WMCH Education Programme

How do we bring our education resources to our stakeholders?

(Follow up session to Andrea's last year input concerning "Impact Academy")

Date April 26, 2025

WIKIMEDIA CH

1. Introduction: What's going on at WMCH

- In 2026 Wikimedia CH will celebrate ist 20th anniversary!

- The primary goal of Wikimedia CH is to support and help the Swiss contributers (in our four national languages) and connect them to the Wiki-movement.

- In recent years, Wikimedia CH has been working hard to professionalize its organizational structures.

WIKIMEDIA CH

1. Introduction: What's going on at WMCH

The following steps of professionalization were taken:

- Since 2020 creation of WMCH Programmes (Community, Education, GLAM, Innovation, Outreach & Communication)
- WMCH Programme Strategies were developed:
  ☞ Education Programme Strategy 2022-2026.
- Since 2024 Wikimedia CH has been analyzing its structures and practices by participating in workshops by the **„Impact Academy" (Value of Good)**.

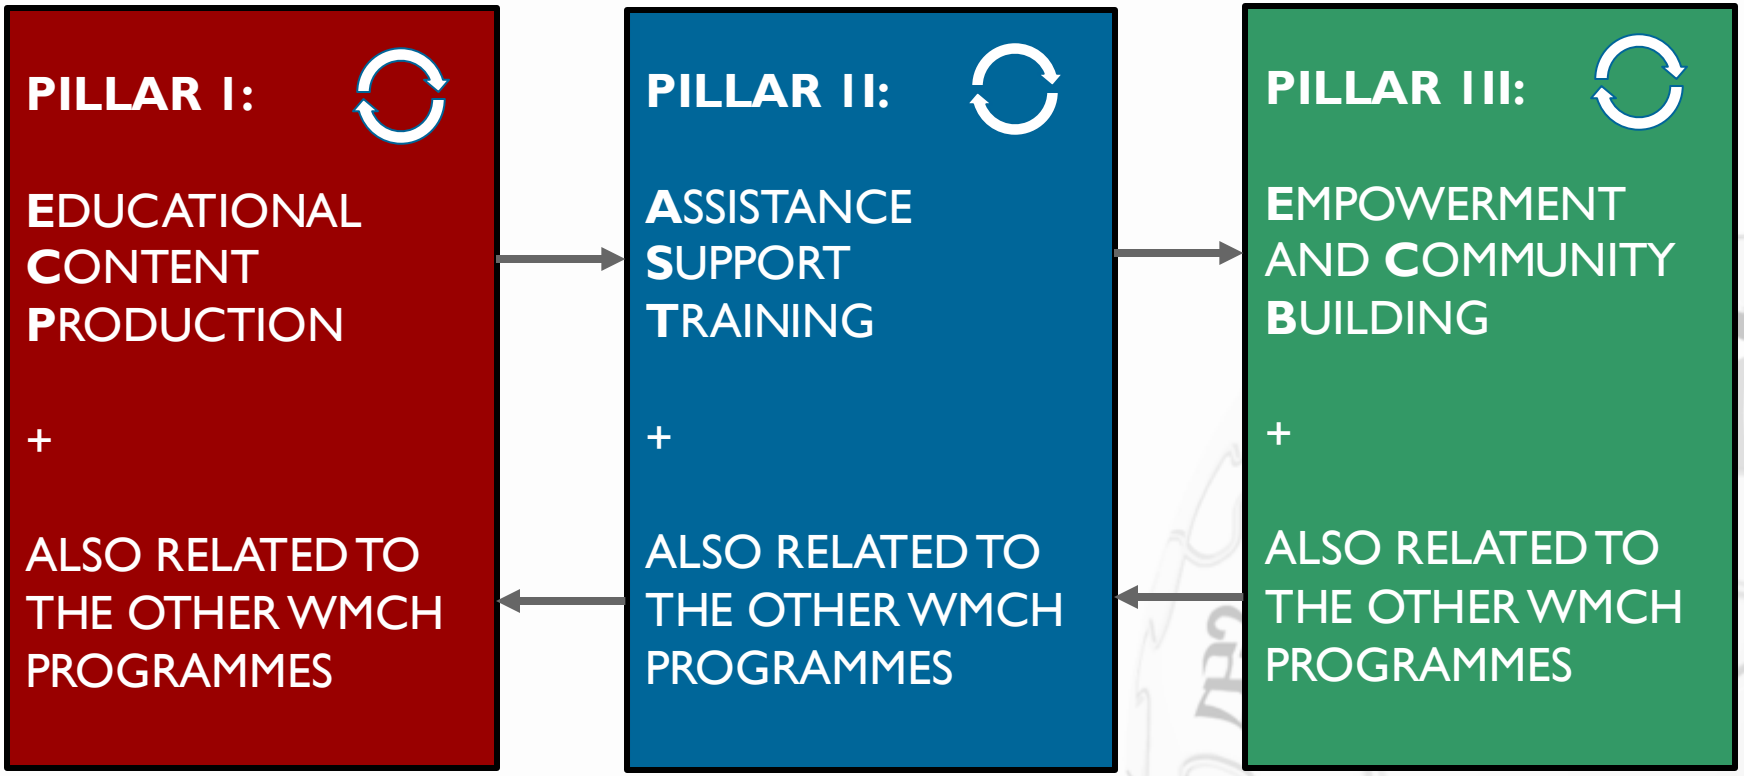
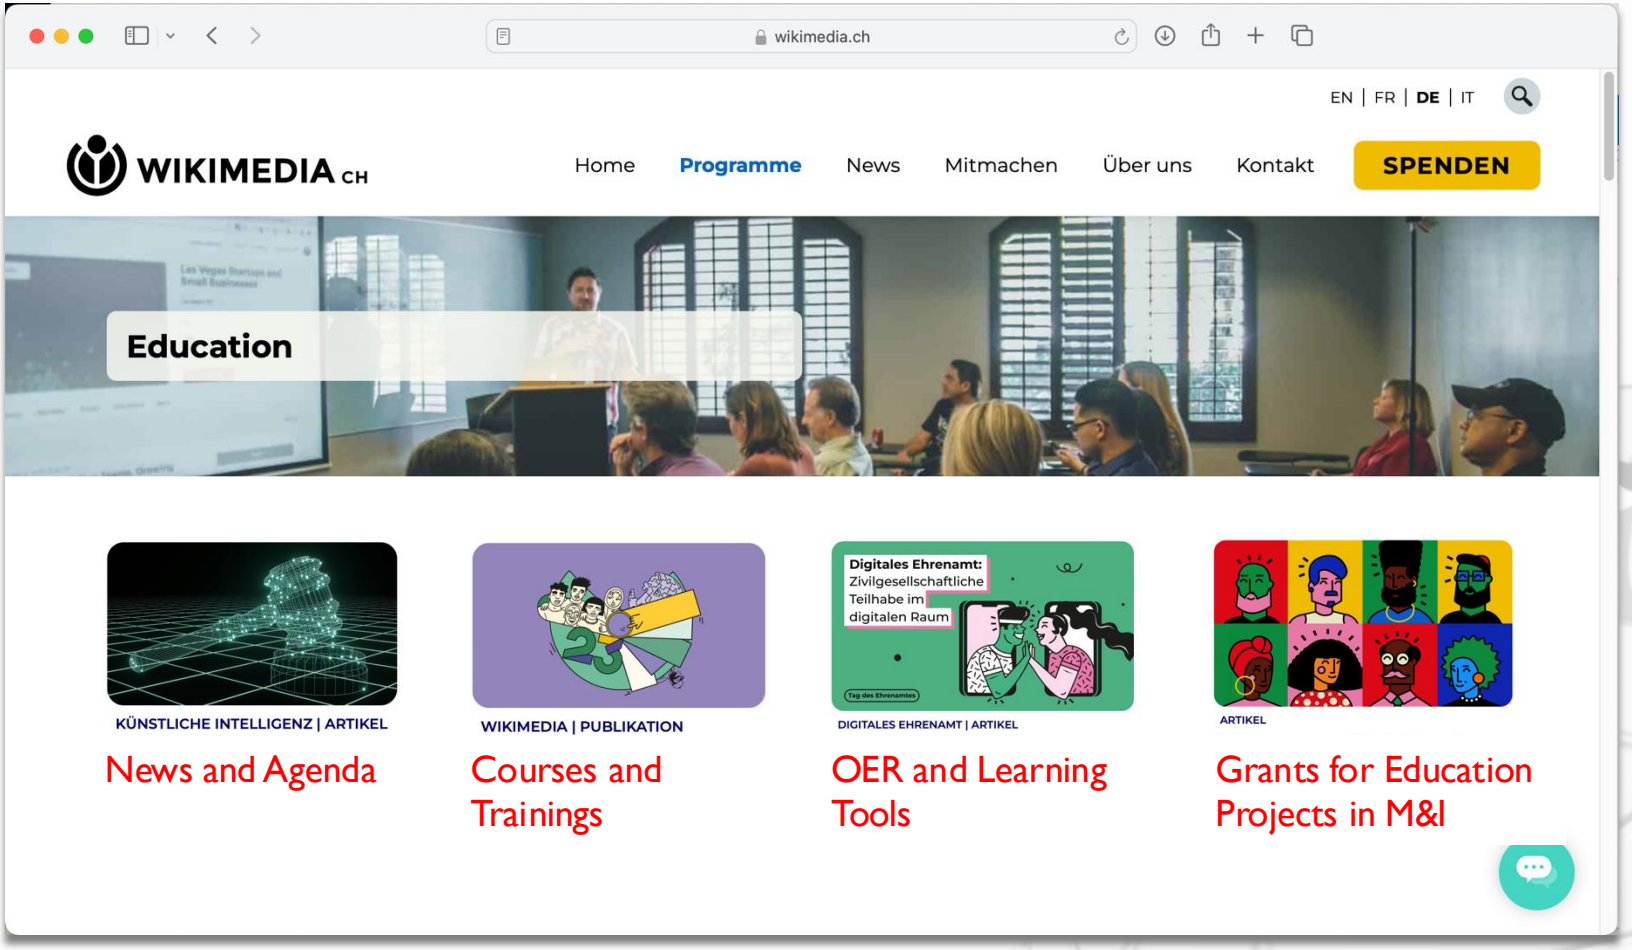
4. Implementation steps

Three Pillar Model:



WIKIMEDIA CH

4. Implementation steps



News and Agenda

Courses and Trainings

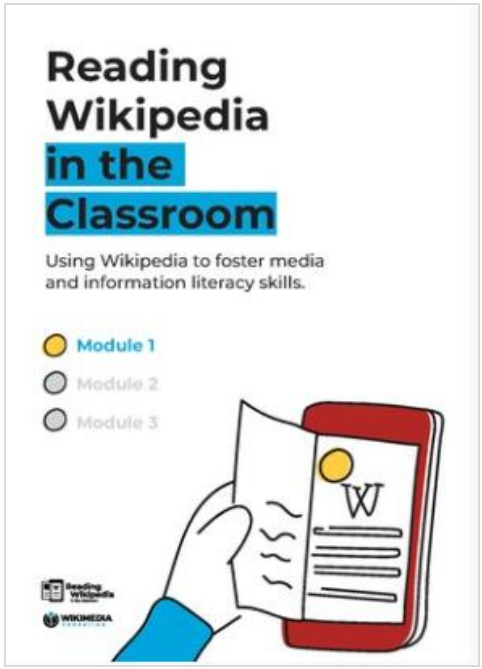
OER and Learning Tools

Grants for Education Projects in M&I

WIKIMEDIA CH

4. Implementation steps

Educational Content Production using the example of the German-translation of „Reading Wikipedia in the Classroom“



Reading Wikipedia in the Classroom is a smart course adapted for school to learn more about the largest online-encyclopaedia of the world. Try it out!

Related to the competences of Lehrplan 21:
MI. 1.1 to **MI. 1.4** (links)

Link for students
Link for teachers

ADDES VALUE FOR THE GERMAN-SPEAKING WIKI COMMUNITY

CC-BY-SA LICENCED **OER** ARE PLACED ON SPECIALIZED PLATFORM FOR TEACHERS

WIKIMEDIA CH

4. Implementation steps

Adapted OER for national school-systems are used:

1. **Teaching suggestions**
2. **Collaborative work**
3. **Collaborative work**
4. **Train future teachers, mentors and tutors (lifelong learning)**

4. Implementation steps

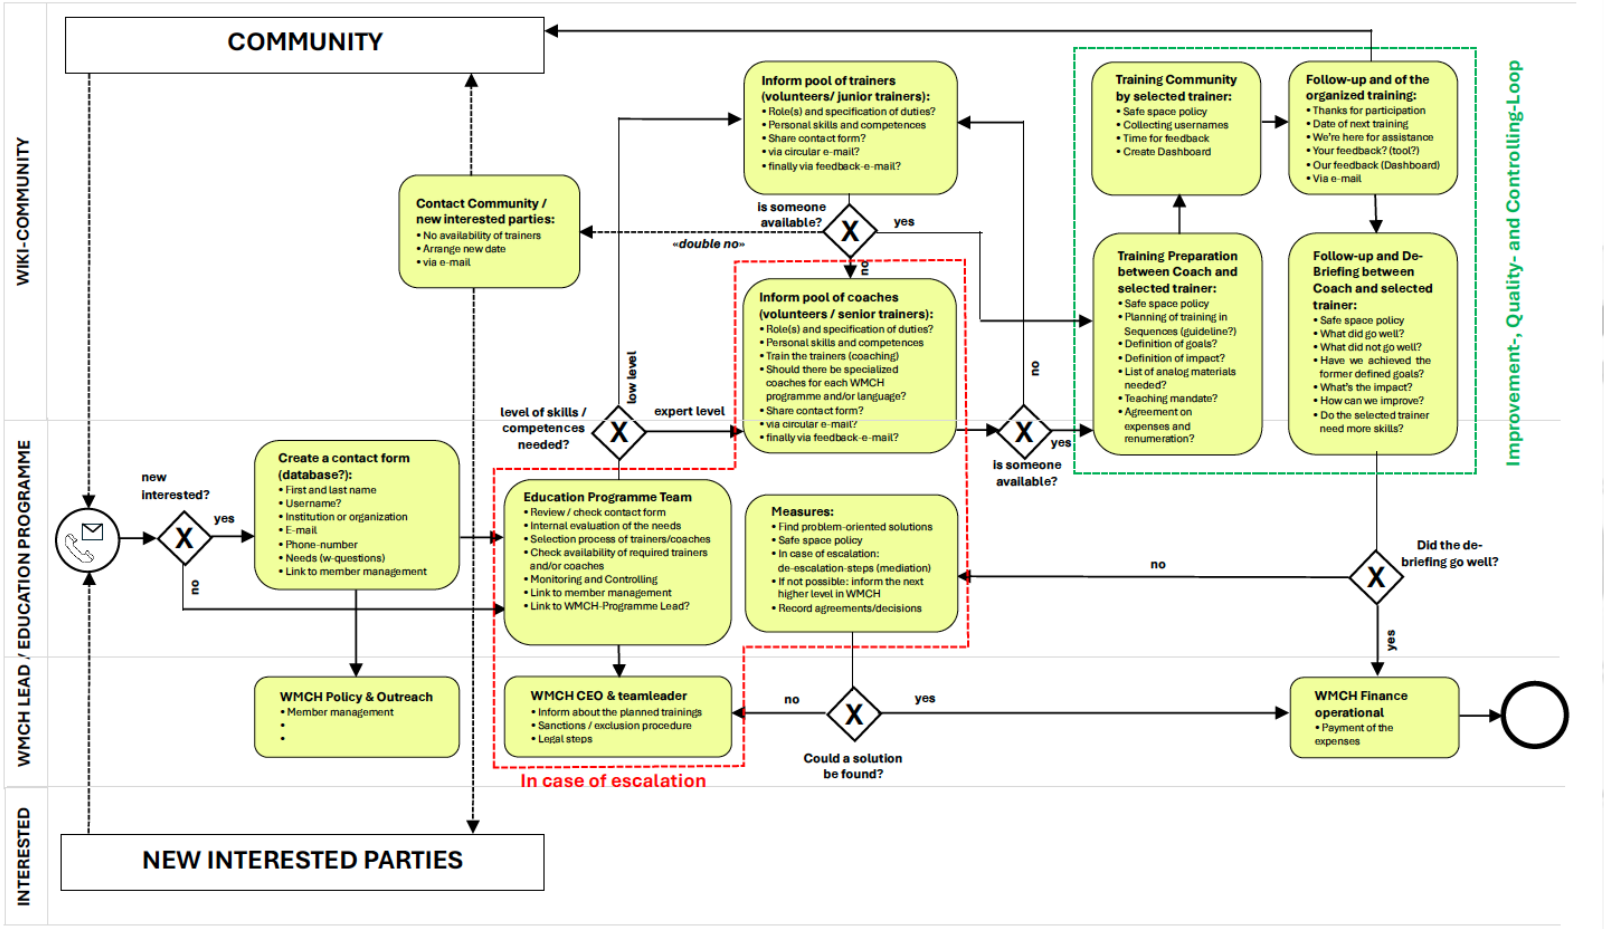
Partnership with:

Educational Institutions:	Main Stakeholders:	Skills and competences:	Didactic Form:
Pedagogical universities	**Lecturers** who train **> future teachers**	Media and Informatics (Lehrplan 21)	Pinchos
classroom.ch (digital platform)	**Head-teachers** who provide further training for **> teachers**	Media and Informatics (Lehrplan 21)	Certificate courses
zebis.digital.ch (digital platform)	Official repository of teaching-materials for **> teachers**	Media and Informatics (Lehrplan 21)	teaching materials
WMCH Education Website / Nextcloud	**Pool of Trainers** (establish a community of education experts **> teachers)**	Further training in skills and competences to use the Wiki-tools	Further training

WIKIMEDIA CH

4. Implementation steps (outlook)

Pool of Trainer:



4. Implementation steps

WMCH Education Programme Projects in 2025:

- Production of explanatory videos for DicoAdo, WikiMini and Wiki2Map (OER) with LerNetz AG (already started)
- Translation of „Reading Wikipedia in the Classroom“ (OER) in German and Rumantsch with Lia Rumantscha (already started)
- Development and implementation of Basic-Introduction-Courses (Trainings) applicable also in the Swiss educational system
- Development and implementation of transparent criteria for WMCH Grants for the Education Programme (Grants Policy)

Q & A and feedback round

Do you have question?

***

Thank you for your attention

***

Let's start the feedback round

WIKIMEDIA CH

5. Feedback-round (proposed issues)

How can we built synergies in open education resources of the Wikiverse on a European level?

- Have you educational engagements and services in your WM-Chapter or your community? If yes: what do they look like?
- Are there coordinated activities or groups on a European level that take care of knowledge transfer regarding the engagements and services of the different WM-Chapters?
- Are there other challenges you see in the educational fields?
- Do you know specialized platforms for teaching-materials in your country?

WIKIMEDIA CH
