Terminal City Learns Now Discovery Made Last November by Department

Vancouver, Jan. 9.—That sensational disclosures are imminent involving certain school board efficials partly responsible for the management of Vancouver schools; that graft is alleged in connection with the letting of contracts for buildings and purchasing of school sites in various parts of the city and that a shortage in the school board accounts has been discovered, is the startling information disclosed to-day following enforced resignations of school board officials. Rumers of graft, disclosure of the theft of \$3135 of the school fund, and its subsequent restitution, and the chaotic condition of books and accounts has been revealed following the dismissal of School Architect Norman Leach by the school trustees Tuesday night. Leach's office was declared vacant "for the purpose of reorganization," but inquiry indicates that this phrase was used merely for the sake Vancouver, Jan. 9.—That sensationa

Trustees interviewed were rather guarded in their statements, but said that the delay in the completion of school buildings during the past year, for which they declared they held Leach responsible was largely the cause of his dismissal.

Discovery of the theft was made by Mr. Murray shortly after his return from a four-months' trip to England late in October, 1912. When the total shortage was ascertained, Secretary Murray pand the sum of \$3135 into the school fund. Miss Parker was not prosecuted, largely because of the fact that she was in exeremely delicate health as the result of an operation last summer. She is said to be in California at the present time.

The message said briefly that his brother, who is the head of an ancient house in Gloucesrshire, was dying, and that as the heir he must come at once. The successor to a peerage accepted the position without surprise. His attitude was typically English.

"Poor old chap," he remarked. "Too internally bad he is passing away."

Then he started to pack up. He left on the noon train for Seattle, and from there will go to New York, where he sails for England. For twelve years, Ruston has been a mystery on the harbor, and many are the stories related of his aristocratic lineage and titled connections. Ruston, who jealously guarded his past, was silent on these matters and nothing could loosen his reticence.

### **DEMAND WAS HEAVY** FOR NEW TELEPHONES

Many Calls for Extensions in Newer Districts Were Made During the Year

Large expenditures by the British Large expenditures by the British Columbia Telephone Company in Victoria are one of the proofs that the Capital City has made great advances recently. In the Fernwood, Hillside and Fairfield districts the company has spent between \$60,000 and \$70,000, and estimates are now being prepared for aerial construction in the North December at the control of the North Courses at treat and North Government. Douglas street and North Governmen street districts, as well as in Victoria West and Esquimalt. If the British Columbia Telephone

Company has not been able to afford reitef to subscribers in Victoria West and Esquimalt it is because of the large amount of construction work on hand. Every effort is being made to supply a service as soon as possible. The number of new telephones is stalled in Victoria in 1912 was great

in percentage in comparison with the increase for 1911 than was the case in Vancouver. Victoria's percentage of increase was 43.7, while Vancouver's was 31.9. The only city to surpass Victoria was North Vancouver, which had a percentage of 59.0 for the year. The British Columbia Telephone

Company recognizes that an application for telephone service is practically a demand, and its aim is to supply the service as soon as possible and make it satisfactory. That is the rea-son for an expenditure of approxi-mately \$20,000 in the Fairfield district. mately \$20,000 in the Fairfield district, and about the same amount in Fern-wood. The company has in hand an estimate for \$20,000 in Hillside district. In each of these districts between \$400 and 500 poles were needed to carry wires, 35,000 feet of cable was strung, and 5,000 feet of underground cable laid in the Hillside district and 5,000 feet in the Fernwood section.

laid in the Hilliside district and 5,000 feet in the Fernwood section.

The work being iaid out in North Itongias street and North Government street districts will, when completed, be sufficient to care for all orders quin in the Cak Bay and James Bay districts, much aerial construction was carried out last year, but it will be necessary to do work in both these sections at an early date.

The engineers of the company are lasind in the effort to keep up-to-date with the demand for service. A few days ago, a party of officials from the cable across the Saanich Inlet, which will be part of the alternate line between Nanaimo and Victoria. The object is to ensure continuity of service, when the big cable is laid across the gulf in a couple of months, super plementing the present cable to the mainland.

# Record Values in Ready-to-Wear Apparel During Our 35th January Sale

### Making a Clearance of 200 Desirable Costumes and Coats at \$9.75, worth nearlythreetimesasmuch

WE have re-adjusted this group of costumes and coats and have added to it some of our higher-priced lines. If we fail to make a clearance of them this week, it will not be the fault of the quality of the materials and tailoring, neither will it be for the want of new styles.

As to the price, it is a mere fraction of the real value of the garments, and places the best of the medium grade of ready-to-wear apparel within the reach of all.

Never before, in the history of the Spencer store, have such remarkable values been offered, and judging by the number that we have sold since the opening of the sale, they are being greatly appreciated by Victorians.

### COSTUMES THAT YOU WILL FIND A PLEASURE TO WEAR

Diagonal cloths, navy blue serges and a choice assortment of tweeds are the chief materials and many of them are made in the strictly tailored style. Other models are slightly trimmed in smart but pleasing styles. A full range of sizes makes it possible for you to secure a perfect fit, and even the most expectant woman will be well pleased with the values they represent.

### OUR LINE OF COATS AT \$9.75 DESERVE SPECIAL ATTEN-TION

Setting aside the question of price, the styles, tailoring, quality of the materials are of such a high grade that the coats command favorable attention from women who are looking for a coat that will furnish comfort and general satisfaction.

There are very few women who will fail to find a model that will suit their taste, the range of materials, colors and styles are so wide and the sizes so well assorted.

Chinchillas, double faced cloths, blanket cloths and zamberines and tweeds are the materials from which you can choose and the

garments are a grade that should sell for from twice to nearly three times the price we are asking for them to-day.

### See the Window Displays for Wonderful Values in Women's Waists at 75c

S MALL price without sterling quality in the goods is of no use whatever, but when the goods are of excellent quality and are seasonable, they are bargains really worth securing.

That these lines are bargains in the full sense of the word is plain to be seen by anyone who has had experience in buying waists. The practical lines on which they are made, the dainty styles, and the quality of the materials are features that you will immediately recognize as being of a far higher standard than the waist that usually sells at this price.

immediately recognize as being of a lar larger standard than the waist that usually sells at this price.

The fact is that they are values that were formerly sold at prices ranging from \$1.25 up to much higher prices, so you are sure of getting a good value no matter which like you choose.

### Men Have the Advantage of Lowered Prices on Stylish and Serviceable Boots

REGULAR \$6.00 VALUES FOR \$3.95 REGULAR \$5.00 VALUES FOR \$2.95

In these two lines are included all the most popular lines of the season. There are tan and black in all the most fashionable lasts, including both the button and the lace models in all sizes. One important feature is the "Goodyear Welted" soles. This class of sole is far more flexible than the ordinary sole, and as there is neither stitching or rivets piercing to the inner side of the sole, the foot rests on a perfectly smooth surface. This means much more comfort and a longer life to the sole.

Many of the lines are fitted with double, waterproof soles, that reach the entire length of the shoe, while others are of a lighter nature.

For workmen and business men who are exposed to much of the wet weather, we are offering some splendid lines in chrome tanned leathers with viscolized leather soles and heels. These shoes are as nearly waterproof as human skill can make a leather shoe, and we are confident that they will render you'long service, much comfort and pleasure.

We have your size. Why not make your choice to-day?

### Boys' Boots Go On Sale Friday at \$1.95 and \$1.65

MANNISH models and "Goodyear Welts" are features that are worthy of notice, and mark these lines of shoes as something of a superior order. They are our regular values from \$2.25 to \$2.50, and in addition to the reduction in price, there is the inducement of sterling quality that will hurry out dozens of pairs on Friday morning. To see them is the only way to be convinced of their sterling qualities.

AUSTRALIAN LINER HAS HARD FIGHT OFF COAST

Came Into Port This Morning Two Days Late-Very Light List of Passengers Aboard

Great, green moving mountains of water running about 25 feet high were met by the Canadian-Australian liner Marama, Capt. J. T. Rolls, while she was steaming north from Honolulu to Victoria. The big Red Funnel steamship was piloted up to her berth here early this morning, two days behind her schedule. The Marama brought but a small list of passengers north from Sydney, N. S. ### NINTH ANNIVERSARY OF CLALLAM WRECK

Nine years ago to-day the Nine years ago to-day the American steamer Clailam foundered in the Straits just a short distance from Trial Island and carried a large number of people, including many Victorians, to their doom. This was one of the worst marine disasters which occurred in these waters for many years. The weather then was quite similar to that which has been experienced here for several weeks past. The Clailam sank early in the afternoon of January 9, 1904. January 9, 1904.

Crew of Lifeboat Still on Lightship With Two Survivors of Rosecrans

Identifies One Seaman.
Fred Peters, one of the quartermasters who was washed ashore on North Beach, was brought here late yesterday. Before leaving Ilwaco, Peters attempted to identify the eight bodies that have come ashore. He remembered all of them as belonging to the crew, but was unable to recall the names of all but one, George Nelson, one of the quartermasters.

It is not expected that the Pacific Coast steamship Senator will reach port from San Francisco until some time to-morrow. The weather off the coast is bad and the Senator is not fast.

When out in the open sea the Canada began to feel the strength of the howling southeast gale. There was a tremen dous sea and the little trayler dipped and rose like a duck. At times she took to violent pitching and buried herself in the sea. No one could make his way about on deck, and when the watches were changed the men had to crawi along from the forecastle companionway found himself knee-deep in the water and could see nothing of the deck of the trayler. He saw only the pilot house rearing out of the water. He thought the vessel would founder.

However, after tender nursing the staunch little British-built vessel worked her way across Hecate Straits and finally made Prince Rupert, after one of the worst trips the Canada has had in her twenty odd years of service in the North Ses.

They had as yet made no attempt to reach the fishermen of the eastern provinces, of whom there was about 30,000, or those of this coast. In this connection Mr. Bowser had promised the replacement of Japanese fishermen by white men so that the field for recruiting would be increased rather than diminished. The naval question had been made a political football since 1800, and while there had been a number of desertions from the training ships, there had been few compared with the desertions from their opinions of Conservative speakers on this important and vital subject, Given but security of policy, there would be no difficulty in manning the fleet. The whole naval policy of the present administration came down to a neglect of the Admiralty policy of policing the trade routes. Canada's duty in this regard was to have fleet units on the Atlantic and Pacific oceans. # MINIATURE RIFLES **GIVE SATISFACTION**

New Weapons Will Be Popular Amongst Indoor Shooting Enthusiasts

Good beores were registered at last night's shoot of the Miniature Riffle Association. The new rifles were in use for the first time and gave every satisfaction. These are of the Martini pattern, conforming exactly in weight and shape to the regulation service Martini but taking a .22-long rifle cartridge, and equipped with peep-sights and special fore-sight. They are thoroughly reliable and high-class rifles, and are supplied to miniature rifle associations all over the British Empire.

### "BAD FAITH" LEAGUE

some think that the hockey war is over; others think that the present quieting down is only a truce. Then as to results, it is the opinion of some that the West won, of others, that the East has the best of it; while not a few hold that the result is a draw. One effect of these hockey wars is to lengthen the sesson. Real hockey comnot be played until ice comes, but the game of contract-jumping can be started early in the autumn, as soon as Rugby begins to let up a bit, and it gives the public a series of contests for which no admission is charged. Perhaps in time, a special cup will be given to the club most successful in capturing contract-breakers. This might be called the bad faith championship. Some think that the hockey war is

### IF THOSE CARLISLE INDIANS EVER GET INTO FIGHT GAME LOOK FOR NEW CHAMPIONS

Jimmy Coffey Isn't the first boxer of Indian descent. There have been several good Indians. One of them was Joe Gregg. Joe, a wiry, lean, stoild indian, came into 'Frisco years ago looking for a fight. He was so reticent that he didn't had a meal for three days. He was given a place to sleep, but no one thought of staking him to something to eat. Joe fought the first fight with fike belt drawn. Light, and he fought like a wildcat. Perhaps he thought he wouldn't get any coin unless he won. Gregg won. His opponent, a good lightweight named Hawley, wasn't satisfied. He demanded a return match and was given another match. This

### PACE IS THE THING NOW ON THE ENGLISH RACE COURSES

London, Eng., Jan. 9.—Some interdesting speeches were made at the Gimrack Club dinner at York recently, and in one of them the lie was given to the oft-repeated rumor that its King George's intention to discontinue the sport of horse racing.

Replying to the toast of "The Jockey Club." Sir John Thursby sald he had Lord Derby's authority for stating that he had been the personal recipient of the King's assurance that he had no intention of in any way withdrawing from racing, and, indeed, meant to participate in it in the future as far as his many duties and engagements permitted him.

Speaking on the question of breeding, Mr. E. Hulton, whose Flippant won the Gimrack Stakes, said he thought pace was the deciding factor as to the merits of endurance. The contests of to-day are far more keen and exacting than the old heats. The kical test of merit is the fast mile, and distance amongst the best class and in

### REMARKED ON THE SIDE

Condition Will Help Victoria in To-night's Game.

In their games to date, the Royals have not shown any great finishing powers. It may be that the postponement of their home games has thrown the champions out in their training, but it is a fact that they have been beaten in the second half in all of their games to date. Jimmie Gardner's proteges always get away to a grand start but their efforts slacken perceptibly near the close and they fall by the wayside. Against Vancouver in the first game they had the Millionaires trimmed until the final ten minutes, and the same might apply to their game with Victoria. To-night Gardner states that every man of the team will be in the very best shape, and with Moose Johnson in the pink, the champions look all the more dangerous. Lehman's return to the team will give the players the confidence they lacked against Vancouver on Saturday night and the Senators will have their work cut out. The betting, however, appears to favor the Capital City septette, and Lester Patrick is also confident that his ice dogs will pull out a win. The sale of seats indicates the largest crowd on record.

Gilbert Tried to Fight Under Alias.

Gilbert Tried to Fight Under Alias.

Charlie Gilbert, the Seattle lightweight, will no longer be able to fight in the N. P. A. bouts. The S. A. C. boy was discovered to have fought in several bouts under the name of McNeil and the Seattle authorities promptly got after him for this transgression of the rules, the cancellation of his amatteur card being the result. Gilbert showed himself to be a very clever boxer when he appeared against Scotty McKay at the Victoria theatre on December 19, but his punch would not do credit to a babe. Unless he develops a wallop he will never get very far in the proton, and will probably appear in the prelim to the big fellows, if he is lucky. Clarence Rothus appears to be the likeliest boy on the coast as a pro. performer and Pat Scott will not let his protese join the monied ranks just now.

Frank Chance Will Strengthen American League.

Ban Johnson's circuit scored a big victory when it succeeded in adding no less a personage than the peerless leader, Frank Chance, to its roster as manager of the New York Yankees. American League ball has been given a black eye in Gotham for several year's because of the poor showing that the High-landers made in the American League race, and with the Glants going out and copping a brace of champlonships, the National teams had everything their own way. Chance, however, may be defended upon to change this order of own way. Chance, however, may be defended upon to change this order of things, and if he does not bring about a reversal of conditions in New York, ninety-nine per cent. of the fans will be greatly astonished. Canadiens' defeat over Wanderers, coupled with Ottawas' loss to the despised Tecumsehs, gives Geo. Kennedy's team the lead in the National Hockey Association race, and on the dope they are likely to stay there. Canadiens look the best balanced team in the league, the return of Pitre from Quebechaving given Kennedy the best skating and scoring team in the East. Wanderers, apparently, need a goal-tend very badly, while Ottawa will continue to play the in-and-out hockey which marked their record last season. Tecumsehs appear to be the real dark horses and Billy Nicholsen's aggregation of "has-beens" is apparently in its element at the curtailed style of hockey. That hint which the Toronto Telegram threw out regarding fixed games is accounted for when it is known that the Telegram is the greatest supporter of amateur hockey in the world.

McCarty Already Talking Big Money.

McCarty Already Talking Big Money.

McCarty Already Talking Big Money.

It's funny what publicity will do for some of these fighters. Here is Luther McCarty, the latest puglistic phenomenon, who is now demanding \$35,000 for a bout with Tommy Burns in Paris, the winner to claim the heavy-weight championship of the world. Two years ago McCarty was hanging around Calgary glad to get enough to live on. A year ago he was but a meal ticket fighter around Chicago, while to-day he is asking \$30,000 for an hour's twork, or perhaps less. While the French syndicate backing the affair does not mind the large guarantee demanded, it asks that McCarty, to show himself a real champion, shall go but and defeat Willard. Bomb. Wells, Tommy Burns and Jack Johnson. This may seem a large order, but it is in keeping with McCarty's demands for his appearance in Paris.

# HAIR STOPS FALLING, DANDRUFF DISAPPEARS--25 CENT "DANDERINE"

Save your Hair! Beautify it! Invigorate your scalp! Danderine grows hair and we can prove it.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks use, when you will actually see new hair, fine and downy at first yes but really new hair growing all over the scalp.

A little Danderine now will humedicately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small treatment—that's all.

Flood of Bayley Money Wagered on Knockout of Tom Moore

setting enough work for his coming bout with Tom Moore at Nanaimo. The lightweight title-holder is in the very best of shape right now, and will enter the ring full of confidence in his ability to put the fighting miner away before the bout goes the limit. There will be a ton of money behind Bayley when he steps between the ropes, and the major portion of this will be wagered on the champion's ability, to win by the knockout route. THE EVENING CHIT-CHAT

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one
woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman
nowadays has medical treatment at
such times, but many approach the
experience with an organism unfitted
for the trial of strength, and when it
is over her system has received a shock
from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and
a distinct change in the mother results.
There is nothing more charming than
a happy and healthy mother of children,
and indeed child-birth under the right
conditions need be no hazard to health or
beauty. The unexplainable thing is that,
with all the evidence of shattered nerves
and broken health resulting from a unprepared condition, and with ample time
in which to prepare, women will persist
in going blindly to the trial.

Every woman at this time should rely
upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

are always making an opportunity to praise up their homeland at the expense of that corner of the world where the other fellow lives.

To my mind there is only one habit in worse taste, and that is to run down your own home. The jingoism of the American Abroad is deservedly condemned by our more cultured counterpart. demned by our more cultured coun-trymen; and even though we laugh at the "man from home;" who, when confronted with the most beautiful controlled with the most beatter architecture in Europe only says, "But you ought to see the Town Hall in Kokomo," we must rimit that this sort of thing is in bad taste. Nevertheless I don't think the very worst case of genuine jingoism is half so bad as the perverted jingoism of the disloyal American who is always running down

the perverted Jingoism of the disloyal American who is always running down his own country. The Jingoism lacks taste and discretion; the traitor lacks heart and human feeling.

However, one need not choose between these two extremes because one need not go to either. There is, as always, a golden mean between them. When in Rome don't run Rome down of your own country either. Neither is necessary nor in good taste, and neither will really end or you to your host.

Some months ago I saw an affivertisement. In a local paper to the effect that a meeting of the Social-Democratic party would be the social Democratic party would be settered information which led me to be lieve that both Mr. Smith and Mr. Mr. Phil. Smith would be the social Democratic party would be determined to be in operation.

The office of mayor is an honorable one, to which every man who has a faithfully se

Finding it impossible to secure the nomination of his own personal friend as a mayoralty candidate, he set himself in opposition to Mayor Morley, but failed, and Mr. Churchill, passes him with a glare of hate "Mr. Churchill," he persists, as he follows in pursuit: "Don't you know seeking to accomplish.

His pet scheme was to secure the nomination of a man he could control. He had tried it again and again with Mayor Morley, but failed, and Mr. Beckwith appeared to him as an ideal man for the position because he knew from intinate acquaintance that he himself could exert great influence over him.

With the object of securing Mr. Beckwith's nominatian for mayor, Mr. Andrews gathered together a number of citizens to bring out Mr. Beckwith as a candidate. SOME FACTS OF INTEREST.

To the Editor,—The heading you put to my iast letter, "How Gan These Things Be?" seems to throw doubt on the truth of some of my statements. I scarcely wonder at your skepticism, for the story I have had to tell does savor of something one reads in a dime novel. Let me assure you, however, that I have not written one line in these letters without having good reasons for believing it to be correct and true.

The slory of the early Sunday morning call of Mayor Beckwith to come to the city hall and make out the warrant; occurred just as stated, and it can easily be verified. That a member of the Voters' League told, exultingly, that the licensed vintners vote would go solid against Mr. Beckwith this year because he had cancelled certain liquor licenses, is also the truth. So also is my statement about the exaggerated reports' regarding the mayor's recent banquet. A clergyman, who is a new comer to the city, carried the story into the ministerial conference at last Monday's meeting, and tried to make capital out of it there. He had been well coached regarding Mr. Beckwith's banquet, and left in ignorance regarding the may of victoria he could dispense with a first plant of the reason of the chief of police, the signal and of it there. F. ANDREWS.

REPLY TO MR. ANDREWS.

To the Editor.—Your issue of January 6 contains a letter from Mr.—F. Andrews, in which he attacks the organization known as the Voters' land they are not aware of the purpose of the league and a misconception may arise if these misrepresentations are interest that I purpose to discuss some of the points he raised in his letter, leaving the scurrility and deceit to find its way to their own roost.

In the first place the Voters' League is no secret organization, but a society formed for the purpose of promoting certain definite objects. The membership is open to all persons of both scene with the scurre of the purpose of bromoting certain definite objects. The membership is open to all persons of both scene who are in sympathy with these objects and willing to work to secure their realization.

The platform atands for progress and reform in all matters of civic administration. This then is the organization which Mr. Andrews, once a prominent member and in which he did much excellent, work, has seen fit to attack on the royal arsenals of 'the south of England. Concealed in the south of England. Concealed in

While I'll not a matter of any great importance it may be a matter of some steepest to recover to become the reason why Mr. Andrews has seen fit ill, whom it finds, gun in hand, runto adopt such a change of front in regard to the Voters' League.

Mr. Andrews was extremely anxious to have a controlling voice in the councils of the league, more particularly to the choice of the mayoralty tandents. He bought on served or a server and a German attaching gracefully manoeutering a mile overhead and showering tandents. He bought on served or a

SWEENEY & McCONNELL

A cup of Coffee contains over 21/2 Grains.

Physicians recognize this drug to be of poisonous effect upon stomach, heart and nerves. Scientists employed by the U.S. Government found, in the famous Rabbit Case, that an amount of caffeine equivalent to that contained in three and one-half average cups of tea or two cups of coffee killed a Rabbit.

What wonder, then, if you are a tea or coffee-drinker, that you suffer from indigestion, heart disturbance, headache and biliousness, sleeplessness, or nerve irritation?

Multiply 11/2 grains of caffeine by the number of cups of tea or 21/2 grains by the number of cups of coffee you drink each day and you will determine the amount of poison you give yourself daily.

Eminent physicians are protesting against the present use of tea and coffee. (Your family doctor can vouch for this.)

The aches and ills of your own body also protest when the burden becomes too heavy.

Doesn't your own common sense suggest that you quit tea and coffee now?

offers the easy way

This charming table beverage furnishes a hot drink of remarkable palatability. It has a rich seal brown color which changes to golden brown when cream is added. With its delicious flavor and rich aroma, it makes the ideal cup for those who want to get away from tea and coffee troubles.

### Instant Postum requires no boiling

It is made "quick as a wink" by pouring hot water upon a level teaspoonful of the powder in a cup and stirring until die solved. Add sugar and cream to taste and you have a very fascinating beverage.

# 15,000 Worth of Goods En Route-

From the East places us in a perilous position at the present time, as we find ourselves terribly overstocked and no available room for the new goods which will be here in several weeks. The fault must be remedied, our present stock must be radically reduced in record time, and in order to accomplish this purpose, we have inaugurated the most drastic cut-slash sale ever witnessed in British Columbia. Our stock is the largest, newest and finest of its kind in this section of British Columbia, and the prices that will prevail during this sale will cause competitors to stand aghast, and purchasers to pause in wonderment. It's up to every man within a radius of fifty miles of Victoria to attend this sale and purchase his share of the stupendous bargains offered.

# Sale Opens Saturday, January 11th

# At 9 a.m. and Continues for Thirteen Busy Days

# A Plain Statement of Plain Facts

Everything will be marked in plain figures showing the actual reduction. Goods will be conveniently displayed for quick selection. This sale will be of vital importance to every man within a radius of many miles. None will go away empty handed or disappointed, as the prices will be so low that none will be able to resist them. It would be an impossibility to quote prices as space or time will not permit. Whatever you do, don't miss this sale—let everything else wait and join the rush Saturday morning. Be one of the first at the door to reap the golden harvest of dollars saved by quick action.

### 13 WONDERFULLY OPPORTUNE DAYS

A sale that will rouse every man in British Columbia into action, even the paralyzed.

Prices that will shout loud enough to be heard for miles around, by even the deaf.

Everyone will see the great money-saving opportunity confronting them, even the blind.

A sale that means a great saving for every man, whether he be rich or poor.

### 13 SPECTAGULAR BARGAIN DAYS

### A Word to the Nifty Dresser

We have on hand 200 Men's Suits of all sizes, ranging in price from \$25 to \$35, made by the best manufacturers in the United States and Canada.

To convince the most skeptical that we mean business and that we intend to make this sale the biggest bargain sale ever held in British Columbia, we will put these suits on sale at \$15.00. Be on hand early and get first choice—a chance to save half on your Spring suit.

### **AUTO ACTIVITIES** BEING EXTENDED

LOCAL DEALERS TAKE **OVER FRESH AGENCIES** 

Novel Method of Ensuring Publicity by Studebaker Co .-More New Trucks

As an example of the manner ing in Victoria, the fact that at least four of the dealers in the city have taken over new makes for distribution is significant. Some of them, as in the case of the Western Motor Company and E. J. Cameron, have taken over more than one fresh agency, and yet the public demand seems insatiable. The motoring expert visiting here spoke truth when he said that for its size Victoria was one of the finest spoke truth when he said that for its size Victoria was one of the finest automobiling cities in the world. Nor is this fact surprising when one comes to censider that Victoria and its environs offer more than ordinary facilitie, more than ordinary beauty of landscape to the jaded automobilist.

landscape to the jaded automobilist.

Among the new makes which come since the New Year, or are coming in the near future, may be mentioned the Kissel Kar, an agency which has oeen taken over by Thomas Plimley; the Krit car and the Rauch and Lang electric, taken over by the Western Motor Company; the National car and Alco Six by E. J. Cameron; the Chase delivery trucks by the Vancouver Island Company, Limited.

A glance at what the different dealers have done during the past week

done during the past weel so is of interest in that it shows,

Idriver to do the right thing and eliminates the possibility of forgetting to turn off the current.

Each movement necessary for the movement of the car fore or reverge applying the electric or the motor brake is done sequentially—no combination of levers to make in order to get quick action. A forward push on the handle sends the car forward, while a backward pull retards the car. A continued backward pull past neutral position means applying the electric brake and finally the motor brake.

Thomas Plimley.

By taking over the agency for the Kissel-Kar, the firm of Thomas Plimley has once more shown its sign as a go chead, progressive firm of salesmen in turn it has taken over agencies of the Russel car, Overland cars, Hupp-Yeats electrics, Indian motor cycles and now the Kissel-Kar. The make is a well-known American one, and as the photograph shows is as handsome as the photograph shows is as handsome as anything now on the market. The lines are exceptionally good, and the superb make of the vehicle stands for speed, endurance and easy running.

ARMORIES INADEQUATE FOR THIS YEAR'S EVENT

> Begins Next Month-National **Exhibition Buildings Being** Prepared

> The Toronto Autemobile Trade Association's show will be held from February 20 to March 1, 1913.

The armories, on University avenue, which have been the scene of the shows for the past two years, having been found entirely inadequate in the way of space, arrangements have been completed with the City Council and the Canadian National Exhibition Board for the use of buildings in Exhibition Park.

Three buildings, the new Dominion

to be required.

An elaborate scheme of decoration, with a different effect for each building, but with uniform signs, has been drawn up, and work will be started soon to prepare the buildings for the big display of care, parts and accessories that will be gathered together.

Suitable heating arrangements have also been made, and the temperature inside will be uniform and comfortable no matter how the weather turns out.

A special car service from all parts of the city will be run to the gates of the park and the facilities for reaching the show will be even better than when it was held in the Armorles.

For the convenience of exhibitors and visitors a restaurant will be opened in the Dominion Government Building. It will be open during the hours of the show and is sure to be much appreciated by those who do not care to spend the time necessary to go down town for tunch or dinner.

# KING OF ROAD FLYERS

IN EVERY RACE BUT ONE

Has Unquestioned Right to 1912 Championship-More Victories Than Any Other

To Ralph de Palma is awarded the 1912 road-racing championship. For a reveral seasons past he has been acinowledged the mile track champion, but, during the last year De Palma did no mile dirt-track driving, and instead won greater laurels-the road championship. Viewed from any angle, there is absolutely no questioning his right to the title, for he started in more road races, and won more victories than any other driver. Out of five starts he scored four first places—the light-car race at Santa Monica, the Elgin free from a son, the Vanderbilt cup race triumph. The only race in America in which he fell short of victory was in the international Grand Prix at Milwaukes, in which, while running second, he coilided with Caleb Bragg, the winner, on the last lap. The only road race of the year in which Palma districts.

CONTINUOUS TINKERING HARMFUL TO AUTOS

Scaring bears from their cave with dynamite, and then bagging them, and shooting deer from the tonneau of their automobile, were specimens of sport enjoyed by F. W. Graham, Western immigration agent of the Great Northern, who has just returned to Spokane from a hunting trip to Northern Okanogan County, and W. S. Douglas, president of the Okanogan County, and W. S. Douglas, president of the Okanogan County, and W. S. Douglas, president of the Okanogan County, and W. S. Development Company.

Late one afternoon they trailed two bears to their lair in a big cave. Unsable to shoot them there, they exploded a heavy charge of dynamite at the mouth of the cave, scaring the animals so badly that they acampered out. Then, by lucky shots, they brought both to earth. On a trip next day, while riding along the trail in their auto, they spied a deer, which was brought down while it stood wondering what the machine was.

But one of the two retiring members is seeking re-election; F. Temple Cliff, of East Burnaby, making his decision to again contest the seat.

In the Edmonds district W. S. Rose is in the field and is gathering data to be presented at the different meetings. Central Park has two candidates in the field in Donald Ross and Frank Russell. tion, including a crew on the Hope Mountain section. It is expected that within a few months this number will Russell.

Mr. Lomas has been mentioned as being in the field, but there are strong doubts as to his eligibility,

Mr. Ross, who has seen several year's service on the school board, is likely to cause no little trouble to the present board. He is against the present methods of the board and thinks the two by-laws aggregating over \$109,-000 far too much to ask at this time.

North Burnaby has two candidates in the field, Thomas Wickes and W. J. Holdom having been endorsed by the Ratepayers' Associations of the northern districts.

STEWART

Customs Officer William Miliar, who has been in charge of the local office since June 22, 1910, received telegraphic instructions to report to the Prince Rupert office this week. His position is to be taken by Archibald Paterson.

Mr. Miliar was the first sub-collector in Stewart and has filled his duties most acceptably to the people of the community, and by his marked ability has well earned promotion in a larger.

he has gone upon a courney.

Inquiries indicate that his affairs
were in good condition and he is spoken of in terms of commendation by
those who knew him.

those who knew him.

He is about 5 feet 10 inches in height and weighs about 150 pounds, possibly less, and has a reddish complexion. He is about 30 cers of age and walks in a smart, quick manner, carrying himself very upright. He wears spectacles and a small moustache. He usually wore a light grey cap and fawn overcoat.

in 1766, in the "old family mansion" at Cambridge, Massachusetts, and educated at Bristol Grammar school in England, he was of notable Loyalist stock. He went with his father to New Bruńswick, studied law, and was called to the bar in Quebec in 1789. Henceforth his rise was rapid, but he awoke the enmity of the assembly, which in 1814 impeached him for "exercising malicious influence over the governor" and "subverting the constitution". The governor, Sir Geo, Provost, incurred the wrath of the assembly by taking up Sewell's cause.

### TO-DAY IN CANADIAN

On January 9, 1809, Jonathan Sewell, On January 9, 1808, Jonathan Sewen, the had just been appointed chief ustice, became Speaker of the legis-ative council of Lower Canada. Born in 1766, in the "old family mansion" at Provost, incurred the wrath of the assembly by taking up Sewell's cause,
but the chief justice was quite able to
defend himself. He went to England
to plead his own cause and was reinstated. Later, efforts were made to
'revive the impeachments," but he was
accorded compensation for the ill-treatment he had received. He was chief
justice for about 30 years, and an excellent one, for, though his tongue was
sarcastic and his temper stern, he is
said to have had great self-command.
In 1814 he published "A Plea for the
Pederation of the British Provinces."
He died at Quebec in 1839.

Dear Sirs:—With reference to your petition dates December, 1912, for a public meeting to be called not later than the 20th ipstant for the purpose of discussing public questions affecting the municipality, I shall certainly, as formerly, call a public meeting for the expiry of my term of office.

As, however, my purpose in calling such a meeting is entirely for the information of the ratepayers, and in particular so that they shall so far as possible have the year's accounts before them for discussion and as these can't possibly be ready before the first or second week in January, it would be inconvenient and useless to call a meeting as soon as the above accounts, etc., are ready-for publication.

It seems to me that as you probably have the same objects as I have one meeting will serve us both and I should be glad to hear from you that such is the

In reply, we respectfully beg to inform you that the petitioners consider that the second week in January would be too late for a public meeting to discuss public questions, affecting the municipality generally. We are also of the opinion that the year's accounts would not be intelligently considered, and discussed at a public meeting unless they had been published previously, and given to the ratepayers; therefore your petitioners desire that you call a public meeting, not later than January 3, 1913.

An old man in the tramcar the other day recognized with an exclamation of pleased surprise a little old lady oppoanimated conversation. One gathered that it was some few years since they had met, and they had much to ask one another about. At last, however, the man had time to give a more careful scrutiny to his friend's face. Then he said: "You are growing older, I am thinking, missus!" "I am thankful to say I am," said the old lady, with a graceful smile. "Thankful to be growing old!" he repeated. "Why, that is a thing! What do you mean by it?" "You are proper soft, James," she answered. "If I wasn't growing older, I should be dead."—Manchester Guardian.

# **SORE THROAT:** Its Cure and Prevention.

In every store, atreet-car, railway carriage-everywhere, in fact, where people meet and exchange the usual greeting, "How are you?"— one hears the same reply: "Oh, all right, thanks, except for a touch of Sore Throat."

In vain we wrap up our throats, avoid draughts, and endeavour to keep warm. These old fashioned precautions will not prevent us from catching Sore Throat, which is not due to damp or cold, though these; by lowering the vitality, undoubtedly pre-dispose us to the attacks of the germs which cause Sore Throat.

Sore Throat.

Looking at them through a microscope, it seems almost incredible that these specks of vegetable life should cause that painful "pricking" at the back of the throat, that irritating licat and dryness in the mouth, that pain in swallowing and general sensation of bodily discomfort which everyone recognises as the symptoms of Sore Throat.

Nevertheless, Science has proved beyond question that these germs or microbes are the true active causes, not only of Sore Throat, but also of much more grave infectious diseases like Diphtheria, Consumption, Scarlet Pever, Measles, etc.

It is important to remember that Sore Throat is frequently the first symptom of some serious illness of this nature produced by the rapid multiplication of germs in the mouth, and their subsequent poisoning of the blood stream by the "toxins" which they produce. This fact should make everyone careful never to neglect a Sore Throat, but to take at once the remedy which modern Science has provided—namely, Wulfing's Formamint Tablets.

Formamint Tablets.

These pleasant tasting tablets, which are sucked like candy, quickly render the whole mouth and throat thoroughly antiseptic. In other words, they cure Sore Throat and prevent infections diseases by killing, in the mouth and throat, the germs which cause them. The unique germicidal powers of Formamint have been demonstrated again and again in interesting experiments like that reproduced here.

But apart from such laboratory proofs, there is abundant medical and lay evidence as to the value of Wulfing's Formamint. A physician writes in The Practitioner: "Wulfing's Formamint is of The Practitioner: "Wulfing's Formamint is of the greatest value in all the throat conditions named Sore Throat, Tonsillitis, Scarlet Fever, Measles, Thrush, etc." Mr. Rowland H. Herring, A.R.San, I., Sanitary Inspector, writes: "I know of no other preparation so pleasant to take and effectual in preventing infectious diseases as Formamint."

Among other distinguished users of Pormamint may be mentioned the Hon. Charlotte Knollys, Lady-in-Waiting to H.M. Queen Alexandra; the Right Hon. Arthur J., Balfour, M.P.; Sir Gilbert Parker, M.P., and the Hon. Mrs. Alfred Lyttelton, the last of whom sets an example which should be followed by everyone when she says: "I always keep a bottle of Wulfing's Formamint Tablets in the honse, as I find them excellent for Sote Throat."

Bank clearings are generally accepted as an unfailing barometer of the financial. condition of a city and of the buoyancy of its commercial affairs and undertakings. This being so, the returns furnished by the Banks for the past twelve months are a matter upon which the city may warmly congratulate herself. The total bank clearings amounted to the

less than 81 per cent. over

For a city to almost double its business volume in two years is astonishing, even for the marvellous West, but the figures are doubtless ac-counted for in part by the steady rise in property val-ues which promotes an ever-inereasing circulation of investment monies. It is not hard for those who know the enormous sum of \$183,544,238, an increase of 36 per
cent. over the figures of the
preceding year, and of no city to foresee a rapid advance in the worth of such

Instills Confidence Into Stock Market

New York, Jan. 3.—With barely any news of importance, there was a sharp advance in quoted values immediately after the opening, a fact rendered the more surprising by the weak close of last night. On the high levels there was a renewal of selling, more particularly of the short interest. Latest reports from the Coronanouncement made near the close that Sir Edward Grey, Fritish foreign mirrister, would convoke Turco-Balkan peace delegates at once as the result of a decision reached by the ambassadorist conference, instilled confidence as to the outcome of the foreign diplomatic negotiations.

Work Stops Because Company Heavy Snowfall in Cascade Mountains Last Night Makes Break-up Dreaded

Seattle, Wash., Jan. 2.—Fifty union limemen, station operators, station wiremen and cable splicers left the employ of the Puget Sound Traction Company at Seattle, Tacoma, Bellingham and Everett yesterday. The strike was called, the electricians say, because the traction company refused the men the privilege of organizing.

"We are satisfied with the wages paid in Seattle but not with the wages paid in Tacoma, Everett and Bellingham," said J. Morgenthaler, first vice-president of the Pacific District Council of the Electrical Workers, last wening. "In Bellingham especially the company pays as low as \$25 a month up to a maximum of \$75. We want a uniform wage for the district, The company has prevented us from organizing them whenever they attempt was being made to maintain the regular service. ### TALK OF SINGLE TAX AT ANNUAL BANQUET

Members of Henry George Association Listen to Expositions of Subject

Approximately one hundred guests were present at the annual banquet of the Henry George Association last evening at the Hotel Ritz. Alexander Riach, secretary of the organization presided as chairman. The several speakers of the evening gave a presentation of the tenets of the Single Tax

C. H. Lugrin, in correcting the an nouncement that he was to speak on the subject of "The Land for the People" instead of "The Land and the People," said that he had not yet pro-

were so high the poor people were utterly debarred from becoming holders of the land or being in a position to work it. He believed the government would be justified in borrowing money to get settlers on the land and taking a local improvement mortgage on the property.

to the United States as an example of a country which had within nearly everyone's memory considered itself rich in land, Mr. Lugrin said that that country now found itself face to face with the growing evil which might be characterized by the words, "the divorce of the people from the land." In the case of civilized countries, people mowadays had to ask for permission to be born somewhere else, to live somewhere else, and to die somewhere else, and to de somewhere else, and to die somewhere else, and to de somewhere else, and until it was made to do so our civilization would be nothing but a failure. The great question of the day was, "How could every man live in his own house, on his own land, and be his own master?"

Mr. Lugrin said that the four tax commissioners had started off on their work quite convinced of the propriety of taxing land-improvements, but at the conclusion of their investigations had come back convinced of the error of doing this.

"We have recently organized a new municipality at Esquimalt," said the speaker, "and I feel convinced that it will never consent to the taxation of improvements. (Applause.) It is our policy to make that honorable body, it he Hudson's Bay Company, pay its share of the land tax, and this, I feel, it will be as ready to see the justice of as the gest of us. I firmly believe the remedy for our present evils lies in the principles set forth by Henry George."
