Navy No. 1165

1. Reference: Letter, General Headquarters, Far East Command, AG 684 (15 July 49)GC-TMG, subject: Surface to Air Gunnery Ranges, 22 July 1949.

2. A report received from the Liaison Bureau, Foreign Ministry, through the Maritime Safety Board, Tokyo, states the following:

a. On 21 June 1950 at 1400, a Japanese ship, the Harunohoru Maru, was fired upon by a destroyer at a point two miles off Ryuhisaki, Aomori Prefecture, Honshu. The destroyer, cruising westward, fired three shots that fell 100 meters in rear of the Japanese ship. Five minutes later, another shot fell 600 meters to the right. Again, ten minutes later, one round fell 80 meters in front of the ship.

b. On the same date at 1600, naval firing was carried out by an Allied Power's ship off the coast of Yoshioka-mura, Hokkaido (Tsugaru Channel).

3. Another report received from the Legal and Government Officer, Hokkaido Civil Affairs Region, stated that naval firing, approximately 13 rounds, was reported by CIC personnel and local police to have taken place south of Kushiro, Hokkaido on 19 Jun 1950.

4. There are no naval ranges approved in the area of the reported firing. Authority had been granted for units of the British Navy to conduct firing in the waters of the Northern Honshu Air-to-Air Gunnery Range during the period 19-23 June 1950 in conjunction with exercises held with

units of the Far East Air Forces. Although this range is located 100 miles southeast of the reported firing, it is considered possible that a ship of this British unit may have been responsible for the firing.

5. In view of the apprehension among certain elements of the Japanese caused by the present hostilities in Korea, it is essential that no unauthorized or unannounced naval firing take place in the waters surrounding Japan. It is desired that all elements under the Operational control of the Commander, Naval Forces, Far East, be informed of the restrictions on firing contained in referenced letter. If additional training areas are required because of the increase of naval activity in the Far East Command, it is desired that the requests for such areas be submitted to General Headquarters, Far East Command, for approval.

Col. Dayton — Nolan, Legal & Gov't — 6 June 50

Thru: Deputy Chief, KCAR

In answer to the attached petition from Chigasaki: Kanagawa Prefectural Liaison through Mr. Suzuki came to the Legal Office about May 29th. At that time verbal answers were given to the questions on the attached document by me after conferring with Maj. Niblock. These answers were:

As to #2(a): The original order from G-3 stated that KCAR would be notified. In such case we would, in turn, notify the 71st Heavy Tank Co. in Chigasaki for notification to Chigasaki Police.

As to #2(b): Amphibious exercise will not extend to Shonan Drive hence no stoppage of traffic of either Japanese or allied vehicles is necessary or contemplated.

As to #2(c): All fishing craft in water or on the beach are to be removed outside limits specified in order.

As to #2(d): Responsibility for policing rests upon commanding officers of units engaged in exercises.

Please Contact G3 on the following.
In Re attached petition

1. Have G3 notify 71st Light Tank (now at Camp Chigasaki) if there is any change in training schedule?
2. Should Shonan Drive be completely blocked off to prevent all vehicles (Japanese and Occupation) from entering points designated? Since Japanese police have no control over occupation vehicles will occupation place signs and use MPs.
3. Should fishing craft be completely removed from Beach?
4. Please make provision for extra Military Police if troops are to stay in the town.

Maj. McHock says:
Inquiry reveals that troops will not go as far as Shonan Drive
