PART 73—SCABIES IN CATTLE

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 73.0, as amended, Part 73, Subchapter C, Chapter I, Title 9, Code of Federal Regulations (21 F. R. 9244, 10265, 10471; 22 F. R. 813), which quarantines certain areas because of scabies, is hereby further amended to read as follows:

§ 73.0 *Notice and quarantine.* Notice is hereby given that cattle in Colorado are affected with scabies, a contagious, infectious, and communicable disease, and the following areas in Colorado are hereby quarantined because of said disease:

(a) Bent County;

(b) Crowley County;

(c) Otero County;

(d) Prowers County; and

(e) The following areas in Las Animas County:

(1) Townships 30, 29, 28, and 27, South, Range 61W;

(2) That portion of Township 26, South, Range 61W, located South of the Las Animas-Pueblo County line;

(3) Townships 30, 29, 28, and 27, South, Range 60W;

(4) That portion of Township 26, South, Range 60W, lying South of the Las Animas-Pueblo County line;

(5) Townships 30, 29, and 28, South, Range 59W;

(6) Townships 30, 29, and 28, South, Range 58W;

(7) Townships 30, 29, and 28, South, Range 57W; and

(8) Townships 30, 29, and 28, South, Range 56W.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in Las Animas County in Colorado from the areas heretofore quarantined because of scabies. Hereafter, the restrictions pertaining to the interstate movement of cattle from or through quarantined areas, contained in 9 CFR, 1955 Supp., Part 73, Subchapter C, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas, contained in said Part 73, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Odd Fellows Center, 1325 North 14th Street, Phoenix, Arizona, beginning at 10:00 a. m., m. s. t., on March 12, 1957.

Subjects and issues involved in the hearing. This public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk in the Central Arizona marketing area as presently defined, and to the provisions specified in the proposals hereinafter set forth or to appropriate modifications thereof. These proposals have not received the approval of the Secretary of Agriculture.

Since proposed amendment No. 1 proposes to expand the marketing area to include additional territory in the State of Arizona a hearing will also determine whether the present provisions of Order No. 104, regulating the handling of milk in the Central Arizona marketing area, as amended, in accordance with the proposals set forth below, would tend to

effectuate the declared policy of the act as applied to the marketing area as proposed to be expanded, and if not, what modifications are appropriate to effectuate the declared policy of the act. Consideration will also be given to all aspects of Class I pricing.

The amendments to the order (No. 1004), as amended, were proposed as follows:

Proposed by the Arizona Dairymen's League:

1. Amend § 1004.6 of the order to include all of Yuma, Cochise and Greenlee counties in the Central Arizona marketing area.

2. Insert a new § 1004.7 reading as follows:

§ 1004.7 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk under a dairy farm permit or rating issued by the applicable health authority of the marketing area for the production of milk to be used for consumption as milk in the marketing area, on a dairy farm subject to the regular inspection of such authority; which (a) is received directly from the farm at a pool plant, or (b) is caused to be diverted within the limits established pursuant to § 1004.62 by a handler, or a cooperative for the account of such handler or cooperative association, or (c) is acceptable to an agency of the Federal Government for fluid consumption in its institutions or bases. This definition shall not include any person with milk received by a handler partially exempted from the provisions of this part pursuant to § 1004.61.

3. Insert a new § 1004.10 reading as follows:

§ 1004.10 *Handler.* "Handler" means (a) any person in his capacity as the operator of a pool plant, or (b) any cooperative association with respect to: (1) Any milk of any producer, which such cooperative causes to be diverted to an approved plant for the account of such cooperative; (2) the milk of any producer delivered to the approved plant of another handler during the same month in which such cooperative association is the handler pursuant to subparagraph (1) of this paragraph with respect to any milk of such producer.

4. Amend § 1004.22 or § 1004.31 to require the market administrator or each handler, except a producer-handler, to furnish to a cooperative, qualified under § 1004.5 of the order, which so requests, a copy of producer-payroll, as defined in § 1004.31 (b) (2) on all members of such cooperative.

5. Delete § 1004.31 (c).

6. Delete (b), (c) and (d) of § 1004.43 and insert in lieu thereof the following:

(b) As Class I milk if transferred to a producer-handler or to a plant of a producer-handler in the form of fluid milk products as designated in § 1004.15; as Class I milk if transferred to a nonpool plant in packaged form;

(c) As Class I milk is transferred or diverted in the form of milk, skim milk, cream, in bulk, to a nonpool plant located more than 250 miles from the pool plant from which transferred by the shortest hard-surfaced highway distance, as determined by the market administrator, except that cream, so transferred may be classified as Class II milk, if (1) the transferring handler claims classification in Class II in his report submitted to the market administrator pursuant to § 1004.30, (2) the handler attaches a tag or label to each container of such cream bearing the words "Grade C Cream for manufacturing uses only" and the shipment is so invoiced, (3) the handler gives the market administrator sufficient notice to allow him to verify the shipment, subject to such verification of alternate utilization as the market administrator may make;

(d) Skim milk and butterfat transferred or diverted in bulk form as milk, skim milk or cream to a nonpool plant located less than 250 miles from the pool plant from which transferred, shall be Class I, unless (1) the transferring or diverting handler claims classification in Class II in his report submitted to the market administrator pursuant to § 1004.30 for the month within which such transaction occurred; (2) the operation of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant and the market administrator is permitted to examine such books and records for the purpose of verification, in which case the classification of all skim milk and butterfat shall be determined and the skim milk and butterfat so transferred or diverted shall be allocated to the highest use remaining after subtracting in series beginning with Class I milk receipts at such nonpool plant directly from dairy farmers, who the market administrator determines constitute the regular source of supply for fluid usage of such nonpool plant or markets supplied by such plant.

7. Continue for an additional 18 months the present level of Class I prices contained in § 1004.51 (a).

8. In § 1004.53 *Location differentials to handlers,* delete the paragraph following the rate beginning with the word *"Provided".*

9. Add as § 1004.62 the following:

§ 1004.62 *Diversion.* (a) Milk diverted for the account of a handler from an approved plant of such handler to a milk plant which is not a pool plant shall be deemed to have been received by such handler at the approved plant from which such milk was diverted.

(b) Milk diverted for the account of a handler from an approved plant of such handler to a pool plant of another handler for not more than five (5) days during the delivery period shall be deemed to have been received by the diverting handler at the approved plant from which such milk was diverted; milk received at a pool plant for more than seven (7) days during the delivery period shall be deemed to have been received at such pool plant by the handler who operates such pool plant;

(c) Milk diverted by a cooperative association that does not operate an approved plant from a pool plant to another milk plant, which is not a pool plant for the account of such cooperative association, shall be deemed to have been received by such cooperative association at a pool plant at the same location as the pool plant from which such milk was diverted.

10. Insert a new § 1004.70 (d) reading as follows:

(d) For any other source milk subtracted from Class I pursuant to § 1004.45 (a) (2) or (b) (2), add an amount equal to the difference between its value at the Class I and the Class II price for the current month, unless the handler can prove to the satisfaction of the market administrator that such other source milk was used only to the extent that producer milk was not available directly from producers.

11. Delete § 1004.71.

12. Amend § 1004.72 so that the excess price shall at no time be less than the Class II price.

13. Amend §§ 1004.90 and 1004.91 (a) to make the base setting period July through November instead of August through November.

14. Add a new paragraph to § 1004.90 reading as follows:

The daily average base of each producer for whom no daily average base may be established pursuant to this paragraph of this section shall be computed by the market administrator for each month until such producer has established a base as follows: (1) multiply such producer's daily average deliveries of milk during the current month by the percentage that total deliveries of base milk in the current month by producers for whom daily bases are computed pursuant to this paragraph of this section are to total deliveries of milk in the current month by all producers and divide the result so obtained by 2.

15. Delete § 1004.91 (b) and insert in lieu thereof the following:

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the date of the transfer, provided a written application for such transfer is received by the market administrator, on a form provided by the market administrator, and signed by the base holder, or his heirs, and by the person to whom such base is to be transferred; *Provided,* That if a base is held jointly, the entire base shall be transferrable only upon the receipt of such application form signed by all joint holders or their heirs and by the person to whom such base is to be transferred.

16. Insert a new § 1004.91 (c) reading as follows:

(c) If a base is held jointly and such joint holding is terminated, the established base may be split between the joint holders on any basis agreed to in writing by such joint holders and filed with the market administrator during the first months of the base-setting period.

17. Insert a new § 1004.91 (d) reading as follows:

(d) A producer who ceases to deliver milk to a handler for more than thirty (30) consecutive days after the end of the base-setting period shall forfeit his base, except when such producer is off the market as a result of having been temporarily degraded by the local health authority.

Proposed by the Arizona Milk Producers:

18. *Compensatory payment.* When milk is purchased by a handler from an area outside of the Central Arizona milk marketing area and there is sufficient milk within the Central Arizona milk marketing area an appropriate charge should be made.

19. *Base-setting period.* To be a 5-month base-setting period beginning July 1 and extending through November 30.

20. *Twelve-month base payment.* Purchase of milk to be paid from January 1 through December 31 on base established the previous year.

Proposed by The Borden Company, Associated Dairy Products Company of Arizona, Arden Farms Company, Carnation Company, Kruft Jersey Dairy, Shamrock Dairy, Westward Ho Dairy and Coop Dairy, Inc.:

21. *Shrinkage allowances.* The handlers feel that the 2 percent shrinkage allowance should be allowed to the receiving plant when the milk is diverted directly from the ranch to that plant. We feel that the receiving plant should pay the handlers' market administration fee on such diverted milk.

22. *Classes of utilization.* Section 1004.41 be amended by deleting present paragraph (b) (3), and adding in lieu thereof the following:

(3) Disposed of for livestock feed, milk or skim milk dumped after notification to the market administrator;

(a) Add section to read as follows:

The market administrator is delegated authority to classify producer and handler milk upon inspection as Class II, and authorize purchase by a pool plant as pertains to class utilization.

(b) Add section to read as follows:

All nonfat solids added to Class I milk for the purpose of fortification of the nonfat solids content of that milk shall not be considered classified as other source milk, but shall be accounted for on a nonfat basis instead of a skim-equivalent basis.

23. *Availability clause.* Any time that producer receipts are less than 110 percent of Class I usage, the market administrator shall have the authority, within that month, upon investigation of availability of producer milk, to allow importation of other source milk without penalty of reclassification.

Proposed by the Associated Dairy Products Company, The Borden Company, Carnation Company and Westward Ho Dairy:

24. In § 1004.44, delete the lines following the word *"Provided,"* and make such other necessary changes in the order as may be necessary so that powder used for fortification or standardization is not accounted for on a milk equivalent basis.

25. Amend § 1004.41 (b) (2) so that inventory variation rather than ending inventory is classified as Class II.

26. Amend § 1004.53 so that the location differential to handlers applies to all producer milk and not just milk classified as Class I.

Proposed by Jersey Farms Creamery and Sunland Dairy:

27. Amend § 1004.6 to include all of Yuma County in Arizona.

Proposed by the Dairy Division, Agricultural Marketing Service:

28. Make such other changes as may be required to make the entire order conform with any amendments which may result from this hearing.

Copies of this notice of hearing may be procured from the Market Administrator at 96 West Osborn Road, Phoenix, Arizona, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 20, 1957, Washington, D. C.

FEDERAL POWER COMMISSION

[Docket No. G-2858 etc.]

WUNDERLICH DEVELOPMENT CO. ET AL.

NOTICE OF SEVERANCE AND POSTPONEMENT OF HEARING

FEBRUARY 18, 1957.

In the matters of Wunderlich Development Company, Docket Nos. G-2858, et al.; Wallace Harrison, Docket No. G-3584; August Erickson, et al., Docket No. G-4122; Western Natural Gas Company, Docket No. G-4544.

On February 1, 1957, Wallace Harrison filed a letter requesting that his application for a certificate of public convenience and necessity in Docket No. G-3584 be withdrawn because he was under the impression that the Operator had already filed for his sales of gas to Arkansas Louisiana Gas Company.

On February 15, 1957, August Erickson, et al., filed a motion in Docket No. G-4122 requesting that the certificate application filed in that docket be withdrawn for the reason that the Operator, Sam Sklar, Trustee, has amended his application in Docket No. G-4170 so as to include the gas-producing interests held by August Erickson, et al., in the South Hallsville Field, Rusk County, Texas.

On February 4, 1957, Holland-American Petroleum Corporation filed in Docket No. G-11897 a certificate application covering a portion of the acreage also involved in Western Natural Gas Company's certificate application in Docket No. G-4544. In view of the facts stated in Holland-American Petroleum Corporation's application, it appears desirable that the application in Docket No. G-4544 be amended prior to the issuance of a certificate of public convenience and necessity.

Therefore, notice is hereby given that the applications of Wallace Harrison in Docket No. G-3584, of August Erickson, et al., in Docket No. G-4122 and of Western Natural Gas Company in Docket No. G-4544 are hereby severed from the consolidated proceeding In the Matters of Wunderlich Development Company, et al., Docket Nos. G-2858, et al., scheduled for hearing on February 26, 1957, and the hearings in Docket Nos. G-3584, G-4122 and G-4544 are postponed. The hearing in Docket No. G-4544 is hereby postponed to a date to be hereafter fixed by further notice. Prospective hearings in Docket Nos. G-3584 and G-4122 are hereby canceled pending action on the applicants' requests to withdraw their applications.

WEST PENN ELECTRIC CO. AND POTOMAC EDISON CO.

ORDER AUTHORIZING ISSUE AND SALE OF COMMON STOCK BY PARENT COMPANY PURSUANT TO UNDERWRITTEN RIGHTS OFFERING, AND CHARTER AMENDMENT BY SUBSIDIARY COMPANY

FEBRUARY 18, 1957.

The West Penn Electric Company ("Electric"), a registered holding com-

pany, and its subsidiary The Potomac Edison Company ("Potomac"), a registered subholding company and also a public utility company, have filed a joint application-declaration and amendments thereto pursuant to sections 6, 7, 10, 12 (c), and 12 (d) of the act and rules U-42, U-44, and U-50 thereunder regarding, inter alia, the following proposed transactions:

I. *Issue and sale of additional common stock by Electric.* Electric proposes to issue and sell, through an underwritten offering to its stockholders, 528,000 additional shares of its common stock of the par value of $5 per share at the rate of 1 share for each 16 shares held on the record date, and in this connection to issue transferable warrants to such stockholders evidencing their rights to subscribe to the additional shares. The warrants will be issued on or about February 27 to stockholders of record at the close of business on the day before, and will expire on or about March 14, 1957. No fractional shares will be issued. The subscription agent will endeavor, to the extent practicable, to purchase any number of rights (up to 15) required to complete any subscription, and to sell any excess rights (up to 15) not required to complete a subscription. Charges for this service, other than transfer taxes, will be paid by Electric.

At least 6 days prior to entering into any agreement for the issuance or sale of the additional common stock, Electric will publicly invite bids from prospective underwriters for the underwriting of said offering, such bids to state the amount of compensation, if any, to be paid by Electric to them for their agreement to purchase, at the subscription price, any unsubscribed shares and the shares, if any, purchased by Electric in connection with its stabilizing activities referred to hereinafter. It is expected that the submission of such bids will be required before noon on or about February 26, 1957. Through stabilizing transactions in connection with the invitation, Electric may, during the period commencing with the third full business day prior to the time for the submission of bids and continuing until the acceptance of a bid, purchase not in excess of 52,800 shares of its outstanding common stock through regular brokerage channels. The subscription price to stockholders will be fixed by Electric not later than 4 o'clock p. m. on the day prior to the bidding and, when fixed, will be not more than the last reported sale price of Electric's common stock on the New York Stock Exchange and not less than 85 percent of such last reported sale price.

The underwriters will pay to Electric 50 percent of any excess over $1.50 per share above the subscription price on shares sold within 30 days after the expiration of the warrants. Any shares not sold prior to that date shall be deemed to have been sold at the mean of the high and low prices on the day before.

Electric will use the net proceeds from its sale of common stock to purchase additional common stock of its subsidiary companies in the approximate amount of $13,400,000. The subsidiaries will use such funds together with other cash resources and the proceeds from the sale of about $34,000,000 of senior securities, to finance their construction programs during 1957 and 1958, estimated at $101,500,000.

The Maryland Public Service Commission has authorized Electric, a Maryland corporation, to issue and sell the additional common stock as proposed.

Fees and expenses in connection with the issuance and sale of Electric's common stock, other than the compensation to be paid to the underwriters, are estimated at $125,000. Jurisdiction with respect to the fees of the transfer agent, registrar, subscription agent, and all accounting and legal fees will be reserved pending completion of the record.

II. *Charter amendment by Potomac.* Potomac proposes to amend its charter to increase its authorized common stock from 800,000 to 1,500,000 shares without nominal or par value. The proposed increase will provide Potomac with a reasonable amount of authorized but unissued common stock which may be issued for proper corporate purposes, and so will aid the financing of its future capital requirements.

No other regulatory commission has jurisdiction over Potomac's proposed charter amendment.

III. *Further Proposals (as to which jurisdiction will be reserved).* On or before June 30, 1957, Potomac proposes to issue and sell, and Electric proposes to acquire, 100,000 additional shares of Potomac's common stock, without par value, for $2,000,000 cash. Potomac will use these funds for construction purposes or to reimburse its treasury for expenditures in connection therewith.

Electric owns all of the 775,000 outstanding shares of Potomac's common stock. Upon acquisition of the additional shares, Electric proposes to pledge them with Chemical Corn Exchange Bank, Trustee under the Trust Indenture dated as of September 1, 1949, securing Electric's 3½ percent Sinking Fund Collateral Trust Bonds, in accordance with the requirements of said Indenture.

Our final order with respect to the proposed issuance and sale of additional common stock by Potomac, and its purchase and pledge by Electric, must await further orders of authorization by the Maryland Public Service Commission and the Interstate Commerce Commission.

Due notice having been given of the filing of said application-declaration (Holding Company Act Release No. 13375), and a hearing not having been requested of or ordered by the Commission; and the Commission finding, with respect to the proposed issue and sale of additional common stock by Electric, and with respect to the proposed charter amendment by Potomac, that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration as amended should be granted and permitted to become effective forthwith as to such proposed transactions, subject to the terms and conditions and reservations of jurisdiction hereinafter stated:

It is ordered, Pursuant to rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and hereby is, granted and permitted to become effective forthwith with respect to the proposed issuance and sale of additional common stock by Electric, and the proposed charter amendment by Potomac, subject to the terms and conditions prescribed in rules U-50 and U-24, and subject to the reservation of jurisdiction over fees of the transfer agent, registrar, subscription agent, and all legal and accounting fees.

It is further ordered, That jurisdiction be and is hereby reserved with respect to the proposed issuance and sale of additional common stock by Potomac and its acquisition and pledge by Electric.

By the Commission.

NEW ENGLAND ELECTRIC SYSTEM

MEMORANDUM OPINION AND ORDER REOPENING HEARING

FEBRUARY 15, 1957.

A petition has been filed by John F. Cremens, a stockholder of Lynn Gas & Electric Company ("Lynn"), to reopen a hearing held with respect to an application-declaration filed under the Public Utility Holding Company Act of 1935 by New England Electric System ("NEES") regarding its proposed acquisition of the common stock of Lynn through an offer to Lynn stockholders to exchange two shares of common stock of NEES for each share of common stock of Lynn.

We heard oral argument, at which Cremens outlined the nature of the evidentiary matter which he proposes to present, relating principally to the value of certain real estate owned by Lynn, and NEES opposed granting the petition and filed a brief.

We recognize that the reopening of a record after the close of hearings could represent a disruption of orderly and expeditious procedure, ordinarily should be avoided, and should be ordered only for compelling reasons. We have given consideration, among other things, to the fact that although Lynn advised its stockholders of the exchange offer and that it would become effective after its approval by this Commission, Lynn's letter to its stockholders did not inform the stockholders that they might have an opportunity to be heard in proceedings before us with respect to the fairness and other aspects of the proposed exchange offer. Written statements of views were submitted to us by a number of Lynn stockholders, but there was no active representation at the hearings by them

or on their behalf. We have concluded that under the circumstances and in keeping with our policy to accord opportunity for adequate stockholder participation, we shall exercise our discretion to reopen the record so as to extend such opportunity in this instance.

We do not anticipate that the delay of the proceedings entailed in such reopening will be prolonged or will result in any prejudice to any interested person. Upon the conclusion of such reopened hearing, at which all interested persons and particularly any stockholders of Lynn desiring to, will have the opportunity to participate, the record thus completed will be received by us for final disposition free of any further questions respecting the opportunity accorded for such participation.

Accordingly, it is ordered, That the hearing in the foregoing matter be reopened on February 28, 1957 at 10 a. m. at the offices of the Securities and Exchange Commission, 425 Second St., NW., Washington 25, D. C. At that time the hearing room clerk will advise as to the room in which the hearing will be held. Any person desiring to be heard in connection with the foregoing matter shall file with the Secretary of the Commission on or before February 26, 1957, a written request relative thereto, as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this notice and order by registered mail to NEES, Lynn, and the Department of Public Utilities of Massachusetts, and that notice to all other persons shall be given by publication of this memorandum opinion and order in the FEDERAL REGISTER; and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to the persons appearing on the mailing list of the Commission for releases under the Public Utility Holding Company Act of 1935.

By the Commission.
