APPLICATION FOR RELEASE OF PART OF EVALUATED REPARATION DESIGNATED INSTALLATION.

Date: Aug. 9th, 1950.

To: Ministry of International Trade and Industry.
 From: Eizo Kawakami, Head of Nippi Sangyo Co., Yamagata Factory, 8 Suehiro, Yamagata City.

1. Name and Code No. of the reparation designated installation:
 Nippi Sangyo Co., Ltd., Yamagata Factory (44-01).
 (Formerly: Nihon Hikoki K.K., Yamagata Factory)
2. Address of the reparation designated installation:
 5 Suehirocho, Yamagata City.
 (Formerly: 421 Teppomachi, Yamagata City).
3. The installation which the release is applied for:

| <u>Work Sheet</u> <u>Page No.</u> | <u>Inventory</u> <u>No.</u> | <u>Name of</u> <u>Items</u> | <u>Type and</u> <u>Dimension</u> | <u>No. of</u> <u>Items</u> |
|--------------------------------------|--------------------------------|--------------------------------|---------------------------------------|-------------------------------|
| Page no. 35 | 44-1-554 | Water Storage Tank | Wooden, Dia 2.7 m, Hight 3.60 m | 1 |

4. Necessity for Release:

1. This item is a wooden water tank made in 1943. It was used before, but now the tank and the tower to support it both have become rotten and no more usable.
2. The tank is located on top of a tower about 10 meter high from the ground and on account of corrosion of the tower the tank which weighs about 500 kilograms inclines towards East about 15 degrees and there is a chance of the tank to tumble down.
3. If left as they are, and if the tank should fell down, the reparation items in the pump room down the tank would be damaged and besides cutting off of high voltage transmiss-ion lines would result, ensuing big dangers.

(Cont'd)

- C O P Y -

- C O P Y -

4. It will involve tremendous expenses to get the tank down as it is; besides the tank itself is unrepairable, so we deem that the tank has no value as reparation item.

Please take into consideration the above situations and grant us release of the reparation herein applied for.

E. Kawakami

3. Designated Reparations Equipment, the release of which is applied for:

2 Passenger cars

3 Truck cars

5 Bicycles

For detailed particulars please refer to the attached sheet.

4. Reasons for application:

The trucks and passenger cars belonging to this plant have already passed their lives and have been repeatedly repaired. They have now become so greatly worn out that their further use is no longer profitable in view of the mounting monthly cost of repairs. In order to adjust our expenditure thereby to maintain a sound financial status of the plant it is no longer advisable to keep them. We are, therefore, desirous of disposing of them by sale and use the proceeds as a part of the cost of purchase of one new truck car and one new passenger car. Accordingly we are submitting this application for the release of the items in question.

Bicycles in question have also become almost unusable and we should like to have them released so that we may be able to dispose of them and buy new ones.

We received the application, as per attached, from Ashikaga Plant of the Fuji Industrial Co. Ltd. or the Fuji Sangyo Kabushiki Kaisha with regard to partial release of land and building which are within the designated area for custody.

The reason for their application is, as is stated in the application, that they would like to use the land and building for the Tokyo Spinning and Weaving Co., Ltd. or the Tokyo Boshoku Kabushiki Kaisha which is being put under extension project of operation.

We will continue to make them pay full attention in respect of maintenance and guard for the properties which might be released, and your favorable consideration and approval to their application would be much appreciated.

With reference to the above subject, we have received an application from Ashikaga Plant, Fuji Industrial Co. Ltd., concerning the partial release of the grounds and buildings under custody as per attached sheets.

This is chiefly due to the reason, as clarified in the application which had been already approved, that it is not sufficient yet with the previous approval in order to meet the development of the plant operation of Tokyo Boshoku K.K.

We will, of course, make them pay much attention to the maintenance and custody as well as guarding of the reparations machines not to cause any hindrance therefrom. Therefore, we shall be greatly appreciated should you kindly grant us your permission to release the same upon your careful investigation.

5. Reasons for request:
 While we have lately received an application to install another 20 woolen fabric machines to reinforce their production equipment as a perfect textile plant from the Tokyo Boshoku K.K.. Considering the present area released before, it is too narrow to install these textile machines, and for this reason we hereby respectfully request that your favorable permission to release and use another Bldg. M, about 139 tsubo (Approx. 5004 sq.ft) be kindly given, as per the attached map.
