APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF
DESIGNATED REPARATION MACHINERY AND EQUIPMENT.

Date: 10 Nov. 1950

TO : Ministry of International Trade and Industry.

FROM : Nihon Shono Kabushiki Kaisha.
Address: 1, 5-chome, Kumoi-dori, Fukiai-ku, Kobe-shi, Hyogo-ken.

1) Name (Code No.) and Location of the plant which intends to use designated reparation machinery and equipment.

Nihon Shono Kabushiki Kaisha. (Non-designated)

1, 5-chome, Kumoi-dori, Fukiai-ku, Kobe-shi, Hyogo-ken.

2) Name (Code No., Category) and Location of the plant where designated reparation machinery and equipment to be moved and used actually exist.

Name of Plant : Kawasaki Sangyo K.K., Futami Kojo
(Formerly: Kawasaki Kokuki Kogyo K.K.)

Code No. : 13-18

Category : Aircraft

Location : 1/18, Nishifutami, Futami-cho, Kako-gun, Hyogo-keh.

3) List of desighated reparation machinery and equipment to be moved and used.

We intend to move and use two (2) machine tools now laying idle at Futami Kojo (Code No. 13-18), Kawasaki Sangyo K.K.

Details will be given on attached list.

4) Necessity for movement and use of machinery and equipment.

1. Outline of the plant.

The company established in 1918, mainly manufactured refined camphor.
The output produced before the war period was one hundred (100) tons per month.
The plant had been damaged by air-raids in 1945. The plant rehabilitation started immediately after the termination of the war and it was completed in 1946. Since 1949, started to manufacture "Borneol"

KAJIMA
AP
DP
Received: 4/12/50

Present output of the plant is as follows:

Name of Items	Monthly output	Destination
Refined Camphor (solid, powder)	70 tons ¥24,000,000.oo	80% export (India, Europ, South America, Hongkong)
Borneol	0.5 tons ¥ 550,000.oo	Export (India, Hongkong)

2. Present Status of the plant.

Employees at present: 180

Equipment existing at present:

a. Powdered camphor manufacturing equipment	2 sets.
b. Solid comphor manufacturing equipment	9 sets.
c. Borneol manufacturing equipment	1 set.
d. Machine tools (one 6' engine lathe, one drilling machine)	2.
e. Camphor pressing machine	20.

In parallel with recent increased demand, we planned to have thirty percent (30%) increased production with more working efficiency on the existing equipment. In order to realize the plan, it is necessary to have abundant supply of moulds which are used as the attachment of present existing equipment.

3. Reasons, the machine tools are necessary.

The kinds of camphor processing machines are as follows:

Name of machine	Unit weight of article	Dimention of article	Remarks
Vertical type solid camphor pressing machine	1 ounce	50.8 mm cube	Moulds are interchange-able to all processing machine.
	½ "	38.1 do.	
	¼ "	28.6 do.	
	1/8 "	25.8 do.	
	5 gr	28.6 do.	
Powder camphor pressing roll	1/80 "	12.7 do.	48 moulds are required per machine.
	1/60 "	8.8 do.	
	5 gr	28.6 do.	25 moulds are required per machine.

Kind of the camphor processing machines are as above stated and the life of moulds are nearly 60 days. The consumption of moulds are five sets (one positive and two negative molds make one set) for a vertical solid camphor pressing machine and tensets for a powder camphor pressing roll per month.

On accuracy of moulds, the telerance is less than two hundreds mm required. If it excess more than five hundreds mm, the waste camphor increases and production percentage decreases nearly 15 percent.

We had self supply of moulds before the war for we had enough machine tools to make required moulds ih number at the plant. However, forthe war disaster we lost them all. Since resumption of the plant, the moulds manufacturing work had been done by manual laborers for the time being. According to the production increased gradually, the loss exceeded for above reason. Now we therefore, order nearly 80 percent of such moulds to outside subcontractors. Neverthless, the accuracy of the moulds, the delivery date, both hardly be expected and the moulds manufacturing problem is still remained.

4. The lathe and the milling machine of which "AU" applied for

   The machines for which "AU" application submitted this time, are strict precision machines, especially, the vertical milling machine is very suitable of making square holes (or rectangular holes.)

   By using these machines, it is possible of self supply of moulds insted of issuing orders for moulds to the sub-contractors.

5. The listed machines are urgently needed machines for our plant to realize our production schedule. But to buy them at the market is almost unable from every angles of strict precision requirement and the time element.

   For such reasons, we wish to apply for movement and authorized use of reparation designated machines as listed.

Takanori Saji

Takanori Saji
President,
Nihon Shono K.K.

DECLASSIFIED E.O. 12958 Section 3.3, NARA Date 7-22-04

LETTER OF ASSENT

Date: 31 October 1950

TO : Ministry of International Trade and Industry.

FROM : Chief Custodian of Kawasaki Sangyo K.K. Futami Kojo.
(Formerly: Kawasaki Kokuki Kogyo K.K.)

I have no objection pertaining to rent of the reparation designated machinery and equipment, belonging to Futami Kojo, , Kawasaki Sangyo K.K. list of which is attached to the application herein and movement of the same to Nihon Shono K.K.

Ryuzo Takata

Ryuzo Takata

Application for Movement and Authorized Use of Designated Reparation Machinery and Equipment.

Date: 5 October 1950

C.

TO : Ministry of International Trade and Industry

FROM: Nippon Ringyo K.K.
Address: No.64 Kitakoyocho Nichome, Sakai, Osaka Pref.

1. Name (Code No.) and Location of the plant which intends to use designated reparation machinery and equipment.

   Name : Nippon Ringyo K.K. Hokusho Plant
   (Non-reparation Plant)
   Location: No.100 Hokushocho, Itchome, Sakai, Osaka Pref.

2. Name (Code No. Category) and Location of the plant where designated reparation machinery and equipment to be used actually exist.

   Name: Osaka Seisa Zoki K.K. Utajimabashi Plant
   Code No.: 32 - 15
   Category: Aircraft.
   Location: No.377 Nozatocho, Nishiyodogawa-ku, Osaka.

3. List of designated reparation machinery and equipment to be moved and used.

   Six Machine Tools, namely:

3	Lathes	Inventory No.		32-15-22,23 and 40.
1	Drilling Machine	"	"	32-15-65
1	Grinder	"	"	32-15-160
1	Buffer	"	"	32-15-162

   Please refer to the attached list.

4. We, Nippon Ringyo K.K., has a history of long experience on the production of Bicycle Parts, specially of Front Forks which have been widely known in the trade name of "Tange Fork" in this country.

   Soon as the expert business be resumed after the termination of the war, we started without delay the expert business of our products under our trade mark "Rory" which is now widely known not only all over the South Asia but also in South America.

   Thanks to the superiority of our products, we are being favored with so many valuable orders for our products by the buyers in the above said parts of the world, besides those for domestic trade; that no more possibility of accepting orders by allowed with our present facilities of the production.

Received: 27/10/'50

DECLASSIFIED E.O. 12065 Section 3.3(b)(1)

Such being the present situation, we earnestly request you kindly to approve the movement and authorized use of the idle machines hereby applied for, so as to enable us to enjoy the fulfillment of many valuable orders in hand and also those coming in.

References:

1. Establishment of the company: March, 1929.
2. Capital: ¥ 5,000,000 (fully paid up)

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF DESIGNATED REPARATION MACHINERY AND EQUIPMENT

Date: 30 September, 1950.

TO: Mr. Shigemi Yokoo,
Minister of International Trade & Industry.

FROM: Matsushita Electric Industrial Co., Ltd.
(Matsushita Denki Sangyo Kabushiki Kaisha)

Address: 1006, Kadoma, Kadomacho, Kitakawachigun, Osakafu.

1. Name (Code No.) and location of the plant which intends to use designated reparation machinery and equipment:

Name: (English) Radio Plant, Matsushita Electric Industrial Co., Ltd.
(Romaji) Matsushita Denki Sangyo Kabushiki Kaisha, Radio Kojo.

Code No.: None; this plant is not designated as reparation plant.

Location: 1006, Kadoma, Kadomacho, Kitakawachigun, Osakafu.

2. Name (Code No. & Category) and location of the plant where designated reparation machinery and equipment to be used do actually exist:

Name: (English) Head Office Plant, Matsushita Metal Co., Ltd.
(Romaji) Matsushita Kinzoku Kabushiki Kaisha Honsha Kojo.

Code No.: 32-70

Category: Machine tools.

Location: 160, Takase-kyusegi, Moriguchishi, Osakafu.

3. List of designated reparation machinery and equipment to be moved and used:

Please refer to attached list below.

4. Necessity for movement and use of machinery and equipment:

1) The above mentioned Radio Plant of the applicant-company is manufacturing radio receiving sets and their parts. The machinery and equipment now used at the plant have become deteriolated, and they do not display sufficient efficiencies. The plant management is now establishing

KKLC
AM
Received: 27/9/'50

and performing numerous improvements and replacements of these bad machines, though they are confronting serious difficulties in ordering new machines on account of current shortage of funds.

Such being the situation, the borrowing and utilization of the machines and equipment (list of which is attached below) which are now idle at the Head Office Plant of Matsushita Metal Co., Ltd. would be a most convenient way available at present for the rationalization of the plant operations at the above mentioned plant of the applicant-company. The applicant-company is hereby submitting this application, accompanied with the Letter of Assent of the custodian company, to which your kind attention and prompt permission is requested.

2) Outline description of the applicant-company and of the Radio Plant:

a) Date of company establishment:

December 15, 1935.

b) Capital amount of the company:

¥120,000,000.- (totally paid in)

c) Present production and estimated future production of the plant, both in amount and quantity (amount is ¥1,000.):

Month	Radio Sets		Radio Parts		Total	Remarks
	Quantity (set)	Amount (¥1,000)	Quantity (1000 ea.)	Amount (¥1000)	Amount (¥1,000)	
Apr. 50	5080	37,050	499	17,464	54,514	Actual record
May "	6750	33,546	511	19,608	53,154	"
June "	6050	29,946	574	21,760	51,706	"
July "	6640	33,050	581	21,670	54,720	"
Aug. "	8100	37,130	476	20,539	57,669	"
Sept."	9200	39,000	450	20,000	59,000	Estimated record

30, Mukoshiro-cho, Takeda Fushimi-ku, Kyoto-shi.

2. Name (Code No. Category) and location of the plant where designated reparation machinery and Equipment to be used actually exist.

Name of Plant where Machine Belong	Code No.	Category	Location	Remarks
Shimadzu Sanjo Works West Section	22-18	Aircraft	18 Kuwabara-cho Nishinokyo, Nakagyo-ku, Kyoto-shi.	
Shimadzu Shijo Works	22-19	Aircraft	3, Hanai-cho Mibu, Nakagyo-ku, Kyoto.	Under permission dated April 3, 1948 have been removed and are now stored in Sanjo Works.

Note: The above two works and warehouse belong to same company, none of them is revaluated yet.

3. List of designated reparation machinery and Equipment to be moved and used.
With this petition, the following 15 Idle reparation Machines are wished to use and as to the particular of these machines are referred to the list below.

Name of belong to Plant	Qt.	Remarks
Shimadzu Sanjo Works	13	Idle at present
Shimadzu Shijo Works	2	ditto.
Total	15	

4. Necessity for movement and use of machinery and Equipment.
In this works, we are making electric meters and electric measuring instruments same as before and also industrial meters which were made before in Shimadzu Yamanouchi Works until the Spring of last year when this Yamanouchi Works was removed to this works.

Received: 27/12/50

Recently better accuracy of electric meters is required, and more quantity of industrial meters is demanded, and the machine tool equipment here should be improved accordingly to meet the demands.

(1) The lathes are wanted to replace the old ones for making the better accurate screws of more quantity for industrial meters.

(2) The drilling machines are wanted for more hole production of the cases for electric meters, and the shaper for production of more cases for the meters at a time -- at present this plant has no large type shaper like this.

(3) The grinding machines are for grinding pole pieces. At present, the Plant has no place grinding machines like item No.6 on the list, and in use of these 2 machines, 30% of the production is expected to increase.

(4) The metal sawing machine is for more production of the parts of industrial meters. The generator is for a new electric plating bath for plating screws which we used to buy and were not satisfactory; and we have decided to plate them ourselves.

Under the present condition of our company, we can not buy those machines from the market, and wish to use these 15 idle reparation machines for more productions to execute a large part of outstanding orders.

Production Items	Present Monthly Production	Future Production Plan for Month	Remarks
Electric meters	1,800	1,950	
Electric Measuring Instruments	300	400	
Industrial Metal	500	700	

Your kind and prompt approval shall be greatly appreciated.

Shimadzu Seisakusho Ltd.

for Yosuke Suzuki, President.

List of the Desired Reparation Designated Machinery and Equipment

Applicant. Shimadzu Seisakusho Co., Ltd. Fushimi Works

A) The Machines which belong to Sanjo Works

Name of Machine	Name of Mfg Co.	Type & Dimension	Inventory No.	Operation or Idle	Name of Remarks Items
1) Machine Tools					
Lathe	Hirahara Seisakusho	Standard	22-18 -1174	Idle	1
Ditto	Yoshikawa Kikai	Gap, 450x1100 m/m	-1195	Ditto	2
Ditto	Osaka Kikai	Standard, 430x700 m/m	-1197	Ditto	3
Ditto	Shinohara Kikai	Engine	-1213	Ditto	4
Ditto	Ditto	Ditto	-1227	Ditto	5
Grinding Machine	American Tool Co.	Surface No. 2	-1505	Ditto	6
Ditto	Tsunoda Kenma	External 150 m/m	-1525	Ditto	7
Drilling Machine	Matsumura Denki	Multiple 15 m/m	-1754	Ditto	8
Ditto	Koide Kikai	Bench 5 m/m	-1810	Ditto	9
Ditto	Rokuroku Shoten	Bench 10 m/m	-1826	Ditto	10
Grinding Machine		Universal Tool 200 m/m	-1848	Ditto	11
Shaper	Shinohara Kikai	660 m/m	-1853	Ditto	12
	1) Total				12
2) Electrical Machinery and Apparatus.					
Genarator	Sakae Denki	6.5 HP	22-18 -1537	Idle	1
	2) Total				1

B) The Machine which belong to Shijo Works

Name of Machine	Name of Mfg Co.	Type & Dimension	Inventory No.	Operation or Idle	Name of Remarks Items
1) Machine Tool					
Lathe	Shimamoto Tekkosho	Engine 400x850 m/m	22-19 -72	Idle	1
Sawing Machine	Sono Tekkosho	Hack 200 m/m	-317	Ditto	2
	1) Total				2
	Grand Total				15
