HONOR ASTERS

J. K. RUGOWSKI SEED CO.

MANITOWOC, WISCONSIN

Personal

Work, Wait, Win

It gives us great pleasure to present you with our 10th Annual Catalog, an anniversary that we feel proud of. But it is nearly a decade since the foundation was laid by J. K. Rugowski, who long before starting the seed business, worked hard for many years to perfect the various flowers and vegetables that have made the J. K. Rugowski Seed Co. so well known from coast to coast and abroad.

His Asters are incomparable and his Gladioli and Dahlias are in the same class. This fact has already been proven by securing Certificates of Merit at their first introduction at exhibits for such honors. On October 9th, 1924 we received Three Certificates of Merit on Gladioli and Dahlias at Chicago from the Chicago Florist Club.

We also won all first prizes on Asters at the Wisconsin State Fair in all classes in 1920-21-22-23-24, five years in succession, a record that cannot be surpassed.

In 1924 we have named nearly fifty new flowers, mostly after ladies. Thirty-two Gladioli and fifteen Dahlias. We still have several hundred to be named which will be done in 1925. Most of the names are selected from our list of customers or visitors to our Seed Farm at Manitowoc, Wis., where all visitors are Welcome from July 1 until harvesting time or end of the season.

To be named after a Flower is the greatest honor a person can obtain. In 1925 we will select not less than 250 such names from our list of customers. We are now ready to name our large list of new Gladiolus and Dahlias. Some of the most wonderful specimens ever produced.

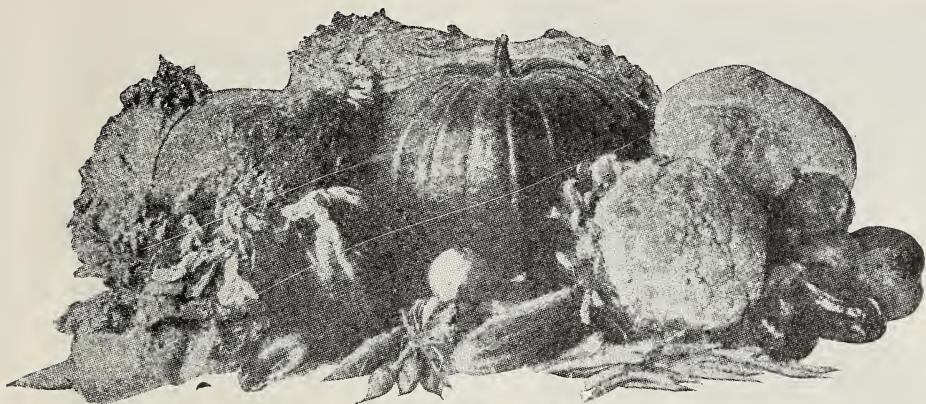

Mr. Rugowski who has devoted the greater part of his life to the pleasure of others is still working as hard as ever, and as a producer of beautiful flowers his name will never be forgotten. The motto of **Work, Wait, Win** has only enabled us to do what we are offering you by presenting you this catalog.

Look it over from cover to cover, you will find all that you are looking for and get full value for your money.

Your patronage will be greatly appreciated. Thank You,

J. K. RUGOWSKI SEED CO.

P. S.—Hand this catalog to your friend or neighbor.

ROYALTY. The bloom of this strain will average 4 in. across with positively no sign of a center at any time. Its color is a dark pink, long straight stem, extra good shipper and keeper, at least ten good marketable blooms to each plant, stems 16 to 20 in. long. Extra early, comes in right after Queen of the Market. Exact shape of a Chrysanthemum.

This Aster awarded Certificate of Merit, September 8th, 1921, at Chicago, Illinois.

Purity 99%. Price per package 50c; large package \$1.00.

PURPLE ROYALTY. The bloom of this strain will average 4 in. across with positively no sign of a center at any time. Its color is a dark velvet purple, long straight stem, extra good shipper and keeper, at least 10 good marketable blooms to each plant; stems 16 to 20 inches long. Extra early, comes in right after the Queen of the Market. Same shape and habits as Royalty. This strain including Royalty resisted 99% of the yellows in 1924. We are going to grow this strain on a very large scale in 1925.

Per Package 50c; Large \$1.00.

ROYALTY MIXED (New). This mixture consists of the following colors: rose, purple, pink, white and lavender as we only have the distinct colors in dark pink and purple. PURPLE BEAUTY. The color and shape are the same as Giant Purple Beauty or Dwarf American Beauty. Not as large as the Giant. It is also of dwarf habit. Good cutter. Good shipper. Very heavy strong stems, extra full blooms.

Price per package 25c; large package 50c.

DWARF AMERICAN BEAUTY. This Aster is a great improvement over the old American Beauty. Very full of blooms, long straight stems, average 14 to 18 inches. At least 10 to 12 good marketable blooms can be cut from each plant and still enough blooms left for bouquet purposes. Single plants have produced as high as 40 blooms from 3 to 4 inches in diameter. Good shipper.

Price per package 25c; large package 50c.

TWO FOOT BEAUTY. This Aster is similar in color and shape to Dwarf American Beauty. Very full, tall growth, over 2½ feet, very strong grower and very long straight stems. Blooms average from 3 to 5 inches across. Very good shipper. Late bloomer. Where beauty colors take, this one is a money maker. Seed very limited, packages only.

Price per package 50c; large package \$1.00.

LAVENDER BEAUTY. We have a good lavender Branching Beauty that is worth while planting on a large scale, for those who ship long distance or who grow blooms for the market in any form. It is mid-season, grown from extra selected stock. We can supply this in any amount, as it is the only good seed producer we have.

Price per package 25c.

RUGOWSKI'S WHITE BEAUTY. This is the fullest white Aster ever seen or grown by anybody. It is actually double crowned, blooms average about 3½ inches across, very full, no center. This is also a good commercial variety, stems average 14 to 18 inches. This strain requires extra rich soil, well balanced in all plant foods. It is mid-season.

Price per package 25c; large package 50c. •

PURE HONOR (White). This Aster was Mr. Rugowski's first origination and was offered to the public in 1919 at a price of 3c per seed. We have had trouble in ripening this variety, especially last season, and can only offer it in package form. Crop failure was the cause, altho we had a large planting. This Aster has caused a sensation all over the world.

Price per package 25c; large package 50c.

Mixed Asters

HONOR MIXED. This mixture consists of all colors of the Honor Type. Where Asters are grown on a large scale for plant trade this mixture will bring many new customers next season.

Price per package 25c; large package 50c; ounce \$8.00. We get 50c per dozen for plants of this mixture.

MANTOWOC MIXTURE. This mixture consists of a new breeding. Some of the most wonderful colors and sizes we ever saw. Our intention was to destroy the surplus until we had each color well established, but it seemed too good so we are offering it in package form where a good mixture is wanted.

Price per package 25c; large package 50c.

BEAUTY MIXED. All the colors of this mixture are extra good as well as the strain that we developed. We have a good supply of this variety. Truckers and gardeners should grow these for the plant trade.

Price per large package 25c; ounce \$3.00.

CHOICE MIXTURE. This mixture consists of all varieties, colors and strains. No distinct color, shape or type. Market gardeners growing plants on a large scale should try this one. We have a goodly quantity of this mixture at all times.

Price per package 10c.

OUR FIRST ANNOUNCEMENT ON NOVELTY GLADIOLI

You who have waited for our announcement on our novelty Gladiolus will now have an opportunity to grow several of our strains that are being offered for the first time. We had an opportunity to show some of our strains to expert Judges as late as October 9, 1924. We were awarded Certificates of Merit, which proves that our new strains of Gladiolus will be taking the front or replacing the older varieties. One of our new strains the scalloped or lacinated types is being offered, (Sister Hortense) see cut. We are only listing a very small amount this season and prices are from 25 cents to \$10.00 each bulb, bulblets at proportionate rates. Any person who buys any strain from us at \$1.00 or upward on which we cannot produce a Certificate of Merit before October 1, 1926 will have his money refunded in full and also have the privilege of keeping all bulbs sold him.

P. S. On or before October 1st, 1926 all bulbs that are known now by numbers will be named. Each person who purchases such bulbs will receive notice of such name.

FERTILIZERS

This question of Fertilizer is the greatest worry of the country. The time has come where we are compelled to use Commercial Fertilizer on a larger scale, and the sooner that we adopt it our great worry will diminish. Where there were millions upon millions of tons a few years ago. Today the automobile only uses oil and grease but leaves us nothing to put in the soil.

But commercial fertilizers have taken this place which is more economical, cleaner, less trouble of handling and that becomes available the first season. By all means get started in using commercial fertilizers. You will be surprised what a fine garden and lawn you will have.

A GOOD LAWN REQUIRES. Don't neglect your lawn it is the best asset any home has, don't starve it in anyway, use at least some fertilizers once a year. The easiest and cleanest is the Commercial kind—We have it.

For every 1000 sq. ft. broadcast 25 lbs. Just before a good rain or wetten after you put it on. It is also advisable to make holes with a spade fork from one end to another about 5 to 6 inches deep, every square foot of space, just before applying. J. K. Rugowski,
Manitowoc, Wis.

Dear Sir:

In the name of the Wisconsin State Florists' Ass'n, I wish to thank you for your exhibit of both the pink and white AstCrs, at our annual meeting held at Milwaukee September 12th.

I am transmitting herewith the resolution passed at that meeting, endorsing these asters as being a very meritorious flower. It was the sense of the resolution that these asters be endorsed by the association as having the largest flower and longest stems and in every way being superior to any aster thus far seen in the market. It is with pleasure indeed, that I am permitted to send this message.

With best wishes for the future success of this flower, I am

Yours very truly
