SUBJECT: Petition for Opening Port of Hakata

THROUGH: Commanding Officer, Kyushu Military Government Region,
Headquarters and Headquarters Detachment, APO 24-5
ATTN: Economics Section

TO : General Headquarters, Supreme Commander for the Allied Powers, ESS, APO 500

1. Forwarded herewith is a petition by municipal representatives of Fukuoka city for the opening of the port of Hakata to foreign trade.

2. The city of Fukuoka is performing dredging operations in the harbor to deepen the wharf sides and anchorages. In addition, repairs to cranes and lifting apparatus at the quayside are being expedited in order to insure prompt and safe handling of cargo.

3. Nearly 3,000 tons of export items, mostly to the Southern Islands, are produced in Kyushu and are at present being shipped from Kobe. Hakata, with adequate terminal rail service, is a natural outlet for these products.

4. In two cases, large steamship companies have opened negotiations and reached agreements for stopping at Hakata to pick up freight, but were deterred by the fact that they must enter at their own risk, because the port has not been declared mine free and open.

5. The opening of this port, after the sweeping of mines from the approaches, would release approximately 1,000 freight cars per month for other uses, and bring increased prosperity to the city as well as cutting transportation costs for the exporters and manufacturers of Kyushu.

1st Ind HRM/lgr

KYUSHU MIL GOVT REGION, HQ & HQ DET, APO 24-5, 8 March 1949

TO: Commanding General, I Corps, APO 301
(Attn: Military Government Section)

1. Approval is strongly recommended.

2. Opening of Hakata port would strongly stimulate the following export businesses of Kyushu:

a. Rubber tire and tube

b. Bicycle

c. Iron enamel ware

d. Mushrooms

e. Paper

f. Arita porcelain

g. Sanitary porcelain

h. Plate glass

i. Bottles

j. Cotton piece goods

k. Wax

3. The opening of Hakata port is essential to accomplishment of maximum export efficiency required by the 9-Point Economic Stabilization Program. The port of Moji, the only other port giving ready access to the Fukuoka area is now occupied to capacity with food and coal and other shipments and cannot relieve Kyushu exporters of the present handicap of importing raw materials and exporting finished goods via Yokohama and Kobe.
