OUR NATIVE CACTI

By
ETHEL BAILEY HIGGINS

WRITTEN by a woman who has given many years of her life to the study of the Cactus, who has indefatigably collected these plants from all available sources, grown them and photographed them, this book will prove itself a mine of information to those seeking light on the subject of one of the most peculiar, yet fascinating of Nature's products.

Our Native Cacti

will be found to answer the many questions which may be asked by the amateur and those non-technically inclined. This is assured from the fact that the writer, starting as an amateur, reading the current literature on the subject, found much therein that was not readily understandable. Therefore, because she possessed more than the average of curiosity, she collected the plants, watched them grow, blossom and fruit. With the added advantage of living on the edge of the desert, she has come to know Cacti intimately, and so has been enabled to write of them, describe them, and tell of their individuality and how to succeed with them culturally, in a graphic style permitted only to those who are entirely familiar with their subject.

The book contains over 100 beautiful illustrations, four of them in full natural color.

180 pages, handsome Tudor linen
cloth cover, printed in green.....\$2.50

Postpaid, \$2.65

Cactus and Succulents
NEW MILFORD, N. J.

Cereus Nycticalus, similar to above. Flowers much the same, etc. Same prices

Cereus Triangularis, very strong grower, most beautiful flowers of all *Cereus* and the largest. Blooms freely when once established. Have a great many sizes, also cuttings. .25 and .50
Large Pieces. 1.00 and 2.00

Cereus Spathianus, very stout heavy grower, fine specimen plant, white flowers, scarce. Have heavy plants. Fine for collections. 3.00. 5.00, 7.50 and 10.00 each

Stapelias, have many sorts, named varieties *Charybdis*, *Gigantea*, *Grandiflora*, *Hybridii*, *Mermelis*, *Planiflora*, *Quinquinervia*, *Variegata*, and some of our own *Hybrids* as yet unflowered, strong cuttings only. each .25
Seedlings of *Stapelia Gigantea*. each .25

Bryophyllum Crenatum, sprouting leaf, odd. .25

Dyckia Rarifolia and *Sulphurea*, large plants only. each 3.00 and 4.00

Fourcroya Lindenii, like a variegated Century Plant, more graceful however, fine plants. Special each .50 and .75

Kleinia, several varieties. .25 a cut

Sanseveria Zeylanica, Zebra Plant or Snake Plant. Very popular now. All sizes. .25 up
To large plants. 2.00 and 3.00
.25 size is a nice little plant, 2 or 3 leaves.

Sanseveria Laurentei, variegated form of above, much prettier. .50 up
3.00 buys a handsome specimen, very decorative. Also have some fine ones at 1.00, 1.50, and 2.00. Huge specimens at 10.00. Some fine ones at 5.00, 7.50, etc. This is the most popular foliage plant sold today. We never have enough.

Sanseveria Cylindrica. rare sort with perfectly round leaves. Cuttings only. each .75

Sanseveria (species). Have some rare sorts as *Gracilis*. *Para*. etc.. cuttings only. each .75

Tradescantia Brachyphylla, fine creeper, very odd.	.25
Umbillicus Chrysanthus, little plants like Sempervivums. Very pretty.	.25
Sedum Brynesia Weinbergii, a fine sort, Very easily propagated. No collection should be without it.	.25
Opuntia. genuine Burbank, spineless, direct from his garden, i. e. plants from a plant from there. Cuttings extra heavy.	1.00
Opuntia. Have a lot of large mixed sorts. Cuttings.	.10 and .15 each
Rooted Plants.	.25, .50, 1.00
Some real specimens from 3 to 10 and 15 leaves or slabs.	1.50 to 10.00 and 15.00

Many other sorts in smaller quantities. Visit our greenhouses and nurseries. Boulevard and Main Street, New Milford, N. J., 15 miles from Union City, (where our flower shop is located.) Open Sundays all day at the Greenhouses. Much to see here, and anyone interested in rare plants and flowers will find it a pleasant surprise to come to see us. We have a Cactus house arranged as a big garden scene. Cactus eight and nine feet high. All sizes and shapes. Hundreds and hundreds of varieties.

Mail orders welcome. Large heavy plants shipped by express. All prices are for cash only. Address your letter:

OTTO H. ROLLER

Boulevard and Main St. New Milford, N. J.

We import plants from Mexico, Germany and other countries under special permission, for display only and propagation under Special Federal Horticultural Permit. These plants are here for you to see and enjoy.
