Annual Descriptive Price List

To Our Customers and Friends

Following the plan which we adopted the past Spring, we have cut down the cost of our catalogue and passed this saving along to you and are handing you herewith our Annual Descriptive Price List, which we hope you will find of interest. We believe that you will find the prices well in line, with a reduction in most all lines, at the same time, there has been no reduction or change in the quality of the plants which we offer in this list.

Our descriptions will be found accurate and while brief, we hope that they will serve as a guide to prospective buyers, and that they will be of assistance in making up your orders.

Our collection of varieties embraces all of the sorts which experience has taught us are most desirable for planting in this section.

We sincerely request that you read our Terms and Conditions. It is necessary that we have an established policy and plan for handling or conducting our business. The section entitled Terms and Conditions sets forth plainly our methods of doing business and all orders are accepted by us on the Terms and Conditions as stated below. Errors will occasionally occur, but by careful, personal supervision we have reduced them to a minimum. Should an error occur in the handling of your order, we stand ready to do all in our power to rectify it.

TERMS and CONDITIONS

How to Send Order

If shipment is desired by Parcel Post, be sure to include enough money in your remittance to cover postage charges; the differences, if any, will be refunded promptly.

TERMS are cash in every case, although we will ship C. O. D. when 25 per cent of the amount is sent with order.

REMITTANCES should be made by Bank Draft, Postal or Express Money Order, but we will accept personal checks where it is impossible for you to secure Postal, Express or Bank Draft.

SELECTION OF VARIETIES. We can sometimes help in selection of varieties, and a great many customers prefer to leave the selection with us. We will be glad to give you the benefit of our experience and judgment in making up the assortment.

SUBSTITUTION. Please state on the order, in the proper space, whether or not we shall substitute in case we are out of any of the varieties wanted, otherwise orders will be shipped short.

SHIPMENTS of nursery stock will travel best by express, and we recommend this plan wherever possible. However, we hope that all of our customers will state how they prefer shipments to move, whether freight, express or parcel post.

CLAIMS will not be entertained unless made promptly upon receipt of goods; we shall be glad to investigate any claim, provided it is made as soon as the stock is received.

GUARANTEE. We guarantee to deliver all trees and plants to the forwarding company in perfect condition, but do not guarantee that all of the stock will live, as too much depends on the treatment the stock receives after it leaves our hands.

NON-WARRANTY. We give no warranty, expressed or implied, as to the description, quality, productiveness or any other matter of any trees, plants or hulbs we send out, and will not in any way be responsible for the crop. We do, how-

ever, agree to replace free of charge or refund the purchase price of any trees, plants or hulbs that prove untrue to name, but we will not be responsible for a larger amount and all sales are made with this understanding.

FRUIT

Delicious Apple

APPLES

We are offering only those varieties of proven merit and best adapted for planting in the South. Our list of standard sorts is arranged in the order of ripening to assist in making selections to cover the season, and we have added to this list two Crab Apples which we think most suitable for general planting.

PRICES OF APPLE TREES

4 to 6 feet, 40c each; \$3.50 per 10.
 2 to 3 feet, 25c each; \$2.00 per 10; \$15.00 per 100.
EARLY HARVEST. Medium size, yellow. Sub-acid.
YELLOW TRANSPARENT. Medium size, pale greenish-yellow. Juicy.
RED JUNE. Conical shaped, deep red skin, white flesh.
YELLOW HORSE. Large size, greenish-yellow.
GRIMES GOLDEN. Large size, golden-yellow.
DELICIOUS. Uniform in size, deep red skin, white juicy flesh.
STAYMAN WINESAP. Similar to Winesap. Fruit deep red.
WINESAP. Good variety. Medium size, dark red.
YATES. Small. Skin dark red with white dots.
HYSLOP CRAB. Large, dark fruit. Tree very productive.
TRANSCENDENT CRAB. Fruit unusually large for a Crab; yellow striped with red. Excellent for jelly.

DELICIOUS PEACHES

In making up the list of varieties we have been very careful to select only the best varieties for its season, and we unhesitatingly recommend all of the varieties listed for home orchard planting. For commercial orchard planting the best varieties are: Early Rose, Carman, Hiley, Yellow Hiley, Belle of Georgia, Elberta and J. H. Hale, which ripen in the order in which they are named.

PRICES OF PEACH TREES

4 to 5 feet, 35c each; \$3.00 per 10.
 2 to 3 feet, 20c each; \$1.50 per 10; \$12.50 per 100.
MAYFLOWER. Medium size, red skin, firm flesh. Freestone.
EARLY ROSE. Early. Fruit fair sized, highly colored. Cling.

Belle of Georgia Peach

ARP BEAUTY. Medium size, yellow skin touched with red. Flesh yellow. Free.
GREENSBORO. Skin white with red cheek, flesh white and juicy. Free.
CARMAN. Large size. Flesh creamy white tinged with red. Freestone.
EARLY ELBERTA. Larger than Elberta. Flesh yellow, fine grained. Free.
HILEY. Large size, white skin tinted red, white flesh. Freestone.
YELLOW HILEY. Large size, flesh deep yellow and juicy. Freestone.
BELLE OF GEORGIA. Fruit large, skin white with red cheek. Flesh white. Free.
CHINESE CLING. Fruit large, skin white with red cheek. Reliable.
ELBERTA. Well known. Large size, flesh yellow and juicy. Freestone.
INDIAN CLING. Large size, flesh red streaked with white.
J. H. HALE. Large size, skin deep red, flesh yellow. Freestone.

HEATH CLING. Fruit of large size, flesh white and juicy.

KRUMMELS LATE. Large, round, skin yellow with red cheek. Freestone.

Kleffer Pear

SELECTED PEARS

With the exception of Kleffer and Pineapple we do not recommend the planting of Pears in a commercial way. Both of these varieties are reasonably blight resistant. Pineapple, which is the most blight resistant of all Pears, is particularly well adapted for planting in the lower South. In this latitude Kleffer does wonderfully well and while somewhat affected by blight, it can be depended upon to produce good crops of handsome fruit.

PRICES OF PEAR TREES

4 to 5 feet, 50c each; \$4.50 per 10.
 2 to 3 feet, 30c each; \$2.50 per 10; \$20.00 per 100.
BARTLETT. Best of the eating Pear. Large size, skin yellow with red blush.
LECONTE. Fair sized, yellow, bell-shaped. Tree bears young.
SECKEL. Small, yellowish brown. Flesh very sweet.
GARBER. Similar to Kieffer in appearance, ripening earlier.
KIEFFER. Large size, skin golden yellow with blushed cheek.
PINEAPPLE. Practically blight-proof. Very desirable.

MULBERRY

Valuable for shade in hog pastures and chicken yards.

PRICES OF MULBERRY TREES

4 to 5 feet, 60c each; \$5.00 per 10.
HICKS. Most popular of all. Fruit black, sweet and well flavored.

Brown Turkey Fig

FIGS

Figs are not entirely hardy, therefore we do not recommend their planting in the North. They can be grown successfully in northern Alabama if planted in a sheltered position, but further South may be grown in the open. Occasionally the trees may be killed to the ground by severe freezes, but if the dead wood is cut away, leaving the roots undisturbed, they will come out again and produce fruit the first season thereafter.

PRICES OF FIG TREES

3 to 4 feet, 60c each; \$5.00 per 10.
 2 to 3 feet, 45c each; \$3.50 per 10.
BROWN TURKEY. Fruit medium to large, pear-shaped. Skin coppery brown.
CELESTIAL. Small, violet colored. Fine flavor. Sweet.

QUINCE

Undoubtedly the Quince is the pearl of all fruit for preserving purposes, possessing a flavor which is quite distinct and pleasing.

PRICES OF QUINCE TREES

3 to 4 feet, 60c each; \$5.00 per 10.
ORANGE. Most popular. Fruit large, bright yellow with excellent flavor.

APRICOTS

One of the most delicious of all fruits, but due to the fact that late freezes catch the Apricot trees in bloom, causing a crop failure, we do not recommend planting large quantities of Apricots, but, by all means, there should be a few trees included in every home orchard.

PRICES OF APRICOT TREES

4 to 5 feet, 50c each; \$4.50 per 10.
 2 to 3 feet, 30c each; \$2.50 per 10; \$20.00 per 100.
EARLY GOLDEN. Small, pale orange. Flesh yellow. Sweet and juicy.
ROYAL. Fruit medium to large size. Yellow with orange cheek.

CHERRIES

Cherries cannot be classified as a commercial orchard fruit in the South, but by all means there should be a few trees in every home orchard. The Sour Cherries are much heavier croppers than the Sweet, therefore we recommend that you plant more heavily of the Sour.

PRICES OF CHERRY TREES

3 to 5 feet, 50c each; \$4.50 per 10.
 2 to 3 feet, 40c each; \$3.50 per 10; \$30.00 per 100.
GOVERNOR WOOD (Sweet). Medium size, pale yellow with pink flush.
EARLY RICHMOND (Sour). Medium size, bright red. Ripens last of May.
LARGE MONTMORENCY (Sour). Larger than Early Richmond and ripens about ten days later. Bright red.
BLACK TARTARIAN (Sweet). Fruit large, black, heart-shaped.

Early Richmond Cherries

NECTARINES

The Nectarine requires the same soil and cultural methods as does the Peach. Trees resemble the Peach both in foliage and habit of growth. Fruit is much smaller than the Peach, but of same shape and does not have the Peach fuzz.

PRICES OF NECTARINE TREES

4 to 5 feet, 50c each; \$4.50 per 10.
2 to 3 feet, 30c each; \$2.50 per 10; \$20.00 per 100.
BOSTON. Bright yellow with red cheek; flesh yellow and sweet.
RED ROMAN. Greenish yellow with brownish red cheek. Flesh golden.

PLUMS

The Japanese varieties are more at home in the South than any other type, and we recommend that they be planted in preference to any other type. The Shropshire Damson and Wild Goose are not Japanese varieties, but they are highly desirable for their preserving qualities and should not be overlooked in any planting.

PRICES OF PLUM TREES

4 to 5 feet, 40c each; \$3.75 per 10.
2 to 3 feet, 20c each; \$1.75 per 10; \$15.00 per 100.
WILD GOOSE (Native). Medium sized fruit, bright red and richly acid. Ripens before the Japanese varieties.
RED JUNE (Japanese). Medium size, dark red. Flesh light yellow.
ABUNDANCE (Japanese). Large, amber color changing to red.
BURBANK (Japanese). Fruit large. Skin deep red overlying yellow ground.
SHROPSHIRE DAMSON. Well known. Purple skin, amber flesh.
COMPASS CHERRY PLUM. Fruit small, bright red. Excellent for canning.

Red June Plums

JAPANESE PERSIMMONS

In the Japanese Persimmon we have a combination of beautiful foliage together with handsome fruit. The fruit is many times larger than the native Persimmon.

PRICES OF PERSIMMON TREES

3 to 4 feet, 70c each; \$6.00 per 10.
2 to 3 feet, 60c each; \$5.00 per 10.
TANE NASHI. Most desirable. Fruit large, light yellow changing to red. Seedless.

RHUBARB

Rhubarb or Pie Plant. Comes early in the Spring and is used for stewing and pie-making. Very healthful.

PRICES OF RHUBARB

Strong, two-year, 20c each; \$1.50 per 10.
LINNAEUS. Produces medium sized, tender stalks.

GRAPES

Where space is limited and soil not the best, Grapes will give better results than any other fruit and, of course, good soil and plenty of room will improve both yield and quality. Grape vines should be pruned during the winter months, December and January being the best time.

PRICES OF GRAPES

Two-year, 20c each; \$1.75 per 10; \$12.50 per 100.
CONCORD. Berry large, blue-black in color. Very sweet.
DELAWARE. Berry small, red. Very fine flavor.
DIAMOND. Berry greenish white borne in large, compact bunches. Juicy and sweet.
MOORE'S EARLY. Extra early, black grape. Ripens two weeks ahead of Concord.
NIAGARA. Large, white. Fruit tender, skin tough.
LUTIE. Fruit large, dark red. Very sweet.

Concord Grapes

SCUPPERNONG or MUSCADINE GRAPES

These vines are long lived and do wonderfully well all over the South. Excellent for jelly, grape juice and wine-making.

PRICES OF SCUPPERNONG GRAPES

Two-year, 40c each; \$3.50 per 10; \$30.00 per 100.
SCUPPERNONG. Berries medium to large. Russet-brown. Sweet.
JAMES. Large, black fruit borne in clusters of ten to twenty berries.
THOMAS. Small sized clusters of dark red fruit. Excellent flavor.

BERRY PLANTS

No home orchard planting is complete without a small planting of the following berries, also profitable as commercial plantings.

BLACKBERRY

PRICES: 70c per 10; \$6.00 per 100
EARLY HARVEST. Extra early. Medium sized berries of good quality.
ELDORADO. Large, sparkling black fruit. Very sweet.

St. Regis Raspberries

RASPBERRY

Prices: 75c per 10; \$6.50 per 100.
ST. REGIS. Medium sized fruit, bright red.
CUTHBERT. Large berry, red, firm and juicy.
CUMBERLAND. Large, firm, oval-shaped berry. The best of the black varieties.

SPECIAL VARIETY BERRIES

The following are of recent introduction and we highly recommend them for planting throughout the South.
VAN FLEET RASPBERRY. Of recent introduction. Prolific bearer. Medium size, dull red. Highly recommended for Southern planting. Prices: \$1.00 per 10; \$8.50 per 100.
YOUNGBERRY. A hybrid of the Loganberry and the Austin Dewberry. Fruit pink turning to wine-color when fully ripe. Fruit has distinct Raspberry flavor and is excellent for jam and jelly. Prices: \$1.25 per 10; \$10.00 per 100.

BLUEBERRIES

Prices: 75c each; \$6.00 per 10.
Fruit bluish black with small seed, excellent flavor. Requires sour or acid soil. Plants bear young and the fruit ripens during the months of June, July and August. Unexcelled in pastry or as fresh fruit, and our variety, which is the genuine Rabbit-eye, will command good prices on the market.

DEWBERRY

Prices: \$1.00 per 10; \$7.50 per 100.
AUSTIN. Large, black berries. Very sweet.
LUCRETIA. Large size, well flavored. Prolific bearer.

STRAWBERRY

Prices: \$1.00 per 100; \$4.50 per 500; \$8.00 per 1000.
LADY THOMPSON. Medium to large, pinkish-red. Early.
KLONDYKE. Medium size, dark red. Mid-season.
SENATOR DUNLAP. Medium to large size, dark red, top-shaped. Mid-season.
AROMA. Large size, dark red. Ripens late.

Strawberries

PECANS

PRICES OF PECAN TREES

4 to 5 feet, 90c each; \$7.50 per 10; \$60.00 per 100
2 to 3 feet, 80c each; \$5.50 per 10; \$40.00 per 100
FROTSCHER. Medium to large sized nuts. Plump, rich meat.
SCHLEY. Medium to large size. Nuts long, thin-shelled. Well flavored.
STUART. Large size, thin-shelled. Widely planted.
SUCCESS. Similar to Stuart but larger. Nuts thin-shelled, full meat.

WALNUT

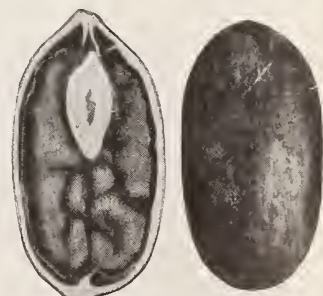

Prices: 2 to 3 feet, 90c each; \$8.00 per 10.
ENGLISH WALNUT. Nuts of good size, thin-shelled with rich kernels.

CHESTNUT

Prices: 2 to 3 feet, 80c each; \$7.50 per 10.
AMERICAN SWEET. Native tree valuable for its sweet nuts.

ASPARAGUS

Once established a planting of Asparagus lasts for many years.
