**TORY**, *subs.* (old : long recognised).

—(1) Orig. (Irish)=a marauder : spec. a bandit (16th century) who, to cover lawlessness, took up arms for the King. Hence (2) a bully, a 'terror' ; and (3) a generic reproach : e.g., (a) a sympathiser with, disbeliever in, or supposed abettor of the Popish plot ; (b) one who refused to concur in the Exclusion Act confirming the succession to the throne to Protestants, a measure which was directly aimed at the Duke of York, afterwards James II. ; and (c), collectively, the Court as distinguished from the Country party, or WHIGS (*q.v.*). Subsequently TORY assumed its modern meaning : *i.e.*, one upholding the existing order of things in Church and State, as opposed to LIBERAL, *i.e.*, one who sought, by experimental legislation, to remedy admitted or supposed disabilities. About 1832 TORY began to be superseded by 'Conservative' ; indeed the march of time has now (1903) considerably modified the old TORY political ideas.

[?] BISHOP, *Marrow of Astrology*, 43. And now I must leave the orb of Jupiter, and drop down a little lower to the sphere of Mars, who is termed a TORY amongst the stars.

1680. [PINNOCK, *Goldsmith's Hist. Eng.* (1873), 252. The year 1680 is remarkable for the introduction of the well-known epithets Whig and TORY. The former was given to the popular party, from their pretended affinity to the fanatical conventiclers of Scotland, who were known by the name

of Whigs. The latter was given to the courtiers, from a supposed resemblance between them and the Popish banditti in Ireland, to whom the appellation of TORIES was affixed. Thus these two ridiculous words came into general use, and have continued ever since to mark rival parties, though with very different meanings.]

1849. MACAULAY, *Hist. Eng.*, ii. At this time were first heard two nicknames which, though originally given in insult, were soon assumed with pride. . . . It is a curious circumstance that one . . . was of Scotch, and the other of Irish, origin. Both in Scotland and in Ireland, misgovernment had called into existence bands

of desperate men, whose ferocity was heightened by religious enthusiasm. . . . Thus the appellation of Whig was fastened on the Presbyterian zealots of Scotland, and was transferred to those English politicians who showed a disposition to oppose the court, and to treat Protestant nonconformists with indulgence. The bogs of Ireland, at the same time, afforded a refuge to Popish outlaws, much resembling those who were afterwards known as Whiteboys. These men were then called TORIES. The name of TORV was therefore given to Englishmen who refused to concur in excluding a Roman Catholic prince from the throne.

At the beginning of the century gigs were raised upon higher wheels than at present. On this raised vehicle the boot was lengthened behind, holding a brace of dogs for sporting purposes. In these "dog-carts" (thus named afterwards) the dogs were at first placed in the boot at the front, and I dare say that the "noble sportsmen" may occasionally have had their heels or their calves bitten by dogs with short tempers, and with scant liking for the confinement of the boot. This led to a great improvement, in the shape of an open latticed box, which was attached to the back of the body of the conveyance, and provided with a trap-door behind for the admission of the dogs. In process of time the latticed box was found very convenient for the carriage of other things besides dogs, and as everything conveyed in the cart (chattels, not people) had to be put in through the trap-door (soon curtailed into TRAP: compare "bus" for omnibus, "cab" for cabriolet), the conveyance itself was eventually termed TRAP.] Hence TRAPPER = a horse used in a TRAP: cf. 1858. *Baltimore Sun*, 1 July. A hand-bill calling a meeting to form a VIGILANCE COMMITTEE to suppress certain secret movements among the coloured population, and to stop outrages on private property, Governor Wise addressed a letter to Mayor Mayo, adding that he would use force in prohibiting such meeting from being held on the Capitol square. 1858. *New York Tribune*, 30 Sep. A Protestant congregation was broken up and a part of its members marched on a Sunday from their place of worship to the town jail. Few people abroad, who had been trained from infancy to revere 'the majesty of the law,' and who had never seen any crime but what their own strong legal institutions and efficient police could detect and punish, could possibly conceive such a state of things as would justify the formation and independent action of an association which set itself above all formal law, and which openly administered summary justice, or what they called justice, in armed opposition and defiance to the regularly constituted tribunals of the country. Therefore, in other lands, it happened that the VIGILANCE COMMITTEE became often a term of

reproach, and people pointed to it as a sign that society in California was utterly and perhaps irredeemably impure and disorganised.

1883. TROLLOPE, *What I Remember*. The mention of a VULGUS requires some explanation. Every inferior, *i.e.* non-prefect, in the school was required every night to produce a copy of verses of from two to six lines on a given theme—four or six lines for the upper classes, two for the lowest. This was independent of a weekly verse task of greater length, and was called a VULGUS, I suppose, because everybody—the VULGUS—had to do it.

VUM. I VUM, *phr.* (American).—  
A mild expletive or oath, 'I vow':  
*cf.* SWAN.

1856. DOW, *Sermons*, III. 265. What though, instead of saying, 'I swear to God,' you say, 'I declare to goodness?' It is as much the same thing as a bobolink with a new coat of feathers. I VUM is just the same in spirit as I vow, and a 'diabolical falsehood' is synonymous with a devilish lie.

1901. *West. Gaz.*, 7 Feb. 9. 1. WAFRICANS. One thing beloved in the Stock Exchange is abbreviation; and another is nickname. I have heard *ooahl*, *wahl*, *ahl*, *wäl*, and something nearly approaching the sound of *le* in *able*. Sometimes before "I" it dwindles to a mere *l*; as, "I dunno." A friend told me that he once heard five "WELLS," like pioneers, precede the answer to an inquiry about the price of land. The first was the ordinary *wul*, in deference to custom; the second, the long, perpending *ooahl*, with a falling inflection of the voice; the third, the same, but with the voice rising, as if in despair of a conclusion, into a plaintive, nasal whine; the fourth, *wulh*, ending in the aspirate of a sigh; and then, fifth, came a short, sharp *wal*, showing that a conclusion had been reached.']

WHEW, *subs.* (old).—Influenza, the FLUE (*q v.*): see quot.

1420. [SIR H. MAXWELL, *Notes and Queries*, 10 Dec. 1901.] It is well known that the influenza is not an exclusively modern complaint, but I am not sure whether a curious reference to it by Bower, the continuator of Fordun's chronicle, has been noted. Writing of the year 1420 he says that among those who died in Scotland were Sir Henry St. Clair, Earl of Orkney, Sir James Douglas of Dalkeith, Sir William de Abernethy, Sir William de St. Clair, Sir William Cockburn, and many others, all by 'that infirmity whereby not only great men, but innumerable quantity of the commonalty perished, which was vulgarly termed le QUHEW.' Now 'quh' in Scottish texts usually represents the sound of 'wh' (properly aspirated); therefore it seems that in the fifteenth century the influenza was known as 'the WHEW,' just as it is known in the twentieth century as 'the Flue.' There seems little doubt that the disease was identical with that with which we are so grievously familiar.

**WHIG**, *subs.* (old : long recognised). —1. Orig. (middle 17th century) a Presbyterian zealot, a conventicler : in contempt. Whence (2) the Country party (the successors of the Roundheads of the Civil War) as opposed to the Court party or **TORIES** (*q.v.*) of the Restoration. Both **WHIG** and **Tory** were first applied, about 1680, in contempt, and both were ultimately assumed with pride. The **WHIGS** favoured the Revolution of 1688–9, and were in power during a large portion of the eighteenth century. The **Whigs** may be regarded as the party of experimental progress. The curious similarity in the historical development of both **WHIG** and **Tory** is further accentuated by the fact that at the same time (Reform Bill, 1832) as the term 'Tory' began to be superseded by 'Conservative,' so likewise the **WHIGS** began to be called **Liberals**. Also **WHIGLAND** = Scotland (B. E.); the **WHIG COLLEGE** = the Reform Club; **WHIGGISH** (*see* quot. 1696), and the usual derivatives and combinations.

1680. [PINNOCK, *Goldsmith's Hist. Eng.* (1873), 252. The year 1680 is remarkable for the introduction of the well-known epithets **WHIG** and **Tory**. The former was given to the popular party, from their pretended affinity to the fanatical conventiclers of Scotland, who were known by the name of **WHIGS**. The latter was given to the courtiers, from a supposed resemblance between them and the Popish banditti in Ireland, to whom the appellation of **Tories** was affixed. Thus these two ridiculous words came into general use, and have continued ever since to mark rival parties, though with very different meanings.]

d. 1715. BURNET, *Own Times*, 1. The south-west counties of Scotland have seldom corn enough to serve them all the year round, and the northern parts producing more than they used, those in the west went in summer to buy at Leith the stores that came from the north. From the word **WHIGGAM**, used in driving their horses, all that drove were called the **WHIGGAMORS**, contracted into **WHIGS**. Now in the year before the news came down of duke Hamilton's defeat, the ministers animated their people to rise and march to Edinburgh; and they came up, marching on the head of their parishes, with an unheard-of fury, praying and preaching all the way as the came. The marquis of Argyle and his party came and headed them, they being about 6000. This was called the 'Whiggamors' Inroad'; and ever after that all who opposed the court came in contempt to be called **WHIGS**.

1849. MACAULAY, *Hist. Eng.*, ii. At this time were first heard two nick-names which, though originally given in insult, were soon assumed with pride. . . . It is a curious circumstance that one . . . was of Scotch, and the other of Irish, origin. Both in Scotland and in Ireland, misgovernment had called into existence bands of desperate men, whose ferocity was heightened by religious enthusiasm. . . . Thus the appellation of WHIG was fastened on the Presbyterian zealots of Scotland, and was transferred to those English politicians who showed a disposition to oppose the court, and to treat Protestant nonconformists with indulgence. The bogs of Ireland, at the same time, afforded a refuge to Popish Outlaws, much resembling those who were afterwards known as Whiteboys. These men were then called Tories. The name of Tory was therefore given to Englishmen who refused to concur in excluding a Roman Catholic prince from the throne.

3. (American).—During the war of the American Revolution, the terms WHIG and Tory were applied,—the former to those who supported the Revolutionary movement, the latter to the royalists, or those who adhered to the British government (BARTLETT).

1871. DE VERE, *Americanisms*, 648. WHIPPING THE CAT: an old English phrase, used only by tailors and carpenters, has maintained its existence in New England, Pennsylvania, and a few other States, where it denotes the annual visit of a tailor to repair the clothes of a household. It is said to have originated in a very rough practical joke, which bears the same name in Hampshire, England, and of which, it is surmised, the tailor may have been the victim (J. R. Lowell). The simple tailors of former days liked thus to go from house to house in the rural districts, providing the families with clothing. The chief romance for the happy 'Schneider' was in the abundant and wholesome cheer of the farmer who employed him, and as his annual visits fell in the pudding and sausage season, he was usually crammed with that kind of 'vegetables,' as he facetiously called them, to his heart's content. The only objection made to CATWHIPPING, was that it afforded no opportunity to 'cabbage,' and in former days this was a serious grievance. The introduction of large manufacturing establishments, low-priced ready-made clothing, and the advent of the sewing-machine, have now nearly made an end to this itinerant occupation. The terms CATWHIPPER and CATWHIPPING were often facetiously, and sometimes very irreverently, applied to other itinerant professions: even 'Schoolmasters'—there were no 'teachers,' much less 'educators,' in those benighted days—were called CATWHIPPERS, when they boarded, as was

quite usual, in turns with the parents of their scholars. Itinerating preachers also were, by the initiated, included in this category.

1888. *St. James's Gazette*, 2 May. Mr. Hugh Haliburton dilates upon the custom of 'WHIPPING THE CAT'—i.e. working for people at their houses, as was once the wont of Scottish tailors. A minister who fills another's pulpit (for a consideration) is equally said to 'flog pouss.'
