

CAMPING IN NEW HOME

WOODS FAMILY MOVE INTO UNFINISHED HOUSE ON GRAND VIEW AVENUE

Mrs. C. G. Woods, her two sons, Wm. and C. G., Jr., and the nurse, Mrs. Lenore Miller, who makes her home with them, have moved into the new house on Grand View avenue, half a mile north of Kenneth Road, though it will not be finished for more than a month. They are camping in two or three rooms, enjoying the pure mountain air and grand scenery. The house sits in the midst of a four-acre grove of navel oranges in full bearing. The family have been staying in La Crescenta for a few weeks while the house has been building. The younger son, C. G., came out here from Swickley, a fashionable residence suburb of Pittsburg, Pa., two years ago, suffering from rheumatism and improved greatly, while living with his brother, St. Clair Woods, of 351 Ivy street. A year later his mother and other brother, William, joined him here, and they leased the house at 1136 East Colorado for a year. They planned the new home themselves and were their own architects.

COMES TO OCCUPY HOME

SYLVANUS MORSE SOON TO MOVE INTO PROPERTY BOUGHT LAST JULY

Sylvanus J. Morse, who bought Mrs. Mary E. Shropshire's residence property at 145 South Everett last July and takes possession May 1st, is living now with his brother, Chas. J. Morse, of 631 Orange Grove Ave. This brother, with his wife and young son, will live with Sylvanus J., who is a widower, in the new home. A garage has been built in the rear end of the lot by Mr. Morse. He was connected with Armour & Co. for many years and had homes in both Kansas City and St. Louis. He has now retired from active business.

Mrs. Shropshire had lived in the home she sold for 14 years. It was built by her husband, Joseph P. Shropshire, now deceased, who was a contractor, soon after the family moved out here from Missouri. Mrs. Shropshire will go to Ontario, where she owns an apartment house, early in May, and remain there until she disposes of the property. The two daughters now at home, Misses Lillian and Birdie, will room at Mrs. Eva Hutton's 326 East Colorado, during their mother's absence. It is the intention of the family to eventually acquire another, but smaller home in Glendale, as they feel they would not be contented living elsewhere.

BIRTHDAY PARTY

The Misses Kathryn Sisson, Lavera Kitterman, Messrs. Wilber Lee, Ted Hopping and Verne Wilson were invited to the pleasant home of Mr. and Mrs. Percy of Sunland, Tuesday evening, for dinner, the happy event being their son, Cecil's, 21st birthday. He received many useful and pretty gifts. A most enjoyable time was reported.

LITERARY SECTION

TO PUT ON SPANISH PAGEANT AT TUESDAY AFTERNOON CLUB

The Literary Section of the Tuesday Afternoon Club met at the home of the curator, Mrs. Charles Hutchinson, on North Orange street, Tuesday afternoon. A fine paper had been prepared by Mrs. Frank Ayars on current events in France and Belgium. As she was unable to be present it was read by her mother, Mrs. Needham, who also read an excellent paper which she had herself prepared on art, literature and religion in current events. Mrs. A. M. Hunt gave a resume of the Czecho-Slovak government and the life and characteristics of the people. Mrs. H. L. Baker read from Kipling's latest volume of poems, "The Years Between," and Mrs. O. T. Walker read from Alfred Noyes' latest verse, "A New Morning." The matter of providing a program for next Tuesday at the club because of disappointments in connection with the prearranged program was discussed and the section voted to put on a pageant of early Spanish days in California. Mrs. Jesse Joseph to assist Mrs. Hutchinson in preparing it.

PHYSICIANS ORGANIZE

OSTEOPATHS OF GLENDALE, BURBANK, EAGLE ROCK FORM ASSOCIATION

Osteopaths of Glendale, Burbank, San Fernando and Eagle Rock met at the White Inn Thursday evening and enjoyed a splendid dinner served in the pink room which was beautifully decorated with pink and white sweet peas. The outcome of the gathering was the formation of an organization, the first of its kind in Glendale. It will be akin and subordinate to the Los Angeles County Association of Osteopaths.

Dr. Payne-Jackman was elected president and eight committees were appointed. The members of these committees will automatically become members of the county and state organizations and also of the "Ten Western States' Association." Following are the names of the chairmen of the committees: Legislation, Dr. T. C. Young of Glendale; Publicity, Dr. Phinney of Eagle Rock; Programs, Dr. Dietrich of Glendale; Social, Dr. Marple of Glendale; Clinics, Dr. Obeor of Burbank; Public Health, Dr. Eckles of Glendale; Public Education, Dr. Durfee of Glendale; Professional Education, Dr. Burton of Glendale.

Meetings will be held monthly and a definite line of work of interest to the profession will be followed. At the next meeting Dr. Atzen of Omaha, who is now making the circular clinic tour of ten states, will be a guest. By the time he arrives it is the expectation a clinic will have been established here for which cases of special interest will be solicited.

W. C. T. U. CONVENTION

PROGRAM DEVELOPS IN INTEREST AND ENTHUSIASM AS IT ADVANCES

Thursday Morning Session
Thursday morning brought as did all the sessions of the County W. C. T. U. Convention a program of much interest to the assembled delegates. Devotions were led by Mrs. Marie Yeoman, president of the Orange County organization. A leading feature was a series of five-minute addresses by heads of the various departments of county work not all of whom were present to respond, there was a violin solo by Prof. Lowinsky, of this city, for which Mrs. Lowinsky furnished the accompaniment. The second half of the session provided for talks by Dr. Ella C. Howard on "Medical Temperance," Mrs. Mattie Gregg on "Mothers' Meetings," Mrs. Annette Nesbit on "Moral Education," Mrs. W. D. Summerville on "Parliamentary Usage," Mrs. Oliver Edwards on "Peace," Miss Adda Burch on "Press."

Thursday Afternoon
At the afternoon session devotions were led by Mrs. S. W. Carnes. Very beautiful vocal solos were contributed by Dr. Joseph Marple who sang, "The Lord Is the Strength of My Life," and by Mrs. Hartley Shaw who sang, "I Know Not What Nor When Nor Where," with very beautiful effect.

Rev. Clifford Cole, pastor of the Glendale Christian Church, was presented and gave a word of greeting and Godspeed.

Dr. Belle Wood Comstock, superintendent of the Department of Health, who had been unable to appear in the morning, gave a talk on the importance of diet in establishing and maintaining the health of their children and urged systematic instruction of mothers along this line, to the end that the children of the coming generation may be sound and vigorous citizens who can be depended upon to carry forward the work of the organization.

A most entertaining feature of the afternoon was the group of reminiscence talks by county presidents from 1884 to 1908 in which Mrs. Emma Cash Clapp, Miss Gabriella Stickney and Mrs. Hester T. Griffith Miller participated, Mrs. Sheldon of Whittier reading a most amusing letter addressed to the Convention by Mrs. Ella Cook Veeder. Mrs. Clapp, who had more than twelve years of service had many interesting things to tell of pioneer days, her many adventures, and the difficulties she experienced in keeping organizations alive after they had been established, but her reward is in the present status of the work she had helped to found. Miss Stickney told of the accomplishments of her banner year 1905 and of the impetus the work received from many sources in that memorable twelve months. Mrs. Miller described the pleasures of her work with Mrs. Blanchard and said that she had been accused of being a
(Continued on Page 8)

FRANCE AND ENGLAND DIFFER

GREAT BRITAIN HOLDS REQUEST OF GERMANY FOR LARGER ARMY IS REASONABLE

(Special Service to Glendale Evening News)
SAN REMO, April 23.—Robert Underwood Johnson, the American Ambassador to Italy, arrived here today to attend the conference of the Council of Premiers as an unofficial observer. Ambassador Johnson attended the morning conference and was heartily received by the premiers.

In commenting on the allied decision to allow the Sultan to remain in Constantinople despite the wishes of President Wilson, Premier Lloyd George said he would have preferred that the United States accept a mandate for Constantinople.

"The British government does not consider that Germany has violated the treaty of Versailles or shown bad faith in its execution," Premier Lloyd George said here today in an interview. He indicated that Great Britain does not consider unreasonable Germany's request that she be allowed to increase her army from 100,000 allowed by the treaty to double that number. Lloyd George's statement comes less than twenty-four hours after Premier Millerand of France had declared that Germany had repeatedly violated the treaty and indicated French opposition to the German request for a larger army.

"Germany is a sick country," Lloyd George said. "She may be compared to a paralyzed man whose members no longer will obey the commands of his brain, consequently we cannot expect of her what we would demand of a healthy country."

U. S. TROOPS NOW IN BUTTE

PATROL ROADS LEADING TO COPPER MINES WHERE A STRIKE IS ON

(Special Service to Glendale Evening News)
BUTTE, Mont., April 23.—Three companies of United States regular troops including a machine gun detachment, infantry, and headquarters troops under command of Colonel Hall of Camp Lewis, Wash., patrolled the roads leading to the copper mines here today, where a strike is on. Within an hour after their arrival the troops were quartered in the Florence Hotel.

The request for troops was signed by Governor Stewart of Montana, following Wednesday's clash between strikers and a sheriff's squad in which a score of strikers were wounded. Several are declared to be in a dying condition today.

Officials of the Anaconda Copper Mining Company claimed today that virtually full crews are working on day shifts.

SUICIDE OF REAR ADMIRAL BRITAIN

SECRETARY OF WAR ADVISED OF HIS DEATH APRIL 22 BUT NO DETAILS GIVEN

(Special Service to Glendale Evening News)
WASHINGTON, April 23.—Rear Admiral C. D. Brittain, chief of staff in the command of the Atlantic Fleet, shot and killed himself on the afternoon of April 22, Secretary Daniels was advised today by Admiral Wilson, commander in chief of the fleet, now at Guantanamo Bay. Brittain died instantly. No details of the tragedy were received by Secretary Daniels. Admiral Wilson advised the secretary that the body was being shipped to this country on the U. S. Ship Solace, which left Guantanamo yesterday.

AMERICANS IN MEXICO

ASK STATE DEPARTMENT TO SEND WARSHIPS FOR THEIR PROTECTION

(Special Service to Glendale Evening News)
WASHINGTON, April 23.—Requests from Americans on the Pacific and gulf coasts of Mexico for the protection of United States warships have been received at the State Department it was learned today. The requests came from American citizens at Topolobampo and Mazatlan on the Pacific Coast and Frontera on the Gulf of Mexico, and were forwarded to the State Department through U. S. consular officers. After consideration of the requests, the State Department referred them to Secretary of the Navy Daniels. The only American vessels known to be in Latin-American waters are the cruisers Tacoma and Niagara off the coast of Guatemala, where American marines landed to protect the United States legation during the revolution, which overthrew President Cabrera.

Americans at Mazatlan are making ready to leave by steamer, reports to the State Department said. Another message to the State Department told of a force of 350 federal soldiers arriving at Mazatlan from the south.

PEACE EMISSARY ARRESTED

CHIEF JUSTICE UNDER CARRANZA HELD FOR VIOLATION OF MANN ACT

DOUGLAS, Ariz., April 23.—General Ignacio Pesqueira, Chief Justice of the Supreme Court of Mexico, and recently appointed Military Governor of Sonora, was arrested on his arrival here today by U. S. Department of Justice agents who preferred charges of violation of the Mann White Slave act. He was said to be a Carranza peace delegate to the Sonora rebels.

TRUSTEES' MEETING

RESOLUTION ORDERING IN WORK ON SYCAMORE CANYON ROAD IS ADOPTED

The Board assembled at 7:45 p. m., April 22, 1920. Present Trustees Ann P. Bartlett, C. H. Henry, Hartley Shaw, Dwight W. Stephenson, Spencer Robinson.

The minutes of the regular meeting of April 15th, and of the adjourned meeting of April 19, 1920, were read and approved.

The newly-elected Chairman of the Board read an address to his fellow members of the Board, calling attention to various matters of importance that are now under consideration and will demand the attention of the Board in the near future. This address is published in full in this issue. At the conclusion of his address, the Chairman submitted the following list of committee appointments:

Committee on Public Affairs
Shaw, ex-officio Chairman; Mrs. Bartlett, Stephenson.

Finance Committee
Stephenson, Chairman; Mrs. Bartlett, Robinson.

Public Welfare Committee
Mrs. Bartlett, Chairman; Robinson, Henry.

Public Works Committee
Henry, Chairman; Mrs. Bartlett, Robinson.

Public Service Committee
Robinson, Chairman; Stephenson, Henry.

A committee was present from the Chamber of Commerce, and J. W. Usilton, Chairman of that body, addressed the Board in reference to a Freeholders' Charter for the city. The Chairman announced that the Trustees have the matter under consideration.

A bill of Willis S. Jones was presented to the Board for services as consulting engineer in the case of the City of Glendale, et al., vs. Newport, et al., measuring water in Verdugo Canyon in 1917, 1918, 1919, amounting to \$700.00. Referred to the Finance Committee.

Communications
A communication was read, from H. C. Williams, asking permission to make such plumbing connections for waste water as would permit of the same being turned off onto his property instead of being conducted to a cesspool. Referred to the Public Welfare Committee; and later to the Sanitary Inspector.

An application was read from J. J. Burke for permit to build a cabinet shop at the corner of Palmer Avenue and San Fernando Road, and to install machinery. Trustee Henry made a motion, which was seconded by
(Continued on Page 8)

WILL BUILD NEW HOME

NATHAN RIGDON BUYS DESIRABLE TRACT AND WILL ERECT FINE RESIDENCE

Nathan Rigdon, who sold his fine home at 600 N. Central avenue, Tuesday, has bought a tract just across Doran, 200x160 feet and will build a similar house at once. The grounds will have a frontage of 100 feet on Doran and a depth of 200 feet. One of the finest landscape gardening firms in the entire Southland will decorate the grounds, sending experts over to form plans. This firm will also decorate the grounds of the place, he just sold to Mr. Collins of Joliet, and will furnish the plants, shrubs, trees and flowers from its own extensive hothouses and gardens.

Mr. Rigdon recently sold two lots he owned on Doran between Central avenue and Doran to Los Angeles men who are now having plans made for fine homes to be built on them.

The house Mr. Rigdon is completing at 371 Patterson avenue he has sold to Thos. P. Meehan, who is now living in a house Mr. Rigdon built for him in San Diego. He will move his family into the new home in a few days. They are delighted at being able to realize their dream of living in beautiful Glendale.

Mr. Rigdon says the new house he will build is to be on similar lines to the one he has just sold—2-story, brick and tile construction with white plaster exterior. The finish will be in hardwood throughout with all oak floors. Electric heating will be used upstairs and both gas and electric downstairs. Gas will be used for cooking. He likes the electric stove, but says it is a little too slow in preparing a busy man's breakfast.

He says the Patterson avenue extension through to Broadway will be a great asset to that fine building section.

MAYOR'S MESSAGE

HARTLEY SHAW CALLS ATTENTION OF BOARD TO URGENT CITY NEEDS

Fellow Members of the Board of Trustees:

It seems proper that upon entering upon the discharge of the duties of the office of President of the Board to which you have so kindly chosen me I should briefly suggest to you some of the subjects that may occupy the attention of the Board in the near future. In doing so I do not pretend to have any superior knowledge or wisdom regarding City affairs, but the matters which I have in mind have for the most part already received attention from the Board during my service thereon and perhaps I can for that reason be of some assistance to the incoming members by presenting these matters to them.

One subject which has already claimed a large share of attention from the Board and must continue to do so for some time, is the improvement of our water system. Indeed, your attention has already been called to it by the Engineer's report presented at the special meeting of last Monday night. The \$260,000.00 bond issue voted last November was expected to relieve our difficulty for the immediate future, but as you already know the depressed state of the bond market has interfered with the sale of those bonds and we have been able to dispose of \$100,000.00 of them only by reason of the fine civic spirit shown by L. C. Brand and our local bank, who have purchased that amount of bonds at par although on the market they would have sold for at least \$6,000.00 below par. The money received from this sale will enable us to take care of the most urgent needs of the system, but the extensive developments planned for Verdugo Canyon cannot be taken care of until more bonds
(Continued on Page 5)

JOHN RAND AT HOME

PAYS BRIEF VISIT WHILE EN ROUTE NORTH WITH AERO SQUADRON

John Rand, who is with an aero squadron that has been stationed at Rockwell Field, was enabled yesterday to pay a brief visit to his parents, Dr. H. F. Rand and wife, of 526 E. Palmer Ave. John is a mechanic. His squadron returned three weeks ago to Rockwell Field from a long stay in Calexico, and is now on its way to Mayfield, the big camp near Sacramento, to relieve the Forest Reserve corps of the 91st. The members of the squadron and their outfit move in 34 trucks besides the private autos of the officers and mechanics. They camped at Santa Ana Wednesday night and at Saugus last night. They passed through Glendale yesterday a little after noon and the Rands met the outfit at Glendale Ave. and San Fernando Road. John was allowed to go home with his parents and spend only half an hour, then had to hurry on to rejoin the squadron. He is in fine health and greatly enjoying his work.

WAR TIES RENEWED

MRS. BONDAUX ENTERTAINS WAR WORKER SHE MET ON VOYAGE HOME

Last Sunday Mrs. Maurice Bondaux had the pleasure of entertaining at the home of her parents, Dr. and Mrs. A. A. MacIntyre on North Central avenue, at dinner and for the day, Miss Mary Healy and her mother from Springfield, Mass. She returned home last September from France on the same boat on which Mrs. Bondaux was a passenger. She had been doing war work abroad under the Catholic War Council of America for two years and during her stay there had charge of a big canteen in which she worked tirelessly. Mrs. Bondaux was delighted to meet her again. Miss Healy and her mother have been touring the southern part of the state and will leave tomorrow for Santa Barbara, going north from there. While here they were taken motoring by Mrs. Bondaux and shown the beauty spots of Glendale, Pasadena and the country between. Miss Healy is still in war work being now located at Kansas City where she says there are still ten thousand soldiers not yet demobilized. She is therefore wearing her army uniform.

WEATHER FORECAST—Fair to night and Saturday.

Blouse and Smock Week

Your opportunity to replenish your wardrobe with the latest in ready-to-wear apparel!

HERBERT C. HOOVER

INTERESTING FACTS ABOUT LIFE OF CALIFORNIA PRESIDENTIAL CANDIDATE

Herbert Clark Hoover was born at West Branch, Iowa, August, 1874. Both parents were American born and were descended from a long line of Quaker settlers.

His parents died when he was ten years old, leaving him to learn the meaning of hard work in the home of an uncle in Oregon.

At the age of 17 he had equipped himself to enter Stanford University, where he worked his way through college, and was graduated in 1895 as a mining engineer.

He acquired the practical knowledge of his profession by working as a laborer in the California mines.

In 1899, Herbert Hoover was married to Miss Lou Henry of Monterey. The Hoovers have two sons, Allen and Herbert.

Eminent mining engineers recognized the unusual ability of young Hoover, and when he was 23 years old sent him to Australia where he introduced American methods and practices, including the eight-hour working day for all workers.

Hoover early achieved prominence in his profession and was called to take charge of big undertakings in America, Russia, and China, and for years he has maintained offices in San Francisco, New York and London.

Herbert Hoover is a Trustee of Stanford University, having been appointed in 1912, and makes his home there, although, like many successful mining engineers, his work has taken him at times to all parts of the world.

This world-wide experience has given Hoover his unique equipment for handling international as well as national affairs.

Hoover served conspicuously in the Chinese Boxer Rebellion in 1900, organizing the defense for many groups of Americans and Europeans.

In the world war, Hoover was one of the first Americans to come to the front. At the outbreak of hostilities in 1914 he immediately dropped all his business and undertook relief measures for 100,000 Americans stranded in fighting Europe.

In October, 1914, Hoover organized the Commission for Relief in Belgium, through whose agency more than ten million people were fed for nearly five years. His irreproachable integrity won the confidence of all with whom he came in contact. He was regarded as so free from outside influence that he was almost the only man in the world who could pass back and forth through all lines without challenge.

In April, 1917, when this country entered the war, Hoover answered the call of the President to act as United States Food Administrator. He attracted to himself an organization of voluntary workers. Although clothed with the power of the law, he used only persuasive methods. He made the Food Administration one of the great American achievements. Through his offices, food production increased, waste and extravagance were eliminated, and middlemen's profits regulated. Not only did he feed the American people, and their army, but he stabilized the food supply of the world.

When the Armistice was signed, he was among the first administrative officials to relinquish authority. He was then called to Europe to represent the United States as Chairman of the Supreme Economic Council. Under his direction the railroads, telegraph and telephone systems and mines of Europe were operated from December, 1918, to August, 1919. He brought order of chaos.

During the same period he had the task of distributing to Europe food and clothing bought with the \$100,000,000 fund appropriated by Congress for European relief. Through his careful administration, he accomplished this task and returned nearly nine-tenths of this fund to the United States Treasury in securities of those countries which were able to pay for the relief. This was the result of business methods in handling relief work. His promptness and ability to cope with every difficulty saved the lives of millions, and again made the name of America loved and respected throughout the world.

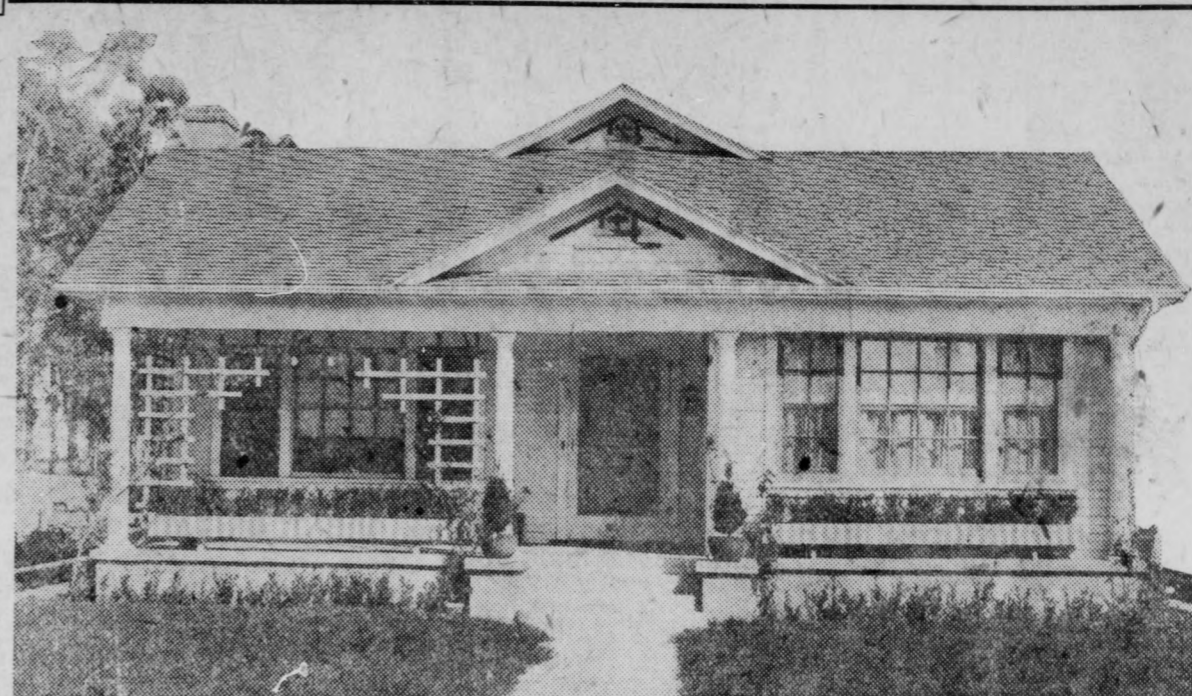

He is chairman of the American Relief Administration, through whose agency five great food warehouses are maintained at Vienna, Warsaw, Budapest, Prague and Hamburg.

Orders for food on these warehouses can be purchased in this country, insuring delivery of specific amounts of food to individuals.

The Children's Bureau of the American Relief Administration is today under Hoover's direction. Without government financing he is feeding 2,500,000 children in Poland, Austria, Hungary and the Balkans,—who would otherwise die by starvation.

Since December, 1919, Hoover has been serving as Vice-Chairman of the National Industrial Conference at Washington.

Herbert Hoover has given freely his services to his country,—regarding his work for the past five years as no more than his duty. He devoted his experience, his knowledge, and a considerable portion of his

The Colonial Bungalow

—has made a stronger appeal than any type of architecture for the small house that has been advanced for a long time.

Its simplicity and its adaptability to modern home needs has made it very popular.

Whether you decide that your new home is to be the colonial type or some other style of architecture, whether it is to be a mansion or a modest bungalow, we would like to figure on your lumber.

If you have seen the immense stocks of building material stacked in our yards and sheds you will realize that no one can treat you better than we can in the way of giving you just the kind of lumber you wish—at right prices.

fortune to the vital needs of the time. He has acted without compensation, and came out of the war poorer than he went in.

Regarding politics, Hoover has said that he is as much opposed to the reactionaries as he is to the radicals. His affiliations have always been with the Republican party.

Herbert Hoover has expressed himself unmistakably on the leading questions before the country today. The Hoover Republican Club of California believes that these are the principles of a large majority of the Republican party. Hoover stands for the League of Nations with reservations clearly safeguarding the United States and its Constitution; he has been constantly urging the acceptance of the Treaty with these

safeguards; he stands for a clearly defined constructive program for capital and labor; for a business administration of the national government, with minimum interference in the economic activities of the country; for the co-ordination of expenditure of government funds with government income, through a national budget system; for decreasing the cost of living; and for reduction of taxes through reduction of waste.

Hoover — engineer — organizer — administrator — statesman — recognized authority on world conditions, outspoken leader of national thought, modest, fearless and sympathetic American,—is demanded for the Presidency. The office seeks the man.

AMERICAN-MADE FILMS

Among California's commodities of domestic and foreign trade place the moving picture film. The value of the annual production is not as high as that of citrus fruits, raisins or prunes, or canned fish, but it is considerable, well worth noting. Recently published statistics give the total films exported during 1919 as measuring more than 50,000 miles, or enough to go twice around the earth at the equator. The value of the films exported was \$10,740,000.

There are at present no figures available showing just how much California contributed to this item of export trade. Details are also lacking to show the destination of the American-made films in 1919, but the statistics of 1918, when about half as much film was exported as last year, show that the prepared reels went to no less than fifty-three countries. Thirty-three per cent to North America, exclusive of the United States, fourteen per cent to Oceania, a little over seven per cent to Asia, and three per cent to Africa. Of the unexposed films of course a very large proportion went to Europe, eighty-five per cent, in fact, while the remaining fifteen per cent was distributed to the North American countries other than the United States, Asia, Oceania and South America, in the order named.

The United States is by far the largest manufacturer of films in the world. An estimate based upon the known quantity exported suggests that the total domestic production is not less than two million feet annually, with a value of about \$75,000,000. California produces a large percentage of this output, the given value of which does not include performers' salaries, divorce court cases and breach of promise suits. Neither does it include any part of the hundreds of millions of dollars invested in "movie" theaters and the cost of their operation.

A very large business, or rather several large businesses, have been built up on the moving picture. It has brought new values to the economic and business life, as well as to the machinery of instruction and recreation.—Exchange.

That Americans are today exceedingly unpopular in Paris, and tomorrow will be unpopular over the whole continent of Europe, are startling assertions of the London Saturday Review.

The Real Want

Cortez is said to have been discovered of Mexico; but what we are worrying about now-a-days is an explorer who will lose it again.

NEW BOOKS

ADDITIONS TO BRANCH LIBRARY

POPULAR

The following new books have just been added to the collection at the Branch:

"Four Horsemen of the Apocalypse," by Ibanez; "Keeping Up with William," by Bacheller; "Polly of the Hospital Staff," by Dowd; "Hagar," by Mary Johnston; "Max Fergus," by Owen Johnson; "By Order of the King," by Victor Hugo; "The Great God Success," by David Graham Phillips; "Caleb West, Master Diver," by F. Hopkinson Smith; "The Builders," by Ellen Glasgow; "Homing with the Birds," by Gene Stratton Porter; "Theodore Roosevelt's Letters to His Children," "The Sun of Quebec" and "The Masters of the Peaks," by Altsheler; "Peace in Friendship Village," by Zona Gale; "The Man of the Forest," by Zane Grey; "The Ivory Trail," by Mundy; "The Fighting Shepherdess," by Caroline Lockhart; "The Land of Last Chance," by Ogden.

The patrons of the library can have any of these books reserved for them by the payment of five cents.

The book reviews which Mrs. Danford of the main library is conducting every other Friday at the Branch at 2 p. m. are proving a great success. All those who have attended them are very enthusiastic. The next one will be held on the 23d of this month, when the inspirational poets will be taken up and one of the new books of fiction.

The following books of fiction have already been reviewed: Mark Twain's "Mysterious Stranger," "The Four Horsemen of the Apocalypse," "The Builders," by Ellen Glasgow, and "A Man for the Ages," by Bacheller.

Since March 7th, the Branch has been open on Sundays from two to five for reading.

The attendance at this time is steadily increasing and the privilege will undoubtedly be appreciated by many people when they know of it.

CHAS. H. CUSHING,
Branch Librarian.

HAS ORANGE RANCH

R. A. PETERSON VISITS PORTERVILLE ACREAGE AND SEES FINE PROSPECT

R. A. Peterson, formerly a Glendale business man, but now living at 306 S. Rampart St., Los Angeles, was in this city recently and called at this office. He had just returned from his 40-acre ranch near Porterville, where he found everything flourishing. He has 10 acres in bearing navel oranges and has several acres of Valencia coming in soon. He says shipping of navels begins up there in November and of Valencia in April. His observations carry out the statement recently made in a horticultural journal to the effect that of the thousands of new orange trees coming into bearing within the next year or two fully 75 per cent are Valencia. This is regarded by the journal quoted as unwise on the part of the growers, as the navel crop is by far the most profitable of the two coming in, as it does, in the winter, when there is practically no other fruit obtainable, while the Valencia season is from April to October, when all kinds of fruit are abundant. The Valencia trees are much more prolific in bearing, also.

Mr. Peterson says he expects to have all his ranch set to fruit in time and is thinking seriously now of pomgranates, which are used for jellies and also for some kinds of dyes. They are regarded as a very profitable crop.

THE MAN POWER CAR

The small foot-power automobile, known only as children's toys in this country, are being taken quite seriously abroad, with the increasing cost of gas power. A two-seated tandem model made in France is becoming popular in England.—Popular Mechanics.

SUCCESS

The cause of success is to estimate correctly and to take advantage of the idiosyncrasy of others. None of us are clever in the way Napoleon was clever. All we can do is to be slightly less idiotic than the rest of mankind.—E. F. Benson.

SNOW BLINDNESS

According to Sir Ernest Shackleton, the first symptoms of snow blindness are a running at the nose; then the sufferer begins to see double, the eye begins to water and then closes up.

TRYING TO PUT IT OVER

Yes, when we are young we are full of fauous stupidities; we remember those poor young men who play with a tooth-pick to make believe that they have dined well.—Balzac.

Wooden shingles for roofing purposes have been banned in Grand Rapids, Michigan. Roofing material must now be incombustible.—American City.

Besgrade

It's doughnuts and more doughnuts that the family wants if you use "Besgrade" Flour when you make them.

GLENDALE, CALIFORNIA, FRIDAY, APRIL 23, 1920

JUBILEE SINGERS ENTERTAIN LARGE AUDIENCE

The Wesley Chapel Jubilee Singers (colored), gave a most pleasing entertainment last evening in the Central Avenue M. E. Church to a very large audience. The choir of the church in question numbers 31 members but the Jubilee Singers consist of a double quartet, one of the members of which is an accomplished reader. He gave several selections from the works of Paul Laurence Dunbar, the negro poet. Plantation songs and ballads were rendered by the double quartet. The choir of Wesley Chapel, which is in Los Angeles, has taken upon itself the raising of \$1000 of the debt on the church. The proceeds of last night's entertainment was divided between the two congregations.

J. A. NEWTON UP AGAIN

J. A. Newton was able to be at his place of business for a short time just to see that things were moving all right. He is not very strong yet so will take a further vacation from business.

DEATH OF CHAS. A. FROMM

Chas. A. Fromm of 1249 East Wilson Ave. died yesterday, 1:10 p. m., of uraemic poisoning. He leaves a wife and two children. Deceased was born in Germany on April 5, 1863. Funeral services are being held this afternoon in the Little Church of the Flowers, Pulliam & Kiefer in charge.

ANNOUNCEMENTS

NOTICE
Rev. Hugh K. Walker, D. D., pastor First Presbyterian Church, Los Angeles, will deliver the "Preparatory Sermon" at the Presbyterian Church this evening at 7:30. As is always true, Dr. Walker will be greeted by a large audience. The general public is cordially invited.

NOTICE
The regular annual meeting of the Stockholders of the Bank of Glendale will be held at its banking house on Tuesday, May 11th, 1920, at 4 p. m., for the purpose of electing Directors for the ensuing year and transacting such other business as may come before them.
F. H. VESPER,
President,
Glendale, Cal., April 22, 1920.

FOOD SALE
The ladies of the Casa Verdugo M. E. Church will hold a food and fancy goods sale at Christy's Grocery, 115 South Brand, Saturday, April 24.

Personals

S. L. Rhoades, 1323 E. Wilson Ave., reported to the police the theft of 15 rabbits from his hutches Wednesday night.

C. W. Ingledue is at home again after his operation for appendicitis and was able to sit up awhile yesterday and even stand on his feet for a moment or two.

Dr. A. M. Duncan of South San Fernando Road, has just returned from a two weeks' visit with his daughter and son-in-law, Mr. and Mrs. Will Hillman, on their ranch at Tulare, where he found everything very flourishing.

Mrs. F. A. Field, 209 North Kenwood, who has been ill since last Monday, is to be operated on this afternoon at Westlake hospital, Dr. T. C. Young having charge of the operation. Mrs. Field is the mother of Miss Bessie Field a teacher in the high school.

J. R. Hayward, who came to Glendale from Pasadena about a year ago with his family to work for Paul Kugler in the Basket Grocery and located at 404 West Colorado, then assisting Kugler's successors after they bought the store, has decided to return to his former home, Pasadena. He will move next week and resume his former position in one of the Chafee stores of Pasadena.

H. V. Poore of 531 North Louise is busily engaged every day in putting in garden between the rows of fruit trees on the five-acre ranch of his son, C. G., near Grand View avenue on Sixth street. This is the east half of the old Bardsley ranch of 10 acres. The father is 71 years old, but is still in vigorous health and enjoys getting out into the country as often as possible.

J. S. Whitney recently came from Portland to join his parents, Dr. H. T. Whitney and wife, who are living in his home at 1134 East Lexington Drive, purchased a few months ago from Mrs. Hattie Gaylord. His wife is recovering from an attack of rheumatic fever and had to remain there till later with the two children, who are in school. Mr. Whitney will engage in business in Los Angeles, but will continue to live in Glendale.

MRS. YEOMAN ELECTED PRESIDENT

As the Evening News goes to press the election of officers of the Los Angeles County W. C. T. U. is in progress. The president has been selected in Mrs. Marie Yeoman, who for several years has been president of the Orange County Union but who has recently moved to Glendale and joined the union here.

SEVEN YEARS OLD

Mrs. Linkogel of 448 Vine street entertained Saturday with a party at which friends of her little daughter, Myrl, were entertained in celebration of her seventh birthday. A pink and white color scheme was carried out in decorations, a canopy of pink and white streamers extending from the chandelier to the table on which the party refreshments were served. The birthday cake, covered with white frosting, bore seven pink candles. Miss Eula Linkogel led the children in the games with which they were entertained during the afternoon and for which prizes were offered, the first prize for girls going to Marceline Lamoreaux, and the second to Esther Phillips, the first for boys to Robert Clark and the second to Billy Phelon.

The guests were: Mary and Esther Phillips, Frances Pierce, Lois Merriken, Caroline Doty, Jeannette Hickman, Lucile Williamson, Peggie Weisenheimer, Stewart Weisenheimer, Sammy Clark, Robert Clark, Benjamin Hogue, Evelyn Lapham Moore, Mary Lamoreaux, Marceline Lamoreaux, Nan Jones, Stella Taylor, Dorothy Wind, David Sichel, Stanley La Porte, Donald Stone, Billy Phelon.

The hostess was assisted by the two grandmothers of the little honoree, Mrs. Linkogel and Mrs. Allen.

ATHLETIC CHAMPIONS

The athletic championship of the Glendale grammar schools below the Intermediate grades will be decided this afternoon, when the two-days contest on the Intermediate grounds will close. Yesterday afternoon's events were as follows:

The 40-yard dash—Elwood Johnson, Pacific Avenue, 1st; Harold Begg, Pacific Avenue, 2nd; Wm. Goodwin, Colorado Street, 3rd.

High jump—Russell Thompson, Columbus Avenue, 1st; Noel Dean, Broadway, 2nd; Chas. Hart, Colorado, 3rd.

The 60-yard dash—Charlie Steelman, Cerritos Avenue, 1st; Raygene Dow, Colorado, 2nd; Allen Lovell, Columbus Avenue, and Wm. Goodwin, Colorado, tied for 3rd.

Standing broad jump—Charles Hart, Colorado, 1st; Wm. Goodwin, Colorado, 2nd; Gerald Bell, Central Avenue, 3rd.

Running broad jump—Gerald Bell, Central Avenue, 1st; Harold Bell, Pacific Avenue, 2nd; Vernon Boone, Pacific Avenue, 3rd.

Hop, skip and jump—Wm. Goodwin, Colorado, 1st; John Copeland, Pacific Avenue, 2nd; Loren Pierce, Pacific Avenue, 3rd.

CASH NEED IN HOOVER FIGHT

Millionaires Back Johnson Machine; Money Required to Break its Grip.

Money is the prime need in the campaign to elect in California a Republican delegation pledged to support Herbert Hoover for President. While the Johnson machine in this State, backed by a coterie of California millionaires, is raising a large sum to promote the Johnson cause, the organization that is fighting for Mr. Hoover is crippled by lack of funds.

Every citizen, therefore, who is opposed to the domination of politicians, and to machine rule generally, can fight most effectively with his dollars. The Hoover campaign and the cause of efficient government can best be served right now by sending cash contributions to George H. Bentley, Treasurer of the Glendale Hoover Club, 200 East Broadway.

WHY I AM FOR JOHNSON

Editor Evening News:
 I have been asked to state my reasons for supporting the candidacy of Senator Johnson.

I favor Hiram W. Johnson for President because he is the most forceful character among the candidates for the nomination. I am for him because of his pre-eminent ability, his unadulterated patriotism, his genuine Americanism.

I am for Johnson because of the record he made as Governor of California and as a member of the United States Senate—because of his accomplishments in behalf of the State and Nation; because of his administrative and executive ability as demonstrated while Governor of this State and his broadminded statesmanship as exhibited in the National Senate.

I am for Johnson because of his forward outlook and his comprehensive grasp of the real issues before the American people.

I am for Johnson because he is a true friend of the workingman, as well as of the business interests of the country.

I am for him because of the humanitarian and patriotic concern he has manifested for the American soldier, the boys who went over there nobly "to dare and to do and to die if need be" for their beloved country; and the boys who were sent, without right or reason and contrary to law, to suffer and perish in the bleak, frozen land of Siberia.

I am for Johnson because of his superb moral courage, his independent character and action on all public questions, daring at all times to do the right as he sees the right.

And last, if not least, I am for Johnson because he is the son, and the favorite son, of California who, by personal experience and association, understands the people of California and the West. Being familiar with their needs and aspirations, if chosen President of the United States, he will see to it that they, as well as the people of the whole country, have a "square deal."

J. H. FRANKLIN,
 Glendale, Cal., April 23, 1920.

CERRITOS P.-T. A.

A meeting of the Executive Board of the Parent-Teacher Association of the Cerritos Avenue School was held Thursday afternoon at which a few minor changes were made in the constitution and plans were discussed for a special meeting to be held two weeks hence at which there will be an exhibit of the work of the various grades in manual arts, drawing, etc., in the upstairs rooms of the school. At this meeting there will also be a program given by the children on the school grounds which will include songs, fancy drills, games and athletic exhibitions. Popcorn, candy, punch and notions will be sold at fancy booths on the grounds. The Hawaiian musical to be given the last of the month as an afternoon performance at the Cerritos Avenue School and in the evening at the High School, was also discussed and preliminary arrangements made.

The Millford Street Card Club met Tuesday with Mrs. John Robert White of North Orange. The house was beautifully decorated with Cecil Brunner roses. Five Hundred was played and Mrs. E. F. Clements, one of the special guests, won the prize. Another special guest was Mrs. Lewis Leppelman and Mrs. Fred Farmer was guest of honor. A luncheon was served. There were 14 ladies present.

PIANO RECITAL

CONCERT BY ELSA BREIDT DELIGHTS APPRECIATIVE AUDIENCE

The anticipations of music lovers were fully realized in the recital by Elsa Breidt at the High School Monday evening. Classical music is a dread to many whose musical taste is undeveloped, but the program given Thursday evening was a revelation calculated to completely reverse any previous misgivings. To say that the audience was delighted is to but mildly express its pleasure. Miss Breidt's technique is so fine and seemingly so effortless that it is forgotten in the enjoyment of her interpretations. All the melody, sentiment and passion are revealed and her descriptive work is beyond praise. The four Mac Dowell numbers, "Novellette," "Prelude," "To a Waterlily" and "Concert Etude," were an excellent prelude to the balance of the program, the delicate sentiment of the familiar "Waterlily," furnishing a striking contrast to the less known, more brilliant Etude.

Miss Breidt's second group, all Chopin numbers, aroused still greater enthusiasm which culminated in the Polonaise Op. 44, most beautiful and seldom heard. The art and skill with which Miss Breidt interpreted this splendid processional, bringing out the beauty and dignity of the scene until her audience could see the horses in their brilliant trappings and hear the beat of their hoofs as they approached and receded. Dignity, beauty and passion were definitely expressed in the tone picture of the scene. Wisely she closed her program with a group of melodious numbers which left her hearers clamoring for more and demanding the encore to which she graciously responded. The first of the trio was the Schubert-Liszt arrangement of "Hark! Hark! The Lark!" a golden melody which always delights. The Debussy numbers, "Arabesque" and "Goldfish," charmed the audience, particularly the descriptive number last named, which was full of surprises. "Caprice Espagnol" by Moszkowski brought a tumult of applause which, as already explained, showed how ready was the audience for a much longer evening of music.

Max Alexander, the tenor, and assisting artist for whom Mrs. Alice Harrison Schroeder furnished the piano accompaniments, was most fortunate in his song selections and won much applause, graciously responding with several encores. His program included: "Where'er You Walk" (Handel); "The Robin Sings in the Apple Tree" (Mac Dowell); "Drink to Me Only with Thine Eyes," "Her Rose" (C. Whitney Coombs); "The Doeskin Blanket" (Cadmán); "I Know Two Bright Eyes" (Clutsum). His final encore was the spirited "Give a Man a Horse He Can Ride" (O'Harra).

NEW POULTRY RANCH

P. C. AYERS DEVELOPING FINE PLACE ON FOOTHILL ACREAGE

P. C. Ayers, who last year sold his two-acre poultry ranch southwest of Montrose and then bought six acres on Tenth street, a little west of Grand View avenue, has made many improvements to the place. He first built a comfortable seven-room house with one large basement room under it, then put up several fine poultry houses. The laying pens have an aggregate length of 250 feet and his brooder house has a capacity of 2000 baby chicks. He has 900 laying hens now and will gradually increase his flock, both by buying baby chicks of known standard stock and having eggs from his own hens hatched commercially.

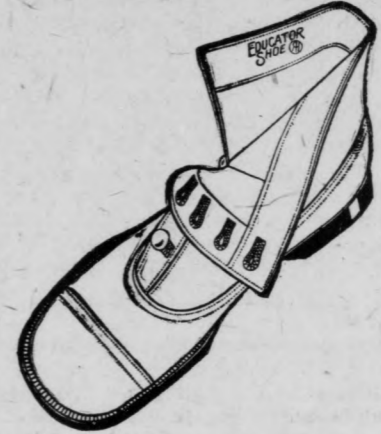

There are more than four acres of fruit trees, nearly all Imperial and Dewey peaches, both early varieties. There are two apricot trees, also. Nearly all the trees are loaded with young fruit and it will have to be thinned out.

Mr. Ayers has a wife and two little girls and all are very much pleased with the new home, which is directly south of L. C. Brand's place and commands a fine view of the San Fernando Valley.

GRAND VIEW CEMETERY IMPROVEMENTS

The Grand View cemetery, under its new management, with L. G. Scovern as resident member of the corporation, is now undergoing many improvements. Four men are working steadily putting all the lots under perpetual care. Under the plan adopted 45 per cent of all money paid in goes to the perpetual care fund. J. S. Dockeray, who was for several years superintendent of the Hollywood cemetery, was appointed to a similar position with the Grand View. He is at present recovering from a slight paralytic stroke and his son-in-law is directing operations. The old house which was occupied for several years by W. W. Shivel, the former superintendent, is to be torn down. A fine mausoleum facing on Sixth street will be commenced this fall.

SHOES For Children

Let the child's foot grow natural; give them room for five toes, and when they grow to be men and women they will not have the foot trouble that so many experience today.

MAYOR'S MESSAGE

(Continued from Page 1)
are sold. In the meantime, however, we should complete our arrangements with other owners of water in the Canyon in regard to this development work, assuring them all of the intention of the City to deal fairly with them and to recognize fully their rights in the water of the Canyon.
Another matter that should receive our early attention is the framing of a freeholders' charter for the City. We are now operating under the State law governing the Cities of the sixth class, which was intended for cities of not over thirty-five hundred population. As we now have a population of nearly or quite fifteen thousand we have gone far beyond the limits of the class for which that law was intended. There are many respects in which the City government is, from time to time hampered and its activities restrained

ed by the operation of this law. We could, of course, reorganize as a city of the fifth class, but the general law provided for the government of fifth class cities was framed many years ago and has not kept up with the progress of modern ideas regarding city government. The result is that practically all cities of the State which have come to the size of fifth class cities have, instead of adopting the general law, framed their own charters. This matter came before the Board two years ago and at that time the Board went so far as to issue a call for the election of freeholders, but a large number of representative citizens, upon whose interest and co-operation the success of a charter movement depended, felt that by reason of the war conditions then prevailing the time was not opportune for consideration of a new charter and the Board, therefore, rescinded its election call. Those war conditions have now happily passed and I believe we should at once proceed anew to call for the election of a board of freeholders.

The question of sewers has recently come before the Board, but no solution has been reached. The City employed sanitary engineers to go over the whole matter and they have submitted to the Board a very complete and comprehensive report. When this report was received the time for the city election was drawing near and as it appeared that to carry out the plans would require a large sum of money, perhaps \$500,000.00, and would involve the voting of bonds; therefore, the board thought that a considerable campaign of education of the voters would be necessary before such bonds were voted upon and that it would be better to leave the determination of the policy to be adopted to the new Board, which would have to carry it out. Hence, no action has been taken on the report. On account of the porous character of the soil which underlies the greater part of Glendale the use of cess-pools is attended with less difficulty in the residence part of the City than is experienced in many cities, and it may be that immediate action to provide sewerage for the whole City is not necessary. But there is no question that the conditions in the business districts are such that relief is urgently required. Hence, we should take the matter up soon and determine whether to proceed with plans for the whole City, and if this is not deemed best, some plan for the immediate relief of the business district should be worked out.

Another subject which should engage the attention of every growing city is the proper zoning or districting of its territory as to the use that may be made of the property therein. This is a subject which cities have not done much with until lately, there having been some doubt as to a city's power in the matter; but the latest decisions of the courts have encouraged the belief that the power of a city is quite extensive and some rather drastic regulations of the kind have been upheld. It scarcely needs argument to show that a proper zoning of a city will be for the benefit of all property owners and residents.

It will conduce to stability in the uses of property and give each owner assurance that he will be protected in the continued use of the property for the purposes for which it is suited. One great difficulty that confronts the modern city dweller in establishing his own home and one of the causes, as I believe, of the migratory character of city population, is the fact that after a man has at considerable expense constructed a home for himself in a congenial location and spent his time and labor in beautifying it and making it conform to the desires of himself and family, he is exposed at all times to the danger that some business or manufacturing enterprise will intrude upon the vacant lots in his vicinity or a series of flats and apartment houses will make their appearance in the midst of what was, when he entered it, a quiet family neighborhood. When this happens there is nothing for him to do but remain amid unsatisfactory surroundings or sell out and move on. Attempts have been made to guard against such contingencies by building restrictions imposed by tract owners, but the difficulty with this is that they are usually limited in time and may be set aside by the courts if conditions change in the neighborhood by reason of buildings put on adjoining unrestricted lots, and there is, moreover, after the tract is sold, no adequate means of enforcing them, the subdivider having usually moved on to green pastures and lost all interest in the enforcement of his restrictions. Adjoining lot owners in the tract may, of course, enforce such restrictions by an action in court, but this puts a heavy burden upon them which they usually do not care to assume. The only adequate authority in such matters is the city and it should impose and enforce such restrictions on the use of property as may be necessary. A beginning in that matter has been made in Glendale by an ordinance lately passed by the Board creating an industrial district in the western part of the city along the Southern Pacific tracks and prohibiting certain industries elsewhere. I think we should now proceed to make a more complete zoning of the city so as to set apart certain territory for business, other territory for manufacturing and other territory exclusively for residences, with, perhaps, further subdivisions for different kinds of business and manufacturing and for separate residences as distinguished from flats, apartments and other forms of community dwellings. To this end I believe it would be well for the Board to appoint a committee of representative citizens to work with it in laying out the various zones and districts. After this is done a public hearing should be had and thereupon an ordinance should be adopted for the complete regulation of the matter.

Another matter which logically bears a relation to the foregoing is that of laying out and opening new streets. Sometime ago at the suggestion of the City Manager the Board directed him to prepare and report to the Board a plan for the development and enlargement of the City's street system, with particular attention to such streets as should be laid out in territory not yet subdivided. This was done partly because such a plan will be a great help to the Board in determining

whether to approve the maps of new subdivisions as they are presented, and partly in the hope that the mere existence of such a plan would prompt property owners and others concerned to undertake the opening of the more important thoroughfares suggested. The completed plan has not yet been presented to the Board, but certain parts of it have been discussed and tentatively approved by the Board and already the idea has borne fruit. There are now before the Board for action two petitions for the opening of streets which will be called for by the plan; one being for the opening of Patterson avenue from Brand Boulevard to San Fernando Road, and the other for a new street from the intersection of Broadway and Pacific Avenue to San Fernando Road. The Board has directed the City Engineer in each case to prepare the necessary descriptions for the opening, but no final decision was made upon either petition by the old Board because time would not permit. These two petitions will, therefore, come up for consideration at once. There are other similar projects which should be taken up soon among which are the opening of Sycamore Canyon Road from its present southern terminus at the old Tropico boundary line, to a connection with either Glendale avenue or Brand Boulevard, and the widening of Los Feliz Road from San Fernando Road to Central avenue and, if possible, to Brand Boulevard. A large sum of money has already been spent on the opening of Sycamore Canyon Road, but it will not attain its full measure of usefulness as a thoroughfare until it is continued southerly.

It is to be hoped that the time is near when additional street improvements can be made. Proceedings for the improvement of Sycamore Canyon Road have already reached the stage where protests against the work have been denied and the matter of ordering the work done and letting a contract therefor will come before the Board at once. Besides this two of our main thoroughfares are now in a condition which is scarcely creditable to us as a City. I refer to Brand Boulevard from the old Tropico line near Windsor Road, to Colorado Boulevard and Central avenue from the same line to Broadway. Brand Boulevard has no pavement between the points mentioned. Its maintenance and occasional reconstruction are a source of considerable expense to the City and even then it cannot be kept in good condition. If possible arrangements should be made to have the Pacific Electric Railway tracks along this part of the street lowered before the pavement is put in, but if this cannot be done civic pride should still impel us to improve this important link in our street system. In the middle of the portion of Central avenue just mentioned there is a sixteen foot macadam pavement built by the County, but on each side of this pavement there is nothing but an oil surface which is so cut and broken up that travel over it is almost impossible and which, in the summer time, raises quite a growth of grass and weeds. This street is one of the important avenues for traffic passing through the City and it ought to be in such condition as

You'll Never Regret Building

DID YOU EVER KNOW OF ANYONE WHO DID?

- † Did you ever hear of a family who built a new home and then wished they had bought an old one or kept on paying rent?
- † Money spent for new buildings is seldom regretted. A new home enriches the city in which it stands as well as the family that occupies it.
- † New churches, schools, libraries add to the prestige of the community to a degree that is out of all proportion to their cost.

Any Time is a Good Time to Build

- † When the building is needed or when you want to make an investment is the best time.
- † When you have decided you are going to build or if you can't make up your mind whether or not it is best, see us.

WE HAVE BEEN BUILDING IN GLENDALE FOR TEN YEARS!

ARTICLE X

The HINGE That Needs OILING

The contest over the League of Nations has in great degree been waged around Article X. This article placed upon us an obligation to respect and preserve, as against external aggression, the territorial integrity and existing political independence of all members of the league, and that in case of threat or danger of such aggression the Council of the league should advise the means by which the obligation shall be fulfilled. I will not pause to deal with what external aggression may be, nor to demonstrate to you what is the fact, that internal commotion or revolution may well be construed, as it has been in the past, as "threat" or "danger" of external aggression; and that internal commotion or revolution would therefore come clearly within the second part of Article X. But taking the provisions of Article X in their accepted sense now, upon us, if the league be adopted, will rest the obligation, under appropriate circumstances, of sending the youth of this land into foreign lands in quarrels not our own, in wars in which we have no part, for the maintenance of boundaries with which we have no concern. The President's views upon our obligation he plainly stated in an address delivered in the Paris Peace Conference, May 31, to the representatives of Rumania and Serbia. This address was published recently by Mr. Simonds, the famous war correspondent, and only through him did we learn of it. All data and proceedings of the Peace Conference have been denied by the President to the American people and the American Senate. The President said on the occasion referred to: "If the world should be troubled again, if the conditions which we all regard as fundamental are challenged, the guarantees which will be given to you will pledge that the United States will send its army and fleet across the ocean. Is it surprising, under such conditions, that it should desire to reach a solution of the various problems which seem to it satisfactory?" The reservation adopted by the Senate to Article X is designed solely to protect our people and to retain within our own power the use and employment of our armed forces. We are fortunate in having the President's attitude clearly expressed concerning this reservation.

Extract from speech by Hiram W. Johnson in U. S. Senate, January 13, 1920. Copies of this speech may be had at Headquarters Johnson-for-President Club, 114 East Broadway.

would commend our City to visitors.

The last subject to which I would refer at this time is a park or parks. Until two or three months ago the City had no park; now we have made a beginning by acquiring ten acres in the northwestern part of the City upon a contract which gives us four years in which to pay for it. Upon this park it is proposed to locate a swimming pool and an automobile camping ground. We have hopes that it will be enlarged by the donation of a parcel of land lying between it and the Wash at the northeastern corner, but we should not rest content with one park. It may seem that in a city where there are so many vacant lots on which children may play and so many beautiful lawns and gardens and very nearly every dwelling is of the one family separate lot type there is no urgent need for parks. But we must plan for the future as well as the present and the not far distant future will undoubtedly see this City closely built up and many of its residents living in flats and apartments. When that time arrives the cost of land suitable for parks will be almost prohibitive.

At present there are several desirable park sites in the city which could be acquired at comparatively small cost. If we could but acquire the land now we might perhaps defer its complete improvement until a time when the increased population which would increase the need of parks, would also increase the revenue with which to improve them. There is one park site in particular of which I have so long dreamed that I cannot forbear mentioning it to you. I refer to the hill which lies to the south of Palmer Avenue and east of Glendale Avenue. This hill has the most extensive view of any point in Glendale; from its summit upon a clear day one can see the entire city of Glendale, the whole eastern part of San Fernando Valley and the mountains beyond Verdugo Canyon, the Sierra Madre mountains, large parts of the city of Los Angeles, and in the far distance the Pacific ocean gleaming in the sun. To stand on the summit

and gaze upon the view is an inspiration to any lover of nature and it seems to me that such a noble prospect should be preserved to future generations by the acquisition of the hill as a park site. There has been discussion in our community of a memorial to our soldiers who gave themselves in service during the late war and opinions have differed as to the form of such a memorial. I would offer the suggestion that no more fitting memorial could be erected than an observation tower upon the summit of this commanding elevation, a place where visitors could seat themselves and find shelter from the wind while delighting their eyes with the beautiful view spread out beneath them. Such a structure could without very great expense be made architecturally satisfactory and impressive, and it would be in the constant view of all our citizens and of all passers by, continually reminding them of the patriotism and self-sacrificing devotion of those whose noble deeds it should commemorate. Besides the summit of this hill I would have the city acquire its north and east slopes with as much land below the hill to the north and east as we could find the means to buy. Thus an easy approach to the summit could be made for both pedestrians and vehicles and a park and picnic ground could be made on the more level land at the foot of the hill. A very desirable site for a swimming pool could also be found here, if another pool should be desired, there being an outlet for the waste water in the Sycamore Canyon wash. I believe there is no other part of the city in which the same opportunity exists to acquire a suitable park site of large size, close to the centers of the population and so convenient of access. When the east side car line is constructed it will pass by the gates of the park I propose, and even now the distance to the car line is not such as to prohibit access to the park.

I trust that I have not wearied you with these observations and that you may find in them some suggestions that will be helpful in our further deliberations together.

ENGINEERS' REPORT

RECOMMENDATIONS AS TO EXPENDITURES UNDER WATER BOND ISSUE

Of great interest to members of the Board of City Trustees and to citizens assembled was the report of investigations into the proposed expenditures under Glendale's water bond issue of \$260,000 submitted at the organization meeting of the Board last Monday night by Engineers H. B. Lynch and Willis S. Jones.

The bond issue, it will be remembered, covered as its first provision another pumping unit at the main pumping station on San Fernando Road, to consist of two wells, a pump for each well and a booster pump of same capacity as the present one at an estimated cost of \$33,500. This, the engineers declare, should be installed as contemplated.

A second provision was for the construction near the mouth of Verdugo Canyon at the 720-foot level of a reservoir of 7,500,000 gallon capacity at an estimated cost of \$40,000. This also is approved by the engineers, the report saying: "It is intended that ultimately a reservoir of approximately this capacity will be built at this point but not at the present time; but we recommend that a site be obtained suitable for the construction of a reinforced reservoir with an overflow at the 952-foot level. It is desirable to obtain the site at this time as a very large amount of money will be spent on this development and a good percentage of it requires that the ultimate location of the reservoir be fixed. At the present time it is proposed to construct a small reservoir on the one acre of land to be acquired when the Forest Grove Water Company is taken over.

A third provision was for trunk lines on Verdugo Road and Glendale avenue 30 inches in diameter at an estimated cost of \$35,000. This provision is also indorsed by the report.

A fourth provision was for water development works in Verdugo Canyon at the north end of Tract No. 250 consisting of a row of wells across the Canyon driven to bed rock and the necessary pumping machinery to raise the water from the underground flow to a small reservoir

from which it will be transmitted to the main reservoir through pressure mains, at an estimated cost of \$32,000. This, the report characterizes as one of the most important parts of the whole project and says: "The present indications are that about ten wells ten inches in diameter should be drilled to a depth of 140 feet, the water to be pumped by air lift and discharged into a cross main from ten to thirteen feet below the surface. The final details of this development will depend to a large extent upon underground conditions not at present thoroughly known. The number of wells and the character of perforations will depend largely upon the coarseness and water-carrying capacity of the gravels and the depth and contour of the bed rock. We accordingly recommend that steps be taken immediately to drill to bed rock three wells, 10 inches in diameter at intervals across the Canyon at the north line of Tract 250. These wells will furnish the information needed for the complete development of the Canyon. It is expected they will be a part of the complete development.

The fifth provision of the bond issue was for a pressure main 20 inches in diameter along La Canada Boulevard and Verdugo Road to serve as a transmission trunk line from the wells and pumping plant in Verdugo Canyon to the main reservoir and as a pressure main from which laterals will be extended to serve the Verdugo Canyon district, at an appropriate cost of \$34,800. Of this provision the report says: "We recognize the difficulties that have been caused by the recent rises in all prices but recommend that if possible this line be made 22 inches in diameter. This would increase the cost about \$4000, but the decreased friction losses alone will pay interest and depreciation on this amount. In addition the 22-inch line will permit better service to be given the foothills above the 720-foot level and will make the proposed reservoir at the 952-foot level of greater use in the operation of the system.

The sixth provision was for a 16-inch pressure main on Grand View avenue at an estimated cost of \$19,000. This is approved by the report and recommended.

The seventh provision is for a reservoir on Grand View at the 720-foot level of a reservoir to cost \$8000. This, the report says, should include the purchase of the permanent site for the proposed concrete lined reservoir of 7,500,000 gallons capacity and the installation at the present time of a smaller reservoir.

The eighth provision is for a pumping unit to cost \$3000 at the proposed Grand avenue reservoir. This, the report says, should be installed as contemplated.

The ninth provision calls for an expenditure of \$34,250 for pipe and other material needed for the improvement of the present distribution system both for new mains and laterals and the replacement of old ones. Relative to this the report says: "The system can absorb all of the distribution mains which present conditions will permit to be laid.

The tenth provision calls for the construction of an electric generating plant to be situated near the large reservoir at the entrance to Verdugo Canyon to cost at present prices \$9,700. "The installation of this unit," the report says, "will permit the utilization of a considerable source of power at present wasted. This can be developed with very large profit to the city."

The eleventh provision of the bond issue is for the purchase of additional gravity water shares at a cost of \$10,000. Concerning this matter the report says: "A considerable amount of gravity water is offered for sale by holders of small quantities who have no use for it. At the present prices this water should be purchased."

The report concludes: "Since the estimates were prepared upon which this issue was based there has been a steady upward tendency of cost and prices. Riveted steel pipe to be laid on Grand avenue and Glendale avenue which was estimated at \$88,800 installed, has increased one-third in price. The original estimates were liberal, however, because of the upward tendency, and the amount by which the present cost will exceed these estimates is much less than would be indicated by the increase in the cost of the pipe. Most of the other items can still be installed within the estimates."

In response to questions as to the use which will be made of the proceeds of the \$100,000 of water bonds which have been sold, the City Manager stated that the money would practically be absorbed by the work to be done on San Fernando Road.

SUN SPOTS

When the celebrated Fabricius, who seems to have been the first to see spots on the sun, made known his discovery he was in great danger of losing his life. The Church accused him of blasphemy saying that to suggest that anything which God had made could have a flaw in it was to doubt the Omnipotence of the Creator.

More than two billion passengers rode on all the New York car-lines during the fiscal year just ended. Of this number it is said that several got seats.—Tacoma Ledger.

Encourage Thrift

Our complete banking facilities include a savings department where we encourage the habit of thrift by accepting deposits of either small amounts or large sums and pay interest on these deposits.

Why not encourage the young person to start an account in this department of our bank, and to save a certain amount from his allowance or earnings each week? In this way he will contract a habit that will be of great value to him all his life.

Be ready for the opportunity that is sure to come by having a savings account at this bank.

TRUSTEES' MEETING
(Continued from Page 1)
Trustee Stephenson; that the permit be granted; roll call resulted as follows:
Ayes: Henry, Robinson, Stephenson.
Noes: Bartlett, Shaw.
The City Attorney presented a copy of the decision of the Railroad Commission in reference to the application of the Southern California Edison Company for permission to raise rates. The decision in effect authorizes the Edison Co. to increase its charges for electricity by 27 per cent. The City Attorney stated in connection with this decision that it undoubtedly means the necessity for an increase to the consumer to the extent of that granted by the Commission. Referred to the City Manager and Public Service Committee.

Demands were presented and referred to the Finance Committee.
A communication was read from the City Manager recommending the employment of a structural engineer to assist in revising the building code. Referred to the Committee of the Whole.
In written communication, the City Manager called attention to the plans for the improvement of the water system, particularly in regard to the three reservoir sites, which it is necessary to secure, and recommended that Engineer Lynch be instructed to submit to the Board of Trustees a report setting forth his recommendations as to the exact location and size of these sites, and that proceedings be taken without delay to acquire options thereon. The communication further stated that there no doubt will be sufficient funds available from the bonds already sold to purchase these sites in addition to the completion of the main pumping plant and Grand View trunk line.

The recommendation was adopted and the matter referred to Engineer Lynch.
In reference to the dedication of land for alley purposes on the rear of his Brand Blvd. lot by Mattison B. Jones, City Manager reported that he had been unable to see Mr. Jones, owing to the latter's absence from the city.

The City Manager reported that G. B. Guthrie wishes to rent temporarily a room in the City Hall building, corner of Brand Blvd. and Los Feliz Road, and on motion of Trustee Henry it was ordered that the same be rented to Mr. Guthrie for the payment of \$15.00 monthly for a period of three months, all voting aye.

The City Manager had prepared an ordinance repealing ordinance No. 244 in regard to the removal of weeds from private property in the city, and the same was presented by Trustee Henry and laid over for one week for final action.

The City Manager presented a request made by Mrs. R. A. Blackburn of the Glendale Welfare Bureau for the cancellation of journal vouchers No. 673 for electric light and No. 715 for water supplied by the Public Service Dept. and recommend that the same be canceled accordingly. On motion, the recommendation was adopted and it was so ordered.

The City Manager presented a communication in regard to the sale of bonds, recommending that the necessary proceedings be taken to authorize the City Treasurer to deliver to L. C. Brand, the Glendale National Bank, the Glendale Savings Bank, the Bank of Glendale, and the First National Bank certain numbered bonds as set forth in his communication. Referred to the City Attorney.

As covering this matter the following resolution was offered by Trustee Stephenson and adopted as Resolution No. 1098. "Resolved, that \$50,000 worth of the water and light bonds be delivered by City Treasurer to L. C. Brand, and a like amount to the various Glendale banks of numbers and denominations recommended by the City Manager in his communication to the Board of Trustees of April 22, 1920, and in accordance with the bids of said purchaser heretofore received and accepted by the Board of Trustees.

In reference to the bill of P. S. McNutt amounting to \$55.60, which had been presented to the Board at the previous regular meeting, the City Attorney presented a letter addressed to him by J. F. Keogh, Attorney for Mr. Brand, stating that the latter had drawn his check for the amount of the judgment as claimed.

A letter was read from Supervisor Jonathan S. Dodge, addressed to the City Manager, stating that he had asked the Road Department for a report on the situation at the Central avenue bridge.

The finance committee reported back demands approved, and on motion of Trustee Stephenson, warrants were ordered to be issued in payment of the same.

A communication was read from Engineer H. B. Lynch, giving his estimate as to the cost of purchasing pipe and material, together with the laying, paving, and all incidental costs for Sycamore Canyon Road, Colorado St., Windsor Road, and Adams St., as shown on plans accompanying the communication, the same amounting to \$15,361.90. On motion of Trustee Henry, the plans set forth in the communication were adopted.

On motion of Trustee Bartlett, it was ordered that the sum of \$15,-

W. C. T. U. CONVENTION
(Continued from Page 1)
spender. She admitted the charge was just, but declared that is what the funds of the W. C. T. U. are for, to carry forward the work it is promoting, not to pile up in the treasury, that her belief has always been such moneys should be invested in humanity. She spoke of the flower mission work as carried on by Mrs. Blanchard and urged members not to neglect it. She also told how the Shasta Daisy came to be selected as the county flower. The ladies who had presented these reminiscences were then given the white ribbon salute.

A disappointment was experienced by the audience when announcement was made that Lieut.-Gov. Wallace would not be present, his campaign itinerary making it impossible for him to meet the engagement. His place on the program was taken by Rev. J. Martin of Hollywood who paid a fine tribute to Mr. Wallace and strongly urged the support of his candidacy for the national senatorship. The speaker referred to his own war work abroad giving a vivid description of the critical situation of the allied armies when America came to the rescue at St. Mihiel and in the Argonne and when the American doughboy accomplished "the impossible." Using it as an illustration, he said: "I congratulate you that in your moral conflict there are no impossibilities. But we are in one of God's pregnant hours. We are at a mountain pass in history and God has asked us to take it and keep it."

At the conclusion of Rev. Martin's very eloquent talk the president told of the ratification committee conference at Fresno of representatives of the W. C. T. U. and allied prohibition from all parts of the state who were asked to name the man they would support to succeed Senator Phelan, a "wet" from Northern California, whose term is expiring. The candidates included Mr. Meserve of Los Angeles, Congressman Kent of Northern California, Mr. Shorridge of San Francisco and Lieutenant-Governor Wallace. After long and thoughtful debate, they selected as their candidate, Lieut.-Gov. Wallace as the man most likely to carry their banner to victory.

Dr. Jessie Russell made a short talk in which she urged voters not to demand the impossible of women candidates and suggested that they require men officials to measure up to the standards set for women candidates. In making their choice voters should consider, she declared, the men and women who will stand for vital issues which concern the welfare of the community, the state, the nation.

Mrs. Kemper Campbell of Glendale filled the place of Mrs. A. J. Lawton upon the program and made a clear-cut illuminating talk on the community property law which was passed by the legislature and held up by referendum. She explained it was originally a part of the Spanish law incorporated into the laws of the state after the American occupation and in its pristine form was a wise and just provision; that it has been changed until it is no longer just to women and the present law which was unanimously passed by the state legislature, is an effort to restore with some reasonable modifications the original law which gave husband and wife an equal share in the community property accumulated during their marriage but which does not concern itself with their individual property previous to marriage. It prevents the willing away of property which rightfully should go to the issue of the marriage or the willing away, except by consent, of the other party, of community property that by right should go to the other partner in the marriage contract. This law will be voted upon at the coming fall election.

Mrs. Martha Law told of the present activities of the War Service Council which Governor Stephens refused to demobilize after the armistice. She read a report of Mrs. J. T. Anderson setting forth its activities of the past three months under its loan bureau, sewing centers, employment bureau, home gardens, propagating stations, and of the effort it is making to provide milk deposits. This closed the afternoon session.

\$61.90 be appropriated from the money received from the sale of bonds, as recommended in the engineer's communication.

Engineer Lynch presented a list of water pipe and fittings required by the Public Service Department, and on motion of Trustee Henry, the City Clerk was authorized to advertise for bids for the same, to be opened at 7:30 p. m., May 6th, 1920.

The City Attorney having prepared a resolution ordering in work on Sycamore Canyon Road, the same was presented by Trustee Henry, and on his motion seconded by Trustee Robinson, adopted as Resolution No. 1097. "A Resolution of the Board of Trustees of the City of Glendale, ordering certain improvements to be made on a portion of Sycamore Canyon Road, Verdugo Road, Lexington Drive, and Broadway in said City."

On motion of Trustee Bartlett, the City Attorney was instructed to prepare an ordinance and present to the Board for adoption providing for lot cleaning and a method of collecting for the same from property owners.

Evening Session
The evening session opened at 7:50 with a processional hymn, "Onward, Christian Soldier," by the M. E. Church choir, after which a beautiful anthem was sung. This was followed by a whistling solo rendered by Miss Isgrig, with violin obligato, played by Miss Murphy, Mrs. Randall accompanying on the pipe organ. Mrs. Kate Cleves conducted the devotional services, opening by giving the Lord's Prayer in song. The 60th chapter of Isaiah was then read and a brief closing prayer followed.

The great pageant, "The World for Prohibition," was then put on, showing the wonderful progress made in many lands by W. C. T. U. workers. The aim was to represent every nation or dominion where they had gained a foothold. There were 40 of these in addition to America, but only 29 were shown because of inability to secure characters for all in the short time available. Most of those portraying the different countries and peoples were dressed in the national costumes and some wore the flags to which they owed allegiance. Mrs. Phelps read a brief statement as each one appeared telling of what had been accomplished toward prohibition in the respective countries. Prominent among the nationalities represented was Iceland which had the honor of being the first country adopting national prohibition, which was in 1915. Japan was represented by a native daughter, who gave a song in Japanese. India's striking representation was supplemented by a dramatic recitation from Mrs. Hull of Los Angeles, who is staying at the Glendale Sanitarium, depicting the birth, youth, marriage and after life of a girl of India, and telling how she, her husband and children were brought to Christ through the work and example of a female medical missionary. When all the characters had made their brief passage across the rostrum and taken their places in the

choir loft Mrs. Iola Hatch of Los Angeles, dressed as America, with a flag depending from either shoulder, took her place on an elevated stand, and held in her hands white ribbons extending to the other characters, while Miss Mottern sang a prohibition song to the air of "Battle Hymn of the Republic."

Eldon Ford then gave a beautiful violin solo with piano accompaniment, after which the entire audience sang two verses of "America" as the closing song. There was a very large attendance and deep interest was taken in the exercises.
