23/1/51	Sgt.	Dr. Katauchi	4	1	1	0	1		1	1		ditto Plum!		33	Good	Good	FAIR	FAIR	FAIR

★ Code - W. Ministry Grade A or C A = staff over 31 C = Under 31 Sani. and admin enter - Good, Fair or Poor

Date: 23/1/51 Remarks: This health center opened Dec 1950 - a new H.C. district created from part of Kanagaki H.C. This new health center clean & full equipped. Chest clinic attendance are steadily increasing; VD activities practically nihil - "have to V.D." A VD mass exam in Feb. was a special exam for men in "the coming of age (21 yrs) week" - rate was 10 out of 80 for VD. This month started post-tube tests from exam. - Post-tubes get weekly exam by private MD - + treatment from him if necessary - discussed H.C. responsibility for follow-up of diagnosed cases. Very few infant exams - discussed mid-baby clinics. Advised to discourage med. & surgical exams & treatments - (see statistics 48 treatments last month). Only 1 village nurse in PHN program - advised re PHN particularly for village nurse to do H.C. PHN using program. H.C. nurse can reach only about 10% of all newly diagnosed TB cases - especially follow-up is poor. Nurse has a file box but it is poorly used - demonstrated use. Discussed value of "Shikoku Plan" for good coverage to all communities in its district. (Director has not seen Shikoku plan.) Nurse has 1 bicycle for all staff.

★ Code - W. Ministry Grade A or C A = staff over 31 C = Under 31 Sani. and Adm enter - Good, Fair or Poor

Date **Remarks**
 29 Mar 51 Inspection visit + conference. Review of statistic sheet shows decline in TB clinic attend - this because Minkigawa now has own HC in town (pop 40,000) but all clinic attendances are small, even the best (cold weather!) Naty. Def program very poor in HC - still in villages & over MD has Naty. Def clinic 1/2 way - if no village MD - HC staff conduct clinic - Each comm. gets a TB clinic 2x/yr - this safe for contacts, suggests + good patient - Discuss "Shitoken Plan" - also PHN program using TB as priority. Discuss use of file box + sign to set up, also discuss PHN priority program to all idea of PHN in all villages - Only one case here has had penicillin treatment - discuss "Elaton 705" - no BCG given - 100 amp sign to emphasize + scheduling of clinic for return for BCG has been unsuccessful - Immunizing interest in statistical sheet show only those given in HC - (as instructed by W. M. - got out the table for this!) Plan to improve whole pop. since. Improv. seen; - status 22nd March rather old building with small clinic rooms - fairly clean + orderly. Try to keep by monthly statistical sheet up to day

HEALTH CENTER CHECK SHEET

SAGA Prefecture Owned by Pref Population 92,200 Cities 0

								1 (part Vet)											

★ Code - W. Ministry Grade A or C A = staff over 31 C = Under 31 Sani. and adm enter - Good, Fair or Poor

Date	Remarks
27 Mar 51	Inspection visit + Conference. H.C. located on 2nd floor of an old building occupying only 25 Tsubo space - constitutes a large office room and a small room for doctor's office, exam room + drug, + a small ante room for treatment - no lab. facilities except small table at head of stairs - no running water - Construction has started on new H.C. building. (2,500,000 yen) Add. plans making plans for Clinics (H.C. + teaching) now before New H.C. opens - discussed "Aburatsubo Plan" - Outside PHN do programs in own area - the + PHN in Ogi made are part of the staff of the new Insurance dispensary + some certain areas of the town - H.C. nurses cover the rest - this dispensary serves TB + Matrn + Inf + too as well as med + Surg cases. Referred to literature "guide PHN in H.C." for suggestions on the minimum clinic equipment, clinic procedures + other phases of PHN program - Discussed use of file box - urged TB as priority program. - Staff/ Educ. prog for PHN 1/2 day, + outside PHN 1/2 mo. Started am for vacc. program 2 days ago - completed 500 - expect to complete this month. (amp for dose is on) - Have 3 PHN traps - will get more for each PHN - only 1 bicycle - discussed PHN priority, etc. This new H.C. will include staff = 1 Midwife, 2 MD, 1 Pharm, 1 Dentist, 1 cl nurse - Adv. to hire a PHN instead of a clinical nurse since she could then be used to better advantage. Adv to keep monthly statistical sheet up to date.

HEALTH CENTER CHECK SHEET

Saga Prefecture Owned by Prefecture Population 95000
Kashima Health Center Grade C Location: Kashima Machi
Date opened 9/1944 Size: BLDG 193 tsubo Land 280 tsubo Type of construction Modern

							1 Pharm				1 Dentist									
											2 Phy									

★ Code - W. Ministry Grade A or C A = staff over 31 C = Under 31 Sani. and Adm enter - Good, Fair or Poor

Date **Remarks**
 28th Nov Inspection visit + conference. Clinic statistics comparatively low. Compilation of statistics not too good. Chief Nurse just returned from 4th mo Tokyo course + on new PHN in Jan + Feb, so staff of PHN had been for awhile. Discussed TB program + PHN follow up - discussed - urged to set up file box. Found that clinic 2 days in each month, kept up for contacts, suspects + proband cases, included TB test, 35 min long if pos. suspicious - given large x-ray + phys exam - Bec given to reg. Dept clinic statistics low - too confused, keep files clean - adv more publicity. Also discussed setting up "Hitokata Plan". Referred to literature "guide to PHN in HC" for clinic equipment + procedures + PHN program. Report here had "Kitchen classes" on HC and wife - Only 1 teacher for nurses discussed PHN publicity + possibly a community appeal for funds for more bicycles. Only 2 cases of lues have been treated with penicillin since issuance of Sikaitsu 265 (May 1946) - urged to keep more. Clinic rooms not too convenient of clean. Hyg. statistical sheet (monthly) is not kept up on a monthly basis - urged to do so

HEALTH CENTER CHECK SHEET

SAGA Prefecture Owned by Prefecture Population 183,000 Cities 1
SAGA Health Center Grade A Location: SAGA C.T.Y Towns 6
Date opened 1949 Size: BLDG 277 tsubo Land 500 tsubo Type of construction Mason + Stucco Villages 22

All in the city, SAGA -- (all villages are less than 7000 pop)

★ Code - W. Ministry Grade A or C A = staff over 31 C = Under 31 Sani. and Adm enter - Good, Fair or Poor

Date	Remarks
27 Nov 51	<p>Inspection & Conference & inspection of statistical that records practice Chik. Clinics - a few U.D. cases because if definitely known to U.D., case is referred next door to Pref ID high for treatment team - Statistics about 5 titles clinic schedule is indicated. Other items consist of mostly employment exams (90%). Mat. & child health program needs to be stimulated. Prior to 15 Feb only 6 PHN on staff management by home visits statistics poor - discussed later utilization of PHN + home visiting using TB as priority program. Outside PHN do TB follow-up in own area except for city nurse who do mostly Inf + child. Nurse staff comp 14/100 - 5 outside PHNS - 1 X no. Reported to Director "guide for PHN in H.C." as reference for clinic set-up & procedures - since recent smallpox scare have vaccinated 14,000 in past 2 days - plan to vaccinate about 150,000. Report high + rh. cough minor fever constantly each spring + measles are major for this. Building & surroundings clean & orderly - make appropriate suggestions re care equipment, etc. - Plans being made to enlarge building - to add a waiting room + one for treatment rooms thereby allowing more exam. room space in present building. Adv. keeping statistical charts as records clean & up to date. (directly keeps his own but similar one + less complete)</p>
