Berlin, May 31.—The ghost of Kaiser militarism stalking in the heart of Berlin in broad daylight has caused a political and military scandal. More than 2,000 ex-soldiers and 700 ex-officers of the ex-Kaiser's disbanded crack Fourth Guard Infantry regiments held a rendezvous on the Reichswehr exercising grounds in the Moshit section of the city, wearing field gray uniforms, sporting war decorations and rallying around the old Imperial colors. The officially "dead" Guard regiment was instantly reconstructed at the command of its old officers and the 2,000 Guard veterans fell into line in their old companies. The resurrected regiment then formed in hollow square, and a chaglain held a regulation field service, ostensibly in memoriam of the war dead of the Guards.

Harangue. der, the notorious Cottonel Reimarut, delivered an old-time Pan-German exhortation to the troops, after which the front was paced off and the soldiers inspected by half a dozen exgenerals, including Eltel Friedrich Hohenzollern, second son of Wilhelm Hohenzollern and formerly called a Prince, who once commanded the Prince, who once commanded the regiment and who now received a spirited ovation from the ex-Guards-

NEW CANADIAN LEAGUE SOCIETY

Association Formed to Assist World League

Ottaws, June 1.—To make vital the objects and purposes of the League of Nations, the League of Nations Society of Canada was brought into being at a meeting here last night, which was attended by many of the most eminent leaders of Canadian public life.

Realization that the League of Nations could not become an accomplished fact without the sympathy and support of the common people of the Empire and the world was emphasized by the speakers present, and with this in view one of the prime objects of the society will be to educate public opinion on the principles, aims of organization and the work of the League. Appeals.

Strong appeals were made by representatives of Canada that the sword be abandoned as a means of settling international disputes and arbitration and conciliation be adouted.

arbitration and conciliation be adopted.

"It becomes more and more apparent," said the Governor-General, who presided at the meeting, "that war is the most unsatisfactory and ineffective method of determining disputes between nations," and this statement was heartily applauded by those present,

"If the world wants peace, it can obtain it," declared Sir Geo. Foster, and these and other pronouncements were received with undivided support. The meeting was a memorable one, as a launched in Causada for the first time a movement to make peace permanent and to make the League of Nations a fiving and practical organization.

Purpose Is Good.

"I am not one," said Sir Robert
Borden, "who approves of everything

the purpose and ideal of it we are concerned."

Speaking of the United States, Sir Robert said there was no nation more wholeheartedly with the League's purpose. He happened to know that in the days preceding the war there were in the United States more active organizations for the purpose or having international disputes, settled by arbitration or judicial means than in any other country in the world. Therefore the heart and spirit of the people of the United States was with the ideal of the League of Nations.

Officers were elected, Rt. Hön. Sir Robert Borden being made president, Right Hon. Arthur Meighen. Hon. W. L. Mackenzie King and Hon. T. A. Crerar, honorary presidents, and Hon. N. W. Rowell and Hon. H. S. Beland, vice-presidents.

Specially Fed.

Included in the shipment are fifteen head of steers specially fed at the University of Alberta and exhibited at the International Livestock Show at Chicago last December, where they won many prizes. These particular steers are being used to show the class of beef which Canada can finish and ship chilled if necessary. The remaining forty-five are good ordinary commercial steers of the heavy "short keep" type, ranging from three to four years old and weighing from 1,250 to 1,400 pounds—the kind of steer that Western Canada could ship in large numbers to Brittain were the embargo raised and the class of steer the British feeder could put an extra bloom on in six weeks.

The shipment will make the voyage on the Laconia, sailing for Glasgow on June 12. After landing there they will be kept on exhibition for ten days before being slaughtered.

GERMANS BOYCOTT FRENCH GOODS

Indignation of the French **Growing Greater**

Paris, June 1.—French indignation is growing against German attempts to boycoit French goods by way of reprisal for the economic penalties. Ever since the occupation of Dusseldorf the Germans have been carrying on a propaganda campaign against French products which has extended to the parts of Germany that have been occupied since the armistice. Thus the manager of a big Riviera house dealing in flowers, fruit and vegetables showed press correspondents a letter from its Cologne representative stating that German hostillity was the cause of the sudden

sentative stating that German hos-tility was the cause of the sudden loss of three-quarters of the business. The manager said he had investi-gated the matter on the spot and found the facts as his agent had re-ported them. He added that other French firms doing business in Ger-many had experienced the same slump.

when Dusseldorf was occupied the German newspapers and public loudly protested against the danger of a new 'Hole in the West,' through which they feared an inrush of French competition.

The Temps says that benceforth the Germans will prohibit importa-tion of French luxuries from the oc-cupled into the unoccupied areas. It faculties of art, medicine and applied science, have been summoned before the varsity Caput following attempts to win their annual examinations by proxy. The students who undertook to write the examinations will also suffer.

Sir Robert Falconer declined to discuss the affair, simply stating that the Caput would hand out its decision shortly.

Funishment has not yet been decided upon, but it is expected that the students who were trying to pass their examinations on false pretences will be suspended for a session and then forced to repeat their present year should they return to the University in the Fall of 1922.

The would-be Good Samaritans who were attempting to assist their learned brothers by impersonating them will present a more delicate problem for the authorities.

SONE CUTTERS.

Winnipeg. June 1.—The strike of Winnipeg stone cutters has been ended and the men will return to work on the basis of their last year's agreement, calling for an hourily rate of \$1-12½ for carvers and \$1 for journeymen and planemen. In accepting the present wage, the men have departed from their original demand of a 25-cent an hour increase, while the employers have withdrawn from their stand favoring a 10 per cent.

THEFTS IN FRANCE

Is no other reason than a simple increase in the practice of theft.

The railroad which has suffered most from theft is the Paris, Lyons and Mediterranean, on which recently there has been an extraordinary number of cases in which passengers have been robbed. Before the war average compensation for theft paid by the company was about 5,000,000 francs. Last year it was 95,000,000 francs. The state railway is by comparison fairly honest, as the increase has been only from 4,000,000 francs to 45,000,000 francs.

BRITISH VIEWS AT CATTLE INQUIRY

London, June 1.—(Canadian Press Associated Press)—Sir Daniel Hall, scientific adviser to the British Board of Agriculture, cross-examined yesterday at the continued inquiry into the effects of the embargo on Imported cattle in force in the Pritish Isles, told counsel for Scottish agricultural interests that the total importations from Canada were tish agricultural interests that the total importations from Canada were so small as not to be worth while taking the risk of disease. Sir Daniel said that the British farmer was now in a very doubtful state concerning the future, and that it was, felt by the Department that nothing ought to be done to impair confidence by introducing another disturbing factor.

Sir Robert Grey, a member of the Scottish, Board of Agriculture, informed the Commission that the Board's opinion was that before the embargo was imposed the impertation of Canadian cattle had increased food production by enabling the home farmer to grow more grass. It would be an advantage, Sir Robert argued, for the farmer and the consumer to obtain a larger number umer to obtain a larger number

consumer to obtain a larger number of steers.

Professor Wallace, of Edinburgh, de lated that the admission of foreign or Canadian cattle would mean a reduction of the food available for British cattle. There also would be great fluctuations in prices when the supply of Canadian cattle varied. The usuands of breeding cows, he said, would disappear, and land would become dereigt. Home Missions.

The Department of Home Missions and Social Service in the Presbyterian Church in the scope and diversity of the work undertaken. The report of the work undertaken. The report of the past year's work is a reveiation of the many-sided nature of its programme. Reduced to statistics, the church maintains a thousand Home Mission centres in the Dominion, 39 being augmented charges, where the local contributions are supplemented by grants from the church funds; and 590 other Home Mission Fields. As marked on the map of the Dominion, and the extreme east of Cape Breton and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the boundary line between Quebeand Labrador to the far flung western areas of the Peace River country and the form of centralized control adopted will do much to se

ommunities, both urban and rural, in the West.

This outline of Presbyterian service does not, however, cover all. The report shows thirty-three educational centres, including School Bomes in Quebec and the Western Provinces, which provide home influences for hundreds of youths, mostly of foreign birth, who attend Public or High School in the locality. Specially promising are the Ukrainian boys and girls who are thus being served.

Hospital Work.

Vancouver, June 1.—R. P. ("Pat")
Foster, deputy unit director of the Department of Soldiers' Civil Resetablishment here, has tendered his resignation, to take effect in a week's time. It is believed lie will go into private business.

While no official announcement has been made on the subject, it is understood he will be succeeded by G. Derby, who has been associated with the Department here for some months.

Hospital Work.

The Presbyterian hospital work is one of its choicest expressions of Christian service, there being twelve hospital centres in which thousands of patients are annually-treated. Most of these hospitals and the auxiliary hospital units are found in the outlying parts of the western country, long distances, in some cases, from medical or hospital help. In this and similar work, the Women's Missionary Society renders most effective service.

Social Service.

Social Service.

The Presbyterian social service programme is likewise an important and, helpful one, including five Settlement Houses, in Montreal, Toronto, Winnipeg and Vancouver, in which a widerange of activities is carried on for the benefit of hundreds of families and thousands of members, many of whom are of foreign birth.

There are also seven Redemptive Homes in various centres, which annually touch the lives of hundreds of needy girls with results that are most encouraging. Regard is also had for the immigrant, through the Department of the Stranger, in which the Women's Missionary Society also cooperates. Nearly 20,000 individual immigrants were ministered to though this department during 1920.

RECONSTRUCTION **WORK IN FRANCE**

Embargo on Canadian Cattle Cost Is Three Times Pre-War

Paris, June 1.—M. Loucheur, Minister of Devastated Regions, in outlining to the Senate yesterday, the Government's plan for the rebuilding of the devastated areas, declared:

"We are at the beginning of reconstruction. The year 1921, and still more 1922, should see reconstruction getting under way.

"One may criticize what has been done thus far, but to be fair, the chaotic ocnditions there must be considered."

M. Loucheur said he had investigated the prices of contractors, and had obtained reductions and the time now was sproaching when restoration could be calculated at only three times the pre-war cost as a result of cheaper coal and other necessities. He hoped to make favorable contracts with Germany for materials and expected the pending proposal of Germany to build 25,000 homes in the devastated regions to develop sufficiently. He saw little prospect, however, of employing German labor in France to any great extent.

The figures are \$1,910,077, against \$1,802,585. In view of the relationship of the Bank of Montreal to the commercial and financial life of the Dominion and of the fact that the six months recently finished covered a particularly depressing and difficult period, the result is the more noteworthy.

Equally reassuring is the financial standing of the Bank as at the end of April. The total assets amounted to \$507,199,946, against but \$289,562,678 only five years ago, and of these total assets, the liquid portion amounts to \$252,237,568. VARIETY

Big audience at the Variety Theatre put approval yesterday on the Wil-liam Fox special production, "If I Were King," from Justin Huntly Mcliam Fox special production. "If I Were King," from Justin Huntly McCarthy's famous book and stage success. William Farnum as Francis Villon added to his motion picture renown. He has never had a part that was more pleasing, more entertaining, more dramatically gripping. "If I Were King" is so well done that one hardly realizes he is looking at a picture. There is inot a flaw in it. J. Gordon Edwards directed the production. The scenario, written by E. Lloyd. Sheldon, is true to the play. The cast is an exceptionally good one. Fritz Lieber, Walter Law, Betty Ross Clarke and Renitz Johnston being particularly fine.

PRINCESS

To-night will see the first performance of "Going Up" by the Milder Page Players. "Going Up" fis a musical comedy, once a Cohan Harris production and well known from coast to coast.

Miss Page will be seen in some charming gowns and will sing the famous "Tickle Toe" number which was one of the big hits of the production. Mr. Coots has the role of Robert Street, the bogus aviator, around whom the plot centres. This part is the lead in "Going Up" and gives Mr. Coots ample opportunity to do the good work expected of him. He sings "Kiss Me" and the "Going Up" song which is the big feature number of "Going Up." Mr. Aldenn will appear as the French aviator. Mr. Jaxon and Miss Berkeley have some catchy singing and dancing numbers, also Robert Thom and a bevy of pretty girls start out the first act of "Going Up" with a dashing number which fits the situation to perfection.

ENROLL IN THE RED CROSS

THE JUNIOR RED CROSS AND ITS INFLUENCE ON HEALTH

WHEN the representatives of the 21 National Red Cross Societies, including Canada, met in Geneva, Switzerland, in March, 1920, among the resolutions passed was the following: "That a National Red Cross Society should organize the youth of its country for Red Cross Service."

JUNIOR RED CROSS

THE PURPOSE OF THE The purpose of the Junior Red Cross is to teach the boys and girls of to-day to think first of others; that a live interest in behalf of children near at

hand and in the remote districts may be aroused, stimulated and given an outlet; that in their school days they may come to be moved by a spirit of helpfulness to others-all in the hope that the men and women of to-merrow may ever think in terms of service that we may all enjoy a bigger, better, broader better understanding between nations and peoples.

Membership in the Junior Red Cross engenders in the child's mind from the beginning a deep sense of loyalty not only to the society as an organization, but to its ideals-thus giving guidance through a future of clean living and service to

To teach the child to care for its own health and so conduct itself as to protect the health of others, is a fundamental of Junior Red Cross enterprise. The older children are taught, under their teachers' direction, valuable lessons in community health, through the conduct of surveys of the sanitation, water supply and other phases of their local conditions.

Closely associated with the ideals of health responsibilities are ideals of civic responsibilities and useful citizenship. Practical experience in the working of the ideal of unselfish service is an educational service. The Funior Red Cross encourages the child to make toys, simple furniture, clothing, hospital supplies or anything that may be sent out to unfortunate children in their own or other com ities. A child imbued with such a spirit of clean living and useful citizenship cannot but help in building up a greater and better nation. .

Join the Junior Red Cross in British Columbia, you boys and girls. You will be proud to wear its emblem-you will be glad to serve under its banner. Many are the children less fortunate than you whom you can help and cheer.

Miss Beth, Albhouse was the only
bridesmaid, wearing an adorable
frock of lavender georgette over pale
pink, and hat of pale pink and
lavender tulle. She carried a bouquet
of roses and wore a heavy gold bracelet, the gift of the bridegroom. Mrs.
White-Howles of New York, the
matron of honor, looked exceedingly
smart in a New York creation of
navy taffeta, made in long-waisted
coat effect and heavily embroidered
in a multi-colored design. Her becoming hat was of straw and taffeta
in navy and canary shades.

Mrs. Fitzsimmons, the mother of
the bridegroom, was attractively
gowned in navy blue charmeuse with
black picture hat. During the ceremony Mrs. Herbert Lelber sang very
sweetly "O Promise Me." The bridegroom was supported by Mr. M. D.
Hunter.

After the ceremony, a delicious
buffet luncheon was served in the
dining room which was artistically
arranged with roses, the handsome
three-tier wedding cake centering the
daintly-appointed table. The young
couple were the recipients of manyhandsome gifts, including a number
of substantial cheques.

There can be no question as to the psychology of style, especially among women, and it is well that it is so. The most natural desire of women is to be attractive, and it is certainly a most desirable trait. They cannot be very attractive if they should all bedressed up in staple dresses like children in an orphanage or convicts in a penitentiary. Style is the outstanding element which makes the textile industry the second largest in the country. Clothing would be worn-if it possessed no style, because of necessity, but it is style that creates volyme in both new orders every season and repeat orders always. "Nina?" Varia asked with a puzzled frown.

Nina had never played. She had been too lazy to practise; she had never found music the solace that Varia had. She could not even now pick out two notes on the piano. Varia knew.

"Why, yes, I remember often Nina used to go upstairs and play. She said it made her nervous to have anyone in the room with her; it made her forget her music and think of them, but I used to sit out in that little ante-room."

HEALTH IS A WOMAN'S GREATEST ASSET.

GREATEST ASSET.

Contrast the cheerful happy woman with head erect, the glow of health on her cheeks, the elastic step and bubbling enthusiasm as she goes about her daily tasks, with the woman who suffers from backache, headaches, dragging-down pains, nervousness and despondency. Such conditions are undoubtedly caused by woman's ailments which will yield to Lydia E. Pinkham's Vegetable Compound, which for many many years has been restoring weak, ailing women to health and strength. Every woman who suffers in this way owes it to herself to at least give it a trial.

Australian Government Enters Passenger Field With Five New Liners

Moreton Bay Pioneer of Fleet Recently Launched From Vickers' Plant at Barrow; Mrs. Storey, Wife of New South Wales Premier, Sponsored Ship.

The launching of the Moreton Bay, the first passenger liner built for the Australian Government, from the Vickers yards at Barrow on April 23 last, was an occasion of historic importance. The Moreton Bay is the first of five splendid passenger liners building in the United Kingdom to the order of the Commonwealth Government Line, and intended to form a connecting link between Australia and the Motherland.

The Commonwealth Line, hitherto, has confined its activities to

The Commonwealth Line, hitherto, has confined its activities to cargo-carrying in vessels of useful medium type, and has left the catering for the Australian and European passenger trade to the British companies. Prominent among those attending the launching of the Moreton Bay was the Hon. John Storey, Premier of New South Wales, Mrs. Storey (who acted as sponsor), Miss Bessie Storey, H. G. B. Larkin, general manager of the Commonwealth Line, and Agents-General for the Australian States. Mr. and Mrs. Storey left Victoria last week by the liner Empress of Russia for the Orient, en route from England to Australia.

Five Building

The Moreton Bay is the pioneer vessel of the Australian passenger fleet. The huils of two sister ships, the Jervis Bay and Hobson's Bay, have reached an advanced stage of construction at the same plant, and in addition to the Barrow-built vessels, two others of vimilar class, the Largs Bay and Esperance Bay, are under construction at Dalmuir by William Beardmore & Co.

Competition.

When these vessels are put into commission they may exercise a decided influence on Australian passenger traffic, and they are certain to accentuate competition between the lines already plying on the Australian routes.

The Moreton Bay is, a twin-screw geared-turbine passenger and cargo liner, 548 feet long and registering a displacement of 23,000 tons. She will have a sea speed of fifteen knots. The propelling machinery consists of turbines of the Parsons' type, driving twin screws through double-reduction gearing. The complete turbine installation is capable of developing 9,000 horse-power.

True Artistic Interpretations Are Given by 'Cellist and Planiste

Seldom indeed does an occasion bring forth such an all-satisfying order of things as did the violoncello recital given last evening at the Em-

recital given last evening at the Empress Hotel ballroom by the gifted Russian 'cellist Mischel Cherniavsky and the brilliant pianiste, Mrs. Gertrude Huntley Green. Both the 'cellist and pianiste played magnificently, and as if inspired.

The programme was greatly enjoyable, and was listened to by a keenly appreciative, enthusiastic and interested audience. Both the players, inherently musical, are serious artists, and seemingly have developed that spirit and spontaneous imagination without which their art is in vain.

artists, and seemingly have developed that spirit and spontaneous imagination without which their art is in vain.

Both, too, disclose high idealistic and enviable attainments found tarely even among first rank artists. It was, therefore, an artistic treat to hear such numbers as the Boellman Sonata, Op. 40 (Andante-Allegro), and the Symphonic Variations, both of which were gioriously played, the latter, with its haunting melody, color contrasts, and technical complications, being particularly impressive, both the recitalist and accompanist with a thorough understanding of the vafue of the composition, playing with virtuosity, unfailing technique and much spirit. The 'Kol-Nidrei' (Max Bouch), based on the Jewish liturgy for the Day of Atonement; David Popper's 'Majurka,' and the Haydn 'Minuel' were all rapturously received, the 'cellist responding in each case to the most cordial and friendly manifestations of the audience.

Since last heard here Mr. Cherniavsky has broadened in his art. He draws from his superb Guadagnini a tone of beautiful quality sweet, liquid and smooth; his technique is well developed and he plays with resourcefulness and depth of feeling.

Mrs. Green, now firmly established among the first planists of the day, again demonstrated her, sound and sincere musicianship. Her-art of necompaniment, always unobtrusite, is authofritative, and combined of the keyboard, is of the sort that charms. Her support to the recitalist last evening was amply artistic and accuracy itself.

CITY WILL LAUNCH **BIG DERRICK SCOW**

Construction of a big derrick scow for use in the work of installing the new Johnson Street Bridge has been almost completed by city workmen under the direction of City Engineer F. M. Preston. The scow will be launched from the Reserve near the Point Ellice Bridge next week, after it has been painted. A large derrick will be installed upon it and the scow will then be towed to the cite of the new bridge. Here the derrick will be used for dredging and other purposes. At present few men are being employed in the bridge work. Dredging of the harbor bottom within the first big wooden calsson is proceeding rapidly so that the calsson will be sunk into position shortly. The clay and mud dredged from the harbor bottom is being dumped behind a retaining wall at the eastern end of the bridge site. The space behind the retaining wall will be completely filled in and the road to the bridge end built upon the earth dumped there.

Everything is in readiness for the opening professional lacrosse game at the Stadium this evening. The face-off will be 7 o'clock.

The Vancouver team arrived on the boat this afternoon and Manager Ernie Murray announced that every man is in top form and ready for a hard battle, which he anticipates is in store for them. Billy Fitzgerald, manager of the local squad, has his boys groomed for the fray. Some dignitary of the town will be on hand to face-off the ball and "Cotton" Brynjolfson is to officiate as referee. The match has created much interest and it is expected that a large browd will be in the stands to see the lirst professional lacrosse game be-

Sockeye Salmon Facing Extinction, Expert Says

Consumers Partly to Blame, It is Said, Because They Scorn Pale Flesh Varieties.

By Frederick Ornes, of The Seattle Post-Intelligencer.

America's most important food fish, the sockeye salmon, is threatened with extinction, according to John N. Cobb, former Federal fisheries expert and organizer of the College of Fisheries at the University of Washington, the first institution of its kind in this country and one of the two in the world, the other being In common with other authorities, Mr. Cobb charges the rapid decline of the sockeye run to excessive fishing. That is the bald fact; and that explains the crisis that now exists in the career of the aristocrat of the realm of canned salmon.

the bald fact; and that explains the crisis that now exists in the career of the aristocrat of the realm of canned salmon.

The situation is recognized as so calamitous in all quarters that even the cannerymen, who have held out with such tenacity to their traps and purse seines, now evince a willingness to join the conservationists in an effort to limit the catch of the eveted sockeye. So far, however all efforts at co-operation between British Columbia, through which flows the Fraser River, the spawning grounds of nearly all the sockeyes that enter Puget Yound, and the State of Washington have failed dismally. With a treaty now pending in the United States Senfte Washington, through its administration, has taken a decided stand against the regulations which its ratification would impose. Objection is raised by the Washington state government to the exclusion of the Fraser River from the treaty waters. The text of the treaty describes a line running across the mouth of the Fraser River from the treaty waters. The text of the treaty describes a line running across the mouth of the Fraser River to Point Grey, which, it is asserted, permits Canadians to fish practically without restriction in the waters where most of the sockeyes are taken on the Canadian side.

Canadians Reject Terms

Recently the cannerymen of British Columbia rejected the proposal by the Washington fish commission that all fishing on the Fraser River cease during the month of July of this year on condition that traps only be operated on the American side. Thus the two countries stand dead-locked on the brink of the 1921, run with the probability that an other "cycle" year passes without any real effort to give the sockeyes a chance to reach their spawning grounds in sufficient numbers to restore the specie possibly to its former numerosity.

Since 1917, the most disappointing season in the history of Pacific fish-

Traced to its source, Mr. Ultimate Consumer may be said to be responsible for the present sockeye dilemma. For years he has demanded the red fleshed brands of canned salmon, flatly refusing to be placated with the pink or other paler varieties on the presumption that they were not as palatable. The industry looks upon the humpback as the richer and better salmon; but the combined efforts of cannerymen, broker, jobber and grocer have not availed against the lure of color. When it comes to salmon the consumer "sees red," wherein is the rub. For this reason the sockeye has always commanded a fancy price from the net to the table and has consequently formed the bulk of the pack.

In an attempt to satisfy this unyielding demand science has for some time past and is now engaged in unremitting effort to rehabilitate the well nigh deciminated sockeye.

The great question is now, can the ackeye come back? The answer in the affirmative to the question is the task to which such men as John N. Cobb, Dr. Charles H. Gilbert, professor of zoology at Stanford, and David Starr Jordan, are now especially addressing themselves. Since 1917, the most disappointing season in the history of Pacific fishing, the Puget Sound cannerymen have been gradually pulling out for Alaska. Alaskan waters have furnished nearly half of all the salmon packed on the Pacific since California pioneered the industry way backin 1864. Higher proportions were reached in 1918 when Alaska packed, \$4,77,589 cases of all grades out of a total of '16,104,127 cases from all Pacific sources. Up there the sockeye, or red, has not shown as sharp a decline as its the more southerly waters; but it is pointed out that under present fishing methods the same fate awaits the specie in the northern tergitory.

You will recall that in the last few months, of 1920 we made drastic reductions in our stocks, which procedure met with severe criticism at the time, though

later events proved it to be thoroughly justified. Our experience of business led us to anticipate market conditions just as they are to-day, for we have arrived through months of tumbling prices at the turn-

To-day manufacturers are everywhere wanting to dispose of stocks and are eager to secure orders to keep their factories going. During the past three months our directors, together with our buyers and many manufacturers in Eastern Canada, have planned.

in our Victoria, Vancouver and Nanaimo stores, starting Thursday, June 2, and extending through the entire month. The sale is designed to dispose of \$500,000 worth of merchandise in order to relieve the congestion in the factories. We believe this will prove the greatest trade event in the history of our store. As the widely varied goods arrive, they will be offered at intervals to inspire your interest in the sale for the whole month, also the values will provide an incentive for buying that no economical householder can overlook.

DAVID SPENCER, LIMITED

CANADIAN MANUFACTURERS' UNLOADING SALE

Commences To-morrow, Thursday, June 2nd

You will recall that in the last few months, of 1920 we made drastic reductions in our stocks, which procedure met with severe criticism at the time, though later events proved it to be thoroughly justified.

Our experience of business led us to anticipate market conditions just as they are to-day, for we have arrived through months of tumbling prices at the turn-

To-day manufacturers are everywhere wanting to dispose of stocks and are eager to secure orders to keep their factories going. During the past three months our directors, together with our buyers and many manufacturers in Eastern Canada, have planned.

in our Victoria, Vancouver and Nanaimo stores, starting Thursday, June 2, and extending through the entire month. The sale is designed to dispose of \$500,000 worth of merchandise in order to relieve the congestion in the factories. We believe this will prove the greatest trade event in the history of our store. As the widely varied goods arrive, they will be offered at intervals to inspire your interest in the sale for the whole month, also the values will provide an incentive for buying that no economical householder can overlook.

Swiss Chard and Kohl Rabi, Tempting Vegetables; But You Must Grow Them in Home Garden

There are vegetables that you cangrow in your garden-that cannot be secured from the dealer. Kohl Rabi is one of these. It is one of the tast-iest vegetables imaginable, distinctly different in its flavor from any other. It is also unique in habits of growth and when seen is regarded as a vegetable note that the search of growth and when seen is regarded as a vegetable novelty by those unfamiliar with it. Though like a turnip in some respects, it does not grow buried in the ground, but forms clear of the soil on a short, sturdy stem. The leaves are something like miniature outside cabbage leaves and grow from top dishes of the ball-like bulb. In flavor, this vegetable, when caten raw, is much like the tender core of a cabbage, which children like so well. When prepared for the table, by bolling, the Kohl Rabi has the by bolling, the Kohl Rabi has the by bolling, the Kohl Rabi has the longether enjoyable dish.

Some who have tried the Kohl Rabi have been greatly disappointed and many who have grown it from have afterwards banished it from have afterwards banished it from have afterwards banished it from hear afterwards banished it for food. Others have made the mistake of planting more than they could use up within a reasonable time, with the result that those that remained the longest were spoiled by over-growth.

Kohl Rabi should be planted much as radishes are planted—a few today, some more a couple of weeks hence and another planting after a similar interval. If planted in this manner, a long season supply may be had and every one pulled will be sweet and tender. began suffering from a stub-case of stomach trouble two a ago, and got into such bad that even a drink of water would cause me trouble at times. I was bothered terribly with bloating, and the indigestion caused me such acute pain that I could hardly stand it. My appetite became so poor I could eat scarcely a thing, and I got where I just dreaded the thought of eating on account of the awful distress I knew it would cause me. My nights were so restless I could get very little sleep, and I just suffered agony nearly all the time. I kept getting worse in spite of all I could do until I finally decided to try Tanlac. "I could tell the very first bottle of Tanlac was helping me, and five bottles have made me feel like an sentirely different man. The indigestion and stomach trouble have completely disappeared, I eat good and hearty at every weal, sleep like a log at night, and have been built up mevery way. I have gained eight pounds in weight too, and am anioying the very best of health. I can't could be more pleasing for a gan't confirmed Tanlac too strong by."

Saanich Strawberry Growers Make Contract For Entire Pack

The Saanich Fruitgrowers' Association held a meeting at Keating Temperance Hall last night which was widely attended. Ex-Councillor H. E. Tanner presided, the business of the meeting being that of discussion on the strawberry situation. A contract was ratified with the Scott Brokerage of Winnipeg to handle the season's output for the prairie market. Owing to a large increase in the area of small fruits under cultivation an increase in share capital was authorized. Fruit inspection is to be rigorously carried out this season to ensure safe packing of the strawberries, while experts from the Horticulture Department will give demonstrations in the early part of the season on the correct methods of picking and packing.

A distinctive trade mark, "Victoria Berries," has been adopted to make the Island product stand out in the markets. It was stated that the scale allotted to pickers this year would be fifty cents a crate and in like ration for pails, Those seeking work as pickers and packers in this connection are advised to get in touch with the Government Employment Eureau, Broughton and Largley Streets and the Government Employment Bureau, Broughton and Langley Streets, and register now. Miss Marlatt is super-vising the registration of the berry pickers. All applications should be made as above.

TO RE-OPEN ELK LAKE QUESTION

City to Meet Saanich on Old Issue To-morrow

The Elk Lake question, which alrelations between Vic-Saanich last year, will be re-opened when a delegation from re-opened when a delegation from the City Council waits upon the Saanich Council to-morrow night at Royal Oak.

What points will be covered by the

Royal Oak.

What points will be covered by the discussion was not known by the civic authorities to-day. "We don't know what the idea of the meeting is or what we are expected to discuss," Acting Mayor Sangster stated this morning. "We are going to the meeting to listen and see what the Saanich people want."

"There may be a few people still who want Saanich to tax the city's Elk Lake area, but I think that it is generally agreed now that the land should be free from taxation. The people of Saanich, I believe, have generally come to the conclusion that the area should be preserved tax-free as a park, and we certainly intend to stand out firmly against taxation of the land. The development of the area into a beautiful park, while it would mean much to the city, would be equally valuable, if not more so, to Saanich. I cannot see why anyone would want to stop that development by attempting to tax the property. However, perhaps all this will be cleared up when we meet the Saanich people to-morrow night."

Boy's Hard Luck.—Stolen from his home last night, a new bicycle owned by Sterling Beek, a young lad who needed the machine in his work, the vehicle was found at an early hour this morning by John Rock, a Colonist newsboy on his daily rounds. The bicycle was practically useless, the whole front wheel, saddle, one pedat, and all removable gear having been taken. It was evident that the unknown ther was trying to take the whole machine piecemeal, as the rest of the Trajne was unscrewed, and about ready to he taken apart in sections. The police are investigating.

The City Police Commission will meet shortly to formulate plans for enforcing the new liquor law when it comes into effect June 15. Acting Mayor George Sangster, chairman of the Commission. announced this morning.

"I had not planned to go into these matters myself as I expected Mayor Porter to return to the city in plenty of time to go into the liquor question himself." Alderman Sangster explained, "but as he won't be back until the middle of next month, I superse to present police force will be quite large enough to enforce the new liquor law will be as difficult. If not more difficult to enforce than the Prohibition Act. "We have taken no steps so far to prepare for the enforcement of the to me law because we have han no final word regarding the regulations framed by the Liquor Control Board. "They will take the cost out of the money we are supposed to get from liquor profits." Alderman Sangster explained. "Personally, I don't think we shall get a great deal anyway, so that won't matter much."

Alderman Sangster stated that he had received from the Chief of Police ar eport on a recent case in connection with which, it was alleged, a Chinaman had tried to bribe a policeman. "I find that there is nothing in this at all as far as the police are concerned." Alderman Sangster said "There is no necessity for any investigation as has been suggested."

Givings.

Toronto, June I.—The grand total of the givings of the Presbyterian Church in Canada during 1920 for maintenance, equipment and extension reached the record—sum of 44,500,000, or the highest figure in the history of the church in Canada. This is a summary of the report prepared by the treasurers, Rev. Robert Laird, for Western Canada, and Rev. Thomas Stewart for Eastern Canada, for the General Assembly, in session here.

Forward Movement thank offerings constituted the largest individual item in the list making up this total. These amounted to \$2,619,176. The budget givings of congregations totalled \$1,165,536. Contributions to the China Famine Fund made up \$337,594, and the amounts raised by the women's missionary societies totalled more than \$400,000. Bequests to the church funds amounted to less than \$100,000.

The treasurers reported that the Forward Movement peace thank-offering subscriptions amounted to \$5,272,000, of which \$2,720,000 had been paid in. The objective subscription for this fund was \$4,000,000.

Increase.

The budget givings of congregations for the year showed an increase
of \$18,304 over those of 1919 and of
\$180,437 over those of 1918.

The total amount received for the
maintenance of missionaries, educational and benevolent work was
\$1,872,663, as compared with \$1,511,055 in 1919 and \$1,387,739 in 1918.

What is known as "budget
revenue," including congregational
givings and other receipts, amounted
to \$1,377,820 as compared with
\$1,153,719 in 1919 and \$1,005,436 in
1918.

ENTIRELY NEW TREATMENT OR BRONCHITIS, CATARRH. NO INTERNAL MEDICINE TO TAKE.

TO TAKE.

Years ago the profession fought Catarrh by internal dosing. This upset the stomach and didn't remove the trouble. The modern treatment consists of breathing the healing, soothing essence of Catarrhozone, which goes instantly to the source and the trouble. Catarrhozone is successful, because it penetrates where it penetrates where sout the germs, soothes the irritation, relieves the cough, makes Catarrhozone troubles disappear quickly. For bad throat, coughs, bronchitis, Catarrhozone is a wonder. Twe months' treatment one dollar. Small size 50c. Sold everywhere or The Catarrhozone Co., Montreal.

go I made the rule that as long as am Chief of Police women will not be permitted to smoke in jail," is the word from Chief of Police W. J. Weir, who has been tendered a petitio signed by eleven of the fifteen women now held in the city jail, that they be

now held in the city jail, that they be permitted to smoke.

The petition is very brief: "Please let us girls have smokes in jail."

The petition was decided upon by the women after all other means of acquiring smokes had vanished under the watchful eyes of the jail matrons. One by one the smuggling methods have been detected until now smokes for women are the exceptional treat. Before deciding to send in the petition, the girls discussed the proposal and found that there is no law to prevent women smoking if they so desired. It was pointed out that the and found that there is no law to prevent women smoking if they so de-sired. It was pointed out that the men in jail are allowed the privilege so they decided to ask that they be permitted to do likewise.

"Home Sweet Home"

WAS WRITTEN BY John Howard Payne

Wherever the heart beats to music, wherever methory turns from sickness or sorrow, or poverty or wealth, to childhood's happy hours, there will be loved the song of John Howard Payne "Home Sweet Home," Irony of fate! Although he sang of home, he never had one!

John Howard Payne was born at Now York City, in 1791, but a large part of his childhood and youth was spent at East Hampton, on Long Island, in the home of his grandfather, and when he wrote the beautiful song which is sung with emotion throughout the English-speaking world, he must have had in mind the pleasant old town where he had played in his childhood and whose beautiful sornerly had made a deep and lasting impression on his mind.

Another Wave of Reductions Gets In; Repairing Cost Cut

New York, June 1.—Besides the big cut of 22 per sent. In the price of Overland cars, bringing them down to \$695, new reductions went into effect to-day on the Oakland, Lafayette, Sheridan and Franklyn cars.

The Studebaker Company made another cut all around. The average reduction on all models is \$165.50. Willys-Knights have been reduced by \$300 to \$1.895. Maxwells have suffered another cut of \$450, bringing the price down to \$345. Jordans have been cut \$600 to \$900, making the touring model price \$2.850: the price of Mitchells have been reduced by \$260 to \$1.490. Big reductions are announced over the country in the charges for repairing and in the price of tires. Many firms are giving away inner tubes free in an effort to unload part of the stock of tires.

EXCURSION NORTH IS OPEN TO ANYONE

Reservations Should Be Made Promptly For Grand Voyage on June 7

The Victoria Chamber of Commerce wishes it announced that the business men's pleasure excursion to northern ports of June 7 is open to anyone wishing to take in the voyage, and reservations may be made with the Chamber of Commerce here or at the offices of the C. N. R.

The G. T. P. steamship Prince George has been chartered for the trip, and all the points along the British Columbia coast will be called at and a visit paid to some of the big industrial plants. It is particularly desired that at least twenty-five reservations from Victoria be made in order that this city may be properly represented with other British Columbia cities. The excursion is being conducted by the Vancouver Board of Trade.

The Chamber of Commerce announced this morning that an extension of the option on the Munroe property, Douglas Street, for an amusement centre, had been extended until June 14, which will give the committee in charge of the matter an opportunity of taking the whole matter up with the City Council.

JOHN BAILLIE

His grave is near the little vifecovered chapel and can be plainly
seen from the street. A plain, white
marble shaft surmounted by a bust
of Mr. Payne one-haif larger than
life size, marks the place. On one
side of the monument is his name
and date of birth and death, white
on the other is this inscription:
