PAY WATER RATES SIX MONTHS IN ADVANCE

Drastic Change Proposed by John H. Helliwell, Expert Actuary, Who Submits Lengthy Interim Report to City Council

The adoption of a six months rate in advance for all water consumers, and the establishment of one common date for the payment of all local improvement instalments, are important recommendations made in the long-awaited and eagerly anticipated interim report of John H. Helliwell, of Vancouver, expert actuary, engaged by Mayor Morley to conduct an investigation into the methods of civic accounting, which was presented at last evening's meeting of the city council.

The interim report is a very lengthy document, comprising some 22 closely type-written pages, making about four columns of newspaper type. Copies were furnished each of the aldermen, and a special meeting of the board will be held at an early date to deal with the same.

BALLOON PASSES THROUGH STORM

AERONAUT TELLS OF TRYING EXPERIENCES

All Competitors in the National Championship Race Have Been Reported

Indianapolis, Ind., Sept. 20.—News today that the three balloons which had not been reported in the national championship which sailed Saturday, have landed safely, was received by officials of the motor speedway today. The officials feared that a balloon reported to have passed over Pulaski, Va., evidently in distress and bearing what was thought to be a man clinging to the rigging might be one of the contestants in the race.

Though officials are pleased to learn that no serious mishap marked the race, they are disappointed at the showing the big gas bags made.

Tells of Trip. New York, Sept. 20.—The balloon New York last to be accounted for of those which sailed in the national championship race from Indianapolis on Saturday, has landed safely. Captain Baldwin, aide to Clifford B. Hawley, pilot of the New York, appeared at the aero-club today, and was surprised to learn that aeronauts from all parts of the country were worried over the fate of the balloon. The New York landed near Portsmouth, Ohio, Sunday at 5 o'clock in the evening.

"I supposed everyone knew we had landed," said Baldwin. "Although we were aloft only fourteen hours, the trip was one of the hardest I ever experienced.

"Hot sunshine, cold winds, thunder and lightning, and rain, successively kept us busy managing ballast. When we finally came to earth, we had only a few pounds of ballast left and our gas was nearly gone. Sudden atmospheric changes were responsible for the difficulties we encountered.

"Saturday night's soaking rain fell and the gas in our bag contracted and we were being very close to the ground. Sunday the sun shone hot and the gas expanded and we shot 6,000 feet in the air. At noon we ran into the worst thunder storm I have ever experienced in the clouds.

Mr. Helliwell declares that no reason appears to exist for the monthly re-dering of accounts to water consumers and all the clerical labor entailed by such a system. In his opinion, an amount of 85 per cent in number of the consumers are regularly billed at the minimum rate of \$1 per month, from which a discount is allowed, the conditions are such that a payment of a minimum semi-annual rate in advance might in the case of minimum consumers be settled at \$7.20 for six months in advance, less a discount of 25 per cent for payment within the first two months of the period, making the net amount \$5.40 as at present. The six-monthly account would only apply to householders and small users, the monthly bill being rendered to mills, factories and other wholesale users of water.

Dealing with local improvement accounts, Mr. Helliwell points out that as the city has a margin of one year in which instalments may be collected without affecting the sinking fund calculation, it is most desirable that a common date, say May 31 in each year, be adopted as the date of payment of all these instalments, this change being possible without any supplementary or amending by-laws. With this plan in practice, says Mr. Helliwell, the annual deposit to the sinking fund account might be made in one sum, and on the exact date required by the by-law, thus avoiding any variation in the fund, and enabling the corporation each year to exhibit in the balance sheet the sinking fund assets of the exact amount required.

CONTRACT LET FOR THEATRE

J. L. SKENE IS TO PUT UP FINE BUILDING

Stage Will Be One of Largest on the Whole Coast—Seating Accommodation for 1,500

Plans have been drawn and approved, the contract recently awarded, and work will commence at a very early date on the new opera house which is to be built by a local syndicate on the lots facing on Government street, just opposite the legislative buildings, between Elliott and Superior streets.

J. L. Skene, who erected the Empress hotel, the new wing for St. Ann's convent and other large buildings in Victoria, will be the builder. Work will commence almost immediately and the contract calls for the completion of the structure by January 1st, 1911. Work would have been commenced earlier had a difficulty not arisen in respect to proper street lines. When the civic authorities came to be asked for the lines it developed that there was an uncertainty about the matter, and additional surveys and considerable research have had to be made.

The theatre will be a very handsome structure. Contrary to popular impression heretofore, it will not occupy the corner of Elliott and Government streets, but stand in the block midway between that street and Superior street. It will thus face on Government street. The building will be three stories and a half in height, and be surmounted over the main entrance with a large dome.

The foyer will be very deep, occupying about one-third of the space on the ground floor back from the entrance lobby. The stage will be one of the largest possessed by any theatre on the coast. It will be considerably larger than that of the Moore theatre in Seattle, and will thus be able to accommodate any attraction on the road. Hitherto companies carrying heavy stage settings have been greatly handicapped here and many have found it impossible to come to the Victoria theatre. Seating accommodation will be provided for 1,500 in auditorium, boxes and galleries.

The building in the main will be of brick, but the front will be of stone, with an elaborate scheme of ornamental carving. The lots on which the structure will stand are currently leased to allow of an alley which runs at the rear from Superior street to be utilized for handling scenery and baggage.

John Cort, president of the National Theatre Owners' Association, and head of the Northwest Theatrical Association, has signed a lease for 20 years. Bookings of attractions to be seen in the new theatre early in the coming year are now being made.

STAKED HIS LIFE ON TURN OF CARD

Young Man, Despondent Over Love Affair, Blows Out His Brains

Joliet, Ill., Sept. 20.—John Pavaglio, 19, today staked his life on the turn of a card and lost. He then blew out his brains with a shotgun. Pavaglio is believed to have been despondent over a love affair. He returned home shortly after midnight and secured a pack of cards which he carried to his room.

Ten minutes later his brother heard a shot and went to the room, where he found the cards strewn about the table face downward. One card, a deuce of clubs, was turned up. Pavaglio's body lay on the floor.

CRIPPEN'S BELONGINGS SOLD AT AUCTION

Lively Scenes in London Warehouse When House Furnishings Are Disposed Of

London, Sept. 20.—Interest in the trial of Dr. Hawley H. Crippen and his typist, Ethel Clare Leneve, was not allowed to drag to-day, although the inquest was adjourned for a week at the close of yesterday's session. The scene shifted to the warehouses of a South Side furniture-dealer, where the Crippen belongings and furnishings that had once adorned the house where Belle Elmore, Crippen's wife, supposed to have been murdered, were disposed of under the auctioneer's hammer.

Most of the South Side, it appeared, and many others, were there, and all eagerly bid for bits of bric-a-brac, pieces of furniture, in fact anything that was offered, until some of the articles brought fabulous amounts.

The auction rooms were the scene of a wild scramble when the opening of the sale was announced. Women and even men scrambled and fought for advantageous positions. Trifles of absolutely no value brought as high as \$5 each. Not an article was left when the sale was concluded.

THURSDAY TO BE PUBLIC HOLIDAY

EXHIBITION BEING WIDELY ADVERTISED

Excursions From Various Points—Formal Opening Tuesday Afternoon

Every feasible method for the advertising of the jubilee exhibition of the B. C. Agricultural Association is being adopted by the secretary, George Sangster. Posters and literature, descriptive of the coming fair, are being scattered all over the island and mainland. If the anticipations of the officials of the association do not miscarry the returns of attendance will surpass all preceding years, and this will be due in no small measure to the great advertising scheme which the organization is carrying out.

Arrangements have been made with the management of the Canadian Pacific railway to have special excursion rates from all points as far east as Winnipeg. Negotiations are now being made for the running of an excursion from Nanaimo during fair week. If possible excursions will also be run from Everett, Bellingham and Port Angeles on Friday, which is American Day.

Sharp at 2:30 o'clock on Tuesday afternoon his honor the lieutenant-governor will open the exhibition. The Boy Scouts will form a guard of honor to receive Hon. Mr. Paterson. The opening day of the greatest of British Columbian fairs is to be known as Children's Day, Wednesday as Association Day, Thursday, Victoria Day, Friday, American Day, and Saturday, Mainland Day. On Tuesday afternoon all the public schools of this city will be closed, and it is expected that the children will swarm over the exhibition grounds. The association is desirous of having Thursday declared a public holiday, and have approached the mayor on the subject. They are now awaiting a reply.

(Concluded on page 16.)

INQUIRY INTO THE ELECTION OF SENATOR

Sub-Committee Will Hear Evidence Regarding Alleged Frauds and Bribery in Illinois

Chicago, Sept. 20.—The senatorial inquiry into the alleged frauds and bribery connected with the election of William Lorimer to the United States senate was begun here to-day.

The committee met this morning for a conference to determine the method of procedure and the scope of the inquiry which the committee will undertake. The meeting to-day was executive. The hearings, themselves, it is announced, will be open. The conference was held at the Congress hotel.

Senator Lorimer was at the Congress hotel during the day, but did not see his colleagues. He said he did not know whether he would be summoned before the committee. The real hearing will begin to-morrow.

The committee will not make any findings, it is expected. It is acting as a sub-committee to take evidence, and the facts gathered will be submitted to the full committee on elections and privileges.

HORSE RACING ON PACIFIC COAST

President of California Jockey Club Says Oral System of Betting is Success

New York, Sept. 20.—That racing on the Pacific coast will be established on its old footing with oral betting was the declaration to-day of President Williams, of the California Jockey Club.

"The oral system of betting has proved a success," said Williams. "Racing at Emeryville this year with the oral system will be carried on as it was before the anti-betting law was put into effect. Last season was more of an experiment than anything else, and the test proved entirely satisfactory.

"This year will mark a return of the old stakes and the old purses. Besides the classics that have been run year after year, there have been some new ones promised, and altogether I look for a banner year.

"The Emeryville meet will start on November 12th and will continue until well along into the spring."

NEW ELECTRIC TRAM SERVICE

Windsor, Ont., Sept. 20.—A regular train service through the new Michigan central twin electric tunnels will not be attempted for some days, perhaps several weeks, declared Mr. J. S. Hall, assistant general manager, yesterday. The men in charge of the big electric engines must be carefully trained, and the operating system fully perfected before any attempt at running the passenger traffic through is made.

(Special to the Times.)

CAR SHOPS FOR VICTORIA

SUGGESTIONS MADE TO B. C. ELECTRIC COMPANY

City Council Urges Company to Give Improved Car Service to Victoria West

A. W. McCurdy was present at last evening's meeting of the city council, and at his suggestion the following resolution was unanimously passed:

"That this council realizing the desirability, for the convenience of residents in Victoria West, of a thorough train service from that section of the city to the Fair grounds during exhibition week, would request that this matter be given the favorable consideration of the tramway company, and further that upon the visit of the general manager of the company to the city, in the course of a few days, his worship the mayor and the mover and seconder of this resolution, be a special committee to urge upon him that such through service be arranged, and that it be further urged that car shops be erected for the tramway service in Victoria."

The motion was made by Ald. Ross and seconded by Ald. Mable. It was the latter who believed that an effort should be made to have the B. C. Electric railway establish car shops in Victoria. He had been informed that the company found itself hampered for room at New Westminster and the time appeared opportune for the people of Victoria to get busy in the interests of this city. His suggestion was incorporated in the resolution.

Mayor Morley, on behalf of the council, tendered thanks to Mr. McCurdy for having brought the matter forward, and Mr. McCurdy, in acknowledging the same, declared that if the improved service were secured the council would be deserving of the thanks of the women and children of Victoria West.

A public meeting will be held in the Lampson street school on Thursday evening at half-past eight to pass resolutions to be forwarded to the local management of the B. C. Electric Company on the question of an improved car service. The council of the board of trade is also acting in the matter, a letter having already been forwarded to Mr. Goward on the subject. It is pointed out that numbers of residents abstain from visiting the Fall Fair owing to the fact of having to change cars in the city. Travel is daily becoming heavier on both the Esquimalt and Gorge lines and the residents of both localities are anxious for a better service.

FALLS BETWEEN CARS

Tacoma, Wash., Sept. 20.—E. G. Weaver, aged 16, a brakeman on a Great Northern freight train, fell between the cars near Tacoma. His right leg was badly crushed and he died in about two hours after being taken to a hospital.

UNIONS FINE MASONS AND BRICKLAYERS

Winnipeg Locals Deal With Men Who Tried to Form New Organization

(Special to the Times.) Winnipeg, Sept. 20.—The bricklayers and masons' unions held an important meeting behind closed doors last night which extended to early this morning. Although nothing was given out it is understood that the reason for the protracted session was that the delinquents in the recent lockout were being dealt with.

About half a dozen of these men, then in good standing, endeavored unsuccessfully to form what they called a "National organization." They were fined about \$100 each and until this is paid they will not be recognized as members in good standing or will they be permitted to work on union jobs.

ACCUSED OF CAUSING DEATH OF FATHER

Saskatchewan Homesteader is Shot During Quarrel With His Son

(Special to the Times.) Gull Lake, Sask., Sept. 20.—A shocking murder occurred near this place on Friday evening, when Mr. McBride and his son Lewis, both homesteaders, who had been in town indulging freely, returned to their homestead shack. They engaged in a drunken brawl, during which Lewis grabbed a double-barrelled shot gun and discharged one of the barrels, the contents entering his father's stomach. The shot suddenly brought the younger man to his senses, and realizing what he had done, he immediately set off to town for medical assistance. Upon explaining what had occurred at the homestead he was arrested by Constable Fisher of the R. N. W. M. P. Medical aid was sent out to the father and every effort made to relieve his agony but he passed away from the wound. The coroner's jury on Saturday night returned a verdict holding McBride guilty of causing the death of his father.

CITY COUNCIL ACCEPTS CITY ENGINEER'S PROPOSAL

Resolution Passed Last Evening To Give Him Period of Six Months to Reorganize His Department

The city engineer difficulty has been satisfactorily adjusted. That official will be given a period of six months in which to perfect reorganization of his department. There will be no investigation this evening. This important decision was reached at last evening's meeting of the city council.

The Times' forecast of what would transpire when the resolution of Ald. Humber came to be considered was borne out almost to the letter. This paper expressed the opinion that all the aldermen would be found supporting the resolution. This was the case, save in respect to Ald. Bannerman, who voted with the mayor for the rejection of the motion to give Mr. Smith a six months' trial.

The incident of dealing with Ald. Humber's resolution would have been devoid of interest to the small gathering of citizens present had it not been for an attempt on the part of the mayor to obstruct the passage of the resolution on questions of procedure. The matter was finally adjusted, however, and the resolution carried—only the mayor and Ald. Bannerman voting in the negative.

Earlier in the session, before Ald. Humber's resolution was reached, it appeared that the difficulty over the engineer would be debated unexpectedly when the clerk read the following letter:

COTTON MILLS MAY BE CLOSED

LABOR SITUATION IN LANCASHIRE SERIOUS

Operators Will Probably Endeavor to Bring About a General Strike

(Times Leased Wire.) Manchester, England, Sept. 20.—The operatives in the cotton mills have decided to accept the ultimatum issued by the Master Cotton Spinners' Association and no steps will be taken toward settling the Fern mill dispute. Instead, if the cotton spinners carry out their threat and shut down the mills, locking out 150,000 men, the workmen will retaliate by endeavoring to bring about a general strike.

The seriousness of the labor situation is realized both by the manufacturers and the men, but it is generally believed both are ready for a struggle which may spread to every industry in England.

The strikes in the Welsh coalfields, which grew out of the refusal of the union men to obey the orders of the union leaders, is considered an indication of the general trend. The recent railroad strikes, which, though settled without difficulty, showed that the men were willing to go out on slight provocation, are also considered an indication that the men are willing to meet the employers more than half way in a struggle to test their strength.

The employers are stronger, perhaps, than at any time since unionism became a real factor, according to those who have studied the situation carefully, and at this time when the union need all their strength there is a decided tendency on their part to disintegrate.

There is a marked disinclination on the part of the men to follow their leaders. This in recent strikes undertaken against the advice of the union leaders has tended to put public sympathy on the side of the employers.

The Osborne decision which took from the unions the right to the support of the members in the House of Commons, has also weakened the unions.

The employers, most of whom are allied with the immensely wealthy Emery Federation, are prepared for a struggle. They have plans for the campaign mapped out and are in better position than ever before to fight the unions. For this reason it is believed a movement for a general strike might be met with a general lockout which would bring the conflict to a sudden crisis.

MAY ACCEPT OFFER

(Special to the Times.) Quebec, Sept. 20.—Mayor Bruin has received an offer on behalf of the city of Quebec of a copy of the statue of Jacques Cartier, erected some two years ago at St. Malo in France. The original cost \$4,000. The copy is offered in this city for \$2,000 and the offer is likely to be accepted.

GOES THROUGH WHIRLPOOL RAPIDS IN LAUNCH

Navigator Slightly Injured But Says He Will Make Trip Again

Niagara Falls, N. Y., Sept. 20.—Capt. Klaus Larsen, in his little motor boat, the Ferro, made a successful trip from the foot of the cataract through the whirlpool rapids to within a mile of Lewiston, a distance of four and one-half miles. He started from the Maid of the Mist landing at 4.45 p. m. and ran on a rock near the American shore at 5.30. Despite the battering of the whirlpool rapids, Larsen went through safely, but his boat was leaking badly at the finish and throughout the trip. Larsen had intended to start at 2.30 o'clock, but he was delayed by engine trouble. Besides, the authorities threatened to interfere on the ground of attempted suicide. The Ferro swung under the cantilever bridge, the engine running at top speed, and was caught in the swift drift where the river begins its rush down the whirlpool rapids.

Larsen held to the middle of the channel and in less than three minutes had made the great pool. In the trip through the rapids the little boat was lost to sight most of the time, but at Great Wave it was shot 20 feet out of the water. The boat landed right and continued to the pool. Larsen kept to the outer edge of the pool and passed out and down without accident.

Just as he left the pool the engine stopped working and Larsen was at the mercy of waves hardly less violent than those above. The little boat swung around stern first and turned completely over. Larsen coming up with it, badly battered. Here also his leg was injured.

After that Larsen was a mere plaything of the rapids, unable to hold the course, the boat swinging from one side to the other.

After going through the Devil's Hole the Ferro swung toward the rocks on the American side of the river, rolled over one boulder and was wedged between two others. There Larsen stayed for five minutes, 40 feet from shore, working desperately to release the craft.

Getting free he was hit by a comb and went careening toward the middle. At the bend, with the Lewiston bridge in sight, the boat drifted toward the American side again and was then caught in the shore eddy. The Ferro grounded again, this time near enough shore to be caught by Roy Rockwell of this city, who waded into the water and caught a rope thrown by Larsen.

Larsen wanted to continue the trip, but having accomplished the worst part of the journey, he was persuaded to board a trolley to Lewiston, setting the boat adrift.

"The trip was worse than I thought it would be," said Larsen. "But I am not hurt and I will do it again some time with another boat. My leg was jammed when she tipped over, but that's all. The engine worked splendidly through the rapids and I could have made the trip in half an hour if it had not stopped after leaving the whirlpool."

Except the old Maid of the Mist, sent through in 1844 to avoid seizure, Larsen's is the only engine-propelled craft to have gone through the rapids. Peter Nissen, Chicago, 1900, and C. A. Percy, 1887 and 1901, went through the rapids in barrels. No one else ever passed through and lived.

PASTOR TRIES TO SELL HIS CHILDREN

Offers Boy and Girl at Auction But Crowd Forces Him to Desist

Irwin, Pa., Sept. 20.—Unable to supply his five children with food and clothing, Rev. Thomas G. Boord, Baptist minister, living near Circleville, attempted to auction off his boy, aged 7, and daughter, aged 19, here. Rev. Boord distributed handbills through Irwin announcing the auction.

At the appointed time 1,000 persons gathered and shortly Rev. Boord appeared accompanied by a clean looking boy and a bright girl. The crowd at first thought the auction was only a means to obtain homes for some miner's children, but the minister mounted a platform and announced that he was ready to begin the sale. He explained that he was unable to support his five children and took this means of getting good homes for two of them and also obtaining some money with which to provide for the remaining three.

Citizens stepped to the front and declared that the federal constitution prohibited the sale of human beings, but the minister attempted to defend his action. He was finally forced to call off the auction.

"Auction to-night. The undersigned will sell at public auction his two children as hereinafter described: "One boy, 7 years old, fair complexion, weighs 53 pounds. Strong of body and mind. Has never been to school, but would make a competent newsboy and be able to earn good wages in three years. Will be a great support to buyer in less than eight years.

"One girl, aged 19, dark complexion, weight 53 pounds. Has had four years' schooling. Was youngest pupil in her class. Can execute any household duties, such as plain sewing and cooking, dish washing, etc., for a child's nurse cannot be excelled. Will be competent to keep an ordinary home in six years' time.

"Sale to take place corner 3rd and Main streets at 7.30 to-night. Terms and conditions of sale and reasons for selling made known before sale begins. Purchaser must be good moral person."

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Belleriver, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctors said I must submit to an operation, because I had a tumor. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—MRS. EMMA CHATEL, Valleyfield, Belleriver, Quebec.

Another Operation Avoided. Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—LENA V. HENRY, B. F. D. 3.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

GOLDWIN SMITH
ENDOWS CORNELL

Purpose of Bequest is to Show Attachment of Union of Branches of Race

Toronto, Sept. 20.—Dr. Goldwin Smith, who died here June 7th of this year, left \$689,000 to Cornell University. The will was filed here and the entire estate is valued at \$822,859. Of this amount the Ontario government claims \$32,285 as succession duties, and the balance of \$695,500 is in various bequests. The clause in the will dealing with the bequest to Cornell says:—

"All the rest and residue of my estate I give, devise and bequeath to Cornell University, in the state of New York, United States of America, absolutely to be used by the Board of Trustees for the promotion especially of liberal studies, languages, ancient and modern; literature, philosophy, history and political science, for which provision has been made in the new hall which bears my name and to the building of which my wife has contributed."

"In confirming this bequest my desire is to show my attachment to the university in the foundation of which I had the honor of taking part; to pay respect to the memory of Ezra Cornell and to show my attachment as an Englishman to the union of the two branches of our race on this continent with each other and with their common mother."

Toronto University will have the library of the deceased, valued at \$9,200; Toronto Art Museum gets the pictures and statutory, valued at \$5,000; Dr. A. Le M. Grasset, the late Dr. Smith's physician, is bequeathed \$5,000; Theodore A. Haultin, secretary, \$6,450, and each servant \$500 each, with \$50 a year added for each year of service.

A nursing mission of this city gets \$3,000, and the Baptist church that Dr. Smith attended and the labor temple each get \$1,000. To Toronto was left the fine old mansion, in which Dr. Smith lived and died, by Mrs. Smith when she died, two years ago. She stipulated, however, that the city could not lay claim to it till after the death of her husband. It is now proposed to make a museum and public park of the house and grounds. The deceased left no direct descendants, but several cousins will get \$5,000 each.

AVIATORS FAIL TO FLY OVER ALPS

Make Two Attempts But Baffling Air Currents Force Them to Descend

Brieg, Switzerland, Sept. 20.—After a daring attempt to sail across the Alps yesterday in aeroplanes Aviators Chavez and Weyman were forced to give up the attempt and landed near where they arose for the flight. Each man made two attempts to cross the mountains, but baffling air currents made it impossible for them to complete the attempt.

Chavez reached a height of over 7,000 feet and headed directly for the Simpson pass. Heavy clouds obscured the pass and the gusty cross winds blowing made the trip so hazardous that he brought his machine back to earth. Weyman's machine was slightly damaged.

THREE DROWNED

Duluth, Minn., Sept. 20.—Three Two Harbor men, members of a pleasure party of five, were drowned when their motorboat capsized in a storm on the north shore near Encampment Island. The drowned, John Sullivan, age 20; John Strand, age 45; Ingvald Amundsen, age 18. One member of the party had been left on shore and the other escaped by swimming.

FLAMES DESTROY HOUSES AT FORT ROUGE

Number of Workmen Have Narrow Escape—Property Loss Placed at \$125,000

Winnipeg, Sept. 20.—Fire which broke out at 2.30 p. m. yesterday in the fashionable residential district of Fort Rouge, and which was not under control till midnight, did damage roughly estimated at \$125,000, while thirty men working on the roof of the unfinished apartment block in which the fire started had a narrow escape.

The fire broke out in the \$150,000 apartment house of Hicks and Patterson, totally destroying it, and then jumped back to McMillan avenue, where seven frame houses were speedily licked up. The apartment house was brick and stone, wood finished and the fire started from the explosion of a plumber's gasoline furnace. A high wind was blowing and the unfinished structure being not closed in, the flames spread so rapidly that the thirty men working on the roof were cut off before they well recognized their predicament. Some jumped, others slid down by ropes and all escaped with a few minor injuries. The 45 men working inside escaped uninjured. The \$30,000 so far expended on the building is represented by \$20,000 insurance.

With the flames racing from house to house, the occupants of the residences on McMillan destroyed had no time to save even their personal belongings. Seventy-five firemen and five fire engines battled with the flames, and driving one of the latter was F. M. Ireton from Station No. 4, who stoically watched the conflagration lick up his own home.

Following is an estimate of the losses: Hicks & Patterson's apartment block, loss \$80,000, insurance \$20,000; C. L. Peterson, residence, \$15,000, fully insured; Mrs. Fletcher Andrews tenant above, \$2,000, partially insured; H. Ireton, residence, \$5,000, partially insured; Percy Hicks, residence, \$4,000, partially insured; Dr. Gilmore, residence, \$5,000, partially insured; Miss Pringle, residence, \$4,000, partially insured; Mr. Reynolds (lately from Montreal), residence, \$4,000, partially insured; Mr. Paden, residence, \$4,000, fully insured; Mr. Ellis, tenant of above, \$500.

PASSING SHOW

New Grand Theatre.

There is one thing about the suffragette to be seen at the Grand this week, she has a far too plentiful supply of good looks to be the real thing. Otherwise Mr. Jamieson has secured a remarkably faithful example, but like all suffragettes, she is at fault when she tries to pocket her hands. However, "The Suffragette," despite her convictions, which are amusing, and her husband, who beats her in the mayoral election, offers Victoria a comedy delightful and hilariously amusing. Franklyn Ardelle, as the man who dares oppose the woman candidate, is never at a loss for an argument against "The Suffragette," and he puts up as bright an election talk as any mayor of Victoria has had for a long time. The comedy contains a rare battle of wits, a wonderful accumulation of language on the part of "The Suffragette," who if she had only secured more votes in the election would have proved as successful a snake-charmer as one McBride.

The New Grand theatre has in this headliner an act that scores off the list of all other laugh turns in the past. Franklyn Ardelle is a wit by nature and facial appearance, and he really does not have to act. "The Suffragette," however, has to act and do a lot of hard work. The high pitched tones in which she denounces the whole male creation mean hard and severe work, but in her rapid fire of conversation she never loses a syllable, and on more than one occasion has the audience actually about to believe that the suffragette is the world's greatest need and benefit. "The Suffragette" is certainly a winner.

The Grand this week has a record bag-punching show in which Milo and Hattie Vague win their way to popularity through a hard-working turn. There is bag-punching of all kinds, with a grand finale, where the two performers are punching as many as seven bags, keeping time to music and going beyond the speed limit.

A posing act by Alex. Brisson, who performs on a pedestal before a stage maintained in black, is applauded loudly for its grace and cleverness, Brisson being one of the world's foremost equilibrist.

Powers and Miss Wilson offer a song and dance act with much merriment in it, and with their own Poseyville stage orchestra. The act is broadened by the introduction of toe-dancing by Miss Wilson, for which she receives a good hand.

Kate Fowler, with a piano on the stage, dispenses with the orchestra and accompanies herself in a couple of entertaining songs. As a pianist she has considerable ability, which the audience yesterday appreciated.

Thomas J. Price sings "There is Nothing the Matter With Father," and the moving pictures end the show.

—Joseph Peterson is offering a reward of \$100 for information which will lead to the discovery and conviction of the hunter who shot E. D. Allen near the Summit last fall.

—The annual meeting of St. John's Senior Guild was held on Monday afternoon. The following members being present: Madames Townsley, Fulton, Atkins, Yates, Oliver, Carsley, Tom Walker, Glover, Hawkins, Bowen, Williams, Noorish, Brett, Panketh, Miss E. Wood and Miss Sorby. The following officers were unanimously re-elected for the ensuing year: Mrs. D. R. Ker, president; Mrs. Townsley and Mrs. Fulton, vice-presidents; and Miss L. W. Sorby, hon. secretary-treasurer.

WILL ATTACK THE VEHICLES BY-LAW

City Solicitor and Mr. Lowe to Argue Merits in Police Court Case

On Thursday morning the city by-law relating to the licensing of vehicle drivers will be attacked in the police court by R. C. Lowe, who appears for Robert Winters, against whom there is a charge of not having displayed his license badge while plying for hire with a vehicle.

The case was called in the police court this morning, the defendant pleading not guilty. In the absence of the city prosecutor and the city solicitor the magistrate adjourned the case until Thursday to allow the city solicitor to be present to hear the argument of the defence.

John Wood paid the court \$5 because he persisted in asking Constable Fry yesterday if the constable thought him drunk, favoring his remarks with coarse language.

The prosecution yesterday against Frank Whiteman, who was fined for using a horse which was suffering from sore shoulders, was launched by the B. S. Society for the Prevention of Cruelty to Animals. The prosecution was taken after the defendant had been cautioned by the society's inspector.

WOOD TO APPEAR ON MANSLAUGHTER CHARGE

Boy Who Accidentally Shot Chester Young to Be Charged in Court to-morrow

A charge of manslaughter will be preferred against Colin Wood, the youth who on Thursday last accidentally killed Chester Young in the Malahat Mountain district while returning from the first day's hunting of the season.

Wood will be given a preliminary hearing to-morrow morning in the provincial police court. He has been held a prisoner since Thursday night last, and is in the city jail. The attorney-general's department has ordered the prosecution.

The accident occurred when a party of thirteen boys was returning from a hunting excursion in the Malahat district. Wood was unloading a rifle when he discharged, with the result that the youth, Young, was shot and killed. At the inquest it was brought out in evidence that Wood was ignorant of firearms.

REGISTRATION OF VOTERS

As Monday, September 26th, will be the last day on which application for registration will be received, all men of twenty-one years or over whose names were not on the list at the time of the last provincial election are urged to apply without delay to any one of the following: Harvey Combe, registrar of voters; J. Kingham; Lee & Fraser, A. B. McNeill, R. L. Drury and R. B. McLaughlin.

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.
Victoria, Sept. 20, 5 a. m.—The pressure is lowest on the Washington coast, but is high over British Columbia and the prairie provinces. Thunderstorms occurred at Walla Walla and Roseburg and rain has fallen at Rupert and Triangle and also in Utah and Southern Oregon. In the Canadian western provinces the weather continues fine with seasonable temperatures.

AUTHORITIES ON MINTO CUP GAME

SAGE OF LACROSSE THINKS CUP IS SAFE

Joe Lally Bids East Despair Until New Generation Arises—Other Critics Agree

Joe Lally, the sage of lacrosse, gave the following opinion of the future location of the Minto cup, after the Westminster-National game on Saturday. His opinion was wired east to the Montreal Star and the Toronto Telegram as follows:

"In the window of Charlie Welsh's store in the town of Westminster, sitting on a pedestal, is the now famous vice-regal silverware known as the Minto cup. At the base of the pedestal is the inscription, 'What we have we'll hold,' and judging by to-day's game between the world's champions and the Nationals the former will make good the above.

"If anyone to the east cherishes fond hopes of the cup's return let them forget it.

"The cup is going to remain on the banks of the Fraser until players of a higher calibre are developed. Men who have the proper physique to cope with the giants of the newer province. They must be Hoobins, Brennans or Caynangs.

"So much had been said about the treatment handed out eastern teams, who had the temerity to cross the Rockies in the hope of returning the cup to its former home that speculation was keen as to whether Matt Barr and Lionel Yorks would give the Frenchmen the protection they were entitled to, and deal out even-handed justice regardless of the merciless roasting referees are said to be subjected to on the Pacific coast.

"Whatever may have happened in the past I am not in a position to say, never having seen referees in action in those parts, but it is my opinion and that of all unbiased followers of the game who understand the game that Barr and Yorks' handling of to-day's contest was all that could be desired. No favorites were played and every man who deserved punishment received his time check, in fact there were no harrowing details to record and very little if any disposition was shown to mix it up."

Other opinions of the game are: Alonzo Prince, managing editor of La Presse, Montreal. The Westminster team has beaten us fairly. We admit it is a grand team. They outclassed the Nationals.

J. S. Duquette, secretary of the National Lacrosse Club—You have beaten us, what have we got to say? I am not going to make any complaints.

Con Jones—It was a great game and I think there is no doubt you will keep the Minto cup.

Matt Barr—It was a good game, but rather slow at times. I tried to be absolutely impartial. One of the Nationals at men called me a foul name as he left the field, when I sent him off and I would be justified in penalizing him for the rest of the game, but I did not want them to have any excuse whatever for saying that they had been beaten by the referees.

Stanley Peck, Victoria—The first and third quarters equalled anything I have ever seen. The teamwork of the Westminster home was magnificent. The Nationals are now a better team than when I played against them in 1909.

Lionel Yorks—The game was pretty clean. I don't think we overlooked many fouls. The boys were too intent on playing good lacrosse to take any chances of being caught handing out the rough stuff.

"Newsy" Lalonde—Four goals of a lead is not so very much. We can pull that down in the next game, and win. We've done it before and we can repeat the trick. We will be back next Saturday and do to you fellows what you did to the Shamrocks in the second match.

SPORT NOTES

Calgary Wings—The People's Shield, emblematic of the Canadian soccer championship, returns to Calgary, having been won by the Calgary Hillhurst club from Hamilton at Scarborough Beach, in an overtime match resulting 2-1.

New Amateur Union—A branch of the B. C. A. A. U. has been formed at New Westminster, which is now out to attract amateurism as well as professionalism. The union will control all amateur sport in the Fraser valley. Rev. J. S. Henderson is president.

Eight-Team League—The Coast League did not come to a definite arrangement. The San Francisco meeting, which has since been held, was in October, when Walter, Berry and McLeod will come north to Portland and investigate the conditions.

Take in Northwest—One of the discussions at the San Francisco conference was hinged round the whole Northwest league. Some delegates fancied taking in the whole league and making the Coast a ten-team league. Pugdale favored this plan, but found opposition from the south.

Victoria's Chance—President Lucas, of the Northwest league, wrote a letter to Victoria last Friday which has since been received. He says: "I am in favor of giving Victoria a franchise for the 1911 Northwest league." If there is a combination between the north and the south there will be nothing to prevent the formation of a new Northwest league with six teams.

Yakenschmidt Coming—George Hackenschmidt, the Russian lion, whose only superior on the mat was Frank Gotch, has been signed up by John Curley, who took Ralston to London, to come to America. Curley announces he will arrive with his lion in November.

Mysterious Mitchell—The San Francisco ball team discovered a new pitcher who refused to give his real name. He is known as "Mysterious Mitchell." He is said to be the best pitcher to go on the market for the east.

A THIRD RUGBY CLUB FORMING
THREE-TEAM LEAGUE IS IN VIEW THIS SEASON
Organization Wants a Few New Men to Complete Fifteen—Good Grounds in View

Rugby is on the boom. A new club is forming. Before the schedule of games for the Rugby season is drawn there should be another club in Victoria, and there will be if the names of six or seven Rugby players, who are not affiliated with either the Victoria or the J. B. A. clubs, will send their names in to H. Grimason at the offices of the B. C. Electric Company.

Believing that there are more men on the Victoria and the J. B. A. teams than will be utilized by the two clubs, the movers in the new Rugby organization hope that men not likely to be selected for every match will connect with the new club.

They believe that it is better to have a third team in Victoria than to have two teams, and enough unused men separated between the clubs that would be the backbone of a third organization. These are the men wanted for the new club.

During the last year there were many hundred athletes newly come to Victoria, many of these being Rugby players. These new men are eager for the game this winter, but cannot connect with the two clubs already formed because the club strength is full.

The newcomers can join the new club. There are several players enrolled already, and with six or seven additional players, the nucleus of a contesting team for the Victoria club and the Rays will be complete.

Mr. Grimason, who played a few games here last fall, has taken the initiative in forming the third club, and has several players in line. He hopes by the end of this week to receive the names of enough men who play the game to make the third team complete. The third team will be the means of giving the other two clubs more practice, and if a consistent schedule is drawn and adhered to there will no doubt be a handsome cup offered for competition between the capital city teams. With a regular league here the fine points of the game would be improved, the men would have an incentive for regular training, the game would be improved and the chances of the coast and provincial championships remaining in Victoria would be much greater.

All players desiring to join can communicate with Mr. Grimason at the B. C. Electric office, or with the sporting editor of the Times, who will forward their names to the organizers of the new club.

Grounds have been located and arrangements will be completed for them as soon as the team is properly formed and is assured of a sufficient list of players.

Splendid Opportunity For Starting a Motor Delivery Service
There is nothing of this kind in the city, and to any person wishing to start such a business we offer a splendid opportunity to do so.
We have five touring cars which we will convert into delivery motor vehicles, and will give specially easy terms. These cars are all in good order and are absolutely of modern construction.
If you can see your way clear in opening up such a business, it will pay you to investigate this special offer.

CORINTHIANS PLAN A CANADIAN TOUR
Famous Touring Footballers Advise President of C.A.F.A. Trip is Practically Sure for 1911
Toronto, Sept. 20.—It is altogether likely that the Corinthian football club will visit this country next year and will play a series of games while making the transcontinental tour. On Saturday G. A. Parker, the president of the new Canadian Amateur Football Association, received a cablegram from M. C. Reeford, chairman of the Corinthian club, stating that the trip was practically assured, and there was but little doubt that the Britishers would visit Canada next summer.
This will not be the first time that the Old Country footballers have toured this part of the world, as they were here in 1904, when they defeated a Toronto picked team by 6 to 4. This summer they visited Mexico, where they played a long series of games, easily winning most of them. The Corinthians were planning to visit British Columbia this fall, but the tour fell through because Mr. Parker could not get the expenses guaranteed.

FIRST DEFEAT IN NINE-RING BATTLES
New York, Sept. 20.—The showing of "Fighting Dick" Nelson against "Dixie Kid" is the topic of much discussion today among followers of the fight game. Last night's defeat was the first in nine engagements. Nelson beat him decisively and the negro was lucky to escape a knockout. Nelson scored the only knock-out.

CHINESE PRINCE WELCOMED.
San Francisco, Cal., Sept. 20.—With all the pomp and ceremony due a personage of his rank, Prince Tsai Hsun, of China, was welcomed to San Francisco yesterday. A parade was formed and after marching through Chinatown the prince and his party were taken to the St. Francis hotel. The reception committee was composed of all the army and navy officers of high rank stationed in and near San Francisco, Mayor McCarthy, Chas. M. Schwab and other civilians.
Prince Tsai will be the guest of the Chinese six companies at a banquet at the Palace hotel, and to-day will leave for the east.

WESTERN AUTO MEN TALK GOOD ROADS
Association Formed and Preliminary Plans for Highway Discussed
(Times Leased Wire.)
Seattle, Wash., Sept. 19.—The preliminary organization of the Western Automobile Association was made at a meeting here on Sunday night. The Good Roads movement inspires the object of the association with the ultimate hope of the maintenance of an auto highway extending along the coast from Vancouver, B. C., to the Mexican border.
The clubs represented last night were the Auto Club of Southern California; the Victoria Motor Club, the Portland Automobile Club, the Vancouver, B. C. Automobile Club, the San Francisco Auto Club, the Chehalis County Automobile Club and the Automobile Club of Seattle.
The members of the committee on plans are: J. H. Devoe, Frank H. Frostwell and H. E. Foster, Seattle; E. H. Wesme and H. L. Keats, Portland; Ross, Vancouver; A. E. Todd, representing the Victoria and Southern California organizations; J. Murray Page, San Francisco, and President Davenport, of the Chehalis Club.

LIQUOR BY-LAW AGAIN CHANGED

CLOSING HOURS TO REMAIN AS AT PRESENT

Saloons Will Be Closed on Christmas Day—Card-Playing is Prohibited

A drastic change was made in the new liquor license by-law at last evening's meeting of the city council. As the measure passed last week it provided that the closing hour of all bars should be 11 o'clock on the week days, except on Sundays, when the bars, of course, remain closed entirely. When the by-law came up last night to be reconsidered and finally passed Ald. Sargison objected to the closing hours fixed.

He pointed out that it was only comparatively recently that the council had markedly increased the license fees. To cut down the hours for the sale of liquor now, in view of that circumstance, was just a little unfair. He moved that the clause to which he took exception be altered to read as formerly—12 midnight, except on Saturday evenings, when the closing hour is 11 p. m.

There was but little debate on this motion, and when the vote was taken it carried by a big majority, only the mayor, Ald. Bannerman, McKeown and Raymond voting in the negative.

Ald. Sargison next objected to the clause which prevented card-playing. In his opinion this provision was needless and drastic. Card-playing was a harmless pastime.

Mayor Morley said the clause had been inserted in the by-law at the request of the chief of police, who had said that it would be impossible to put a stop to gambling in saloons unless card playing be prohibited entirely.

Ald. Sargison moved that the words "card-playing" be struck out of the clause, and this was seconded by Ald. Humber.

Mayor Morley again called attention to what the chief of police thought about the matter. In his (the mayor's) opinion the chief of police was entitled to all the support the people could give him in his efforts to stamp out gambling.

Ald. Humber thought it would be a shame to prevent many respectable citizens who were in the habit of engaging in a harmless game of cards in hotels and public houses from the enjoyment of what to them was a pastime.

Mayor Morley thought that Ald. Humber was oversteering the case somewhat. The by-law only aimed to prevent the playing of cards in barrooms. The men to whom Ald. Humber referred could go into other rooms.

Several aldermen pointed out that the by-law as drawn would prevent card-playing on all "licensed premises." This would prevent men who wished

to indulge in the game from doing so in another room.

The mayor said the matter was in the hands of the board. He had done his duty by simply stating what the chief of police thought about the matter.

On the amendment of Ald. Sargison being put to a vote it was lost. Another amendment to strike out the clause which compelled all bars to be closed on Christmas Day was also negatived. The balance of the by-law was passed in its original form.

Replying to a question as to when the provisions of the by-law would become operative, F. H. McDiarmid, city solicitor, said "at once."

The city engineer and the city assessor advised that it would be necessary to submit a by-law to the ratepayers at large in an endeavor to secure authority for the added expenditure on a number of local improvement works which had been grouped in one by-law in 1908. A committee consisting of Ald. Langley, Sargison and Bannerman was appointed to investigate, the mayor pointing out that there had been no increase in the price of labor since 1908, and the excessive cost looked most peculiar.

On motion of Ald. McKeown the city engineer was instructed to remove such portions of the chains at the south end of the causeway as would allow pedestrians to pass along unobstructed.

Property owners on Bridge street entered a protest against the proposal of the city to grant Messrs. Moore & Whittington a permit for the erection on that thoroughfare of a saw mill and sash and door factory. The owners claim the section is a residential one and therefore enterprises of the nature of a mill are barred by the building by-law.

At Friday's meeting of the streets committee it was decided to grant the permit, but in view of the objections now made, the owners petitioning against the issue of the permit will be given an opportunity of stating their case to the streets committee next Friday night.

Owing to the fact that the tender of the Pacific Coast Construction Company for the paving with asphalt of Fort street, between Yates street and St. Charles street, was irregular in that the tender contained marginal notes indicating that the company would consider the paving with blocks between the rails of the tramway track as extras, the tender has been thrown out by the city council and the contract will be awarded to the Warswick Paving Company.

A large number of local improvement by-laws for works which have already been passed were put through their various stages, while final assessment by-laws for works which have been completed were also passed. The value of the new works is estimated at \$126,191, and the cost of the works completed for which assessment by-laws were passed is \$56,731.11.

The contract for the supply of 2,500 pounds of copper wire required by the city was let to the firm of Drake & Hawkins at \$18 per 100 pounds. That firm was the only one to submit a tender. The tender of the Pacific Coast Construction Company for grading and sidewalking Forbes, Asquith, Cecil and Victor streets was accepted, while that of the city engineer for improvements to Sutlej street was successful.

CAMPBELLTON STILL IN NEED OF MUCH HELP

Stricken Citizens Face Advance of Winter Poorly Prepared to Meet It

The following letter has been received by Frank I. Clarke, secretary of the local Canadian Club, from H. T. MacLachy, chairman of the finance committee which has been administering the relief fund in connection with the Campbellton fire sufferers:

Dear Sir:—Your letter to Postmaster MacKendrick was handed to me today. You suggest sending a brief statement of the wants of the town to the convention of Canadian clubs which met in Montreal yesterday and today. This letter has reached me too late to profit by your system. I therefore place before you our condition as nearly as I can.

Our population at the time of the fire was about 5,400. By the fire 5,300 persons were rendered homeless, and every industry destroyed along with every business house, churches, schools, halls, etc.

The loss is estimated at \$6,000,000. Insurance \$1,500,000. The insurance was very unevenly distributed; the poor people had very little. Six hundred families have applied for and received small relief, through our committee to look after the poor and destitute. A very large proportion of these families ought to receive assistance right through the months of December, January, February, March and April and up to the middle of May.

We have received 350 applications for aid in building and we expect the total number of applications will reach four hundred.

We are building thirty houses for the poor outright, and expect that we will have to build at least fifty—and perhaps sixty.

Our actual needs are about as follows:—Six hundred families aid between now and winter, \$50 per family, \$30,000. Assistance required to purchase fuel, clothing and food of the poor through winter months, 25,000. Erection of 50 houses at \$300 per house, 15,000. Assistance given towards building, 200 persons, \$200 each, 40,000. Assistance to 100 persons of \$100 each, 10,000. Assistance given to 40 persons of \$50 each, 2,000. Total expenses in the administration of funds about 10,000.

Total \$132,000. Sixty persons refused aid. The item for administration may appear large, but it must be remembered that we have had to build sheds to receive all supplies coming in, erect offices for the clerical staff and committees, look after the sanitary conditions created by the fire and to quite an extent guard the townspeople who have been turned out in the fields in tents. We have had to wholly direct our relief affairs. We had no place to start from other than a packing box.

I leave you to judge for yourself what help we need—we have received in round numbers \$95,000 in cash and we hope it will reach \$100,000. All supplies other than cash have been about distributed.

"WHITE SLAVE TRAFFIC"

Seattle, Wash., Sept. 20.—According to information made public here, 20 members of the American Purify Federation will leave Chicago in a special car the last of this month for an elaborate tour of investigation of the "white slave traffic."

Among those in the party will be B. S. Steadwell, of Chicago, president of the federation; Rev. Ernest A. Bell, superintendent of the Chicago midnight mission; Owen Ward, president of the National Association of Detectives; Dr. Ella F. A. Drake and Mrs. Della T. Lutes, editor of American Motherhood, Vancouver will be visited on October 7th.

Trusses giving safety and comfort. Free trial. Phone 1478.

WILL ESTABLISH TORPEDO STATION

U. S. Government Takes Steps to Secure Site on Puget Sound

Seattle, Wash., Sept. 20.—For the purpose of establishing a torpedo station and auxiliary navy yard, the national government has already taken steps to acquire a considerable tract of land, approximately 100 acres, at Kirkport, at the mouth of Dog Fish Bay.

The site received the approval of Admiral Miller on his recent visit to the Pacific coast, and after viewing it he called into conference the officers of the chamber of commerce and announced that as the department had only \$200,000 with which to make the purchase perhaps the most desirable way to acquire it would be to have the officers of the chamber send representatives into the vicinity and see how much of the property could be obtained for that amount. Sixty acres or about 20 per cent of the property needed has already been acquired.

The selection of Puget Sound by the navy department for the establishment of a torpedo station was a surprise to many, for the reason that strong efforts have been made by the representatives of California for its establishment somewhere on its coast.

The Mare Island outfit and equipment has been so generally regarded as a makeshift that the plan which is to come to Puget Sound was seriously sought by Californians.

The proposed torpedo station will be largely fashioned after that at Newport, Rhode Island. It is a departure for the Pacific Coast and it designed eventually to become a full-fledged navy yard.

TWO BURNED TO DEATH

Juneau, Alaska, Sept. 20.—Two children were burned to death in the home of their uncle, George Myers, a merchant of Douglas. Last month Myers was asked to take care of the four orphaned children of his sister, and he went to Seattle for the children and brought them to Douglas. Mrs. Myers went downstairs to the store, leaving three of the children in the room above. During her absence the upstairs part of the building caught fire and two of the children were burned to death. Mrs. Myers resumed the third.

BIG GAME GOING TO NEW ZEALAND

PREMIER WARD MAKES PROPOSAL TO EXCHANGE

Canadian Moose Doing Well in Southern Colony—Elk, Caribou and Goat Wanted

It is expected that during the present autumn a number of elk, moose, and other Canadian animals will be shipped on one of the big liners which call at this port outward bound. These are to go to New Zealand, where great efforts are being made to acclimatize the big game of British Columbia and the near-by provinces.

Kangaroos and wallabies may soon be hopping around the animal reservations of western Canada if the plans of Premier Ward of New Zealand to effect a wholesale exchange of wild animals between his country and Canada are carried out. A number of moose brought down from regions north of Edmonton and shipped to New Zealand across the Pacific ocean are now contentedly munching the tender shoots of trees which grow at our antipodes, and thriving on the diet as they would on willow leaves.

The success of the experiment has so pleased the premier of New Zealand that he has written Howard Douglas, commissioner of Dominion parks, to know whether an exchange of various species of animals may not be effected. New Zealanders want not only specimens of moose, but are anxious to secure elk, caribou and Rocky Mountain goats to add to their native fauna.

Mr. Douglas stated that not one of the moose shipped recently to New Zealand died during the voyage, although several years ago when a similar shipment was made all the animals died but two. He attributed the success of the latest shipment to the fact that the animals were in the very best condition when put on shipboard and fed on the way to New Zealand on green willow leaves. Half a carload of young willows, tied in bundles, were kept in cold storage on the boat and fed to the animals when they would eat nothing else.

Ten moose and two elk are being taken over this week by Mr. Douglas from Ed. Carey, of Andrew. These animals will be placed in the Wainwright buffalo park. Animals of other species will also be secured in the near future for the same park.

The commissioner of Dominion parks is to become a citizen of Edmonton. Mr. Douglas is making this move that he may be nearer to the Jasper park, situated at the entrance to the Yellowhead Pass.

"Banff is now a going concern, and it is our intention next year to develop the Jasper park," he said.

Mr. Douglas last fall visited the new national reserve west of Edmonton. As a result of his exploring expedition he is of the opinion that Jasper park is destined to become a second Banff. It has canyons, lakes and hot springs surpassing those of Banff, and just west of the park, at the summit, is the giant Mount Robson, the highest known peak in the Canadian Rockies.

Tired?—Nature's Sweet Restorer

Abounding in stimulating goodness, a most healthful and pleasing beverage. Its sustaining and invigorating qualities are beyond dispute.

Milled Where It Is Grown. Contains No Hulls

B & K Rolled Oats are always fresh because our Mills are right in the heart of the finest oat fields in the world and after B & K Rolled Oats have been milled they are packed at once into heavy cotton bags, which keep it fresh and clean. We improve the flavor considerably by heating the grain while it is being rolled under great pressure. The rolling process breaks the outer shell or wall of the oats, which makes it much easier to cook.

B & K EXTRA CREAM ROLLED OATS

are mealy—not stringy and tough like ordinary oats. They contain no hulls—no siftings. A large plate of B & K porridge in the morning is the best foundation you can possibly have for a hard day's work, because it is a bone and muscle builder. And it's cheap food too—a bag only costs 35c. If you want to know the goodness of B & K Rolled Oats buy a bag. But—buy to-day.

Cotton Bag 35c

Let us Buy a 50-cent bottle of Psychine (pronounced Si-keen) from your druggist and give it to you (free) to prove its Great Value

Psychine is the greatest vitality builder of the age. For thirty years Psychine has been curing almost every disease that is due to run-down vitality. Hundreds of thousands have used Psychine with wonderful beneficial results. We have received thousands of unsolicited testimonials from people whom Psychine has cured, of in many cases, hopeless ailments. There are still thousands of people suffering from disease, however, whom Psychine can benefit. There are still thousands who are trying to cure themselves by wrong methods, who are using dangerous and harmful medicines. There are still thousands who are gradually losing their vitality—from whose body the necessary resisting power to disease is slowly but surely slipping away. There are still those who soon will bear the dread "calf in the night" if they do not take prompt action. To these we have the above message, viz.: "Let us buy a 50-cent bottle of Psychine from your druggist and give it to you, free, to prove its great value." That 50-cent bottle of Psychine will tell you more powerfully than mere words can how tremendously beneficial Psychine will be for you. It will give you an unmistakable indication of its wonderful power to renew the bodily vitality, to strengthen the phagocytes (the white corpuscles), the policemen or scavengers of the body.

draw the attention of the scientific world to the function of the white corpuscles of the blood or phagocytes. Foreign medical men were astounded to see Japanese soldiers with wounds that had not been cleaned or dressed for days, that were apparently dirty, ill-kept, and altogether unsanitary. Yet these dirty wounds healed marvelously; no army the world had ever known had such a wonderful record for the recovery of their wounded as the Japanese army. And all because the Japanese know how to let the white corpuscles cure. There are two kinds of corpuscles in your blood, you know, red and white. The red carry nutrition, the white are the policemen or scavengers of the body. Whenever a disease germ enters the body, these white corpuscles attack and literally eat it. A wound that attracts disease germs from the air is cleansed and healed by billions of phagocytes, or white corpuscles, devouring these unwelcome disease germs. Any disease can be cured by these white corpuscles if they be in sufficient number or strong enough to attack and devour the germs that cause the disease. If they are not in sufficient numbers or strength, then the disease germs eat them and disease claims the body. That's the cause of every disease to which humanity is heir. For centuries the cure of disease has been by means of herbs—nature's remedies. It is only within recent times that we have come to know how these herbs act.

Now scientists tell us they increase the strength and the numbers of the white corpuscles or phagocytes. In Psychine we have some of the most healing and beneficial herbs in the world, herbs that increase and strengthen the white corpuscles. From Arabia comes one herb, from South America, another. China and Japan produce a third, while the jungle of India yields a fourth. All these herbs are recognized by the medical profession as being the most beneficial to health that they know. That's why Psychine, in the third of a century it has been made, has cured hundreds of thousands of people who suffered from the following diseases:—
 La Grippe
 Bronchitis
 Hemorrhages
 Sore Throat
 Anaemia
 Female Weakness
 Indigestion
 Poor Appetite
 Chills and Fevers
 Sleeplessness and Nervous Troubles
 After effects of Pleurisy, Pneumonia and La Grippe.
 That's why we believe it will be beneficial to you. Now we don't ask you to take our word for the tremendously beneficial effect of Psychine. Fill out the coupon below, mail it to us, and we'll give you an order on your druggist (for which we pay him the regular retail price) for a 50-cent bottle of Psychine to be given you free of cost. We will undoubtedly buy and distribute in this manner, hundreds of thousands of these 50-cent bottles of Psychine. And we do that to show our entire confidence in this wonderful preparation. A confidence that has been based on our 30 years' experience with this splendid preparation, with a full knowledge of the hundreds of thousands of cures it has made.

COUPON NO. 100
To the Dr. T. A. SLOCUM Ltd.
 193 Spadina Ave., Toronto

I accept your offer to try a 50-cent bottle of Psychine (pronounced Si-keen) at your expense. I have not had a 50-cent bottle of Psychine under this plan. Kindly advise my druggist to deliver this bottle to me.

My Name

Town

Street and Number

My druggist's name

Street and number

This coupon is not good for a 50-cent bottle of Psychine if presented the druggist—it must be sent us—we will then buy the 50-cent bottle of Psychine from your druggist and direct him to deliver it to you. This offer may be withdrawn at any time without notice. Send coupon to-day.

CONTROL BOVINE TUBERCULOSIS

VALUABLE REPORT OF INTERNATIONAL BODY

Entire Suppression of the Disease is Possible by Concerted Effort

At the annual meeting of the American Veterinary Medical Association at Chicago, Illinois, in September, 1909, the following gentlemen were constituted an international commission to study the methods of the control of bovine tuberculosis, and to submit a report to the association on the occasion of its next annual meeting: J. G. Rutherford, Leonard Pearson, V. A. Moore, Hon. W. D. Hoard, Frederick Torrance, M. H. Reynolds, Hon. W. C. Edwards, C. A. Hodgetts, M.D., J. B. Mohler, Louis F. Swift, J. W. Flavell, E. C. Schroeder.

The commission met at Buffalo, N. Y., on the 13th of December, 1909, and elected as chairman Dr. J. G. Rutherford of Ottawa, Canada, and as secretary, Dr. H. H. Reynolds, of St. Paul, Minnesota.

Owing to the death of Dr. Leonard Pearson, and the inability to act of Mr. Louis Swift, the president appointed in the stead of these gentlemen respectively, Dr. M. P. Ravenel, Madison, Wis., and Mr. T. W. Tomlinson, Denver, Colo. Later, at the request of the commission, the president appointed Mr. J. J. Ferguson, Chicago, Ill., as representative of the United States packing industry, and Dr. J. N. Hurty, Indianapolis, Ind., as representative of the medical health officers of the United States.

At the annual meeting for 1910, held in San Francisco a few days ago, Dr.

Rutherford presented the report of the committee as follows:

To the President of the American Veterinary Medical Association:

Owing to the great economic and sanitary significance of animal tuberculosis to the live stock industry of America, and the many and varied factors which must necessarily be accounted for in formulating successful measures for its eradication, the American Veterinary Medical Association, at its meeting in Chicago in September, 1909, appointed the international commission on the control of bovine tuberculosis. The commission was instructed to study the problem of tuberculosis among cattle and report at the next meeting of the association upon reasonable and economically practicable methods or systems to be recommended to both officials and live stock owners for eradicating this great scourge of domesticated animals.

It is recognized that tuberculosis is widely prevalent among cattle and other animals and that the frequency with which this great evil occurs is increasing rather than declining. As tuberculosis is one of the strictly preventable infections, there is good ground for the belief that through the formulation and enforcement of proper regulations the disease may eventually be entirely suppressed.

A Practical Policy.

The commission has held four meetings as follows: Buffalo, N. Y., December 13th and 14th, 1909; Detroit, Mich., March 1st and 2nd, 1910; Ottawa, Canada, May 19th, 20th, and 21st, 1910; Madison, Wis., June 27th and 28th, 1910, all of which were well attended very few of the members having on any occasion been absent. The commission begs to present as a result of its labors the following report, which, although brief, will, on examination, be found to comprise the principal points essential to the promulgation of a comprehensive and practical policy, such as may reasonably be adopted by any governmental body interested in the control of bovine tuberculosis.

It is quite unnecessary in view of the extensive knowledge already possessed by all who are familiar with the efforts which have hitherto been made to secure control of bovine tuberculosis, to dwell at any length upon the importance of the subject or upon the conditions which led to the formation of the commission.

In view of the personnel of the commission as selected by the American Veterinary Medical Association, and of the fact that so much information on the subject has been made available through the work of similar bodies in other countries, and the researches of scientific and practical men in America and elsewhere, the commission has not deemed it necessary to take any evidence either from expert witnesses or others.

The members fully understand that the purpose which their appointment was intended to serve was less the acquisition of new knowledge regarding bovine tuberculosis, than the careful study of the knowledge already available, and of the thoughts and opinions of those most entitled to speak with authority on the subject.

The conclusions reached in this report are, therefore, simply the outcome of

an earnest and thoughtful consideration of the various modern aspects and phases of the problem, with the object of crystallizing public opinion and so clearing the way for legislative action.

They realized also that they could deal with fundamental principles only, and that the details of any policy which they might outline, must in each case be worked out by the duly authorized and responsible representatives of the community immediately concerned.

They nevertheless deemed it essential to study closely the history of the various efforts hitherto made by such countries throughout the world as have attempted to legislate on the subject.

This naturally led to the gradual elimination of all methods other than such as might reasonably be adopted by any community desiring, in the full light of present day knowledge, to undertake the control of bovine tuberculosis.

Methods Discussed.

It was felt, in view of the prevalence of the disease, especially in some localities and among certain classes of cattle, the difficulty of providing a sufficient number of trained officials and the large economic questions involved, to say nothing of the enormous expenditure, that it would be unwise for the present at least, to seriously discuss a policy of universal compulsory testing and slaughter.

Such a policy might perhaps be adopted with advantage by a small community, or one in which the disease existed to a very limited extent, but speaking generally, especially in view of past experiences in this line, it was thought better to omit it entirely from the recommendations of the commission.

All other methods of dealing with bovine tuberculosis which have been recommended or tried in various communities, were thoroughly discussed, with the object of discarding weak points and adopting such features as might be deemed worthy of a place in the official findings of the commission.

Every phase of the subject was in this way fully and freely considered, it being thought best to cover the whole ground as completely as possible before coming to a definite decision on any one point.

In order to still further minimize the risk of omitting from the deliberations of the commission any phase of the question, four committees were appointed at the first meeting to deal respectively with:

1. Education and legislation.
2. Location of tuberculosis.
3. Disinfection.
4. Disposition of tuberculous animals.

The appointment of these committees proved to be of the greatest possible value in concentrating the energies of the various members of these branches of the subject with which they were most familiar, and their reports presented at subsequent meetings enabled the commission to reach satisfactory conclusions much more rapidly than would otherwise have been the case.

As a means of furnishing information as to the reasons for these conclusions and the manner in which they were reached, the commission would recommend that the reports of the committees should be published as an appendix to this report.

The commission recognizing after careful study that the tuberculin test is the fundamental factor in any policy having for its object the control of bovine tuberculosis, decided that a proper announcement to that effect should properly occupy a foremost place.

Based on the information contained in the reports of its committees and on such other information as was brought out in the general discussions of the commission, the following resolutions were adopted for presentation to the American Veterinary Medical Association.

Resolution 1. Disinfection.

As a general policy to be observed all contact between tuberculous and healthy cattle and between healthy cattle and stables, cars, etc., which may contain living tubercle bacilli should be prevented. To accomplish this the following specific recommendations are made:

1. There should be no sale or exchange of animals affected with tuberculosis except for immediate slaughter or for breeding purposes under official supervision.
2. That the managements of live stock shows should give preference to cattle known to be free from tuberculosis, either by providing special classes for such cattle or in some other practical way, and should also take every precaution to prevent contact between such animals and those not known to be free from disease.
3. All live stock shippers should take every precaution to see that cars furnished are thoroughly cleaned and disinfected before use.

Resolution 2. Tuberculin Test.

1. That tuberculin, properly used, is an accurate and reliable diagnostic agent for the detection of active tuberculosis.
2. That tuberculin may not produce a reaction under the following conditions:
 - (a) When the disease is in a period of incubation.
 - (b) When the progress of the disease is arrested.
 - (c) When the disease is extensively generalized.
3. The last condition is relatively rare and may usually be detected by physical examination.
4. On account of the period of incubation and the fact that arrested cases may sooner or later become active, all exposed animals should be retested at intervals of six months to one year.
5. That the tuberculin test should not be applied to any animal having a temperature higher than normal.
6. That any animal having given one distinct reaction to tuberculin should thereafter be regarded as tuberculous.
7. That the sub-cutaneous injection of tuberculin is the only method of using tuberculin for the detection of tuberculosis in cattle which can be recommended at the present time.
8. That tuberculin has no injurious effect on healthy cattle.

Resolution 3. Evidence From Tuberculin Test.

That a positive reaction to tuberculin in any properly conducted test, official or otherwise, in any animal in any herd, shall be considered evidence

upon which to declare the herd to be infected.

Resolution 4. Compulsory Notification.

That this commission recommends the passage of legislation providing for compulsory notification by owners and by veterinarians of the existence of tuberculosis in a herd, whether such existence be made known by detection of clinical cases or by the tuberculin test.

Resolution 5. Location Through Slaughter.

This commission recognizes that the discovery of tuberculosis in animals slaughtered for food purposes furnishes one of the best possible means of locating the disease on the farm, and therefore recommends the adoption of some system of marking, for purposes of identification, all cattle three years old and over, shipped for slaughter.

As tuberculosis of hogs is almost invariably due to bovine infection, this recommendation should also be made to apply to hogs of any age shipped for slaughter.

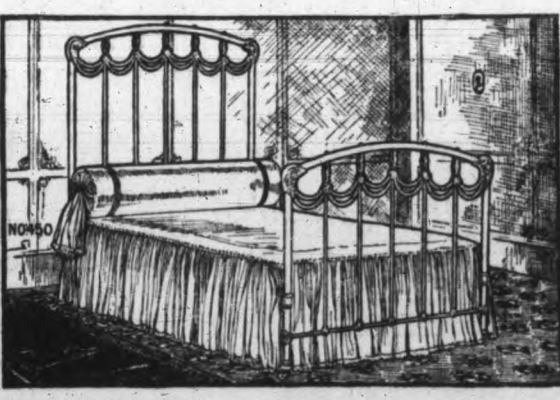

It is further recommended that the discovery of tuberculosis in animals coming under government inspection should be used whenever identification is possible, as a means of locating infected herds and premises. All such cases should be reported to the proper authorities for control action.

Resolution 6. Disposition of Tuberculous Animals.

1. As a general policy in the eradication of tuberculosis the separation of healthy and diseased animals, and the construction of a healthy herd are recommended.

In order to accomplish this, the following recommendations are made:

(Concluded on page 13.)

Made in 98 different styles.

"Ideal" Metal Bed beauty is much more than surface-deep. The smooth, glossy, snowy finish lasts. It keeps its looks in the home; not merely looks pretty in the store. Thus "Ideal" Metal Beds do not become shabby; they wear well; and you get far more satisfaction for the price you pay than you could from an ordinary bedstead.

Pay as little as four dollars, or much more, for your "Ideal" Metal Bed; and whatever you do pay, you buy identical quality. There is but one grade of "Ideal" excellence. That is why we guarantee every "Ideal" Metal Bed. You will find the Guarantee label on the footrail.

Look for it. It is worth your while to look for it. So it is to send for "The Philosophy of Sleep," an attractive little book that is mailed free if you ask for Booklet No. 144

2. That the managements of live stock shows should give preference to cattle known to be free from tuberculosis, either by providing special classes for such cattle or in some other practical way, and should also take every precaution to prevent contact between such animals and those not known to be free from disease.
3. All live stock shippers should take every precaution to see that cars furnished are thoroughly cleaned and disinfected before use.

Resolution 2. Tuberculin Test.

1. That tuberculin, properly used, is an accurate and reliable diagnostic agent for the detection of active tuberculosis.
2. That tuberculin may not produce a reaction under the following conditions:
 - (a) When the disease is in a period of incubation.
 - (b) When the progress of the disease is arrested.
 - (c) When the disease is extensively generalized.
3. The last condition is relatively rare and may usually be detected by physical examination.
4. On account of the period of incubation and the fact that arrested cases may sooner or later become active, all exposed animals should be retested at intervals of six months to one year.
5. That the tuberculin test should not be applied to any animal having a temperature higher than normal.
6. That any animal having given one distinct reaction to tuberculin should thereafter be regarded as tuberculous.
7. That the sub-cutaneous injection of tuberculin is the only method of using tuberculin for the detection of tuberculosis in cattle which can be recommended at the present time.
8. That tuberculin has no injurious effect on healthy cattle.

Resolution 3. Evidence From Tuberculin Test.

That a positive reaction to tuberculin in any properly conducted test, official or otherwise, in any animal in any herd, shall be considered evidence

You can Replace these Linings

easily, speedily and without the aid of any mechanic. Made in five separate pieces so if one burns out after long continued use, you can renew it without disturbing the other four. This lining is made of extra heavy durable semi-steel—set fire brick. It resists the strongest heat for the longest time. It is only one of the many strong exclusive improvements in a

KOOTENAY Steel Range

and the nearest McClary agent will be glad to have you ask him for a conclusive demonstration of all the other advantages. Don't spend that range money before you get full information and the Kootenay booklet. Write the nearest McClary branch. Now is the best time.

The Evening Chit-Chat

Do you ever make single basis snap judgments? Maybe, before you mentally answer, you would like to have me give you a vague idea of what it means.

"Stubborn Cinderella" To-night. A musical comedy which rushes along on its laughing, swinging, dashing way, with a vim and rapidity, a bewitching, delightful array of pretty girls, catchy music, whirlwind dancers and laughable dialogue and scenic, comes to the Victoria theatre to-night.

The chatter and jests, as the managers of the play call the book and lyrics, are by Will H. Hough and Frank R. Adams, the music is by Joseph-H. Howard, while Geo. Marion, one of the most original and noted of American stage producers, staged the dramatic portions.

E. Coit Albertson, a big magnetic comedian, who can sing and dance and who is an actor as well, plays the principal role, "Mac." Hazel Kirke, a prima donna of quality with a beautiful lyric soprano voice, plays "Lady Leslie." Her singing of the several numbers assigned to her will prove a veritable treat.

Miss Lillian Goldsmith will be seen in the part of Lois, and a more doll-like little soubrette never appeared here. As the stately Lady Evelyn Miss Mabel Charlebois is second to none.

The rest of the cast include all the very best people in the parts assigned to them. Among others are Dan Mayles, Neal Burne, Bobbie Wagner, Edwin Burns, Linford Jefferson and Dr. Dudley C. Fusher, late pastor of a Chicago church, who forsook the pulpit for the stage.

Among the many song hits are: "When You First Kiss the Last Girl You Love," "Don't Be Anybody's Moon But Mine," "Love Me Just Because," "Adios Senorita," "I'm in Love With All the Girls I Know," and "If They'd Only Let Poor Adams's Rib Alone."

"The Private Secretary." To-morrow night Huron L. Blyden and Associate Players will be seen in that sterling English comedy "The Private Secretary." Judging by the work of the company during their engagement here their presentation of this favorite play will be one which will be worth seeing and should ensure them crowded houses during the latter half of the week.

MAYOR WANTS ANOTHER REPORT ON GOLDSTREAM

At last evening's meeting of the council Mayor Morley raised the water question, enquiring if it was the wish of the board to take steps to make a further survey at Goldstream before the ratemakers were asked to vote on the by-law for the expropriation of the holdings of the Esquimalt Waterworks Company.

Ratepayers Not Yet Possessed of Facts to Vote Intelligently on By-Law

His worship thought the matter was one of some importance. The report which had been prepared by the committee, of which J. J. Shallicross was chairman, set out that the watershed consisted of about 3,000 acres, coupled with the fact that this area could be very largely increased. Before the people were asked to pass judgment on the by-law they should have information as to whether this latter statement was correct.

Ratepayers Not Yet Possessed of Facts to Vote Intelligently on By-Law

WILL EXPLOIT B. C. FISHERIES BIG STATION PLANNED FOR PRINCE RUPERT

Reported That British Capital Will Be Used in Developing Almost Neglected Industry

Following the recent visit of Sir Geo. Doughty, head of one of the world's biggest fishing concerns, to this coast it is reported that plans are already under way for the establishment of an immense fishing plant at Prince Rupert, from which steamers will be operated for the securing of cod, halibut and salmon.

Whether the site for the station was stated while Sir George Doughty was on the coast is not known, but rumor states that operations will be commenced at an early date.

Another station, backed by New York, Seattle and Boston capital, is to be erected at Ketchikan, Alaska, and its products will also be sent over the G. T. P. according to a dispatch from Seattle.

MODEL FARM FOR THE SKEENA DISTRICT
 Work is to Start at Once on the Enterprise—
 Trees Already Purchased for Orchard Section

Prince Rupert, Sept. 19.—The presence in the city this week of Mr. F. E. Mitchell, who is prominently identified with the location of a commercial and experimental farm on the Skeena, afforded the opportunity to become better informed on the objects and the plans of the promoters of the scheme. The farm is to be at Kitmagar, which is described as admirably adapted for the purposes intended. It is the centre of a vast agricultural section where the land is easily made ready for cultivation.

In carrying out the plans, those interested have men to take charge who are intimately acquainted with the farming industry in all its details and success is therefore assured. In J. R. Anderson, formerly deputy minister of agriculture in the province, they have a man who should have a very exact knowledge of various aspects of the industry. In addition to Mr. Anderson there is associated in the management of the farm Mr. Mills, a graduate of the Agricultural College at Guelph, Ont., and who has had a successful experience in the maritime provinces, and comes here with a vast fund of information which will be available in the various lines in which it is proposed to carry on operations.

It is the intention to devote about 400 acres to the farm proper and on this area in addition to the work which will be of a commercial character and not in any sense experimental, there will be attention given to testing along various lines of the industry so that the best results may be obtained.

Surrounding the company's farm is a large tract that will be available for subdivision so that there will spring up a prosperous settlement in that section where the smaller individual farmers will have the advantage of the experimental work that will be carried out.

A start will be made at once in the work of organizing the farm. The horticultural side of the industry is to receive every attention as it is felt

that that will be a most important part of the work. Already 15,000 fruit trees have been purchased and will be placed on the land next spring. An early start will be made in getting the orchard section ready and by careful attention and the thorough cultivation of the land it is expected to hasten the producing period of the plantation. In a new country like this there will be an entire absence of pests so that the management will not have that difficulty to contend with. It is the intention to sow clover and plow it under among the trees so that the very strongest growth may be maintained. The fertility of the soil will be well looked after and no attempt will be made to rob the orchard of the nourishment it requires in any attempt to produce additional crops on the same land.

Small fruits will receive attention also and a part of the area will be given over to that part of the industry which will give results very much quicker than the orchard proper. Care has been taken by those in charge to make an exact study of all the conditions so that varieties of fruit adapted to the needs of the place will be introduced.

The stock section of the farm will also be early introduced. The management of the concern realize that this is to be one of the most lucrative sides of the industry, and accordingly will place choice stock on the part of the farm intended for that. Eventually there will be a creamery established where the best results will be obtained from the dairy produce. It is recognized that in Prince Rupert there is a market unexcelled anywhere in this line and the aim of the company will be to supply that as fully as possible.

The enterprise with which those connected with this scheme are identified is certainly one that has great possibilities and is of inestimable value to the city of Prince Rupert and the whole of this northern portion of the province.

NEW YORK STOCKS.
 (Times Leased Wire.)
 New York, Sept. 20.—An active market, with gains scored all along the list, marked the opening of the stock market to-day. Union Pacific, Reading, American Smelting rose a full point. New York Central, Pacific Mail and Missouri Pacific gained by fractions. In the later trading the prices held, but advances stopped except in a few stocks in which trading was active. Pacific Mail jumped 1/2. People's Gas 1/2. Southern Pacific pfd. American Sugar and Tennessee Copper 1/2. In the trading to-day some slight declines were recorded. Bonds were firm. The market closed steady.

PERSONAL.
 Hon. W. Templeman went to Vancouver last night.
 Colin Campbell, Vancouver, chief license inspector is in the city.
 Dr. E. B. C. Hanington went over to the Terminal City yesterday on business.
 Mr. and Mrs. E. J. Pease and E. R. Pease, Montreal, are registered at the Empress.
 J. K. Macdonald, Mrs. Macdonald and Miss J. Macdonald, Toronto, are visiting Victoria and are at the Empress.
 Grand Trunk Pacific steamships now make night run to Vancouver, leaving here at midnight on Thursdays and Sundays.
 Mrs. Frank J. Seil, 205 Quadra street, will be at home on Wednesday and hereafter on the third Wednesday of each month.
 Miss McDonald has returned to 1803 Quadra street after two months' holiday with friends up the island and on the Mainland.
 Mrs. J. A. Johnson, Portland, Ore., is visiting her sister-in-law, Mrs. Fredette, Shilco street, and Mrs. Frank J. Seil, Quadra street.
 Thomas R. Hooper, architect, has returned from the North, where he was in connection with plans for public school buildings in Prince Rupert and Port Simpson, and a girl's school for the Home Mission Society in the latter city.
 George H. Halse, manager of the B. C. Telephone Co., has got back from Alberni, where he was in consultation with the board of trade regarding improvements in the local system and the connecting of that town with the company's long distance system. He says the latter will be undertaken in the near future.
 J. B. McKillop, surveyor of taxes and inspector of revenue for the province, has been unanimously re-elected a member of the executive committee of the International Tax Association, which met recently in Milwaukee. Hon. A. P. McNab, Regina, was elected vice-president for Canada, and Mayor Geary, Toronto, secretary for Canada.
 W. T. Cranfield, M. J. I., London, Eng., representing the Evening Standard and St. James' Gazette, is leaving tonight for Vancouver on his return to the Old Land. He is greatly impressed with the possibilities of this country and wonders why more of the people of the cramped cities of England do not come to this land of opportunity.

J. Dods Shaw, London, official editor of the debates of the British House of Commons, is at the Empress. Mr. Shaw has been connected with the House of Commons for the past thirty years and up to a few years ago was political editor of the Press Association. In his present duties in the House he has under him fifteen expert reporters besides a large corps of stenographers. The official reports of the debates are published each night and are furnished to the members of the House by early morning in the same way as is done at Ottawa. Mr. Shaw is accompanied by his wife and they will remain here for some days.
 J. R. Anderson returned to the city a day or two ago after making a trip up the Skeena river as far as Hazelton. He travelled on the Inlander, the new boat that was built here last winter. He reports that the river navigation is being found very difficult, nearly all the steamers having been around or in difficulties of some kind. It took five days to reach Hazelton from Prince Rupert and three days to return. The weather was very fine, the scenery most beautiful, and the

Get in the Game
GET IN TO WIN

There are many firms pegging away, kicking up a little dust occasionally by a bit of spasmodic advertising—getting more business—then going back to the same old gait, and wondering why a progressive neighbor gets the trade.

Almost anything on earth is possible if gone after in the right way.

If you feel you could do more business, get in the game with proper equipment; set the pace. The advertising media is the essential.

The Times is a true vehicle of publicity. It holds the confidence of its subscribers.

It reaches the people who have money to spend, the people whom you have to look to, Mr. Advertiser, for the maintenance and growth of your business.

If you're in the game to win you need The Times' assistance.

FAMOUS PAINTER.

With the death of the famous painter, William Holman-Hunt, passes one of the greatest painters of the last century.

Like many other great artists, he started in life in the world of commerce, and in his spare moments used to draw small subjects on scraps of paper. Then he studied art about three days a week, and after two unsuccessful efforts he was, at the age of twenty, admitted as a student of the Royal Academy. Afterwards followed years of hard fighting, but tenacity of purpose and work of sterling merit eventually won him fame. It was with Millais, Rossetti and Collingwood that he founded the Pre-Raphaelite Brotherhood. All through his career, Mr. Hunt remained faithful to the ideals of this group of youthful reformers. During the fifties of the last

century he turned his mind to the painting of religious subjects, and of these his famous picture, "The Light of the World," is perhaps the most familiar.

He exhibited his first picture at the Royal Academy in 1848. In addition to "The Light of the World" some of his other paintings of note were: Christian Priests Escaping from Persecution of Druids, London Bridge, Nazareth, Egyptian Girl, St. Swithin, Shadow of Death, Finding of Christ in the Temple, Valentine and Sylvia, The Triumph of the Innocents, Isabella and the Pot of Basil, May Morning in Magdalen Tower, Holy Fire in Church of Sepulchre, Jerusalem, The Lady of Shalott, etc. He painted a life-size version of "The Light of the World" in St. Paul's Cathedral, London. He also published a book on Pre-Raphaelism and the Pre-Raphaelite Brotherhood in 1895.

William Holman-Hunt was 83 years of age at the time of his death.

CONTROL BOVINE TUBERCULOSIS

(Continued from page 8.)

(1) If the herd is found to be extensively infected, as shown by the tuberculin test or clinical examination, even the apparently healthy animals in it should be regarded with suspicion, until they have been separated from the reacting animals for at least three months.

If after the expiration of this time they do not react to the tuberculin test, they may be considered healthy and dealt with accordingly.

It is recommended that a herd extensively infected should not be treated by the method of general separation, but that the construction of a new herd from the offspring of a new herd from the healthy animals, and the offering of such herds as advised.

(2) If the herd is found, by either or both of the above methods, to contain a relatively small proportion of diseased animals separation of the diseased animals from the healthy animals, and the construction of a sound herd from the healthy animals, and the offering of such herds as advised.

(3) That herds containing 50 per cent or more of diseased animals be treated as coming under section 1.

(4) That herds containing under 15 per cent of diseased animals be treated as coming under section 2.

(5) That herds falling between these figures be graded according to the opinion of the owner.

(6) That it shall be the prerogative of the owner to reject either plan and have his herd dealt with by removal and slaughter of diseased animals, with or without compensation, according to the public policy in operation.

2. That when by any means the officials properly charged with the control of tuberculosis become aware of its existence in a herd to which a policy of slaughter and compensation cannot reasonably be applied, such herd must be dealt with by the owner, under government supervision, on the principle of the separation of all sound animals from those affected. Such separation must be effected by treating the whole herd as diseased, and removing the calves separately, either on Pasteurized milk or the milk of healthy cows, or when the number of those affected is so small as to warrant such a course, by the application to the whole herd, from time to time, under official supervision, of the tuberculin test, and the entire segregation of all animals found to react.

In the event of any owner refusing or neglecting to adopt either of the above methods, his entire herd to be closely quarantined, and sales therefrom to be entirely prohibited.

3. That a policy of compensation be recommended as useful and usually necessary as a temporary measure.

4. That, when slaughter is necessary, in order to avoid economic loss, every effort should be made to secure as far as possible the meat of such animals as may be found fit for food on being slaughtered under competent inspection.

5. The details of the commission plan will be found fully set forth in the appendix of this report.

Resolution 7. Prevention.

1. That, with the object of preventing the spread of infection, persons buying cattle for breeding purposes or milk production should, except when purchases are made from disease free herds which have been treated by a properly qualified person, purchase only subject to the tuberculin test. In order to assist in the proper carrying out of this suggestion, the commission recommends that official authorities should adopt such regulations as will prevent the entry to their respective territories of cattle for breeding purposes or milk production unless accompanied by satisfactory test charts.

2. That all milk and milk by-products used as food should be properly pasteurized unless derived from cows known to be free from tuberculosis.

Resolution 8. Control of Tuberculin Test.

That this commission recommends the passage of legislation which will prevent the sale, distribution or use of tuberculin by any persons other than those acting with the full knowledge, or under the direction, of official authorities.

Resolution 9. Education.

As a clear knowledge of the cause and character of tuberculosis among animals, the modes of dissemination, its significance as an economic and as a public health problem, underlie an intelligent adherence to the principles that must be observed in all efforts for eradication, as well as the establishment of proper co-operation in the great work between physicians, veterinarians, live stock owners, legislators, and the public generally, it is recommended that a widespread campaign of education be undertaken. To accomplish this end it is recommended that first of all a simple pamphlet on bovine tuberculosis be written, in which the language used shall be of such a character that every person of average intelligence shall be able to read it without being mystified by technical terms or phrases. This pamphlet should be published with the endorsement of the American Veterinary Medical Association and the special endorsement and consequent authority of the international commission of bovine tuberculosis control.

Resolution 10. Publicity.

In concluding its work the commission desires to especially appeal to the press, metropolitan, agricultural and local to join in the work of extending as much as possible among the people the conclusions here arrived at. The vital importance of the life of farm animals to the welfare of all classes of society needs no argument in its support. The aim and sole purpose which has actuated this commission has been to arrive at the soundest conclusions possible in the light of the best knowledge obtainable.

Resolution 11. Legislation.

It is recommended that legislation regarding the control and eradication of tuberculosis among domestic animals be made uniform; that the laws of the United States and Canada and other

AWAKENING OF SCIENCE

TO THE VALUE OF FRUIT
 What is "FRUIT-A-TIVES?"

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice. A physician in Ottawa, after years of patient work, discovered a process whereby the medicinal or bitter principle of fruit juice is increased, in quantity and thus a more active and more valuable substance is obtained. "Fruit-a-tives" is the only medicine in the world made of fruit.

Hundreds of prominent people in every section of the "Fruit-a-tives" their good health to "Fruit-a-tives." Hundreds more are daily becoming stronger and better by taking them. "Fruit-a-tives" is daily proving its inestimable value as a natural cure in all cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neuritis, Rheumatism, Kidney and Skin Troubles.

50c. a box, 4 for \$2.00 or trial box, 25c. Sold by all druggists, or sent, post-paid, on receipt of price by Fruit-a-tives Limited, Ottawa.

American countries for the admission into America of animals from without be made stringent and as much as possible; and that the laws governing the inter-state and inter-provincial movement of cattle and that between different American countries be harmonized.

The laws governing inter-state and inter-provincial movement of cattle should be of such character that every state and every province will be free in its eradication work from unnecessary difficulties due to the existence of the disease in other states and provinces.

Legislation is especially required to prevent the various frauds which interfere with the satisfactory use of tuberculin as a diagnostic agent for tuberculosis, as well as for official supervision over all tuberculin sold to be used by veterinarians and others.

Resolution 12. Sanitation.

In the eradication of tuberculosis it should be kept in mind that, in addition to protecting animals against exposure to tubercle bacilli, it is desirable to make them as resistant to infection as possible. This can be done by stabilizing them in clean disinfected and properly ventilated and lighted barns, giving them abundant clean water and nutritious food, a sufficient amount of daily exercise in the open air, and attending generally to those conditions which are well known to contribute to the health of animals.

The daily removal of manure from stables, and water-tight floors and good drainage in stables are urgently recommended.

Young stock particularly should be raised as hardy as possible and should be accustomed to liberal exercise and living in the open air.

Resolution 13. Immunization.

That as none of the various methods for the immunization of animals against tuberculosis have passed sufficiently beyond the experimental stage the commission is unable to endorse any of these for practical use at the present time.

Resolution 14. Animal Tuberculosis and Public Health.

While the members recognize that the subject with which this commission is primarily intended to deal is the control and eradication of tuberculosis among animals as an economic problem, they are glad to be satisfied without denying their recognition of the fact that tuberculosis among animals is also an important public health problem. Considered as such the eradication of tuberculosis among animals should have the approval and support of all those persons who are interested in curtailing human effort and prolonging human life.

Resolution 15. General Statement.

The members of the commission wish it to be clearly understood that they recognize the limitations of a report necessarily based on actual and not on theoretical conditions. They fully realize that in the event of the policy of which their recommendations form the framework, being anywhere adopted, even in its entirety, much greater benefit will be derived, at least for some time, from its executive than from its executive features.

The control, to say nothing of the eradication, of bovine tuberculosis, is impossible of achievement without the hearty co-operation of the men who are actually engaged in the cattle industry. In order to secure this co-operation, it will doubtless be necessary, in most communities, to carry on an active and prolonged educational campaign.

It is apparent that in the dissemination of practical and reliable information regarding the disease, it will be possible to employ a very large variety of methods. Many of these methods, such as bulletins, lectures and actual demonstrations of disease, having already been found valuable, will doubtless continue to be largely used.

It must not be forgotten however, that in this, as in any other educative process, a measure of disciplinary control is essential to success.

Needless to say such control can be secured only by the passage of legislation which, while clear and comprehensive must, at the same time, be sufficiently conservative to avoid exciting alarm or arousing antagonism on the part of owners especially of valuable herds.

The best law ever framed can be made an utter failure by stupid or injudicious administration, while, on the other hand, the most drastic legislation can be rendered acceptable if enforced with reasonable tact and diplomacy.

Provided, therefore, that these qualities, combined with integrity, thoroughness and determination, are available for administrative purposes, the members of the commission are convinced that the enforcement of a law based on their recommendations, will prove to be by far the most powerful and effective educational agency which could possibly be employed.

ROCK HAVEN

Beach Drive
 Oak Bay

This is certainly a handsome home. The above cut only gives a rough idea. Situated on ninety feet of waterfront, having an uninterrupted view of the sea and Mount Baker, and well protected from prevailing winds.

The Bungalow contains reception hall, drawing room, dining room, breakfast room, kitchen, 2 bedrooms, pantry, linen closet, large basement, sideboard built in, all modern conveniences, space in attic for three rooms if desired.

TROUBLE WITH THE STOMACH

That Can Only Be Cured When Liver and Kidneys Are Set Right by DR. A. W. CHASE'S KIDNEY AND LIVER PILLS.

It is customary to put all the responsibility on the stomach for indigestion and its accompanying discomforts.

This is all wrong, for almost always the liver and kidneys are to blame, and you find among the symptoms constipation, backache, biliousness and headache.

You will be surprised how quickly Dr. A. W. Chase's Kidney and Liver Pills will regulate the liver, kidneys and bowels and get the digestive system into good working order.

If you are in earnest about a cure, don't bother any more with mere aids to digestion, but rid the whole system of poisonous impurities by using Dr. A. W. Chase's Kidney and Liver Pills, and you will know once again the pleasure of living.

This medicine gets at the cause of trouble and makes the cure complete. One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

FOUR KILLED IN WRECK.

Chicago, Ill., Sept. 20.—Four men were killed and two injured in a head-on collision between Mobile & Ohio and Iron Mountains freight trains seven miles north of here, near Beech Ridge, Niles. The dead: Claud Rollins, engineer of Mobile & Ohio; A. Crosser, fireman, Mobile & Ohio; W. R. Stevenson, brakeman, Mobile & Ohio train; all of Jackson, Tenn; unidentified negro.

HIGH VOLTAGE.

Immense Electrical Power Carried Over Wire From Niagara Falls to Berlin Recently.

The Hydro-Electric Power Commission's transmission line from Niagara Falls to Berlin has been submitted to an extraordinarily rigid test recently. The power was turned on by the Ontario Power Company at Niagara Falls at 110,000 volts, the tension which the system was designed to bear. The voltage was gradually increased until it reached 180,000 volts and the power was carried at this enormous tension without mishap to Berlin, 115 miles away. This performance is regarded as a triumph of engineering, and P. W. Sothman, chief engineer of the commission, and his staff are receiving congratulations from all sides.

Danger signs were affixed to the towers between Niagara Falls and Berlin, and on the following day, when the power was turned on, crowds of people gathered at the various stations to be present when the first time. A deep humming sound announced that the powerful current was passing over the wires, and this increased in volume as the tension was raised at the order of Mr. Sothman, speaking over the commission's telephone line from the central station at Dunders. The tension was gradually increased until 180,000 volts was reached, probably the record for long distance transmission of the world over. Indeed the magnitude of the commission's undertaking made it necessary for the engineers, to design machinery for use in transforming and insulating stations, and to make insulators able to stand the enormous strain they would have to bear on the new line. All the apparatus of the Falls was specially designed for it.

The tests of the line will continue as each section is completed. In another three weeks the municipal distributing plant at Berlin will be ready for operation and the line will be formally opened by Sir James Whitney at a big demonstration in that town.

BANKER ON TRIAL.

Bellingham, Wash., Sept. 20.—Harry J. Wells, charged on a number of counts with accepting deposits for the Home Security Savings Bank when he knew the institution to be insolvent, yesterday was placed on trial in the Superior court. He was formerly president of the state bank, but was deposed by the state bank examiner. Wells was arrested some weeks ago after he came home from British Columbia, where he had hidden for some time following the close of the bank.

WILL LAUNCH BIG PUBLICITY CAMPAIGN

Nelson Board of Trade Decides to Advertise Resources of the District

Nelson, Sept. 19.—Whether to close the doors of the publicity office and admit belonging to a dead city, or to carry through the mooted proposition for a great co-operative scheme of advertising for the whole Kootenay, and on a scale that would be certain to produce results, was the alternative that the members of the Nelson board of trade placed before themselves. Matters were brought sharply to a head by the announcement of President Starkey that the publicity office was to be closed forthwith, after having been maintained for three months by Secretary Beeston out of his own pocket. Scathing criticisms of the city council were indulged in by more than one speaker. But one opinion prevailed, however, and that was that the publicity office must not be dropped, but rather quadrupled. The meeting voted unanimously for proclaiming at once the larger scheme, decided to have Secretary Beeston make a month's campaign among the boards of trade of the Kootenay, and instead of waiting in hopes of getting a civic grant from the next election, appointed a committee to make an immediate canvass for funds to defray the expenses of the propaganda.

The publicity subject was the big one of the meeting, and next to it was that of re-adjustment of freight rates. On the matter of freight rates, Mr. Beeston reported, covering the early correspondence had with the board of railway commissioners, and the reasons why it was thought best to go to Vancouver, and to be conferred with an eye to the general issue unexpectedly arising. The president and himself therefore went to the coast, the trip being paid for out of the \$250 grant given to Nelson for this purpose by the provincial government. As it turned out, Mr. McDonald, the counsel for Vancouver, instead of specifying rates that were supposed to discriminate, took the stand that the C. P. R. was obliged to furnish him with the information he required. This case then came under a rule of the board which required the C. P. R., if admitting the alleged facts, to justify them. Mr. McDonald then having the opportunity to refute them, the hearing was then adjourned to Montreal.

Mr. Starkey suggested that this freight rate committee, and that on the Spokane rates be amalgamated, and this was duly reported.

Mr. Beeston reported that the Cranbrook board of trade was the only board of trade to acknowledge a circular letter which he sent out, on the subject of co-operation among the various districts in a general scheme of advertising. The Cranbrook board proposed to consider the matter and expressed complete sympathy with the movement.

NICOLAS FALL FAIR.

Merritt, Sept. 19.—Nicola's first fall fair was held last week and it was a gratifying success. In point of exhibits and attendance it was far beyond the expectations of the directors. The horses were particularly good, and were also the sheep and cattle, and well sustained the enviable reputation of this district in the matter of live stock. In the fruit, vegetables, roots, grains, fancy work, household arts and minerals, there was a good showing. One of the features of the fair was the initial appearance of Merritt's first brass band. There were fourteen members and they played exceptionally well. The fair will be an annual fixture.

Troulois—Tourist excursions Wednesdays and Saturdays. For information telephone 511.

SECURES SITE FOR LOGGING STATION

Lumber Company Will Build Mill at Fairview—Route Surveyed for Railway

Nelson, Sept. 19.—That the McGoldrick Lumber Company has purchased the land known as the Crawford bay townsite to use as a logging station for lumber cut in its limits at the head of Hooker and Canyon creeks and that the company is now in a position to go ahead with the construction of their mill at Fairview was the information given by T. C. Proctor, agent for the lumber company.

The mill site in Fairview was purchased by the McGoldrick Lumber Company, which is operating mills at Chase and Spokane, eight years ago. The company was not, however, at that time in a position to erect the mill mainly owing to the fact that it possessed no land which might be used as an outlet from the limits near Crawford bay. This difficulty is removed by the purchase of the Crawford bay townsite, which consists of 160 acres of land.

The company has already surveyed a route for a logging railway from the lakeshore to the head of Canyon and Hooker creeks, a distance of some eight miles, and will proceed with the construction of the railway shortly. Such of the 160 acres of land purchased will be subdivided into tracts and sold to fruit ranchers.

The McGoldrick Lumber Company has owned the timber limits for many years and have been negotiating with the owners of the townsite, Judge J. A. Macdonald and H. Roy, for the past two years with a view to making use of the land as a logging terminus. The deal was closed by Mr. Proctor while he was away at the coast.

The new mill near the city park will be of large capacity and will employ a considerable staff of men.

Nelson has already one large lumber mill, that of the Yale-Columbia Lumber Company, and with the addition of the McGoldrick mill at Fairview and the Porto Rico mill near the C. P. R. station, the output of manufactured lumber from Nelson will be the largest in West Kootenay.

SEEK GRANT FOR FAIR.

Grand Forks, Sept. 19.—At a meeting of the city council a letter was read from the Grand Forks Agricultural Association, asking the council for a donation of \$500 in aid of the fall fair to be held in this city on October 4th and 5th. The matter was referred to the finance committee, with instructions to report at the next meeting on the funds available for this purpose.

The chairman of the water and light committee reported the arrival of forty-nine electric light metres.

The mayor reported that he, together with Dr. Kingston, E. Miller, M.P.P., and the health and relief committee, had had plans prepared for an insolation hospital at an expense of \$25,000. It would be a one-story structure, 22 x 26 feet, and contain four rooms and a bath. The matter was referred to the health and relief committee, and the city clerk.

BOY SCOUTS.

Prince Rupert, Sept. 19.—At a meeting held in the school house and afterwards in St. Andrew's hall a company of General Baden-Powell Boy Scouts of the Prince Rupert Scoutmaster B. W. Browne, Dr. Reddie is treasurer and Rev. James president pro-tem. This organization is strictly non-denominational and the city council will be asked to appoint a board of directors which shall be representative.

AUTO SERVICE TO MINES.

Salmo, Sept. 19.—The enterprising citizens of Salmo have invested in a 50-horse-power automobile to carry passengers to and from the Sheep Creek mines, covering the ten miles in a little over thirty minutes.

FIRE DESTROYS LAUNDRY.

Prince Rupert, Sept. 19.—A Chinese laundry at the corner of Fifth avenue and Bowser street, was destroyed by fire the other day.

The fire is believed to have originated in the drying room. The laundry stood in the midst of a good residential section and the neighborhood became quickly alarmed. The loss to the Chinaman is about \$1,500. There is no insurance.

CANOE CAPSIZED.

Kamloops, Sept. 19.—The dug-out canoe equipped with a 12-horse-power engine, recently built by the Christensen brothers, met with an accident in the rapid up the North Thompson river and capsized with a load of freight. Both of the brothers reached shore safely, but it will be some weeks before the dug-out is in commission again.

SWISS GOATS.

Nelson, Sept. 19.—That the Swiss goats are fully the equal of the English goats for milking purposes, if indeed they do not lead the world, is the contention of Charles Gansner, the well-known rancher of Granite. Mr. Gansner was greatly interested when the importation of pedigreed goats from England was proposed. Now that the English goats are indefinitely held up by the embargo on all English live stock, owing to fear of anthrax and mouth disease, Mr. Gansner comes forward with the suggestion that the Swiss goats be considered.

STAMPEDE OF MINERS TO HOPE MOUNTAINS

Great Excitement Prevails Over the Discovery of Rich Mineral Area.

New Westminster, Sept. 19.—What is believed to be one of the greatest mineral areas in British Columbia has been located this summer in the Hope mountains about 35 miles from the town of Hope, and this region has now become the Mecca of hundreds of miners and prospectors from various points along the Pacific coast. Gold, silver, lead and copper have been found in large quantities and now the whole of the mountains are being prospected and claims staked by men who believed that here is a second Eldorado.

While prospecting had been carried on intermittently in the Hope mountains for years it fell to the lot of two Americans, Daniel Greenwalt, a prospector, and Mr. Stevens, a mining engineer from Nevada, to make the strike which has caused the present gold excitement. They were prospecting in the mountains south east of Hope on the Skagit river and found indications of gold bearing quartz. Following the lead up Muddy creek they finally staked a claim in Steamboat mountain.

As soon as they returned to Hope and told of their strike there was a stampede of the residents of the town and district and of prospectors in the vicinity. Steamboat mountain is only some 45 miles away and the trail is good so it was not long before the greater part of the mountain in the vicinity of the claim of Greenwalt and Stevens was staked. The majority of the residents returned to their everyday vocations and left the rest to fortune.

Not so Dan Greenwalt and his equally energetic partner, Mr. Stevens. These men took out many samples of ore which assays from \$5 to \$5,000 per ton in gold. They have an eight-foot ledge of this rock in their claim which has been crossed at several places and shows the ledge to extend a distance of 500 feet.

The strike was made in July and since then the partners have been looking after the financial end of the proposition and are making active preparations to develop their claim. They plan to invest \$10,000 in working the claim during the coming winter and by next summer hope to be shipping out gold in large quantities.

Some of the prospectors who have gone in through Hope are pretty well known in British Columbia, many of them having spent some time in the Portland Canal mining district.

That gold is not the only lure in the Hope mountains is evidenced by the action of John Vinson, of Spokane, who has bonded the International mining claims, owned by Gibson Bros. for \$40,000. These are silver and lead claims of great promise, situated on the opposite side of the Skagit valley from Steamboat mountain. Mr. Vinson has returned to Hope from Spokane, and will return in a few days to complete his arrangements for the active development of the claim.

As a result of the activity of prospecting in the Hope mountains horses are rather scarce and at a premium. Those available are being taken out constantly by prospecting or hunting parties.

BOY SCOUTS.

Prince Rupert, Sept. 19.—At a meeting held in the school house and afterwards in St. Andrew's hall a company of General Baden-Powell Boy Scouts of the Prince Rupert Scoutmaster B. W. Browne, Dr. Reddie is treasurer and Rev. James president pro-tem. This organization is strictly non-denominational and the city council will be asked to appoint a board of directors which shall be representative.

AUTO SERVICE TO MINES.

Salmo, Sept. 19.—The enterprising citizens of Salmo have invested in a 50-horse-power automobile to carry passengers to and from the Sheep Creek mines, covering the ten miles in a little over thirty minutes.

FIRE DESTROYS LAUNDRY.

Prince Rupert, Sept. 19.—A Chinese laundry at the corner of Fifth avenue and Bowser street, was destroyed by fire the other day.

The fire is believed to have originated in the drying room. The laundry stood in the midst of a good residential section and the neighborhood became quickly alarmed. The loss to the Chinaman is about \$1,500. There is no insurance.

CANOE CAPSIZED.

Kamloops, Sept. 19.—The dug-out canoe equipped with a 12-horse-power engine, recently built by the Christensen brothers, met with an accident in the rapid up the North Thompson river and capsized with a load of freight. Both of the brothers reached shore safely, but it will be some weeks before the dug-out is in commission again.

SWISS GOATS.

Nelson, Sept. 19.—That the Swiss goats are fully the equal of the English goats for milking purposes, if indeed they do not lead the world, is the contention of Charles Gansner, the well-known rancher of Granite. Mr. Gansner was greatly interested when the importation of pedigreed goats from England was proposed. Now that the English goats are indefinitely held up by the embargo on all English live stock, owing to fear of anthrax and mouth disease, Mr. Gansner comes forward with the suggestion that the Swiss goats be considered.

DIRECTORS PAY VISIT TO CENTRE STAR

Well Satisfied With Progress of Work at Trail Smelter and Mine

Rossland, Sept. 19.—The Centre Star received a visit the other day from three of the directors of the Consolidated Mining & Smelting Company. They were W. D. Matthews, president; E. B. Osler, M.P., who is also a director of the C. P. R., and C. A. Bogert, who is also general manager of the Dominion Bank. They are all of Toronto. During the early part of the day they visited the smelter at Trail and then drove to Rossland, where they were the guests of J. S. C. Fraser. They were then driven to the office of the Centre Star mine, but did not go underground.

W. D. Matthews, in an interview, said that as they came along on the railway from the east the crops looked to be in excellent condition, and as might be expected, this made the people more confident and hopeful. Out in the west there was a great deal of faith in the future of British Columbia, and more particularly the Kootenays. He was very glad to see the development of fruit lands, and that there was a little more activity in the mines. Properties in the east were being opened up and he understood there was some talk about the older properties around Rossland being worked again. He thought the beginning of the making of roads throughout British Columbia marked a new era for it was not much use having railways and steamboats if they had not roads over which they could take the people to see the land when they got here.

He had nothing particular to say with regard to the Centre Star. The directors were well satisfied with what they had seen at the smelter and at the mine. Everybody seemed to be interested in their work. He could not say at present whether a dividend would be paid this year. There was to be a meeting towards the end of the month; and the directors had come over to learn.

FIRE DESTROYS LAUNDRY.

Prince Rupert, Sept. 19.—A Chinese laundry at the corner of Fifth avenue and Bowser street, was destroyed by fire the other day.

The fire is believed to have originated in the drying room. The laundry stood in the midst of a good residential section and the neighborhood became quickly alarmed. The loss to the Chinaman is about \$1,500. There is no insurance.

CANOE CAPSIZED.

Kamloops, Sept. 19.—The dug-out canoe equipped with a 12-horse-power engine, recently built by the Christensen brothers, met with an accident in the rapid up the North Thompson river and capsized with a load of freight. Both of the brothers reached shore safely, but it will be some weeks before the dug-out is in commission again.

SWISS GOATS.

Nelson, Sept. 19.—That the Swiss goats are fully the equal of the English goats for milking purposes, if indeed they do not lead the world, is the contention of Charles Gansner, the well-known rancher of Granite. Mr. Gansner was greatly interested when the importation of pedigreed goats from England was proposed. Now that the English goats are indefinitely held up by the embargo on all English live stock, owing to fear of anthrax and mouth disease, Mr. Gansner comes forward with the suggestion that the Swiss goats be considered.

READ THE TIMES

Uncle Walt The Poet Philosopher

The doctors come and raise a riot because I'm fond of steak and pie; they say I'll have to change my diet, or I'll curl up some day and die.

"You have a flush that's rather hectic," in gloomy tones the doctors say; "moreover you are apoplectic, and ought to live on prairie hay. Rich grub will kill you if you eat it—it's brought you to an evil pass; and if you're wise you'll surely beat it out to the fields and there eat grass." This is a dismal and a drab age, when one who has the price of steak must fill his inner works with cabbage and succotash until they ache. The Weary Willie in the city, without a nickel in his jeans, stands starving—ah, me what a pity!—before the baker's window panes; he sees the cakes piled up in hummocks, the pies, the doughnuts and the bread, but they were made for others' stomachs, and Willie wishes he were dead. His lot, you'll say, is not delightful, he sounds the lower depths of woe; but I contend its far more frightful to have a pocket full of dough, to have all kinds of cast-iron nickels and have the doctors come and say: "You'll have to live on slaw and pickles, and beets and squash and beans and hay!"

AIRSHIP EXPERIMENTS.
Wright Brothers Will Probably Establish Station in California.
Pasadena, Cal., Sept. 20.—The Wright brothers may transfer their aeronautical experiments to Pasadena this winter. Members of the Pasadena realty board to-day answered a query from Roy Knabenshue, a pupil of the Wright brothers, concerning the construction of an aerodrome here, and if the financial assistance the Pasadena board is willing to offer is satisfactory, a deal with the aviators probably will be concluded.
Knabenshue suggested that the board make a formal offer to the Wrights. The suggestion was followed, but the nature of the proposition is withheld. It is believed, however, that the use of a tract of level land, and the construction of sheds to house the Wright air racers has been proposed.

The "HEARD" Rupture Appliances

Are Neat, Clean, Light and Sanitary
No bothersome straps nor belts. The only truss that gives COMFORT and SURETY.

CITY COUNCIL ACCEPTS ENGINEER'S PROPOSAL

(Continued from page 1.)

now entirely different to the one that Aid. Humber had posted and for that reason was out of order.

The Mayor agreed with Aid. Bannerman.

Aid. Humber—I disagree with your ruling. Any alderman may bring in a matter of this kind, without posting a notice of motion at all.

The Mayor—No, you are wrong. There has got to be a proper notice of motion.

Aid. Fullerton—Any resolution brought in on a notice of motion can be amended in council.

Mayor Morley—There must be a notice of motion in proper form.

On the city solicitor being appealed to, Mr. McDermid gave it as his opinion that Aid. Humber, as the author of the notice of motion, could not amend it, but any other alderman might do so.

This settled this point, and thereupon Aid. McKeown remarked that he was somewhat surprised at what was proposed. He thought all were agreed that the engineer should be given an opportunity of being heard at the investigation which had been arranged for.

After this investigation the board would then be in a position to say whether he should be given six months trial or asked to resign.

The resolution was then put and carried on the following division:
Ayes—Aid. Humber, Fullerton, Mable, McKeown, Ross, Sargison, Langley, Raymond and Bishop—9.
Nays—Mayor Morley and Aid. Bannerman—2.

The crowd of spectators present in the council chamber were obviously pleased at the decision and there was a significant buzz of approving conversation as they filed out of the hall, and the council took up the remainder of the business of the session.

THURSDAY TO BE PUBLIC HOLIDAY

(Continued from page 1.)

The largest entry filed yesterday by Mr. Sangster was from J. D. Farrell, of Seattle, who for several years past has exhibited a large number of his thoroughbred horses. He has asked to have reservation made for twelve steeds. Among them will be the great high jumper, Foxcatcher, which held the Pacific coast record for several years. Last year it tied for first place with a well-known Vancouver jumper. The record for the coast was broken, both horses having cleared seven feet two inches, but were unable to make the next notch.

Mr. Farrell will also exhibit his renowned little Shetland ponies which took the eye of all those who attended the horse show last year, and little Miss Helen Farrell will also be an exhibitor.

The decorating of the interior of the horse show building is proceeding apace, and when completed will present an attractive appearance. The colors of the association, red yellow and green, will be much in evidence. Those who have secured boxes for the show are decorating them in a most creditable manner. The box to be occupied by the lieutenant-governor and his party is being elaborately arranged with willow and flowers. On the side where the general public will sit the seats are being covered with flags. The Hinton Electric Light Company, which has the contract for the lighting of the building, guarantees the association that at nights sufficient light will be furnished to make the interior as light as day.

The entries for the horse show, the greatest attraction in the evenings, are very large. Vancouver horsemen are to be strongly represented, and Seattle will have many entries. Victoria will, in all probability, have the largest number of horses in the various competitions. All the local horse fanciers are getting their animals into condition and expect to make a fine showing against outsiders.

A carload of bronchos arrived last night from Kamloops. They appeared to have the broncho spirit in them, and if they career as madly as they did while being led through the streets last night the sports to be seen in the competitions between the broncho-busters will repay all those who attend the exhibition. Some fifteen cowboys will contest for the championship of the Northwest. The stock is expected to arrive from points on the mainland towards the end of the week.

The exhibition grounds are being put into the best possible shape for fair week. Numerous flower beds, the work of the Women's Auxiliary of the Agricultural Association, have been laid out in different parts of the grounds. Walks are also being laid from one building to another, and the grounds this year will present a vastly improved appearance over last year. The race track will be in fine shape for the athletes of this province to show their ability on Wednesday afternoon, and also for the ponies which will occupy that course for the remainder of the week.

The A. G. Barnes show is to be one of the greatest attractions at the fair. The circus, which consist of over 200 wild and trained animals, and some of the greatest acrobats and clowns on the continent, will be open every day and nights during the course of the exhibition. Besides the main show in the large tent there will be numerous side shows.

Secretary Sangster says: "Get the exhibition spirit and help the good work along." His slogan is: "For the honor of Victoria." The secretary guarantees that all those who attend will receive their money's worth.

"Get the exhibition spirit."
To economize floor space some German manufacturers are turning out high-speed engines mounted on top of horizontal boilers.

Now I suppose, the provincial police have gone as far as they can, and it behooves the next in authority to order an investigation. An Italian lost his life a little earlier the same winter, and it is a little hard to see that the newspapers were playing to the "gods" when it was

Some Bedroom Furniture

A few days ago we told you about our big shipment of furniture being unpacked, and that we would advise you when we had it priced. We have now some of the pieces marked, and, true to our word, we now give you a small list of what is being displayed on our furniture floors.

We have some of the most exquisite bedroom furniture on exhibition just now, and if you are contemplating furnishing another bedroom, we would ask you (as a saving to yourself in money and in being suited and satisfied) to know that we have something to last for years and of the latest designs. Come in and look at what we offer before buying cheap furniture.

When you buy cheap furniture you are always buying, but when you get a piece from here you are finished. You do not require to replace it for years. Come and have a look at our selection. Always welcome.

 - Size 72 x 36in., \$6.00 and \$5.00

WEILER BROS

What Other People Think

A GOOD SUGGESTION.

To the Editor:—A year ago, at the end of the hunting season, Mr. Allan was shot through the eyes by a hunter, who failed to make himself known to his victim. Left to die (as Mr. Allan thought was his fate), in terrible agony and in dread of spending the night alone in the woods, Mr. Allan was tempted to write a note saying what had happened, and then end his misery. But the thoughts of a wife at home to whom he should bid good-bye prevented his carrying out his intentions, and for hours he sat blind and alone and bore the excruciating pain that a coward had dealt him.

A year has gone by and what has the law done to bring to book the perpetrator of the deed? The names of at least three young men have been coupled with the crime, very much to the serious annoyance of the three, but no thorough investigation has taken place. Should not those who were near the spot at the time of the accident have been put upon their oaths and made to tell the whole truth and nothing but the truth? Had I been there could any other method have been adopted which would have made me willing to condemn a fellow-man and perhaps a friend?

The evidence collected by the police, then, is conflicting.

Now I suppose, the provincial police have gone as far as they can, and it behooves the next in authority to order an investigation. An Italian lost his life a little earlier the same winter, and it is a little hard to see that the newspapers were playing to the "gods" when it was

announced that he was probably slain by a fellow countryman. Italians do not use rifles when they go out to kill. They use the knife. Was there any connection between the two crimes, and are we hiding in our midst a man who begins to number his victims like Jack the Ripper? Is British justice becoming a by-word amongst us, and can cash money be paid when a Midas goes a hunting?

A Mr. Pierson asks for suggestions. Here is one. That a deputation of citizens wait upon the proper authorities and demand a full, complete and impartial inquiry into the circumstances of both the cases cited. Money is not needed, it is the business of our provincial government to see that a citizen's life is protected, and I think it only needs to be brought to the notice of the proper authorities to have justice done.

GEORGINA SEYMOUR KENT.

WANTS TO KNOW.

To the Editor:—There is being presented to the property owners of Saanich a petition for signature praying the government to dissolve the municipal powers and to take the district back under its own care again.

The following reasons are set forth by the agitators:

(a) That the taxes are too high, constituting an amount almost equal to a rental.

(b) That those interested in municipal affairs are determined to build a municipal hall.

(c) That also they are desirous of purchasing a steam-roller for road work. These two items will again raise the taxes higher.

SYLVESTER'S HENFOOD FOR POULTRY

Is the food of the day, contains everything that the laying hens require for the production of eggs. Thousands are using it; why not you? \$2.25 per 100 lbs.

Tel. 413. SYLVESTER FEED CO. 709 Yates
