[Navel Orange Reg. 96]

### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

#### § 907.396 Navel Orange Regulation 96.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for

making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 13, 1966.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., January 16, 1966, and ending at 12:01 a.m., P.s.t., January 23, 1966, are hereby fixed as follows:

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Sec. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 14, 1966.

Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

1. Paragraph (a) *General of § 245.1 Eligibility* is amended by adding the following sentence at the end thereof: "An alien who is a native of any country of the Western Hemisphere or of any adjacent island named in section 101(b) (5) of the Act is not eligible for the benefits of section 245 of the Act."

2. The headnote to paragraph (d) of § 245.1 *Eligibility* is amended to read "*Immediate relatives under section 201 (b) and preference aliens under section 203(a) (1) through 203(a) (7)*" and the following sentence is added at the end of that paragraph reading as follows:

"An alien who claims preference status under the proviso to section 203(a) (7) of the Act is not eligible for the benefits of section 245 of the Act and as provided in § 245.4, unless the district director has approved the alien's Application for Classification as a Refugee under the Proviso to Section 203(a) (7), Immigration and Nationality Act."

#### § 245.4 [Amended]

3. Section 245.4 *Adjustment of status under the proviso to section 203(a) (7) of the Act* is amended by adding the following two sentences at the end thereof: "An alien who claims he is entitled to a preference status pursuant to the proviso to section 203(a) (7) of the Act shall execute and attach to his application for adjustment of status Form I-590A, Application for Classification as a Refugee under the Proviso to Section 203(a) (7), Immigration and Nationality Act. The determination as to whether an alien is entitled to the claimed preference status shall be made by the district director; no appeal shall lie from his determination."

### PART 299—IMMIGRATION FORMS

#### § 299.1 [Amended]

The list of forms in § 299.1 *Prescribed forms* is amended by adding the following form in numerical sequence:

Form No.	Title and description
I-590A	Application for Classification as a Refugee under the Proviso to Section 203(a) (7), Immigration and Nationality Act.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall be effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order, other than the amendment to § 101.1(j), relate to agency procedure and the amendment to § 101.1(j) confers benefits upon persons affected thereby.

### Chapter I—Federal Aviation Agency

[Airspace Docket No. 65-SW-39]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Federal Airway

The purpose of this amendment to Part 71 of the Federal Aviation Regulations

is to realign VOR Federal airway No. 278 between Texarkana, Ark., and Greenwood, Miss.

V-278 is presently aligned from Texarkana direct to Greenwood, with a minimum en route altitude established at 8,500 feet MSL. The distance between these facilities is 190 nautical miles. A VOR has been commissioned midway on this segment near Monticello, Ark., at latitude 33°33'43" N., longitude 91°42'56" W. The action accomplished herein will realign V-278 via the new Monticello VOR which will reduce the distance between navigational facilities, provide better navigational guidance along V-278 and permit a reduction in the minimum en route altitude. In addition, application of the 4.5° systems accuracy factor to the airway segments between Texarkana and Greenwood, after realignment via the new facility, will reduce the lateral extent of the airway and thus reduce assigned airspace.

Since this action will result in a minor relocation of the centerline of the airway less than 4 miles to the north of its present location, will improve navigation on this segment, and will reduce the amount of designated airspace, it has been determined that notice and public procedure hereon is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., March 31, 1966, as hereinafter set forth.

Section 71.123 (29 F.R. 17509) is amended as follows: In V-278 "Texarkana, Ark.;" is deleted and "Texarkana, Ark.; Monticello, Ark.;" is substituted therefor.

##### Alteration of Transition Area

On December 9, 1965, F.R. Doc. 65-13148 was published in the FEDERAL REGISTER (30 F.R. 15209) amending Part 71 of the Federal Aviation Regulations.

In the amendment it was stated " . . . the Greensboro, N.C., transition area (30 F.R. 202) . . . ". Reference should have been made to "(29 F.R. 16245, 29 F.R. 18213)."

A portion of the Greensboro, N.C., transition area was designated as " . . . within 2 miles each side of the Greensboro VOR 033° radial . . . ". It became necessary to redesignate the transition area extension on the Greensboro VOR 034° radial due to the redefining of the final approach radial.

Since these amendments are editorial in nature and impose no additional bur-

den on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, F.R. Doc. 65-13148 is amended as follows:

In the second line of the redesignation of the Greensboro, N.C., transition area, substitute " . . . (29 F.R. 16245, 29 F.R. 18213) . . . " for " . . . (30 F.R. 202) . . . ".

In the 10th line of the description of the Greensboro, N.C., transition area, substitute " . . . 034° radial . . . " for " . . . 033° radial . . . ".

The Secretary of State advised the Secretary of the Treasury on December 7, 1965, that the Department of State has obtained satisfactory proof from the Government of Kuwait that as of November 18, 1965, no discriminating duties of tonnage or imports are imposed or levied in ports of Kuwait upon vessels wholly belonging to citizens of the United States, or upon the produce, manufactures, or merchandise imported into Kuwait in such vessels from the United States or from any foreign country.

Therefore, by virtue of the authority vested in the President by section 4228 of the Revised Statutes, as amended (46 U.S.C. 141), which was delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, September 17, 1951, as amended by Executive Order No. 10882, July 18, 1960 (3 CFR Ch. II), and pursuant to the authorization given to me by Treasury Department Order No. 190, Rev. 4, December 15, 1965 (30 F.R. 15769), I declare that the foreign discriminating duties of tonnage and impost within the United States are suspended and discontinued, so far as respects the vessels of Kuwait, and the produce, manufactures, or merchandise imported into the United States in such vessels from Kuwait or from any other foreign country. This suspension and discontinuance shall take effect from November 18, 1965, and shall continue for so long as the reciprocal exemption of vessels wholly belonging to citizens of the United States and their cargoes shall be continued and no longer.

In accordance with this declaration, § 4.22, Customs Regulations, is amended by the insertion of "Kuwait" immediately after "Korea" in the list of countries exempt from the payment of any higher tonnage duties than are applicable to vessels of the United States and from the payment of light money.

### Agricultural Research Service

[ 9 CFR Part 94 ]

#### RUMINANTS OR SWINE OR THE MEAT THEREOF SHIPPED FROM OR WHICH TRANSIT COUNTRIES INFECTED WITH RINDERPEST OR FOOT-AND-MOUTH DISEASE

##### Prohibited and Restricted Importations

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U.S.C. 1003) that pursuant to the provisions of section 306 of the Tariff Act of 1930, as amended (19 U.S.C. 1306), the Department of Agriculture is considering amending § 94.1 of Title 9, Code of Federal Regulations, relating to the designation of countries where rinderpest or foot-and-mouth disease exists and prohibitions upon the importation from such countries of ruminants and swine and the meat thereof.

Section 306(a) of said Act provides in part that:

If the Secretary of Agriculture determines that rinderpest or foot-and-mouth disease exists in any foreign country, he shall officially notify the Secretary of the Treasury and give public notice thereof, and thereafter, and until the Secretary of Agriculture gives notice in a similar manner that such disease no longer exists in such foreign country, the importation into the United States of cattle, sheep, or other ruminants, or swine, or of fresh, chilled, or frozen meat of such animals, from such foreign country, is prohibited: *Provided*, That wild ruminants or

swine may be imported from any such country upon such conditions, including post entry conditions, to be prescribed in import permits or in regulations \* \* \*

The existing provisions of § 94.1 of the regulations have been based upon the Department's view that the prohibition in section 306(a) of the statute applies to animals and meat of the proscribed classes if the country of origin from which they are shipped to the United States, or any country into the territory of which they are moved en route to this country, is one in which rinderpest or foot-and-mouth disease has been determined to exist, and that the Secretary had no discretionary authority with respect to the prohibition so long as the determination that one of the diseases exists in such country is in effect. However, the Attorney General of the United States has held, in a written opinion rendered on December 30, 1965, that the phrase, "importation \* \* \* from such foreign country" as used in the statute, includes the country in which the shipment to the United States originated but the Secretary of Agriculture is not legally bound to interpret such phrase so as to ban all transits of such animals or meat through infected countries en route to the United States. The Attorney General stated that "section 306(a) confers on you (the Secretary of Agriculture) the authority to ban those kinds of transits that would involve an undue risk of introducing rinderpest or foot-and-mouth disease into the United States and to permit those kinds of transits that do not carry such risks." He further indicated that it does not appear that the statutory provisions in question were intended to preclude shipments which are determined by the Department, on the basis of factual and scientific judgments, not to involve a significant or undue risk.

Based upon factual and scientific judgments now available, the Agricultural Research Service has reason to believe that the importation of live ruminants or live swine originating in a country not infected with rinderpest or foot-and-mouth disease but which transit an infected country in any manner en route to the United States does involve an undue risk of introducing such diseases into this country. The Department has reason to believe, however, that the importation of meat which originates in a country free of such diseases but transits ports of infected countries en route to the United States will not involve such a risk if the meat is transported under appropriate specified safeguarding conditions. Consideration is being given, therefore, to the amendment of § 94.1 of Title 9, Code of Federal Regulations, as indicated below, thereby making an exception to the general prohibition contained in such section of the regulations, which would permit the importation into the United

States, under the specified conditions, of fresh, chilled, or frozen meat of ruminants or swine which originates in a country not declared to be infected with rinderpest or foot-and-mouth disease and which is transported aboard a carrier which stops at ports in infected countries en route to the United States. The amendment would also incorporate the long standing interpretation by the Department of the phrase "importation into the United States" as used in section 306(a) of the statute.

1. Paragraph (b) of § 94.1 would be amended to read:

(b) The bringing within the territorial limits of the United States of cattle, sheep, or other ruminants, or swine, or of fresh, chilled, or frozen meat of such animals (including such animals or meat on board a vessel or other means of conveyance for use as sea stores or otherwise), which originate in or are shipped from a country designated in paragraph (a) of this section as a country infected with rinderpest or foot-and-mouth disease or which enter a port in or otherwise transit such a country, is prohibited, except as provided in Part 92 of this Chapter for wild ruminants and wild swine, and except as provided in paragraph (c) of this section for meat.

2. A new paragraph (c) would be added to § 94.1 to read:

(c) Meat of ruminants or swine originating in and shipped from a country other than those designated in paragraph (a) of this section as infected with rinderpest or foot-and-mouth disease and which enters ports of infected countries en route to the United States, may be imported into the United States if:

(1) The meat is accompanied by the foreign meat inspection certificate or certificates required under 9 CFR 327.6;

(2) The hold or compartment of the transporting carrier into which the meat was loaded was sealed in the country of origin by an official of such country with seals approved by the Animal Health Division of the U.S. Department of Agriculture, so as to prevent contamination, and the loading of any cargo into and the removal of any cargo from such sealed hold or compartment, en route to the United States;

(3) The seals used to seal such hold or compartment of such carrier are serially numbered and recorded on the certificate or certificates, referred to in (1) above, accompanying the shipment;

(4) Upon arrival of the carrier in the United States port of entry the seals are found by a representative of the Animal Health Division of this Department to be intact and such representative finds that there is no evidence indicating that the seals were tampered with; and

(5) Such meat is found by a representative of this Department to be as represented in the certificate or certificates referred to in (1) above.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them with the Director, Animal Health Division, Agricultural Research Service, U.S. Department of Agriculture, Hyattsville, Md., within 30 days after publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Pending final action on the proposed amendment, the prohibition imposed under the statute and the present regulations upon the importation into the United States of ruminants or swine or the meat thereof, which originate in a country not determined to be infected with rinderpest or foot-and-mouth disease but which transit any infected country en route to the United States, shall continue in effect.

### HANDKERCHIEFS PRODUCED IN PHILIPPINES

#### Tariff Classification

The Bureau of Customs published in the FEDERAL REGISTER of June 26, 1965 (30 F.R. 8231), notice that it had under review the existing practice of classifying as "Philippine articles" certain handkerchiefs produced in the Philippines with the use of handkerchief squares cut in the United States from imported fabric.

In a letter dated January 11, 1966, addressed to the collector of customs, New York, N.Y., the Bureau ruled that the cutting of handkerchief squares from foreign piece goods along lines of demarcation contained in the piece goods when imported does not result in handkerchief squares manufactured or produced in the United States. For purposes of the value computations provided for in the definition of a "Philippine article" in General Headnote 3(c)(iv), Tariff schedules of the United States, the aggregate value of foreign materials contained in handkerchiefs produced in the Philippines shall include the value of any handkerchief squares used therein which were cut in the United States from foreign piece goods having the separate identities of the handkerchief squares delineated by lines of demarcation.

A different situation prevails with respect to handkerchief squares cut from certain corded Irish linens. It has previously been determined that General Headnote 3(c)(iv), Tariff Schedules of the United States, does not have a retroactive effect so as to preclude the following merchandise from qualifying as a "Philippine article" thereunder:

(a) Irish linen suitable for the production of handkerchiefs, imported duty-paid into the United States, and exported processed or not processed to the Philippine Islands on or before August 31, 1963, with the intent that finished handkerchiefs will be produced for the United States market and reimported into the United States at any time in the form of completed handkerchiefs.

(b) Irish linen suitable for the production of handkerchiefs, marked or corded to compel the cutting into handkerchief squares, and thereby disabled from any other use, imported duty-paid into the United States on or before August 31, 1963, and exported to the Philippine Islands before or after that date, processed or not processed, for the production of completed handkerchiefs for the U.S. market, and reimported into the United States at any time in the form of completed handkerchiefs.

As the decision of January 11, 1966, insofar as it relates to handkerchiefs made in the Philippines with the use of handkerchief squares cut in the United States along lines of demarcation in foreign piece goods (other than the handkerchiefs described in subparagraphs (a) and (b) quoted above), results in the assessment of duty at a rate higher than that which was heretofore assessed under a uniform and established practice, it shall be applied only to such Philippine handkerchiefs which are entered, or withdrawn from warehouse, for consumption after 90 days after the date of publication of an abstract of this decision.

[Antidumping—AA 643.3-G]

### VELVET FLOOR COVERINGS FROM GREAT BRITAIN

#### Notice of Tentative Determination

JANUARY 7, 1966.

Information was received on February 18, 1965, that velvet floor coverings imported from Great Britain, manufactured by Carpet Trades Limited, Kidderminster, Great Britain, were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. This information was the subject of an "Antidumping Proceeding Notice" which was published pursuant to § 14.6(d), Customs Regulations, in the FEDERAL REGISTER of March 12, 1965, on page 3358 thereof.

I hereby make a tentative determination that velvet floor coverings imported from Great Britain, manufactured by Carpet Trades Limited, Kidderminster, Great Britain, are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

*Statement of reasons on which this tentative determination is based.* Based on the available information it was determined that for fair value purposes purchase price should be compared with the adjusted home market price.

Purchase price was calculated by deducting from the f.o.b. export price to wholesalers, the applicable included freight charges, a cash discount, and a distributors discount.

Adjusted home market price was computed by deducting from the home mar-

ket f.o.b. list price for cut sizes, the included charges for inland freight, a cash discount, and a wholesalers' discount. Since the export price does not include packing while the home market price does, an appropriate adjustment was made for this difference.

Adjustments were also made for cost savings due to the relatively large quantities of cut sizes per order for export, and for advertising costs incurred in the home market by the manufacturer on behalf of its customers.

Purchase price was found to be not less than the adjusted home market price except as to a few types imported in such small quantities that the amount involved is deemed not more than insignificant.

Such written submissions as interested parties may care to make with respect to the contemplated action will be given appropriate consideration by the Secretary of the Treasury.

If any person believes that any information obtained by the Bureau of Customs in the course of this antidumping proceeding is inaccurate or that for any other reason the tentative determination is in error, he may request in writing that the Secretary of the Treasury afford him an opportunity to present his views in this regard.

Any such written submissions or requests should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C., 20226, in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This tentative determination and the statement of reasons therefor are published pursuant to § 14.8(a) of the Customs Regulations (19 CFR 14.8(a)).

Notice is hereby given that Olin Mathieson Chemical Corp., a corporation organized under the laws of the Commonwealth of Virginia (hereinafter called Olin), having been convicted on September 23, 1965, in the U.S. District Court for the Southern District of New York of violation of sections 371, 1001, and 1002 of Title 18 of the United States Code, has applied, pursuant to section 10 of the Federal Firearms Act, as amended by Public Law 89-184, approved September 15, 1965, for relief from the disabilities under that Act incurred by reason of such conviction. Unless relief is granted, such conviction would prevent Olin, operating through its Winchester-

Western Division (hereinafter called Winchester-Western), from retaining or renewing its licenses under the Federal Firearms Act, as amended, as a manufacturer of firearms and ammunition, and would make it unlawful for Olin to ship, transport, or cause to be shipped or transported in interstate or foreign commerce any firearms or ammunition or to receive firearms or ammunition so shipped (except as provided in section 4 of such Act). Notice is further given that having considered Olin's application for relief and by reason of having found that—

(1) The conviction, and the indictment out of which it arose, (a) did not involve any officer or employee of Olin now or heretofore connected with Winchester-Western, (b) was not related in any way to firearms or ammunition, or to Olin's firearms and ammunition business or to any product manufactured in Olin's firearms and ammunition plants, (c) did not involve any violation of the Federal Firearms Act or the National Firearms Act or the regulations thereunder, and (d) did not allege or establish any culpability on the part of any individual having the power to direct or control the management of Olin or of Winchester-Western;

(2) Olin has been engaged in the manufacture of ammunition since 1898 and the manufacture of firearms since 1931, has held licenses under the Federal Firearms Act continuously since its passage in 1938, and has never been charged with a violation of the Federal Firearms Act or the National Firearms Act or the regulations thereunder;

(3) Through Winchester-Western, Olin is one of the principal firearms and ammunition manufacturers of the United States, with annual sales of over one hundred million dollars, employing approximately 6,000 persons;

(4) Olin is an important source from which military requirements of the Armed Forces of the United States and its allies are met; and

(5) It has been established to my satisfaction that the circumstances regarding the conviction and Olin's record and reputation are such that Olin will not be likely to conduct its operations in an unlawful manner and that the granting to Olin of relief from disabilities under the Federal Firearms Act incurred by reason of the conviction would not be contrary to the public interest:

*It is ordered*, That pursuant to the authority set forth in section 10 of the Federal Firearms Act, as amended by Public Law 89-184, approved September 15, 1965, Olin Mathieson Chemical Corp. be, and hereby is, granted relief from any and all disabilities under the Federal Firearms Act, as amended, incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 11th day of January 1966.

Under Secretary of the Treasury.

DEPREDATING COMMON MERGANSERS (AMERICAN MERGANSERS)

Order Permitting Killing in Designated Areas in Western Washington

It has been determined from investigations and observations made by the Bureau of Sport Fisheries and Wildlife and the Washington State Department of Game that serious depredations to trout populations in certain streams and lakes are occurring because of large numbers of common mergansers (American mergansers) present in western Washington and cannot be considered as localized injury. It was further determined that these depredations can best be minimized or alleviated by permitting depredating common mergansers (American mergansers) (to be killed and taken by shooting in any affected areas under specific conditions and restrictions. This order will become effective at the beginning of the calendar day on which it is published in the FEDERAL REGISTER. Accordingly, pursuant to authority contained in § 16.25, Title 50, Code of Federal Regulations, it is ordered as follows:

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

#### Order Relating to Specific Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of January 1966.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Joint Conferences 3-1 and 1-2-3 of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated December 30, 1965,<sup>1</sup> as set forth in the attachment hereto,<sup>2</sup> establishes rates under new commodity descriptions. The agreement reflects reductions in rates ranging from 35.0 to 63.5 percent of the otherwise applicable rates and are consistent with the present, specific commodity rates within the applicable areas.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the subject agreement to be adverse to the public interest or in violation of the Act, provided that approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered, That Agreement CAB 18169, R-40 and R-41, be approved, provided that such approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

Any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and nineteen copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

## CIVIL SERVICE COMMISSION

### PHYSIOLOGY SERIES

#### Minimum Educational Requirements for Positions

1. In accordance with section 5 of the Veterans' Preference Act of 1944, as amended, the Civil Service Commission has decided that the minimum educational requirements for Human Biologist, GS-14, that formerly appeared in 5 CFR 24.41 and the minimum educational requirements for Physiologist, GS-413-0 (positions involving highly technical research relating to human diseases and health, all grades) that formerly appeared in 5 CFR 24.142 should be revoked.

2. In accordance with section 5 of the Veterans' Preference Act of 1944, as amended, the Civil Service Commission has decided that the minimum educational requirements for positions in the Physiology Series, GS-413-0 (all grades and specializations, except for positions involving highly technical research relating to human health, diseases, and environmental responses) which appear at 29 F.R. 12043 should be applied to all positions in the Physiology Series, GS-413. The educational requirements, the duties of the positions, and the reasons for the Commission's decision that these requirements are necessary are set out below.

#### THE PHYSIOLOGY SERIES, GS-413

*Minimum educational requirements.* Applicants must have successfully completed a full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with major study in one of the basic animal sciences, physiology, or a closely related discipline or field of science. This course of study must have included at least 24 semester hours in the basic animal sciences, with a minimum of 10 semester hours in animal physiology. The quality of this coursework must have been such that it would serve as a prerequisite for more advanced academic study in the field of science to which it pertains.

*Duties.* Physiologists perform professional and scientific work in the fields of animal and human physiology requiring the application of a sound working knowledge of the fundamental principles of the basic animal and physical sciences, and a refined working knowledge of physiology in studies designed to determine the functional relationships of organisms and their component parts, the physiological relationships involved, the biological and physical processes involved, and the environmental and physical factors involved in these relationships and processes. The duties of these positions are highly technical and scientific and normally involve the application of a broad range of knowledges in the fields of physiology and biochemistry in specific problem areas or in specific situations, e.g., to establish environmental responses, etc. The scientific methods, procedures, and techniques ap-

plied in the work are often intricate and refined, and are designed to make full use of the modern advances in biochemistry, biophysics, and microbiology.

*Reasons for establishing requirements.* Physiologists apply a sound basic knowledge of the basic biological and physical sciences, and a refined knowledge of physiology and biochemistry in all of their work. The duties of the work are most demanding in this respect, and require a thorough and up-to-date understanding of the most recent advances of science, particularly as they apply to physiology, and a thorough understanding of the tool sciences that relate to the work. Appropriate scientific training of this kind can only be acquired at accredited colleges and universities that have modern, well-equipped laboratories available and a staff of instructors who can evaluate the student's progress in the various scientific subjects properly.

The specific course-work prescribed in the Minimum Educational Requirements represents the minimum amount of scientific training an individual must have to prepare himself as a physiologist. A career Physiologist cannot develop or advance very far in his field without this specific kind of training, for he must apply this knowledge in all of the scientific work he does. Fully professional physiology work cannot be performed effectively and efficiently at full levels of competence without this kind of training.

The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 10th day of January 1966.
