We, the undersigned, a committee chosen by the Cosmopolitan Art Association, to supervise the award of premiums to subscribers for the sixth year, ending January 31, 1850, certify:

That the number of subscribers holding certificates of membership and represented by the records of the Association, was twenty-seven thousand seven hundred and three. That the Association placed at our disposal the whole of the premiums, as catalogued in the Art Journal for December, 1849.

That the said premiums were awarded among the whole number of subscribers above enumerated, in a strictly just and impartial manner, with the result as above given.

- N. B.—Numbers given above were telegraphed.

NOTE.—At the last hour we are informed that the plates of the "Turner Gallery," which are included in the List of Premiums to be awarded to subscribers for the 5th year, were not to be had, *except in sets*. As we were promised the six plates first issued, with no reservation, this decision of the foreign proprietors of the work placed it out of our power to obtain the sets as catalogued. The whole series is not yet issued, and will not be complete for some time. We therefore had to make a substitution for them, and were fortunate enough to secure sets of the beautiful "Night" and "Morning," sufficient to make up for the Turner plates. As the "Night" and "Morning" are complete—the two going together to one number—our subscribers have reason to be glad of this substitution for the plates named, which, even if they had been furnished according to promise, would still have been incomplete as to the whole series. The cost of the "Night" and "Morning," in the passe-partouts frames, is one third greater than the plates named.
