COMING TO CONFERENCE

HUNDREDS OF DELEGATES EN ROUTE TO VICTORIA
Discussion on Missionary Work of Methodist Church Will Be Feature

(Special to the Times.)
Winnipeg, Aug. 11.—En route to Victoria, where they will attend the Methodist conference, 180 Methodist clergymen passed through here yesterday on a special train. The party was organized by Rev. Mr. Harper, Orangeville, Ont., and is known as the Harper party. A number of eastern delegates to the conference were in the city Tuesday on the way to Victoria. Among them were Revs. S. Walter Rigby, of Carnia; Dr. Bishop, of Belleville; Solomon Cleaver, Toronto; Reuben Milyard, Forest, Ont.; president of the London conference; D. N. McCamus, St. Mary's, and Dr. J. F. German, and the following laymen: W. F. Lawrence and George A. Proctor, Sarnia; J. H. Chapman and Wheatman, London; Abram Shaw, Kingston. There were one hundred who came in on the Pacific express, while Toronto and surrounding country also contribute. Maritime provinces are well represented. Those coming from that part of the Dominion, including Rev. H. T. Thomas, of Charlottetown; J. M. Fulton, of Mount Allison Academy, Sackville; Dr. W. W. Adams, of Antigonish; and Rev. W. M. Harrison, of Grace church, Charlottetown; Rev. W. I. Croft and Judge Chesley, of Nova Scotia.

Among delegates leaving yesterday were Rev. Dan Martin, Stratford; Rev. J. W. Sifton, Winnipeg; Rev. Marjory Benson, St. Catharines; Mayor Chas. Austin, Chatham; Rev. J. W. Churchill, Port Arthur; Rev. D. M. Kennedy, High Bluff, and Prof. Allen, Manitoba University. Among the delegates who passed through the city to-day were: Rev. T. J. Cooper, Antler, Montreal; Rev. Dr. J. Mansel, Bradford; Rev. Dr. Thomas Manning, of London; Rev. H. M. Manning, Wilby; Rev. C. E. Manning, Toronto, field secretary of home missions; Rev. R. D. Hamilton and wife, Listowel; W. G. McAllister, Blenheim; Dr. D. W. Johnson, Halifax, editor of the Wesleyan; Chas. S. Desrosiers, Ottawa, president of the Montreal conference; Benjamin Hill, Acadia, president of the Nova Scotia conference; David Hickey, Pictou, N. S.; James Allen, M. A., Toronto, general secretary of home missions; Dr. A. C. Crews, Toronto, editor of Sunday school publications; H. W. Crews, Berlin; Dr. John W. Graham, Toronto, secretary of education; Dr. Jas. S. Ross, Hanover, Tenn.; D. W. Snider, Elora, Ont., president of the Hamilton conference; A. L. Gee and wife, Simcoe, Ont.; Dr. J. S. Williamson, Niagara Falls, South; W. H. Emsley, Napanee, Ont.; Dr. W. B. Creighton, Toronto, editor of the Christian Guardian; G. J. Brown, River John, N. S., former editor of the Christian Guardian; S. P. Ross, Sherbourne Street church, Toronto; J. J. Redditt, assistant to Rev. Dr. Wm. Briggs, Methodist Book and Job Publishing (Concluded on page 14.)

FLOWER SHOW A GREAT SUCCESS

QUALITY OF EXHIBITS IS BETTER THAN EVER
Judges Speak Highly of Show—Decorated Baskets and Tables a Feature

As was predicted beforehand the flower show, which opened yesterday and continues until 10 o'clock to-night, was larger, more representative, and the quality of the exhibits better than ever before in the history of the Horticultural Society, under whose auspices it is held. All the tables and benches were well filled, especially those on which the entries of the "C" class were placed.

While sweet peas were the great feature, insofar as number of exhibits and quality is concerned, those who went to see displays of flowers of varieties which could not be seen at home were attracted chiefly by the ferns and other foliage plants, and the immense begonias, tuberous-rooted and fibrous, which practically lined the central part of the hall. Expressions of appreciation were heard on every hand, and the directors and other members of the society were especially pleased at the success attending their efforts.

Judge L. Russell, who has judged nearly all over Canada, and Park Superintendent Thomas Purdy, who has done considerable judging in England, were especially pleased with the exhibit throughout was an admirable one. Mr. Purdy states that the peas here compare very favorably with those shown in England, being equal in every respect to those shown at the Royal Horticultural Society's show. He considered the coloring of the peas here superior to those grown in England, this being due to climatic conditions.

Mr. Russell, in discussing the exhibit, paid a tribute to the new sweet peas grown by J. A. Bland, secretary of the society. In all lines he considered the exhibit far ahead of anything he had seen here before. Mrs. Heary Croft had a very fine display of ferns, foliage plants and begonias, but there were many other exhibits of very great merit. They had given the prize for color to Bishop Perrin because his plants were better colored than Mrs. Croft's. They were not quite as large, but the colors were much richer. The bishop also had a number of other fine exhibits. There was a great improvement, Mr. Russell thought, in sweet peas, especially in the "C" class. Petunias were also fine, as were the exhibits generally.

The exhibit will be open this evening, when a promenade concert will be held and refreshments served. Doubtless there will be a large attendance of those who were unable to get out yesterday or who wish to revel among the flowers for one evening more.

The first prize for decorated baskets was awarded to Miss Bunnett, a new exhibitor. The basket was in crimson and bronze coloring, carried out with mixed flowers. Miss Mara, winner of the second prize, had chosen pink godelia. A large bow of lime green ribbon, on the handle, completed a dainty effect. Mrs. C. E. Wilson won the third prize with a large rustic basket of blue clematis. Miss Wark's basket of pink sweet peas and maiden hair fern was an easy winner of the fourth, but all the baskets were well worthy of prizes that had been possible. Miss Iris James, of 4044, years, had submitted a very dainty effect in mauve sweet peas and gypsophila, which many thought worthy of a special prize.

Decorated Tables.
Mrs. Dupont, to whom was awarded the first prize for decorated tables, had chosen salpiglossia, with a large white centre-piece, underlaid with green, green-shaded candelabra and tinted glasses, with which to carry out her design and the effect was most artistic.

Mrs. Dupont, to whom was awarded the first prize for decorated tables, had chosen salpiglossia, with a large white centre-piece, underlaid with green, green-shaded candelabra and tinted glasses, with which to carry out her design and the effect was most artistic.

Mrs. Hanington's pretty arrangement of nasturtiums, with tulle and candies carrying out the same color scheme, was awarded the fourth prize.

Many other pretty tables were shown. Mrs. C. E. Wilson carried out a most unique rustic design with nasturtiums and Spanish moss. In the centre, surrounded by nasturtiums, was a water-lily and gold-fish-pond, with a miniature fountain. Red electric light bulbs were introduced with excellent effect. Miss Allen's table with its centre-piece of shaded crimson roses, having at two corners a large green porcelain shoe filled with Dorothy Perkins roses, was much admired. Mrs. Beresford Hogg and Miss Brown decorated a table in cornflowers and gypsophila which was very dainty.

HAVE THEY TOO MANY IRONS IN THE FIRE? "BILL" TO "DAN"—Hadh't we better "ca' canny," as our mothers used to say in the old days, or we will be left without money to build our railways.

ALBERTA EXTENDS ENTHUSIASTIC WELCOME

Large Crowds Greet Sir Wilfrid Laurier—Premier's Glowing Tribute to West—Hon. G. P. Graham on Hudson Bay Line

(Special to the Times.)
Ded Deer, Albt., Aug. 10.—Two young ladies, unmistakably Americans, were standing on the outside of the gathering that met Sir Wilfrid Laurier yesterday morning. They were witnessing the enthusiasm of the premier's welcome.

"Say," quoth one, in all earnestness to her companion, "people think as much of him as they do of Roosevelt!" Which was probably a tribute par excellence from a native of the United States at the present time.

The reference in the civic address to the climatic conditions in winter elicited from the premier a sparkling eulogy. "For my part," he said, "I have no fault to find with the Canadian climate. Some few years ago Rudyard Kipling, imperial poet, referred to Canada as our 'Lady of the Snows.' Some critics find fault with the title. I approve the appellation. The climate of Canada is the glory of Canada. It is the climate of Canada which makes No. 1 hard wheat. It is the climate of Canada which puts the bloom upon the cheeks of the better half of the audience before me. When I rise on a winter morning and see the smoke rising in the atmosphere a hundred feet above the chimneys perpendicular to all lines of agricultural effort."

"I come from a part of Ontario noted for the dairy output," observed the minister. "I have been studying this northern part of Alberta with great interest as we came along. This part of Canada, peculiarly blessed by nature, lends itself to the development of one of the best dairy sections in the known world. There is no reason why northern Alberta should not take first place on the Liverpool market with New Zealand and Danish butter."

He also looked for a trans-Atlantic business, in view of the new route, from the expansion of the chilled meats industry in the west. The shipping front from his car at Ponoka, Sir Wilfrid reiterated his welcome to the newcomers, of whom there were many in that district, and urged them to contribute by energy and effort to the future of their Canadian homeland.

At Lacombe, where a stop was made to enable the party to visit Alberta's experimental farm, the premier addressed himself specially to women. He had found no agitation for woman suffrage, but he had been proud to notice the important part the women of the west were performing in evolving a country of happy and contented homes. He appealed to them to keep the standard of Canadian life high and to inspire their husbands and brothers to take an active, intelligent interest in civic and national affairs.

Superintendent Hutton conducted the ministerial party on the auto trip of inspection over the experimental farm, covering half a section and three years old, adjoining the train a mile west of the town. The farm is modelled on the lines of the older eastern institutions, and is situated in Lacombe valley, the richest portion of Alberta. The provincial government is enthusiastic over what is being attained.

Red Deer gave Sir Wilfrid and his party an enthusiastic welcome. A procession, headed by bands, wended its way under a canopy of arches to the city park, where a civic address was presented. Alluding to his congratulations upon his health, Sir Wilfrid said: "I thank God that I am in perfect health. I do not know that I ever felt better in my life. The only thing of which I can complain is that I am growing older, but that is a very prevalent complaint. But if I am growing older in time I am growing younger in spirit these days. I fancy I am imbuing something of that spirit of perennial youth, buoyancy, courage and hope, which belong peculiarly to this country. The west is doing me good in many ways."

The premier rested last night and will address meetings here to-day.

Hon. G. P. Graham's fame as a baseball pitcher has brought him in for another honor. He will pitch the first ball in a game between Red Deer and Aitx to-day.

The company is operating under its own charter, and plans to connect with the Pacific.

London Comment.
London, Aug. 11.—The British Weekly says: "For once we almost envy any Liberal member going down to the country. The Canadian revolt against protectionism is a great fact, so great that it cannot be silenced or suppressed by any conspiracy of Unionist papers. It is a momentous fact that Canadian farmers desire no preference in the British market. Canadian manufacturers will fight hard, but the future of Canada is in the west."

Chicago, Aug. 11.—The resolution unanimously adopted here, establishing a concordat between the Knights Templar governing bodies, is said by Masons to be the most important step taken by the conclaves in years. The concordat establishes amiable relations between the Knights of England, Ireland, Scotland, Canada and the United States, and is an event that has been crystallizing for many years.

Its consummation is said to be the chief object for which the Earl of Easton, pro-grand master of England and Wales, visited the 31st triennial conclave.

All the Templars of the world are affiliated with the governing boards of one or the other nations, and yesterday's legislation practically consolidates them.

WICKERSHAM RE-ELECTED.
Independent Republican Is Again Selected as Alaskan Delegate.

Juneau, Alaska, Aug. 11.—Judge Jas. Wickersham, independent Republican, has been elected to succeed himself as delegate to congress over Ed. S. Orr, organization Republican, by a plurality variously estimated at from 1,500 to 2,000. The exact figures will not be known for several days, or perhaps weeks. Orr, who had the support of National Committee-man L. P. Shackleton, appears to have led only in the territory about Cordova, where it was conceded that he was strongest.

In the other large centres Wickersham led by large majorities. Even in the Valdez district, where Orr makes his home, Wickersham polled 196 votes to his opponent's 84, and in Fairbanks, Nome and Juneau, where Wickersham's strength lay, Orr ran far behind.

CLEVELAND MYSTERY.
Cleveland, O., Aug. 11.—Every theory in regard to the murder of William L. Rice has been upset by the testimony offered yesterday at the coroner's inquest. The first sensation came when George Freeman, a gun expert, testified that the bullet taken from the dead man's head had not come from a Remington-Union revolver, as supposed, but belonged to either a Winchester rifle or a Russian gallery rifle. This testimony complicates still further the mystery of Mr. Rice's death, but it gives the police a clue which they think may bring results.

Montreal, Aug. 11.—The tenth annual prize meet of the province of Quebec Rifle Association opened on the range at Point Aux Trembles yesterday, with all signs pointing to one of the most successful tournaments in the history of the association. An attractive programme covering three days has been prepared for the meet.

RIFLES GOING TO ENGLAND

QUEEN'S OWN REGIMENT LEAVES TORONTO

Thousands Gather in Armory to Wish Officers and Men Bon Voyage

(Special to the Times.)
Toronto, Aug. 11.—Several thousand relatives and spectators crowded the galleries of the armory when six hundred stalwart officers and men of the Queen's Own Rifles, resident in new uniforms, paraded for a unique ceremony. Lieut.-Governor Gibson, Premier Whitney, and Mayor George of Toronto united in bidding the regiment God speed and in voicing the farewell of the people of the province and dwelling upon the precedent in imperialism that the regiment is setting in its visit to England.

TOURING SASKATCHEWAN.

Elbow, Sask., Aug. 11.—The agricultural editors spent a delightful morning yesterday in Moosejaw, the programme including luncheon as guests of the city and a thirty-mile auto drive through the surrounding wheat fields. The crops will be well up to the average, and the visitors were much impressed with the quality, considering the dry season.

RAVAGES OF CHOLERA.

St. Petersburg, Aug. 11.—Prof. Rey, of the medical faculty of the university, describes the present outbreak of cholera in Russia as an imperial cholera. He estimates that the death list for 1910 already numbers 57,000, compared with 23,000 in 1909 and 17,000 in 1908.

WILL RESIDE IN VICTORIA.

Winnipeg, Aug. 11.—Mr. and Mrs. Norman Matheson, an old Kildonan family, leave on Saturday to reside in Victoria.

RACE CRY IN SOUTH AFRICA

APPEAL DENOUNCED BY PREMIER BOTHA

Dr. Jameson Says Famous Raid Was Step in Direction of Federation

(Special to the Times.)
Pretoria, Aug. 11.—Speaking here General Botha said his government still awaited the Unionist programme. He heard of people being stirred up to vote "British," but had not the Empire every reason to regard himself and his party as her sons, as good as any other.

Hon. Mr. Smuts advocated military training on the Swiss basis, with a nucleus for a striking force. He was willing to abide by the advice of the war office that South Africa should be self-reliant, but further than this she should do everything possible to assist the Empire which had given the Transvaal her freedom. Education, he claimed, would be the dominating issue in the campaign.

Dr. Jameson's Speech.
Durban, Aug. 11.—Dr. Jameson, leader of the opposition, speaking here said that it was not sought by means of the famous raid of December, 1895, to replace Dutchmen by Englishmen in the Transvaal. During the raid he carried a letter containing a list of the proposed new executive, including Lucas Meyer. Though the raid was badly carried out and thoroughly deserving of the punishment it got, yet it was a step in the direction of the federation of South Africa which was Cecil Rhodes' policy.

Cream roses. Mrs. Denage used blue clematis, thistles and silver candelabra with good effect. Mrs. S. Maclure carried out a most effective design in self blue and yellow. Her table was considered by many one of the most artistic. Miss Angus' arrangement of pale blue and green in silver vases was very dainty and pretty. Walter Klippen carried out a very striking design with crimson tulle and carnations, and red shaded candles. Mrs. Roper's scheme of dark bronze, shading to lighter tints, was unique and excited considerable comment.

The showing of tables decorated by girls under seventeen was a most creditable one. Miss Douglall James, the winner of the first prize, carried out a mauve color scheme very effectively with godelias and gypsophila, pretty dainties and mauve shaded candelabra. Apricots in rustic baskets finished the corners. Miss Browne Bodwell won second prize with a delicate arrangement of pink sweet peas and shaded candles. Miss Wolfenden, winner of the third prize, showed a very catchy combination of white and yellow daisies in cut glass vases.

The awards of the Judges were as follows: (Concluded on page 13.)

SENSATION CAUSED BY NEW SWEET PEA

J. A. Bland, of This City, Develops Splendid New Variety by Cross-Fertilization

Quite a sensation was caused among flower growers yesterday by the exhibit at the flower show of a new variety of sweet peas produced by J. A. Bland, secretary of the Victoria Horticultural Society. This pea is white, with a deep pink edge, and is an improvement on the "Elsie Herbert," which was formerly looked upon as the best in these shades. The flowers are very large and bold, one bloom measuring two and a half inches across.

The new pea is something which has been worked out by a process of cross-fertilization. First a cross was made between "Mrs. Collier," a cream, and "Helen Lewis," an orange. This gave a hooded seedling, which was then crossed with the "George Herbert," a pea of the Spencer type. The result was the well-fluted and bold pea described above, which has not yet been named. Mr. Bland has enough flowers from his new variety to pick a vase of exquisite blooms.

L. Russell, who has judged flowers for a number of years, and who was one of the local judges this year, speaking of the new flower to a Times representative last night, said he considered the new pea as being as far ahead of other present day sweet peas as the Lawson carnation was ahead of all others at the time it was put on the market. He considered that the new pea ought to be worth a good deal to Mr. Bland.

'NOTHER VICTIM OF BELFAST HOTEL FIRE

Mrs. W. J. McCaughan, Former Resident of Toronto, Succumbs to Injuries

(Special to the Times.)
Belfast, Aug. 11.—Mrs. William John McCaughan, who was injured by jumping from a window of the burning Kelvin hotel here on July 16th, died to-day. Her husband, Rev. Dr. McCaughan, who was pastor of May Street congregation here, was formerly in charge of St. Andrew's church, Toronto. Afterwards he took up ministerial work in Chicago. He was a victim of the same fire and died from injuries received July 21st.

The inquest into the death of Rev. Dr. McCaughan was resumed last night, and the feature of the proceedings was the reading of a statement from Mrs. McCaughan. It was obtained while she lay in a serious condition in the hospital and was in writing. She declared that when she and her husband discovered the fire they tried to escape by a door, but were prevented by smoke. She went to the window and endeavored to suspend herself from the sill but fell. Her husband rang a bell to all the servants before he jumped from the window.

GENERAL BADEN POWELL ARRIVES

CREATOR OF BOY SCOUTS IDEA HERE

Rousing Welcome to Hero of Mafeking at the C. P. R. Docks This Afternoon

Greeted by rousing cheers from sixty Boy Scouts and heartily welcomed by officers representing the various services stationed at Victoria, General Sir Robert Baden-Powell, the bronzed veteran of many wars, the "Hero of Mafeking" and the creator of the Boy Scout movement, which has spread throughout the Empire, landed from the Princess Charlotte this afternoon at the C. P. R. docks on his first visit to this Outpost of Empire on the shores of the Pacific. The general smilingly acknowledged the greetings of those awaiting his arrival and he seemed immensely pleased at the cheerfulness and cordiality of his reception.

The squad of Boy Scouts was assisted in their arrangements for the reception of the distinguished visitor by the brass band of the brigade and the bugle band. Accompanying General Baden-Powell were fifteen Boy Scouts of the British Isles division. Among the local military officers to welcome the veteran soldier were Col. Peters, D. O. C.; Lieut.-Col. Currie, O. C. of the Fifth Regiment, C. G. A.; and Lieut.-Col. Hall, commissioner of the Boy Scouts movement here.

General Baden-Powell will rest this afternoon and evening, and will tomorrow take up the pleasing task which brought him across the continent to Victoria—the inspection of the local corps of the Boy Scouts. This evening he will meet all the Scouts in the school-room of Christ church cathedral and address them on the progress that the movement has made since its inauguration.

On Saturday afternoon at 2:30 o'clock the whole brigade, consisting of 250 scouts, will muster on Broad street and march along the principal street to Beacon Hill park, where they will be inspected by the general.

It is hoped that arrangements may be made for General Baden-Powell to deliver an address before the Canadian Club. He will be in the city until Sunday. Frank I. Clarke, secretary of the Canadian Club, some days ago forwarded an invitation to him to speak under the club's auspices, but has not yet received an acceptance. It is assumed that the general will make known his intentions in the matter this afternoon.

KNIGHTS OF THE TEMPLAR

Concordat Established Between the Various Governing Bodies.
Chicago, Aug. 11.—The resolution unanimously adopted here, establishing a concordat between the Knights Templar governing bodies, is said by Masons to be the most important step taken by the conclaves in years. The concordat establishes amiable relations between the Knights of England, Ireland, Scotland, Canada and the United States, and is an event that has been crystallizing for many years.

Its consummation is said to be the chief object for which the Earl of Easton, pro-grand master of England and Wales, visited the 31st triennial conclave.

All the Templars of the world are affiliated with the governing boards of one or the other nations, and yesterday's legislation practically consolidates them.

WICKERSHAM RE-ELECTED.
Independent Republican Is Again Selected as Alaskan Delegate.

Juneau, Alaska, Aug. 11.—Judge Jas. Wickersham, independent Republican, has been elected to succeed himself as delegate to congress over Ed. S. Orr, organization Republican, by a plurality variously estimated at from 1,500 to 2,000. The exact figures will not be known for several days, or perhaps weeks. Orr, who had the support of National Committee-man L. P. Shackleton, appears to have led only in the territory about Cordova, where it was conceded that he was strongest.

DEATH ROLL GROWS IN JAPAN

HUNDREDS OF PERSONS FACE STARVATION

Trains Are Stalled by Landslides—Passengers Without Food for Two Days

(Times Leased Wire.)
Tokio, Aug. 11.—The list of fatalities as a result of the recent heavy rainfall in the Island of Honshu continues to grow. Hundreds of people who have been rendered homeless are now facing starvation. The region between Tokio and Yokohama is a sea of mud.

Two trains are stalled by landslides near Kanaya, and the passengers have been without food for two days. A train is beyond the reach of rescuers at Horonouchi, and three hundred are starving. There are six hundred refugees in the Buddhist temple.

Thirteen engineers were caught in a slide when rushing to the rescue of the stalled trains and were buried alive. At Shidzuoka thousands of houses are submerged and the city of Takasaki is a veritable lake. Part of Tokio is under water.

Rain still continues, although clear weather is forecast.

CLEVELAND MYSTERY.
Cleveland, O., Aug. 11.—Every theory in regard to the murder of William L. Rice has been upset by the testimony offered yesterday at the coroner's inquest. The first sensation came when George Freeman, a gun expert, testified that the bullet taken from the dead man's head had not come from a Remington-Union revolver, as supposed, but belonged to either a Winchester rifle or a Russian gallery rifle. This testimony complicates still further the mystery of Mr. Rice's death, but it gives the police a clue which they think may bring results.

LAUNDRY WORKERS HAVE NARROW ESCAPE

Flames Spread Rapidly and Endanger Lives of Nearly One Hundred Girls

Portland, Ore., Aug. 11.—Explosion of a celluloid stay in a woman's shirt-waist caused destruction by fire of the United States Laundry Company's plant, Grand avenue and East Yamhill street, yesterday, and entailed a property loss of approximately \$75,000 and throwing about 200 people temporarily out of employment. The lives of nearly 100 girls were in jeopardy for

several minutes, and many of them would have been lost but for the heroism displayed by some of the firemen and a few passersby, who rushed in and dragged the women into the open air. Mrs. Caroline Schmidt, an elderly woman employed in the ironing room on the top floor of the three-story structure, was the last person to come out, and she was dazed when assisted to the sidewalk. She had abandoned hope and was resigned to her fate when one of the men who had rushed in from the street grabbed her by the arms and dragged her from the stairs that surrounded the elevator shaft, through which the flames quickly spread over the entire structure. In less than an hour the interior had been devastated, but it is believed that the brick walls were little damaged and that can be used in rebuilding.

WARM WELCOME TO DELEGATES

C. E. CONVENTION WAS OPENED LAST NIGHT

Endeavorers Greeted by Mayor Morley and Representatives of Local Bodies

There was a large attendance in St. Andrew's church last evening at the opening session of the fourteenth annual provincial Christian Endeavor convention, when the delegates were welcomed to the city by the local Christian Endeavor Union, the Ministerial Association, and the mayor on behalf of the citizens. Following a reply from the visitors Rev. Hermon A. Carson delivered the president's address and Rev. Lester L. West spoke on the subject of "Possessing and Being Possessed."

The session opened with a short devotional service, led by the pastor of the convention church, Rev. W. Leslie Clay. The chair was then taken by the president, Rev. H. A. Carson, who briefly remarked on the exceptionally large attendance of delegates. Noting that the attendance was larger than had been the case at any previous conference he expressed the opinion that the sessions should prove the most successful and productive of good of any that had been held. All that was necessary to effect this was a spirit of enthusiasm among those attending. Speaking for the local Christian Endeavor Union, Dr. Russell tendered a hearty welcome to the visitors. He referred to the great work which was being carried out through the Christian Endeavor movement, which now embraced 73,000 societies and a membership of over three million workers. He assured those present that Victoria offered her hospitality ungrudgingly, and that they would be well looked after while in the city. If they did not see anything they wanted he advised them to ask for it.

Rev. Dr. Campbell, representing the Ministerial Association, said in part: "On behalf of the Ministerial Association I have much pleasure in wishing you who have come from a distance a hearty welcome to Victoria, the Queen city of the West. We welcome you because you represent the young and strong Christianity of evangelical truth. We welcome you because naturally from your ranks must come the Dorcas and Priscillas of the Christian church; the future ministers of our home land, and the missionaries of the foreign field. We welcome you because naturally from your ranks must come the teachers of the Sabbath school, the promoters of church extension, and to you we look for loyal sympathy and support in our work."

"On reading the list of delegates I was strongly reminded of that gathering at Jerusalem on the day of pentecost, and like them you will all with one accord, speak of the wonderful works and His saving grace through Jesus Christ our Lord. How the hearts would thrill of John Knox, John Wesley, John Calvin, John the Baptist and Richard Baxter to look in on this gathering of Christian Endeavorers from all the evangelical churches. Let us honor the memory of these great men, and maintain the characteristic type of their Christianity, a well balanced mind with an ardent spirit; no nonsense, no bigotry, asking no man's leave or license and fearing no man's frown."

"We are come together to feel as we look into each other's faces and grasp each other's hand, of victory all along the line. Aim at being in the van of Christianity, and in winning the world to Christ. At Alma the standard-bearer of the 42nd Highlanders, Black Watch, carried the colors far in advance. When ordered to bring them back to the men he gravely replied: 'There is to be no retreat; bring your men up to the colors.'"

"We open our hearts and hold out our hands to welcome you to our city. You have the freedom of our homes and our churches, and I suppose his worship the mayor will give you the freedom of the city. All things are yours while you are our guests. May peace and harmony characterize your deliberations, and may your meetings be an inspiration to those from a distance, and to us also who are at home."

Mayor Morley, who was greeted with applause on rising, said that he was honored in being privileged to address such a large and influential gathering. He felt that the city was honored by his presence. In his opinion every gathering of this kind leaves an impression upon a city which works for the city's good. The seed planted grows and brings fruit long after the doors of the convention are closed on its labors.

Dealing with the influence of such movements as the Christian Endeavor on the life of a city, the mayor said that the work of the association and the work of every church was largely

directed toward the preparation of the child to the duties of citizenship. At the same time enough attention was not paid to the preparation of the city for the citizen after the religious organizations had prepared him. "I am, as mayor of the city," he concluded, "very much ashamed of many things which exist in Victoria. I am trying to right them, but this can only be accomplished by a union of effort."

In the absence of J. D. McPhail, who had not arrived in the city, Mr. Stewart, of Vancouver, replied on behalf of the delegates. "We are all very thankful for the hospitality which you have extended to us in opening the doors of your churches and welcoming us to your beautiful city, and to your lovely homes," he said, and then assured the delegates that when the convention was finished they would be welcomed to Vancouver.

Committees to look after details during the convention were named by the president as follows: Nomination committee—J. D. McPhail, R. W. Coleman, A. E. Etherington, Wm. Stockwell, J. Irvine, Miss L. Cairns and Mrs. F. Reid. Resolutions committee—J. D. McPhail, Miss C. McKenzie, Rev. C. Brown, Rev. J. S. Henderson, E. G. Hardwick, Geo. Brown and Rev. S. E. Thompson.

Following a solo by Miss Cocker, which was greatly appreciated, the president read his address. His task, said Mr. Carson, was an agreeable one and yet a difficult one; agreeable on account of the great assembly of interested Endeavorers, who were present at the church last night; difficult, because it was difficult to focus his attention on the message which should be expressed on such an occasion. At this time the message was one of optimism. When planning for the convention the committee in charge had taken for their motto, "Things that Abide," and he thought that they had succeeded in arranging the programme along this line. In the building of the great west, they should distinguish between the things which are ephemeral, transient and the things which are permanent and abide.

The president pointed out the need of drawing the attention of the young people of the country to this fact, and in drawing up the programme had this idea in view. He gave several reasons why the work of the Christian Endeavor is lasting and why it is growing greater year by year. The most important reason is because it fills a place in the life of the church. In the last few years it had spread, until now it has extended its influence throughout the length and breadth of the civilized world, and in all countries where the arm of the missions has been felt.

Christian Endeavor also stands as a week-day expression of what the Sunday school is for the Sabbath Day. Not only in the church, does it fill an important place, but also in the community, as it helps to develop good citizenship. The work in this line is more important than the protection of our natural resources, timber, mines and fisheries; it is the biggest work while it is possible to undertake. It is the awakening and the developing in the right way of the young life of the country, so that in the next generation it will express itself in true citizenship.

Christian Endeavor will last because it adapts itself to local conditions. Not only is it world-wide in its influence, but each community is in itself the centre of one of the most powerful forces for good which the world has yet known. Another reason why Christian Endeavor will last is because it promotes good fellowship and unity. It is not only a small body, this British Columbia branch, but part of the great movement which stretches its hands over the entire universe.

It stands to furnish healthy servants for the church as a whole, and also to promote healthy atmosphere for that service. The Christian Endeavor has created a most healthy atmosphere for young people's work in the church. Before the movement began, the work of the young people was scarcely considered in the church work at all, but now it is recognized as one of the most important branches of the whole institution.

In concluding, Mr. Carson urged the members, while at the convention, to get back to the essential things—"the things that last."

During the intermission between the address of the president and the taking up of the offering, Roy I. Loughheed, conductor of the convention choir, rendered a solo.

The address of Rev. Lester L. West on "Possessing and Being Possessed" was most able, and was closely followed by those present. In part Mr. West said:

"Life is divided into two parts—object and environment. It consists of a two-fold process, possessing and being possessed, the process of success and the process of failure, the process of victory and the process of defeat, the process of achievement and the process of surrender, and the last is the supreme thing. Man is a being with an insatiable hunger and a bundle of desires and wants. No matter how much of anything he gets he is never satisfied, and he is continually crying for more. We were taught to get, and this has been the chief of our pursuits ever since. Man is not a healthy being until he commences to strive to possess, for he was made to possess. It is woven into the very fibres of our being. But in the process of getting it must be considered what we are striving to get. We should strive after something that is lasting. "A young man by years or appren-

Country orders packed and shipped free.

Terms: Spot Cash. No Goods Charged at Sale Prices.

Smith & Champion

1420 Douglas St. The Better Value Store Near City Hall

WILL NOT BE CANDIDATE.

Oyster Bay, N. Y., Aug. 11.—Rettering his denial that he would be a candidate for the nomination for governor of New York, William Loeb, Jr., former private secretary to Colonel Roosevelt, returned to New York city yesterday after spending the night at Sagamore Hill.

"I will not even allow the representation of my name at the gubernatorial convention," emphatically declared Loeb.

LOSES MONEY AND DIAMONDS.

Los Angeles, Cal., Aug. 11.—Edward Mills, a horse dealer of Oakland, was robbed of \$2,100 and three valuable diamonds a few minutes after his arrival in Los Angeles from San Francisco yesterday. Leaving his train at the Alhambra, Mills hurried for a drive to his hotel. Upon reaching his room he discovered his wallet containing the money and diamonds was gone. There is no clue to the thief.

—The men who make money are the men who develop the new districts. The Amalgamated Development company is doing this with one of Alaska's chief resources—oil. Have you looked into this company's prospects? It will pay you as a business man to do so.

For table use, its crystal purity and wonderfully "fresh" taste make

ions and condemnations, simply because she has a distinguished father, is both outrageous and impudent. By no possibility can this course do anything except cause resentment in the mind of its victim, and it is more likely to increase than to decrease the number of feminine smokers.

"A NATION IN ARMS."

The man who attempted to kill Mayor Gaynor of New York says he had brooded over his fancied wrongs for years. He had fallen into the habit of contrasting his condition in life with the lot of men in higher positions.

But why should any one moralize over or endeavor to draw valuable deductions from the attempt upon the life of Mayor Gaynor of New York? The case attracts particular attention simply because the victim is a man prominent in the public eye.

But why should any one moralize over or endeavor to draw valuable deductions from the attempt upon the life of Mayor Gaynor of New York? The case attracts particular attention simply because the victim is a man prominent in the public eye.

The clipping of two hours from the time made by the Royal liners between Canada and Britain by the St. Lawrence route brings these two important parts of the Empire just that much nearer together.

well as an artistic success. Doubtless this will be only the beginning of Mr. Bland's work in this line. We would like to suggest that the new pea be named "The Beautiful Victoria."

New York Times: We hail the new age of chivalry which Young America ushers in. Earnestness, manliness, cleanliness of life, soundness of mind and body, and the making of great-hearted gentlemen are in the organization of the Boy Scouts.

A New York contemporary lately contained some reflections, for the most part complimentary, on the martial qualities of Canadians. But there appear to have been some things in the article which aroused the ire of one of our expatriates.

At one time it did appear as though motor cars and aeroplanes would run the railways of the United States a close race for supremacy in the business of killing human beings.

PERSONAL

J. L. Parker, Prince Rupert, is spending a few days here on business.

Mr. and Mrs. E. P. Saunders, Goldstream, are in the city on a short visit.

Mrs. Smyth and her daughters, the Misses Fellows, returned on the Prince George from a trip to Prince Rupert and Stewart.

Rev. T. Albert Moore, secretary of the Lord's Day Alliance, arrived this afternoon to attend the general conference and also to speak at the C. E. convention.

Dr. and Mrs. Edward Fisher entertained at supper last evening, at the Empress, three graduates of the Toronto Conservatory.

The marriage was solemnized at noon today at Mayne Island of Mr. Paddon, son of Rev. Canon Paddon, and Miss Hilda Gough, who recently came out from England.

BYE-ELECTION. (Special to the Times.) Charlottetown, P. E. I., Aug. 11.—The bye-election took place in the Cardigan district yesterday.

V. Y. C. SEEKING ROYAL CHARTER

TO FLY BLUE ENSIGN AT NEXT REGATTA

This and Other Important Questions to Be Discussed at Approaching Club Cruise

Unless some unforeseen circumstance intervenes the Victoria Yacht Club will fly the blue ensign, which signifies the possession of a royal charter. Like the Vancouver club, it will then boast four initials on its house flag and "R. V. Y. C." will mean Royal Victoria Yacht Club.

The club cruise on Saturday is expected to prove one of the most enjoyable and successful events of the kind which have taken place under the auspices of the local club.

BRYSON TO LEAVE ON MONDAY NEXT

Former Assistant City Engineer to Relinquish His Duties on August 15

Announcement was made this morning that arrangements have been made whereby it will be possible to allow G. H. Bryson, assistant city engineer, to relinquish his duties on Monday next.

There is little of importance to come before the meeting of the streets, sewers and bridges committee tomorrow evening. The city engineer hopes to be able to have a report ready as to improvements to be made on Wilson street.

PREPARING FOR OPENING DAY

PUBLIC SCHOOLS ARE BEING MADE READY

Trustee McNeil Thinks That Victoria Teachers Are Insufficiently Paid

At the regular monthly meeting of the school board, held last evening, arrangements were made for the re-opening of the schools on August 23, after the conclusion of the summer holidays. In the absence of Chairman Jay Mrs. Jenkins occupied the chair, other members of the board present being Trustees Riddell, McNeill, McIntosh, Staneland and Supt. T. E. Paul. Mr. Paul recommended that the Hillside school be closed as a graded school, and that the Chinese class now in the Pisgah school be transferred to the former, the latter being closed, thus permitting a saving in rent. Seven rooms will be opened in the George Jay school, and the Spring Ridge school will be used for primary classes. Those now at the Hillside school will be transferred to the North Ward and Spring Ridge schools. Three primary and one intermediate classes will be installed at the new Moss Street school, and the higher grade scholars in that section of the city will continue to attend the South Park school.

Trustee Riddell, chairman of the buildings and grounds committee, reported that the necessary repairs being done at the various schools are well under way and will be finished on time. Two more rooms are urgently required at the High school. W. R. Robinson was appointed commercial teacher at the High school at a salary of \$100 per month, and Messrs. Spouse and Wilby were appointed to the teaching staff at salaries of \$80 and \$70, respectively. Trustee McNeill, on the question of salaries, pointed out the difficulty of securing first class teachers at the present rate of remuneration. At present the teachers putting in applications for positions on the local staff did not appear to be as well qualified as was the case formerly, and this he ascribed to the fact that other cities have increased the salary list and are thus attracting the best teachers looking for positions, leaving only the less-qualified for the positions offering here. Trustee McNeill's views were endorsed by other members of the board and it is likely that the question of salaries will be taken up in serious session at an early meeting of the board.

The Canadian-Buffero Forge Company, which has the contract to install the heating system in the George Jay school, wrote asking for an additional 25 per cent. of the contract price. The company has already been paid 50 per cent. of the money, and claims that the 25 per cent. now asked for is overdue. Against the claim of the company there stands the request of Parfitt Bros., who did work for the company on a sub-contract. They ask that their claim should be settled before any more money is turned over to the Canadian-Buffero Company.

The Pacific Sheet Metal Company asked for extra work under the contract, but as the architect has not yet given his certificate that the contract awarded the Canadian-Buffero Company has been satisfactorily carried out, the board will make no payments. Delegates from the board will attend the forthcoming annual session of the B. C. School Trustees Association, to be held at Kelowna on September 13th, 14th and 15th. The appointment of a trustee officer was postponed until the return of the chairman of the board, George Jay. Howard Russell, who officiated as acting principal of the High school during the absence of the principal, S. J. Willis, and whose work was excellent, will be granted \$25 in remuneration for his special services. Owing to the fact that the janitor of the Hillside school, which the board intends closing, had not been informed that he was not on the salary list, his claim for wages for July will be paid.

ST. GEORGE'S SCHOOL

Results of Royal Drawing School Examinations Held Here.

The results of the school examinations of the Royal Drawing Society, London, England, held at St. George's school in June last, have just been received. Out of 25 candidates who entered, 15 received the honors certificate, six the pass certificate, one too young to classify was awarded "good," and only two failed. Miss Gulland, the arts mistress, is being particularly congratulated, as the pupils have only been studying this method for five months. The results are: In Division II—Honors, Grace Bye, Frances Cook, Aimee Grogan. In Division I—Honors, Virtue Ervington, Elizabeth Scott, Beatrice Lees, Pass, Gladys Piercy. In preparatory division—Honors, Edith Richardson, Jack Meldram, Helen Fennell, Bernard Lees, Kathleen Pauline, Margaret McVittie, Rita Williams, Nora MacEachern, Laura Macklin and Helen Simpson, Pass, Doris Macklin, Jessie Chetham, Kathleen Muir, Winnie Lee, Inez Lewthwaite. Too young to classify, was Allison Suttie, who was awarded "good."

S. S. "Iroquois" is withdrawn from Seattle route until further notice.

Wm. W. Northcott, purchasing agent for the corporation, is calling for tenders, which will be received up to 4 p.m. on Monday next, for the supplying of iron castings for the balance of the year, or until such time as a new contract is entered into by the incoming council. A decision is taken this step was reached by the city council on the storekeeper reporting that the Victoria Machinery Depot, which had been awarded the contract for castings, found it impossible to deliver the same in sufficient quantities.

TENNIS PLAYERS WIN AT SEATTLE

VICTORIAN LOST IN ONLY ONE CONTEST

Miss Pitts, Mrs. Genge, Crawford, Marshall and Whyte Figure in Winning List

Victoria players at the Seattle tennis club tournament yesterday were successful in all but one event. The Victorians figured in ten matches, and the ladies of the capital city of the province were successful in every event played.

Miss Pitts and her sister were both successful with their partners in the mixed doubles. Mrs. Genge won in this event with Whyte, of Victoria, and Mrs. Genge and Miss Pitts together in the ladies' dou-

bles defeated Mrs. Boole and Miss Thompson in two sets.

Miss Hotchkiss, the Berkeley player and champion, won everything she appeared in. The complete scores of the tournament yesterday are as follows:
Men's singles—Grabborn beat Peters, 6-3, 6-3; Fitz beat Hellbron, 4-2, 6-0; Johnstone beat C. Shannon, 6-2, 7-5; Judd beat Crawford, of Victoria, 5-6, 6-3, 6-3; W. O. Batchelder, of Everett, beat Haight, 6-4, 6-8, 6-2; Marshall, of Victoria, won from Erickson, of Everett, by default; Lyon, of Tacoma, beat N. H. Batchelder, of Everett, 12-10, 6-4; Russell beat Thompson, of Tacoma, 6-2, 6-6; Pritchett, of Everett, beat G. Shannon, 6-1, 6-1; Adams won from A. Palford, of Tacoma, by default; Fisset beat Kelleher, 6-3, 4-6, 6-4; W. O. Batchelder, of Everett, beat Grabborn, 6-2, 4-6, 6-1; Adams beat Kellton, 6-6, 6-0.

Men's doubles—Hulkamp and Paschal beat Hellbron and Peters, 6-8, 6-3, 7-5; Thompson and Lyon, of Tacoma, beat Judd and Lewis, 6-2, 6-7; Fisset and Townsend beat Erickson, of Everett, and partner, by default; Hart and Miller beat Batchelder and Batchelder, of Everett, 6-2, 6-4; Smith, of Seattle, and Marshall, of Victoria, beat Hulkamp and Paschal, 6-2, 6-0; Johnstone and Richardson beat Adams and Lalure, 6-2, 4-6, 6-2; Fitz and Russell beat Fisset and Townsend, 6-2, 6-3.

Mixed doubles—Miss Pitts and Crawford, of Victoria, beat Miss Connor and Constantine, 6-3, 6-8, 6-1; Mrs. Genge, of Victoria, and Whyte, of Victoria, beat Mrs. Waterhouse and Townsend, 10-8, 6-1; Miss Hotchkiss, of Berkeley, Cal., and Smith beat Miss Thompson and Lewis, 6-2, 6-2; Miss Pitts and Marshall, of Victoria, beat Miss Erwin, of Vancouver, and C. Shannon, 6-4, 6-1.

Women's singles—Miss Allen, of Vancouver, beat Miss Pritchard, 6-0, 6-0; Madame De Lobel-Mahy beat Miss Rogers, 6-8, 6-3, 6-5; Mrs. Hulkamp won from Mrs. Leadbetter, of Portland, by default; Miss Hotchkiss, of Berkeley, Cal., beat Miss Allen, of Vancouver, 6-0, 6-0; Madame De Lobel-Mahy beat Miss Miller, 6-2, 6-1.

Women's doubles—Miss Allen and Miss Erwin, of Vancouver, won from Miss Strout and Miss Vath, of Tacoma, by default; Mrs. Genge and Miss Pitts, of Victoria, beat Mrs. Boole and Miss Thompson, 6-4, 6-2.

SWIMMING CHAMPIONSHIPS.

A meeting of the committee arranging for the Vancouver Island swimming championships will be held to-morrow afternoon at 2 o'clock in the Y. M. C. A. The officials for the meet will be selected and the extra events decided on. The committee is composed of Ian St. Clair, John P. Sweeney and Roy Pomfret.

AVIATOR INJURED.

Verdun, France, Aug. 11.—In attempting a flight in a monoplane yesterday, Lieut. Ballangers, of the French army, was painfully injured when his airship struck the fence and overturned. The driver's hands were crushed.

Excursions among the Gulf Islands Wednesdays and Saturdays. Now is the time to see these beautiful islands. The novelty of this trip cannot be exaggerated in any part of the world. Take V. & S. train connecting with the steamer at Sidney. For further information telephone 515.

SUMMONSES FOR LACROSSE MEN

HOWARD, OF VANCOUVER, UP ON ASSAULT CHARGE

Mayor Lee, of Westminster, Has Instructed Police to Arrest Players Who Fight

A determined effort to stop rough play at lacrosse matches in British Columbia is being made by the parent body, the professional league, on the Mainland. That the rough element in lacrosse has become so prominent that the most unusual steps have been found necessary to suppress it is a phase of the great national game that must be taken to heart by every player in the province, and by the younger players in Victoria especially, for Victoria lacrosse this season has been

by no means free from fights on the field. In New Westminster, in the Minto cup games between the Royals and Vancouver, the frequent rough play this season has become so prominent in the public mind that the Mayor of Westminster has spoken out. He has given orders to the police of the Royal City that they, while on duty at the Queen's park, are to arrest any players who fight or engage in rough play.

One of the players, who has also taken up a serious conflict with an opposing player in last week's match, and a summons charging the player with assault has been served. The following dispatch comes from New Westminster today:

Lacrosse players who hope to get away with dirty work, or scrap, had better give Queen's park, New Westminster, a wide berth. Mayor Lee has issued orders to the city police to arrest any players fighting or indulging in rough work. The Mayor takes the ground that people go not to a slugging match, and that the sooner the brutality is stopped the better it will be for the game. His Worship says that he has notified Con Jones of the intentions of the police and the latter has assured him that he will do his best to have clean games. The fight between Longfellow and Howard at a recent match here was overlooked by the police, but His Worship says that it will be the last

scrap at Queen's park in which the police will not arrest the fighters.

The charge of assault, occasioning actual bodily harm, laid against Howard, the Vancouver defence player, for having struck down "Grumpy" Spring, the New Westminster player, in the lacrosse match last Saturday at Vancouver, was sworn to by Mr. I. T. Spring, father of the injured player. "Grumpy" was willing to let the incident go, but strong pressure was brought to bear on the father by those who witnessed the affair, with the result that Mr. Spring laid the information against Howard.

It is also said that a complaint will be laid against Sandy Gray, goal-keeper of the New Westminster team, charging him with assaulting Shaun O'Reilly, of the Vancouver team, in the same match. Gray says that he was not within twenty feet of O'Reilly when the latter was struck. Up to the present he has received no summons.

VICTORIA ATHLETES TO FORM TRACK TEAM

Meeting to Be Held on Friday Evening to Organize for Fall Meet

Victoria track athletes are going to be well organized for the meet to be held during the fall week at the exhibition grounds. A meeting is to be held on Friday evening at 8 o'clock in the Y. M. C. A., Blanchard street, for this purpose. All runners, jumpers, hurdlers and weight-throwers in the city who intend to compete in the forthcoming field meet are asked to attend this meeting, as it is of vital importance in respect to the success of the local athletes.

Tommy Gawley, a former member of the local Y. M. C. A., who takes a great interest in athletics of every kind and who while in this city did a great deal to promote clean sport, will preside at this meeting. "Tommy" is here on a visit with his parents, having just arrived from the physical culture college at Springfield, Mass. He wishes to see the local boys come through with flying colors at this athletic carnival, but he recognizes that there will be some of the fastest athletes from different points in the province and that the opposition will be very strong. He therefore wants to have the locals well organized so that they may work systematically.

At this meeting certain nights will be arranged for training purposes. All the athletes will gather at the Oak Bay cinder track on the nights selected and, under the guidance of skilful

trainers, will be put through their respective events.

Victoria can have one of the best track teams in the west if the athletes will work in unison. There is John P. Sweeney, the champion miler of the Pacific Northwest; Brook Vato, who is a speedy lad over the 100 and 220 yards distances, and an excellent broad jumper; Harry Beasley, holder of four junior Canadian championships for the sprint; Sid Winsby, who is credited with fast times over the 440-yard course; Charlie Brown, a 5-year-old of considerable repute, who has shown his heels to all British Columbia runners at his distance; Geo. Dickson, an all-around athlete, who can travel over any distances from 100 yards to five miles as fast as any of them; Arthur Manson, a weight-thrower; Walter and Willie Sproule, Percy Beasley, Andy Davidson and Carsa, who are fast on their feet. There are several other sprinters in this city who have dropped out of the game for a couple of years but who with practice could easily be brought back to their old time form. These are not athletes who have become old and where the question of "Can he come back?" may be asked, but are young men who have still the powers with them, which only needs developing.

FAST LACROSSE MATCH HERE ON SATURDAY

Victoria Twelve After the Scalps of Vancouver Club Athletes

Next Saturday the lacrosse match of the season is expected, when the Victoria twelve will line up against the fast Vancouver twelve at the Royal Athletic park. Sharp at three o'clock the rubber ball will be placed between the sticks for the draw, and from then on there is going to be an exhibition of the national pastime that few of the real lacrosse-fans would care to miss.

The locals are in splendid condition and they will play nearly the same team as last Saturday, with one or two changes on the home. The Vancouver club will send down the same twelve as battled against the locals on the Terminal grounds Saturday, when the score was a tie at the beginning of the final quarter. Although the Mainland-ers won out they had to work but a different tally will be registered today after to-morrow. So far the Vancouverites have de-

feated the Islanders twice on the Mainland grounds, while the locals trimmed their rivals here on May 24, which was the only match played in this city against Vancouver. There is no doubt that a team can play better on its own grounds than on strange ones; and in view of the fact that the locals beat the Vancouver bunch on local grounds before it is figured that they should be able to show them the way when they meet on Saturday afternoon.

At any rate there will be a game worth going miles to see and it will probably be a long time before a better match will be seen in the city. The team to represent Victoria will be picked from the following players:—Byron Johnson, Clegg, Dakers, Styles, O'Neil (capt.), Brynjolfsson, Leo Sweeney, Petticrew, Carsa, Kroeber, John Johnson, McDonald, Young, Frank Sweeney, and Purdy.

NOTICE TO CONTRACTORS

Tenders are invited for the erection of a brick building at Nanaimo for Black Diamond Lodge, No. 5, I. O. O. F., up to 6 o'clock p. m., August 12th. Plans and specifications can be seen at the Times Office, Victoria, or A. Forrester, Nanaimo, architect, to whom all tenders are to be sent. The lowest or any tender not necessarily accepted. Separate tenders are invited for the hot water heating.

BUILDING STILL CONTINUES BRISK

VICTORIA SHOWS
BIG INCREASE

Gain of 152 Per Cent in June Compared With Same Month Last Year

Although somewhat less brisk than the preceding months, building operations in June were carried out to an extent considerably in advance of the progress noted in the corresponding period of 1909. The returns on the whole are, to say the least, highly gratifying, showing as they do, an average increase of 14 per cent. for twenty-three centres reporting to Construction, Toronto. These centres reflect more or less accurately the building situation in every locality from coast to coast. The ratio of gains to losses is a trifle better than two to one. The West in particular, made a most excellent showing, noting a cycle of unbroken gains, and reflecting a condition which is hardly short of remarkable, when one considers the pronounced activity of the immediate past and the settling back which usually accompanies the summer season. Again, Winnipeg, which has a gain of 17 per cent., has the largest total amount for permits issued of any city of the Dominion, having to her credit a total of \$2,406,000, as against \$2,042,550 in June, 1909. Brandon in the same province, is substantially ahead of her corresponding figures with an increase of 88 per cent., while Regina and Saskatoon, representing the condition in Saskatchewan, top their last year amounts to the extent of 109 per cent. and 26 per cent. respectively.

By far the most marked feature of the month in the western section was the tremendous upturn in Vancouver, where an aggregate value for permits amounting to \$1,162,920 gives that city an advantage of 77 per cent. over the preceding corresponding period. Accompanying Vancouver report is the statement "that there is still every prospect that the remarkable progress of the present will keep up." Possibly as much can also be said of Victoria, whose gain of 152 per cent., although a somewhat smaller amount is noted, shows an even greater proportionate increase. In Alberta, Calgary, Lethbridge and Edmonton, in their respective advances of 181, 112 and 111 per cent., indicate the splendid progress which is being made in that province. Edmonton predicts a heavy total for July, while the past performances of Calgary and Lethbridge is possibly the best assurance of what to expect from those two places.

With Ontario, however, the fortunes of the month were less propitious. Five gains and five losses were noted. Ottawa and London experienced a falling off of 78 and 69 per cent. respectively, while Windsor and Kingston are behind to the extent of 38 per cent. and 71 per cent. in order named. Another city also in the arrear is Port William, although the loss (16 per cent.) in this case is directly chargeable to a carpenters' strike which greatly retarded operations for the best part of the month, and not to a less favorable condition than has existed heretofore. On the other hand, a substantial upward trend was in evidence elsewhere. Brantford, with a gain of 222 per cent., looms up with the highest percentage increase of any city on the list. Peterboro comes second in this respect by registering an advance of 228 per cent., while Hamilton manifests her rapidly expanding tendency by appending a gain 108 per cent. in excess of the amount tabulated in the same month of last year. Toronto, however, had the largest total by far, her amount of \$2,302,550 (15 per cent. gain) being the second largest total recorded in the Dominion. The

comparative figures of all the above-mentioned places bespeak a most sound and steady condition, as does also the gain noted in the case of Port Arthur, where a large number of additional improvements give promise of early materialization.

As regards the more eastern section, Montreal more than held her own, while Sydney overreached last June's figures by an advance of 212 per cent., the third highest increase for the month. Montreal's total of \$1,585,254, as against \$1,103,885, representing a gain of 43 per cent., is a noteworthy one, especially so, in view of that city's uninterrupted progress, and the high amount it has recorded from month to month. St. John and Halifax, however, did not fare so well, the loss in either case being 34 per cent. and 67 per cent. in order named.

Returns for June, 1909, and June, 1910, follow:

CONTRACT OR DAY LABOR?

PROBLEM BEFORE SAANICH COUNCIL

Much Business at Meeting of Municipal Body—B. C. Electric Proposition

Whether contract or day labor on new work is to prevail in Ward 6 was one of the subjects discussed at the last meeting of the Saanich council, and the question was referred to the road superintendent for report after all the members had expressed themselves pro and con.

Railways, both steam and electric, were discussed, and judging by the remarks of councillors, the proposed electric line will be subjected to a contract. Something documentary and explicit will be needed and the V. & S. will also be required to conform with the provisions of the B. C. Railway act if the combined forces of the Saanich council can prevail upon the Lieutenant-Governor-in-council.

Chas. Miller, Maywood, wrote asking leave to lay a water pipe across Harriet road. This was granted. Letters were received from Messrs. Polson, Dunn and Reid, asking that no permit be issued to alter or enlarge shacks occupied by Hindus in the vicinity of Cloverdale avenue. It was stated that they are overcrowding their shacks and the condition resulting is unsanitary.

The council resolved to enforce sanitary regulations and will refuse to issue a permit if conditions are found as stated.

John Dean wrote enclosing a copy of his letter to the press re the Victoria & Sidney railway, asking the co-operation of the council by appointing a deputation to interview the Lieutenant-Governor-in-council in common with other interested parties.

Councillor Matthews moved that the request be complied with. The people of Ward 5 made this question a leading one on his canvass of the district during election time. He had photographs of the so-called stations along the route which bore mute testimony to the suffering waiting passengers had undergone during the winter months.

Councillor Freeman, in seconding the motion, denounced the company for allowing their station to wear such a poverty-stricken appearance. He thought it the clear duty of the council to set such machinery in motion as would secure the public their rights. Power to do this was found in sections 51 and 57 B. C. Railway act.

Councillor Matthews had seen sick persons on their way to the hospital shivering in those improvised places for hours and delays like these were inexcusable on an 18-mile long railway.

The reeve thought that the service would soon be greatly improved. Councillor Matthews moved that the petition with the B. C. Electric would either cure the trouble or cut them out of the passenger altogether. He agreed that the present conditions were detrimental to the best interests of the district.

Councillors Matthews, Grant and Freeman were selected to act on the proposed deputation. Councillor Borden: "There is no use in stirring this matter up if it is to die down again as previous attempts to bring the company to time has done. You must keep up the action until they get tired of you, then something will be done to get rid of you."

Drake, Jackson and Helmecken wrote on behalf of J. Sinclair, Cadboro Bay, re fence lines. The council considered the matter closed and filed the letter. W. J. Dowler, for city of Victoria, agreed to the proposed repairs to Tolmie avenue and when completed the city will pay one-half the cost.

B. W. Banford wanted the correct lines on Saanich road. The road superintendent was instructed to furnish same and see that the fence is moved back within a reasonable time. Leeming Brothers submitted a plan of blocks 25, 26, section 79, and asked that same be accepted. This was referred to the road superintendent and if satisfactory will be duly signed by the reeve.

T. Peden wanted a water service on Oak street, and asked information as to how it can be secured. The clerk will forward all information possible. Moresby and O'Riley wrote on behalf of A. S. Smith, agreeing to give right-of-way through his property for a road to the beach at Cordova Bay. This was received and filed and favorable consideration promised.

Mursons, Ltd., Vancouver, sent word that the new steam roller was shipped from England on June 24th and should arrive on September 1st. J. R. Carmichael asked for a week's holiday. He has been three years constantly in service and the council decided that a holiday was coming to him and the request was granted.

A deputation from Martindale's road, Saanich, was heard. Messrs. Tait and Mitchell gave the result of a meeting of the property owners interested and asked that the council devote \$250 towards the cost, which would be \$600. The reeve and road superintendent will revise the estimates of the ward and if possible the request will be granted.

A petition from fifty-eight ratepayers in Ward 6, asking for a trial of contract work on the roads of that ward, created quite an animated discussion and was finally referred to the road superintendent to report on the practicability of the scheme and where he could apply that system this year without upsetting his arrangements.

The road superintendent reported the expenditure of \$1,752.50 on the roads of the district. The report was adopted. The reeve reported the outcome of the committee's interview with the local manager of tram company, which resulted in the meetings recently held in the district.

The council's by-law was reconsidered and finally passed. Hereafter the council meets on 2 p. m. every other Saturday, instead of 8 p. m. A by-law to regulate the construction of buildings was read a third time.

FLOWER SHOW A GREAT SUCCESS

This Car Will Add New Lustre To an Honorable Name

The new Cadillac Model for 1911 is the greatest achievement in modern motor car construction and will prove the most popular car on the market. The features which appeal to the automobile owner or prospective buyer is the increased power. The cylinder bore is increased from 4 1/4 in. to 4 1/2 in. This, with the more efficient carburetor, which is water-jacketed, effects a material increase of power. Piston stroke, 4 1/2 in. The four cylinders are cast singly, with copper jackets applied, retaining the exclusive Cadillac feature throughout.

In purchasing the 1911 Cadillac Thirty Model you are receiving the most advanced type of exact and scientific motor car manufacture which the industry has produced.

1911 Cadillac Specifications in Brief

- MOTOR—Four cylinder, four cycle; cylinder cast singly, 4 1-2 inch bore by 4 1-2 inch piston stroke. Five-bearing crank shaft, 1 5-8 inch diameter. Bearings, Cadillac make, bronze with babbit lining. Five-bearing cam shaft. HORSEPOWER—A. L. A. M. rating 32.4. COOLING—Water, Copper-jacketed cylinders, copper inlet and outlet water manifolds. Gear driven centrifugal pump. Radiator tubular and plate type of unequalled efficiency. Fan attached to motor, running on two point ball bearings; center distances of fan pulley adjustable to take up stretch in belt. IGNITION—Jump spark. Two complete and independent systems, including two sets of spark plugs; Bosch high tension magnet; also new and improved Delco system, single unit coil with high tension distributor and controlling relay. (Delco apparatus located in former commutator position.) Wiring enclosed in copper tube. LUBRICATOR—Automatic splash system, oil uniformly distributed. Supply maintained by mechanical forced-feed lubricator with single sight feed on dash. Most economical and simplest system ever devised. CARBURETOR—Special Schebler, water jacketed. Air may be adjusted from driver's seat. CLUTCH—Cone type, large leather faced with special spring ring in fly wheel. Clutch readily removable and most easily operated ever devised. Universal joint between clutch and transmission practically noiseless in all positions and easily removable.

- OTHER IMPROVEMENTS FOR 1911 ARE Enclosed Wiring Improved Appearance Larger Brake Drums Large Radiator Two Ignition Systems Copper Manifolds

Price of Cadillac 30, 1911 Model, \$2550, Complete

Touring Car, Demi-Tonneau and Roadster. Prices include the following equipment: Bosch magneto and Delco system, one pair gas lamps and generator. One pair side oil lamps and tail lamp, one horn and set of tools, pump and repair kit for tires; 60-mile season and trip Standard speedometer, robe rail, full foot rail in tonneau and half foot rail in front. Tire holders.

PRINCE GEORGE HERE WITH PASSENGERS

Captain Nicholson Went to Seattle on Her at Midnight After Visiting Esquimalt

Steamer Prince George arrived from the north last night with a number of passengers for this port and left again at midnight, bound for Seattle. She will be here again early to-morrow morning on her northbound run to Stewart and way ports.

Among those going to Seattle on the steamer last night was Captain Nicholson, manager of the line, who had been here for a short time in connection with the work which is being done to the machinery of the Prince Rupert. He visited Esquimalt before proceeding to Seattle and announced that the Prince Rupert would sail on time for Seattle Saturday night, and would thereafter make her regular run. Besides Captain Nicholson there were also from this city, going to Seattle, W. L. Challenger, C. Campbell, C. M. Campbell, P. R. White, B. C. Clark, M. B. Keeley, Ed. Cross, Martin Neil, Walter Gille and Bob Lowrie.

The Prince George brought from the Skeena district 32 bundles of furs, which were taken in the spring in that country. She had over 100 passengers south-bound, most of whom dropped off at Vancouver.

Word was brought of the finding of the body of a man in his fishing net by a Japanese fisherman on the Skeena river on Sunday morning. The body proved to be that of Charles Neale, who fell from a fishing boat about a month ago.

Steamer Queen, which is expected here to-night from San Francisco, has 134 tons of fruit, vegetables and other freight for this port. She is also bringing a number of passengers.

AMERICANS REFUSE POOR GRADE CIGARS

Billions of Manila Smokes Sent Across Are Low Grade and Many Being Returned

"You can't buy a good Manila cigar any more," yesterday sighed the captain of a trans-Pacific liner apologetically as he pushed the big cedar box to a Times reporter.

"It's all on account of the free entry of the United States government—removing the duty on Manila cigars coming into America for a stated time. For the past few months every factory in the Philippines Islands has been working practically day and night, and the staffs have been increased by the wholesale employment of the very best of the Philippine business. Anything that resembles tobacco is going into the hands and boxes to be duty, in its finished state, as cigars for export.

"It is a rather uncompromising reflection on the discrimination of the American business man and smoker, but the fact remains that the Philippine has managed to dispose of several millions of these villainous smokes to dealers in the United States who are underselling the domestic cigar and assisting in the spread of throat troubles in their own country. Of course the reaction has come. Several billions of cigars have been sent over "according to sample" and found to be far below standard by American dealers. These are now being returned to the Orient, and the Manila factories, in order to dispose of them, have discontinued the shipment of the better grade of cigars to points in the Orient. From Hongkong to Yokohama the coarse brand of smoke-like the one you are smoking out of courtesy to me—is the only cigar obtainable at rates that are not prohibitive. Many of them are worse than the "Trichinopolis" atrocity which the poorer classes in India indulge in.

"So far I have carried in this ship two shipments of cheap Manila cigars to Seattle and half of them are going back this trip."

SERAPIS DISCHARGING CARGO AT THIS PORT

Kosmos-Liner Here From Hamburg by Way of South America.

After feeling her way slowly up the Straits yesterday the Kosmos liner Serapis arrived at the outer dock, three months out from Hamburg, after calling at all the ports of importance on both coasts. She brought for Victoria 200 tons of nitrate of soda from Calcutta. Coloso, Chili, and over 200 tons of steel goods, wines and general European freight from Salina Cruz. For Vancouver she has 1,000 tons of cement from Oakland, California, and nearly 2,000 tons of general European freight from Salina Cruz. After discharging this and coaling at Nanaimo the steamer goes to Puget Sound to load flour and lumber for South American ports. She will also take a consignment of barley from San Francisco to Europe.

The Kosmos liners take from eight to nine months on the voyage to this coast and return by way of the Straits of Magellan. They bring European cargo to South American ports and then load up for the north coast. Returning, they carry cargo from here to South America and load again there for Europe. There is little through traffic by that route between local ports and Europe. The cargo from and for Salina Cruz comes from or goes to Europe via the Tehuantepec railway.

It is expected that the Serapis will leave for Vancouver to-night.

The steamship Zealandia, Capt. Phillips, of the Union Steamship company, the latest acquisition to the fleet of the company's steamers running between Sydney, Australia, and this port, and which is now on her first trip here, was reported as having arrived at Suva on Monday, where she loaded 700 tons of sugar for the British Columbia Sugar refinery. The Zealandia is due to arrive here on August 24.

ROYAL EDWARD BREAKS ALL PREVIOUS RECORDS

Shortens Voyage From Bristol to Quebec to Five Days Twenty Hours

The steamers of the Royal line plying on the Atlantic between Bristol and Montreal are making good. They are the fastest steamers on the Canadian route and are meeting with great favor with the travelling public. Word has been received here to-day of the Royal Edward of this line breaking all previous records of the St. Lawrence route. She arrived at Quebec at 11:30 yesterday, beating the previous record of these steamers by two hours, cutting the time down to five days twenty hours. This is approaching very rapidly towards the records which are being made from New York. It must be remembered, however, that when a passenger reaches Quebec he is a long way inland and is well on his journey toward the interior, whereas New York is on the coast.

The adoption of Bristol as the terminal port for the Royal line is meeting with success, it being found that people from the metropolis and from all the southern parts of England choose this route and that it also draws considerably from the northern counties.

BRINGS HEAVY CARGO FROM WEST COAST

Steamer Otter Experiences Very Heavy Weather Off Kyuquut on Way to This Port

The little steamer Otter, under charter from the C. P. R. to the Pacific Whaling Company, arrived at the outer wharf last night with a record cargo of 320 tons. She has never carried that much before and her guard board was awash when she entered the basin. The cargo consisted of 285 drums of refined oil, 355 barrels of lower grade oil, and 1571 bags of guano.

There was a very heavy norwester blowing when the Otter left Kyuquut. She put out into it and then found it impossible to turn back. She is a good sea boat but her decks were awash for

STEAMER RED HILL COMING TO VICTORIA

Vessel is at Present Loading Hemp in Manila—Movements of Other Weir Liners

The Aymeric, of the Waterhouse line to the Orient, which sailed from China for this port on July 29th, will be one of the vessels to be replaced by the new steamships Luceric and Oretic, recently built for the company on the Clyde. The Red Hill, the other vessel to be replaced is the British steamship Red Hill, recently announced as a time charter by the company and now discharging coal at Manila from Newcastle, Australia. The Red Hill is a stranger to this port, but the Aymeric is well known here. She is a vessel of 2,738 net tons, and is commanded by Capt. Boyd.

When the Kumeric has discharged her cargo she will move to Columbia river to load large parcels of lumber aggregating 3,000,000 feet. The lumber is for delivery at China and Japan ports.

Word has been received here that the steamship Red Hill, which is under charter to the Waterhouse line, is now loading hemp in Manila. She will follow the liner Aymeric to Victoria, via Hongkong and Japan ports. The Aymeric left Moji on August 4th, bound for Kobe. She is scheduled to get away from Yokohama on August 10th, bound for British Columbia and Puget Sound ports.

The needles, another steamship under charter to the Waterhouse line, is due at San Francisco with a cargo of 6,000 tons of sugar from Java. The needles has been a frequent visitor to Puget Sound ports, and her master, Capt. J. Turner, is well known among shipping men there. The needles, which will go on the Australian route, will load at Seattle and Vancouver before proceeding to San Francisco to complete her cargo for the Antipodes. She will follow the steamship Oceano on the route to Auckland, N. Z., and Sydney, Australia, via Samoa. The needles is a vessel of 4,977 tons gross register, has a carrying capacity of 5,000 tons and was built on the Clyde in 1898. The steamship Oceano, which precedes the needles on the Australian run, is busy loading at Tacoma. The work is being pushed and she now has about two-thirds of her Sydney lumber aboard. She will leave Tacoma for San Francisco, where she will complete with 1,500 tons of general cargo and about 550 bags of mail. She is scheduled to steam from the California port on August 17th. Until the present voyage the Oceano for some years had been employed regularly in the Waterhouse China service. The present will be her first voyage on the Australian run. The steamship Century, another of the

OIL OIL OIL

Amalgamated Development Co.

OUR STATEMENT IS TRIUMPHANTLY CONFIRMED

Read This

Cordova, Alaska, August 3.—The party of shareholders in the Amalgamated Development Company have now spent a week in looking over the oil holdings of the Company, and are impressed with the extent and nature of the resources. The party has visited Katalla wells, Redwood well, Chilcat well, and headquarters at Chilcat and Burls creeks. The members have seen the oil bubbling in the borings and numerous seepages. The only pump already rigged up at Chilcat well No. 1 yesterday pumped fifty-six barrels in a two-hour test. The high quality of the oil is unmistakable, and the party has been taken by surprise by the extent of the improvements on the property, which include twenty-one miles of wagon road, two and a quarter miles of tramways, camps and machinery. Construction of a pipe line to Kanak harbor and the installation of additional pumps, so that heavy shipments can be made in the near future are the next steps.

This stock can be purchased by holders of Northern International Certificate of exchange for \$1.00 per share. Others can buy at \$2 per share, par value \$1.

Triangle—Cloudy; N. E. 3 miles; 30; 55; sea smooth.

Ikeda—Overcast; light N. E.; light swell.

When the Blue Funnel liner Bellerophon left the outer dock yesterday bound out on her long voyage to Liverpool via Oriental ports and the Suez canal, she carried about ten thousand tons of lumber, flour, wheat and general freight, part of which was for the Orient and part for United Kingdom points. She also took 150 Chinese bound for Hongkong. At this port the steamer picked up, in addition to some Chinese, a small consignment of furs for Liverpool and some seaweed being shipped to Hongkong, where it will be used by the Chinese who look on it as one of the choicest delicacies.

The collection of edible seaweed on this Coast is becoming an important industry among the Orientals. Ah See, the rich old Chinaman who lives on Coal Island, off Sidney, and who recently built a small freighter which he named after himself, is using the steamer for collecting seaweed as well as carrying cordwood. This delicacy is often on sale in the shops of Chinatown, but most of it is exported to the Orient.

The Ning Chow, which has been discharging steel water pipe at Esquimalt is completing the work this afternoon and is leaving for Vancouver, where she will clean out her holds. After visiting the mines at Comox she will return here to load whale oil.

Steamer Venture is expected to arrive here from the north this evening at 6. She will probably sail again during the night.

Steamer Iroquois will be operated to-morrow between this city and Port Angeles, leaving here at 8, 12 and 4. This is a particularly desirable trip and doubtless will be well patronized.

SOCIAL AND PERSONAL

M. H. Taylor is in Vancouver on a business trip.

Col. Prior left on the Charmer last night for Vancouver.

Miss Margaret Dalton, Vancouver, is the guest of friends in town.

A. T. Frampton sailed for the mainland last night on the Charmer.

J. Haggerty crossed over on the Charmer last night for Vancouver.

Mr. and Mrs. E. T. Grout left on a visit to Spokane yesterday afternoon.

Hon. F. Carter-Cotton left on his return trip to Vancouver yesterday afternoon.

J. E. Miller was among the passengers on the Victoria yesterday for Vancouver.

A. C. Flumerfelt has gone to Vancouver to spend a few days there on business.

G. A. Leask was among last night's passengers on the Charmer for the mainland.

His Honor Judge Swanson, wife and daughter, Kamloops, are registered at the Empress.

Ald. and Mrs. Bishop returned from a visit to Vancouver and Seattle yesterday afternoon.

Mrs. A. T. McKenzie and child left yesterday afternoon on a visit to friends in Kamloops.

J. D. Prentice was among the passengers on the Charmer for the Terminal city last night.

J. E. Smart went over to the Terminal city yesterday afternoon on a short business trip.

Miss Speed returned to this city yesterday afternoon after a most enjoyable visit to Seattle.

Mrs. Ernest Maynard, Park Boulevard, will hold her post-nuptial on Wednesday, August 17th.

J. W. Coburn, Nanaimo, has left for Bank to attend the convention of the Lumbermen's Association there.

H. S. Griffiths went over on last night's boat to Vancouver, where he will spend several days on business.

Mrs. Harold S. Gamice and Master Harold, Seattle, are visiting with Mrs. W. G. Gamice at 724 Queen's avenue.

Mr. and Mrs. R. W. Gibson, Oak Bay, have as their guests Mrs. Burnham and Miss Edna Burnham, Vancouver.

Mr. and Mrs. C. W. Garvey, whose marriage took place recently in Vancouver, are spending their honeymoon here.

Among the passengers on the Charmer for Vancouver last night were M. Marshall, D. E. Smith and T. H. Whitehead.

Ed. White, formerly of this city, but now of Alberni, is spending a few days in this city renewing old acquaintances.

Miss Robinson, of the Girls' Central teaching staff, was among the passengers on the Princess Victoria from Seattle yesterday.

Mr. and Mrs. J. Gordon Smith left yesterday afternoon for Vancouver, where they will take the steamer Camosun on a trip to Prince Rupert and Stewart.

Mrs. Walter Kippen, 505 Government street, left on the Princess Charlotte yesterday on a visit to her cousins, Major and Mrs. Frank Conley, Deer Lodge, Mont.

Hon. James Dunsmuir and party are attending the annual croquet tournament in Vancouver. The party went over in Mr. Dunsmuir's private yacht, Dolaura.

Harry Glyn left yesterday on the Princess Charlotte, accompanied by S. Gaskill and F. Kilsby for Seattle, where they intend spending a few days before leaving for New York.

Mrs. Hamlet, San Francisco (nee Miss Sweet), is enjoying a visit at her home here, and contrasts the climate of Victoria during the summer months most favorably with that of San Francisco.

Sir William Mahon and Lady Mahon, Ahaacragh, County Galway, Ireland, arrived in this city yesterday, and will spend a short time here. They are at the Empress hotel. Sir William is one of the veterans of the South African war, and was mentioned in dispatches.

Capt. Desborough, Woolwich, Eng., of the explosive department of the home office, London, accompanied by Mrs. Desborough, is visiting this city. The captain returned last evening from Nainaimo, where he has been looking into the use of explosives in the coal mines there.

Miss May Hamilton was a dinner guest at the Empress of Dr. and Mrs. Edward Fisher last evening, and afterwards accompanied them to the flower show. Dr. and Mrs. Fisher are enjoying their stay in town. Mrs. Fisher is a woman of charming personality and a well-known social leader in her home city, Toronto.

After visiting the flower show yesterday afternoon, a number of ladies enjoyed the exhibition of paintings by F. M. Bell-Smith, the Toronto artist, in the rotunda of the parliament buildings. One large canvas "Fishing Fleet off the Passes" was much admired. "Evening at Alert Bay," a companion piece to "Early Morning in an Indian Village," also came in for a large share of attention. Some very beautiful sketches made in the interior are also being shown. It is not often that Victorians have an opportunity of viewing such a large exhibit by a leading artist. Mr. Bell-Smith leaves shortly for the East.

A very pretty wedding was solemnized yesterday at 12 o'clock noon at the residence of the bride's parents, 348 Michigan street, when Miss Gertrude Esther, the eldest daughter of Mr. and Mrs. Geo. Martin, was united in wedlock to Mr. Henry Arthur Dickson, Seattle, son of Mr. James Dickson, of this city. The bride, looking very charming in an ivory satin princess dress trimmed with lovers knots of chiffon, with veil and orange blossoms, and carrying a lovely bouquet of white carnations, was given away by her father, and was escorted by Miss Mary Riddell, of Alberni, who looked most becoming in a beautiful pale green satin princess dress, wearing a pearl good-luck brooch, the gift of the groom. She also carried a shower bouquet of carnations. The only ornament of the bride was a handsome pearl sun burst pendant, also the gift of the groom. The groom was supported by Mr. S. H. O'Reil, of this city, who was the recipient of a gold stick pin from the groom. The marriage took place under a floral bell of white asters, and the room was prettily decorated by friends of the bride. A wedding breakfast was served immediately after the ceremony, when only the immediate relatives were present. After a sumptuous repast was taken a reception was held till 2 o'clock, when Mr. and Mrs. Dickson left on the Princess Victoria for Vancouver, where they will spend their honeymoon. The bride's going-away dress was a light, grey tailored travelling suit with a large Tuscan hat trimmed with pansies and a large lace beau. The happy couple were the recipients of many handsome, useful and costly gifts from their host of friends here and elsewhere. They will make their home in Seattle. The wedding march was played by Miss Alvina Welser.

Inexpensive But Rich Cut Glass

If you only knew the amount of added charm a piece of cut glass gives to the table, you would not be without a piece. Our showing is a most diversified one. Imported by us direct from America's most noted glass cutters.

The sparkle and many different hues to be noted will at once appeal to you. Better let us show you a few pieces.

The Evening Chit-Chat

BY RUTH CAMERON

"It's all very well," complained one of my letter acquaintances, "to tell people that they won't mind the heat if they get a good night's sleep, but why don't you go a step further and tell us how to get that sleep?"

Let me remind you, my friend, that I admitted that that was decidedly one of the cases where it were "easier to tell twenty what were good to be done, than to be one of the twenty to follow my own teachings."

But if you will promise not to get indignant with me, and not to say "that Ruth Cameron really isn't any good," if they don't happen to help you, I will be very glad to give you what I consider four very good methods of banishing that terrible spectre, insomnia.

They have almost always helped me. They may help you and they may not, but they can't hurt you.

The first thing I do when I find I'm getting into the restless, tossy state, is to get up and eat something. Oftentimes we are hungry even when we don't realize it.

An empty stomach is the worst foe to sleep that there is. The physiology of this is that if you eat something and your stomach gets to working, that draws the blood away from your head and your excitement subsides.

Eat something very digestible, of course. Don't try cheese and doughnuts or mince pie and then blame the results on me.

A glass of milk and a slice of bread is an excellent night lunch. Only don't gulp the milk down—sip it—and also try not to have it at ice chest temperature. Set the glass in some warm water, or if you can't do that, just let it stand for awhile before you drink it.

Then read a chapter or two in a book that is interesting, but neither too exciting or too abstruse. No matter what mood of night I get into the insomnia mood, I always arise, light the light and do this.

If you try it you will find that your mind, which has probably been leaping from thought to plan to worry, like a nimble chamois skipping over the crags, will be arrested in its unwelcome activity in this way better than any other.

Before you go back to bed, bathe your face in cool water, wring out a wash cloth in cold water and put it on your forehead, and if you want to do the thing up brown, put a hot cloth at the base of your neck. The physiology of this, of course, is the same as the eating—it draws the blood away from the head.

These four performances I have

usually found quite sufficient for me and infinitely better than any sheep counting or poetry repeating performances.

Other insomnia killers that I have heard recommended, but have never personally tried, are:

Rub yourself, especially the face, neck and arms, in alcohol.

Smell of alcohol.

Smell of sweet lavender.

Put your feet in a hot foot bath.

Take your pick, or "take a lot—take two."

Ruth Cameron

THE PASSING SHOW

New Grand Theatre.

The international athletic sensation, the Fassio trio, is presenting with distinct success the wonderful feats of equilibrium at the Grand Theatre, have won the biggest kind of praise throughout Europe and in New York. This remarkable act is thrilling every moment of the time it is on the stage, and for daring and colossal strength the actors excel all others who have performed here before.

Williams and Weston, the German comedians, offer a sterling production of humor and fun, and Bell and Richards are a duo of musicians alone worth the trip to the Grand. Gray and Peters eclipse all previous bicycle performers for skill and daring and The Free Setter Four provide a musical programme to please the most exacting. Thomas J. Paice sings and there are realistic moving pictures.

Pantages Vaudeville.

To-night and the balance of the week at the Pantages, local amateur contests for cash prizes will be a big addition to the present one hour ten cent show. Professional vaudeville, amateur vaudeville and four thousand feet of moving pictures all for a dime is giving big measure in the amusement market and the added fun consequent to the vaudeville contest each night including Saturday should more than test the capacity of the Johnson street theatre at each performance.

THE ADVANCE MAN

Revival of "Mikado."

The fact that Victoria is to enjoy a revival of "The Mikado," Gilbert & Sullivan's most popular of comic operas, will be gratifying news to all lovers of music. The present revival of this famous comic opera now running in New York City has attracted attention from all the leading magazines and other leading American publications.

The rendition given it by the National Opera Company, which appears in Victoria Monday and Tuesday evenings next, is said to be an excellent one. With such splendid artists as Alda (Hemmi), Edna Crox (seabrooke), James Stevens, Frank Preisch, Al Sykes, and the other principals of the National Opera Company in congenial roles only an excellent production might be expected.

The opera will be rendered with an efficient chorus, orchestra, carried by the company, and beautiful stage settings, with elegant wardrobe, making an brilliant and picturesque a Japanese atmosphere as was ever seen in this greatest of all political satirical comic operas. Mr. Gilbert and Sir Arthur Sullivan produced such a musical composition in "The Mikado" that even the Japanese enjoy the satire on their ancient political government.

The same of note for the National Opera Company for both "The Bohemian Girl" and "The Mikado" starts to-morrow morning.

—\$8.00 pattern hats clearing at \$1.00; children's hats sacrificed 50¢ at cost, no consideration. The Elite, 1316 Douglas.

BLACK MESSALINE

There seems to be no decline in the vogue for black, and many of the handsomest summer toilettes are black, either silk, or crepe fabrics. Above model is messaline, made with over-skirt front and side tunic. The bodice which is attached to skirt is made in surplice fashion, with wide revers of black satin, beautifully braided, with fancy soutache. There is a relieving note of white in a chemise and stock of the lace.

POSTAL RULES EVASION CASE

BAXTER AND JOHNSTON LIABLE FOR \$508,000

Decision Reserved in Case Involving Postage on Licensed Victuallers' Election Circulars

The decision in the case of the post office department against Baxter & Johnston, Yates street, of having evaded the post office regulations last November, by freighting letters to provincial cities to save one sent in postage on each letter, was reserved by Acting Magistrate C. J. Prior, after hearing the evidence of the prosecution and the address of J. A. Alkman for the accused, in the police court this morning.

FIRST PRIZE, BEGONIAS, SIX OF EACH SORT, AT FLOWER SHOW.

Baxter & Johnston, if convicted, can be made liable for a fine of \$508,000. The letters were consigned from Victoria to Rossland, Greenwood, Kamloops, Revelstoke, Nelson, Nanaimo and Vancouver, bearing one cent stamps, through the Dominion Express Company, to agents of the Licensed Victuallers' Association, who placed them in the mails in the respective cities.

evasion with which Baxter & Johnston are charged was discovered by the express company's marks on the packages. Post Office Inspector John R. M. Greenfield gave evidence that the difference in postage on 15,236 letters in the Vancouver office had been paid by cheque, sent the department by C. J. Tuik, of the Gold Seal Liquor Company, and signed by C. L. Benson, president of the Licensed Victuallers' Association, and by James Hunter, treasurer. The letters were then delivered and the matter reported to headquarters.

Altogether there had been \$4,760 letters mailed by Baxter & Johnston for the association, 31,000 of which carried the required postage. Eight thousand were posted in Victoria and the remainder sent through the province. The post office inspector said he came to Victoria to hold a post office investigation, and obtained statements from C. S. Baxter, H. P. Johnston and the manager of the Dominion Express Company. The statement of C. S. Baxter, read in court this morning, was in effect that towards the end of September or the beginning of October last year his firm had contracted with the Licensed Victuallers' Association for printing, stamping and mailing to every voter in the province a circular. The firm agreed to do all the work except the purchasing of postage.

WISHAP TO MINISTER

(Special to the Times.) Winnipeg, Aug. 11.—Rev. Joseph S. Coffin, Methodist minister of Lonsberg, met with a painful accident at the B. C. depot to-day while on his way to attend the Methodist conference at Victoria. He was walking along the platform when he slipped and fell, sustaining a bad sprain to his ankle. He was taken to the General Hospital for treatment. Rev. Mr. Coffin is 72 years of age.

MARICOPA OIL COMPANY

of Los Angeles, California. Under Canadian Control. Capital \$1,000,000.

This Company owns a lease of 60 acres in section 32-14-23, in the very heart of the Maricopa Sunset Field, surrounded by gushers and flowing wells for a royalty of 1-7 of the oil produced.

Latest News.—Note the Location

Maricopa, July 27.—For three hours yesterday a monster well of the American Oilfields on section 32, 32-24, west of Lakeview, spouted a stream of oil over the derrick, and it was the fear of the neighborhood that another Lakeview had come in. By heroic efforts the men were finally able to get a gate attached and the flow was shut off. Company employees estimate the flow to have been between 25,000 and 30,000 barrels a day, or more than 1,000 barrels an hour while the well was flowing. Late advice to-day were that she has not sanded up, but shoots oil forty feet above the crown lock whenever the gate is opened. The new well is numbered 5, and is on the south line near the Sunset Monarch. It reached the sand at 2,250 feet, and the tools were blown-out of the hole at once. The production is 25 gravity. Los Angeles, July 27.—The American Oilfields has declared a dividend of one per cent, to be paid in October, and continued each quarter thereafter. This stock is not listed but some private sales are reported at around \$50 a share.

The American Oilfields was organized and incorporated on January 28 of this year and work commenced about the middle of February. To-day the production is over 3,000 barrels a day as shown by actual deliveries to the Independent Agency which the company joined under a guarantee of 50 cents per barrel, minimum price for 3,000 barrels, to be delivered at the rate of 250,000 barrels per quarter.

The Obispo within quarter of a mile of our property brought in a 10,000 barrel well on 5th June at 1,800 feet. The Midway Northern within 300 yards of this Company's property, brought in a similar well on July 4th last at a depth of 1,920 feet.

Drilling Commenced on July 20th Contractors Expect to Reach Oil in 90 Days

Only 50,000 Shares Left for Disposal. Over 250,000 Shares have been sold privately in Prince Rupert and Vancouver. Shares of \$1 Fully Paid and Non-assessable, Now 25c. As soon as the drill reaches 1,000 feet the price will be raised to 50c. Oil will be reached at 1,800 feet to 2,000 feet. Price then subject to quotation on the Oil Exchanges. To-day you buy dollar bills for 25c.

FRUIT MARKETS OF THE PRAIRIES

J. C. Metcalfe Reports Further on Conditions He Finds in Middle West

The last report on prairie markets received at the department of agriculture from Commissioner J. C. Metcalfe, says in part:

received large shipments of raspberries at this point. Moosejaw, July 26.—Express agent and dealers here report raspberries and cherries arriving in good condition with the exception of one or two of the last shipments, which were soft and running juice on arrival. I repeat here again, avoid shipping long distances now as fruit goes soft at the end of the season and cannot be shipped without great risk only from those districts which are later in coming in and not more than in the second week in shipping.

Regina, July 27.—Express agent and dealers here report raspberries arriving in poor condition lately, but with the exception of last shipments they have arrived so good. Brandon, July 26.—Express agent and dealers here report raspberries and cherries arriving in excellent condition this season, but raspberries have stopped coming, shippers not caring to take the risk of shipping such long distances unless under ice. The supply of cherries and raspberries has been far short of the demand at this and other points, and now that the supply is practically over, wholesalers, retailers and consumers are hungry and anxious to obtain.

Calgary, July 25.—I saw Oliveette cherries in Plunkett & Savage's warehouse here from the Progress Packing Co., Victoria, B. C., arrived in excellent condition, baskets well filled and packed, but fruit smaller than last season and a little wilted, evidently showing drought or want of water in maturing fruit. I also saw cherries packed in Duncan, B. C., well packed and baskets well filled, there being an abundance of other varieties of cherries on the market. Prices realized are high and returns should be good. The reg. is current to-day that the Royal Fruit Co., Edmonton, has bought the fruit output of Salmon Arm, B. C. Plunkett & Savage, jobbers here, report 180 cases of raspberries arrived to-day, some arrived a little soft. Shippers will need to exercise great care in the shipping of raspberries as they naturally run soft during the last week. Avoid shipping long distances as they are certain to arrive in a soft and mouldy condition. Other jobbing houses have also

the same price to supply his trade. Manager further stated that Olingan, Scales & Caracaden, general merchants, Virdee, Man., on the main line C. P. R., are sending out quotations as follows for carloads delivered f.o.b. point of purchase: Peaches per case, \$1.15; Italian prunes per case, \$1.10; plums per case, \$1.20; pears per case, \$2.25. One of the members of this firm owns a fruit orchard at Peachland, B.C., and if quotations are correctly stated they are certainly very low to start the season with in selling to the retail trade. Manager of MacPherson Fruit Co. here says he had been disappointed so often in B. C. fruit, and instanced an experience with one firm in respect to strawberries this season. The firm stated they could supply five or six carloads and quoted price. He closed with them at price and arranged with them to ship cars three days apart, and never got but one carload. He further stated he could not obtain cherries after their sending out and his receiving quotations and quantities to be shipped by the firm this season. I have seen some Ontario small fruits here, gooseberries and red currants, shipped in by the Canada Fruit Co., of Grimsby, Ont. by express. From this on now Ontario fruits will arrive in quantities at Manitoba points. The express rate is \$2.65 per 100 lbs. from Grimsby to this point. It is quite evident that prices will not rule high for certain varieties of fruit on these markets and it will be necessary for our shippers to get in touch with these markets and the jobbers and retailers at once, and although they may not buy heavily at the present date for future shipment, they are buying for immediate shipment and delivery a certain number of cars per week to supply their trade. B. C. shippers should use every effort to make sales for future delivery and also for immediate shipment as well, and get their connections for the later and heavier shipments to follow. By this means they will prevent, in a measure, the American shipper getting his connection with jobbers here. Another reason is to stop as far as possible consignments which are being done to later in the season, but if jobbers have bought and markets should be glutted later on by consignments, they will push sales and maintain prices on the purchased product, whilst they may be obliged to sacrifice the consigned to get sale for it. I hope growers and shippers have perfected all their arrangements for handling promptly as to labor, packing and transportation, etc. and make every endeavor to put up a high-class product in every respect of the different varieties of fruits they may have to ship. We are doing a considerable amount of advertising everywhere, we call and giving interviews to wholesalers and retailers as well as to the press. In addition to this we are sending, by the advice of your government, a certain amount of advertising in leading papers at principal points.

EXPRESSES REGRET FOR SHOOTING MAYOR

Assailant of New York's Chief Executive Says He Acted on Spur of Moment

Jersey City, N. J., Aug. 11.—"I am sorry now for what I did and I hope Mayor Gaynor will recover. It was done on the spur of the moment, and I acted that way because I had been robbed of my employment," said James D. Gallagher, assailant of Mayor Gaynor yesterday.

"I wrote a letter to the mayor asking him to give me back my job," continued Gallagher. "He refused to listen to me and I went home. I got to thinking it over, and the more I thought the madder I got, until I resolved to get even. You'd have done it yourself," said Gallagher, suddenly turning upon Assistant Prosecutor McCarthy, in whose presence he made his statement to the United Press.

"When I left home Monday I did not intend to shoot anyone. Honestly I was ready to look for another job. But I bought a paper and the first thing I saw was 'Gaynor going on a vacation.' When I saw that and thought of him eating porterhouse steaks and me a bun, it came to me strong that I ought to rid the country of a man who refused to right my wrongs.

"I hunted up my revolver, the one I carried when I worked for the city, slipped it in my jeans and went to the dock. I wasn't going to make any mistake and asked a preacher to show me Gaynor. Then I got crazy seeing him standing happy and smiling and prosperous, and I banged away. I was crazy mad, for I could see nothing but Gaynor. Gaynor everywhere and did not even know I got him until I was pinched.

"I was freed from the dock department because I was opposed to graft. I was known as a letter writer and I guess that made them think I was a nuisance and ought to be canned. When I thought of my ill-treatment I thought it was O. K. for me to write, but I'm sorry I did it."

"How's the mayor now?"

GATHERING DATA ON WATER POWERS

James White, Secretary of Conservation Commission, Will Visit Island

Vancouver, Aug. 11.—James White of Ottawa, formerly chief geographer of the Dominion and now secretary of the commission on conservation, is here. Mr. White's western trip was undertaken primarily for the purpose of gathering data for a report he is preparing on the water powers of the Dominion. The report will be published about the date of the meeting of the commission in Ottawa next January. Mr. White will visit Victoria with the object of seeking certain information from the provincial government. He is an enthusiast about the volume of motive power available in British Columbia. Before returning east he expects to find time to inspect the various water powers on the lower mainland, including Lake Buntzen and Stave Lake. His forthcoming report will give in detail the horsepower available in every province from the Atlantic to the Pacific.

It is understood that members of the commission will deliver addresses on conservation on this fall in the various prairie provinces. It is not unlikely that their tour may be extended to British Columbia.

A LEGEND OF CAPTAIN KIDD.

According to Arthur Hawkes there is a pot of gold hidden in Nova Scotia—and it isn't at the end of the rainbow, either. In August Canada Monthly (formerly Canada-West), he tells of a rangle "With Captain Kidd in Arcady," and of the treasure the old buccaneer hid in the Oak Island Money Pit.

"The whole Atlantic Coast," says Mr. Hawkes, "from Massachusetts north to Nova Scotia, is honeycombed with legends of treasure buried by pirates in the slashing days of the Spanish Main, and Mahone Bay, almost within hailing distance of the Hackmatack Inn at Chester, has one of the most imposing of these legends in the Oak Island case. Although the staid citizens of Nova Scotia never, in the dark of the moon, trotted around a hole in the ground saying charms and wearing their clothes inside out, as the fathers of Rhode Island and Massachusetts did around the Darby King, joint stock companies have spent about a million dollars in trying to permit them to unload in its depths. But they could neither pump out nor dam out the waters of the Atlantic, and there the treasure lies, as safely guarded as that in the High Rock at Lynn, or the cache somewhere along the Long Island coast, for the old Captain is supposed to guard the Oak Island gold 'nights, carrying his head under his arm for concealment. As far as Nova Scotia knows Captain Kidd is as rich as he was in the days when his ballad was new:

My name was Captain Kidd,
As I sailed, as I sailed,
My name was Captain Kidd
As I sailed.

I had heavy bars of gold,
And dollars manifold,
And riches uncontrolled,
As I sailed.

There are many reasons to strengthen the belief that Senator Flint soon may be a member of Taft's official family. It is pointed out that Flint, who is classified as a Ballingerite, is also friend of the president. Politicians here believe that Crane and Ballinger discussed the retirement of the secretary for the sake of the party in the coming campaign. Crane's statement that he asked Ballinger to run for the senate from Washington is considered by many politicians as a very gentle and inoffensive way of confirming this rumor.

Iced "SALADA" Tea not only cools and comforts but it strengthens and sustains.

INVESTIGATING SALE OF INDIAN LANDS

U. S. Representative Denies He Asked Money From Holder of Contracts

McAlester, Okla., Aug. 11.—Denying emphatically that he ever directly or indirectly asked money from J. F. McMurray, holder of Indian contracts in which he sought to have changes ratified, Representative Chas. E. Creager took the stand yesterday before the congressional investigating committee. "Last November I discussed a real estate loan with McMurray," Creager said. "He told me that if he let me have the money it would have to be secured by a mortgage on my property and it would be necessary to have the mortgage cause comment. I didn't then know that the McMurray contracts were coming up. I sought a loan of \$4,000 on property worth \$10,000. Later I sought the loan from E. C. Millon, a banker of McAlester."

Jacob L. Hamon, who charged before the committee that Creager had asked McMurray for money, cross-examined the witness.

"Did you know that McMurray and Millon were close friends?" Hamon asked.

DECLARES WIDOW PROPOSED MARRIAGE

St. Louis Man Says She Broke Off Engagement—Enters Suit for \$50,000

Kansas City, Mo., Aug. 11.—Martin Kapp of St. Louis, thinks \$50,000 will cover about the proper amount of harm for his heart, following the alleged repudiation of marriage promises she says were made to him by Mrs. Annie B. King, a wealthy widow. Kapp has filed suit here for \$50,000 damages against Mrs. King, alleging breach of promise. Mrs. King herself proposed marriage, promising that she would look after Kapp in his declining years. Suddenly, he avers, she changed her mind and informed him that she had called off the engagement.

MAY ENTER TAFT'S CABINET.

Report That Senator Flint of California, Will Succeed Secretary of Interior Ballinger.

Washington, D. C., Aug. 11.—Senator Frank P. Flint of California, is slated to succeed Richard A. Ballinger as secretary of the interior, according to rumors here which are generally credited. Political interest which was aroused when it was reported that the mission of Senator Murray Crane of Massachusetts, when he travelled to St. Paul from Beverly, to ask Ballinger to retire from his office, has not been lost with the semi-official denial of the president. Politicians here believe that Crane and Ballinger discussed the retirement of the secretary for the sake of the party in the coming campaign. Crane's statement that he asked Ballinger to run for the senate from Washington is considered by many politicians as a very gentle and inoffensive way of confirming this rumor.

PRIVILEGES WITHDRAWN.

New York, Aug. 11.—Franks and half rate privileges have been recalled by both the Postal and Western Union Telegraph companies. Circulars asking for the return of the franks and half rate certificates were mailed today from the main offices of the two companies here. The circulars call the attention of patrons to the provisions of the railroad regulation law which makes telegraph companies common carriers and prohibits free or reduced rate messages. The franks will be discontinued after August 15th.

MAY CAUSE DELAY IN CRIPPEN'S TRIAL

Attorneys are Likely to Demand Release on Ground of Illegal Arrest

Quebec, Aug. 11.—The fact that Dr. H. H. Crippen and Ethel Leneve were arrested by provincial authorities aboard a vessel which is territory under federal jurisdiction, may prove to be a serious technicality in the way of the trial. The point was raised by the attorneys representing Crippen and his typist, who may demand the prisoners' release on the ground of illegal arrest.

AUGUST CANADA MONTHLY.

"The tragedy of Coquelin is greater than the tragedy of the 'Coo,'" says Hilda Virginia Jones, in her article on Chanteclair, which begins the mid-summer fiction number of Canada Monthly (formerly Canada-West). She says that for seven years the great comedian labored on the perfecting of every detail of costume and scenery, and dreamed of playing the part of the 'Coo,' only to die just before the first night of the play. In the same number, Floy Campbell tells the story of "Dieck," a young artist who made a success in Paris, and then tiring of the game cut the wire of communication with the world by faking his own funeral, corpse and all, and disappearing so completely that he has never been found. In "Landing a Big One" O. B. Craig recounts some experiences with a thirty-pound Temagami lake-trout, a fished bundle of fight that kept his captor busy for sixty minutes; Bruce Farson tells why it is never safe to trust a woman in "Spiking Mister Corbell," and Arthur Hawkes goes rambling "With Captain Kidd in Arcady." Many Canadians will recognize the heroine of "A Commercial Contretemps," by W. Lacey Amy, and Maria H. Coyn's article on "The Little Red Schoolhouse" brings to mind some of the schoolmasters of the last century, notably "Old Nick" Wilson, the well-beloved teacher of many prominent Canadians of to-day. W. D. Nesbit, Hubert McBean Johnston, S. E. Kiser, Alexander L. Frazer, and others furnish good hot weather reading. John Arbutnotte, in "The Lover," tells a plaintiff little tale of a foolish young wife and a hotheaded young husband. The illustrations are by C. A. Maclellan, Florence Pretz, John Drew, F. D. Schwalm, Hugh Stuart Campbell, and others. The cover is a decorative poster of a midsummer morning in Paris, by Frederic M. Grant.

STEAMERS COLLIDE.

New York, Aug. 11.—With a gaping hole in her bow, the Norwegian steamer Rosario Digiorgeo arrived yesterday from Port Antonio and reported a collision with the United States collier Marcellus on the 2 a. m. Tuesday. According to the officers of the steamer, the collier sustained little damage. The two vessels collided in a dense fog, the collier tearing into the hull of the steamer. After striking, the vessels sheared off, scraping each other's sides without further injury. The hole in the Rosario is above the water line and she was able to proceed unaided. The Marcellus is attached to the Atlantic fleet.

PARDONED BY GOVERNOR.

Seattle, Wash., Aug. 11.—Thomas Tyner, an auditing clerk, sentenced to serve one to fifteen years in the penitentiary last spring, was pardoned yesterday by Governor Hay. Tyner's arrest and sentence followed the conviction of Chas. Head, a clerk in a justice court, who embezzled \$1,200 in the inspection of Head's books and failed to report the condition of the books. He was pardoned after serving four months in the county jail.

FOREIGN PRESS ON LIMITING ARMAMENTS

Comment on Minister's Speech Regarding Relations of Britain and Germany

The speech of the prime minister in the House of Commons on the mutual relations between Great Britain and Germany has been followed by a demand on the part of German public opinion that the government shall take the country into its confidence with regard to the British overtures in the direction of a limitation of armaments. The semi-official Norddeutsche Allgemeine Zeitung says: "It is a welcome step forward in the public treatment of the German-English relations when the recognition of the real motives which have led Germany to develop her military defences has found so clear expression on the other side of the channel as it has in Mr. Asquith's speech. No reasonable German politician can deny Great Britain the right of determining the size of her fleet according to her own discretion. We can only wish that the question of naval armaments may henceforward be decided by both with the calm and detachment due to such a subject."

The Berliner Tageblatt, the organ of the industrial and financial classes, says: "Emphatic protest must be made against the assertion that German public opinion would not support alteration of the naval law with a view to an understanding with England. The German nation would resist the attempt on the part of any foreign power to dictate the extent of German naval armaments, but it is a very different thing when the greatest sea power in the world extends a hand to us with a view to discovering ways and means of limiting armaments, or at least leaving them at a fixed point. The nation would accompany such an attempt with the liveliest good wishes."

The Radical Morgenpost makes a strong attack upon the German government for throwing the responsibility for their unwillingness to negotiate for the restriction of naval armaments on German public opinion. After quoting Mr. Asquith's utterances on the subject, the journal declares:

"After Mr. Asquith, perhaps not unintentionally made this revelation, it is the duty of German public opinion to proclaim aloud the view it holds, and has for years held, on the subject of pacific efforts to bring about a restriction of armaments. Let diplomats and armour-plate manufacturers continue their game as long as they can, but let them leave out of it the people and public opinion, who are not concerned with the diplomatic and commercial patois, but with the blood and possessions of two nations who wish nothing more ardently than to live in peace one with another."

The Socialist organ Vorwarts declares that the government need only take the initiative to find forthwith a majority in the Reichstag for the limitation of naval armaments.

The Neues Wiener Tagblatt bestows enthusiastic praise upon Mr. Asquith, and regards his speech as even exceeding the political demands of the day, adding: "No peace congress up to the present has emphasized the interests of international friendship in such striking words as those of the prime minister. Even the practical politician who has little in common with ideals can now entertain hopes respecting Anglo-German relations the fulfillment of which is so desirable."

The Neue Freie Presse considers Mr. Asquith's speech worthy of high praise, if only for expressing the hope that European naval armaments have now touched their limits. "An understanding," says the paper, "already exists to a certain extent between Germany and England, in so far as the British government accepts the German explanation as to her shipbuilding, and no longer fears to be surprised by a sudden acceleration in warship construction."

—Half price for ladies' wash suits— They must go out to make room for our large new stock of fall coats just arrived. Robinson's Cash Store, 642 Pates Street.

EXPLORATION OF THE OCEAN BED

Sir John Murray Says He is Always Making Discoveries of Strange Fishes

Although I know a good bit about many waters and their inhabitants, there is an enormous field still unexplored, said Sir John Murray, the noted Canadian oceanographer, in a recent interview published in the New York Times. I am still at my experimental work—whenever I get the opportunity—and to say that it is absorbing would be putting it mildly. Indeed, the average individual cannot, or does not, appreciate what a very wonderful study is animal and plant life in deep waters. Just at the present I am in the country on a personal matter, and sail for Scotland to meet the Michael Sars, the specially constructed steamship of the Norwegian government made for deep-sea work, from which I have been operating for the past three months.

The most unusual fishes are those found at a depth of about three miles. As a rule they are two or three feet in length, eel-like, some of them totally blind while others have huge bulging eyes. Some of these deep-down fish—most of them, in fact—blow up, you might say, as soon as they reach the air, and the general outline of the body undergoes an absolute change. This is accounted for by the fact that the sea pressure is about three tons to the square inch in each 1,000 fathoms and when the body is relieved of this pressure the interior gases of the fish do the rest—the so-called exploding or inflation. On several occasions we caught fish which had, seemingly, wound themselves about their prey much as does a boa constrictor.

Outside of those in the eel family the jaws of the deep-sea fish, as a rule, are irregular and saw-like, which not only affords them a certain amount of protection against the larger of their kind, but provides a means of death-dealing to those weaker ones—indeed, to look at the teeth of some of them one cannot but feel that they must be terrifying creatures of prey in the waters they inhabit.

It is odd, to say the least, but these creatures that live at great water depths and under such pressure as three tons to the square inch, have not a heavy skeleton as one might readily imagine. At the bottom of the sea and for many fathoms toward the surface it is very cold—the temperature being about the same degree as the freezing point of fresh water. There is comparatively high formation of carbonate of lime in their structures, and the bones therefore have little calcareous matter in them. The backbone or spine is not stiff, and if the fish is laid across the palm of the hand its extremities fall over the edge like a piece of tape.

At a depth of three-quarters of a mile, according to Sir John, it has been found that there is no light in the strict sense of the word, and the eyes of some of the forms that live at this depth are most peculiar. Many of the fish are totally blind, and in other cases the eyes have degenerated to almost a point of disappearance, while there are some whose optics are away out of proportion to the body and so located in the head as to command an extremely wide range of vision—like a wide-range camera.

Why there are so many different eye conditions—some flat, long, extended, telescopic-like, and so differently located—we do not know, he continued, but it seems to be in the case of those without eyes that the sense of sight is compensated by a large number of tentacles which appear on the head of some species, and truly they appear to depend on touch alone, just as do the many blind in my country and yours. As I said, at a depth of three-quarters of a mile there is no light, yet there are many varieties of the finny tribe that possess certain organs—a lantern-like or phosphorescent bulb, you might say, evidently given them for the sole purpose of generating light. Take it when the sea has been very calm for several days, this phosphorescence, which is possessed by fish inhabiting a comparatively shallow water, is well as those deeper down, may be clearly noted, the reason for this being that at such times the life of the water seems to be toward the surface. The great interest manifested just now in deep-sea fish life, according to Sir John, is centered in those that inhabit what is termed the "intermediate water"—a depth below 600 fathoms at the bottom of the ocean, but this is not the case at all. There is nothing there but water, fish, mud and rocks, and as there is light, and there is no light deeper than three-quarters of a mile, as I have said.

If You Want a Good Home

At a low figure and on easy terms, see new six room house situated on Davis street, near Fort street. Concrete foundation, double floor and walls, oak mantel, cellar floored, modern conveniences, etc.

Notice Concerning Construction of Vessels for the Canadian Navy.
The vessels will be built according to the plans and specifications of the British Admiralty, which, being of a confidential nature, will only be exhibited to approved firms. The Department of Naval Service would, therefore, be glad to hear from any Canadian or British firm who would wish to tender for the BUILDING IN CANADA of these vessels. It would be necessary for such firms to show that they have, or propose to put in, a shipbuilding plant that will be considered sufficient for the building of cruisers of the Bristol class, and that they have had such experience as will enable them to guarantee the building of such ships according to the Admiralty specifications. It should be borne in mind that the Rush-Bakot Convention provides that no warships should be built on the Great Lakes, and, therefore, shipbuilding firms should arrange for establishments elsewhere than on these lakes. Further information can be obtained by parties who propose to tender, on application to the undersigned.
G. J. DESBARATS,
Deputy Minister of the Naval Service,
Department of the Naval Service,
Ottawa, Ont., 8th July, 1910.

NOTICE
The public of British Columbia and visitors are cordially invited to meet the Right Honorable Sir Wilfrid Laurier, G. C. M. G., P. C., Premier of Canada, at a Public Reception to be tendered by the Premier and Members of the Executive Council of the Government of British Columbia, in the Parliament Buildings, Victoria, on Wednesday, the 17th instant, at 5 p. m.
HENRY ERSOY YOUNG,
Provincial Secretary.

Dissolution of Partnership
Notice is hereby given that the Partnership heretofore existing between Frederick Jenne and Philip Jenne, trading as Jenne and Brother under the firm name of Jenne and Brother at No. 579 Johnson Street, has been dissolved by mutual consent as from the 20th day of June, 1910, the said Philip Jenne retiring from the firm.
All liabilities of the firm will be met by F. Jenne who is continuing the business and all monies owing to the late firm are to be paid to the said F. Jenne.
Dated this 25th day of July, 1910.
F. JEUNE,
P. JEUNE.

SELECT SITE FOR ALBERNI HOSPITAL
Committee Now in Position to Prepare for Raising Necessary Funds

Alberni, Aug. 10.—The joint hospital committee met Dr. H. K. Anderson and Alfred Carmichael, of the Alberni Land Company, at the Somass hotel, and discussed the question of a grant of land from the company for hospital purposes. Dr. Anderson said he did not think the town had developed sufficiently as yet to make it easy to decide just where the site should be located, and suggested that, in the meantime a temporary site be asked for. The committee already had the company's promise of a grant of two lots, the location to be fixed somewhere on the Redford road as soon as surveys were complete. A more preferable site was thought to be on the north side of the Dry Creek park reserve, about six blocks back from the waterfront, which has already been cleared, and Dr. Anderson and Mr. Carmichael agreed that this grant could be made on authority of the local agents. The joint committee unanimously accepted this proposition. The committee is now in a position to prepare plans of raising money and building the hospital.

NEW VIGOR FOR BRAIN AND BODY
Come With Every Dose of DR. A. W. CHASE'S NERVE FOOD

When you use Dr. A. W. Chase's Nerve Food you are doing good to every cell and tissue of the human body. The heart beats stronger, the nerves of the stomach do their part in making digestion better, the liver, kidneys and bowels are strengthened in action and you are certain to feel better in every way.

True, Dr. Chase's Nerve Food cures nervous prostration, locomotor ataxia and partial paralysis. There is abundant proof of that.

But do you want to take the risk of neglecting the earlier indications of nervous trouble?

Why not put Dr. A. W. Chase's Nerve Food to the test when you are weak and run down, when your head aches and sleep falls you.

Keep the blood rich and the nerves in vigor all the time and avoid the more serious forms of disease. You can depend on Dr. A. W. Chase's Nerve Food to do this for you. 50 cts. a box, all dealers or Edmondson, Bates & Co., Toronto.

News of the Province

AUDITOR SUGGESTS HIGHER TAXES
Submits Report to Council on the Financial Condition of New Westminster
New Westminster, Aug. 10.—M. B. Cotsworth, the city auditor of New Westminster, makes the following announcement at the commencement of the current installment of his report.
"The city's dragging liabilities, he says, caused by the over-expenditure on current account must be paid off by money from taxation, rentals and profits from light, water, etc., before the city can rightly incur any further expenditure that can possibly be avoided, otherwise the city's credit will become injured."
"To meet that necessity it is the imperative duty of the council to refrain from incurring any avoidable extra charges until the improving financial position enables it to pay the desired increase. Meanwhile, the council could make arrangements to raise sufficient taxes, etc., during the next two years to pay off the dragging liabilities along with current expenditure."
"Such expenditure as the \$11,500 included in this year's estimates for the proposed fifth fire hall in the north-west should be very carefully reconsidered by the council with a view to hold it in abeyance till the city can afford not only that outlay, but also the extra yearly expense of \$4,000 it will require, as that should increase the present heavy cost of \$7,014, which exceeds the present high rate of \$2 per year per person, including women and children."

SPORTS AT NANAIMO ON LABOR DAY
Only Outside Entries to Be Considered Will Be Those From Ladysmith
Nanaimo, Aug. 10.—The board of management of the local athletic club met last evening when it was finally decided to hold a day of sports here on Labor Day, September 5th. The only outside entries to be considered for the various events will be those of Ladysmith, and special accommodation for Ladysmith visitors in the way of transportation will likely be arranged for.

ALD. SCHULTZ RESIGNS.
North Vancouver, Aug. 10.—An echo of the grade controversy sounded at the meeting of the city council, when the clerk read a telegram from S. D. Schultz, tendering his resignation and advising that letter was following. The general feeling among the aldermen seemed that there was no other thing to do than to accept under the circumstances, but as it was pointed out by Ald. Fowler that a resigning member was required to give his reasons or furnish funds for another election it was thought advisable to leave the matter in abeyance till the letter arrived. It was thought that an election to fill the vacancy could be held on the same date as that on which the sewerage by-law will be voted upon.

CHILLIWACK CROPS.
New Westminster, Aug. 10.—According to reports received in the city in the course of the past few days crop conditions in the district are excellent. The hay crop this year is now almost all in, although in some parts of the district the more backward of the farmers are still working on it. The greater part of it has been garnered, and with the dry weather which has been prevalent for the last six weeks, it has all been got under cover without loss.
As for the grain it had been feared that it would suffer from the dry spell, but it appears that there was sufficient moisture in the earth to supply all its needs. Fall wheat cutting was commenced some days ago in Chilliwack district, practically the only part of the valley where any wheat is grown, and the grain is reported to be first class. Threshing of the fall wheat is now well under way, and it will all be cleared off in the near future.

Uncle Walt The Poet Philosopher

They doom you, Dobbin, now and then, they say your usefulness is gone; some blame fool thing designed by men has put the equine race in pawn. They doom you, and your hopes were low, THE TRUSTY when bicycles were all the rage; they said: "The DOBBIN horse will have to go—he lags snapper'ous on the stage!" They doomed you when the auto car was given its resplendent birth. "Thus sinks the poor old horse's star—he'll have to beat it from the earth!" And now they're dooming you some more, there are so many motor things; men scorch the earth with sullen roar, or float around on hardware wings. They doom you, Dobbin, now and then, and call you has-been, and the like; but while this world is breeding men, the horse will still be on the pike. No painted thing of eggs and wheels and entrails made of noisy brass can'er supplant a horse's heels, or make man grudge a horse his grass. No man-made trap of bars and springs can love or confidence impart, nor give the little neigh that brings emotion to the horseman's heart. O build your ears and ships and planes, and doom old Dobbin as you will! While men have souls and hearts and brains, old Dobbin shall be with us still!

Oliver Mason

SOOKE NOTES.
(Special Correspondence.)
Sooke, Aug. 10.—An enjoyable concert was given by the Young People's Society of Knox church on the evening of the 9th inst. C. C. Trenchard, president, acted as chairman.—Rev. Mr. Robertson of Nanaimo, gave an address on the days spent many years ago as a missionary in Sooke, Metchoin and Coquille. The programme included recitations and dialogues by Miss Nan Milne, Miss Hannah, Mrs. Arden and C. C. Trenchard and Miss Carrie Sanderson and S. Sanderson and solos by Miss Renfree, Misses Barr and Stewart. Refreshments were served at the close.
Visitors to Sooke include the following: Miss Renfree, Victoria; Mr. Brough and Mrs. Brough of Vancouver, at Mr. Milne's; Mrs. Bagshaw, Miss Williams, Mr. and Mrs. Baird, Victoria; Mr. and Mrs. Lovick, California; Miss L. Lidston and Stafford Horne, Rev. Mr. Gardner at Mugford villa; Mrs. Arden and Mrs. Blanchard, Colwood, at Mr. Eardley's; Rev. Mr. Robertson and family, at C. Muir's, Springdale; Mr. Fraser, Victoria, at Mrs. J. Muir's, Springdale; John Whitter with his sister Myrtle, of Seattle, at Geo. Thropp's, Sloopview.—Mrs. J. A. Murray, Wellpark, is visiting Seattle.

CUTS HIS THROAT.
Vancouver, Aug. 10.—Speechless, bleeding from a gash two inches long in his throat, a cut vein in his wrist, and evidently in a state of collapse and regret for his rash deed, a man walked into a drug store on Cordova street yesterday. Pointing to his wounds he appeared to be appealing for assistance, which was readily accorded to him by the assistant in attendance, who staunch the blood as well as he could and then telephoned for the police ambulance, which arrived in a few moments. From the motions of the injured man it was evident he had inflicted the wounds with a razor. He was able to walk to the ambulance and was conveyed to the General hospital. On arrival at the hospital the man was induced to write his name and address and he gave A. Lindburg his name and his residence as a down town hotel.

CHINAMAN KILLED.
New Westminster, Aug. 10.—His head crushed by the fall of a roll of linoleum Chung Lum, a Chinaman employed in the local freight sheds of the C. P. R. met death. Chung Lum and a fellow workman were employed unloading the big rolls of linoleum from a freight car when the accident occurred. It appears that the two men were taking the rolls out of the car by means of a truck, and taking them into the freight sheds. The roll, which weighed about 500 pounds, and stood some eight feet high, appears to have toppled over, striking Chung on the side of the head, inflicting a fatal wound. The side of his head was crushed in, several arteries being opened. The man fell to the ground bleeding profusely. Dr. Walker was summoned, but the Chinaman died a few minutes after the accident.

PRISONER ESCAPES.
New Westminster, Aug. 10.—A Yale Indian named Charley not only made good his escape yesterday from the penitentiary, but took the deputy warden's coat with him. The native was a five-year man, sentenced for burglary. He had been employed in keeping the grounds in order, and was working near the warden's residence. While the guard's back was turned for a moment he slipped away, rang along Columbia street and is supposed to have entered the residence of the deputy warden, for a coat was stolen from there some time in the afternoon.

RICH STRIKE.
Nelson, Aug. 10.—B. Grilly, who has just returned from Sheep Creek, reports a rich strike in that camp. The strike was made on the Sheep belt recently bonded from Dr. Wilton and Capt. J. G. Devlin to Vancouver and Spokane men. At 120 feet of the crosscut opening up No. 2 lead a vein was found of good ore, two feet of which runs from \$200 to \$1,000 to the ton.

—Jockey caps in red or navy blue serge or felt; also in leather. Prices 25c and 50c. Robinson's Cash Store, 621 Yates Street.

THE B. C. LAND & INVESTMENT AGENCY, LTD.
82 GOVERNMENT STREET.

JAPANESE ANTARCTIC EXPEDITION DELAYED

Friends of Explorer Are Arranging to Raise Funds to Pay For Vessel

(Times Leased Wire.)
Tokio, Aug. 11.—Until difficulties which have arisen over payment for the ship in which Lieut. Shirai will attempt to find the South Pole have been adjusted, the departure of the expedition is postponed. In addition, it is believed that the government is not in accord with public sentiment regarding the expedition, and the minister and vice-minister of the navy are quoted as not approving the plans of the lieutenant.
In spite of apparent governmental inactivity, the Shirai party, backed by several Japanese newspapers, are proceeding to raise money to finance the expedition. One mass meeting was held recently and others will be arranged shortly to pay for the vessel that will carry the party.
Capt. Nomura, who will command the expedition, and certain members of parliament, are attempting to secure government assistance.

COMING TO CONFERENCE

(Continued from page 1)

House, Toronto; C. P. McGregor, Hamilton; N. W. Rowell, K. C., Toronto; Joseph Gibson, Ingersoll, president of the Dominion Alliance; Samuel Carter, Guelph; Rev. Dr. Burwash, Chancellor, Victoria University; Rev. F. T. Bartlett, general secretary Epworth League; Rev. R. J. Garbutt, of London; J. R. L. Storr, one of the legal luminaries of Toronto; Rev. J. F. Ford, Clinton, and Rev. W. J. Ford, Watford.

QUESTIONS FOR CONFERENCE

Toronto, Aug. 11.—The question whether there shall be a separate home mission office in Winnipeg is one which will come up during the next two weeks before the Methodist general conference at Victoria, to which hundreds of delegates are already speeding on their way. The question is involved in that some favor a proposal to hold a strong man at the head of the whole missionary work of church, with secretaries of the foreign and home departments and forward movement and other activities as subordinates. If there should be a division of the home field, no doubt one of the present secretaries would be sent to Winnipeg, but whether such change would be considered to be in the best interests of work generally is a question conference would debate very seriously before taking the step.
Another problem coming before the delegates will be that of the advisability of electing an associate general superintendent to relieve Rev. Dr. Carman of some of the burdens now pressing upon him.
The desirability of giving a larger grant from the superannuation funds to the widows and children of ministers who are dependent upon it will be another apt question. At present a man in active service of the ministry for twenty-three years has a permanent claim on the fund and should he die his widow receives two-thirds of what he would be paid, which amounts to about \$19 per annum for every year of active service. The proposal now is to put everybody in a position to enjoy the benefits of the funds permanently and not only those who had been for a specified number of years in the work.

Rev. Dr. Campbell has received the following intimation from Principal Forrest, Halifax, moderator of the general assembly of the Presbyterian church in Canada:
"Conferring with the clerk of the general assembly, I appointed you, with Rev. W. Leslie Clay and Thornton Fell a committee to appear before the quadrennial conference of the Methodist church, to convey the greetings of the Presbyterian assembly. Will you, therefore, confer with Mr. Clay and Mr. Fell, and make arrangements to represent the assembly before the conference."

At the St. Joseph's hospital last evening the death occurred of Charles McKernan. Deceased was 50 years of age and was born in Carnlough, Ireland. He had resided in this city for many years, and had been employed by the C. P. R. at their docks for the past 15 years. The remains are reposing at the parlors of the Victoria undertaking parlors awaiting the funeral arrangements.

Dredging and Other Mining Operations in the Yukon Have Proved Success
"The dredging and other mining operations of the Yukon Gold Company in the Yukon district this year are proving very successful and the season is far from being ended. The gold output will largely exceed that of last year when we paid dividends of 10 per cent. to our shareholders. All the estimates of our experts both as to production as well as the richness of the ground have been sur-
