VICTORIA, B. C., SATURDAY, AUGUST 30, 1913

NO. 52

## TWENTY-TWO COMMITTED FOR TRIAL AT NANAIMO PRELIMINARY HEARING. FOUR CHARGES OF RIOTING ARE WITHDRAWN

Men Appear Before Judge Barker and Elect Trial Before Him in Preference to Waiting for Jury Trials at Assizes

Wives and Sisters of Prisoners Ignore Restraint and Shower Delicacies Upon Them as They Are Leaving the Court Room

Nanaimo, Aug. 30.—Twenty-two men were committed to stand trial by Magistrate Simpson yesterday afternoon on charges of rioting. They later appeared before His Honor Judge Barker and elected to take speedy trial before him without a jury. The charges against four men were withdrawn by the crown, while the magistrate discharged two boys who were accused of following several workmen on the day of the trouble.

In the corridor of the court-house at noon, when the accused were being assembled for their march back to jail, the special police were almost overpowered by the wives and sisters of the prisoners, who rushed toward them with bags of fruit, food and articles of clothing. In spite of the objections of the officers and their efforts to prevent it the women nearly all accomplished their object, and the men were marched away laden with good things.

Before the preliminary hearing of the charges of rioting on August 12 near number one shaft, 19 prisoners from Extension were arraigned and were remanded until Wednesday. The gallery was crowded with women relatives of the accused. For several hours the women had been waiting outside the building for the doors to open.

Chief Constable Neen was the principal witness against the men accused of rioting. He detailed the incidents of the day, from the time the crowd assembled on Halliburton street until it dispersed several hours later. He identified several of the accused as being members of the crowd. F. Shepherd, M. P., had addressed the assembly and secured a hearing for Mine Manager Stockert, who offered terms which many seemed to favor.

Re-examined by Mr. Sheehobotham, the chief said he had telephoned to the mayor telling him that there was going to be a riot and that a force of 150 men was needed. Mayor Shaw took no immediate steps that day, as he had

to attend a funeral. To Mr. Darling the witness admitted that it might have been better had the Riot Act been read.

Constable Shirras, after explaining what he knew of the trouble, which apparently was caused by a number of workmen attempting to leave the pithead, and identifying several men, said that he had seen far less boisterous crowds have the act read to them. He thought that the Riot Act should have been read at three o'clock when the mob appeared in front of the mine. He had made no attempt to have it read, as the chief was in charge.

Several other witnesses, including Special Constable Bridge, who was assaulted by the crowd, and David Scott, an aged strike-breaker, who was abused, testified as to the character of the assembly and against some of those present. Constable E. Wolbank declared that Jack Place, M. P., addressed the mob after an armistice of twenty-four hours had been asked for by Frank Shepherd, saying—"Follow-workers, you have these men (meaning the trapped strike-breakers who were on the company's property) in a hole and what they want is time to bring specials; the things and ruff raff of Vancouver, so keep them here."

After hearing the evidence, his worship dismissed the cases against T. Scott and Alfred Gibson, two boys, first lecturing them on their conduct. Four charges were withdrawn.

Those committed were J. Richmond, R. Haddow, W. Wardell, R. W. Smith, Isaac Storey, Alfred Wardell, James Baird, George Steel, Arthur Jordan, William Cummings, Fred Banks, J. Angelo, Sam Connor, John Place, M. P., Pat Mulgrew, S. Rogers, T. Cervella, J. Korjenaki, J. Duggan, W. Bonner, Harry Martin and Harry Melkie.

Ladysmith, Aug. 30.—The hearings in connection with the charges arising from the strike riots were resumed at

(Concluded on Page 14.)

## RECALL OF TROOPS FAILS TO RECEIVE APPROVAL OF SOME NANAIMO CITIZENS

Col. Hall Characterizes Report of Alleged Threatened Desertions as Unjustified Slander and Commends Spirit of Men Under His Command

Nanaimo, Aug. 30.—Characterizing as unjustified slander the reports in two Vancouver papers that the withdrawal of the troops from the strike zone was impelled by fear on the part of the officers and authorities that there would be desertions and mutinies, Lieut.-Col. Hall, the commanding officer, declared to the Times' representative at Nanaimo last night that there were no threats or attempts of desertion, and that the conduct and spirit of the men throughout had been so splendid that the story published by these papers was sheer malicious fabrication.

As a matter of fact, when volunteers were asked for in the various regiments in every case but one more than the required number stepped forward. In one regiment 125 volunteered, although but 50 were required. In another smaller regiment 30 men volunteered to remain had to be taken away.

Speculation is rife as to the reasons for the sudden recall of the troops. The Times is in possession of the full facts concerning this circumstance, and here they are.

Col. Hall Made Recommendation.

Col. Hall and Captain Villiers went to Victoria on the 26th of August, and conferred with the Attorney-General. The following day Col. Hall wrote the Attorney-General stating that the militia had accomplished its work here to all intents and purposes, the trouble being over so far as infractions of law and order were concerned. In order to lessen the cause for future trouble he stated that three places should be kept garrisoned for six months at least, Nanaimo by 100 troops, Ladysmith by 50, and Cumberland by 50.

On the 28th the Attorney-General wrote back to Col. Hall that he had consulted with Col. Roy and had advised him to carry out the recommendation of Col. Hall. At the same time the orders came along and the troops departed yesterday. Col. Hall did not expect, however, that the orders would follow so suddenly upon his recommendation, and a number of the prominent citizens of Nanaimo, notably Mayor Shaw and Magistrate Simpson, called upon Col. Hall, and protested that the situation was not safe without the troops.

Captain Clark, of the 5th and Cap-

tain Cunningham, of the 88th, have remained in command of the detachments from the two Victoria regiments, for the time being, but the officers in charge will be changed every few weeks, only the men staying throughout.

Detachments of 30 men each will be retained at South Wellington and Extension under the orders from Col. Roy. While the general disposition of the remaining troops will be about as stated, the quick movements of small bodies will be kept up as occasion requires in spite of the reduction of the total number.

Valedictory For Men.

A valedictory was issued by Col. Hall on the departure of the major portion of the men under his command. It was as follows:

"The Lieutenant-Colonel commanding the civil aid forces cannot allow the troops who have been serving under his command to return to their homes without expressing his thanks for their loyal efforts and work. He has never felt a doubt that the troops would perform any duty, no matter how unpleasant that duty might be, in a way that would bring credit to any corps in His Majesty's regular army. The civil aid force has rendered a service to humanity which few can yet appreciate, and for which the chief reward will be the pride which the soldier feels in the simple performance of his duty.

"The Lieutenant-Colonel has great pleasure in announcing to the troops that, owing to the generosity of Mr. J. S. H. Matson in temporarily advancing funds, he has been placed in a position to distribute \$5,000 to all non-commissioned officers and men. The officers commanding units will make application to headquarters forthwith for the total amount required, when cheques will be issued accordingly."

Laughing at Bowser.

Attorney-General Bowser was quoted in a Vancouver evening paper which reached here last night as saying that now the troops were withdrawn the given an opportunity of joining his special police. When the officers and men read this they laughed and jeered at the thoughts of becoming policemen.

## THAW LEGAL FIGHT IS RESUMED TO-DAY

Fugitive From Mattewan Asylum to Appear in Court Again on Tuesday

COATICOOK OFFICIAL OBTAINS NEW WRIT

Special Train Chartered to Montreal to Head Off Jerome's Proceeding

IMMIGRATION OFFICERS RETURN TO SHERBROOKE

Sherbrooke, Que., Aug. 30.—Immigration officers who had left Sherbrooke yesterday came trooping back to-day on the strength of the report that counsel for New York had set on foot a movement to get Harry K. Thaw in court to-day on a writ of habeas corpus, thus taking a step by his own counsel had abandoned on Wednesday. Any citizen may apply for a writ of habeas corpus when he thinks a prisoner is detained illegally, and as Thaw is locked in the Sherbrooke jail on an admittedly faulty commitment, those seeking his deportation hoped to obtain a writ from Superior Judge Hutchinson, who came back to Sherbrooke yesterday unannounced.

William Travers Jerome, formerly district attorney of New York City and commander-in-chief of the New York forces here, was early conferring with Samuel Jacobs, the Montreal attorney representing the state. Mr. Jacobs was returning to Montreal last night when informed by telegraph of Judge Hutchinson's return. He jumped from the train at Magog, a small station near Sherbrooke, returned here by automobile, and laid his plan before Jerome and Deputy Attorney-General Kennedy.

Mr. Jerome would neither affirm nor deny that Thaw was to figure in a habeas corpus proceeding, but would not Mr. Jacobs discuss the matter. Thaw's lawyers, secure in the belief that their client would be safe in jail after their move of withdrawal of their own habeas corpus, retired early, ignorant of the new move to get him from the jail to-day. Thaw in his cell in the Sherbrooke jail, half a mile from the courthouse, knew nothing of it.

E. Blake Robertson, assistant superintendent of immigration, was returning to Montreal with four inspectors when he saw Mr. Jacobs leap from the train at Magog. The train had started again before he learned why the lawyer had come and he had to finish the trip to Montreal. There he turned about immediately and reached here after one o'clock this morning.

Judge Hutchinson reached his chambers shortly after ten o'clock, meantime the Thaw lawyers had got wind of the affair and hurried to the courthouse.

Later to-day a writ of habeas corpus for the presentation of Thaw in court on Tuesday morning was obtained on behalf of Chief of Police Boudreau, of Coaticook, who arrested Thaw after his flight from Mattewan.

Superior Judge Hutchinson granted the writ upon the application of Samuel Jacobs, chief counsel in New York State's interests. It was an eleven-day move taken to defeat Thaw's lawyers, who have succeeded in keeping him in jail, safe from the immigration authorities. Those of Thaw's lawyers who were in town, Charles D. White and Harry Fraser, opposed the application, but Judge Hutchinson said he would thresh the matter out in court on Tuesday morning.

Thaw was ignorant of to-day's developments. His lawyers even did not learn of it until a report of the contemplated move, sent out last night, was telegraphed back from Montreal. His chief lawyer, R. N. Greenhalgh, immediately chartered a special train at Montreal in the hope of checking the proceedings. The writ had been issued, however, before his arrival. Boudreau asked for the writ on the ground that as the original captor of Thaw he might be liable to damages should Thaw's arrest prove illegal.

W. T. Jerome, who worked out this latest attack, was jubilant. He hopes that the writ will be sustained and that on Tuesday Thaw will be in the hands of the department of immigration for deportation to Vermont.

## NO RACE SUICIDE IN WEST VIRGINIA DISTRICT

Parkersburg, W. Va., Aug. 30.—There is no race suicide in the mountain strongholds of West Virginia. This fact was proved here yesterday when John White, a grizzled old mountaineer, accompanied by his wife, six sets of twins and one set of triplets, arrived in this city looking for a job.

"Sub, this yer ain't all of 'em. We've got three other sets of twins and another set of triplets back home in the mountains of Calhoun county. We left them there because they can run the old place. We want to get something to do down here."

## Harry K. Thaw, Whose Flight From Mattewan Asylum Has Led to the Legal Assembly Now at Sherbrooke

## DESCHAMBEAULT'S CLAIM AS DISCOVERER OF BLONDE ESKIMO GIVEN ENDORSATION

Northern Transportation Company President Back From Arctic Journey Gives Stefansson Credit for Recognizing Importance of Discovery

Edmonton, Alta., Aug. 30.—Endorsation of the story of G. L. Deschambeault, claiming that along with Joseph and William Hudson he was the first to discover the blonde Eskimos of the north was obtained to-day from J. K. Cornwall, president of the Northern Transportation company, and also of the Northern Trading company, who had just returned from a trip through the Arctic circle extending over three months.

The trip was made in these interests of the development of trade in the north and to bring out a record of the life of the northland as it is lived by the inhabitants. His party travelled over six thousand miles and during the trip took more than seven thousand feet of moving picture film illustrating the methods of transportation and trade and general northern life.

Mr. Cornwall believes that the story of Deschambeault that he and his companions discovered the blonde Eskimos about two years ago, and before Stefansson to be correct, but to Stefansson belongs the credit of having recognized the importance and interest attaching to the presence of blonde Eskimos in the Arctic.

## CURTAIL OUTPUT OF MILLS BY ONE-THIRD

Aberdeen, Wash., Aug. 30.—The West Coast Lumbermen's Association yesterday ordered a curtailment of one-third in the output of the mills, beginning September 1, owing to dullness in the lumber market. Thirty mills were represented, situated in western Washington and Portland, and it is said that all the large mills in the northwest will co-operate. The method of decreasing the output was not decided on. Most of the mills will work only four days a week, it is said. The output will be reduced 30,000,000 feet a day. Members at the meeting thought that a reduction of time for 30 days would remedy the situation.

## KILLED BY ELECTRICITY.

Suisun, Cal., Aug. 30.—Two men were killed yesterday when a pipe they were carrying came in contact with a high-power wire carrying 60,000 volts of electricity. One of the men is believed to be Charles Worley, who came here six months ago with his wife and child. The other is unknown. The bodies of the two men were found lying in mud and water by the roadside, and the pipe was leaning against the wire.

## HOO HOOS MEETING AT TACOMA TO-NIGHT

Tacoma, Aug. 30.—To-night for the last time during the present Hoo Hoo year, which ends at 9 minutes past 9 o'clock on September 9, members of that order will gather in Tacoma at the Elk's Hall. The concatenation will begin promptly at 6 o'clock and the "on the roof session" at 10 o'clock. It is expected that at least 200 prominent lumbermen and railway officials will be present and the committee on arrangements has planned big things for this last meeting.

The following officers will preside:—E. L. Fairbanks, vicegerent snark; A. E. Campbell, senior Hoo Hoo; L. R. Fifer, junior Hoo Hoo; H. S. Stine, bojum; F. A. Wick, sorvintoter; V. O. Baker, jabberwock; H. H. Joch, arcanoper; A. E. Snyder, gurdon.

A large class of kittens are due to be initiated and the expert mechanics of the order have been at work for weeks preparing "messages of welcome" for them. It is said that the novitiates will be well entertained. Incidentally the older members will no doubt find a grain of amusement in the antics prepared for the kittens.

## DIAZ IS CANDIDATE FOR MEXICO PLOT TO MURDER HIM DISCLOSED

President of Senate Declares Americans in Mexico Are Satisfied and Tranquil

ARMY EIGHTY THOUSAND COMMAND TRULY NOTABLE

Comacho Considers Wilson's Act is Mainly the Result of Ignorance

JOHN LIND REMAINS ABSENT FROM CAPITAL

New York, Aug. 30.—Senor Sebastian Camacho, president of the Mexican senate, has sent a telegram to James A. Scrimsner, of New York, president of the Mexican Telegraph Company, requesting him to protest to President Wilson against the withdrawal of American citizens from Mexico. The message, made public here to-day, declares that the American colony in Mexico is satisfied and tranquil, and that tremendous damages will result from its withdrawal.

"There is great alarm here," reads the telegram, "over the American government's order for the withdrawal of all American citizens residing here. You will understand that there is no occasion for this order.

"The American colony is the most numerous of those among us. In its totality and with few exceptions it is satisfied and tranquil, dedicated to its work and attendant to the necessities of its life, being respected and esteemed throughout the country. It would seriously prejudice its welfare and its financial interests were it to abandon a country in which it is considered esteemed and where it has acquired numerous and cordial relations.

"The present government of Mexico is a constitutional government, whose public powers in most part have been in operation since 1910, and in the senate, in the supreme court of justice and in the public offices and in all parts many of the public functionaries have been figuring first with the government headed by General Diaz, later with that of Madero. Very few exclusive privileges have been granted by the present government, which is latter is advancing daily in the re-establishment of peace in the greater part of the national territory.

"The army now counts eighty thousand men with an armament and a command truly notable, through which it has triumphed and continues triumphing in the daily combats with the enemy, who are disappearing or submitting to the legitimate authority of the republic.

"I do not doubt that the president of the United States and his truly just government will consult with the principal members of its colony here regarding the truth of what I say.

"The American colony, which reaches 40,000 persons, I am sure, will suffer enormous damage to its interests and its well-being should its members violently abandon a country in which, I repeat, they are considered and esteemed on all sides.

"I beg you will acquaint President Wilson with what I have stated, calling his illustrious attention to the tremendous damages which will result from his determination, for which, in all loyalty, I state there is no reason and which undoubtedly has been dictated against the sentiments of justice, of right and of human consideration, not by the elevated sentiments of a man as distinguished as the present president of the United States, but through simple ignorance of what is actually transpiring in Mexico."

Washington, D. C., Aug. 30.—The Mexican situation was unchanged to-day, John Lind, President Wilson's personal envoy, still was waiting in Vera Cruz and no advice of his plans had come to Washington.

Mr. Lind is acting on his own discretion about returning to Mexico City. Indications pointed strongly to the view that the policy of the United States for the next few days will be a waiting one, while strict neutrality is enforced and Americans are urged to leave Mexico.

## COMPLAINS THAT SEA ELEPHANTS ARE KILLED

Los Angeles, Aug. 30.—The alleged wholesale slaughter of sea elephants on Guadalupe Island, off the coast of Lower California, is under investigation by the federal government here to-day. The smuggling of the hides of these creatures through American ports was reported to the customs officials by Charles E. Davis, a naturalist and miner, who said one of the last sea elephant herds in the world had all been annihilated within the last month.

Of the 200 animals that composed the herd, only 15 remain, he said. Davis named several places where he believed some of the hides could be found.

Joaquin Alcaide Reveals Plan to Kill Mexican General Now in London

DEATH SENTENCE WAS FOUND IN DISPATCHES

Capture on Return to Mexico and Death in Sham Battle Arranged

WRITTEN AUTHORITY IS HELD AT HERMOSILLO

London, Aug. 30.—"I am now definitely a candidate for the presidency of Mexico," General Felix Diaz, who recently arrived from Canada, told the Associated Press this morning.

"My friends in Mexico are working in my behalf," continued General Diaz. "Unfortunately at this distance, I am unable to do much, but I am awaiting instructions which may simplify matters.

"Even if I am ordered to proceed to Japan it is not certain that I shall go there. My action would depend on developments in Mexico."

General Diaz apparently is pleased with the course of events in Mexico. He said the contention that Victoriano Huerta's candidacy for the presidency was barred by the Mexican constitution was quite correct. He declared the fact that he was still an official representative of the government, debarred him from discussing President Wilson's message or the Mexican replies.

Los Angeles, Aug. 30.—That Felix Diaz, aspirant to the presidency of Mexico, will meet the same fate meted out to President Madero the minute he crosses the border to Mexican soil, was the declaration of Captain Joaquin Alcaide yesterday. Captain Alcaide is a member of the Honors constitutionalist force, who was arrested here Thursday on a charge of violating the neutrality laws.

In the office of the jailer at the county jail, where he is held pending the filing of a bond, Captain Alcaide told the startling story of the alleged murder plot hatched by President Huerta in which General Diaz is to be the victim.

According to Captain Alcaide, information to this effect came to him and other constitutionalist army officers through the capture of Lieut. Santiago Rivera, of the Huerta forces, as he neared Guaymas to deliver a message to the force entrenched there. Captain Alcaide says the message pronouncing the death sentence on General Diaz was among the papers carried by the captured officer. The plan by which, Alcaide says, General Diaz is to be made away with, is as follows:

The spies of Huerta, who are following Diaz, are to notify the head of the Mexican government a day previous to that of Diaz's entry into Mexico and are to give the point at which he will enter.

As soon as Diaz is on Mexican ground he will be captured by a party of federal masquerading as insurgents and carrying an insurgent flag. Within an hour after his capture this band will be set upon by another band of federalists and in the sham battle that will follow the general will be killed.

"This is merely a step in the programme of Huerta," said Captain Alcaide. "He will follow it with the disposition of others whom he thinks stand in his way toward a supreme dictatorship in Mexico. We have the message calling for the death of Diaz in our headquarters at Hermosillo. Diaz will not live twenty-four hours after entering our country, if the plans of Huerta are executed. It is for this reason, we believe, and no other, that Diaz is going to Europe instead of returning to Mexico. We believe his friends have obtained the information and warned him."

## MILITIA CALLED OUT AT MICHIGAN MINES

Deputies Require Protection From Copper Mining Strikers and Women.

Calumet, Mich., Aug. 30.—A company of militia was called out to-day to protect a party of deputies at Number 8 shaft South Kearsarge mine, from attack by a large number of copper mine strikers and women. The men were particularly active, spitting in the faces of the deputies and otherwise disgusting them.

The soldiers rescued an Allouez mine foreman who was attacked by strikers while on his way to work. The strikers took him from a street car and were beating him when the militia arrived.

Strikers and women sympathizers at the Champlain mine resumed their attacks on non-union men to-day, throwing missiles and beating them. One man was badly beaten and three women arrested.

Another big parade of strikers was also held in Calumet.

## PARLIAMENTARIANS REACH NEW ZEALAND

Southern Dominion's Welcome of Warship Not Warmer Than That of Canadians

London, Aug. 30.—The cabinet ministers and members of the New Zealand parliament yesterday entertained the British parliamentary visitors at luncheon. Amid great enthusiasm, Hon. F. W. Massey, prime minister, said Lord Emmott was the first member of the home government whom they had an opportunity of welcoming, and urged the importance of the imperial statesmen visiting the overseas dominions. He suggested that the imperial conference should be held in one dominion after another.

The people of New Zealand, he said, were ready to make any sacrifice which the empire might demand, to keep the flag flying over a free, united empire. Sir Joseph Ward, who warmly welcomed the visitors, urged that state-owned Atlantic cable should be considered. Lord Emmott's visit, he added, would be of incalculable benefit to the dominions in this and kindred matters.

The sight that had given the party the greatest pride, said Donald Macmaster, M. P., was that of the cruiser New Zealand at Vancouver, and, he doubted whether the reception accorded the cruiser by New Zealand itself, surpassed that of the Canadians. Lord Emmott regretted the shortness of their stay, but said the warmness of their welcome was compensation. He stated that the recent passage of Lord Chancellor Haldane's bill made it quite likely that New Zealand would be represented on the judicial committee of the privy council.

## CREAMER IS HONORED AT PALACE OF PEACE

Andrew Carnegie Unveils Bust and Speaks of Abolition of War

The Hague, Aug. 30.—Andrew Carnegie was the chief speaker yesterday at the unveiling in the palace of peace of a bust of the late Sir William Randal Cremer, originator of the inter-parliamentary peace congress and for thirty-seven years secretary of the international arbitration league. He was a carpenter by trade, and rose through his efforts toward international peace to be a member of parliament. He was knighted by King Edward VII and received the Nobel peace prize.

Mr. Carnegie spoke of Cremer as "the pioneer in the greatest of all causes—the abolition of war." He then referred to the inter-dependence of nations, remarking that their annual exchanges in the normal course of trade now amounted to thirty-three and a half billion dollars and were rapidly increasing. Giving statistics of Anglo-German trade, Mr. Carnegie said:

"Why should these two Teutonic nations, mother and daughter, quarrel? Why should they not agree to demand peace on the seas, which is essential for this neighborly and enriching exchange, why not invite our American republic, the grand daughter of Germany as a Teutonic nation, to cooperate? The only thing required for a world peace agreement is the cooperation of three or four of the leading civilized powers against disturbers."

After paying a tribute to the Russian emperor, for calling the peace conference, Mr. Carnegie said: "Surveying the world, to-day, the most striking figure to be seen is that of another emperor—the German emperor—who recently celebrated his twenty-fifth year of a peaceful reign."

"If the German emperor were to invite the chief nations to confer on the best methods for securing and ensuring the world's peace, success would certainly follow."

## TYPHOON LOSS GREAT IN LIVES AND MONEY

Fatalities Will Aggregate One Thousand; People Swept Away by Sea.

Tokio, Aug. 30.—Detailed reports regarding the typhoon which has raged over Japan for several days show that it was more serious than at first believed, and that the fatalities perhaps will aggregate one thousand.

There was a tidal wave at Miyako, Northern Honshu, in which thirty persons lost their lives, while a hundred persons are missing. Hundreds of houses were swept out to sea. One hundred persons were drowned in the floods or killed in landslides in other portions of Northern Honshu, and two thousand are reported unaccounted for.

Great damage was done at Kokaido. Scores of fishermen were drowned, houses were destroyed and railroad bridges inundated. A train was hurled into the river by a washout in the tracks and seven passengers were killed and forty injured.

The inhabitants along the coast have fled to the hills and thousands are homeless and suffering. At many points persons on shore watching the high seas were caught by waves and swept away. The monetary loss as a result of the storms will be heavy.

## ZAPATA'S FORCE IS NOW IN BAD PLIGHT

General Robles Believes He Can End the Revolt Within One Month.

Cuernavaca, Morelos, Mexico, Aug. 30.—In view of the continued success achieved by General Juvencio Robles, military governor of this state, in his campaign for the suppression of the Zapata movement, there is every confidence expressed here that he will be able to fulfil his promise to President Huerta to make an end of the whole revolt within a month.

According to the minister of war, the "Zapatas" are now reduced to their last stand at Huautla, and against the latter a large column has just left this town in order to operate in conjunction with other forces that left some days ago.

These are also to operate with the troops that have been in steady pursuit of the rebels for months, carrying out the elaborate strategic plans of General Robles. It is believed that the principal leaders are in command of the rebel forces at Huautla.

General Robles has advised the minister of war, after the final defeat of the Zapata forces, to garrison the principal towns and points of Morelos with 3,000 or 4,000 out of the 9,000 men now under his command, under Gens. Olea, Cuyton and Obregon, and to use the balance of his troops for the pacification of the adjoining states.

## CHIHUAHUA FEARS AN ATTACK FROM CARRANZA

El Paso, Tex., Aug. 30.—A trainload of American and Chinese refugees from Madera, Chihuahua, arrived in Juarez yesterday. The refugees left Madera two weeks ago and went to Chihuahua.

The contemplated troop movement out of Juarez to the relief of Chihuahua City has not yet been made, although the train is made up and ready. Chihuahua fears an attack from Carranza and his rebels, who are reported moving north from Torreon.

## BOWSER SAYS POLICE CAN HANDLE STRIKE

Attorney-General Will See Employers Obey Law; Soldiers Returning

Vancouver, Aug. 30.—Hon. W. J. Bowser, attorney-general and acting premier, was in the city yesterday and took a personal interest in the elevation of the "big stick" in front of the courthouse; indeed, there is a rumor to suggest that when the moving pictures of the operations are developed, there will be several very good representations of the attorney-general.

Mr. Bowser was communicative. He said that he had reason to believe that he now had the situation on the island in control and therefore had consented to the withdrawal of the majority of the militia-men from Nanaimo and vicinity.

"Nobody can regret more than I do the necessity for calling these militia-men from their homes and their civil employment; but it was one of those necessities with which every citizen is confronted at times. We, all of us, have unpleasant duties to perform in our lives—politicians have, perhaps, more than the average—but I am glad to pay tribute to the goodwill with which the militia of Vancouver and Victoria (perhaps the Victoria men were called out first) came to the assistance of the civil power in the hour of trouble.

"Their presence gave us time to reorganize our police force, which had been disorganized by the efforts of the irresponsible agitators in charge of the strike, but we now feel that we have the situation so well in hand that we can handle it from now on with our ordinary police force.

"We have tried to relieve the situation by letting the members of the militia, whose presence was absolutely necessary, come home. We secured sufficient volunteers amongst the boys on the ground and let those come home who were absolutely compelled to do so.

"On behalf of the provincial government and I believe I can say on behalf of the whole people of British Columbia, I desire, as the acting head of the government of the province, to thank the militia-men for their excellent work and to say that they have put the people of the province under a debt which it will take a long time to repay.

"One thing more, if there is a single man who has served in the militia detachments on the island during the past fortnight who has any difficulty with his employer, I wish to let him know that he has only to write to me and I will see that his employer obeys the law and gives the public-spirited citizen who has done his duty the chance which he deserves of showing that he can at the same time be a good employee and a good citizen."

## ELECTRIC POWER ON THE ROSSLAND LINE

Four Engines to Cost \$75,000; Power Company Increasing Efficiency.

Nelson, Aug. 30.—It is officially announced that arrangements are about completed for ordering four electric locomotives at an approximate cost of \$75,000 each, to be used on the Castlegar to Rossland line of the Canadian Pacific railway, which is to be electrified shortly.

Though construction work has not yet actually started on the electrification of the line, preliminary arrangements are being made, and work will be commenced in a short time. Already the West Kootenay Power & Light Company has made arrangements to increase the capacity of its power plant at Bonington Falls, and the necessary machinery is being ordered. Nine thousand horsepower is being added to the plant.

On completion of the electrification of this route is expected to overcome the difficulties now experienced on the heavy grades on the Rossland hill, and a noticeable reduction in the time of the run from Castlegar to Rossland.

## CIVIL ADMIRALTY LORD IS ON VISIT TO OTTAWA

Ottawa, Aug. 30.—Right Hon. Sir Francis J. Stephen Hopwood, Civil Lord of the Admiralty, who is well known in Canada because of former visits here, is in the city, and yesterday called on Premier Borden.

Sir Francis is making a tour of Canada, but not an official one. In his early career he was employed several times on missions to Canada, Newfoundland and the United States, and is gratefully remembered as founder of the hospital and medicinal service for the Canadian and Newfoundland fishermen. He was on the staff of the Prince of Wales during the latter's visit to this country in 1908.

## BRITANNIA MINES STRIKE NOW ENDED

Vancouver, Aug. 30.—Compromise has been successful in ending the strike at Britannia mines, Howe Sound, which has been in progress since February last, and which affected some 600 men. As a result of negotiations, extending over weeks, notice is given that at a meeting of the local members of the Britannia miners' union, held on August 27, the strike has been declared off. Notice of this action has been sent to all parties interested.

It is understood that one of the conditions of the agreement is that the company will hereafter employ men, without asking whether they are members of the union or not.

Open to-night until 10 p.m.

## TARANTULA SCARES VISITORS TO HOTEL

San Francisco, Aug. 30.—There was consternation in the lobby of a big downtown hotel yesterday when a tarantula walked out of a suitcase in front of the desk and took a promenade. Women screamed, clutched their skirts and jumped on chairs. All the men likewise retreated except Congressman Thomas R. Reilly, of Meriden, Conn., who sang out: "Don't mind the spider—all the big bugs come to this hotel."

The tarantula had emerged from the baggage of Mrs. H. Huffman, of Los Angeles, just returning from Honolulu. As it ambled across the floor it held tight to its lunch, a large oyster cracker.

A bellboy snally captured the tarantula and imprisoned it in a box.

## HALDANE PROPHECIES MILLENIUM OF PEACE

Lord Chancellor Arrives at New York and Is in Favor of Women's Suffrage

New York, Aug. 30.—A visit to West Point was foremost to-day on the programme of Viscount Haldane. After a reception and luncheon at the home of Col. Townley, superintendent of the military academy, and a review of the corps of cadets, Lord Haldane expected to leave on a special train for Albany, the second stopping place in his trip from this city to Montreal.

At Montreal, Lord Haldane will address the American Bar Association on Monday. He plans to return to New York on Tuesday night and sail for home on the Lusitania early Wednesday morning.

New York, Aug. 30.—Viscount Haldane, lord high chancellor of Great Britain, reached New York yesterday on the steamer Lusitania for a flying visit of five days in this country and Canada.

The lord high chancellor is here as a guest of the American Bar Association, before which he will deliver an address at its annual meeting at Montreal next Monday night. To-night he was entertained at a dinner given in behalf of the association by C. A. Severance, of St. Paul.

Previously warned that he might expect to be interviewed by American newspapermen on his arrival in New York, the chancellor smilingly greeted a delegation of them who boarded the Lusitania at Quarantine and submitted to another interview when he reached the hotel where he is making his headquarters in this city.

Lord Haldane freely discussed many questions of the day, declared that he was in favor of woman suffrage, prophesied that a millennium of peace was far off, said the relations between Germany and Great Britain were never more cordial, praised the intellectual growth of the United States, and predicted that home rule for Ireland would soon be an accomplished fact.

With a merry twinkle in his blue eyes, the lord high chancellor joked and quipped with his interviewers between serious remarks, and concluded that the American custom of interviewing distinguished visitors was "delightfully progressive."

"It would be a very sanguine person," he said, when asked his opinion of the influence of the peace palace at The Hague, "who can see the dawn of international peace. It is useless to look toward the permanent cessation of war in the near future. We can only do our best and trust to the events of time. The coming of the millennium of peace must be an evolution like everything else, but some day we must come to the realization of the fact that we can settle our differences in a better way than by quarrelling with each other."

Lord Haldane chuckled when the question of woman suffrage was brought up.

"Yes, I am a suffragist," he said; "but I do not approve of the militant suffragette. You are fortunate to have no militant suffragettes in this country, and I sincerely hope the militant idea will not gain a foothold here. The methods of the English suffragettes have delayed equal suffrage for years. At present there is no chance of woman suffrage becoming a government measure, as the cabinet is hopelessly divided on the subject and so are both parties. If the government were to be elected on that issue then it would be hopelessly divided on every other issue."

The fact that the lord chancellor, when he was secretary of state for war, visited the German Emperor in the height of ill-feeling between Germany and Great Britain and over the armament question, was made the basis for a question as to his opinion of the present relations between Germany and Great Britain.

"Our relations are constantly growing better," he said, "especially since the adjustment of the Balkan situation. In fact, there has been a much better feeling displayed between the two great groups of European parties as a result of the Balkan situation in which they have worked together."

Speaking of home rule for Ireland, he said: "Home rule was never nearer adoption than it is to-day, and I believe it will be soon an accomplished fact. Of course, the religious question in Ulster is difficult, but you can't keep the hands of the clock from advancing."

The chancellor refused to discuss the Mexican situation, except to say that he was "confident that the United States would meet the question in the broad way with which it has treated other great problems."

He said he had not made a close study of the constitution of the United States, the opinions of Chief Justice Marshall and of American court procedure, but had been greatly enlightened on these questions by Justice Wendell Holmes, a fellow passenger, during the voyage.

"I think English law has fewer technicalities than the American law. You have more opportunity for appeal than we do in England. We are very sparing in this particular. This is especially true of criminal procedure."

"I have greatly admired," he added, "the intellectual vigor of the American people and the vigor of your literature. Your growth in these respects is without parallel."

Lord Haldane was accompanied by his sister, Miss Elisabeth Haldane, and Sir Kenneth Muir-Mackenzie, clerk of the crown.

The party was met at the pier by a reception committee of the American Bar Association, which included Francis Rawle, of Philadelphia, chairman; Jacob M. Dickinson, former secretary of state; Judge Allan Parker, Francis Lynde Stetson and C. A. Severance. They escorted the lord chancellor on a sight-seeing tour of the city.

## Three Glove Specials—\$1.00

While our wide range of prices reaches from \$5 down to \$17.50

## NOTED SCIENTISTS

### VISIT MT. RAINIER

Plant Geographers of Old and New Worlds Will Study Plant Life

Tacoma, Aug. 30.—Laden with queer bags containing plant specimens gathered en route, cameras, collecting cases, etc., and dressed in the odds and ends of the collector's apparel, seventeen of the world's most noted plant geographers arrived in Tacoma yesterday evening prepared for a visit to Mount Rainier and the national park. The party is making the second trip of the International Photographic Society, the first having taken place two years ago in England, the leader of which, Prof. A. G. Tansley, of Cambridge, is with the present party.

The roster of the visitors includes names of world fame. Foremost is Prof. Adolf Engler, of Berlin, said to be the leading botanist of the world and the first authority on plant classification. He is author of numerous scientific works, among the series being one on "The Vegetation of the Earth."

His "Plant Families" is recognized as the standard of the world on plant classification.

Second in importance is said to be Dr. Carl Schroter and Dr. Eduard Rubel, of Zurich, who are recognized as authorities on the vegetation of Switzerland, and especially of the Alpine region. Professor Tansley is said to be the leading plant geographer of England. Prof. C. von Tubout, of Munich, is an authority on forestry and plant diseases.

Purposes of the Trip.

The purpose of the trip is a study of the vegetation of this country as compared with that of other countries, the character of the vegetation being considered as indicative of the kinds of crops that can be grown.

The botanists spent several days in Salt Lake City, and at Spokane Tuesday evening were entertained at dinner by the commercial club of that city. Wednesday morning the party inspected the orchards about North Yakima.

Thursday morning the party left for Knappton, where a special logging train conveyed the botanists to the logging camp of the St. Paul & Tacoma Lumber Company. In the afternoon they left for the mountain to spend the balance of the week, returning to Tacoma Sunday. Several days are to be spent in this city in a study of marine vegetation, particularly kelp.

At the national park the study will centre about the western conifer forest and subalpine and alpine vegetation. From Tacoma stops are to be made at Medford, Crater Lake Park, Mount Tamalpais, the Yosemite na-

### FREEDOM FROM FROST HELPFUL TO HARVEST

While Labor is Short Situation is Not Acute and Weather Generally Good.

Winnipeg, Man., Aug. 30.—With weather set fair and high temperatures prevailing the situation at this week-end is highly encouraging for a very successful harvest. It is notable that the end of August has been reached without any frost being recorded in the spring wheat country. Rain in the early part of the week and showers in some districts since, delayed grain cutting in the sections affected.

"Nag" Roof Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 1288 Wharf Street.

### STORM DELAYS WILSON.

Springfield, Mass., Aug. 30.—Delayed two hours by the severe electrical storms that swept the Atlantic seaboard last night, the president and Mrs. Wilson passed through here shortly after nine o'clock en route to Cornish, N. H., for the week-end.

**THE MILITIA.**

The Times has received a considerable number of letters within the past few days dealing with the subject of "militarism," and for the most part condemning "militarism" in general and the calling out of the militia for the purpose of quelling disturbances in the coal mining districts in particular. Most of these correspondents seem to be strong advocates of peace in the abstract. Some of them even quote the Scriptures in support of their position. They say it is written "Thou shalt not kill." But in their zeal to make a theoretical point, and to support a position that seems to be somewhat in advance of the times, they overlook the fact that the militia did not kill. In fact, we do not know but it might be justifiable to assume that the opportune assembling of the militia at the points where mob law temporarily prevailed prevented murder being done—because when lawless elements had been incited up to the point of assault upon the person and to the wanton destruction of property, there is immediate danger of murder following. None of the sophisms of the defenders of mob rule as distinguished from law and order even at the point of the bayonet can alter the opinion of reasonable and reasoning beings in respect of palpable facts and inevitable conclusions. Notwithstanding all that theorists may say in regard to the inherently peaceable intentions of the strikers in general, the facts remain that persons were assaulted, that life was endangered, that property was destroyed, that business was suspended, that mob rule prevailed. In the present stage of the world's economic condition, at all events, such conditions were intolerable, and could not be countenanced. The militia were called out, and immediately order was restored, life was safe-guarded and business began to flow in accustomed channels. There is no question as to the fact that 90 per cent. of the people in the disturbed districts welcomed the militia. And the officers and men performed their delicate duties so excellently; notwithstanding some taunts and jeers in the first instance, they displayed so much tact and fine discretion in doing what they had to do, that when the contingents no longer required left yesterday they departed with the good wishes of the residents. These facts must surely be somewhat confounding to the opponents of "militarism." They ought to, and we believe will, tend to the popularizing of the militia in Victoria and other parts of the province.

In the meantime the altruistic advocates of peace, whether of the internal or external variety, whether national or international in scope, would do well to inculcate upon their apparent following the sublime principles they so eloquently preach.

**MADE IN VICTORIA EXHIBIT.**

It is gratifying to learn that satisfactory arrangements have been made for the Made in Victoria Exhibit at the coming fall fair. A special contribution of this character will prove one of the most attractive features of the exhibition besides concentrating attention upon the progress of the city in manufactures. Although Victoria is not included in the roster of manufacturing centres, we predict that the display which is now under preparation will surprise even the people of the place. All Canada was astonished on learning from the recently issued Volume Three of the 1911 census report that British Columbia was third in manufactures among the provinces of the Dominion.

This volume shows that Victoria has made satisfactory strides in the last ten years from a manufacturing standpoint. In 1901 the capital in-

vested in factories was \$3,473,546, and in 1911 it had reached \$10,246,340. The number of employees in manufacturing establishments in 1901 was 1,445 and in 1911 it was 2,169. In that decade the value of products rose from \$2,617,572 to \$4,244,034. We have not the slightest doubt that the ratio of increase has been even greater in the three years which have elapsed since the census was taken.

We hope the promoters of the Made in Victoria Exhibit will receive the hearty co-operation of our manufacturers. The exhibit should be the very best that can be put together. An inferior display would be much worse than none at all.

**NOT A TRIVIAL MATTER.**

Moustaches are going out of fashion, we are told. The British War Office no longer insists upon them. Military men are beginning to cut them off. This may appear to be a matter of no particular consequence. Some unthinking persons may even designate it as frivolous. But it is not so. Col. the Hon. Sam, according to the very latest military regulations, insists upon moustaches being grown upon the military lip in Canada, whether or not the growth be a physical possibility. Consequently there may be friction between the Dominion and the Imperial War Offices, and we know very well which end of the service will ultimately be forced to yield, because in the lexicon of the Hon. Sam there is no such word as surrender. With the assistance of Turpin he proved this upon the Boers of South Africa, and he has given additional demonstrations by investing and capturing a position in the Borden government and having his own way in everything since he took possession. To be sure, the warlike minister does not wear a moustache himself. Not that he is physically incapable. There is nothing he could not do if he made up his mind to do it. What is a small thing like nature pitted against an iron will like that of the Hon. Col. Sam Hughes, Minister of Militia and Defence in the Dominion of Canada? Sam does not carry a moustache because his men is quite sufficiently martial and terrifying without it. Therein he differs from his only real contemporary and competitor the Kaiser of Germany. The Kaiser would wear a moustache would be like Samson without his locks. Whereas Sam would still be Sam if he were shorn of everything except his reputation. We feel sure the next announcement will be that the War Office has been compelled under the dominance of Col. the Hon. Sam Hughes to withdraw its regulations regarding the moustache.

**MINISTER OF LABOR (?)**

"Hon. T. W. Crothers, minister of labor, has gone to Great Britain to study the British way of dealing with strikes, especially in the mining districts. In view of the fact that many of the miners in British Columbia who are striking at present are from Scotland and England, his action is well advised."—Ottawa.

This sheds new light on the peregrinations of the Minister of Labor and exhibits him as a strategist par excellence. So he has not run away, as some newspapers have openly charged. As many of the strikers on Vancouver Island are from England and Scotland, he is going to find out how they settle strikes in those countries. Some of the strikers are Poles, so we presume he will go to Poland and ascertain how labor differences are disposed of there. Still others are Italians, and, of course, the Minister will go to Italy on a similar hunt for information. Having informed himself on these points, he will return to Ottawa and tell the cabinet all about it. His law partner may prepare a report as a companion document to his report on the strike in the coal mines—and that will be all. Mr. Crothers will have enjoyed his trip, seen something of the old world and rolled up a neat little expense account, while the people of this province are suffering from the consequences of this unsettled labor dispute.

In England Mr. Crothers will learn that the recent strikes there were settled through the initiative and ability of Sir George Askwith, who is employed by the British Government for this purpose. Through Sir George the employers and miners have been brought together and by mutual concessions have arrived at an agreement satisfactory to both sides. It may occur to Mr. Crothers that he occupies a position in this country analogous to that of Sir George Askwith in England and he may be struck with the contrast of their respective records. One remains on the ground and settles strikes. The other puts six thousand miles between himself and the scene of trouble and his newspaper apologists explain that in doing so his action is "well-advised."

The departure from Canada at this stage of the Minister of Labor is not only ill-advised, but contemptible. It is tantamount to a declaration that he is indifferent to the whole situation on this island and does not wish to be bothered by any further demands for his presence here. If that is not the case, then he has been ordered to go away until the trouble flows over. We

need not overlook the fact that the interests which control the Canadian Collieries named five of Mr. Borden's ministers.

What an immense guilt there is between the present head of the department and his predecessor! Ten years ago there were strikes at Fernie, Cumberland, Extension and Nanaimo, and largely through efforts of Mackenzie King, who remained for weeks on the scene, laboring tirelessly with employers and employees, these differences were all settled. Mr. King took a deep personal interest in the questions at issue. From his boyhood he had made a study of labor problems and was able to grasp the viewpoints of both sides. He was no quitter. He did not run away to Europe while the people of this province were suffering.

British Columbia's representatives at Ottawa should have demanded that Mr. Crothers remain in this country until the strike was settled, even though in doing so they incurred the enmity of the interests who seem to make the present government do as they please. The constituents of most of them are seriously affected by this trouble and they must not imagine they can be indifferent to the situation. They might also point out to the Prime Minister that his Minister of Labor is hopelessly unfit for his job and that should he ever have another opportunity of filling the position he should select a man who takes an interest in labor problems and has enough moral courage to face a difficult proposition.

Lord Northcliffe says his own "individual" opinion is that the Ulster situation is serious. His Lordship emphasizes the individuality of his opinion like the wise man he is. Speaking "professionally," he would have to give a number of conflicting opinions, because his great battery of journals is judiciously divided on the question. Lord Northcliffe did not become the Napoleon of Journalism by placing all his eggs in one basket.

On behalf of the state of Virginia Harry K. Thaw has just been informed that he made a serious mistake in fleeing to Canada. In Virginia the alleged paranoiac has been told he would have been a free man indeed, and none would have dared to make him afraid. In Canada he will be treated just like any ordinary fugitive criminal. Well, we shall see. Even in Canada the dollar is not without potency.

Trapper Deschambault declares that it was he and not Explorer Stefansson who discovered the blonde Eskimos. The important point raised by Deschambault's declaration is that there are blonde Eskimos after all. Ethnologists did not wholly accept Stefansson's story that he had seen a settlement of these people in the north.

Welcome the Empress of Asia. She is another factor in the revolution which ultimately will substitute the Pacific for the Atlantic as the arena of the world's commerce.

**ROYAL BANK CHARTER.**

Question of Its Duration is Raised in a Legal Proceeding in Chambers.

A somewhat novel point was raised by E. E. Wootton before Mr. Justice Morrison in chambers yesterday on a motion in the case of Royal Bank of Canada vs. Clark made by A. D. Crease for the plaintiff corporation. Mr. Wootton drew attention to the fact that the documents on which the plaintiffs relied were signed by J. A. Taylor as manager of the Royal Bank branch here, and argued that the bank is not at the present in a position to sue. He stated that the bank's charter was renewable from year to year, and that the last renewal brought it up to last month.

His lordship granted an adjournment to enable counsel to look into this point. In this connection it is pointed out by a local bank manager that the general revision of the Bank Act was made at the late session of parliament, and that the Royal Bank is one of those whose charter is renewed for ten years from July 1, 1913.

**A PRETTY EVENT.**

Miss Ellen M. Jackson Becomes Bride of Mr. W. S. McNair—To Live in Moose Jaw.

A pretty home wedding took place on Wednesday evening last at the residence of the bride's parents, 1822 Blanchard avenue, when Ellen Mead, daughter of Mr. and Mrs. W. Jackson, was united in marriage to Walter Burgess, second son of Mr. and Mrs. D. McNair, of Moose Jaw. Rev. A. Walker performed the ceremony in the presence of a small circle of the more immediate relatives, the bride, who was given away by her father, wearing a charming gown of white satin with overdress of white net and tiny lace with pearl trimmings, and conventional veil and wreath of orange blossoms. She carried a bouquet of white roses and sweet peas. Miss Katie M. Jackson, the bride's sister, acted as bridesmaid, looking very pretty in a gown of brocaded crepe de chine, and carrying a bouquet of pink roses and sweet peas. The best man was Mr. Herman Shade. Mr. and Mrs. McNair are touring the Coast cities, and on their return from their honeymoon will make their home at Moose Jaw, Sask.

Empress of Asia delayed by fog—crew and passengers eagerly anticipating an ice cold creamy Humber. 10c per glass "at The Kaiserhof."

**WORK WILL BE RUSHED**  
Canadian Northern Pacific Engineer Speaks of Line Between Patricia Bay and City.

It is announced that the contract for the construction of the Canadian Northern Pacific Railway line from Patricia Bay to the entrance of the Songhees reserve terminals has been awarded to J. Macdonald and the Littleton-Bruce-Elisback Company, the work embracing a joint contract.

D. O. Lewis, the district engineer of the railway, states that this award means an immediate start on construction work which will be carried on at as great a speed as is compatible with good work. There are, he says, twenty odd miles to be done in order to connect up with the main line, on which work has been under way for some months past. There are fifteen miles between Saanich Inlet terminus and Mile 4.7, and approximately five miles from Selkirk Water.

Mr. Lewis states that there will be upwards of 300 men at work on the contract in the Saanich peninsula, and the main work at the outset will be the preparation of the right of way from Victoria to Patricia Bay before any start can be made on the laying of steel. The engineer further states that he had in the field four fully equipped engineering parties, two being stationed in the Saanich district, one in Victoria and another at Portage Inlet. Thus as soon as the contractors establish their camps they will be able to go ahead with the work as fast as the men can do it.

The district engineer also announces that it is most probable that the rails will be handled at least for a time over the Victoria & Sidney Railway, so that the company will not have to wait for the completion of the Patricia Bay terminals.

Splendid progress is being made on the grading of the main line. The work from Sooke Lake to Mile 100 will be completed by November 30. The bridge over the Kossalah will be a big work, the structure being 540 feet long, 140 feet high, with four towers and five girder spans.

**WRITE OF PARKS.**  
Social Service Commission Gives City Council Its Views Regarding Entertainments.

The following is a copy of the letter which the Social Service Commission has written to Alderman Dilworth, chairman of the parks committee, and which is signed by Bishop MacDonald, the chairman; Dean Doull, chairman on morals; and Rev. Wm. Stevenson, the honorary secretary:

"Dear Sir,—The executive of the Social Service Commission having considered the matter of complaints made regarding the granting of the Stadacona Park to be used by professional concert and theatrical companies are unanimously of the opinion that as public parks provided out of public funds are for the use and enjoyment of the entire community, due regard should be had to this in considering any application for the use of the Stadacona Park by such theatrical or other performing companies, and that no lease of the grounds should be made to any company which would hinder the fullest enjoyment of it for park purposes by all citizens. The commission would further most strongly urge upon the council the very great need there is for better lighting and more thorough policing of all public parks in Victoria, as it is common knowledge that the parks are resorted to at untimely hours by persons of questionable moral character."

The subject of this letter will be dealt with by the city council at a meeting next week.

**A Huge Display of Women's New Fall Coats and Suits**

AND every garment that we are now showing is a reproduction of a style that is selling at big prices in the fashion centres. They are absolutely authoritative as to style, and come in a variety of materials that not only look well but possess the qualities of service and comfort. In the huge range that is to be seen in the Mantle Department there is a style and a size that will meet the demands of all. No matter how conservative you may be, or how elaborate a garment must be to please you, you will find just the line you want.

We have a huge variety of qualities, too, styles that will meet the approval of women who have only a very limited income are well represented, while in the higher-priced garments there is a showing that should please even the most exacting woman.

**New Fall Coats**  
SUITS FROM \$12.50 TO \$17.50

At these prices we have a splendid range of Coats in both styles and materials. Three-quarter and seven-eighths are the favored lengths, made in the plain-tailored styles, with square or cutaway fronts; some with straight backs and others in belted effects; adjustable collars that can be worn open or closed up onto the neck as desired, and the trimmings are of satin, velvets or plaids (the reverse side of materials). The materials in this range include curl cloths, blanket cloths, diagonals and tweed effects in all the new leading colors.

**COATS FROM \$20.00 TO \$27.50**

At these popular prices we have a very fine selection, and the handsome new materials make this range of deep interest. The styles and materials are somewhat similar to the coats marked at a much higher figure and the materials and finish are of a very high order. This range will be of deep interest to those women who have a limited income, yet desire to be smartly clad in a stylish coat.

**COATS FROM \$30.00 TO \$45.00**

This range represents the more dressy and novelty styles and includes many new handsome fabrics and coatings that are distinctive and entirely different from anything shown at any previous season, and includes the new Futurist and Cubist patterns, also black and white checks and two-tone effects. The three-quarter and seven-eighths are again the favored lengths, in cutaway fronts fastening in a variety of ways; some having huge button-holes to admit the large fancy and extremely handsome buttons, and others have the huge silk frog fastening. Coats in this range are lined with best quality satin or silk, in plain or shot effects and some have collars and cuffs trimmed with silk or plain and brocaded velvets.

**COATS FROM \$47.50 TO \$55.00**

Exceedingly handsome are the coats in this range, and however well we might select words to describe them it would be impossible for us to convey to your mind any adequate idea of their charming beauty in style or materials. They are exquisite styles that can only be appreciated by seeing. The materials are unusually handsome, and the large selection of styles includes many in wrap effects fastening down one side or at hip. Trimmings are almost unnecessary for such handsome materials and very little is used except huge fancy buttons in two-tone effects which have been selected with great care to match the materials.

**New Fall Suits**  
SUITS FROM \$15.00 TO \$25.00

A very fine range of inexpensive Suits well designed and tailored in ladies' cloth and cheviot serges. These are mostly in the plain-tailored style, showing square-cut coats with rounding corners and cutaway effects. The skirts are also in the plain-tailored style with panel back and front, and some show side pleat. Included also in this line are our popular priced and exclusive man-tailored Suits in good quality serges in colors navy, black, greens, browns and other new season's shades.

**SUITS FROM \$30.00 TO \$45.00**

Tweeds, serges and novelty suitings are the materials that are to be had in this range, and you have your choice from a very large assortment of shades and patterns, and from the plain-tailored style as well as the trimmed, in all the most popular models in cutaway coats with long backs and draped or plain-tailored skirts.

**SUITS FROM \$47.50 TO \$65.00**

The Suits in this range are very handsome and include many novelty styles that will appeal to all true lovers of fashion. Much of the smartness of these Suits lies in the graceful shaping of the cutaway lines and the slope given to the trimmed blunt point at the back. Some of these models show the blouse effect in front and are cut in one long panel at the back, while the skirts show draped or slashed effects. The materials are extremely handsome and includes fancy brocaded suitings, shadow stripes, plain and fancy sponges, ratines and Bedford cords. All are lined with best of Skinner satin and the trimmings on collars and cuffs of some models showing are of fur, plain and embroidered velvets and plushes. All have large fancy buttons; many in two-tone effects to match materials.

We give you a hearty invitation to come and inspect these new Fall styles without any importunity on the part of our assistants for you to purchase. The wise make early selection and get the full season's use of their garments, besides the opportunity of selecting exclusive garments.

**Handsome Silk Waists**

A VERY beautiful range of new Silk Waists has just been opened up, and they are to be seen in the department on first floor. These new styles and materials cannot fail to please you, for there is such a wide variety of models, materials and shades that the most exacting shopper is sure to find something that will interest and please her.

Among the new styles to be seen are waists with long V-shaped fronts showing vest effects in lace and contrasting shades, while the materials are in crepe de chine, messalines and brocaded silks in all the new leading shades to match the new Fall costumes. Other styles are in the plain-tailored with drop shoulder and long sleeve. Both high and low necks are well represented, also the turn-down Robespierre collar; some of the latter being very effective. The collar is of black silk attached to a wide crepe de chine waist. We invite you to inspect these goods while selection is at its best. Values range from \$5.75 to \$7.50.

Rev. Frank Pratt, Unitarian, secretary for Western Canada, will preach in Unitarian hall, 1230 Government St., at 7:30 Sunday evening. Subject, "What kind of a church does the Modern World need?"

Probate Granted.—Probate was granted yesterday by Mr. Justice Morrison of the will of the late J. McDonald. Leave was given to sell certain lands of the estate of the late J. Barclay.

Held Debate.—Victoria Lodge, No. 34, I. O. G. T., held its weekly meeting under the direction of Bro. Frank Dick, chief templar, last evening in St. Barnabas schoolroom. After business an interesting debate on Women Suffrage was entered upon. Sister Mrs. Hawkins ably discoursed upon the affirmative side, but the majority of final votes were for her opponents, Bros. Alex. Wilkie and J. Cameron, who cleverly discussed "Why Women Should Not Vote." There will be no meeting of this lodge next week. A launch outing being arranged for instead.

"EVERYWOMAN."

It would seem a difficult task to devise a theatrical and musical performance to please all classes of people, the hardened theatre-goer, the tired business man, the young girl who must not be shocked and whose amusement food must be wholesome and palatable; the man of much learning and the man who cannot read and write; the person of rounded limbs, and the staid individual who seeks instruction and inspiration in his entertainment. Perhaps the man who has come nearest to satisfying all these varied phases of humanity was Walter Browne, the lamented author of the dramatic spectacle, "Everywoman," which will be shown at the Victoria theatre, September 1, 2 and 3, by Henry W. Savage. Mr. Browne was himself an actor and singer and had performed in all classes of entertainments in all parts of the world. He had been an opera singer in London where he was a member of the original cast of Gilbert & Sullivan's "Patience." He had been a concert singer in South Africa, where he toured in musical monologues, speaking and singing in Dutch and English. He had sung in grand opera in Rio Janeiro and the other capitals of South America, and in India he had played leading comedy roles before Eastern potentates. In New York he sung and played in several productions which would meet richer rewards as a writer he became an editor and wrote plays. Several of his productions were successful, but he set no store by them as he had conceived "Everywoman" and its construction was a matter of years. He drew upon his own remarkable experience, and anyone familiar with the building of genius must admire the extraordinary play with which he welded together its component parts. It accomplished a wonderful thing in New York. It brought back the gallery to the theatre. For many years that portion of the New York theatres had been untenanted when "Everywoman" made its appearance. As by magic the galleries filled from the opening night of the Walter Browne play.

Mr. R. T. Steele, of New York, a prominent vocal instructor, will arrive today and take up his residence with his son, Mr. F. R. Steele, 1193 Victoria Avenue, Oak Bay. Mr. Steele intends taking a limited number of pupils. His business address will be the leading music houses.

Will Not Be Represented.—The city council will not be represented at the meeting of the Canadian Public Health Association at Regina next month, at which gathering the council had been invited to send delegates.

Tender for Police Overcoats.—Two tenders, from D. F. Sprinkling and the New York Tailors, for police overcoats, have been referred to the police commissioners. Both were identical, \$30 for ordinary, and \$35 for mounted officers.

Oak Bay Building Permits.—Building permits have been issued by the municipal authorities of Oak Bay during the week to David McDonald for a seven-room dwelling on Thompson avenue, to cost \$3,500, and to W. Gasfield for a four-roomed dwelling on Cookman street to cost \$1,200.

Will Not Celebrate Here.—The Trades and Labor organizations will not celebrate Labor Day here this year, but as many of the members as are able will join the celebrations in New Westminster on Monday, a number of the local men having arranged to leave to-day for the Royal City.

Asks Further Time.—Thomas Flinnley, in connection with his garage on Johnson street, asked the city council last evening for further delay in the order of the will of the late J. McDonald. He said he intended to build next spring. The application was laid over for a report from the building inspector and fire chief.

May Modify Rules.—The chairman of the Old Men's Home committee, Alderman McNeill, suggested to the city council yesterday that it would be desirable to modify the rules under which the men are admitted to the home. At present the city will not admit men who have not resided here for less than fifteen years. In consequence of this men have to be paid for in other institutions who ought properly to go to the home.

Herding of Cattle.—Some discussion took place last evening at the city council meeting on the herding of cattle on unfenced private property. This is permitted in suburban districts where the grass would otherwise become a fire risk, from overgrowing, particularly where fences have been torn down for subdivisional purposes. The subject was left to the pound-keeper, to enforce the regulations.

Y. M. C. A. Gymnasium Classes.—The Y. M. C. A. gymnasium classes will commence on September 29 and H. G. Beall, physical director, is preparing for a large number of students, twenty-one classes already having been planned for as against 14 weekly last year. The Business Men's class will meet on Mondays, Tuesdays, Thursdays and Fridays from 5 to 6 p. m. The intermediate class will be subdivided, and a class for boys between 10 and 12 years of age is being arranged.

May Repeal By-law.—Discussing the question of the action commenced by Crease & Crease on behalf of Senator Macdonald for an injunction to compel the city to proceed with the expropriation of land on the west side of Oswego street, between Simcoe street and Dallas road, from the Armistead estate, the city council decided last evening to hear a further report from the city solicitor before trying to proceed further. It is possible the by-law may be repealed, and a new one passed to deal with the question when the city council is able to continue local improvement works.

Elected Officers.—The annual general meeting of the Ivy Leaf Social Club was held on Thursday at the Alexandra Club. A large number of members attended, and the following officers were elected: President B. A. Chater, Vice-President, J. Mitchell, Secretary-Treasurer A. J. Warren, committee, F. N. Stafford, J. S. Hall, W. Ferriday and G. Wood. It was decided to commence the whist drives in connection with the club on Thursday, September 4, at the Alexandra Club. The committee in charge of the picnic portion, announces that the fifth and final picnic of the season would take place on Sunday, September 7, to Goldstream.

WANT SOMETHING?

Was there ever a time when you didn't? When you say your first breath in this "valley of tears" you wanted food and attention. You advertised the fact by crying and got what you wanted. This is a mutual sort of world. Mother answered your cries. Your baby advertisement got you the attention you wanted and mother was repaid a hundred fold by your love and health. Merchants and business men who are advertising in to-day's TIMES want something. They want your patronage. Their advertising is no good unless it serves you. If it does, both benefit. To-day's TIMES contains many interesting announcements. They are varied in character. All of them will not appeal to every reader, but each of them will be important reading to some one. You may find the very message intended for you in the first advertisement you read.

A LINE O' CHEER EACH DAY O' TH' YEAR

GOOD MORNING. Whatever weather be a-borning 'Tis etiquette to say "Good morning!" And truly every morning's bright Compared, at least, unto the night; So even though the day be wet, Let's smile and cling to etiquette—"Good morning!"

ADELE BLOOD

In "Everywoman," Victoria Theatre, September 1, 2 and 3.

Ready by Sept. 15.—The Manufacturers committee of the Board of Trade has sent out notifications to all interested that the "Made-in-Victoria" building at the Exhibition grounds will be ready for the placing of exhibits by September 15. A plan of the building is at the office of the British Columbia Agricultural Association, Law Chambers, where it may be seen.

Children's Park Season Closes.—In view of the approaching close of the playgrounds' season in the various parks round the city, the playground directors at Beacon Hill and North Ward, Messrs. Dine and Small respectively, are preparing the youngsters for the competitions with which the summer season closes, and this week A. Newbiggin and Peter Joseph, who were put through the tests at Beacon Hill this week, passed the second test, W. Church taking the badge for successfully passing the third test.

Makes Interim Grant.—The city council has decided to grant \$3,000, without the act being taken as a precedent, towards the cost of patients in the Jubilee Hospital who are considered to be chargeable to the public funds, and to appoint the chairman of the health committee to investigate whether the other municipalities are paying their share of the cost of indigent patients.

Will Report Finding.—The news that at length the report of R. H. Thomson, government engineer, on the plans for the northwest sewer, will be ready next week was conveyed to the city council last evening. Alderman Cuthbert wanted to know if it was true that the plans prepared by the city engineers' department had been found unsatisfactory, but the mayor would not allow him to discuss the subject till the report was in. Meanwhile the information which has been assembled in connection with the flow of currents in the harbor is almost ready, and will be available directly.

Settle Claims.—By the adoption of the finance committee's report yesterday the city has agreed to pay \$14,250 in satisfaction of the claim of Mrs. Josephine Hall for 2,067 square feet expropriated by the city for the Douglas street widening scheme from lot 1, block 2, section 3, Finlayson Estate. The sum of \$2,500 will be paid to settle the claim for compensation of Crease & Crease for the expropriation of part of the Judge Gray property on Moss street.

Old Men's Home Addition.—There were 13 tenders for the additions to the Old Men's Home, as follows: Dinsdale & Malcolm, \$4,154; Knott & Jones, \$5,820; Luney Brothers, \$5,250; Thos. H. Matthews, \$4,194; Geo. McWilliams, \$4,261; T. G. McArthur, \$5,920; Parfitt

We Must Clear Out These New Columbia Double-Disc Records At a Much-Reduced Price

It is most unusual to get a cut price on regular Columbia Double-Disc Records, but the facts are these: So many popular selections have been added to the new Columbia Record catalogue that the total is formidable. As a result, it has been decided to discontinue the manufacture of a number of very successful selections. These must be sacrificed to keep the ever-growing list within bounds.

The result is a feast for those who have not got these fine Records. Remember, this will be your last chance to secure them. They are already out of print, so to speak. We will offer what we have of them at the snap price of

Regular 85c to \$1.00 50c Regular 85c to \$1.00

And we fully expect to clear our entire stock of them out in one day. Columbia Double-Disc Records are the best Records money can buy, both in quality of material and quality of workmanship, and also in the high quality of the original talent employed.

SELECTIONS OFFERED AT THIS SNAP PRICE INCLUDE

o'clock; is Exact Duplicate  
of Empress of Russia

Another epoch in the development of the trans-Pacific trade will be marked this evening upon the arrival of the second floating palace of the C. P. R. ocean-going fleet, the Empress of Asia, Capt. Robinson. Latest wireless messages received from the white liner are to the effect that she will reach William Head at 8 o'clock. The weather is thick outside but it is not expected that it will interfere to any extent with the latest Oriental flyer.

Owing to the fact that it will be dark when the Asia is ready to come up to a berth at the outer docks, the officials of the C. P. R. may have the ship drop her anchors inside the Broche Ledge bell buoy and send the steamer Tees out as a tender to bring the Oriental passengers and their luggage ashore. As this is the first visit of the Asia to Victoria, and as she has nearly 1,000 passengers on board to be inspected it is likely that the white liner will be detained about two hours before receiving her pratique.

An Exact Duplicate.  
The Empress of Asia is an exact duplicate of her sister ship the Empress of Russia as far as the exterior is concerned. The interior is finished in a different style, however, and if anything excels in this particular branch. In regard to speed it is a toss-up as to which is the faster. The Asia has failed on her maiden run across the Pacific to come near the record which was established by the Russia on her first run here from Yokohama.

EMPRESS OF ASIA AND HER MASTER, CAPT. ROBINSON

Batavia. These, and some chartered ships, were the vessels which first flew the company's flag in the Orient, and it was with these vessels that the C. P. R. got its footing in the trans-Pacific trade, and laid the foundations of the huge business which it does today. The competition and improvement of the railroad across Canada attracted the passenger traffic from the Orient, and when the company was assured of its ground, the orders were given for the construction of the three famous white liners, the Empress of India, Empress of Japan and Empress of China, which are 455 feet 4 inches long. These vessels were built at Barrow, England, as auxiliary cruisers, and have facilities for gun mountings and were granted the blue ensign of

interest, and this ship is still on the run. Then came the Empress of Russia, a vessel of 30,625 tons displacement, 16,450 tons register gross, 590 feet long, 68 feet beam, speed 20 knots, equipped with turbine engines and quadruple screws, and now her sister-ship, the Empress of Russia, is here.

Congratulations were again the rule on the waterfront this morning. The recipient was Thomas O. Goldsmith, the clericone of Victoria's waterfront. The cause was the arrival of a fine baby boy. Last night Mr. Goldsmith received a wire from Vancouver stating that he was now a daddy. Mr.

**CYCLOPS REPORTS  
ABSENCE OF MISTS**

Capt. Arthur Says No Dense  
Fog Was Met Until Liner En-  
tered Strait; Much Cargo

Thirteen days and ten hours of steady steaming brought the Blue Funnel liner Cyclops, Capt. Arthur, into port early this morning from Yokohama. Owing to an absence of heavy weather the trip across the Pacific was exceedingly quiet, and except for exercising a little caution in the light mists which were encountered at occasional intervals, the officers and crews spent a very leisurely time. The big steamship slipped around Race Rocks in a heavy fog at 1.30 o'clock this morning, and was cleared by the quarantine officer at daylight.

Capt. Arthur, the genial skipper of the well-known Blue Funnel ship, had very little news to tell of the long trip from Liverpool, which port he left on June 21, seven days after the C. P. R. liner Empress of Asia cleared on a globe-circling tour. When the Cyclops was being docked at London she brushed her nose against the pier and split her stem. There was a nasty wind blowing and the tug which had hold of the liner by the nose was unable to hold her. All weight was taken off the ship, but she blew in on the pier head. The dock suffered no damage, but it took some days to put the Cyclops into shape.

Thick Coming Up Strait.  
Clear weather was met when making the land last night, but after the Cyclops had passed inside the Cape the fog shut down thickly and the big ship came slowly up the strait. The fog alarm at Race Rocks was not blowing, and Capt. Arthur, when he failed to pick it up, hauled about on the turning point into William Head and waited for a let-up. Capt. Arthur was surprised to find that it was clear inside the quarantine station.

The Cyclops brought in a shipment of silk worth \$500,000, which will be sent overland from Tacoma to New York. As cargo the Blue Funnel ship has about 3,000 tons for Tacoma, 3,000 tons for Seattle, 1,000 tons for Victoria and 4,000 tons for Vancouver.  
There were about 250 Chinese on board, and 169 disembarked at the outer docks.  
The Cyclops will return here to discharge about next Wednesday.

**DEN OF RUTHVEN TO  
ARRIVE ON MONDAY**

Royal Mail Steam Packet Liner  
Reports by Wireless; Several  
Other Ships Due in

About 500 miles from Victoria the fine Royal Mail steam packet liner Den of Ruthven, Capt. Stewart, was spoken by wireless last night. According to the message the steamship will arrive at William Head at 5 o'clock on Monday afternoon, and it is believed that she will come up to the outer docks to discharge cargo. Findlay, Durham & Brodie, the agents here for the line, however, have not been advised as to whether she will call in here or not. None of the previous Royal Mail liners have berthed here, owing to the fact that they have not succeeded as yet in getting the freight service sufficiently advertised.

The Ruthven is one of the first of the Den fleet to call here for some years. The owners of this line have made themselves famous the world over as a result of the fine class of ships which they operate. All the vessels have good power, are equipped and fitted out in a splendid manner, and have all excellent facilities for the handling of cargo. Wireless telegraphy has been established on most of the Den boats, which is something new for most freighters.

Several Other Ships Due.  
Several other ships are due to arrive here from foreign ports during the coming week. The Hamburg-American liner Briggavia is expected about the middle of the week, and the Osaka, Shosen Kaisha steamship, Chicago Maru is also looked for about Wednesday. The fast flyer Niagara, Capt. Morley, of the Canadian-Australian fleet, and the Bellerophon, Capt. Bebb, of the Blue Funnel fleet, are both getting away on Wednesday, the former for the Antipodes and the latter for Liverpool via the Orient. The Norwegian freighter Tricolor is looked to arrive next week. Several other ships may also get in during the next seven days.

CLOTHING NOT NECESSARY.  
San Francisco, Aug. 29.—Captain Leslie, of the British steamship Earl of Elgin, which arrived to-day from Norfolk, has become fairly convinced that clothing is not a necessity. As proof he cites a happening among the

**INNOVATION ON THE ASIA-VERANDA CAFE**

Japan and the Montague, to maintain a fortnightly schedule between here and the Orient. With the new ships this company also hopes to build up its business on the Pacific. It is expected that the Russia and Asia will be engaged to carry the bulk of the silk from China and Japan to Vancouver, for transshipment to New York. These vessels cross the Pacific in three days less time than the older Empresses, and four days less than the Blue Funnel ships, and they have a clear five days over the Osaka and Nippon liners.

Her Description.  
The Empress of Asia is 595 feet long, 68 feet beam, gross register 16,850 tons, displacement loaded 30,625 gross tons, and a speed of 20 knots, quadruple screw turbine engines.

The main saloon of the Asia is no less than 74 feet long and 64 feet wide, lit from the sides by a number of beautifully designed windows nearly 1 1/2 feet wide and from above by a large well 24 feet by 16 feet wide; the tables are arranged to suit the demands of various passengers, from small tables for two and four persons to semi-private tables for six, set in alcoves, and larger tables for larger parties. The first class staterooms on the bridge deck are enclosed in a complete steel deckhouse, 340 feet long; each of these rooms measures 10 by 9 feet, with sleeping berths for two persons and a sofa so arranged as to be converted easily into a bed if required—the sleeping berths are so designed that should one passenger only occupy the room, the upper berth can be closed up, leaving only a single brass bedstead—several of the staterooms are fitted with a dressing-room (with hot and cold water). Surrounding the deckhouse is one of the first class promenades—430 feet long with a minimum width of 8 feet; at the ends clear across the ship and at the forward end it is enclosed by a screen having large observation windows so as to give a sheltered promenade of 840 feet.

History of Company.  
The history of the development of the trans-Pacific trade of the C. P. R. is of unusual interest. When the C. P. R. first entered the trans-Pacific trade the vessels employed were the old Cunarders Abyssinia, Parthia and

the royal naval reserve, which makes it necessary for a proportion of the officers and men to be members of the Royal Naval Reserve.

The first of these famous vessels to arrive here was the Empress of India, which reached Vancouver on April 28, 1891. She was followed by the Empress of Japan on June 23, and the Empress of China on September 23, also in 1891. These vessels are admittedly the prettiest models afloat, and even the new liners cannot excel them for graceful lines. Furthermore, they have had wonderful records, and have maintained the service practically without a break. The loss of the Empress of China on the Japanese coast in July, 1911, was the first break in the service of the three clipper-hull vessels. The China was sold to Japanese wreckers, and after six months on the rocks was floated, towed to a Japanese port and broken up. The Empress of India and Empress of Japan, however, are still on the service and are likely to remain for many years, and their record speaks well for the construction of the British yards and the care lavished on them by the C. P. R.

Older Ships Sold.  
Shortly before the three Empresses came here in 1891, the C. P. R. looked around for buyers for their existing ships. In 1890 the Batavia was sold to Americans and re-christened Tacoma. In 1891 the Parthia left here on her last trip. She was also sold on the American side and re-christened the Victoria. It was this ship which touched on the shoal in the centre of the Narrows, which was christened the Parthia shoal. This shoal has now been removed by the Dominion dredge Mastodon. The old Abyssinia, after leaving this service, went to the Atlantic and was destroyed by fire.

After the introduction of the Empresses, trade rapidly developed, and the C. P. R. found it necessary to increase its fleet and to this end bought two more old Cunarders, the Tartar and the Athenian. The Tartar arrived here on April 1, 1898, and the Athenian put in an appearance on April 1, 1898. These boats remained in the service until 1907, when they were sold to the Japanese. The Montague was brought here when the C. P. R. bought out the Elder-Dempster

Goldsmith is crossing over to Vancouver to see his son. One thing Thomas has already decided on, and that is that Thomas, Jr., will not go to sea.

CHARLOTTE IN COLLISION.  
Vancouver, Aug. 30.—The steamers Princess Charlotte and Leona, the latter a small cement carrier, collided in a fog just after midnight in Active Pass. There was a dense fog at the time. On the Charlotte there was a section of the guard rail cut and bent and a plate bent in. There was no damage to the Leona.

# FOR ISLAND MOTORISTS

Stories and Figures for Those Interested in AUTOMOBILES, Whether for Pleasure or Business Purposes

## CONTINENT HIGHWAY IN YEAR SENT OUT FORTY MILLION WORTH

### Seattle Writer Says Trans-America Road Will Not Be National Work

"A plan for federal roads across the American continent has a high and lofty sound," says the Seattle Times editorially, "but the chances are that it will be realized only when the individual states, working independently, build their local highways and in that manner ultimately form a series of thoroughfares from coast to coast. Having such a condition in mind, The Engineering Record sounds a warning against surrender of independence on the part of the various state good roads associations. It refers particularly to the National Highway Association of South Yarmouth, Mass., and says that if the state organizations value their individual existence they should be on the lookout against the probability of being swallowed alive. "The National Association has taken in the Ohio Good Roads Federation and the Pennsylvania Good Roads Association; and it has held out to other state organizations the bait of salaries and office rent conditioned on membership and the subordinating of state programs to its plans. "The objection to such a course is found in the fact that the state associations may thereby become committed to an unsatisfactory scheme of national road-building, and at the same time jeopardize their own interests by a practical surrender of independence. "There is sense in the recommendation that the various state associations keep themselves free to work out their own problems. Washington, Oregon and California, for example, are committed to the Pacific highway, reaching from the British Columbia line to Mexico, and they need that great improvement quite as much as trunk lines running east and west across the three states. "Moreover, there is such harmony of action among the road-builders on this coast that the Pacific highway is fast becoming a reality. It is probable that a surrender of independence to a national association would hinder rather than aid the project of linking the three states by one of the best highways in the world. "Local conditions, or rather state conditions, play an important part in road-building. The suggestion by The Engineering Record is to the point. If the so-called national association seeks more than a 'letter-head existence' it is not entitled to climb by reducing its component parts to a condition of complete 'vassalage.'"

### NAUTICAL LIGHTS FAIL.

The suggestion of one of the automobile distributors to supply all cars sold by him with so-called "nautical lights," meets with vigorous protest from the police authorities of Boston, Mass. Many complaints have already been made in the Bean City that the red and green lights have resulted in several bad accidents. Motorists have mistaken the red side light for the rear light of a car and collisions have occurred.

### PREPARE FOR CONGRESS.

Most elaborate are the preparations being made in Detroit to entertain the thousands of delegates who will attend the third annual American Road Congress, to be held September 29 to October 4 next. The greatest attendance of delegates and of good roads workers from every state of the Union and from Canada ever known is certain at this congress.

### U. S. Exports of Automobiles for Last Fiscal Year Represented Huge Sum

According to figures just compiled by the bureau of foreign and domestic commerce, department of commerce of the United States, \$40,000,000 worth of automobiles and parts thereof were sent out of continental United States in the fiscal year 1918, against about \$1,000,000 worth in 1903, a decade earlier. The fiscal year ends on June 30. These figures of 1918 include \$28,000,000 worth of finished automobiles sent to foreign countries, about \$2,500,000 worth to Hawaii and Porto Rico, \$4,000,000 worth of tires, \$2,000,000 worth of automobile engines and \$5,250,000 worth of parts other than tires and engines. It was only in 1903 that the exports of automobiles became sufficient to justify a separate record of this class of merchandise, the figures for that year, including the separate parts, being less than \$1,000,000. In 1907, five years later, they were but \$6,000,000, and in 1910 approximately \$12,000,000 in value. The number of machines exported to other countries in 1918 was 25,000, against 7,000 in 1910, and a little less than 3,000 in 1907, the first year in which the number was stated in the export records of the country. The average price at which they were exported was about \$1,700 each in 1907. The 1918 exports included about 1,000 commercial automobiles at an average valuation of \$1,500 each and 24,000 other machines at an average price of about \$1,000 each. The imports of automobiles in the fiscal year 1918 were less than \$2,000,000 value, against over \$4,000,000 in 1907, and the average price of those imported in 1918 about \$2,300 each, against \$3,400 in 1907.

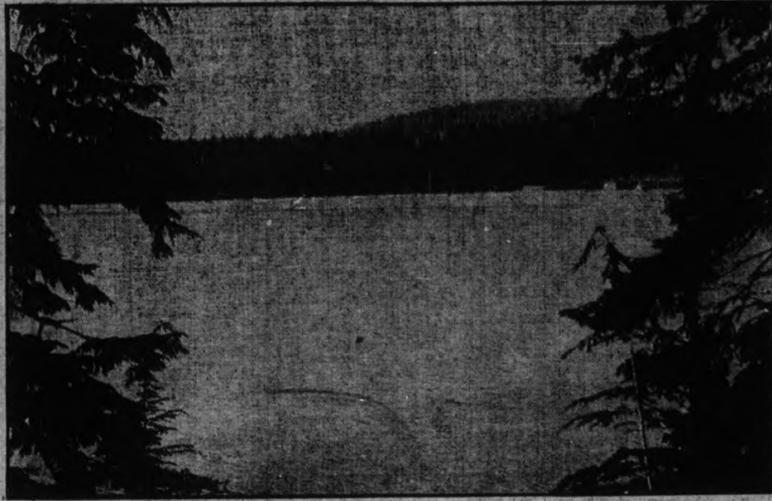

Canada Buys Most. Canada is the largest purchaser of American automobiles, the total number sent to this country in 1918 being 7,212, valued at \$9,233,561. England is the next largest customer, the total number sent to the United Kingdom in 1918 being 3,973, valued at \$3,026,895; while in British Oceania (chiefly Australia and New Zealand), 3,062, valued at \$2,914,451, were exported; to South America, 2,820, valued at \$2,145,206; British South Africa, 1,890, valued at \$1,167,371; Germany, 649, valued at \$788,413; British East Indies, 867, valued at \$711,653; France, 824, valued at \$625,795; and to Russia in Europe, 593, valued at \$619,076. The average price apiece of those sent to Canada was over \$1,200, of those sent to South America, about \$1,100 each, and of those exported to Europe, about \$800 each.

The distribution of American automobiles extends to all parts of the world, the figures for the fiscal year 1918 showing exports to seventy-five countries and colonies. Bulgaria, Roumania, Serbia, Turkey, Greece, the Azores, the Canary Islands, the West Indies, Siam, the Dutch East Indies, Russia in Asia, Korea, French Oceania, Egypt, China, Japan and India are included in the list of countries named as the destination of the exports of the year, while the list includes also practically every country of Europe, South America and North America.

### RECIPE FOR HORSE-POWER.

Take the cylinder bore of any motor, divide it by two, square it, multiply by 3.1416, multiply by the stroke, multiply by the number of cylinders and divide by 7.5. The result will be a very close approach to the correct horse-power, as implied by the American Automobile Association's standard of rating for competitive events.

## A BIT OF ISLAND SCENERY

One of the many delightful scenes which greet the eye of the motorist in this part of the province. A view from Mill Bay road.

## ARE SPEED LIMITS TO AFFECT DOCTORS?

### Special Badge Used in Detroit; Not Adopted in Toronto; Some Suggestions

Should the doctors who drive automobiles be granted special privileges, be allowed to go over the speed limit and disregard traffic regulations? It is safe to say that seventy-five or eighty per cent, or even more, of our medical practitioners use the motor car for making their calls. Frequently the doctor is called out on an emergency case where life or death may depend on a few moments delay on the part of the doctor. In such a case, some advocates say, he undoubtedly should be allowed to forget the speed limit, and if he comes to a busy corner be rushed ahead of all other traffic.

The question of providing doctors with distinctive badges by which they could be recognized and thus be given special privileges, was brought up recently before the Board of Police Commissioners of Toronto, says Motorist, but no action was taken. Their reasons for knocking the proposals were that, in case of emergency, a doctor would be given right-of-way, and where life hung in the balance he would not be prosecuted for disregarding the speed limit and other traffic regulations. Also they held that emergency cases where such speed is necessary are very rare, and that if such a badge were provided for all doctors they would enjoy those privileges when they were not required, and that some doctors might take advantage of them and run at high speed all the time, to the danger of pedestrians and other traffic. The police are inclined to be lenient in most cases with doctors who are prosecuted for speeding, if the circumstances warrant his hurry. In some cases, however, doctors complain of unjust treatment.

The Detroit Medical Association succeeded in impressing upon the authorities of that city the necessity of such a badge for doctors, with the result that every member of the association carries on the radiator of his car the badge. The doctors of the American city are pleased with the privileges granted them, and the experiment has been a success. If such an action were taken in the larger Canadian cities it is doubtful if the doctors would take advantage of their privileges. On the contrary, it is likely that they would respect instead of abuse them, and in appreciation of the concessions granted them would disregard the traffic ordinances only when necessary.

## DUE TO CARELESSNESS

### Many Automobile Accidents Are Preventable; Both Occupants and Pedestrians to Blame.

"A large percentage of the automobile accidents could be avoided if the proper precautions were taken," says an automobile authority of Akron, Ohio. "One of the greatest dangers is when an automobile driver in a rear car tries to make the one in front 'eat his dust.' On one side of the forward car or directly in front may be another machine, buggy or pedestrian, which to the driver of the rear car is not within his sight. Invariably when passing machines in this manner—that is, from the rear—the driver opens his cut-out, and by increasing his speed passes the machine in front so fast that he doesn't see the other occupant of the road until nearly upon him. The result is an accident. "Because a car is hired many people think the driver should do things that common sense tells him he should not. A little extra change tempts the driver to comply with the passenger's request to speed up. If the occupant of the car would not tempt him the chauffeur would not be inclined to break the speed and traffic laws and the newspaper would not be filled every day with accounts of catastrophes. "By standing on a busy street corner you will readily observe how many accidents result from the carelessness of pedestrians and not through the fault of automobile drivers. In every direction you will see people crossing busy streets, reading a newspaper or talking with a friend, in fact, doing anything except paying attention to where they are going. If they would cut square corners and look both ways before crossing you would not hear of so many accidents. The public must help the traffic policemen if the police are to help the automobilists. "Joy riding is another reason why automobile accidents are continually increasing. The occupants of the machine in this case are absolutely at the mercy of the driver. The reckless and dare-devil spirit gets the best of him and many cases have resulted disastrously."

## "SIXES" WILL INCREASE

### San Francisco Expert Says Six-Cylinder Cars Will Grow in Popularity.

How universally the motoring luxuries of yesterday have become the common conveniences of to-day is pointed out by a San Francisco expert, who cites demountable rims, electric lights and starters, a wide range of dash equipment, rear axle transmission, dropped frames and many other improvements, all tried out in their first form as exclusive features of costly cars but now included generally as standard in popular-priced models. "And now," he declares, "we have the six-cylinder motor—two or three years ago his, cumbersome, whinny and costly; now light, faithful and economical—an ideal car for the driver-owner of moderate income. "I do not believe that the 'six' will ever force the light 'four' into retirement. The 'four' will always be cheaper to build and will be salable at a lower price. But I do predict that, in a very short time nobody will put into the purchase of a 'four' a sum for which he can buy a 'six.' "With the same sort of care and driving ability a 'six' will duplicate the work of any 'four' of similar power and will do that work easier and with less strain to its own mechanism and its driver's nerves. This statement will be confirmed by any motorist who has had experience with both types. "To pilot a car free from vibration; a car that in traffic conditions or in hard pulling never labors but rolls smoothly, even at walking pace, on high gear; a car in which the acceleration is like a steady irresistible pull from an invisible cable—that is real motoring pleasure. "And it is this same steady flow of power that makes the 'six' an especially durable car. There are no sharp, weakening shocks to shafting, gears and other parts. A 'six' is itself easy and comfortable at its work; its passengers cannot fail to absorb, consciously or not, the same feeling of restful, competent content."

## STANDARD DANGER SIGN.

The public works department has notified the Duncan board of trade that a standard danger sign for automobilists is being prepared for use on the roads of Vancouver Island.

## IS ASSEMBLING PLANT

### Warren Construction Company is Preparing for Commencement of Roads Undertaking.

Now that the contract with the Saanich council has been signed the Warren Construction Company, which has the bulk of the contract for the 22 miles of road to be paved, is already making arrangements for assembling material and a start with operations will not long be delayed. The intention is to make a commencement while the weather remains good and to see that the work is planned so that it may be done with a due regard to the comfort of vehicular and pedestrian traffic. Considerable interest centres in the road to be undertaken first. While opinion has strongly favored the main Saanich road, the company indicates that this will be a matter for the decision of the reeve and municipal engineer. The probable results of road-grading, where it is necessary, will have an effect upon the road which is first to be undertaken, as the material will have to be given time to settle before surfacing. With the Automobile Association locating a country home at the head of the peninsula, the improvement of the trunk road northward out of the city is of much importance.

## CONSTANTINOPLE NEEDS CARS.

At present there are practically no automobile delivery wagons in Constantinople. With the municipal improvements now being effected in the city and the work being done to better the condition of the streets and the roads in—and about Constantinople, there should be a good field for all kinds of motor vehicles, and the local representatives of several European firms are already interested in the introduction into this market of such vehicles.

# SPORTING NEWS

## RACING DATES AT THE WILLOWS; NINETEEN-DAY MEET FOR CAPITAL

Victoria Country Club Will Have Charge of Local Meet; Start on September 20

Victoria will have nineteen days' racing at the Willows this fall. George Fraser, secretary of the Victoria Country Club, announced this morning that the thoroughbreds will invade the capital on September 20, and will race through until October 11, giving the island enthusiasts three solid weeks of horse racing. Full arrangements have been made for the transfer of the three hundred horses now at Minoru Park, Vancouver, and the racing will continue during the Fair week in addition to the regular exhibition programme.

Seven Races Each Day. There will be seven races a day at the local track, with two stake events every week. There will also be a number of special cup and trophy races, donated by local sportsmen and the Victoria Country Club have laid aside \$2,500 a day as prize money during the racing. There will be a number of \$1,000 stake events on the regular card. Starter Johnny Tribe, who is handling the gate at Minoru, will officiate at the Willows and he will bring along with him the assistants that are helping him at the Vancouver track. The part-mutuel machines will again be in use and a permit has been granted by the Oak Bay Council for this meet.

Minoru Entries Coming. Preparations are now being made at the Willows for the reception of the thoroughbreds and it is expected that some of the finest animals that ever raced in the west will be here for the meet. There are several Victoria-owned racing stables at Vancouver and these will also be here, while all of the prominent American owners have stated that they will ship their stables to the capital next month.

GEORGE A. FRASER Secretary of the Victoria Country Club

The local track is being put in the finest shape for the races and quite a bank roll is being spent on improvements to the stabling and other accommodation of the equines. There will be a band in attendance throughout the meet and the grand stand will be completely overhauled for the races and fair. The exhibition will start on September 23 and continue until September 27, so that the fair week will be held during the races. The British Columbia Electric Railway has agreed to furnish a special car service during the stay of the ponies in the capital. Further announcements of the stake events will be made in a couple of days.

## CRICKET SEMI-FINAL NOW BEING PLAYED

Burrard Made Bad Start but Excellent Recovery; Ivamy's Fine Batting

Oak Bay and Burrard cricket teams met this morning on the Jubilee Hospital ground to decide which eleven should meet Cowichan in the final on Monday next. Both teams were at full strength, and as might be expected, considering the importance of the occasion, full of keenness and anxiety. The Burrard captain won the toss and elected to bat first on a wicket that was hard and fiery through a week of sunshine. The outfield, too, was very fast. Becham and Hood were the first batsmen sent in for the Mainland eleven, and they were opposed by Hadley and Captain Orr. The two trundlers, the one a youngster and the other a veteran, represented entirely different styles of bowling—Hadley being very fast and making the ball whiff off the pitch at a tremendous pace; while Orr, the older man, bowled enticing-looking slow, which, however, were chock-full of "devil."

Hadley had no fewer than seven strikes, and his eccentric setting of the field was amply justified in this respect by the results, for the batsmen hawking most of their shots off his bowling in that direction. Becham, the record-breaker, took the first over of the match and played every ball with extreme caution. Hadley was bowling and bumping badly on the fiery crease, but his first over was a maiden.

On came Orr at the pavilion end and bowled a maiden to Hood, nearly getting the batsman off his pads with his third delivery. The fielding of the Oak Bay men was remarkable, every man being right on his toes. Hadley man being sent down a good over to Hood, and finally clean bowled him with a fast yorker that knocked back the middle stump. One wicket for one run was not a very good start for the Mainland team.

Slow Cricket. R. S. Beaton, an old Rugby man, partnered Becham, who was still very uncertain. The latter got a nice single past cover and followed it up with a very lucky snick for four past third man. Becham again off drove Hadley, this time for a brace which good running between wickets might have converted into a four. Hadley was varying his pace at this stage and constantly had the batsmen in difficulties. Consequently the cricket became somewhat slow. Barker recovered Hadley for one over and had five knocked off him. Later Beaton was bowled by a beautiful length ball.

(Concluded on Page 15.)

## KANTY HAD THE INDIANS SWINGING

Port Slider Stops Spokane Club for Second Time This Week; Score 5 to 4

It was more than an ambition to beat the Indians twice in one week that kept Kantleher on the move yesterday. There is a standing offer to the Victoria twirlers of a \$100 bonus to the man who wins twenty games in a season. Monday marked the nineteenth victory of the Flying Dutchman, and yesterday he went in and worked like a big leaguer, allowing Spokane but seven hits and four runs while the Bees hammered in five tallies. The game was one of the best of the week, the scores being all clean, with plenty of peppery fielding to brighten up the contest. It was the fifth successive victory for the port slider over the Spokane Club on the local lot, and from the manner in which the coming Pirate stepped the distance yesterday, he is getting better every day.

Kanty Was There. Lynch's Redskins were helpless before the slants and shoots of the San Jose southpaw, and they were decidedly lucky to get two of their four eddies. Jimmy Tomman had a troublesome afternoon for the "tenth time" in this series, and it may be said that the Bees did not get any of the breaks. Kantleher was master of the situation from the start, though a couple of boots put him in bad in two successive overs. He outpitched Peters, and chased to the barn in six, and also had an edge on Covaleskie. The portslider had tremendous speed, and while a little wild he kept burning the ball over with so much smoke that eleven of the Spokane hitters went down on strike outs. Two pinch hitters were fanned and that tells of the form in which the Victoria slab artist faced the invaders yesterday. Kantleher struck out, Peters and Covaleskie dividing this total. The latter paid were wild, issuing seven walks while Kantleher handed out five passes to first.

Powell Stole Home. Watt Powell, the left fielder whom Lynch chased from the game in Thursday's combat was real hero of the Spokane aggregation, his clean steal of home in the fourth after a double, being one of the best pieces of base running pulled off here this season. Powell took a long lead, and was off Kanty's arm. Shea took the throw on the outside of the plate. He fumbled the ball, and before he could recover the horsehide, Powell left across the rubber. The Spokane scoring fielder singled in the fifth, he was Hannah and Peters, so that he was very prominent in the sixth. Kantleher, Harry Meek proved a real trouble, his homer in the third counting two runs for the Bees, while his clean drive to right in the fifth session scored Rawlings with the winning run.

Meek and Rawlings featured the fielding of the Bees by nice jumping catches. Meek grabbed a high throw from Lamb in the sixth that averted trouble, while Rawlings in the seventh robbed McCarl of a hit by a diving catch of the first sackers line drive over second. A surprise was handed the fans in the ninth inning when Smith was sent into bat for Watt. The elongated twirler promptly struck out. Yoh was taken out of the game in the eighth to allow Dutch Altman to bat for him, the latter also fanned.

Table with columns: A.B.R.H.P.O.A.E. for Spokane and Victoria players.

Score by Innings: Victoria 5, Spokane 4. Summary: Sacrifice hits—Powell, Lamb. Stolen bases—Rawlings (2), Powell. Two-base hits—Alberts, Meek. Double plays—Hannah to Wuffli. Struck out—By Kantleher 11, Peters 3, Covaleskie 2. Bases on balls—Off Kantleher 2. Bases on balls—Off Cadreau 1. Time of game, 1:58. Umpire, Toman.

HOCKEY CHANGES. The Ontario Hockey Club, Limited, with a capital of \$30,000, is the name of the new company that is seeking incorporation under the Ontario Companies Act. The provisional directors are Oscar Heuman King, Alan Gilmour and Archibald Cochrane, barristers-at-law, William Colborne Johnston, bookkeeper, and Frederick Harold Vanstone, student-at-law, all of Toronto. Besides providing a hockey rink in Toronto, the new company is going to take over all the assets and liabilities of the Tecumseh Hockey Club, Limited.

GORGE BOUTS. Al. Davies was given a tough argument with Chech Hill at the Gorge last night, but the coast bantam champion managed to get the decision over Chech by a strong finish. Other bouts were: Wrestling, J. Middleton vs. J. Schults; J. Middleton vs. M. McLellan; Boxing, Scotty McKay vs. W. H. Motherall; W. Davies vs. Scott Cropper; C. Motherall vs. M. McLellan.

## TACOMA DOUBLED SCORE ON SEATTLE

Table with columns: A.B.R.H.P.O.A.E. for Tacoma and Seattle players.

Score by Innings: Tacoma 12, Seattle 6. Summary: Stolen bases—Neighbors, Hendling, Fries. Two-base hits—Cushman, James, Keller, Fries, McMullin, Hendling. Three-base hits—McMullin, Fries. Sacrifice hits—Neighbors. Pitcher's summary: 2 runs, 2 hits, off Dell in 1-3 innings; 2 runs, 2 hits off Reardon in 1-3 innings; 3 runs, 10 hits off Fullerton in 1-3 innings. Struck out—By Fullerton, 2. Bases on balls—Off Dell, 2; off Kraft, 3. Passed balls—Harris, 2. Hit by pitched ball—Jones by Kraft; Hendling by Fullerton. Time, 2:30. Umpire, Oatfield.

## PORTLAND LOOKS A BEATEN CLUB

Table with columns: A.B.R.H.P.O.A.E. for Vancouver and Portland players.

Score by Innings: Vancouver 4, Portland 3. Summary: Two-base hits—Frick. Bases on balls—Off Cadreau, 1; off Mays, 3. Struck out—By Schmutz, 6; by Cadreau, 1; by Mays, 10. Stolen bases—Brinker, Kippert, Melchior, 1. Pitcher's summary: 3 runs, 4 hits off Cadreau in 2-3 innings; Credit victory to Cadreau. Passed balls—Williams. Wild pitch—Mays. Left on base—Vancouver, 11; Portland, 3. Time, 2:08. Umpire, Casey.

## WELSH SMOKER.

A complimentary smoker will be tendered the members of the Welsh Rugby football club at the Victoria hotel on Wednesday evening next with plans for the coming Rugby season will be discussed.

## CHURCH ORGANIST IS NOW BEE PITCHER

Erve Kantleher, Victoria's leading twirler, who made his twentieth victory of the season yesterday and earned a hundred dollar bonus. Kantleher has lost twelve games so far this year, so that he has a percentage of .628 to date, pretty fair for a twirler who is working for a second division club. Few who have seen the husky Teuton on the mound for the Bees have ever thought of Kantleher as an organist in a prominent German Lutheran church at San Jose, Cal., but such was the start that Kanty received in life, and it was an odd turn of fate that made the Flying Dutchman choose baseball as his vocation in life. According to Kanty it was either the ministry or baseball, and the San Jose port slider fell for the glory and fame that falls to the lot of a successful ball player rather than take up the work of a minister in the Lutheran church.

Each year at San Jose, a student is chosen who is sent to Chicago to study for the ministry. Kantleher had been playing the organ for several years, and the elders finally decided that he deserved recognition so they offered him the chance of studying for the ministry. They were somewhat taken back when Kanty refused their offer, and there was a general uproar when the organist resigned to sign with the Victoria professional baseball club. Kantleher, however, has made good in baseball, and the folks down in San Jose have forgiven him for not going in for the ministry. Indeed they take more than a little pride in the progress of their favorite son in the baseball world, and a public holiday was declared when news of Kanty's sale to the Pirates was received in that town.

## HOW WE STAND

Table showing standings for Spokane, Seattle, Vancouver, and Portland.

Yesterday's Results. Spokane, 4; Seattle, 6; Tacoma, 12; Vancouver, 4; Portland, 3. To-day's Games. Spokane at Victoria, Seattle at Tacoma, Portland at Vancouver.

## HOCKEY TROUBLE LOOKS SETTLED

Toronto, Aug. 30.—An arrangement has been practically completed between the Patricks, representing the Hockey Association on the coast, and the N. H. A., by which peace may be maintained between the two bodies.

On account of lack of facilities for the development of hockey players on the coast, the agreement gives the western clubs the right to annually draft one player from each of the N. H. A. clubs at a fixed price of from \$1,000 to \$1,500. The two Toronto clubs favor this idea and Quebec is sure to fall in line. Ottawa is now in touch with its directors and also favors it. There will be no raiding of one league by the other, and the two will work in harmony. The players in the territory west of the Great Lakes will belong to the Coast League, and those east to the N. H. A. This will take the place of any commission.

Mike Lynch lost his temper a couple of times and got in badly with the crowd for his rowdy tactics.

## A Smart Business Suit

Adds greatly to the appearance of the young man who wants to get ahead. The time has gone by when it was necessary for a man to be measured to get a good fit. You can get style and quality unsurpassed in

## GAMES ARE ASSURED FOR THE MINTO CUP

Vancouver, B. C., Aug. 30.—New Westminster must defend the Minto Cup against the Vancouver A. C. professionals. Furthermore, the Vancouver team's challenge takes precedence over that of the Irish-Canadians of Montreal.

Word to this effect was received last night in a dispatch from W. K. George, the only trustee now in the country. In a wire to President Clark, of the challengers, he says that the challenge has been accepted by him and suggests that Vancouver immediately confer with New Westminster regarding dates and officials. The series will probably be played in September. Last evening the V. A. C. Mann Cup team decided to defend the amateur trophy against the Armstrong, B. C. team and suggested September 13 and 17 as dates for the matches. Fred Lynch has been suggested by Vancouver, as referee. Providing Vancouver retains the cup the Young Conservatives, of Winnipeg, will be asked to play here on September 27 and October 4. Victoria's challenge will not be entertained this year.

The New Westminster Lacrosse Club have suggested Saturday, September 13, and Saturday, September 20, to George Kennedy of the Irish-Canadians as satisfactory dates for games for the possession of the Minto Cup. These may be changed, however, within the next few days if the exhibition directors decide they would like professional lacrosse as an attraction during the Westminster fair, the first week in October.

## SWAIN GOES UP.

There is little doubt that Charlie Swain will make good in the Coast League and Victorians will follow with interest the work of the speedy left fielder with the Sacramento Club next year. Swain and Alberts are to go back to the coast circuit, and the former looks a certainty for a regular job with the Sacramento club. As an extra base hitter he has not an equal in the league, while his home run drives have been the sensation of the Bees' attack since he came to the capital. Swain is probably the hardest hitter that ever faced a pitcher in the Northwestern League. He takes a full swing at the globe, and while he strikes out as much as any other member of the Victoria Club, the full driving power of his tremendous shoulders is put behind every ball that he hits with the result that he generally puts the ball out of the lot. Harry Meek is a far better hitter, but he does not drive the ball as hard as Swain. The latter is very speedy, and has a grand throwing arm, having nipped a score of runners off at the plate in the past season. Swain is rapidly climbing in the batting averages, and unless Meek checks that stump of his, he will soon top the league. They can talk of Kippert as an outfielder, but Charlie Swain is the class of the Northwestern right now, and what is more, he looks good for a world's record in the matter of home runs this season. He has twenty-eight now, and with five more weeks to go, he should add five or six more to this total. Victoria will miss Swain next year, but the slugging deserves the rise to higher company.

## FORFEITS POSTED FOR TITLE BOUT

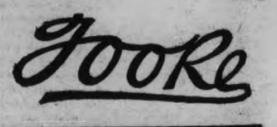

Ritchie and Welsh Must Weigh in at Noon; Griffin to Referee

Vancouver, Aug. 30.—With the Cross-Barricade match out of the way, the local promoters have cleared decks for the Ritchie-Welsh championship battle, scheduled for this city on the afternoon of Saturday, September 20. Both Ritchie and Welsh are in Vancouver training for the bout. Ritchie is under the training care of his manager, Harry Foley, the veteran middleweight, and is doing his work in modern training quarters at the Eburne hotel, Eburne, two miles from the arena where he will defend his title against the British champion. Welsh has fitted up complete training quarters at the Imperial Rink, English Bay, on the edge of the city and will look after the greater part of his training details himself. Everything Ready. Every detail of the battle has been settled. The men will weigh in at noon on the day of the bout at 135 pounds, and have posted guarantees to be in the ring ready for action at 1.15. It is expected that they will be actually answering the bell for the first round at 1.30. Jim Griffin, of San Francisco, the referee, will be in Vancouver at least 48 hours before the match and will visit both men at their quarters a day before the bout, settling final little points about the rules. The men have agreed to straight, Marquis of Queensberry rules, hitting, boxing and protecting at all times. Forfeits aggregating \$12,500 have been posted by the two boxers and the club. A new feature of the weight forfeit is that each man, in posting his \$2,500 to do 135 pounds at noon, further agreed to forfeit \$2,500 for every pound he might be overweight. In the event of one man being badly overweight the bout still goes on, absolutely protecting the club and the public. The prices for the championship bout range from three to ten dollars, with a few choice ringside seats at fifteen. Welsh's injured ankle has been subjected to severe strains during the past week and now is in perfect training to stand the hard siege of training before the battle.

give you maximum comfort, as a Soft Collar is meant to do. Yet they do not sag or crumple, because they are made right, and the button holes are set well up.

Your choice of fine, clean Stripes on White Grounds—Solid Colors—rich Japanese Silks—aristocratic Piqués.

Don't Forget the Special Trip to Seattle, Sunday, Aug. 31. Only \$2.50 return. Children half fare.

Family Wine and Spirit Merchants. Brunswick Block, 1216 Douglas Street. Phone 3652

## The Ever-Present Gillette

Wherever you see men buying razors, in drug, jewelry or hardware stores—wherever you see men shaving, in club or Pullman or home—there you will inevitably find the Gillette Safety Razor purchased and used.

It has won the approval, almost the affection, of busy men whose time it saves—of thrifty men whose cash it saves—of particular men who value a clean, smooth face—of average men who never could shave comfortably with any other razor. That's why over six million men use the Gillette, and why you can buy Gillette Safety Razors and Blades at practically every good Hardware, Jewelry and Drug Store in this town. Standard Gillette Sets cost \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets \$6.50 up. 6 double-edged blades, 50c.—12 Blades (24 shaving edges), in nickel-plated box, \$1.00.

GILLETTE SAFETY RAZOR CO. OF CANADA, LIMITED. Office and Factory—The New Gillette Building, Montreal. 463

LAW IS SEVERE ON CARRYING WEAPONS

Drastic Provisions of Federal and Provincial Statutes to Curb Growing Evil

Next week there will go into effect two statutes dealing with the carrying and sale of offensive weapons, one federal and the other provincial, and both designed to curb the evil that has arisen through the immigration of races which are excellent in every way except that they are addicted to the too free carrying of concealed weapons and to the use of these whenever they get into a quarrel.

For some years the Chief Constables Association of the Dominion has been urging upon the government the tightening of the restrictions on the sale of weapons and the right to carry them in order that the police forces of the country might cope with these people.

The amended sections 118 and 119 of the Criminal Code are drastic as compared with the sections as they are in force to-day, and will be for a few days longer.

But after Friday next it behooves dealers and would-be purchasers alike to be acquainted with the law. It will then be illegal to have in one's possession any pistol, sheath knife, bowie knife, dagger, stiletto, metal knuckles, skull-cracker, or other offensive weapon, or any air-gun, or any device or contrivance for muffling or stopping the sound of the explosion of any weapon.

The seller, donor or lender must be ware. Under the same penalty it will be unlawful to sell or, without lawful excuse, to give or lend any such of fensive weapon, device or contrivance to anyone not being the holder of a permit from the proper authority to carry a weapon.

The right of search by peace officers for concealed weapons is greatly widened. It has already been exercised, but without statutory authority, notably in Montreal, where there is a large population of Southern Europeans, with the result that actual bushels of lethal weapons have been secured, but hereafter it will be quite lawful for a peace officer to stop any person whom he has reason to believe and does believe has upon his person any weapon, device or contrivance contrary to the provisions of section 118.

It has been a practice of many people thoughtlessly to make a gift to relatives or friends of an air-gun or air-rifle. This has really been against the law, although there has never been any attempt to enforce it. Hereafter the prohibition will be strictly enforced, and no one who values his money will run the risk of giving such a gift to a boy under sixteen. If the lad is over sixteen he will have to get a permit to carry such a weapon before he can receive it.

Under the provincial act every person who exposes for sale, offers for sale, or sells any bowie knife, dirk, dagger, stiletto, metal knuckles, skull-cracker or slung-shot, or who sells a revolver, pistol or toy air-gun to anyone who has not produced and left with the vendor a permit in writing from the superintendent of provincial police, is guilty of an offence.

The same penalty is provided in the case of the dealer who sells a revolver, pistol or air-gun without keeping a record of the date, name of maker, serial number and name, address and occupation of the purchaser, or who sells or exposes or offers for sale any revolver or pistol which does not bear a serial number and the name of the maker.

Every peace officer may search any person whom he has reason to believe is carrying concealed weapons illegally. If any of the weapons enumerated are found upon a person who is not a native of Canada the facts are to be reported to the attorney-general, and he may communicate with the minister of the interior with a view to having the person deported.

It will be unlawful for anyone to use or have in his possession any silencer or any contrivance for deadening or muffling the sound caused by the explosion of a firearm. The penalty for this offence is a fine of from \$25 to \$100, or in default of imprisonment with hard labor for a term not exceeding six months.

Under the provincial act every person who exposes for sale, offers for sale, or sells any bowie knife, dirk, dagger, stiletto, metal knuckles, skull-cracker or slung-shot, or who sells a revolver, pistol or toy air-gun to anyone who has not produced and left with the vendor a permit in writing from the superintendent of provincial police, is guilty of an offence.

GALEDONIAN SOCIETY SPORTS ON MONDAY

Arrangements Made to Entertain Large Crowd at Fair Grounds

The annual sports day of the Caledonian Society and Victoria Pipe Band, to be held on Monday, at the Victoria fair grounds, promises to surpass all the previous events of the kind held under the auspices of this organization, the programme containing a full range of typical Caledonian games, dancing, and track events.

Special cars will be in readiness to convey the large crowd of visitors who are expected to go out during the afternoon to the Willows, and it is hoped by the committee that the spectators will arrive in time to see the commencement of the sports at 1.30 p. m. P. J. Riddell is president of the committee which has taken up the programme, and will be assisted by a capable committee, each member of which will have special charge of some particular part of the programme, while Capt. Chambers will judge the piping and dancing events.

First, second and third prizes will be awarded to the winners of the various events, and the numerous brooches, lockets, medals, etc., which have been presented for the purpose are on exhibition in the windows of the Allan Fit-Reform store, corner of Broad and Yates streets, where they may be seen between now and Monday.

Every preparation is being made to secure the comfort of the large crowd which is expected, and visitors will be able to obtain refreshments of every kind on the grounds so that they may remain throughout the programme, and a special service of cars will be in readiness to convey the visitors back to the city in the evening.

The local track events will include boys' and girls' races, hammer throwing, broad jump, putting the shot, 100 yards dash, and throwing the 28-lb. weight, while there will also be local competitions in piping and dancing for which a number of well known local experts are entering. The programme of open track events should afford some interesting and exciting sport, pole-vaulting, wrestling, high jump, putting the shot, tossing the caber, and raising forming some of the features of this part of the proceedings, while the last part of the programme will be devoted to the open piping and dancing events.

FIRST THING

The first attempt to explain psychological phenomena on physiological principles was made by Dr. David Hartley, the English philosopher, who was born 208 years ago to-day. In his great work, "Observations on Man, his Frame, his Duty and his Expectations," published in 1749 after patient investigation covering sixteen years, he elaborated his epochal theory. By the development of his law of association, and chiefly by the law of transference, he accounted for all the phenomena of the mental constitution. According to him, the white medullary substance of the brain, spinal marrow, and the nerves called an idea of its taste, and this recalls other associated ideas. In this way Hartley accounts for all human emotions.

OLD SORE HEALED IN SIX DAYS

Nearly Impossible to Heal Skin. Badly Hurt, Sore, Red and Inflamed. Could Not Sleep. Cuticura Soap and Ointment Healed.

Bowman River, Manitoba.—"When I was thirteen years of age I got my shin badly hurt and when healed the skin was attached to the bone. The least bruise would injure it and it was nearly impossible to heal. The sore would be very red and inflamed round the edges and had a burning sensation. When a burst sore I could not sleep at night on account of the pain. I always wore a cotton bandage on it from the ankle to the knee. For a number of years I used sticking plasters, then got a salve. I saw the advertisement offering a free sample of Cuticura Soap and Ointment and sent for a sample and purchased some more and in six days the sore was healed completely." (Signed) James Edwards, June 21, 1912.

FOR PIMPLES AND BLACKHEADS

Treatments Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on nights and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold throughout the world. Liberal sample of each free, with 35-p. Skin Book. Address post card Foster Drug & Chem. Corp., Dept. 47D, Boston, U. S. A.

LETTERS TO THE EDITOR

Letters for publication in Daily Times must be received at the Times office not later than the day before the day of publication. When received later they will be held over until the following day. While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

COAL STRIKE

To the Editor.—Hon. T. W. Crothers, according to Mr. R. Foster, did not believe that the coal mines were worked contrary to law. He did not investigate, however. Why?

The strike would have been called off, according to Mr. Foster, if even half of the 1,400 men working in the mine had a right, according to the law to be there.

Did our premier, the minister of mines, head of a government, professing friendly to the working man, permit a rich corporation to evade the law?

Can it really be true? It is so monstrous, and now the militia is called out.

J. N. MUIR.

A WALKER'S APPEAL

To the Editor.—I hope you allow me a space in your valuable paper with reference to the B. C. Inurban car service. I may say we have petitioned for extra service, 5c fare to Wilkinson road, and are informed there is nothing doing yet. Well, I consider this is not right, considering the population in the Garden City and surrounding districts, and no train to suit the working class. I am a resident close to Garden City and, like a lot more, have to walk in to the city and walk home at night after doing a hard day's work. Now, if these people would only put a car on and run it about 5.30 p. m. it would be a good thing for our individuals who have to walk winter and summer, or stand in the station from 5 p. m. to 7 p. m. for a train. I fancy the B. C. officials could do something for us if they only tried, if only one car to leave city at 5.30 p. m. during the coming wet season. So, trusting this will catch the eye of some one who can help us, I remain "A WALKER."

A SUGGESTION ABOUT WATER

To the Editor.—After reading Alderman Cuthbert's and Mayor Morley's intelligent letters on the water situation, and now "thoroughly understanding the problem," I cannot see any reason for withholding from the public the only sane, safe and simple remedy that occurs to me as being the natural solution of the Sooke Lake supply.

My one reason for giving the public the benefit of my opinion is that the editor of the Colonist (for the first time) has actually refused to give the public the benefit of his wisdom or even to quote a New Brunswick parallel to the situation, thereby reducing his average reader's mind to a state of utter chaos.

Now, sir, I gather from the final summing up of Mayor Morley's figures that the total cost of the Sooke Lake water supply will be \$2,500,000, this including all costs of right of way, changes in system, engineering, and several etc.

My proposal is that the city at once prepare a by-law giving the mayor a contract to complete the Sooke Lake system for this sum. As \$1,500,000 has already been voted, it is only necessary for the people to vote \$1,000,000 extra.

The mayor will of course furnish bonds to complete the work as follows:—

- (1) To guarantee to deliver and supply Victoria with 16,000,000 gallons of water per day from Sooke Lake.
(2) To complete and pay for all right of way and land purchases as at present proposed.
(3) To hold the city safe and immune from any costs or damages which might result from any suit now pending against the city.

As Mr Mayor aptly remarks, it is unnecessary and unwarrantable to hoodwink the citizens any longer, and his well-known ability as an engineer, financier, water expert, etc., will of course give the people absolute confidence in trusting solely to him to carry out the project of giving the city of Victoria an ample supply of what they need more than anything else at present—pure water in abundance.

JAMES ANDERSON.

MR. SIVERTZ'S POSITION.

To the Editor.—In this evening's issue of the Times I am honored with few observations in a letter from the gifted pen of a well-known and universally esteemed lady. Although I do not remember having had the pleasure of meeting her, she favors me with references supposed to indicate personal knowledge of my acts, attitude and views on things in general. As I have never had the benefit of conversation or correspondence with the lady, does it not stand to reason that she would be liable to err, when attempting to first charge and then judge me. I admit the correctness of one point she makes against me. I am of a foreign birth. I have been reminded of that on several occasions during my stay of thirty years in this country. I am getting so used to being reminded of that fact by those who happen to differ with me on any point that I generally look for it, and do not feel as if the argument has been concluded without it. I have never claimed any merit for, or demanded any exemption from criticism on the ground of being law-abiding or independent. Such observance as I have given to the law of the land, I have given, and still give, is because I find it to be to my advantage to observe the law, even when I am convinced that a fault or a demerit exists in any particular legislation I take the view that the law as it is, is the very best that our social order for the time being can produce. The law, in other words, is a reflex of our understanding or ignor-

Velour Reversible Coatings in all the latest combinations, 54 ins. wide. Per yard, \$3.00

- Suits to Order from \$15.00
Novelty Suitings in brown and saxe, navy and black, green and black combinations; 52 ins. wide. Per yard \$1.75
Diagonal Stripe Effects for Suits or Coats, 51 ins. wide. Per yard \$1.35
Coats to Order from \$12.50

COWAN'S PERFECTION COCOA A MUSCLE-BUILDING FOOD Growing youngsters work hard. They need food that is nourishing—food that satisfies the hunger and digests easily. Nothing is better for them than Cowan's Perfection Cocoa. Ground from the fresh Cocoa Beans, it has all the food value of pure Cocoa. It builds up the muscles and makes children healthy and strong. A cup of Cowan's made with half or one-third milk is a properly balanced food—one that the most delicate stomach can digest. And it is so delicious that it tempts the appetite when all other foods fail. YOUR GROCER HAS IT THE COWAN COMPANY, LIMITED TORONTO, ONT.

ance; our perceptions of right and wrong. My attitude would, therefore, be, not to violate law, but to educate and influence my fellow citizens to a higher perception of justice.

These are stirring times, not only in our own locality, but throughout the country and all over the world. Political contests, social and economic changes, are taking place in quick succession, and keep the mind of the people in a state of excitement and suspense. Perhaps it is because of one or more of these forces, that this lady charges me with having cast my sneers at the soldiers of the King.

With due deference to her, I beg to deny this. I put this charge down as the result of an honest misconception. She probably takes it for granted. But I am constrained to say, out of my loyalty to truth, that I have never uttered an aspersion against a soldier, as such. I say this, without admitting that I have the slightest sympathy for his calling or the use made of the institution he is a member of. I regard the soldier just as much a victim as the man he might be ordered to slay. In my opinion he occupies analogous position to the liquor vendor. I have no use for the liquor traffic. But I have not a word of aspersion against the people engaged in it. They are helpless victims of a commercial system that tolerates vicious occupation, and which compels people to

engage in it because of the competition for earning a living. I am criticised for presiding at a meeting at which certain resolutions were offered for acceptance or rejection. What of the thousand or so men and women that adopted it with applause and enthusiasm? If the lady feels that justice demands that I suffer condemnation, for the act of the thousand more or less of an audience, I am eminently satisfied. That kind of satisfaction of the demands of justice finds parallel in history. The inscrutable wisdom that guides our destiny has thought it well to limit my talent to that of the most ordinary. It is, therefore, impossible for me to claim kindred with the great souls that have from time to time been given to humanity, who by their great gifts and force of character have illumined the pages of history, and by their courage and their self-sacrifice have assisted and led humanity out of the deeper shadow of ignorance to the day of light and promise in which we now live. But if, as a result of my efforts to protest against the evil legacies from the barbaric past which this civilization suffers from, as well as my endeavor to enlighten my fellow-men to nobler perceptions. If, I say, it becomes my lot, as most of the great men of history have experienced, to be persecuted and condemned, whether by superstition or ignorance, I shall accept it as a distinction and prove that my life has not been in vain. CHRISTIAN SIVERTZ. Aug. 29, 1913.

WEAK, TIRED AND NERVOUS MEN should send for a valuable Pamphlet explaining how all Nervous and Organic Derangements, Varicose and its subsequent granito-urinary troubles can be successfully treated without the use of Stomach Medicines or electricity. **TWO WOMEN SAVED FROM OPERATIONS**

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound and was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. E. B. Child, Beatrice, Neb.

**The Other Case.**

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I was so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. HAYWARD SOWERS, Cary, Maine.

and Friday next will be Aldermen Gleason and McNeill.

E. Slater is visiting the city and is staying at the Strathcona hotel.

J. K. Clarke is registered at the Strathcona hotel while in the city from Vancouver.

C. A. Shakespeare is a guest at the Strathcona hotel while in the city from Vancouver.

George Watters is visiting the capital from Harrow, Ont. He is among those at the Strathcona hotel.

Joseph Pinkelstein, a Winnipeg business man, is at the Dominion hotel while in the city on a business trip.

S. N. Hundley and Miss Berenice Hundley have arrived from Honolulu, and are staying at the Empress hotel.

C. E. Taylor and Mrs. Taylor arrived in the city yesterday from Seattle and registered at the Strathcona hotel.

C. Smith and Mrs. Smith are Spokane people in the city at present. They are staying at the Strathcona hotel.

Dr. L. Cohen who arrived in Victoria from New York yesterday is among the guests at the Empress hotel.

W. Q. Arnold, manager of the Canadian Financiers, Limited, has left the city on a business trip and will return on Tuesday next.

Mrs. Barrington, who has been the guest of Mrs. R. E. Bunt, Gorge road, for the past two weeks, has returned to her home in Vancouver.

J. Thomson, land commissioner of the Hudson's Bay Company, was in the city yesterday afternoon for a few hours, leaving again last night for the mainland.

Chief Watson, head of the New Westminster fire department, was in the city yesterday on his way home from the convention of the Pacific Coast Fire Chiefs at Tacoma.

W. E. Scott, deputy minister of agriculture, leaves to-day to attend a meeting of fruit growers at Nelson, which has been called for the purpose of attempting to form an agricultural association.

Mr. and Mrs. Francis Partridge announce the engagement of their eldest daughter, Gertrude, to Aubrey Stratton, second son of Mr. and Mrs. J. T. McDonald. The marriage will take place in September.

J. B. Boyle and Mrs. Boyle, Vancouver, accompanied by Mrs. David Boyle, Minneapolis, are at the Dominion hotel. Mrs. Boyle is visiting the coast and came over here with her son and daughter-in-law to see the beauties of this city.

**CANADIAN CELEBRITIES**

DOCTOR HELEN MACMURCHY

Little Doctor MacMurchy—Doctor Helen MacMurchy, to be exact—pedals a bicycle up and down the long, hot pavements of Toronto, day after day. People seeing her wonder what it is that takes this sunny-natured woman into such high ways and byways as they find her in now in "the Ward," which is Toronto's term for slumstown in the fashionable districts, and ever and anon in the city police court, or the mayor's office in the city hall, or in the legislative buildings in the Queen's park. As she navigates the comfortable old bicycle through the traffic, she sometimes gets a frown, sometimes inspires a low howl from officialdom passing a foot or in carriages. Those who frown are for the most part officials, and only officials who have run counter to the vigorous Dr. MacMurchy's ideas of public duty. The others recognize in Dr. MacMurchy one of the most important citizens in the province of Ontario.

The story of Dr. MacMurchy is merely the plain story of how one woman—not very tall at that—took life seriously enough to want to make some use of it in a big way. Church missions, missionary societies and sewing circles were all very well in their way, but Helen MacMurchy, daughter of the late Archibald MacMurchy, of well-known family and renowned as an educationist, wanted more to do than these things offered. She sought a career in public usefulness, and so chose medicine. It is easier to become a woman student of medicine to-day than it was twelve or fifteen years ago. It was not a decision for a young woman to make lightly, but that did not deter the candidate.

To-day Dr. MacMurchy is recognized as an authority in special branches of medicine and holds important appointments in the public service. But in 1881, when she emerged from the University of Toronto as an "M. D.," and went down to Johns Hopkins and later to the Women's Medical College in Philadelphia, she was only one of a number of women physicians who were at that time still attracting the ridicule of the conservative minded. Miss MacMurchy had, however, mapped out a career for herself and she intended to have it, willy-nilly.

"What," she asked an old medical man one day, "what is the best way a woman doctor like me can do some good for somebody. I don't want just to sit in a poky office amongst glass cases and reference books and have women coming to me about their domestic troubles. If I can cure them or help them, why—all right, I'll do that, too. But isn't there something bigger, doctor?"

"Bigger," laughed the old physician. "Why I guess there is, but by and after you've worked up a practice you'll find you have a pretty big job as it is, young woman."

"No," she said decidedly, "it isn't."

And it wasn't.

The ordinary practice, of course, came first. Much of it was among the very poor, a great proportion of her patients were children. She took everything she did with great seriousness. She was in earnest over everything, and the big physicians passing her in the street would stop and laugh gently and say:

"You take things too seriously, Doctor; too seriously altogether. You mustn't let every little thing worry you."

"Yes, but Doctor," she replied on one occasion, "don't you see yourself that half our work is due to wrong conditions of living and wrong social conditions. Why—why it's terrible, Doctor."

"Tut, tut," with another smile, "of course it is terrible, but you can't mend the whole world. Just do what comes to your hands to do."

Dr. Helen MacMurchy appeared with a deputation of women before the Toronto board of control one day and asked for playgrounds for children. The board promised, and forgot. Most of the women forgot, too. But Dr. MacMurchy kept after them. "You promised," she said; "we must have them." From reminding the board to threatening all sorts of calamities, and finally the city gave in and the playgrounds for children blossomed in Toronto.

Then came medical inspection of school children. Dr. MacMurchy was by no means the originator of that idea, but she promoted it in the city, which is one of the hardest in all Canada to convert to new ideas. Dr. MacMurchy's insistent, consistent and persistent "plugging" brought about the appointment of the inspectors. She herself was later appointed on the staff, but when she felt that the efficiency of the scheme was being crippled by officialdom she rose in arms, sent a letter to the board of education that brought grey hair to that estimable body, and created such a tempest that although officially she won nothing and was asked to resign—a request which she did not comply with—officially the board took cognizance, and made changes along the lines she had suggested.

Still enlarging the scope of her work, Dr. MacMurchy accepted the appointment of the Ontario government in the inspectorship of the feeble-minded in the charitable institutions and other places throughout the province. This was a position which Dr. MacMurchy quite openly and frankly created for herself. She said such an inspection was necessary. She wrote and talked and lectured to prove it, and is now carrying out her ideas along that line as an official.

Infant mortality, housing problems, the treatment of the morally and physically sick, these are only branches of the work to which Dr. Helen MacMurchy devotes herself. She is only a little woman—with bright blue eyes and charming face—but she has not only sought but found work to do in serving the community. No obstacle has ever been too big for her to assail.

**WOMEN CURED AT HOME**

Women's disorders always arise from the very beginning of the treatment to the mild but effective, action of Orange Lily. Within two or three days after commencing its use the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is an applied or local treatment, and acts directly on the womanly organs, relieving the congestion, toning and strengthening the nerves, and restoring perfect circulation in the diseased parts. In order to convince all suffering women of the value of this remedy, I will send a 35-cent box, enough for ten days' treatment, absolutely FREE to each lady sending me her address. MRS. FRANCES E. CURRAN, Windsor, Ont. 4

**SCRAP BOOK**

In Lima, the gay and brilliant capital of ancient Peru, where trams and motor-cars speed past the crumbling, time-worn edifices that still stand as relics of the empire of the Incas and Pizarro's old "City of the Kings," the festival of St. Rose of Lima, the first canonized saint of the New World, will be celebrated to-day.

To-day's religious ceremonies in Lima will centre in the old cathedral, on the east side of the plaza mayor, a massive stone building with a red and yellow facade, with a magnificent eagle beneath which lies the body of Pizarro, the conqueror of Peru.

The saintly woman whom the Llimenas venerate to-day was born in Lima in 1586, half a century after the founding of the "City of the Kings" by the ruthless Pizarro. Her real name was Isabel Flores, but the beauty of her childish face earned for her the name of Rose, which she ever after bore. Her parents were very poor, and in her youth she toiled as a servant to support them.

Despite her hard lot, Rose blossomed into a woman of surpassing beauty, and attracted widespread attention and admiration even in that city which was then, as now, celebrated as the home of beautiful women. Those who have visited the boldness with which she swayed, dandified gallants of the entrancingly lovely ninas who ride past in motor cars and victorias, may well understand the persecution to which the beautiful but saintly Rose, who was "only a servant girl," must have been subjected.

Whenever she ventured forth into the streets, Rose was constantly subjected to stares, and her pink cheeks were redder still at the remarks which were passed on her beauty. Dashing soldiers in the brilliant uniform of Spain dogged her footsteps, and occasionally one of them would kneel in the street before her and pour forth a passionate declaration of love, asserting that he was being consumed with affection and would surely die if the lovely sergent did not bestow upon

him the blessing of just one word of hope.

Determined upon a life of godliness and devotion, Rose decided upon a kind of humiliation and abnegation that makes the renunciations of all the masculine saints in the calendar seem poor and commonplace. With her own hands she cut off lovely flowing hair that was her crowning glory—clipped it close to the scalp. Next she blistered her fair face with pepper, perspiring until her skin was red and mottled and disfigured. She covered her hands with lime until those slender and delicate members were made repulsive to the sight. For further protection against the sin of vanity she enrolled in the Third Order of St. Dominic, and under her habit she wore constantly a hair-shirt studded with sharp nails, while beneath her veil she wore a crown of silver armed with nearly a hundred points. Her nights of terrible torture were spent on a couch made of broken, jagged rocks. She fasted almost continually, and it is said that "the blessed sacrament seemed almost her only food." Such tortures and privations soon had their effect, and she died in her thirty-first year, mourned by all Llimenas, and ever after venerated as the patron saint of the Peruvian capital.

**FRECKLES**

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from Dr. E. Campbell and apply a little of it night and morning, and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

## TO-DAY IN CANADIAN HISTORY

On this date in the year 1661 Baron D'Avaugour assumed the office of governor of Canada. He arrived at a time when the fortunes of New France were at the lowest ebb. The French were confined to Quebec and Montreal, or Ville Marie, which had been founded about twenty years before D'Avaugour's arrival. The savages hung like a cloud around the cities. Every tree and every path through the forest led to almost certain torture and death. Only the strongest of armed bands dared to issue forth from the towns. The rivers were crowded with Iroquois canoes, and were unsafe for transportation as the land. The war whoops of the merciless enemy resounded in all directions and the Hurons were wiped out, only a few escaping to Quebec or Montreal to tell the horrid tale of ravaged towns and of scalped and tortured missionaries. The nuns and priests were forced to discontinue their labors and seek protection in the cities. A malignant fever carried away hundreds. Those who could escape sailed away to France, and D'Argenson, the governor, demanded his recall. In 1660 the Iroquois decided to administer the final blow, and the greatest army in savage history gathered to swoop down upon Ville Marie, and only the heroic efforts of Daulac des Ormeaux and his sixteen gallant companions, whose tragic stand against the Iroquois host has been justly likened to Thermopylae, saved the little city from destruction. The new governor, upon his arrival, faced a crisis, but the bravery of Daulac was not without effect on the Indians, and D'Avaugour and his successor, the bold De Courcelles, saved the tottering colony from utter ruin. The Indian army fell apart and the redskins retired to their lodges, while the worn and weary settlements for a time enjoyed comparative peace.

On the evening of August 30, 1872, there arrived at a little village on Lake Rousseau an interesting party of immigrants—the first colony of Icelanders to settle in any part of Canada. Two years earlier four young men had left the isle of "frost and fire" to come to "this rediscovered country," with a view to bettering their fortunes. They had written enthusiastic descriptions home. The result was that after considerable discussion one hundred and fifty-three persons sailed from the Icelandic port of Akureyri "for Scotland by a steamer engaged in the sheep and pony trade," and thence took ship to Quebec. Some of their number went to Wisconsin, but the rest proceeded, as already mentioned, by way of Toronto to Muskoka, intending to take up free grants. Two of the company bought improved farms on the Rousseau River, and it was proposed to form a settlement there, but as it was late in the season before a road could

GOVERNOR'S MEDAL PRESENTED YESTERDAY

Miss Audrey Rant Receives Award at the Girls' Central School; Interesting Event

A very happy event, and one which in the cause of the occasion reflects most creditably on the Girls' Central school, the principal, the staff, and the pupils alike, was the presentation yesterday of the Lieutenant-Governor's medal and the Hibben-Bone silver cup.

The assembly room of the Girls' Central school, where the informal proceedings took place, looked very pretty with the decorations of sweet peas and daisies, arranged by Misses Fox and Andrew, the platform being half-hidden behind a bank of these flowers.

NO PAPER ON MONDAY As the first Monday in September is a statutory holiday throughout Canada and the United States, being set apart especially as Labor Day, the Times will not be issued on that day.

IS PROUD OF THE REGIMENT'S SHOWING

Lt.-Col. Currie Thinks Men of Fifth Behaved Splendidly; Grateful to Band

On his return from the strike zone Lt.-Col. Currie is full of praise for the splendid behaviour of the Fifth Regiment, and says that he had some 280 men in all from the regiment assisting in patrol work during the last two weeks around Ladysmith, where the Fifth was stationed.

MILITIA ARE STILL SHORT IN THEIR PAY

Officers of the militia regiments who have returned from the strike zone do not disguise the fact that the continuation of the militia in the district would have resulted in a critical position on account of the delay in paying the men.

TWENTY-TWO COMMITTED FOR TRIAL AT NANAIMO

Without a word, on seeing McKinnon's plight, he rushed to the telephone and procured medical assistance, which was instantly forthcoming, and the injured man was hastened to the hospital.

NEVER ASK FOR A BOTTLE OF INK. IF YOU DO, THE DEALER MAY GIVE YOU A SUBSTITUTE FOR STEPHENS' INK

Asked as to the future, the colonel said: "I would not like to say anything positively until the full effect of the sentences on the prisoners is known. The outbreak, however, must have a most depressing effect on the future of Ladysmith."

IS IN CONSULTATION

City Solicitor is Obtaining Information Desired by City Council—Further Returns Are Asked.

In order to make a report to the city council on Tuesday on the waterworks situation, City Solicitor Robertson has submitted the whole of the specifications for Sooke waterworks to R. H. Thomson, consulting engineer for the provincial government, and has been in consultation on the legal side with W. B. A. Ritchie, K.C., of Vancouver.

Alderman Cuthbert will move at the next meeting of the council for a return on the surety bond which the Westholme Lumber Company submitted in place of the cash hold-back showing how it is worded, and also for a return on the correspondence between the city and Elliott, Maclean & Shandley over the acquisition of property purchased from H. F. Winsby during the time when lands around Sooke Lake and Humpback were bought in 1912.

Jones & Rant, Ltd., submitted another offer for the riveted steel pressure pipe, at a cost of \$444,473, their lowest tender having been rejected originally as irregular.

Western Union Telegraph Office—The management of the local office of the Western Union Telegraph Company will be transferred on Monday from the present manager, R. L. Jackson, to F. H. Blashford, Mr. Jackson's son, to Denver, Col.

BORN. GOLDSBITE—At Vancouver, on August 29, a son to the wife of Thomas O. Goldsbite, of this city.

MARRIED. MCGREGOR-YOUNG—On August 29, at the Metropolitan Methodist church, by the Rev. C. T. Scott, Alfred Robert Young, second son of Mr. M. C. McGregor, to Ellen Marion Young, only daughter of J. S. Young, both of Victoria, B. C.

**CONSIDERS IT WASTE.**  
Mayor Morley Says Best to Build Retaining Wall, and Cut Sheep Trail Instead of Steps.  
Further correspondence regarding the Dallas avenue steps was presented at the meeting of the city council last evening.  
Alderman Dilworth, chairman of the parks committee, still contended, in spite of the condition in which the work remains, that the enterprise should be carried out.  
Alderman Cuthbert declared that before long there would be an accident leading to a lawsuit.  
The mayor agreed that there must be a retaining wall, but opposed the construction of the steps. The steps were unnecessary, and led almost to an inaccessible beach, which would be used only by children and a few nurses. A winding trail was quite sufficient, and more picturesque. There were, he said, spots on Dallas road where concrete steps should be placed in position.  
He thought it would be much better to put in the retaining wall and abandon the concrete steps. The cost to date had been \$800.  
A committee consisting of Aldermen Meaton, Dilworth, McNeill, Gleason and Fullerton was suggested, but ultimately as most of the aldermen had seen the work it was agreed that Aldermen McNeill, Fullerton and Dilworth should visit the scene before the next meeting.

**WHEAT-BUYING HAS AN IMPROVED TONE**

(By F. W. Stevenson & Co.)  
Chicago, Aug. 29.—There was somewhat improved tone on the buying side of wheat for the day. For a short time after opening it looked as if September liquidation was needed and a little buying flurry put that month to rest. Early in session cash houses were buying September and selling December. This was offset by quite general commission house selling of September and buying of December. Show of strength in northwest markets during morning was taken to reflect moderate movement of new crop for some time. Cables from Liverpool were bearish.

Winnipeg, Aug. 29.—Markets to-day reacted and were decidedly stronger, wheat and oats making decided gains and flax lifting up at the close. Weather conditions continue ideal, and harvest may be considered in Manitoba and west wheat will see Saskatchewan practically cleaned up. Receipts were 77 cars inspected.  
Cables closed: Liverpool, 1 to 1; Paris, unchanged to 1 lower; Berlin, unchanged; Budapest, 1 lower; and Antwerp, unchanged.

**GRANBY ADVANCES SIX POINTS FOR THE WEEK**

Slight Strengthening in Coronation Noticeable but Reports from Camp Conflict  
Victoria, Aug. 29.—Prices on the local stock exchange this morning bore the outward, visible signs of an average Saturday and end of the month affair. Granby Smelter, gained another point and the close to-day represents an advance of 36 per cent for the week, with the demand as strong as ever.  
Some slight strengthening in Coronation was noticeable, sufficient to show that enquiry is maintaining itself. Reports from the round are extremely conflicting as to what is being accomplished at the camp, but it would appear that development work is highly satisfactory and fully comes up to early expectations.  
For the rest of the list little can be said, and generally prices denote minor changes since last week. Continuous sales in Portland Canal and some few in Glacier reflect a moderate interest in those and sister issues, but there is no news to start a buying flurry at this time.

**STRENGTH MARKS TONE OF WINNIPEG WHEAT**

Winnipeg, Aug. 29.—Markets to-day reacted and were decidedly stronger, wheat and oats making decided gains and flax lifting up at the close. Weather conditions continue ideal, and harvest may be considered in Manitoba and west wheat will see Saskatchewan practically cleaned up. Receipts were 77 cars inspected.  
Cables closed: Liverpool, 1 to 1; Paris, unchanged to 1 lower; Berlin, unchanged; Budapest, 1 lower; and Antwerp, unchanged.

**WHAT PURCHASER GETS**

Seattle, Man Places Ownership of Car on Business Basis; Opens New Paths.  
"When you buy an automobile, it isn't the machine that you buy. Your money doesn't really go for motor and body and tires and wheels. What you buy is economy of time in going to and from your place of business, the pleasure of the tour through the country, the health and strength that comes with the pure air of the plains and mountains, the joy of the open road. These are the things for which you pay out your money," says a Seattle man.  
"In figuring, therefore, the cost of a motor car, you should figure what it costs you for a year, or an average per month, including all the items of maintenance. It isn't what you pay for your car. It isn't the price of the machine. It's the cost of the car, plus the gasoline and oil to run it, and the tire renewals and the wages of a chauffeur and all other details of this kind, added together and proportioned to the time you have used the car. And from the total so figured there should be deducted the cash value of the car at the time you make your estimate, just as a man would figure in the cash value of his stock on hand, or his machinery.  
"The total divided into years or months represents what it costs you for automobile pleasure and profit.  
"It is worth while for a man to consider the style of body on the car he purchases—because beauty and style are of cash value to him when he comes to sell his used car. If it is still in style, if it is still rated as in vogue, it will be worth several hundred dollars more in cash or exchange value than a car that has gone out of style and fashion and that nobody wants. This is true also of the mechanical parts of the car. When two-cylinder cars came into use the value of the old 'one-horse' dropped like a shot. All these things should be given careful thought by the man who is buying a new car."  
WILL ASK OPINION.  
Council Will Consult the Solicitor Before Attempting to Collect Under Local Improvement By-law.  
The aldermen last evening listened to a list of streets upon which the owners had declined to pay their local improvement assessment as the macadam paving, sidewalks and other works had not been carried out to the satisfaction of the owners. They were: Vancouver, Humboldt to Beacon Hill, Oliphant, Vancouver to Cook, Pemberton, Fort to Rockland, Rockland, Moss to Oak Bay.  
While some of the aldermen insisted that the council should immediately, through the city solicitor, take steps to collect the sums due under the assessment by-law, Alderman Gleason advised that settlements had been reached with regard to Pemberton road and Richardson street.  
The council decided to take a further legal opinion on the subject before proceeding against the delinquents.

**CRICKET SEMI-FINAL NOW BEING PLAYED**

(Continued from Page 2.)  
from Hadley that whipped across from the leg and shattered the wickets. 17 for 2, Beaton and six runs to his credit.  
W. H. Twynnam partnered Becham, but arrived only in time to see the latter out, mugged up at the wicket for one of Orr's tantalizing slow-balls. With three wickets down for only a score of runs, things began to look bad for Burrard, especially when five minutes later Twynnam touched a swiftly rising ball from Hadley which found a resting place in Grant's glove. The batsman had been very uncomfortable, however, from the start, and earlier on had popped up an unaccepted chance to the wicket-keeper.  
Ivamy's Fine Batting.  
The coming of Ivamy, however, saw a change come over the scene. He partnered Beaton, who was playing everything with extreme caution. The partnership saved the situation for Burrard, for the two added 70 runs in thirty-five minutes. Of these over sixty were made by Ivamy, who was playing at the top of his form and with superb confidence. Just what his innings will mean to Burrard can scarcely be estimated. Up to his appearance the bowlers constantly had the better of the batsmen, and even Becham could do nothing with the deliveries of Orr and Hadley. But Ivamy made it look very poor stuff indeed, and lammed the ball to the four points of the compass with unswerving impartiality. He opened by turning first one to fine leg for four, and followed with a hard bash to the on boundary, narrowly missing deceptating the umpire at square leg.  
The next over sent down he treated with contempt and gathered a little harvest of thirteen runs off the six deliveries. His enterprise awakened up Beaton, who had hitherto been playing a stonewalling game, and following a good example, that batsman smashed Orr to the pavilion rails for a fine four, knocking up the half century. Ivamy responded with a terrific on drive which reached the far corner of the ground, and by means of which and fast running between wickets he netted five more to his account. The next ball was a lucky snick over the wicket-keeper's head. But it went for four all the same.  
Bullen was nearly out once in sensational manner. Becham, who was fielding sub., picked up a hot drive from Ivamy close in and mid on, and with accurate returning threw the wicket down just as Bullen scrambled back, in by a fifth of a second.  
Heartened by his let-off, Ivamy continued in still merrier mood, and boundaries became as numerous as strawberries in June. Orr came in for terrific punishment, the batsman lifting two of his deliveries right over the sight screen. He smashed his bat with another hard drive and eighty was signalled as the irrepressible Ivamy lifted another shot to the pavilion.  
His first bad stroke lost him his wicket. In stepping out to Harker he caught the ball on the edge of his bat and was well caught in the slips. He had scored 62 runs, a simply invaluable innings, and what is more he broke the back of some very good bowling and paved the way for a Burrard victory.  
The fielding of the Oak Bay team was very good all the way through, and it is easy to see how the eleven has got so near to the final. Their work in the field was irreproachable. Scores, Burrard vs. Oak Bay:  
Burrard.  
L. G. Becham, c Grant, b Orr..... 10  
D. Hood, b Hadley..... 10  
R. S. Beaton, b Hadley..... 6  
W. H. Twynnam, c Grant, b Hadley..... 5  
W. Bullen, not out..... 12  
W. Ivamy, c Speak, b Harker..... 62  
Extras..... 8  
Total, for 5 wickets..... 101  
Later—Burrard, 104 for 6 wickets.  
An island cricket league will be in operation next year as a result of last night's annual meeting of the Pacific Coast Cricket Association. Officers for the coming year were elected, the meeting being one of the most successful in years. A vote of thanks was passed to Secretary-Treasurer Reeves for his splendid work in connection with the cricket week, and he was again pressed to accept that position. The Island Cricket League will commence early in May, and will continue throughout the summer, ending in time to allow the different clubs to compete at the Victoria cricket carnival in August. It was the general opinion of those present last night that a league such as the one just organized will go a long way towards helping cricket, inasmuch as it will give the clubs some definite championship to play for.  
Eight Club League.  
Eight clubs will comprise the Island association, including Cowichan, Nanaimo, Saanich, Victoria, Oak Bay, Alton, University school and Garrison. An intermediate series, composed of the second elevens of the above clubs, may follow in due course. A committee will be selected later to consist of an official of each of the clubs in the P. C. C. A., the officers elected last night being as follows: W. H. M. Robertson, president; F. J. Peers, vice-president; Fred W. Reeves, secretary-treasurer.

**GRATITUDE PROMPTED THIS LETTER**

Prominent People Proud To Testify for "Fruit-a-tives"

MR. TIMOTHY M'GRATH, 136 Atlantic Ave., Montreal, March 1, 1912.

"For years, I suffered from Rheumatism, being unable to work for weeks at a time and spent hundreds of dollars on doctor's medicines, besides receiving treatment at Notre Dame hospital where I was informed that I was incurable. I was discouraged when a friend advised me to try 'Fruit-a-tives.' After using three packages, I felt relieved and continued until I had used five packages when a complete cure was the result after years of doctoring failed. I consider 'Fruit-a-tives' a wonderful remedy. You are at liberty to use this testimonial to prove to others the good that 'Fruit-a-tives' has done me.  
"TIMOTHY M'GRATH."  
50c. a box, 6 for \$2.50—trial size, 25c. At dealers or from 'Fruit-a-tives' Limited, Ottawa.

In division A between the Oak Bay and Burrard clubs, and it will be necessary to put off the finals for cricket week until Monday at the Jubilee hospital grounds. This afternoon the Oak Bay and Burrard teams are playing for the right to meet the strong Cowichan eleven in the finals. Another surprise was the decidedly close victory of Cowichan cricketers over the Garrison eleven, the latter club proving exceptionally strong and holding the Up Island team to a one wicket victory.  
The day was productive of splendid cricket, though the superior bowling kept the scores lower than on previous days. H. Jepson, of the Nanaimo team, with a splendid 83, was high batsman for the day. B. M. Webb, of Vancouver, proved the bowling star, taking seven wickets for 35 runs. Askey and Wyndham, of the Garrison club, also bowling in magnificent style.  
Following are the team totals in yesterday's play:  
Garrison—First Inning..... 93  
Second Inning..... 71  
Cowichan—First Inning..... 73  
Second Inning..... 97  
Cowichan won by 1 wicket.  
Albion—First Inning..... 115  
Second Inning..... 164  
Oak Bay—First Inning..... 72  
Second Inning..... 68  
Albion won by 149 runs.  
Burrard—First Inning..... 185  
Nanaimo—First Inning..... 169  
Burrard won by 16 runs.  
Vancouver—First Inning..... 265  
Victoria—First Inning..... 88  
Vancouver won by 167 runs.

**HOLIDAY BASEBALL.**  
A double header will be played at the Royal Athletic park on Monday, when the Indians and Hawks clash in the holiday baseball feature. The first game will be called, at 10.30 a. m.

**LARGE QUANTITY IS PURCHASED**

Return Shows Average Daily Supply of 4,600,000 Gallons of Water Last Month

From a report presented to the city council yesterday evening it was learned that the city used 137,868,500 gallons in the last month from the Goldstream supply, of which 97,250,897 gallons were sold to consumers, the revenue amounting to \$18,635.20.

This information came as a return sought by Alderman Cuthbert, who stated that in addition to the sales to consumers, revenue also came from the rental for hydrants to the fire department, from amounts charged to the school board, and through boulevard maintenance charged up to property owners for keeping them in condition.

In answer to Alderman McNeill, the water commissioner said the percentage of loss was small compared with the usual average. A great deal

**"BELIEVE ME"**

Musical Show Well Offered at Victoria Theatre Last Evening.

"Believe Me" is a medley of many things. There are vocal and instrumental selections, vaudeville turns, dancing and comedy galore, and through them all it is rather difficult to discern the thread of the play, which is a very slender one after all.

It is a repetition of the old story of the butler who was taken for the millionaire and the millionaire for the butler by the people of the house he was visiting. Pretty daughter likes him as the butler, and, hey, presto! more so anon.

More than an evening's amusement, "Believe Me" has no serious intentions. The producer naively asks the audience (by means of the programme) to pardon any shortcomings and inconsistencies that present themselves, and it must be confessed that the audience has ample opportunity of exercising its prerogative. But that is with the structure of the play itself, and not with the music interpolated.

Billy S. Clifford, an old Victoria favorite, did good work in the chief role, and as a comedian, has undoubtedly a style all his own. His terpsichorean efforts along with Miss Mae Collins were admirably carried out and elicited much applause. As the superior housemaid, Miss Ida May acted with sufficient verve and sang admirably, while the three Weston misses were much better in their instrumental selections than in the vocal.

As a mutton-chop-whiskered butler George Gale was too exuberant to be really successful in the part, a fault which might also be ascribed with justice to Joe Waldron, the retired baker with a snobbish disposition.

The scenery and lighting effects were distinctly good, and altogether the show provides plenty of light amusement.

**THE HOME PHYSICIAN**

**Dr. Morse's Indian Root Pills**  
Cure Most of the Family's Ills.

Perhaps if the children, and the "grow-ups" too, always eat exactly the right quantities of exactly the right things, at just the proper times, and in every other way obeyed the rules of health, there would be no sickness in the family, and no need of medicine.

But they never have and probably never will, so in every family there are sure to be more or less frequent attacks of sick headache, biliousness, indigestion, constipation, and kidney and liver troubles, and occasionally some one is "sick in bed."

It is one's good deal to the mother, then, to have on hand that perfectly safe and reliable remedy for these ills—

**Dr. Morse's Indian Root Pills.**

They invigorate those organs which cleanse the body of waste and impurities, regulating the bowels, stimulating the kidneys and opening the pores of the skin.

Thus Dr. Morse's Indian Root Pills cure the common ailments and keep the family healthy. This they have been doing for over half a century in every part of the world.

25c. at all dealers or from W. H. Cusack Co., Ltd., Brockville, Ont.

**TITLE IS SUBJECT OF INQUIRY AT PRESENT**

Mount Douglas Reserve Survey is Practically Completed; Question of Encroachments

One result of the investigation which has been conducted into the city's position at Mount Douglas Park has been the discovery that the situation is more complicated than had been anticipated when the subject of the title was first delved into twelve months ago.

Shortly after Alderman Dilworth was appointed chairman of the parks committee last summer, and the improvement of Mount Douglas Park came seriously under consideration, it was discovered that the title was unclear and steps were taken to register the necessary documents. Certain sections of what had undoubtedly formed a part of the original grant had been alienated to various interests and Chinese held at lease of part of the estate, which undoubtedly had been conveyed at one time to the city, but which had subsequently been alienated to a landowner who leased it to the Chinese growers.

Surveys have since been conducted through the city engineering department, and the registry of titles has been searched in consequence of which the council is in a position to know better exactly what is included in the conveyance. Steps can be taken to determine the tenancy of the property claimed by other owners, and their rights, if any, over the portions.

In the eighties the value of land was still in the Sanich peninsula, and the city did not particularly worry to know exactly what was conveyed to it at the time. As events developed the land became more valuable and encroachments took place, which now after the lapse of years must be straightened out, and the actual boundary of the reserve must be marked. Particularly is this important with the starting of a new trunk thoroughfare to Mount Douglas from Shebourne street, which will come out between the existing roads.

The little work done this summer, combined with the appointment of the attendant as a fire warden with power to control incipient outbreaks, has secured to the public an added usefulness from the reserve. Particularly is this the case in connection with the beach, where many picnickers congregate.

**YOUR HAIR NEEDS PARISIAN SAGE**

Use It As a Dressing—Banish Dandruff—Stop Falling Hair and Scalp Itch.

**PARISIAN Sage**, the delightful and invigorating hair tonic, is a true hair nourisher. It penetrates into the scalp, gets to the roots of the hair, kills the dandruff germ, and supplies the hair with just the kind of nourishment it needs to make it grow abundantly.

Since its introduction into Canada PARISIAN Sage has had an immense sale, and here are the reasons:

It does not contain poisonous sugar of lead, nitrate of silver or sulphur or any injurious ingredients.

It cures dandruff in two weeks, by killing the dandruff germ.

It stops falling hair.

It promptly stops itching of the scalp.

It makes the hair soft, glossy and luxuriant.

It gives life and beauty to the hair.

It is not sticky or greasy.

It is the daintiest perfumed hair tonic made.

It is the best, the most pleasant and invigorating hair dressing made.

Made only in Canada by the R. E. Booth Co., Ltd., Fort Erie, Ont. The price is only 60 cents at drug stores and counters where toilet goods are sold.

D. E. Campbell guarantees it.

**SITES FOR INDUSTRIES**

Council Decides to Advertise in Order to Test Whether Leases Are Desired.

The city council last evening decided to issue advertisements for lands to be leased to the city, on a 25-year or similar term, and so made available for re-leasing to industries, and to refer the matter to the city solicitor for further information as to the powers of the city.

Alderman Cuthbert was responsible for the motion, and in explaining it to the aldermen he said that the high cost of sites was undoubtedly the stumbling block to the location of industries. He believed that a leasehold system would have many advantages. Provision could be made against loss to the city through some of the area being vacant. It was a serious detriment to a small manufacturer to lay out a large portion of his capital in the site.

Alderman Fullerton believed such a provision should have been made in the days when the city was younger, but he feared from their experience with the four factory areas now defined, that unless they went outside the city land would be found exceptionally high.

On the mayor's suggestion an advertisement will be run, and then if scope for the proposal is found, the legal side of the council's powers to spend money in this regard will be investigated.

**SANITARY INSTITUTE**  
BRANCH IS FORMED

Victorian on Committee Named in Vancouver; Work That is Proposed

At a meeting held at Vancouver on Thursday in the McGill University College, under the chairmanship of D. F. T. Underhill, medical health officer of Vancouver, it was decided to establish and organize a British Columbian branch of the Royal Sanitary Institute of London, England. It is expected that this will mark a definite step in the improvement of the public health of the province, and an increase in the average length of life.

The Royal Sanitary Institute exists to advance sanitary science, to popularize knowledge of the laws of health by lectures and classes, and to train sanitary inspectors, inspectors of food, women health visitors, and nurses. Last year it had over 4,000 subscribers, and an income of £8,000 a year, largely obtained from fees for lectures and examination. For the examinations in England last year 1,109 students appeared, and in the colonies 251, of whom only two were in Canada, at Winnipeg.

To improve the standard of training of sanitary inspectors and to increase knowledge of public health in Vancouver several members and associates of the institute got together last year and established a course of forty lectures on plumbing, sanitary engineering, prevention of infectious diseases and other related subjects. These lectures were well attended and were held to do good, but it is felt that not much improvement can be achieved until the general public learns more about the laws of health; until it has been taught to understand that ample what damage insufficient ventilation brings to a child or an adult; how residence in a stuffy house shortens one's life; how stuffy schoolrooms kill children by spreading consumption, and such like sanitary commonplaces that all the experts know. A single person can do a little to disseminate such knowledge, but he can only do a little. Union is strength, and so those interested have got together in Vancouver and established a British Columbian branch of the Royal Sanitary Institute.

The committee selected were: Chairman, D. F. T. Underhill, D. P. H., medical health officer, Vancouver; the Hon. Mrs. F. H. Scarlet Sygne, M. D., D. P. H.; Mrs. Alice Ravenhill, Shawnigan; J. W. B. Blackman, city engineer, New Westminster; Dr. Brydone Jack, school medical officer, Vancouver; G. B. G. Conway, D. P. H., chief engineer, British Columbia Electric railway, Vancouver; A. C. Dalzell, C. E., assistant engineer, city of Vancouver; Dr. Home, D. P. H., Victoria, all of whom are members or fellows of the parent institute. L. Robertson, public health department, city of Vancouver, who did much of the pioneer work last year, was chosen as secretary and treasurer.

It was hoped that a sanitary congress would be arranged for the end of October in Victoria or Vancouver, probably under the patronage of the Hon. Dr. H. E. Young, the provincial secretary and minister for education, himself already a member of the institute, and with the active co-operation of Dr. Westbrook, principal of the university.

The only colony to hold a congress in 1912 was Western Australia, where a four-day congress was held at Perth, the first meeting of the kind in the Commonwealth. There are 27 fellows, members and associates already in this province, and together they hope they will get something done to widen the desired knowledge. It is hoped that health lectures for the people may be set going this winter, at least in

Vancouver, and that next year health exhibits may be got together and sent round to the fall fairs that these educational opportunities may not only help the province to grow better crops and cattle, but stronger, healthier children.

**Library Books**

The following new books have been received at the library during the past week:

**FICTION.**  
Benson, E. F.—Climber.
