GIANT DARWIN TULIPS

For stately habit, large size and richness of color the Darwin Tulips are really marvelous in every way. Their great popularity is due entirely to their many merits. They are the keynote in the May garden, they dominate the display and give a wealth of beautiful colors no other material blooming at that time can provide.

GENERAL CULTURAL DIRECTIONS FOR ALL TULIPS

Tulips should not be grown in soil in which they have been grown the last two seasons. Select a new location. Do not use fresh manure at planting time; well-rotted manure or bone meal may be used. Plant bulbs 5 to 6 in. deep and 6 in. apart.

3020—BARTIGON—Rich crimson-scarlet which becomes brighter at the margin. White base with rich blue halo.

3021 — BLEU AIMABLE—Bright orchid-purple shaded steel blue; inside dark violet-purple, blue base.

3022—CITY OF HAARLEM—Very large, brilliant vermilion-scarlet with a satiny sheen. Dark blue base.

3023—CLARA BUTT — Clear bright pink-tinted salmon-rose; base white marked blue. A favorite pink, and one that is always lovely in the garden and prized for cutting.

3024—INGLESCOMBE YELLOW — This is called the "Yellow Darwin," though it is a May-Flowering Cottage variety. It always has been a great favorite for the brilliance of its rich yellow color. Cannot be dispensed with in the spring garden where its color is so enlivening. 22 inches.

3025 — PROFESSOR RAUWENHOF — Bright cherry-rose; inside glistening salmon-scarlet. Blue-starred white base. 28 in.

3026—SEAFOAM—Pure White, Black Anthers.

Our everyday low price on all named Darwin tulips 40c dozen, 50 for \$1.50, 100 for \$2.90—all one variety or assorted varieties.

Mixed Darwin Tulips

Our special mixture contains the right proportion of the different colors when planted in a bed to secure the interesting effect of a rare oriental rug. At our low price you can now afford a large bed of these lovely flowers.

No. 3027—1 dozen 30c, 50 for \$1.25, 100 for \$2.39.

KEIZERSKROOM—called the most beautiful early tulip. Vivid crimson-scarlet edged with a broad golden yellow band. Large flowers on long, strong stems. A favorite for bedding or late forcing.

No. 3028—50c Dozen, 50 for \$2.00.

Narcissus or Daffodils

Narcissus bloom early, last a long time and may be had in so many lovely varied forms, they have few equals as garden flowers. They are most desirable for any garden purpose—in masses, in beds or borders, in groups of 12 or more here and there in the hardy perennial border or in the foreground of shrubbery. For naturalizing in large quantities, no other flower is more suitable. Narcissus are also ideal, easily grown subjects for winter blooming in the house.

In description we refer to the trumpet and perianth: the trumpet is the funnel-like center, the perianth the surrounding row of petals.

For the most satisfactory results, plant Narcissus Bulbs outdoors as early in the fall as possible; if planted too late, they may not produce good flowers in the spring. Plant bulbs 4 to 8 in. deep and 6 to 10 in. apart according to their size.

VAN WAVEREN'S GIANT—One of the best of all Narcissus. The flowers are indeed huge yet they are artistic in form and well proportioned. Gracefully posed upon a stiff strong stem is a magnificent flower with a broad soft primrose perianth that forms a splendid background to the light yellow trumpet which flares widely at the mouth.

No. 3040—15c Each, 2 for 25c.

Mrs. Krelage. What a glorious and exquisite flower with a charm that attracts and holds the admiration of everyone. The long-stemmed blooms are equally fine for garden display, for cutting, and the variety may be forced gently. Has a pure white perianth and a lovely creamy white trumpet with a graceful curled brim which turns white as the flowers reach their prime.

No. 3041—15c each.

A GLORIOUS MIXTURE OF DOUBLE TULIPS

We suggest to every gardener to make a liberal planting of these beautiful double Tulips placing them in groups of six, a dozen, or more in the perennial border or in the foreground of shrubbery. Their glorious display will be a delight and pleasure to everyone next spring.

No. 2029—45c dozen, 50 for \$1.75.

Empress. A fitting companion to Emperor and of a strong, robust growth. The fine large perianth is now white contrasting well with the rich yellow trumpet which is attractively serrated and flanged at the edges.

No. 3042—8c each, 2 for 15c.

KING ALFRED—This truly wonderful Daffodil is considered the best and finest deep golden yellow trumpet variety in existence. It is a tall, strong grower carrying its huge, well formed flowers atop a strong stout stem. The entire flower is a uniform rich golden yellow of great appeal. Has well shaped perianth petals and a magnificently frilled trumpet.

No. 3043—Large Bulbs 10c each.

Olympia. This remarkably fine Daffodil resembles Emperor in graceful form but the blooms are very much larger, richer, deeper and a more striking golden yellow color. It is a wonderful grower with the fine broad blue-green foliage and stout stems that give good stature to the majestic and aristocratic flowers.

No. 3044—10c each.

CANDIDUM—Madonna Lily

Pure white flowers on stately stems 3 to 4 feet tall. Blooms during May and June. We offer reliable stock of this splendid variety which can be depended upon to give the best results in the garden or when grown indoors. Cover the bulbs 2 inches deep and in a well prepared lime-free soil and a sunny location. (September delivery). Large bulbs.

No. 3050—15c each, 3 for 40c.
