

## The Crisis

If Baby is just too weak to pull through, how regretful you would feel if you had failed to build up its strength against the crisis!

Make Baby strong now by giving VIROL, which arrests wasting, enriches the blood cells that protect against infection, and builds a sound constitution.

# VIROL

Suits Baby's powers of assimilation.

Sole Importers: BOVRIL, LTD., 2725, Park Avenue, Montreal.

### HUDSON BAY RAILWAY

Winnipeg, Feb. 23.—The first organized step in Manitoba to bring about completion of the Hudson Bay Railway was taken here yesterday

In the formation of the "On to the Bay Association," composed of leading citizens of Winnipeg. Premier Bracken was elected honorary president, and ex-Mayor C. F. Gray, Provincial president.

## Vancouver Island News

### SUGGEST HOSPITAL AT COWICHAN LAKE

Representatives of Logging Interests Meet at Riverside Inn

Hospital Association is Formed Meanwhile

Special to The Times

Lake Cowichan, B.C., Feb. 22.—A new Chimax locomotive for the McDonald and Murphy Logging Co. was brought up last week over the E. & N. railway. It has been put in shape for work, and on Tuesday three carloads of equipment were taken up for the new operations on the Robertson River railway. The new camp, which consists of five or six 20 x 40 ft. buildings, built at the foot of the lake, will be moved up next week on flat cars.

T. Noble, who has been operating under contract with the James Logging Co., with a crew of sixteen men and two donkey engines, reports that he expects to finish his contract in the vicinity of the Narrows within three weeks. The cut consists of one and a half million feet, half a million of which is already in the water.

On Tuesday night some of the logging operators organized a meeting at the Riverside Inn in order to discuss the feasibility of building a hospital at the foot of the lake. Residents of the "Lake" were invited to attend, and give their views and suggestions on the subject.

A \$20,000 hospital was discussed. The government would pay a third of this if approved, and if assured that the hospital will be self-supporting after it has been established.

## THEY TELL THEIR NEIGHBORS

### Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down-feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to their neighbors. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

### Introducing the New Season

Springtime! Just the magic word in itself awakens in you a real sheer joy in living.

It means a new world full of new things. In the store it means the revealing of new styles and fresh merchandise. All that is new for Spring will greet you here.

### All Set for Spring—the Mannish Tailleur

Slim, straight suits, severely tailored, smartly chic and becoming, are here in a number of fashion-right adaptations, fine twills, covertis-pin stripes, and sports fabrics fashion these new suits. All are very moderately priced—and await your inspection here.

### Priced From \$25.00

View Window Displays

The pattern on the floor is Congoleum Art-Rug No. 321—a delightful Oriental design in which tan predominates. The 9 x 15-foot size costs but \$22.50.

"Oh I never mind now, if Buster does drop things on the floor"

The baby may drop things ever so often, liquids may spill, but with a sanitary Gold-Seal Congoleum Art-Rug on the dining-room floor these little household accidents are the least of mother's worries.

**Easily Cleaned**—Most floor-coverings have to be vigorously swept or beaten. But Gold-Seal Congoleum Art-Rugs are cleaned by just a few strokes of a damp mop. One, two, three—the cleaning's all done and the rug is absolutely spotless and fresh as new.

**Patterns for Every Room**—Housewives all over the Dominion have found Gold-Seal Congoleum Art-Rugs amazingly practical for year-round use all through the house. The variety of artistic designs make it easy to find one appropriate for any room. There are rich Oriental creations for living and dining rooms, dainty floral effects for bedrooms and simple conventional patterns for kitchens, pantries and bathrooms.

**Seamless—Need No Fastening**—They are made all in one piece and lie perfectly flat on the floor without fastenings.

No other printed floor-covering is so easily cleaned—so good to look at—so long lived and at the same time so inexpensive—as these guaranteed Gold-Seal Congoleum Art-Rugs. Be sure to see them at your dealer's.

### BRIDGE EVENING PROVES SUCCESS

Special to The Times

Duncan, Feb. 22.—The "bridge" evening arranged and carried out by some of the members of the Cowichan Golf Club committee proved a great success on Thursday evening.

Mr. and Mrs. Kenneth Duncan, kindly lent their pretty home for the occasion, and fifteen ladies were present. A delicious supper was served about 11 o'clock, after which the guests continued playing until nearly 1 o'clock.

Those principally responsible for the affair were: Mesdames K. F. Duncan, J. S. Robinson, W. B. Harper, F. Price and Miss K. Robertson.

The concert and dance given by the Vimy Women's Institute on Thursday evening was particularly delightful affair, everyone present seeming to have a really good time.

W. S. Robinson made an efficient chairman, and announced the different items on the programme, which had been arranged by Mrs. T. S. Robson and Mrs. J. Lamont. The Hawaiian quartet (Instruments) given by the Misses and Master Howe, gained much applause, and songs by Miss Daisy Savage, May Tombs and Mrs. Peter Campbell were enthusiastically encored. Miss Baxter and Bernard Ryall acted as accompanists.

The Institute is giving entertainments to pay for the material for the new kitchen added to the Community Hall, and this kitchen was used for the first time in preparing the dinner of Mrs. Jessup, and proved a most useful adjunct to the building.

### CHILD WELFARE CLUB

Special to The Times

Luxton, Feb. 22.—The Child's Welfare Club has been formed in the Luxton and Happy Valley District under the supervision of the Cowichan Welfare Committee of the Luxton and Happy Valley Women's Institute, Miss H. G. Kelly, who is also the Public Health nurse in charge of the Esquimalt Rural Nursing Service.

The sympathy of neighbors and friends is extended to Mrs. Worsley, of Colwood, who yesterday received the news of the sudden death of her mother, Mrs. Paul, who had been residing in Victoria since last summer, but whose permanent home was in Vancouver.

Mrs. Paul came to visit her daughter last summer, when she was seized with a stroke, but from which she recovered and took up her residence for a time in Victoria. The body will be removed to Vancouver where the remains will be cremated.

### Natural Flavor Counts Here

The value of first-hand information is that we learn direct from women themselves why they do or do not use Made-in-British-Columbia milk. One woman recently from Ontario, does not like Pacific Milk because it has not enough "taste." This taste in canned milk is the objectionable feature to the most people. Pacific "tastes" like cream.

Pacific Milk Co., Limited  
328 DRAKE STREET  
VANCOUVER  
Factories at Ladner and Abbotsford, B.C.

### Spring Colors

**Navy Blue**—Is important for frocks of twill, for the smart three-quarter length coat, or the costume suit. The severe tailleur is very practical and smart, of navy blue.

**Brickdust**—One of the new red tones which is blazing its way down the Fashion highway. Popular for sports frocks, particularly. It's almost the shade of brick, a bit lighter.

**Porcelain**—A soft blue, somewhat like the old Dresden blues, with a bit of greenish cast. Lovely enough and bright enough to receive a smart welcome by many women this Spring.

**Artichoke**—A new shade of green which is receiving rapid recognition. It is darker than the almond green which is a carry-over from last season, lighter than moss green. Sports dresses and frocks for informal wear in this shade are very popular.

**Oriental Red**—Reds are among Fashion's favorites this Spring, and Oriental Red, a lovely dull Chinese red—a cross between lacquer and brilliant Chinese red—top the list.

### The New Frocks Achieve Straight Lines

Considering every phase of the Spring wardrobe, a fashion-right Coat must be one of your first Spring considerations. There are Sports Coats of camel's hair; plaid and tiger striped woollens. There are street coats of fine twills; all shown in the new season's most favored colors, and at prices that will prove most interesting.

### Coats—in Three-quarter and Shorter Lengths

The newest Frocks have straight slim lines. But their pencil-like severity is relieved this Spring by panels, cascades and some cape effects, gay touches of embroidery, the mandarin collar and other novel effects contribute to their beauty. You will find again charming styles here for street and afternoon wear.

Priced from ..... \$19.50

### This Spring

Flowing Vells are very smart. They fall in graceful folds and their delicate embroidered patterns are very lovely. Then, too, there are close fitting vells for windy days.

At Very Moderate Prices

Finishing Touches

It is a woman's choice of the little things that betrays her good taste. View our displays of the new Spring accessories.

### MASQUERADE DANCE

Special to The Times

Cowichan Lake, Feb. 22.—Very successful was the masquerade dance held at the Lake-Cowichan Restaurant on Saturday. A large number were present and the costumes were many and varied and showed much originality. The judges were: Mrs. J. K. Gillespie, Mrs. Lomas and Mr. C. R. Lewis. After careful consideration the prizes were awarded to the satisfaction of everybody.

Ladies, best dressed—Miss M. Lockwood as a lady of the harem; best sustained character, Miss W. White, if Winter Comes; best comic character, Mrs. R. Carr, little girl, Men, best dressed—Mr. J. Cello (Lady-smith), Turkish costume; best sustained character, Mr. W. Grusskiag, professor; best comic character, Mr. H. Sandstrum, zulu chief. The music was supplied by Mrs. G. K. Gillespie, Mrs. McCall, Messrs F. Scoley, P. Beasley, E. Pourier, R. Carr, E. Ried, E. McCall and S. Scholey. Among the other costumes were: Mrs. Sydney Scholey, pierrette; Mrs. F. Reid, Swiss lady; Mrs. C. Swanson, French maid; Miss Edith Swanson, gipsy; Mrs. W. Ethel Swanson, nurse; Mrs. W. Grusskiag, gypsy; Mrs. R. Beech, night; Miss Joyce, little girl; Miss E. A. Pourier, powder puffs; Mrs. E. L. Scholey, lady; Geo. Johnson, clown; E. Marely, Chinaman; Mr. A. Lockwood, somnambulist, and many others. Supper was served after the judging.

Mrs. E. S. Lomas is visiting her daughter, Mrs. Harcourt Sunderland, Quamichan Lake.

George Johnson has purchased a car and is now overhauling it. He is enlarging his garage, and workshop, which he has built on Riverside Drive.

The Hatchery staff has gone up to the different creeks for the trout fishing in order to obtain the usual supply of ova for the Hatchery.

Published Every Afternoon Except Sunday by THE TIMES PRINTING AND PUBLISHING COMPANY, LIMITED

Subscription Rates: City Delivery \$1.00 per month; By Mail (exclusive of City) Canada, Great Britain and United States \$4.00 per annum

REAL ECONOMY

No mistake has been made by the City Council in voting \$20,000 to the Victoria and Island Publicity Bureau with the promise of another \$5,000 if a like amount shall be forthcoming from elsewhere.

CANADA'S HELP VALUABLE

Although the day is fast approaching when more general travel by air will cease to be regarded as a novelty, the part which Canada has been asked to play in connection with the forthcoming race round the world will stimulate more than usual interest in aerial development.

In this part of the world we have been obliged to satisfy ourselves with an occasional glimpse of purely official aircraft. That is to say the Government's planes at Jericho Beach, or the aerial mail boat from the other side of the line, are our only tangible reminders of the rapid pace in which the world continues to move.

REVENUE PRODUCERS

We agree with The Manitoba Free Press that abstention from the spending of money is not the only means of effecting national or any other economies. It contends that while it might not be feasible for the Ottawa Government to agree to all the expenditures upon public works which are represented by the various applications for appropriations from this Coast.

of the Interior the completion of that branch of the national road which is to connect Kamloops with the Okanagan Valley is, and has been for the last ten years, a matter of first importance.

CAPITAL MOVING

If it had not been for the general economic dislocation as a result of the war the amount of British capital invested in this Province would have been considerably greater than it is now.

In this connection it is highly gratifying to the people of this Province to know that the British Columbia Electric Railway Company has got into a new stride and intends to spend something like \$4,500,000 on the Mainland and \$500,000 on this Island.

THE ONLY WAY

Mr. Ramsay MacDonald's Government intends to inaugurate a new method for dealing with ex-servicemen who are suffering from tuberculosis. The Minister of Health announces a plan whereby six months before an ex-soldier's discharge from a sanatorium officers in their home areas will be ordered to investigate and see that the ex-soldier's home conditions are such as to give a good chance of recovery and the employment offices are furnished with a list of occupations suitable for him.

Note and Comment

To-day is the last day for registration on the provincial voters' list. Have you seen to it?

One correspondent in London sees about half a dozen more strikes in the offing in Britain. The miners are talking strike again. This is their time of year.

Mr. Oliver has received twenty-five dollars of conscience money from a former road worker in payment for tools which he confesses to have "borrowed." At least this shows a nice sense of propriety.

Ottawa is to be asked to deport all I.W.O. organizers and prevent others from getting into the country. The first might be simple; but the second idea might be difficult to carry out.

The Cariboo is going to have a real roundup of wild horses this Spring. Now here is a good chance for a movie enterprise. A subject of this kind would appeal to the adventurous spirit of the British race.

Australia's High Commissioner objects to the doleful stories sent back to Great Britain by some British immigrants similar to those sent from Canada. It might be advisable for both countries to find out just what sinister agency is at the back of what looks like some sort of campaign.

Some Thoughts for To-day

Many things difficult to design prove easy to performance.

Oh blindness to the future! kindly given, That each may fill the circle marked by heaven's; Who sees with equal eye, as God of all, A hero perish, or a sparrow fall.

Dewdrops, Nature's tears, which she Sheds in her own breast for the fair which die. The sun insists on gladness; but at night, When his is gone, poor Nature loves to weep.

Our Contemporaries

BEFORE AND AFTER TAKING Halifax Chronicle:—Mr. Ramsay MacDonald recommends "porridge and plainness" for ex-premiers. But he has been only a few days in office. His ideas may be greatly modified before the end of his term. But anyway porridge is a national institution.

PREFERENCES "DRY" AND "WET" Mail and Empire:—Manitoba has made so much money out of liquor sales that it may abolish the provincial income tax this year. The "drys" may find the present liquor law has one advantage, but the "wets" might prefer a reduction in the vendors' prices.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and to the point. They should be sent to the Editor, not to the printer, and should be accompanied by a return address.

HELP THE CHILDREN

To the Editor:—Having read "A Tramp's" letter to your paper, re "The Children's Aid Home," stirred up my thoughts (not too dormant).

I do not know anything about the above named institution, though I have heard of it from time to time. "A Tramp" has surely touched the right key by saying "Charity begins at home." Does it? I do not begrudge the amount tagged for the children, but I do most surely begrudge the wanton spending on May Queens.

SINGLE TAX

To the Editor:—It is surely time that those anxious for the progress of the south end of this Island begin to assist themselves and cease neither day nor night to point out our glaring handicaps. One of the first of these is the Sanich tax system. As this system works out a comparison might be made as follows:

PULPWOOD EXPORTS

To the Editor:—The Pulpwood Commission will sit in Victoria on Friday next. There are many well intentioned citizens who are advocating a total embargo on pulpwood exports independent of the conditions of the Sanich export tax. An embargo will force American money to build paper mills in Canada.

SUPERANNUATION

Editor:—Re superannuation civic employees, salient features are: 1.—The cost unknown, but almost certain to be \$40,000 per year.

Mir's Wellington

similarity, because he only gets temporary employment must get along on \$3.75 a day, lacks consistency and becomes a conundrum.

Instead of adding to our financial difficulties by increasing them, this needless additional burden cannot be justified. It is to be hoped that the Council will develop sufficient stamina to take action on the lines of the recent public declaration of Mr. A. D. Crease to the effect that the law only requires free education to the 16th birthday of the scholar, which would seem to enable the council to resist the excessive demands of the school trustees beyond that point.

NO WASTAGE IN B.C. FORESTS

Impossible to Profitably Take Out Small Material Charges of waste of small material in British Columbia logging camps were strenuously denied by loggers at the Federal pulpwood inquiry yesterday afternoon.

REVENUE PRODUCERS

We agree with The Manitoba Free Press that abstention from the spending of money is not the only means of effecting national or any other economies. It contends that while it might not be feasible for the Ottawa Government to agree to all the expenditures upon public works which are represented by the various applications for appropriations from this Coast.

lumber in recent years. If the government set timber laws for a definite number of years—say fifteen, he believed \$1,000,000 worth of capital would come to British Columbia.

Manufacturers on the coast were in a better position to get their logs than manufacturers in the interior. W. E. Cathels recalled, said that portion of the wastage in the woods would be caused by snags, trees which had commenced to die and which the saw mills could not manufacture into lumber.

NEWS IN BRIEF

Mrs. Justice Macdonald, of Winnipeg, is visiting the city. He is registered at the Empress Hotel. A garage permit has been issued to Mrs. R. G. Coombe at 155 Linden Avenue.

Y.M.C.A. DIRECTORS PLAN PROGRESSIVE POLICY THIS YEAR Seek to Clean up Financial Status of Association and Wipe Off Deficits

Dr. M. W. Thomas, president of the Young Men's Christian Association, stated to The Times to-day that the directors had been giving most careful consideration to the question of an advance movement in the Y.M.C.A. work in Victoria.

SYNOD REPORT ADVOCATES SALE OF BEER BY GLASS

The advocates of this urge that thereby the sale of hard liquor and the utterly pernicious practice of drinking in hotel bedrooms would be decreased; the amount of beer in club lockers would be lessened; the temptation to remove alcoholic liquors from clubs would be neutralized; and the activity of the boot-legger curtailed—in a word, publicity would be a safeguard against excessive drinking.

CAREFUL LICENSING

If such facilities be given, great care should be taken to grant licenses only to men of proved integrity, and to limit strictly the number of such licenses. We recognize the wisdom of the Legislature in proposing to attach licenses to the freehold of the licensed premises; misconduct causing such licenses to be revoked. The reaction of the human element to legislation of all kinds (and particularly to what is called temperance legislation) is proverbially difficult to forecast with accuracy.

DISTRESS IS STILL RIFE IN BALKANS Victoria Has Raised \$5,100 But More Still Needed Says Cable

While the assistance being rendered by Canada to famine-stricken freezing women and children of Eastern Europe is appreciated—more than words can express—yet those in charge at headquarters continue to appeal for help. The numbers of the needy run up into the hundreds of thousands and only a fraction of the funds are being met.

CITY WIRING IS SUBJECT OF CHARGE IN POLICE COURT

Arising out of attention drawn to the condition of house wiring in the city through the Fort Street electrocution fatality, recently, the City Council has decided to prosecute in the first of a series of charges to be brought, it is understood, against electricians in connection with permit regulations.

FATALITY DRAWS ATTENTION TO SYSTEM OF WIRING PERMITS

The remains of the late Miss Devina Patterson were laid to rest yesterday afternoon at Ross Bay Cemetery, service being conducted in the B.C. Funeral Chapel by the Rev. W. L. Macrae, in the presence of many friends.

OBITUARY

The remains of the late Mrs. Sarah Margaret Paul who passed away at the family residence on Wednesday evening were forwarded by the Thomson Funeral Home this afternoon to Seattle for cremation.

At St. John's Church on Monday evening G. Jennings Burnett, the organist, will give an organ recital, assisted by Miss Eleanor Barfoot, L.R.A.M., Miss Ada Wise, Miss Jessie Carter, Mr. Roberts and the choir.

PREDICTS CHURCH UNION RULING BY PRIVY COUNCIL

London, Ont., Feb. 23.—Rev. James McKay, head of the Presbyterian Church Association of London, predicts the battle against church union will eventually be taken to the foot of the throne.

"THE HEREAFTER"

The Victoria Theosophical Society will hold a public meeting on Sunday evening at 8 o'clock in the rooms, 101 Union Bank Building.

PASTOR RECEIVES CALL

Montreal, Feb. 23.—A tentative call by cable has been received by Rev. Dr. Duncan, pastor of St. Paul's Church.

Times Sunday School Lesson

BY REV. GEO. C. PIDGEON, D.D. REVIVAL UNDER SAMUEL I Samuel, Chapters 1 to 17

Sir Joshua Reynolds' picture of the Child Samuel represents him as responding to the call of Jehovah—Speak, Lord, for thy servant heareth.

I Back of Samuel's call was his mother's dedication of his life to the Lord. He was a child of prayer, and was consecrated to the Lord from his mother's womb.

Instances of this possibility abound. Moses at forty chooses the faith he had learned in infancy.

Second, he forced righteousness in the nation. It is necessary for a ruler to be a man of unimpeachable integrity.

When we recapitulate our advantages of scenery we are apt to overlook the beauties of our skies. It is true we lack the intense blue of the sky as seen from our prairies.

ing and everchanging red, compounded of ruby and wild rose, the Olympic Mountains. To watch the fading color pass to the purple of night against which the twinkling lights of Port Angeles come out like sentry stars is to feel something of what Browning describes:

CHILDREN'S SERVICE PLANNED ON SUNDAY

Dr. Clem Davies' morning messages on "What is God?" which will be continuing on Sunday next, are causing much comment among the congregation.

Crowds continue to gather for the evening service at 6:30 p.m., the church being filled to capacity last Sunday before seven o'clock.

A new feature introduced last Sunday was the service in the Sunday school room for children only.

The question box, which this week is extensive, follows: "Does a young woman improve her prospects of marriage by a College education?"

"What does a man admire most in a woman?" "Will the girls of to-day make as good wives and mothers as their grandmothers did?"

"What incomes do you advise young people to marry on?" "Should a man of sixty be laid on the shelf?"

"Is it right to avoid people you don't like?" "Should a woman receive half her husband's earnings?"

"Do you believe that a person's character is revealed in their hand writing?" "At what period is a woman most beautiful?"

"Are married men or single men the best workers?" "Who saves the most money—the married or the single man?"

"By what standard do you judge the common sense of a young woman?" "What is the psychology of understanding?"

"Are long engagements a guarantee of a happy marriage?" "Do men prefer beauty to brains?"

diverence from the Philistines. (I Samuel vii). The national spirit was awakening. Bands of prophets were roaming through the country.

When we recapitulate our advantages of scenery we are apt to overlook the beauties of our skies. It is true we lack the intense blue of the sky as seen from our prairies.

FIELD AND WOODLAND NATURE NOTES

BY ROBERT CONNELL DANDELIONS

I saw my first dandelion flower at Sidney last Sunday, and could not help noticing what a beautiful thing it was.

Crowds continue to gather for the evening service at 6:30 p.m., the church being filled to capacity last Sunday before seven o'clock.

A new feature introduced last Sunday was the service in the Sunday school room for children only.

The question box, which this week is extensive, follows: "Does a young woman improve her prospects of marriage by a College education?"

"What does a man admire most in a woman?" "Will the girls of to-day make as good wives and mothers as their grandmothers did?"

"What incomes do you advise young people to marry on?" "Should a man of sixty be laid on the shelf?"

"Is it right to avoid people you don't like?" "Should a woman receive half her husband's earnings?"

"Do you believe that a person's character is revealed in their hand writing?" "At what period is a woman most beautiful?"

LAWYERS TO HAVE CHURCH

Hardin, Mont., Feb. 23.—A church dedicated to lawyers is to be built here. Originally started by local home-steaders who were forced to abandon the project because of poor crops.

On Sunday morning the soloist at St. Columba Presbyterian Church will be Mr. Ruffin, who will render "Softly and Tenderly Jesus is Calling."

The Rev. John Antle, of the Columbia Coast Mission, will preach on the work of the Mission at St. Barnabas' Church on Sunday morning at the 11 o'clock service.

Sidney Confident Abandoned Plant Will be Utilized Sidney, Feb. 23.—The oil refinery for Sidney is now practically assured.

The North Saanich Women's Institute started a millinery class in Matthews' Hall on Friday afternoon.

A meeting of the Parent-Teacher Association was held in the school on Wednesday evening.

Special to The Times The monthly meeting of the Shawanigan Lake and Cobble Hill Branch of the Duncan Board of Trade was held in the S.L.A.A. Hall on Wednesday evening.

When we recapitulate our advantages of scenery we are apt to overlook the beauties of our skies. It is true we lack the intense blue of the sky as seen from our prairies.

ing and everchanging red, compounded of ruby and wild rose, the Olympic Mountains. To watch the fading color pass to the purple of night against which the twinkling lights of Port Angeles come out like sentry stars is to feel something of what Browning describes:

Just when we are safest, there's a sunset touch— "And that's enough for fifty hopes and fears— "As old and new at once as nature's soul— "To adore and kneel and enter in our soul."

MUSICAL RECITAL

The sacred musical recital to be given at the First Congregational Church to-morrow evening, will be of exceptional interest and the programme will include two solos by Mrs. Mary McCoy Jameson.

On Tuesday, February 26, at 8 p.m. a concert for music lovers will be held in the Esquimalt Methodist Church.

On Thursday the heads of the Dominion refineries inspected the old plant of the Sidney Rubber Roofing.

**AUSTRALIA ALSO SUFFERS.**—Sir Joseph Cook, Australian High Commissioner in London, complains that doleful stories sent back to Great Britain by some immigrants are harming immigration to that country.

**BIGGEST SUBMARINE NOW ON LONGEST PEACE TRIP.**—Here is the famous British submarine K-26, in reality a submarine cruiser, the biggest of its type in the world. It is at present on a 10,000-mile cruise, unaccompanied, to the Orient. For the whole time the sub is moving most of her crew will be under water.

**END OF A PERFECT DAY—FOR GUARDS.**—Here is the end of the riot staged by 100 prisoners at Western Penitentiary, Pittsburgh, Pa.—return of the quelled mutineers to their cells. The men with their hands elevated are the ringleaders in the two-hour fight, during which two prison officials were killed and rocks, guns, clubs, tear bombs and fire hose were used.

**AFTER HUSKIES.**—Capt. Frank Doudera, American big game hunter, has completed a month's stay in Northern Ontario, during which period he bagged two large timber wolves.

**PRINCESS.**—She looks like a doll but is a real princess. Her name is Antoinette and she is the daughter of Princess Charlotte of Monaco.

**BURIAL OF ELEVEN POISON VICTIMS.**—These coffins contain the bodies of ten adults, and a baby, locked in death's embrace in the arms of its mother. They were stricken by botulism, a poison, after eating canned beans served at a dinner given by Reinhold Garber, at Albany, Ore. Joint funeral services from the same church were held for the victims.

**WILL TRY TO FLY THE ATLANTIC.**—Photo above is that of the de Monge aeroplane, a new French model. A larger model, with a wingspread of thirty meters or over, will be built. This larger type will attempt next Summer to fly the Atlantic. Louis de Monge is the designer.

**ARRESTED.**—Mrs. Asa G. Candler (above), of Atlanta, Ga., wife of the Coca-Cola king, was arrested by police who raided a fashionable apartment. Arrested with her, police say, was William J. Stoddard (lower photo), wealthy business man.

**NOT WORRYING.**—William Gibbs McAdoo appeared voluntarily before the Senate Lands Committee to explain his connection with E. L. Doheny, oil magnate. He is shown posing for cameramen after coming from the committee-room in Senate Office Building. McAdoo says he's going to stay in the presidential race.

**TO BEAR IT IN MIND.**—These life-like-looking black Ontario bears comprise a part of the extensive pictorial exhibition which the University of Toronto has forwarded to London to be placed on display in the Canadian Section of the British Empire exhibition. To impress the university on the minds of the thousands of visitors who will be seeing the exhibit, as "Ontario's most valuable asset," is the aim of the publicity effort.

**SICK.**—Madame Tetrakini, world-famous operatic star, is seriously ill in Italy.

**REALLY RUNS.**—The license plate is almost as large as her automobile, but Miss Mary Bay likes her car because it is easy to park. Miss Bay is shown braving the traffic of Washington.

**TAKES MONEY ACROSS OCEAN.**—She was born in Chicago, but now lives in a Scotland castle. So Gwendolyn Field Edmonstone, twenty-four, granddaughter of Marshall Field, petitioned a Federal court to relieve her of allegiance to America. She is the wife of Charles Edmonstone, son of Sir Archibald Edmonstone, a baronet.

**AND THEN HE CONFESSED.**—First use of an improved "lie detector" by Los Angeles police quickly brought confession of murder from Bert T. Vernon, negro suspected of killing Luther Wills. Police Chief Tugust Vollmer calls the machine the "humans third degree." It was perfected by Leonard Keeler twenty, University of California student. In the picture Keeler is seen next to Vernon.

**REBUILDING THE CHENDANDOAH.**—The giant U.S. dirigible Shenandoah is being rebuilt, following its disastrous flight when it broke from its mooring in a storm. Photo shows the extent of the repairs being made in Lakehurst, N.J.

# \$5,000,000 DOCK AWAITS GRAIN ELEVATOR

## Victoria's Opportunity Is In Wheat Movement West

### One Port Cannot Handle All Grain From the Prairies

Seven Million Tons of Grain Annually Will Find an Outlet at Pacific Coast Ports Within Next Five Years, C. P. W. Schwengers Points Out

Within the next five years, 7,000,000 tons of grain will annually find an outlet from the prairies to Pacific Coast ports of Canada.

No one harbor can handle all this traffic. It is Victoria's opportunity and it is up to the people of Victoria to take advantage of it.

The establishment of one elevator in Victoria would be followed by others.

Victoria has too long been expecting outside interests to finance its ventures.

It is time for Victoria people to show their faith in their own town and invest their capital in it. The people of Victoria should build their own elevator.

These are some of the terse remarks that C. P. W. Schwengers, president of the Chamber of Commerce and chairman of the Chamber of Commerce Committee on Canadian National Railway affairs makes in a talk on what a grain elevator would mean to Victoria.

Victoria's future was never more promising than it is at the present time. While some people, from force of a habit, easily cultivated during the inactivity which Victoria suffered from along with every other city in the world in the years following the war are still singing the out-of-date chorus of gloom and pessimism, others have a vision of the future. A grain elevator is one of the visions.

Back comes the answer from pessimists. "What's the good of a grain elevator on an island?"

The question is answered time and again. "It is cheaper for the Canadian National Railways to deliver a car at the Ogden Point Docks than to use other companies' tracks to the elevator sidings at Vancouver."

Another point. Empty cars come here for lumber. These empty cars might just as well be filled with grain.

The president of the Chamber of Commerce clearly states his views on this matter which is of such vital importance to Victoria's future. "I do not feel I should mention names in quoting from private conversation," he says, "but one of the foremost authorities in Canada whose statement would be unquestionably accepted by the public in referring to the possible establishment of a grain elevator in Victoria made the statement to me that:

"There would be such an overflow of grain from the Port of Vancouver that one or more elevators were fully justified at the Ogden Point Docks. Further that his advice to the people of Victoria was to establish an elevator here just as quickly as it could be built."

"We have the written promise of Sir Henry Thornton, president of the Canadian National Railways that the same terminal rate will be offered from the prairies to the Ogden Point Docks as to Vancouver as soon as an elevator is ready to operate."

The chief advantage to this port would be the demonstration which it would afford as to the practicability of shipping grain through Victoria and the advertisement it would afford us as an exporting harbor.

"It is estimated by Vancouver authorities that every ocean going freighter which goes to that port leaves an average of \$10,000 for supplies, repairs, equipment, etc., and means the distribution of a considerable sum of money in any case."

"Cars have to be brought to this island at the present time empty to load lumber and it is much sounder economics to bring those cars loaded with grain particularly in view of the fact that it is CHEAPER FOR THE CANADIAN NATIONAL RAILWAY TO DELIVER A CAR AT THE OGDEN POINT DOCKS THAN TO DELIVER IT ON TO THE ELEVATOR SIDINGS IN VANCOUVER."

"It has been impressed upon me very forcibly that we have been on wrong tack for many years in expecting outside interests to do everything toward the establishment of industries in this city."

"If we want to make this port what it should be, Victoria has got to save herself and just as every other community in the West is developing its own industrial future by its own people putting their own money into local ventures so will the people of Victoria have to show their faith in their own town and demonstrate its possibilities by investing their own capital here."

"THERE IS NO OTHER ROAD TO OUR COMMERCIAL SALVATION."

"Victoria is undoubtedly the wealthiest city in Canada per capita in point of savings banks deposits and bondholders. If rich and poor alike would invest according to their means in a grain elevator the financial burden imposed would not be onerous on anybody and would undoubtedly prove a profit-

### Most Important Business Development in History of the West

"The Western movement of grain is undoubtedly the most important business development in the recent history of the West. Between forty and fifty million bushels of prairie wheat moved to the world's markets through British Columbia ports this shipping season as against less than half a million bushels in 1920. This indicates the growth in this business and its enormous prospects for the future."

"If there had been sufficient elevator facilities on the Coast this year's movement unquestionably would have been greater even than it has been. Before the next shipping season opens there will be one or two more elevators at least available, and if the crop is as large as this year's output it is reasonable to expect that the grain movement through ports on this Coast will amount to anything from sixty-five to a hundred million bushels."

"The Government is alive to the necessity of developing this trade on the Pacific Coast. It must be obvious to anyone who has followed our vigorous fight for the equalization of lower freight rates—our greatest need in the building up of this business—that the Provincial Government is alive to the opportunity."—Premier, the Hon. John Oliver.

### Cheaper to Bring Wheat to Victoria

Victoria is the first port of all for all vessels engaged in the Oriental, Australian and New Zealand trade.

With a daily ferry service from Port Mann, wheat and other cargoes could be landed at the Ogden Point docks cheaper than the Canadian National Railways can now land them at the elevator sidings in Vancouver.

In coming into Vancouver the Canadian National must use the tracks of the Great Northern. The charge for the use of these tracks is one dollar per car for all other companies' cars, and ten dollars a car where they cross a bridge. Taking this into consideration, and realizing the Canadian National line runs straight through to Port Mann, where it can easily be seen that with the shipments from Port Mann to Victoria as against the added cost of the rail interchange charges, it would be cheaper for the Canadian National to bring wheat to Victoria by barge from Port Mann than to take it to the Vancouver elevators.

### Elevators Mean Bigger Payroll

A grain elevator in Victoria and the others that it is confidently predicted would follow the erection of the first elevator here would provide another big separate payroll. As a comparison it is pointed out there are employed in the grain business in Port Arthur and Fort William in the busy season over 2,100 employees comprised as follows: About 1,300 in elevators and elevator offices and 250 in Government inspection and weighing staff, eighty-five grain trimmers, 500 in railways and yards, fifty in boat transportation.

That is one angle of the business. Every big freighter that calls into port spends money for repairs, supplies and equipment.

With elevators here more freighters would call. Each one would leave, it is estimated, \$10,000.

Victoria would not only deliver these supplies, but a good part of them would be Vancouver Island manufactures and produce.

### A FUTURIST PICTURE OF THE OGDEN POINT DOCKS

able venture because we have every factor here of advantage.

"We know the moment an elevator is built it can be leased for a term of twenty years on a basis of six per cent. per annum of its cost to big grain interests."

"We also have the advantage over Vancouver that there are no harbor dues here and ships can come in and load grain without the heavy expense attached to harbor dues at the Port of Vancouver."

"A 400,000 bushel elevator would cost approximately \$400,000."

"The capital required to build this would probably only be twenty-five per cent of this amount as the balance could be covered by bond interest."

"I am saying all the foregoing entirely apart from the negotiations the Chamber of Commerce is conducting for the establishment of a grain elevator here by certain known interests, the obstacles to the establishment of which, have to a very great extent been removed by the work of the Chamber of Commerce and the action of Premier Oliver, and which may very likely be brought to early consummation."

"I AM SATISFIED THE MOMENT AN ELEVATOR IS BUILT HERE AND ITS POSSIBILITIES PRACTICALLY DEMONSTRATED IT WILL BE FOLLOWED BY OTHERS."

"THE CANADIAN NATIONAL RAILWAY OFFICIALS ESTIMATE THAT WITHIN THE NEXT FIVE YEARS 7,000,000 TONS OF GRAIN WILL ANNUALLY FIND AN OUTLET FROM THE PRAIRIES TO PACIFIC COAST PORTS OF CANADA."

"NO ONE HARBOR CAN HANDLE ALL THIS TRAFFIC. IT IS VICTORIA'S OPPORTUNITY AND IT IS UP TO THE PEOPLE OF VICTORIA TO TAKE ADVANTAGE OF IT."

"We may say what we like about the establishment of warehouses and industries but the grain and lumber business is at our doors and these are the factors we should concentrate upon to develop to the furthest degree."

### Will Help Develop Victoria

President and chairman of the board of directors of the Canadian National Railways, who during his recent visit to Victoria gave every assurance that Victoria's representation for port developments would receive every consideration.

### PORT BUSINESS ASSET TO MERCHANT

Until last year there had been practically no movement of bulk wheat to Japan. During the recent season, however, about sixty per cent of the grain moving to the Japanese market was in bulk. At the close of 1922 the market points to which wheat was shipped through British Columbia were the Orient, Europe and South America. In 1923 it went to Mexico, Brazil and Norway in addition.

This province is touching practically the whole of the world's markets. Ten years ago there were only twelve regular steamship lines operating from British Columbia ports.

To-day there are forty-two and more are likely to be added within a short time.

### THE VALUE OF SHIPPING

This vast shipping and port business means much to the retail and manufacturing business of the Province. Merchants' Exchange figures show that the value of the shipping to the city of Vancouver in 1922, counting wages of longshoremen, harbor board officials, wharf operatives, coastwise vessels, towboats, etc., and the sums expended for ship's stores, ship lining for grain, and all other water front industries, amounted to approximately \$15,000,000 on a conservative basis.

### Is Logical Port For Shipments to China

Within the last year a rich new market has opened for Canadian wheat which strengthens Victoria's claim for a grain elevator. At a recent meeting of the Chamber of Commerce the members were told of the growing demand for Canadian wheat in China. The millions in that country are changing from a rice diet and the first shipments of Canadian wheat.

### URGES VICTORIA TO SEIZE OPPORTUNITY

The division of traffic between the four outlets will be based on two factors; the first and main factor being the ability of each terminal to furnish return loads for the cars which bring the wheat West; and the second and minor but still important factor, the depth of navigable water available up to and at each terminal.

Year by year the size of the vessels used in the traffic between British Columbia, the Orient and the United Kingdom is increasing.

A terminal to be able to quote on vessels without regard to size must show a depth of navigable water available up to and at the terminal sufficient to accommodate vessels drawing not less than thirty-two feet, with a certainty of being able to increase to thirty-four feet within a few years.

The necessity of having terminals which guarantee return loads for the cars bringing westbound traffic is the reason why all railroads, Canadian and American, fix equal export rates at terminals in the Pacific export zone.

Applying these general principles to the Port of Victoria, the facts render it a necessary conclusion that the Port of Victoria, must, to a very substantial extent, be used for the export of wheat.

what have been received with great favor.

Since the address was given to the Chamber of Commerce members by A. H. Rasmussen, who has had years of experience in the Orient, many other reports on the potential market in China have been made which endorse his assertions.

With 400,000,000 people looking for wheat from Canada, a great opportunity is offered. Canada, first in the market, has created an impression which will help it to seize this great volume of business. With a market in the Orient Victoria is the logical port of shipment.

C. P. W. SCHWENGERS  
President of Victoria Chamber of Commerce.

A PAGE OF INTEREST TO CHILDREN

CHILD'S STORY OF THE HUMAN RACE By Uncle Ray

Chapter X The Beginning of Cooking... Nowadays we cook meat before eating it. The very thought of eating meat raw makes us uneasy...

The bonfire, it is believed, were used at first only for warmth, or to scare away wild beasts at night...

The hunter was hungry and thought he would take a few bites of the bear. He found the flesh soft and easy to chew.

Let us take the fire we get from the forest, they said, and use it to make animals taste the same way they do after being killed by a forest fire!

Here is a young woman gazing into a pool to see how beautiful her new necklace of shells makes her.

lakes, to springs and little pools. There they were able to get their reflections and to see how well they looked with their ornaments.

It is possible that the young women sometimes braided their hair or fastened it in a bunch on the top of the head. More often, it was let fall wherever it pleased.

If a young man stole a wife he had to be careful not to let the father see him for a long time to come. Doubtless the couple fled out into the forest until they found a cave which no one was using.

It is usual to fish for fish with bait, and though at times the bait takes the form of a fish it is only to cover the steel barb of the hook.

The natives attach a line around the tail of the Remora and drop it back into the water again. It swims to the bottom and perhaps the first object it fastens itself to is the broad back of a turtle.

MUST WASH THEIR FACES "I am sending out cards for a child's party. What would you say?" "Say..."

Uncle Wiggily and the Basket By Howard R. Garis

Uncle Wiggily, one day, was playing snowballs with Jackie and Peetie. The rabbit gentleman would throw a snowball at Jackie. Next he would throw one at Peetie.

PLAN DRAWING CONTEST The Jiggs contest with close on 400 entries proved the keen interest taken by junior readers in a competition of that nature.

What is in it? asked the fox. "What is in it?" asked the fox. "What is in it?" asked the fox.

Colonial Clarissa Many, many years ago, like lots of good stories begin, little girls wore long skirts, short tight bodices and lace mitts.

Homemade Rubber Rack The accompanying sketch shows how a boy can make an overshoe rack that may be placed on the porch or on the basement stairs.

Indian Remora Is Real Sucker It is usual to fish for fish with bait, and though at times the bait takes the form of a fish it is only to cover the steel barb of the hook.

The Pig Brother (From the story by Laura E. Richards.) There was once a child who was untidy. He left his books on the table; he put his fingers in the jam pots and spilled ink on his best pin-finders.

Little Folks' Limerick A giggly young girlie was Rose, Who foolishly thought to propose; She asked her friend Pete, To buy something sweet,

Leap Year A handful of choppers... Still bickering with each other, the marauders made their way to the front room. For it opened the door to leave, a book dropped down from a nearby shelf on the head of the burly one.

A BIT AMBIGUOUS Little Gustave, out with his mother meets an old man and exclaims: "Oh, what a lot of whiskers, and deeming an apology necessary, he added: "But your face looks better with them than it would without."

by Gene Byrnes

HOW MANY CHILDREN DID GEORGE WASHINGTON HAVE?

HE DIDN' HAVE ANY CHILDREN! HE WAS ONLY FATHER OF HIS COUNTRY

AN' HIS NAME WAS SAWDGE WASHINGTON AN' HE TOOK HIS FATHERS AX AN' HE CHOPPED DOWN THE CHERRY TREE AN' HIS FATHER SAID TO HIM 'DONT LIE NOW SAWDIE WHO CHOPPED DOWN THAT CHERRY TREE AN' SAWDIE SAID 'POP I CANNOT TELL A LIE I DONE IT WITH MY LIL' HATCHET AN' THEN HE BECAME PRESIDENT

**HE DID?**

WHATCHA KNOW ABOUT THAT?

BUT I'LL BET HE NEVER HAD A HALF DOLLAR ALL HIS OWN IN HIS POCKET THAT HIS GOD FATHER GAVE HIM ALL FOR HIMSELF LIKE HAVE!

**LOOK!**

BUT HE WAS PRESIDENT AN' THAT'S EVEN BETTER'N A HALF DOLLAR IN YOUR POCKET

**SALE**

TO-DAY ONLY THESE WONDERFUL HATCHETS ONLY

**49¢**

**THE BIG IDEA**

HEY FELLERS! JIMMIE DUGAN'S GONNA BE PRESIDENT! HE JUS' BOUGHT A HATCHET UP IN LANDON'S HARDWARE STORE AN' HE'S GONNA CHOP DOWN A CHERRY TREE AN' HE SAYS ON ACCOUNT OF ME BEIN' WITH HIM WHEN HE BOUGHT THE HATCHET THAT I CAN BE THE VICE PRESIDENT!

**HEY JIMMIE!**

WAIT A MINIT! I WANNA ASK YOU A FAVOR!

**OH JIMMIE!**

MEMBER THE TIME I GAVE YOU THE BITE OUTA MY CREAM PUFF?

DO YOU WANT SOME OF MY JELLY BEANS RIGHT NOW JIMMIE!

WHAT CAN I BE WHEN YOU'RE PRESIDENT JIMMIE?

AN' ME?

YOU CAN BE AN ADMIRAL AN' YOU CAN BE A GENERAL AN' YOU CAN BE A SENATOR AN' YOU CAN BE A LETTER CARRIER!

I DOWANNA BE A LETTER CARRIER I WANNA BE A ADMIRAL

AN' I DOWANNA BE A SENATOR I WANNA BE A GEN'RIL

AWRIGHT I DONT CARE! YOU CAN BE A GENERAL AN' A ADMIRAL IF YOU WANT!

THAT'S PRETTY NICE OF JIMMIE TO DO THAT FOR US AINT IT BUMP!

DONT CALL ME 'BUMP'! CALL ME ADMIRAL

AN' MY NAME IS GEN'RIL DONT FORGET THAT! EVEN MY MOTHER HASTA CALL ME GEN'RIL!

WHERE DID YOU GET THAT NICE AX?

I CANNOT TELL A LIE MOTHER! I BOUGHT IT UP AT LANDON'S HARDWARE STORE FOR FORTY-NINE CENTS BUT I DOWANNA SAY WHY I BOUGHT IT!

THAT'S JUS' THE EXACTLY SAME THING AS GEORGE SAID!

YOU CANT FOOL MOMMA! I KNOW WHY YOU BOUGHT IT! THAT'S JUST TOO THOUGHTFUL OF YOU FOR ANYTHING! COME WITH ME!

I'LL BET THE PRESIDENT IS SORRY HE BOUGHT THAT AX THAT'S WHAT I BET! HA HA!

WHICH WOULDJA RATHER HAVE PRESIDENT? FORTY-NINE CENTS WORTH JELLY BEANS OR THE AX? TE HE HE!

ATTA PRESIDENT PUT SOME MORE ELBOW GREASE IN IT!

IF YOU KEEP ON GETTIN' FRESH ONE OF YOU ADMIRALS OR GENERALS WILL GET A GOOD POKE IN THE EYE!
