MISS C. H. LIPPINCOTT,

MINNEAPOLIS, MINN.

The Largest Flower Seed House in the World.

ONCE again I send my annual greetings to my patrons, and wish to thank my many friends that have favored me with their support, and who have written me from every State and Territory, and almost every foreign country. It is pleasant to know that flowers grown from my seeds blossom in the Sunny South, and around the Gulf, in Cuba, Mexico and South America. In Newfoundland, and all Canadian Provinces, British America, and even Alaska. From Lake to Gulf, from the Atlantic to the Pacific, dainty messengers of all that is beautiful and lovely have lived. Across the water comes word of the flowers grown in the Phillippines, Sandwich Islands, Japan, China, Tasmania, India, Australia, New Zealand, and South Africa. From the other direction comes letters from England, Ireland, Scotland, Germany, France, Spain, Russia, and not overlooking Norway, Sweden and Denmark. It is also pleasant to know that flowers from my seeds have decorated the pulpits of churches in every direction, have gladdened the hearts of little ones in orphan asylums, of those in convents, and their presence in friends meeting, adding I trust some spiritual help to those gathered together in their plain and silent worship; of old veterans in the Soldiers' Home, of many languishing in hospitals, have beautified the gardens of firemen and policemen, and also helped to beautify the grounds around stations of the large railroad systems, where travellers refresh their minds and eyes with a glimpse of nature at her best. There is nothing more pleasant in my business than the kind words of encouragement which come to me from the various places where my seeds have gone. I want to thank them, one and all, who write me telling me of their success and how these divine messengers have grown and made the world better and happier, carrying love and beauty wherever they went.

Very sincerely yours,

CARRIE H. LIPPINCOTT.

The flowers measure from $3\frac{1}{2}$ to $4\frac{1}{2}$ inches in diameter, resembling in shape and artistically curved and twisted petals, the finest Chinese Chrysanthemums. Mixed colors. **Pkt., 75 seeds, 5 cts.**

COMET—pure white. **Pkt., 60 seeds, 5 cts.**

COMET—deep scarlet. **Pkt., 60 seeds, 5 cts.**

ASTER, QUEEN OF SPRING.

Of graceful spreading habit, and blooming from two to three weeks earlier than any other aster, mixed colors. **Pkt., 75 seeds, 5 cts.**

THE old-fashioned China Asters have become one of the most popular and fashionable annuals of the day. And the great improvement over the old-fashioned flower that have been made in recent years renders them justly very popular. No garden is complete without a large bed of them, for rich coloring and long duration they have not an equal.

HARLEQUIN ASTER.

A striking Aster of great beauty, upright habits and a profuse bloomer. This new race produces odd flowers of the most handsome and attractive appearance, and continue in bloom a long time. In the gardens of Paris they are considered the most valuable of all varieties on account of their long duration in bloom and remarkably bright and conspicuous colors. Composed of pure white petals, quaintly interspersed in irregular manner, with deep blue and bright red petals. **Pkt., 100 seeds, 5 cts.**

Mrs. T. H. Lee, E. Granby, Conn., March 2, 1900, writes:—I have used your seeds exclusively for three years with good success; my bed of Nasturtiums being a thing of beauty and joy until frost came.

Dr. J. H. McDonald, Chicago, Ill., April 20, 1900, writes:—Last year I had very poor results from my attempts to raise flowers. I used seeds from a number of different dealers, but I desire to say that thus far the seeds I received from you have done better than any others. This year I intend to use only seeds from one person, and I take pleasure in sending you my order.

Mrs. D. P. Lake, Panot, Montana, March 9, 1900, writes:—I have been using your seeds for the last two years, and they seem to do better in this latitude than any I can get. The Asters last year were the admiration of all who saw them, and the Sweet Peas were immense. I took premiums at all the Fairs I attended for cut flowers,

New Yellow Aster.

NEW YELLOW ASTER.

The form of the double flower is a perfect ball; the quills are close together and of the *brightest sulphur yellow*, not a mere indication of the color, as in all former productions. The border petals are broad and of a lighter tint, seeming to enclose the flower like an old fashioned bouquet paper. The flowers are borne upon long, erect stems, excellent for cutting. As shown in the illustration, the plants, twelve to fifteen inches high, are of compact, bushy growth, and most abundant bloomers. **Pkt., 100 seeds, 5 cts.**

SEMPLER'S BRANCHING.—This is a magnificent new American strain, producing handsome double flowers on long stems. Mixed colors. **Pkt., 100 seeds, 5 cts.**

Mrs. Ella Morrill, West Sumner, Maine, April 9th, 1900, writes:—I have used your seeds for a number of years, and find them far the best in the market. Your Branching Asters are far better than you claim them to be.

Mrs. Mattie A. Cummins, Washburn, Minn., March 5, 1900, writes:—The Cypress seed I got of you last year blossomed better than any I ever had and stood some pretty cold weather. The Nasturtiums, such a variety of colors.

New White Branching Aster.

NEW WHITE BRANCHING ASTER.

The magnificent, large, double white flowers, quite four inches in diameter are borne upon long stems, making them excellent for cutting. It is quite different in several respects from any Asters known, and it is only necessary that the character of the plants should be known to make it a favorite with amateurs and florists. **Pkt., 100 seeds, 5 cts.**

ASTERS, FINEST MIXED.

Of all the best varieties, such as Victoria, Perfection, Comet, Harlequin, New Queen, etc. **Pkt., 150 seeds, 6 cts.**

ASTERS, GOOD MIXED.

Many bright colors. **Pkt., 100 seeds, 3 cts.**

ASTER, FIRE KING.

The Most Brilliant Aster Ever Introduced.

And the nearest approach to scarlet yet obtained, a color previously unknown in this popular flower, which for an autumn show of flowers few others equal. Habit very compact, not more than twelve inches in height, with large, beautifully in curved flowers, and makes a charming companion to "SNOW-BALL." Pkt., 100 seeds, 5 cts.

ASTER, SNOWBALL.

A Most Distinct and Handsome Variety Equally Valuable for Pot Culture and Cut-Flowers.

It is a most profuse bloomer, a single plant often producing as many as twenty-five to thirty pure snow white flowers, globular in form and of extraordinary size. Pkt., 100 seeds, 5 cts.

ASTER, NEW JAPANESE OR TASSEL.

The beautiful flowers of this new strain of Asters offer a most striking contrast with those of any other variety. They are of immense size, measuring from five to six inches across, with long petals curiously waved and curled, so as to give them a striking resemblance to the Japanese Chrysanthemums. They grow fourteen or fifteen inches high, are well branched, and produce a number of enormous flowers. Colors, flesh and pink. Pkt., 75 seeds, 5 cts.

One Packet Each of the Entire Collection of Asters (25 Packets), for 90 Cts.

Mrs. Geo. S. Taylor, Chatham, Ky., April 3, 1900, writes:—Your seeds for three years have given me perfect satisfaction.

Mrs. Chas. G. Kops, Michigan, N. D., May 5, 1900, writes:—The Hollyhocks grown from your seeds are very fine.

Mrs. E. E. Chalmers, Blackfoot, Idaho, March 5, 1900, writes:—I was much pleased with the seeds received from you last year. The Sweet Peas were grand. They were six feet tall, and I counted 25 different varieties. The Royal Show Pansies were fine. I had fifty plants from a trial package of seeds.

Mrs. J. H. Womaek, Roidsvillo, N. C., March 27, 1900, writes:—I planted some of your seeds last year for the first time and met with such good success that I feel my flower crop will not be complete unless I make another order from you. I have now large Geraniums I put away last fall which I grow from your seeds last summer.

Mrs. O. E. Cassem, Mitchell, S. D., March 4, 1900, writes:—The Pansies grown from your seeds last year were the most beautiful I have ever raised.

Sprays 4 to 6 feet long, of fresh, green, feathery foliage; useful for bouquets, wreaths or sprays, remaining perfect for weeks after cutting. Grows freely the whole year round; extremely valuable for all purposes. Flowers white, followed by red berries. **Pkt., 10 seeds, 10 cts.**

This graceful climbing Asparagus has foliage finer than that of the most delicate fern, and will last for weeks after being cut. It is an excellent house plant, succeeding under almost any conditions. **Pkt., 10 seeds, 10 cts.**

ANCHUSA CAPENSIS OR CAPE FORGET-ME-NOT.

A hardy annual of more than ordinary beauty. It grows about two feet high, branching freely and bearing a profusion of the most lovely flowers, similar in all respects to the Forget-me-not, though the blossoms are much larger and of finer color. It is always taken for a beautiful, large-flowering Forget-me-not, and for bouquets and cut flowers it is indeed superior to it. Its color is a deep, clear, brilliant blue with a pure white eye; one of the rarest and most lovely shades of that color. It blooms early and continues all summer. **Pkt., 100 seeds, 3 cts.**

You are certainly a blessing to "poor folks."

SWEET SCENTED PANSIES.

The Perfume of the Violet.

The Beauty of the Pansy.

This new class is the result of crossing the Pansy (*viola tricolor*) with the Sweet Violet (*viola cornuta*); the resulting hybrids, in addition to retaining the delightful Violet Perfume, produce the most beautiful Pansy-like blossoms, 2 to 2½ inches across, of great substance and of an endless variety of colors. They are not all equally fragrant, though the majority are as highly scented as the sweetest Violet, and the other high merits of this new strain, aside from their perfume, destine them to wide popularity. **Mixed colors. Pkt., 100 seeds, 5 cts.**

FIRE KING PANSY.

This novelty comes almost absolutely true, scarcely a plant bearing flowers at variance from the type, which is very distinct and striking. The three lower petals each have a large blotch of deep brown-red or magenta, margined with yellow, while the upper petals are of a bright reddish-brown, of a *real fiery shade*, warranting the name of Fire King. **Pkt., 100 seeds, 4 cts.**

SNOW QUEEN PANSY.

Pure satiny white with yellow dot in center of flower, sometimes marked near center with faint blue or purple lines; altogether the least picturesque of any of the different classes of Pansies; it is very highly prized by a great many pansy lovers for just that reason. **Pkt., 100 seeds, 4 cts.**

PEACOCK PANSY.

A beautiful variety of ultramarine blue in the upper petals of the flower, edged with a thin white line, within which is a space of purplish crimson, passing into a rich central blotch of deep blue, shading to black. George S. Papps, Hamilton, Ontario, Canada, February 24, 1900, writes:—The seeds I got from you last year for 6 cents were thoroughly satisfactory. Mrs. Obester Barry, Fowlerville, Mich., April 24, 1900, writes:—**DEAR FRIEND:** Your seeds are so good and so cheap that I for one cannot afford to buy elsewhere. I tried a bed of Balsams last year, and a handsome sight they were—so thrifty. From a packet of 30 seeds I had 29 sturdy plants. You have indeed made one woman happy.
