(24 May 49 - Kinki MG to I/C)
SUBJECT: Procurement Demand Sedans for Military Government Use
at New Osaka Hotel

Headquarters I Corps, APO 301

TO: Commanding Officer, Kinki Mil Govt Region, APO 25

Attention is invited to T/A 301-1225, Hq Eighth Army, dated 29 April 1949 which authorizes two (2) sedans for each military government region headquarters and one (1) sedan for each military government team. Reference basic letter as to the status of PD 564, which authorizes eight (8) sedans for the 25th Infantry Division, the justification for this PD rests wholly with the 25th Division. Anything further on this PD should be taken up with the 25th Division. JPMO 564 is presently being considered by higher headquarters for renewal.

THRU : Channels

y. 4

1. Request the following procurement demands for sedans now in use by this headquarters and teams of this region be extended indefinitely or until such time as government issue sedans become available:

- JPNO 820 ✓ Hq Kinki MG Region
- JPNO 822 ✓ Hq Wakayama MG Team
- JPNO 594 ✓ Hq Osaka MG Team
- JPNO 827 ✓ Hq Nara MG Team
- JPNO 661 ✓ Hq Shiga MG Team
- JPNO 826 ✓ Hq Kyoto MG Team

2. The sedans furnished by the above listed procurement demands are used in lieu of government issue sedans which are authorized by T/A 301-1225, Hq Eighth Army, dated 20 April 1949. The reference T/A allocates nine (9) sedans for this region. At present there are a total of three (3) government issue sedans available within the region. This number is insufficient for the accomplishment of the mission.

APO 343

1. Reference is T/A 301-1225, Hq Eighth Army, dated 29 April 1949.
2. The above cited T/A authorizes two (2) sedans for each military government region headquarters and one (1) sedan for each military government team with allocation as follows:

- a. Chugoku MG Region 7 sedans
- b. Kinki MG Region 9 sedans
- c. Kyushu MG Region. 9 sedans
- d. Tokai-Hokuriku MG Region. 7 sedans
- e. Shikoku MG Region 6 sedans

3. There are eleven (11) government issue sedans assigned to the military government units under I Corps jurisdiction. They are assigned as follows:

- a. Hq Chugoku MG Region. 1 sedan
- b. Shimane MG Team (Chugoku Region). 1 sedan
- c. Hq Kinki MG Region. 1 sedan
- d. Hyogo MG Team (Kinki Region). 1 sedan

1. Reference is made to Procurement Demand Number JENR 813, attached hereto as inclosure 1.

2. Request that this Procurement Demand be amended to specifically designate rooms to be used by Occupation Forces.

3. Attached hereto, as inclosure 2, is plot plan showing rooms requested to be designated in Procurement Demand. These rooms are outlined and diagonalized by use of red crayon lines.

4. Much confusion and hardship now exists between the supplier and the user due to the vagueness of existing Procurement Demand.

5. These eleven rooms, as shown on attached plot plan, are in great demand to adequately care for the Foreign Nationals assigned to this headquarters and to furnish billets for transient authorized Occupational Force personnel visiting this team from higher headquarters.

SUBJECT: Procurement Demand for Rokko San Cable Car

TO: Commanding General
I Corps
APO 301
ATTN: G-4

1. The Procurement Demand, JPNO 760, for the Rokko San Cable Car, located in Kobe, will expire 30 April 1949.
2. Request is herewith submitted for an extension of the present procurement demand, or a new one be written, for the period 1 May 1949 to 31 December 1949 in so far as pertains to the transportation of laborers and supplies to and from the golf course.
3. Special Services, this headquarters, maintains and operates an eighteen(18) hole golf course located atop Mount Rokko at a three thousand(3000) foot altitude. This course is used extensively by the personnel of this and surrounding commands and is the only one within the Kobe area of responsibility.
4. The Rokko San Cable Car is the only means of transportation serving this golf course with the exception of a back country dirt road that is considered unsafe for vehicular traffic over $\frac{1}{2}$ ton. The way by road to the golf course takes approximately one(1) hour and fifteen(15) minutes and by the cable car only twelve(12) minutes. The road is impassable during inclement weather.
5. Funds are not available to pay the cost of transportation for laborers and supplies that are necessary to maintain the gold course in a satisfactory condition. Because of the low wage that these laborers receive for their work, they could not afford to pay their own fares to and from work. Attempts have been made to recruit the necessary laborers residing on Mount Rokko, but these attempts have been futile.
6. If this request for a procurement demand is granted, the cost involved for the transportation of laborers and supplies would be approximately one hundred and twenty dollars(\$120.00) monthly. Members of

SUBJECT: Horses Obtained from Japanese Sources

TO : Commanding Officer
Kinki Military Government Region
APO 25

1. Information received from Eighth Army, per their ltr, AGHP 454.1, dtd 13 Dec 48, subj: As above, indicates that effective 1 April 1949, and in conformity with limitations established by General Headquarters, Supreme Commander for the Allied Powers, the number of horses obtained from Japanese sources by I Corps (either captured, obtained on procurement demand or obtained through procurement demand for the services of horses), is limited to one hundred (100).

2. In view of the austerity program of SCAP, service contracts for the maintenance of horses or procurement demands for the services of horses must be on a completely reimburseable basis. However, horses obtained on a concession basis per authority contained in ltr, Hq 8th Army, Office of the SSO, HP 400.12, dtd 24 Feb 49, subj: Forecast of Miscellaneous Indigenous Procurement Requirements for the Occupation Forces, will in no way effect this quota.

3. Future requests for Japanese captured horses or horses obtained on end-service type procurement demand should be made to this headquarters, in order that they may be included in the quota allotted to this headquarters by Eighth Army.

24 March 1949

SUBJECT: Extension of Service (JFNO) Type Procurement Demands

THRU: Yokohama Liaison and Coordination Office

TO: Japanese Government
 (Attention: Special Procurement Board)

1. Reference is made to letter, General Headquarters, Supreme Commander for the Allied Powers, file AG 400.12 (23 Oct 48)GFA, dated 1 March 1949, subject: "Service Procurement Demands".
2. The above referenced letter classifies service (JFNO) type procurement demands into the following classifications:
 - a. Classification I. Cancel. Non-essential.
 - b. Classification II. Cancel, delete labor and reissue for materials only. Labor to be secured by labor requisitions and a new contract to be negotiated for only supplies and/or equipment stating specific quantity and unit price authorized.
 - c. Classification III. Revise to limit labor and materials. A new contract to be issued for this service, stating maximum number of employees, amount of supplies by item, unit cost, and maximum authorized yen expenditure.
 - d. Classification IV. Cancel and re-establish on lump sum basis. A new contract to be negotiated for this service, stating the specific and item or end service to be supplied, the unit cost, and lump sum or maximum authorized yen expenditure.
 - e. Classification V. Continue pending evaluation. The operation covered, to be continued on present basis pending review in detail to determine requirement on an end item or end service basis and cost factors. Thereafter contract to be re-established on lump sum basis.
3. The referenced letter further states that all existing service procurement demands will terminate on 31 March 1949 or as soon thereafter as is practicable, and that all new service procurement demands effective on or after 1 April 1949 will be identified by the letter symbol JFNS.
4. In accordance with the cited GFC, SCA letter, this headquarters has prepared the inclosed list of service (JFNO) type procurement demands which are automatically extended to the dates indicated therein and for which this letter will serve as authority for the continuation of and payment for the services procured under these demands until the extended date. The letter (payment) is defined to include such advance payments as may be necessary and as are presently authorized, as well as payments made upon completion of contracts. Any amendments issued subsequent to the date of this letter will supersede the action stated herein.

Subject: Extension of Service (JIN0) Type Procurement Demands

5. It is directed that the information contained in this letter be forwarded to all Branch Offices of the Special Procurement Board by the Central Special Procurement Board. In order to facilitate the dissemination of this information, the inclosed list has been arranged according to the District and Branch Offices of the Procurement Section, this headquarters, indicating the demand pertinent to the area served by each. Also, additional copies of this letter may be obtained from the Procurement Section, this headquarters, if such extra copies will serve to facilitate compliance with its provisions.

6. In order to preclude any unnecessary or undue hardship to either the contractors involved or the Occupation Forces, by virtue of curtailment of services, it is directed that all contractors involved in furnishing the services required by these demands be informed, of the extension of delivery dates by the most expeditious means available.

SUBJECT: Termination of Service (JPNO) Type Procurement Demands

THRU : Yokohama Liaison and Coordination Office

TO : Japanese Government
 (Attention: Special Procurement Board)

1. References:

a. Letter, General Headquarters, Supreme Commander for the Allied Powers, file AG 400.12 (23 Oct 48) GPA, dated 1 March 1949, subject: "Service Procurement Demands."

b. Letter, this headquarters, file AGPDPS 400.12 (410), dated 24 March 1949, subject: "Extension of Service (JPNO) Type Procurement Demands", to the Japanese Government.

2. In accordance with the policy set forth in reference 1a above, the content of which is summarized in reference 1b, a list of service (JPNO) type procurement demands which will terminate 31 March 1949 is inclosed. In cases where a specific amendment to the demand is not issued, this letter will serve as a basis for the termination in lieu of the amendment, and as authority for payments as may be necessary upon completion of contracts. Any amendments issued subsequent to the date of this letter will supersede the action stated herein.

3. It is directed that the information contained in this letter be forwarded to all Branch Offices of the Special Procurement Board by the Central Special Procurement Board. In order to facilitate the dissemination of this information, the inclosed list has been arranged according to the District and Branch Offices of the Procurement Section, this headquarters, indicating the demands pertinent to the area served by each. Also additional copies of this letter may be obtained from the Procurement Section, this headquarters, if such copies will serve to facilitate compliance with its provisions.

4. In order to preclude any unnecessary or undue hardship to the contractors by virtue of any information received which is in conflict to that contained herein, it is further directed that all contractors involved in furnishing the services required by those demands be informed of the termination dates by the most expeditious means available.

BY COMMAND OF LIEUTENANT GENERAL WALKER:

/s/ CHARLES A. HULL
 Capt., TC
 Actg Asst Adj Gen

19 March 1949

SUBJECT: Request for Permission to Enter Buildings at Shioya which
are on Procurement Demand

TO: Commanding General
Eighth Army
APO 343

1. The Japanese Government has been directed to conduct a complete investigation regarding movable properties, i.e., household furniture, personal effects, equipment and fixtures, art objects, tools, machinery, books and records, etc., located in the buildings at the Shioya Estate of Mr. E. W. James.

2. It is desired that the Commanding General, Eighth Army, permit access to all of the above buildings on procurement demand. For purposes of restoration it is necessary that Mr. James, representatives of the Ministry of Finance, Japanese Government, and the custodian (Fuji Trust and Banking Co., Ltd.) prepare an inventory and condition report covering all movable properties therein owned by Mr. James.

3. Eighth Army headquarters has initiated action to have procurement demands written as indicated in Par 2 above. Procurement demands will be forwarded to your headquarters when published. To obtain the entertainment it will be necessary for receiving officers to present schedules of services to the Special Procurement Board serving the areas concerned. Such schedules should be presented as soon as possible for the month of April and thirty (30) days in advance for succeeding months. Request you advise receiving officers to take this action in view of the limited time available.

4. Reports of entertainment services, AGD 34, will be submitted to this headquarters by receiving officers not later than twenty (20) days after the end of the month reported. Quarterly forecast of entertainment services, AGD 35, will no longer be required.

5. Pending the receipt of a policy directive from GAC pertaining to entertainment, headquarters Eighth Army is holding in abeyance the issuance of an entertainment circular. Such policy directive is expected in the very near future and an implementing directive will be issued as soon as possible.

6. GAF Circular 5, 12 February 1949, requires reimbursement for certain indigenous personnel. Included in this circular are entertainment services and reimbursement is required whenever on procurement demand regardless of the using facility. Information as to source of monies for reimbursement in non-revenue producing facilities will be made available as soon as known.

These newspapers are considered essential to this headquarters as on 1 February 1949 Kinki Mil Govt Region was transferred from Kyoto, Japan to Osaka, Japan and although Procurement Demand #2000 was also transferred, the items authorized thereon were found to be insufficient, as we now have a larger headquarters and a more extensive program.

GENERAL HEADQUARTERS
 SUPREME COMMANDER FOR THE ALLIED POWERS
 APO 500

AG 400.12 (14 Feb 49) GD

14 February 1949

SUBJECT: Procurement Policy in Relation to the Stabilization of
 the Japanese Economy.

TO: Commanding General, Eighth Army, APO 343
 Commander, United States Naval Forces, Far East,
 Navy No. 1165
 Commanding General, Far East Air Forces, APO 925
 Commanding General, Headquarters and Service Group,
 General Headquarters, Far East Command, APO 500

1. General. The current policy of this Headquarters to keep at a minimum the financial impact of the Occupation Forces on the Japanese economy requires constant examination of the procedures of procurement of labor and materials on a non-reimbursable basis with a view to elimination of wasteful or unjustifiable methods. A recent review of the situation indicated certain revisions toward reduction of items of procurement and the institution of stricter controls. Addressee commanders will take the necessary steps to enforce compliance with the instructions contained herein.

2. Principles for Procurement. The procurement of construction, supplies, labor, and/or services from the Japanese economy for use of the Occupation Forces will be governed by the following general principles:

a. The directives to the Japanese Government will include only those requirements for the Occupation Forces which would normally be furnished Zone of Interior forces through proper expenditure of United States appropriated funds. Except as specifically authorized by the Supreme Commander for the Allied Powers, requirements furnished by the Japanese Government in excess of the foregoing will be on a reimbursable basis.

b. No procurement will be initiated solely for the purpose of raising above existing standards Occupation Force services of facilities.

c. Procurement will be initiated for essential requirements only, and then only when such requirements cannot be fulfilled from assets or means already available.

3. Supplies, Equipment and Materials.

a. Supplies, materials and equipment will be procured from the Japanese economy only when they cannot be obtained by requisition from the Zone of Interior and when substitutes are not available within the commands through which the requisition is processed.

AG 400.12 (14 Feb 49) G^W. 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy

b. The accumulation of stocks of supplies, equipment and materials by the Occupation Forces in excess of requirements is not permissible. The extent of current excesses will be determined by examination of all echelons of supply. Unconditional release to the Japanese Government of all supplies, equipment and materials found excess to the coordinated authorized requirements of the Occupation Forces will be accomplished with the least practicable delay.

c. The use of letter directives to permit accumulation of supplies, equipment and materials by the Japanese Government was authorized to permit the Japanese Government sufficient time to procure materials required to meet approved occupation construction programs and maintenance schedules. It has become increasingly evident that the Japanese Government has been required by letter directives to stockpile materials far in excess of imminent Occupation Force requirements. Any materials acquired by the Japanese Government in compliance with letter directives and not required for accomplishment of approved programs, and which are in excess of the coordinated known requirements of the Occupation Forces, will be released for utilization in the Japanese economy. Specific directives covering these releases will issue from General Headquarters.

4. Employment of Japanese Labor.

a. A substantial portion of the cost of occupation accrues through employment of Japanese labor. Accordingly, the elimination of existing abuses in the employment of such labor is essential to the overall economy program. The employment of excessive numbers of Japanese by the Occupation Forces, and excessive overtime payments to these employees are the two major abuses which must be eliminated. Manning tables and manning levels for all types and categories of labor will be critically re-examined with a view to effecting substantial reductions. Review of the Japanese labor situation will be undertaken to effect a maximum reduction in numbers and the limiting or elimination entirely of overtime payments except for domestic servants.

b. The employment of indigenous labor to perform military tasks for which troops should be trained is not favorably considered in principle. The procurement of indigenous labor to perform such tasks will be held to that irreducible minimum beyond which essential operational functions of the occupation forces would cease.

c. Indigenous labor reported as employed by tactical troops in October 1948 totalled 26,748. Report included 4,528 guards, 1,555 drivers, 988 clerks and 54 telephone switchboard operators, which, if employed for interior guard or other functions of authorized and assigned personnel of combat units, should be

AG 400.12 (14 Feb 49) Gd. 14 Feb 49
 Subj: Procurement Policy in Relation to the Stabilization of the
 Japanese Economy

replaced by unit personnel. Reports also included 145 building managers, 132 office managers and 432 foremen, which if employed by combat or service units below depot level for supervision of tactical unit functions, should likewise be replaced by unit personnel. Addressee commanders will submit request for exception to the foregoing with full justification, if the situation warrants.

d. Indigenous labor will not be employed to perform functions of personnel of combat organizations, except to the extent that the employment of civilian personnel by such organizations is authorized by regulations.

e. When indigenous labor is procured to perform organizational tasks of service units below depot level, it will not be procured by means of service contracts but will be directly procured and employed under military supervision as to assure that military supervisory personnel receive functional training and that direct control is exercised over military functions.

5. Service furnished Occupation Forces by the Japanese Government by Service Contracts.

a. Service contracts now under review by General Headquarters indicate the following:

- (1) Service contracts are being utilized for the procurement of labor for the operation of facilities. Contracts of this type serve to circumvent and defeat the purpose of labor ceilings, and in many instances violate Japanese Public Law 141 which prohibits the exploitation of labor by labor bosses.
- (2) Excessive number of employees are utilized by service contractors considering the type and amount of services rendered.
- (3) Operational equipment which is appropriately a part of or an adjunct to Occupation Forces installations is being furnished by service contractors at excessive rental rates.
- (4) Many service contracts are in effect for the provision of services no longer required by the Occupation Forces, for example, a large number of architect engineer firms.
- (5) In the past, construction and other operations which could not be considered as either an end item or a part of the end service to be delivered

AG 400.12 (14 Feb 49) GD, 14 Feb 49
 Subj: Procurement Policy in Relation to the Stabilization of the
 Japanese Economy

under the service contract, have been accomplished by contractors at the expense of the Japanese Government thus circumventing prescribed controls.

b. Based upon the above review, it is deemed essential that immediate action be taken to correct wasteful or improper service procurement practices. Service contracts which, as a result of review, are considered essential to meet Occupation Force requirements as well as all future service contracts must, wherever possible, provide only for the furnishing by the Japanese Government of an "end item" or an "end service". All service contracts will require approval by General Headquarters.

6. Occupation Forces requests for Construction

a. General.

- (1) New construction will be limited to only the most essential operational requirements of the occupation forces which cannot be met by any expedient other than new construction.
- (2) Maintenance will be provided for those facilities occupied by the Occupation Forces and standby maintenance for those facilities not occupied but required for a definite future occupancy.
- (3) Minor construction will consist of alterations, extensions and additions to existing facilities, and will be limited to \$500 per work order per facility. Only one work order may be executed for any one alteration, extension or addition. Funds to accomplish this minor construction will be included in Repairs and Utilities allocations.

b. Dependent Housing. The number of dependent housing units in Japan is now firm and no additional construction will be authorized at the expense of the Japanese Government.

c. Troop Housing. It is expected that troop strengths will approach and may reach authorized TO&E strength. There is no objection to troops being relocated for tactical purposes, where housing is available at the new location, but there will be no new construction authorized for that purpose. Troop housing spaces are available at present to house the maximum expected troop strength.

d. General Construction.

- (1) Operational and administrative facilities will

AG 400.12 (14 Feb 49) GD, 14 Feb 49
 Subj: Procurement Policy in Relation to the Stabilization of the
 Japanese Economy

be limited as indicated in paragraphs 6 a (1)
 and (2) above.

(2) Logistic facilities, except as indicated below,
 will be limited as indicated in paragraphs
 6 a (1) and (2) above.

(a) Ammunition storage. It is assumed that
 existing ammunition storage in general is
 adequate. Additional ammunition storage
 will be constructed only to provide for
 readjustment of stocks to conform to
 modified safety standards declared essential
 by the Ordnance Officer. Any construction
 for this purpose will be of most economical
 type possible within safety standards.

(b) Ordnance "BIG 5" and Engineer "BIG 9"
 Programs. Construction requirements for
 the Ordnance "BIG 5" and Engineer "BIG 9"
 programs, if and when authorized, will be
 obtained by procurement demand, and the cost
 will be amortized by increasing the unit
 dollar cost of rebuilt assemblies to be
 exported.

(c) Provision of covered storage will be limited
 to procurement of serviceable warehouses that
 may be obtained through procurement of ware-
 houses not in use by the Japanese, or
 procurement of Special Procurement Board
 warehouses which become available through the
 release of excess supplies now stored in such waref
 warehouses.

e. Airborne Training Facilities. No additional training
 facilities for an airborne division will be provided during Japanese
 Fiscal Year 1949 at the Eight Army airborne training center.

f. Destruction of Airfields. The destruction of airfields
 is not an appropriate charge against that part of the Japanese budget
 appropriated for the direct support of the Occupation Force. Their
 destruction is analogous to the disposal of war combat items
 (ammunition, demilitarized combat equipment, and scrap) surrendered
 by the Japanese. Specific instructions on this subject will issue
 from General Headquarters.

g. Athletic and Recreational Facilities. Construction of
 athletic and recreational facilities will be limited to only that
 construction which can be accomplished by troop and/or currently

AG 400.12 (14 Feb 49) GD. 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy.

employed indigenous labor. This policy does not provide for the construction of buildings, playing fields or courts requiring concrete surfaces, swimming pools or for other sizeable projects. It is intended that it shall provide principally for the improvement of ground areas to make them suitable for athletic purposes and minor improvements to other existing recreational and athletic facilities.

7. Transportation

a. Rail transportation. More effective controls must be exercised over use of indigenous transportation by the Occupation Forces. Instances have been reported involving shipments of privately owned property other than checkable baggage and shipments of privately owned or officially assigned automobiles for use by individuals on leave status. The use of indigenous rail transportation facilities at the expense of the Japanese Government will be limited to the official travel of Occupation Force personnel and movement of Occupation Force cargo for official purposes. The cost of all non-official travel by Occupation Force personnel will be paid by the individual except for travel on those inter-urban lines where collection of fares has not yet been instituted. All non-official cargo shipped on Japanese facilities will be at established rates and payment therefor will be made in yen by the shipper.

b. Motor Vehicle Transportation. Motor trucks and cars carrying motor vehicles will not be obtained from the Japanese economy either by direct procurement or by means of service contract. Occupation Forces cargo transportation requirements will be provided through the use of equipment assigned to tactical and service units and to established motor vehicle pools.

c. Water Transportation. Operation of excessive water transportation in the form of small boats and craft, largely employed for pleasure purposes, must be discontinued. Where such craft are authorized and maintained for pleasure purposes, the full cost of their maintenance and operation must be met by reimbursement.

8. Operation and Maintenance of Athletic and Recreational Facilities including Service Clubs of All Types.

a. The normal operation and maintenance of physical facilities, i.e., plant, grounds and buildings, for athletic and recreational purposes, may be procured at the expense of the Japanese Government for the use of Occupation Forces personnel in general, as opposed to private or personal use by individuals or small groups. Such facilities include golf courses, swimming pools, tennis courts, stadiums, field houses, theaters and clubs. Only the minimum number of indigenous personnel necessary for such operation and maintenance will be employed.

AG 400.12 (14 Feb 49)GD. 14 Feb 49

Subj: Procurement Policy in Relation to the Stabilization of the Japanese Economy.

b. Any additional operation and maintenance costs including the cost of indigenous personnel desired or required for conducting special instructions, life guarding, officiating, entertainment, personal services such as caddy masters, caddies, play equipment maintenance men, personnel not fully engaged in the care of grounds and buildings and/or personnel employed in connection with special events, will be procured only on a reimbursable basis.

c. Special equipment such as riding horses, bicycles, boats, fishing tackle or playing equipment required in connection with athletic and recreational facilities may be procured only on a reimbursable basis.

d. To effect the maximum economy in operation and maintenance of athletic and recreational facilities commanders addressed will survey all such facilities under their control with a view to a consolidation of activities and the elimination of those in which the percentage of utilization does not justify the cost of operation and maintenance.

9. Real Estate Assuming that the Occupation Forces now have adequate facilities to meet essential requirements, procurement of real estate of any description, additional to that now held, will be effected only upon prior approval of this headquarters.
