

Copernicus Rapid Mapping Service | 2019 Overview

	Number of Activations	Number of maps
Europe	47	170
Outside Europe	34	329

Copernicus: EU programme aimed at developing European information services based on satellite earth observation and *in situ* data. The Copernicus Rapid Mapping Service (EMSR) is part of the Copernicus Emergency Management Service (EMS), which is providing maps and analyses based on satellite imagery (before, during or after a crisis) as well as early warning services.

Total number of activations¹
81

¹Sensitive activations are not represented in the Map.

*Kosovo: This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo Declaration of Independence.
**BIH: Bosnia and Herzegovina.
