TO: Chief
Civil Affairs Region
GHQ, SCAP
APO 500

1. Transmitted herewith for action is an application from Osaka Prefectural Government requesting that the Taihei Kogyo K.K., 32-2, be compensated for the loss of a 10 HP electric motor, inventory number 32-2-334, which was destroyed by fire while being used by the Regional Post Engineer, Camp Otsu.

2. The motor was delivered to the Regional Post Engineer, Camp Otsu, in accordance with the requisition inclosed as inclosure No. 2.

3. The motor was released from reparations custody as scrap by memorandum from the Civil Property Custodian, copy inclosed as Inclosure No. 3.

4. The Osaka SPB has declined to compensate the Taihei Kogyo K.K. for loss of the motor due to its not having been procured by procurement demand.

SUBJECT: Petition for Release of Motors (39-05)

TO: Chief
Civil Affairs Section
General Headquarters
Supreme Commander for the Allied Powers
APO 500

1. Reference is made to the inclosed petition from the Tokyo Mill, Dai Nippon Boseki K K (39-05), for the release of 33 special purpose motors from reparations custody.

2. The petition (inclosure 1) as submitted by the Dai Nippon Boseki K K to the Ministry of International Trade and Industry, Japanese Government, states that the requested motors are of special RPM for textile manufacturing machinery and were utilized during the war on machine tools due to the shortage of standard motors.

3. Inclosure 2 is of photographs of the different motor-types included in the petition.

4. The petition (inclosure 1) which was submitted to the Ministry of International Trade and Industry was rejected by the Reparations Agency, translation of which is attached as inclosure 3.

5. Reference is forwarded for consideration due to the fact that although the requested items were in wartime use in an aircraft plant and therefore fall within the criteria for reparations selection regardless of former peace-time use, the motors are not standard for the machines with which they are presently associated and therefore may be considered as items not being suitable for reparations removal.

SUBJECT : Application for Relese of Machinery from Reparations Custody.

TO : Ministry of International Trade and Industry.

FROM : The Tokyo Mill, Dai Nippon Boseki K.K.
(Dai Nippon Boseki K.K., Tokyo Kokuki Seisakusho)
Address : 1,10-chome, Minamisenju-cho, Arakawa-ku, Tokyo.

1. Name and Code No. of Plant :

The Tokyo Mill, Dai Nippon Boseki K.K.
(Dai Nippon Boseki K.K., Tokyo Kokuki Seisakusho.)
39 - 05

2. Location of Plant :

1,10-chome, Minamisenju-cho, Arakawa-ku, Tokyo.

3. Machinery to be released :

33 Motors, accessory to metal working machinery.

Details :

5 HP	9
4 HP	11
2 HP	7
0.5 HP	6
	33

For particulars please refer to the attached sheet.

4. Resons for Release :

Induction motors listed in this application are indispensable for the operation of this mill. We are, therefore, earnestly desirous to see that these items be released from reparations list for the following reasons :

(A) Urged by the Government in 1943, this mill was converted into an airplane wing manufacturing plant from a textile mill. Since 1944 efforts were directed to the purchase of machine tools and equipment. However, the situation then prevailing made it difficult to get the supply of complete sets of equipment. The mill, therefore purchased almost all of the equipment without motors. Under these circumstances, the accessory motors which are listed in the present application and which had been designed and made before the war for the operation of spinning and weaving machines, were used for the operation of the machine tools and equipment.

Incl 12

When, after the war, the mill was designated as a reparations plant, these motors in question were included in the reparations items along with other equipment and were registered under the same Code No. as the machine tools. An inspection of the attached list will show that these motors are of special kind with such voltage and revolution as are peculiar to textile mills.

(B) On June 20, 1950, under R.A.T. No.618(MS), we applied for permission to transfer 52 items of machinery and equipment, including the 33 items listed in the present application, from this company's Tokyo Mill (1,10-chome, Minamisenju-cho, Arakawa-ku, tokyo) to the same company's Tsumori Mill (527, Tsumori-cho, Nishinari-ku, Osaka) and use them in the latter place. This application was approved by the authority under 387.6 (27 July 50) ESS/IND.

All the above mentioned machinery and equipment are now being fully utilized at our Tsumori Mill with the exception of the 33 motors. Due to the difference in the cycle of electric currency inKanot and Kansai districts (50 cycles in Tokyo area and 60 cycles in Osaka area), it is difficult to employ these motors effectively in Kansai area, We are, therefore, desirous of retaining them in our Tokyo Mill for the use in the operation of spinning and weaving machines. At the Tsumori Mill, it is our idea to install new motors with proper cycles fitted for the use in that area.

Under these circumstances, we should greatly appreciated in if the authorities concerned would be so good as to give a sympathetic consideration to the present application and release the 33 motors in question from the reparations list and allow us to use them in our Tokyo Mill for the manufacture of textile goods, for which they were originally designed and built.

Kiyoshi Tajima

Occupant,

The Tokyo Mill, Dai Nippon Boseki Kabushiki Kaisha.

TRANSLATION

Bai Ri Shin No. 420.

December 22, 1950.

To the Director of Commerce and Enterprise Bureau, Ministry of International Trade and Industry.

Re Returning of Dai Nippon Boseki Tokyo Mill's (39-05) application for release of machinery from reparations custody.

Concerning Dai Nippon Boseki Tokyo Mill's application for release of 33 motors from reparations custody, which was forwarded from your office to this office under the date of November 23, 1950, we had an occasion to ascertain the opinion of the CPC on the matter prior to the formal presentation of the application.
As it has now become clear that it is the opinion of the CPC that motors cannot be the objects of release, we hereby return to you the application in question.

Director,
Reparations Agency.

Enclosure : Application.

SUBJECT: Application for Release of Reparations Equipment as Melt-Down Scrap

TO: Chief
Civil Affairs Section
GHQ, SCAP
APO 500

1. Transmitted herewith is an application from Osaka Prefectural Government requesting release as melt-down scrap of 48 items of equipment at the Fuso Kinzoku Kogyo K.K., 32-76.

2. Inspection revealed that items 32-76-18 thru 57 were formerly special purpose shell turning lathes. Although the special purpose features of the machines were previously destroyed, the items are functionally limited to the extent that they are not suitable for peacetime use. The remaining items were found to be not economically reparable.

3. Release of the items for melt-down purposes is recommended.

SUBJECT: Movement and Use of Reparations Equipment

5. This headquarters recommends that the thirty six (36) items listed in paragraph 4b above be placed in authorized use with the Tokyo Ordnance Depot, for the following reasons:

a. This equipment is now located in Tokyo. Disapproval would involve movement to Kyushu at the expense of Occupation Forces.

b. All items were originally listed to be scrapped by the Japanese Government, but were deleted by this headquarters.

c. When this Arsenal (Hita Factory) was in operation, this equipment was used to produce wooden rifle stocks. During the destruction of special purpose machinery, attachments to this equipment were destroyed rendering it unserviceable. However, Ordnance technicians have stated that they could use the equipment by casting new parts.

ATTN: Major Freeman

1. References:

a. Telephone conversation with Major Freeman, Civil Affairs Section, General Headquarters, Supreme Commander for the Allied Powers and this headquarters on 18 November 1950, pertaining to movement and use of reparations equipment by the Kokura Ordnance Depot.

b. Letter, Headquarters Kokura Ordnance Deport, APO 3, subject: "Request for Reparations Materials", dated 22 September 1950.

2. First Indorsement of reference 1b above authorized the Kokura Ordnance Depot to move and use three hundred and twenty two (322) reparations items located in arsenals listed below:

Arsenal	Code No.
Kokura Military Arsenal	07-13
" " " , Hita Factory	30-03
" " " , Itoguchiyama Factory	30-04
" " " , Tateishi Factory	30-05

3. In the latter part of October, this headquarters was notified that the Kokura Ordnance Depot was closing. Permission was requested by the Depot for movement of some reparations equipment to the Tokyo Ordnance Depot. This headquarters had informed the commanding officer that since authorized use was approved in reference 1b above, transfer to Tokyo would only involve a change in records of accountability and that the Logistical Command could change the account numbers for this equipment from Camp Kokura and credit them to the Tokyo Ordnance Depot account.

4. A report was later submitted to this headquarters by the Kokura Ordnance Depot listing fifty eight (58) reparations items shipped to Tokyo. Checking this report against that which was authorized under reference 1b above, revealed that twenty two (22) were authorized and thirty six (36) items were not authorized for movement or use.

[illegible] CIVIL AFFAIRS [illegible] C.B./sc
APO 47

[illegible]6.3 5 December 1950

SUBJECT: [illegible] of Reparations Equipment for Melt-Down Scrap

TO: [illegible], Civil Affairs Section
[illegible]

ATTN: (Civil Property Custodian)

1. Forwarded herewith are applications pertaining to the release of reparations equipment as melt-down scrap as received by this office.

2. In [illegible] with [illegible], a physical inspection of the equipment was made by this regional office. The items inspected are of no replacement value to the plant and needs considerable re-tooling before they can be utilized economically. It is hereby recommended that the reparations designated equipment at the following listed locations should be released to the Japanese Government as melt-down scrap:

a. Fukushima Prefecture

Yokohama, 22 December, 19 50

To : Chief, Kanto Civil Affairs Region

Thru : , Kanto Liaison and Coordination Office

From : The Governor,
Kanagawa Prefecture

Subject : Concerning the theft case of a reparation equipment (19-17)

Concerning the robbery case at Kawasaki factory of the Tokyo Tanko K.K. located at 50 Yotsuya-shimo-cho Kawasaki city within jurisdiction of this government, I gave them an Instruction that they would make their effort promptly to comply with such requirements as mentioned in the report in order to avoid a similar trouble in the future.

For the Governor,

Kishichi Nishida
Chief of Commerce and Industry
Division
Kanagawa Prefectural Government.

22 December, 1950.

To : Chief, Kanto Civil Affairs Region

From : Kawasaki Seizosho, Tokyo Tankosho K.K.
No.50, Yotsuya Shimocho Kawasaki City,
Kanagawa Prefecture.

Subject : Report on steps taken for robbery of reparations machine (one electric motor)

We wish hereby to report on the measures taken for robbery of one electric motor with 40 horse-power (Inventory No.19-17-534) affixed to a deep well pump, as follows.

(1) The robbery was committed between 3 and 4 a.m. on 15 October 1950. The guards of this plant made it a rule to patrol every an hour during night over all the premises for prevention of robbery. Everything was all right when they patroled there at 3 a.m., while they found out the theft on patroling at 4 a.m. We, thereupon, promptly reported the fact to the competent Kawasaki Rinko Police Station, and in cooperation with the policemen, we searched the robbers in all directions, but failed to find them out.

(2) Despite the utmost efforts being continued with the police authorities in search of the stolen machine immediately after the theft, the machine is still at large, However we will take every possible means to discover it with as much effort as ever.

(3) The personnel in charge of the matter of the police station express opinion that as considerable long days have already elapsed since the commitment of the crime, it will be difficult for the authorities to find out the stolen article. In case the search has been eventually proved in vain, we intend to p purchase another new motor to be equiped for the stolen one. However we presume we shall find it very difficult to obtain in the market a specific motor like this stolen vertical one with 40 horse power in short days.

Under such circumstances, we should esteem it a great favor if you could kindly allow us approximately three months delay until the newly obtained machine has been replaced for the former one.

Signed: Hiroshi Suzuki.

HEADQUARTERS
TOKAI-HOKURIKU CIVIL AFFAIRS REGION
APO 710 (Nagoya, Honshu)

18 December 1950

SUBJECT: Typhoon "Jane" Reparation Damage Cost Reports.

TO: Chief
Civil Affairs Section
GHQ, SCAP
APO 500

1. Transmitted herewith is a summary of all expenditures approved by this region for the repair of reparation damage caused by typhoon "Jane". This report supercedes previous accounts submitted in monthly activities reports, revisions having been made since those accounts, and constitutes the final accounting as of 1 December, at which time authority for approval of expenditures by this headquarters was suspended.

2. This headquarters gave careful consideration to each application for expenditure of funds, with a view towards economizing to the fullest possible extent, and although the total amount approved was ¥12,195,801.80 for this region it is felt that this expenditure is reasonable for the amount of damage done.

3. Reference paragraph 2 of CPC Memo to the Japanese Government, subject, Expenditure of Funds for Maintenance, dated 15 November 1950, it is pointed out that this headquarters has just recently been approached by several of the prefectural governments and Finance Bureaus with new applications for additional expenditures based on the clause permitting "expenditure of funds for maintenance.....at typhoon damaged plants less than 75% in operation." Since approval of expenditure of funds by this headquarters was originally granted only to plants operating less than 30%, these agencies are justified in presenting such applications. Since this headquarters no longer has the authority to approve additional expenses, however, clarification of the policy concerning such applications is requested.
