VICTORIA, B. C., TUESDAY, NOVEMBER 14, 1905

N. J. 212

THE CANADIAN NAVAL MILITIA

TO BE DISCUSSED WITH IMPERIAL AUTHORITIES

Hon. R. Prefontaine Will Leave For England Next Week—Inquiry Into Bavarian Accident.

(Special to the Times.)
Ottawa, Nov. 14.—Hon. R. Prefontaine leaves for England a week from today. He goes to discuss with the Imperial authorities a naval militia for Canada. The minister intends getting all the information he can obtain to assist him in carrying out his proposition to establish schools of navigation in this country.

Bavarian Inquiry.
Hon. R. Prefontaine expects that the inquiry before Judge Routher into the Bavarian accident will open on Thursday next. Commander Spain and the sailing master of the North Atlantic squadron will be assessors. The government will be represented by the deputy minister of justice, Andrew Allan, of the Allan line, denies he ever authorized the statement appearing in the newspapers that the accident was caused by the light being dark at sunset. The vessel lost her course after passing the buoy at the eastern end of the Island of Orleans.

En Route to Quebec.
Prince Louis of Battenberg writes to the minister of marine and fisheries stating that Lieut. Pennell left New York last night for Quebec to be an assessor at the inquiry into the accident to the Bavarian. Lieut. Pennell goes from Quebec to Vancouver to join his ship there.

Japanese Railways.
Alexander Maclean, Canadian commercial agent in Japan, reports to the department that the ending of the war has produced a resumption of railway building. It is proposed to get the necessary labor from the disbanded troops returning from the front. There is, he says, a combination between the sugar refiners and private owned railways. Unified combinations and high capitalization seems to be the order of the day. The disclosures in New York over insurance companies are affecting the operations of Canadian companies in Japan.

THE VESPER CREW

Cost Six Thousand Dollars to Send Oarsmen to Henley.

(Associated Press.)
Philadelphia, Nov. 14.—At a meeting of the Vesper Boat Club last night the Henley crew and means committee, which had charge of the plans for the Henley race, met to discuss the matter. The committee reported that the Henley crew was sent to England, where it was defeated on July 4th by the Zealanders. Thorne was in charge of the crew. The amount expended was about \$6,000.

ACCIDENTALLY SHOT

Detroit, Nov. 13.—James T. Thorburn, president of the William H. Elliott Company, of this city, yesterday accidentally shot and killed his wife at their home here.

The Thorburns were robbed recently, and at his wife's request Mr. Thorburn bought a revolver for her protection.

While Mr. Thorburn was explaining to his wife the workings of the weapon it was discharged, the bullet striking Mrs. Thorburn in the temple and killing her instantly.

GLANDERS AT VANCOUVER

Vancouver, Nov. 13.—Dominion Veterinary Inspector Dr. Tait, of Victoria, and Dr. J. Gibbons, of Vancouver, are hard at work to-day pursuing the epidemic of glanders which is prevalent in this city. Fifty horses have been killed here and over that number in the interior.

CALLS FOR STATEMENT

Washington, Nov. 14.—The controller of the currency has made a call on the national banks for a statement of their condition at the close of business on Thursday, November 9th.

THE NANAIMO MINES

Output Will Probably Be Increased at Early Date

"The coal shipments of Nanaimo will soon reach their normal conditions once more, and the outlook is that with the increased output at Brechin and with No. 1 in full blast the output before long will be very largely augmented," says the Nanaimo Free Press.

"Collier Titania finished loading at Brechin on Sunday, and on Monday sailed for San Francisco with a cargo of 5,585 tons. The new machinery at Brechin is working well, and many people were there Sunday to see the operation of filling the Titania. The Tella will be the next vessel to load, and is expected in port shortly."

Seven girls were injured and damage amounting to about \$50,000 was caused by a fire which destroyed the five-story factory building at Leonard and Meeson streets, in Brooklyn Monday.

BURIED IN ST. PAUL'S

Remains of Sir Geo. Williams, Founder of the Y.M.C.A., Laid to Rest.

(Associated Press.)
London, Nov. 14.—The body of the founder and president of the Young Men's Christian Association, Sir George Williams, who died November 6th, was buried beneath the dome of St. Paul's cathedral to-day in the presence of an immense throng of mourners. The funeral procession through the streets was very impressive. Two hundred and thirty carriages followed the hearse. Sympathetic cablegrams were received from Prince Oscar Bernadotte, James Stokes, of New York, and hosts of others, while wreaths were sent from all parts of the world.

ELECTION RIOTS

Number of Casualties at Various Points in Spain.

(Associated Press.)
Madrid, Nov. 14.—A number of casualties resulted at various points in the municipal elections. At Valladolid one man was killed and many were injured. At Somorrostro eight persons were shot and seriously injured, and at Valtierra five men were injured, and the election was annulled.

ROOSEVELT HAS COMPLETED MESSAGE

TO BE READ AT THE OPENING OF CONGRESS

Recommendations Regarding Railway Rate Legislation Practically the Same as Last Year.

(Associated Press.)
New York, Nov. 14.—A Washington dispatch to the Tribune says: "President Roosevelt's message to the 59th congress has been completed, and is in type, and the President is now going over the proofs which have been sent to him from the government printing office. Nothing remains to be done with the message apart from here and there a change of a phrase or word, but the printing and binding of the copies for delivery to both houses of congress on Tuesday, December 5th, three weeks from Tuesday.

"Although an official forecast has not been given out, or will be made public before the message is read to congress, it may be said that the forthcoming pronouncement is one of the strongest and one of the most vigorous thus far written by President Roosevelt. It is considerably longer than last year's, and deals with a greater number of topics.

"The most important item of the message is that dealing with the subject of railway rates. The President's recommendation is practically the same as those contained in his message of a year ago. The President is determined to secure effective comprehensive, reasonable rate legislation at the coming session of congress.

"An important and effective section deals with the subject of Panama canal. It impresses on congress the necessity of immediate legislation which will make it possible for the secretary of the treasury to dispose of the \$125,000,000 bond already authorized, and to submit the matter to the authority of the commission to begin at once the disbursement of the proceeds from such bond sale.

"The President deals characteristically with the subject of federal supervision of insurance, recommending the enactment of legislation which will make it possible again to ascertain the temper of the Supreme court on this subject."

VISITS TEMPLE OF ISE

The Mikado Will Offer Thanks For Successful Termination of the War.

(Associated Press.)
Tokyo, Nov. 14.—The Emperor of Japan, followed by the premier, ministers and other court dignitaries, started in state this morning for Ise temple to offer thanks to his ancestors for the successful termination of the war and the restoration of peace.

The temple of Ise is the depository for the imperial insignia, a mirror, a sword and a crystal, representing respectively justice, power and virtue. Ise is one of the most important of the temples, being the only one which the reigning Emperor personally visits.

There is general rejoicing over his visit to-day. The day was bright and a brilliant farewell was accorded the Emperor by the diplomatic corps at the station.

BOMB OUTRAGE

Explosion in Northern Suburb of Constantinople, but Details Are Not Known.

(Associated Press.)
Constantinople, Nov. 14.—A bomb outrage was perpetrated to-day in the Pera district. The authorities will not permit particulars to be sent at present.

Pera is a northern suburb of Constantinople and is inhabited mostly by Europeans.

THE PREMIER'S SECRETARY

(Special to the Times.)
Nanaimo, Nov. 14.—L. Macrae, recently appointed private secretary to Premier McBride, and who has been with the Free Press here for the past year, left for Victoria this morning to enter upon his new duties.

NO OFFER OF AID FROM GERMANY

WILL NOT INTERFERE IN RUSSIAN AFFAIRS

Report that the Kaiser Would Assist in Suppression of Polish Movement is Unfounded.

(Associated Press.)
Berlin, Nov. 14.—The attention of the foreign office was called to-day to the belief held in St. Petersburg that an agreement exists whereby Germany and Austria would assist Russia if it became necessary to suppress a movement for Polish autonomy.

The foreign office says nothing of the kind occurred and that nothing of that nature will occur. Further, it says it has no communication on the subject with Emperor Nicholas or the Russian government. The Polish question, so far as Germany is concerned, does not exist outside of Germany. If, however, the Russian Polish rebel and the movement for Polish autonomy spreads to the Polish provinces of Prussia, the latter will firmly suppress it. In the Prussian Polish provinces, but Russia must manage her own difficulties as it is the fixed policy of Germany not to interfere in the internal affairs of her neighbors.

The Relief Fund.
San Francisco, Nov. 14.—P. N. Lillenthal, chairman of the Russian relief fund, wired \$10,000 to James Schiff, of New York. An additional amount will be wired in a day or two. Many prominent Jews are among the contributors. Many public meetings have been arranged for the next few days. Further appeal to the public. San Francisco will probably send \$25,000 before the end of the present week.

Cities Depopulated.
St. Petersburg, Nov. 13.—The strike lasted after a lengthy conference, which morning, drafted an appeal calling on all citizens to arm in defence of their homes and families. The delegates to the union of unions decided to again stop all traffic between Warsaw and St. Petersburg, and orders to work have been commanded to work not more than eight hours a day beginning this morning, and the situation is generally grave.

Sunday passed quietly. No excesses are reported from any part of the empire, but the Jews are still apprehensive.

The threatened mob-rising was too extensively advertised to have been successful, even had it been begun. As a precautionary measure the foreign residents and Jews had armed themselves and would have put up a desperate fight against an organized gang.

One of the methods of defence planned was to throw large bottles of ammonia among the mob so that they would break and the fumes choke the rioters.

The Jews are not necessary to report from the streets, but they are being kept at home by the police.

Address from South Russia show that the Jews are leaving the cities there by the thousands. Parts of Kishinev, Nicosia and Odessa are literally depopulated. All Jews having sufficient funds are attempting to remove their families to England and America, many of them abandoning prosperous projects rather than risk another reign of terror.

The corrupt naval administration existing at Kronstadt was disclosed by the recent mutiny, has compelled the resignation of Admiral Nikoff, commander of the Baltic ports, and other officers. The mutineers, instead of being subjected to the full penalties of naval regulations, calling for their execution, were fifth man, are to be shipped on a long punitive cruise.

It is officially announced that the killed and injured in Wednesday's fighting at Kronstadt was less than at first reported. Only twelve were killed outright, and the wounded numbered fourteen hundred. The town is now occupied by 20,000 troops and the rioting has been entirely put down.

CIVIC TOPICS

Discussed at a Meeting of the Victoria West Municipal Association Last Night.

To make its organization as large as possible, thereby enlarging its influence, is the aim of the Victoria Municipal Association, discussed at a meeting held last evening. There were several other matters under consideration at the meeting last evening. The council's course in attempting to secure a record of the water at Goldstream was approved, but the inequality of the rates charged residents living in Victoria West and elsewhere throughout the city was very much in disfavor, and it was decided to ask the city to meet this by paying the interest on sinking fund on the Goldstream Waterworks service. The Indian reserve question was another subject under consideration. It was pointed out that there were three sites which met the approval of the Seagulls, one being in Met. It was felt that the C. P. R. company was desirous of removing the Indians to this latter location, and the association expressed itself as opposed to any negotiations which had for their aim the creating of anything other than a union railway depot on the reserve.

A report was received from the school board which was considered at some length, and it was deemed necessary that legislation should be brought which would prevent ratepayers voting more than once, irrespective of their property interests, in different wards.

The association's new plan will be located over the wholesale establishment of F. R. Stewart & Co., Yates street. Its operation will be carried out by the Victoria Fruit Growers' Association, and it is hoped will prove the commencement of a great industry.

FAVOR SEA LEVEL CANAL FOR PANAMA

FOREIGN ENGINEERS WILL SUBMIT REPORT SHORTLY

They Are of the Opinion that It Could Be Completed in Sixteen Years.

(Associated Press.)
New York, Nov. 14.—A Washington special to the Times says: "The foreign engineers on the president's committee favor a sea level canal for Panama. It is understood in Washington while the American engineers are unanimous for lock construction at the start, the conclusions have been reached at Panama and the report will be prepared forthwith. The advocates of the sea level say that it is the better and more practical form of construction and that it could be completed in sixteen years. How long the Americans think it will take to build a lock canal has not been learned.

"It was said recently by one of the American engineers that it would require seven years to construct one of the big locks needed at Culebra if a lock canal were built. Whether work on the other locks could proceed simultaneously will not be stated.

"Secretary of War Taft said just before he went to the Isthmus on the trip from which he is expected back at the capital on Wednesday, that he hopes to have the report ready to submit to congress for the final decision early next year."

NEW JAM FACTORY WILL BE OPERATED HERE

Victoria Fruit Growers Association Make Preparations For Manufacture of All Surplus Production.

During the coming year all extra production in the fruit line above that locally consumed will be converted into jams. This has been arranged by the Victoria Fruit Growers' Association and Exchange, Ltd., which will be represented by F. R. Stewart & Co., of this city. Heretofore this surplus fruit has been shipped to Vancouver with the result that possibly the finest strawberries or other similar varieties have been used for one or two or even three days after its arrival. The effect was always a shrinkage or a depreciation in the commercial value of the fruit. This has been a grievance to the Fruit Growers' Association, and after looking into the matter thoroughly, taking into consideration all other things, the ever-increasing production, it was decided to secure machinery for a factory to obviate this difficulty and incidentally to make preparations for the constantly expanding trade.

The maximum capacity of the new plant will give employment to six hands. All small varieties of fruit will be handled, and what product cannot be sold locally will be shipped to points throughout the Northwest. Having this object in view, it is proposed to manufacture two brands of jam, the best to be known as the Crown brand. The other will be made to meet the Eastern competition. This is a policy adopted by nearly all manufacturers and it is the intention of the local Fruit Growers' Association to be prepared for whatever competition may be offered in catering to the trade of the Northwest. This business has been consistently growing.

Manager Brachery, of F. R. Stewart & Co., under whose supervision the new factory will be run, said this morning that last year the trade in the fresh fruit line surpassed that of the previous year by fully twenty-five per cent, and he expected that even a greater trade will be done during the coming season. A great many small fruit farms will be yielding another season, and the production, comparatively speaking, should be large if weather favors.

The association's new plant will be located over the wholesale establishment of F. R. Stewart & Co., Yates street. Its operation will be carried out by the Victoria Fruit Growers' Association, and it is hoped will prove the commencement of a great industry.

STEAMER FOUNDERS

Captain and Fourteen Men Are Missing—Part of the Crew Safe.

(Associated Press.)
London, Nov. 14.—The British steamer Bavarian, bound from Barry for Bordeaux, has been lost off Belle Isle, France.

Part of her crew has been landed at Noirmoutier.

The captain and fourteen men are missing.

The steamer was owned by D. Scott & Sons, of Dundee.

NAVAL EMPLOYEES STRIKE

Thousands of Men at French Dockyards Have Quit Work.

(Associated Press.)
Paris, Nov. 14.—The strike of government employees at the dockyards began to-day at the principal ports. At the coast town of Cherbourg, the arsenal, 2,000 workmen of the arsenal, carrying off flags, made a demonstration and 2,500 arsenal workers struck at Rochefort. At Brest the strikers comprised only a small percentage of the arsenal force owing to a manifesto having been issued by the directors of marine assuring the workers that their just demands will receive consideration.

ACTIVITY IN THE GOLDEN CASSIAR

A MINING OPERATOR BACK FROM INTERIOR

Tells of Hydraulic Companies at Work Near Dease Creek—A Sportsman's Paradise.

The Cassiar is an immense tract of country rich in mineral and abounding in big game of all varieties, enthusiastically stated E. B. Hart, who arrived from that section this morning. He added that the prospecting done so far, figuratively speaking, merely amounted to the scratching of the surface and that future development would discover hidden wealth as yet undreamed of. Mr. Hart has taken a prominent part in the mining operations of the Cassiar district during the past several months, having gone into the interior over the ice last February, a journey which he describes as trying and very tedious. He announces that the various hydraulic companies, which have worked through the summer, report satisfactory results. What the total cleanup was is not generally known, the directors of the various concerns preferring to keep such matters secret.

Three large companies, Mr. Hart says, have operated during the summer, continuing next year, the Berry Creek Mining Company, the Rosella Creek Mining Company and a dredging concern located on Dease creek. The former, it is understood, made quite a large cleanup, their plant having been in thorough repair at the first of the season, thus enabling them to continue work without interruption. With the latter, however, the conditions were different. The Rosella company's plant was not ready and considerable time was consumed in preparing it, while the same unfortunate circumstance prevented the dredging company from doing as much as its management would have liked. However, both Mr. Hart says, are determined to pursue an aggressive policy next season, and the latter is expected to be much more active than has heretofore been the case.

Discussing the relative richness of the various creeks, Mr. Hart expressed the opinion that the yield of gold from Dease and Yellow creeks was largely in the form of nuggets, and more than 50 per cent of the gold was in nuggets. He looked forward to the opening up of several new properties with the advent of the forthcoming spring. In speaking to-day of mining operations in the North during the past season, Mr. Blackwood stated that two very large dredges have gone into the country this year. One, the Bear creek dredge, is a 250-horsepower machine which is operated by a company which is owned by Col. Williams and his associates. The Bear creek dredge was run about two months before the frost interfered with operations, and its average cleanup for the season was 24 tons with two shifts of seven men each. The other is the Klondike dredge, which is now mixed up bodily in litigation, but it is expected that it will be ready to work in the Yukon country.

The Bonanza creek dredge was finished too late to be operated this year, but in the early spring will commence operations. It is a 250-horsepower machine, which is really in Dawson, and will work the ground from there to where the Bonanza comes into the Yukon. The company owning the machine claim that they have ground sufficient to keep it going for 14 years, and an estimate from this, said Mr. Blackwood, what an enormous proposition this dredger business in the Yukon will soon become. On account of the success of the Bear creek dredge three more have been ordered for the coming year, and it is expected that in time there will be 25 dredges working in the Yukon country.

The dredges cost big money to build. The Bear creek machine cost \$250,000 and the Bonanza machine \$150,000, but this big expenditure is soon made up by the economical working of the dredges and by the enormous amount of ground which they can go over in the course of a season. The dredges are built on the bucket principle. Each bucket weighs 1,700 pounds, and is made of Harvel steel, as they dip into the river bed they scoop up a big quantity of gravel. This is emptied into what is called the "grizzer," which simply separates the coarse from the fine gravel. In this process the valuable portion is preserved, and is then handled through the sluice-boxes, with which silver can be obtained from the gold. The great advantage of the dredges is that they can work in very little water.

Mr. Blackwood reports that during the past year the White Pass & Yukon Railway Company handled 25,000 tons of freight, which is about 3,000 tons more than was carried over their system last year. This is no doubt due, said Mr. Blackwood, to a good deal of Fairbanks freight being shipped by way of Dawson, and the transportation in the North. They are building barges 100 by 40 feet, which carry as much as 350 tons on a draught of 30 inches. These barges are pushed down the river by means of the company's powerful steamers. They are easily taken back, for when light they draw no more than six or seven inches.

Mr. Blackwood says that the future for the Windy Arm district, of which considerable has recently been published, is very bright.

THRILLING EXPERIENCE

Of Two American Women Who Made Balloon Ascent.

(Associated Press.)
New York, Nov. 14.—A cable dispatch to the Herald from Paris says: "Two American women, whose names are withheld for the present, had a thrilling voyage in a balloon piloted by a noted Parisian aeronaut, M. Jacques Faure. The ascent was made on Saturday, and no sooner had the balloon risen when the wind freshened and was soon blowing a hurricane. The balloon was hurried along at a hundred knots an hour, and was along over the department of the Pas de Calais at midnight. As the country is flat and almost bare there was every prospect that the balloon would be carried out to sea—just before arriving at the coast Faure saw a line of trees and pulled open the valves. The balloon caught the natural barrier with a jolt that threw the occupants to the ground. No one, however, was seriously injured, but the balloon was damaged. One hundred and ninety-two kilometers (120 miles) had been covered in an hour and forty-five minutes."

DREDGE'S ADVENT IN THE FAR NORTH

EXPERIMENTS HAVE PROVED SUCCESSFUL

The First Operated Cleared Up Four Thousand Dollars Every Twenty-Four Hours.

"There are hundreds of millions to be taken out of the Yukon country if not only find means to obtain the gold," said E. B. Blackwood, the local agent of the Northern Pacific railway, who returned from the North a few weeks ago. Mr. Blackwood's statement is based on the success of the big gold dredges, which have been introduced into the country, and which in one instance has demonstrated that these plants will revolutionize the mining operations of the Far North, paying even to a greater extent than the hydraulic works already tried.

In speaking to-day of mining operations in the North during the past season, Mr. Blackwood stated that two very large dredges have gone into the country this year. One, the Bear creek dredge, is a 250-horsepower machine which is operated by a company which is owned by Col. Williams and his associates. The Bear creek dredge was run about two months before the frost interfered with operations, and its average cleanup for the season was 24 tons with two shifts of seven men each. The other is the Klondike dredge, which is now mixed up bodily in litigation, but it is expected that it will be ready to work in the Yukon country.

The Bonanza creek dredge was finished too late to be operated this year, but in the early spring will commence operations. It is a 250-horsepower machine, which is really in Dawson, and will work the ground from there to where the Bonanza comes into the Yukon. The company owning the machine claim that they have ground sufficient to keep it going for 14 years, and an estimate from this, said Mr. Blackwood, what an enormous proposition this dredger business in the Yukon will soon become. On account of the success of the Bear creek dredge three more have been ordered for the coming year, and it is expected that in time there will be 25 dredges working in the Yukon country.

The dredges cost big money to build. The Bear creek machine cost \$250,000 and the Bonanza machine \$150,000, but this big expenditure is soon made up by the economical working of the dredges and by the enormous amount of ground which they can go over in the course of a season. The dredges are built on the bucket principle. Each bucket weighs 1,700 pounds, and is made of Harvel steel, as they dip into the river bed they scoop up a big quantity of gravel. This is emptied into what is called the "grizzer," which simply separates the coarse from the fine gravel. In this process the valuable portion is preserved, and is then handled through the sluice-boxes, with which silver can be obtained from the gold. The great advantage of the dredges is that they can work in very little water.

Mr. Blackwood reports that during the past year the White Pass & Yukon Railway Company handled 25,000 tons of freight, which is about 3,000 tons more than was carried over their system last year. This is no doubt due, said Mr. Blackwood, to a good deal of Fairbanks freight being shipped by way of Dawson, and the transportation in the North. They are building barges 100 by 40 feet, which carry as much as 350 tons on a draught of 30 inches. These barges are pushed down the river by means of the company's powerful steamers. They are easily taken back, for when light they draw no more than six or seven inches.

Mr. Blackwood says that the future for the Windy Arm district, of which considerable has recently been published, is very bright.

TRUSTEES WANT PRINCIPAL'S HEAD

DECIDED TO D'SMISS MISS A. D. CAMERON

They Passed Resolution to that Effect at Meeting Yesterday Afternoon—The Correspondence.

The dispute over the South Park drawing award, which has created no little stir in local educational circles for some time, has reached a head. Yesterday afternoon at a special meeting of the board of trustees decided to officially denounce the principal of the school in question and a resolution to that effect was passed. Under the act the dismissal of a teacher requires thirty days' notice and the assignment of a reason. The resolution specifies the day on which Miss Cameron must sign her swan song as the fifteenth of December, and assigns as a reason her failure to surrender to the board the affidavits taken from South Park pupils at the last high school entrance examination, and in accordance with report to request you to forward to me immediately the affidavits obtained by you from the pupils in regard to the matter. The copy of the report is enclosed herewith and in obedience to my instructions I must ask you to send me the affidavits in question without delay.

Yours sincerely,
F. H. EATON,
Secretary-Treasurer.

Miss Cameron's reply was as follows:
Victoria, B. C., Nov. 12th, 1905.
F. H. Eaton, Esq., Secy. School Board,
City.

Dear Sir:—I have to acknowledge receipt of your communication enclosing copy of a report signed by the members of the board re drawing marks awarded South Park pupils at recent entrance examination, and to note your intimation in the same. No affidavits were taken on my behalf. Any that were taken were taken on behalf of the children. I have no affidavits in my possession.

I have the honor to be,
Very sincerely yours,
AGNES DEANS CAMERON.

The foregoing action of the board is, consequently, the latest development in the matter. This morning Miss Cameron had not received her notification and was therefore not in a position to discuss the matter, but she doubtless has by this time. Just what action she will take it is impossible to conjecture, but it is fairly safe to predict a "high time" before the fifteenth of December.

IT IS UP TO KROUSE.

Trustee Lawyer Must Move to Keep Out of Jail.

As Victorians continue to manifest interest in the Collins case, the latest development as reported by the San Francisco Chronicle on Saturday last will be worth reading. The account says:

"Judge Frank H. Dunne yesterday decided that H. A. Krouse, who sought to push himself into the matrimonial case of Mrs. Charlotte Collins against her husband, George D. Collins, as attorney for Mrs. Collins, will have to secure a writ of habeas corpus from the Supreme court before noon to-day, or go to jail for five days, in default of his \$100 fine imposed by Judge Graham for contempt of court.

"Last week Judge Graham began an investigation into the reasons why Krouse was so anxious to force himself into the case as attorney for Mrs. Collins. After first representing Mrs. Collins, charged Krouse with acting in the interests of Collins, and a few inquiries by the judge quickly established the truth of this statement. During the examination of Mrs. Collins by Judge Graham, Krouse was frequently on his feet with objections to the questions of the judge, and finally because so insulting that the court was obliged to remove him several times that he was overstepping the bounds of courtesy. At the conclusion of the hearing Judge Graham ordered that he would fine him \$100, with the alternative of five days in the county jail. The attorney offered to apologize for the tone of his words, but not for the words themselves, and was thereupon removed to the custody of the sheriff until the fine was paid.

"Upon the appeal of Krouse to Judge Dunne the latter issued a writ of habeas corpus, which was made returnable yesterday morning. After considerable argument yesterday Judge Dunne ordered that the writ be dismissed, and gave Krouse until this noon to appeal to the Supreme court."

The budget for the year beginning July next has been submitted by President Palma to the Yukon council. It estimates the receipts at \$22,000,000 and the expenses at \$21,500,000.

The attorney offered to apologize for the tone of his words, but not for the words themselves, and was thereupon removed to the custody of the sheriff until the fine was paid.

"Upon the appeal of Krouse to Judge Dunne the latter issued a writ of habeas corpus, which was made returnable yesterday morning. After considerable argument yesterday Judge Dunne ordered that the writ be dismissed, and gave Krouse until this noon to appeal to the Supreme court."

The budget for the year beginning July next has been submitted by President Palma to the Yukon council. It estimates the receipts at \$22,000,000 and the expenses at \$21,500,000.

TRUSTEES WANT PRINCIPAL'S HEAD

DECIDED TO D'SMISS MISS A. D. CAMERON

They Passed Resolution to that Effect at Meeting Yesterday Afternoon—The Correspondence.

The dispute over the South Park drawing award, which has created no little stir in local educational circles for some time, has reached a head. Yesterday afternoon at a special meeting of the board of trustees decided to officially denounce the principal of the school in question and a resolution to that effect was passed. Under the act the dismissal of a teacher requires thirty days' notice and the assignment of a reason. The resolution specifies the day on which Miss Cameron must sign her swan song as the fifteenth of December, and assigns as a reason her failure to surrender to the board the affidavits taken from South Park pupils at the last high school entrance examination, and in accordance with report to request you to forward to me immediately the affidavits obtained by you from the pupils in regard to the matter. The copy of the report is enclosed herewith and in obedience to my instructions I must ask you to send me the affidavits in question without delay.

Yours sincerely,
F. H. EATON,
Secretary-Treasurer.

Miss Cameron's reply was as follows:
Victoria, B. C., Nov. 12th, 1905.
F. H. Eaton, Esq., Secy. School Board,
City.

Dear Sir:—I have to acknowledge receipt of your communication enclosing copy of a report signed by the members of the board re drawing marks awarded South Park pupils at recent entrance examination, and to note your intimation in the same. No affidavits were taken on my behalf. Any that were taken were taken on behalf of the children. I have no affidavits in my possession.

I have the honor to be,
Very sincerely yours,
AGNES DEANS CAMERON.

The foregoing action of the board is, consequently, the latest development in the matter. This morning Miss Cameron had not received her notification and was therefore not in a position to discuss the matter, but she doubtless has by this time. Just what action she will take it is impossible to conjecture, but it is fairly safe to predict a "high time" before the fifteenth of December.

IT IS UP TO KROUSE.

Trustee Lawyer Must Move to Keep Out of Jail.

As Victorians continue to manifest interest in the Collins case, the latest development as reported by the San Francisco Chronicle on Saturday last will be worth reading. The account says:

"Judge Frank H. Dunne yesterday decided that H. A. Krouse, who sought to push himself into the matrimonial case of Mrs. Charlotte Collins against her husband, George D. Collins, as attorney for Mrs. Collins, will have to secure a writ of habeas corpus from the Supreme court before noon to-day, or go to jail for five days, in default of his \$100 fine imposed by Judge Graham for contempt of court.

"Last week Judge Graham began an investigation into the reasons why Krouse was so anxious to force himself into the case as attorney for Mrs. Collins. After first representing Mrs. Collins, charged Krouse with acting in the interests of Collins, and a few inquiries by the judge quickly established the truth of this statement. During the examination of Mrs. Collins by Judge Graham, Krouse was frequently on his feet with objections to the questions of the judge, and finally because so insulting that the court was obliged to remove him several times that he was overstepping the bounds of courtesy. At the conclusion of the hearing Judge Graham ordered that he would fine him \$100, with the alternative of five days in the county jail. The attorney offered to apologize for the tone of his words, but not for the words themselves, and was thereupon removed to the custody of the sheriff until the fine was paid.

"Upon the appeal of Krouse to Judge Dunne the latter issued a writ of habeas corpus, which was made returnable yesterday morning. After considerable argument yesterday Judge Dunne ordered that the writ be dismissed, and gave Krouse until this noon to appeal to the Supreme court."

The budget for the year beginning July next has been submitted by President Palma to the Yukon council. It estimates the receipts at \$22,000,000 and the expenses at \$21,500,000.

POLAND'S STRUGGLE FOR INDEPENDENCE MEASURES ADOPTED TO SUPPRESS MOVEMENT Six Hundred Thousand Troops Ready to Cope With Situation—Appeal to Peasants.

St. Petersburg, Nov. 13.—The formal proclamation of martial law throughout Poland and the promulgation of the government's intention to suppress the Polish movement to secure autonomy almost created a panic in the bourse today, Imperial forces falling to 86. Industrialists seem to have no bottom. Private and reliable reports from Warsaw today say that all the parties there are following the tactics of Finland for complete independence.

It is generally believed here that Germany and Austria have given Russia assurances of support, but of what nature cannot be learned. The present movement in Poland certainly will not receive the sympathy of the governments beyond the western border. Under ordinary circumstances the Russians would probably sympathize with the Polish movement.

The danger is that the Poles may provoke an active movement for autonomy which would mean nothing short of civil war. The number of troops, 600,000, however, in Poland, is sufficient to cope with the situation. The government has decided to make an appeal to the peasants and the Emperor has approved a measure informing them that measures for the amelioration of their conditions will receive immediate consideration.

The danger of the spread of the agrarian movement contributed largely to the government's decision. The league of leagues has adopted a resolution condemning the proclamation of martial law in Poland as an illegal measure adopted against the Polish emancipation movement. The fears of a wholesale massacre of Jews by the "Black Hundred" have not entirely disappeared, although the strictest precautions have been taken against possible outbreaks.

Two Boys Drowned in Lake at Stony Plain Went Through Ice When Chasing Musk-rats—Montreal Hardware Dealer Electrocuted—Girl's Suicide.

Edmonton, Nov. 13.—Two young sons of C. Herring, a farmer at Stony Plain Centre, were drowned while chasing muskrats over the ice on a lake. Instantly Killed.

Montreal, Nov. 13.—Joseph J. Paquette, a hardware dealer, was killed in his store on St. Lawrence street on Saturday night by an electric shock. He was looking for some stovepipe for a customer, and it was necessary for him to use an electric lamp that had a long regulation non-conducting wire attached.

Humboldt, Sask., Nov. 13.—Mrs. Talbot was fatally wounded on Sunday while attempting to rescue a pet dog from a muskrat. She took a small rifle and while hitting the rat with the butt end the charge exploded, the bullet lodging in her abdomen. She died a few minutes later.

Toronto, Nov. 13.—McOll street synagogue was jammed to the doors yesterday afternoon and hundreds turned away, the occasion being a meeting to protest against the persecution of the Jews in Russia.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Nov. 14, 5 p. m.—There has not been much change during the last 24 hours in pressure conditions; it is still high over the North Pacific states and the southern part of the province, but the passage of an ocean low area has caused unsettled and rainy weather on Vancouver Island, the Lower Mainland and in Carleton. The weather is unusually mild on the coast, but much colder inland in the American plateau districts. In the Middle West prevails a storm area of considerable force is central in Manitoba, little rain has fallen, and the weather is chiefly fair and moderately warm in Alberta and Saskatchewan, but much colder in Manitoba.

Forecasts.
For 24 hours ending 5 p. m. Wednesday, Victoria and vicinity—Easterly winds, unsettled and mild, with rain and fog.
Lower Mainland—Easterly winds, unsettled and mild, with rain and fog.
Reports.

Victoria.—Barometer, 30.1; temperature, 48; minimum, 48; wind, 8 miles E.; rain, .07; weather, cloudy.
New Westminster.—Barometer, 30.0; temperature, 48; minimum, 46; wind, 4 miles E.; rain, .18; weather, cloudy.
Nanaimo.—Wind, calm; weather, cloudy.
Nanaimo.—Barometer, 30.16; temperature, 39; minimum, 33; wind, calm; weather, cloudy.

IN THE SOCIETY COLUMNS.

"I am reading from the society column of my newspaper," he observed as he glanced up over his glasses. "Mrs. W. Hiddle Barton, Jr.—Thin white mail, with locks of Irish point, sleeves puffed to the elbow, high satin bodice, white chip hat, parasol, appliqued with bow knots." Katherine Medford (read to be Medford) "Catharine Hagan, embroidered with blue, Napoleon hat, pale blue chiffon veil."
"There's a string of them longer than my arm, but that's enough to give you the idea."
"I was thinking that men escape some things that women have to endure, although I don't know that men deserve to escape anything; and I'm by no means sure that women object to descriptions of this kind, which turn them loose like so many tags figures tagged with their names."
"But I've a notion that you and I would rebel if we saw ourselves in print morning after morning pictured in this fashion: J. Thomas Kelder—Yellow flannels floppy around the hips, detached cuffs with amethyst links, large yellow diamond in bosom of plaited and unadorned shirt, affogator shirt belt." B. Schenckmohr—Gilded hat with dusky trim, plaid, pumps."
"Wouldn't that drive you to a job that would make you take your dinner post with you and hold you to it till after dark? You don't mind if you get before the public because you've broken a leg, or been defeated for office, or watered a big block of stock; but if it came to losing your identity in your clothes seven days out of seven, as if you were making a hit in a parade of antiquities and horrors, you'd quit social functions and go to work."—Providence Journal.

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health. Sold for sixty years. We have no secrets! We publish the formula of all our medicines.

For the Children

The following officers were elected for the ensuing year: Hon. president, His Excellency, Earl Grey, Governor-General of Canada; president, Dr. S. J. Tanstall, re-elected; hon. vice-presidents, Lt. Col. Falk-Warren, Lt. Col. Valnie, Wright, Lt. Col. Barwick, Lt. Col. Townley, Lt. Col. Tracy; vice-president, Lt. Col. Worsnip, re-elected; secretary, treasurer, James Sisk, re-elected; executive committee, H. Shelton, O. L. Spencer, H. T. Thrift, H. Hewke and W. Pedler. After transacting several routine matters the meeting adjourned.

CRANBROOK.

A lumberman named Hector Taurie, son of J. E. Tourigny, of Wales, was assailed quite suddenly from behind while engaged in erecting a tent at Bryckecroft and Lund's lumber camp at Bayard creek about eight miles west of Marysville. Alex. Moffatt went up to investigate the case, but did not find the medical evidence was sufficient as the medical evidence was sufficient. The deceased was about 45 years of age.

His Honor Peter E. Wilson, County Court Judge for the East Kootenay district, sat on Tuesday in the Masonic hall to dispose of the criminal and general business of the county. T. M. McKee, who pleaded guilty to stealing a quantity of jewellery from W. H. Wilson, came up for sentence. His Honor, in passing sentence commented on the previous good name of McKee, his youth and on the fact that the harm done had been made good as far as that was possible. He said he could send him to prison for 14 years, but having taken all things into consideration he would sentence him to five months' imprisonment. McKee has been in custody since October 5th.

GRAND FORKS.

The request of the employees of the Granby smelter for three shifts of eight hours, instead of the present system of two twelve hour shifts, which was rejected by Superintendent Hodges some time ago and forwarded to the directors of the company, has been finally dealt with by that body. Word has been received that the company will consent to a change to three eight hour shifts provided that a reduction of ten per cent. in wages also takes place. It is understood that the smelter employees will bring the matter before the local labor union to be dealt with by that body immediately.

A quiet wedding took place here Wednesday at the residence of Mayor Hamner, the contracting parties being Christopher Conchlin, an employee of P. B. & Co., of Greenwood, and Miss Eva Henderson of this place. The ceremony was performed by Rev. Mr. Manly. The newly married couple left immediately after the ceremony for Greenwood, where they will make their future home.

PHOENIX.

Superintendent A. B. W. Hodges of the Granby company has placed orders for a large amount of machinery which will be used in connection with the headworks of the new three compartment shaft that will eventually be the main working shaft at the mine. Other and additional orders will also shortly be given for the balances of the equipment. An order was placed with the Jencks Machine Company of Sherbrooke, Que., for a third ore crusher, being similar to the two machines now in use at the mines of the company, with some improvements. It is what is known as a Blake & Black Purgill crusher, and will be like the others now in commission, a massive and rugged piece of machinery. It will have jaws with an opening that will take in a piece of rock 32x42 inches in size, be capable of crushing it to a size of eight or nine inches, and is rated at a capacity of 150 tons an hour or 3,000 tons per day, if operated at full time. An order was also placed with the Canadian Westinghouse Company for a 250 horse power electric motor, with accessories and it will be used for furnishing power for hoisting heavy loads from a depth of 1,000 feet. The headworks of the new shaft will, as stated by Manager Graves some time ago, represent, with the shaft itself, an investment of about \$100,000.

NELSON.

The Daily News says: "Some time ago The News reported that Minnesota parties were negotiating for the purchase of the Nelson & Fort Sheppard railway lands, with a view to opening them for settlement. This deal has been consummated and some of the Minnesota capitalists interested have been spending a few days here and in the vicinity inspecting their vast estate. The total acreage acquired by the Minnesota syndicate is 453,000 acres. Of this area it is not anticipated that even a moiety will prove suitable for agricultural or horticultural purposes, but a considerable extent of it is known to be fit for settlement and at as early an opportunity as possible active steps will be taken to classify the lands, cut them up into suitable blocks and dispose of them to settlers. The gentlemen chiefly interested in this deal are Messrs. J. A. Nowell, of St. Paul, H. L. Simmons, of Glenwood, Minn., and M. S. Rutherford, of Princeton, Minn. These gentlemen have had a great deal of experience in the settlement of lands. They thoroughly understand that end of the business and express entire confidence in their ability to secure all the settlers of the right kind the extent of suitable land at their disposal will necessitate. A. W. McVittie, the well-known surveyor of Cranbrook, will have charge of the work of classifying the lands, and he expects to get busy on this work early in the coming spring. Before returning east Mr. Rutherford will visit Victoria to arrange with the government for the payment of outstanding taxes on the lands. Mr. Rutherford is one of the owners of the Kaslo & Slokan railway land grant, an area of some 114,000 acres, and it is quite likely that the syndicate handling the N. F. & S. grant will acquire this also. Mr. Nowell spoke very hopefully of the scheme he is now interested in. He believes that the Kootenay district offers exceptional opportunities for the right kind of settlers and he intends to make it his business to see that the right kind are induced to settle on the syndicate's lands."

Establishes the Standard

The Oriental Limited of the Great Northern Railway, a Marvel in Train Equipment.

The hardships and deprivations of an overland trip in the early days of the Northwest are known to all who read in this early day a trip across America meant tenfold the danger that a trip around the world means today. What wonderful changes have been wrought and what was considered a hardship fifty years ago, which few could combat, is today a pleasurable pastime—something to anticipate, something to delight in. Immense improvements have been made in the Great Northern Pacific, the Oriental Limited. The fact must be considered that in undertaking a journey of several thousand miles the ease and comfort with which it can be accomplished is a first consideration. In the contemplation of a journey the traveler selects that means of transportation which affords him the quickest, easiest and most comfortable trip. It is no exaggeration to state that the "Oriental Limited" is a first consideration. In the contemplation of a journey the traveler selects that means of transportation which affords him the quickest, easiest and most comfortable trip. It is no exaggeration to state that the "Oriental Limited" is a first consideration. In the contemplation of a journey the traveler selects that means of transportation which affords him the quickest, easiest and most comfortable trip. It is no exaggeration to state that the "Oriental Limited" is a first consideration.

"The Oriental Limited" is made up of a locomotive of the most advanced and powerful type, elegant day coaches, seating 84 people; new tourist sleepers, which have such a feature of the Great Northern overland trains; new dining cars; palace sleeping cars; and what is a decided innovation in transcontinental train equipment, a compartment observation library car. These cars are the first of their kind to be used on transcontinental railways. They are the embodiment of comfort and convenience and typify the height of inventive genius in train equipment. Few people realize the care bestowed, the complicated, smoothly working mechanism which makes the whole a thing of beauty and perfection in the art of transportation. The Oriental Limited is made up of a locomotive of the most advanced and powerful type, elegant day coaches, seating 84 people; new tourist sleepers, which have such a feature of the Great Northern overland trains; new dining cars; palace sleeping cars; and what is a decided innovation in transcontinental train equipment, a compartment observation library car.

Luxurious in appointment, well high perfect in mechanical construction, complete in every detail from headlight to rear end lantern, there is nothing left to be desired. The operating force will be an appeal to the passenger for the selection of the attaches from conductor to porter is made with a view to their adaptability. The plating in service of "The Oriental Limited" has been done with a view not only to retain travel but create it. That this is accomplished is an assured fact to any one whose pleasure it is to make a journey across the continent on America's most comfortable overland train.

Send the bride something in china. There is nothing you can buy for a modest sum, that carries with it the power of attraction and the evidence of good taste—as does a bit of china—glass. So many small priced things are artistic. Try to think of anything else for say, a couple of dollars, that is suitable for a wedding present, and you must confess they are either insignificant or coarse. Make it even five dollars—almost the same result. Come in and see what our new fall or winter goods are like. You'll say they're marvelous. We think they're great ourselves. Welles Bros.

The St. Petersburg correspondent of the London Daily Mail says that 24,000 Georgians, armed with modern rifles, hold Georgia in Transcaucasia despite the three important Russian forces converging thereon, and that, except for runners, Georgia has been isolated for many days.

MAY ASK A RENT FOR THE MARKET

PROPOSAL MADE AT MEETING LAST NIGHT

Mayor Bernard Thinks Relations Between V. & S. and the City Should Be Considered.

Probably the most interesting subject mentioned under the heading of business at the meeting of the city council last evening was that referring to the Victoria & Sidney railway, in so far as it affects the city. At the conclusion of the regular routine Ald. Hanna said that the residents on the north side of Esplanade street had been complaining about the cinders from the company's locomotives. He thought that the council should take some action in the matter.

His Worship the Mayor said that some time ago he had spoken to Manager Van Sant about the question, but had obtained very little satisfaction. Mr. Van Sant had informed him that every possible means had been taken to prevent fire. The company was liable to the extent of \$5,000 in case of fire, but His Worship did not think that there was much satisfaction in this for the public. In his opinion the rolling equipment was poor, and it was about time for the city to inquire into the company's relations with the city—into the matter of street repairs and into that pertaining to the market building.

Ald. Fell asked if it would not bring the whole question to a head if the city served notice that the corporation was going to charge rent for the building. His Worship replied that he thought it would, and then the subject dropped.

F. C. Gamble, of the public works department, wrote respecting the improvement of Burdette road, stating that the provincial government is willing to do its share of the work. Referred to the streets, bridges and sewers committee.

An invitation was received from St. Mary's church to a bazaar, to be given in aid of that edifice. The bazaar will be held in Institute hall, commencing on Wednesday evening.

Harry Earle, of the sergeants' mess, Fifth Regiment, forwarded the resolution published in this paper respecting the disfranchising of the members of the Fifth Regiment.

Ald. Oddy moved that the communication be referred to the city solicitor to report on the effect of the amendment. If it was true that the millwrights were disfranchised—something should be done towards restoring this right.

Ald. Fell considered that the regulation only went to show the danger of members working under a private association.

The city engineer and building inspector reported that they had ascertained that the cost of the work under by-law 149 had been \$498 less than had been contemplated in the original schedule. This will be returned according to the value of the property assessed. The report was adopted.

Frank W. Greaves et al petitioned for a box drain on Sixth street. Referred to the city engineer.

Residents of Lylla street were asking for improvements to that thoroughfare. Referred to the city engineer for report.

The finance committee reported accounts totalling \$6,347. The report was carried.

His appropriation of \$1,000 to H. Knott, contractor for the Home of Aged and Infirm, was voted.

Ald. Fell's motion respecting the commencement of the work on the Bideaux Walk extension was laid over until next week.

Permanent Sidewalk Construction Local Improvement By-law 1905.

The by-law to amend the Local Improvement By-law No. 283 was read and introduced. This by-law was considered in committee, read a third time and passed. After the discussion above mentioned respecting the Victoria & Sidney railway, the meeting adjourned to meet again on Thursday.

Seven-year-old Elsie Jones on returning from school to her home in South Seranton, Pa., found her father and mother lying dead on the kitchen floor. The mother had been shot in both eyes and the father in the left temple. A .38-calibre revolver was clutched in the father's right hand. It is believed the shooting was done by the father, Frank Jones. Four years ago he and his wife were separated, but they became reconciled soon afterwards and have been living together ever since.

The Shanghai correspondent of the London Morning Post reports that blood has been shed in an insurrection at Vladivostok and that foreign residents there are asking for warships for their protection.

A GOOD MOTTO. In life insurance the first requisite is safety. The Imperial Life has realized this fact, as witness its motto, "First and Paramount, Absolute Security to Policyholders." Its government deposits are five times the amount required by law. S. P. Saunders, Victoria, Manager for Vancouver Island.

TEACHER AND SCHOOL BOARD.

"Discipline must be maintained," Dickens's old soldier always explained after he had obtained the opinion of his wife...

The fact that impresses us most forcibly in connection with this extremely controversial subject of examination papers is the difference of spirit exhibited by the Victoria and Vancouver authorities in disposing of the matter.

BEARING FALSE WITNESS.

A few days ago we were treated to a masterly dissertation, bristling with points and barbs of indignation, on the iniquity of bearing false witness against that administration of all the virtues and unexampled industry and unexcelled natural capacity, the McBride government.

What do we find in the columns of this journalistic embodiment of all the prophecies and fountain of all wisdom respecting better terms this morning?

"We have in the election campaign in North York the anomalous spectacle of a member of the Ottawa government condemning a measure which was introduced by it, and for the passage of which it was responsible.

commission, some coherent and effective plan will be framed, which will meet with the approval of the authorities on both sides of the line, and which will be followed by legislation which really will preserve the sockeye fishery from threatened extinction.

IS THERE A NIGGER IN THE FENCE? To the Editor:—The letters of "Areturus" and "Hatepayer" are most interesting and contain much food for thought, and should bring home to citizens at large the necessity of seeing that the board of aldermen ascertain distinctly and definitely, before proceeding further, the true meaning and inwardness of the secret contract.

The Seattle Post-Intelligencer expresses the hope that, as a result of the deliberations of the international fisheries

For the next six Weeks the Carpet Department will be found on 3rd floor

THE AMESBURY TRAGEDY.

"I am completely worn out with worry and reverse," was one of the written statements left by the man Robert Head, who murdered his six children at Amesbury, in Wiltshire, and then committed suicide.

The tragedy is full of pathos, as the circumstances related at the inquest will show. The father, Robert Head, was stated to be 47 years of age, and the names and ages of the children were given as follows: Wilfred Grace, 10; Florence Ellen, 7; William Robert, 6; Peter, 4; Alfred, 2 years, and Frederick George, 9 months.

The coroner having briefly referred to the terrible nature of the tragedy and to the fact that Head's wife was quite unable to attend the inquiry, evidence of identification was given by Albert Edward Kingsley, Portsmouth, Head's brother-in-law.

The discovery of the bodies was described, and it was stated that the youngest boy was blindfolded with a handkerchief, Head's body was only partially dressed, and his jacket and waistcoat had apparently been carelessly placed on the ground with his hat on top of them.

RELIEF FOR TOOTHACHE. Wonderful, when you consider what awful pain that tiny nerve causes. Bathe the gums with Nerville, and plug the cavity with cotton wool saturated with Nerville. This brings instant cure. Nothing so prompt, nothing so extraordinary good for any kind of nerve-pain as Polson's Nerville. Get a 25c bottle; it will save a doctor's bill some day.

GENERAL BOOTH.

The Hon. Walter James, K. C., agent-general for Western Australia, informed a News representative that Gen. Booth had already taken up 20,000 acres in Western Australia for emigration purposes on a valuation of only 8s. per acre, but he had no doubt that if the general was prepared to take up another 20,000 acres, or ten times that quantity, for emigrants of a suitable class the government would be prepared to meet him.

"Western Australia," he said, "is doing as much as any country in the world, and more than most, to people her lands with agriculturists. That was the policy of the late ministry, and it is the policy of the ministry which has just come into power. I have here a cable message giving an outline of the policy of the new Premier (the Hon. C. H. Ross), one of the principal planks of which is to still further encourage the immigration of agriculturists, and another plank is the construction of light lines of railway to the agricultural districts."

"You may have noticed in the recent report of the Western Australian royal commission on immigration that it laid down the principle that the aim of the state should be to provide that 'All cultivable areas of agricultural land must have a 15-mile railway service.' I venture to say that no new country in the world has set itself a higher standard of agricultural development than the pinning of its settlers within fifteen miles of railway communication. Of course, the railways have yet to be extended into some of the districts that have been more recently opened up, but the light line policy of the Premier shows that the new government is very much in earnest in pushing forward settlement and rapid railway construction at the same time."

"Mr. James explained that the reports of the responsible officials of the lands department showed that in one section alone there were in the hands of the state 2,253,000 acres suitable for agricultural purposes, and in another section 869,000 acres of state-owned lands, a large proportion of which is, officially reported to be 'highly suitable for dairy-land and root and tuber production.'"

"If General Booth can send 1,000 agricultural families to Western Australia, they can," said Mr. James, "under the ordinary terms set reduced passages by the Orient Company's royal mail line and 100 acres free—or 100,000 acres altogether for nothing. If they want larger holdings, they can select some of the finest agricultural land in the world for 10s. per acre, payable in 20 annual instalments. And this, too, in a climate where, as the state meteorological returns show, it rains while the crops are growing, is fine while they are being harvested, and is never too hot or too cold to work in the fields in midsummer or midwinter."

Sudden Sickness Demands immediate attention. Summon your physician at once.

OPEN ALL NIGHT. Cyrus H. Bowes, CHEMIST, 28 Government St., Near Yates St.

For solid comfort, travel by the Northern Pacific's swell train, "The North Coast Limited."

A meeting of the Poultry and Pet Stock Association will be held at 8 o'clock to-night in the city hall.

An important meeting of the board of directors of the Provincial Hospital will be held on Thursday evening, the 10th inst., commencing at 8 o'clock at the board of trade rooms.

Clifford Cameron, son of C. N. Cameron, met with a painful accident on Saturday, as a result of which he is now in the St. Joseph's hospital.

The Rossland Miner has been sold to Wm. K. Edging, of Tacoma, who has been identified with newspaper work in Southern British Columbia for the last ten years.

At the Gospel hall, formerly the old Temperance hall, Pandora street, services are being conducted nightly at 8 o'clock by Wm. Rae, of Winnipeg, J. D. McFadden, of Vancouver, Christians of all denominations are specially invited to attend these meetings.

F. Kermody, curator of the provincial museum, leaves to-night on a trip to collect specimens in the Fraser River valley. The specimens of Stone's sheep from Telegraph Creek, recently presented to the museum, were killed and donated by Clifford Little, of C. W. D. Clifford, M. P., as previously mentioned.

As a result of the request published in the Times a few days ago, the manager of the Seamen's Institute hereby begs to tender his special thanks to Mrs. M. Vigor for her kind and ready response to the same by sending for the use of the institute a roll of flannel which fills a long-felt want, and is therefore very acceptable and most gratefully received.

A number of minor cases were dealt with in the police court this morning. The list included a couple of Chinese who were charged with refusing to pay the revenue tax, Dr. Morrison, who was arraigned on a similar charge, and a liquor supplying case. Dr. Morrison's appeal, and an order was made commanding him to pay the amount due the revenue collector.

Mrs. Marr, proprietor of the Boomerang restaurant, Courthouse Alley, has reopened the premises after a complete renovation and many alterations planned by Architect Ridgway Wilson. The restaurant has been greatly improved. The bar stands in the old place, but has been greatly changed in appearance.

A very bright and interesting programme has been arranged for the concert to be given on Friday night next by the choir of the Metropolitan Methodist church. The programme will consist of glee, quartettes, duets, readings and songs, and will be given in the school-room of the church, commencing at 8 o'clock.

The funeral of Peter Avis, daughter of Mr. and Mrs. F. Peters, took place this morning from the family residence at 10.30, and at Christ Church cathedral at 11 o'clock. Services were conducted at the church and grave by the Rt. Rev. Bishop Perrin. A number of appropriate hymns were rendered by the surplised choir, among which were "There's a Friend for Little Children," and "Son of My Soul, Thine Saviour Dear." There was a large attendance and many beautiful floral tributes.

Residents in the Work estate have been troubled of late by a trio of mysterious fellows who seem to take a delight in terrorizing the younger members of that community. They operate at night, and what their object is does not appear clear.

CLARK'S CORNED BEEF. In properly cooked and cured. A revelation in taste and tenderness. SAVOY PROGRAMME. A Strong Bill is Being Presented. This Week.

A very large programme consisting of novel and original acts is on the boards at the Savoy theatre this week. Herbert Chelsey & Co. make their initial appearance at the Savoy in the most picturesque vaudeville troupe which has ever been seen at this theatre.

"Mike," said Piddling Pete, "did you hear 'dat stump speaker say de world owes us a livin'?" "Yes, but dere's no harder job on eart' dan collectin' bad debts." Washington Star.

"What is allmost, mamma?" asked the little boy of his grass-widow mother. "Allmost, my son, is de pin money a woman gets after she leaves her husband." -Yonkers Statesman.

"Can you see anything to comment in that insurance director's career?" "Well," answered the man who tries to be charitable, "he was mighty good to his family." -Washington Star.

DRUG COMPANY. Organization of the Wholesale Dealers With a Capital of \$5,000,000.

A dispatch from Ottawa says that the National Drug and Chemical Company of Canada has been incorporated, with a capital of \$5,000,000, with head office at Montreal.

The incorporation of this company has been under consideration by the interests represented for some time.

T. M. Henderson, of this city, one of those who enters the new corporation, when interviewed with reference to the subject to-day, said that there should be no cause for any alarm on the part of the retail dealers.

Mr. Henderson says there will be no disturbing of the present arrangements in connection with his home. The business will be carried on in both Victoria and Vancouver as in the past.

REMOVED OBSTRUCTIONS. Efforts of Hans Heigesen in interests of Salmon industry.

Hans Heigesen, Danish fisherman, returned last night on the Venture. He will spend the winter at his home in Metchoin, proceeding north again in the spring to resume his labors.

Mr. Heigesen inspected these obstructions and, in his opinion, they are a serious obstacle to the progress of the salmon to their natural spawning grounds.

He speaks very highly of the Bulkley valley, in which he says there are large areas of the finest kind of agricultural land. Most of the settlers this summer went in by way of Bella Coola going to the wilds of a steamer service from the Skeena.

PERSONAL. Robt. Kitson and wife of Ladner; Thomas Perkins and wife of Wainipig; Miss H. L. Smith, of Vancouver; and J. R. Maitland, of Francois, B. C., are in the city.

J. J. Downey, of Saanich; S. W. Bodley, of New Westminster; D. S. Kerfoot and Geo. A. Stone, of Vancouver; and John W. Coburn, of Ladysmith, are among those staying at the Vernon hotel.

H. A. Woods, of Toronto, and H. M. Burnett and W. Irwin, of Vancouver, are in the city. They are guests at the Drilard Hotel.

J. S. Dennis, land commissioner of the C. P. R., arrived in the city last evening.

"Mike," said Piddling Pete, "did you hear 'dat stump speaker say de world owes us a livin'?" "Yes, but dere's no harder job on eart' dan collectin' bad debts." Washington Star.

"What is allmost, mamma?" asked the little boy of his grass-widow mother. "Allmost, my son, is de pin money a woman gets after she leaves her husband." -Yonkers Statesman.

"Can you see anything to comment in that insurance director's career?" "Well," answered the man who tries to be charitable, "he was mighty good to his family." -Washington Star.

He-Kissing is a sure cure for freckles. She-I have no freckles. He-But it is a fine preventive. How are his morals? -Why, they'd gain him entrance to the best society." -Judge.

NEW NAVAL BASE. Regarding the announcement as to the intention of Britain to make a new naval base at Singapore, an official correction makes it clear that the step is one for which the Colonial, and not the Imperial, government is responsible.

The official statement says: "Negotiations have been for a long time in progress between the government of the Straits Settlements and the Singapore Sugar Company for the acquisition of properties of that company at Singapore by the colonial government.

As will be seen, the error referred to is that of substituting "government" for "colonial government." The necessary ordinance was issued by the colonial office, and Mr. Lyttelton has sanctioned the arbitration, but he has done so as a representative of the colony concerned.

The port has been growing enormously of late years in trade and importance, and it is obvious that it is more desirable for the government of the Straits Settlements to own these properties and to have complete control than for interests of such dimensions to remain in the hands of a private company.

The Naval Base Question. Asked if he suggested that there was no foundation for the statement that the Imperial government intended to make extended use of Singapore as a naval base, the gentleman in question said: "As to that I cannot venture an opinion, but I may point out that Singapore is already a fortified naval station.

But the Press Association understands that the Imperial government has long seen the importance of Singapore from a strategic point of view, and that events will prove that its importance as a naval base will be greatly enhanced in the future.

TIDE TABLE. Victoria, B. C., November, 1905.

NO MEDICINE CURES SO MANY SICK, OVERSTRAINED, DEPRESSED, WEAK PEOPLE AS DR. HAMILTON'S PILLS THE ONE TRUE MEDICINE FOR HEALTH AND STRENGTH.

DOES YOUR SCALP ITCH? Then you are suffering from a parasitic disease, distressing and annoying. JANEY'S HAIR RESTORER WILL POSITIVELY CURE IT.

STRENGTH AND SPIRITS IMPROVED. "No medicine could possibly be better than Dr. Hamilton's Pills," writes Mr. Jay Davies from Ottawa.

"I had pretty nearly given myself up as incurable. I was weak and sickly all the time, had headache, poor digestion and sinking feeling. On rising in the morning there was a feeling of awful weariness."

"Dr. Hamilton's Pills helped from the first. They must have strengthened my blood, for I gained in strength as soon as I took them. Steady improvement followed, and I am now completely cured."

"How are his morals?" "Why, they'd gain him entrance to the best society." -Judge.

NEW REGULATIONS

INSTRUCTIONS GIVEN
Y. M. C. A. DELEGATES

Propose to Introduce Age Limit in the
Junior Basketball League—
Sporting Notes.

A well attended meeting of members of
the Young Men's Christian Association in
interest in basketball was held at the
rooms, Broad street, last evening. The
business transacted consisted principally
in the appointment of delegates to repre-

After the usual preliminaries, J. T. Crot
was unanimously voted to the chair, and
in opening the proceedings stated that the
first business, in his opinion, was to decide
whether it was possible for the Y. M. C. A.,
with the material available, to enter the
three series, senior, intermediate and
junior, with any hope of success.

Responding to this, instructor Gregory
announced that he believed he would be
able to organize a strong junior and inter-
mediate team, as well as a senior five,
which, although it might not win the pen-

An age limit upon juniors and intermedi-
ates was suggested by one of those present.
This found favor with many, it being pointed
out that under the existing rules and
regulations it was possible for a man over
twenty years of age to participate in the
junior match, which was most unfair to
those clubs placing a properly graded ag-

That a limit be placed upon the Junior
league, only players under 17 years of age
being able to compete in that series; that
an intermediate may only take an active
part with any team of that grade for three
years before becoming a qualified senior.

These points decided, J. T. Crot, H.
Gregory and R. Dunne were unanimously
chosen delegates to attend the executive
meeting on behalf of the association.

It was moved and seconded that Mr.
Gregory be requested to communicate with
Secretary Porter, of the executive, asking
him to fix a date for meeting for the pur-

MATCH AT SIDNEY.
Immediately after last night's meeting at
the Y. M. C. A., the intermediate league
team of that association held a meeting and
elected T. Peden captain pro tem. This
five has arranged to meet a Sidney team on

ing foam, constantly following swiftly
and threatening the poor, to whom the
ship—good girls—rise to let it roar past
her stern and curl high over the deck-
house amidships, breaking there.

THE APENDAGES AND TERRIBLE SEAS
and the black, wild sky, travelling with them
in express destruction, if they are terri-
fying to the cowed men, tell the skipper
with sufficient plainness that if he
doesn't leave to now, then he never will.

Going aloft into the frozen shrouds,
the rolling of the vessel begins then in
passing waves when they are nearly
level to the lower yards. Then,
standing on the flying jib-top of the
yards, they have to fight with both hands
the hanging sails, which are as hard as
sheet-iron; thumping them and clawing
at them till the blood comes, now nearly
struck over as the ship pitches, then
struck below the face by a sudden burst of
a sail upwards. They cannot climb above
the square of the flying seas, which run
by seemingly level with the lower yards.

But the worst is to come, for the crit-
ical moment is when the helm is put
down, and she comes up head to wind.
They are lucky if they get round, for in
turning the seas will take charge, and
she will go over till the lower corners
of the masts are buried under, her yards
in the air, and the ship is in the air, and
the yards low slight of the deck, and
hanging on like flies to the stringer
look sheer down to the roaring water
racing past.

SYNOPSIS OF CANADIAN NORTH-WEST
HOMESTEAD REGULATIONS.

Any even numbered section Dominion
Lands in Manitoba or the Northwest Pro-
vinces, excepting 8 and 26, not reserved,
and not otherwise disposed of, may be
homesteaded upon by any person
who is the sole head of a family, or who
is over 18 years of age, in the extent of
one-quarter section, of 160 acres, more or
less.

Entry may be made personally at the
local land office for the district in which
the land is situated, or by an applicant
to the Minister of the Interior, Ottawa, the
Commissioner of Immigration, Winnipeg, or
the local agent for the district in which
the land is situated, receive authority for
himself to make entry for him.

HOMESTEAD LICENCES: A settler who has
been trained entry for a homestead in
another district, may be permitted to make
entry there with under one of the following
plans:

1. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

2. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

3. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

4. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

5. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

6. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

7. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

8. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

9. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

10. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

11. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

12. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

13. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

14. At least six months' residence upon
the land, and a certificate of the local
agent for the district in which the land
is situated, that he is eligible to make
entry there, and that he is the sole head
of a family, or is over 18 years of age, in
the extent of one-quarter section, of 160
acres, more or less.

Tainted Gold.

BY MRS. C. N. WILLIAMSON. Author of "The Barn Stormers," "Fortune's Sport," "Lady Mary of the Dark House," "Queen Sweetheart," "The House by the Lock," etc.

SYNOPSIS OF PRECEDING CHAPTERS:

The tale opens at the Duke of Clarence's theatre, by the stage-door of which a young man, powerful, and remarkably handsome, but looking as if he had just come from the Wild West, is waiting to see the manager. He is noticed by Winifred Gray, a rising young actress, and also by Lionel Macaire, a millionaire and friend of the manager's, but of repulsive appearance, and infamous character. The stranger, whose name is Hope Newcome, introduces himself as a friend of "F. E. Z.", and the initial strange affect not only the manager, Mr. Anderson, but also Macaire, Newcome, who announces that he has come to England for the purpose of "holding something up" to Anderson for an engagement, but the manager, prompted by the millionaire friend, finds an excuse for refusing. During the performance that evening Winifred Gray is sent for to the theatre, where she sees Macaire, the millionaire, who has had a new and a confounding interest in the theatre, and offers her an engagement as Rosalind. Winifred, who has been playing small parts, is at first dazzled by the offer, but a declaration of love from Macaire, who respects the theatrical advances with loathing, Macaire allows her to go for the moment, but declares that he will break her to his will. The same night Hope Newcome, still lingering at the stage door, sees a stranger of powerful physique, the driver of Winifred's cab beside the driver, Newcome orders him down, and a struggle takes place.

CHAPTER X.

Humiliation.

As Winifred left the theatre she felt that her next thought must be to find another engagement as speedily as possible, for the need of money was too urgent to admit of an hour's delay in seeking for something to do. Her mother, who believed that she had come to rehearsal, only starting a little earlier, would not expect her home again until 4 o'clock, for on days when there were rehearsals and no maining Winifred handed over the theatre at two or half past, when the long business of rehearsal was over. Now it was not yet 12 o'clock, and she would have plenty of time for visiting agents before she need go home. If only she could hear of an engagement, the story which must be told to Mrs. Gray would not be quite so hopeless.

In Winifred's present circumstances it was a hard ordeal to go and interview dramatic agents. By this time her name and her face were very well known in London. She had made an immense "name" for which she had her charming personality and her extreme girlishness to thank, even more than her talent, perhaps, and earlier in the season she would have had no difficulty in obtaining a "shop" as theatrical slang has it. Many managers would have been only too glad to have such an addition to their companies, for Winifred had proved an actual attraction in herself at the Duke of Clarence's. But now almost everything which took her away from home, and there was scarcely a chance that she would have luck. Besides, she must not forget that she had made a powerful enemy.

However, Winifred had a great deal of moral courage, and, thinking of her mother, she screwed it to the sticking place, only hoping that she might not be childish enough to blink and look soft conditions when she was questioned as to why she had so suddenly left Mr. Anderson.

She had had two years of provincial experience, but she had begun in a school directed by an actor who took his most promising pupils out on tour, therefore she had never led to do with agents. She knew, nevertheless, where they were to be sought, and, turning into a street off the Strand, she soon found the name of the man most believed in by the profession.

There were superficially jaunty, and down-eyed young men going up and down the staircase to knock and look soft conditions when she was questioned as to why she had so suddenly left Mr. Anderson.

Everyone knew that there was a private exit from this sanctum sanctorum, and that Mr. Doulton had a way of disappearing while the outer room was crowded by those who had waited for hours in the hope of seeing him. This was the reason why so many more persons hunted the stairs, that while appearing just to have come, or just to be going, stopping for a chat with an old friend, perhaps they might be ready to dart upon their prey before he could manage to escape.

Winifred did not know these secrets of the prison house, however, and she walked with shy slowness into the outside office, the dreaded black coming as a landslide of stars was directed upon her.

"his gratefulness" and his with the "kindest remembrance." The occupants of this room were not of the theatrical hand, and with which Winifred had been associated since joining Mr. Anderson's company. They were more of the sort she had known on tour, but there were no familiar faces, and she was thankful for that, as she was in no mood for greetings or questionings from acquaintances.

At intervals a youth threw open the door which led to Mr. Doulton's inner office, calling a name; and then, with an air of importance which might almost have been a fever to move the world, a man in a woman rose, moved across the room, followed by various eyes, and was shut out of sight into the place where all fan would be.

Winifred thought it very likely that, if she chose to say "I am Miss Gray, from the Duke of Clarence's," she would be held forth to the wide-eyed and tedious necessity of waiting for her turn; but she would not do this. It was not fair that she should be preferred before people who had waited for hours, perhaps, to see the manager, sitting quietly within, as she mentally reviewed her scene with George Anderson, until at last the self-sufficient youth announced that Mr. Doulton had been called away on business, and would not be back.

WHAT WE EAT.

The question of diet in the dog days is an important one, for although the desire to eat is not very keen, it is necessary for the maintenance of health that the daily waste of tissue arising from the wear and tear of the bodily machinery should be made good. The amount of food required by the individual at this time of year is, however, very much less than was the case six months ago. The average proportion of the food eaten had to be used up in the production of animal heat, to maintain the temperature of the body steadily at 80 deg. in an atmosphere often very many degrees below that figure.

Many persons suffer a great deal at the present time because they have got into a bad habit of eating copiously without any regard to the actual requirements of the system. These are the persons who stimulate their appetites with a something-and-bitters before dinner, and tinkle their palates with strange sauces during the meal, with the result that they incorporate a great deal more nourishment than their systems know what to do with.

The cardinal rule for eating in the hot weather is not so much to shun altogether particular articles of diet as to diminish the total quantities of all foods which it is a mistake, for instance, to eat the habitual meat-eater to avoid meat on a warm day. He will feel the want of it, in the languor and disinclination for work which he experiences. He will be all the better for a little of the highly nitrogenous food to which his system has been accustomed. Animal foods rich in fat, however, to wit, ham, mutton, salmon, and so forth, should be reduced to a minimum in the diet, since they are the producers of the first order. Foods rich in sugar and starch should also be eaten sparingly, because they are the heat-producers of no mean order.

In the hot weather the great difficulty experienced by most people in obtaining or keeping meat absolutely fresh is a great bar to its general consumption, and in tainted meat there is always lurking the hidden danger of ptomaine poisoning. Meat deteriorates very rapidly just now, hence the economical housewife will find that chops, steaks, and small hot joints are thriffter because they are safer than the usual big joint for Sunday's dinner, which is to be eaten cold or in its various culinary disguises throughout the succeeding week. It is remarkable with what rapidity even cooked meat will go sour or maggoty in these sultry days. It is a wise precaution to keep all meat in a refrigerator, or at least to keep it in a cool place, to protect it from fly blows and all the winged horrors which seek, to hatten on it.

There is safety in salads. In popular parlance, they "cool the blood" mainly on account of the considerable quantities of water which they are the vehicle for imparting to the system, along with certain vegetable salts which appear to be grateful to the body in the dog days.

Lettuces and Tomatoes. Lettuce and tomatoes are amongst the prime favorites in the vegetable world at this time of year, and that probably for some very good reason. A great deal of nonsense is talked in some quarters about the danger of eating tomatoes. They have been said to be productive of kidney disease, of cancer, and other ailments too numerous and terrible to mention, but so far as medical science can ascertain there is not one word of truth in such statements. It may be that insufficiently preserved tomatoes or some inferior brands of tomato sauce have at one time or another disagreed with some people, but it may be confidently asserted that the fresh tomato is always a healthful food. When cooked, the skins are apt to be somewhat indigestible, especially to children, and should therefore be removed before being eaten. Chops and tomato sauce must always remain a safe dish in the hot weather.

Fruit is its season is a most important summer and autumn food. Another reason why the intake of fruit should be diminished at this time of year is that very much less exercise is taken than in the case of cold weather, and there is therefore less tissue-waste to be repaired. Next to a knowledge of what to eat just now, it is important to be aware of what to avoid. Combinations of meat

WHAT MAKES JOHNNY HUSTLE.

Every morning first of all Mother comes and gives her call:—"John-ne-ee-ee!" Then I know that I can snore For a half an hour more, Till brother comes to bang my door.

For fifteen minutes more I lie, Waiting for my sister's cry:—"John-ne-ee-ee!" Then dad barks out, but I keep still, And on and on I snore until, I can hear the coffee mill.

WHAT WE EAT.

rd flour, steak pie, sausage rolls, pork pies, and all similar combinations, are things to be looked upon with suspicion, and touched scarcely at all. They go bad very quickly in sultry weather, appearing to undergo a dangerous form of fermentation. Even sauces and gravies thickened with flour are dangerous breeding places for bacterial and other poisons when the temperature is at all high. Vegetable soups and broths, too, quickly become sour. Pork is most unwholesome during the summer months. One of the most dangerous of combinations in the cook-stove way is rabbit pie, many fatal cases of poisoning have been traced to it.
