1. This team is considerably handicapped by the recent decrease in Procurement Demand transportation.

2. Prestige is something that Military Government must maintain in order to succeed in it's mission; and it is the opinion of this headquarters that the loss of prestige suffered by the elimination of the transportation is not worth the financial saving made.

3. A team commander and heads of sections must travel considerably in order to properly supervise the various activities of government. This travel should be in a style suitable to the head of a state.

4. This headquarters is of the opinion that no officer on Military Government duty should be forced to be exposed to the elements while traveling. The dignity of his position should require suitable transportation.

5. This headquarters therefore recommends that Procurement Demand cars be placed back into operation at the following minimum rate;

One (1) sedan per team commander
One (1) sedan per head of each section

AG 451 (MG-X) 9 January 1948

SUBJECT: Motor Transportation for Military Government Units

TO: Commanding General, I Corps, APO 301

1. Reference is made to letter this headquarters 4 September 1947, subject: "Motor Transportation for Military Government Units", file AG 451 (MG-X)

2. The above letter served to authorize each Military government team under your command, except Osaka, to draw one 2½ ton truck, cargo, and two t rucks, 3/4 ton weapons carrier. Since the issue of these vehicles many complaints have been received from Military Government unit commanders that the issue of these vehicles was not in every case practicable for the team concerned and that the origninal allocation of one 3/4 ton truck, weapons carriet, and two 2½ ton trucks, cargo, would have been more satisfactory in some cases.

3. Since different military government teams have different requirements for heavy transportation, this letter will serve as authority for military government teams under your command to draw a total of three vehicles of these two categories under the provisions of reference letter above. Each team may draw either two 2½ ton trucks and one 3/4 ton truck or it may draw two 3/4 ton trucks and one 2½ ton truck.

4. This letter does not reduce the allocation of four heavy vehicles to Osaka Military Government Team. It may retain a total of four vehicles of either 3/4 ton or 2½ ton capacity, as requred.

5. It is desired that each military government region notify this headquarters as to which type vehicles its subordinate units desire to retain under this authority.
