It is established by the testimony of thousands of women, that Dr. Pierce's Favorite Prescription makes Weak Women Strong and Sick Women Well.

Science is the foe of sickness. It is fighting sickness in all its forms and conquering it. Wherever there is a widely prevalent disease of special malignity science enters the field against it. It was the prevalence of womanly diseases which led Dr. Pierce to investigate the cause of ailments peculiar to women, and to seek a means of cure which might be put within the reach of every woman in the land. The result of Dr. Pierce's scientific studies and experiments was the production of Dr. Pierce's Favorite Prescription, a medicine with a record of cures of womanly ills which is without a parallel in the history of medical science. The fact of these cures is attested by hundreds of thousands of women. The permanence of the cures is proven by grateful women who after a lapse of years write in such terms as these: "It is now several years since I used Dr. Pierce's Favorite Prescription. I have had no return of my trouble. I am a healthy, happy woman, thanks to Dr. Pierce and his medicines." There are people who say that such cures are imaginary. The women who are cured don't think so. They know there was nothing imaginary about the backache, weakness and nervousness from which they suffered. They know that there was nothing imaginary about the scales which told constantly of a loss of flesh, nothing imaginary about the mirror which showed the hollowed cheek and dulled eyes. Above all they know that there was nothing imaginary about the bills they paid for medicines and

doctors without receiving any benefit. There is also nothing imaginary to them about the result of the use of "Favorite Prescription." No more pain, no more backache or headache. No more nervousness and sleeplessuess. That's not imaginary. And there's one solid fact which there is no getting away from because it is written in solid flesh and can be weighed in ounces and pounds, and that is the gain of lost flesh which so commonly follows the use of "Favorite Prescription," together with the restoration of a clear complexion and a

healthy color. "I had female trouble for eight years," writes Mrs. L. J. Dennis, of 828 East College Street, Jacksonville, Ills. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed minety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing-down pain, and such distress every month but now I never have a pain—do all my own work, and am a strong and healthy woman."

"In the spring of 1900 I became very Ill," writes Mrs. Alviena Scholtz, of Lake Washington, LeSueur Co., Minn.; "my back was very weak and ached so that I could do no work at all, so I was obliged to take to my bed. I wrote to Dr. Pierce and he sent me a very kind letter and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' I took six bottles of each and am a well woman now. I cannot say enough in favor of Dr Pierce's medicines."

"I wrote to you for advice, February 4th, 1896," writes Mrs. I,oma Halstead, of Claremore, Cherokee Nation, Indian Territory. "I was racking with pain from the back of my head down to my heels. Had hemorrhages for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicines, viz: Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and 'Pleasant Peliets,' also gave advice about injections, bath and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard

Dr. Pierce's Favorite Prescription is a scientific remedy for the cure of womanly ills. It restores regularity and dries the drains which weaken women. It heals inflammation and ulceration and cures female weakness. It is invaluable as a tonic for weak, worn-out, run-down women, restoring

them to perfect health and strength. Sick women are invited to consult Dr. Pierce by letter, free. All letters are held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

peculiar to women, and to seek a means of cure which might be put within

the reach of every woman in the land. The result of Dr. Pierce's scien-

tific studies and experiments was the production of Dr. Pierce's Favorite

Prescription, a medicine with a record of cures of womanly ills which is

without a parallel in the history of medical science. The fact of these

cures is attested by hundreds of thousands of women. The permanence

of the cures is proven by grateful women who after a lapse of years write

in such terms as these: "It is now several years since I used Dr. Pierce's

Favorite Prescription. I have had no return of my trouble. I am a

healthy, happy woman, thanks to Dr. Pierce and his medicines." There

are people who say that such cures are imaginary. The women who are

cured don't think so. They know there was nothing imaginary about the

backache, weakness and nervousness from which they suffered. They

know that there was nothing imaginary about the scales which told con-

stantly of a loss of flesh, nothing imaginary about the mirror which

showed the hollowed cheek and dulled eyes. Above all they know that

there was nothing imaginary about the bills they paid for medicines and

"Favorite Prescription." No more pain, no more backache or headache.

No more nervousness and sleeplessness. That's not imaginary. And

there's one solid fact which there is no getting away from because it is

written in solid flesh and can be weighed in ounces and pounds, and that

is the gain of lost flesh which so commonly follows the use of "Favorite

Prescription," together with the restoration of a clear complexion and a

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of \$28 East College Street, Jacksonville, I'lls. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing-down pain, and such distress every month but now I never have a pain—do all my own work, and am a strong and healthy woman."

"In the spring of 1900 I became very ill," writes Mrs. Alviena Scholtz, of Lake Washington, LeSueur Co., Minn.; "my back was very weak and ached so that I could do no work at all, so I was obliged to take to my bed. I wrote to Dr. Pierce and he sent me a very kind letter and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' I took six bottles of each and am a well woman now. I cannot say enough in favor of Dr. Pierce's medicines."

"I wrote to you for advice, February 4th, 1896," writes Mrs. Loma Halstead, of Claremore, Cherokee Nation, Indian Territory. "I was racking with pain from the back of my head down to my heels. Had hemorrhages for weeks at a time, and was unable to

sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicines, viz: Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and 'Pleasant Pellets,' also gave advice about injections, bath and diet. To

my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard

womanly ills. It restores regularity and dries the drains which weaken

women. It heals inflammation and ulceration and cures female weakness.

The husband finds it hard perhaps to understand the changing moods of his wife. Indeed she cannot understand herself. She only knows that she is nervous, restless and anxious. A great change has come over her which she cannot understand or explain. Women do not always reflect that at this crisis they are living for two in-

stead of one; that they need health for two and strength for two. The need for increased health and strength by the prospective mother is perfectly met and satisfied by Dr. Pierce's Favorite Prescription. It tranquilizes the nerves, promotes the appetite and gives refreshing sleep. It makes the baby's advent practically painless, and gives the mother strength to give her child.

THE PHENOMENAL EARLY CAREER OF ATTRACTING GREAT ATTENTION AMONG

Although Sickly and Delicate, This English Lad Was Intellectually One of the Most Remarkable Youths the World Has Ever Known.

One of the most remarkable boys the world ever saw was William Pitt. He astonished folk with his learning at the age of seven. He became prime minister of England when he was twenty-

He was a sickly boy, but he took all the out of door exercise his delicate frame could bear and was as eager to study as most boys are to play. He would not let his weak body stop his work, and he was reading ancient history at an age when most children are reading stories written in words of one syllable.

His father was the great Earl of Chatham, and the boy was brought into contact with all the great men of the time in England. When he was thirteen years old he wrote a tragedy which he called "Laurentine, King of Clarinium."

At this age, too, he was able to read Greek and Latin almost as well as he know anything.

Queer African Mask.

Grotesque masks are worn in many parts of Africa during dances and religlous ceremonies. The reason is be cause a symbolic significance is attached to them and they are especially supposed to possess the power of preserving those who wear them from the influence of evil spirits.

The masks are generally made of wood, and some are carved with rare skill. When a chief or the head of a family dies, he leaves his mask to his successor, and the latter is bound to wear it. In every village there is an artist who repairs masks and occasionally makes a few new ones, and it is said that no one does a more thriving business than he.

Ethnologists have been trying to find out the exact time when these masks first came into use, but all they have

learned as yet is that they have been popular in Africa for many centuries: Somnambulism.

Somnambulism? What is it? Did you ever walk in your sleep? If so, you know just about as much about this strange use of the faculties and senses of the mind and the body as does the average physician. Somnambulism has been a mystery and a matter of discussion to the medical profession since the days of the ancients. They knew as well as we all now know that there is such a thing as somnambulism or walking in the sleep. They attempted to explain it just as modern medical science has been endeavoring to explain it ever since. But as it was then so it is now. There are so many explanations that even the physician is puzzled to decide which to accept.

Go together with many women who are approaching the first experience of maternity. The husband finds it hard perhaps to understand the changing moods of his wife. Indeed she cannot understand herself. She only knows that she s nervous, restless and anxious. A great change has come over her which she cannot understand or explain.

Women do not always reflect that at this crisis they are living for two in-stead of one; that they need health for two and strength for two. The need for increased health and strength by the prospective mother is perfectly met and satisfied by Dr. Pierce's Favorite Prescription. It tranquilizes the nerves, promotes the appetite and gives refreshing sleep. It makes the baby's ad-

WILLIAM PITT.

Although Sickly and Delicate, This English Lad Was Intellectually One of the Most Remarkable Youths the World Has Ever Known.

One of the most remarkable boys the world ever saw was William Pitt. He estonished folk with his learning at the age of seven. He became prime minister of England when he was twenty-

He was a sickly boy, but he took all the out of door exercise his delicate frame could bear and was as eager to study as most boys are to play. He would not let his weak body stop his work, and he was reading ancient history at an age when most children are reading stories written in words of one syllable.

His father was the great Earl of Chatham, and the boy was brought into contact with all the great men of the time in England. When he was thirteen years old he wrote a tragedy which he called "Laurentine, King of Clarinium."

A simple, harmless and infallible cure for earache is effected by making a small funnel of stiff paper and saturat ing a ball of cotton the size of a hickory nut with chloroform and droppi it into the funnel; place the small end of the funnel in the ear, draw a long breath and then blow the breath into the large end of the funnel. The fumes of the chloroform are thus carried into the ear, and all pain ceases at once.
