HEADQUARTERS
FUKUOKA MILITARY GOVERNMENT TEAM
Fukuoka, Kyushu, Japan

APO 929
19 December 1947

SUBJECT: Revised Contact Tracing Procedure

1. Contact tracing for is to be filled out at the dispensary when the following disgnosis is made.

a. Gonorrhea

b. Adny form of penile lesion

2. Where every possible a Japanese sanitary inspector will be assigned to the dispensary for the purpose of apprehending the suspected contact.

3. Military Police will be notified to report to the dispensary with a jeep and interpreter.

a. Patient accompanied by the Military police, sanitary inspector, and interpreter will attempt to apprehend the contact or contacts.

b. Military Police authority is limited to that of only protecting the sanitary inspector from GI interference.

c. Results of contact tracing will be entered on the contact tracing form.

4. The suspect, if apprehended, will be prought to the Venereal Disease Clinic Servicing the area and confined for three days and receive three consecutive vaginal examinations. If there is a positive disgnosis she will be confined for treatment.

5. The contact tracing form is to be delivered to the Military Government Team, Public Health Office, after the girl is apprehended.

a. In case of penile lesions, the contact tracing form will accompany the patient to the 118th Station Hospital where the diagnosis and date will be entered.

b. This form will then be forwarded to the Military Government Team, Public Health Office as soon as practical.

1st Ind CRM/bmh

FUKUOKA MILITARY GOVERNMENT TEAM, APO 929, 2 June 47

TO: CO, Kyushu Mil Govt Region, Hq & Hq Det., APO 929

1. Pursuant to Cir 79 Hq 8th Army dated 18 March 1946, the following corrective measures have been taken to reduce the Venereal Disease incidence rate in this organization:

a. Two lectures were given by both the Detachment Commander and Surgeon.

b. A guard was established at the main gate to check in all passes.

c. Duty officers and Charge of Quarters have been instructed to check each man upon return from pass and if found to be under influence of alcohol; order him to take a prophylaxis.

d. Capt. Walter C. Robbins has been appointed assistant Venereal Disease Control Officer to assist 1st Lt. Robert E. Swank, Unit Venereal Disease Control Officer.

e. Two Non-commissioned officers have been appointed as assistants to the Venereal Disease Control Officer.

f. A prophylaxis room is available at the Compound and in addition prophylaxis kits are issued to each EM before going on pass.

g. Restriction for 30 days and check by the surgeon at 118th Station Hospital are in effect.

h. Unauthorized and undesirable persons are excluded from barracks.

i. An athletic program is now in effect during off duty hours.

j. Enlisted men have been encouraged to take advantage of Army Education Program.

BASIC: "Monthly VD Statistical Report", FMGT and KSMG for 5 wks period ending 30 May 47.

k. A detachment order has been issued requiring the use of a pass sheet as prescribed in par 5a Cir 79, Hq 8th Army dtd 18th March 46.

HEADQUARTERS I CORPS
APO 301 (Kyoto, Honshu)

AG 726.1 - S

6 May 1947

SUBJECT: Venereal Disease Rate for Four Month Period Ending 28 March 1947

TO : See Distribution Below

1. It has been determined that the Venereal Disease rate for I Corps for the period 30 November 1946 to 28 March 1947 is 116.4 per thousand per annum. This rate is considered excessive. The organizations listed below exceeded this rate during this period as indicated. This indicates the need for drastic action in the organizations concerned both by the organization commander and by senior responsible commanders in the chain of command.

Unit	Rate/1000/annum for the period 30 November 1946 to 28 March 1947	
	Cases	Rate
25th Infantry Division	538	126.3
Nara Mil Govt Team	1	123.6
Osaka Mil Govt Team	1	129.0
Fukuoka Mil Govt Team	3	167.4
21st TC Car Co, 1st Plat	3	378.9
246th QM Ldry Det	9	1227.2
3528th TC Trk Co	28	985.3
58th Signal Bn	(50)	(251.5)
Hq & Hq Co	16	561.4
Co A	26	318.3
1224th Engr Fire Ftg Plat	4	457.1
636th Ord Ammo Co (-1 Plat)	25	479.2
800th Military Police Bn	(27)	(224.8)
Hq Det	5	337.0
Co A	6	117.0
Co B	16	312.7
247th QM Ldry Det	14	1090.9
413th Med Pro Det	2	1263.1
364th Station Hospital	10	152.4
1113th Engr Cons Gp	(71)	(429.6)
Hq & Hq Co	5	136.6
567th Engr Dump Trk Co	35	933.3
3063d Engr Dump Trk Co	26	684.2
1731st Engr Util Det	4	208.6
1067th Engr Cons Gp	(37)	(201.1)
3073d Engr Dump Trk Co	16	456.0
3014th Engr Maint Co	13	330.5
2910th Engr Repro Det	2	444.4

DECLASSIFIED E.O. 12065 SECTION 3 NND/NARS DATE

Unit (Cont'd)	Rate/1000/annum for the period 30 November 1946 to 28 March 1947 Cases	Rate
578th TC Ser Co	3	208.0
MP Plat I Corps	2	126.3
Hq & Hq Co, I Corps	15	117.5
58th QM Dry Cleaning Det	7	303.2

2. Immediate vigorous, remedial steps will be taken to lower the Venereal Disease rates in these units.

3. Inasmuch as Memorandum Number 13, this headquarters, Subject: "Venereal Disease Control" was not published unitl 28 March 1947, individual letters to organization commanders will not be written under the provisions of this memorandum, or attached to their efficiency reports. Such action will not be taken until the period in question is subsequent to the publication of the memorandum.

1. A study of the indorsement to the Venereal Disease Statistical Report (Reports Control Symbol N-7) reveals the following discrepancies:

a. Forced issue of venereal disease prophylactic items is practiced. This is contrary to War Department policy as set forth in paragraph 23b(2)(b), AR 40-210 as amended, and Far East Command policy as referred to in messageform, file number 726.1 (NS), this headquarters, dated 31 August 1946 (copy inclosed).

b. Forced prophylactic treatment for personnel returning from pass intoxicated is being performed. This is contrary to both War Department and theatre policy as evidenced by messageform mentioned above.

2. It is desired that the contents of above mentioned messageform be noted and action taken to preclude violation of same in the future.

1. A study of the indorsement to the Venereal Disease Statistical Report (Reports Control Symbol N-7) reveals the following discrepancies:

a. Forced issue of venereal disease prophylactic items is practiced. This is contrary to War Department policy as set forth in paragraph 23b(2)(b), AR 40-210 as amended, and Far East Command policy as referred to in messageform, file number 726.1 (NS), this headquarters, dated 31 August 1946 (copy inclosed).

b. Forced prophylactic treatment for personnel returning from pass intoxicated is being performed. This is contrary to both War Department and theatre policy as evidenced by messageform mentioned above.

2. It is desired that the contents of above mentioned messageform be noted and action taken to preclude violation of same in the future.

BY COMMAND OF LIEUTENANT GENERAL EICHELBERGER:

OTIS N. LUCKMAN
Capt A.G.D.
Asst Adjutant General

BASIC: "Monthly VD Statistical Report", FMGT and KSMG period ending 28 March 47.

1st Ind CRM/bmh

FUKUOKA MILITARY GOVERNMENT TEAM, APO 929, 2 April 1947

TO: Commanding Officer, Kyushu Military Government Region, Hq & Hq Detachment, APO 929

1. The case of Venereal Disease reported on the basic report concerns a case which occurred at the Kokura Detachment of this Team.

2. Subject individual was treated for Gonorrhea on 26 November 1946. It is possible that the Penicillin treatment instituted at that time masked the symptoms of Syphilis which appeared on 26 February 1947.

3. Subject Enlisted man affirms that only one contact resulted in both Gonorrhea and Syphilis.

4. Control measures outlined in Circular #79, Headquarters 8th Army, dated 18 March 1946, have been instituted at the Kokura Detachment to prevent any further recurrence of Venereal Disease.

5. The parent organization, located in Fukuoka City was placed under the control measures during the period following the initial report. It is felt that since the detachment is entirely separate from the parent organization, that it will not be necessary to institute the control measures, at this time, in the parent organization. Clarification of this is requested.
