D. C. REID IMPRESSED WITH OPPORTUNITIES

Says Mining Belt May Be Greatest in Province—Bought Land for Company

profitable investment. It has stretches mineral belt will probably prove the richest of any in the province. With the ompletion of the Grand Trunk Pacific and the tapping of the mineral resources by branch lines a big city will STEAMER SINKS spring up in the vicinity of Aldermere and Telkwa on the line of the railroad said D. C. Reid, of the Island Invest

ment Company to the Times to-day Paris. June 20.—To insure respect for their decisions, the four protecting powers of Great Britain Russia, France and Italy have decided to send naval forces to Suda bay in the northwestern hert of Crete. The introduction of international garrisons at Crete in order to peserve a pacific state of affairs has been considered for some time, but the plan was opposed by Russia.

The present action follows the protests made by Turkey against the threatened purpose of the Cretans to cleen and send delegates to the Greek.

Leaving Victoja on May 18th, Mr.
Reid joined Mr. McIncosh and went to
Prince Rupert, from which point a
very slow trip up the Skeena was
made. Outfitting at Hazelton the two
followed the river south, camping in
the open and riding for over 120 miles
from the Skeena stamboat terminal.

"We found Hazelton was the collision."

(Times Leased Wire.)

Liverpool, June 20.—The crew of the
steamer La Rochelle, of Bayonne; N. J.,
numbering ten men, were drowned today following a collision between the
La Rochelle and the steamer Yewes.
The La Rochelle ran down the Yewes
and sank within a few minutes after
the collision.

"We found Hazelton very busy." aid Mr. Reid. "People are going into the Bulkley from the United States, many of them being mining men who have rich claims in the belt near the opper river. The mining district practically all lies within a radius of 150 niles from Hazelton, and many very (Times Leased Wire.)

PASSENGER AIRSHIP. Maiden Trip of the Deutschland Is

Scheduled for Wednesday.

Friederichafen, Germany, June 20. The German commercial airship Deutschland will make its maiden trip on June 22nd. If the flight is successful it will be an epoch-making event in the history of modern progress.

The cruise will be from Friedericha-fen to Stuggart. Passengers are all walk track when the machine fell ready booked for the first trip and the from a height of 250 feet. peacy booked for the arst trip and the passenger list is full. Prices range from \$25 to \$50. The Deutschland is furnished after the fashion of a steep-ing car. The cabin is of mahogany and the floor is carpeted. There are large

BY-LAWS READY BUT HELD BACK

ALDERMAN HUMBER WANTS TO KNOW WHY

Urges That Mayor Morley Should at Once Consult the Ratepayers

"Is the mayor afraid to submit the money bylaws which are now ready for the judgment of the people? That is something! think we should endeavor to find out." So spoke Ald, Humber to to find out." So spoke Ald. Humber to the Times this morning.

Continuing, the alderman gave his casens for this utterance. He pointed out that some considerable length of time ago there had been passed unant-mously a bylaw appropriating the sum of \$15.000 for the erection of three public conveniences. Then there was the vlaw all ready for the improvement of Dallas road—a work of urgent ne-cessity. There was absolutely no reason, as far as he could determine, why these bylaws should not be sub-mitted to the people forthwith. No one could doubt the necessity for immediate action. In the cases of the country of

mmediate action. In the case of the public conveniences bylaw it was no a frequent subject of comment by vis- th

a frequent subject of comment by visitors, on Sundays especially."

In regard to the Dallas road improvement, which Ald, Langley had worked so hard to push forward, it was surely obvious, said Ald, Humber, that this bylaw should be put before the people at once. The season is getting on. The government has any proprieted the same at once. The season is getting on. The government has appropriated the sum of \$25,000 towards the project—and everyone is agreed that the earliest steps should be taken to provide adequate protection to the foreshore, which is rapidly being eaten away by the west. y being eaten away by

the wash of the waves.

Ald, Humber added that he propos to urge that these bylaws sl to urge that these bylaws should be submitted to the people at once. They had been passed by the council, the works were urgent and it was difficult to understand on what grounds there should be any delay for getting the sanction of the ratepayers for their execution.

lately repeatedly urged upon the council that further improvements be made

Aid. Humber ched specific instances where improvements and atterations to the surface drains are required. Such points are Douglas street, Hillside avenue and King's road and Quadra street. He had visited these sections with the city engineer on Saturday last, and the latter was amazed at the discoveries he made. It is said that the work of paving Douglas street may have to be delayed until a surface drain has been put down on the section between Humboldt and Firguard.

Was then thrown open and all arger noon a reception was held to the in-babitants.

It is wonderful what substantial progressian street may impromising townsite. Timber and rock are being removed rapidly, fine plank roads radiate in all directions and severage and water systems provide the necessary conveniences of life. Prince Rupert is fast taking on metropolitan airs and the obvious climatic disadvantages are being test sight of in the improvements mentioned.

Two Lines of Costumes

Exceptional Values Wednes- \$15.75 day at \$12.90 and

Sharp reductions indeed have been made in our Costume Section on Women's Stylish Suits. These include many innovations of the season. They are in serges, diagonals, ladies' cloths etc. Coats are the 32 to 36 inch, while the skirts are the new pleated effect. Rarely indeed do we offer such splendid values as these. If sold in the ordinary way they would bring just double what we are asking for them Wednesday. They are in the season's most pronounced shades. Special for Wednesday, \$12.90 and\$15.75

Women's Oxfords at \$1.95

That our shoe department is a money-saving section for all economists goes without saving. Prices demonstrate this fact. During the last few months we have done a remarkably good business. For Wednesday we are placing on sale a very special line of Women's Oxfords and 'Pumps. The Oxfords are made of a fine glazed kid with patent tips, high or low heel. of patent leather with ankle strap, high Cuban heel. Wednesday's special price. \$1.95

Boy's Wash Suits Priced at 85c

Just think for moment what Soe means to you. It just means the placing of a splendid wash suit for the boy in your hands at a spee i a l saving These are made of fancy piques. crashes, etc., in strpe and check effects, cool and comfortable. Just the suit for the nths. Wed. 85¢

Ladies' Cambric Underskirts, \$1.75

If you only knew the exceptional quality of these underskirts which we are offering at \$1.75 you would not lose another moment in coming in and purchasing. Men's Serviceable Tweed Suits Priced \$7.50

\$7.50 is a small price indeed to pay for a good sensible, serviceable tweed suit. Many men would think by reading this ad. at first glance that there must be some mistake, but we can assure you it's a fact. It is simply another instance where the Spencer store can save you money on your wearing apparel. They are well made, stylish and will give all sorts of satisfaction. Wed-87.50

Wash Day Necessities Moderately Priced

Washing day has no terrors for the up-to-date housewife who uses approved labor-saving devices. Chief of these are the Washing Machine, the Clothes Wringer, the Mangle and the Electric Iron.

We have a WASHING MACHINE which is operated by water power. You attach a rubber pipe to the nearest fancet and another to carry off the waste water. Just turn on the tap and the machine is in operation, working faster and more easily than a hand-machine. You may thus save time as well as labor. Our price, complete with connecti

The "NOISELESS" WASHING MACHINE is one of the best hand machines; easy to work and quiet. Price \$8.75 We also have a useful machine, reciprocating action, economiRUBBER ROLLERS CLOTHES WRINGERS, iron frame \$3,50, \$3,00. A NEW COACH HELPS THE BIG FOUR CREW

A. Pool, of Nelson, and Dr. Hall's Launch to Be Factors in Training

The big four which will represent Victoria in the N. P. A. A. O. is hard it work. The four can be seen out at from the boat house to the Gorge bridge, and back, under a steady, firm stroke.

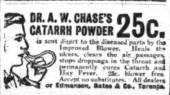

A. Pool, a well known coach, and A. Pool, a well known coach, and formerly of the Nelson rowing club, is residing in Victoria, and has given his services to the J. B. A. A. for the purpose of coaching the crew.

Dr. G. A. B. Hall, has placed his launch at the disposal of the club and Mr. Pool and D. Sullivan are using it,

Mr. Pool and D. Sullivan are using it for coaching purposes.

The crew of the four is developing speed, under the direction of the new coach, and there is every-hope that the material in the boat will be in the most to the last linch in their stroke, when they meet the other crews in the hig race of the year at Vancouver next —Excursions Wednesdays and Satur-

NEW WAGE SCHEDULE FOR TRAM EMPLOYEES

In Agreement Reached With Men the B. C. Electric Concedes Demands

It is understood that an amicable agreement has been reached by representatives of the British Columbia Electric Tailway Company and the men employed on its tram system in Victoria and on the mainland concerning the ways to be said the men during the said the said the men during the said the sai

Victoria and on the mainland concerning the wages to be paid the men during the ensuing three years.

The tram employees are engaged under a wage schedule which is revised every three years, the present arrangement expiring on June 30th Early this year the company submitted a revised schedule to the men, but this was not satisfactory and representatives from all branches drew up another schedule, demanding a wage rate considerably higher than that offered by the management as that offered by the management as well as other concessions. This was not accepteable to the company and, an impasse having been reached, there was much talk of an appeal to the Dominion authorities for a reference of the dispute to a Dominion board of conciliation,
Finally President Cornelius of th

San Francisco Street Railwaymen' Union went to Vancouver and repre-sented the local unions in the negotia tions. Largely as a result of his work the agreement will be signed, the gen-eral basis of which is the obtaining by eral basis of which is the obtaining by
the employees of their full demands.

The new schedule is based on an
hourly wage rate to the various
classes of employees. In the case of
motormen, and conductors it varies
with length of service. The advances
are said to run all along the line, but
to be greatest for the long service men. to be greatest for the long service men.
It is understood that the present wage benus profit-sharing system adopted several years ago, widropped at the end of this year,

LOCAL TEAM WAS ALL TO THE BAD

SEATTLE SPIRITS DEFEAT THEM AGAIN

Ball Players Need to Get Gut of the Trance and Get a Hustle On

Wattelet's coits, which most of the ball fans in this city thought had been well broken in, will have to undergo this same ordeal once more, as the result of the pitiful showings made against the Scattle Spirits. Saturday's game between these two teams was a repetition of the previous one on Friday night, the score being 15 runs to two in favor of the Sound aggregation. It was expected by the fans that with Steenson in the box in the afternoon game Victoria would be able to avenge the defeat administered them the day before. But Steenson had nothing that could fool the Scattle batters and at times they leaned hard against his benders. During the nine things they knocked a home run, one three-bagger, 11 two-baggers and many

three-bagger, 11 two-baggers and many

The playing of both the infield and outfield was bad and Victoria's star slahster was given poor support. Even Bob Whyte, the cool-headed short stop, had to be removed from his post-

Steenson was rather unsettled and he walked the first man who faced him. Then up came Kerry to the bat, and he knecked a fly to Moore in the right warden, who dropped it, and by the he the ball had been recovered the ond batter rested on second base, oers then came to the bat and he was in a trance near the first base. The ball travelled out to the centre in on field and in the meantime another man

crossed the nome plate.

One inning succeeded another with the same story told every time. In the second inning Parks made a fluke home run. He clouted the horsehide sphere right over the fence. He, however, fanned out every succeeding time. It was, in the eighth inning, when things looked good for Victoria, that Whyte sent a fly to centre field which seemed like a safe hit. Brolffs, however, robbed the least of the term of the property of the plant is a few like a safe hit. Brolffs, however, robbed the least of the term of the property of the property of the property of the plant is a few limings winsby, who pitched for the Bankers, had a no-hit-no-run game to his credit, but when the captain saw that, they had everything their own way he instructed his slab artist to let the opponents hit a few. MET WITH AN ACCIDENT.

Colonist Ball Team Fell From Their Lofty Position Before the Bankers.

The Colonist celebrated ball team was given an awful beating Friday night by the unknown Bankers' nine in a game played at Beacon Hill, as briefly told in Saturday's issue. It was a sad catastrophe, the score at the close of nine innings of errorless ball on the part of the Bankers and childlike play by the Colonist, being 14 runs to 2. The much-touted Colonist team journeyed to the sea-side diamond escorted by a

Further Confirmation of the Value of the Holdings of the

Canadian Northern Coal & Coke Company -

Report of the Engineer Just Returned From the Property to Locate Site for Machinery.—Development Begins at Once.—Directors Decide to Sell Twenty-Five Thousand Additional Treasury

The Directors of the Canadian Northern Coal and Coke Co., wishing to further assure themselves of the value of the holding that they had seemed and at the same time to confirm the correctness of the site upon which to place the machinery for the purpose of commencing development work, secured the services of Mr. John Cunliffe, M.E., to make exhaustive examination and report on the property. Mr. Cunlife returned this week, and his report is, to say the least, very gratifying to the officers of the company, and should be appreciated by the many shareholders in the city of Victoria. The report is too long to be printed in full, but the following extracts will give a general outline of the whole.

EXTRACTS:

Acting under your instructions, accompanied by Mr. A. G. Mc-Donald, of Kamloops, B. C., I visited and thoroughly examined your company's coal properties, on the North Thompson River, in Kamloops District, B. C.

Your properties being so extensive, it took nine days to tra-

verse the lands and examine the development work already co-

Physical Features.

The surface contour of this property is slightly undulating, sloping from east to west, about equal to the observed dip of the underlying coal measures. Bores put down at any point on it should benefrate coal seams at nearly equal depth, unless faults intervene. None were observable at the surface.

Geology. Coal of excellent quality and of commercial thickness have been known to exist on the Indian Reserve, 18 miles south of your property, over 3s years. A trial shipment of about 90 tons supplied to the Canadian

A trial shipment of about 90 tons supplied to the Canadian Pacine limitway, gave exceedingly gratifying results, was admitted to be the best coal for steaming purposes used on the Pacific Division previous to that time.

I spoke to several residents of Kamloops on the merits of this coal as a domestic fuel. They were all emphatic in stating it to be the best coal for this purpose ever supplied to that city. From a geological point of view, there is no difficulty in tracing a connection between your areas and the coal expures on the Indian Reserve to the south.

The coal outcom at Boulder Creek, some seven miles to the

Indian Reserve to the south.

The coal outcrop at Boulder Creek, some seven miles to the south of your property, is evidence of this, with probably several other yet undiscovered that will establish a direct connection.

Considering the surface dip of the stratas (about 8 degrees) the general surface topography, and the distance to the adjacent pre-coal braving rocks on the east and northwest sides of this area, the coal measures should not cover 1 to 6 or this distance. area, the coal measures should not exceed 1,200 feet thick. Coa scaning may be penetrated anywhere between 190 feet from the surface and this depth. This property is underlaid by Siturian and Devenian rocks, several groups of the newer formation ap-parently absent, indicates that coal found in proximity to these would be of a superior quality.

Mosquito Area

The location of this area, rising with a steep inclination from the Canadian Northern Radiway location, and reaches an elevation of about 1,000 feet above the railway level, a horizontal tunnel penetrating the measures from the railway would open a large area of coal to the rise, that could be operated and delivered at the surface very cheaply. The location of this tunnel will depend on data collected from the bores.

Development

Development

The amount of work done so far consists of a large number of open cuts, and a tunnel about 60 feet long.

Surface prospecting on a property of this kind, however well done, is inefficient, the thickness of the drift covering makes it too expensive. From a careful personal examination, I believe, your properties are underlaid by seams of coal of good quality, and of commercial workable thickness. I am satisfied this will be proved at an early date after boring commences. This should begin in a few days, the drill being now on the road to the pro-

Markets and Competition.

The fact of two trans-continental railways passing through your holdings, and these being of such an extent, practically holding three-fourths of the known coal areas for several hundred miles on each side, places your estate in an unique position regarding competition.

Railways must have fuel; both traverse great distances

each side of your property in which no known coal exists; the surrounding country is richly mineralized, with jumerous claims awaiting transportation and means of reduction to be operated; smelters will be erected just as soon as a good fuel supply is

Quantity and Life of a Six Foot Seam.

Assuming your properties to be underlaid by a six-foot seam only, the probabilities are several exist, this alone would produce over 7,000 long tons per acre, or a total of more than 120,000,000 tons of coad. At a daily output of 2,000 tons, allowing 300 working days per annum, it would take over 200 years to extract this seam alone. The vast potentiallyies of this property is beyond the grasp of the average man. There is every necessary adjunct for commical mining on the ground or adjacent to it, suitable land for townsite purposes, a plantial smally of good page water for for townsite purposes, a plentiful supply of good, pure water for the production of cheap power, domestic or mining uses, a timber supply that will last the life of the mines—in a word everything that nature could supply to reduce operating costs to the bedrock

of economy.

In conclusion I may gay the future of your property looks very bright. With judicious management your Company should build up a highly profitable industry of large dimensions within a few gar ngang pears.

Sites for bores marked on attached plan.

I have the honor to be.

Yours respectfully,

JOHN CUNLIFFE, M. E.

Vancouver, B. C., June 16th, 1919.

It may be mentioned that Mr. Cualiffe in addition to being a qualified Mining Engineer and Geologist is also a practical coal miner, holding a first class mine superintendent's certificate from the Provincial Government, Previous to coming to this country many years ago, he was associated as assistant and superintendent with the Moss-hall Coal Co., of Lancashire, Eng., and a graduate of the Wigan Mining and Technical college, under the late C. M. Percy, M.M.E., F.R.G.S. He was also associated for many years with the Dunsmuir Colleries at Ladysmith and Comox, and has also examined and reported properties throughout the interior of British Columbia and Vancouver Island. His report bears out in every way previous reports that have been made on the propery by Mr. Chas. A.

Sandford, B.Sc., M.E., and other practical coal men who have examined the property. Their reports may be obtained at the office of the company.

The Directors have decided to sell an additional twenty-five thousand shares in order that the development may be carried on to a greater extent than was originally planned. In view of the excellent prospects, this will meet with the approval of all interested.

Investment in these shares presents an unusual opportunity to an investor, inasmuch as they are obtaining an interest in a company which they are assured will have enough capital to carry out their proposed plan of devel-

The most common causes of failure in development companies are lack of good management and insufficient capital to carry out their plans. The personnel of this company should guarantee that the affairs of the company will be managed in an efficient manner. The men in charge are successful men and men whose standing is well known. The afforment of stock which has already been subscriled for by some of the best known citizens and conservative investors in Victoria places this company in a satisfactory financial condition. The fact that the machinery has been ordered and is now being placed on the property is ample guarantee of the company's intention to proceed with a progressive and aggressive policy of de-

The capital of the company, which is \$125,000, and of this less than \$100,000 will be issued, compared with the holdings, which consist of 17,280 acres, should appeal to any investor as a proposition worthy of investigation. To sum the matter up in a concrete form, it means that you are buying an interest in a developed coal area at practieally speaking, \$5 an acre, which price must appeal to any man with any knowledge or any perception of the future value of coal land, as an investment which offers unusual advantages.

It is unnecessary to attempt to influence any man's judgment by tales of fabulous wealth that has been made as a result of profits that have been derived from coal. Of all forms of mining, this has been the most productive of dividends, while it may not be surrounded with the halo of romance of gold and the more precious metals, still, when it comes to actual results, the holders of shares in well-managed coal companies have made enormous profits. The assumption that the holders of these shares may realize one thousand per cent within the next twelve months is not an unreasonable one.

This is an opportunity for investment that should not be overlooked by any one who has some money that is available for investment, and the chance to buy these shares will not be available for any length of time. last allotment was quickly subscribed for, and it was not expected that any further shares would be offered, but it can be stated positively that this will be the last allotment that will be offered to the public, and while it has not unusually been the custom, and would be justified under the circumstances, the company have decided to offer these shares at the original price of 25c without advance, and on the original terms of half cash and the balance in three

Think of Last Summer-

You can remember days when the heat inside your kitchen was so great you could hardly bear it. With the right stove you would have made a better hostess. Save your health. Don't put up with the drudgery of a coal range. You can have a clean, cool, pleasant kitchen. The

New Perfection Oil Cook-stove

does away with all drudgery of cooking. Why should you be a slave to a coal range when you can have an Oil Cook-Stove that is cheaper than coal, cleaner than coal, doesn't "smell," doesn't smoke, lights instantly, can be put out instantly, leaves no ashes, and doesn't heat the kitchen. With one of these stoves you can boll, bake or roast the most elaborate dinner. You can change from a slow to a quick fire, or the other way about, by simply turning a wick. Apply a match, and instantly the heat from an intense blue flame shoots upward through the turquoise - blue enamel chimneys to the bottom of pot, kettle or oven — but nowhere else. The stove has every convenience that can be thought of: Cabinet Top with shelf for keeping food and dishes hot, drop shelves to hold coffee or teapors, towel rack; in fact every convenience possible.

The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Why should you be a

What Is Duffy's Pure Malt Whiskey?

It is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a medicinal whiskey; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It is a gentle, invigorating stimulant and tonic.

WHAT DOES IT DO?

It builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. It brings into action all the vital forces; it makes digestion perfect and enables you to get from the food you eat all the nourishment it contains.

It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old young and keeps the young strong.

It cures nervousness, typhoid, malaria, every form of stomach trouble, diseases of the throat and lungs, and is recognized as a medicine by doctors of all schools: Thousands of letters have been received from men

and women in all walks of life, many from those nearly 100 years old, extolling the virtues of Duffy's Pure Malt Whiskey as the world's greatest medicine; \$1.50 a large

RICKARD LEFT FOR RENO THIS MORNING

Goldfield Offers a Big Sum for Fight-Johnson and Jeffries Packing Up.

The Times leased wire special dispatches to-day from San Francisco report that there is a great amount of uncertainty in both the Johnson and Jeffries camps, and that Reno, Nevada, is almost on the map. Rickard left for Reno this morning. He will while there meet a delegation of Goldfield enthusiasts who are prepared to guarantee a seat sale of \$200,000 if the promoter will take the fight to the gold fown of the Sage-Brush State. At the Seal Rocks yesterday and this morning the big black man went ahead with his training as if nothing unusual had occurred, but he is ready to leave at a moment's notice or to stay on and complete his preparation there, whichever way

a moment's notice or to stay on and com-plete his preparation there, whichever way the legal battle will result.

At Rowardennan, Jeffries is nursing a grouch. There is a spirit of uncertainty there. The manager of the Jeffries camp, it now transpires, has an agreement with the undefeated that he and his trainers do not leave Rowardennan until July 2nd, and this morning the manager was reported to be commencing preparations for a suit against Jeffries should the white man

The Evening Chit-Chat

the quotation. Do you know there are times when it seems to me that would not be as bad as the course most -of take when we don't know what to say?

We are ill at ease. We are self-consections we

what to say, and

so he swore,

so we ramble on, and like as no something we will be heartily sorr to think it over afterwards.

The most stupid, the most inane, the nost unfortunate things I have said n the course of my life have always en under just these conditions. I have felt that I must say somethin

and I have stumbled wildly on int entil 1 nave stumpled whilly on into egotistical and inane and misleading remarks that I have often regretted bitterly for very long afterwards. Anyone will admit that he regrets the thing he said three times as often

is the thing he left unsaid.

Why, then, don't we take a lesson rom that, and when we have nothing very desirable to say, shut our mouths

Why not in your case substitute for "He knew not what to say, and so he said something foolish—" "He knew not what to say and so he said nothing?"

some sort of a regulation forbidding e wearing of elaborate clothes to hurch, it seems to me it would be a mighty good emovement for t churches of this country to take up.

But since a regulation would be almost if not quite, impossible to form and enforce, I wish you—that means the women I write to—would do a little

thinking on the subject for yourselves and perhaps put a few private regulations into force.

It does not seem to me as if the house of God were the place for the display of elaborate gowns that we so often see there.

ave on their thinking about them and thereby neglecting the service.

In the second place, few women

In the second place, few women can see other women's best clothes without thinking of them, and thereby neglect-ing the service. And in the third place—I put it third for emphasis—not by any means be-cause I think it least important — be-

ause if the rich or comfortably well off women of the church wear their where all of us prate of being

dress dowdily for church—only very simply and quietly.

simply and quietly.

There is nothing more saddening to my mind in our religious world than to see a church congregation become a fashion show. If the love of display, the burning interest in "wherewithal shall ye be clothed," dominate even here, where can we find sanctuary from them?

Ruch Comera

xcretion of carbonic oxide, and the lation yet he is better off if he has

efficiency.

The stimulation of strong sunlight has been frequently mentioned by literary men of genius, for with rare exceptions they have very sensitive nervous tissue in which the results would be most noticeable. Light baths are suggested for sluggish metabolism, an excellent remedy in the case of those of sluggish chemistry who are benefited by the slower heat rays of hot springs, spas, etc.

A doctor reports a cure of tubercular A doctor reports a cure of tubercular-peritonitis in a child of nine by the use of condensed rays of the sun. An Towa physician is having marked suc-cess in treating tuberculosis of the lungs, larynx, etc., with concentrated sun rays and in this method the glass store most of the ultra violet rays if stops most of the ultra violet rays if not all. He shows that the light penenot all. He shows that the light pene-trates the body and kills bacteria or inhibits them so that the increased vi-tality brought about by forced nutrition and other means disposes of them and healing then occurs. He shows that the light is a stimulant, is absorved by the cells and causes definite chemical changes.

Sunlight kills bacteria, but we ignor Sunlight kills bacteria, but we ignor-antly fail to reflect it has just as fatal effect on the protoplasm, which com-poses the human system. Sunlight is producing headache, insomnia, con-junctival irritation, skin diseases, nas-opharyngeal disorders, thermic changes, insanity, suicide, neurasthenia, and cardic feebleness. So those of us who wish to promote health, sanity and lone life must raise our parasols on golong life must raise our parasols on go ing into the sunlight, huht the shade of dark houses, take or advise a seat in the shade of the old apple tree.

In answer to a charge of riding a blevele after dark without a light Matilda Jones, of Battersea, said that her sweetheart, accompanying her on his blevele had his arm on her shoulder, and she ht the light on his machine would

CHEAP THINGS

Everybody likes to buy things that are cheap, provided the article is good; but it must be remembered that very alip away to the Pacific Coast imme-

in The Mutual Life of Canada, on the Limited Payment Life Plan. Had the policy become a claim by death at any time during the period, his wife would have received the full face value of the policy, and for the protection thus. Investors, and has been largely underactual average annual cost has been at the rate of \$15.000,000 is available to Canadian investors, and has been largely underactual average annual cost has been at the rate of \$15.000,000 is available to Canadian investors, and has been largely underactual average annual cost has been at the rate of \$15.000,000 is likely the protection of the cost of t at the rate of \$15.60 per \$1,000, so that even for the protection afforded. If even for the protection afforded, if nothing more, this insurance has prov-ed to be cheap. But that is not all; for in addition to being protected for 22 years, should the policyholder now wish to take the cash value for his policy, he can draw \$160 in gold coin of \$555,500 over those for the corresponding period of last year. Five per cent, on \$15,000,000 is assured for several years, even if the railway were times what he has paid in premiums three times what he has paid in premiums to more premiums to be paid. and unstead ne ninself will receive an annual cash dividend on the policy as long as he lives, and the full face of the policy will be paid at his death.

Such grand results as these are only to be obtained in the Mutual Life of anada....

OBITUARY RECORD

Large crowds attended the Gorge park yesterday afternoon in spite of the threatening weather. A fine musical programme was rendered.

The Victoria Bankers' baseball team will play a friendly game with the United Commercial Travellers at Beacon Hill at 6:15 td-night,

The Fifth Regiment paraded to church yesterday morning to St. Savior's church, Victoria West, where Rev. F. T. Tapscott conducted an impressive service. The forkshift Society, of which order the deceased was a member, were present at the funeral. Many beautiful foral offerings covered the casket. The following acted as pall-bearers: Messrs. R. Loughney T. Grice, Sellick, Geo. Crowther, Thomas Whitwell and Jos. Peirson, the last William.

propriate to the occasion.

The annual decoration day of the Fraternal Order of Eagles was held yesterday afternoon at Ross Bay cemetery. Nearly cryp member of the order attended to decorate the graves of their departed brethren.

An open air concert will be given by the Fifth Regiment band this evening at Beacon Hill park. A good programme of music will be rendered. Yesterday afternoon, the band gave a cencert at the camp, which was largely attended and greatly enjoyed.

The funeral of the late Ivor Noel MacGregor Grant took place yesterday afternoon at 2.30 from the family residence to Christ Church cathedral. Rev. W. Barton officiated. The attendance of sympathization of ficial tributes were numerous, the casket and hearse being covered and a carriage which followed was filled. Six former schoolmates acted as pall-bearers; Paul Clyde, Lincoln Marshall, Gordon McEachern, Fred Tubman, Harold Carne and Douglas Mitchell. Interment was made in Ross Bay cemetery.

Yesterday afternoon at 3 o'clock the funeral of the late Frederick II. Marshall Carne and Douglas Mitchell.

resterday afternoon, the band gave a cencert at the camp, which was largely attended and greatly enjoyed.

This evening an important meeting of the Young Peoples Society of St. Andrew's Presbyterian church is to be held. Business, including the election of officers for the ensuing 'six months, is to be transacted. After this a devotional programme which is being a members of the Esquismat cricket club attending. The City band headed the processon to Ross Bay cemetery, where the last rites were conducted by Row. W. H. Sweeney, president of the Esquismat cricket club attending. The City band headed the processon to Ross Bay cemetery, where the last rites were conducted by the Shawnigan Lake Athletic Association on Saturday evening in the clubrooms. Many from the city were present, and they had a most delightful time. Dancing was, indulged in from 8 o'clock until midnight. The halt was prettily decorated and the second dance given by this association proved a complete success.

**Mors Elizabeth Gerhardt, of Brooks, the function of a review of the Mrs. Elizabeth Gerhardt, of Brooks with her husband and two other men when a squall overturned the boat. She was drowned before her companions could reach her. The storm broke almost without warning preceded by a gust that uproceed trees, sent street signs flying and tore into tatters the decorations hour and a half the storm continued at the ball games at the polo grounds and in Brooklyn, and gave thousands of spectators a drenching.

**Way to the Esquimalt cricket club attending. The City band headed the proposed trees, sent street signs flying and tore into tatters the decorations hour and a half the storm continued as the polo grounds and in Brooklyn, and gave thousands of spectators a drenching.

STORM SWEEPS

OVER NEW YORK

Four Persons Are Killed While Scores of Others Have Narrow Escapes

New York, June 20.-New York was Two hours after the parade that escorted Theodore Roosevelt up Fifth avenue had disbanded came the most violent downpour in months. In 20 minutes 6 of an inch of rain fell, while the wind attained at times a velocity of 58 miles an hour. Four deaths were reported while scores of people had marrow escapes.

Mrs. Elizabeth Gerhardt, of Brook

spectators a drenching.

An eleven year old boy in Brooklyn was fatally hurt by falling plate glass, and died Saturday night.

Only the coolness of performers and employees of the Forepaugh & Sells Bros. circus prevented a panic in the terit spread on Manhattan field. Under the first plasts of the wind the lugge the first blasts of the wind, the luge tent began balooning and tugging at the guy ropes. The spectators began to rise in their seats, but the perform-

ers continued their acts, and attend-ants burried through the throng, warn-ing all to remain seated.

Minor accidents without end were reported to practically every police sta-tion in the city. Two painters were blown from a scaffold, but escaped with slight bursts. Dozens of recess blown from a scaffold, but escaped with slight hursts. Dozens of peces-trians were bowled over by the wind or fell on slippery pavements. Three were knocked down by autos, which skidded on the wet road.

Brakeman Killed, Worcester, Mass., June 20.—Fred Livesey, a New Haven brakeman, while working on a freight train above Wor-cester, was struck by lightning and fell from his train. His neck was broken and he died instantly. Orville Ford, a from his train. His neck was broken and he died instantly. Orville Ford, a clerk in the office of the New Haven railway, was completely paralyzed by a bolt of lightning which entered his office A dozen houses in the city were struck by lightning.

What Other People Think

TITLE SEARCHING RESTRICTIONS

To the Editor:-I saw your leaderette on Saturday, and being interested in real estate made inquiry. I am told that in some of the land registry offices unscrupulous agents made themselves too busy and something had to be done. They were said to have crowded around the counters and desks so that the officials could not get on with their duties, and even went so far as to erase marks on maps, etc. Am delighted to see that sort of a man get a rap on the knuckles, and glad it is not a ase of the big man trying to restrict the little one once more.

CHAS, PROVIS.

To the Editor:—Will you please to insert a few lines for me, as I see so much said about sidewalks; but all has not been said that can be said. Last year about this time we raterpayers on St. Lawrence street, between Simose and Niagara, had petition against new walks going down. Every ratepayer on that part of the street igned the petition against life the city sent along a gang from, tore up the sidewalks without any notice whatever and planted down a sixteets in the city. They likewise put insidewalks on Ladysmith street without any notice whatever. On the south side hear repetition walks will be an everlaging deriment to repeat the sidewalk on the maintenance of intake flap which is a good to make two feet high on nice level ground, which, if allowed to remain, will be an everlaging deriment to remain, will be an expert? Think of the city put-To the Editor:-Will you please to inser-

ting down six feet sidewalks on one of the known to most of us by its bad emi

KAISER UNDERGOES OPERATION. Kree is Lanced and Complete Recov ery is Expected in Few Days.

Berlin, June 20.—Prof. Rier late on Saturday used a knife on the Emperor's knee. According to the usually well informed Lokal Anzeiger, the inflammation proved of a similar character to that on the wrist three weeks ago. The operation consist of simply of lancing the abscess, which was considered slight, and his majesty was able later to partake of the family dinner. later to partake of the family dinner

The first bandage was renewed Sat-unday night. The Emperor suffered no pain to speak of, and a complete re-covery is expected in a few days unless some unanticipated complications set in.

A semi-official note issued Saturday evening made no mention of an operation, merely announcing that "The knee affection of the Emperor is progressing favorably."

ADVERTISE IN THE TIMES

ETOLDYOUSO!

On Wednesday, the 15th, the money was paid and there came into the possession of the AMALGAMATED DEVEL-OPMENT COMPANY, thirty-four oil claims, together with over \$100,000 worth of machinery, including drills, machine shops, commissary supplies, saw mill, steel tramways, pumps, tanks, pipe lines, a 200-ton schooner and

Six Producing Oil Wells

Four of which are situated upon Mineral Entry No. 68, a Patented Oil Mining Claim of 160 acres, all in the Katalla, Alaska,

It took a lot of money to enable us to take advantage of the inability of others to carry this immense project to a successful issue, but we got it, and we will have a cargo of oil in Vancouver harbor in thirty days and just as soon as we can raise the means to build our pipe line to deep water we will be shipping

Two Thousand Barrels Daily

and more, as fast as new wells can be drilled.

This immense project was too large for the International or Northern Oil Companies to handle so the promoters, who were instrumental in forming all three companies, in fairness to their old stockholders, have effered and will take up the stock in the last two named, and will issue the same amount of stock in the new company, with the ultimate object, in case all of the stockholders come in, to take over the properties of the two companies, thereby making still more extensive the holdings of the Amalgamated Development Company.

Shares for a limited time, \$1.00 per share; to be had-only by those holding International or Northern Oil stock, limited to the number of shares so held. All other stock \$2.00 per share.

YOUNG CITIES

IN THE NORTH

(Continued from page 1.)

town is booming, and the letting of contracts for Mackenzie & Mam's road and wharf, together with the free milling strike up the creek, has caused high hope of the permanency of the townsite. The town is situated on a beautiful alluvial flat, clothed thickly with cottonwood, and already boasts some fine stores and offices.

The corrige time instituted by the G.

thickly with cottonwood, and already boasts some fine stores and offices. The service just instituted by the G. T. P. marks a new era in the history of the northland. Travel is now robbed of all its disadvantages and the effect is bound to be apparent in a great accession of traffle. The new vessel will be one of the most popular on the run. She is fast, commodique and beautifully appointed, and on her maiden voyage north gave evidence of all those qualities claimed for her by her builders. She is very steady in a sea, free

On this, her first trip, a number of officials of the company were on mand to see that matters ran smoothly. They were headed by W. P. Hinton, general passenger agent of the line, to brother of John Hinton); Capt. Nicholsno, manager of the steamship line; R. Beaulnont, assistant manager; G. A. McNicholl, purchasing agent; Shore Steward Nickerson; General Freight Agent Druce, with Capt. Barney John son on the bridge.

Poultry.

The poultry exhibit at this time of year is not as large as in the fall show, for row there are only adult birds available. They were fully up to the available. They were thinly up to the standard, not a really band specimen being cooped. Mr. Calcott, of Somenos, showed a barred rock cock, which unfortunately by a mistake of the judge (whitewash from the coop being mis-

FAMED FOR FINE FURNITURE

taken for evidence of a frozen comb) was debarred from his rightful place of best in the class and possibly best in the show. The mistake was seen too late to be rectlified.

Messrs: Jones and Newberry kept up the reputation their birds have gained at all the principal shows, but if the Cowiehan hen improves as she seems to be doing they will not have things

to be doing they will not have things all their own way in future years. However, they deserve all credit for sending birds that are an education and an object lesson in one.

Mrs. Jackson's gaines were better than last year, which is saying something, and from the abnormal length of limb seem admirably suited to the bottom-lands well interspersed with ditches. Ducks, geese and turkeys were well

Ducks, geese and turkeys were well represented and added their quota to the harmony of the meeting.

Of the management of the show too music cannot be said. Secretary Hall did everything possible, and was always in the right place lending a helping hand. Among the principal workers should also be mentioned Rev. F. J. Christmas, H. D. Evans, Mrs. Beaven

Last but not least was the baby
