## TITLE 10—ATOMIC ENERGY

### Chapter I—Atomic Energy Commission

#### PART 2—RULES OF PRACTICE

##### TIME OF FILING PETITIONS FOR LEAVE TO INTERVENE

This amendment modifies the Commission's rules of practice to specify that petitions for leave to intervene shall be deemed to have been filed with the Commission as of the time they are received in the Office of the Secretary, Atomic Energy Commission, 1901 Constitution Avenue, NW., Washington 25, D. C. In the absence of such amendment, in the case of petitions for leave to intervene filed by mail or telegraph, the time of filing would be deemed to be the time the petitions are deposited in the mail or with the telegraph company (§ 2.700). Hence, parties to a proceeding in which hearings are held might not know of the filing of a petition for leave to intervene until several days after the hearing has convened or, if the hearing is brief, until after the hearing has ended.

In view of the foregoing and the procedural nature of these amendments, the Atomic Energy Commission has found that general notice of proposed rule-making and public procedure thereon are unnecessary and would be contrary to the public interest; and that good cause exists why these amendments should be made effective without the customary period of prior notice.

Effective upon publication in the FEDERAL REGISTER, Part 2, Rules of Practice, is amended in the following respects:

1. The last sentence of § 2.700 is amended to read as follows: "Unless otherwise specified, the filing, when by mail or telegraph, shall upon actual receipt be deemed complete as of the date of deposit in the mail or with the telegraph company as provided in paragraph (d) of § 2.703."

2. Paragraph (a) of § 2.705 is amended by adding the following at the end of the paragraph: "Petitions for leave to intervene, whether filed by mail, telegraph or otherwise, shall be deemed to have been filed with the AEC as of the time received in the Office of the Secretary, Atomic Energy Commission, 1901 Constitution Avenue, NW., Washington 25, D. C."

(Sec. 161, 68 Stat. 948, 42 U. S. C. 2201)

Dated at Washington, D. C., this 4th day of September 1957.

For the Atomic Energy Commission.

R. W. COOK,  
Acting General Manager.

1. Pursuant to section 53c of the Atomic Energy Act of 1954, the Atomic Energy Commission will make special nuclear material available to non-profit educational and medical institutions for use in the operation of research reactors without charge for the use of the material and without charge for the material consumed during fabrication, reprocessing, and reactor operation.

2. The criteria that must be met in order to receive the waiver of charges are as follows:

(a) The applicant is a non-profit educational or medical institution;

(b) The reactor will be ably used in a well conceived research program in the fields specified in section 31 of the Atomic Energy Act of 1954 and in the training of

students in nuclear science and engineering;

(c) The applicant agrees to enter into a contract with the Commission which will contain, among other things, a requirement that the applicant will furnish the Commission with copies of all published reports embodying the results of activities involving the facility, that the contractor will furnish the Commission with reports of results of the contractor's other activities or investigations involving the facilities, and that information contained in such reports may be used by the Commission and distributed by the Commission for use by others. In addition, the agreement will contain a patent provision under which the Commission would have the sole power to determine the disposition of patent rights in inventions or discoveries made or conceived by the applicant or his employees relating to improvements in the design, construction, or operation of the facility in which the material is used, or relating to a method or process useful in the production or utilization of special nuclear material, resulting in whole or in part from work involving the use of the material but not inventions resulting from the utilization of radiation from this material in the performance of work for others than the Commission.

3. The waiver will apply until July 1, 1960. Subsequent to that date, persons who have been granted waiver under this policy will either have to return the material or assume complete financial responsibility for the charges for the material.

4. This waiver of charges will not relieve anybody from obtaining such licenses as are necessary under the Commission's regulations or from compliance with the regulations and orders of the Commission.

FEDERAL POWER COMMISSION

[Docket No. G-13202]

PACIFIC NORTHWEST PIPELINE CORP.

ORDER PROVIDING FOR HEARING AND SUSPENDING PROPOSED TARIFF SHEETS

SEPTEMBER 4, 1957.

Pacific Northwest Pipeline Corporation (Pacific), on August 6, 1957, tendered for filing first Revised Sheet Nos. 4, 7, 10, 15, 16-C, and 16-E; Second Revised Sheet Nos. 6, 8, 9, 11, 12, 13, 14, and 20; and Original Sheet No. 20-A to its FPC Gas Tariff, Original Volume No. 1.<sup>1</sup> Said tendered sheets are intended to be made effective on September 5, 1957, and propose an annual increase in rates and charges for jurisdictional sales amounting to approximately \$5,500,000, based on estimated 1957 sales volumes. The proposed increase is 17 percent over the rates and charges now being collected by Pacific.

The proposed increase is stated to be based on stated increased costs which were not known at the time the present rates were designed. In addition, Pacific claims a need for a 6½ percent rate of return and computes income taxes associated therewith.

Protests and requests for suspension of the proposed rate increase were received from the regulatory commissions of Washington, Oregon, Utah, Wyoming,

<sup>1</sup> First Revised Sheet Nos. 8, 9, 11, 12, 13, and 14 to Pacific's FPC Gas Tariff, Original Volume No. 1, were suspended by the Commission in Docket No. G-12765 and were permitted to be withdrawn by order issued therein on July 30, 1957.

and Colorado, as well as from distribution company purchasers, including Washington Natural Gas Company, Portland Gas & Coke Company, Pacific Natural Gas Company, Spokane Natural Gas Company, Intermountain Gas Company, Cascade Natural Gas Company, and Mountain Fuel Supply Company. In addition, certain customers and the Idaho Public Utilities Commission urged suspension of the proposed rate increase.

It appears that Pacific's proposed increase includes a number of questionable items, including but not limited to the data utilized in the proposed test year of 5 months actual experience and 7 months of estimated operations, without normalizing sales upon the basis of operations, inclusive of Canadian gas expected to be utilized after November 1957, the allocation of costs between jurisdictional and non-jurisdictional sales, provisions for depreciation, and the inclusion of provisions for income taxes which Pacific states will not be payable, as well as certain differentials among various rate schedules.

The increased rates and charges provided in said tariff sheets, as tendered on August 6, 1957, have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The aforesaid First Revised Sheet No. 15 and Second Revised Sheet No. 14 to Pacific's FPC Gas Tariff, Original Volume No. 1, provide for the sale of natural gas for resale to industrial customers.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the rates, charges, classifications, and services contained in Pacific's FPC Gas Tariff, Original Volume No. 1, as proposed to be changed by the tariff sheets tendered on August 6, 1957; and that the aforesaid First Revised Sheet Nos. 4, 7, 10, 16-C, and 16-E; Second Revised Sheet Nos. 6, 8, 9, 11, 12, 13, and 20; and Original Sheet No. 20-A to Pacific's FPC Gas Tariff Original Volume No. 1, be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the rates, charges, classifications, and services contained in Pacific's FPC Gas Tariff, Original Volume No. 1, as proposed to be changed by the aforesaid sheets tendered for filing on August 6, 1957.

(B) Pending such hearing and decision thereon, Pacific's proposed First Revised Sheet Nos. 4, 7, 10, 16-C and 16-E; Second Revised Sheet Nos. 6, 8, 9, 11, 12, 13, and 20; and Original Sheet No. 20-A to its FPC Gas Tariff, Original Volume No. 1, are hereby suspended and the use thereof deferred until February 5, 1958, and until such further time as

they may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.
