Retention of office until 31/Aug./48
Misao Ueda

July 5, 1948

To : Mr. Hitoshi Ashida
Prime Minister

From: Yoshifumi Enomoto
President, Mitsui Chemical Ind. Co., Ltd.

Subject : Petition : Requesting Retention of Mr. Toshio Akashi's position, Director.

Pursuant to Law to eliminate controlling influence of Zaibatsu family, Article 8, Item 2, we wish to submit herewith this petition in conjunction with the above subject, as on June 18th, our Mr. Toshio Akashi received a notification dated June 8th, by which he was advised that he is applicable to the Zaibatsu related officer. We would ask you to kindly re-investigate this matter as we desire to retain the position of the above gentleman as a director of our company owing to the following reasons:-

We might add that a separate petition is being submitted by Mr. Akashi asking for your kind reconsideration on this matter.

Reasons:

1. The reason why Mitsui Chemical Ind, Co., Ltd. are necessited in connection with the restoration of nation's economy:

The origin of Miike Dyestuff & Chemical Works which are the principal factory of Mitsui Chemical, is as far back as 1892, when the manufacture of "cokes" was commenced using Miike's coal as its raw-materials, and since then, through the whole past years, this company have been devoting themselves to the development of tar-derivatives chemical industry.

We now wish to explain below the reason why the principal products of ours are so necessitated in connection with the restoration of nation's economy.

(a) Cokes and Cokes Gas

The production increase of nitric fertilizer is, needless to say, very important and urgent for realizing the stabilization of the civilian livelihood under the current situation, and in this connection, it is to be noticed the fact that the majority of cokes and cokes gas used at Toyo High Pressure Industrial Co., Ltd., who are powerful makers of nitric fertilizers, are being supplied by our company. The cokes and cokes gas supplied by us are used to be consumed as raw-materials for producing ammonium-sulphate.

(b) Dyestuffs

Our company are conducting the manufacture of various kinds of dyestuffs and the production amount of ours occupies a good part of the production amount of the whole Japan. After the termination of the war, in return for import of raw wools and raw cottons, export of woolen and cotton textile goods has become possible, and in this connection, we are taking the important role of supplying dyestuffs which are required for treating processings of the abovementioned export goods.

The GHQ have already issued an order for production increase on dyestuffs so as to be able to give some assistance to the restoration of economy of Japan.

Moreover, the Japanese Government has quite recently designated dyestuffs as one of staple articles. In view of the situation, we are now exerting all possible efforts within our power in order to achieve the desired object.

(c) Pharmaceuticals

We are manufacturing various kinds of pharmaceuticals such as salicylic acid compounds, sulphur drugs, penicillin, etc. and are contributing to the nation's welfare.

(d) Agricultural Chemicals

The "Chloropicrin" is an indispensable chemical for preserving rice and other cereals and it is true that the majority of same are being produced by our company. This article is a very important chemical so far as the food preservation problem is concerned, as well as other agricultural chemicals,

(e) Moreover, we are manufacturing various kinds of ~~non~~-organic and organic chemicals as well as dyestuffs and pharmaceutical intermediates, etc, and the chemical products that are being produced are counted as many as several hundred in its kind.

We might add that we have Meguro laboratory, Osaka Operating Office and Toride Plant, etc., and productions and researches of important articles are being carried out at these places respectively.

2. Reason why Mr. Toshio Akashi is necessitated in connection with the operation of our company:

As mentioned above, our company is engaged in important

business in connection with the restoration of nation's economy, but as the law for Elimination of Excessive Concentrations of Economic Power and also Enterprise Reconstruction and Readjustment Law have been applied to us as a special accounting company, restricted concern, we are now doing everything possible to accomplish the reorganization program of our enterprises.

As it can be seen from his personal history, the Director Mr. Akashi has been in charge of accounting business for 30 years since he joined with this company. On the occasion of forming an enterprise reorganization program of our company, Mr. Akashi has been, with the strength of his long past experience, devoting himself to our company from the very beginning as a supervisor. He is still in charge of the same work and is earnestly executing his duty by holding himself responsible for the reorganization of enterprises.

However, the said Director has been designated as Zaibatsu related officer and the term of office of this gentleman will expire on July 18th, after which time, Mr. Akashi shall be resigned automatically. Now on the occasion of the execution of the enterprise reorganization program it is quite clear how important it is to take a pertinent measure on the phase of finance. The situation being as stated above, it will certainly be a serious blow to us if we will lose such a qualified able man as Mr. Akashi, especially when no other capable successor available in our office just at the present time. (Refer to Attached paper 2). We are afraid that it might eventually give a

rise to a serious hindrance in the execution of our reorganization program.

Under these circumstances, we would ask you to kindly take this matter into your special consideration and arrange to grant us your approval on our proposal that the position of Mr. Akashi be retained for one year to come.

As it is shown in the above list, with the exception of four directors, viz., Messrs. Okada, Miyazaki, Hirayama and Asai, all officers are in charge of respective engineering dept. The director Hirayama is residing at Omuda holding the position of sub-superintendent of Miike Dyestuff Chemical Works while the other three directors, viz., Messrs, Okada, Miyazaki & Asai, are holding positions of chief of respective division of the Head Office, and are working hard by assisting the President directly as the the position of managing director in our company is vacant just at present. Moreover, having no assistants available, such as sub-chief or deputy, etc., these directors are kept quite busy in carrying out the business in general. Therefore, they can hardly find spare time to enable them to take part in the execution of the work of enterprise reorganization program. As it is shown in the column of "position" in the above list, how it is difficult, on the constitution of personnel of our company, to have any person among the abovementioned four directors engage in the reorganization related business,

that is quite clear from the fact that it is impossible to release any director from the burden of double positions held concurrently. The enterprise reorganization program of our company has been so developed that it is now on the stage of later part; therefore, if the officers in charge of supervision shall be transferred prior to the completion of the program, it will give a great hindrance in the execution of the reorganization program.

Sir,

Application for your approval under paragraph 2, Article 8 of the Law to Eliminate the Controlling Influence of Zaibatsu Families

Some time ago, ENDO, Tsunehisa, the president of the Yasuda Industrial Company, submitted to you two applicantions under Articles 6 and 7 of the above-mentioned Law for your approval that he does not come under Article 3 of the same Law.

However, he received your notice under date of June 8, 1948, to the effect that he comes under an appointee.

We, the undersigned, now beg to file this application jointly with one consent under paragraph 2 Article 8 of the same Law in order to have your approval granted to let him remain in his present post so long as the Law and ordinance concerned permit with the following detailed satement clarifying the reason why we venture to submit such application attached.

Hoping you will be good enough to consider this application fovorable to us,

Y. Kasahara
Iori Yorifuji
Seiichi Tada

Respectfully submitted

Enc/ Detailed statement clarifying the reason why we submit such application.

Detailed Statement

Our company is the biggest maker of round iron nail and iron wire in Japan having been established ourselves for 50 years.

As the attached Commerce and Industry Ministry's allocation list shows the average materials quota allotted to our company reaches 15 % of the total quota allotted to all the round iron nail makers and is now meeting the various demands from the Occupation Forces, Coal miners and other connected with the Reconstruction works (Please refer to the shipping List attached).

So that the recovery of our industry and economy is closely related to the increase or decrease in our production. Moreover, as our company being designated as a special accounting company has already drawn up the reorgnaization plan by which we are going to establish a second company and filed the application for the approval of the authorities concerned.

Tsunehisa Endo has been installed as president after the termination of the war and is now coping successfully with the situation confronted with the various difficult problems, such as the remedial measures for the reconstruction of the wardamaged head office building, negotiations with the labor union, shortage of the meterials and electric power, etc., displaying his excellent business ability and at the same time his excellent administrative ability together with his long experience in banking business bringing about a better feeling among his subordinates and a smooth business financing has contributed not a little to our increased production and further, as special surpervisor of our

company he is presiding over the all-round work of drawing up our reorganization plan, the other officers assisting him only in those specialized matters allotted to their duties.

Such being the present status of our company in case he is obliged to retire from his post right now we are afraid that not only the control of all the employees will become disordered and financing as well as other managerial matters will become hard hit, but also the execution of our reorganization plan now on file will not a little be retarded and that these will eventually lower our production,capacity, the securing of which is now absolutely necessary to the recovery of our industry and economy.

Such being the present status of our company we are confident that until his sucessor is installed and the official duties will formally be taken over and we can forcast that the business of our company will be carried on without any obstacles in the future it is absloutely necessary for the company to let him remain in his post which is quite impossible to be displaced by any of us.

a. Whether or not the arrangemeut existed in writing.

None

b. Details of circumstances under whicn you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

From April, 1925 in Formosa I had been carrying on fishing industry by a small trawler myself, and on the basis of the above, I established Hōrai Suisan Kabushiki Kaisha on January 1st, 1931, and assumed the position of Managing Director of the said company. However as the necessity of the expansion of its organization and rational management of the company was keenly felt, seeing from the situations, I came to a conclusion that it would be most reasonable and ideal to be affiliated to Kyodo Gyogyo Kabushiki Kaisha which was doing the same fishing industry as the above company.

Thus Hōrai Suisan K. K. was affiliated to Kyodo Gyogyo K. K. on September, 1934. which was again affiliated to Nippon Suisan Kabushiki Kaisha on November, 1934 and I assumed the position of the Director of the latter company.

There was no facts that Nissan Zaibatsu was concerned in approving my assumption of office.

Retention of office, until 30/Nov./48.

Misao Ueda

Subject: Application For Continued Tenure of Office

To : Prime Minister, Mr. Hitoshi Ashida

From : Kohei Iyesaka, Managing Director,
Nippon Cold Storage Company

In accordance with the provision in Clause I, Article VII, Elimination of Controlling Power of Zaibatsu Families Law (Zaibatsu Dōzoku Shihairyoku Haijohō), Mr. JUNJI HAYASHI, President of this Company, filed an application for recognition as a non-Zaibatsu Officer. On 18 June 1948, however, Notice of Ineligibility No. 70 dated 8 June was received.

Necessity to have Mr. Hayashi continue to hold the post of President until such time as when the various important problems now confronting the Company are solved obliges us to tender, in accordance of the provision of Clause II, Article VII of the above Law, an application that Mr. Hayashi be permitted to retain his office for a period of one year.

Reasons

I. The chief lines of business of the Company are ice-manufacturing, cold storage, and freezing. With a chain of 173 plants throughout Japan operated on an integrated management basis, and possessing 32% of the national production capacity, we are fulfilling an important mission as a Company engaged in refrigeration as a specialized field of industry.

1. By supplying the chief fishing bases along the coast with ice for the fisheries industries, we are contributing, in no small degree, to the acquisition of animal protein.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775012

2. By the refrigerated storage of fresh foodstuffs, much is being done in the maintenance and promotion of public health.

3. By supplying the chief cities with ice for various consumption purposes, we are engaged in an enterprise indispensable to the rehabilitation of the national economy.

II. Designated under the Elimination of Excessive Economic Concentrations Law, this Company is now in the process of reorganization. In addition to this, there are confronting the Company, many important and difficult tasks and problems such as the rehabilitation of the war-ravaged plants.

III. Excluding Mr. Hayashi, the President, there are the following Officers in the Company:

Name	Present Position	Date of Appointment as Officer
Kohei Iyesaka	Managing Director (Senmu Torishimariyaku)	1 Dec. 1945 Standing Director 15 Nov. 1947 Managing "
Kojiro Kimura	Standing Director in-charge of Business Division	1 Dec. 1945 Director 30 Jan. 1947 Standing Director
Tsunenori Kusano	Standing Director in-charge of Refrigeration Division	1 Dec. 1945 Director 30 Jan. 1947 Standing Director
Nobunosuke Tomita	Director in-charge of Accounting Division	27 Dec. 1946
Masao Sato	Director in-charge of Osaka Branch	" "

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 715012

Name	Present Position	Date of Appointment as Officer
Yoshimichi Nakatani	Director in-charge of Shimonoseki Branch	27 Dec. 1946
Hiroaki Miyoshi	Director in-charge of General Affairs Division	" "
Niichiro Miyake	Director in-charge of Hakodate Branch	" "
Ryoichi Ichinomiya	Auditor	30 Jan. 1947
Kiyoshi Kato	"	" "

As can be readily seen from the above, Mr. Kohei Iyesaka, who is first in line as Assistant to the President, has only recently assumed his present post. As for the other Officers, they are all fully occupied with their present duties. Consequently, none of them can assume the all-important task of over-all direction of the company.

IV. As mentioned in the foregoing paragraphs, Mr. Hayashi's personal character and discernment are considered to be of absolute necessity in the solution of the many problems now confronting the Company. It is, therefore, extremely difficult to replace Mr. Hayashi with someone either within or outside of the Company.

Signed: K. Iesaka

To Whom It May Concern:

Dear Sirs:

Nippon Reizo Kabushiki Kaisha is a special accounting company in accordance with the Law concerning the Emergency Measures for the account of companies, and is now in the process of reorganization, designated under the Elimination of Excessive Economic Concentrations Law.

Furthermore as there are confronting the company many important and difficult tasks and problems such as the reconstruction of the war-damaged plants, present President, Mr. Junji Hayashi is considered to be of absolutely necessity in managing the company as well as in the solution of the many problems now confronting the company.

It is, therefore, extremely difficult to replace Mr. Hayashi with someone either within or outside of the company.

IKUNO
Shyosaku

July 12, 1948

To: Hitoshi Ashida, Esq.
The Prime Minister

Misao Ueda

From:

H. Sugano

Hidejiro Sugano,
Representative Liquidator,
Sumitomo Honsha, Ltd.

SUBJECT: Application for remaining in office under provisions of Art. 8 of the Law for termination of the Zaibatsu Family.

Whereas our Auditor Shyosaku Ikuno has applied for your approval of his not being an officer of Zaibatsu company under provisions of Art. 6 of the Law for termination of the Zaibatsu Family Control, it is now designated that he is an officer of Zaibatsu company. In this connection, I wish to obtain your approval, on the ground as enumerated here below, for his remaining a year in his present office as officer of our company, and submit herewith my application in accordance with the provisions of Art. 8 Para. 4 of the said Law. I wish you will spare your considerations on the circumstances and favor us with you approval at your special discretion.

Reasons for application being submitted:

1. This company has already run into dissolution as a holding company since February 28, this year, and is now carrying ou its liquidation under supervisions of the Holding Company Liquidation Commission whereunder not a single normal economic activity is carried out.

1. Consequently, to fulfil and accomplish the duties of the company, that is smooth and perfect liquidation, necessitates experts thoroughly conversant in corporate accounting affairs for the post of the responsible auditor. Shyosaku Ikuno has long been in service in Sumitomo whereby he is completely on current of the company's affairs; particularly, he is the most conversant with affairs relevant to the Honsha and, above all, its accounting affairs inasmuch as he has taken charge of accounting inspection since he was assigned to the Staff attached to the Auditor of the Honsha in September, 1932, and further he has attended to auditing affairs for solid 8 years up to his retirement due to maturity of service on January 1941. This was the reason why the company requested that he assume office of our Auditor as the best suited for the position. In future, it is absolutely indispensable to have the subject in office for carrying out our company's liquidation work, especially that of auditor.

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775012

1. Moreover, the company having been the Head Office of the Zaibatsu, all the former officials have already resigned from their offices and that their resumption of office is prohibited, as the result of which the circumstance makes it neary impossible to get anybody else than the subject who is so qualified and experienced in auditorship of the company as he. Consequently, if the subject is to retire from his post, our company's auditor being only him alone, it is extremely hard to have any staff to replace him. It is more so because, as we presume you can very well imagine, it will be extremely hard to choose an appropriate person out of those who will willingly and gladly accept officership of such a liquidating company that is doomed to perish before long as it is the case with our company at present.

1. Circumstances being as such, and since the Holding Company Liquidation Commission observes, as apparent from the attached paper herewith, that it is imperative for the subject to remain in office for the execution of the liquidation work of the company, and that it is found extremely hard to choose anybody else to replace him in office, I wish you will fully appreciate the difficulties of the circumstance, and approve of Shyosaku Ikuno's remaining in office.

11. Whether or not there existed any agreement whereby requiring previous approval on assumption of office as officers between the Zaibatsu Company and Zaibatsu or direct Zaibatsu affiliates at the time of the subject's assumption of office as officer.

(1) Whether or not there existed any manifest agreement thereof:

There did not exist any manifest agreement to the effect that previous approval should be obtained from either Sumitomo Partnership Co. or Sumitomo Honsha, Ltd. regarding the assumption of office as officer of Sumitomo Besshi Mining Co., Ltd. or Fuso Marine & Fire Insurance Co., Ltd. exchanged between these pertinent companies. Regarding details, please refer to the explanations "Regarding rules in personnel controlling and manner of its actual application," submitted by Sumitomo Honsha.

Furthermore, there did not exist either any such manifest agreement in the case of Nippon Pipe Mfg Co., Ltd.

(2) Details of circumstances in which the subject assumed office as officer, especially whether or not there was any fact that Zaibatsu or direct Zaibatsu affiliates interfered into the determination of the assumption of office:

Both the Directorship of Besshi Mining Co., Ltd. and the Auditorship of Fuso Marine & Insurance Co. were merely honorary positions endowed upon the subject with the sense of rewarding his long, years after years, and meritorious services, and that, despite the fact an approval was obtained from the Board of Directors of Sumitomo Partnership Co., the manner of approval was merely a very formal matter of routine.

Furthermore, assumption of Standing Directorship of Nippon Pipe Mfg. Co., Ltd. was brought about by recommendation of a friend (Hiromu Kasuga) in his private capacity in order to be enabled to earn livings after retirement at the maturity age of service from Sumitomo Honsha, thus the assumption of office was brought about due entirely to private circumstances with out any concern with Sumitomo Honsha.

Petition Pursuant to Art. 8, Clause 2, of "Elimination of Dominant Power over the Same Blood of the Plutocracy Law", for Permitting "Isuo Maruyama", Director and President, to Remain in Office

July , 1948.

To Mr. Hitoshi Ashida,

Premier,

In spite of our application, pursuant to Art.6 of "Elimination of Dominant Power over the Same Blood of the Plutocracy Law", to the effect that Itsuo Maruyama, Director and President, does not correspond to the "plutocratic officer", we received on June 19, 1948, the information dated June 8, 1948, to the effect that he was decided to be the "plutocratic officer", as prescribed in Art.3 of the same Law.

And we hereby beg you to permit him to remain in office for one year from now on account of the reasons on the attached papers, pursuant to Art.8, Clause 2 of the Same Law.

Signature Itsuo Maruyama
Director and President,
Chuo Denki Kogyo K.K.

Reasons Why the Application is Made

1. Our Position in Reconstructing National Economy

(a) Origin of the Establishment and the History of the Company

The Company was established in February, 1934, under the joint investment of Chuo Denki K.K. (President: Gosuke Imai) and Chichibu Denki Kogyo K.K. (President: Nobuteru Mori), in order to make use of surplus electric power during the wet season through combining the technique of manufacturing ferro-manganese and metallic manganese researched by Chichibu Denki Kogyo K.K., with the equipments of Taguchi Plant of Chuo Denki K.K. Since then, it had produced carbide, ferro-manganese, metallic manganese and natural graphite electrodes; afterwards, it gave up the manufacture of carbide, while it intensified those of ferro-manganese and metallic manganese; it has made the gradual progress until it has secured the firm position in the ferro-alloy manufacturing circles.

After the war it sold Muikamachi Plant away, which had been built during the war; and in the main plant at Taguchi, having obtained the permission to convert into civil demand production, it has been engaged in the production of high carbon ferro-manganese, electrolyzed manganese dioxide, and natural graphite electrodes up to present.

Furthermore, it has managed since 1942 Hamayokogawa Mine in Nagano Prefecture, in order to supply itself the manganese ores, the main raw material of our production.

(b) Importance of Our Products in Reconstructing National Economy.

1. Ferro-Manganese
