovery have proved up in a similar manner. Great excitement prevails in the Horsey and Quesnel Forks districts. About seventeen men left Horsey yesterday to stake claims, going to Quesnel Lake and thence by boat to the scene of the discovery.

A couple of men are running gas boats from the mouth of the Horsey River to the claims. The old miners who are working the discovery have been in the Klondike for many years, but in spite of this they have been taken out in a very short time.

## SHIPOWNERS TO GIVE THEIR SIDE OF SHIP TANGLE

In an effort to establish the present status of the company, and the position of its shareholders, the Victoria, B.C., Shipowners, Ltd., communicated by repeated wires with Premier Meighen and Dr. F. T. Tomlin at Ottawa.

A resolution was passed a short time ago to the effect that in the event of no reply being received from Ottawa by October 12 as to the policy of the Federal Government relative to the shareholders' interests, a full statement covering the entire operations of the shipowners would be given to the press.

At a meeting of the directors of the Victoria Shipowners, Ltd., held this morning, this resolution was confirmed, and a statement authorized to be given to the newspapers. The directors assert they have been ignored by the Government.

Spaniards, who, it will be recalled, asserted sovereignty over all the coastal waters of the Pacific side of the America and Mexico. Soon they came to Nootka Sound, which was the chief center of activity of the fur trade, and seizing some British vessels, projected the Nootka affair into the international politics of that day. England demanded satisfaction. Spain paid an indemnity, and restored British rights and property. But before this settlement was effected, or rather while Captains Vancouver and Quadra of the British and Spanish governments respectively, were waiting for an agreement to be reached, the former carried out his yearly exploration of the waters surrounding the island. Doubtless in graceful recognition of his work, the island was named after him. In later years, so was the city of Vancouver, and there was another thriving town in the American state of Washington bearing the name of this well-known navigator.

And "his" name may be noted by the observant on the dome of the legislative buildings at Victoria. England made substantial gains as far as the control of the coastal lands and waters were concerned. The Nootka Convention. Spain recognized the English right of trade and navigation on the North Pacific coast, and abandoned her claim to a monopoly of the North Pacific. England agreed not to found any trading station within thirty miles of a Spanish post. Captains Quadra and Vancouver worked out the details of the Treaty of Madrid. Spain recognized Nootka as an English post.

So it was that Vancouver Island became British. The mainland was nominally Spanish, but the Napoleonic wars and the movement for freedom in the American colonies kept Spain fully occupied and prevented any worthwhile colonial development on the continent. In due course the Republic of Mexico replaced Spanish authority to the South. The Republic was not interested beyond California. The way was open for complete British occupation, especially since Canada had been ceded to the British crown. And it has not long before that occupation became a fact.

Coming of the Hudson's Bay Company. With the beginning of the nineteenth century the adventurous, if monopolistic arm of the North West Fur Trading Company, and of the Hudson's Bay Company, came out across the Rocky Mountains and seized upon the rich fur areas of the coast. Sir Alexander Mackenzie, an employee of the former concern, was the first to explore the coast (his greater rival) was the first fur-trading explorer to make his way to the ocean by the overland route through British territory. Mackenzie came out where Bella Coola now stands. The Canadian company established itself firmly in coastal territory without too strict a regard for boundaries. It was not long, however, until the Americans, with the pioneer Astor in the van, were at the coast with the idea of setting up a trading monopoly similar to that enjoyed by the British. The competing company Astor's headquarters was named after himself—Astoria. When war broke out between United States and Britain the Canadian company, headed by Astor and held it until after peace was made in 1818. David Thompson's great journey down the Columbia River was based upon an attempt to forestall Astor, and it is said, that had not a mutiny occurred, Britain would have had a strong claim upon a much larger share of the Pacific coast country than we as Canadians have to-day. The Hudson's Bay Company set up its headquarters at Fort Vancouver on the Columbia River in 1825. The Americans were aggressive, and by 1843 their activities had become so pronounced that the Company shifted its base to Fort Victoria, on the Island of Vancouver.

The H. B. C., at that time, held the entire inland charter from the Crown for colonizing purposes. It has been said that Gladstone took issue with the British government of that day concerning the making of this great fur-trading concern, but was silenced with the reply that the land was thereby held to England in that settlement by alien squatters was rendered impossible. Be that as it may, there was little evidence of real colonizing activity, and it was said that the Company had not any real intention of becoming active in that direction and so making the finding of game more difficult to their hunters, for by that time the sea-otter had been exterminated and the animals of the forests were the source of their prosperity. Victoria prospered and soon was the dominant center of trade in the Pacific. The Americans pressed for the control of the coastal areas right to Alaska, and the "fifty-four-forty or fight" slogan was born. England sent a fleet around the world to challenge upon the further development of that idea. But there grew in the England of that time, an idea that the country was merely a North American and in due course the boundary line was settled at the 49th degree as it stands to-day. History records that the Hudson's Bay Company left some of its posts in America territory as a result of that settlement and withdrew within a newly-defined British area.

Just as the star of Spain diminished as the British constellation grew in brilliance, so did any dreams the directors of the Company may have entertained as to the future of the coast country with the rise and pre-eminence of the gold seekers in the affairs of the British coastal region. The hunters of the precious metal, almost in a day, so great was the "rush" of the gold seekers, swept away the nearly regal sovereignty of the traders in furs. New Caledonia, as the mainland country was called, was erected into a Crown Colony, and later, union was arranged with the Crown Colony of Vancouver Island. The rights of the Hudson's Bay Company were purchased, and the Canadian territory was proclaimed in the East brought about, which was followed in due course, by the construction of the first overland railway from the far East in the Dominion. The three great factors in the early development of the coast country—the search for North-west Passage, the fur trade, and the gold rush—had run their course and were closed chapters. British Columbia had been born. The great resources of a vast area in fisheries, forests, mines and fertile valleys were to be administered by men elected by the people for the purpose. But historians will never forget the part the old fur-trading companies played in the retention of New Caledonia and of Vancouver Island to British rule.

First Census. The Union with the other Canadian provinces took place in 1871, and in that year, the census could credit the Canadian lands to the West of the Rockies with 38,247 people. Ten years later there was quite an addition to the rolls, the total being 49,457. Between 1881 and 1891 the first railway through from the East was constructed to the coast, and the usual result occurred. The census men, in the latter year found that the population at and about the coast had just about doubled and gave the province credit for 98,173 people. Almost a similar record was made during the ten years that followed, for the total at the census of 1901 showed an expansion of the population to the figure of 178,657. By 1911 the citizens of the province were more than double the number of 1901, there were 352,450 persons claiming residence in

British Columbia. These figures mean that since 1881 there has been a practical doubling of the population in the province each decade until 1911. The figures of the 1921 census enumerators have not been given to the public, but it is safe to assume the increase will be substantial, for the second period in this century has been by no means the least in point of expansion at the Canadian western coast.

It is a pleasant task, also, to be able to chronicle the great extent of the expansion in production in British Columbia. Its forests are easily the greatest in Canada and among the largest in the world, and the lumbering industry has been systematically organized to cut, mill, and market the valued product, for the splendid quality of the coast woods has created a demand in many countries. The mineral resources are large, and varied, and while much wealth has been won from these sources, the prospectors have scarcely scratched the tremendous areas which are likely to yield deposits rich in value to the miners in the future. The agricultural industry has shown a rapid and satisfactory growth. The fisheries of the northern Pacific waters are among the greatest in the world. The resources in water power are all that might be expected in a vast region dominated by mighty mountains as British Columbia is. It will be interesting to treat these resources a little more in detail.

## THROUGH THE FRONT OF SMALL BEGGARINGS

Fur Traders Were Pioneers Who Drew Aside Curtains

Valuable Mineral, Timber and Marine Industries

The present-day development of British Columbia has its beginning in Oriental interest in the skin of the sea otter.

The caravels of the peaceful Columbus were followed to the new world by the more aggressive and different stamp—able Spaniards, restless of mind, bent on subduing the residents of the newly-found lands and diverting the riches of the continent to the coffers of Spain. Early in the sixteenth century nationals of that European race had established possession of the Pacific coast line from what is now Oregon to Cape Horn. Cortes conquered Mexico in 1521; Pizarro, Chili and Peru in 1532. The Spaniards carried out his adventurous complot was subduing the Peruvians and Chilians, had three ports, an arsenal and a hospital on the coast of the Pacific coast, was, in person, exploring what is now Lower California, which name, was, in fact, conferred by the Spaniards, and the dates of the discovery of the neighborhood of the 43rd degree of latitude. About thirty years later, Elizabeth of England, whose destiny possessed by the name of Elizabeth, was not too scrupulous as to the rights of Spaniards no matter where such Spaniards might happen to be.

The Pioneer Navigators. This intrepid English sailorman sailed up the west coast of America some forty-three years after Jacques Cartier made his memorable voyage up the St. Lawrence to the site of present-day Quebec. The northern limit of his voyage has been stated variously. Some thought he went as far as 44th degree, some that the 43rd degree was the limitation. Any way the cold and fog diverted his mind from any further attempt to explore the coast, and he turned back to the Atlantic. He turned back, made a landing at a "fair and good bay" some distance north of San Francisco, and there remained some five weeks, and before lifting anchor for the return to the Old Country, he set up a post with his name and the date of his arrival. An English sixpence buried beneath it. On this post he set forth the declaration that the country had been taken possession of for the name of Elizabeth of England, and named it all "New Albion."

Drake probably took this action in case the Queen of England might be displeased with the name of San Francisco. Evidently however, she did not, or perhaps her royal attention was diverted elsewhere, for the records of our western coast contain no more mention of any important visits by English sailors for almost a hundred and fifty years. During that long period, the power of the name of Elizabeth was established firmly, and the Spanish claim was of the "blanket" order—intended to cover all the lands west of a certain meridian, from the temperateus Cape Horn.

In 1725, Vitus Bering, the Russian sailed through the strait that connects Pacific and Arctic waters between the continents of America and Asia, marked the first real shifting of the balance of power in the Pacific. For thirteen years, until 1741, when he was wrecked on Bering Island, this strait was in the hands of the Russians for his Government. He perished there, but his work and his record remained, and soon fur traders from his country were setting out after him to the coast of the fur for re-sale in Europe and China. The brilliance of the star of Spain was beginning to fade. The traditional British supremacy in the world, which that country had exercised for so long was endangered by the Russians from the North, and by the rapid growth of English power throughout the world. The Canadian company, which set out from England on his third and last voyage around the world, arriving off our northwest coast two years later. This fact was recognized by England, and was commissioned by the British Government to examine the North American Pacific Coast from about 45 degrees North latitude to Russian Cooch for the large land openings inward to the eastward. Because of the bad weather prevailing in March of that year, he passed, unnoticed, the coast named after him in the Pacific, and came up the coast of Vancouver Island, establishing himself at Nootka Sound. Captain Cook discovered Prince William's sound and Cook's last, and his death there as a result of an altercation with the natives of those islands which he had named Sandwich. But his expedition returned to England and a record remained.

Again the anxious Spaniards returned to the northwestern coast and an expedition under Captain Quadra advanced the Spanish claims to the 55th parallel.

The Contending Nations. The records of Captain Cook were published in 1784, five years after his tragic and untimely death in the South Seas. The report contained a description of the sea otter, the skin of which was said by him to be the equal of the common otter. The sea otter was abundantly in evidence all along the coast, and adventurous spirits were not long in responding to the lure of the easy money to be secured from their skins. At that time the East India Company had a monopoly of the trade in the Chinese Empire, where the sea otter pelts were in ready demand. They were soon in the new field. Success led to emulation in other quarters, and it was not long before expeditions were sent out in Maryland, Boston and Bombay, to mention but a few points, to engage in the new opportunity. This sort of activity inevitably led to further exploration. The Queen Charlotte Islands were discovered. So was a large portion of the mainland. American, as well as British vessels were familiar sights around Vancouver Island. The Trading was profitable and was briskly carried on.

This sort of thing, of course, could not prevail for long without some sort of conflict developing with

## What You Should Bear in Mind When Considering the Purchasing of Furs

The Hudson's Bay Company are the oldest and largest fur dealers in the world, with hundreds of trading posts throughout Northern Canada and Russia, where raw furs are purchased direct from the trappers.

The high standard of Hudson's Bay Company furs is recognized everywhere and is very evident in every fur garment showing in our displays, from the handsome coats to the smallest neck piece.

Our Victoria factory is in charge of highly skilled workmen, and is fully equipped for the manufacturing, remodelling and repairing of furs of all descriptions.

If you are considering buying a fur, now is the time to make your selection. Our displays offer a choice of pleasing styles and our prices are most attractive. Nowhere else will you find furs of such quality at prices so reasonable.

**Our X Ray Shoe Fitting Apparatus**

An innovation which is causing considerable interest among customers, is the installation of an X-ray shoe fitting apparatus. This new device is proving a great service, particularly in the fitting of children's shoes. By means of the apparatus, it is possible to see if the shoe gives sufficient room for the bones of the foot to lie flat. The feet are placed under a fluorescent screen and the bones of the forepart of the feet in relation to the outline of the shoe are clearly visible on the screen. This machine is of great use in convincing customers of the necessity of buying shoes of the proper shape and allowing for the proper length. A necessity which many do not realize.

# EMPERESS OF CHINA READY FOR SERVICE

### Report Indicates Canadian Pacific Liner Will Soon Be Sent Out to Pacific

The reconditioning of the liner Empress of China has been completed and the 19,000-ton passenger boat is now lying at Immingham practically ready to start on her voyage to the North Pacific, according to unofficial word received at this port.

The Empress of China, formerly the German liner Tirpitz, was purchased by the Canadian Pacific Steamships, Ltd., to be operated in the trans-Pacific trade between Hongkong, Yokohama, Victoria and Vancouver.

In the event of the information as to the Empress of China, being authentic, it is probable that the ship will be sent out to this coast much earlier than was originally anticipated.

Labor troubles in the United Kingdom were responsible for the diversion of a large number of big ships to European ports for fitting-out purposes, but the big ship joiners' strike on the Clyde was recently settled and the big plants have been carrying on under more normal conditions.

#### Cruise Via Suez.

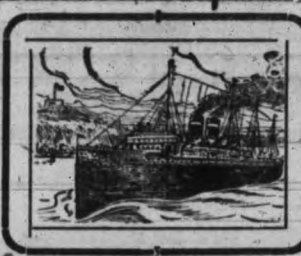

The present indications point to the dispatch of the Empress of China on a round-the-world cruise to this coast by way of the Suez Canal and the Orient with passengers, but, up to the present time, no official announcement has been made by the company regarding the cruise. It is expected that an announcement will shortly be made that the Empress of China will enter the trans-Pacific service by the early part of next year.

It will take the ship about two months to come out from England via Suez.

#### Working on Canada.

The work on the new liner Empress of Canada is now being rushed, and it is expected that this palatial ship will be out here by next May.

The Canadian Australasian liner Niagara is due to leave Sydney, N. S. W., tomorrow for this port.

## PUGET SOUND NOW LOOKS TO BRITISH COLUMBIA FOR CEDAR

### American Shingle Mills May Buy Rafts in Canada; Stocks Running Low

Seattle, Oct. 12.—Scarcity of cedar logs is forcing Puget Sound shingle mills, now trying to resume operations because of better conditions, to go to British Columbia for their rafts, according to information received here. In recent weeks cedar logs have advanced from \$12 to as high as \$20 a thousand board feet because of the scarcity on the Sound. This, it is said, means a resumption of activity by the logging camps. The higher price for logs has caused an increase in shingle prices, the jump being \$1.75 a thousand shingles.

### ONLY ONE SALMON CANNERY OPERATING IN RUPERT DISTRICT

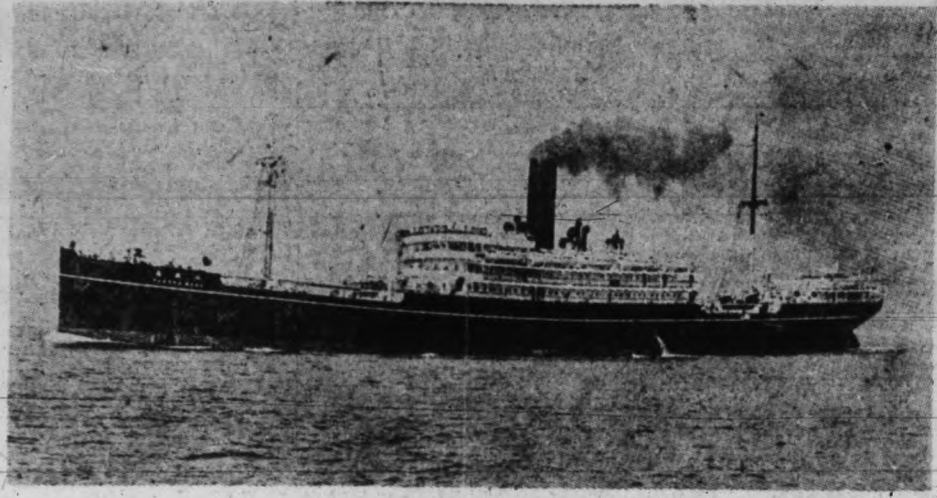

Prince Rupert, Oct. 12.—(Canadian Press).—The only salmon cannery still operating in this district is the Gorge Millery and Cold Spring Cannery. The other canneries are being packed.

The Indians of the Naas district have had a very unfavorable fishing season and are short of money. They are making the most of hunting and trapping, says W. E. Colleen, Indian Agent for that district.

SHIPPING NEWS FROM DAY TO DAY

## IN PORT TO-DAY FROM THE FAR EAST

N. Y. K. LINER KATORI MARU.

### FORTY THOUSAND MEALS WERE SERVED ON THIS VOYAGE

To feed all the passengers returning to this continent in the 50,000-ton Berengaria of the Cunard Line, which left Southampton on September 10, the chief steward of the ship was responsible for the serving of the six thousand meals each day. There were eight hundred first class passengers, a record for a westbound

trip, and all accommodated in the huge dining saloon at one sitting. In all there were on board 2,200 passengers, and each having daily breakfast, dinner and supper, not including afternoon tea, means that nearly 40,000 were served in the six days before the ship reached New York. In addition there are the crew of nearly one thousand fed three times a day. With the swimming bath, gymnasium, winter garden, Turkish baths, lift, orchestra bank, libraries and other features the "Berengaria" is a floating city.

### SPLENDID RECORD HELD BY LINER EMPERESS OF JAPAN

#### Has Traversed Two and a Half Million Miles Since She En- tered Pacific Service

Two and a half million miles have been traversed by the Canadian Pacific liner Empress of Japan since she first entered the trans-Pacific trade. For 20 years the yacht-like passenger liner has been plying out of this port, having been brought out to the Pacific in 1891. The Empress of Japan was built at the yards of the Naval Armaments Company, Barrow-in-Furness, and in her day was considered one of the finest ships afloat.

She was "Queen of the Pacific" for decades and held the record of 10 days, 10 hours from Yokohama to Victoria, relinquishing that honor only when the speedier and larger Empresses were brought out to this coast. When the Empress of Japan reached here on Monday she completed her one hundred and fifty-fourth voyage. It is a tribute to the builders of these early days when it is known that the ship's original boilers are still in her hull and doing excellent service. In computing her record the officers of the Empress of Japan do not take into account her four years' war service.

It will be with regret that the traveling public, accustomed to make voyages to the Orient, will part company with the veteran ship, for some months ago the company announced its intention of placing the vessel on the market.

### EMPERESS OF ASIA CLEARS TO-MORROW

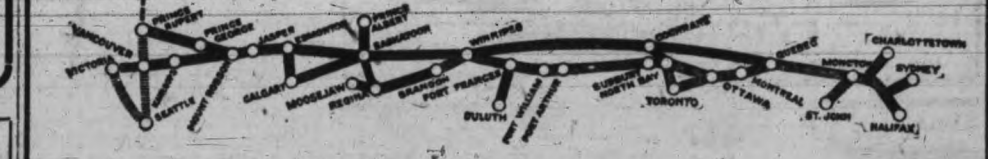

#### Party of Missionaries Will Be Included in Large Saloon List

The liner Empress of Asia, of the Canadian Pacific, is scheduled to leave Vancouver to-morrow, commencing her return voyage to the Far East. The liner will take out 200 passengers in her saloon accommodation; and there will be several hundred Chinese in the steerage. A capacity cargo will be carried in the ship's holds for Japan and China.

Among the passengers leaving by the Empress of Asia will be a party of missionaries, composed of Dr. and Mrs. H. L. Parry, of Szechwan, missionaries of thirty-seven years' standing. Rev. and Mrs. James Stark, of Shanghai, who have been thirty-two years on the field, Misses Dickson, Harris, Holder, Roberts and Theodor, who go out for the first time; Rev. and Mrs. M. Ringberg, of the Swedish Mission in China, returning; Miss H. Lundvall, returning, and Misses Jensen, Melve and Wisnes, new workers of the Scandinavian Alliance; also Miss Odgaard, a new missionary of the Norwegian Mission in China.

Passengers and mail will be taken on here before the Asia puts to sea.

### STORM WARNING

Napier Denison, superintendent of the Gopazes Observatory, is in receipt of a telegram from San Francisco advising that a storm is moving S.E. from the North Pacific Coast. Storm warnings have been issued for the Columbia River and Washington coast areas.

### NOTED JAPANESE WOMAN ON KATORI

Madame Yajima, Octogenarian and Active Worker, Bound to Washington

Entering the Straits about 9 o'clock this morning the Japanese liner Katori Maru, of the Nippon Yusen Kaisha, reached quarantine about 1:30 o'clock this afternoon, and is expected to dock about 2:30 p. m. The ship is a full day ahead of her schedule, having made good time across from Yokohama.

The Katori was not seriously handicapped by fog in the Straits, but a thick blanket shrouded the Gulf after she arrived off the quarantine station.

Among the Katori Maru's cabin passengers is Madame Yajima, 89 years of age and widow of a champion of Japan, who is bound to Washington, D. C., in connection with the Women's Christian Temperance Union movement.

### CHRISTMAS SAILINGS BY CUNARD LINERS

C. A. Whitlock, British Columbia manager for the Cunard Line, is in the city to-day on business. Mr. Whitlock announced that the Christmas ship from New York this year will be the Aquitania, sailing December 11 for Southampton and Cherbourg. The Saxonia will leave Halifax December 10 for Plymouth and Hamburg. The Caronia will sail from New York December 10 for Mediterranean ports with cabin and third-class passengers.

### STEAMSHIP SANK AT DOCK WHEN SEACOCKS WERE BEING REPAIRED

New York, Oct. 12.—The Clyde Line steamship Lenape sank by the stern alongside Pier 35 in the North River yesterday when the engine force was unable to close several seacocks which were being repaired.

### MARINES NOTES

S. S. Chicago Maru, formerly operated in the North Pacific service of the Osaka Shosen Kaisha, is now in the Panama trade. The Chicago Maru reached Kobe October 4 from New Orleans via Galveston and Balboa.

Cargoes of Peruvian sugar will be transported by the General Steamship Corporation steamers Depue and Jephtha from Peruvian ports to Vancouver. The two ships are expected to reach Vancouver in November and will discharge at the B. C. Sugar Refinery.

The S. S. West Prospect has been chartered by Struthers & Dixon for the Oriental trade. She will load fuel oil and 2,000 tons of cotton at Wilmington, Cal., and later shift to San Francisco to take 1,000,000 feet of cedar logs and a shipment of street cars billed to Japan.

Chief Engineer Sam Codling, of the Admiral liner Keystone State, was complimented by United States Shipping Board inspectors on the cleanliness and neatness of the engine room, following the return of the liner from the Orient. Codling extended the praise to his assistants and the "oil gang" in the Keystone State.

The S. S. Keystone State is posted to sail November 5 on her next trans-Pacific voyage. While she is on this coast minor repairs will be effected and her smokestack probably lengthened.

### NIELSEN FLEET BACK TO PACIFIC

First Ships Built by Skinner & Eddy Plant Have Been Chartered

Seattle, Oct. 12.—Taken over by Dant & Russell, of Portland, Ore., on a time charter for one year, the first three carriers built by the famous Skinner & Eddy yard in Seattle—the Norwegian steamships Niels Nielson, Hanna Nielson and Luise Nielson—may return to the Pacific trade after a lengthy absence. The rate fixed by the time charter is \$1.10 a deadweight ton a month.

The Shipping Board recently chartered two steamships to the Pacific Steamship Company, the Admiral Line, on a bareboat basis for a period of eight months a month. Converted to a time charter basis, this rate, it is said by shipping men, compares favorably with the rate received by the three Norwegian steamships.

The Niels Nielson was the first carrier built by the Skinner & Eddy yard, being launched September 21, 1916, and delivered to the owners November 2. The Hanna Nielson followed, being launched October 21, 1916, and delivered December 22. The Luise Nielson was launched January 22, 1917, and delivered March 10. All are 3,800-tonners. The time chartering of the three vessels is regarded as the most important deals of the kind on the Coast since the close of the war. It was closed through the good offices of the B. C. F. A. It is understood that Dant & Russell will operate them out of Portland and San Francisco.

### VESSELS IN CARDIFF

All three vessels are now in Cardiff, Wales. They will load coal there for the French coast, and will be ready to load in Cardiff, according to the dispatch, and will sail for the Pacific Coast in a few days. Others will follow at intervals of one month.

Under a time charter, the owner of the ship keeps up the vessel, pays all wages, and buys the fuel and supplies. Under a bareboat basis, those expenses are borne by the charterer.

The British steamship Katherine Park was chartered yesterday in San Francisco to the Hongkong Dairy and Cold Storage Company is the principle firm of buyers. It will be through this prominent firm that the balance of the stock will be distributed after their arrival there.

Last year a shipment of bulls from a British Columbia herd was exported and met with the greatest satisfaction, and as a result another shipment of cattle has been ordered.

### NANAIMO NOTES

Nanaimo, B. C., October 12.—At a meeting of the Nanaimo Liberal Association held Monday evening twenty delegates were appointed to represent the Nanaimo City Electorate District at the convention to be held in Duncan on Saturday next to nominate a candidate to contest the Nanaimo Federal riding in the Liberal interests. Monday night's meeting consisted of the appointment of a committee of three to interview prospective local candidates for the nomination and submit the names of such to Thursday night's meeting which will select one of the number, and endeavor to secure his nomination at the Dominion convention.

The Oliver Lodge No. 102 Daughters of St. George held their regular meeting Monday night and after the usual business had been disposed of, Sister B. Follard presented Sister E. Wagstaff, W. P. P. D., with a past president's gold pin, on behalf of the lodge. A social session was then held, when Sister Eva M. Crutchley, whose wedding it was to take place shortly, was surprised with a miscellaneous shower.

Mr. R. Campbell-Johnston, mining and metallurgical engineer of Vancouver, met members of the Council and other business men in the council chambers last night and discussed the proposal of Mr. Fraser for a steel plant in Nanaimo.

A second division of the up-Island League was formed on Sunday last with eight clubs, and a call for referees is being made. As only four have passed the exams put forward by the B. C. F. A. there is no doubt going to be a big shortage of whistle handlers, so Messrs. McDonald and Adam are holding a meeting in the Board of Trade room Saturday night to receive any one whom would like to take up the examination.

Two teams from South Wellington and two teams from Nanaimo, namely, the Duvensons and the Celtics, have organized and entered the second division football league.

Mr. George Moore, of Strickland Street, returned at noon yesterday from Vancouver, where he attended the executive meeting of the Provincial Board of School Trustees.

### STEEL NAME OF WINNIPEG SCHOOL

Protests of Four Trustees Were Voted Down

Winnipeg, Oct. 12.—Protests by two Labor members of the Winnipeg School Board, James Simpkin and C. H. Becken, against a proposal to name a new school after the late Major-General Sir Sam Steele were voted down at a meeting of the Board last night. The Labor men, who were supported by two women trustees, Mrs. McCarthy and Mrs. Rose Aiken, opposed the plan on the ground that a military name would be perpetuated, they claimed, and was against the spirit of the times, when disarmament and peace were subjects of discussion.

### POLITICIANS

Phil R. Smith told the Labor nominating convention at Trades Hall last night that during his 30 years' experience in the radical movement, labor has not held together and until various elements get together and agree to harmonize it would be of no use putting a man in the field here again.

Other men arose and also said it was useless to enter a candidate, as he could not do any good even if he were elected.

"The present capitalist system is now crumbling, anyhow," they said. "The crisis will soon be reached. The existing economic system will collapse within three years."

After this it was decided not to put a man in the field until an investigation has been made of the possibilities of him getting some support. A committee of Phil R. Smith, W. E. Peirce and J. Eva was appointed to interview all factions of labor.

### GIANTS ARE AHEAD NOW

Polo Grounds, New York, Oct. 12.—(Associated Press).—The Giants won a nerve-racking pitchers' battle from the Yankees this afternoon by a score of 2 to 1. The spitballer, Douglas, won the under-handed finger, Mays, over Ward's error of an easy grounder. After two were out in the seventh, and Snyder's two-base hit laid the American League low. The series now stands: Giants, 4; Yankees, 3.

The official box score attached shows how the Giants celebrated Thanksgiving Day.

### MEN WILL DRILL FOR OIL SUPPLY IN TERRACE AREA

Prince Rupert, Oct. 12.—Oil drilling in Terrace will start soon, with the arrival of the drill outfit from Spokane which Boyle Brothers have brought here for shipment to Terrace.

### FAILED TO CHOOSE COMMONS CANDIDATE

Penticton, B. C., Oct. 12.—After discussing the political situation in all its phases from early Tuesday afternoon till 2.30 o'clock this morning, the Farmers' political convention failed to name a candidate. Five names were placed before the delegates, A. T. How, Vernon; Colonel Edgett, Vernon; Brig. General Harmon, Kelowna; L. W. Makowski, Armstrong; and T. J. Guinan. When financial affairs were brought up the convention locked horns and the deadlock was not broken until 2.30 o'clock, when the convention adjourned.

### TRAIN OFF TRACKS

Eganville, Ont., Oct. 12.—Two rear coaches of the G. T. R. Pembroke-Golden Lake train jumped the tracks at Dore Bay, five miles from here yesterday. Beyond a shaking-up and minor cuts from broken glass none of the passengers were injured.

### BANDITS CHASED BY VILLAGERS

#### Branch Bank in Manitoba Was Robbed

Winnipeg, Oct. 12.—The Bank of Hochelaga at Elie, thirty miles west of Winnipeg, was robbed of between \$40,000 and \$60,000 this afternoon by five heavily armed bandits, who afterwards escaped towards Winnipeg in a motor car.

The robbers held up the manager of the branch and his two clerks, both girls, and chloroformed them to permit of an easy escape. All three will recover.

Two miles and a half from Elie the bandits' car broke down and by that time the villagers were in pursuit. The robbers took to their heels through the countryside, carrying two big satchels filled with banknotes.

A. Bherer is the manager of the branch.

### Apple Prices

Apples are very popular at the wholesale houses, changing hands in short time, a few variations were noted, but these were of an upward motion, and jumped but a few cents. California grapefruit advanced a dollar over the old price, now being obtained at \$9 straight. Peaches are marked down at \$2.25 for the table variety. Cantaloupes came down a notch, cutting 50c off the old quotations. Malaga grapes, which were selling at market price, have secured a steady price of 18c. Raisins, black, have been in demand; the prices have advanced as a result, but the jump is of very minor quantity. To-day's quotations are as follows:

#### EGG SCARCITY NOTED ON MARKET

#### Fruits Have Numerous Changes; Apples in Demand

B. C. fresh eggs have become scarce in wholesale circles. Only yesterday they were selling at 70 cents a dozen, but prices along this line are very unsteady, and have been advancing steadily for the past five weeks. B. C. storage remained stationary and is effected very little so far. Special creamery butter grade 1 and 2 dropped a single cent to-day, while Kraft Canadian cheese bricks of the 5-lb type have dropped six cents. These are the only variations secured by the dairy section on wholesale row today.

New local potatoes registered a drop to-day. An advance in onions was marked along the vegetable row, to be secured by Okanagan per sack. Cucumbers are being picked up by the retailer at \$1.50 and 50c. Tomatoes are down a notch, dropping fifty cents. Peppers following in the trail with a 25c. reduction.

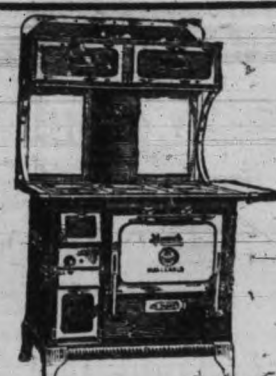

### TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, Oct. 12.—The local market, the American markets closed and the announcement of heavy receipts in sight, worked on a somewhat narrow range to-day. There was a fair cash demand for wheat and the premiums were 5 cents over for No. 1 Northern and 4 cents over for No. 2. No. 3 Northern was not wanted and the premium dropped to five cents under cash. Coarse grain prices were practically unchanged. The futures, both wheat and coarse grains, all closed lower. Wheat showed a drop of from 2 1/2 to 3 1/2 cents to 1 1/2, and rye 2 to 2 1/2 cents. Inspections totaled 1,985 cars, of which 897 were contract wheat. Two thousand cars are reported in sight.

**LIBERALS HOLD ANNUAL ELECTION**

Capt. M. D. Harbord New President; Hon. J. H. King Speaks

By a very close margin, in fact by a majority of one vote, Captain M. D. Harbord was selected last night as the president of the Victoria and District Liberal Association. Arthur Cox, who has been secretary of the central executive and has been for years connected with Liberal activities in the city was Captain Harbord's only opponent in the contest for the honor. Captain Harbord's friends worked hard to get his slate elected, and in this they were successful, his supporters turning out in full force. There was a large attendance at the meeting, which was held in the Liberal Club auditorium. The balance of the officers elected were as follows:

Honorary Presidents, Hon. W. L. Mackenzie King, Hon. John Oliver, Hon. John Hart, J. B. Clearhue, M. P. P. William Ivel, H. C. Hall, A. B. Frazer and Dr. Lewis Hall; 1st vice-president, Frank Carlow; 2nd vice-president, Henry Norman; 3rd vice-president, Mrs. E. N. Laing; secretary, A. W. Staples and treasurer, L. U. Conyers.

William McKinnon Ivel, Liberal candidate in the Federal election, before retiring from the presidency gave a report of the past year's work during which he referred to the visit to this coast of Hon. W. L. Mackenzie King, the Liberal Leader, and the latter's keen perception as to the necessities for development here and the vast opportunities that lay before the Pacific Coast section of the great Dominion. Mr. King was amazed at the \$5,000,000 breakwater and outlet dock investment which was allowed to lie stagnant and unproductive.

Messrs. Ivel, Cox and the balance of the retiring officers were given a very hearty vote of thanks for their faithful and untiring services during the past year.

**Important Issues.**  
The Meighen forces were trying to blind the people as to the many important issues confronting the people of Canada to-day, said Hon. J. H. King, Minister of Public Works, who addressed the meeting. The inability of Premier Meighen to run successful by-elections was sufficient indication of what the result would be at the forthcoming poll.

The Meighen Government was trying to keep the public eye fixed on the tariff question but that is not by any means all that confronts the country, Meighen says. We are free traders, which he knows is not true. We believe in the tariff revision and the people of Canada will demand on December 6 next that there be a tariff revision. We do not want a tariff wall about the country. We must trade with other countries on a fair and equitable basis.

However, apart from the tariff, we never hear anything about the railways of the 23,000 miles of railway taken over by the Meighen Government without authority from the people and the consequent annual loss of between eighty and one hundred millions of dollars.

**Development of Resources.**  
As a new country the development of our resources is one of the most important. We need people to come here to open up our enormous reserves. Before 1850 our own people were actually leaving Canada. During Sir Wilfrid Laurier's term this was changed, yet we are again to-day faced with the same problem and thousands of our young men have been forced to go across the border to earn a living. The only way to save Canada from this railway situation is to

**CONVINCING PROOF**

That Lydia E. Pinkham's Vegetable Compound Has Extraordinary Healing Power in Case of Woman's Ailments

Columbus, O.—"I suffered very much pain during my periods and felt weak and all run down. I tried many remedies and the doctor said I would have an operation. Then before my baby was born I had terrible pains in my sides. I took Lydia E. Pinkham's Vegetable Compound and it helped me wonderfully. I have had two children since I began taking your medicine and did all of my own work including washing and ironing. This letter is a testimonial if you wish."  
—Mrs. Thomas L. Christy, 704 West Mount St., Columbus, Ohio.

Such a condition as Mrs. Christy was in points directly to the derangement of a woman's system, and by following her example taking Lydia E. Pinkham's Vegetable Compound, women may be relieved from such ailments and be restored to normal health and strength just as she was.

If there is anything about your condition you do not understand, write Lydia E. Pinkham, Medicine Co., Lynn, Mass., about your health. (ADVT.)  
get people to come in and develop the resources of the country. But do we bear Mr. Meighen discharging any of these important matters? No.  
"Mr. Meighen's tariff policy will be to protect a few industrial interests. What we want is protection for the whole people—not for a few small favored sections," declared Dr. King. The speaker referred to a friendly letter from Hon. Dr. Meighen, candidate in Victoria. "But the doctor's days as Minister of Agriculture are about over, because his position will go with the Meighen Government. We should have a representative at Ottawa who is in sympathy with the Government in power, and it is not boastful to say that it will be a Liberal Government when we consider the situation in Eastern Canada, where it is impossible for Mr. Meighen to succeed. You have seen members breaking away from the Government and forming all sorts of parties, which would certainly not be satisfactory at Ottawa," concluded Dr. King.

Man, Wife and Daughter All Report Remarkable Gains in Weight

"I gained 12 pounds, my wife gained 26 pounds and my daughter is gaining day by day taking Tania's. This is the biggest success since we all our friends and neighbors are talking about it. This medicine has made a wonderful change in every one of us. Before I got Tania, I could hardly drag one foot after the other. I had indigestion perfectly awful. In fact we were all regular dyspeptics. We all wear by Tania now at our house. It ought to be every home. It's the world's greatest family medicine."  
The above statement was made by George L. Teasly, a well-known and highly respected machinist, living at 83 Downing Street, Buffalo, N. Y.  
Tania is sold in Victoria by D. E. Campbell and other Druggists. Advt.

**REALTY MEN WILL INCREASE MEMBERS**

Real Estate Board to Include Property Owners

As a means of promoting better understanding and the highest degree of co-operation between realty agents and property owners, the Real Estate Board of Victoria at its quarterly meeting last night decided to extend its membership to include associate members made up of property owners.  
It is believed that a great many of the difficulties with which property owners are confronted will be overcome through this means and needless to say the Real Estate Board will expand very rapidly and its sphere of usefulness will become even greater than as at present. All property owners in the city and surrounding districts will be invited to join. Fair rentals and a square deal all around with due consideration for tenant and owner was a subject discussed by Secretary Harold D. Paterson.  
**Reverted Land Sale.**  
With regard to the city's proposed auction sale of reverted property, it was the opinion of the executive committee that if the members of the board advertised and conducted sale by expert real estate auctioneers the sale would be a success. It was the opinion of a majority of the members that no upset price should be fixed, their views on the subject in this respect being more particularly applicable to residential property, and not inside business property.  
It was also the opinion of the members that only a limited quantity of the property should be placed on the market at any one time. A committee comprising President Alfred Carmichael and John Musgrave was appointed to confer with the Reverted Land Commissioner of the city and to advise along these lines.  
President Alfred Carmichael was in the chair, and the meeting was a very enthusiastic one.

**SPEAKS HIGHLY OF THE FUTURE OF MACKENZIE BASIN**

Peace River Resident Here After Northern Exploratory Tour

After a personal inspection of the route proposed for the extension of steel from Peace River Crossing, Alta., into the Mackenzie River district, in order to provide transportation facilities for the oil fields, H. A. George, a broker of Peace River, Alberta, is satisfied that the best route, to avoid the portages necessary to escape the rapids on the Slave and Peace Rivers, and the storms on the Great Slave Lake, would be a railway northwesterly from Peace River by way of the Hay River to the Mackenzie River, near Fort Norman.

Mr. George was at the Dominion Hotel yesterday with H. G. A. McLennan, a Vancouver broker, and he explained the situation to The Times in a statement on his recent tour of the country.

His argument is that the present routes to Fort Smith via Peace River Crossing or Fort McMurray, entailing portages around the rapids, and about 100 miles of open water on the Slave and Mackenzie Rivers, could be avoided by an extension of 400 miles through typical prairie land via the Hay River, which would be the only large river, across, such extension continuing the existing railway grade north of the town of Peace River. Mr. George has travelled over this country in company with J. Homer Johnston, D. L. S., during this year, leaving Peace River by canoe on April 25 and reaching Fort Norman on June 4 after an arduous trip.

The cost of the railway is estimated at from \$10,000,000 to \$12,000,000, and would serve the whole basin of the Mackenzie, not only the oil fields at Fort Norman, Slave Lake, and Pine Point, but the agricultural and mining area, which is opening up here.

The barge staked large holdings, about 2,200 acres, in the heart of the holdings of the Imperial Oil Company, for the syndicate with which Mr. George is connected, and found development of a steady character taking place in the far north. He described the journey briefly as follows:

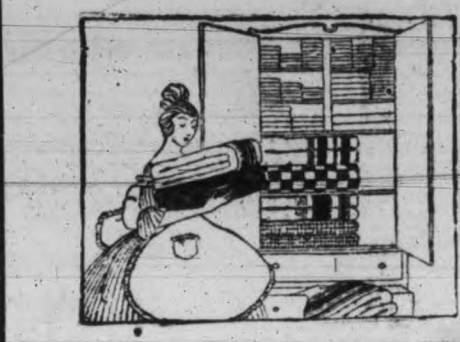

"We came down the Peace River to Carcajou Point. We stayed there two days, finding the season well advanced at this point with the grass fully three inches high.  
**Across Country.**  
"From this point we went over the Keg River portage, finding the road had and having a very difficult time with our 1,500 pounds of freight and a 20-foot canvas-covered Peterson canoe. We made the 45 miles across to the Chinchaga River, a tributary of the Hay, arriving there on May 6.

"We found the Chinchaga a fine stream, from 200 to 300 feet wide, with lots of water, fairly swift, but easy navigable, though with some led rapids that have to be watched pretty carefully. The river flows through a belt of spruce.  
"We travelled down the Chinchaga and the Hay rivers, arriving at the Upper Hay River post on May 8. We found the Hudson Bay Co. store well stocked here, in fact we could have stocked up at this point with everything required for the trip, with the exception of the canoe. Travelling from the Hay River to the Upper Hay River is a portage of two miles, and thence 45 miles on down every home. It's the world's greatest family medicine."

Leaving Hay River in the evening of May 15 we were eight days going around the shore of the lake and to

THE CANDY MINT WITH THE HOLE  
PEP-O-MINT WINT-O-GREEN CL-O-V E LIC-O-RICE CINN-O-MON

**5¢ ON SALE EVERYWHERE**

The pure tinfoil Life Saver package is a simple thing—but it guarantees the fresh crispness of every Life Saver, to the last one in the package.

As you remove one or more Life Savers from a package, by a gentle pressure of the thumb nail between the mints, re-seal the package by folding back the slightly torn tinfoil.

You can carry them for any length of time and find their palate-pleasing flavor as satisfying as when you munched the first one. Buy Life Savers wherever candies are sold.
