ALLIES PRESENT TERMS TO THE AUSTRIANS

STRIKE VOTE RETURNS WILL NOT BE ISSUED UNTIL AFTER MEETING

Trades and Labor Council to Tally Ballots; J. Dakers Declares Shipyard Workers Have Voted to Strike; Police Protection Assured

While a number of unions have not yet voted on the sympathetic strike issue, and while no definite decision on the question will be made until the Executive of the Trades and Labor Council meets to-night or to-morrow morning, local labor leaders maintain that the city's staple industries will be tied up by a general walk-out within the next three days, should there be no settlement of the Winnipeg trouble in the meantime. The majority of the larger unions have registered their wishes in the matter and have forwarded the decision to the central executive, which has not yet opened these sealed communications. It was stated this morning by James Dakers, President of the Metal Trades Council, that shipyard workers have voted by a large majority to support the Winnipeg strikers by a walk-out if necessary.

The street car workers will not meet until to-morrow, when they will decide whether or not they will take a vote on the sympathetic strike issue. The postal workers and the retail clerks contented themselves with passing resolutions expressing sympathy with the Winnipeg strikers, but they themselves did not vote on the question of a strike. The city firemen have made their decision on the strike question, but the heads of the union refuse to divulge any information. Victoria is assured of police protection whether there is a strike or not, for the by-laws of the Police Union prevent its members from joining in a general strike.

While Victoria is eagerly waiting the decision of labor the Seamen's Union, quite independent of the proposed sympathetic strike, threatens to tie up all Canadian coastwise shipping between Victoria, Seattle, Vancouver and Prince Rupert unless the steamship companies concede certain demands. The chief of these is the eight-hour day.

Postal Workers' Resolution
The Postal Workers' Union met on Saturday evening, and heard members of the Winnipeg district union. After passing the accompanying resolution they adjourned, disinclined to favor a strike at the present time.

Whereas, owing to the intense feeling of discontent which pervades the whole of the working classes of Canada who have been driven to despair by the high cost of living, a general strike is spreading throughout Canada;

And whereas, the postal workers in Winnipeg, Calgary and other towns who went out on strike in sympathy with the just aims of the workers have been dismissed by the Government and deprived of the right in future of earning a living at the work for which they are best fitted;

And whereas, the postal workers have been aggravated to the extreme by the delay of the Government in granting an increase of salary asked for last August to enable them to meet the existing economic conditions;

And whereas, a great injustice has been done to these men;

Therefore, be it resolved, that we, the Victoria branch of the Amalgamated Postal Workers, go on record as being most emphatically opposed to the methods of intimidation being used by the authorities to compel the submission of the workers;

And be it further resolved, that while we are in full sympathy with the workers who are on strike, we believe the best interests of labor, the general public and our organization can be best served for the present by our carrying on the Victoria postal service and to hold ourselves prepared to take whatever action we may consider necessary.

Whole Situation Uncertain
While new developments are taking place every hour, the whole situation is most indefinite, and even the labor leaders are unable to say with certainty whether the city will be tied up or not. Out of the forty-one unions represented in the city, about thirty have met and decided their stand on the question. Sealed communications setting forth their views have been received by the executive of the Trades and Labor Council, but they will not be opened until that body meets. As a number of unions will be unable to meet to-day, it is possible that the Central Committee will postpone its meeting until to-morrow morning. It will then be decided whether or not a general strike will be declared. Until the executive has met it is impossible to forecast with any degree of certainty.

Shipyard Vote to Strike
The basic crafts in the shipyards have voted by a large majority for a strike if necessary. Mr. Dakers declared. The Metal Trades Council represents a large number of unions including the machinists, boiler-makers and others, and from what I have learned I am able to say the men will support the Winnipeg strikers. They feel that the whole principle of unionism is involved and that the right of collective bargaining is at stake. "Collective bargaining," asserted Mr. Dakers, "is the very essence of trades unionism. Every union man in the country will take a definite stand on that principle. Collective bargaining was recognized at the labor sessions

Bolshevik Warships Routed by British in Gulf of Finland

Helsingfors, May 31.—Delayed—(Associated Press)—A fifty-minute battle occurred this morning between seven British warships and a Bolshevik fleet comprising the battleship Petropavlovsk (23,367 tons), and three other warships which had been bombarding the coast west of Krasnaia Gorka (fifteen miles west of Kronstadt). The Russian craft eventually fled to Kronstadt.

PREMIER SAYS LABOR LEADER IS MISTAKEN

A reply to a telegram on the labor unrest in this city, dispatched by him to Sir Robert Borden, Prime Minister of Canada, was received this morning by E. S. Woodward, President of the Victoria Trades and Labor Council. Mr. Woodward states that Sir Robert answers his representations with the assertion that the Victoria labor leader misunderstands the situation.

ROBERTSON SAYS LEADERS OF WINNIPEG STRIKE SIT AMONG RUINS THEY CAUSED

Winnipeg, June 2.—Hon. Gideon Robertson, Minister of Labor, in a statement made to the press before leaving for Ottawa yesterday to confer with the Dominion Cabinet, said the promoters of the general strike in Winnipeg "now sit in the ashes of their folly"; that "sympathetic strikes must always fail," and that the Winnipeg strike is "the first rehearsal of the play written at Calgary," where the "One Big Union" movement was launched last March.

Senator Robertson's statement was as follows:
The promoters of the general strike in Winnipeg now sit in the ashes of their folly. Something like 30,000 men and women were called out, professingly for the purpose of enforcing the recognition of the right of collective bargaining. In responding to the call, the majority violated and repudiated their obligations to their own trades unions and their contracts with their employers. "In a general sympathetic strike the force is directed against the whole community. Because of the inconvenience, loss and suffering imposed upon innocent people, sympathetic strikes must always fail. "Socialism has chosen the One Big Union idea as a popular primrose path along which to lead the trade unionist, urging him to discard his honorable obligations and join the big show. "In March last at Calgary the play was written. The Winnipeg strike is its first rehearsal, with the main performance promised at a later date. The Winnipeg reprisal has cost approximately \$2,000,000 in wages lost in Western Canada and has proven the play to have been badly written and unpopular with the public and most of the performers. "Employers must not mistake the outcome of the general sympathetic strike as a defeat of organized labor."

GERMANS ALLEGE THEY ARE UNABLE TO BEAR TERMS OF PEACE ALLIES LAID DOWN

Washington, June 2.—Germany, although realizing that she must make sacrifices to obtain peace, is convinced that the execution of the peace treaty as drawn is "more than the German people can bear."

Count von Brockdorff-Rantzau, head of the German peace delegation, has thus summed up the attitude of the German nation towards the proposed treaty of peace in a note to the Allied and Associated Powers outlining various German proposals. The German note, delivered to Premier Clemenceau, President of the Peace Conference, last Thursday, has been made public by the State Department here.

The German delegation nowhere in its note asserts that it will refuse to sign the present treaty, but declares on behalf of the German nation that "even in her need, justice for her is too sacred a thing to allow her to stoop to achieve conditions which she cannot undertake to carry out."

To Poland
"With a view to the re-establishment of the Polish state, we must renounce indisputably German territory—nearly the whole of the Province of West Prussia, which is preponderantly German, Pomerania and Danzig, which is German to the core—we must let that ancient Hanseatic town be transformed into a free state under Polish suzerainty. We must agree that East Prussia shall be apportioned from the body of the state, condemned to a lingering death and robbed of its northern including Memel, which is purely German. We must renounce Upper Silesia for the benefit of Poland and Czechoslovakia, although it has been in close political connection with Germany for more than 750 years, is instinct with German life and forms the very foundation of industrial life throughout East Germany.

"Preponderantly German circles (Kreise) must be ceded to Belgium without sufficient guarantees that the plebiscite, which is only to take place afterwards, will be independent.

Saar Region
"The purely German district of the Saar must be detached from our empire, and the way must be paved for its subsequent annexation to France, although we owe her debts in coal only, not in money."

"For fifteen years the Rhenish territory must be occupied, and after those fifteen years the Allies have the power to refuse the restoration of the country. In the interval the Allies can take every measure to sever the economic and moral links with the mother country and finally to misrepresent the wishes of its indigenous population."

"Although the exaction of the cost of the war has not been expressly announced, we are, nevertheless, cut in pieces and weakened, must declare herself ready in principle to bear all the war expenditure of her enemies, which would exceed many times over the total amount of German state and private assets."

Civilian Damages
"Meanwhile, her enemies demand in excess of the agreed conditions reparation for damage suffered by their civil populations, and in the connection Germany must go back for her allies. "The sum to be paid is to be fixed by her enemies unilaterally and to admit of subsequent modifications and increase. No limit is fixed save the capacity of the German people for payment, determined not by their standard of life, but solely by their capacity to meet the demands of their enemies by their labor. The German people would thus be condemned to perpetual slavery."

"In spite of this inexcusable demand the reconstruction of our economic life is at the same time rendered impossible. We must surrender our merchant fleet. We are to renounce all foreign securities. We are to hand over to our enemies our property in all German enterprises abroad, even in the countries of our allies. Even after the conclusion of peace the enemy states are to have the right to confiscate all German property. No German trader in their countries would be protected from these war measures."

AUSTRIA SHRINKS TO SMALL STATE OF 6,000,000 INHABITANTS UNDER TREATY OF PEACE SHE MUST SIGN

PUBLIC UTILITIES NORMAL IN CALGARY

Strike Move Failing; Public Utilities Also Normal in Edmonton

Calgary, June 2.—Calgary is quiet, and the daily routine of its citizens but little interfered with by the strike. As the days go by it becomes more obvious that the attempt to engineer a general strike in Calgary will fail. The public utilities are being conducted almost unhampered, several unions have refused to join the strike movement within the last few days, and there is much anxiety noticeable amongst the strikers as to a possible early settlement of the Winnipeg strike. There is an almost desperate eagerness in the discussions heard on all sides as to the probable effectiveness of the arbitration which has been commenced in Winnipeg. There is a lack of enthusiasm noticeable in the ranks of the strikers about the sympathetic strike movement.

At Edmonton.
Edmonton, June 2.—All the public utilities here are operating normally to-day, and the civic employees are back on their jobs. The street cars are running full time. The letter-carriers, who refused to go on strike, also refused to donate \$50 to the Strike Committee. "Earl H. Reed, vice-chairman of the Strike Committee, has resigned as a result of the opposition of certain unions, notably the postal workers, to his connection with the labor movement in Edmonton. Reed is a radical who took a prominent part in the Alberta Federation of Labor convention at Medicine Hat last winter. He is said to be a Swede. He was naturalized in 1912."

Advised Men to Return.
The recent editorial in The Edmonton Free Press, Labor newspaper and official organ of the Edmonton Trades and Labor Council, advising the workers to go back to work "now that their object had been achieved," undoubtedly had a deterrent effect on the spread of the strike. It now seems that The Free Press did not claim to be speaking for the Trades and Labor Council when it gave this advice. The Council later repudiated the editorial, advising workers to remain on strike and declared its determination to fight "for a principle" until "the powers that be see fit to form a labor policy big enough, broad enough and far-seeing enough to meet the present situation."

A Protest.
The editorial referred to stated that the end in view in calling the strike in Edmonton had been achieved and the strikers could with very good grace return to work. The matter of collective bargaining had been advertised, and a general protest made in the shape of a sympathetic strike. Therefore, The Free Press advised all the strikers to resume their regular employment. The week-end was made wretched by a heavy snowfall in Edmonton.

No Authority.
Winnipeg, June 2.—An entirely new phase of the general strike situation here was injected Saturday when R. A. Rigg, formerly secretary of the Winnipeg Trades and Labor Council and a Labor Member of the Manitoba Legislature, who has just returned (Concluded on page 4.)

Territory of Less Than 60,000 Square Miles; All Warships Surrendered to Allies; Pact Delivered at St. Germain To-day Has Many Other Clauses

St. Germain-en-Laye, June 2.—The treaty of peace, though not in its entirety, was presented to the Austrian delegation here to-day. Austria was given fifteen days in which to reply to the terms delivered to-day.

M. Clemenceau, President of the Peace Conference, was the first prominent figure to arrive for the meeting. Secretary of State Lansing and Henry White, of the United States, then arrived; Premier Orlando, of Italy, and Premier Paderewski, of Poland, and Rt. Hon. Arthur J. Balfour following.

At 12.10 o'clock President Wilson had not arrived and the ceremony of presentation was delayed somewhat. The President, however, reached St. Germain at 12.14 o'clock. A puncture in a tire of his automobile had held him up on the way at St. Cloud.

The Austrian representatives arrived at 12.22 o'clock, entering the Chamber by a rear entrance. The delegates were attired in conventional morning dress and were escorted by an Italian officer.

Immediately upon the arrival of the Austrians at 12.22 o'clock the session was formally opened by announcement of the head usher.

Premier Clemenceau, President of the Peace Conference, at once began his address. He spoke only three minutes. His remarks delivered in French were translated into English, then into Italian and then into German.

Terms Presented.
Paul Dutaast, General Secretary of the Peace Conference, presented the text of the Austrian reply to the terms of the peace conference. Dr. Renner, the Austrian Chancellor, head of the Austrian delegation, then began an address in French. The Chancellor concluded his address at 1.29 o'clock.

Dr. Renner made a complaint at the delay in the presentation of the peace terms. He declared that the Austrian peace terms received here by the Government and issued to the Canadian Press.

London, June 2.—The conditions of peace of the Allied and Associated Powers, with the exception of the military, reparations, financial and certain boundary clauses, were handed to the Austrian plenipotentiaries at the river Moravia, the southern frontier facing Italy and the Serbo-Croat-Slovene state is to be fixed by the principal Allied and Associated Powers at a later date. In the eastern part the line passing just east of Biaburg crosses the Drave just above its confluence with the Lavant, and thence will pass north of the Drave so as to leave the Serbo-Croat-Slovene state Marburg and Radkersburg, just to the north of which latter place will be the exact boundary. The western and northwestern frontier facing Bavaria, the western frontier facing Switzerland and the eastern frontier facing Hungary remain unchanged.

Political Clauses.
Part three—Political clauses—Europe's high contracting parties recognize and accept the frontiers of Bulgaria, Greece, Hungary, Poland, Roumania, the Serbo-Croat-Slovene state and the Czechoslovak state as at present or as ultimately determined. Austria renounces in favor of the principal Allied and Associated Powers all her rights and titles over territories formerly belonging to her which though outside the new frontiers of Austria, have not at present been assigned to any state undertaking to accept the settlement to be made in respect to these territories.

The Czechoslovak state—Austria recognizes the complete independence of the Czechoslovak state, including the autonomous territory south of the Carpathians, in conformity with the action already taken by the Allied and Associated Powers. The exact boundary between Austria and the new state is to be fixed by a field commission of seven members, five nominated by the principal Allied and Associated Powers and one each by Austria and Czechoslovakia. Czechoslovakia agreeing to embody in a treaty with the principal Allied and Associated Powers such provisions as may be deemed necessary to protect racial, religious or linguistic minorities and to assure freedom of transit and equitable treatment for the commerce of other nations.

State of 6,000,000.
Austria is left by the treaty a state of 6,000,000.

REPUBLIC OF RHINE HAS BEEN DECLARED AND A NEW GOVERNMENT IS AT WORK

Mayence, June 1.—Via London, June 2.—(Havas).—The Rhine Republic was proclaimed to-day in various Rhine cities. The population welcomed the event with satisfaction and expressed the hope that it would put an end to the painful uncertainty prevailing in the Rhine provinces regarding the Allied nations and Germany.

The new Government is headed by Dr. Dorden. It has been installed provisionally at Wiesbaden. Dr. Dorden addressed a message to the different Governments and to the Peace Conference.

Paris, June 2.—Coblenz will be the capital of the new Rhine Republic which was proclaimed yesterday in several Rhine cities. The new Government and the National Assembly will meet there, but the Provisional Government will sit at Wiesbaden. Portions of the proclamation have been telegraphed to The Echo de Paris from Metz by Maurice Barres. A passage in the proclamation shows the movement not to be separatist but anti-Prussian. It says: "Violence from whatever side must disappear. The Rhenish people honestly and sincerely wishes peace based on a reconciliation of all peoples. That is why it separates itself from the institutions which have been the bases of so many wars, feudalism and militarism. Therefore, it limits an obstacle standing in the way of a genuine peace."

MAN JUMPED FROM NEW WESTMINSTER BRIDGE; WAS DROWNED

New Westminster, June 2.—An unidentified man on Saturday afternoon about 2 o'clock jumped into the Fraser River off the New Westminster bridge. Three boys, Joe Wise, Harry Lynn and William Lynn, were within twenty-five feet of the man, and later described him to the police.

The boys saw him climb over the bridge railing and disappear over the side. Later he was seen struggling in the middle of the river.

Tower-Tender Browning reported seeing the body of a man in the river about the same time, probably the same man.

FOG DELAYS SHIPS WITH TROOPS ABOARD

Megantic, Metagama and Corsican on Way to Montreal; Adriatic at Sea

Montreal, June 2.—The troopships which are on their way to Montreal, the Megantic, the White Star-Dominion Line, and the Metagama and the Corsican, of the Canadian Pacific Ocean Services, are all making slow progress owing to the fogs which have prevailed off the Atlantic coast for the past two days, and it is not expected that any of them will arrive here before Tuesday morning. The Metagama was reported off Cape Race on Saturday at 5.15 p.m., and the Megantic at Cape Race on Saturday at 4 p.m.

NEW FAST TRAIN SERVICE STARTED

First C. P. R. Trans-Canada Limited Left Vancouver Last Evening

Vancouver, June 2.—The eastbound Trans-Canada Limited, first of the new fast trains to be operated by the Canadian Pacific Railway across the continent, pulled out of the C. P. R. depot here last evening at 7.30 sharp on time. The train was in charge of Conductor John McEee, who entered the company's service in 1897, and at the throttle was Engineer L. T. Solloway, an employee of the company for thirty-two years.

The train, made up of six standard sleeping cars, one diner and one baggage car, will make the trip to Montreal in 42 hours and fifteen minutes, a saving of a day over the old cross-continent service.

About 100 passengers were carried out of Vancouver by the first train to be operated under the new schedule. The company officials regard this as an excellent sign, and they are firmly convinced that the new service will become the most popular one across the continent.

F. A. Tingley, Superintendent of Dining Cars, traveled as far as North Bend on the train. Mr. Tingley said that complete trains were necessary to take care of the new service. This necessitated the placing of over 100 men on these trains, of whom seventy-five per cent are returned soldiers. White dining car crews are employed on the train, a number of the cooks and waiters being war veterans.

A daily train will leave under the new service, pulling out from the Vancouver depot at 7.30 p.m., and the train from Montreal will pull out of the Windsor Station at 3.30 p.m. The trains, arriving here, will come in at 10.50 a.m.

As the service is fast, only one baggage car is carried so, but a limited amount of baggage will be taken.

The dining car service is the best given by the road, the cars having been specially built for this service.

PUBLIC MEETINGS IN BERLIN FORBIDDEN

Berlin, June 1.—Via London, June 2.—The German Government apparently anticipates trouble in Berlin in the near future, for the Minister of Defence, Gustav Noske, has tightened up the screws of the martial law under which the city still lives.

It was announced last night that the Minister had relaxed the provisions of the law so far as to allow demonstrations against the peace terms, public meetings and parades, but he now considers that this has been abundantly accomplished, and now forbids not only public gatherings, but even private meetings indoors, unless specific permission is given.

MRS. W. S. BARRETT FEELS LIKE A NEW PERSON SHE SAYS

After 15 Years of Suffering She Finds Relief by Taking Tanlac—Gains 15 Pounds

"By the help of Tanlac," said Mrs. W. S. Barrett, proprietor of the Mason Rooms at 609 Pender Street, West, Vancouver, "I have gotten rid of a case of stomach trouble that had made life miserable for me for fifteen years, or more.

"My appetite was gone entirely, and my stomach was weak and upset that at times I couldn't even stand the sight of food. I would often go for two and three days without eating anything except something very light and even this would sour and make me miserable. The gas from my stomach would rise up into my chest almost cutting off my breath. My heart would palpitate frightfully, and I would get so weak and dizzy that I would have to lay down for hours. My liver and kidneys were all out of order, and the small of my back hurt me so bad that I could hardly stoop over to make my bed. I was seldom free from headache—had them sometimes so bad that I was almost frantic—and was so nervous that I could never get a good night's sleep. I had gotten so weak that I often had fainting spells, and couldn't do my work any more.

"In fact I had become almost a complete nervous and physical wreck, and while in this awful condition I began taking Tanlac, and if Tanlac had failed me I don't know what I would have done, for I had tried everything else. But, thanks to Tanlac, it didn't fail me. On the other hand it has made me feel just like a new person, and I prize it above every medicine. I can now eat just anything without the slightest trouble afterwards, and I have also gained fifteen pounds in weight, which shows how well my food agrees with me. My headaches and nervousness have left me entirely, and to put it all in a few words, I never have an ache or a pain of any kind. I sleep like a child at night, and believe I could walk most all day without getting tired and short of breath, and my work is easy for me. I can't help thinking of others who need Tanlac and I feel that I ought to tell them about it."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas—Advt.

MONTREAL POLICE PREVENTED MEETING

Socialist Group Endeavor to Hold Gathering Against Authorities' Orders

Montreal, June 2.—Squads of police officers charging through the park with mounted officers aiding their efforts by dashing into groups of people who were slow in moving around, provided a spirited scene on the slopes of Mount Royal yesterday afternoon. It was an afternoon of excitement, with the determining hand of the police well shown.

The persistence of a Socialist group in Montreal in endeavoring to hold a meeting against the orders of the civic authorities was responsible for the clash.

Mrs. Ray Mendelsohn, one of the active workers of the Socialist group, was arrested and taken to headquarters.

DOMINION EXECUTIVE OF G. W. V. A. TO MEET IN OTTAWA JUNE 5

URGES COMMISSION INQUIRE IN POLAND

Paderewski Suggests American Group Investigate Charges Regarding Jews

Paris, June 2.—(Associated Press.) Ignace Jan Paderewski, the Polish Premier, made it known to-day that he had decided to ask President Wilson to name a Commission of Americans to go to Poland and investigate the charges regarding the treatment of the Jewish population there.

The Premier's intention was revealed in the making public of a letter which he had written to Herbert C. Hoover, saying:

"I have been considering our discussion of the position of the Jews in Poland, and particularly the action of the recent meeting in New York in protesting against the treatment of the Jews."

"The misstatements through which that meeting was influenced have affected me profoundly, and, as I and my colleagues of the Polish Government have nothing to conceal, I have decided to request the President to appoint an American Commission to visit Poland and investigate. If it should find any case of transgression of the law where justice has not been done, the Polish Government will undertake to administer it rigorously."

"I can unhesitatingly state that the events as reported at the New York meeting have not occurred. There are in Poland Ministers of great Government—British, French and American. Have any of them ever reported such events to their Governments, or have they ever asked a single question regarding them of the Polish Government officials who see them daily? Not to my knowledge."

"The world little understands that the Jews of Poland, ground for generations under the heel of our common oppressor, are in considerable part a people of misery, but that this misery is not the creation of the five months-old republic. New Poland has given the Jews every liberty of the Gentile."

DISMISSED TELEPHONE OPERATORS IN GEORGIA WILL BE RE-INSTATED

Washington, June 2.—S. J. Koenekamp, president of the Commercial Telegraphers' Union, stated here to-day that no date had been set for a nationwide telegraphers' strike and that the threatened walk-out in Atlanta was purely a local affair.

Almost simultaneously with Mr. Koenekamp's statement, Postmaster-General Burleson announced that if the telephone operators in Atlanta had been dismissed because of union affiliations, they would be reinstated at once and that steps would be taken to discipline the non-union officials of the Southern Bell Telephone Company.

AUTOMOBILE BANDITS ESCAPED WITH \$2,000

Oakland, Cal., June 2.—Three men in an automobile overtook Morris Haltern, a Sacramento garage owner, near Pinole, several miles south of here, last night, forced Haltern and his companion to leave their automobile, handcuffed them to a telegraph pole, robbed them of \$2,000 and escaped, according to a report made by Haltern at Pinole.

Haltern and his companion, who gave the name of Donner, were brought to Pinole by an automobile which found the two men securely linked to a telegraph pole by handcuffs.

LONDON WELCOMES AMERICAN AIRMEN

Crew of N.C.-4 and Two Other Crews Are Warmly Greeted

London, June 2.—The crews of the three Atlantic naval seaplanes came to London yesterday afternoon and were given a typical reception as their train stopped at Paddington Station. American sailors and soldiers rushed for the car that contained Lieut.-Commander A. C. Read, who had brought the N.C.-4 safely across the Atlantic, seized him and bore him on their shoulders up and down the platform and then to an automobile for a parade.

One of the first to reach the N.C.-4's commander after he came from the train was Harry G. Hawker, who had attempted to shout his congratulations as Lieut.-Commander Read was being jostled about on the shoulders and heads of a score of men. The daring British aviator, who had wired his congratulations to the crew of the N.C.-4 at Plymouth, had arrived at the station half an hour ahead of the train. The huge crowd outside the station cheered him and Mrs. Hawker as they drove up in their car. When they were inside the station, three cheers were suggested, and led by an American officer and given him by the American fighting men. They then gave three cheers for Mrs. Hawker.

The Royal Air Force had joined with the American navy men in arranging the welcome and took part in the procession to the Aero Club. The Americans were welcomed there and then went to the Hendon Flying Field to witness "stunt" flying.

They later dined as guests of the Royal Air Force. The present plans of the American crews are incomplete. The commanders of the seaplanes expect to receive orders to proceed to Paris. It is understood the N.C.-4 will be dismantled at Plymouth and shipped back to the United States. None of the crews are anxious to participate in any flying here.

BRITAIN WILL GIVE PLANES TO CANADA

Number Also to Other Dominions, the Colonies and India

London, June 2.—(Reuter's)—In the House of Commons on Saturday, Colonel A. W. Ashley, member for Fylde, asked: "Will the Air Ministry offer the Dominions and colonies some of its surplus aeroplanes for postal and similar services?"

Major-General Seely replied that the question had been considered, and a satisfactory conclusion reached by the Government. He would make an announcement later.

"Will it be by gift or purchase?" he was asked.

Major-General Seely replied: "As free gifts to the Dominions, Crown Colonies and India."

This statement was greeted with cheers.

JESS ON SCENE TO FINISH HIS TRAINING

Toledo, Ohio, June 1.—Weary from his long, hot journey from California, Jess Willard arrived here late last night to finish training for his championship contest with Jack Dempsey.

To-day was scorching hot, but the heat did not stop a crowd from jamming Dempsey's enclosed arena. After driving his punching bag from its moorings and tugging at the weights, Dempsey boxed four bristling rounds.

Jack Lavink, Cleveland light heavy-weight, and Soldier Stanton, of New York, left the ring with their knees sagging from the punching the challenger handed them. Each boxed one round.

The Jamaica Kid, a 155-pound negro from New York, gave Dempsey the most spirited work-out. He is a skillful boxer and a hard hitter, and revelled in exchanging punches with the challenger.

Dempsey reeled off seven miles on the road this morning, rowed a boat for three miles and went swimming with members of his training staff.

A RETURNED SOLDIER'S VIEWS.

To the Editor.—I read with considerable interest as well as irritation the following statement, attributed to Mr. E. S. Woodward, the president of the Trades and Labor Council, which appears in this evening's paper, in respect of returned men taking over the jobs which might be vacated by the strikers.

"Not to any large extent. They are to a great extent working men and they appreciate that it is not to their interest to thwart unionism which will support them when they have become absorbed into civil life again."

From this statement I judge that Mr. Woodward has never been in the army and has associated very little with the men who served. He has made the serious blunder that has been made too often in the past of claiming, without justification, the bulk of not the entire support of the returned man. Labor had a generous representation in the struggle, but so has the manhood of the country which was neither labor nor capital, but which consisted of the office man, the lawyer, the student, the dentist, the drug clerk, boys from the land and boys from other walks of life. This class of man and boy stand resolutely in the road of sympathetic strikes in the city of Victoria at the present time. If there was a strike owing to unfair treatment of labor in this city they would remain neutral, but when it is simply a case of a strike over a dispute in Winnipeg on sympathetic grounds, the position is entirely different.

A large number of returned men have obtained profitable work at the shipyards. A sympathetic strike here would force these men out with the ultimate result that the thousands of shipyard workers in all probability discontinue their operations here. This would deprive hundreds of returned men of their jobs. Is this the kind of assistance labor offers the returned men?

I would like to dwell upon a matter which has been too little spoke of in respect of the returned man. Certain elements among organized labor when we were in France enduring the hardships of fighting it was nauseating to find that men at home were striking for higher wages. These men were employed in supplying us with the needs which to successfully prosecute the war, yet they placed the matter of copperheads of the lives of their comrades. I know the profiteer was just as much to blame, but that does not extenuate the action of the strikers.

We read of men in the shipyards striking when ships were urgently needed to send us food; of munition men striking when shells and guns were wanted to pave the way for the infantrymen. We read of these men looking at our own position there in the mud and our dollar-ten a day. We pictured the striker getting his high wages with a comfortable bed to sleep in and plenty to eat.

Many times I heard soldiers wistful and I guess I expressed the wish myself—that they could swap places with the strikers, or that the Government would take hold of the works of national importance at home and pay these chaps at the rate of a dollar-ten a day and allowances.

Since I have returned I have been informed that the Trades and Labor Council passed a resolution two years ago withdrawing support from the Victoria Patriotic Fund. This certainly did not reflect much sympathy for the soldiers or their dependents. I should like to hear Mr. Woodward's answer in this matter.

As a returned man I do not want to blame the capitalist alone. Capitalists are to blame in many instances. Maybe some rest on the capitalist in Winnipeg, but what's that got to do with Victoria?

In conclusion I would like to point out that strikers who leave work because of a dispute in Winnipeg need not be surprised if they find returned soldiers ready to take their places. Many returned men are looking for jobs and feel that they are at liberty to take advantage of such an opportunity, as some of them have been working for a dollar-ten a day for two, three and four years and are anxious to get ahead once again. They've seen enough strife and fighting and want a little peace for a change.

A RETURNED SOLDIER. ANGELES DOUBLED.

Los Angeles, June 1.—Los Angeles took both games from Vernon yesterday, thus breaking even on the series of eight games. The score in the morning game was, Vernon 4; Los Angeles 5. In the afternoon, Vernon 4; Los Angeles 12. In the morning contest, Perica was wild and was knocked out of the box in the fourth. Dell followed in the seventh. Crandall and Frynne made a pitchers' battle of the remainder of the contest.

In the afternoon the Angels slaughtered the Tigers. Ellis' home run accounted for three of the Angel runs, as two others scored with him.

San Francisco, June 1.—San Francisco won the morning game, 5 to 13, and Oakland in the afternoon game commenced in the second to pull away from a heavy San Francisco lead and took a 7 to 6 victory, evening the day

THE BETTER WAY.

In its application to present problems the most interesting part of the address given by President Beatty, of the Canadian Pacific Railway, before the Canadian Club here a few days ago, was his description of what had been accomplished by co-operation between employers and employees on the railroads of the country in the way of adjusting disputes.

"Last summer," President Beatty said, "The railways of the country were threatened with very serious labor troubles; wage adjustments were made and rates were raised, but the individual difficulties due to unrest did not thereby disappear. The railways, in conjunction with the Government and the labor unions, adopted a course quite without precedent in the history of Canada. Their heads sat round a table, discussed the best methods to adopt, and in the end constituted what is known as 'Railway Board of Adjustment No. 1,' composed of six representatives of the labor unions and six railway executives.

"The Board was empowered to adjust and make binding upon the parties concerned all disputes arising between railway employees and the railway companies. In the event of failure to agree, there was a provision for calling in an outside and independent referee, who would give the casting vote. Whether or not it was because the number this gentleman would bear was No. 13, I cannot say, but thirty-two main disputes, in some cases involving half a dozen minor differences, each one of which might have precipitated a strike, have been determined by this Board, and in no case has there been an absence of agreement, and in no case have either the executives or the men complained that substantial justice was not done.

"Now the reason for the extraordinary success of the tribunal, which was formed to exist during the period of the war only, but which I hope will continue long after peace has been declared, is this—it was composed of men determined to see that right was done; men who respected their colleagues on the Board and themselves; men who were actuated by the spirit of adjustment. In no case has the Board ever forgotten its judicial attitude, nor has there been any evidence of feeling on either side in the course of its deliberations.

"It is not for me to suggest what measures would be appropriate for industries, but I can assure you that the workings of the Canadian Board of Adjustment No. 1 can be looked to with great satisfaction, and I should think, with some advantage by all those who have to deal with the existing labor problem."

This surely is the right spirit in which to approach the settlement of industrial disputes. If it were generally adopted in Canada now there would be an assurance of industrial peace which would ensure a quick recovery from the war. It is not satisfactory, of course, to the extremists of both sides. It would spell the end of the agitation for a "class war," but it is a thousand times better than chaos. Moreover, in the long run it is going to prevail and much suffering and loss would be saved if this inevitable outcome were fully realized now.

ENVER MUST GET HIS.

It will be a matter for regret if Enver Pasha succeeds in eluding the vigilance of British and Allied authorities who seek to bring this former agent of Germany to book for his diabolical participation in the war. According to an announcement made by the Under Secretary of State for Foreign Affairs in the British House of Commons on Saturday his present whereabouts are unknown. In so advising the House, however, Mr. Harmsworth stated that he understood a provision requiring the surrender of both Enver and Talaat Pasha would be included in the Peace Treaty with Turkey.

Under no circumstances should these arch-fiends be allowed to escape and it should be made a sorry day for Enver when he finds himself facing an international tribunal. But if he has decamped in the meantime his complicity in the great crime should nevertheless warrant the employment of every known agency that may assist in delivering him and his associate to "court." As a willing tool of the former Kaiser, Enver Pasha sold his country completely, and just as effectively destroyed the last vestige of hope to which the Turk in Europe might have attached a claim to international clemency when the map came to be re-drawn.

Mere entry into and participation in the war on the side of the Central Powers, however, is not the only crime for which Turkey must be made to answer. The extermination of a million Armenians forms one of the most horrible chapters of the struggle. Her treatment of all that was left of the ill-fated garrison from Kut-el-Amara likewise constitutes a record of crime only equalled by the horrors of Wittenberg. Evidence of almost indescribable cruelty inflicted on those unhappy captives was taken under novel circumstances by four officers and preserved in cypher in the hope that escape or release would be possible sooner or later. It is as well that such a precaution was taken, be-

cause the record itself goes to show that the religious mania which, to some extent, was made the pretext to excuse the Turk in days gone by, was only part of an inherent propensity to torture and murder.

All these things were instigated by Enver Pasha, and he must take his stand as the principal defendant in the indictment. The Turk has been long since ruled out as unfit to remain in Europe, and he must not be allowed to shuffle off into Asia until fitting punishment has been exacted for his crimes. The time to take off the velvet glove in dealing with the Turk has long passed.

HALDANE'S VINDICATION.

During the war many eminent public men in Great Britain were driven into private life by a campaign of vilification and abuse conducted by certain screeching, hysterical elements in the vanguard of which was the Northcliffe press. Prominent among the victims of this agitation, which ran the gamut from Lord Grey to Mr. Lloyd George, was Lord Haldane, former Secretary of State for War. Haldane was stigmatized as a "pro-German," a "traitor" and heaven only knows what not, but he never took the trouble to reply to his detractors, no doubt because he considered them beneath contempt.

In his book on the war, recently issued, Field-Marshal Lord French has done for Lord Haldane what that statesman scorned to do for himself. He shows how the perfection of the first British expeditionary force, "The Old Contemptibles," was due mainly to the foresight and organizing ability of the former War Secretary, how Haldane in co-operation with himself and Sir Douglas Haig put that force in such a state of preparedness that it was able to take its place in the battle-line in an incredibly short time after the outbreak of war, much sooner and in much more formidable form than the French military authorities thought could be done. Indeed, France had asked for only 60,000 men.

In another chapter Lord French again eulogizes Haldane's foresight in organizing the British Territorials and makes this significant assertion:

"I say without the slightest hesitation that without the assistance which the Territorials afforded between October, 1914, and June, 1915, it would have been impossible to have held the line in France and Belgium or to have prevented the enemy from reaching his goal, the channel seaboard."

The distinguished author concludes his reference to Lord Haldane as follows:

"Lord Haldane had only some eight or nine years to wait for his reward. Within that time he saw his Territorials doing splendid and invaluable work as complete divisions in the field, and fighting with success against the most powerful and efficient army in the world. When I say he 'got his reward,' I may well be misunderstood. He got nothing but calumny and grossly unjust abuse; but the 'reward' to such a man does not come in the ordinary way. He had proved the value of his great work, and that is all the reward he ever wanted."

Most people will accept Lord French's estimate of the former War Secretary in preference to that of Lord Northcliffe.

AT VERSAILLES OR BERLIN?

The Wolff Bureau, that famous, or infamous—according to the taste of the moment—official news dispensary which "fought" and "won" so many German "victories" during the war is apparently retained by the Scheidemann regime for the dissemination of propaganda calculated to fan the national spirit into a belief that German pride will not permit the signing of the peace treaty. In other words the Wolff Bureau is still doing business at the old stand in the same old way. Its latest job has been to blanket the Fatherland with an announcement authorized by the Cabinet declaring that Germany declines to sign the peace terms laid before the German delegation. It sounds almost as if Dr. Karl Rosner had been loaned by the ex-Kaiser to head the bureau.

But will it ever dawn upon the remnant of the old gang, which still seeks to bolster up the shattered junker edifice, that the time has passed for spoofing the newly-awakened populace? The Wolff Bureau can shriek itself hoarse and still Germany will sign the peace treaty very little altered from the original. And just as Mr. Lloyd George has intimated, if von Rantzau and his associates are not keen on appending their signatures to the document amid the salubrious atmosphere of the Trianon at Versailles, a round table not far distant from the Brandenburg Gate in Berlin may have to be used and the terms altered to fit the substituted environment. Either the German delegates will sign this treaty or return to Berlin and arrange a reception for Foch, who might have a different document in his pocket which would have to be signed without parley of any kind.

BE IN TIME FOR THE SUMMER.

Promise of early consideration was given by the Streets Committee of the City Council on Friday afternoon to a large delegation recommending the proper supervision of Victoria's playing grounds. This is a subject of vital interest to the coming generation and the establishment of a policy designed to direct the leisure hours of the youth of the community would mean an investment that would be repaid in compound interest.

On more than one occasion The Times has advocated the plan and it had hoped that the City Council could have conducted its investigations in sufficient time to allow advantage to be taken of the long summer days. It was under the impression that considerable progress already had been made in view of the fact that more than one delegation has appeared before the civic authorities with similar pleas.

It may be taken for granted that the taxpayers of Victoria—and particularly the parents of children—would consider an annual outlay of \$1,250 for an instructor not out of proportion to the benefits that would be derived. The representative nature of Friday's delegation suggests to us that there is a very general desire for action along this important line of auxiliary education.

GERMANS ALLEGED THEY ARE UNABLE TO BEAR TERMS OF PEACE ALLIES LAID DOWN

realization of all our aims in the sphere of politics, economics and ideas.

"Even in internal affairs we are to give up the right of self-determination. The International Reparation Commission will receive dictatorial powers over the whole life of our people in economic and cultural matters. Its authority will extend far beyond that which the empire, the German Federal Council and the Reichstag combined ever possessed within the territory of the empire. This Commission will have unlimited control over the economic life of the state, of communities and of individuals. Further, the entire educational and greater of the new states on the east, even when they concern her own functions. The German people is excluded from the League of Nations to which is entrusted all work of common interest to the world.

"Thus, must a whole people sign the decree for its own proscription—nay, its own death sentence."

"Germany knows that she must make sacrifices in order to attain peace. Germany knows that she has by agreement undertaken to make these sacrifices within the limits of her capacity.

German Proposals.
 "1. Germany offers to proceed with her own disarmament in advance of that of other peoples, in order to show that she will help to usher in the new era of the peace. She will give up all universal compulsory service and reduce her army to 100,000 men, except as regards temporary measures. She renounces the warships which her enemies are still willing to leave in her hands. She stipulates, however, that she shall be admitted forthwith as a state with equal rights into the League of Nations. She stipulates that a genuine League of Nations shall come into being, embracing all peoples of good will, even her enemies of to-day. The League must be inspired by a feeling of responsibility toward mankind, and have as its object a power to enforce its will sufficiently strong and trusty to protect the frontiers of its members."

Territorial Questions.
 "2. In territorial questions Germany takes up her position unreservedly on the ground of the Wilson programme. She renounces her sovereign right in Alsace-Lorraine, but wishes a free plebiscite to take place there. She gives up the greater part of the province of Posen, a district incontestably Polish in population, together with the capital. She is prepared to grant to Poland, under international guarantee, free access to the sea by cutting free ports at Danzig, Koenigsberg and Memel, by an agreement regulating the navigation of the Vistula and by special railroad conventions. Germany is prepared to ensure the supply of coal for the economic needs of France, especially from the Saar region, until such time as the French mines are once more in working order. The preponderant Danish districts of Schleswig will be given up to Denmark on the basis of a plebiscite. Germany demands that the right of self-determination shall not be repealed where the interests of the Germans in Austria and Bohemia are concerned. She is ready to subject all her colonies to administration by the community of the League of Nations if she is recognized as its mandatory."

Reparation.
 "3. Germany is prepared to make payments incumbent on her in accordance with the agreed programme of peace to a maximum sum of 100,000,000 marks, gold, 20,000,000,000 by May 1, 1920, and the balance of 80,000,000,000 in annual payments without interest. These payments shall in principle be equal to a fixed percentage of the German Imperial and state revenues. The annual sum shall be approximately to the former peace budget. For the first ten years the annual payments shall not exceed 1,000,000,000 gold marks a year. The German taxpayers shall not be less heavily burdened than the taxpayers of the most heavily burdened state among those represented on the Reparation Commission."

"Germany presumes in this connection that she shall not be any territorial sacrifices beyond those mentioned above, and that she will recover her freedom on economic movement at home and abroad."

Reconstruction.
 "4. Germany is prepared to devote her entire economic strength to the service of reconstruction. She wishes to co-operate effectively in the reconstruction of the devastated regions of Belgium and Northern France. To make good the loss of production of the destroyed mines in Northern France, up to 20,000,000 tons of coal will be delivered annually for the first five years and up to 8,000,000 tons for the next five years. Germany will facilitate further deliveries of coal to France, Belgium, Italy and Luxemburg."

"Germany, moreover, is prepared to make considerable deliveries of benzol, coal tar and sulphate of ammonia, as well as dyes and medicines."

"7. Germany thinks she sees an appropriate method for the prompt fulfillment of her obligations to make reparation by conceding participation in industrial enterprises, especially in coal mines to ensure deliveries of coal."

"8. Germany, in accordance with the desires of the workers of the whole world, wishes to see the workers in all countries free and enjoying equal rights. She wishes to ensure to them in the treaty of peace the right to take their own decisive part in the settlement of social policies and social protection."

MAY INCREASE RATES.

Washington, June 2.—Dakota Supreme Court decrees enjoining Northern Pacific Railroad and Director-General Hines from enforcing an order of the Railroad Administration increasing rates for the first five years and up to 8,000,000 tons for the next five years. The Court also set aside lower court decrees which held that under Section 15 of the Railroad Control Act, pre-existing intra-state rates remained in effect, as lawful police regulations.

from overseas, made a public statement that neither the Winnipeg Trades Council nor any other Trades Council in Canada has any authority to order a general strike. He asserted that the Trades Council is entirely a voluntary organization whose charter is granted by the Trades Congress of Canada and its charter gives it no such authority.

Statement by Robertson.

Winnipeg, June 2.—The attention of Senator Robertson, Minister of Labor, having been called here before he left for Ottawa, to the fact that efforts are now being made by the strike leaders here to indicate that this is not a mere strike but a revolution, he said he had no doubt they were beginning to climb down. He had nothing more to say, however, with reference to the cause of the trouble than he had stated in his message to the Mayor of Calgary, which set forth that "events have proved conclusively that the motive behind the strike was for the purpose of assuming control and direction of industrial affairs, also municipal, provincial and federal activities, as far as they are carried on in this city, and with the avowed intention of extending it to a wider field."

TORONTO STREET CAR MEN CONTINUE WORK

by the Committee of Fifteen with reference to the sympathetic strike was endorsed.

No unions were reported yesterday to have joined in the strike at the week-end. It was stated, however, that Monday 800 members of the marine Federation would go out. The Marine Federation embraces all unions in the shipyards.

Carpenters.
 The union carpenters met yesterday afternoon and reaffirmed their decision to support the strike. About 1,500 carpenters representing various building trades are on strike. They were the first to go out last Friday in sympathy with the metal workers. It is thought that building operations will cease in this city during the strike.

Arthur O'Leary, president of the Toronto District Trades and Labor Council; W. J. Hevery, secretary of the Trades and Labor Council, and John Doucett, of the Carpenters' District Council, withdrew on Saturday night at the mass meeting of unions from active leadership in the sympathetic strike on the ground that their duties make it impossible for them to continue. Other labor leaders were elected in their places.

Estimates Vary.
 The actual number of strikers in Toronto at present is variously estimated. The Strike Committee gave out a statement Saturday afternoon that 17,000 people were on strike. Some of the local newspapers place the number of strikers at about 9,000 to 10,000. The plumbers and steamfitters voted yesterday against joining the strike.

CAPT. W. SPRAGUE OF VANCOUVER, EXPIRES

Vancouver, June 2.—The death occurred Friday at the home of his daughter-in-law here of Captain William Sprague, master mariner, after a painful illness extending over about six months.

Captain Sprague was a seafaring man who was known in almost every port in the world at one period of his life, and had many friends and acquaintances in Vancouver. It is now about fifteen years since he gave up going to sea, except for occasional trips when he relieved a brother captain, and has spent the time at various parts of the Pacific Coast in the interval.

The deceased captain was seventy-five years of age. He was born in Port Elgin, N. B., and followed a seafaring life from his boyhood, his father having been a sea captain before him.

Don't measure your industry by the things you are going to do to-morrow.

TWENTY-FIVE YEARS AGO TO-DAY
 Victoria Times, June 2, 1894.

The court of revision on the assessment roll meets in the Council Chamber of the City Hall on Monday morning.

The sealer Minnie was at the Cape last night, and is expected up this evening. She has a catch of about 5,000 skins.

Boating up the Arm has begun.

The sealer Sapphira has discharged her seal skins and has pulled into the row of vessels moored just below the Custom House.

Glasses for All

There is no reason why you should not enjoy the comfort and pleasure of wearing modern glasses. Make up your mind to have them—let me make them for you and they will be absolutely suited to your vision—and you will be surprised to note how they enhance rather than detract from your appearance. Uncle Wiggily and Bunty's Cake

Copyright, 1918, by McClure Newspaper Syndicate.
(By Howard R. Garis)

"Uncle Wiggily, I'm going to have a nice treat for you this afternoon," said Bunty, the little rabbit girl, to Mr. Longears, the bunny gentleman, as he sat on the steps of his hollow stump bungalow one morning.

"A treat for me? That will be nice!" laughed Uncle Wiggily, twinkling his pink nose like a June bug on parade. "Is your treat going to be to have me waken you or play tag?"

"No, no, no, Uncle Wiggily!" answered Bunty. "And I don't think it'll be all nice of you to make me sit on the steps of that hollow stump bungalow one morning."

"What a twisted hair ribbon fashion!" the only reason I want you to chase me, or play tag, is because you get old and stiff, and I don't want to be like you."

"Oh, you're just joking," said the bunny gentleman. "What is your treat, Bunty?"

"I'm going to make you a cake," she answered, "with flour and sugar and butter, and a sugary frosting. I'll make it just like the cake that Nurse Jane made for me."

"That's very nice," said Uncle Wiggily. "But what are you going to do with it?"

"I'm going to give it to you," said Bunty. "I'll bring it to you in a basket, and you can eat it when you get home."

"That's very kind of you, Bunty," said Uncle Wiggily. "But I don't want to eat a cake that's made with flour and sugar and butter. I don't want to get fat and stiff like you."

"Oh, you're just joking," said Bunty. "I'm going to give you a special kind of cake. It's called 'Bunty's Cake', and it's made with rabbit ears and rabbit feet. It's very good for you, and it won't make you fat and stiff."

"That's very nice," said Uncle Wiggily. "But I don't want to eat a cake that's made with rabbit ears and rabbit feet. I don't want to get fat and stiff like you."

"Oh, you're just joking," said Bunty. "I'm going to give you a special kind of cake. It's called 'Bunty's Cake', and it's made with rabbit ears and rabbit feet. It's very good for you, and it won't make you fat and stiff."

WILD ANIMALS AT HOME.

Naturalists have expressed a fear that, with the exploitation of the waste places of the earth, the bigger wild animals, especially if they are more trouble than they are worth, like lions, tigers, the rhinoceros and the hippo, will be crowded off the map by all-encompassing man.

There is reason in this fear, and how- ever much the tiger or the jaguar, or even the great snake, may be dis- liked, yet there is a sentiment in the world against rendering any species ex- tinct. This idea, with others, has led to the establishment of great national parks, which are really great game reserves.

One of the largest of these in Canada is called Jasper Park. It is a land of lake and river and mountain between the Saskatchewan River and the "Teton" Park. It is nearly as big as Wales, and is the haunt of bears and elk, of beavers and skunks and foxes, and the rivers teem with fish.

There is room for them, and a few more, even as well as the Yellowstone Park, in Wyoming, U.S.A. It is 3,575 square miles in area, and includes a lake nearly two miles long.

New Zealand has two national parks. Lake Wakatipu, 117 square miles in extent, is the centre of the one in the southern island, and the other in the north island includes the famous Lake Taupo.

Some people think it is the Government of the old Country that likes to see wild animals in the hands of man, setting aside the British Lake District, the lovely Trossachs, and the lakes of Killarney for national possessions. But among other things which the Great War has caused to be said again for the first time, perhaps this may be included as a "don't say" item.

STATES CASE UPON WINNIPEG STRIKE

L. Rogers Describes Labor's Attitude in Prairie Capital

"We are not out here to agitate, but to make a plain statement of the facts surrounding the Winnipeg strike. This statement prefaces the remarks of H. L. Rogers, representing the Winnipeg Trades and Labor Council, who explained the circumstances to a Times representative on Saturday evening. Mr. Rogers is accompanied to the coast by J. Elrich. Both of them are postal workers, but hold their credentials on the Labor Council. Mr. Rogers' statement divided itself into four aspects, practically being re-iterations of press statements sent out from Winnipeg. Primarily, he takes issue with the statement that the leaders of the strike committee are revolutionaries. He says they are men who are not known for extreme opinions, but they are men of good character and sound judgment, and are not anxious to recast industrial conditions by a revolution."

An Important Point.
"Are they men who were known to be active in the movement for the One Big Union Idea?" asked The Times representative. "No," said Mr. Rogers, "my one of them has been known to peak on the issue, and at no time has he subject been debated in the strike meetings. I never heard the issue advanced at any meeting since May 15, when the strike started. We maintain that the issue throughout has been one of the right of collective bargaining. The next issue to which Mr. Rogers' attention was a flat denial that any other alien influence was dominating the strike committee. Any one who knows," he said, "the attitude of white workers to the foreign element in the north end of Winnipeg would know how much influence those foreign laborers would have in our councils. The only justification as far as I know for the allegation of alien propaganda is that advantage was taken of our distributing the Labor News, for certain extremists over whom we had no control, also distributing simultaneously copies of a pamphlet dealing with Lenin and Trotsky."

Police Control.
The third passage of his statement was elicited by questions directed to ascertain how far the strike committee had endeavored to take control of local

administration, particularly with regard to the police. Mr. Rogers said that there was at no time an attempt to exercise the functions of the municipality by the committee. "What we did do with the police was this, we told the police to stay at their job in case of need, when they voted their willingness to come out. We did not make any attempt to interfere with their patrols, nor did they take any instructions whatever from us, entirely continuing under the constituted authorities."

The fourth point upon which Mr. Rogers laid special emphasis was that of the cards issued to men engaged in necessary occupations. He claimed that the committee had in this respect met the request of the Citizens' Committee of One Thousand, and said that these cards were permissive and not compulsory.

Collective Bargaining.
Mr. Rogers explained at some length the principle of collective bargaining, of which issue the public is now well informed, and declared it was only the extension of a principle previously conceded by the Winnipeg Builders' Exchange, but refused by the Iron Masters to the metal trades. He asked the public of the coast to judge if the absence of crime during the past two weeks were not of itself tangible proof that the strike was being managed by intelligent men, and not by revolutionary extremists.

Mr. Rogers and Mr. Elrich spoke to the Postal Workers Saturday evening before leaving for Vancouver. They told the meeting that they would offer no suggestions towards a sympathetic strike, leaving the matter entirely to the individual union.

WILL USE INFLUENCE

J. C. McIntosh, M. P., to Assist Dr. Toimie, M. P., in Ocean Docks Matter.

The Victoria and Island Development Association is in receipt of a letter from J. C. McIntosh, M. P., in which he acknowledged receipt of the copies of resolutions recently passed by public bodies in this city relative to the utilization of the ocean docks without delay. Mr. McIntosh says that the completion of Victoria's ocean dock facilities is a matter that has always had his hearty support, and he promises to assist Dr. Toimie, M. P., in every possible way to achieve success for the city's aims. Mr. McIntosh reports that Hon. F. B. Carvell is aware of the necessity of this being done and he is in favor of lending his weight with a view to carrying the scheme into effect. It appeared as soon as Dr. Toimie and the Nanaimo member can get action they will report progress.

HIS DEAR WIFE.

Marks—My wife always says exactly what she means.

STRIKE VOTE RETURNS WILL NOT BE ISSUED UNTIL AFTER MEETING

(Continued from page 1.)

"I maintain that there is no truth in the reports that the One Big Union and Soviet idea is at the back of the present situation. Collective bargaining is the main issue at stake and on that we stand or fall."

A regular meeting of the street car workers of the city will be held tomorrow morning at ten o'clock, when the strike issue will be discussed. Another meeting is scheduled for the afternoon, so that all shifts will be represented by the two conferences. It is thought probable that the attitude of the local union will largely depend on that adopted by the Vancouver car men. Members of the Victoria union are said to be divided on the question.

What the firmen have decided to do is matter of speculation, but it is known that many of the men on the force have expressed themselves in favor of supporting the big unions as strikers. The police, as stated, will not vote on the strike question, as the by-laws of the Police Union forbid their participation in sympathetic walk-outs.

The civic employees, while voicing sympathy with the Winnipeg strikers, have not voted to go the length of striking in their support.

The union of women telephone operators will not vote on the strike issue.

While the communications from the various unions have not as yet been opened, and while the question of a strike is one for the central Executive to decide when it meets tonight or tomorrow, I maintain that Victoria labor is behind the Winnipeg strikers," declared E. G. Woodward, President of the Trades and Labor Council this morning. "The forecast I made before still holds. In my opinion there will be a strike unless the Winnipeg trouble is settled in the meantime."

Aims of Loyalty League
Speaking this morning on the aims and objects of the Loyalty League, H. J. Young, Secretary of the organization, said "There seems to be an impression gaining ground that this league is formed for the purpose of strike breaking. I wish to state that the purposes of the League are purely for the maintenance of law and order, and the suppression of lawlessness." Mr. Young proceeded to say that members who have signed the pledge will wear a little knot of red, white and blue, and will be called upon should occasion arise."

Vancouver Situation.
Vancouver, June 2.—There is now a strong possibility that a strike order will go out to-night from the Vancouver Trades and Labor Council, effective at 11 a.m. Tuesday. It is being freely predicted in labor circles that the Vancouver workers will be asked to strike in sympathy with the Winnipeg strike, and these predictions seem to be based on the belief that the local Strike Committee intends to be guided more by the result of the total vote than by the showing made by individual unions as units.

On the other hand it is becoming more and more apparent as the strike vote is counted that a number of unions will show a strong majority against a strike. The total vote is expected to have struck an almost even break on their ballots—the street railwaymen and the electricians. The importance of these two unions from the point of view of the general public makes the final result of the total vote interesting. This could not be forecast at noon, but it was said to be so close.

AUSTRIA SHRINKS TO SMALL STATE OF 6,000,000 INHABITANTS

(Continued from page 1.)

Serbo-Croat State.
"The Serbo-Croat-Slovene state—Austria similarly recognizes the complete independence of the Serbo-Croat-Slovene and renounces her rights and titles. A similarly appointed fact commission, including a member nominated by the Serbo-Croat-Slovene state is to fix the exact boundary. The question of the basin of Klagenfurt is reserved. The Serbo-Croat-Slovene state agrees to a similar treaty for the protection of minorities and freedom of transit."

ROUMANIA.

Roumania—Roumania agrees to a similar treaty for protection of minorities and freedom of transit.

RUSSIA.

Russia—Austria is to recognize and respect the full independence of all the territories which formed part of the former Russian Empire. She is to accept definitely the amendment of the Brest-Litovsk Treaty and of all treaties or agreements of all kinds concluded since the revolution of November, 1917, with all Government or political groups on territories of the former Russian Empire. The Allies reserve all rights on the part of Russia for restoration and satisfaction to be obtained from Austria on the principles of the present treaty.

Treaty of 1833.

General arrangements—Austria is to consent to the abrogation of the treaties of 1833, under which Belgium was established as a neutral state and her frontiers fixed, and to accept in advance any convention with which the Allied Powers may determine to replace them. Austria adheres to the abrogation of the neutrality of the Grand Duchy of Luxemburg and accepts in advance all international agreements as to it reached by the Allied and Associated Powers made with Turkey and Bulgaria, with reference to any rights, privileges or interests claimed in those countries by Austria or her nationals and not dealt with elsewhere.

Austria accepts all arrangements with the Allied and Associated Powers made with Germany concerning the territories whose abandonment was imposed upon Denmark by the Treaty of 1864.

Minorities.

Protection of minorities—In a series

of special clauses, Austria undertakes to bring her institutions into conformity with the principles of liberty and justice and acknowledges that the obligations for the protection of minorities are matters of international concern over which the League of Nations has jurisdiction. She assures the complete protection of life and liberty to all inhabitants of Austria without distinction of birth, nationality, language or religion, together with the right to the free exercise of any creed.

All Austrian nations without distinction of race, language or religion are to be equal before the law. No restrictions are to be imposed on the free use of non-German speech.

Nationals of non-German speech may use their own languages before the courts—Austrian nationals belonging to racial, religious or linguistic minorities are to enjoy the same protection as other Austrian nationals, in particular with regard to schools and other educational establishments, and in districts where a considerable proportion of Austrian nationals of other than German speech are resident, facilities are to be given in schools for the instruction of children in their own language and an equitable share of the public funds is to be provided for the purpose. These provisions do not preclude the Austrian Government from making the teaching of its language obligatory. They are to be embodied in Austria in her freedom law, as a bill of rights and provisions regarding them are to be under the protection of the League of Nations.

Outside of Europe

Part Four—Austrian rights outside Europe—Austria renounces all right and title as to her own or her allies' territories to Austria-Hungary shall be broken up, the salvage not to be used except for industrial purposes and not to be sold to foreign countries. The construction or acquisition of any submarines even for commercial purposes is forbidden.

Military Matters

Part Five—Military, naval and air clauses—The military clauses are reserved.

Warships Given Up.

Naval—All Austro-Hungarian warships, submarines, aircraft, or the Danube flotilla are declared to be finally surrendered to the principal Allied and Associated Powers. The principal Allied and Associated Powers are to be disarmed and treated as merchant ships.

All warships and submarines under construction in ports which belong to or have belonged to Austria-Hungary shall be broken up, the salvage not to be used except for industrial purposes and not to be sold to foreign countries. The construction or acquisition of any submarines even for commercial purposes is forbidden.

Aid Clauses.

Part Six—The air clauses are reserved.

Part Seven, on penalties, is identical with the German treaty, except the omission of any provision similar to the calling for the trial of the ex-Kaiser of Germany.

Reparations.

Part Eight on reparations, is reserved.

Economic Clauses.

Part 16, economic clauses, are, except in certain details, such as shipping, similar to those of the German treaty. Special provisions are added, however, for former Austro-Hungarian territories. Austria undertakes to recognize any agreement or convention made by the Allies to safeguard the interests of their nationals in any undertakings constituted under Austro-Hungarian laws which exist in territories detached from the former Austrian Empire and to transfer any necessary documents and information in regard to them.

Transit.

Freedom of transit—The clauses to be transferred to Austria are the same in the Austrian as in the German treaty except for the omission of provisions affecting Germany alone and the insertion of specific provisions through former Austro-Hungarian territory in order to assure her access to the Adriatic.

Miscellaneous.

The miscellaneous provisions are, after necessary substitutions, virtually identical with those of the German treaty.

CALIFORNIA SENATOR ASSAILS WORLD LEAGUE

Washington, June 2.—Assailing the League of Nations as a combination of armed powers "in a gigantic war trust," Senator Johnson, of California, a Republican, told the Senate to-day that the Paris conference dared not amend the League covenant so that the declaration of war in future would be decided, not by established rulers, but by a popular vote of the peoples concerned.

Montreal, June 2.—About 800 barbers went on strike this morning for higher wages. Although some of the firms have signed the agreement asked for by the strikers, the men will remain out until all the employees agree to the demands.

"There's a Reason"

LET THE CHILDREN DANCE

Dancing Mistress Urges the Inclusion of Terrestrial Art in School Curricula.

Writing in a London publication a dancing mistress makes a plea for the children in the following words: "It is as natural for a child to dance as it is for a bird to sing. Dancing is something which a child loves. Most of my pupils are children. More agile and less self-conscious, I find them quicker to learn than adults. I teach the little ones both ballroom and character dancing. The character dance covers dances of all nations—English, Irish, Scottish, Dutch, Spanish, Jigs and reels, as well as dances with special names, such as Flower, Indian, Butterfly. The character dance has a bigger variety of steps and attitudes than the ballroom dance, is less monotonous and appeals more to the childish mind. The child prefers a Dutch wooden shoe dance or an Irish jig to a one-step or a fox-trot. Part of my lesson is devoted to eurythmics. My pupils learn to move to the rhythm of music, to march or fan around the room, keeping time with hands and feet, changing the beat at my word. When they have accustomed themselves to move to the different measures in music, I instruct them in various dances. To them dancing is great fun, a glorious game. They carry on with a will or a two-step in the most natural manner in the world. To see little tots from four to six years of age waiting together and reversing is a sight worth witnessing, too. They have their favorites, too. In the ballroom dances the two-step takes first place. The costumes in the character dance have a great attraction for the child. The Dutch dance is preferred to the wooden shoes, the Spanish for the castanets, the Pony dance for the whip and reins, the Indian for the feathered head-dress and knife. Those children who show special aptitude I make soloists. I teach them to dance—an accomplishment not as easy as it looks. It is a proud child who can cross the floor on her toes. Dancing is an exercise which strengthens the limbs and gives elasticity to the body. It trains the musical ear, and is an almost certain cure for nervousness. A child dancer is the happiest of mortals, and by appearing in dancing exhibitions gains a self-assurance which helps greatly in the formation of its character. In my opinion, dancing should be included in the education of every child."

An Admiralty Case.—An action was heard this morning in the Admiralty Court in which Hon. Justice Martin gave judgment for \$1,029 in favor of the plaintiff in the case of Pepper vs. the Circle W. The claim was for wages while working on the gasboat, a vessel of about eight tons, which is now at Quiesnel. The Court also ordered that a commission be issued to the Marshal of the Court for the sale of the boat. The case was undefended. Harold Beckwith appeared for the plaintiff.

Motor Car Stolen.—On visiting the Colwood Hotel last night, Mr. Robinson, of Beaver Lake, left his car on the side and on returning to proceed to the hotel he found the car had been taken. The police are now investigating the case.

FAMOUS AVIATOR ON VISIT TO VICTORIA

Jumped Out of Train—Traveling 30 Miles an Hour to Gain Freedom

Flight Lieutenant Pat O'Brien, famous aviator and author of "Outwitting the Hun" is on a visit to Victoria, and is a guest of Frank Sweeney, an old friend with whom he trained in Toronto. He has had an adventurous career during the war.

He will be remembered by many Victorians who had the privilege of meeting him when he was here, waiting to depart for Toronto to Eddie Copas, 1917, leaving here with Eddie, Gordon, Louis Grant, Jack Drewry, He Campbell and Frank Sweeney. He gained his fame as a very glorious career as an aviator at the front; during the three weeks in which he was flying he had three Boche machines to his credit, and on the day when his active flying career was brought to an end he ran down six other hostile aircraft and was brought down shot through the mouth, falling into the enemy's hands as a prisoner of war.

While being conveyed as a prisoner into the interior of Germany, O'Brien jumped out of the train at an hour and a half past midnight. He remained around the country for seventy-eight days, travelling by night and hiding by day, and after covering some 400 miles he made his way into Belgium. He was able to give the military authorities some valuable information.

"Pat" will pitch the first ball at the baseball game at Royal Athletic Club tomorrow afternoon, with his friend Frank Sweeney donning the catcher's mask.

STEAL LIFE BELTS

Lives Endangered at Gorge Through Acts of Petty Thieves. Through the acts of petty thieves the lives of men, women and children who use the Gorge as a pleasure resort are frequently placed in jeopardy as a result of the life belts placed upon the Gorge bridge to be used in case of accident being meddled with and removed. The Provincial Police report that they are constantly having trouble in connection with these life saving devices. The belts are fitted with fifty feet of rope in order that they may be thrown to persons in danger of drowning. Pieces are cut until these ropes by unknown persons the life belt is nothing left, and again the rope and rope complete is taken. This kind of thieving which is taken to be the very lowest known to the police as it deliberately endangers the lives of others in distress, will be severely punished if the culprits are caught.

Pimples Broke Out All Over Face, Arms and Neck

Pimples are a sure sign that the blood is not in its proper shape. While the skin is the seat of the irritating, unsightly pimples, the real disease is in the blood. Medicated lotions and powders may allay the itching and irritation, but never cure, no matter how long and faithfully continued, and the skin grows often aggravated and the skin pores are clogged, the skin deep, the entire circulation is poisoned. Burdock Blood Bitters quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, changes and enriches the blood, and thus relieves the symptoms of all poisonous secretions. B. B. B. cures permanently because it leaves none of the original poison to ferment in the blood and cause a fresh attack. Miss E. M. Davidson, Dayland, Alta., writes: "Last summer I was greatly troubled with pimples breaking out all over my face, arms and neck. I was advised to try Burdock Blood Bitters and after taking two bottles, the pimples had almost all disappeared. I shall always recommend this medicine to anyone afflicted with skin troubles. B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont."

TO-MORROW'S CABARET A BRILLIANT EVENT

Attractive Programme Ensures Enjoyment for the Host of Patrons Expected

The glamor of pre-war festivity hovers around the announcement of the attractive cabaret to be given at the Empress Hotel to-morrow evening in aid of the Navy League of Canada, and the event promises to eclipse any previous social function of the winter season. Mrs. H. H. Pooley, Miss Muriel Dunsmuir and Mrs. A. J. Gibson have the general arrangements in hand, and they have been working hard for some weeks to ensure the success of the affair.

The programme includes such attractions as Billy Oswald's troupe of acrobats from the Gorge Park, and several of the leading "turns" from the current bill of Pantages Theatre, while local talent will be well represented by Mrs. D'Oyly Carte, Mrs. Wm. Rochfort and Miss Lillian Holden. A particularly attractive scheme of decoration has been planned, and the scene promises to be a brilliant one.

A pleasing feature will be the opening ceremony when Mrs. R. B. McKicking will present to the Boys' Naval Brigade, under Capt. Jones-Evans, a Chapter, M. O. D. E., the boys in their smart uniforms will be drawn up as a guard of honor to receive visitors on arrival.

ANNUAL SPORTS OF UNIVERSITY SCHOOL

Five Records Broken; Prizes Distributed by Major-General Leckie

There was a large attendance to witness the annual sports of the University School Saturday and a beautiful afternoon helped to make them a great success. The grounds never looked better. There was great interest and much excitement over the excellent finishes. Records Broken. Five records were broken: Head broke the school records in half mile and one mile, doing the former in two minutes eleven seconds and the latter in five minutes and ten seconds. McNeill (D. I.) broke the record in the broad jump under fourteen, making seventeen feet one and one-quarter inches; Hanning broke the record in the seventy-five yards under ten, his time being eleven seconds. Perhaps the best race of the day was the one mile open in which Head and Mathews (P. G.), sprinted neck and neck for the tape, Head winning in the last few yards. At the last sports Major-General R. C. E. Leckie, C. O. C. M. D. No. 11, gave a short address in which he emphasized the value of sports and athletic training—the value of which had proved abundantly in the late war. The school could well be proud of the doings of its old boys, many of whom had distinguished themselves on the field of battle. The fact that the old boys of the school had to their credit three Military Medals, one Croix de Guerre and others mentioned in dispatches showed the value of the training received at the school to have such a distinguished soldier to present the prizes and to have soldier old boys for judges. He was pleased to see such good attendance and such interest, both of which encouraged the competitors. The headmaster then called for three cheers for General Leckie.

HORSE FUN BEHIND

SCENES IN "MICKEY"

Royal Victoria Presents Mabel Normand in Attractive Setting

There are many instances of Mabel Normand's personality in "Mickey," but one particularly is characteristic of her wit. True to her name in this production, which will be shown at the Royal Victoria Theatre for the first time to-night and for the balance of this week Mabel is in "real" like Mickey's first cousin, with the same merry twinkle in her eye and the true Celtic wit.

One of the most thrilling incidents in "Mickey" occurs when the Sheriff, the grocer, everyone, the whole town chasing mischievous Mickey, she runs down the narrow street, and with one bound of about ten feet, lands on her horse's back and is racing into the hills again.

When this scene was being filmed at the Sennett studios in California, a very prominent horsewoman, on a sight-seeing trip through filmdom, became quite engrossed in the production of "Mickey," the personality Mabel Normand was instilling in her characterization, and the really wonderful stunts Miss Normand is capable of. She was amazed at this clever feat, and the precision and sureness with which Miss Normand calculated her distance and her jump. Everyone naturally looked to see the impression this made on the sight-seer. But she took great pains not to appear in the least bit impressed.

During the interval between the changing of sets, Mabel found herself seated beside the horsewoman whose reputation as an expert she was aware of. They exchanged a few formal remarks, and Miss Normand, with her naturally warm and friendly personality, felt at first a bit taken back by her cold and haughty neighbor's condescending manner.

"You did that remarkably well," said the visitor patronizingly, looking down over her nose as if she couldn't find Miss Normand exactly. "But of course, that is just one of the most difficult of the straight running jumps."

"Oh, but Miss Normand does so many other wonderful stunts," a little

extra who had been listening, ventured. Then Miss Normand's Irish "was up," and the fun began.

"Yes," Mabel said, simply, "but the one I like best is the Zelatali jump, and with a topple effect it's fascinating. Have you ever tried it with the topple effect?"

The expert smiled, but as a horse-woman she was a poor actress. "Well, as a matter of fact, when one, er—" "But you ought to," Mabel said, with a very serious nod. "And Zelatali himself—wonderful horseman, isn't he?—and they say he taught some of the greatest crowned heads before the war. Everyone knows he learned that topple effect, though, from the Parisian actress, Babbet something. You remember the scandal! Awful, wasn't it? No one ever really got to the bottom of that thing—but I did hear, from an authority—well, it's not exactly the sort of thing one repeats. Pardon me, I must change for the next scene."

"That's very interesting, Miss Normand. I never did get to the bottom of that myself, but—perhaps I'll see you again to-morrow morning before I leave."

A much more interested and affable horsewoman came again the next day, and showed a lively interest in "Mickey." She was carried away by the sweet, mischievous little mountain girl, the gripping, yet romantic appeal of the story, and the masterful characterizations. It was never learned how Mabel Normand finished that story—that was over two years ago—but the visitor left California with a better estimation of actresses in general, and Mabel Normand's personality and importance in particular. Since then she has inquired frequently as to the progress of "Mickey," in which she is intensely interested.

HUMOR ABUNDANT

IN COLUMBIA FILM

Mabel Normand's New Goldwyn Picture Begins To-day

Laughs come thick and fast in "Sis Hopkins." Mabel Normand's new Goldwyn Picture, which comes to the Columbia for a three-day showing beginning to-day. This is not to be wondered at with two such comic creatures as the star and the gawky Siseretta, called Sis for short, made into one.

The screen version of the play that brought Rose Melville fame and made millions of theatre goers laugh is certain to score even greater success than was achieved by the Rose Melville vehicles in its stage form.

Laughter promises to reach its climax when Miss Peckover (played by Eugenie Ford) accepts Sis (Mabel Normand, of course) as a pupil in her country "finishing" school. Pompous and exacting, the principal is a droll character. She walks in stately measures and speaks as she imagines a lady should. "Sis—she—says—when—telling her of her impending change of environment: 'A certain benevolent patron of my seminary who desires to be anonymous for the nonce, has made it possible for me to offer you an education—gratis.' Of course, poor Sis hasn't an idea of what the woman is getting at."

Later, after Sis has tried vainly to imitate Miss Peckover's grandiose manner and lofty manner of talking, the seminary girls give their first quarterly programme for the benefit of admiring parents and friends. It is of the most pretentious character, though the efforts of Miss Peckover and her pupils are frankly comic.

Instead of teaching poor Sis the three R's, all of which she sorely needs, the girl has been taught to do fancy dancing by someone at the seminary. In reality Miss Peckover wants to show up Sis as an impossible pupil and thereby destroy the interest of the town's richest man in her. A two-reel comedy, "Work or Fight," and a British News Weekly, will also be shown on the same programme.

JOHN BARRYMORE IN

FINE NEW PICTURE

Famous Actor at Dominion in "Here Comes the Bride"

There are few more popular actors in the legitimate and screen drama than John Barrymore, of "The Man From Mexico" and "Are You a Mason?" fame. Mr. Barrymore is a versatile player, and he is equally well-known as comedian and dramatic actor. In his latest Paramount photoplay, "Here Comes the Bride," which will be shown at the Dominion Theatre this week, he has a role in which his versatility finds ample and brilliant expression.

Fairie Binney, whose work in the Paramount-Artcraft special picture, "Sporting Life," is one of the impressive features of that melodramatic spectacle, appears in the leading feminine role. Max Marcia and Roy Atwell are the authors of the play, "Here Comes the Bride," which enjoyed a successful run at the George M. Cohan Theatre during the 1917-18 season.

The story deals with the love affairs and marital difficulties of a poor, struggling lawyer who marries an ugly widow, although he loves the daughter of a financier. His friends step in to extricate him from his difficulty. In doing so they get him into all sorts of complications. Needless to say, he marries the girl of his choice in the end, but only after he has traveled an exceedingly rough road.

Mr. Barrymore's role is said to be an extremely droll one, admirably fitted to his capabilities as a light comedian.

MARRIAGE SCENE

IN ROMANO PICTURE

Wedding Was Filmed in Fashionable Los Angeles Church

One of the prettiest scenes in "Hitting the High Spots," the Metro play starring Bert Lytell, which will be shown at the Romano to-day, beginning a three-day engagement, is that of the wedding of the young engineer and the girl he loves.

The scene was staged in Christ Episcopal Church, the home of the most fashionable congregation in Los Angeles, and was done in such a realistic manner that many people passing by thought that a real wedding was taking place and dropped into the church to see the ceremony.

Their surprise on discovering that the beautiful scene was for the benefit of a motion picture was only equalled by their disappointment that the romance was not a real one as they had first imagined. The scene shows the bride and groom slowly moving up the aisle with a train of pretty girls carrying huge bouquets of lilies and roses.

The church is garlanded with smiles and banked with palms and a full choir of white-robed men and boys sing the appropriate hymns and anthems. In the chancel stands a surpliced clergyman, book in hand, ready to perform the ceremony, while the pews are filled with fashionably dressed men and women. That the marriage was only a make-believe one was hard to realize—even Mr. Lytell and Miss Percy doubting that they might not be really married after all.

Among the noted members of the cast are Eileen Percy, Winter Hall, Helen Dunbar, Gordon Griffith, Fred Goodwin, Stanton Heck, Al Edmondson, William Eagle Eye, William Courtright and Irene Hume. The play was directed by Chas. Swickard.

The seventh chapter of the Pathé serial, "The Lightning Raider," featuring Pearl White, will also be presented on the new Romano programme.

JOHN BARRYMORE

"Here Comes The Bride"

John Barrymore will be remembered by his former great screen successes, notably "The Man From Mexico" and "Are You a Mason?" In his new starring vehicle "Here Comes the Bride" he is funnier and more popular than ever. It is one of those high-class comedy dramas with action in every foot of film and a laugh every thirty seconds.

He Feels Like Dropping Dead

A DAY previous he was planning his wedding with the "prettiest girl in the world." And now, the woman he was marrying WAS as homely as a scarecrow!

But what about the "prettiest girl in the world?" Was she sitting by and swallowing it all? She was not! Most emphatically—NO!

There's no telling what a deuce of a fix money can lead us into when we need it bad. Frederick Tile certainly must have needed it to marry this woman! By all means see this comedy.

"MICKEY" SYNOPSIS

"MICKEY" is a blending of every human emotion. Yet the story, with its comedy, its romance, its pathos, and its wonderful thrills, is of the simplest sort; and simplicity is always greatness, especially if it has so many enjoyable things about it. Plain and straightforward as the plot itself is, the element of surprise is ever in view.

Mickey is a lovable, harum-scarum little tomboy, who is always getting into all sorts of scrapes that make you laugh and cry—whether with Old Joe in the mountain mining district, or later with her aunt in the city. From the village setting to the contrasting scenes in the home of Mickey's aunt, there is ever an atmosphere of reality; with not a dull moment in all the seven reels.

VITAGRAPH PICTURE ON VARIETY SCREEN

Anita Stewart in Emotional Role, "From Headquarters."

Big scenes and swift action abound in "From Headquarters," the Vitagraph picture which has been secured for display on the Variety screen this week, and which gives Anita Stewart the strongest emotional role in her brilliant career.

"From Headquarters" points out with deadly directness the perils which attend a young girl for the first time seeking employment outside her own home, and in this case it is a girl who has the advice and warning of her father, a noted and relentless police sergeant, who knows whereof he warns.

What a role for Anita Stewart, with her wonderful beauty and dramatic ability, where she confronts the man who said he loved, then spurned her; where her father confronts her, reads her story in her eyes and weighs his duty against his love for her—and duty wins.

Rose Peters believed in man. She looked on the protestations of love of one of the species as gospel. She was one of the thousands who were yet to be stung by the wasp of doubt, disillusionment. In that maddening moment when the mask fell from the face of the smiling—too much smiling Lothario, she typified outraged womanhood, holding within her power and her palm the thing called Retribution.

Duty was a fetish with Detective Peters; love of his orphaned daughter was the one softening influence in his life of man-hunting. A mysterious telephone call, a desk sergeant ready to take Detective Peters' report—and fate executes another manoeuvre fully as strange as anything she had contrived beforehand.

WAR FOUND FINE VARIETY TALENT

Concentration of Best Musicians Brought Out Excellent Military Bands

The concentration of the young men of America from every walk of life in the various military camps during the preparation of the armies for the battlefields of France, resulted directly in bringing together some remarkable musical and histrionic talent.

Camp Yaphank produced its own revue, which played on Broadway for months; Capt. Frank Tinney, the famous comedian, took the talent from his cantonment and produced a second revue called "Attaboy," and the naval "gobs" of the Pelham Bay camp also produced a show. But none of these have gained the wide renown that the Camp Dix jazz band, which is the big headline feature of the Pantages programme of vaudeville this week, has won since its inauguration.

The Camp Dix band is composed of eight young men, all former doughboys of the United States army, who have entertained nearly 1,000,000 soldiers. They were recently booked by the Pantages circuit to appear in vaudeville for a twenty-four-week period exclusively in the Pantages houses. They offer a repertoire of jazz and classical music. Although they are best in the super-synco-pated tunes, they have a wonderful knowledge of classic compositions and can render them with good results.

Miss Martha Russell, a former motion picture star of the Essanay company, is reappearing in vaudeville on the Pantages circuit in a comedy playlet entitled "Rocking the Boat." Miss Russell won success about a year ago in a dramatic sketch showing the dual life sometimes lived by an actor.

STUDENTS' RECITAL

Attractive Programme Given by Pupils of Miss Ada Saunders on Friday Evening.

The pupils of Miss Ada Saunders gave a most enjoyable and interesting recital at St. John's Hall on Friday evening to a very appreciative audience. Miss Saunders is to be congratulated on the very delightful and expressive manner in which each number on the programme was rendered, showing careful training and good style and also proving that the Virgil-Clavier method is an excellent one, developing clear firm touch and good tone. The entire programme was given without notes. The playing of little Betty McGregor deserves special mention and Miss Hope Leeming also shows wonderful progress for six months' study. This young lady also gave two charming solos for which she received hearty and well-deserved applause. She possesses a pure clear voice, with lovely high notes and should do well in the future. George Busby, with a few happy remarks, presented the prizes to the successful pupils, in the following order: Theory, Miss Amy Alexander and Miss Enid Miller; general progress and one year's hard and earnest work, Miss Evelyn Goddard, Miss Hope Leeming, Miss Cordelia Corfield.

After singing the National Anthem the pupils and their friends remained for a little informal dance. The programme follows:

BUILDING OPERATIONS SHOW A GREAT INCREASE

If building operations are a thermometer of trade conditions, business is improving in Victoria. In April building permits representing \$13,000 worth of construction were issued, while in the month ending Saturday this total had increased to \$119,500. This included two large works, the Spencer store improvement and the big shed of the Harbor and Marine Company, as well as six dwelling houses.

Seamen's Strike Will Tie-Up Coast Shipping

Walk-out. Independent of Sympathetic Vote, May Be Called To-morrow Morning—Conference Held To-day at Vancouver Is Hoped to Avert Drastic Action

Independent of the proposed sympathetic strike, the Seamen's Union threatens to completely tie-up all Canadian coastwise shipping between Victoria, Seattle, Vancouver, and Prince Rupert, unless the steamship companies concede demands...

Unless an agreement is reached in the meantime it is stated in union circles that the men of the Seamen's Union will be called out to-morrow morning. In that event it is likely that a large proportion of the coastwise shipping will be tied up...

SUWA MARU MADE

FAST PACIFIC RUN

But Failed to Lower Her Best Time Between Yokohama and Victoria

Failing by a few hours of breaking her own fastest Pacific time, the Nippon Yusen Kaisha liner Suwa Maru, Capt. Reigo Shimidzu, reached port at 2 o'clock yesterday afternoon after a passage of twelve days from Yokohama...

The Suwa Maru made port yesterday with a record inbound passenger list for the fleet, there being 456 souls aboard, including 124 in the saloon...

The saloon travelers coming ashore were: Mr. and Mrs. H. Gittins, Mrs. F. Webber, Mrs. M. L. Galt, Mr. S. D. Hinkle, Bishop G. H. Lander, Mr. T. F. Ford, Mrs. T. M. Dobie, Mr. A. J. Carter, Mrs. S. Gegg and child, Mr. G. M. Billings, Mr. and Mrs. J. H. Primrose, Mrs. W. and two children, Miss E. S. Clarke, Miss S. Satch, Mr. and Mrs. C. H. Butler, Mr. and Mrs. J. F. Caie and two children, Mrs. J. Beaumont and two children, Mr. T. Fujita, Mr. C. E. Allen, Mr. E. H. Hanson, Mr. A. H. Keable, Mr. and Mrs. J. M. Holmes, Miss B. K. Holms, Mr. J. H. Noetzer, Mr. and Mrs. A. C. Hoffman and three children.

Mr. and Mrs. Gittins came through from San Francisco via the Orient. D. Hinkle boarded the ship at Hongkong and Mrs. J. Beaumont and family embarked at Shanghai.

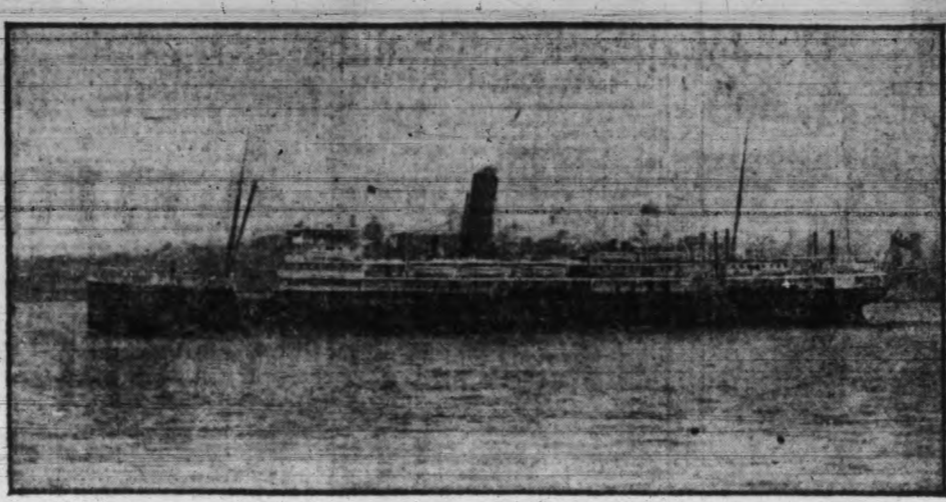

Among the through passengers was Baron and Baroness T. Shimadzu, who are on their way to Washington. Dr. E. Newton, a manufacturing druggist of New York, returned on the Suwa Maru, after spending several months in Manchuria and Japan.

The Suwa Maru brought in the first large new crop tea shipment, amounting to approximately 3,000 chests. Peanut and bean oil also formed a large item of the liner's cargo, 31,000 cases making up this consignment. The raw silk cargo amounted to 3,207 bales and 454 cases of silk goods, this shipment being valued at nearly \$4,000,000.

The Suwa Maru, after discharging local cargo and mails, left about 4:30 o'clock this morning for Seattle.

LAUNCHING TO-NIGHT The 3,000-ton wooden hull 206, seventh to be completed at the Foundation shipyards here, will be launched at 7:30 o'clock to-night from the Point Hope plant. The vessel will be christened Canada by Mrs. W. G. Winterburn, wife of the local representative of the Bureau Veritas.

Bound to Siberia to aid the Czech-Slovak forces, a party of French and Russian aviators will sail aboard the N. Y. K. liner Katori Maru to-day for the Far East. All the members of this aerial mission have been serving on various fronts of the European war theatre. Seven of the party, under the command of Commandant H. Gault, are former Russian officers who were with the Russian expedition to France, and who, upon the crumbling of Russia and her withdrawal from the war, enlisted in the French forces and were commissioned as aviators by France in order that they might continue in active service.

Major Gault, a typical French officer, is a veteran of the African campaigns, having served for ten years in the Tunis, Algiers and Morocco expeditions against the rebels, and has seen much of the open fighting on the African plains, experience which will prove of value in the open fighting against the Bolsheviks. White has spent practically all of his life in the service of France and was continuously fighting the rebels of the African provinces before leaving on this mission.

The seven Franco-Russian aviators have been sent on this military mission because of their knowledge of the language and country, which is native to them. The French flyers have been selected because of the war records and their willingness to combat the foes of civilization, and all have been given ranks in the Czech armies.

One of the Russians, Lieut. Nicolaioff, is accompanied by his bride, a young French woman whom he married in Paris shortly before leaving on this mission. The other members of the party, who formerly belonged to the Russian forces, are: Capt. Sagatovsky, Lieut. Bykhov, Lieut. Osmetroff, Lieut. Iebenshoff and Klionofsky. The French officers are: Commandant Gault, Capt. Cordier, Lieut. Curie, Delois and Veis.

After reaching Japan the party will go on to Vladivostok from which point they will entrain for Omsk. A valuable shipment of ten aeroplanes, which will be used by the French flyers, is being sent across the Pacific in the holds of the steamship Muncaster Castle, which passed out to sea from Comox on Saturday for the Far East.

BODY OF HERBERT DAVIES RECOVERED FROM SOPHIA WRECK

The B. C. Coast Steamship Service has shortly before leaving on this mission, bodies from the wreck of the Princess Sophia, one of which has been identified as Herbert Davies, son of H. W. Davies, of this city, and pursuer of one of the White Pass county Yukon boats who perished with his wife when the Sophia went down October 25. The body will be brought here for interment.

VANCOUVER HOPES TO BENEFIT AT RUPERT'S EXPENSE

Vancouver, June 2.—That the solution of the dry dock problem as far as this port is concerned may be found in the removal of the plant at Prince Rupert to Vancouver. If the Government takes over the Grand Trunk Pacific Railway there is more than a possibility that this is the course that will be pursued. This was the suggestion which Hon. C. C. Ballantyne, Minister of Marine and Fisheries, threw out at one of the conferences at Ottawa which was attended by the local Federal members and Harbor Commissioners, according to information given The World by Captain J. A. Fullerton, local Harbor Commissioner, who returned from the East on Friday. Captain Fullerton and Mr. S. McClay were summoned to Ottawa by the Government to supply details in connection with the harbor improvements to be effected here.

SHIPPING MEN OF PUGET SOUND MAY SEE LAUNCHING HERE

A number of Puget Sound shipbuilders and shipping men are receiving invitations to attend the launching of the schooner Washington, which is to be shipped from the ways at the Cholberg shipyard here towards the latter part of the month or the early part of July. Capt. H. C. Hansen, jr., son of Capt. H. C. Hansen of Port-Norway, to whose order the Washington is being built, has been extending a number of invitations to Seattle shipping men to be present at the event.

O.S.K. CUBAN AND GULF SERVICE PLANS

Seattle, June 2.—Seattle is to be made a port of call of the Cuban and Gulf of Mexico service of the Osaka Shosen Kaisha, according to word received in this city recently from the Orient. The vessels of the fleet will be routed to Seattle for bunkers, instead of calling in San Francisco, it is announced. The first carrier to reach this port in accordance with the new routing of vessels in the Cuban and Gulf of Mexico service will be the big freighter Altal Maru, a craft of 14,000 tons, which is due in Seattle to-day or to-morrow. The Altal has a full cargo of cotton loaded in New Orleans and is bound for Japan. The vessel is completing a trip around the world, having gone from Yokohama to London via the Suez Canal and is now steaming for Japan via New Orleans and Seattle. The Altal was in Seattle last October for the first time. She is a sister carrier of the steamships Andes Maru and Alps Maru, which are well known in this port. The first vessel of the Japan-Cuban service of the Osaka Shosen Kaisha to call in Seattle for bunkers will be the steamship Panama Maru, which is due in this port from the Orient June 15. The vessel will have a full cargo of rice for Havana, Cuba.

JAPANESE CHAPLAIN WILL TOUR STATES

Rev. J. Ono, chaplain of the Kwansei Gakuin, of Kobe, arrived on the Suwa Maru yesterday from the Orient. He is bound for Columbus, Ohio, where he will attend the centenary exposition of the Methodist Church, scheduled to be held in July. The Rev. Mr. Ono will later make an extended trip through the United States to familiarize himself with educational and evangelistic work.

VICTORIA THE NORTHWEST AND THE WORLD

ENTHUSIASTIC FANS CHEER MORTON AS HE SAVES THE SITUATION

Smashed One Over Fence With Bases Full; Beavers Took Last Game

Harry Morton's memorable hit, which snatched the game from Vancouver in the ninth inning, was the one big outstanding feature of the Victoria Vancouver series. With four runs wanted, two men out and the bases full, Harry came through with the necessary hit with the umpire calling three strikes and smothering the Philadelphia crowd in the field fence, changing what looked like a sure five to eight defeat into a nine to eight victory. Alexander pitched the evening game, which went to the Beavers seven to four.

It was certainly a case of a pitcher winning his own game in the afternoon, and the big Victoria hurler, who was aced high with the home fans before, got a reception like those read about in tales of the diamond. The crowd rushed the field as Harry was making the round of the sacks and shook hands with and cheered the "old pepper" before he had pitched the ninth. Tealey Raymond, the first man up, had put one into the right garden for a single; Zinkie flew out and Hinkle got safe to first, but Raymond was out trying to get to second. Armstrong singled and Easterly singled, filling the bases, and then the pitcher came up and, as one of the fans put it, "answered the prayer."

After Barham had walked Zinkie big Carl Hinkle lifted one over the fence, giving Victoria a couple to hang up against the first innings. Vancouver chalked up their first in the fourth, Speas stealing the home sack, and then more in the fifth.

With Raymond on second and Zinkie on first and one man out, Barham walked Hinkle, Armstrong singled, but Raymond got out getting home. Zinkie got home on a fielder's choice and Hinkle followed on Easterly's single and tied the score. Morton got a two-bagger, scoring Armstrong and putting the Tyees one ahead.

Hood, with his bases empty in the seventh, made his second home run of the series by sending one over the centre field fence. With Speas on third Spike made the home sack on an error, scoring three men home.

With the fans looking for Hinkle and Armstrong to even up the score again, both the hard hitters struck out. Speas's sacrifice hit put titter to third and Hood to second. Spranger struck out and Morton walked. Hinkle filling the bases. Raymond and Tealey shot it to Hinkle at first in time to get Harry out of a bad hole.

Three runs were scored off Alexander, who made his debut with the Tyees as a pitcher in the evening game and with Clink holding the local boys down the three in the first frame proved the margin for a seven to four win for the Beavers.

Still lame from the result of his recent accident, Church went up to bat in the last inning for Alexander and made a home run. The box scores are as follows:

Harry Morton was the hero of the Vancouver series. His sensational hit in the afternoon game on Saturday will go down in baseball history alongside the marvellous effort of mighty Casey.

With the bases full, two out and the Tyees three runs to the bad, Morton walked to the plate. Three bases were called and then two strikes and Harry didn't even raise his bat. Then he fouled one and Grindle threw a brand new ball to Barham. The Vancouver pitcher grooved the ball and Morton did the rest, chasing the pill over the wire.

The famous finish recalled the ninth inning rally made by Victoria against Seattle about six years ago. The home club was seven runs behind when they came to bat in the last half of the ninth, but with two men out they showed over enough runs to win the game. Harry Meek drove the ball over the fence and sent in the winning run.

The fans were ready to give the game to Vancouver as they doubted the ability of the Tyees to come from behind against Barham's twirling.

The Tyees' infield is playing beautiful ball. Tealey Raymond is about as safe as a bank at third and Armstrong seems to be able to pick up any kind of a drive. Sharkey Corrigan shows no end of speed around the keystone sack.

Hinkle is making good at first. His great reach makes him very valuable. He is not as quick in putting the ball on a man as old Sy. Forsythe.

Zinkie is playing a grand game in left field. He tries for an fly ball within a hundred yards. He is the fastest man on the team. His shoe-string catch in the evening game on Saturday was a beautiful piece of work.

Eddie Oatman looks good in the field, but cannot hit. He tries hard but fails to connect. Alexander does not look as though he will be useful to the local club. He has a fine slow ball and goes good for a couple of innings and then falls to pieces!

Easterly is the most reliable hitter on the team. Hinkle, Zinkie and Armstrong are hitting hard, but they do not show the same judgment as the old backstop is striking with a ball. It is seldom Ted comes out. His eye is too good.

Big Carl Hinkle has inspired an enormous fan into the following outburst: Hinkle, Hinkle, hefty star, How I wonder if you are Going to climb onto the sky, Or, like Casey, diamond-de.

GOOD SCORES IN SATURDAY'S CRICKET

Albions, Five C's, Foundation Wanderers and Victoria Get Points

The Foundation Wanderers and Incogs provided the only close game in Saturday's cricket fixtures. Batting first, the Wanderers made fifty-two runs, and the Incogs replied with forty-two runs. The Wanderers scored a 103 mark in the second innings, but were not able to dismiss the Incogs before the call of time for the second innings. The Incogs had made seventy-five wickets when the game closed.

The Five C's had the easy victory of the day at Oak Bay against Christ Church. Declaring their first innings closed with only six wickets down and 123 on the board, all the Cathedral batsmen were out for fifty-three in the first innings and eighty-eight in the second. The Five C's in their second innings added twenty-eight without losing a wicket.

The Foundation Wanderers went under the 100 to the Albions and Victoria eleven continued their winning streak by beating the Incogs by seventy-four runs.

This is Not a One-Man Job

Neither Capital nor Labor, acting without the help of the other, can pull this load. Together they do it with ease.

Co-operation is the big thing needed now. A new business creed was formulated at the Reconstruction Congresses held at different centres throughout this continent in these words:

"Labor and capital and the community are partners in industry. Business must look out for the interests of all three.

"Every man is entitled to the opportunity to earn a living at fair wages.

"Industry, efficiency, and initiative, wherever found, should be encouraged.

"Grievances of employees must be promptly uncovered and remedied.

"Industrial harmony depends on representation in industry.

"The spirit of industry must be one of fair play, justice, and brotherhood."

The right of labor to organize and to have a collective voice in the conduct of industry and the settlement of differences was recognized. It was also found that a high wage was essential to prosperity.

In the process of reconstruction big changes in industry will occur.

Some industries will have to deal with a big cut in prices or close up shop. There will be an early fall in prices of many classes of goods, but this does not mean a general decline in prices. Before-the-war prices will never be restored. The whole world is on a new price basis.

Almost every industry has its fringe of concerns that would produce at a loss if prices were to return to anything near pro-war level, and this means that in the aggregate many employers and multitudes of workmen will face hard times unless protectionism succeeds.

We should arrange for a period of liquidation in which some industrial concerns would be protected against too merciless foreign competition.

United effort is needed as much in the work of reconstruction as it was in winning the war. Co-operation is the big thing needed now. Settle down, get the kind of a job you want, and then stick. That is what makes for success in the long run. The man who settles down is the patriot of to-day.

Keep Industry Humming!

Economy in Footwear

True economy must be in the shoes, not in the price. Good style, good fit and leather selected for durability are the first essentials of economy. You get them here always. Here is a shoe that gives you the extreme in value—White Buckskin Brogues, built to hold their shape, flexible welled soles, medium and low heels, fit snugly at the sides and heel. Prices, \$8.50 and \$9.00

1221 Government. G. D. CHRISTIE See my windows.

Looking at the question in a purely logical way, there is no reason for paying exorbitant prices for undertaking services. When we are called upon to take charge of obsequies, we bring fact, logic and skill to the task. And the same motive which impels us to do the very best we can also prevents us from taking advantage of the occasion to impose unnecessary expense upon the family we serve.

WAR DEVELOPMENT AIDS COMMONWEALTH

Australia Utilizes Raw Materials in Manufacturing Progress. Sydney, June 2.—Buy from Australia first, from Great Britain next, from the other Dominions next, from the Allies next, and from the Germans never. This is the slogan of the women's political organizations in Tasmania, and it promises to become universal throughout the commonwealth.

RAILROAD INCREASES IN STATES APPROVED

Washington, June 2.—The railroad freight and passenger rate increases made by the Railroad Administration last June were to-day upheld by the Supreme Court of the United States. The court held that the authority conferred by the resolution and the Act were powers conferred on the President and that the power of the Federal Government "was supreme and conclusive." The opinion was unanimous.

CROWD REQUESTS NORRIS TO RESIGN

Ex-Soldiers, Strikers and Sympathizers Visit Manitoba Parliament Buildings. Winnipeg, June 2.—Hon. T. C. Norris, Premier of Manitoba and his Cabinet were requested to resign by speakers of a delegation of returned soldiers, strikers and sympathizers who took possession of the Provincial Legislative Chamber for the third time to-day. Premier Norris told the crowd that he would not give up his office but that he would use every effort to obtain legislation which might tend to improve industrial conditions in Manitoba.

DECLARE THEY WILL RETURN TO-MORROW

Winnipeg, June 2.—Hon. T. C. Norris, Premier of Manitoba and his Cabinet were requested to resign by speakers of a delegation of returned soldiers, strikers and sympathizers who took possession of the Provincial Legislative Chamber for the third time to-day. Premier Norris told the crowd that he would not give up his office but that he would use every effort to obtain legislation which might tend to improve industrial conditions in Manitoba.

POLICE OF LONDON REMAIN ON DUTY

Though Almost Unanimous for Strike, They Await Lloyd George's Return. London, June 2.—London's threatened police strike, for which the members of the force voted by a big majority, has been called off for the present. It was announced yesterday that the executive committee of the organization had decided to postpone the strike until after the signing of peace, or at least until the return of Mr. Lloyd George from Paris.

SPECULATUM GAINS IN NEW YORK STOCKS

Special Feature Was Twenty Point Gain in Studebaker. (By Burdick Bros. & Brett, Ltd.) New York, June 2.—The Stock Market opened up after the long holiday with traders anxious to buy. The opening prices were higher. Studebaker opened up eight points and had made twenty points advance before the day ended. Mexican Petroleum was another special feature with a net gain of sixteen points. American Woolen jumped eleven points over the holiday. The market was strong from sell to sell with hardly a set-back. The trading was mostly in the industrial and speculative Railroad stocks.

CHICAGO GRAINS STILL HIGHER

(By Burdick Bros. & Brett, Ltd.) Chicago, June 2.—Receipts over Sunday were not sufficient to relieve the tight situation in corn. The demand was strong and prices moved gradually higher all day. The weather reports were not of the best and there was little to encourage the bear element.

EARLY CROPS MAY PROVE BIG LOSS

Strike Would Seriously Affect Handling of Strawberry and Tomato Output

The strawberry and tomato crops of Southern Vancouver Island are threatened with disaster if the big strike materializes, and lasts longer than a week.

Reports from the Gordon Head district are to the effect that strawberries will be moving in large quantities by June 15, and if there is a paralysis of the transportation facilities it means that shipments to the jam factories in the East will be impossible.

While strawberry growers are thus in danger of heavy losses greenhouse owners who supply a large part of the tomato crop are also growing anxious.

CHINA'S REVOLUTION WAS NOT EVOLUTION

Opportunity, Says Peking Resident, Came for Greater Despotism

"The problem of China," said Rev. P. M. Scott, of the Church of England Mission, Peking, "is the problem of educating the character of its rulers up to the standard of Western peoples."

"The opportunity for corruption has greatly increased with the grant of franchises, railways, management, public works and similar undertakings, and the consequence is that the managers of China are placed in the position of great responsibility without the education in administrative which have been necessary in other countries."

Mr. Scott is a believer in the necessity of some tutelage for the Chinese, through a responsible Occidental people. Like most other men who know the country he appears suspicious of Japanese influence in China.

WARD SEVEN ROAD BY-LAW APPROVED

By a very small majority the by-law providing for a four mile levy during the next five years on property in Ward Seven, Saanich, for road work, was approved at the polls on Saturday.

"It is hard to write for the newspapers and the magazines" asked the sweet young thing.

MRS. MAY COULD NOT WORK

Made Well and Strong by Lydia E. Pinkham's Vegetable Compound.

Columbia, Pa.—"I was very weak and run down and had dragging-down pains and pains in my back. I could not get aroud to do my work and had to sit down and rest often during the day.

The reason Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism.

NILE DAUGHTERS ELECT OFFICERS

Victoria Delegates Attend Annual Session of Supreme Temple at Seattle

Seattle, June 1.—Mrs. Edith E. Gattis, of Seattle, was re-elected supreme queen Saturday afternoon at the annual session, in Scottish Rite cathedral of the Supreme Temple of the Daughters of the Nile.

Other officers elected are supreme princess royal, Anna Larson; supreme Tirzah, Nellie Brown, of Victoria, B. C.; supreme Badura, Emma S. Farnham, of Butte, Mont.; supreme marshal, Elizabeth McDonald; supreme chaplain, Nellie Moore; supreme banker, Levelia K. West; supreme Zenobia, Isabella Spence, of Victoria; supreme Zora, Emma Love; supreme Zulema, Andrewette Patten; lady of the keys, Frances E. Case; Treasurer, lady of the gates, India Rosenberg; organizer, Mabel Krowa; first attendant, Ella Cooley, and second attendant, Laura Schubert.

A SLIGHT MISUNDERSTANDING

"Now, Mary, I want you to be careful. This is some very old table linen—been in the family more than two hundred years, and—"

"Ah, sure, ma'am, you needn't worry. I won't tell a soul and it looks as good as new, anyway."—Edinburgh Scotsman.

HAD WEAK and FAINTING SPELLS.

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go unheeded.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless.
