SOVIET PLAN AN ALLIED-RUSSIAN EXPERT COMMISSION

ARGUMENTS IN

Montreal, May 11.—Argument in the case of D. C. Macarow, who was general manager of the Merchants' Bank, charged by the Federal Minis-ter of Finance with wilfully signing a false return of the bank's condition for October, 1921, began in the police court this morning.

court this morning.

Addressing Judge Cusson on behalf of the accused, N. K. Laflamme, K.C., said the charge was laid under Sections 112 and 153 of the Bank Act, which imposed the obligation to send in monthly returns and a penalty for non-compliance.

which imposed the obligation monthly returns and a penalty for non-compilance.

Sent in.

Mr. Laflamme said that the October, 1921, return was sent in on November 20, a Sunday.

From November 21, when it was received in Ottawa, till March 24 there was not the slightest indication coming from the Finance Department that would show that it considered this return as false. One might say that they followed the practice of testing the returns, but they placed them on file.

On December 16 it was a notorious fact the president of the bank announced in public that the rest fund, which by the October return was \$9,450,000, had been found, as a consequence of an investigation made by H. M. Mackenzie, to have shrunk to the extent of \$8,000,000. That was public property.

How?

Mr. Laflamme then said that as-

Mr. Laflamme then said that assuming that appropriations had been made in October, and that Mr. Macarow had signed a return showing overdue debts lower by \$1,300,000 than they should have been, where would the wilful fault have come in? The draft of the October return was prepared at 2.30 p.m. Saturday, November 19, and Mr. Macarow signed it half an hour later. That was the first time he had seen the return and in order to comply with the Government regulations he had to sign it at once so that it could be mailed. How could he positively and wilfully know the return was false and deceptive?

Police Fighting Labor Extremists Following Murders

Two Men Partly Identified As Slayers

Chicago, May 11.—Declaring he agreed with the contention made by the police that "Chicago is in a state of warfare," Judge Kickham Scanlon to-day refused to issue writs of habeas corpus releasing Cornelius Shea and John Lafferty, Labor leaders, arrested in connection with the murder of two policemen yesterday morning during a series of Labor bombings. He told the police these two men could be held at least until Saturday.

Jalls were crowded to-day with Labor leaders and others held in connection with the murders and bombings, which police attributed to Labor disorders.

Genoa, May 11.—The world statesmen gathered in Genoa were still watching to-day Santa Margherita, the headquarters of the Russian Seviet delegation, and waiting for the Bolsheviki verdict on the plan the rest of Europe has devised for the restoration of Russia.

The substance of the preamble and many clauses of the reply had become public, but Genoa still was in ignorance as to the Soviet Government's last word on what it would do about foreign property nationalized in Russia. This is the question on which France and Belgium have split with the rest of the powers.

Many rumors concerning Russia's decision on this point are in circulation. That part of the reply which bears on the restoration of property has been drafted and redrafted by the Russians. It underwent many changes yesterday after appeals had been made to M. Tchitcherin, the Soviet Foreign Minister, by Signor Schanzer and other leaders to soften it.

of Munn versus the City of Victoria, in before Mr. Justice Macdonald to-day judgment was reserved.

In the evidence adduced yesterday, James Forman, of Messrs. Heisterman, Forman & Company, placed the value of water front property in the Inner Harbor at from \$200 to \$250 a front foot, in the year 1920. The water front property had declined seriously in value, due to the operation of car ferries, he stated. The assessments of city land in 1998 would be a truer basis of computation than that existing at the present day, in regard to market values, held the witness.

Arthur Coles, called on similar points in the defence, testified in the same sense, that the property on the Inner Harbor front had declined considerably in value from former years. George McGregor, called by the defence, testified that much of the wharfage trade had shifted down stream towards the Canadian Pacific Railway docks in the Inner Harbor. In closing his case for the City City Solicitor Pringle contended that the city assessment of the property value valuators was given in rebuttal of evidence for the plaintiffs, which placed the value of the Munn property between \$56,000 and \$50,000. Premier Oliver to-day announced the appointment of Raiph Shirley as deputy registrar at Kamloops, and R. H. Townsend as deputy registrar at Nelson.

G. E. Kenning, of Ashcroft, is being appointed deputy collector.

AIR SERVICE PLANS OUTLINED

Britain-India-Australia Scheme: Defence Con-

London, May 1i.—(Canadian Press Cable) — Members of the Industrial group in the House of Commons met last night to discuss Commander C. Dennis Burney's scheme for an air service between London and India and Australia. Commander Burney's original scheme was regarded by the Grighnal scheme was regarded by the British Air Council as imposing too heavy a liability on the British Government and was modified by the commander, who recently submitted his revised plans to the Council.

The promoters of the air service in question asked the British Government for a subsidy of £91,000 and the Indian and Australian Governments for a subsidy of £40,000. The original scheme contemplated a bi-weekly passenger service. The revised scheme was unacceptable to the Treasury exparts because of instificient financial backing.

A. H. Ashbolt, Agent-General for Tasmania in London, speaking of the Empire aspect of the scheme, is said to have intimated that the Australian Government probably would be prepared to vote a subsidy of £150,000 yearly toward the cost of such scrivice, though the matter had not been definitely settled.

It was proposed that a company-should be formed into which the Government would be asked to transfer, free of cost, all its airships, material and airship bases. The capital of the company would be £4,000,000, consisting of £1,800,000 ordinary shares and the remainder in debentures.

F. M. PRESTON.

Dispatches from London con zette replied in larger type with the following: "We stand by Both Lord North Britain." cliffe and Mr. Wickham Steed have been described as great journalists. The average in-

the substructure exceeded the City Engineer's tender of \$177,376 by \$68. It did not. All tenders received, including the City Engineer's estimate for carrying out by day labor the part of the substructure recently built, were based upon a schedule of quantities and prices; that is, the contractor was to be finally paid for the actual work done at the various prices submitted. No jenders on a lump sum basis were received. Taging the quantities given on the original schedule, the City Engineer's estimate by day labor worked out at \$177,376, and that of the lowest contractor, \$212,714.

After a final reckoning of quantities, the cost of the work, if it had been carried out by the contractor, would have amounted to \$239,766, and the actual day labor cost was \$298.

Mr. Smith's figures of \$68,135 evidently refer to the increase in the final cost of the whole substructure over the estimate amount for the tasme work allowed in the by-law, and the only answer to this is that it the original estimate was too low, and the reason-of its being too low is that mo actual drawings had been prepared (since no money for this work was available), and the actual quantities could only really be guessed, since it was not eyn known at the time what type of bridge would be erected or its actual weight. The Engineer's estimate of the whole substructure, as finally designed after the passing of the by-law, was \$212,500, made up of \$177,500 for that part of the substructure just completed, and \$35,000 for completing the substructure, as finally designed after the passing of the by-law, was \$212,500 made up of \$177,500 for that part of the substructure just completed, and \$35,000 for completing the substructure, as finally decided on the work recently completed am wied to \$14,671. Unto the whole substructure, as finally decided in the substructure levels and the extra concrete, excavation, if the whole substructure, as finally decided in the substructure levels and the extra concrete, excavation, if the completed and the concrete excavat

the actual work will cost in the neighborhood of \$239.086.

So far as the steel work is concerned, the original estimate was obtained from the best source available at the time, and the weight, as finally designed, exceeded the estimate by about \$600,000 pounds, but as pointed out above, no drawings had been made and the original estimate was simply a guess; the type of bridge, also the number of spans, not having been decided upon.

Another point which has been recently stated, namely, that we have had the benefit of falling prices, is incorrect. vertised as "best."

THE LORD'S DAY ACT.

To the Editor,—Judging from much current talk and discussion on Sunday Closing, there appears to be an impression in some minds that the Lord's Day Act is so very drastic, that if enforced in its entirety people would hardly be able to breathe. It is to be regretted that copies of the Act have not been widely circulated so that the people could judge for themselves whether it is such a monstrous tyranny as some of its

plans would be controlled to the control of the con

themselves to be deceived. As regards the appeal to the electors to get out and vote on the plebiscite on Friday, the hope appears to be entertained that by some means or other the enforcement of the Lord's Day Act may be suspended in Nictoria should a substantial vote be given to that effect. Those who entertain this hope should consider that no matter how the vote may go it can have absolutely no effect on the law itself. This matter is not a local or even a Provincial affair. It has been declared by the highest authority in the land to be "not a local Municipal or police regulation: but legislation designed to promote public order, safety and morals, which is a matter solely within the jurisdiction of the Dominion of Canada." It is further pointed out that "although the Lord's Day Act makes an exception in the case of any Provincial Act or hay now or hereinafter in force that these words cannot be held to mean that the Dominion Parliament has manifested an intention to give the force of law and legislation cannot do, namely to create en offence against the criminal law. The Lord's Day Act, therefore, is not in any sense of the term an act to be treated as having the character of a local option law.

LECTURE ON VOLCANOES AND EARTHQUAKES

F. Napler De Ison, who is in charge of the Meteorological Observatory at Gonzales Hill, last evening gave a lecture to the members of Columbia Lodge, No. 2 and their friends, in which Mr. A. Huxtable assisted by operating the lantern slides which were used in Illustrating the many different angles of Mr. Denison's address.

Mr. Denison thoroughly explained the workings of the delicate equipment which registers earthquakes, whether far away or close at hand, and explained the way the distance was correctly reached. His subject, both as to the formation of the earth's surface and to the cause of volcances, was handled in a very able and effective ma. ner.

A short but pleasing programme was given at the close of the lecture, as follows:

Vocal solo. Wm Melville.

Address Recognizes Splendid Long Services to Metro-

politan Church

The members of the quarterly official board of Metropolitan Church and their wives, met in a body at the home of Mrs. D. Spencer last night on the occasion of her eightieth birthday, and presented her with a beautiful illuminated address.

The address, which was presented by E. W. Whittington, recording steward, read as follows:

w. J. SIPPRELL,

E. W. WHITTINGTON,

Secretary Trustee Board.

To Mrs. David Spencer:

Canon and Mrs. W. G. James, of Calgary, are spending a holiday in the city, and are guests at Cherry Bank.

Mr. Gillespie, who has been a guest at the Empress Hotel for the past few weeks, left on Tuesday for his home in Montreal.

The Navy League Chapter, I. O. D. E., will hold the monthly meeting to-morrow afternoon, at 2.45, at headquarters.

Messrs, S. B. Evans and W. J. Clark, local representatives of the London Life Insurance Company, left yesterday by automobile on an extended visit up the Island.

Mrs. Blandy, who has been visiting in Vancouver and Seattle, has been the guest of Mrs. R. D. Davies, Lillian Road, prior to returning to her home in Metchosin.

To Mrs. David Spencer:

"We, the members of the official board of the Metropolitan. Church, desire to take the occasion of this, the anniversary of your birthday, to express to you on behalf of the members of the church and congregation, as also on behalf of ourselves, the very high esteem in which you are held by us all. We offer our sincere congratulations to you that you have been permitted to reach with comparative health the present milestone. On the path of life. Some of us have had the opportunity and privilege of association with you for a considerable number of years, while for others that association has been of shorter duration, but for us all it has, been our glory and our joy to mark the path by which you have come in your Christian pilgramage and we do our selves honor when we remember your life we full of lowing service to all

spiritual realities of our common faith.

"We have had many an occasion to admire the simplicity and gentleness of your character, the strength of your faith and your ready sympathy with those who might be in any case of need. Our whole church is the richer in the grace and favor of God by reason of the influence and inspiration of your Christian example that have brought us all nearer to the fountain of Divine blessings. We further desire to assure you of the great regard with which we cherish the memory of your late lamented husband, Mr. Spencer. His generosity and fidelity toward our church, and its work were marked throughout a period of fifty-eight years of activity, while it is due to his kind and gracious thought of our needs during the late years of his life that provision was made for beautifying the auditorium of our church, which has increased the joy and delight of our worship. We do not fail also to mark the ready and willing service rendered us in the carrying out of a father's bequest on the part of your sons, Messrs. J. W. Spencer and D. Spencer, as also their continued interest in the church and what it seeks to accomplish and in this connection we would make grateful recognition of a like interest manifested also by all the other members of your family whenever occasion required.

We would pray that our Heavenly Father may continue graciously to guide you and all dear to you by a gentle hand, and that when, your labors and theirs are ended upon the earth the same gentle hand that has directed you and them throughout life's way may father you all within the gates of gold.

No support the same gentle hand that has directed you and them throughout life's way may father you all within the gates of gold.

Secretary Trustee Board.

Rev. Dr. Sipprell, pastor of the church, expressed the delight of Metropolitan officials and members of the church on having the honor to felicitate Mrs. Spencer on this her eightieth birthday. He then called upon Mr. Whittington to read the above address. Following this Mrs. Pendray in a very happy manner added words of congratulation and requested Mrs. A Lee to present Mrs. Spencer with a basket of flowers consisting of roses and tulips and forget-me-nots, a token of appreciation from the ladies of the Official Board.

forget-me-nots, a token of appreciation from the ladies of the Official Board.

Mrs. Kinney, in a most appropriate address, presented a basket of flowers also as a token from the Woman's Missionary Society.

Mrs. Spencer was taken wholly by surprise, and was much moved by the expressions of affection and kind regard and in a unique manner made a grateful and touching reply. She referred to her coming to Victoria many years before, of finding her way to the Methodist church on the first Sunday, and of how much the church had meant to her through all the years. She expressed her gratitude for the church, for her children and for her many friends, her deep interest in the missionary work of the church, and her devout wish ever to remain a humble, and worthy follower of Jesus Christ.

It was very pleasing to be able to offer Mrs. Spencer the felicitations of the occasion in the presence of all her children, with the exception of Mrs. Charles Vickery who was not present. About eighty persons were present from the church, and after dainty refreshments had been served, and best wishes expressed by each individual to Mrs. Spencer, the gathering dispersed. Many Attend Fete in Charge of Florence Nightingale Chapter

mediate object of which is the erection of a sunroom for tubercular patients at the Jubilee Hospital.

Georgeous in bloom as these gardens may be in the height of their Summer beauty no more lovely aspect could be revealed than that which delighted the numerous visitors yesterday afternoon. Parterres of flaming tulips and dancing daffodils, terraces fragrant with waliflowers-any misty with forget-me-nots, branches of blossom that, but for their perfume, would have cheated the senses, laden with snow against the azure sky—nothing was missing from this garden of lyric beauty that the lover of nature could devise or desire. Winding paths led to the Japanese gardens, which with their allure of gleaming waters spanned by graceful bridges, the delicate amber and flaming gold of azaleas and their delicate tracery of almond blossom and Japanese plum presented an unforgetable picture, and was perhaps the most popular of the many lovely nooks. From this feast of color and fragrance visitors turned their steps towards the round house where more material attractions were provided by the delicious test, convened by Mrs. Catterall, and served by a number of Chapter members. Ice cream was provided at a stall in another part of the grounds under the direction of Mrs. McAllister, Mrs. Kyrle Symons, Mrs. Webb and Mrs. Litchfield were in charge of the gate money which amounted during the afternoon to the satisfactory sum of \$270. The takings at the stalls will be published as soon as the accounts are completed. The transportation of guests to and from Hatley Park was undertaken by Cameron and Calwell and the Veterans' Sightseeing Company, the large tallyhos being filled to capacity on each trip.

Members of the Florence Nightingale Chapter, I. O. D. E., and their

large tallynos beins in on each trip.

Members of the Florence Night-ingale Chapter, I. O. D. E., and their regent, Mrs. H. F. Crowe, who was convener of the function, are to be heartily congratulated on a most satisfactory and enjoyable undertaking.

MR. TURTLE HELPS MR. RAB-BIT FOOL MR. FOX

Mr. Rabbit was tired of listening to Mr. Fox. He was always telling him something he did not know, to be sure, but then it was not pleasant to have Mr. Fox always the one to show off yourself. At least that was the way Mr. Rabbit thought about it. "But he is so wise and clever. I shall never be able to tell him anything or do anything that he will think is wonderful," thought Mr. Rabbit was think about it. I shall have to go on listening to hit is haber est of my life, I suppose."

Mr. Rabbit was thinking out loud, so Mr. Turtle, who was resting under some leaves close by heard him. "Why give it us so easily." he asked, poking out his head and looking up at Mr. Rabbit, "said Mr. Turtle. "For instance I am fond of berries, mushrooms and many kinds of fruits and vegetables, and I should like to help you. Now, what do you say if we think up a plan to show Mr. Fox you are as clever as he?"

"I should like it very much," replied Mr. Rabbit, "but you know that Mr. Fox is very clever and he seems to know a great deal. Are you sure we could think of anything he does not know?"

"Of course we can. Don't you know that I am very old? I have lived longer than any one around these parts. You listen to me and we will make Mr. Fox's eyes popright out of their sockets with surprise," said Mr. Turtle, waddling up to the top of the log.

"Now this is my plan. I will find a nice shady spot where the leaves are thick, and here I will settle down. My shell will look like a stone in the dim light. Then you come along with Mr. Fox and begin tellling how smart you are about doing tricks.

Thief Was Fastidious.—A pair of opera glasses were taken by a fastidious thief, who entered the home of Mrs. E. A. Lewis, 982 Haywood Avenue during the early hours of yesterday evening, it was reported to the police to-day. Adding the price of a theatre performance to the opera glasses, the thief took a small loan in cash, from a drawer in the residence.

Life is Threatened.—Police are today investigating a mystery surrounding the alleged threatening of
an actor at the Chinese Theatre. It
appears the Chinese was harshly
dealt with by a party of his fellow
countrymen, and is is reported that
his assaliants told him that he
would be put in a box and sent back
to China," a phrase which the police
take to mean a polite intimation that
the life of the man was in some
danger. Constables are investigating.

MINK KILLS CHICKENS.

That at least one chicken yard in the city was visited by a mink early this morning is ascertained from the police reports to-day. Mrs. Armstrong, 1625 Holywood Crescent, reports that shortly after eight o'clock this morning she looked out of the house to see a mink at work killing her fowl. Six chickens already lay dead, and the marauder was busily killing a seventh. Six full-grown hens and about ten baby chickens were slaughtered by the animal before a bullet from a police rescue nens and about ten baby chickens were slaughtered by the animal before a bullet from a police rescue party put a stop to its career. Constables Wood and Walton, in answer to a hurry up call, shot the animal, which was too engrossed in its tender occupation to notice the presence of the police. The mink killed the fowl by giving them one blow each in the neck and then sucked the blood.

PRICE OF BURIAL SITES TOO HIGH

All cemetery sites offered to the Intermunicipal Cemetery Board are too high in price, it was made clear at the City Hali to-day after the Board had considered the purchase of a number of sites last night. The Board decided, however, to employ engineers to examine the soil of the sites offered so far.

Frank Adams appeared before the Board as a representative of Cadboro Bay land owners to protest against the establishment of a cemetery in that section. He was assured that his protest would receive careful consideration.

Will Not Raise Fees.—Trustee R. Brewn's proposal that fees at victoria College be raised from.

The public are always crying or or something new in theatre attract for something new in theatre attractions and when Manager Denham of the Royal Victoria Theatre booked Miss Louise Lovely, beautiful screen and stage star and her company for his playhouse, he was giving to the local public the very latest and best in theatrical entertainment. Never in theatrical history has such a novel combination of entertainment been organized. On the one hand it brings before the public in person a noted and beautiful screen luminary, and on the other, it shows the public that some screen stars can do something besides act before the motion picture camera.

some screen stars can do something besides act before the motion picture camera.

Miss Louise Lovely, star of hundreds of the biggest picture successes, brings with her an entertainment which has crowded box offices, throughout the South. She will present first a big headline vaudeville playlet, which she has starred in throughout the whole of Engiand. Australia and the continent. Miss Lovely played it in Orpheum vaudeville before she entered pictures as a star. It is entitled "Their Wedding Night" and is replete with smart lines and very interesting and unusual situations. In this act she is supported by Mr. Wilton Welch, the moted English actor.

Next Miss Lovely presents for the first time on any stage, her original production, "A Day at the Studio," in which she shows the inner workings of a motion picture studio.

As an added attraction Anita Stewart in her latest photoplay, "A Question of Honor" will also be shown. This picture stands not alone for the dramatic work of the star, but for her breath-taking daring in scenes that are not merely momentary in their thrills.

"gorgeously," say the girls who have seen the film.

"It's me for an old man's darling!" exclaimed one young thing as she came out of the theatre last evening. "When a girl marries she needn't make it exactly a case of May and December. But a man who is along at the late September or October period certainly makes a better protector than a kid boy just the same age as therefor."

DOMINION

Most motion picture directors have a difficult time getting a sufficient number of "extra" people to work in their pictures in this country, but in Spain it's different. The good citizens of Carmona, a little town near Seville, almost, ruined John S. Robertson's production of "The Spanish Jade," a Paramount picture at the Dominion Theatre all this week.

The Robertson company had been held up by rain and cloudy weather so much that it was necessary to shoot the "flesta" scenes on Sunday. The Mayor and city fathers of Carmona assured the director that the people of the town would furnish plenty of "atmosphere" for the picture, but Robertson wanted to play safe, so he brought two hundred extras from Seville.

On his arrival in Carmona Mr. Robertson found the entire market-place Jammed with what appeared to be the entire population of a city numbering some 25,000 persons. They were so densely packed in the little square that there wasn't even room to set up the camera, and Roy Overbaugh rescued his machine with difficulty and considered himself lucky to obtain some sort of "set-up" in the window of a private house.

Mr. Robertson had not reckoned with the possibilities of a Continental Sunday, when all the world and his wife and family are out to enjoy themselves. Also, having been for years in the moving picture business, he had failed to realize the intense interest caused by the debut of a moving picture camera in a community that had never seen such a thing before.

Louise Lovely (In Person)

Many comical and humorous turns were supplied by other members of the company. Adeline Rundle, as usual excelled herself in a comedy role, while Harry Leiand for the first time took up the role of a humorous janitor. Lily Dooley and Early Moore can always be relied upon to supply some funny turns and they were seen to advantage in the play. Vivian Moore assumed the role of Mrs. Deacon Battett, and carried her character of a motherly woman in an admirable manner. A musical selection was given during the performance by Lily Dooley. A splendid rusical programme was also rendered by Bantley's orchestra.

Motion pictures have many dangers, some of which the actors themselves realize and guard against, others which are so unexpected as to baffle caution. And the best directors in the world can't always make the "props" behave properly. Work on "A Homespun Vamp," at the Variety this week, was very nearly postponed indefinitely when Darrel Foss, the leading man, one day had the celluloid bit of a property pipe furnished him for a certain scene catch on fire, while he had it in his mouth.

Know How Necessary it is to Keep the Blood Rich and Pure.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that fellows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood. The case of Missg Jessie MacNeill, Dominion No. 1, N.S. shows the value of Dr. Williams' Pink Pills in building up the blood in cases of anaemia, Miss MacNeill says: "For nearly two years I was a weak sickly girl. Sometimes I would be confined to bed for a week or more at a time. I had no appetite, was very pale and if I walked quickly across the room my heart would flutter terribly. The least work would leave me utterly tired out. I had tried several medicines but they did not do me any good, and I was much discouraged. Then I read in a local paper of Dr. Williams' Pink Pills and decided to try them. After taking a few boxes I felt a lot better, continued their use for several months. The result is that I am feeling fine; have a good appetite and can work without feeling tired and depressed. In view of my experience I think Dr. Williams' Pink Pills a safe medicine to recommend to all weak girls."

"Gains 10 Pounds" "I have taken only 1% packages of IRONIZED YEAST, yet have gained 10 pounds in 15 days." —Rev. L.W.V.

"Pimples Disappeared"
"My pimples and blackheads have disappeared, and my appetite has improved wonderfully."
—Miss D. B.

Ironized Yeast Can Help You, Too If you need more flesh—if you are pale, lacking in energy—or if your complexion is blemished by humiliating skin eraptions—try IRONIZED YEAST at once. Very likely you will be actually astonished at the improvement shown in you even after the first 48 hours. For IRONIZED YEAST embodies a remarkable new scientific process—a process which enables yeast to bring its splendid results often in just half the usual time!

How New Process Makes Yeast
Doubly Effective

The reason plain yeast or ordinary "vitamine tablets" fail to produce 100% results is because most run-down people cannot fully assimilate the wonderful health-building elements found in yeast. Some other agent, it is found, is necessary in order to quickly convert these vital substances into rich red blood, strength and energy.

Iron, Science says, is of great value in converting the food we eat into living cells and tissue. So working on this process, Scientists finally discovered the amazing process of ironization. It is this process which helps us to derive from yeast all of the wonderful benefits it holds.

The Only Yeast That Is Genuinely Ironized

Bear in mind that not all combinations of yeast and iron will bring desired results. Yeast brings best and quickest results only when treated through the process of ironization. And this process is embodied only in IRONIZED YEAST, the one scientifically Money Back Guarantee

Nehf's Twirling Too Good for St. Louis Hard Hitters; Yanks Lose Out

New York, May 11.—Art Nehf's effective pitching and timely batting proved too much for St. Louis yesterday and the Giants have increased their lead to five and a half games by taking the second game from the Cardinals 3 to 2. Nehf knocked in all of New York's runs.

Roger Hornsby connected for his fifth home run of the season.

Charley Robertson, of no-hit fame, outpitched Carl Mays in a tight 11-inning struggle and the White Sox won from the Yankees 2 to 1. New York however, retained its stim margin over St. Louis at the top when Walter Johnson twirled Washington to a 2 to 1 victory over the Browns.

Four Pitchers Win For Mack.

Connie Mack used four pitchers to top Cleveland 7 to 6, Dyke's fourth omer of the season bringing in the inning runs, while Detroit made it rree in a row from Boston in a bat-ing bee. Dauss, who came to the escue of Pillette, aided with a home

Alexander was batted out of the hox again and Philadelphia, with Meadows in airtight form, blanked Chicago 4 to 0, while the Braves batted their way to a 9 to 3 triumph over Cincinnati, holding their opponents safe at all stages.

Victoria's Representatives in Final Game for Football Championship of British Columbia to Be Played in Vancouver on Saturday Afternoon

Arrangements have been made to stage the deciding game for the provincial championship in Vancouver. The Mets, while they do not think they have been given a square deal in regard to the choosing of the place for the game, are going to make a strong bid for the title, and will take their best team across the Gulf. The Mets feel that the British Columbia Football Association acted unfairly inasmuch as the final last year was staged in Vancouver, the Mets making the trip there. The Mets are in good shape and expect to be fast enough to defeat St. Andrew's, Vancouver champions.

Those in the above picture, reading from left to right, are as follows: Standing: "Cotton" Brynjolfson, centre-half; W. Hook, trainer; Charlie Brown, reserve; George Wale, right-half; Len McKenzie, left-half; Gordon Leeming, goal; Angie McInnes, forward; C. Church, full-back; Everett Taylor, full-back; Ed. Christopher, mascot.

Seated—J. Fairall, outside right; "Spud" Merifield, inside right; "Smiler" Petticrew, centre forward; John Cummings, inside left, and Elliott Totty, outside left.

The flying times for the first Jacks' Cup will again be up for comto stage their annual road race on

or twenty athletes will face the starter. The five-mile race is not much of
a grind, and is quite a favorite distance. There are a great-many athietes in town who are in the pink of
condition at present, and this event
would give them a test and prove
just exactly what they are capable of.
The Bays expect to have quite an
entry list. Their oarsmen are getting
into shape and intend to do a little
jog as part of their training.

Keeping It Alive.

Coving to the lack of track and field meet in this city there is not much opportunity for distance runners to get into competition. The G. W. V. A. and J. B. A. A. are doing their bit to get an elle and a quarter, from a field of thirteen. W. Raphael's chestnut coit Bobanob, by Lomond-Bobbin, finished second, three lengths behind the winner. Lord Howard de Walden's brown coit, Captain Fracasse, by Tracery-Sauce Hollandaise, finished in third place, beaten by half a length.

Pondoland went to the post a favorité quoted at evens, while Bobanob and Captain Fracasse were both quoted at 100 to Tagainst. The value of the stakes is 1,000 sovereigns.

Victory Alters Betting.

London, May 11.—Following Pondoland's victory at Newmarket yesterday, interest in this coit as a possible Derby winner was greatly stimulated, and the betting odds were considerably revised. Odds of 11 to 2 against Pondoland's Derby chances were taken to a small amount, and subsequently 6 to 1 was offered and taken, leaving 11 to 2 the best offer.

and awkward as George Cook, who Carpentier dropped in four rounds in January. He is shifty and fast and if he can keep out of the way of Carpentier's smashing right the bout should go along for awhile. But should Georges let fly once with that right, the one which nearly put Dempsey on the canvas, and find Lewis's jaw, the referee can get ready to start counting.

It is a question as to whether Lewis has the punch to put the Frenchman away. He has a tidy wallop and Georges will have to keep a watchful eye on the welterweight terror.

Spencer's Broad Street and **Garrison Returned Winners** in First Matches

Broad Street triumphed over St. Aidan's School in the second innings. St. Aidan's first innings gave them four runs to the good but in the second Broad Street came through with a hard-hitting finish and got the necessary runs to win with only two minutes of time left.

Weiler's opened their season against the Garrison and went under with the score doubled against them. Knapman ran up 28 for Weiler's before being dismissed but the rest of the side could do-little against the Garrison bowling. The Tommies hit freely at everything and soon ran their score over the century.

Strawberries Arrive; Potatoes **Secure Reduction** Florin strawberries have reached

Florin strawberries have reached the Pacific Northwest and will greatly add to the general supply of these early berries which are finding favor on the market. Seattle were recipients of this fruit, and distributed them to Vancouver and Victoria. Consignments of green stuff were also brought in from the south and introduced along the row. A feature in the variations at the wholesale houses this merning we's that given by potatoes which dropped a dollar under the old figure. Netted Gems, which were among the lot to fluctuate, were meted out in advance. The incline registered was two dollars. Reports from Vancouver indicate that lettuce leaf growers of this city are winning favor of jobbers along. Water Street. Their produce is in much demand and is 1 popular vegetable along the row

of this city are winning favor of Jobbers along Water Street. Their produce is in much demand and is r popular vegetable along the row being quoted at \$1 and \$1.25\$. Their product is competing favorably with the imported products.

That the fruit season is backward is the word received from Vernon which is a centre for a large fruit area. Weather conditions have set the date to two or three weeks later than usual in this district, and this generally indicates a small crop. Vancouver and Guif Islands will also be set back considerably by bad weather. Cold weather is still prevalent in the Okanagan district and fruit trees are moving slowly. The first apricot trees were in bloom in the Vernon district on May 1. In the Summerland district conditions were good toward the end of April, but a cold spell set in, and the scason is now three weeks behind 1.st year. Grand Forks has been delay, do by slightly bad weather but a sudden rush of Spring has made vegetation as far advanced as it was last year. Very few changes were registered on the wholesale market today, the prices having been revised as follows:

An Honest Return THERE is a limit in the return upon investments beyond which the investor passes from security to speculation, and with speculation comes hazard—the risk of losing principal for the chance of larger interest, savings which you have accumulated through hard work may be made to earn a fair and honest income. You can avoid the element of danger if you place your funds through a reputable house which takes no chances, either for itself or its clients.

Three British Papers Discuss Cattle Embargo

Say British Cabinet Guilty of Dishonesty

London, May 11. — (Canadian Press Cable)—The agricultural members of the House of Commons, by a vote of 53 to 7, passed a resolution last night against the Government making any change in the present making any change in the present against Canadian cattle.

The Daily Mail and The Daily Express have editorials to-day and are joined by The Manchester Guardian along a similar line, declaring that the attitude of Right Hon. Austen Chamberlain, Government Leader in the House, yesterday with reference to the embargo question was typical of the dishonesty with which the Government had handled the matter. They take the ground while it may be a small affair to this country, it is a legitimate cause of grievance in Canada. They assert that it is not surprising that Canadians should be puzzled and hurt by the Government's evasions, instead of the square dealing they had a right to expect.

ing they had a right to expect.

Unworthy Device.

To retain the sanitary regulations of the Diseases of Animals Act, for which there is now no need and which the British Government is pledged to repeal, as a mask for a protective measure that dare not be advanced as such, these papers declare. is a shifty and unworthy

declare, is a shifty and unworthy device on which Canada has every right to complain.

The Canadian Press understands that there is little chance of the debate in the House of Commons on the cattle embargo question taking place for several weeks yet.

JOHNSON STREET

BRIDGE

Owing to it now being estimated that an additional amount of \$110.00.00 will be required for the Johnson Street Bridge, a by-law to provide the funds is being placed before the ratepayers upon Friday, the 12th instant.

In the opinion of the City Councity, and the City, under the Johnson Street Belgy, 1920, undersook to construct the bridge as set out in the agreements with the British Columbia Government and the Canadian Pacific Railway; all risks of increased constructional costs, etc., to fail upon the city.

Delay in continuing the work will undoubtedly only result in legal and other additional expenses, and the lity finally being compelled through legal action to proceed and complete the work at costs correspondingly increased.

Notwithstanding the fact that upon the City Council there are several members who strongly opposed the Johnson Street Bridge By-law of January; 1920, and who equally strongly still consider the bargain a very bad one for the cityens of Victoria, yet these members are unable to see any escape from the obligations entered into, and are of opinion that in all probability, result in further costs and expenses being incurred by the City Change of the complone that in the interest of the opinion that in the interest of

probability, recuired by the and expenses being incurred by the City.

The Mayor and Aldermen are of the opinion that, in the interest of the ratepayers, the present By-law should be approved and passed by the ratepayers upon the 12th inst., and such is the unanimous recommendation of the members of the City Council.

COWICHAN WOMEN'S

Discussed Business and Heard

Address on Music (Times Correspondence). Duncan;—At the monthly meeting of the Cowichan Women's Institute this week, Mrs. F. S. Leather, president, in the chair, Mrs. Henderson, chairman of the Advisory Board, gave a report touching on Provincial Federation and Advisory Board members' visits to Institutes. The Advisory Board recommended that all resolutions coming before conferences be first submitted to the Advisory Board member, and upon approval be sent to the Department for circulation to the Institutes.

The Institute sending a resolution must be prepared to furnish full information on the subject and provide a speaker, if necessary.

Mrs. Henderson also said that the

a speaker, if necessary.

Mrs. Henderson also said that the Advisory Board endorsed the plan submitted by the Local Council of Women to co-operate in raising funds for the purpose of making a thorough survey to determine the number of mentally defective children in a given district in the Province.

Province.

Mrs. Henderson also spoke on Legislation, and quoted Helen Norris's article in the Agricultural Journal for March on "Equal Guardianship of Children" and the Mar-

dianship of Children" and the Marriage Act.

Mrs. Brookes, convener of the Parent-Teachers' Association, sent in a report to the effect that the teachers in the Duncan Consolidated School were all in favor of it, and had appointed Mrs. Morten as their representative, it was thought too late to call a formal meeting now to elect officers, etc., but they advised leaving that until the beginning of the next school year.

The Institute decided to do all it could to further this object.

Music.

The Institute decided to do all it could to further this object.

Music.

Mrs. T. S. Ruffell then gave an excellent paper on "The Importance of Music." The first quoted Herbert Spencer, who said "A knowledge of music is often of the greatest pracifical service, as, by virtue of it, its possessor is valuable to his associates, to say nothing of his having a constant source of pleasure and a means of recreation which is most precious as a relief from the cares of life."

The success of education," the speaker continued. "is not determined by what they do and what they are."

She indicated the relationship between music and letters, saying one of the greatest assistants to literary appreciation was-a well trained earnone that could hear the music and thythm of the words and the sequence of sounds.

Arthur Somerwell, one of the most accomplished musicians, choir masters and organists of recent years, had said: "This is a point which cannot be too strongly urged upon parents and teachers, for experience shows that in teaching music, and singing more especially, the younger a child is (within reason) when he begins to learn sight reading (singing the younger and a singing more especially, the younger a child is (within reason) when he begins to learn sight reading (singing the worne easily will he master the subject. Many parents are now beginning to see the folly of allowing the younger generation to grow up ignorant of a subject so easily taught in childhood, and are asking that this state of things, at least as regards their own children, shall cease to exist."

"Can the public school furnish the beginns to learn sight reading: "The speaker are hard at work to make the joint event an outstanding success."

Public To Visit Dr. Thomas statistics show 80.14 per cent. of the children that the authorities say is much better than the authorities say is much better than the suborties and hity something the refound with parties. This is much better than the authorities and lire teeth, and hirregularities needing attention

grade being carefully outlined to each student by a musical instructor, while a selection of suitable songs and games for the junior grades is also given. Few teachers use this part of their training, however, because singing has been looked upon by so many as unnecessary to education and consequently a waste of time."

In music training, she said, mental or intellectual development was gained by the study of rhythm, and in the mental effect of notes and words, while the subtle development of character came from the familiarity with good music.

A hearty vote of thanks was accorded to Mrs. Ruffle and then Elleen Johnson and Margaret Talbot, two dear little tots of about six years old, sang most sweetly, "Round the Clock."

Miss Hazel Castley gave two niese.

Miss Hazel Castley gave two piano forte solos and Mrs. Wade sang it her usual charming manner. A de-licious tea was served by Mrs. Miller Mrs. Whidden, Mrs. Carbery and Mrs. R. S. Henderson.

AN ENTERTAINMENT

(Times Correspondence.)

Duncan—On May 25 the First
Cowichan Company of Girl Guides
will give an evening's entertainment
in the Duncan Opera House, under
the direction of their officers, Miss
Denny and Miss Georghegan. Suitable choruses and marbie statues
will represent Joan of Arc, Lord Nelson, Britannis, Queen Elizabeth,
John Peel, a Girl Guide, a cricketer,
a poacher and a Seotsman.

The Guides will present "Ali Baba
and the Forty Thieves," in three acts.

"Ali Baba" will be taken by Nora
Dwyer; "Amina," his wife, by Kathieen Townsend; "Cassim," his
brother, by Kathleen Dwyer; "Morgina,"
a slave girl, Elleen Dwyer; "Abduilah," a little boy, Molly Yates;
"Cogia Hassan," a robber chief,
Doreen Day; "About Fisticuffs," his
lieutenant, Clara Castley; and the
remaining girls of the company will
take the parts of robbers.

A short play by the Brownies,
"The Blue Bird of Happiness," will
be followed by a Brownie meeting
and scarf drill, Cooks' dance and
dressmakers' dance. Eunice Chaplin and Ida Lamont will take the
leading parts in the play.

DUNCAN SCHOOL

DENTAL SURVEY DISCLOSES FACTS Times Correspondence)

Times Correspondence)

Duncan—E. J. Thomas, D. D. S., of Victoria, has completed a survey of the teeth of the children under the Consolidated School Board. In four days 383 children were examined with the help of Nurses Edith Farrar and Eldora Bray, of the Cowichan District Health Centre.

Dr. Thomas's statistics show 80.14 per cent. of the children have defective teeth. This the authorities say is much better than the average on this continent. Forty-one children were found with perfect teeth, and thirty whose teeth were good; ten children urgently needed immediate attention for abscesses, and sixteen had irregularities needing attention. In all there were 312 defective teeth. Not the least value derived from the survey was the little talk Dr. Thomas gave each child who needed it upon what the child should do to improve matters.

The parents whose children need dental attention will, if they wish, engage their own dentist to have it done. Financial arrangements have been made by the Health Centre with the local dentists to take the children. Those whose parents cannot pay will have the work done in any case.

BASEBALL AND DANCE AT LADYSMITH

(Times Correspondence.)

Ladysmith — The United States coastguard cutter Bear being in port to take on a supply of coal previous to salling to the Bering Sea, her baseball team played an exhibition game with the local boys, the latter winning, 10-2. A dance was also given by the officers and crew of the ship, which was a credit to those in charge. Dancing was kept up until early morning. Those attending the dance expressed themselves as having had a very enjoyable time, and are looking forward to the ship's return in the Fall.

E. D. Comley has just completed the installation of a five-ton Fairbanks wagon scale for the purpose of weighing coal. This fills a long felt want in this locality, as here to fore all coal delivered was according to estimate, which was unsatisfactory. (Times Correspondence.)

Many of the boards will furnish special entertainment for visitors. The main purpose of the board participation, however, will be to afford delegates from outside of, the state the opportunity of knowing about the many wonders of California.

"Spend your yacation in California after the convention" is to be the slogan of California realtors, and every provision is being made to entertain a record number of post-convention parties.

A tally is now being made at convention headquarters on the prospective attendance of the convention and returns to date indicate that this will be the largest gathering of the National Association of Real Estate Boards that has ever been held west of the Rockies. From a small start at 6.30 p. m. yesterday evening the \$15,000 home of Mrs. McMartin, Cordova Bay, was razed to the ground- and is a total loss. Some insurance was carried, it is understood. The fire took slightly less than two hours to eat its way through the structure, a large two storey dwelling, from cellar to attic, leaving nothing but a few blackened bricks and two chimneys standing. Chief Brogan and the Saanich fire department did what could be accomplished, but absence of adequate water or equipment made the fight a hopeless task. In the gathering dusk the sight was impressive, with the sad majesty of a doomed edifice in the grip of tortuous fiames. Neighbors gathered, and were willing to lend a hand in carrying goods to safety, but little could be salvaged.

The origin of the fire is as yet a mystery. Chief Brogan, of the Saanich from what source the fire had its inception.
