50-24.4-08. Notice of increases to private-paying residents.

No increase in nursing home rates for private-paying residents is effective unless the nursing home notifies the resident or person responsible for payment of the increase in writing thirty days before the increase takes effect. A nursing home may adjust its rates without giving the notice required by this section when the purpose of the rate adjustment is to reflect a necessary change in the category of care provided to a resident. ~~If the department fails to set rates at least forty days prior to the beginning of a rate year, the time required for giving notice is decreased by the number of days by which the department was late in setting the rates, except when a facility fails to file a cost report by October first.~~

SECTION 3. AMENDMENT. Section 50-24.4-10 of the North Dakota Century Code is amended and reenacted as follows:

50-24.4-10. Operating costs.

1. The department shall establish procedures for determining per diem reimbursement for operating costs.
2. The department shall analyze and evaluate each nursing home's cost report of allowable operating costs incurred by the nursing home during the reporting year immediately preceding the rate year for which the payment rate becomes effective.
3. The department shall establish price limits on actual allowable historical operating cost per diems, increased by the market basket for skilled nursing facility before productivity assessment, based on cost reports of allowable operating costs taking into consideration relevant factors including resident needs, nursing hours necessary to meet resident needs, size of the nursing home, and the costs that must be incurred for the care of residents in an efficiently and economically operated nursing home. For the rate year beginning ~~2006~~2022, the department shall establish price limits for cost

~~categories using the June 30, 20032021, cost report year as the base period. The price limits may not fall below must be established using the same percentage of the median of the most recent cost report used to establish the limits for the June 30, 2020, base period. Until a new base period is established, the department shall adjust the limits annually by the inflation rate for nursing home services used to develop the legislative appropriation for the department. In determining allowable historical operating cost per diems for purposes of setting price limits and nursing home payment rates, the department shall divide the allowable historical operating costs by the actual number of resident days, except that when a nursing home is occupied at less than ninety percent of licensed capacity days, the department may establish procedures to adjust the computation of the indirect care cost per diem to an imputed occupancy level at or below ninety percent. To encourage the development of home and community-based services as an alternative to nursing home care, the department may waive the imputed occupancy level requirements for a nursing home that the department determines to be providing significant home and community-based services in coordination with home and community-based service providers to avoid duplicating existing services. The department shall establish efficiency incentives for indirect care costs. The department may establish efficiency incentives for different operating cost categories. The department shall consider establishing efficiency incentives in care-related cost categories.~~

- ~~4. Each nursing home shall receive an operating cost payment rate equal to the sum of the nursing home's operating cost payment rates for each operating cost category. The operating cost payment rate for an operating cost category must be the lesser of the nursing home's historical operating cost in the category increased by the inflation rate for nursing home services used to develop the legislative appropriation for the department for the operating cost category plus an efficiency incentive established pursuant to subsection 3 or the limit for the operating cost category increased by the same inflation rate. If a nursing home's actual historic operating costs are greater than the prospective payment rate for that rate year, there may be no retroactive cost settle-up. In establishing payment rates for one or more operating cost categories, the department may establish separate rates for different classes of residents based on their relative care needs.~~
- ~~5. The efficiency incentives to be established by the department pursuant to subsection 3 for a facility with an actual rate below the limit rate for indirect care costs must include the lesser of two dollars and sixty cents per resident day or the amount determined by multiplying seventy percent times the difference between the actual rate, exclusive of inflation rates, and the limit rate, exclusive of current inflation rates. The efficiency incentive must be included as a part of the indirect care cost rate. The department shall include in the ratesetting system for nursing homes those costs associated with computer software and any related technology, including cloud-based services. These expenses are allowed as a direct passthrough.~~
- ~~6. Each nursing home must receive an operating margin of at least three percent based upon the lesser of the actual direct care and other direct care costs and the limit rate prior to inflation. The operating margin will then be added to the rate for direct care and other direct care cost categories.~~
- ~~7. A new base period must be established at least every four years beginning with the cost report period June 30, 20062023.~~

7. The margin cap used for the rate year beginning 2022 price limits must be no less than three and forty-six hundredths percent.
8. The market basket for skilled nursing facility before productivity adjustment is the preferred index to adjust historical operating costs when a new base period is established and to adjust the price rate in subsequent years until a new base rate period is established.
9. For the rate years beginning 2022 and 2023, the department shall inform the nursing home of the operating rate using historical operating costs and the operating rate using price limits. The nursing home shall inform the department if the nursing home wants to accept the operating rate using historical operating costs as the established rate.

SECTION 4. AMENDMENT. Section 50-24.4-15 of the North Dakota Century Code is amended and reenacted as follows:

50-24.4-15. Property-related costs.

1. The department shall include in the ratesetting system for nursing homes a fair rental value payment mechanism for the use of real and personal property which ~~provides for depreciation and related interest costs. The property cost payment mechanism must:~~
 - a. ~~Recognize the valuation basis of assets acquired in a bona fide transaction as an ongoing operation after July 1, 1985, limited to the lowest of:~~
 - (1) ~~Purchase price paid by the purchaser;~~
 - (2) ~~Fair market value at the time of sale; or~~
 - (3) ~~Seller's cost basis, increased by one-half of the increase in the consumer price index for all urban consumers (United States city average) from the date of acquisition by the seller to the date of acquisition by the buyer, less accumulated depreciation.~~
 - b. ~~Recognize depreciation on land improvements, buildings, and fixed equipment acquired, as an ongoing operation over the estimated useful remaining life of the asset as determined by a qualified appraiser.~~
 - c. ~~Recognize depreciation on movable equipment acquired as an ongoing operation after August 1, 1995, over a composite remaining useful life.~~
 - d. ~~Provide for an interest expense limitation determined by the department and established by rule.~~
 - e. ~~Establish.~~
2. The department shall establish a per bed property cost limitation considering single and double occupancy construction. The double room limit effective July 1, 2015, is one hundred fifty-six thousand seven hundred eighty-three dollars and the single room limit is two hundred thirty-five thousand one hundred seventy-six dollars.

- ~~f. Recognize increased lease costs of a nursing home operator to the extent the lessor has incurred increased costs related to the ownership of the facility, the increased costs are charged to the lessee, and the increased costs would be allowable had they been incurred directly by the lessee.~~
- ~~g. Recognize any mandated costs, fees, or other moneys paid to the attorney general through transactions under sections 10-33-144 through 10-33-149.~~
2. For rate years beginning after December 31, 2003, the limitations of paragraph 3 of subdivision a of subsection 1 do not apply to the valuation basis of assets purchased between July 1, 1985, and July 1, 2000. The provisions of this subsection may not be applied retroactively to any rate year before July 1, 2005. The per bed property cost limitation must apply to construction or renovation projects currently in process or which have approved financing in place on or before December 31, 2021. The nursing home must have agency approval of the project by December 31, 2022. The nursing home shall notify the department within thirty days of receiving financial approval for any construction or renovation projects that financing is in place on or before December 31, 2022.
3. For rate years beginning after December 31, 2007, the limitations of subdivision e of subsection 1 do not apply to the valuation basis of assets acquired as a result of a natural disaster before December 31, 2006. The provisions of this subsection may not be applied retroactively to any rate year before January 1, 2008. The maximum allowable movable equipment replacement value per licensed bed must be fifteen thousand dollars when calculating the fair rental value.
4. The department shall include in the ratesetting system for nursing homes those costs associated with computer software and any related technology, including cloud-based services. These expenses are allowed as a direct passthrough. The maximum allowable square footage per licensed bed must be nine hundred fifty square feet [88.26 square meters] when calculating the fair rental value.
5. The maximum allowable rental rate must be eight percent when calculating the fair rental value rate.
6. Effective with the 2023 rate year, the property rate component of the payment rate, exclusive of startup and passthrough costs, must be the greater of the rate calculated using allowable property-related costs or the fair rental value rate. If the fair rental value rate is greater than the rate calculated using allowable property-related costs, the increase must be phased in over a four-year period.
7. Effective with the 2023 rate year, if the fair rental value rate is greater than the rate calculated using allowable property-related costs, the increase must be reserved until a major renovation or construction is placed in service.
8. Effective with the 2023 rate year and subsequent rate years, if the fair rental value rate is less than the rate calculated using allowable property-related costs, the department shall inform the nursing home of the property rate using allowable property-related costs and the fair rental value. Before the start of each rate year, the nursing home shall inform the department if the nursing

home wants to accept the property rate using allowable property-related costs as the established rate. The allowable property-related costs must be calculated using only the allowable depreciation on capital assets and interest on debt as of June 30, 2022, for all rate years. Once the fair rental value rate is equal to or greater than the rate calculated using allowable property-related costs, or the nursing home does not inform the department the nursing home wants to accept the property rate using allowable property-related costs, the department no longer need inform the nursing home of the property rate using allowable property-related costs and the rate must be calculated using the fair rental value methodology.

³⁰³ **SECTION 5. AMENDMENT.** Section 50-24.4-19 of the North Dakota Century Code is amended and reenacted as follows:

50-24.4-19. Prohibited practices.

A nursing home is not eligible to receive medical assistance payments unless it refrains from all of the following:

1. Charging private-paying residents rates for similar services which exceed those rates which are approved by the department for medical assistance recipients, as determined by the prospective desk audit rate, except under the following circumstances: the nursing home may charge private-paying residents a higher rate for a private room and charge for special services which are not included in the daily rate if medical assistance residents are charged separately at the same rate for the same services in addition to the daily rate paid by the department of human services. Services covered by the payment rate must be the same regardless of payment source. Special services, if offered, must be offered to all residents and charged separately at the same rate. Residents are free to select or decline special services. Special services must not include services which must be provided by the nursing home in order to comply with licensure or certification standards and that if not provided would result in a deficiency or violation by the nursing home. Services beyond those required to comply with licensure or certification standards must not be charged separately as a special service if they were included in the payment rate for the previous reporting year. A nursing home that charges a private-paying resident a rate in violation of this chapter is subject to an action by the state or any of its subdivisions or agencies for civil damages. A private-paying resident or the resident's legal representative has a cause of action for civil damages against a nursing home that charges the resident rates in violation of this chapter. The damages awarded shall include three times the payments that result from the violation, together with costs and disbursements, including reasonable attorney's fees or their equivalent.
2. Requiring an applicant for admission to the home, or the guardian or conservator of the applicant, as a condition of admission, to pay any fee or deposit ~~in excess of one hundred dollars~~, loan any money to the nursing home, or promise to leave all or part of the applicant's estate to the home.
3. Requiring any resident of the nursing home to utilize a vendor of health care services who is a licensed physician or pharmacist chosen by the nursing home.

³⁰³ Section 50-24.4-19 was also amended by section 460 of House Bill No. 1247, chapter 352.

4. Providing differential treatment on the basis of status with regard to public assistance.
5. Discriminating in admissions, services offered, or room assignment on the basis of status with regard to public assistance. Admissions discrimination shall include, but is not limited to:
 - a. Basing admissions decisions upon assurance by the applicant to the nursing home, or the applicant's guardian or conservator, that the applicant is neither eligible for nor will seek public assistance for payment of nursing home care costs.
 - b. Engaging in preferential selection from waiting lists based on an applicant's ability to pay privately.

The collection and use by a nursing home of financial information of any applicant pursuant to a preadmission screening program does not raise an inference that the nursing home is utilizing that information for any purpose prohibited by this chapter.

6. Requiring any vendor of medical care, who is reimbursed by medical assistance under a separate fee schedule, to pay any portion of the vendor's fee to the nursing home except as payment for the fair market value of renting or leasing space or equipment of the nursing home or purchasing support services, if those agreements are disclosed to the department.
7. Refusing, for more than twenty-four hours, to accept a resident returning to the resident's same bed or a bed certified for the same level of care, in accordance with a physician's order authorizing transfer, after receiving inpatient hospital services.
8. Violating any of the rights of health care facility residents enumerated in section 50-10.2-02.
9. Charging a managed care organization a rate that is less than the rate approved by the department for a medical assistance recipient in the same classification.

 - (d) The amount and date of any withdrawal or transfer of funds the nonparticipating manufacturer made at any time from the qualified escrow fund or from any other qualified escrow fund into which the nonparticipating manufacturer ever made any escrow payment under subsection 5 of section 51-25.1-04, chapter 51-25, and any rules adopted under these provisions.
- e. A tobacco product manufacturer may not include a brand family in the certification unless:
- (1) In the case of a participating manufacturer, the participating manufacturer affirms the brand family is the participating manufacturer's cigarettes for purposes of calculating the participating manufacturer's payments under the master settlement agreement for the relevant year, in the volume and shares determined under the master settlement agreement; and
 - (2) In the case of a nonparticipating manufacturer, the nonparticipating manufacturer affirms the brand family is to be deemed the nonparticipating manufacturer's cigarettes for purposes of chapter 51-25.
- f. This section does not limit the state's right to maintain that a brand family constitutes the cigarettes of a different tobacco product manufacturer for purposes of calculating payments under the master settlement agreement or for purposes of chapter 51-25.
- g. The tobacco product manufacturer shall retain all invoices and documentation of sales and other information relied on for the certification for a period of five years, unless otherwise required by law.
2. The attorney general shall develop and publish on the attorney general's website, a directory listing all tobacco product manufacturers that have provided current and accurate certifications conforming to the requirements of subsection 1 and all brand families listed in the certifications, except as otherwise provided in this subsection.

- a. The attorney general may not include or retain in the directory the name or brand family of any tobacco product manufacturer that fails to provide the required certification or whose certification the attorney general determines is not in compliance with subsection 1, unless the attorney general has determined the violation has been cured.
 - b. A tobacco product manufacturer or brand family may be included or retained in the directory if the attorney general determines:
 - (1) In the case of a nonparticipating manufacturer, an escrow payment required under subsection 5 of section 51-25.1-04 or subsection 2 of section 51-25-02, for any period for any brand family, whether listed by the nonparticipating manufacturer, has not been fully paid into a qualified escrow fund governed by a qualified escrow agreement approved by the attorney general.
 - (2) Any outstanding final judgment, including any interest, for a violation of chapter 51-25 has not been fully satisfied for the brand family and the tobacco product manufacturer.
 - c. The attorney general shall update the directory as necessary to correct mistakes, to add or remove a tobacco product manufacturer or brand family, and to keep the directory in conformity with the requirements of this chapter.
3. The attorney general may not remove a tobacco product manufacturer or the tobacco product manufacturer's brand family from the directory until the tobacco product manufacturer has been provided at least fifteen days' notice of the intended action. Notice is sufficient if sent either electronically or by facsimile to the electronic mail address or facsimile number provided by the tobacco product manufacturer in the tobacco product manufacturer's most recent certification filed under subsection 1.
 4. It is unlawful for any person to sell, offer, or possess for sale in this state, cigarettes of a tobacco product manufacturer or brand family not included in the directory.
 5. A person is deemed to have received notice that cigarettes of a tobacco product manufacturer or a brand family are not included in the directory maintained by the attorney general under subsection 2 at the time the attorney general's website fails to list any tobacco product manufacturer or brand family in the directory or at the time the attorney general removes the tobacco product manufacturer or brand family from the directory.

51-25.1-03. Agent for service of process.

1. Any nonresident or foreign nonparticipating manufacturer that has not registered to do business in the state as a foreign corporation or business entity, as a condition precedent to having the nonparticipating manufacturer's brand families included or retained in the directory, shall appoint and continually engage without interruption the services of an agent in this state to act as agent for service of process on whom all process, and any action or proceeding against the nonparticipating manufacturer concerning or arising out of the enforcement of this chapter and chapter 51-25, may be served in any manner authorized by law. This service constitutes legal and valid service of process on the nonparticipating manufacturer. The nonparticipating

manufacturer shall provide the name, address, telephone number, and proof of the appointment and availability of the agent to the attorney general.

2. The nonparticipating manufacturer shall provide notice to the attorney general no less than thirty days before termination of the authority of an agent. The nonparticipating manufacturer shall provide proof, to the satisfaction of the attorney general, of the appointment of a new agent no less than five days before the termination of an existing agent appointment. If an agent terminates an agency appointment, the nonparticipating manufacturer shall notify the attorney general of the termination within five days and shall include proof, to the satisfaction of the attorney general, of the appointment of a new agent.
3. A nonparticipating manufacturer whose products are sold in this state, without appointing or designating an agent as required by this section, is deemed to have appointed the secretary of state as the agent and the nonparticipating manufacturer may be proceeded against in courts of this state by service of process upon the secretary of state. The appointment of the secretary of state as the agent does not satisfy the condition precedent in subsection 1 for having the nonparticipating manufacturer's brand families included or retained in the directory.

51-25.1-04. Reporting of information - Escrow installments.

1. Not later than twenty days after the end of each calendar quarter, and more frequently if directed by the attorney general, a distributor shall submit information the attorney general requires to facilitate compliance with this chapter, including a list by brand family of the total number of cigarettes or, in the case of "roll-your-own", the equivalent stick count the distributor paid the excise tax due for the cigarettes. The distributor shall maintain and make available to the attorney general all invoices and documentation of sales of all nonparticipating manufacturer cigarettes and any other information relied upon in reporting to the attorney general for a period of five years. The distributor shall provide the information and documentation to the commissioner, together with any other information and documentation requested by the commissioner. The commissioner shall process the information and documentation as needed by the commissioner and as needed by the attorney general for the purposes of this chapter and chapter 51-25.
2. The commissioner may disclose to the attorney general any information in the commissioner's possession requested by the attorney general for purposes of determining compliance with and enforcement of this chapter. The commissioner and attorney general may share the information received under this chapter, and may share the information with a federal, state, or local agency for purposes of enforcement of chapter 51-25, this chapter, or any equivalent law of another state.
3. The attorney general may require from the nonparticipating manufacturer, at any time, proof from the financial institution in which the nonparticipating manufacturer has established a qualified escrow fund for the purpose of compliance with subsection 2 of section 51-25-02 of the amount of money in the qualified escrow fund, exclusive of interest, being held on behalf of the state, and the amount and date of each deposit to, and withdrawal from, the qualified escrow fund.
4. In addition to the information required to be submitted under chapter 51-25 and this chapter, the attorney general may require a distributor or tobacco

product manufacturer to submit any additional information, including samples of packaging or labeling of a brand family, as necessary to enable the attorney general to determine whether a tobacco product manufacturer is or will continue to be in compliance with this chapter and chapter 51-25.

5. In addition to the requirements of subsection 2 of section 51-25-02, and to promote compliance with this chapter:
 - a. The attorney general may require any nonparticipating manufacturer to make escrow deposits required by subsection 2 of section 51-25-02 in quarterly installments. Any escrow deposits required to be made in quarterly installments must be deposited into a qualified escrow fund no later than thirty calendar days after the end of the quarter in which the sales were made. The failure by a nonparticipating manufacturer to make any quarterly installment required by the attorney general subjects the nonparticipating manufacturer to any penalty and other remedy provided under section 51-25.1-02 and subsection 2 of section 51-25-02.
 - b. The attorney general may require production of information sufficient to enable the attorney general to determine the adequacy of each escrow deposit under this subsection and subsection 2 of section 51-25-02.

51-25.1-05. Penalties - Remedies.

1. In addition to any other civil or criminal remedy provided by law, upon a determination that a distributor has violated subsection 4 of section 51-25.1-02, or any rule adopted under that subsection, the attorney general may revoke the license of a distributor in the manner provided by section 57-36-04. Each sale or offer to sell cigarettes in violation of subsection 4 of section 51-25.1-02 constitutes a separate violation. For each violation, the attorney general may impose a civil penalty in an amount not to exceed five hundred percent of the retail value of the cigarettes sold or five thousand dollars, whichever is greater, upon a determination of violation of subsection 4 of section 51-25.1-02 or any rules adopted under that subsection.
2. Any cigarettes sold, offered for sale, or possessed for sale in this state, or imported for personal consumption in this state in violation of subsection 4 of section 51-25.1-02 are deemed contraband and are subject to seizure, by a law enforcement officer, and forfeiture as follows:
 - a. Upon the seizure of the cigarettes, and within two days thereafter, the law enforcement officer making the seizure shall deliver an inventory of the cigarettes seized to the person from whom the seizure was made, if known, and shall file a copy of the inventory with the attorney general.
 - b. Within ten days after the date of service of the inventory, the person from whom the seizure was made, or any other person claiming an interest in the cigarettes seized, may file a demand with the attorney general for a judicial determination of the issues of whether the cigarettes seized were, or lawfully are, subject to seizure and forfeiture. Within thirty days of the date of a timely demand, the attorney general shall institute an action in the district court of the county in which the seizure was made for a determination of the issues. The action must be brought by the attorney general in the name of the state. The district court shall hear the action, and determine the issues of fact and law.

- c. If a judgment of forfeiture is entered, the attorney general shall destroy the forfeited cigarettes unless the judgment is stayed pending an appeal to the supreme court.
 - d. If a demand for a judicial determination is made, and in the absence of an action commenced under this section or a stipulated settlement, the attorney general shall release the seized cigarettes to the person entitled to the cigarettes.
 - e. If a demand for judicial determination is not made, the seized cigarettes must be deemed forfeited to the state by operation of law and the cigarettes must be destroyed.
3. The attorney general may seek an injunction to restrain a threatened or actual violation of subsection 4 of section 51-25.1-02 or subsections 1 or 4 of section 51-25.1-04 by any person and to compel the person to comply with this subsection. In an action brought under this section, the state is entitled to recover the costs of investigation, costs of the action, and reasonable attorney's fees.
 4. A person may not sell, distribute, acquire, hold, own, possess, transport, import, or cause to be imported cigarettes the person knows or should know are intended for distribution or sale in the state in violation of subsection 4 of section 51-25.1-02. A violation of this subsection is a class A misdemeanor.

51-25.1-06. Miscellaneous provisions - Penalties and remedies cumulative - Joint and several liability.

1. Any determination by the attorney general not to include in or to remove from the directory a tobacco product manufacturer or brand family is subject to judicial review by the filing of a civil action for prospective declaratory or injunctive relief. The Burleigh County district court has exclusive jurisdiction over the civil action.
2. A license or renewal of a license to act as a distributor may not be issued to a person unless the person certifies in writing the person will comply with this chapter.
3. A licensed distributor shall provide to the attorney general, and update as necessary, an electronic mail address and facsimile number to receive any notification required by this chapter.
4. The first report of a distributor required under subsection 1 of section 51-25.1-04 is due thirty days after the effective date of this chapter.
 - a. The first certification of a tobacco product manufacturer described under subsection 1 of section 51-25.1-02 is due forty-five days after the effective date of this chapter.
 - b. The directory described in subsection 2 of section 51-25.1-02 must be developed and made available for public inspection within one hundred twenty days after the effective date of this chapter.
5. The attorney general and commissioner may adopt rules necessary to effect the purposes of this chapter and chapter 51-25.

6. In any action brought by the state to enforce this chapter, the state is entitled to recover the costs of investigation, expert witness fees, costs of the action, and reasonable attorney's fees.
7. If a court determines a person has violated this chapter, the court shall order any profits, gain, gross receipts, or other benefit from the violation disgorged and paid to the general fund, and the court shall order payment of any taxes due under chapter 57-36.
8. Unless otherwise provided, remedies or penalties provided by this chapter are cumulative to each other and to remedies or penalties available under all other laws of this state.
9. If a court of competent jurisdiction finds this chapter in conflict with chapter 51-25 and the conflict cannot be harmonized, chapter 51-25 must control. If any portion of this chapter causes chapter 51-25 to no longer constitute a qualifying or model statute, as the terms are defined in the master settlement agreement, that portion of this chapter must be held to be invalid.
10. For each nonparticipating manufacturer located outside the United States, each importer into the United States of the nonparticipating manufacturer's brand families sold in the state has joint and several liability with the nonparticipating manufacturer for deposit of all escrow amounts due under subsection 2 of section 51-25-02 and payment of all penalties imposed under subsection 2 of section 51-25-02.

AN ACT to create and enact section 26.1-36-01.1 of the North Dakota Century Code, relating to the scope of health insurance mandates; and to amend and reenact section 54-03-28 of the North Dakota Century Code, relating to a cost-benefit analysis for mandated health insurance coverage measures; to provide an effective date; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Section 26.1-36-01.1 of the North Dakota Century Code is created and enacted as follows:

26.1-36-01.1. Scope - Accident and health insurance policy mandates.

Unless expressly provided otherwise, an accident and health insurance policy health coverage mandate under this chapter does not apply to an accident and health insurance policy that is a high-deductible health plan under 26 U.S.C. 223 if the mandate would cause the policy to fail to qualify as a high-deductible health plan under this federal law.

SECTION 2. AMENDMENT. Section 54-03-28 of the North Dakota Century Code is amended and reenacted as follows:

54-03-28. Health insurance mandated coverage of services - Cost-benefit analysis requirement.

1. Alf the legislative management determines a legislative measure mandating mandates health insurance coverage of services or payment for specified providers of services, the measure may not be acted on by any committee of the legislative assembly unless the measure is accompanied by a cost-benefit analysis provided by the legislative council referred to a committee of the legislative assembly unless a cost-benefit analysis provided by the legislative management is appended to that measure.
 - a. If a committee of the legislative assembly determines a measure mandating health insurance coverage of services or payment of specified providers was referred to committee without a cost-benefit analysis, the committee shall request the legislative management provide a cost-benefit analysis. The committee may not act on the measure unless the measure is accompanied by the cost-benefit analysis.
 - b. If a committee of the legislative assembly determines a proposed amendment to a measure mandates health insurance coverage of

services or payment of specified providers, the committee may not act on the proposed amendment unless the amendment is accompanied by a cost-benefit analysis or amended cost-benefit analysis provided by the legislative management.

2. Factors to consider in this considered in the cost-benefit analysis must include:
- a. The extent to which the proposed mandate would increase or decrease the cost of the service.

2-3. A committee of the legislative assembly may not act on a legislative measure mandating that the legislative management or committee determines mandates health insurance coverage of services or payment for specified providers of services may not be acted on by any committee of the legislative assembly unless the measure as recommended by the committee provides:

 - b. The application of the mandate is limited to the public employees health insurance program and the public employee retiree health insurance program. The application of such mandate begins with every contract for health insurance which becomes effective after June thirtieth of the year in which the measure becomes effective.
 - c. That for the next legislative assembly, the public employees retirement system shall prepare and request introduction of a bill to repeal the expiration date and to extend the mandated coverage or payment to apply to accident and health insurance policies. The public employees retirement system shall append to the bill a report regarding the effect of the mandated coverage or payment on the system's health insurance programs. The report must include information on the utilization and costs relating to the mandated coverage or payment and a recommendation on whether the coverage or payment should continue. For purposes of this section, the bill is not a legislative measure mandating health insurance coverage of services or payment for specified providers of services, unless the bill is amended following introduction so as to change the bill's mandate.
3. A majority of the members of the committee, acting through the chairman, has sole authority to determine whether a legislative measure mandates coverage of services under this section:
4. Any amendment made during a legislative session to a measure which mandates health insurance coverage of services may not be acted on by a

~~committee of the legislative assembly unless the amendment is accompanied by a cost-benefit analysis provided by the legislative council. The legislative management shall adopt a procedure for identifying measures and proposed measures mandating health insurance coverage of services or payment for specified providers of services. The procedure must include solicitation of draft measures and proposals during the interim between legislative sessions from legislators and agencies with bill introduction privileges and must include deadlines for identification of the measures or proposals.~~

(Senator O. Larsen)

AN ACT to amend and reenact section 54-03.3-01 of the North Dakota Century Code, relating to the compact for a balanced budget.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 54-03.3-01 of the North Dakota Century Code is amended and reenacted as follows:

54-03.3-01. Adoption of compact.

The state of North Dakota enacts, adopts, and agrees to be bound by the Compact for a Balanced Budget with all other jurisdictions legally joining therein in the form substantially as follows:

ARTICLE I - DECLARATION OF POLICY, PURPOSE, AND INTENT

Whereas, every state enacting, adopting and agreeing to be bound by this compact intends to ensure that their respective legislature's use of the power to originate a Balanced Budget Amendment under Article V of the Constitution of the United States will be exercised conveniently and with reasonable certainty as to the consequences thereof.

Now, therefore, in consideration of their expressed mutual promises and obligations, be it enacted by every state enacting, adopting and agreeing to be bound by this compact, and resolved by each of their respective legislatures, as the case may be, to exercise herewith all of their respective powers as set forth herein notwithstanding any law to the contrary.

ARTICLE II - DEFINITIONS

1. "Compact" means this "Compact for a Balanced Budget".
2. "Convention" means the convention for proposing amendments organized by this compact under Article V of the Constitution of the United States and, where contextually appropriate to ensure the terms of this compact are not evaded, any other similar gathering or body, which might be organized as a consequence of Congress receiving the application set out in this compact and claim authority to propose or effectuate any amendment, alteration or revision to the Constitution of the United States. This term does not encompass a convention for proposing amendments under Article V of the Constitution of the United States that is organized independently of this compact based on the separate and distinct application of any state.
3. "State" means one of the several states of the United States. Where contextually appropriate, the term "state" shall be construed to include all of its

branches, departments, agencies, political subdivisions, and officers and representatives acting in their official capacity.

4. "Member state" means a state that has enacted, adopted, and agreed to be bound to this compact. For any state to qualify as a member state with respect to any other state under this compact, each such state must have enacted, adopted, and agreed to be bound by substantively identical compact legislation.
5. "Compact notice recipients" means the archivist of the United States, the president of the United States, the president of the United States Senate, the office of the secretary of the United States Senate, the speaker of the United States House of Representatives, the office of the clerk of the United States House of Representatives, the chief executive officer of each state, and the presiding officers of each house of the legislatures of the several states.
6. Notice. All notices required by this compact shall be by United States certified mail, return receipt requested, or an equivalent or superior form of notice, such as personal delivery documented by evidence of actual receipt.
7. "Balanced Budget Amendment" means the following:

"Article ____

Section 1. Total outlays of the government of the United States shall not exceed total receipts of the government of the United States at any point in time unless the excess of outlays over receipts is financed exclusively by debt issued in strict conformity with this article.

Section 2. Outstanding debt shall not exceed authorized debt, which initially shall be an amount equal to 105 percent of the outstanding debt on the effective date of this article. Authorized debt shall not be increased above its aforesaid initial amount unless such increase is first approved by the legislatures of the several states as provided in Section 3.

Section 3. From time to time, Congress may increase authorized debt to an amount in excess of its initial amount set by Section 2 only if it first publicly refers to the legislatures of the several states an unconditional, single subject measure proposing the amount of such increase, in such form as provided by law, and the measure is thereafter publicly and unconditionally approved by a simple majority of the legislatures of the several states, in such form as provided respectively by state law; provided that no inducement requiring an expenditure or tax levy shall be demanded, offered or accepted as a quid pro quo for such approval. If such approval is not obtained within sixty (60) calendar days after referral then the measure shall be deemed disapproved and the authorized debt shall thereby remain unchanged.

Section 4. Whenever the outstanding debt exceeds 98 percent of the debt limit set by Section 2, the President shall enforce said limit by publicly designating specific expenditures for impoundment in an amount sufficient to ensure outstanding debt shall not exceed the authorized debt. Said impoundment shall become effective thirty (30) days thereafter, unless Congress first designates an alternate impoundment of the same or greater amount by concurrent resolution, which shall become immediately

effective. The failure of the President to designate or enforce the required impoundment is an impeachable misdemeanor. Any purported issuance or incurrence of any debt in excess of the debt limit set by Section 2 is void.

Section 5. No bill that provides for a new or increased general revenue tax shall become law unless approved by a two-thirds roll call vote of the whole number of each House of Congress. However, this requirement shall not apply to any bill that provides for a new end user sales tax which would completely replace every existing income tax levied by the government of the United States; or for the reduction or elimination of an exemption, deduction, or credit allowed under an existing general revenue tax.

Section 6. For purposes of this article, "debt" means any obligation backed by the full faith and credit of the government of the United States; "outstanding debt" means all debt held in any account and by any entity at a given point in time; "authorized debt" means the maximum total amount of debt that may be lawfully issued and outstanding at any single point in time under this article; "total outlays of the government of the United States" means all expenditures of the government of the United States from any source; "total receipts of the government of the United States" means all tax receipts and other income of the government of the United States, excluding proceeds from its issuance or incurrence of debt or any type of liability; "impoundment" means a proposal not to spend all or part of a sum of money appropriated by Congress; and "general revenue tax" means any income tax, sales tax, or value-added tax levied by the government of the United States excluding imposts and duties.

Section 7. This article is immediately operative upon ratification, self-enforcing, and Congress may enact conforming legislation to facilitate enforcement."

ARTICLE III - COMPACT MEMBERSHIP AND WITHDRAWAL

1. This compact governs each member state to the fullest extent permitted by their respective constitutions, superseding and repealing any conflicting or contrary law.
2. By becoming a member state, each such state offers, promises, and agrees to perform and comply strictly in accordance with the terms and conditions of this compact, and has made such offer, promise, and agreement in anticipation and consideration of, and in substantial reliance upon, such mutual and reciprocal performance and compliance by each other current and future member state, if any. Accordingly, in addition to having the force of law in each member state upon its respective effective date, this compact and each of its articles shall also be construed as contractually binding each member state when:
 - a. At least one other state has likewise become a member state by enacting substantively identical legislation adopting and agreeing to be bound by this compact; and
 - b. Notice of such state's member state status is or has been seasonably received by the compact administrator, if any, or otherwise by the chief executive officer of each other member state.

3. For purposes of determining member state status under this compact, as long as all other provisions of the compact remain identical and operative on the same terms, legislation enacting, adopting, and agreeing to be bound by this compact shall be deemed and regarded as "substantively identical" with respect to such other legislation enacted by another state notwithstanding:
 - a. Any difference in subsection 2 of article IV with specific regard to the respectively enacting state's own method of appointing its member to the commission;
 - b. Any difference in subsection 5 of article IV with specific regard to the respectively enacting state's own obligation to fund the commission;
 - c. Any difference in subsections 1 and 2 of article VI with specific regard to the number and identity of each delegate respectively appointed on behalf of the enacting state, provided that no more than three delegates may attend and participate in the Convention on behalf of any state; or
 - d. Any difference in subsection 7 of article X with specific regard to the respectively enacting state as to whether subsection 1 of article V of this compact shall survive termination of the compact, and thereafter become a continuing resolution of the legislature of such state applying to Congress for the calling of a convention of the states under Article V of the Constitution of the United States, under such terms and limitations as may be specified by such state.
4. When fewer than three-fourths of the states are member states, any member state may withdraw from this compact by enacting appropriate legislation, as determined by state law, and giving notice of such withdrawal to the compact administrator, if any, or otherwise to the chief executive officer of each other member state. A withdrawal shall not affect the validity or applicability of the compact with respect to remaining member states, provided that there remain at least two such states. However, once at least three-fourths of the states are member states, then no member state may withdraw from the compact prior to its termination absent unanimous consent of all member states.

ARTICLE IV - COMPACT COMMISSION AND COMPACT ADMINISTRATOR

1. Nature of the compact commission. The compact commission ("commission") is hereby established. It has the power and duty:
 - a. To appoint and oversee a compact administrator;

The commission shall only have such implied powers as are essential to carrying out these express powers and duties. It shall take no action that contravenes or is inconsistent with this compact or any law of any state that is not superseded by this compact. It may adopt and publish corresponding bylaws and policies.
2. Commission membership. The commission initially consists of three unpaid members. Each member state may appoint one member to the commission through an appointment process to be determined by their respective chief executive officer until all positions on the commission are filled. Positions shall be assigned to appointees in the order in which their respective appointing states became member states. The bylaws of the commission may expand its membership to include representatives of additional member states and to allow for modest salaries and reimbursement of expenses if adequate funding exists.
 3. Commission action. Each commission member is entitled to one vote. The commission shall not act unless a majority of its appointed membership is present, and no action shall be binding unless approved by a majority of the commission's appointed membership. The commission shall meet at least once a year, and may meet more frequently.
 4. First order of business. The commission shall at the earliest possible time elect from among its membership a chairperson, determine a primary place of doing business, and appoint a compact administrator.

 - d. To formulate, transmit, and maintain all official notices, records, and communications relating to this compact. The compact administrator shall only have such implied powers as are essential to carrying out these express powers and duties; and shall take no action that contravenes or is inconsistent with this compact or any law of any state that is not superseded by this compact. The compact administrator serves at the pleasure of the commission and must keep the commission seasonably apprised of the performance or nonperformance of the terms and conditions of this compact. Any notice sent by a member state to the compact administrator concerning this compact shall be adequate notice

- to each other member state provided that a copy of said notice is seasonably delivered by the compact administrator to each other member state's respective chief executive officer.
7. Notice of key events. Upon the occurrence of each of the following described events, or otherwise as soon as possible, the compact administrator shall immediately send the following notices to all compact notice recipients, together with certified conforming copies of the chaptered version of this compact as maintained in the statutes of each member state:
 - a. Whenever any state becomes a member state, notice of that fact shall be given;
 - b. Once at least three-fourths of the states are member states, notice of that fact shall be given together with a statement declaring that the legislatures of at least two-thirds of the several states have applied for a convention for proposing amendments under Article V of the Constitution of the United States, petitioning Congress to call the Convention contemplated by this compact, and further requesting cooperation in organizing the same in accordance with this compact;
 - c. Once Congress has called the Convention contemplated by this compact, and whenever the date, time, and location of the Convention has been determined, notice of that fact shall be given together with the date, time, and location of the Convention and other essential logistical matters;
 - d. Upon approval of the Balanced Budget Amendment by the Convention, notice of that fact shall be given together with the transmission of certified copies of such approved proposed amendment and a statement requesting Congress to refer the same for ratification by three-fourths of the legislatures of the several states under Article V of the Constitution of the United States. However, in no event shall any proposed amendment other than the Balanced Budget Amendment be transmitted; and
 - e. When any article of this compact prospectively ratifying the Balanced Budget Amendment is effective in any member state, notice of the same shall be given together with a statement declaring such ratification and further requesting cooperation in ensuring that the official record confirms and reflects the effective corresponding amendment to the Constitution of the United States. However, whenever any member state enacts appropriate legislation, as determined by the laws of the respective state, withdrawing from this compact, the compact administrator shall immediately send certified conforming copies of the chaptered version of such withdrawal legislation as maintained in the statutes of each such withdrawing member state, solely to each chief executive officer of each remaining member state, giving notice of such withdrawal.
 8. Cooperation. The commission, member states, and compact administrator shall cooperate with each other and give each other mutual assistance in enforcing this compact and shall give the chief law enforcement officer of each other member state any information or documents that are reasonably necessary to facilitate the enforcement of this compact.
 9. This article does not take effect until there are at least two member states.

ARTICLE V - RESOLUTION APPLYING FOR CONVENTION

1. Be it resolved, as provided for in Article V of the Constitution of the United States, the legislature of each member state herewith applies to Congress for the calling of a convention for proposing amendments limited to the subject matter of proposing for ratification the Balanced Budget Amendment.
2. Congress is further petitioned to refer the Balanced Budget Amendment to the states for ratification by three-fourths of their respective legislatures.

A majority of this delegation shall decide the issue at the Convention on behalf of the member state.~~
3. Replacement or recall of delegates. A delegate appointed hereunder may be replaced or recalled by the legislature of his or her respective state at any time for good cause, such as criminal misconduct or the violation of this compact. If replaced or recalled, any delegate previously appointed hereunder must immediately vacate the Convention and return to their respective state's capital.
4. Oath. The power and authority of a delegate under this article may only be exercised after the Convention is first called by Congress in accordance with this compact and such appointment is duly accepted by such appointee publicly taking the following oath or affirmation: "I do solemnly swear (or affirm) that I accept this appointment and will act strictly in accordance with the terms and conditions of the compact for a balanced budget, the constitution of the state I represent, and the Constitution of the United States. I understand that violating this oath (or affirmation) forfeits my appointment and may subject me to other penalties as provided by law."
5. Term. The term of a delegate hereunder commences upon acceptance of appointment and terminates upon the permanent adjournment of the Convention, unless shortened by recall, replacement, or forfeiture under this article. Upon expiration of such term, any person formerly serving as a delegate must immediately withdraw from and cease participation at the Convention, if any is proceeding.

8. Delegate authority. The power and authority of any delegate at the Convention does not include any power or authority associated with any other public office held by the delegate. Any person appointed to serve as a delegate shall take a temporary leave of absence, or otherwise shall be deemed temporarily disabled, from any other public office held by the delegate while attending the Convention, and may not exercise any power or authority associated with any other public office held by the delegate, while attending the Convention. All actions taken by any delegate in violation of this section are void ab initio.
9. Order of business. Before introducing, debating, voting upon, rejecting, or proposing for ratification any constitutional amendment at the Convention, each delegate of every member state must first ensure the Convention rules in this compact govern the Convention and their actions. Every delegate and each member state must immediately vacate the Convention and notify the compact administrator by the most effective and expeditious means if the Convention rules in this compact are not adopted to govern the Convention and their actions.
10. Forfeiture of appointment. If any member state or delegate violates any provision of this compact, then every delegate of that member state immediately forfeits his or her appointment, and shall immediately cease participation at the Convention, vacate the Convention, and return to his or her respective state's capital.

1. Nature of the Convention. The Convention shall be organized, construed, and conducted as a body exclusively representing and constituted by the several states.

2. Agenda of the Convention. The agenda of the Convention shall be entirely focused upon and exclusively limited to introducing, debating, voting upon, and rejecting or proposing for ratification the Balanced Budget Amendment under the Convention rules specified in this article and in accordance with the compact. It shall not be in order for the Convention to consider any matter that is outside the scope of this agenda.
3. Delegate identity and procedure. States shall be represented at the Convention through duly appointed delegates. The number, identity, and authority of delegates assigned to each state shall be determined by this compact in the case of member states or, in the case of states that are not member states, by their respective state laws. However, to prevent disruption of proceedings, no more than three delegates may attend and participate in the Convention on behalf of any state. A certified chaptered conforming copy of this compact, together with government-issued photographic proof of identification, shall suffice as credentials for delegates of member states. Any commission for delegates of states that are not member states shall be based on their respective state laws, but it shall furnish credentials that are at least as reliable as those required of member states.
4. Voting. Each state represented at the Convention shall have one vote, exercised by the vote of that state's delegate in the case of states represented by one delegate, or, in the case of any state that is represented by more than one delegate, by the majority vote of that state's respective delegates.
5. Quorum. A majority of the several states of the United States, each present through its respective delegate in the case of any state that is represented by one delegate, or through a majority of its respective delegates, in the case of any state that is represented by more than one delegate, shall constitute a quorum for the transaction of any business on behalf of the Convention.
6. Action by the Convention. The Convention shall only act as a committee of the whole, chaired by the delegate representing the first state to have become a member state, if that state is represented by one delegate, or otherwise by the delegate chosen by the majority vote of that state's respective delegates. The transaction of any business on behalf of the Convention, including the designation of a secretary, the adoption of parliamentary procedures, and the rejection or proposal of any constitutional amendment, requires a quorum to be present and a majority affirmative vote of those states constituting the quorum.
7. Emergency suspension and relocation of the Convention. In the event that the chair of the Convention declares an emergency due to disorder or an imminent threat to public health and safety prior to the completion of the business on the agenda, and a majority of the states present at the Convention do not object to such declaration, further Convention proceedings shall be temporarily suspended, and the commission shall subsequently relocate or reschedule the Convention to resume proceedings in an orderly fashion in accordance with the terms and conditions of this compact with prior notice given to the compact notice recipients.
8. Parliamentary procedure. In adopting, applying, and formulating parliamentary procedure, the Convention shall exclusively adopt, apply, or appropriately adapt provisions of the most recent editions of Robert's Rules of Order and the American Institute of Parliamentarians Standard Code of Parliamentary

Procedure. In adopting, applying, or adapting parliamentary procedure, the Convention shall exclusively consider analogous precedent arising within the jurisdiction of the United States. Parliamentary procedures adopted, applied, or adapted pursuant to this section shall not obstruct, override, or otherwise conflict with this compact.

9. Transmittal. Upon approval of the Balanced Budget Amendment by the Convention to propose for ratification, the chair of the Convention shall immediately transmit certified copies of such approved proposed amendment to the compact administrator and all compact notice recipients, notifying them respectively of such approval and requesting Congress to refer the same for ratification by the states under Article V of the Constitution of the United States. However, in no event shall any proposed amendment other than the Balanced Budget Amendment be transmitted as aforesaid.
10. Transparency. Records of the Convention, including the identities of all attendees and detailed minutes of all proceedings, shall be kept by the chair of the Convention or secretary designated by the Convention. All proceedings and records of the Convention shall be open to the public upon request subject to reasonable regulations adopted by the Convention that are closely tailored to preventing disruption of proceedings under this article.
11. Adjournment of the Convention. The Convention shall permanently adjourn upon the earlier of twenty-four hours after commencing proceedings under this article or the completion of the business on its agenda.

ARTICLE VIII - PROHIBITION ON ULTRA VIRES CONVENTION

1. Member states shall not participate in the Convention unless:
 - a. Congress first calls the Convention in accordance with this compact; and
 - b. The Convention rules of this compact are adopted by the Convention as its first order of business.
2. Any proposal or action of the Convention is void ab initio and issued by a body that is conducting itself in an unlawful and ultra vires fashion if that proposal or action:
 - a. Violates or was approved in violation of the Convention rules or the delegate instructions and limitations on delegate authority specified in this compact;
 - b. Purports to propose or effectuate a mode of ratification that is not specified in Article V of the Constitution of the United States; or
 - c. Purports to propose or effectuate the formation of a new government. All member states are prohibited from advancing or assisting in the advancement of any such proposal or action.
3. Member states shall not ratify or otherwise approve any proposed amendment, alteration, or revision to the Constitution of the United States, which originates from the Convention, other than the Balanced Budget Amendment.

ARTICLE IX - RESOLUTION PROSPECTIVELY RATIFYING**THE BALANCED BUDGET AMENDMENT**

1. Each member state, by and through its respective legislature, hereby adopts and ratifies the Balanced Budget Amendment.
2. This article does not take effect until Congress effectively refers the Balanced Budget Amendment to the states for ratification by three-fourths of the legislatures of the several states under Article V of the Constitution of the United States.

ARTICLE X - CONSTRUCTION, ENFORCEMENT, VENUE, AND SEVERABILITY

1. To the extent that the effectiveness of this compact or any of its articles or provisions requires the alteration of local legislative rules, drafting policies, or procedure to be effective, the enactment of legislation enacting, adopting, and agreeing to be bound by this compact shall be deemed to waive, repeal, supersede, or otherwise amend and conform all such rules, policies, or procedures to allow for the effectiveness of this compact to the fullest extent permitted by the constitution of any affected member state.
2. Date and location of the Convention. Unless otherwise specified by Congress in its call, the Convention shall be held in Dallas, Texas, and commence proceedings at 9:00 a.m. central standard time on the sixth Wednesday after the latter of the effective date of article V of this compact or the enactment date of the Congressional resolution calling the Convention.
3. In addition to all other powers and duties conferred by state law which are consistent with the terms and conditions of this compact, the chief law enforcement officer of each member state is empowered to defend the compact from any legal challenge, as well as to seek civil mandatory and prohibitory injunctive relief to enforce this compact; and shall take such action whenever the compact is challenged or violated.
4. The exclusive venue for all actions in any way arising under this compact shall be in the United States District Court for the northern district of Texas or the courts of the state of Texas within the jurisdictional boundaries of the foregoing district court. Each member state shall submit to the jurisdiction of said courts with respect to such actions. However, upon written request by the chief law enforcement officer of any member state, the commission may elect to waive this provision for the purpose of ensuring an action proceeds in the venue that allows for the most convenient and effective enforcement or defense of this compact. Any such waiver shall be limited to the particular action to which it is applied and not construed or relied upon as a general waiver of this provision. The waiver decisions of the commission under this provision shall be final and binding on each member state.
5. The effective date of this compact and any of its articles is the latter of:
 - a. The date of any event rendering the same effective according to its respective terms and conditions; or
 - b. The earliest date otherwise permitted by law.

6. Article VIII of this compact is hereby deemed nonseverable prior to termination of the compact. However, if any other phrase, clause, sentence, or provision of this compact, or the applicability of any other phrase, clause, sentence, or provision of this compact to any government, agency, person, or circumstance, is declared in a final judgment to be contrary to the Constitution of the United States, contrary to the state constitution of any member state, or is otherwise held invalid by a court of competent jurisdiction, such phrase, clause, sentence, or provision shall be severed and held for naught, and the validity of the remainder of this compact and the applicability of the remainder of this compact to any government, agency, person, or circumstance shall not be affected. Furthermore, if this compact is declared in a final judgment by a court of competent jurisdiction to be entirely contrary to the state constitution of any member state or otherwise entirely invalid as to any member state, such member state shall be deemed to have withdrawn from the compact, and the compact shall remain in full force and effect as to any remaining member state. Finally, if this compact is declared in a final judgment by a court of competent jurisdiction to be wholly or substantially in violation of Article I, Section 10, of the Constitution of the United States, then it shall be construed and enforced solely as reciprocal legislation enacted by the affected member states.
7. Termination. This compact shall terminate and be held for naught when the compact is fully performed and the Constitution of the United States is amended by the Balanced Budget Amendment. However, notwithstanding anything to the contrary set forth in this compact, in the event such amendment does not occur ~~within seven years after the first state passes legislation enacting, adopting, and agreeing to be bound to this compact~~ or before April 12, 2031, the compact shall terminate as follows:
 - a. The commission shall dissolve and wind up its operations within ninety days thereafter, with the compact administrator giving notice of such dissolution and the operative effect of this section to the compact notice recipients; and
 - b. Upon the completed dissolution of the commission, this compact shall be deemed terminated, repealed, void ab initio, and held for naught.

The committee shall meet at least once each calendar quarter during each interim. Each department, agency, or institution shall furnish to the committee such aid, information, and assistance in regard to fiscal transactions and governmental operations as it may from time to time request. Whenever the committee may determine or have reason to believe that there may have been a violation of law relating to the receipt, custody, or expenditure of public funds by any state officer or employee, the committee shall present such evidence or information as may be in its possession to the attorney general. The attorney general shall receive and accept such evidence or information and shall immediately commence such additional investigation as the attorney general determines necessary. Upon completion of the investigation, if the evidence supplied by the committee and through the investigation

Whenever the committee may determine that a state agency, department, or institution has failed to correct an audit finding within two bienniums which the committee determines critically important, the committee may recommend the legislative assembly reduce the state agency, department, or institution's appropriation as compared with the amount appropriated to the agency, department, or institution for the previous biennium. The legislative management, through its committee on legislative audit and fiscal review, or such persons as may be directed or employed by the legislative council, is authorized, within the limits of legislative appropriations, to make such audits, examinations, or studies of the fiscal transactions or governmental operations of departments, agencies, or institutions of the state as the legislative management may determine necessary.

SECTION 6. A new section to chapter 54-35 of the North Dakota Century Code is created and enacted as follows:

SENATE BILL NO. 2271

(Senators Erbele, Dever, Kreun)
(Representatives D. Johnson, Trottier)

AN ACT to provide a statement of legislative intent regarding presidential elections; to provide for a legislative management study; and to provide a directive.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. LEGISLATIVE INTENT - OPPOSITION TO NATIONAL POPULAR VOTE INTERSTATE COMPACT - APPEAL TO CONGRESS. It is the intent of the sixty-seventh legislative assembly to oppose the national popular vote interstate compact, which would circumvent the electoral process set forth in the United States Constitution. If the compact becomes effective, the compact will require each signatory state to award the state's electoral college votes to the presidential candidate who received the most popular votes in all fifty states and the District of Columbia. Fifteen states and the District of Columbia have adopted the compact. However, the current system for awarding electoral college votes to the winners of state elections fulfills the requirements for appointing electoral college electors under Article II of the United States Constitution and ensures states have proportionate representation in presidential elections. The sixty-seventh legislative assembly urges Congress not to consent to the interstate compact and to oppose any efforts to seek a national popular election of a president other than through an amendment to the Constitution.

SECTION 2. LEGISLATIVE MANAGEMENT STUDY - NATIONAL POPULAR VOTE INTERSTATE COMPACT. During the 2021-22 interim, the legislative management shall consider studying how to defeat the effort of the national popular vote interstate compact to ensure the electoral college process is preserved as prescribed in the United States Constitution. The study also must include examination of how states report presidential election results and whether states report the results using vote percentages or vote totals. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-eighth legislative assembly.

SECTION 3. DIRECTIVE TO SECRETARY OF STATE. The secretary of state shall forward a copy of the enrolled version of this bill to the president of the United States Senate, the speaker of the United States House of Representatives, and each member of the North Dakota congressional delegation.

CHAPTER 465

SENATE BILL NO. 2280

(Senators Elkin, Larson)
(Representatives Devlin, Dockter, Lefor, Louser)

AN ACT to amend and reenact sections 57-28-11, 57-28-17, and 57-28-18 of the North Dakota Century Code, relating to permitting reappraisal of property acquired by a county by tax deed.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-28-11 of the North Dakota Century Code is amended and reenacted as follows:

57-28-11. Hearing on appraisal or reappraisal.

After making ~~the an~~ appraisal or reappraisal of property acquired by tax deed, the board of county commissioners shall set a date for hearing objections to the minimum sale price determined. At least ten days before the hearing, the county auditor shall mail to the auditor of any city, or the clerk of the board of supervisors of any township, in which appraised property is located a written notice stating the time when objections to the established minimum sale price will be heard. Any member or representative of the governing body of any taxing district may appear at the hearing with reference to the fair market value of appraised property, and the board may make appropriate changes in the minimum sale price of property.

SECTION 2. AMENDMENT. Section 57-28-17 of the North Dakota Century Code is amended and reenacted as follows:

57-28-17. Sale between annual sales - Reappraisal.

1. If the county continues to retain the property acquired by tax deed after the initial appraisal is conducted and the annual sale is held, the board may reappraise the value of the property at any time deemed necessary by the board. The reappraisal of the property must be completed at least thirty days before a subsequent annual sale under this chapter. Any property not sold at the annual November sale may be sold by the county auditor at private sale before the next annual November sale for not less than the property's minimum sale price. A parcel of real estate against which an unpaid special assessment continues as a lien under section 57-28-09 may be sold by the county auditor free of the lien if the governing body of the city in which the property is located finds that the sum of the minimum sale price and the unpaid special assessment exceeds the market value of the property. If the governing body of the city makes this finding, it may cancel all or part of the special assessment lien against the property to reduce the lien to an amount which, when added to the minimum sale price, will be equal to the market value of the property. The action of the governing body shall be certified by the city auditor or clerk to the county auditor. The county auditor may then sell the property at private sale before the next annual November sale for not less than the resulting amount. The purchaser acquires the property free from any part of any lien for special assessment which was canceled by the governing

body of the city, and the county auditor shall remove from the record any canceled special assessments.

2. Notwithstanding the provisions of this section or other provisions of law, any property acquired by the county which is subject to a special assessment lien for improvements made by a city may be sold to that city for cash at any price agreed upon by the board of county commissioners and the governing body of the city.

SECTION 3. AMENDMENT. Section 57-28-18 of the North Dakota Century Code is amended and reenacted as follows:

57-28-18. Terms of private sale and distribution of proceeds.

1. Any private sale of real property made between the annual November sales must be made upon the same terms and conditions as a sale may be made at the November sale, unless the board of county commissioners has had the property reappraised and has consented, by majority, to value the property at the reappraised price. The sale of farmland acquired by the county by tax deed is subject to any existing lease of the property for the year of the sale. If the farmland is to be sold by private sale to any person other than the former owner or other interested person, a deed or contract for deed may not be delivered to the purchaser until thirty days after service by certified mail upon the former owner or other interested party of the pending sale, the date when the sale will become final, and the amount required to repurchase the property. For the purposes of this section, "other interested party" means the executor, administrator, parent, spouse, or child of the former owner who has notified the county auditor in writing of that status, the address at which service may be made, and that the person should be notified of the expiration of the period of repurchase in connection with any private sale of the property.
2. In case of the sale, contract for sale, or repurchase by the former owner of tax deed property during January, the property must be assessed and taxed for that year, and the purchaser or repurchaser is entitled to the rental and landlord's share of crops on the property for the year. In case of the sale, contract for sale, or repurchase by the former owner of tax deed land after January, the property ~~must~~may not be assessed and taxed for that year, and the county is entitled to the rental and landlord's share of the crops on the property for the year. The proceeds realized from a sale between annual November sales must be apportioned in the same manner as the proceeds of the annual November sale.

For each reservation, the on-reservation trust lands acreage ratio is calculated by dividing the on-reservation spacing unit acreage consisting of trust lands by the total spacing unit acreage. For each reservation, the on-reservation nontrust lands acreage ratio is calculated by dividing the on-reservation spacing unit acreage consisting of nontrust lands by the total spacing unit acreage. The on-reservation acreage ratios for each reservation are effective for taxable production each fiscal year beginning July first. By August 1, 2021, and on or before June first of each subsequent fiscal year, the tax commissioner shall publish the on-reservation acreage ratios for each reservation.

The tax commissioner shall certify to the state treasurer the total oil and gas gross production and oil extraction taxes attributable to production from straddle wells drilled before July 1, 2019, by reservation, and the total oil and gas gross production and oil extraction taxes attributable to production from straddle wells drilled on or after July 1, 2019, by reservation. Before allocation of the state's share of oil and gas tax revenues under section 57-51.1-07.5, the state treasurer shall allocate monthly to the governing body of a tribe associated with a reservation that has on-reservation spacing unit acreage, an amount equal to:

 - b. Fifty percent of the taxes certified under this section for wells drilled before July 1, 2019, multiplied by the on-reservation nontrust lands acreage ratio calculated under subsection 1 for that reservation;

CHAPTER 484

HOUSE BILL NO. 1412

(Representatives Delzer, Headland, Pollert)
(Senators Bell, Wardner)

AN ACT to create and enact a new section to chapter 57-60 of the North Dakota Century Code, relating to an exemption from the coal conversion facilities privilege tax and the imposition of a lignite research tax; to amend and reenact section 57-60-02, subsection 1 of section 57-60-14, and section 57-61-01 of the North Dakota Century Code, relating to an exemption from the coal conversion facilities tax, allocation of the coal conversion facilities privilege tax and the lignite research tax, and an exemption from the coal severance tax; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-60-02 of the North Dakota Century Code is amended and reenacted as follows:

57-60-02. Imposition of taxes.

There is hereby imposed upon the operator of each coal conversion facility a tax paid monthly for the privilege of producing products of such coal conversion facility. The rate of the tax must be computed as follows:

1. For all coal conversion facilities, except as otherwise provided in this section, the tax is measured by the gross receipts derived from the facility for the preceding month and is in the amount of two percent of its gross receipts. Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.
2. For electrical generating plants, the tax is at a rate of sixty-five one-hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. ~~The board of county commissioners may, by resolution, grant to the operator of an electrical generating plant located within the county partial or complete exemption from the remaining fifteen percent of the tax imposed by this subsection for a period not exceeding five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. If a board of county commissioners grants a partial or complete exemption for a specific coal conversion facility under this subsection, the provisions of subsection 2 of section 57-60-14 do not apply as that subsection relates to revenue from the specific unit of the coal conversion facility for which the partial or complete exemption has been granted. Notwithstanding section 57-60-14, any tax collected from a unit subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15. If a unit is incapable of generating electricity for eighteen~~

consecutive months, the tax on that unit for taxable periods beginning after the eighteenth month must be reduced by the ratio that the cost of repair of the unit bears to the original cost of the unit. This reduced rate remains in effect until the unit is capable of generating electricity.

3. For electrical generating plants, in addition to the tax imposed by subsection 2, there is a tax at the rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale. For all electrical generating plants that begin construction or complete repowering, the production from the plants is exempt from the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the plant.
4. For coal gasification plants, the tax is the greater of either the amount provided in subsection 1 or thirteen and one-half cents on each one thousand cubic feet [28316.85 liters] of synthetic natural gas produced for the purpose of sale but not including any amount of synthetic natural gas in excess of one hundred ten million cubic feet per day.
5.
 - a. For all coal conversion facilities, other than electrical generating plants, the production from the facilities is exempt from eighty-five percent of the tax imposed by this section for a period of five years from the date of first taxable production from the facility. The operator of each facility applying for exemption under this subsection shall certify to the tax commissioner the date of first taxable production of the facility.
 - b. ~~The board of county commissioners may, by resolution, grant to the operator of a coal conversion facility, other than an electrical generating plant, located within the county a partial or complete exemption from the remaining fifteen percent of tax imposed by this section for a period not exceeding five years from the date of the first taxable production from the facility. Notwithstanding the provisions of section 57-60-14, any tax collected which is based upon the production of a facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.~~
6. For coal beneficiation plants, the tax is twenty cents on each ton of two thousand pounds [907.18 kilograms] of beneficiated coal produced for the purpose of sale, or one and one-quarter percent of the gross receipts derived from such facility for the preceding month, whichever amount is greater. Any amount of beneficiated coal produced in excess of eighty percent of the design capacity of the coal beneficiation plant or produced for use within a coal conversion facility is exempt from such tax.
7. With the exception of the tax imposed under subsection 3, the board of county commissioners, by resolution, may grant the operator of a plant or facility located within the county a partial or complete exemption from up to fifteen percent of the tax imposed under this section for a period not to extend past June 30, 2026. If a board of county commissioners grants a partial or complete exemption for a specific plant or facility under this subsection, subsection 2 of section 57-60-14 does not apply. Notwithstanding section 57-60-14, any tax collected from a plant or facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.

SECTION 2. A new section to chapter 57-60 of the North Dakota Century Code is created and enacted as follows:

Coal conversion facility tax - Exemption - Lignite research tax - Imposition.

1. Excluding the generation tax imposed under subsection 3 of section 57-60-02, a coal conversion facility is exempt from eighty-five percent of the tax imposed under section 57-60-02 and instead shall pay a lignite research tax equal to eighty-five percent of the tax imposed under section 57-60-02 multiplied by five percent.
2. An electrical generating plant is exempt from the generation tax imposed under subsection 3 of section 57-60-02 and instead shall pay a lignite research tax equal to the tax imposed under subsection 3 of section 57-60-02 multiplied by five percent.

SECTION 3. AMENDMENT. Subsection 1 of section 57-60-14 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~The~~At least quarterly, the state treasurer shall no less than quarterly allocate all moneys received from all coal conversion facilities in each county pursuant to the provisions of this chapter, fifteen percent to the county and eighty-five percent to the state general fund, except moneys received from the tax imposed by subsection 3 of section 57-60-02, which must be deposited in the state general fund. Five percent of all funds allocated to the state general fund pursuant to this chapter must be allocated to the:

SECTION 4. AMENDMENT. Section 57-61-01 of the North Dakota Century Code is amended and reenacted as follows:

57-61-01. Severance tax upon coal - Imposition - In lieu of sales and use taxes - Payment to the tax commissioner.

1. There is hereby imposed upon all coal severed for sale or for industrial purposes by coal mines within the state a tax of thirty-seven and one-half cents per ton of two thousand pounds [907.18 kilograms]. The severance tax is in lieu of any sales or use taxes imposed by law. Each coal mine owner or operator shall remit the tax for each month, within twenty-five days after the end of each month, to the tax commissioner on reports and forms as the tax commissioner deems necessary. For the purposes of this chapter, commercial leonardite is taxed in the same manner as coal.
2. The board of county commissioners, by resolution, may grant to the operator of a mine from which the coal or commercial leonardite is mined a partial or complete exemption from up to seventy percent of the tax imposed under this section for a period not to extend past June 30, 2026. Any tax revenue exceeding thirty percent of the tax imposed under this subsection must be allocated to the county under subsection 3 of section 57-62-02.

SECTION 5. EFFECTIVE DATE. This Act is effective for taxable production beginning after June 30, 2021.

SECTION 6. EXPIRATION DATE. This Act is effective through June 30, 2026, and after that date is ineffective.

If the ~~state engineer department~~ determines the issues, facts, and law to be presented are well-founded and not frivolous, and the request for a hearing was not made merely to interpose delay, the ~~state engineer department~~ shall set a hearing date without undue delay.
5. In the event of an emergency, the ~~state engineer department~~ immediately may immediately apply to the district court of the county in which the property is located for an injunction ordering the person responsible to modify, remove, abate, or otherwise eliminate the dangerous condition.

SECTION 153. AMENDMENT. Section 61-16.2-01 of the North Dakota Century Code is amended and reenacted as follows:

61-16.2-01. Legislative intent and purpose.

The legislative assembly finds and declares that a large portion of the state's land resources is subject to recurrent flooding by overflow of streams and other watercourses causing loss of life and property, disruption of commerce and governmental services, unsanitary conditions, and interruption of transportation and communications, all of which are detrimental to the health, safety, welfare, and property of the occupants of flooded lands and the people of this state. The legislative assembly further finds that public interest necessitates that the floodplains of this

state be developed in a manner which will alleviate loss of life and threat to health, and reduce private and public economic loss caused by flooding.

It is ~~therefore~~ the policy of this state and the purpose of this chapter to guide development of the floodplains of this state in accordance with the enumerated legislative findings, to reduce flood damages through sound floodplain management, stressing nonstructural measures such as floodplain zoning and floodproofing, acquisition and relocation, and flood warning practices; and to ensure as far as practicable that the channels and those portions of the floodplains of watercourses which are the floodways are not inhabited and are kept free and clear of interference or obstructions which may cause any undue restriction of the capacity of the floodways.

It is also the policy of this state and purpose of this chapter to provide state coordination and assistance to communities in floodplain management activities, to encourage communities to adopt, administer, and enforce sound floodplain management ordinances, and to provide the ~~state engineer with~~ department of water resources the authority necessary to carry out and enforce a floodplain management program for the state and to coordinate federal, state, and local floodplain management activities in this state.

A permit may not be granted until an investigation discloses that the quantity of water which will be drained from the pond, slough, lake, or sheetwater, or any series thereof ~~of those water bodies~~, will not flood or adversely affect downstream lands. If the investigation shows that the proposed drainage will flood or adversely affect lands of downstream landowners, the

water resource board may not issue a permit until flowage easements are obtained. The flowage easements must be filed for record in the office of the recorder of the county or counties in which the lands are situated. An owner of land proposing to drain shall undertake and agree to pay the expenses incurred in making the required investigation. - b. Subsurface water management systems that use surface intakes must be permitted exclusively under this section if the system will have a drainage coefficient of three-eighths of an inch [0.95 centimeters] or less. Subsurface water management systems that use surface intakes must be permitted exclusively under section 61-32-03 if the system will have a drainage coefficient exceeding three-eighths of an inch [0.95 centimeters].
- c. Installation of a subsurface water management system comprising less than eighty acres [32.37 hectares] of land area does not require a permit.
2. a. The ~~state engineer~~department of water resources shall develop an application form for a permit required under this section. A person seeking to construct a subsurface water management system that requires a permit under this section must submit a completed application to the water resource district board within which is found a majority of the land area for consideration and approval. The water resource district board may charge permit applicants a fee up to one hundred fifty dollars. Water resource districts shall forward copies of all approved permits to the ~~state engineer~~department of water resources.
- b. Upon submission of a completed application for a permit, the water resource district board immediately shall give notice and a copy of the submission via certified mail to each owner of land within one mile [1.61 kilometers] downstream of the proposed subsurface water management

system outlet unless the distance to the nearest waterway depicted as a perennial or intermittent stream or river on a United States geological survey topography map, assessment drain, natural watercourse, slough, or lake is less than one mile [1.61 kilometers], in which case notice and a copy of the submission must be given immediately to each owner of land between the outlet and the nearest assessment drain, natural watercourse, slough, or lake. The notice requirement in this section must be waived if the applicant presents signed, notarized letters of approval from all downstream landowners entitled to notice in this subsection.

3. a. If the water resource board receives notarized letters of approval from all downstream landowners entitled to notice, the board shall approve the completed permit application as soon as practicable but no later than thirty days after receipt of the last letter. Otherwise, the water resource board shall review the completed application at its next meeting that is at least thirty days after receipt of the application. The board shall consider any written, technical evidence provided by the applicant or a landowner notified under subsection 2 addressing whether the land of a notified landowner will be flooded or unreasonably harmed by the proposed subsurface water management system. For purposes of this section "technical evidence" means written information regarding the proposed subsurface water management system, prepared after consideration of the design and physical aspects of the proposed system, and any adverse hydraulic effects, including erosion, flood duration, crop loss, and downstream water control device operation impacts, which may occur to land owned by a landowner provided under subsection 2. Technical evidence must be submitted to the permit applicant, notified landowners, and the board within thirty days of the receipt of the completed permit application by the board. A notified landowner may not object to the proposed system unless the landowner presents technical evidence under this subsection.

If the board finds, based on technical evidence, the proposed subsurface water management system will flood or unreasonably harm lands of a landowner notified under subsection 2, the board may require the applicant to obtain a notarized letter of approval before issuing a permit for the system. The board may not require a letter of approval for any land downstream of a system that outlets into an assessment drain, natural watercourse, or pond, slough, or lake if notified landowners did not provide technical evidence to the district.
- c. A water resource district may attach reasonable conditions to an approved permit for a subsurface water management system that outlets directly into a legal assessment drain or public highway right of way. For purposes of this subsection, "reasonable conditions" means conditions that address the outlet location, proper erosion control, reseeding of disturbed areas, installation of riprap or other ditch stabilization, and conditions that require all work to be done in a neat and professional manner. Any condition to locate the project a minimum distance from rural water supply lines may not extend beyond an existing easement for lines, or no greater than twenty feet [6.1 meters] from either side of the water line if the rural water line was installed under a blanket easement.
- d. A water resource district may require a subsurface water management system granted a permit under this section to incorporate a control

structure at the outlet into the design of the system and may require the control structure be closed during critical flood periods.

- e. A water resource district board may not deny a completed permit application under this section unless the board determines, based on technical evidence submitted by a landowner notified under subsection 2, the proposed water management system will flood or unreasonably harm land of a notified landowner, and a notarized letter of approval required by the board has not been obtained by the applicant. For purposes of this section, "unreasonable harm" is limited to hydraulic impacts, including erosion or other adverse impacts that degrade the physical integrity of a roadway or real property within one mile [1.61 kilometers] downstream of the system's outlet. The board shall include a written explanation of the reasons for a denial of a completed application and notify, by certified mail, the applicant and all landowners notified under subsection 2 of the approval or denial.
 - f. The board may not deny a permit more than sixty days after receipt of the completed application for the permit. If the board fails to deny the permit application within sixty days of receipt, the permit application is deemed approved.
4. A denial of a completed permit application by a water resource district board may be appealed, under section 28-34-01, to the district court of the county in which the permit application was filed. The court may approve a completed permit application denied by a water resource district board or the state engineer department of water resources if the application meets the requirements of this section.
 5. A water resource district board may not be held liable to any person for issuing a permit under this section.
 6. A person that installs a subsurface water management system requiring a permit under this section without first securing the permit is liable for all damages sustained by a person caused by the subsurface water management system.
 7. A person that installs a subsurface water management system requiring a permit under this section without first securing the permit is guilty of an infraction.

Upon assessment of costs, the ~~state engineer~~department shall certify the assessment to the county auditor of the county where the noncomplying drain, lateral drain, or ditch is located. The county auditor shall extend the assessment against the property assessed. Each assessment must be collected and paid as other property taxes are collected and paid. Assessments collected must be deposited with the state treasurer and credited to the contract fund established by section 61-02-64.1. Any person aggrieved by action of the ~~state engineer~~department under the provisions of this section may appeal the decision of the ~~state engineer~~department to the

The state's attorney shall prosecute the complaint under the statutory responsibilities prescribed in chapter 11-16.
7. In addition to the penalty imposed by the court on conviction under this statute, the court shall order the drain, lateral drain, or ditch closed or filled within a reasonable time period as the court determines, but not less than thirty days. If the drain, lateral drain, or ditch is not closed or filled within the time prescribed by the court, the court shall procure the closing or filling of the drain, lateral drain, or ditch, and assess the cost against the property of the landowner responsible, in the same manner as other assessments under chapter 61-16.1 are levied. If, in the opinion of the court, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in proportion to the responsibility of the landowners.

SECTION 184. AMENDMENT. Section 61-33-01 of the North Dakota Century Code is amended and reenacted as follows:

61-33-01. Definitions.

As used in this chapter, unless the context otherwise requires:

1. "Board" means the sovereign lands advisory board.
2. "Board of university and school lands" means that entity created by section 15-01-01.
3. "Navigable waters" means waters that were in fact navigable at the time of statehood, and that are used, were used, or were susceptible of being used in their ordinary condition as highways for commerce over which trade and travel were or may have been conducted in the customary modes of trade on water.
4. "Ordinary high water mark" means that line below which the presence and action of the water upon the land is continuous enough so as to prevent the growth of terrestrial vegetation, destroy its value for agricultural purposes by preventing the growth of what may be termed an ordinary agricultural crop, including hay, or restrict its growth to predominantly aquatic species.
5. "Sovereign lands" means those areas, including beds and islands, lying within the ordinary high water mark of navigable lakes and streams. Lands established to be riparian accretion or reliction lands pursuant to section 47-06-05 are considered to be above the ordinary high water mark and are not sovereign lands.

6. "State engineer" means the person appointed by the state water commission pursuant to section 61-03-01.

SECTION 185. AMENDMENT. Section 61-33-01.1 of the North Dakota Century Code is amended and reenacted as follows:

61-33-01.1. Ordinary high water mark determination - Factors to be considered.

The ~~state engineer~~department of water resources shall maintain ordinary high water mark delineation guidelines consistent with this section.

1. When determining the ordinary high water mark for delineating the boundary of sovereign lands, vegetation and soils analysis must be considered the primary physical indicators. When considering vegetation, the ordinary high water mark is the line below which the presence and action of the water is frequent enough to prevent the growth of terrestrial vegetation or restrict vegetation growth to predominately aquatic species. Generally, land, including hay land, where the high and continuous presence of water has destroyed the value of the land for agricultural purposes must be deemed within the ordinary high water mark.
2. When feasible, direct hydrological and hydraulic measurements from stream gauge data, elevation data, historic records of water flow, high resolution light detection and ranging systems, prior elevation and survey maps, and statistical hydrological evidence must be considered when determining the ordinary high water mark. The ~~state engineer~~department of water resources shall establish appropriate guidelines, technical standards, and other criteria, including use of light detection and ranging systems or other future technological advancements, as necessary, for conducting hydrologic and hydraulic modeling required by this section.
3. Secondary physical indicators, including litter, debris, or staining, may be considered to supplement the analysis of the ordinary high water mark investigation but may not supersede primary physical indicators unless primary physical indicators are deemed inadequate or inconclusive. Physical indicators directly affected by influent non-navigable tributaries, adjoining water bodies, or wetlands may not be used to delineate the sovereign land boundary of a navigable body of water.

SECTION 186. AMENDMENT. Section 61-33-02 of the North Dakota Century Code is amended and reenacted as follows:

61-33-02. Administration of sovereign lands.

All ~~such~~ possessory interests in oil, gas, and related hydrocarbons in the sovereign lands of the state are transferred to the state of North Dakota, acting by and through the board of university and school lands. These transfers are self-executing. No evidence other than the provisions of this chapter is required to establish the fact of transfer of title to the state of North Dakota, acting by and through the state engineer ~~director of the department of water resources~~ and board of university and school lands. Proper and sufficient delivery of all title documents is conclusively presumed.

SECTION 188. AMENDMENT. Section 61-33-05 of the North Dakota Century Code is amended and reenacted as follows:

61-33-05. Duties and powers of the state engineer ~~department of water resources~~.

The state engineer ~~department of water resources~~ shall manage, operate, and supervise all properties transferred to it by this chapter; may enter into any agreements regarding ~~such~~ the property; may enforce all rights of the owner in its own name; may issue and enforce administrative orders and recover the cost of the enforcement from the party against which enforcement is sought; and may make and execute all instruments of release or conveyance as may be required pursuant to agreements made with respect to ~~such~~ the assets, whether ~~such~~ the agreements were made heretofore, or are made hereafter ~~before or after this section was enacted~~. After completing the requirements of subsection 2 and making a determination of navigability, the ~~state engineer department of water resources~~ shall prepare a report regarding the determination, including summaries of the information provided to the state water commission, the public hearings held, and the public comments received. The ~~state engineer department~~ shall provide the report to the state water commission, send the report by certified mail to any person that appeared at the public hearing required under subsection 2 or provided written comments by the deadline, make the report available to the public, including on the website for the office of the secretary of state, and provide public notice of the report's availability. The report is final on the date it is provided to the state water commission.

The signatures of the corporation's or cooperative's officers on the petition and a resolution adopted by the members in the manner provided in section 10-15-37 for amendments to articles or in the manner provided in chapter 10-33 for dissolution, ~~as the case may be~~, approving the petition suffice in lieu of signatures of owners of fifty percent of the real property in the proposed district, if the petition presenter provides evidence satisfactory to the state engineer department that a sufficient number of members of the proposed district will subscribe or have subscribed to benefit units to make its operation feasible. The procedure for hearing and determination of disposition of the petition is as provided by this chapter. In any

district organized upon the petition of a nonprofit corporation or cooperative association, the following procedures apply:

1. After final approval of the petition by the ~~state engineer department~~, the secretary of the corporation or cooperative shall file a notice with the secretary of state or attorney general, if applicable, in accordance with title 10.
2. Upon filing of the notice, the nonprofit corporation or cooperative ceases to exist as a title 10 entity and all assets and liabilities of the nonprofit corporation or cooperative become the assets and liabilities of the newly organized district without any further meetings, voting, notice to creditors, or other actions by the members of the board.
3. The officers and board of directors of the corporation or cooperative are the officers and board of the district.
4. The applicable laws of the state and the articles of incorporation and bylaws of the corporation or cooperative control the initial size and initial term of office of officers and the board, in lieu of sections 61-35-08 through 61-35-11.
5. The district shall bring its operation and structure into compliance with the requirements of section 61-35-08 regarding the number and qualification of directors, section 61-35-09 regarding new bylaws, section 61-35-10 regarding dividing its directors into classes, and section 61-35-11 regarding board meetings at the first annual meeting of the participating members and board. The new district has all the rights and all the property of the original corporation or cooperative and is responsible for all its obligations. Title to any property is vested in the new district with no reversion or impairment of ownership rights caused by the conversion to a district. A water supply agreement entered by a nonprofit corporation or cooperative association is binding for its term on a successor district organized by the nonprofit corporation or cooperative association, unless otherwise agreed in writing by all parties to the agreement. The right of any creditor may not be impaired by this section without the creditor's consent.

 - f. Construction or maintenance of farm roads or forest roads, or temporary roads for moving mining equipment, where ~~such~~the roads are constructed and maintained, in accordance with best management practices, to assure ~~that~~ flow and circulation patterns and chemical and biological characteristics of the waters of the state are not impaired, ~~that~~ the reach of the waters of the state is not reduced, and ~~that~~ any adverse effect on the aquatic environment will be otherwise minimized; or
 - g. The placement of fill material associated with activities ~~which~~ the state regulates by requiring best management practices under chapter 61-28.
2. Any discharge of dredged or fill material into waters of the state incidental to any of the activities identified in subdivisions a through g of subsection 1 must have a permit if it is part of an activity ~~whose purpose is to convert~~with the purpose of converting an area of waters of the state into a use to which it was not previously subject, where the flow or circulation of waters of the state may be impaired or the reach of such waters reduced, or if the discharge contains a toxic pollutant. Where the proposed discharge will result in significant discernible alterations to flow or circulation, the presumption is ~~that~~ flow or circulation may be impaired by ~~such~~the alteration.

SECTION 223. AMENDMENT. Section 61-39-01 of the North Dakota Century Code is amended and reenacted as follows:

61-39-01. Findings and declaration of policy.

The legislative assembly declares that many areas and localities in eastern and central North Dakota do not enjoy adequate quantities of high-quality drinking water; that other areas and localities in eastern and central North Dakota do not have sufficient quantities of water to ensure a dependable, long-term supply; that greater economic security and the protection of health and property benefits the land and water resources of this state; and that the promotion of the prosperity and general welfare of all of the people of this state depend on the effective development and utilization of the land and water resources of this state and ~~necessitates and~~ requires the exercise of the sovereign powers of this state and concern a public purpose. To accomplish this public purpose, ~~it is declared necessary that~~ a water authority is needed to store and distribute water to eastern and central North Dakota ~~be established~~ to provide for the supply and distribution of water to the people of eastern and central North Dakota for purposes, including domestic, rural water, municipal, livestock, industrial, and other uses, with primary emphasis on domestic, rural water, and municipal uses; and provide for the future economic welfare and prosperity of the people of this state, and particularly the people of eastern and central North Dakota, by the bulk purchase of water from the Garrison Diversion Conservancy District delivered by the Red River valley water supply project for beneficial and public uses. The Garrison Diversion Conservancy District may acquire, construct, and improve, ~~and own~~ the Red River valley water supply project and may enter water supply contracts with member cities and water districts for the sale of water for consumption within or outside the district or the state, including with Canada. Alternatively, the Lake

Agassiz water authority may enter one or more contracts to provide for the authority to acquire bulk water from the Garrison Diversion Conservancy District and may enter water supply contracts with member cities and water districts for the resale of this water for consumption within or outside the state.

The legislative assembly acknowledges that North Dakota and Minnesota communities jointly use the Red River as a water resource. It is in the best interest of eastern North Dakota also to study and possibly provide for the water needs of those Minnesota communities through a Red River valley water supply project, particularly if that project maintains the use of the Red River for North Dakota communities.

In furtherance of this public purpose, the state water commission may provide for the issuance of bonds in accordance with chapter 61-02 to finance the costs of any project to deliver water to eastern and central North Dakota or utilize other financing as addressed in this chapter. This chapter does not abrogate or limit the rights, powers, duties, and functions of the state water commission or ~~state engineer~~ department of water resources, but is supplementary to those rights, powers, duties, and functions.

SECTION 224. AMENDMENT. Section 61-40-07 of the North Dakota Century Code is amended and reenacted as follows:

61-40-07. Easement granted for pipelines and appurtenant facilities on any public lands.

In connection with the construction and development of the project, there is granted over all the lands belonging to the state, including lands owned or acquired for highway right-of-way purposes, a right of way for pipelines, connections, valves, and all other appurtenant facilities constructed as part of the project. However, ~~the director of the department of transportation and the state engineer must approve the plans of the authority with respect to the use of right of way of roads~~ must be approved by the director of the department of transportation and the director of the department of water resources before the grant becomes effective.

HOUSE BILL NO. 1437

(Representatives Schreiber-Beck, D. Anderson, Beltz, D. Johnson, J. Nelson, O'Brien, Schmidt)
(Senators Klein, Kreun)

AN ACT to create and enact section 61-32-03.2 of the North Dakota Century Code, relating to small subsurface water management systems; to amend and reenact subsection 3 of section 61-02-01.4 and section 61-32-03.1 of the North Dakota Century Code, relating to large subsurface water management system permits and the state water commission cost-share policy; to provide a penalty; to provide an expiration date; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 3 of section 61-02-01.4 of the North Dakota Century Code is amended and reenacted as follows:

3. Must consider all project costs potentially eligible for reimbursement, except the commission shall exclude operations expense, regular maintenance, and removal of vegetative materials and sediment, for assessment drains, and may exclude operations expense and regular maintenance for other projects. Snagging and clearing of watercourses are not regular maintenance and deepening or widening of existing drains are eligible for reimbursement. The commission shall require a water project sponsor to maintain a capital improvement fund from the rates charged customers for future extraordinary maintenance projects as condition of funding an extraordinary maintenance project.

³⁴³ **SECTION 2. AMENDMENT.** Section 61-32-03.1 of the North Dakota Century Code is amended and reenacted as follows:

61-32-03.1. Permit to drain subsurface waters required - Permit form - Penalty.

- 1.a. Installation of a subsurface water management system comprising eighty acres [32.37 hectares] of land area or more requires a permit. ~~The watershed area drained by a subsurface water management system may not be used to determine whether the system requires a permit under this section. A person that violates this section is guilty of an infraction.~~
- b. ~~Subsurface water management systems that use surface intakes or lift stations must be permitted exclusively under this section if the system will have a drainage coefficient of three-eighths of an inch [0.95 centimeters] or less. Subsurface water management systems that use surface intakes must be permitted exclusively under section 61-32-03 if the system will have a drainage coefficient exceeding three-eighths of an inch [0.95 centimeters].~~

³⁴³ Section 61-32-03.1 was also amended by section 182 of House Bill No. 1353, chapter 488.

- e. ~~Installation of a subsurface water management system comprising less than eighty acres [32.37 hectares] of land area does not require a permit.~~
2. For purposes of this section, a "natural watercourse" includes, in addition to watercourses defined in section 61-01-06, any waterway depicted as a perennial or intermittent stream or river on a United States geological survey topography map.
3. a. ~~The state engineer shall develop an application form for a permit required under this section. A person seeking to construct a subsurface water management system that requires a permit under this section must~~shall submit a completed application to the water resource district board within which is found a majority of the land area for consideration and approval. The water resource district board may charge permit applicants a fee up to one five hundred fifty dollars. ~~Water resource districts shall forward copies of all approved permits to the state engineer~~The fee must be paid before the water resource district may approve the application.
- b. ~~Upon submission of a completed application for a permit, the water resource district board immediately shall give notice and a copy of the submission via certified mail to each owner of land within one mile [1.61 kilometers] downstream of the proposed subsurface water management system outlet unless the distance to the nearest waterway depicted as a perennial or intermittent stream or river on a United States geological survey topography map, assessment drain, natural watercourse, slough, or lake is less than one mile [1.61 kilometers], in which case notice and a copy of the submission must be given immediately to each owner of land between the outlet and the nearest assessment drain, natural watercourse, slough, or lake. The notice requirement in this section must be waived if the applicant presents signed, notarized letters of approval from all downstream landowners entitled to notice in this subsection.~~
3. a. ~~If the water resource board receives notarized letters of approval from all downstream landowners entitled to notice, the board shall approve the completed permit application as soon as practicable but no later than thirty days after receipt of the last letter. Otherwise, the water resource board shall review the completed application at its next meeting that is at least thirty days after receipt of the application. The board shall consider any written, technical evidence provided by the applicant or a landowner notified under subsection 2 addressing whether the land of a notified landowner will be flooded or unreasonably harmed by the proposed subsurface water management system. For purposes of this section "technical evidence" means written information regarding the proposed subsurface water management system, prepared after consideration of the design and physical aspects of the proposed system, and any adverse hydraulic effects, including erosion, flood duration, crop loss, and downstream water control device operation impacts, which may occur to land owned by a landowner provided under subsection 2. Technical evidence must be submitted to the permit applicant, notified landowners, and the board within thirty days of the receipt of the completed permit application by the board. A notified landowner may not object to the proposed system unless the landowner presents technical evidence under this subsection.~~

- b. ~~If the board finds, based on technical evidence, the proposed subsurface water management system will flood or unreasonably harm lands of a landowner notified under subsection 2, the board may require the applicant to obtain a notarized letter of approval before issuing a permit for the system. The board may not require a letter of approval for any land downstream of a system that outlets into an assessment drain, natural watercourse, or pond, slough, or lake if notified landowners did not provide technical evidence to the district.~~
 - c. ~~A water resource district may attach reasonable conditions to an approved permit for a subsurface water management system that outlets directly into a legal assessment drain or public highway right of way. For purposes of this subsection, "reasonable conditions" means conditions that address the outlet location, proper erosion control, reseeding of disturbed areas, installation of riprap or other ditch stabilization, and conditions that require all work to be done in a neat and professional manner. Any condition to locate the project a minimum distance from rural water supply lines may not extend beyond an existing easement for lines, or no greater than twenty feet [6.1 meters] from either side of the water line if the rural water line was installed under a blanket easement.~~
 - d. ~~A water resource district may require a subsurface water management system granted a permit under this section to incorporate a control structure at the outlet into the design of the system and may require the control structure be closed during critical flood periods.~~
 - e. ~~A water resource district board may not deny a completed permit application under this section unless the board determines, based on technical evidence submitted by a landowner notified under subsection 2, the proposed water management system will flood or unreasonably harm land of a notified landowner, and a notarized letter of approval required by the board has not been obtained by the applicant. For purposes of this section, "unreasonable harm" is limited to hydraulic impacts, including erosion or other adverse impacts that degrade the physical integrity of a roadway or real property within one mile [1.61 kilometers] downstream of the system's outlet. The board shall include a written explanation of the reasons for a denial of a completed application and notify, by certified mail, the applicant and all landowners notified under subsection 2 of the approval or denial.~~
 - f. ~~The board may not deny a permit more than sixty days after receipt of the completed application for the permit. If the board fails to deny the permit application within sixty days of receipt, the permit application is deemed approved.~~
4. ~~A denial of a completed permit application by a water resource district board may be appealed, under section 28-34-01, to the district court of the county in which the permit application was filed. The court may approve a completed permit application denied by a water resource district board or the state engineer if the application meets the requirements of this section.~~
 5. A completed permit application includes:
 - (1) A completed application form signed by an applicant and filed with the district;

-
- (2) Evidence of ownership for each parcel to be tiled according to the tax rolls of the county in which the parcel is located;
 - (3) A project design, including:
 - (a) A detailed drawing depicting the subsurface water management system's location overlain on an aerial photograph of the parcel;
 - (b) The system's location by legal description identifying either the relevant quarter, section, township, and range or the relevant block and lot number;
 - (c) The physical footprint of the system's layout;
 - (d) The tile-main sizes and locations;
 - (e) The laterals to the tile-main sizes and locations;
 - (f) Surface inlet sizes and locations; and
 - (g) Outlet sizes, locations, and types;
 - (4) A downstream flow map or depiction of the flow direction from each outlet location for one mile [1.61 kilometers] downstream which includes the location of the downstream parcels by legal description identifying either the relevant quarter, section, township, and range or the relevant block and lot number; and
 - (5) Evidence of ownership for each parcel within one mile [1.61 kilometers] downstream of each project outlet according to the tax rolls for the county in which the parcel is located, unless the distance to the nearest assessment drain, natural watercourse, slough, or lake is less than one mile [1.61 kilometers] downstream of a proposed outlet, in which case the applicant shall provide evidence of ownership for each parcel between the outlet and the nearest assessment drain, natural watercourse, slough, or lake.
- c. Unless the district notifies an applicant the application is incomplete and provides a list of information required to complete the application within three business days after the day the district receives the application, the application is deemed complete.
 - d. Detailed drawings submitted pursuant to subparagraph a of paragraph 3 of subdivision b as part of an application for a permit under this section after the effective date of this Act are exempt records under section 44-04-18 and may be provided to individuals only as necessary to make a decision whether to approve the permit.
4. A district may attach conditions to an approved permit for a subsurface water management system if the conditions address:
 - a. Outlet locations including requirements for pump and control structures to be installed no closer than twenty-five feet [7.62 meters] from the top of the back slope of an assessment drain;

- b. Installation and maintenance of proper erosion control at all outlets;
- c. Re-establishment of disturbed areas to previous conditions;
- d. The minimum distance from rural water supply lines. However, a district may not attach a condition requiring a system to extend beyond an existing easement for a rural waterline, or, if the rural waterline was installed under a blanket easement, requiring a system to extend beyond twenty feet [6.1 meters] from either side of a rural waterline;
- e. Installation and operation of control structures at project outlets including requirements for control structures to be closed or pump outlets to be turned off during critical flood periods;
- f. Requirements for a permittee to obtain an amendment to a permit for alterations to outlet locations, new outlets, or improvements resulting in drainage of additional acres;
- g. If the subsurface water management system will discharge into the watershed area of an assessment drain, inclusion of the relevant property into the assessment district for the assessment drain in accordance with the benefits the property receives, provided the property is not assessed already for the assessment drain. CHAPTER 500

HOUSE BILL NO. 1084

(Industry, Business and Labor Committee)
(At the request of Workforce Safety and Insurance)

AN ACT to create and enact a new section to chapter 65-02 of the North Dakota Century Code, relating to charging fees for outgoing file copies; to amend and reenact paragraph 3 of subdivision b of subsection 11 of section 65-01-02, section 65-01-11, subsections 2 and 3 of section 65-04-33, subsection 7 of section 65-05-08, sections 65-05-09, 65-05-10, 65-05-32, and 65-05-33, subsection 1 of section 65-05-35, subsections 3 and 6 of section 65-05.1-01, and subsection 2 of section 65-05.1-06.1 of the North Dakota Century Code, relating to definition of compensable injury, burden of proof involving recreational marijuana use, an employer's willful misrepresentation by statement or omission, reapplications following a refusal of job offer, calculation of temporary total, permanent total, and temporary partial disability using average weekly wage from the definition section, release of claim file information to survivors in death claims, a person who claims benefits or the employer of a person who claims benefits and makes a false statement or omission, presumed closed claims, and reapplications following completion of a rehabilitation retraining program; to provide a penalty; and to provide for application.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

³⁵⁰ **SECTION 1. AMENDMENT.** Paragraph 3 of subdivision b of subsection 11 of section 65-01-02 of the North Dakota Century Code is amended and reenacted as follows:

- (3) Any injury caused by the use of intoxicants, including recreational marijuana use, or the illegal use of controlled substances.

SECTION 2. AMENDMENT. Section 65-01-11 of the North Dakota Century Code is amended and reenacted as follows:

65-01-11. Burden of proof in compensation matters - Death certificate.

If the organization or an employer claims an employee is not entitled to the benefits of the North Dakota workforce safety and insurance law because the employee's injury was caused by the employee's willful intention to cause self-injury, or to injure another, or by reason of the voluntary impairment caused by use of alcohol, recreational marijuana use, or illegal use of a controlled substance by the employee, the burden of proving the exemption or forfeiture is on the organization or

³⁵⁰ Section 65-01-02 was also amended by section 508 of House Bill No. 1247, chapter 352, and section 1 of Senate Bill No. 2148, chapter 501.

on the person alleging the same; however, an alcohol concentration level at or above the limit set by the United States secretary of transportation in the Code of Federal Regulations in effect on August 1, 2011, or a level of an illegally used controlled substance or recreational marijuana sufficient to cause impairment found by a test conducted by a physician, qualified technician, chemist, or registered nurse at or above the cutoff level in the Code of Federal Regulations in effect on August 1, 2011, creates a rebuttable presumption the injury was due to impairment caused by the use of alcohol, recreational marijuana use, or the illegal use of a controlled substance. An employer who has a mandatory drug alcohol testing policy for work accidents, or an employer or a health care provider who has reasonable grounds to suspect an employee's alleged work injury was caused by the employee's voluntary impairment caused by use of alcohol, recreational marijuana use, or illegal use of a controlled substance may request the employee undergo testing to determine if the employee had alcohol, marijuana, or the controlled substance in the employee's system at levels greater than the limit set by the United States department of transportation at the time of the injury. If an employee refuses to submit to a reasonable request to undergo a test to determine if the employee was impaired or if an employee refuses to submit to a test for drugs or alcohol after a work accident as mandated by company policy, the employee forfeits all entitlement to workforce safety and insurance benefits arising out of that injury. Any claimant against the fund, however, has the burden of proving by a preponderance of the evidence that the claimant is entitled to benefits. If a claim for death benefits is filed, the official death certificate must be considered as evidence of death and may not be used to establish the cause of death.

SECTION 3. A new section to chapter 65-02 of the North Dakota Century Code is created and enacted as follows:

Fees for outgoing file copies.

The organization may charge a fee not exceeding twenty dollars for the first twenty-five pages and seventy-five cents per page after twenty-five pages when providing an outgoing file copy. In an electronic, digital, or other computerized format, the organization may charge a fee of thirty dollars for the first twenty-five pages and twenty-five cents per page after twenty-five pages. The fees include any administration cost, retrieval fee, or postage expense.

SECTION 4. AMENDMENT. Subsections 2 and 3 of section 65-04-33 of the North Dakota Century Code is amended and reenacted as follows:

2. a. An employer that willfully misrepresents to the organization or its representative, by statement or omission, the amount of payroll upon which a premium under this title is based, or that willfully fails to secure coverage for employees, is liable to the state in the amount of five thousand dollars plus three times the difference between the premium paid and the amount of premium the employer should have paid.
- b. The organization shall collect a penalty imposed under this subsection in a civil action in the name of the state, and the organization shall deposit a penalty collected under this subsection to the credit of the workforce safety and insurance fund.
- c. An employer that willfully misrepresents to the organization or its representative, by statement or omission, the amount of payroll upon which a premium under this title is based, or that willfully fails to secure coverage for employees, is guilty of a class A misdemeanor. If the premium due exceeds one thousand dollars, the penalty for willful failure

- to secure coverage or willful misrepresentation to the organization or its representative is a class C felony. If the employer is a corporation or a limited liability company, the president, secretary, treasurer, or person with primary responsibility is liable for the failure to secure workforce safety and insurance coverage under this subsection.
- d. In addition to the penalties prescribed by this subsection, the organization may initiate injunction proceedings as provided for in this title to enjoin an employer from unlawfully employing uninsured workers.
 - e. The cost of an investigation under this subsection which results in a criminal conviction may be charged to the employer's account and collected by civil action.
3. An employer that willfully makes a false statement or fails to make a statement in an attempt to preclude an injured worker from securing benefits or payment for services, or that willfully discharges or threatens to discharge an employee for seeking or making known the intention to seek workforce safety and insurance benefits is liable to the state in the amount of five thousand dollars. The organization shall collect a civil penalty imposed under this section in a civil action in the name of the state, and the organization shall deposit a penalty collected under this section to the credit of the workforce safety and insurance fund. A willful violation of this section is a class A misdemeanor. The cost of an investigation under this subsection which results in a criminal conviction may be charged to the employer's account and collected by civil action.

SECTION 5. AMENDMENT. Subsection 7 of section 65-05-08 of the North Dakota Century Code is amended and reenacted as follows:

7. If the employee voluntarily limits income or refuses to accept employment suitable to the employee's capacity, offered to or procured for the employee, the employee is not entitled to disability or vocational rehabilitation benefits during the limitation of income or refusal to accept employment unless the organization determines the limitation or refusal is justified. To receive additional disability or vocational rehabilitation benefits following an unjustified limitation or refusal, the employee shall meet the requirements of a reapplication for benefits as outlined in this section.

SECTION 6. AMENDMENT. Section 65-05-09 of the North Dakota Century Code is amended and reenacted as follows:

65-05-09. Temporary total or permanent total disability - Weekly and aggregate benefit.

1. If an injury causes temporary total or permanent total disability, the fund shall pay to the injured employee during that disability a weekly benefit equal to sixty-six and two-thirds percent of the gross average weekly wage of the injured employee, subject to a minimum of sixty percent and a maximum of one hundred twenty-five percent of the average weekly wage in the state. If an injured employee is disabled due to an injury, that injured employee's benefits will be based upon the injured employee's wage and the organization benefit rates in effect on the date of first disability.
- ~~4.2.~~ Unless otherwise provided in this subsection, if an injured employee suffers disability but is able to return to employment for a period of three consecutive

calendar months or more, that injured employee's benefits will be based upon the wage received at the time of the recurrence of the disability. If the wage received at the time of the recurrence of the disability is lower than the ~~injured employee's average weekly wage received before the injury~~ and the lower wage is due to the physical limitations of the compensable injury, the injured employee's benefits must be based upon the ~~injured employee's average weekly wage the injured employee received before the injury~~. It is the burden of the injured employee to show the inability to earn as much as the injured employee ~~earned before the injury~~ employee's average weekly wage is due to the physical limitation related to the injury. The organization benefit rates are those in effect at the time of that recurrence.

- 2-3. The disability benefit or the combined disability benefit and dependency award may not exceed the weekly wage of the injured employee after deductions for social security and federal income tax.
- 3-4. When an injured employee is permanently and totally disabled, must be maintained in a nursing home or similar facility, and has no dependent parent, spouse, or children, as much of that injured employee's weekly benefit as is necessary may be used by the organization to help defray the cost of the nursing home care.

SECTION 7. AMENDMENT. Section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

65-05-10. Partial disability - Weekly benefit.

- 1. If the injury causes temporary partial disability resulting in decrease of earning capacity, the disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly ~~wages before the injury~~ wage and the injured employee's wage-earning capacity after the injury in the same or another employment. Partial disability benefits are subject to a maximum of one hundred twenty-five percent of the average weekly wage in the state. The combined partial disability benefits, dependency allowance, and postinjury wage-earning capacity may not exceed ninety percent of the ~~preinjury~~ average weekly wage of the injured employee.
- 1-2. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the organization.
- 2-3. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The organization may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
- 3-4. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity if the job employs the employee to full work capacity in terms of

hours worked per week, and if the job is in a field related to the employee's transferable skills. The presumption may be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

SECTION 8. AMENDMENT. Section 65-05-32 of the North Dakota Century Code is amended and reenacted as follows:

65-05-32. Privacy of records and hearings - Penalty.

Information contained in the claim files and records of injured employees is confidential and is not open to public inspection, other than to organization employees or agents in the performance of their official duties. Providing further that:

1. Representatives of a claimant, whether an individual or an organization, may review a claim file or receive specific information from the file upon the presentation of the signed authorization of the claimant. However, reserve information may not be made available to the claimant or the claimant's representatives. Availability of this information to employers is subject to the sole discretion of the organization.
2. Employers or their duly authorized representatives who are required to have access to an injured employee's claim file for the performance of their duties may review and have access to any files of their own injured employees. An employer or an employer's duly authorized representative who willfully communicates information contained in an employee's claim file to any person who does not need the information in the performance of that person's duties is guilty of a class B misdemeanor.
3. Allied health care professionals treating or examining employees claiming benefits under this title, or allied health care professionals giving medical advice to the organization regarding any claim may, at the discretion of the organization, inspect the claim files and records of injured employees.
4. If an injured employee is deceased or is unable to communicate with the organization, the organization may provide the claim file to and communicate with relevant interested parties to properly adjudicate benefits.
5. Other persons may have access to and make inspections of the files, if such persons are rendering assistance to the organization at any stage of the proceedings on any matter pertaining to the administration of this title.
- ~~5-6.~~ The claimant's name; date of birth; injury date; employer name; type of injury; whether the claim is accepted, denied, or pending; and whether the claim is in active or inactive pay status will be available to the public. This information may not be released in aggregate form, except to those persons contracting with the organization for exchange of information pertaining to the administration of this title or except upon written authorization by the claimant for a specified purpose.
- ~~6-7.~~ At the request of a claimant, the organization may close the medical portion of a hearing to the public.

- ~~7-8.~~ The organization may release the social security number of an individual claiming entitlement to benefits under this title to health care providers or health care facilities for the purpose of adjudicating a claim for benefits.
- ~~8-9.~~ The organization may provide an injured employee's insurer information regarding the injured employee's claim.
- ~~9-10.~~ The organization may provide any state or federal agency any information obtained pursuant to the administration of this title. Any information so provided must be used for the purpose of administering the duties of that state or federal agency.

SECTION 9. AMENDMENT. Section 65-05-33 of the North Dakota Century Code is amended and reenacted as follows:

65-05-33. Filing false claim or false statement - Penalty.

1. A person who claims benefits or payment for services under this title or the employer of a person who claims benefits or payments for services is guilty of a class A misdemeanor if the person or employer does any one or more of the following:
 - a. Willfully files a false claim or makes a false statement or an omission in an attempt to secure payment of benefits or payment for services.
 - b. Willfully misrepresents that person's physical condition, including deceptive conduct which misrepresents that person's physical ability.
 - c. Has a claim for disability benefits that has been accepted by the organization and willfully fails to notify the organization of:
 - (1) Work or other activities as required under subsection 3 of section 65-05-08;
 - (2) The receipt of income from work; or
 - (3) An increase in income from work.
2. If any of the acts or omissions in subsection 1 are committed to obtain, or pursuant to a scheme to obtain, more than one thousand dollars in benefits or payment for services, the offense is a class C felony.
3. In addition to any other penalties provided by law, the person claiming benefits or payment for services in violation of this section shall reimburse the organization for any benefits paid based upon the false claim ~~or~~ false statement, or omission, and, if applicable, under section 65-05-29 and shall forfeit any additional benefits relative to that injury.
4. For purposes of this section, "statement" includes any testimony, claim form, notice, proof of injury, proof of return-to-work status, bill for services, diagnosis, prescription, hospital or doctor records, x-ray, test results, or other evidence of loss, injury, or expense.

SECTION 10. AMENDMENT. Subsection 1 of section 65-05-35 of the North Dakota Century Code is amended and reenacted as follows:

1. A claim for benefits under this title is presumed closed if the organization has not paid any benefit or ~~received a demand for payment of any benefit~~ for a period of four years.

SECTION 11. AMENDMENT. Subsections 3 and 6 of section 65-05.1-01 of the North Dakota Century Code are amended and reenacted as follows:

3. It is the goal of vocational rehabilitation to return the disabled employee to substantial gainful employment with a minimum of retraining, as soon as possible after an injury occurs. "Substantial gainful employment" means bona fide work, for remuneration, which is reasonably attainable in light of the individual's injury, functional capacities, education, previous occupation, experience, and transferable skills, and which offers an opportunity to restore the injured employee as soon as practicable and as nearly as possible to ninety percent of the injured employee's average weekly earnings ~~at the time of injury wage~~, or to sixty-six and two-thirds percent of the average weekly wage in ~~this~~ the state on the date the rehabilitation report is issued under section 65-05.1-02.1, whichever is less. The purpose of defining substantial gainful employment in terms of earnings is to determine the first appropriate priority option under subsection 4 which meets this income test set out above.
6. a. If the organization concludes that none of the priority options under subsection 4 are viable, and will not return the injured employee to the lesser of sixty-six and two-thirds percent of the average weekly wage in the state, or ninety percent of the injured employee's ~~preinjury earnings~~ average weekly wage, the employee shall continue to minimize the loss of earnings capacity, to seek, obtain, and retain employment:
 - (1) That meets the employee's functional capacities; and
 - (2) For which the employee meets the qualifications to compete.
- b. Under section 65-05-10, the organization shall award partial disability based on retained earnings capacity calculated under this section.
- c. For purposes of calculating partial disability based on a retained earnings capacity, an employee is presumed to be capable of earning the greater of the state's hourly minimum wage times the hours of release based on a valid functional capacities examination or the wages payable within the appropriate labor market. This presumption is rebuttable only upon a finding of clear and convincing medical and vocational evidence to the contrary. If the presumption is successfully rebutted, the employee may receive partial disability benefits based on a retained earnings capacity of zero.

SECTION 12. AMENDMENT. Subsection 2 of section 65-05.1-06.1 of the North Dakota Century Code is amended and reenacted as follows:

2. If the appropriate priority option is short-term or long-term training, the vocational rehabilitation award must be within the following terms:
 - a. For the employee's lost time, and in lieu of further disability benefits, the organization shall award a rehabilitation allowance. The rehabilitation allowance must be limited to the amount and purpose specified in the award, and must be equal to the disability and dependent benefits the employee was receiving, or was entitled to receive, prior to the award.

- b. The rehabilitation allowance must include, as chosen by the employee, an additional thirty percent of the rehabilitation allowance for expenses associated with maintaining a second domicile or for travel associated with attendance at a school or training institution when it is necessary for the employee to travel at least twenty-five miles [40.23 kilometers] one way. Travel must be calculated from the employee's residence to the school or training institution. If it is necessary for an employee to travel less than twenty-five miles one way to a school or training institution, the employee may qualify for an additional rehabilitation allowance as determined in accordance with the following schedule:

Round-trip mileage	Percentage increase in rehabilitation allowance
Under 10 miles	0
10 to 30 miles	10
31 to 49 miles	20

Travel must be calculated from the employee's residence to the school or training institution.

- c. The rehabilitation allowance must be limited to one hundred four weeks except in cases of catastrophic injury, in which case additional rehabilitation benefits may be awarded in the discretion of the organization. Catastrophic injury includes:
- (1) Paraplegia; quadriplegia; severe closed head injury; total blindness in both eyes; or amputation of an arm proximal to the wrist or a leg proximal to the ankle, caused by the compensable injury, which renders an employee permanently and totally disabled without further vocational retraining assistance; or
 - (2) Those employees the organization so designates, in its sole discretion, provided that the organization finds the employee to be permanently and totally disabled without further vocational retraining assistance. There is no appeal from an organization decision to designate, or fail to designate, an employee as catastrophically injured under this subsection.
- d. Notwithstanding the one hundred four-week limit of subdivision c to facilitate the completion of a retraining program, the organization may award a rehabilitation extension allowance that may not exceed twenty weeks.
- e. The rehabilitation award must include the cost of books, tuition, fees, and equipment, tools, or supplies required by the educational institution. The award may not exceed the cost of attending a public college or university in the state in which the employee resides, provided an equivalent program exists in the public college or university.
- f. If the employee successfully concludes the rehabilitation program, the organization may make, in its sole discretion, additional awards for actual relocation expenses to move the household to the locale where the injured employee has actually located work.
- g. If the employee successfully concludes the rehabilitation program, the organization may make, in its sole discretion, an additional award, not to

- exceed two months' disability benefit, to assist the employee with work search.
- h. If the employee successfully concludes the rehabilitation program, the employee is not eligible for further vocational retraining or total disability benefits unless the employee establishes a significant change in medical condition attributable to the work injury which precludes the employee from performing the work for which the employee was trained, or any other work for which the employee is suited and has sustained an actual wage loss caused by the significant change in the compensable medical condition. The organization may waive this section in cases of catastrophic injury defined by subdivision c.
- i. If the employee successfully concludes the rehabilitation program, the employee remains eligible to receive partial disability benefits, as follows:
- (1) Beginning the date at which the employee completes retraining, until the employee acquires and performs substantial gainful employment, the partial disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's ~~average weekly wages before the injury~~wage, and the employee's wage-earning capacity after retraining, as measured by the average wage in the employee's occupation, according to criteria established by job service North Dakota in its statewide labor market survey, or such other criteria the organization, in its sole discretion, deems appropriate. The average weekly wage must be determined on the date the employee completes retraining. The benefit continues until the employee acquires substantial gainful employment.
 - (2) Beginning the date at which the employee acquires substantial gainful employment, the partial disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injurywage, and the injured employee's wage-earning capacity after retraining, as determined under paragraph 1, or the injured employee's actual ~~postinjury~~ wage earnings after retraining, whichever is higher.
 - (3) The partial disability benefit payable under paragraphs 1 and 2 may not exceed the limitation on partial disability benefits contained in section 65-05-10.
 - (4) The partial disability benefits paid under paragraphs 1 and 2 may not together exceed one year's duration.
 - (5) For purposes of paragraphs 1 and 2, "substantial gainful employment" means full-time bona fide work, for a remuneration, other than make-work. "Full-time work" means employment for twenty-eight or more hours per week, on average.
 - (6) The organization may waive the one-year limit on the duration of partial disability benefits, in cases of catastrophic injury under subdivision c.

SECTION 13. APPLICATION. Sections 1, 2, 5, 6, 7, 8, 9, 10, 11, and 12 of this Act apply to all claims regardless of date of injury. Section 4 of this Act applies to all

65-01-16. Decisions by organization - Disputed decisions.

The following procedures must be followed in claims for benefits, notwithstanding any provisions to the contrary in chapter 28-32:

1. The organization shall send a copy of each initial claim form filed with the organization to the claimant's employer, by regular mail, along with a form for the employer's response, if the employer's response has not been filed at the time the claim is filed. ~~Failure of the employer to file a response within fourteen days from the day the response form was mailed to the employer constitutes the employer's admission that the information in the claim form is correct.~~
2. The organization may conduct a hearing on any matter within its jurisdiction by informal internal review of the information of record.
3. The organization may issue a notice of decision for any decision made by informal internal review and shall serve the notice of decision on the parties by regular mail. (Representative Marschall)

AN ACT to amend and reenact subsection 1 of section 54-03-02 of the North Dakota Century Code, relating to authority for the legislative assembly to conduct business in December of even-numbered years.

VETO

March 31, 2021

The Honorable Kim Koppelman
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, ND

Re: House Bill 1378

Dear Speaker Koppelman:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1378 and return it to the House.

Article IV of the North Dakota Constitution clearly states that members of the legislative assembly are to "meet in the seat of government in the month of December following the election of its members, thereof for organizational and orientation purposes."

At the conclusion of the organizational session, the legislative assembly "shall thereafter recess until twelve noon on the first Tuesday after the third day in January, or at such other time as may be prescribed by law but not later than the eleventh day in January."

House Bill 1378 attempts to circumvent the Constitution by allowing members of the legislative assembly to introduce, consider and vote on bills and resolutions in December of even-numbered years, as they would during the regular session that begins in January of odd-numbered years.

Introducing and acting on bills and resolutions is beyond the scope of the December "organizational and orientation purposes" as stated in the Constitution.

Currently, the North Dakota Century Code contains language that mirrors the Constitution, stating that after the December organizational session, the legislative assembly "shall thereafter recess" until January. House Bill 1378 attempts to sidestep the Constitution by replacing this explicitly mirrored language with conflicting direction that the assembly "then may recess" until January.

House Bill 1378 could have serious consequences. For example, because a newly elected governor and lieutenant governor, per the Constitution, are not sworn in until Dec. 15, House Bill 1378 could result in a new legislative assembly -including newly elected members - casting votes on new legislation in early December, to be acted upon by an outgoing governor just days before leaving office and before the new governor has an opportunity to consider the legislation.

Legislation worth considering in December should still be worth considering in January.

The existing process for convening a new legislative assembly as outlined in the North Dakota Constitution has served this state and its citizens well for decades and should remain intact.

For the reasons stated above, House Bill 1378 is vetoed.

Sincerely,

Doug Burgum

Governor

Re: House Bill 1298

Dear Speaker Koppelman:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1298 and return it to the House.

North Dakota today has a level playing field and fairness in girls' sports. House Bill 1298 purports that this long fairness is in immediate danger. There is no evidence to suggest this is true.

North Dakota has fairness in girls' and boys' sports in large part because of the caring and thoughtful leadership of the North Dakota High School Activities Association (NDHSAA) Board and its members. We have every confidence they will continue to ensure a level playing field for the more than 27,000 students who participate in North Dakota high school sports.

To date there has not been a single recorded incident of a transgender girl attempting to play on a North Dakota girls' team. Further, the NDHSAA already has regulations in place for participation in sex-separated interscholastic contests by transgender students. These regulations require transgender girls to undergo testosterone suppression treatment for gender transition for a full calendar year before they are eligible to compete in girls' sports.

This bill's proposed blanket prohibitions do not extend to students attending tribal or privately funded schools, thereby creating the potential for an unlevel playing field.

The most responsive sports governance is the organization closest to the teams and athletes they govern. If a question should arise related to a transgender student and athletic competition, the NDHSAA, parents, child, their health care provider, their school and their coaches are in the best position to manage that unique situation, especially given the child's right to privacy.

This bill would unnecessarily inject the state into a local issue by creating a ban with myriad unforeseen consequences.

For the reasons stated above, House Bill 1298 is vetoed.

Sincerely,

Doug Burgum

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 14-02.4 of the North Dakota Century Code is created and enacted as follows:

Athletic events exclusively for males or exclusively for females.

1. A public elementary or secondary school may not knowingly allow an individual of the opposite sex who is enrolled in a public elementary or secondary school to participate on a school-sponsored athletic team that is exclusively for females or exclusively for males.
2. For purposes of this section, sex means an individual's biological sex and is based solely on an individual's reproductive biology and genetics at birth.
3. This section may not be construed to prohibit a female from participating in a school-sponsored athletic team or event that is exclusively for males.

SECTION 2. LEGISLATIVE MANAGEMENT STUDY - STUDENT ATHLETIC EVENTS. VETO

May 7, 2021

The Honorable Brent Sanford
President of the Senate
North Dakota Senate Chambers
Bismarck, North Dakota

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2030 - the higher education challenge grant bill - and filed it with the Secretary of State. I also have vetoed Section 5 of SB 2030, relating to multimillion-dollar penalties directed toward our public higher education institutions and mandatory criminal charges against state employees.

Signing SB 2030 approves the appropriation of \$11,150,000 within Section 1 for the successful challenge grant program. This program provides \$1 of state match funding for every \$2 in private funding raised by our 11 publicly funded colleges and universities for student scholarships and the advancement of academics. This significant appropriation has the potential to generate over \$33 million for aspiring students and institutions over the next two years.

North Dakota has strong pro-life public policies, and our administration has a strong record of signing pro-life legislation into law.

Sections 2 and 4 of SB 2030 affirm existing pro-life state policy from 2011 which states, "An agency of the state may not fund, endorse, or support any program that, between normal childbirth and abortion, does not give preference, encouragement, and support to normal childbirth." These sections also add clarity into law that unless institutions abide by the pro-life policies, they are ineligible to receive any challenge grant dollars.

The North Dakota legislature has made clear, and our administration agrees, that taxpayer funding should not go toward funding abortions. Challenge grant dollars have not, and cannot, be used for that purpose.

Section 3 clarifies that the allocation of challenge grants now includes a separate allocation for the UNO School of Medicine and Health Sciences.

Signing the bill enacts Sections 1, 2, 3 and 4 into law.

However, the penalty provision of SB 2030, in Section 5, which was amended into the challenge grant bill, is problematic for multiple reasons and has been vetoed.

Section 5 threatens a \$2,800,000 penalty on each of our institutions of higher education that is void of due process and egregious in its amount, threatens mandatory criminal charges for state employees, and may be in direct conflict with House Bill 1503.

Known as the campus free speech bill, HB 1503 reinforces and strengthens First Amendment rights on college campuses and was passed by a significant majority of the legislature and signed into law on April 19, 2021. With Section 5 of SB 2030 vetoed, institutions will not be forced to choose between protecting First Amendment rights and facing severe penalties. Further, the penalty in Section 5 is imposed without due process. The State Board of Higher Education is simply instructed to deduct the \$2.8 million without providing the institution with formal notice, an opportunity for hearing, or a determination by an objective fact finder.

The \$2.8 million fixed penalty also would disproportionately affect the university system's smaller institutions, representing an average of 15.3% of the total funding formula appropriation for the 2021-2023 biennium at nine of the system's 11 institutions.

Although Section 5 creates an appropriate and needed exception for the UND School of Medicine and Health Sciences, it fails to include the same needed exception for the NDSU College of Health Professionals, which includes North Dakota's only school of pharmacy.

Lastly, should a state employee signing a contract unknowingly run afoul of Section 5, the bill mandates that the state's attorney "shall prosecute" the individual for a criminal charge punishable by 30 days in jail and a \$1,500 fine. This overreach removes prosecutorial discretion. Not surprisingly, leaders of our higher education institutions have shared that their faculty, researchers and grant officers are unwilling to take such a personal risk, thereby jeopardizing hundreds of millions of dollars in research funding and putting jobs, careers and faculty recruitment at severe risk across our university system.

sections that preserve the challenge grant program and affirm North Dakota's pro-life policies.

Re: House Bill 1323

Dear Speaker Koppelman:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1323 and return it to the House.

North Dakota law assigns the governor the responsibility "to minimize or avert the adverse effects of a disaster or emergency." Likewise, the state health officer is responsible for issuing "any orders relating to disease control measures deemed necessary to prevent the spread of communicable disease."

House Bill 1323 would prohibit a statewide elected official or the state health officer from mandating the use of a face mask, face shield or other face covering.

To strip future governors and their state health officers of any low-cost tool that might be used to save lives and livelihoods in a future pandemic or other emergency would be both irresponsible and an unnecessary risk to the future public health and well-being of North Dakota citizens.

North Dakota implemented the shortest statewide mask requirement in the country, lasting 65 days. This tool was used briefly and judiciously, in combination with other protocols, at a time when North Dakota's health care facilities and staff were overwhelmed with patients and pandemic-related deaths of North Dakota citizens

were peaking. These measures were followed by dramatic reductions in COVID-19 cases and hospitalizations.

The current pandemic has painfully demonstrated that viruses do not respect borders and localized protocols may, at peak times, not be adequate to mitigate infection rates and protect our most vulnerable citizens of all ages.

The statewide mask requirement was implemented in November only after officials in North Dakota's largest cities had already enacted local mask measures and they, along with an overwhelming majority of our health care leaders, doctors and medical professionals, were requesting a statewide mask requirement to help relieve the immense pressure on our overtaxed hospitals, long-term care facilities and exhausted frontline health care workers, and to slow the spread of COVID-19 and save lives. The statewide mask requirement was lifted on Jan. 18.

This bill removes a tool from the emergency toolkit that may be needed to help our state save lives and nimbly navigate future pandemics and their unknowable challenges. For the reasons stated above, House Bill 1323 is vetoed.

Sincerely,

Doug Burgum

Governor

SENATE BILL NO. 2290

(Senators Hogue, Holmberg, Wardner)
(Representative Delzer, Devlin, Pollert)

AN ACT to amend and reenact sections 54-16-04.1 and 54-16-04.2 of the North Dakota Century Code, relating to emergency commission and budget section approval to accept and disburse federal and other funds; and to declare an emergency.

VETO

April 26, 2021

The Honorable Brent Sanford
President of the Senate
North Dakota Senate Chambers
Bismarck, North Dakota

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2290 and return it to the Senate unsigned.

Three years ago, the North Dakota Supreme Court affirmed the separation of powers and resolved a dispute between the legislative and executive branches in *North Dakota Legislative Assembly v. Burgum*, 2018 ND 189, 916 N.W.2d 83. In this opinion, the Court held the State Legislature "may not delegate to another body the power to make law - to legislate." The Constitution grants the Legislature the authority to create law and appropriate funds. These duties cannot be delegated to a subset of legislators, such as the Budget Section, comprised of 42 of the legislature's 141 members.

Senate Bill 2290 not only ignores the holding of *Assembly v. Burgum*, it attempts to expand the Budget Section's authority, allowing it to reject an Emergency Commission approval and issue a revised decision. SB 2290 states any changes made by the budget section are "deemed to be approved by the emergency commission." The power to reject an Emergency Commission decision "without the further action of the passage by both houses of the Legislature and signing by the Governor" violates the separation of powers doctrine and is an unconstitutional exercise of authority. 2007 N.D. Op. Atty. Gen. No. L-08.

Senate Bill 2290 also creates operational issues between sessions for state government by limiting the aggregate amount of approvals each biennium by the Emergency Commission to \$50 million.

The total state biennial budget is over \$14 billion, including general, special, and federal funds. One percent of this budget would be over \$140 million. SB 2290 has a cap of \$50 million per biennium that can be approved by the Emergency Commission and Budget Section, and amounts greater than this would require the governor to call a special session. The cap is set so low that even a variance of less than 1/2 of one percent over the two-year budget cycle would trigger the need for a special session.

Special sessions are for addressing special circumstances as they arise, not for receiving incremental amounts of federal dollars in the normal execution of state business.

North Dakota has received approximately \$1.25 billion in CARES Act funding in the last year. Receipt and disbursement of these funds was handled through requests to the Emergency Commission. This long-established framework worked well to quickly distribute aid for COVID-19 relief for citizens, businesses, education and health care, within the designated federal guidelines under the Coronavirus Relief Fund rules.

North Dakota stands to receive additional federal funds under President Biden's "American Rescue Plan." Coronavirus Relief Fund and American Rescue Plan dollars are specifically referenced in a number of 2021-2023 appropriations bills.

The significant expansion of powers in Senate Bill 2290 clearly violates the separation of powers doctrine and attempts, via an unconstitutional \$50 million trigger, to force the Governor to call a special session to authorize expenditures of known or foreseeable federal funds. It may further result in the Legislative Assembly circumventing its constitutionally authorized 80-day limit per biennium.

For the reasons explained herein, I return Senate Bill 2290 to the Senate, unsigned.

Regards,

Doug Burgum

Governor

HOUSE CONCURRENT RESOLUTIONS

CHAPTER 512

HOUSE CONCURRENT RESOLUTION NO. 3001

(Legislative Management)
(Agriculture and Transportation Committee)

A concurrent resolution urging Congress to temporarily amend cargo carrying truck length and weight restrictions on state highways and interstates that are a part of the National Network to allow North Dakota and surrounding states to conduct a road train pilot program and to permanently amend the restrictions to allow road trains on the National Network highways and interstates if the pilot program is successful.

WHEREAS, the National Network is an approved network of state highways and interstates in the United States for use by large trucks and commercial truck drivers; and

WHEREAS, the National Network supports interstate commerce by regulating the size of trucks operating on the National Network through a federal cargo carrying length limitation of approximately 100 feet depending on truck configuration and a federal cargo carrying weight limitation of approximately 80,000 pounds gross vehicle weight; and

WHEREAS, grandfathered provisions in operation in the state at the time federal regulations were enacted provide trucks in North Dakota may be up to 110 feet in overall length and 105,500 pounds gross vehicle weight on permissible routes; and

WHEREAS, trucks operating on the 129,000 pound Limited Transportation Network may be up to 129,000 pounds gross vehicle weight on certain routes; and

WHEREAS, the United States is experiencing a shortage of approximately 900,000 truck drivers with commercial driver's licenses; and

WHEREAS, railroad infrastructure has diminished by approximately 40 percent between 1920 and 2017, from 5,400 miles of track to 3,330 miles of track; and

WHEREAS, it is becoming more difficult to meet increasing demands for freight and commodities in a timely and efficient manner due, in part, to the shortage of commercial truck drivers and the reduced railroad infrastructure; and

WHEREAS, a road train is a trucking vehicle consisting of two or more connected trailers or semitrailers linked and hauled by a single operating prime mover or tractor unit which may exceed overall length and total gross vehicle weight limitations, but not exceed current statutory axle load limitations; and

WHEREAS, Australia uses road trains to move freight in an efficient manner to meet demand; and

WHEREAS, allowing road trains to exceed federal truck length and total gross vehicle weight limitations may be a viable solution to the efficiency and capacity issues resulting from the shortage of commercial truck drivers and reduced railroad infrastructure by allowing commercial truck drivers to haul more freight in longer and heavier cargo loads;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-seventh Legislative Assembly urges the Congress of the United States to temporarily amend cargo carrying truck length and weight restrictions on state highways and interstates that are a part of the National Network to allow North Dakota and surrounding states to conduct a road train pilot program and to permanently amend the restrictions to allow road trains on the National Network highways and interstates if the pilot program is successful; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Speaker of the United States House of Representatives, the President Pro Tempore of the United States Senate, and each member of the North Dakota Congressional Delegation.

WHEREAS, the lignite coal industry employs 13,000 individuals with some of the highest wages in the state; and

BE IT FURTHER RESOLVED, that the federal government is urged to work with the state, the North Dakota Congressional Delegation, and the North Dakota lignite industry to design and implement regulatory programs based on sound science with inputs from local sources, recognize the status of existing technology, and develop timelines that make economic sense for the producers and consumers of electricity and byproducts derived from North Dakota lignite; and

BE IT FURTHER RESOLVED, that the federal government is urged to increase its partnership with the state of North Dakota and industry to develop technological solutions to enable the continuation of lignite-based electric generation; and

WHEREAS, when a nation pumps oil in its own vicinity, the costs of shipping, production, and labor are reduced considerably; and

WHEREAS, local energy production adds jobs to the economy, often in rural places that are economically depressed and need the financial assistance; and

WHEREAS, in 2018, cities, counties, and states enjoyed more than a \$4 billion surplus from mining activities, and schools and infrastructure improvements in rural and economically depressed areas benefited greatly from that surplus; and

HOUSE CONCURRENT RESOLUTION NO. 3047

(Representatives Louser, Becker, Jones, Kasper, B. Koppelman, K. Koppelman,
Pollert)

(Senators Meyer, Vedaa)

(Approved by the Delayed Bills Committee)

A concurrent resolution urging Congress not to adopt H.R. 1 of the 117th Congress.

WHEREAS, H.R. 1, a sweeping federal bill that would usurp the power of states to conduct elections as they see fit, against the intentions of our nation's founders, is currently under consideration by Congress; and

WHEREAS, Section 4 of Article I of the United States Constitution grants the legislative branch of each state the authority to prescribe the "Times, Places and Manner of holding Elections for Senators and Representatives," an authority Congress should supersede only in "extraordinary circumstances" according to Alexander Hamilton in Federalist Number 59; and

WHEREAS, voting laws have evolved across the 50 states over time, providing more and more access, security, and accuracy. However, most importantly, each of those same 50 states has created its own unique election systems. From who administers the elections, to how votes are cast, to how a vote is protected--each unique system was born of federalism; and

WHEREAS, the imperfection of voting laws across the country is not proof that H.R. 1 is necessary or appropriate, but rather evidence that United States citizens are continuing to strive toward a more perfect union; and

WHEREAS, forcing completely new standards, procedures, and expectations into state election systems, which are not built for those requirements, as is the case under H.R. 1, would bring chaos to those election systems, and that chaos would bring with it a lack of trust by the people in the results of those elections; and

WHEREAS, in North Dakota, we have developed a system that has ensured voters have confidence in the outcome of our elections. Voter fraud and voter suppression are exceedingly rare, and our efforts to strengthen the security of our elections have become a model for others;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-seventh Legislative Assembly affirms our belief in the federal structure of the United States government and declares current voting laws a credit to the design of federal government to allow for democratic experimentation throughout the several states; and

WHEREAS, accepting illegal aliens or assisting in propagation of illegal immigration, amidst the SARS-CoV-2 (COVID-19) pandemic, may harm the health, safety, and welfare of North Dakota citizens and may impose an unnecessary fiscal burden on those citizens; and

WHEREAS, in a letter to the United States Department of Homeland Security Secretary Alejandro Mayorkas dated March 23, 2021, Governor Doug Burgum stressed his administration's opposition to the transfer of detained illegal aliens from the southern border to North Dakota, stating "While our state willingly participates in the resettlement of legal, thoroughly vetted refugees, we strongly oppose any efforts to alleviate the southern border crisis of the overwhelming influx of migrants by transporting them to northern border states such as North Dakota"; and

CHAPTER 541

SENATE CONCURRENT RESOLUTION NO. 4012

(Senator Wardner)
(Representative Pollert)

A concurrent resolution to establish a state policy to support the reliability and resilience of the electric grid, ensure price transparency to consumers in electric markets, and incentivize carbon capture utilization and storage as an alternative to preserve dispatchable thermal electric generation and its associated benefits.

WHEREAS, the welfare of the citizens and economic security of this state depends on the reliability and resilience of the electric power supply; and

WHEREAS, maintaining a reliable and resilient grid with a combination of resources that has dependence on thermal electric generation fueled by abundant domestic coal and natural gas is essential to domestic energy and geopolitical security; and

WHEREAS, the variability of nondispatchable energy that is subsidized presents major challenges to the independent system operators responsible for the bulk power system reliability and resilience as they have less dispatchable thermal electric generation available; and

WHEREAS, electric power markets have been distorted by direct and indirect subsidies which has resulted in the undervaluation of dispatchable thermal electric power plants that are now at risk of early retirement that will further erode electric grid reliability and resilience; and

WHEREAS, regional utilities have announced plans to retire coal-fired electric generation facilities located in North Dakota and the region before the facilities' useful life while simultaneously making significant investments in nondispatchable energy projects; and

WHEREAS, these announcements create an urgent need for North Dakota to take actions to make clear the value of dispatchable power and address market distortions created by production of nondispatchable power both locally and regionally; and

WHEREAS, in both the Southwest Power Pool and Midcontinent Independent System Operator, state and federal policies mandating and incenting the deployment of significant nondispatchable energy are imposing reliability and resilience penalties on the bulk power system relied upon by the citizens and industries of North Dakota without due compensation for the true and total cost of those penalties; and

WHEREAS, planning by the Midcontinent Independent System Operator and the Southwest Power Pool includes major additions of transmission lines, synchronous condensers, static compensators, and other devices to provide grid attributes that are lost as dispatchable resources retire; and

WHEREAS, economics and scaling issues currently remain a challenge for energy storage technologies to provide sufficient capacity to replace dispatchable thermal electric generation and provide grid support; and

WHEREAS, North Dakota has long served as an energy producer and exporter for the Midwest and the nation and is situated uniquely to advance and benefit from carbon capture utilization and storage projects due to the state's significant lignite reserves and associated lignite-fired thermal electric generation and coal conversion facilities, geologic formations, the state's significant natural gas capture and electric power development opportunities, as well as the state's significant oil reserves that have high potential for enhanced oil recovery utilizing anthropogenic carbon dioxide captured from lignite- and gas-fired thermal electric generation; and

WHEREAS, developing carbon capture utilization and storage projects in North Dakota will result in significant state and local revenue and employment benefits by preserving lignite mines and associated thermal electric generation plants while creating new employment and revenue opportunities associated with the construction and operation of carbon capture, power plant, and enhanced oil recovery projects; and

WHEREAS, additional opportunities will be created by utilization of electricity onsite through both carbon capture utilization and installation of complimentary operations that use high amounts of electricity, creating products onsite not necessary to ship to market, further reducing capacity utilizing the transmission system, and creating space for additional technology neutral electric generation in future years; and

WHEREAS, by deploying carbon capture utilization and storage and other onsite electricity consumption projects in North Dakota using lignite, natural gas, power plant, and other cutting-edge technology and workers from North Dakota to produce reliable and affordable electric generation for its citizens and its industry, as well as other products, North Dakota not only will benefit in the short term economically, it will improve reliability and affordability throughout the Midwest and ensure the ability to be a world leader in deploying carbon capture utilization and storage projects globally, ensuring developing nations the ability to provide low-carbon, reliable energy to their citizens; and

WHEREAS, the system of regulatory oversight does not ensure sufficiently the reliability and resilience of the electric grid because of market distortion and unrealistic electricity production mandates from states, driving regional transmission operators in their dispatch policies; and

WHEREAS, the combination of direct and indirect subsidies are hidden in the cost to the ratepayer, preventing ratepayers from knowing the true and total cost of the electric power purchased; and

WHEREAS, regional transmission operator policy decisions lead to premature retirement analyses that do not consider adequately the reliability and resilience penalties of renewable nondispatchable energy. Nor do they adequately scrutinize premature retirement decisions by requiring analysis and compensation for decarbonization by installation of carbon capture utilization and storage technologies, which help meet carbon reduction goals; allow additional energy generation to utilize the transmission system; and bring significant economic, employment, and energy security benefits to North Dakota and the United States; and

WHEREAS, robust and diverse production of all natural resources for electric generation within the state of North Dakota should be maintained while providing stable and affordable electricity benefits to North Dakota and its citizens, along with the electrical grid connected to the surrounding region; and

WHEREAS, priority should be given to industries working together to achieve overall best practices by integrating aspects of multiple industries to achieve the best overall results; and

WHEREAS, use of waste heat, carbon recycling, hybrid generation resources, energy storage, and new technologies that contribute to a reliable grid, overall energy efficiency, and reasonable cost are all part of this vision;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That a state policy is established to support the reliability and resilience of the electric grid, establish inherent value of dispatchable energy, ensure price transparency to consumers in electric markets, and incentivize carbon capture utilization and storage as an alternative to preserve dispatchable thermal electric generation and its associated benefits; and

BE IT FURTHER RESOLVED, that the Public Service Commission shall coordinate with regional transmission organizations to ensure and develop policies reflected above which provide reliable, dispatchable power for the region in an effective and consistent manner, discourage premature retirement of our thermal electric power generation fleet, and encourage installation of carbon capture utilization and storage technologies to help meet decarbonization and reliability goals of the region in an effective and consistent manner; and

BE IT FURTHER RESOLVED, that the North Dakota Transmission Authority annually develop a comprehensive report for North Dakota by collecting publicly available information and other requested information from our state's utilities and utilize this information to coordinate with regional transmission organizations to ensure both local and regional grid reliability as well as to develop a plan to enhance and expand transmission within North Dakota to continue our strong tradition of being an energy exporter to our region and the United States; and

BE IT FURTHER RESOLVED, that the Secretary of State forward a copy of this resolution to the Public Service Commission; North Dakota Transmission Authority; North Dakota Congressional Delegation; Midwest Independent System Operator; and Southwest Power Pool.

(Representative Trottier)

(Approved by the Delayed Bills Committee)

WHEREAS, upon statehood in 1889, North Dakota was granted 2.6 million acres of scattered lands and minerals with the purpose of funding education and public needs within the state; and

WHEREAS, establishment of tribal nations and the Little Missouri National Grasslands trapped state-owned lands and minerals within these boundaries which often are very difficult for North Dakota to access and manage; and

WHEREAS, North Dakota currently holds over 130,000 acres of minerals and over 31,000 surface acres within tribal nations alone, which are largely unable to be developed by the state pursuant to North Dakota's mandate to generate income for schools, universities, and other public purposes; and

WHEREAS, authorizing North Dakota to relinquish North Dakota land grant parcels located within tribal nations and the grasslands and to select other federal lands or minerals in lieu of not receiving full access to and use of the original land since North Dakota attained statehood will fulfill the promise of land and minerals to North Dakota, provide to Indian tribes greater tribal sovereignty and control of lands and minerals within tribal nations, and provide for greater conservation and preservation of the grasslands; and

WHEREAS, Congress should authorize North Dakota to relinquish the lands and minerals located within tribal nations and the grasslands; and to select in lieu of the relinquished land other federal lands or minerals within North Dakota of equal value;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

WHEREAS, the apportionment of voting rights in relation to approval of political subdivision levy authority generally is apportioned one vote per qualified elector; and

WHEREAS, the apportionment of voting rights in relation to an individual's ability to protest the formation of a special assessment improvement district includes the apportionment of one vote for each dollar of the proposed special assessment against the owner's property and the apportionment of votes based on the total number of acres a property owner owns which are subject to assessment; and
