The OPIATA BALSAMICA is put up in small leader pets, accompanied with directions, and may be conveniently carried in the pocket, both by persons travelling, and by those who may wish to avoid exposure, either to a physician or to their friends.

such a manner as to render it "tasteless," by being wrapped up in a wafet prepared for that purpose, a sufficient number of which will be delivered with the medicine. But the greatest advantage which it possesses, is, that it invariably produces a radical cure of the disease in a few days, without affecting the most delicate constitution, owing to its containing the slightest particle of mercury Before the Agent would offer it to the public in this country, he has had its efficacy tested by several of the

most respectable physicians in the city of New York Their success has fully justified the declaration, that it is the best medicine they ever used, and they have in con
